REPORT OF INDEPENDENT ACCOUNTANTS

Warren County Vocational School District
Warren County
3525 North State Route 48
Lebanon, Ohio 45036

To the Board of Education:

We have audited the accompanying general purpose financial statements of the Warren County Vocational School District, Warren County, Ohio (the District), as of and for the fiscal year ended June 30, 1999, as listed in the table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Warren County Vocational School District, Warren County, Ohio, as of June 30, 1999, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued a report dated January 31, 2000 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of the District, taken as a whole. The accompanying schedule of federal awards receipts and expenditures is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

A handwritten signature in black ink, appearing to read "Jim Petro", with a large, stylized flourish at the end.

Jim Petro
Auditor of State

January 31, 2000

WARREN COUNTY VOCATIONAL SCHOOL DISTRICT
NOTES TO THE General-purpose FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1999

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Warren County Vocational School District (the "School District") is a distinct political subdivision of the State of Ohio operated under the direction of a Board comprised of seven individuals, who are appointed by the board of the school district of which they are elected. Warren County Vocational School District includes six member schools throughout Warren County. The School District employs 79 certified and 29 classified staff members who served approximately 674 secondary students and 3,451 adult students during the 1998-1999 school year. A vocational school exposes high school and adult students to academic preparation and job training which leads to employment and/or further education upon graduation from high school.

Reporting Entity

The reporting entity consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Warren County Vocational School District, this includes general operations, food service, adult education, preschool and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organizations's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organizations' resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organizations; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes. The School District has no component units.

The School District is associated with two organizations, one jointly governed organization and one insurance purchasing pool. These organizations are the Southwest Ohio Computer Association and the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan. These organizations are presented in Notes 16 and 17 to the general-purpose financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Warren County Vocational School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis Of Presentation - Fund Accounting

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available expendable resources.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories governmental, proprietary and fiduciary.

Governmental Fund Types:

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition, use and balances of the School District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds.

The following are the School District's governmental fund types:

General Fund - The general fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Capital Projects Funds - Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary Fund Types:

Proprietary funds are used to account for the School District's ongoing activities which are similar to those found in the private sector. The following are the School District's proprietary fund types:

Enterprise Funds - Enterprise funds are used to account for School District activities that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Internal Service Fund - The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis.

Fiduciary Fund Type:

Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The School District's only fiduciary funds are agency funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups:

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group - This account group is established to account for all fixed assets of the School District, other than those accounted for in the proprietary funds.

General Long-Term Obligations Account Group - This account group is established to account for all long-term obligations of the School District except those accounted for in the proprietary funds.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary funds operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental and agency funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period for the School District is sixty days after year end.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, accounts (tuition and student fees), grants and investment earnings.

The School District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 1999, and delinquent property taxes, whose availability is indeterminable and which are intended to finance fiscal year 2000 operations, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

WARREN COUNTY VOCATIONAL SCHOOL DISTRICT
NOTES TO THE General-purpose FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1999
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The accrual basis of accounting is utilized for reporting purposes by the proprietary fund types. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

C. Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the object level within each function and fund. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Because the activity of agency funds is not budgeted, transfers-in and transfers-out do not equal on a budgetary basis due to a transfer of \$1,145 to the student activities agency fund from the general fund. Also, advances-in and advances-out do not equal on a budgetary basis by \$2,799 due to an advance from the general fund to the student activities agency fund for \$4,599 and an advance from the student activities agency fund for \$1,800 to the general fund.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Warren County Budget Commission for rate determination.

WARREN COUNTY VOCATIONAL SCHOOL DISTRICT
NOTES TO THE General-purpose FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1999
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 1999.

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund, function, and object level of expenditures, which are the legal levels of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds, other than agency funds, consistent with statutory provisions.

WARREN COUNTY VOCATIONAL SCHOOL DISTRICT
NOTES TO THE General-purpose FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1999
(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING Policies (Continued)

Encumbrances:

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds and reported in the notes to the financial statements for proprietary funds.

Lapsing of Appropriations:

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Cash and Cash Equivalents/Investments

To improve cash management, all cash received by the School District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the balance sheet.

During fiscal year 1999, the School District's investments were limited to certificates of deposit, repurchase agreements and funds invested in the State Treasury Assets Reserve of Ohio (STAR Ohio). STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 1999. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 1999 amounted to \$235,808 which includes \$69,175 assigned from other School District funds. The Capital Projects Funds and Internal Service Funds also received interest revenue in the amounts of \$18,035 and \$22,579, respectively.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Inventory

Inventories of proprietary funds are stated at the lower of cost or market. Cost is determined on a first-in, first-out basis. Inventories of proprietary funds consist of donated and purchased food held for resale and are expensed when used.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 1999 are recorded as prepaid items using the consumption method. Current assets for the prepaid amount is recorded at the time of purchase and the expenditure/expense is reported in the year in which services are consumed.

G. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in the respective fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two hundred dollars. The School District does not have any infrastructure.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Improvements are capitalized and are depreciated over the remaining useful lives of the related fixed assets. Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the proprietary fund types is computed using the straight-line method over an estimated useful life of five years.

H. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and became measurable.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy.

For governmental funds, the School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. The School District records a liability for accumulated unused sick leave for all employees after 20 years of current service with the School District. The current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

K. Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, compensated absences and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Payments made more than sixty days after year end are considered not to have used current available financial resources. Long-term loans are reported as a liability of the general long-term obligations account group until due.

Long-term obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

L. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING Policies (Continued)

M. Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, property taxes, and budget stabilization.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for budget stabilization represents money required to be set-aside by statute to protect against cyclical changes in revenues and expenditures.

N. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

O. Restricted Assets

Restricted assets in the general fund represent cash and cash equivalents whose use is limited by legal requirements. Restricted assets include amounts required by statute to be set-aside by the School District to create a reserve for budget stabilization. See Note 20 for the calculation of the year-end restricted asset balance and the corresponding fund balance reserves.

P. Contributed Capital

Contributed capital represents resources from other funds, other governments, and private sources provided to proprietary funds that is not subject to repayment. These assets are recorded at their fair market value on the date donated. Depreciation on those assets acquired or constructed with contributed resources is expensed and closed to unreserved retained earnings at year end.

Because the School District did not prepare financial statements in accordance with generally accepted accounting principles prior to fiscal year 1991, the exact amount of contributed capital cannot be determined. Consequently, only those amounts that have been specifically identified have been classified as contributed capital in the accompanying combined financial statements. All other fund equity amounts pertaining to proprietary funds have been classified as retained earnings. contributed resources is expensed and closed to unreserved retained earnings at year end.

Q. Total Columns on General-purpose Financial Statements

Total columns on the general-purpose financial statements are captioned “Totals-(Memorandum Only)” to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

Budgetary Basis of Accounting:

While the School District is reporting financial position, results of operations and changes in fund balance retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Budget Basis)- All Governmental Fund Types and the Combined Statement of Revenues, Expenses and Changes in Fund Equity - Budget and Actual (Budget Basis)- All Proprietary Fund Types are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosure in the proprietary fund type (GAAP basis).
4. Advances-In and Advances-Out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).

NOTE 4 - FUND DEFICITS

Fund balances at June 30, 1999, included the following individual fund deficits:

<u>Special Revenue Funds</u>	
Carl Perkins	\$31,424
School-To-Work	3,453
Career Development	8,539
Economic Education	1,800
<u>Enterprise Funds</u>	
Lunchroom	7,363
Adult Education	169,443

The special revenue and enterprise funds' deficit balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and provides operating transfers when cash is required, not when accruals occur.

NOTE 5 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdraw able on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings accounts, including passbook accounts.

NOTE 5 - DEPOSITS AND Investments (Continued)

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayments of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days from the date of purchase in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and
8. Under limited circumstances, debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

NOTE 5 - DEPOSITS AND Investments (Continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments, (including Repurchase Agreements) and Reverse Repurchase Agreements".

Deposits: At fiscal year end, the carrying amount of the School District's deposits was \$742,239 and the bank balance was \$937,908. Of the bank balance, \$187,908 was covered by federal depository insurance. The remaining amounts were uninsured and uncollateralized as defined by GASB. Although the securities serving as collateral were held by the pledging financial institutions' trust department in the School District's name and all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by the Federal Deposit Insurance Corporation.

Investments: The School District's investments are required to be categorized to give an indication of the level of risk assumed by the School District at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the School District or its agent in the School District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the School District's name. The School District's investment in STAR Ohio, an investment pool operated by the Ohio State Treasurer, is unclassified since it is not evidenced by securities that exist in physical or book entry form.

	Category 3	Unclassified	Carrying Value	Fair Value
STAR OHIO	\$0	\$3,609,744	\$3,609,744	\$3,609,744

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property located in the School District. Property tax revenue received during calendar 1999 for real and public utility property taxes represents collections of calendar 1998 taxes. Property tax payments received during calendar 1999 for tangible personal property (other than public utility property) is for calendar 1999 taxes.

1999 real property taxes are levied after April 1, 1999, on the assessed value as of January 1, 1999, the lien date. Assessed values are established by State law at thirty-five percent of appraised market value.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at thirty-five percent of true value. 1999 public utility property taxes became a lien December 31, 1998, are levied after April 1, 1999 and are collected in 2000 with real property taxes.

NOTE 6 - PROPERTY TAXES (Continued)

1999 tangible personal property taxes are levied after April 1, 1998, on the value as of December 31, 1998. Collections are made in 1999. Tangible personal property assessments are twenty-five percent of true value.

Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

The assessed values upon which fiscal year 1999 taxes were collected are:

	<u>1998 Second- Half Collections</u>		<u>1999 First- Half Collections</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$1,520,623,650	84.18%	\$1,611,684,810	84.13%
Public Utility	154,772,401	8.57%	133,505,770	6.97%
Tangible Personal Property	<u>131,028,800</u>	<u>7.25%</u>	<u>170,448,333</u>	<u>8.90%</u>
Total Assessed Value	<u><u>\$1,806,424,851</u></u>	<u><u>100.00%</u></u>	<u><u>\$1,915,638,913</u></u>	<u><u>100.00%</u></u>
Tax rate per \$1,000 of assessed valuation	\$4.50		\$4.50	

The School District receives property taxes from Warren County. The County Auditors periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 1999, are available to finance fiscal year 2000 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including Warren County Vocational School District. The County Auditor periodically remits to the School District its portion of taxes. Accrued property taxes receivable represent delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 1999. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30 was \$185,525 for the general fund.

NOTE 7 - RECEIVABLES

Receivables at June 30, 1999, consisted of property taxes, accounts (tuition and student fees), interfund, intergovernmental (grants and rentals), charges for services, and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables as follows:

	Amounts
<u>General Fund</u>	
Rentals	\$4,088
Charges for Services	989
Total General Fund	5,077

NOTE 9 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 1999, the School District contracted with Nationwide Insurance Company for general liability insurance with a \$1,000,000 single occurrence limit and a \$5,000,000 aggregate. Vehicles are covered under a business policy with Nationwide which carries a \$250 deductible and a \$1,000,000 limit on any accident.

The School District's property is protected by Utica National Insurance Company and holds a \$1,000 deductible.

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from the prior year.

For fiscal year 1999, the School District participated in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 17). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of CompManagement provides administrative, cost control and actuarial services to the GRP.

The School District provides an option for medical/surgical benefits (PPO) through a self-insurance internal service fund, administered by Harrington Benefit Services. The School District pays into the self-insurance internal service fund \$385.46 for family coverage or \$191.43 for individual coverage per month which represents one hundred percent of the premium required. The plan provides a medical/surgical plan with a \$100 single and \$200 family deductible and then 85% of the next \$2000 is payable by the employer. The School District purchases stop-loss coverage of \$30,000 per individual claim.

Health, drug prescription, dental and vision insurance is offered to all eligible employees through the self-insurance internal service fund.

(Continued)

NOTE 9 -RISK MANAGEMENT (Continued)

The claims liability of \$35,250 reported in the internal service fund at June 30, 1999 is based on an estimate provided by Harrington Benefit Services and the requirements of *GASB Statement No. 10 "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues"*, which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claims adjustments expenses and does not include other allocated or unallocated claim adjustment expenses.

Changes in claims activity for the past two fiscal years are as follows:

	Balance at Beginning of Year	Current Year Claims	Claims Payments	Balance at End of Year
1998	\$29,231	\$237,417	\$232,957	\$33,691
1999	33,691	304,250	302,691	35,250

NOTE 10 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer public employee retirement system. SERS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information for SERS. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634, or by calling (614) 222-5853.

Plan members are required to contribute 9 percent of their annual covered salary and the School District is required to contribute an actuarially determined rate. The current rate is 14 percent of annual covered payroll. For fiscal year 1999, 7.7 percent was the portion to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by SERS' Retirement Board. The School District's contributions for pension obligations to SERS for the fiscal years ended June 30, 1999, 1998, and 1997 were \$70,188, \$81,519, and \$83,597, respectively; 94.35 percent has been contributed for fiscal year 1999 and 100 percent for the fiscal years 1998 and 1997. \$3,966 representing the unpaid contribution for fiscal year 1999, is recorded as a liability within the respective funds and the general long-term obligations account group.

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System

The School District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple-employer public employee retirement system. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371, or by calling (614) 227-4090.

Plan members are required to contribute 9.3 percent of their annual covered salary and the School District is required to contribute 14 percent; 6 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The School District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 1999, 1998, and 1997 were \$227,522, \$416,481, and \$442,023, respectively; 85.25 percent has been contributed for fiscal year 1999 and 100 percent for the fiscal years 1998 and 1997. \$33,558 representing the unpaid contribution for fiscal year 1999, is recorded as a liability within the respective funds.

C. Social Security System

Effective July 1, 1991, all Board Members not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose social security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 1999, two of the board of education members have elected social security. The board's liability is 6.2 percent of wages paid.

NOTE 11 - POSTEMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

WARREN COUNTY VOCATIONAL SCHOOL DISTRICT
NOTES TO THE General-purpose FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 1999
(Continued)

NOTE 11 - POSTEMPLOYMENT BENEFITS (Continued)

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. Through June 30, 1999, the board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$303,362 during the 1999 fiscal year.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Fund was \$2,156 million at June 30, 1998. For the fiscal year ended June 30, 1998, net health care costs paid by STRS were \$219,224,000 and STRS had 91,999 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. At June 30, 1999, the allocation rate is 6.3 percent. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 1999, the minimum pay has been established at \$12,400. The surcharge, added to the unallocated portion of the 14 percent employer contribution rate provides for maintenance of the asset target level for the health care fund.

The target level for the health care reserve is 125 percent of annual health care expenses. Expenses for health care at June 30, 1998 were \$111,900,575 and the target level was \$139.9 million. At June 30, 1998 SERS had net assets available for payment of health care benefits of \$160.3 million. SERS has approximately 50,000 participants currently receiving health care benefits. For the School District, the amount to fund health care benefits, including the surcharge, equaled \$59,593 during the 1999 fiscal year.

NOTE 12 - COMPENSATED ABSENCES

The criteria for determining vested vacation and sick leave components are derived from negotiated agreements and State laws. Eligible classified employees may earn up to ten to twenty days of vacation per year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time.

NOTE 12 - COMPENSATED ABSENCES (Continued)

Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 225 days. Upon retirement, payment shall be made for accrued but unused sick days on the basis of 25% of member's actual accumulated sick leave days to a maximum of 55 days.

NOTE 13 - LONG TERM DEBT

Long-term obligations of the School District as of June 30, 1999 were as follows:

	Principal Outstanding 6/30/98	Additions	Deductions	Principal Outstanding 6/30/99

Compensated absences and the pension obligation will be paid from the fund from which the employees' salaries are paid. The School District's overall legal debt margin was \$172,407,502 with an unvoted debt margin of \$1,915,639 at June 30, 1999.

Energy Conservation Loan Payable - On October, 1994, Warren County Vocational School District issued \$598,065 in unvoted general obligation notes for the purpose of providing energy conservation measures for the Warren County Vocational School District, authority of the Ohio Revised Code sections 133.06(G) and 3313.372. The notes were issued for a five year period with final maturity during fiscal year 2000. The debt will be retired directly from the real estate taxes but it is anticipated that the savings over ten years will offset the redirected revenues.

Principal and interest requirements to retire general obligation debt at June 30, 1999, are as follows:

NOTE 16 - JOINTLY GOVERNED ORGANIZATION

The School District is a participant in the Southwest Ohio Computer Association (SWOCA), which is a computer consortium. SWOCA is an association of public schools and educational service centers within the boundaries of Butler, Preble, and Warren Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to the administrative and instructional functions among member school districts. The governing board of SWOCA consists of the superintendent (or the superintendent's designee) from each member district. The School District paid SWOCA \$14,072 for services provided during the year. Financial information can be obtained from the fiscal agent, Butler County JVS, 3603 Hamilton-Middletown Road, Hamilton, Ohio 45011.

NOTE 17 - INSURANCE PURCHASING POOL

The School District participates in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP). The GRP's business and affairs are conducted by a fourteen member committee consisting of various EPC representatives that are elected by the general assembly. Either the superintendent or treasurer from each participating school district serves on the general assembly. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 18 - CONTINGENCIES

A. Grants:

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 1999.

B. Litigation:

As of June 30, 1999, the School District did not have any pending litigation or potential liabilities that would have a material effect on the financial statements.

NOTE 19 - SCHOOL FUNDING

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's "school foundation program", which provides significant amounts of monetary support to the School District. During the fiscal year ended June 30, 1999, the School District received \$2,732,831 of school foundation support for its general fund.

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the State legislature in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the thorough and efficient clause of the Ohio Constitution. The State has appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. As of the date of this report, the Ohio Supreme Court has not rendered an opinion on this issue. The decision of the Court of Common Pleas in Perry County has been stayed by the Ohio Supreme Court, and, as such, school districts are still operating under the laws that the Common Pleas Court declared unconstitutional.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

NOTE 20 - SET-ASIDE CALCULATIONS AND FUND RESERVES

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. The School District is also required to set aside money for budget stabilization.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

	<u>Textbooks</u>	<u>Capital Acquisition</u>	<u>Budget Stabilization</u>
Set-aside Cash Balance as of June 30, 1998	\$0	\$0	\$28,495
Worker's Compensation Refund	0	0	1,817
Current Year Set-aside Requirement	124,655	124,655	62,394
Qualifying Disbursements	(124,655)	(47,655)	0
Offsets	0	(77,000)	0
Cash Balance Carried Forward to FY 1999	<u>\$0</u>	<u>\$0</u>	<u>\$92,706</u>

Amounts of qualifying disbursements presented in the table were limited to those necessary to reduce the year-end balance to zero. Although the School District may have had additional qualifying disbursements during the year, these extra amounts may not be used to reduce the set-aside requirements of future years, and are therefore not presented.

NOTE 21 - PRIOR YEAR RESTATEMENT

Several miscellaneous grant funds were incorrectly classified as agency funds during fiscal year 1999. They were reclassified to the School To Work special revenue fund. This reclassification resulted in the following restatement of beginning fund balance:

	<u>Amount at 6/30/98</u>	<u>Restated Amount</u>
Special Revenue Funds	\$52,496	\$62,150

JUNE 30, 1999**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Expenditures (the schedule) summarizes activity of the Government's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - FOOD DISTRIBUTION

Nonmonetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the Schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first. At June 30, 1999, the District has no significant food commodities in inventory.

REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Warren County Vocational School District
Warren County
3525 North State Route 48
Lebanon, Ohio 45036

To the Board of Education:

We have audited the financial statements of Warren County Vocational School District, Warren County, Ohio (the District), as of and for the fiscal year ended June 30, 1999, and have issued our report thereon dated January 31, 2000. We conducted our audits in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed certain instances of noncompliance that are required to be reported under *Government Auditing Standards* which are described in the accompanying schedule of findings as items 1999-10483-001 through 1999-10483-003.

We also noted certain immaterial instances of noncompliance that we have reported to management of the District in a separate letter dated January 31, 2000.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgement, could adversely affect the District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the accompanying schedule of findings as item 1999-10483-004.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions, and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe the reportable condition described above is not a material weakness.

We also noted other matters involving the internal control over financial reporting that do not require inclusion in this report that we have reported to management of the District in a separate letter dated January 31, 2000.

This report is intended for the information and use of management, Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR PROGRAM AND INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Warren County Vocational School District
Warren County
3525 North State Route 48
Lebanon, Ohio 45036

To The Board of Education:

Compliance

We have audited the compliance of Warren County Vocational School District, Warren County, Ohio (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major federal programs for the fiscal year ended June 30, 1999. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the fiscal year ended June 30, 1999.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of management, Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 1999-10483-001

Appropriations Exceeding Estimated Resources - (Compliance)

Ohio Rev. Code, Section 5705.39, states that the total appropriations from each fund should not exceed the total estimated revenue. Appropriations exceeded estimated revenue in the following funds in the following amounts : 006-0000 (Lunchroom) \$105,873 and 012-0000 (Adult Education) \$803,754.

FINDING NUMBER 1999-10483-002

Disbursements Exceeding Appropriations - (Compliance)

Ohio Rev. Code, Section 5705.41 (B), prohibits a subdivision or taxing unit from making an expenditure unless it has been properly appropriated. The District's expenditure exceeded appropriations in the following fund:

Fund	Disbursements	Appropriations
Fund 409 Career Development	\$113,524	\$56,939

FINDING NUMBER 1999-10483-003

Expenditures Plus Encumbrances Exceeding Appropriations - (Compliance)

Ohio Rev. Code, Section 5705.41(D), does not allow an order or contract to be entered into without the fiscal officer's certification that the amount required to meet the obligation has been lawfully appropriated for such purpose and is in the treasury or in process of collection to the credit of an appropriate fund free from any previous encumbrances. Ohio Rev. Code, Section 5705.41(B), prohibits a District from making any expenditure of money unless it has been properly appropriated. The District's appropriations were exceeded by the sum of their expenditures and encumbrances in the following funds by the indicated amounts:

Fund	Expenditures Plus Encumbrances	Appropriations
Fund 524 VEPD Secondary	\$237,374	\$165,526

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS (CONTINUED)

FINDING NUMBER 1999-10483-004

Insurance Claims Processing - (Internal Control, Reportable Condition)

The Warren County Vocational School District has delegated insurance claims processing, which is a significant accounting function, to a third-party administrator. The District has not established procedures to reasonably determine that insurance claims have been completely and accurately processed in accordance with the insurance contract.

We recommend that the District implement procedures to reasonably assure the completeness, and accuracy (including eligibility and allowability) of insurance claims processed by their third-party administrator. Statement on Auditing Standards No. 70 (SAS 70) prescribes testing and reporting standards for audits of claims processing controls which should satisfy this requirement. As described in that Statement, we suggest that the District obtain a "Report on Policies and Procedures Placed in Operation and Tests of Operating Effectiveness" from the third-party administrator. Such a report, if unqualified, would provide evidence to the District's management that insurance claims were being processed in conformance with the contract.
