**NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS  
2 CFR 200.510(b)(6)  
FOR THE YEAR ENDED JUNE 30, 2025**

**NOTE A – BASIS OF PRESENTATION**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of Westlake City School District, Cuyahoga County, Ohio, (the District) under programs of the federal government for the year ended June 30, 2025. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, or changes in net position of the District.

**NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Uniform Guidance wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The District has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**NOTE C - CHILD NUTRITION CLUSTER**

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first

**NOTE D – FOOD DONATION PROGRAM**

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

## INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Westlake City School District  
Cuyahoga County  
24365 Hilliard Boulevard  
Westlake, Ohio 44145

To the Board of Education:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Westlake City School District, Cuyahoga County, (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 2, 2026, wherein we noted the District adopted new accounting guidance in Governmental Accounting Standards Board Statement 101, *Compensated Absences*.

### ***Report on Internal Control Over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

***Report on Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

***Purpose of This Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER  
COMPLIANCE AND ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED  
BY THE UNIFORM GUIDANCE**

Westlake City School District  
Cuyahoga County  
24365 Hilliard Boulevard  
Westlake, Ohio 44145

To the Board of Education:

**Report on Compliance for the Major Federal Program**

***Opinion on the Major Federal Program***

We have audited Westlake City School District's, Cuyahoga County, Ohio (the District) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on Westlake City School District's major federal program for the year ended June 30, 2025. Westlake City School District's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings.

In our opinion, Westlake City School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2025.

***Basis for Opinion on the Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for its major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

### ***Responsibilities of Management for Compliance***

The District's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

### ***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### **Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance**

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Westlake City School District, Cuyahoga County, Ohio (the District) as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated February 2, 2026, wherein we noted the District adopted new accounting guidance in Governmental Accounting Standards Board Statement 101, *Compensated Absences*. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is the responsibility of management and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

**February 2, 2026**

**Dear Members of the Board of Education and Citizens of the Westlake City School Community:**

We are pleased to submit to you the Annual Comprehensive Financial Report (ACFR) of the Westlake City School District (the “District”) for the fiscal year ended June 30, 2025. This ACFR includes an opinion from the State Auditor and conforms to accounting principles generally accepted in the United States of America as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rest with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. This report will provide the taxpayers of the Westlake City School District with comprehensive financial data in a format which will enable them to gain an understanding of the District’s financial affairs. Copies will be made available to the Porter Public Library, major taxpayers, financial rating services and other interested parties.

**The Reporting Entity**

The District has reviewed its reporting entity definition in order to ensure conformance with GASB Statement No. 14, “The Financial Reporting Entity” as amended by GASB Statement No. 39, “Determining Whether Certain Organizations Are Component Units” and GASB Statement No. 61, “The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34”. In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments and organizations making up the Westlake City School District (the primary government) and its potential component units. The District has no component units.

Excluded from the reporting entity because they are fiscally independent of the District are the City of Westlake, the Parent Teacher Organization, and West Shore Career Technical District.

The Ohio Schools Council Association and Connect are jointly governed organizations and the Porter Public Library is a related organization whose relationships to the District are described in Note 2, to the basic financial statements.

A complete discussion of the District’s reporting entity is provided in Note 2.A to the basic financial statements.

**Organizational Structure**

Statutorily, the District operates under the standard prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide educational services prescribed by State and Federal agencies. The Board of Education is made up of five members elected at large, for overlapping four-year terms. The Board of Education elects its President and Vice President annually, and appoints two officials: the Superintendent, who serves as the Chief Executive Officer (CEO), and the Treasurer, who serves as the Chief Financial Officer (CFO).

The District provides education to 3,198 students in grades kindergarten through twelfth. The District provides general education, special education and vocational type academic programs. The District’s enrollment has declined slightly over the past couple years but is projected to remain stable in the foreseeable future.

**The Westlake City School District**

The District, one of over 600 municipal, city, local and exempted village school districts in the State, provides education to students in grades PreK through 12. It is located in Cuyahoga County in northeastern Ohio, approximately 13 miles west of the City of Cleveland. The District’s territory encompasses the entire City of Westlake.

The District was originally part of Dover Township. Dover Township was organized as one school district. As the population grew, nine sub-districts were created, each serviced by a one-room school. In 1898, the Dover Public High School was organized and anyone graduating from the eighth grade in any of the sub-districts could attend that High School. In 1909, Dover Village, which is now the City of Westlake, incorporated and the first centralized school opened that fall. A bond issue was passed in 1917, allowing four rooms to be added to the rear of the school, doubling its size.

In 1923, a new high school was dedicated and the sub-districts were abandoned. Since that time, several new schools have been constructed, most recently an elementary school into which the prior four elementary schools were consolidated in 2019. There are four schools in the District - one high school (grades 9-12), one middle school (grades 7-8), one intermediate school (grades 5-6), and one elementary school (grades PreK- 4).

**Economic Condition and Outlook**

In the 2020 Census classifications, the District was placed in the Cleveland-Elyria-Mentor Metropolitan Statistical Area (MSA), comprised of the five counties of Cuyahoga, Geauga, Lake, Lorain and Medina. It was also in the Cleveland-Akron Consolidated Statistical Area (CSA). Only limited statistics are now available for the MSA and CSA.

The District’s population as of April 1, 2020 was 34,228. The U.S. Census Bureau estimates that the District’s population was 34,036 as of July 1, 2024 (see **Demographic and Economic Statistics** in the Statistical Section of the ACFR). Its area is approximately 15.9 square miles. Land use, as measured by the assessed value of real property, is presented in the following table.

| Percent of Assessed<br>Valuation of Real Property |        |
|---------------------------------------------------|--------|
| Residential                                       | 76.50% |
| Commercial/Industrial                             | 21.39  |
| Public Utility                                    | 2.11   |

The District’s general area is served by diversified transportation facilities, including three State and one U.S. highway and I-80, I-480 and I-90 (located within the City). It is served by Norfolk and Southern Railroad and is adjacent to areas served by Conrail and Amtrak and is also served by passenger air services at Cleveland Hopkins International Airport located seven miles from the City and by Burke Lakefront Airport located 15 miles from the City. Public mass transit for the area is provided by the Greater Cleveland Regional Transit Authority.

Banking and financial services are provided to the District area by offices of numerous commercial banks and savings and loan associations, all of which have their principal offices elsewhere.

One daily newspaper (online daily, printed four days per week) and two weekly newspapers serve the District. The District is within the broadcast area of numerous television stations and AM and FM radio stations. Multichannel cable TV service, including educational, governmental and public access channels, is provided by AT&T U-verse, Spectrum (formerly known as Time Warner Cable) and Breezeline (formerly Wide Open West) Cable.

A total of 28 Ohio Hospital Association member hospitals serve the County. Hospitals serving the District's area include St. John Medical Center, which is located in the District (and affiliated with University Hospitals of Cleveland), Fairview Hospital (located nine miles southeast of the District and affiliated with the Cleveland Clinic) and the main offices of the Cleveland Clinic and University Hospitals (located in the City of Cleveland).

Within commuting distance are several public and private two-year and four-year colleges and universities, including Baldwin Wallace University, Case Western Reserve University, the Cleveland Institute of Art, the Cleveland Institute of Music, Cleveland State University, Cuyahoga Community College, John Carroll University, Kent State University, Lakeland Community College, Lorain County Community College, Oberlin College, the University of Akron and Ursuline College.

The District is served by varied recreational facilities. The City currently operates park sites in six locations, including a park (Tri-City) that is managed with two other cities (the Cities of Rocky River and Fairview Park) and Porter Fields which utilizes unused cemetery land for two rectangular fields. The two large community parks are Recreation Center Park near the center of the City which houses the City's Recreation Center and Clague Park (and the adjacent Clague Playhouse area) in the eastern side of the City. The City also provides neighborhood parks in the northern part of the City (Roman Park) and in the southwestern part of the City (Bradley Nature Park).

In addition to the facilities offered by the City, the Cleveland Metroparks manages the Bradley Woods Reservation, a large, primarily passive park at the southwestern edge of the District. Many of the schools in the District also provide playgrounds, athletic fields, and courts that can be used by the public when schools are not in session. Private organizations, including St. John Medical Center, also provides some soccer fields and other facilities for use by the public. Additionally, a park is operated by a Homeowners Association in the northwestern part of town, and a playground is available for public use in Crocker Park.

Additionally, the City purchased an existing nine-hole golf course in 1988 and also purchased, in 1990, an adjacent 18-hole golf course, which was reconfigured to create a 27-hole golf course that the City operates as Meadowood Golf Course.

The City opened its Recreation Center to the public in November 1998. The Recreation Center includes a recreation building with an aquatic room housing five pools, a diving well, spectator seating, a family locker room, and men's and women's locker facilities. The pool area opens onto an outdoor terrace for summer use. The gymnasium contains two regulation basketball courts with optional use as four smaller basketball or volleyball and pickleball courts. There is also a one-twelfth-mile, three lane running/walking track on the mezzanine level. Also included are a lobby and snack area overlooking the pool, an aerobics/multi-purpose room, an exercise and fitness room, an arts and crafts room, a babysitting facility, staff offices and meeting space, and a community room with an associated warming kitchen. The Recreation Center is situated on a 93-acre park-like setting, including two full-size soccer fields, three smaller soccer fields, two softball/baseball diamonds, five tennis courts, a sledding hill and an extensive paved path for biking, jogging, walking, and rollerblading. A concession/restroom building serves users of the playing fields. The new 25,000 square foot Community Services Center is located on the site of the Recreation Center and opened in July 2021.

The City closed its Peterson Pool at Clague Park in 2018 as construction began on the transformation of the Pool into a Family Aquatic Center. The project included clearing the site of the former Peterson Pool and constructing, furnishing and equipping a new Aquatic Center on, and clearing, equipping and improving, the site, including construction of new bath house and concession stand buildings, a lazy river, multiple water features, splash pad, spray cannons, fountains, waterfalls and jets. Construction was completed in May 2019.

Other recreational and community assets in the PMSA include four professional sports teams offering year-round entertainment at different locations in the PMSA, and the Cleveland Metroparks System (Metroparks), which consists of nearly 19,000 acres of natural beauty with many scenic, historic and geologic features in Cuyahoga, Lorain and Medina Counties. Over 100 miles of parkways provide easy access to the Metroparks facilities designed in accordance with the park's conservation goals: wildlife management areas and waterfowl sanctuaries; picnic areas and playfields; hiking, bridle, all-purpose and physical fitness trails; six golf courses; swimming, boating and fishing areas; stables; tobogganing, sledding, skating and cross-country skiing areas; and four nature centers offering nature exhibits and programs. A principal asset of the Metroparks is the Cleveland Zoo counting over 3,000 animals occupying 165 rolling, wooded acres, and which is accredited by the American Association of Zoological Parks and Aquariums.

## Major Initiatives

For the current academic school year, 3,198 students were enrolled in grades PreK-12 the District's four schools (one elementary school, one intermediate school, one middle school, and one high school), which figure includes School District residents attending classes at the West Shore Career Technical District.

The District operates a variety of non-classroom facilities that consist of athletic fields, an administration facility and a transportation depot.

The high school curriculum offers a wide range of electives and comprehensive courses of study in college preparatory, vocational and physical education programs. A full range of extracurricular programs and activities are available, beginning in the elementary grades. All District schools have libraries, lunch programs, and multipurpose rooms or gyms for student activities.

Approximately 84.9% of the teaching staff have master's degrees. The District's faculty has an average of 20 years of teaching experience, compared to the statewide average of 15.8 years (as of Fiscal Year 2025).

Classroom teachers at all levels are supported by specialists in reading, guidance, technology, library services, art, music and physical education. Aides are employed on an as-needed basis to support programming requirements. Nurses, psychologists, aides assisting at-risk and disabled students, and speech pathologists are employed to work with students at all levels. The District's Pupil Personnel Services program includes school health and psychological services, pupil appraisal, counseling and guidance services, special education services, and speech-language and hearing services. Guidance counselors are available at the elementary, intermediate, middle school, and high school levels.

The District is one of the school districts in the West Shore Career Technical District (West Shore Career Tech), which also includes the Bay Village, Rocky River, and Lakewood City School Districts. This workforce program has approximately 415 full-time and part-time students including 33 part-time students from the School District (during the 2024-25 school year), enrolled in either a two-year intensive training or one-year work/study program.

The District is characterized by high academic performance. Students consistently score well above the state average at the third through high school levels on the State achievement tests. The High School students score above the National and State averages on the SAT and the ACT tests, as discussed further below. The High School consistently ranks among the top school districts for the annual number of commended, semi-finalist and finalist categories in the National Merit Scholarship competition. In 2024, the High School had 7 National Merit Finalists, 7 students identified as National Merit Semi-finalists and an additional 8 students were named as National Merit Commended Scholars. During the 2024/25 school year, the High School had 142 students designated as an AP Scholar. Within that 142, 67 qualified as AP Scholars with Distinction. Finally, the High School students are responsible for completing 20 hours of Service-Learning activities as a requirement for graduation. Each graduating class typically accrues in excess of 5000 hours of community service as part of our graduation program.

The District's educational program includes these attributes and accomplishments, among others:

### Strong Academic Profile

- The High School offers 26 Advanced Placement (AP) courses and 30 honors courses in a variety of disciplines.
- In 2025, over 170 students earned college credit through the College Credit Plus program. The High School currently offers college level courses in English, Psychology and Sociology on our campus.
- High School students regularly perform above state averages on the SAT and ACT examinations. The Class of 2024's average ACT score was 24.5 and average SAT score was 1092, each of which was above National and State averages.
- The District offers an introductory second language learning program at the elementary level to provide students with a foundation for future learning of second and/or third languages. This begins with our kindergarten students. At the intermediate level, students are given the option to continue with the language they studied at the elementary level or to explore another language. At the middle and high school levels, students are given a choice of languages to study.
- The High School offers more than 30 visual arts and music courses.
- Middle School students are offered high school credit courses in Spanish, French, Algebra I, Honors Geometry, and Honors Algebra II. In Fiscal Year 2025, 145 high school credits earned during the academic year, 103 in World Language, 15 in Honors Geometry, 79 in Algebra I, and 0 in Algebra II.
- Among the District's 2024 graduates, 94% enrolled in higher education, with 79% attending four-year colleges and 15% attending two-year colleges.
- The High School television station, WHBS-TV, provides students with a unique opportunity to experience a working television studio and we added a digital design component.

- The District offers 26 different opportunities to participate in interscholastic sports in grades 7-12. More than 850 students participate in at least one sport per year.
- The District has 11 school counselors and 2 social workers that provide SEL services to our students.

### **Awards and Recognition**

- The “Top 20” students in the senior class were offered over \$1.2 million dollars in scholarship money.
- Select students regularly participate in the Ohio Music Education Association (OMEA) Contests. During the 2024 school year we had 2 all state band performers. Additionally, we had 35 students receive superior ratings for solo or ensemble.
- In 2024, 80 students were selected as members of the National English Honor Society at High School - the 4th chapter in Ohio.
- In 2024, the High School was named one of the top 100 high schools in Ohio by the U.S. News and World Report. Ranking in the top 1000 Nationally.
- In the 2024/25 school year, Westlake High School Athletic Teams won 8 Conference titles. We also had multiple students qualify individually for State contests in track, cross country, tennis and wrestling.
- The students in the Middle School’s Intervention Specialist classes participated in numerous service, learning projects in the community.
- During the 2024 school year, the District’s Science Olympiad Teams qualified to compete in the Ohio State Championships.

In addition, the District continues to participate in several partnerships with the City of Westlake. Currently, the Intermediate School students plant a garden with support from the Westlake Garden Club and donate the food to Westlake assistance for our residents to enjoy. Our High School students work with the city on numerous volunteer projects throughout the year assisting everyone from youngest members of the community to our senior citizens.

The Board has established a community information program that includes a communications office, informational newsletters to residents and staff and community surveys.

Community News: The District has several avenues of communication, including print and email newsletters, to deliver news and information about the District to City residents, including:

- *Key Communiqué* – an e-newsletter that is distributed at least once a month during the school year to provide the latest news and upcoming event information for the District. Anyone can subscribe to this e-newsletter.
- News Releases – individual news items sent to the local media about contests, photo opportunities, upcoming events, or general informational messages.

Employee News: The District offers different tools to communicate with staff on a range of topics, including *ParentSquare*, a unified communication platform for K-12 schools, connecting districts, schools, teachers, students, and parents through a single, secure system for information sharing, collaboration, and engagement, offering features like alerts and direct messaging.

Website: The District website is a comprehensive source of information about the District. Users of the site can access information on news from the schools and various departments, teacher web sites, athletic information, and upcoming events. Parents are granted access to the District’s Power School program for online access to student grades and other information posted by teachers.

### **State “Report Card” Designations**

The Ohio General Assembly amended Ohio’s accountability law in the summer of 2021. Schools and districts now receive an overall rating and star ratings for five components. Districts and schools receive an overall rating of 1 (lowest) to 5 (highest) stars in half-star increments. The State evaluates and measures the performance of its school districts and their individual schools and annually reports the results to the public. The State measured and reported on the following performance components for all of its school districts and each of their individual schools: (a) Achievement (measures students academic achievement using each level of performance on Ohio’s State Tests), (b) Progress (measures the academic performance of students compared to expected growth on Ohio’s State Tests), (c) Gap Closing (measuring how well a school district or school is doing in narrowing gaps in reading, math and graduation rate among students according to socioeconomic, racial, ethnic or disability status), (d) Graduation Rate (measuring the percentage of students who entered the 9th grade and graduated in four and five years), (e) Early Literacy (measuring the improvement in reading for students in kindergarten through 3rd grade) and (f) College, Career, Workforce and Military Readiness (how well-prepared Ohio’s students are for all future opportunities).

Further information relating the State's methodology of evaluating and measuring the performance of its school districts and their individual schools, as well as the results from year to year (including the results of the performance of the School District and its individual schools), may be obtained from the Ohio Department of Education & Workforce. In the District's view, while changes in results from year to year may be based in part upon the District's educational efforts and the concomitant educational attainment or achievement of the District's students, changes may also be reflective of changes in the State's grading methodology, criteria and standards.

### **Long-Term Financial Planning**

As part of the District's long-term planning, the CFO prepares a five-year financial forecast which is ultimately approved by the Board of Education and filed with the Ohio Department of Education. This document provides a snapshot of historical and projected revenues and expenses over the next five years and is accompanied by financial assumption notes. The Board of Education reviews this document on a quarterly basis for changes that might impact their financial decisions.

### **Financial Policies Impacting the Financial Statements**

During fiscal year 2015, the District advance refunded \$57,165,000 of Build America Bonds. This advance refunding was undertaken to reduce the combined total debt service payments by \$2,110,668 and resulted in an economic gain of \$1,093,350. During fiscal year 2022, the District closed a \$78,045,000 bond refunding in October 2021 to reduce the combined total debt service payments by \$10,263,529 and resulted in an economic gain of \$8,276,446. No debt refunding's took place in fiscal years 2016-2021 or in fiscal years 2023-2025. The District is constantly evaluating options for the refunding of debt in an effort to save on future interest charges.

### **Financial Information**

#### ***Internal Accounting and Budgetary Control***

In developing the District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance that the financial statements are free of any material misstatements. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual audit of each voucher prior to payment, ensures the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Fiscal Officer of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year. Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Fiscal Officer must certify that the Board of Education's appropriation measure, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund, function and object level for all funds. All purchase order requests must be approved by either the Superintendent or the Assistant Superintendent and certified by the CFO/Treasurer; necessary funds are then encumbered and purchase orders are released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Each administrator and school principal is furnished with monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site. The basis of accounting and the various funds utilized by the District are fully described in Note 2 of the basic financial statements. Additional information on the District's budgetary accounting can also be found in Note 2.

### ***Financial Presentation***

The District's basic financial statements consist of the following:

***Government-wide financial statements:*** These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish those activities of the District that are governmental in nature.

***Fund financial statements:*** These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

***Notes to the basic financial statements:*** The notes provide additional information that are essential to a full understanding of the data provided in the government-wide and fund financial statements.

Management is responsible for preparing a Management Discussion and Analysis (MD&A) of the District. This discussion follows the Independent Auditor's Report, providing an assessment of the District's finances for fiscal year 2024 and a discussion of current issues affecting the District in the future. The MD&A should be read in conjunction with this letter of transmittal.

### **Independent Audit**

State statutes require the District to be subjected to an annual examination by an independent auditor. An annual audit serves to maintain and strengthen the District's accounting and budgetary controls. Independent auditor Keith Faber, Auditor of State, was selected to render an opinion on the District's financial statements as of and for the year ended June 30, 2025. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all school governments in Ohio. The District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

### **Awards**

#### ***GFOA Certificate of Achievement***

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Westlake City School District for its ACFR for the fiscal year ended June 30, 2024. The Certificate of Achievement is the highest form of recognition in the area of governmental financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized ACFR, whose contents conform to program standards. Such a report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

## Acknowledgments

The publication of this document is a significant step in documenting the District's financial position and provides both transparency and accountability to the residents of the Westlake City School District.

The preparation of this report would not have been possible without the assistance and support of the staff of the CFO/Treasurer's office, as well as various administrators and staff members of the District. In addition, assistance from the County Fiscal Officer's staff and other outside agencies made possible the fair presentation of statistical data.

Appreciation is also expressed to the accounting firm of Julian & Grube, Inc. for assistance in planning, designing and reviewing this financial report.

Finally, sincere appreciation is extended to the Board of Education for their support on this project.

Respectfully Submitted,

## INDEPENDENT AUDITOR'S REPORT

Westlake City School District  
Cuyahoga County  
24365 Hilliard Boulevard  
Westlake, Ohio 44145

To the Board of Education:

### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Westlake City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Westlake City School District, Cuyahoga County, Ohio as of June 30, 2025, and the respective changes in financial position thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Emphasis of Matter**

As discussed in Note 3 to the financial statements, during 2025, the District adopted new accounting guidance in Governmental Accounting Standards Board (GASB) Statement No. 101, *Compensated Absences*. Our opinion is not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, required budgetary comparison schedule, and schedules of net pension and other post-employment benefit liabilities and pension and other post-employment benefit contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual financial report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we will also issue our report dated February 2, 2026, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025  
(UNAUDITED)**

The management's discussion and analysis of the Westlake City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2025. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

**Financial Highlights**

Key financial highlights for 2025 are as follows:

- In total, net position of governmental activities increased \$2,004,885 which represents a 9.15% increase from 2024's net position.
- General revenues accounted for \$66,673,898 in revenue or 89.65% of all revenues. Program specific revenues in the form of charges for services and sales and operating grants and contributions accounted for \$7,696,099 or 10.35% of total revenues of \$74,369,997.
- The District had \$72,365,112 in expenses related to governmental activities; only \$7,696,099 of these expenses were offset by program specific charges for services and sales and operating grants and contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$66,673,898 were adequate to provide for these programs.
- The District's major governmental funds are the general fund and bond retirement fund. The general fund had \$60,903,432 in revenues and \$74,615,067 in expenditures and other financing uses. During fiscal 2025, the general fund's fund balance decreased \$13,711,635 from a balance of \$35,373,489 to \$21,661,854.
- The bond retirement fund had \$7,427,021 in revenues and \$6,737,554 in expenditures. During fiscal 2025, the bond retirement fund's fund balance increased \$689,467 from \$10,032,030 to \$10,721,497.

**Using the Basic Financial Statements**

This annual report consists of a series of financial statements and notes pertaining to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net position* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund and bond retirement fund are by far the most significant funds, and the only governmental funds reported as major funds.

**Reporting the District as a Whole**

**Statement of Net Position and the Statement of Activities**

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2025?" The statement of net position and the statement of activities answer this question. These statements include *all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net position and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, and food service operations.

**Reporting the District's Most Significant Funds**

**Fund Financial Statements**

The analysis of the District's major governmental funds begins on page 13. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and the bond retirement fund.

**Governmental Funds**

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund financial statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net position and the statement of activities) and governmental *funds* is reconciled in the basic financial statements.

**Reporting the District's Fiduciary Responsibilities**

The District's fiduciary activities are reported in separate statement of net position and statement of changes in fiduciary net position. The District's fiduciary activities account for activity related to Westlake Alumni Organizations. This activity is reported in a custodial fund. This activity is excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

**Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Required Supplementary Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budgetary comparison schedule, net pension liability, and OPEB liability/asset.

**The District as a Whole**

The statement of net position provides the perspective of the District as a whole. For the following table, amounts for 2025 have been presented in accordance with the provisions of GASB Statement No. 101 (see Note 3.C in the notes to the basic financial statements) while amounts for 2024 have been presented in accordance with previous guidance. The table below provides a summary of the District's net position at June 30, 2025 and June 30, 2024.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025  
(UNAUDITED)**

The net pension liability is reported pursuant to Governmental Accounting Standards Board (GASB) Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27." The net other postemployment benefits (OPEB) liability/asset is reported pursuant to GASB Statement 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and OPEB, the net pension liability, and the net OPEB liability to the reported net position and subtracting deferred outflows related to pension and OPEB and the net OPEB asset.

GASB standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. Prior accounting for pensions (GASB 27) and postemployment benefits (GASB 45) focused on a funding approach. This approach limited pension and OPEB costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability* or *net OPEB liability*. GASB 68 and GASB 75 take an earnings approach to pension and OPEB accounting; however, the nature of Ohio's statewide pension/OPEB plans and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

GASB 68 and GASB 75 require the net pension liability and the net OPEB liability/asset to equal the District's proportionate share of each plan's collective:

1. Present value of estimated future pension/OPEB benefits attributable to active and inactive employees' past service.
2. Minus plan assets available to pay these benefits.

GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the retirement system. In Ohio, there is no legal means to enforce the unfunded liability of the pension/OPEB plan *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The retirement system is responsible for the administration of the pension and OPEB plans.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68 and GASB 75, the District's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability and net OPEB liability/asset, respectively, not accounted for as deferred inflows/outflows.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025  
(UNAUDITED)**

Over time, net position can serve as a useful indicator of a government's financial position. At June 30, 2025, the District's assets plus deferred outflows exceeded liabilities plus deferred inflows by \$23,913,047. Of this total, \$16,246,799 is restricted in use.

Current and other assets increased due to an increase in equity in pooled cash and cash equivalents due to current year operations and an increase in property taxes receivable due to the District expecting to receive increased collections.

At year-end, capital assets represented 54.40% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment, vehicles, intangible right to use computer software, and textbooks and library books. Net position invested in capital assets at June 30, 2025, was \$39,088,968. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

Current liabilities increased primarily due to an increase in accrued wages and benefits payable at year-end. This amount can fluctuate based upon payroll cycles. The accrued wages at June 30, 2024 were lower than the amounts previously reported at June 30, 2023 and June 30, 2022. The accrued wages at June 30, 2025 is comparable to the amounts previously reported at June 30, 2023 and June 30, 2022.

Long-term liabilities decreased primarily due to the District making its required debt payments and a decrease in the net pension liability. The decrease in the net pension liability is outside of the control of the District. The District contributes its statutorily required contributions to the pension systems; however, it's the pension systems that collect, hold and distribute pensions and OPEB to the District employees, not the District.

Deferred inflows related to pension increased as described above. See Note 13 for more information on the District's net pension liability and the District's related deferred inflows.

A portion of the District's net position, \$16,246,799, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position is a deficit of \$31,422,720.

The graph below illustrates the District's governmental activities assets plus deferred outflows, liabilities plus deferred inflows and net position at June 30, 2025 and 2024.

During 2025, the District implemented GASB Statement No. 101 (see Note 3.C in the notes to the basic financial statements). For the table below, the implementation has been reported as a change in accounting principle. The table that follows shows the change in net position for fiscal years 2025 and 2024.

**Governmental Activities**

Net position of the District's governmental activities increased \$2,004,885. Total governmental expenses of \$72,365,112 were offset by program revenues of \$7,696,099 and general revenues of \$66,673,898. Program revenues supported 10.64% of the total governmental expenses. The primary sources of revenue for governmental activities are derived from property taxes, payments in lieu of taxes, and grants and entitlements. These revenue sources represent 85.73% of total governmental revenue.

Operating grants and contributions decreased primarily due to decreased federal grant funding due to the District utilizing the majority of the Elementary and Secondary School Emergency Relief (ESSER) funding in the prior fiscal year.

Property tax revenue decreased due to fluctuations in the amount of property taxes collected and available as advance at year end. These amounts are recognized as revenue in the fiscal year the District could draw on these advances rather than when cash is received. The amounts that were available as advance were \$3,751,818, \$5,023,134, and \$4,667,425 at June 30, 2025, 2024, and 2023, respectively. Fluctuations in the amount of property taxes collected and available for advance can vary depending upon when tax bills are sent and will affect the year in which property tax revenues are recognized.

Grants and entitlements increased as the District received more money from the State of Ohio in the form of foundation payments.

Investment earnings increased due to the reporting of an increase in the District's fair value of investments. GAAP requires certain investments to be reported at fair value rather than cost. Fluctuations in the fair value of investments are reported as an increase (decrease) in fair value of investments. The fair value of investments has decreased as interest rates continue to rise. The District intends to hold all investments to maturity thus eliminating the risk of fluctuations in fair value. The increase in the District's fair value of investments is reported as a component of investment earnings in the table above.

Overall, expenses of the governmental activities increased \$4,028,473 or 5.90%. Regular and special instruction expenses increased due to normal salary and benefit increases. Operations and maintenance expenses increased due to the District having more maintenance projects during the year. Pupil expenses increased due to an increase in expenses related to costs per each student. Pupil transportation expense increased due to an increase in transportation costs.

Other instruction expenses increased due to a change in the State of Ohio's funding formula for where kids that were open enrolled to other schools. Under the new formula, funding goes directly to the school where the open enrolled student attends rather than being passed through the District.

The graph below presents the District's governmental activities revenue and expenses for fiscal year 2025 and 2024.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

The dependence upon tax and other general revenues for governmental activities is apparent, as 94.40% of instruction activities are supported through taxes, grants and entitlements and other general revenues. For all governmental activities, general revenue support is 89.36%. Taxes and unrestricted grants and entitlements from the State of Ohio, as a whole, are by far the primary support for the District's students. The graph below presents the District's governmental activities revenue for fiscal year 2025 and 2024.

Overall revenues of the general fund decreased \$56,930 or 0.09%.

Property and other taxes revenue decreased due to fluctuations in the amount of property taxes collected and available as advance at year end. These amounts are recognized as revenue in the fiscal year the District could draw on these advances rather than when cash is received. The amounts that were available as advance were \$3,751,818, \$5,023,134, and \$4,667,425 at June 30, 2025, 2024, and 2023, respectively. Actual general fund property tax receipts (cash-basis) for fiscal year 2025 and 2024 were \$47,289,919 and \$45,922,082, respectively.

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025  
(UNAUDITED)**

Tuition and fee revenue increased due to open enrollment. Investment earnings increased due to the reporting of an increase in the District's fair value of investments. GAAP requires certain investments to be reported at fair value rather than cost. Fluctuations in the fair value of investments are reported as an increase (decrease) in fair value of investments. The fair value of investments has decreased as interest rates continue to rise. The District intends to hold all investments to maturity thus eliminating the risk of fluctuations in fair value. The increase in the District's fair value of investments is reported as a component of investment earnings in the table above. Intergovernmental receipts increased due to the District receiving more money from the State of Ohio in the form of foundation payments.

Expenditures for instruction and support services increased due to normal and customary wage and benefit increases. In addition, the District had more staff in fiscal 2025 versus fiscal 2024. Facilities acquisition and construction decreased as the District had less repairs in fiscal year 2025. All other expenditures remained comparable to the prior fiscal year or changed an insignificant amount.

***Bond Retirement Fund***

The bond retirement fund had \$7,427,021 in revenues and \$6,737,554 in expenditures. During fiscal 2025, the bond retirement fund's fund balance increased \$689,467 from \$10,032,030 to \$10,721,497.

***General Fund Budgeting Highlights***

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2025 the District amended its general fund budget several times. For the general fund, final budgeted revenues and other financing sources were \$58,560,332, which was the same as original budgeted revenues and other financing sources estimate of \$58,560,332. Actual revenues and other financing sources for fiscal 2025 were \$61,777,175. This is an increase of \$3,216,843 from final budgeted revenues and other financing sources which is primarily due to conservative budgeting of property tax receipts and intergovernmental receipts from the State of Ohio.

General fund original appropriations (appropriated expenditures plus other financing uses) of \$62,086,598 were increased to \$73,462,247 in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2025 totaled \$73,405,872, which was \$56,375 lower than the final budget appropriations.

**Capital Assets and Debt Administration**

***Capital Assets***

At the end of fiscal 2025, the District had \$127,867,221 invested in land, land improvements, buildings and improvements, furniture and equipment, vehicles, and intangible right-to-use computer software. This entire amount is reported in governmental activities.

The overall decrease in capital assets of \$3,323,657 is primarily due to depreciation of \$4,112,850 exceeding additions of \$789,193.

See Note 9 to the basic financial statements for additional information on the District's capital assets.

***Debt Administration***

At June 30, 2025, the District had \$86,316,381 in general obligation bonds (the issue is comprised of serial bonds, term bonds, sinking fund bonds and capital appreciation bonds) outstanding. Of this total, \$3,780,000 is due within one year and \$82,536,381 is due in more than one year. The following table summarizes the bonds outstanding:

**MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025  
(UNAUDITED)**

**Current Financial Related Activities**

The Westlake Board of Education and administration closely monitors revenues and expenditures in accordance with its financial forecast and annual appropriations, which provides a roadmap for District achievement and performance measurement. This monitoring process has historically been affirmed by the rating agencies of Moody's and Standard and Poor's.

The financial future of the District is not without its internal as well as external challenges. In the foreseeable future, the internal challenge will remain as long as the District is required to rely on local property taxes to fund its operations. External challenges continue to evolve as the District absorbs additional unfunded mandates and struggles with the State of Ohio who has yet to fully implement an adequate solution to the State's educational funding system.

The District has projected continued growth in State revenues, due to the partial implementation of the State funding model and the recent change in law setting a minimum State share (of the fair school funding model) percentage at 10%. With approximately 85 percent of general fund revenues being derived from local sources, one can see the significant impact these changes will have on the District and ultimately, the residential taxpayers.

Community support for the District remains solid. In May of 2000, the Westlake voters had passed a 5.5 mill replacement levy, which helped fund the general operations and permanent improvements of the District over the last several years. In addition, the community overwhelmingly passed a bond issue in late 2002 to support the construction of a new district Performing Arts center. In May of 2006, the community passed a 6.9 mill continuing levy for general operations. In May of 2010, the community overwhelmingly passed a 3.4 mill bond issue to support phase I of its capital improvement plan. Most recently, in November of 2016, the community approved a 1.3 mill bond issue to replace the four aging elementary schools with one new elementary campus and 0.8 mill continuing permanent improvement levy.

As a result of the challenges mentioned above, it will be imperative that management continues to carefully and prudently manage their finances to meet community expectations and provide the facilities and resources required to meet student needs over the next several years. The Westlake community understands the income generated by local levies remains relatively constant, thereby forcing the District to come back to the voters from time to time asking for additional support. The District continues to communicate to the community the reliance upon their support for the majority of its operations and will continue to work diligently to plan expenses, staying carefully within the District's financial five-year plan.

In summary, the District has committed itself to financial and educational excellence for many years to come. The District has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting since 1993 and several State Auditor Awards for financial distinction. Educationally, the District continues to rank among the top schools in Ohio for educational excellence receiving high performance designations by the Ohio Department of Education and Workforce.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025

**Net change in fund balances - total governmental funds** \$ (1,960,190)

*Amounts reported for governmental activities in the statement of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation/amortization expense.

|                                        |             |                    |
|----------------------------------------|-------------|--------------------|
| Capital asset additions                | \$ 789,193  |                    |
| Current year depreciation/amortization | (4,112,850) |                    |
| <b>Total</b>                           |             | <b>(3,323,657)</b> |

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

|                           |           |                |
|---------------------------|-----------|----------------|
| Delinquent property taxes | 630,845   |                |
| Earnings on investments   | (16,517)  |                |
| Intergovernmental         | (435,587) |                |
| <b>Total</b>              |           | <b>178,741</b> |

Repayment of bond and SBITA principal is an expenditure in the funds, but the repayment reduces long-term liabilities on the statement of net position. 3,580,695

In the statement of activities, interest is accrued on outstanding bonds, whereas in the funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities:

|                                                 |           |                  |
|-------------------------------------------------|-----------|------------------|
| (Increase) in accrued interest payable          | (3,943)   |                  |
| Accreted interest on capital appreciation bonds | (605,591) |                  |
| Amortization of bond premiums                   | 428,219   |                  |
| Amortization of deferred charges                | (170,112) |                  |
| <b>Total</b>                                    |           | <b>(351,427)</b> |

Contractually required contributions are reported as expenditures in the funds; however, the statement of net position reports these amounts as deferred outflows.

|              |           |                  |
|--------------|-----------|------------------|
| Pension      | 5,404,035 |                  |

| <b>Total</b> |           | <b>5,582,570</b> |

Except for amounts reported as deferred inflows/outflows, changes in the net pension/OPEB liability/asset are reported as pension/OPEB expense in the statement of activities.

|              |             |                    |
|--------------|-------------|--------------------|
| Pension      | (2,721,792) |                    |

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT**

Westlake City School District (the “District”) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District operates under a locally-elected five-member Board form of government. The District is located in Westlake, Ohio, Cuyahoga County. The Board of Education controls the District’s four instructional facilities. The District employs (full and part-time) 295 professional staff members and 260 non-teaching and support staff employees who provide services to 3,198 students and other community members.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District’s accounting policies are described below.

**A. Reporting Entity**

The reporting entity has been defined in accordance with GASB Statement No. 14, “The Financial Reporting Entity” as amended by GASB Statement No. 39, “Determining Whether Certain Organizations Are Component Units” and GASB Statement No. 61, “The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34”. The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization’s Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization’s resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government’s financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

The following organizations are described due to their relationship to the District.

*RELATED ORGANIZATION*

Porter Public Library

The Porter Public Library (the “Library”) is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Westlake City School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Fiscal Officer, Porter Public Library, 27333 Center Ridge Road, Westlake, Ohio 44145.

*JOINTLY GOVERNED ORGANIZATIONS*

Connect

Connect is a jointly governed organization serving twenty-four school districts and two educational service centers. Connect was organized pursuant to Ohio Revised Code Chapter 167 as a regional council of governments for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among the member districts. Connect operates as an information technology center pursuant to ORC 3301.075. Each of the governments of these schools supports Connect based on a per pupil charge dependent upon the software packages used. The District contributed \$111,697 to Connect during fiscal year 2025. Connect is governed by a four-member Board of Directors consisting of the Superintendent of the Educational Service Center of Northeast Ohio, the Superintendent of the Educational Service Center of Lorain County, the Superintendent of the Educational Service Center of Medina County, and the Executive Director of the Ohio Schools Council. Financial information can be obtained by contacting the Treasurer at the Educational Service Center of Northeast Ohio, who serves as fiscal agent, at 5700 West Canal Road, Valley View, Ohio 44125.

Ohio Schools Council Association

The Ohio Schools' Council Association (Council) is a jointly governed organization among 302 school districts, educational service centers, joint vocational districts, and Developmental Disabilities boards in 43 Ohio counties. The jointly governed organization was formed to bring quality products and services at the lowest possible cost to the member districts. The Council's Board consists of seven superintendents of the participating districts whose terms rotate every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2025, the District paid \$2,259 to the Council for general program and safety program annual membership. Financial information can be obtained by contacting William J. Zelei, the Executive Director of the Ohio Schools' Council at 6393 Oak Tree Blvd., Suite 377, Independence, Ohio 44131.

The District participates in the natural gas purchase program. This program allows the District to purchase natural gas at reduced rates. Compass Energy has been selected as the supplier and program manager. There are currently over 180 program members in the program. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). School districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and school districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

The District participates in the Council's Power4Schools electric purchase program. This program allows school districts to purchase electricity at reduced rates, if the school districts will commit to participating in the program for either a two-year period or an eight and one-half year period depending upon electric generation area. There are approximately 170 program members in the program. FirstEnergy Solutions has been selected as the supplier for the program. The participants make monthly payments based on estimated usage. Each June these estimated payments are compared to the actual usage for the year and any necessary adjustments are made.

*INSURANCE PURCHASING POOL*

Suburban Health Consortium

The Suburban Health Consortium (the "Consortium") is a shared health risk pool created on October 1, 2001, formed by the Boards of Education of several school districts in northeast Ohio, for the purposes of maximizing benefits and/or reducing costs of group health, life, dental and/or other insurance coverages for their employees and the eligible dependents and designated beneficiaries of such employees. The Consortium was formed and operates as a legally separate entity under Ohio Revised Code Section 9.833. The Board of Directors shall be the governing body of the Consortium. The Board of Education of each Consortium Member shall appoint its Superintendent or such Superintendent's designee to be its representative of the Board of Directors. The officers of the Board of Directors shall consist of a Chairman, Vice-Chairman and Recording Secretary, who shall be elected at the annual meeting of Board of Directors and serve until the next annual meeting. All of the authority of the Consortium shall be exercised by or under the direction of the Board of Directors. The Board of Directors shall also set all premiums and other amounts to be paid by the Consortium Members, and the Board of Directors shall also have the authority to waive premiums and other payments. All members of the Board of Directors shall serve without compensation.

The Fiscal Agent shall be the Board of Education responsible for administering the financial transactions of the Consortium (Orange City School District). The Fiscal Agent shall carry out the responsibilities of the Consortium Fund, enter into contracts on behalf of the Consortium as authorized by the Directors and carry out such other responsibilities as approved by the Directors and agreed to by the Fiscal Agent. Each District Member enrolled in a benefit program may require contributions from its employees toward the cost of any benefit program being offered by such District Member, and such contributions shall be included in the payments from such District Member to the Fiscal Agent for such benefit program. Contributions are to be submitted by each District Member, to the Fiscal Agent, required under the terms of the Consortium Agreement and any benefit program in which such District Member is enrolled to the Fiscal Agent on a monthly basis, or as otherwise required in accordance with any benefit program in which such District Member is enrolled. All general administrative costs incurred by the Consortium that are not covered by the premium payments shall be shared equally by the Consortium Members as approved by the Directors, and shall be paid by each Consortium Member upon receipt of notice from the Fiscal Agent that such payment is due. It is the express intention of the Consortium Members that the Consortium Agreement and the Consortium shall continue for an indefinite term, but may be terminated as provided in the Consortium Agreement. Any Consortium Member wishing to withdraw from participation in the Consortium or any benefit program shall notify the Fiscal Agent at least one hundred eighty (180) days prior to the effective date of withdrawal.

Upon withdrawal of a Consortium Member, the Consortium shall pay the run out of all claims for such Consortium Member provided such Consortium Member has paid to the Consortium, prior to the effective date of withdrawal, a withdrawal fee in the amount equal to two months' premiums at the Consortium Member's current rate. Payment of the withdrawal fee does not extend insurance coverage for two months. Upon automatic withdrawal, for non-payment of premiums required by the Consortium Agreement, the Consortium shall pay the run out of all claims for such Consortium Member provided that the Consortium has received from such Consortium Member all outstanding and unpaid premiums and other amounts and the withdrawal fee equal to two months' premiums at the Consortium Member's current rates. Any Consortium Member which withdraws from the Consortium pursuant to the Consortium Agreement shall have no claim to the Consortium's assets. Financial information for the Consortium can be obtained from Mr. Gary Platko, Treasurer of the Orange City School District (the "Fiscal Agent") at 32000 Chagrin Blvd., Pepper Pike, Ohio 44124-5974.

FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**B. Fund Accounting**

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

*GOVERNMENTAL FUNDS*

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is reported as fund balance.

The following are the District's major governmental funds:

General fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond retirement fund - The bond retirement fund is used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest.

Other governmental funds of the District are used to account for:

Nonmajor special revenue funds - Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Nonmajor capital projects funds - Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

*PROPRIETARY FUNDS*

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The District has no proprietary funds.

*FIDUCIARY FUNDS*

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. The District does not have any trust funds. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund. The District's custodial fund accounts for monies held on behalf of Westlake Alumni Organizations.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**C. Basis of Presentation and Measurement Focus**

The District's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

*Government-Wide Financial Statements* - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements distinguish between those activities that are governmental and those that are considered business-type activities. The District has no business-type activities.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

*Fund Financial Statements* - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the custodial funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of fiduciary net position. The statement of changes in fiduciary net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

**D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows, and in the presentation of expenses versus expenditures.

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. See Notes 13 and 14 for deferred outflows of resources related to net pension liability and net OPEB liability/asset, respectively. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2025, but which were levied to finance fiscal year 2026 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. Unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The deferred inflow of resources for leases is related to the lease receivable and is being amortized to lease revenue in a systematic and rational manner over the term of the lease.

See Notes 13 and 14 for deferred inflows of resources related to net pension liability and net OPEB liability/asset, respectively. These deferred inflows of resources are only reported on the government-wide statement of net position.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**E. Budgetary Process**

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate in effect when the final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board of Education during the fiscal year.

**F. Cash and Cash Equivalents**

To improve cash management, cash received by the District is pooled. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

During fiscal year 2025, investments were limited to Federal Home Loan Bank (FHLB) securities, Federal Farm Credit Bank (FFCB) securities, Federal Home Loan Mortgage Corporation (FHLMC) securities, negotiable certificates of deposit (negotiable CD's), municipal bonds, commercial paper, U.S. Treasury notes, U.S. Treasury bills, U.S. government money market mutual funds, and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for investments in STAR Ohio, investments are reported at fair value which is based on quoted market prices.

The District invested in STAR Ohio. STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, "Certain External Investment Pools and Pool Participants." The District measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides an NAV per share that approximates fair value.

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

For fiscal year 2025, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, 24 hours notice in advance of all deposits and withdrawals exceeding \$100 million is encouraged. STAR Ohio reserves the right to limit the transaction to \$250 million, requiring the excess amount to be transacted the following business day(s), but only to the \$250 million limit. All accounts of the participant will be combined for these purposes.

Under existing Ohio statutes, interest earnings are allotted to the general fund unless the Board of Education has, by resolution, specified funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2025 amounted to \$2,192,700 which includes \$819,819 assigned from other District funds.

For purposes of the statement of cash flows and for presentation on the statement of net position, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year-end is provided in Note 4.

**G. Inventory**

On government-wide and fund financial statements, inventories of supplies are reported at cost while inventories held for resale are reported at the lower of cost or market. Inventories are recorded on a first-in, first-out basis and are expended/expensed when used. Donated commodities are recorded at their entitlement value. Inventories are accounted for using the consumption method.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets. Inventory held for resale is not offset by nonspendable fund balance as the proceeds from the eventual sale of the inventory is either restricted, committed or assigned.

Inventory consists of expendable supplies held for consumption and food service inventory held for resale.

**H. Capital Assets**

All capital assets of the District are classified as general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition values as of the dates received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of capital assets is not capitalized. In addition, assets having an estimated useful life of more than one year that are below the capitalization threshold and not considered repair or maintenance costs are collectively capitalized on the financial statements when the aggregate of those assets are considered significant.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

Depreciation/amortization is computed using the straight-line method over the following useful lives:

| <u>Description</u>                            | <u>Governmental<br/>Activities<br/>Estimated Lives</u> |
|-----------------------------------------------|--------------------------------------------------------|
| Buildings and improvements                    | 30 - 50 years                                          |
| Furniture and equipment                       | 5 - 10 years                                           |
| Vehicles                                      | 10 years                                               |
| Land improvements                             | 30 years                                               |
| Textbooks                                     | 5 years                                                |
| Library books                                 | 2 years                                                |
| Intangible right-to-use:<br>Computer software | 3 - 5 years                                            |

The District is reporting intangible right-to-use assets related to computer software. The intangible assets are being amortized in a systematic and rational manner of the shorter of the subscription term or the useful life of the underlying asset.

**I. Interfund Loans**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund loans receivables/payables”. These amounts are eliminated in the statement of net position.

**J. Issuance Costs/Bond Premiums and Discounts and Accounting Gain or Loss on Debt Refunding**

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and deferred charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. Unamortized bond discounts are presented as a reduction to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 10.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**K. Compensated Absences**

The District recognizes a liability for compensated absences for leave time that (1) has been earned for services previously rendered by employees, (2) accumulates and is allowed to be carried over to subsequent years, and (3) is more likely than not to be used as time off or settled (for example paid in cash to the employee or payment to an employee flex spending account) during or upon separation from employment. Based on the criteria listed, three types of leave qualify for liability recognition for compensated absences - vacation, sick leave and personal time. The liability for compensated absences is reported as incurred in the government-wide financial statements. A liability for compensated absences is recorded in the governmental funds only if the liability has matured because of employee resignations or retirements. The District uses the first-in, first-out (FIFO) flow assumption for calculating the liability. The liability for compensated absences includes salary-related benefits, where applicable.

*Vacation*

The District's policy permits employees to accumulate earned but unused vacation benefits, which are eligible for payment at the employee's current pay rate upon separation from employment.

*Sick Leave*

The District's policy permits employees to accumulate earned but unused sick leave. All sick leave lapses when employees leave the employ of the District and, upon separation from service, the employee receives compensation in accordance with the severance policy. A liability for estimated value of sick leave that will be used by employees as time off and at separation is included in the liability for compensated absences.

*Personal Time*

The District's policy permits employees to accumulate earned but unused personal time.

**L. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and notes are recognized as a liability in the fund financial statements when due. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits.

**M. Net Position**

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes represents amounts restricted for scholarship programs in which the District has administrative involvement.

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**N. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

*Restricted* - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

*Committed* - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

*Assigned* - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes. The Board has, by resolution, authorized the Treasurer to assign fund balances for encumbrances outstanding at year-end.

*Unassigned* - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**O. Estimates**

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**P. Pensions/Other Postemployment Benefits (OPEB)**

For purposes of measuring the net pension/OPEB liability, net OPEB asset, deferred outflows of resources and deferred inflows of resources related pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

**Q. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2025.

**R. Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Transfers between governmental funds are eliminated for reporting on the government-wide statement of activities. Interfund services provided and used are not eliminated for reporting on the government-wide statement of activities.

**S. Nonpublic Schools**

Within the District boundaries, there are various nonpublic schools. Current State legislation provides funding to these non-public schools. These monies are received and disbursed by the District on behalf of the non-public schools by the Treasurer of the District, as directed by the non-public schools. The receipt and expenditure of these state monies by the District are reflected in a nonmajor governmental fund for financial reporting purposes.

**T. Prepayments**

Payments made to vendors for services that will benefit periods beyond June 30, 2025, are recorded as prepayments using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed. Fund balance has been presented as nonspendable equal to the balance of prepayment at fiscal year-end.

**U. Fair Value Measurements**

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)**

**V. Scholarship Endowment**

The District has administrative involvement in the award of certain scholarship endowments. At June 30, 2025, the total endowed principal was \$13,563 and is reported as nonspendable fund balance. At June 30, 2025, the net appreciation available for scholarship awards was \$21,362 is reported as restricted fund balance for other purposes. The District's policy for spending investment income (awarding scholarships) takes into consideration the donors request for the District to have administrative involvement in determining the award recipient. Ohio Revised Code 5705.09 governs the use of these funds and their ability to spend net appreciation.

**NOTE 3 - ACCOUNTABILITY AND COMPLIANCE**

**A. Change in Accounting Principles**

For fiscal year 2025, the District has implemented GASB Statement No. 101, "Compensated Absences" and GASB Statement No. 102, "Certain Risk Disclosures".

GASB Statement No. 101 is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures.

GASB Statement No. 102 improves financial reporting by providing users with timely information regarding certain concentrations or constraints and related events that have occurred or have begun to occur that make a government vulnerable to a substantial impact. As a result, users will have better information with which to understand and anticipate certain risks to a government's financial condition. The implementation of GASB Statement No. 102 did not have an effect on the financial statements of the District.

**B. Deficit Fund Balances**

Fund balances at June 30, 2025 included the following individual fund deficits:

| <u>Nonmajor governmental funds</u>      | <u>Deficit</u>    |
|-----------------------------------------|-------------------|
| Elementary and Secondary                |                   |
| School Emergency Relief (ESSER)         | \$ 150            |
| IDEA, Part B Special Education          | 229,761           |
| Limited English Proficiency             | 2,483             |
| Title I                                 | 96,005            |
| IDEA, Part B Preschool Stimulus         | 2,187             |
| Improving Teacher Quality               | 13,931            |
| Student Support and Academic Enrichment | 15,461            |
| Total                                   | <u>\$ 359,978</u> |

The general fund is liable for any deficit in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)**

**C. Restatement of Net Position**

During fiscal year 2025, there was a change in accounting principle related to the implementation of GASB Statement No. 101, "Compensated Absences". The effect of changing the accounting principle is to decrease net position as previously reported. This is displayed where applicable in the financial statements as "restatement - change in accounting principle".

**NOTE 4 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts. Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, and with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;

CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

7. The State Treasurer's investment pool, the State Treasury Asset Reserve of Ohio (STAR Ohio); and,
8. Certain bankers' acceptances for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met.

Protection of the deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**A. Deposits with Financial Institutions**

At June 30, 2025, the carrying amount of all District deposits was \$14,359,762 and the bank balance of all District deposits was \$14,883,527. Of the bank balance, \$500,000 was covered by the FDIC and \$14,383,527 was collateralized through the OPCS.

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits either be insured or protected by (1) eligible securities pledged to the School District and deposited with a qualified trustee by the financial institution as security for repayment whose fair value at all times shall be at least 105 percent of the deposits being secured, or (2) participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total fair value of the securities pledged to be 102 percent of the deposits being secured or a rate set by the Treasurer of State. For 2025, the District's financial institutions collateralized the District's deposits at a rate of 102 percent through the OPCS. Although all statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the District to a successful claim by the FDIC.

The weighted average maturity of investments is 1.57 years.

The District's investments in U.S. Government money market mutual funds are valued using quoted market prices in active markets (Level 1 inputs). The District's investments in federal agency securities (FHLB, FFCB, FHLMC), commercial paper, municipal bonds, U.S. Treasury notes, U.S. Treasury Bills, and negotiable CD's are valued using quoted prices in markets that are not considered to be active, dealer quotations or alternative pricing sources for similar assets or liabilities for which all significant inputs are observable, either directly or indirectly (Level 2 inputs).

*Interest Rate Risk:* As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less. The District's investment policy also requires that the investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

*Credit Risk:* The District's investments in federal agency securities (FHLB, FFCB, FHLMC), U.S. Treasury notes, and U.S. Treasury bills, were rated AA+ and Aa1 by Standard & Poor's and Moody's Investor Services, respectively. The commercial paper was rated P-1 and A-1 by Moody's and Standard & Poor's, respectively. The municipal bonds were rated Aa2 by Moody's Investor Services, respectively. STAR Ohio and the U.S. government money market mutual funds were rated AAam by Standard & Poor's. STAR Ohio must maintain the highest letter or numerical rating provided by at least one nationally recognized standard service. The negotiable CD's were not rated but are fully covered by the FDIC. The District has no investment policy that would further limit its investment choices.

FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

*Custodial Credit Risk:* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities (FHLB, FFCB, FHLMC), municipal bonds, U.S. Treasury notes, U.S. Treasury bills, and commercial paper are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee. The negotiable CD's were covered by the FDIC

*Concentration of Credit Risk:* The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2025:

FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 5 - INTERFUND TRANSACTIONS**

- A. Interfund loans receivable/payable consisted of the following at June 30, 2025, as reported on the fund statements:

| <u>Receivable fund</u> | <u>Payable fund</u>         | <u>Amount</u>     |
|------------------------|-----------------------------|-------------------|
| General fund           | Nonmajor governmental funds | \$ 485,528        |
| Bond retirement        | Nonmajor governmental funds | <u>400,000</u>    |
| Total                  |                             | <u>\$ 885,528</u> |

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received. The interfund receivable in the general fund represents \$485,528 loaned from the general fund to nonmajor governmental funds. In addition, the District has \$400,000 in manuscript debt from the bond retirement fund to the permanent improvement fund (a nonmajor governmental fund). The debt provided temporary funding for constructing, renovating, remodeling, adding to, furnishing, equipping, and otherwise improving District buildings and facilities until funds are received. The manuscript debt has a maturity date of April 1, 2029 and bears an annual interest rate of 4.5 percent. Interfund loans between governmental funds are eliminated on the government-wide financial statements.

- B. Interfund transfers for the year ended June 30, 2025, consisted of the following, as reported on the fund financial statements:

|                                        | <u>Amount</u>        |
|----------------------------------------|----------------------|
| <u>Transfers from general fund to:</u> |                      |
| Nonmajor governmental funds            | <u>\$ 10,010,000</u> |

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers between governmental funds are eliminated on the government-wide financial statements; therefore, no transfers are reported on the statement of activities.

**NOTE 6 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2025 represent the collection of calendar year 2024 taxes. Real property taxes received in calendar year 2025 were levied after April 1, 2024, on the assessed values as of January 1, 2024, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised fair value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, as was seen during fiscal year 2025, State statute permits alternate payment dates to be established as Cuyahoga County received approval from the Ohio Tax Commissioner to extend the due date of the second half 2024 real estate tax payments for 28 days.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 6 - PROPERTY TAXES - (Continued)**

Public utility property tax revenues received in calendar year 2025 represent the collection of calendar year 2024 taxes. Public utility real and personal property taxes received in calendar year 2025 became a lien on December 31, 2023, were levied after April 1, 2024, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2025, are available to finance fiscal year 2025 operations. The amount available as an advance at June 30, 2025 and 2024 were:

|                              | <u>June 30, 2025</u> | <u>June 30, 2024</u> |
|------------------------------|----------------------|----------------------|
| Major governmental funds:    |                      |                      |
| General fund                 | \$ 3,188,686         | \$ 4,309,616         |
| Bond retirement fund         | 486,697              | 601,904              |
| Nonmajor governmental funds: |                      |                      |
| Permanent improvement fund   | 76,435               | 111,614              |

The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2025 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been reported as a deferred inflow.

The assessed values upon which the fiscal year 2025 taxes were collected are:

|                                                   | 2024 Second<br>Half Collections |                | 2025 First<br>Half Collections |                |

**NOTE 7 - TAX ABATEMENTS ENTERED INTO BY OTHER GOVERNMENTS**

The City of Westlake has entered into property tax abatement agreements with property owners under the Ohio Community Reinvestment Area ("CRA") program with the taxing districts of the District. The CRA program are direct incentive tax exemption programs benefiting property owners who renovate or construct new buildings. Under this program, the other governments designated areas to encourage revitalization of the existing housing stock and the development of new structures. Due to the CRA agreements entered into by the City of Westlake, the District's property taxes were reduced by \$99,734 in fiscal year 2025. The District is not receiving any amounts from these other governments in association with the forgone property tax revenue.

**NOTE 8 - RECEIVABLES**

**A. Receivables**

Receivables at June 30, 2025 consisted of taxes, accounts (billings for user charged services, rentals and student fees), accrued interest and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds. A summary of the principal items of receivables reported on the statement of net position follows:

**Governmental activities**

|                               |                             |

| Total governmental activities | <u><u>\$ 53,806,629</u></u> |

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

**B. Leases Receivable**

The District is reporting leases receivable of \$362,969 in the general fund. For fiscal year 2025, the District recognized lease revenue of \$9,932, which is reported in rental income, and interest revenue of \$19,220. The District is lessor of certain property in the following lease agreement:

| <u>Purpose</u>      | <u>Lease<br/>Commencement<br/>Date</u> | <u>Years</u> | <u>Lease<br/>End<br/>Date</u> | <u>Payment<br/>Method</u> |

**School Improvement Bonds - Series 2010**

On August 10, 2010, the District issued \$84,055,000, in general obligation school improvement bonds, including \$15,630,000 in serial bonds, \$57,165,000 in term Build America Bonds (BABs) and \$11,260,000 in sinking fund Qualified School Construction Bonds (QSCBs). Proceeds from the bond issue were used to construct, renovate, remodel, add to, furnish, equip or otherwise improve school district buildings and facilities. The bonds were sold at a premium of \$1,385,761. Principal payments on the bonds are due December 1 of each year while interest payments are due on June 1 and December 1 of each year. During 2015, a portion of the serial bonds, in the amount of \$2,830,000 were refunded through the issuance of the series 2014 restructuring bonds and the entire balance of the BABs, in the amount of \$57,165,000, were refunded through the issuance of the series 2014 refunding bonds.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)**

The QSCBs mature on December 1, 2026 in the amount of \$11,260,000. The QSCBs bear an interest rate of 5.227 percent. The District receives a direct payment subsidy from the United States Treasury equal to 100% of the lesser of the interest payments on the bonds or the federal tax credits that would otherwise have been available to the holders of the bonds. The District records this subsidy from the federal government in the Bond Retirement fund. The QSCBs are subject to optional redemption, on any date on or after December 31, 2020, and extraordinary optional redemption, at the sole discretion of the District, at a redemption price equal to 100% of the principal amount redeemed, plus accrued interest to the redemption date. On December 1 in each year 2020 through 2026, the District is required to make a mandatory deposit into a sinking fund that will provide for payment of the QSCBs upon maturity. The QSCBs are subject to mandatory sinking fund requirements as follows:

School Improvement Restructuring Bonds - Series 2014

On July 22, 2014, the District issued \$2,830,000, in general obligation restructuring bonds. These bonds are serial bonds with interest rates varying from 2.29 percent to 4.50 percent. The final stated maturity on the issue is December 1, 2025. Proceeds were used to restructure \$2,830,000 of the outstanding 2010 school improvement serial bonds.

Proceeds of \$2,995,303 (including District contributions of \$203,803 less underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the restructured portion of the 2010 school improvement serial bonds. As a result, \$2,830,000 of these bonds were considered defeased and the liability for the refunding portion of these bonds has been removed from the basic financial statements. The restructured bonds were retired during fiscal year 2017.

The reacquisition price exceeded the net carrying amount of the old debt by \$165,303. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

School Improvement Refunding Bonds - Series 2014

On December 11, 2014, the District issued \$55,700,000, in general obligation refunding bonds, which included \$33,210,000 in serial bonds and \$22,490,000 in term bonds with interest rates varying from 2.0 percent to 5.0 percent. The final stated maturity on the issue is December 1, 2043. Proceeds were used to advance refund \$57,165,000 of the outstanding 2003 school improvement BAB's. During 2022, the entire balance of the serial bonds (\$33,060,000) and a portion of the term bonds (\$13,975,000) were refunded through the issuance of the Series 2022 School Improvements Refunding Bonds. At June 30, 2025, the remaining liability on the Series 2014 School Improvement Refunding Bonds consisted of term bonds in the amount of \$8,515,000.

FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)**

The original Series 2014 bonds were sold at a premium of \$2,517,550. Proceeds of \$57,716,291 (after the underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the refunded 2010 school improvement BAB's. As a result, \$57,165,000 of these bonds were considered defeased and the liability for the refunding portion of these bonds has been removed from the basic financial statements. As of June 30, 2025, the outstanding amount of the refunded bonds is \$57,165,000.

The remaining term bonds are subject to mandatory sinking fund redemption as follows:

| <u>Year</u> | <u>Mandatory<br/>Sinking Fund<br/>Redemption</u> |
|-------------|--------------------------------------------------|
| 2038        | \$ 4,025,000                                     |
| 2039        | 2,165,000                                        |
| 2040        | <u>2,325,000</u>                                 |
| Total       | <u>\$ 8,515,000</u>                              |

School Improvement Refunding Bonds - Series 2021

On October 19, 2021, the District issued \$76,450,000, in general obligation refunding bonds, which included \$42,525,000 in serial bonds, \$33,925,000 in term bonds, and \$1,595,000 in capital appreciation bonds with an interest rate of 4.0 percent. The final stated maturity on the issue is December 1, 2050. Proceeds were used to refund \$3,275,000 of the outstanding Series 2011 School Improvement Refunding Bonds, \$47,035,000 of the outstanding Series 2014 School Improvement Refunding Bonds, \$8,785,000 of the outstanding Series 2016 School Improvement Bonds, and \$22,900,000 of the outstanding Series 2017 School Improvement Bonds.

The serial bonds were issued for a 16-year period with a final maturity at December 1, 2038. The term bonds have a final maturity of December 1, 2050. The capital appreciation bonds were issued for a 9-year period with a final maturity at December 1, 2031 in the amount of \$1,595,000. At June 30, 2024, a total of \$1,110,790 in accreted interest has been recorded on the capital appreciation bonds. The bonds are being retired from the bond retirement fund. The 2021 school improvement refunding bonds are not subject to redemption prior to stated maturity.

The bonds were sold at a premium of \$9,252,986. Proceeds of \$86,537,485 (after the underwriting fees and other issuance costs) and a District contribution of \$2,000,000 were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the refunded bonds previously mentioned. As a result, \$81,995,000 of these bonds were considered defeased and the liability for the refunding portion of these bonds has been removed from the basic financial statements.

The reacquisition price exceeded the net carrying amount of the old debt (including unamortized premiums and unamortized deferred charges) by \$4,241,897. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Net Pension Liability

The District pays obligations related to employee compensation from the fund benefitting from their service which, for the District, is primarily the general fund. See Note 13 for further detail on the District's net pension liability.

Net OPEB Liability/Asset

The District pays obligations related to employee compensation from the fund benefitting from their service which, for the District, is primarily the general fund. See Note 14 for further detail on the District's net OPEB liability/asset.

SBITAs Payable

The District has entered into SBITAs for the right-to-use certain computer software. In accordance with GASB Statement No. 96, the District reports an intangible capital asset and corresponding SBITA liability for the future scheduled payments under the arrangements. The District has obtained the right-to-use computer software through the following SBITAs:

| Purpose           | SBITA<br>Commencement<br>Date | Term<br>(Years) | SBITA<br>End<br>Date | Payment<br>Method |

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)**

Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2025, are a voted debt margin of \$122,733,749 including available funds of \$10,721,497 and an unvoted debt margin of \$2,184,581.

**NOTE 11 - OTHER EMPLOYEE BENEFITS**

**A. Compensated Absences**

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty-one days of vacation per year, depending upon type of contract, length of service and hours worked. Teachers and administrators who are not on a twelve-month contract do not earn vacation time. Administrators employed to work 260 days per year earn vacation annually as specified in their individual contracts. Classified employees and administrators who earn vacation are paid for accumulated unused vacation time upon termination of employment. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated to a maximum of 325 days for classified employees. The certified employees' sick leave accrual is continuous, without limit. Upon retirement, certified employees receive payment for one-fourth of the total sick leave accumulation, up to a maximum accumulation of 260 days. Classified employees receive payment for one-fourth of the total sick leave accumulation, up to a maximum accumulation of 260 days. In addition, the classified employee may qualify based on sick leave usage to receive 10% of his/her unused days accumulated but unused during the last five years of employment. Furthermore, classified and certified staff who choose to retire the first year that they become eligible, per SERS and/or STRS rules, will receive payment for one-third of the total sick leave accumulation, up to a maximum accumulation of 300 days. Administrative employees with five or more years of service receive payment for one-third of the total sick leave accumulation, up to a maximum accumulation of 300 days.

**B. Insurance Benefits**

The District provides term life insurance and accidental death and dismemberment insurance to eligible employees through Anthem Life Insurance, in the amount of \$50,000 or \$25,000 for all certified employees depending upon full and part time teaching, \$50,000 or \$30,000 for all noncertified employees depending upon the number of years each employee worked, and \$100,000 for each administrator except the superintendent and treasurer which are three times annual compensation and \$300,000, respectively.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 12 - RISK MANAGEMENT**

**A. Property and Liability**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For fiscal year 2025, the District is contracted with the Ohio School Plan to provide property, fleet and liability insurance, as well as boiler and machinery coverage. There is a \$1,000 deductible with an agreed value co-insurance for property and a \$1,000 deductible for boiler and machinery coverage. There is no deductible for general liability.

General liability is provided by Ohio School Plan with a \$5,000,000 single occurrence limit, a \$7,000,000 aggregate limit in addition to a \$5,000,000 excess coverage policy. Employee dishonesty coverage is also provided by the Ohio School Plan with a \$1,000 deductible. Vehicles are covered by the Ohio School Plan and have a \$250 deductible for comprehensive and \$500 deductible for collision; buses have a \$1,000 deductible for comprehensive and \$1,000 deduction for collision. Automobile liability has a \$5,000,000 combined single limit of liability excluding the excess coverage indicated above.

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There was no significant reduction in coverage from the prior year.

**B. Employee Medical Benefits**

The District is a member of the Suburban Health Consortium, a shared risk pool (Note 2.A.) to provide employee medical, surgical, prescription drug, vision and dental benefits. Rates are set through an annual calculation process. The District pays a monthly contribution which is placed in a common fund from which the claim payments are made for all participating districts. For fiscal year 2025, the District paid either 85% or 94% (for employees who choose a higher deductible plan) of the cost of the monthly insurance premium for certified, classified and administrative employees.

**C. Workers' Compensation**

The District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs. During fiscal year 2025, the District was enrolled in a Group Retrospective rating program offered by the Ohio Bureau of Worker's Compensation and administered by CompManagement Inc.

**NOTE 13 - DEFINED BENEFIT PENSION PLANS**

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

***Net Pension Liability/Net OPEB Liability/Asset***

The net pension liability and the net OPEB liability/asset reported on the statement of net position represents a liability or asset to employees for pensions and OPEB, respectively.

Pensions and OPEB are a component of exchange transactions - between an employer and its employees - of salaries and benefits for employee services. Pensions/OPEB are provided to an employee - on a deferred-payment basis - as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)**

The net pension/OPEB liability (asset) represent the District's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

The Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions/OPEB are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits, but does not require, the retirement systems to provide healthcare to eligible benefit recipients.

The remainder of this note includes the required pension disclosures. See Note 14 for the required OPEB disclosures.

The proportionate share of each plan's unfunded benefits is presented as a long-term *net pension/OPEB liability (asset)* on the accrual basis of accounting. Any liability for the contractually required pension contribution outstanding at the end of the year is included in pension and postemployment benefits payable on both the accrual and modified accrual bases of accounting.

***Plan Description - School Employees Retirement System (SERS)***

Plan Description - The District's non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

**WESTLAKE CITY SCHOOL DISTRICT  
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 13 - DEFINED BENEFIT PENSION PLANS - (Continued)**

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on years of service; 2.2% for the first thirty years of service and 2.5% for years of service credit over 30. Final average salary is the average of the highest three years of salary.

An individual whose benefit effective date is before April 1, 2018, is eligible for a cost-of-living adjustment (COLA) on the first anniversary date of the benefit. New benefit recipients must wait until the fourth anniversary of their benefit for COLA eligibility. The COLA is added each year to the base benefit amount on the anniversary date of the benefit. The COLA is indexed to the percentage increase in the CPI-W, not to exceed 2.5% and with a floor of 0%. A three-year COLA suspension was in effect for all benefit recipients for the years 2018, 2019, and 2020. The Retirement Board approved a 2.5% cost-of-living adjustment (COLA) for calendar year 2024.

Funding Policy - Plan members are required to contribute 10.00% of their annual covered salary and the District is required to contribute 14.00% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10.00% for plan members and 14.00% for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2025, the allocation to pension, death benefits, and Medicare B was 14.00%. For fiscal year 2025, the Retirement Board did not allocate any employer contribution to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,487,652 for fiscal year 2025. Of this amount, \$63,719 is reported as pension and postemployment benefits payable.

***Plan Description - State Teachers Retirement System (STRS)***

Plan Description - Licensed teachers and other faculty members participate in STRS, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS website at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans: a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined (CO) Plan. Benefits are established by Ohio Revised Code Chapter 3307.

The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. The calculation is 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of credited service. Effective August 1, 2023, any member can retire with unreduced benefits with 34 years of services credit at any age; or five years of service credit and age 65. Effective June 1, 2025 - July 1, 2027, any member can retire with unreduced benefits with 33 years of service credit at any age; or five years of service credit and age 65. Effective on or after August 1, 2027, any member can retire with unreduced benefits with 34 years of service credit at any age; or five years of service credit and age 65.

In April 2017, the Retirement Board made the decision to reduce COLA granted on or after July 1, 2017, to 0 percent upon a determination by its actuary that it was necessary to preserve the fiscal integrity of the retirement system. Benefit recipients' base benefit and past cost-of living increases are not affected by this change. Effective July 1, 2022, an ad-hoc COLA of 3 percent of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2023 as long as they retired prior to July 1, 2018. Effective July 1, 2023, a permanent 1 percent COLA of the base benefit was granted to eligible benefit recipients to begin on the anniversary of their retirement benefit in fiscal year 2024 as long as they retired prior to July 1, 2019.

Eligibility changes for DB Plan members who retire with actuarially reduced benefits effective Aug. 1, 2023, can retire with 29 years of service credit at any age; or five years of service credit and age 60. Effective June 1, 2025 - July 1, 2027, retirement eligibility for reduced benefits is 28 years of service credit at any age; or five years of service credit and age 60. Effective on or after Aug. 1, 2027, retirement eligibility for reduced benefits is 29 years of service credit at any age; or five years of service credit and age 60.

The DC Plan allows members to place all of their member contributions and 11.09% of the 14% employer contributions into an investment account. The member determines how to allocate the member and employer money among various investment choices offered by STRS. The remaining 2.91% of the 14% employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, 12% of the 14% member rate is deposited into the member's DC account and the remaining 2% is applied to the DB Plan. Member contributions to the DC Plan are allocated among investment choices by the member, and contributions to the DB Plan from the employer and the member are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of service. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50 and after termination of employment.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service, who is determined to be disabled, may qualify for a disability benefit. New members, on or after July 1, 2013, must have at least ten years of qualifying service credit to apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. Eligible survivors of members who die before service retirement may qualify for monthly benefits. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The fiscal year 2025 employer and employee contribution rate of 14% was equal to the statutory maximum rates. For fiscal year 2025, the full employer contribution was allocated to pension.

The District's contractually required contribution to STRS was \$3,916,383 for fiscal year 2025. Of this amount, \$672,836 is reported as pension and postemployment benefits payable.

***Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities.

***Actuarial Assumptions - SERS***

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations. Future benefits for all current plan members were projected through 2137.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2024 and June 30, 2023, are presented below:

|                                              | June 30, 2024                                                                                                 | June 30, 2023                                                                                                 |

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term return expectation for the Pension Plan Investments has been determined by using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. Ohio Revised Code Section 3309.15 and the Board-adopted Investment Policy govern investment activity at SERS. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

As of June 30, 2024:

**Discount Rate** - Total pension liability for 2024 was calculated using the discount rate of 7.00%. The discount rate determination did not use a municipal bond rate. The projection of cash flows used to determine the discount rate assumed that employers would contribute the actuarially determined contribution rate of projected compensation over the remaining 20-year amortization period of the unfunded actuarial accrued liability. The actuarially determined contribution rate for fiscal year 2024 was 14%. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return, 7.00%. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability. The annual money-weighted rate of return, calculated as the internal rate of return on pension plan investments, for fiscal year 2024 was 9.31%.

For the June 30, 2024 actuarial valuation, post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For the prior measurement date, post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020. Pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. Post-retirement disabled mortality rates are based on Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| Asset Class          | Target<br>Allocation* | Long-Term Expected<br>Real Rate of Return ** |
|----------------------|-----------------------|----------------------------------------------|
| Domestic Equity      | 26.00 %               | 6.90 %                                       |

\* Final target weights reflected at October 1, 2022.

\*\*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.40% and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**Discount Rate** - The discount rate used to measure the total pension liability was 7.00% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at the statutory contribution rates in accordance with the rates described previously. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on pension plan investments of 7.00% was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2024.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate** - The following table represents the proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.00%, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current assumption:

|                                                                | 1% Decrease   | Current<br>Discount Rate | 1% Increase   |

**Assumption and Benefit Changes Since the Prior Measurement Date** - The discount rate remained at 7.00% for June 30, 2024 valuation.

Retirement rates were extended to younger ages intended to ensure that the ranges in retirement eligibility impacted participants at such ages.

Demographic assumptions were changed based on the actuarial experience study for the period July 1, 2015 through June 30, 2021.

***Plan Description - School Employees Retirement System (SERS)***

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 75 purposes, this plan is considered a cost-sharing other postemployment benefit (OPEB) plan. SERS' Health Care Plan provides healthcare benefits to eligible individuals receiving retirement, disability, and survivor benefits, and to their eligible dependents. Members who retire after June 1, 1986, need 10 years of service credit, exclusive of most types of purchased credit, to qualify to participate in SERS' health care coverage. The following types of credit purchased after January 29, 1981, do not count toward health care coverage eligibility: military, federal, out-of-state, municipal, private school, exempted, and early retirement incentive credit. In addition to age and service retirees, disability benefit recipients and beneficiaries who are receiving monthly benefits due to the death of a member or retiree, are eligible for SERS' health care coverage. Most retirees and dependents choosing SERS' health care coverage are over the age of 65 and therefore enrolled in a fully insured Medicare Advantage plan; however, SERS maintains a traditional, self-insured preferred provider organization for its non-Medicare retiree population. For both groups, SERS offers a self-insured prescription drug program. Health care is a benefit that is permitted, not mandated, by statute. The financial report of the Plan is included in the SERS Annual Comprehensive Financial Report which can be obtained on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

The Health Care program is financed through a combination of employer contributions, recipient premiums, investment returns, and any funds received on behalf of SERS' participation in Medicare programs. The System's goal is to maintain a health care reserve account with a 20-year solvency period in order to ensure that fluctuations in the cost of health care do not cause an interruption in the program. However, during any period in which the 20-year solvency period is not achieved, the System shall manage the Health Care Fund on a pay-as-you-go basis.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Active employee members do not contribute to the Health Care Plan. The SERS Retirement Board established the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required pensions and benefits, the Retirement Board may allocate the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund in accordance with the funding policy. For the fiscal year ended June 30, 2025, SERS did not allocate any employer contributions to post-employment health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service credit was earned. For fiscal year 2025, this amount was \$30,000. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2025, the District's surcharge obligation was \$178,535.

The surcharge added to the allocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contractually required contribution to SERS was \$178,535 for fiscal year 2025. Of this amount, \$178,535 is reported as pension and postemployment benefits payable.

***Plan Description - State Teachers Retirement System (STRS)***

Plan Description - The State Teachers Retirement System of Ohio (STRS) administers a cost-sharing Health Plan administered for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Health care premiums were reduced by a Medicare Part B premium credit beginning in 2023. The Plan is included in the report of STRS which can be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Medicare Part D is a federal program to help cover the costs of prescription drugs for Medicare beneficiaries. This program allows STRS Ohio to recover part of the cost for providing prescription coverage since all eligible STRS Ohio health care plans include creditable prescription drug coverage.

Funding Policy - Ohio Revised Code Chapter 3307 authorizes STRS to offer the Plan and gives the Retirement Board discretionary authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a portion of the health care costs in the form of a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions, currently 14% of covered payroll. For the fiscal year ended June 30, 2025, STRS did not allocate any employer contributions to post-employment health care.

***Net OPEB Liabilities/Assets, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB***

The net OPEB liability/asset was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB liability/asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability/asset was based on the District's share of contributions to the respective retirement systems relative to the contributions of all participating entities.

Following is information related to the proportionate share and OPEB expense:

***Actuarial Assumptions - SERS***

The total OPEB liability is determined by SERS' actuaries in accordance with GASB Statement No. 74, as part of their annual actuarial valuation for each retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment terminations). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation date of June 30, 2024 and June 30, 2023 are presented below:

The most recent experience study was completed for the five-year period ended June 30, 2020.

The long-term expected rate on plan assets of return on plan assets is reviewed as part of the actuarial five-year experience study. The most recent five-year experience study was performed for the period covering fiscal years 2016 through 2020, and was adopted by the Board on April 15, 2021. Several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and a long-normal distribution analysis in which best estimate ranges of expected future real rates of return (expected return, net of investment expense and inflation) were developed by the investment consultant for each major asset class. These ranges were combined to produce the long-term expected rate of return, 7.00%, by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The assumption is intended to be a long-term assumption and is not expected to change absent a significant change in the asset allocation, a change in the inflation assumption, or a fundamental change in the market that alters expected returns in future years.

The long-term expected nominal rate of return has been determined by calculating a weighted average of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

**NOTE 14 - DEFINED BENEFIT OPEB PLANS - (Continued)**

**Discount Rate** - The discount rate used to measure the total OPEB liability at June 30, 2024, was 4.88%. The discount rate used to measure total OPEB liability prior to June 30, 2024, was 4.27%. The projection of cash flows used to determine the discount rate assumed that contributions will be made from members and the System at the contribution rate of 1.50% of projected covered payroll each year, which includes a 1.50% payroll surcharge and no contributions from the basic benefits plan. Based on these assumptions, the OPEB plan's fiduciary net position is projected to be depleted in 2059 by SERS' actuaries. The Fidelity General Obligation 20-year Municipal Bond Index Rate was used in the determination of the single equivalent interest rate for both the June 30, 2023 and the June 30, 2024 total OPEB liability. The Municipal Bond Index Rate is the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by the long-term expected rate of return, and the present value determined by discounting those benefits after the date of depletion. The Municipal Bond Index Rate was 3.93% at June 30, 2024 and 3.86% at June 30, 2023.

**Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Changes in the Health Care Cost Trend Rates** - The net OPEB liability is sensitive to changes in the discount rate and the health care cost trend rate. The following table presents the proportionate share of the net OPEB liability, what the proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.88%) and higher (5.88%) than the current discount rate (4.88%). Also shown is what the proportionate share of the net OPEB liability would be based on health care cost trend rates that are 1 percentage point lower (6.00% decreasing to 3.40%) and higher (8.00% decreasing to 5.40%) than the current rate (7.00% decreasing to 4.40%).

FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS - (Continued)**

Projections of benefits include the historical pattern of sharing benefit costs between the employers and retired plan members.

For the June 30, 2024 actuarial valuation, for healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

For the prior measurement date, for healthy retirees the post-retirement mortality rates are based on the Pub-2010 Teachers Healthy Annuitant Mortality Table, adjusted 110% for males, projected forward generationally using mortality improvement scale MP-2020; pre-retirement mortality rates are based on Pub-2010 Teachers Employee Table adjusted 95% for females, projected forward generationally using mortality improvement scale MP-2020. For disabled retirees, mortality rates are based on the Pub-2010 Teachers Disabled Annuitant Table projected forward generationally using mortality improvement scale MP-2020.

Actuarial assumptions used in the June 30, 2024 valuation are based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2021. An actuarial experience study is done on a quinquennial basis.

***Assumption Changes Since the Prior Measurement Date*** - The discount rate remained unchanged at 7.00% for the June 30, 2024 valuation.

***Benefit Term Changes Since the Prior Measurement Date*** - Healthcare trends were updated to reflect emerging claims and recoveries experience as well as benefit changes effective January 1, 2025. The larger Medicare trends for Years 2027 and 2028 reflect the assumed impact of the expiration of current Medicare Advantage contract on December 31, 2028.

STRS' investment consultant develops an estimate range for the investment return assumption based on the target allocation adopted by the Retirement Board. The target allocation and long-term expected rate of return for each major asset class are summarized as follows:

| <u>Asset Class</u>   | <u>Target<br/>Allocation*</u> | <u>Long-Term Expected<br/>Real Rate of Return **</u> |

\* Final target weights reflected at October 1, 2022.

\*\*10-Year annualized geometric nominal returns, which include the real rate of return and inflation of 2.40% and is net of investment expenses. Over a 30-year period, STRS' investment consultant indicates that the above target allocations should generate a return above the actuarial rate of return, without net value added by management.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 14 - DEFINED BENEFIT OPEB PLANS - (Continued)**

**Discount Rate** - The discount rate used to measure the total OPEB liability was 7.00% as of June 30, 2024. The projection of cash flows used to determine the discount rate assumed STRS continues to allocate no employer contributions to the health care fund. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2024. Therefore, the long-term expected rate of return on health care plan investments of 7.00% was applied to all periods of projected health care costs to determine the total OPEB liability as of June 30, 2024.

**Sensitivity of the District's Proportionate Share of the Net OPEB Asset to Changes in the Discount and Health Care Cost Trend Rate** - The following table represents the net OPEB asset as of June 30, 2024, calculated using the current period discount rate assumption of 7.00%, as well as what the proportionate share of the net OPEB asset would be if it were calculated using a discount rate that is one percentage point lower (6.00%) or one percentage point higher (8.00%) than the current assumption. Also shown is the proportionate share of the net OPEB asset as if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current health care cost trend rates.

**NOTE 15 - CONTINGENCIES**

**A. Grants**

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

**B. Litigation**

The District is party to legal proceedings. The District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the District.

**C. Foundation Funding**

Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Traditional districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education and Workforce (ODEW) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year end. All adjustments have been finalized and are not material.

**NOTES TO THE BASIC FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 16 - OTHER COMMITMENTS**

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances (net of amounts already included in payables) in the governmental funds were as follows:

| <u>Fund</u>        | <u>Year-End<br/>Encumbrances</u> |
|--------------------|----------------------------------|
| General fund       | \$ 503,034                       |
| Other governmental | <u>894,353</u>                   |
| Total              | <u>\$ 1,397,387</u>              |

**NOTE 17 - SET-ASIDES**

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year. The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE FISCAL YEAR ENDED JUNE 30, 2025**

**NOTE 1 - BUDGETARY PROCESS**

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The schedule of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and
- (d) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis is as follows:

**CUYAHOGA COUNTY, OHIO**  
NONMAJOR GOVERNMENTAL FUND DESCRIPTIONS

**Nonmajor Special Revenue Funds**

Special revenue funds are used to account for and report specific revenue sources that are restricted or committed to expenditure for a specific purpose. A description of the District's special revenue funds follows:

***Food Service Fund***

This fund accounts for the financial transactions related to the food service operations of the District.

***Local Grants Fund***

This fund accounts for monies received to promote community involvement and to support activities between the school and community. It includes monies contributed to the District to provide various scholarships for students in which the District has administrative involvement in the award process and the original contribution may be expended for this purpose.

***Endowment Fund***

This fund accounts for monies contributed to the District to provide various scholarships for students in which the District has administrative involvement in the award process and the original contribution is required to remain intact and only the earnings may be expenses for this purpose.

***Professional Development Grant Fund***

This fund accounts for grant monies that are legally restricted to expenditures for professional development.

***Student Managed Activity Fund***

This fund accounts for student activity programs which have student participation in the activity and have students involved in the management of the program but which the District had administrative involvement in the programs operations.

***District Managed Student Activity Fund***

This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the District's athletic program and transportation of the band to and from athletic events.

***Auxiliary Services Fund***

This fund accounts for funds which provide services and materials to pupils attending non-public schools within the District.

***Data Communications Support Fund***

This fund accounts for State monies received to provide Ohio Educational Computer Network Connections.

***Miscellaneous State Grants Fund***

This fund accounts for State monies which support academic and enrichment programs for the student body.

***Elementary and Secondary School Emergency Relief (ESSER) Fund***

This fund accounts for federal monies to provide emergency relief grants to school districts related to the COVID-19 pandemic. Restrictions include, but are not limited to, providing for coordination of preparedness and response efforts, training and professional development of staff, planning and coordination during long-term closure, and purchasing technology for students.

***IDEA, Part B Special Education Fund***

This fund accounts for federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

***Limited English Proficiency Fund***

This fund accounts for federal monies used for instruction in the child's native language to the extent necessary to allow a child to achieve competence in English.

***Title I Fund***

This fund accounts for federal revenues which support the implementation of a variety of programs such as computer education, gifted and talented programs, in-service and staff developments.

**Nonmajor Special Revenue Funds - (Continued)**

***Student Support and Academic Enrichment Fund***

This fund accounts for federal monies to improve student's academic achievement by increasing the capacity of states, local education agencies (LEA's), schools, and the local communities to (1) provide all students with access to a well-rounded education, (2) improve school conditions for student learning, and (3) improve the use of technology in order to improve the academic achievement and digital literacy for all students.

***Early Childhood Economic Development Fund***

This fund accounts for federal monies which partially support the preschool program focusing on the early education of handicapped children.

***Supporting Effective Instruction Fund***

This fund accounts for various monies to hire additional classroom teachers, so that the number of students per teacher will be reduced.

***Miscellaneous Federal Grants Fund***

This fund accounts for federal revenues which support the implementation of a variety of programs such as computer education, gifted and talented programs, in-service and staff developments.

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

***Uniform School Supplies Fund***

This fund accounts for the purchase and sale of school supplies for use in the District. Profits derived from such sales are used for school purposes or activities connected with the school.

***Interdistrict Summer School Fund***

This fund accounts for tuition received from four surrounding school districts as well as Westlake City School District students for the purpose of summer school education.

***Community Education Fund***

This fund accounts for revenues and expenses involved in upgrading and retraining out-of-school youths and adults for the purpose of improving their skills and knowledge in their occupation or planned occupation.

***Public School Support Fund***

This fund accounts for school site sales revenue and expenditures for field trips, assemblies and other activity costs.

***Termination Benefits Fund***

This fund accounts for termination payments made to employees.

**Nonmajor Capital Projects Fund**

Capital project funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities or and other capital assets.

***Permanent Improvement Fund***

This fund accounts for the acquisition and construction of permanent improvements as authorized by Chapter 5705, Revised Code.

***Building Fund***

This building fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities or and other capital assets.

***Capital Projects Fund***

This fund accounts for the accumulation of resources that are assigned to expenditure for one or more capital projects.
