INDEPENDENT AUDITOR'S REPORT

Troy City School District
Miami County
500 North Market Street
Troy, Ohio 45373

To the Board of Education:

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Troy City School District, Miami County, Ohio (the School District), as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Troy City School District, Miami County, Ohio as of June 30, 2025, and the respective changes in financial position and, where applicable, cash flows thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 20 to the financial statements, during 2025, the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences* and the School District made a prior period error correction. Our opinion is not modified with respect to these matters.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, required budgetary comparison schedule, schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 18, 2026, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025
(Unaudited)

The discussion and analysis of the Troy City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2025. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2025 are as follows:

Overall:

- Total net position increased by \$10.7 million, which represents an 26.2 percent increase from the restated beginning of the fiscal year due primarily to the increase in pooled cash and investments and property taxes receivable reported for the current fiscal year.
- Total assets of governmental activities increased by \$27.4 million due mainly to the \$27.7 million increase in pooled cash and investments associated with the school facilities construction project. The School District issued \$23.0 million in certificates of participation during the year to finance the acquisition and construction of various capital projects at the high school.
- General revenues accounted for \$71.1 million or 85.9 percent of total revenue. Program specific revenues in the form of charges for services, and operating grants and contributions accounted for \$11.7 million or 14.1 percent of total revenues of \$82.8 million.
- Of the School District's \$72.1 million in expenses, approximately \$11.7 million was offset by program specific charges for services, grants or contributions. General revenues (primarily grants and entitlements, income taxes and property taxes) were used to cover the remaining \$60.4 million of net expense reported for fiscal year 2025.
- The General Fund is the primary operating fund of the School District. For the year, the General Fund's balance decreased by \$0.3 million from the prior year and the \$19.4 million unassigned General Fund balance represented 31.8 percent of the total expenditures of the fund for the year.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Troy City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregated view of the School District's finances and a longer-term view of those statements. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other non-major funds presented in total in one column. In the case of Troy City School District, the major funds are the general fund, bond retirement fund, the building construction fund, and the OFCC construction project fund.

(Unaudited)

Reporting the School District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains a large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2025?" The Statement of Net Position and the Statement of Activities answers this question. These statements include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources; and use the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in that position. The change in net position is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities. The School District does not have any business-type activities.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds, and therefore only "major" funds are presented separate from the other governmental funds. The School District had four major funds for the fiscal year: 1) the General Fund, 2) the Bond Retirement Fund, 3) the Building Construction Fund and 4) the OFCC Construction Project Fund.

Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Restricted	65,176,307	64,566,770
Unrestricted	<u>(28,970,601)</u>	<u>(32,275,895)</u>
Total Net Position	<u>\$ 51,468,283</u>	<u>40,793,374</u>

The net pension liability (NPL) is the largest single liability reported by the School District, beyond the general obligation bonds, at June 30, 2025 and is reported pursuant to GASB 68, "Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement 27". Another significant liability for the School District is net other postemployment benefits (OPEB) liability, reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the School District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability and the net OPEB liability to the reported net position and subtracting the net OPEB asset and the deferred outflows related to pension and OPEB.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025
(Unaudited)

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's net pension liability or OPEB liability. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 required the net pension liability and the net OPEB asset and liability to equal the School District's proportionate share of each plan's collective:

1. Present value of estimated future pension and OPEB benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits but does not require the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement systems. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plans against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension systems are responsible for the administration of each plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event the contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025
(Unaudited)

In accordance with GASB 68 and GASB 75, the School District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB asset and liability, respectively, not accounted for as deferred inflows/outflows.

The amount by which the School District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources is called net position. As of June 30, 2025, the net position of the School District was \$51.5 million, an increase of \$10.7 million from the prior year restated net position of \$40.8 million. If the components of recording the net pension and OPEB assets/liabilities are removed from the Statement of Net Position, the School District's ending net position would be approximately \$94.9 million. We feel this is important to mention as the management of the School District has no control over the management of the State-wide pension or OPEB plans or the benefits offered; both of which control the net pension and OPEB assets/liabilities amounts which have a significant effect on the School District's financial statements.

Net position invested in net capital assets reported at the end of fiscal year 2025 increased over the prior year as the School District began the school facilities construction project and continued to make scheduled debt service payments. The portion subject to external restrictions upon its use (\$65.2 million) reported at June 30, 2025 was a 0.94 percent increase. The remaining deficit of net position of \$29.0 million is reported as unrestricted. As the effect of recognizing the net pension and OPEB liabilities are closed through unrestricted net position, the decrease in unrestricted net position deficit for the fiscal year was expected due to the changes reported by the State-wide retirement systems.

Total assets reported at June 30, 2025 increased by \$27.4 million from those reported at the beginning of the year. The largest increase reported related to pooled cash and investments (\$27.7 million) which was the result of School District issuing certificates of participation during the year and the associated premiums received as a result of that issuance. While the cash was received during fiscal year 2025 and construction was started, significant construction will continue into fiscal year 2026. Net capital assets also increased as result of construction in progress.

Total liabilities increased by \$15.6 million during the fiscal year to account for the issuance of certificates of participation and the associated premium during the year. Other significant changes are associated with recording the School District's proportionate share of the net pension and OPEB liabilities associated with the State-wide pension systems. The pension and OPEB liabilities decreased by \$5.8 million as a result of investment earnings that were better than projected, as well as other benefit changes and differences in actuarial estimates reported by the State-wide retirement systems. This is a significant change from the prior year and the impact of incorporating these items into the School District's finances cannot be overstated.

Amounts reported as deferred outflows and inflows of resources are driven by the annual pension and OPEB data provided by the State-wide retirement systems concerning investment earnings results compared to anticipated returns, as well as any changes in assumptions and benefits used in the actuarial study performed for the measurement year. As can be expected, the reported amounts can vary widely from one year to the next.

<i>Beginning Net Position</i>	40,793,374	(13,500,170)
Implement GASB Statement No. 101	<u>-</u>	<u>(133,986)</u>
<i>Ending Net Position</i>	<u>\$ 51,468,283</u>	<u>40,793,374</u>

As shown in Table 2, \$71.1 million, or 85.9 percent, of the School District's total revenue is derived from general revenues, essentially property and income taxes as well as state entitlement programs. Overall, total revenue decreased by approximately \$35.5 million, or 30.0 percent, compared with fiscal year 2024 amounts. Property tax revenue increased \$5.4 million due to increases in property values and additional tax levies approved by the voters in 2024. Furthermore, as the School District is at the 20 mill floor for millage, it realizes more revenue due to increase property values as the millage will not go below that 20 mill floor. Investment earnings continued to increase significantly as the School District had additional funds to invest as well as high interest earning vehicles in which to invest the cash. Grants and entitlements decreased significantly due to an error correction resulting in a restatement of the fiscal year 2024 revenue to recognized the State's portion of the entire OFCC grant as revenue in fiscal year 2024.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025
(Unaudited)

Program revenues, charges for services and operating grants, remained relatively stable over the past year.

Total expenses of the School District increased by \$8.3 million, or 12.9 percent, compared to those reported for fiscal year 2024. While some increased expenses were expected, such as increased personnel costs (wage increases and benefits), the primary driver of the additional expenses reported for the current year over those of the prior year related to the School District's various debt obligations. Interest and fiscal charges increased by \$3.6 million as repayment began for bonds issued in the previous fiscal year.

TABLE 3
TOTAL AND NET COST OF PROGRAM SERVICES
FOR THE FISCAL YEAR ENDED JUNE 30,

	2025		2024	
	Total Cost of Service	Net Cost of Service	Total Cost of Service	Net Cost of Service

Table 3 above shows the net cost of service reported for fiscal year 2025 compared with those reported for fiscal year 2024. Some of the School District's activities are financed through user charges, tuition and fees, and/or specific grants or contributions. These revenue sources are defined as program revenues, and the statement of activities shows these revenues in conjunction with the expenses of the School District to present the net cost of each function reported by the School District; that is, it identifies the cost of these services supported by tax revenue and unrestricted state entitlements.

In fiscal year 2025, 83.8 percent of the School District's expenses were financed through property taxes, income taxes and state foundation revenues (general revenues). In fiscal year 2025, the School District had program revenues totaling \$11.7 million, which was \$1.2 million less than the amount reported for the prior fiscal year as the COVID-19 related programs have begun to wind-down over the past few years.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025
(Unaudited)

The School District's Funds

On the modified accrual basis of accounting, the School District's four major governmental funds reported 94.1 percent of total fund balance reported by all funds, or \$144.2 million.

The School District's primary operating fund, the General Fund, ended the year with revenues under expenditures by \$0.3 million, as compared to the \$2.6 million increase in fund balance reported one year ago. While the nature and amount of the revenues and expenditures reported for fiscal year 2025 are consistent with those of the prior year, cost of living increases, the increased cost of providing health care benefits to personnel and general inflationary increases resulted in ongoing increases in operating costs. Additionally, the General Fund absorbed costs that were previously supported by pandemic-related grant funding. The unassigned ending fund balance of the General Fund, \$19.4 million, represents approximately 31.8 percent of the total expenditures reported in the General Fund for fiscal year 2025.

The other major funds of the School District all account for resources that will be used over the next several years to construct three new elementary schools as well as a middle school building and make improvements to the high school. The Bond Retirement Fund is used to collect property taxes and remit principal and interest payments when due on the school improvement bonds.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, original budgeted revenue, excluding other financing sources, was \$57.7 million compared with the final budgeted revenue of \$59.2 million, a 2.7 percent increase in budgeted revenue amounts during the year. Actual revenue for the year totaled \$59.2 million which mirrored the ending budgeted revenues. Continued increases in interest revenues and property taxes as previously discussed accounted for most of the increase in budgetary revenue from those anticipated in the original budget numbers.

Total actual expenditures on the budget basis (cash expenditures plus encumbrances), excluding other financing uses, were \$60.4 million, which is equal to the final budget and \$3.4 million more than those anticipated in the original budget. Additional costs were incurred within the operation and maintenance of plant functional area which could not have been anticipated at the beginning of the fiscal year.

As the budget for the General Fund is amended throughout the fiscal year for unanticipated revenues and expenditures, the final amended budget amounts approximate the actual budgetary results realized by the School District.

Capital Assets

At the end of fiscal year 2025, the School District had nearly \$28.0 million invested in land, construction in progress, buildings, improvements, furniture and equipment, and vehicles in governmental activities net of accumulated depreciation. Costs associated with repair and maintenance of the School District's facilities and other assets that do not extend the useful life of the capitalized item are included within the operation and maintenance of plant function.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2025
(Unaudited)

Table 4 shows fiscal year 2025 balances compared to 2024:

TABLE 4
CAPITAL ASSETS, JUNE 30

	<u>2025</u>	<u>2024</u>
Land	\$ 1,417,612	1,417,612
Buildings	11,398,033	11,916,045
Improvements	4,836,530	4,990,734
Furniture and Equipment	1,733,760	1,632,079
Vehicles	1,977,436	1,774,271
Construction in Progress	<u>6,607,188</u>	<u>462,892</u>
Total Net Capital Assets	\$ <u>27,970,559</u>	<u>22,193,633</u>

Overall, net capital assets increased by \$5.8 million compared to the fiscal year 2024 amount. The increase in capital assets resulted from current year additions being a larger amount than current year depreciation for the fiscal year.

During fiscal year 2025, \$7.5 million of items were capitalized and \$1.7 million of depreciation was charged to the associated functional areas. The most significant addition to capital assets during the current year was the increase in construction in progress as the School District began construction of the school facilities improvement projects. The School District also purchased various equipment and vehicles.

For more detailed disclosures regarding the School District's capital assets, readers should read Note 8 to the basic financial statements.

Long-Term Obligations

At June 30, 2025, the School District had total outstanding bonds and certificates of participation of approximately \$114.1 million, of which \$3.9 million is scheduled to mature in the next fiscal year. During the year, the School District issued \$23.0 million of certificates of participation, along with \$1.9 million of associated premiums. Those proceeds will be utilized to finance the acquisition and construction of various capital projects at the high school. At June 30, 2025, the School District's overall legal debt margin was \$6.2 million and the unvoted debt margin was \$1.0 million.

For more detailed disclosures regarding the School District's long-term obligations readers should refer to Note 13 to the basic financial statements.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information contact the Treasurer's Office at Troy City School District, 500 North Market Street, Troy, Ohio 45373 or call (937) 332-6700.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2025

Total Net Change in Fund Balances - Total Governmental Funds	\$ 26,533,756
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. These amounts for the current fiscal year are as follows:	
Capital Asset Additions	7,490,947
Current Year Depreciation	(1,714,021)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(5,847,159)
Repayment of bond principal is an expenditure and issuance of debt is recorded as source of resources in the governmental funds, however these transactions decrease or increase the liabilities reported in the statement of net position.	
Payment on general obligation bonds	6,228,964
Certificates of participation issued	(23,000,000)
In the statement of activities, premiums received associated with long-term debt issued during the year are accrued and amortized over the life of the debt obligation. In governmental funds these proceeds are reported as other financing sources.	(1,872,866)
Some expenses reported in the statement of activities, such as compensated absences and certain components of debt obligations, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	
Compensated absences	(1,085,914)
Accrued interest payable	(71,848)
Amortization of bond premium	219,817
Amortization of deferred charge on refunding	(88,981)
Amortization of deferred gain on refunding	45,696
The Internal Service fund used by management to charge the cost of providing medical insurance to the individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenue is eliminated. The net operating income (loss) of the internal service fund is allocated among the governmental activities.	(208,618)
Contractually required pension and OPEB contributions are reported as expenditures in governmental funds; however, the statement of activities reports these amounts as deferred outflows.	5,244,119
Except for amounts reported as deferred outflows and inflows, changes in the net pension and OPEB assets and liabilities are reported as expenses in the statement of activities.	<u>(1,198,983)</u>
Change in Net Position of Governmental Activities	\$ <u>10,674,909</u>

For the Fiscal Year Ended June 30, 2025

NOTE 1 – DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Troy City School District (the "School District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution of the State of Ohio. The School District operates under a locally elected, five-member Board of Education (Board) to provide educational and other services as required and permitted by the laws and regulations of the State of Ohio and United States of America. The School District is not a part of, or under the control of, the City of Troy, Ohio.

Reporting Entity: A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Troy City School District, this includes general operations, food service, student guidance, extracurricular activities, educational media, care and upkeep of grounds and buildings, preschool and student related activities of the School District. The following activities are included within the reporting entity:

Hayner Cultural Center: About fifty years ago, title to the real and personal property which presently comprises the bulk of Hayner Cultural Center passed from the estate of Mary Jane Hayner to the School District under Mrs. Hayner's will. This facility is now being operated as a fine arts center to provide fine arts exhibits, educational opportunities, and meeting facilities for the citizens of Troy and its surrounding communities. The School District has provided for a Governing Board whose responsibility in part is to preserve, maintain, and operate the Center. The School District has the authority to reject the recommendations of the Governing Board. Likewise, there is a financial benefit and financial burden relationship between the School District and the Center. Accordingly, the Hayner Cultural Center's financial statements are included within the special revenue funds.

Parochial Schools: Within the School District boundaries are four parochial schools, which are operated as private schools. Current State legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the School District, as directed by the parochial schools. The activity of these State monies is reflected in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has assumed responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the levying of taxes or the issuance of debt for the organization. The School District has no component units.

The School District is associated with two jointly governed organizations. These organizations are presented in Note 14 to the basic financial statements. These organizations are:

Jointly Governed Organizations:

Southwestern Ohio Educational Purchasing Council
Metropolitan Educational Technology Association

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Troy City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the School District's accounting policies are described below.

During the fiscal year, the School District reported a change in reporting entity, with the Building Construction Fund satisfying the criteria to be reported as a major governmental fund.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund was eliminated to avoid the "doubling up" of revenues and expenses.

The statement of net position presents the financial condition of the governmental activities of the School District at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements

During the year, the School District segregated transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities/deferred inflows of resources is reported as fund balance. The following are considered major governmental funds of the School District:

General Fund – The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund – This fund is used to account for all restricted financial resources, property taxes, and make the required remittance of principal and interest when due on the School District general obligation debt.

Building Construction Fund – This fund is used to account for local share of financial resources associated with the construction of Ohio Facilities Construction Commission (OFCC) school building construction project and various capital projects located at the high school.

OFCC Construction Project Fund – This fund is utilized to account for the funding passed through the OFCC for the state's share of the school building construction project.

The other governmental funds of the School District account for grants and other resources and capital projects of the School District whose uses are restricted to a particular purpose.

Proprietary Fund

The proprietary fund focuses on the determination of the changes in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the School District has no enterprise funds.

Internal Service Fund – The internal service fund accounts for the financing of services provided by one department or agency to other department or agencies of the School District on a cost reimbursement basis. The School District has one internal service fund, which accounts for the self-insurance program which provides medical benefits to employees.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Custodial funds account for fiduciary resources not accounted for within trust funds. The School District's only fiduciary fund is a custodial fund used to account for State athletic tournament games, for which the School District acts as fiscal agent.

C. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of the School District are included on the Statement of Net Position.

Fund Financial Statements

Governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets, deferred outflows of resources, liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. The statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows and inflows of resources, and in the presentation of expenses versus expenditures.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. “Measurable” means the amount of the transaction can be determined, and “available” means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within ninety days of fiscal year end for all revenues except property tax. For property tax revenue, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the fiscal year in which the exchange on which the tax is imposed takes place. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, income taxes, grants, tuition, and student fees.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets which apply to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the School District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding, pension, and OPEB. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension and OPEB plans are explained further in Notes 10 and 11.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets applicable to a future period and will not be recognized as an inflow of resources until that time. For the School District, deferred inflows of resources include property taxes, unavailable revenue, deferred gain on refunding, pension, and OPEB. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2025, but which were levied to finance fiscal year 2026 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes delinquent property taxes, income taxes, intergovernmental grants, and student fees. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position (see Notes 10 and 11).

F. Budget Data

All funds, other than custodial funds and the Auxiliary Services special revenue fund, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The Board has established the legal level of control at the fund level for all funds except the OFCC Construction Project Fund, which is approved at the function level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue, are identified by the School District. The amounts reported as the original budgeted amounts in the budgetary schedule reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary schedule reflect the amounts in the final amended certificate issued during fiscal year 2025.

The appropriation resolution is subject to amendment by the Board throughout the school year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

G. Pooled Cash and Investments

To improve cash management, cash received by the School District is pooled. Monies for all funds, including proprietary and fiduciary funds, are maintained in this pool. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "pooled cash and investments" on the financial statements.

During fiscal year 2025, investments included U.S. Agency security and U.S. Treasuries, corporate bonds, STAROhio and negotiable certificates of deposit.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Except for nonparticipating investment contracts, investments are reported at fair value. Nonparticipating investment contracts such as repurchase agreements are reported at cost.

The School District's investment in the State Treasury Asset Reserve of Ohio (STAR Ohio) is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company and is recognized as an external investment pool by the School District. The School District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortization cost basis that provides a NAV per share that approximates fair value.

STAR Ohio reserves the right to limit participant transactions to \$250 million per day. Transactions in all of a participant's accounts will be combined for this purpose. Twenty-four hours advance notice to STAR Ohio is appreciated for purchases or redemptions of \$100 million or more. For fiscal year 2025, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2025 amounted to \$1,358,162; \$439,204 was assigned from other School District funds.

For purposes of the statement of cash flows and for presentation of the balance sheet, investments of the cash management pool are reported as pooled cash and investments.

H. Materials and Supplies Inventory

On government-wide financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption, donated food, and purchased food. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Reported material and supplies inventory is equally offset by nonspendable fund balance in the appropriate fund, which indicates that it does not constitute available expendable resources even though it is a component of net current assets.

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2025, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure is reported in the year in which services are consumed.

J. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Capital Assets and Depreciation

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported within the governmental activities on the government-wide statement of net position but are not reported in the fund statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements throughout the year. Donated capital assets are recorded at acquisition value as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

Description	Estimated Lives
Buildings	40 years
Improvements	10 – 40 years
Furniture and Equipment	5 – 20 years
Textbooks	7 years
Vehicles	7 – 12 years

L. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures or expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources and uses in governmental funds. Repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are not presented on the financial statement.

M. Compensated Absences

The District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled during or upon separation from employment. Based on the criteria listed, two types of leave qualify for liability recognition for compensated absences – vacation and sick leave.

A liability for compensated absences is recorded as incurred in the government-wide statement of net position. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of resignations, retirements or other personnel policies. The liability for compensated absences includes salary-related benefits, where applicable.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Pensions/Other Postemployment Benefit (OPEB) Plans

For purposes of measuring the net pension and OPEB assets, liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the fiduciary net position of the pension and OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension and OPEB plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension and OPEB plans report investments at fair value.

O. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Net pension and OPEB liabilities should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension and OPEB plans' fiduciary net position is not sufficient for payment of those benefits. Long-term debt payments paid from governmental funds are not recognized as a liability in the fund financial statements until they come due.

P. Net Position

Net position represents the difference between assets and deferred outflows of resources compared with liabilities and deferred inflows of resources. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments. The School District did not have any net position restricted by enabling legislation.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q. Fund Balance

The School District reports classifications of fund equity based on the purpose for which resources were received and the level of constraint placed on the resources. Nonspendable fund balance indicates resources that are not expected to be converted to cash because they are not in a spendable form. Resources that have purpose constraints placed upon them by laws, regulations, creditors, grantors, or other external parties are considered available only for the purpose for which they were received and are reported as a restricted fund balance. The School District may limit the use of unreserved resources and they may be reported as committed or assigned fund balance depending on at what level of governance the constraints were placed. With an affirmative vote of its members, the Board of Education may create funds for which resources are committed to the established purpose of that fund. Through the School District's purchasing policy the Board has given the Treasurer the authority to constrain monies for intended purposes, which are reported as assigned fund balances. All other funds in spendable form not restricted, committed or assigned are reported as an unassigned fund balance.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted fund balance is available. The School District considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

Fund Balances	General	Bond Retirement Fund	Building Construction Fund	OFCC Construction Project Fund	Nonmajor Governmental Funds	Total
Nonspendable for:						
Inventory and Prepaids	\$ 114,988	-	-	-	122,128	237,116
Unclaimed Funds	18,587	-	-	-	-	18,587
Scholarships	-	-	-	-	156,567	156,567
Total Nonspendable	<u>133,575</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>278,695</u>	<u>412,270</u>
Restricted for:

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 3 – ACCOUNTABILITY

Deficit Fund Balances

The School District had four non-major special revenue funds reporting fund deficits as of June 30, 2025, as follows:

	<u>Deficit Fund Equity</u>
Nonmajor Governmental Funds:	
Title III	\$ 269
Title I School Improvement Grant	7,815
Title IV-A Grant	284
Title II-A Grant Fund	10,191

These deficits were created by the application of generally accepted accounting principles. The general fund is liable for any deficit in this fund and provides operating transfers when cash is required, not when accruals occur.

NOTE 4 – DEPOSITS AND INVESTMENTS

State statutes require the classification of monies held by the School District into three categories.

Active Monies – Those monies required to be kept in “cash” or “near-cash” status for the immediate use of the School District. Such monies must be maintained either as cash in the treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive Monies – Those monies not required for use within the current five-year period of designation of depositories. Inactive monies may be deposited or invested as certificate of deposit maturing no later than the end of the current period of designation of depositories, or as savings or deposit accounts including, but not limited to, passbook accounts.

Interim Monies – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested in legal securities (see Note 2G).

Deposits

Custodial credit risk is the risk that, in the event of bank failure, the School District’s deposits may not be returned. The School District’s policy for deposits is that any balance not covered by depository insurance will be collateralized by the financial institution with pledged securities. Ohio law requires that deposits either be insured or be protected by:

Eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities to be 102 percent of the deposits being secured or a rate set by the Treasurer of State.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

At year end, the carrying amount of the School District's cash and deposits was \$98,224,401 (including \$10,790 of cash on hand) and the bank balance was \$99,355,369. Of the bank balance, \$3,230,619 was covered by federal depository insurance (FDIC) and \$96,124,750 was uninsured and collateralized as described above.

Investments

Investments are reported at fair value. As of June 30, 2025, the School District had the following investments:

	Fair Value	Maturity (in years)			% of Portfolio	Credit Rating*
		< 1	1-3	3 >		
Negotiable CD's	\$ 3,323,870	1,522,064	1,655,614	146,192	6.25%	N/A
U.S. Agency Securities	11,769,816	11,769,816	-	-	22.11%	AA+
U.S. Treasuries	33,016,921	32,817,673	99,758	99,490	62.04%	AA+
Corporate Bonds	3,694,945	3,694,945			6.94%	AA+
STAR Ohio	1,415,237	1,415,237	-	-	2.66%	AAAm
Total Investments	\$ 53,220,789	51,219,735	1,755,372	245,682		

* - as rated by Standard & Poor's rating services

The School District's investment policy permits the purchase of any security specifically authorized by the Ohio Revised Code and includes the following:

Interest Rate Risk – An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Ohio Revised Code §135.14(B)(7)(a) limits commercial paper to those assigned the highest credit rating by two nationally recognized rating services.

Credit Risk – The School District has no investment policy that would further limit its investment risk other than what has been approved by State statute. The School District's negotiable certificates of deposits (CDs) were covered by FDIC.

Concentration of Credit Risk – The School District should normally seek to diversify its holdings of other investments by avoiding concentrations of specific issuers.

Fair Value Measurement

The School District's investments measured and reported at fair value are classified according to the following hierarchy:

- Level 1 – Investments reflect prices quoted in active markets.
- Level 2 – Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered to be active.
- Level 3 – Investments reflect prices based upon unobservable sources.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 4 – DEPOSITS AND INVESTMENTS (Continued)

The categorization of investments within the hierarchy is based upon the transparency of the instrument and should not be perceived as the particular investment's risk. The School District had the following reoccurring fair value measurements as of June 30, 2025:

<u>Investment Type</u>	<u>Total</u>	<u>Identical Assets (Level 1)</u>	<u>Observable Inputs (Level 2)</u>	<u>Unobservable Inputs (Level 3)</u>
Negotiable CD's	\$ 3,323,870	\$ -	\$ 3,323,870	\$ -
U.S. Agency Securities	11,769,816	-	11,769,816	-
U.S. Treasuries	33,016,921	33,016,921	-	-
Corporate Bonds	3,694,945	-	3,694,945	-
Total	<u>\$ 51,805,552</u>	<u>\$ 33,016,921</u>	<u>\$ 18,788,631</u>	<u>\$ -</u>

Investments classified in Level 2 of the fair value hierarchy are valued using pricing sources as provided by the investment managers.

NOTE 5 – PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis, while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenue received in calendar year 2025 represents collections of calendar year 2024 taxes. Real property taxes received during calendar year 2025 were levied after April 1, 2024 on the assessed value listed as of January 1, 2024, the lien date. Assessed values for real property are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternative payment dates to be established.

Public utility property tax revenue received in calendar year 2025 represents collection of calendar year 2024 taxes. Public utility real and tangible personal property taxes received in calendar year 2025 became a lien December 31, 2023, were levied after April 1, 2024, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Miami County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2025 are available to finance fiscal year 2025 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 5 – PROPERTY TAXES (Continued)

Property taxes receivable represents real property and public utility property taxes that are measurable as of June 30, 2025 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the portion of real property taxes available as an advance at June 30 was levied to finance current year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources – property taxes. The amount available as an advance at June 30, 2025, was \$3,115,353 \$801,992, and \$527,472 in the General, Bond Retirement, and Nonmajor Governmental funds respectively.

On an accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis, it is reported as deferred inflows of resources – unavailable revenue, unless remitted to the School District within the available period.

The assessed values upon which the fiscal year 2025 taxes were collected are as follows:

	<u>2025 First Half Collections</u>		<u>2024 Second Half Collections</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$ 985,665,750	95.64%	973,893,040	96.06%
Public Utility	<u>44,946,140</u>	4.36%	<u>39,982,740</u>	3.94%
Total Assessed Value	\$ <u>1,030,611,890</u>	<u>100.00%</u>	<u>1,013,875,780</u>	<u>100.00%</u>
Tax rate per \$1,000 of assessed valuation	<u>\$58.21</u>		<u>\$58.26</u>	

NOTE 6 – INCOME TAX

On January 1, 2007 the School District levied a voted 1.5 percent income tax on the earned income of individuals residing in the School District for the purpose of current expenses. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. For fiscal year 2025, this income tax generated \$15,175,858 for general operating purposes.

NOTE 7 – RECEIVABLES

Receivables at June 30, 2025, consisted of current and delinquent property taxes, income taxes, accounts (rent and student fees), intergovernmental grants and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 7 – RECEIVABLES (Continued)

A summary of the principal items of intergovernmental receivables follows:

	<u>Amount</u>

Capital Assets, net	<u>\$ 22,193,633</u>	<u>5,776,926</u>	<u>-</u>	<u>27,970,559</u>

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 8 – CAPITAL ASSETS (Continued)

* - Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$ 851,660
Support Services:	
Instructional Staff	481
Administration	3,415
Business	2,011
Operation and Maintenance of Plant	34,930
Pupil Transportation	244,974
Operation of Non-Instructional Services	28,807
Extracurricular Activities	29,731
	<u>1,196,009</u>
Unallocated Depreciation	518,012
Total Depreciation Expense	<u>\$ 1,714,021</u>

Unallocated depreciation is depreciation of the individual school buildings throughout the School District that essentially serve all functions/programs, and therefore is not included as a direct expense of any function or program but disclosed as a separate expense.

NOTE 9 – RISK MANAGEMENT

A. Property and Liability

The School District covers the majority of its risk (property, liability, etc.) through commercial insurance. There were no significant changes in coverages, retentions or limits during the fiscal year. Settled claims have not exceeded the commercial coverages in any of the previous three years.

B. Health Insurance

The School District provides health care coverage for its employees and is self-insured up to a stop loss limit of \$150,000 per employee for the cost of providing this coverage and an aggregate stop loss limit of \$7,251,988. Premiums are charged to the funds from which the covered employees are paid. Self-insured risk for health care benefits is accounted for with the School District's internal service fund.

Expenses for claims are recorded as other expenditures/expenses when it is probable that an asset has been impaired or a liability has been incurred and the amount of loss can be reasonably estimated. The basis for estimating the liability for unpaid claims is based on past experience and large outstanding balances. The liability at June 30, 2025, is not discounted. An actuary was used in determining its liability. A summary of changes in self-insured claims for the year ended June 30, 2025, follows:

Year	Balance at Beginning of Year	Current Year Claims	Claim Payments	Balance at End of Year
2024	\$ 971,349	6,029,359	(5,938,911)	1,061,797
2025	1,061,797	5,705,005	(7,985,462)	1,218,660

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the School District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the way pensions are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including pension.

GASB Statement No. 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for contractually-required pension contributions outstanding at the end of the fiscal year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Plan Description - School Employees Retirement System (SERS)

School District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 **	Eligible to retire on or after August 1, 2017
Full benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or age 57 with 30 years of service credit
Actuarially reduced benefits	Age 60 with 5 years of service credit; or age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or age 60 with 25 years of service credit

** - Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2% for the first 30 years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5 percent and with a floor of 0 percent. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5 percent COLA for calendar year 2024.

Funding Policy – Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10% for plan members and 14% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, and Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2025, the 14% was allocated to only three of the funds (Pension Trust Fund, Death Benefit Fund and Medicare B Fund).

The School District's contractually required contribution to SERS was \$1,181,889 for fiscal year 2025. Of this amount, \$261,830 is reported as an intergovernmental payable.

Plan Description - State Teachers Retirement System (STRS)

School District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. The calculation will be 2.2% of final average salary for the five highest years of earnings multiplied by all years of service. Effective August 1, 2023 to May 31, 2025, any member can retire with unreduced benefits with 34 years of service credit at any age or 5 years of service credit at age 65. Retirement eligibility for reduced benefits is 29 years of service credit at any age; or 5 years of service credit and age 60. Effective June 1, 2025 to July 1, 2027, any member can retire with unreduced benefits with 33 years of service credit at any age or 5 years of service credit and age 65. Effective on or after August 1, 2027, any member can retire with unreduced benefits with 34 years of service credit at any age or 5 years of service credit and age 65. Retirement eligibility for reduced benefits is 29 years of service credit at any age or 5 years of service credit and age 60.

In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of-living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a permanent 1 percent COLA of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019.

The DC Plan allows members to place all their member contributions and 11.09% of the 14% employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS Ohio. The remaining 2.91% of the 14% employer rate is allocated to the defined benefit unfunded liabilities. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The CO Plan offers features of both the DB Plan and the DC Plan. In the CO Plan, 12% of the 14% member rate is deposited into the member's DC account and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the CO Plan payment is payable to a member on or after age 60 with 5 years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC Plan or CO Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS Ohio plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's CO Plan account to a lifetime benefit results in STRS Ohio bearing the risk of investment gain or loss on the account. STRS Ohio therefore has included all three plan options as one defined benefit plan for GASB Statement No. 68 reporting purposes.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

A DB or CO Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. New members on or after July 1, 2013 must have at least 10 years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance.

Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. For the fiscal year ended June 30, 2025, plan members were required to contribute 14% of their annual covered salary. The School District was required to contribute 14%; the entire 14% was the portion used to fund pension obligations. The fiscal year 2025 contribution rates were equal to the statutory maximum rates.

The School District's contractually required contribution to STRS was approximately \$3,920,385 for fiscal year 2025. Of this amount, \$809,377 is reported as an intergovernmental payable.

Pension Liabilities, Pension Expense, and Deferred Outflows and Inflows of Resources for Pensions

The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liability was based on the School District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	SERS	STRS	Total
Proportionate share of the net pension liability	\$ 9,846,694	\$ 36,295,426	\$ 46,142,120
Proportion of the net pension liability	0.192484%	0.188630%	
Change in proportionate share	-0.003482%	0.003848%	
Pension expense	\$ 740,661	\$ 1,563,678	\$ 2,304,339

At June 30, 2025, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	SERS	STRS	Total
<u>Deferred Outflows of Resources:</u>			
Differences between expected and actual experience	\$ 375,939	\$ 2,285,664	\$ 2,661,603
Change in assumptions	88,086	1,672,693	1,760,779
Change in School District's proportionate share and difference in employer contributions	230,319	848,916	1,079,235
School District contributions subsequent to the measurement date	<u>1,181,889</u>	<u>3,920,385</u>	<u>5,102,274</u>
Total	<u>\$ 1,876,233</u>	<u>\$ 8,727,658</u>	<u>\$ 10,603,891</u>

TROY CITY SCHOOL DISTRICT

	<u>\$ (57,318)</u>	<u>\$ 41,951</u>	<u>\$ (15,367)</u>

Actuarial Assumptions – SERS

The total pension liability is determined by SERS' actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, are presented below:

Valuation Date	June 30, 2024 (the measurement date)
Actuarial Cost Method	Entry age normal
Actuarial Assumptions: Experience Study Date	Period of 5 years ended June 30, 2020
Investment Rate of Return	7.00%, net of investment expenses, including inflation
COLA or "Ad Hoc" COLA	2.00%, on and after April 1, 2018, COLA's for future retirees will be delayed for three years following commencement
Future Salary Increases, including Inflation	3.25% - 13.58%
Inflation	2.40%
Mortality Assumptions	Service Retirement: PUB-2010 General Employee Amount Weighted Below Median Health Retiree mortality table projected to 2017 with ages set forward 1 year and adjusted 94.20% for males and set forward 2 years and adjusted 81.35% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally. Disabled Retirement: PUB-2010 General Disabled Retiree mortality table projected to 2017 with ages set forward 5 years and adjusted 103.3% for males and set forward 3 years and adjusted 106.8% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally. Contingent Survivor: PUB-2010 General Amount Weighted Below Median Contingent Survivor mortality table projected to 2017 with ages set forward 1 year and adjusted 105.5% for males and adjusted 122.5% for females. Future improvement in mortality rates is reflected by applying the MP-2020 projection scale generationally.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in the *Statement of Investment Policy*. ORC 3309.15 and the Board-adopted Investment Policy govern investment activity at SERS. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term geometric expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	3.00%	0.97%
US equity	22.00%	4.68%
Non-US equity developed	12.00%	4.96%
Non-US equity emerging	6.00%	5.66%
Fixed income/global bonds	18.00%	2.38%
Private equity	14.00%	7.10%
Real estate/real assets	13.00%	3.64%
Infrastructure	7.00%	4.80%
Private debt/private credit	<u>5.00%</u>	5.86%
Total	<u>100.00%</u>	

Discount Rate – Total pension liability was calculated using the discount rate of 7.0%. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.0%). Based on those assumptions, the plan’s fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability. The annual money-weighted rate of return, calculated as the internal rate of return on pension plan investments, for fiscal year 2024 was 9.31 percent.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.0%, as well as what each plan’s net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.0%), or one percentage point higher (8.0%) than the current rate.

	1% Decrease <u>(6.00%)</u>	Current Discount Rate <u>(7.00%)</u>	1% Increase <u>(8.00%)</u>
School District's proportionate share of the net pension liability	\$ 15,064,078	\$ 9,846,694	\$ 5,453,937

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

Inflation	2.50%
Salary increases	Varies by service from 2.5% to 8.5%
Payroll increases	3.00%
Investment rate of return	7.00%, net of investment expenses, including inflation
Discount rate of return	7.00%
Cost-of-living adjustments (COLA)	0%

For healthy retirees, the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table, adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

The actuarial assumptions used in the June 30, 2024 valuation are based on the results of the latest available actual experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation *</u>	<u>Long-Term Expected Real Rate of Return **</u>
Domestic equity	26.00%	6.60%
International equity	22.00%	7.70%
Alternatives	19.00%	9.10%
Fixed income	22.00%	4.50%
Real estate	10.00%	5.10%
Liquidity reserves	<u>1.00%</u>	2.40%
Total	<u>100.00%</u>	

* Final target weights reflected at October 1, 2022.

** 10-year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4% and does not include investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Assumption and benefit changes since the prior measurement date include: retirement rates were extended to younger ages intended to ensure that the ranges in retirement eligibility impacted participants at such ages, and demographic assumptions were changed based on the actuarial experience study for the period July 1, 2015 through June 30, 2021.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

Discount Rate – The discount rate used to measure the total pension liability was 7.0% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on pension plan investments of 7.0% was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2024.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following table presents the School District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.0%, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.0%) or one-percentage-point higher (8.0%) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
School District's proportionate share of the net pension liability	\$ 58,550,884	\$ 36,295,426	\$ 17,471,134

Social Security System

All employees not covered by SERS or STRS have an option to choose Social Security or SERS/STRS. As of June 30, 2025, some of the members of the Board of Education has elected social security. The Board's liability is 6.2% of wages paid.

NOTE 11 – POSTEMPLOYMENT BENEFITS PLANS (OPEB)

Net OPEB Asset/Liability

The net OPEB liability (asset) reported on the statement of net position represents a liability to (or assets for) employees for OPEB. OPEB is a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for OPEB is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net OPEB liability (asset) represents the School District’s proportionate share of each OPEB plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each OPEB plan’s fiduciary net position. The net OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments, health care cost trend rates and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 11 – POSTEMPLOYMENT BENEFITS PLANS (OPEB) (Continued)

Ohio Revised Code limits the School District's obligation for this liability to annually required payments. The School District cannot control benefit terms or the manner in which OPEB are financed; however, the School District does receive the benefit of employees' services in exchange for compensation including OPEB.

GASB Statement No. 75 assumes the liability is solely the obligation of the employer, because they benefit from employee services. OPEB contributions come from these employers and health care plan enrollees which pay a portion of the health care costs in the form of a monthly premium. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. Any change to benefits or funding could significantly affect the net OPEB liability (asset). Resulting adjustments to the net OPEB liability (asset) would be effective when the changes are legally enforceable. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The proportionate share of each plan's unfunded benefits is presented as a long-term net OPEB liability or fully-funded benefits as a long-term net OPEB asset on the accrual basis of accounting. Any liability for contractually-required OPEB contributions outstanding at the end of the fiscal year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

School Employees Retirement System (SERS)

Health Care Plan Description—SERS' Health Care program provides health care benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986 need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981 do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and, therefore, enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute.

Funding Policy— The Health Care program is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. SERS' goal is to maintain a health care reserve account with a 20-year solvency period in order to ensure that fluctuations in the cost of health care do not cause an interruption in the program. However, during any period in which the 20-year solvency period is not achieved, SERS shall manage the Health Care Fund on a pay-as-you-go basis.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 11 – POSTEMPLOYMENT BENEFITS PLANS (OPEB) (Continued)

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For fiscal year 2025, there was no portion allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2025, the minimum compensation amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2024, the School District's surcharge obligation was \$141,845.

State Teachers Retirement System (STRS)

Healthcare Plan Description—The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing, multiple-employer health care plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS Board to offer this plan.

Coverage under the current program includes hospitalization, physicians' fees and prescription drugs and partial reimbursement of the monthly Medicare Part B premiums. Pursuant to the Ohio Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by the Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy—Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. Nearly all health care plan enrollees, for the most recent year, pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2025, no employer allocation was made to the health care fund.

OPEB Asset/Liability, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB asset/liability was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB asset/liability was determined by an actuarial valuation as of that date. The School District's proportion of the net OPEB asset/liability was based on the School District's share of contributions to the respective retirement systems relative to the contributions of all participating entities. Following is information related to the proportionate share and OPEB expense:

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 11 – POSTEMPLOYMENT BENEFITS PLANS (OPEB) (Continued)

	SERS	STRS	Total
Proportionate share of the net OPEB asset	\$ -	\$ 3,577,948	\$ 3,577,948
Proportionate share of the net OPEB liability	1,986,561	-	1,986,561

Actuarial Assumptions – SERS

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation are presented below:

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 11 – POSTEMPLOYMENT BENEFITS PLANS (OPEB) (Continued)

The long-term expected rate of return is reviewed as part of the regular experience studies prepared every five years for SERS. The most recent five-year experience study was performed for the period covering fiscal years 2016 through 2020, and was adopted by the Board on April 15, 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	3.00%	0.96%
US equity	22.00%	4.68%
Non-US equity developed	12.00%	4.96%
Non-US equity emerging	6.00%	5.66%
Fixed income/global bonds	18.00%	2.38%
Private equity	14.00%	7.10%
Real estate/real assets	13.00%	3.64%
Infrastructure	7.00%	4.80%
Private debt/private credit	<u>5.00%</u>	5.86%
Total	<u>100.00%</u>	

Discount Rate – The discount rate used to measure the total OPEB liability at June 30, 2024 was 4.88%. The discount rate used to measure total OPEB liability prior to June 30, 2024 was 4.27%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and SERS at the state statute contribution rate of 1.5% of projected covered employee payroll each year, which includes a 1.50% payroll surcharge and no contributions from basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be depleted in 2059 by SERS' actuaries. The Fidelity General Obligation 20-year Municipal Bond Index Rate was used in the determination of the single equivalent interest rate for both the June 30, 2023 and the June 30, 2024 total OPEB liability. The Municipal Bond Index Rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate was 3.93% at June 30, 2024 and 3.86% at June 30, 2023.

NOTE 11 – POSTEMPLOYMENT BENEFITS PLANS (OPEB) (Continued)

Sensitivity of the School District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and the Health Care Cost Trend Rates – The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the net OPEB liability calculated using the discount rate of 4.88%, as well as what the School District's net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.88%) and one percentage point higher (5.88%) than the current rate.

	1% Decrease (3.88%)	Current Discount Rate (4.88%)	1% Increase (5.88%)
School District's proportionate share of the net OPEB liability	\$ 2,649,009	\$ 1,986,561	\$ 1,460,157

The following table presents the net OPEB liability calculated using current health care cost trend rates, as well as what the School District's net OPEB liability would be if it were calculated using health care cost trend rates that are one percentage point lower (6.00% decreasing to 3.40%) and one percentage point higher (8.00% decreasing to 5.40%) than the current rates.

	1% Decrease (6.00% decreasing to 3.40%)	Current Trend Rate (7.00% decreasing to 4.40%)	1% Increase (8.00% decreasing to 5.40%)
School District's proportionate share of the net OPEB liability	\$ 1,342,841	\$ 1,986,561	\$ 2,832,680

Actuarial Assumptions - STRS

The total OPEB liability in the June 30, 2024 actuarial valuation was determined using the following assumptions, applied to all periods included in the measurement:

Salary increases	Varies by service from 2.5% to 8.5%	
Payroll increases	3.0%	
Investment rate of return	7.0%, net of investment expenses, including inflation	
Discount rate of return	7.0%	
Health care cost trends	<u>Initial</u>	<u>Ultimate</u>
Medical		
Pre-Medicare	7.50%	3.94%
Medicare	-112.22%	3.94%
Prescription Drug		
Pre-Medicare	8.00%	3.94%
Medicare	-15.14%	3.94%

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 11 – POSTEMPLOYMENT BENEFITS PLANS (OPEB) (Continued)

For healthy retirees, the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table, adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

The actuarial assumptions used in the June 30, 2024 valuation are based on the results of the latest available actual experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation *</u>	<u>Long-Term Expected Real Rate of Return **</u>
Domestic equity	26.00%	6.90%
International equity	22.00%	7.70%
Alternatives	19.00%	9.10%
Fixed income	22.00%	4.50%
Real estate	10.00%	5.10%
Liquidity reserves	<u>1.00%</u>	2.40%
Total	<u>100.00%</u>	

* Final target weights reflected at October 1, 2022.

** 10-year annualized geometric nominal returns, which include the real rate of return and inflation of 2.4% and does not include investment expenses. Over a 30-year period, STRS investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

Discount Rate – The discount rate used to measure the total OPEB liability was 7.0% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes STRS Ohio continues to allocate no employer contributions to the health care fund. Based on these assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on OPEB plan assets of 7.0% was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2024.

Sensitivity of the School District's Proportionate Share of the Net OPEB Asset to Changes in the Discount Rate and the Health Care Cost Trend Rates – The following table presents the School District's proportionate share of the net OPEB (asset) calculated using the current period discount rate assumption of 7.0%, as well as what the School District's proportionate share of the net OPEB (asset) would be if it were calculated using a discount rate that is one percentage point lower (6.0%) and one percentage point higher (8.0%) than the current rate. Also shown is the net OPEB (asset) as if it were calculated using health care cost trend rates that are one percentage point lower and one percentage point higher than the current health care cost trend rates:

	1% Decrease In Trend Rates	Current Trend Rates	1% Increase In Trend Rates
School District's proportionate share of the net OPEB asset	\$ 4,199,300	\$ 3,577,948	\$ 2,830,691

NOTE 12 – OTHER EMPLOYEE BENEFITS

Retirement Incentive Plan

For classified employees, the School District offers two retirement incentive plans that provides additional benefits to those who retire from service on or near the first day they are eligible to retire. The first plan provides members who have twenty-five (25) years of retirement service, and who retire by June 30 on or after the first day they become eligible to retire with full or partial benefits, a retirement incentive of fifty (50) percent of the employee's annual base salary. The second plan provides members who have twenty (20) years of retirement service, and who retire by June 30 on or after the first day they become eligible to retire with full or partial benefits, a retirement incentive of thirty (30) percent of the employee's annual base salary.

As these incentive payments are contingent upon employees retiring within the specific period of time established, a reasonable estimate of the liability associated with this benefit cannot be reasonably determined until employees file for retirement. Therefore, no long-term liability associated with the retirement incentive plan is included within these financial statements. Retirement incentive payments are included within the matured compensated absences reported within the fund statements, if applicable.

General Obligation Bonds

The general obligation bond issues will be paid through the debt service fund from property taxes collected by the County Auditor. The School District issued general obligation debt for the following purposes:

- \$3,990,000 issued in fiscal year 2021 and maturing in fiscal year 2029, for the partial advance refunding of \$3,990,000 of 2012 refunding bonds. These Federally taxable bonds are current interest serial bonds and carry an interest rate of 1.76 percent.
- \$8,095,000, issued in fiscal year 2012 and maturing in fiscal year 2029, for the partial advance refunding of \$8,190,000 of 2005 school improvement bonds. These bonds are current interest serial bonds. \$3,990,000 of these bonds were advanced refunded through the issuance of the 2021 refunding bonds.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 13 – LONG-TERM OBLIGATIONS (Continued)

General Obligation Bonds (continued)

- \$7,659,990, issued in fiscal year 2013 and maturing in fiscal year 2032, for the partial advance refunding of \$7,660,000 of the 2005 school improvement bonds. The School District is required to deposit a portion of the principal and interest payments into a sinking fund, starting on December 1, 2017 related to the term bond. The schedule for the sinking fund is as follows, however the financial institution has elected to consider the amounts paid in the below schedule to reduce the liability at time of payment:

Fiscal Year	Required Deposit
2026	\$ -
2027	10,000
2028	10,000
2029	10,000
2030	<u>1,000,000</u>
Total	\$ <u>1,030,000</u>

- \$87,830,000 of general obligation school improvement bonds, issued in March 2024 to provide financing necessary to build three new elementary schools and one middle school, as well as infrastructure improvements for existing buildings. These bonds consist of both serial and term bonds. The term bonds expire on December 1, 2049, 2054, and 2060. The School District is required to deposit a portion of the principal and interest payments for each of the above noted deposits into a sinking fund, starting on December 1, 2045 related to the term bond. The schedule for the required sinking fund payments is as follows:

Due December 1, 2049:		Due December 1, 2054:		Due December 1, 2060:	
Fiscal Year	Required Deposit	Fiscal Year	Required Deposit	Fiscal Year	Required Deposit
2046	\$ 2,370,000	2051	\$ 2,880,000	2056	\$ 3,675,000
2047	2,465,000	2052	3,025,000	2057	3,835,000
2048	2,560,000	2053	3,175,000	2058	3,995,000
2049	2,665,000	2054	3,335,000	2059	4,165,000
2050	2,770,000	2055	3,500,000	2060	4,345,000
				2061	4,530,000

The bonds maturing on and after December 1, 2034 are subject to optional redemption, in whole or in part on any date in any order of maturity as determined by the Board of Education and by lot within a maturity, at the option of the Board of Education on or after December 1, 2033 at par, which is 100% of the face value of the bonds.

Legal Debt Margins

As of June 30, 2025, the overall legal debt margin was \$6.2 million, an energy conservation debt limit of \$9.3 million, and an unvoted debt margin of \$1.0 million.

NOTE 13 – LONG-TERM OBLIGATIONS (Continued)

Certificates of Participation

In August 2024, the School District issued \$23,000,000 in certificates of participation to finance the acquisition and construction of various capital projects at Troy High School. These term certificates bear interest at 5.0% and mature on 12/01/2048. The School District is required to deposit 100% of the principal payments into a sinking fund starting on December 1, 2045 related to these certificates. The schedule for required sinking fund payments is as follows:

Due December 1, 2048:

Fiscal Year	Required Deposit
2046	\$ 1,305,000
2047	1,360,000
2048	1,415,000
2049	1,470,000

Energy Conservation Bonds

The School District issued Energy Conservation Bonds totaling \$1,103,964, in fiscal year 2010, for the purpose of making energy conservation improvements to the School District's various buildings. These bonds matured on September 1, 2024

The general obligation future debt service requirements are as follows:

Fiscal Year	Principal	Interest	Private-Placement		Total
			Principal	Interest	
2026	\$ 2,325,000	3,913,508	-	43,824	6,282,332
2027	985,000	3,842,712	815,000	36,652	5,679,364

NOTE 14 – JOINTLY GOVERNED ORGANIZATIONS

Southwestern Ohio Educational Purchasing Council – The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing council made up of 310 school districts and boards of developmental disabilities in 54 Ohio counties and 2 Kentucky counties. The purpose of the council is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC.

Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust. Any district withdrawing from the SOEPC forfeits its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations. Any payments to SOEPC are made from the general fund. Each new member pays an initiation fee in addition to the annual membership fee and other appropriate assessments. The School District did not make any payments to SOEPC during fiscal year 2025.

Metropolitan Educational Technology Association – The School District is a participant in the Metropolitan Educational Technology Association (META), which is a data acquisition site used by the School District. META is an association of public school districts in a geographic area determined by the Ohio Department of Education and Workforce. META was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative instructional functions among member districts. During fiscal year 2025, the School District contributed \$122,799 to META. The Board of META consists of one representative from each of the participating members. Financial information can be obtained from Ashley Widby, who serves as Chief Financial Officer, at 100 Executive Drive, Marion, Ohio 43302.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 15 - SET-ASIDE CALCULATIONS AND FUND RESERVES

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for capital acquisition. Disclosure of this information is required by State statute.

	<u>Capital Acquisition</u>
Set-aside Cash Balance, June 30, 2024	\$ -
Current Year Set-aside Requirement	982,818
Current Year Off-Sets	<u>(982,818)</u>
Total	<u>-</u>
Balance Carried Forward to FY2026	\$ <u>-</u>

While the School District had additional offsets during the year, only the amount necessary to demonstrate compliance was reported. The excess of the current year off-sets over the current year set-aside requirement may not be used to reduce the set-aside requirements of future fiscal years.

NOTE 16 - CONTINGENCIES

A. Litigation

The School District is not currently party to legal proceedings.

B. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2025.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 17 – INTERFUND TRANSACTIONS

During fiscal year 2025, the School District repaid the prior year outstanding advances to the general fund in the amount of \$658,541. Also, during fiscal year 2025, the general fund made advances to other funds to provide temporary funding until grant receipts were received. A summary of amounts due from other funds at the end of the fiscal year is presented below:

Fund Due From	Amount
Title I - School Improvement Grant	\$ 423
Title II-A Grant	17,448
	<u>\$ 17,871</u>

Finally, during the fiscal year, the School District transferred unexpended proceeds from the 2024 School Improvement Bonds from the OFCC Construction Project Fund to the Building Construction Fund to support the locally-funded portion of the School District's school construction project.

	<u>Transfer-In</u>	<u>Transfer-Out</u>
OFCC Construction Project Fund	\$ -	\$ 18,533,070
Building Construction Fund	18,533,070	-
	<u>\$ 18,533,070</u>	<u>\$ 18,533,070</u>

NOTE 18 – TAX ABATEMENTS

The Ohio Community Reinvestment Area program is an economic development tool administered by the County that provides real property tax exemptions for property owners who renovate existing or construct new buildings. Under Ohio Revised Code section 3765 to 3735.70, city, village or county can petition the Ohio Department of Development to confirm that investment in a particular geographical area. Once the Department has confirmed the investment in the area, the community may offer real estate tax exemptions to taxpayers who are willing to invest in the area. Up to 12 years may be exempt for commercial and industrial remodeling and up to 15 years may be exempt for new construction. State law requires reimbursement agreements with school districts for tax revenue losses for CRA in place after 1994. Payments in lieu of taxes paid by the property owner directly to the school districts as required by the agreement are not reduced from the total amount of taxes abated.

The Ohio Enterprise Zone areas are designated areas of land in which businesses can receive tax incentives in the form of tax exemptions on eligible new investments. EZAs are not part of the traditional zoning program, which limits the use of land; instead they allow local officials to negotiate with businesses to encourage new business investment in the zone. The EZA serves as an additional economic development tool for communities attempting to retain and expand their economic base. The EZA is a contract between the City and the company. The zone's geographic area is identified by local communities involved in the creation of the zone. Once a zone is defined, the local legislative authority participating in the creation must petition the director of the Development Services Agency. The director must then certify the area for it to become an active Enterprise Zone. Tax incentives are negotiated at the local level, and an enterprise zone agreement must be in place before the project begins. Businesses interested in pursuing these incentives should contact the local Enterprise Zone Manager.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2025

NOTE 18 – TAX ABATEMENTS (Continued)

For fiscal year 2025, the School District's property tax revenues were reduced by \$532,604 under Community Reinvestment Area (CRA) and Enterprise Zone (EZ) agreements, respectively. The CRA agreements and EZ agreements were entered into by the City of Troy. The School District received \$211,274 related to property tax revenues lost under the various abatement agreements directly from the companies during the current fiscal year.

NOTE 19 – CONTRACTS AND COMMITMENTS

A. Construction Contracts

Beginning in June 2024, the School District has entered into various construction contracts and purchase orders for the school facilities construction project. The total construction contracts and purchase orders, amounts paid and outstanding commitment at the end of the fiscal year is presented below:

Contractor	Contract/Purchase Order Amount	Amounts Paid to 6/30/25	Outstanding Commitment at 6/30/25
Ruetschle Architects Inc	\$ 10,740,560	5,465,755	5,274,805
STAN & Associates	792,893	76,788	716,105
Peterson Construction Company	5,056,425	865,517	4,190,908

B. Encumbrances

At June 30, 2025, the School District had \$1,193,856 of outstanding encumbrances reported within the General Fund, \$2,172,181 in the Building Construction Fund, \$9,298,737 in the OFCC Construction Project Fund, with another \$822,701 of outstanding encumbrances reported within the nonmajor governmental funds.

NOTE 20 – CHANGE IN ACCOUNTING PRINCIPLE AND ERROR CORRECTION

During fiscal year 2025, the District implemented GASB Statement No. 101, *Compensated Absences*. GASB Statement No. 101 provides updated guidance on accounting for and reporting compensated absences, which includes recognizing a liability for leave that is attributable to service already rendered and is more likely than not to be used or otherwise paid or settled.

In accordance with GASB Statement No. 100, *Accounting Changes and Error Corrections*, the District has corrected a prior period error, resulting in a restatement of the fiscal year 2024 revenue to recognize the State's portion of the entire OFCC grant as revenue.

The implementation of GASB Statement No. 101 and the correction of the prior period error had the following impact on beginning net position:

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

NOTE A - BUDGETARY

Basis of Budgeting

Basis of budgeting refers to when revenues and expenditures or expenses are recognized in the accounts. The Troy City School District's (the School District) budget for all legislated funds are prepared on a cash-encumbrance basis wherein transactions are recorded when cash is received or disbursed, or when a commitment has been recorded as an encumbrance against an applicable appropriation. Fund balances shown are unencumbered cash balances. This basis is utilized for all interim financial statements issued during the year.

The basis of budgeting differs from generally accepted accounting principles (GAAP) used for the School District's year-end financial statements contained in the basic financial statements. Under that basis of accounting, revenues are generally recognized when the obligation to the School District arises; the budget basis however, recognizes revenue only when cash has been received. In the basic financial statements, expenditures are generally recognized in the period in which they are incurred. Under that budget basis, expenditures are recognized when cash has been disbursed or when an encumbrance has been placed against an appropriation.

General Budget Policies

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All governmental funds are subject to annual expenditure budgets except for the Auxiliary Service Fund (Special Revenue Fund), which are deemed to be appropriated. The School District follows the procedures outlined below in establishing the expenditures budget data reported in the required supplementary information.

Prior to January 20, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Miami County Budget Commission for rate determination.

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary schedule reflect the amounts in the final amended certificate issued during fiscal year 2025.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

NOTE A – BUDGETARY (Continued)

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures within the individual funds, except the OFCC Construction Fund (Fund 010), which is approved at the function level. The level at which the Board of Education approves the annual appropriation resolution is the School District legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission.

Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, must be approved by the Board of Education. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures which appear in the schedule of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than custodial funds, consistent with statutory provisions.

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Encumbrances plus expenditures may not legally exceed appropriations at the legal level of control. On the GAAP basis, encumbrances outstanding at fiscal year-end are reported within the restricted, committed or assigned designations of fund balance for governmental funds.

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. The encumbered appropriations balance is carried forward to the subsequent fiscal year and need not be reappropriated.

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Schedule of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual (Non-GAAP Basis)– General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the fund liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as restricted, committed or assigned fund balance (GAAP basis).

	<u>General Fund</u>
GAAP Basis	\$ (332,667)
Revenue Accruals	(1,389,869)
Expenditure Accruals	1,717,031
Encumbrances	(1,193,856)
Transfers & Advances	658,748
Perspective Difference	<u>(6,799)</u>
Budget (Non-GAAP) Basis	<u>\$ (547,412)</u>

The perspective difference noted in the above reconciliation is a result of reporting the Uniform School Supplies, Public School, and Unclaimed Monies special revenue funds as a function of the General Fund for GAAP purposes as those funds no longer meet the definition of special revenue funds in accordance with GASB Statement No. 54.

NOTE B – DEFINED BENEFITS PENSION PLANS

School Employees Retirement System of Ohio:

Change in benefit and funding terms:

- For measurement period 2017, the COLA was changed from a fixed 3.00% to a COLA that is indexed to CPI-W not greater than 2.50% with a floor of 0.0% beginning January 1, 2018. In addition, with the authority granted to the Board under Ohio House Bill 49, the Board enacted a three-year COLA suspension for benefit recipients in calendar years 2018, 2019 and 2020.
- For measurement period 2018, with the authority granted to the Board under Ohio Senate Bill 8, the Board enacted a three-year COLA delay for future benefit recipients commencing on or after April 1, 2018.

Change in assumptions:

- For measurement period 2016, the assumed rate of inflation was reduced from 3.25% to 3.00%, the payroll growth assumption was reduced from 4.00% to 3.50%, the assumed real wage growth was reduced from 0.75% to 0.50%, the rates of withdrawal, retirement, and disability were updated to reflect recent experience, and mortality among active members, service retirees and beneficiaries, and disabled members were updated.
- For measurement period 2020, the assumed rate of inflation was reduced from 3.00% to 2.40%, the assumed real wage growth was increased from 0.50% to 0.85%, the cost-of-living adjustments were reduced from 2.50% to 2.00%, the discount rate was reduced from 7.50% to 7.00%, the rates of withdrawal, compensation, participation, spouse coverage assumption, retirement, and disability were updated to reflect recent experience, and mortality among active members, service retirees and beneficiaries and disabled members were updated.
- For measurement period 2022 through 2024, the cost of living adjustments was increased from 2.00% to 2.50% in the subsequent calendar years.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

NOTE B – DEFINED BENEFITS PENSION PLANS (Continued)

State Teachers Retirement System of Ohio:

Change in benefit and funding terms:

- For measurement period 2017, the COLA was reduced to zero.

Change in assumptions:

- For the measurement period 2017, changes in assumptions were made based upon an updated experience study that was completed for the five-year period ended June 30, 2016. Significant changes included a reduction of the discount rate from 7.75% to 7.45%, the inflation assumption was lowered from 2.75% to 2.50%, the payroll growth assumption was lowered to 3.00%, and total salary increases rate was lowered by decreasing the merit component of the individual salary increases, in addition to a decrease of 0.25% due to lower inflation. The health and disabled mortality assumptions were updated to the RP-2014 mortality tables with generational improvement scale MP-2016. Rates of retirement, termination and disability were modified to better reflect anticipated future experience.
- For measurement period 2021, the discount rate was adjusted to 7.00% from 7.45%.
- For measurement period 2022, demographic assumptions were changed based on the actuarial experience study for the period July 1, 2015 through June 30, 2021.
- For measurement period 2024, retirement rates were extended to younger ages intended to ensure that the ranges in retirement eligibility impacted participants at such ages.

NOTE C – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS

School Employees Retirement System of Ohio:

Change in benefit and funding terms:

- Effective January 1, 2024, the non-Medicare disability health care subsidy amounts will change to reflect amounts equal to that of service retirees by years of service.

Change in assumptions:

- For measurement period 2016, the assumed rate of inflation was reduced from 3.25% to 3.00%, the payroll growth assumption was reduced from 4.00% to 3.50%, the assumed real wage growth was reduced from 0.75% to 0.50%, the rates of withdrawal, retirement, and disability were updated to reflect recent experience, and mortality among active members, service retirees and beneficiaries, and disabled members were updated.
- For measurement period 2020, the assumed rate of inflation was reduced from 3.00% to 2.40%, the assumed real wage growth was increased from 0.50% to 0.85%, the cost-of-living adjustments were reduced from 2.50% to 2.00%, the discount rate was reduced from 7.50% to 7.00%, the rates of withdrawal, compensation, participation, spouse coverage assumption, retirement, and disability were updated to reflect recent experience, and mortality among active members, service retirees and beneficiaries and disabled members were updated.
- For measurement period 2022, the discount rate was increased from 2.27% to 4.08% and the health care trend rates were updated.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO

Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

NOTE C – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

- For measurement period 2023, the discount rate changes from 4.08% to 4.27%, health care trend rates were updated, assumption for percentage of pre-Medicare eligible retirees who choose the Wraparound plan was increased from 10% to 20%, health care trend assumption on retiree premiums was updated to not apply the trend to the \$35 surcharge, assumption was added to assume that 15% of pre-65 retirees who waive health care will elect coverage upon Medicare eligibility, and morbidity factors were updated based on the society of Actuaries' June 2013 research report, Health Care Costs-From Birth to Death by Dale Yamamoto, and from the Actuarial Standards of Practice (ASOP) 6 practice note developed by the American Academy of Actuaries.
- For measurement period 2024, the discount rate was increased from 4.27% to 4.88% and health care trend rates were updated.

State Teachers Retirement System of Ohio:

Change in benefit and funding terms:

- For the measurement period 2017, the subsidy multiplier for non-Medicare benefit recipients was reduced from 2.1% to 1.9% per year of service. Medicare Part B premium reimbursements were discontinued for certain survivors and beneficiaries and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2019.
- For the measurement period 2018, the subsidy multiplier for non-Medicare benefit recipients was increased from 1.9% to 1.944% per year for service effective January 1, 2019. The non-Medicare frozen subsidy base premium was increased effective January 1, 2019 and all remaining Medicare Part B premium reimbursements will be discontinued beginning January 1, 2020.
- For the measurement period 2019, there was no change to the claims cost process. Claims curves were trended to the fiscal year ending June 30, 2020 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2020 from 1.944% to 1.984% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2020. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed to January 1, 2021.
- For measurement year 2020, there was no change to the claims costs process. Claim curves were trended to the fiscal year ending June 30, 2021 to reflect the current price renewals. The non-Medicare subsidy percentage was increased effective January 1, 2021 from 1.984% to 2.055% per year of service. The non-Medicare frozen subsidy base premium was increased effective January 1, 2021. The Medicare subsidy percentages were adjusted effective January 1, 2021 to 2.1% for the AMA Medicare plan. The Medicare Part B monthly reimbursement elimination date was postponed indefinitely.
- For measurement year 2021, the non-Medicare subsidy percentage was increased effective January 1, 2022 from 2.055% to 2.10%. The non-Medicare frozen subsidy base premium was increased effective January 1, 2022. The Medicare Part D subsidy was updated to reflect it is expected to be negative in CY2022. The Part B monthly reimbursement elimination date was postponed indefinitely.
- For measurement year 2022, salary increase rates were updated based on the actuarial experience study for the period July 1, 2015 through June 30, 2021 and were changed from age-based to service-based.
- For measurement year 2023, healthcare trends were updated to reflect emerging claims and recoveries experience as well as benefit changes effective January 1, 2024.

TROY CITY SCHOOL DISTRICT
MIAMI COUNTY, OHIO
Notes to the Required Supplementary Information
For the Fiscal Year Ended June 30, 2025

NOTE C – OTHER POSTEMPLOYMENT BENEFITS (OPEB) PLANS (Continued)

Change in benefit and funding terms (continued):

- For measurement period 2024, health care trends were updated to reflect emerging claims and experience as well as benefit changes effective January 1, 2025. The larger Medicare trends for Years 2027 and 2028 reflect the assumed impact of the expiration of current Medicare Advantage contract on December 31, 2028.

Change in assumptions:

- For measurement year 2017, the discount rate was increased from 3.26% to 4.13% based on the methodology defined under GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans (OPEB), and the long-term expected rate of return was reduced from 7.75% to 7.45%. Valuation year per capita health care costs were updated, and the salary scale was modified. The percentage of future retirees electing each option was updated based on current data and the percentage of future disabled retirees and terminated vested participants electing health coverage were decreased. The assumed mortality, disability, retirement, withdrawal and future health care cost trends were modified along with the portion of rebated prescription drug costs.
- For measurement year 2018, the discount rate was increased from the blended rate of 4.13% to the long-term expected rate of return of 7.45% based on the methodology defined under GASB Statement No. 74. Valuation year per capita health care costs were updated.
- For measurement year 2021, the discount rate was adjusted to 7.00% from 7.45%.
- For measurement year 2022, healthcare trends were updated to reflect emerging claims and recoveries experience.

**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
2 CFR § 200.510(b)(6)
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Troy City School District (the School District) under programs of the federal government for the fiscal year ended June 30, 2025. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement.

NOTE C - INDIRECT COST RATE

The School District has elected not to use the 15-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE D - CHILD NUTRITION CLUSTER

The School District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the School District assumes it expends federal monies first.

NOTE E - FOOD DONATION PROGRAM

The School District reports commodities consumed on the Schedule at the entitlement value. The School District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Troy City School District
Miami County
500 North Market Street
Troy, Ohio 45373

To the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Troy City School District, Miami County, Ohio (the School District) as of and for the fiscal year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated March 18, 2026, wherein we noted the School District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences* and made a prior period error correction.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified a certain deficiency in internal control, described in the accompanying schedule of findings as item 2025-001 that we consider to be a material weakness.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

School District's Response to Finding

Government Auditing Standards requires the auditor to perform limited procedures on the School District's response to the finding identified in our audit and described in the accompanying schedule of findings and / or corrective action plan. The School District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Troy City School District
Miami County
500 North Market Street
Troy, Ohio 45373

To the Board of Education:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Troy City School District's, Miami County, Ohio (the School District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of Troy City School District's major federal programs for the fiscal year ended June 30, 2025. Troy City School District's major federal programs are identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, Troy City School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

The School District's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Troy City School District
Miami County
Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control
Over Compliance Required by the Uniform Guidance
Page 3

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**SCHEDULE OF FINDINGS
2 CFR § 200.515
JUNE 30, 2025**

1. SUMMARY OF AUDITOR'S RESULTS

(d)(1)(i)	Type of Financial Statement Opinion	Unmodified
(d)(1)(ii)	Were there any material weaknesses in internal control reported at the financial statement level (GAGAS)?	Yes
(d)(1)(ii)	Were there any significant deficiencies in internal control reported at the financial statement level (GAGAS)?	No
(d)(1)(iii)	Was there any reported material noncompliance at the financial statement level (GAGAS)?	No
(d)(1)(iv)	Were there any material weaknesses in internal control reported for major federal programs?	No
(d)(1)(iv)	Were there any significant deficiencies in internal control reported for major federal programs?	No
(d)(1)(v)	Type of Major Programs' Compliance Opinion	Unmodified
(d)(1)(vi)	Are there any reportable findings under 2 CFR § 200.516(a)?	No
(d)(1)(vii)	Major Programs (list):	Title I Grants to Local Educational Agencies (AL #84.010) COVID-19 Coronavirus State and Local Fiscal Recovery Funds (AL #21.027)
(d)(1)(viii)	Dollar Threshold: Type A/B Programs	Type A: > \$750,000 Type B: all others
(d)(1)(ix)	Low Risk Auditee under 2 CFR § 200.520?	Yes

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2025-001

Material Weakness – Accuracy of Financial Reporting

In our audit engagement letter, as required by AU-C Section 210, Terms of Engagement, paragraph .06, management acknowledged its responsibility for the preparation and fair presentation of their financial statements; this responsibility includes designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements free from material misstatement, whether due to fraud or error as discussed in AU-C Section 210 paragraphs .A14 & .A16. Governmental Accounting Standards Board (GASB) Cod. 1100 paragraph .101 states a governmental accounting system must make it possible both: (a) to present fairly and with full disclosure the funds and activities of the governmental unit in conformity with generally accepted accounting principles, and (b) to determine and demonstrate compliance with finance-related legal and contractual provisions.

The School District entered into a building construction project with the Ohio Facilities Construction Commission (OFCC) in May 2024. The agreement with the OFCC included a state share of the project costs in the amount of \$45,665,637. Upon entering into the agreement, the state share of the project costs became a receivable for the School District. However, the School District did not record a receivable related to the OFCC project on the fiscal year 2024 or 2025 financial statements. This resulted in the following material fiscal year 2025 financial statement errors that were adjusted:

- For governmental activities, net position at the beginning of the year was understated by \$45,665,637, intergovernmental receivable was understated by \$39,877,748, and grants provided for permanent improvement projects was overstated by \$5,787,889.
- For the OFCC construction project fund, intergovernmental receivable and deferred inflow - unavailable revenue was understated by \$39,877,748.

These financial statement errors were caused by the School District's lack of controls over monitoring of the annual financial report compilation process.

Failure to correctly account for all financial transactions could lead to material financial statement errors and users of the financial statements basing their conclusions on incorrect information.

The School District should establish and implement procedures to verify that financial information is accurately reported on the financial statements.

Officials' Response: Work with the GAAP Statement Compiler to make sure they are calculating the OFCC state share according to their full responsibility toward our project and that the calculation is correct and reported at the correct value.
