INDEPENDENT ACCOUNTANTS' REPORT

West Holmes Local School District
Holmes County
28 West Jackson Street
Millersburg, Ohio 44654

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of West Holmes Local School District, Holmes County, Ohio, (the District) as of and for the year ended June 30, 2003, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of West Holmes Local School District, Holmes County, Ohio, as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General Fund thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, during the year ended June 30, 2003, the District implemented a new financial reporting model, as required by the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments* and the District adjusted capital assets for an appraisal.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 22, 2004 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

111 Second St., NW / Fourth Floor / Canton, OH 44702
Telephone: (330) 438-0617 (800) 443-9272 Fax: (330) 471-0001
www.auditor.state.oh.us

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to form opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Receipts and Expenditures of Federal Awards is presented for additional analysis and is not a required part of the basic financial statements. We subjected the Schedule of Receipts and Expenditures of Federal Awards to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Auditor of State

July 22, 2004

West Holmes Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
(Unaudited)

The discussion and analysis of the West Holmes Local School District's (the School District) financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2003. The intent of this discussion and analysis is to look at the School District's performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2003 are as follows:

- General Revenues accounted for \$18,533,209 in revenue or 91% of all revenues. Program specific revenues in the form of charges for services and sales, grants, and contributions accounted for \$1,941,835 or 9% of total revenues of \$20,475,044.
- Total program expenses were \$21,293,334.
- In total, net assets decreased \$818,290, which represents a 6% decrease from 2002.
- Outstanding debt decreased from \$14,754,935 to \$14,613,831 through the payment of bond principal.

The *Statement of Net Assets and Statement of Activities* provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the West Holmes Local School District, the general and debt service funds are the most significant funds.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2003?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include *all assets and liabilities* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's *net assets and changes in those assets*. This change in net assets is important because it tells the reader that, for the School District as a whole, the *financial position* of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio which restrict revenue growth, facility conditions, required educational programs, and other factors.

The government-wide financial statements begin on page 10.

(Unaudited)

Reporting the School District's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District uses fund accounting to ensure compliance with finance-related legal requirements. The School District uses many funds to account for financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the general fund and the debt service fund.

Governmental Funds - Most of the School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and debt service fund, both of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation.

The School District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The governmental fund financial statements begin on page 12.

Proprietary Funds - The School District maintains one type of proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the School District's various functions. The School District uses an internal service fund to account for its health insurance benefits. Because this service predominantly benefits governmental functions, it has been included within the governmental activities in the government-wide financial statements.

The proprietary fund financial statements begin on page 17.

Fiduciary Funds - These funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the School District's own programs. The accounting for the fiduciary funds is much like that used to proprietary funds.

The fiduciary fund financial statements begin on page 20.

West Holmes Local School District
Management's Discussion and Analysis

(Unaudited)

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 21.

The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for 2003 compared to 2002:

(Table 1)
Net Assets

| | Governmental Activities | |
|--------------------------|-------------------------|---------------|
| | 2003 | 2002 |
| Assets | | |
| Current and Other Assets | \$ 18,654,231 | \$ 18,007,784 |
| Capital Assets | 21,377,868 | 21,766,968 |
| Total Assets | 40,032,099 | 39,774,752 |
| Liabilities | | |
| Long-Term Liabilities | 16,489,963 | 16,582,912 |
| Other Liabilities | 10,840,573 | 9,671,987 |
| Total Liabilities | 27,330,536 | 26,254,899 |
| Net Assets | | |
| Invested in Capital | | |
| Assets Net of Debt | 6,557,662 | 7,012,033 |
| Restricted | 1,842,521 | 1,787,469 |
| Unrestricted | 4,301,380 | 4,720,351 |
| Total Net Assets | \$ 12,701,563 | \$ 13,519,853 |

Total assets increased by \$257,347. This is due to the \$786,202 increase in Taxes and Intergovernmental Receivables compared to the prior year. The net assets of the School District governmental activities decreased \$818,290 or 6%. This decrease is due to total liabilities increasing mainly due to increased Deferred Revenue, which is related to the above mentioned increase in Taxes Receivable. In addition, there were increases in Accrued Wages and Benefits, and Claims Payable.

Table 2 shows the changes in net assets for fiscal year 2003. Since this is the first year the School District has prepared financial statements following GASB Statement No. 34, revenue and expense comparisons to fiscal year 2002 are not available. This table will present two fiscal years in side-by-side comparisons in successive reporting years. This will enable the reader to draw further conclusions about the District's financial status and possibly project future problems.

| Decrease in Net Assets | <u><u>\$ (818,290)</u></u> |

Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements. All governmental funds had total revenues of \$20,475,044 and expenditures of \$21,293,334. Comparisons to 2002 have not been made since they are not available.

(Table 3)
Governmental Activities

| | 2003 | |

West Holmes Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
(Unaudited)

Instruction and student support services comprise 88% of governmental program expenses. Interest was 5%. Interest expense was attributable to the outstanding bonds. Pupil transportation and the operation/maintenance of facilities accounts for 14% of governmental program expenses.

The dependence upon taxes and other general revenues for governmental activities is apparent. The community, as a whole, is by far the primary support for West Holmes Local School District students.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2003, the School District did modify its general fund appropriations. The School District uses site-based budgeting and budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, budget basis revenue was \$17,096,973, over the original budget estimate of \$16,108,542. Final appropriations of \$18,330,293, were \$932,601 higher than the \$17,397,692 in the original appropriations. Salaries, liability/property/fleet insurance, and county auditor fees (for tax collections) proved to be higher than anticipated. A number of aide positions were added during the year to assist with students with special needs. Property/liability/fleet insurances saw significant increases in response to the events of September 11, 2001. The School District has also experienced increased medical insurance premiums and claims costs.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2003, the School District had \$21,377,868 invested in land, buildings, equipment, vehicles, textbooks and infrastructure. Table 4 shows fiscal year 2003 balances compared with 2002.

(Table 4)
Capital Assets at June 30
(Net of Depreciation)

| | Governmental Activities | |
|----------------------------|-------------------------|---------------|
| | 2003 | 2002 |
| Land | \$ 629,414 | \$ 629,414 |
| Buildings and Improvements | 16,468,257 | 16,807,310 |
| Furniture and Equipment | 2,738,415 | 2,687,840 |
| Vehicles | 1,019,689 | 1,111,022 |
| Textbooks | 515,685 | 524,681 |
| Infrastructure | 6,408 | 6,701 |
| Totals | \$ 21,377,868 | \$ 21,766,968 |

West Holmes Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
(Unaudited)

The (\$389,100) decrease in capital assets was attributable to current year depreciation of capital assets exceeding the net amount of additions and reductions. See Note 9 for additional information.

A change in Ohio law required school districts to set aside 3% of certain revenues for capital improvements and an additional 3% for textbooks. For fiscal year 2003, this amounted to \$383,156 for each set aside. The School District has qualifying disbursements or offsets exceeding these requirements for capital improvements and textbooks.

Debt

At June 30, 2003, the School District had \$14,613,831 in bonds outstanding with \$118,831 due within one year. During fiscal year 2003, \$141,104 of general obligation bonds were retired. Table 5 summarizes bonds outstanding.

(Table 5)
Outstanding Debt, at June 30

| | Governmental Activities 2003 | Governmental Activities 2002 |
|---------------------------|------------------------------------|------------------------------------|
| General Obligation Bonds: | | |
| 1996 School Improvements | \$ 14,613,831 | \$ 14,754,935 |

In 1996, the residents of the West Holmes Local School District passed a bond issue providing \$16,149,935 for the purpose of constructing a new High School and classroom additions to four of the existing elementary schools. See Note 13 for additional information.

Current Issues

The West Holmes Local School District has always received strong support from the residents of the School District. The School District asked the voters in 1994 for additional operating revenue. This has been the only additional operating levy since 1978.

The School District receives 62% of its General Fund revenue from State and Federal sources and 38% from local sources. With the district so dependent on State revenue, the State Legislation's decision regarding what kind of school funding system will be put into affect for the future is very important to the School District.

From a State funding perspective, the State of Ohio was found by the Ohio Supreme Court in March, 1997 to be operating an unconstitutional education system, one that was neither "adequate" nor "equitable". Since 1997, the State has directed its tax revenue growth toward school districts with little property tax wealth, which allows the School District to receive Parity Aid.

The School District has planned expenses since the last levy. This has become more difficult with the many mandates and rising utility costs, increased special education services required for our students, and significant increases in health insurance and property/liability/fleet insurance.

West Holmes Local School District
Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2003
(Unaudited)

All scenarios require management to plan carefully and prudently to provide the resources to meet student needs over the next several years.

In addition, the School District's systems of budgeting and internal controls are well regarded. All of the School District's financial abilities will be needed to meet the challenges of the future.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Jamie Zeigler, Treasurer of West Holmes Local School District, 28 West Jackson Street, Millersburg, Ohio 44654.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 1 – Description of the School District

The West Holmes Local School District (the School District) was established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District is a local school district as defined by Section 3311.03 of the Ohio Revised Code. The School District operates under an elected Board of Education, consisting of five members, and is responsible for providing public education to residents of the School District. Average daily membership on, or as of, October 1, 2002, was 2,801. The School District employs 197 certificated and 134 non-certificated employees.

Reporting Entity

The reporting entity is required to be composed of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the School District, this includes general operations, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and 1) the School District is able to significantly influence the programs or services performed or provided by the organization; or 2) the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provided financial support to the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District has no component units.

The District is involved with Tri-County Computer Service Association (TCCSA) and Ashland County-West Holmes Career Center, which are defined as jointly governed organizations. Additional information concerning the jointly governed organizations is presented in Note 15. The District is also involved with the Ohio School Boards Association Workers' Compensation Group Rating Program, an insurance purchasing pool. See Note 15 for additional information on this pool.

Management believes the financial statements included in the report represent all of the funds of the School District over which the School District has the ability to exercise direct operating control.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District applies FASB Statements and Interpretations issued on or before November 30, 1989 to its governmental activities and proprietary fund, unless those pronouncements conflict with or contradict GASB pronouncements. The School District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued after November 30,

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

1989, to its proprietary fund provided they do not conflict with or contradict GASB pronouncements. The most significant of the School District's accounting policies are described below.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is also eliminated to avoid "doubling up" revenues and expenses.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limitations. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

General Fund The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund The debt service fund is used to account for the accumulation of property tax revenues for, and the payment of, principal and interest obligations relative to the school District's general obligation bonds.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Fund Type Proprietary fund reporting focuses on the determination of operating income, changes in net asset, financial position, and cash flows. The following is the School District's proprietary fund type:

Internal Service Fund The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for a self-insurance program for employee health benefits.

Fiduciary Funds Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only fiduciary funds are agency funds. The School District's agency funds account for student activities.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

(i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary fund activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of the fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. (See Note 7.) Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees, and rentals.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Deferred Revenue Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2003, but which were levied to finance fiscal year 2004 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Cash and Cash Equivalents

To improve cash management, all cash received by the School District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the School District records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

During fiscal year 2003, investments were limited to, certificates of deposit and money-market accounts.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Certificates of deposit are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the general fund to receive allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2003 amounted to \$164,065.

Investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an original maturity of more than three months that are not made from the pool are reported as investments.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2003, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

G. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

On fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased.

H. Restricted Assets

Assets are reported as restricted when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. Restricted assets include amounts required by statute to be set-aside for the purchase of textbooks and other instructional material and to create a reserve for budget stabilization. See Note 17 for additional information regarding set asides.

I. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five hundred dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| | |
|----------------------------|---------------|
| Land | N/A |
| Buildings and Improvements | 10 - 50 Years |
| Furniture and Fixtures | 5 - 20 Years |
| Vehicles | 10 Years |
| Textbooks | 5 Years |
| Infrastructure | 10 - 50 Years |

J. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental column of the statement of net assets.

K. Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued using the termination method. The liability is based on an estimate of the amount of accumulated sick leave that will be paid as a termination benefit.

The entire compensated absence liability is reported on the government-wide financial statements.

In governmental funds, the liability for unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

L. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current fiscal year. Bonds and capital leases are recognized as a liability on the fund financial statements when due.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations for expenditures. Unreserved fund balance indicates that portion of fund equity, which is available for appropriation, in future periods. Fund balance reserves are established for encumbrances, inventory of materials and supplies, property taxes, debt service, loans, and budget stabilization.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriations under State statute. The reserve for budget stabilization represents money required to be set-aside by statute to protect against cyclical changes in revenues and expenditures.

O. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are charges for services for self-insurance programs. Operating expenses are necessary costs incurred to provide the goods or services that is the primary activity of the fund.

P. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal 2003.

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R. Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. Throughout the fiscal year, the primary level of budgetary control was at the fund/function level for the general fund and at the fund level for all other funds. Budgetary modifications at this level may only be made by resolution of the Board of Education.

Tax Budget Prior to January 15, the Superintendent and Treasurer submit to the Board a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with the Holmes County Budget Commission for rate determination.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Estimated Resources The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the School District by March 1. As part of the certification, the School District receives the official Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget ensuring that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the annual appropriation measure. On or about July 1, the Certificate of Estimated Resources is amended to include any unencumbered balances from the preceding year. The Certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the Amended Certificate when the Original Appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2003.

Appropriations A temporary appropriations measure to control expenditures may be passed on or about July 1 of each year for the period July 1 to September 30. An Annual Appropriation Resolution must be passed by October 1 of each year for the period July 1 to June 30. The Appropriation Resolution fixes spending authority at the legal level of control and may be amended during the year as new information becomes available provided that total fund appropriations do not exceed current estimated resources, as certified. The total of expenditures and encumbrances may not exceed appropriations at the legal level of control. Any revisions that alter the total fund/function appropriation in the general fund or alter total fund appropriations in any other funds must be approved by the Board of Education. The Board may pass supplemental fund appropriations provided the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. The amounts reported as the original budgeted amounts in the budgetary statements reflect the appropriation in the first complete appropriated budget, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Encumbrances As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On fund financial statements, encumbrances outstanding at year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds. A reserve for encumbrances is not reported on government-wide financial statements.

Lapsing of Appropriations At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated.

Note 3 – Change in Accounting Principle and Restatement of Fund Balances/Net Assets

Changes in Accounting Principles For fiscal year 2003, the School District has implemented GASB Statement No. 34, “Basic Financial Statements - and Management’s Discussion and Analysis - for State

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

and Local Governments”, GASB Statement No. 37, “Basic Financial Statements for State and Local Governments: Omnibus”, GASB Statement No. 38, “Certain Financial Statement Note Disclosures”, GASB Statement No. 41, “Budgetary Comparison Schedules - Perspective Differences”, and GASB Interpretation No. 6 “Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements.”

GASB 34 creates new basic financial statements for reporting on the School District’s financial activities. The financial statements now include government-wide financial statements prepared on an accrual basis of accounting and fund financial statements which present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column.

The government-wide financial statements split the School District’s programs between governmental and business-type activities. The beginning net asset amount for governmental activities reflects the change in fund balance for governmental funds at June 30, 2002, caused by the conversion to the accrual basis of accounting and the reclassification of funds based on the guidance provided in Statement No. 34. Due to these fund reclassifications, there are no business-type activities reported.

GASB Statement No. 37 clarifies certain provisions of Statement No. 34, including the required content of the Management Discussion and Analysis, the classification of program revenues and the criteria for determining major funds. GASB Statement No. 38 modifies, establishes and rescinds certain financial statement note disclosures.

GASB Interpretation No. 6 clarifies the application of standards for modified accrual recognition of certain liabilities and expenditures in areas where differences have arisen, or potentially could arise, in interpretation and practice.

Restatement of Capital Assets and Fund Balance It was determined that the enterprise and expendable trust funds should be reclassified to special revenue funds. The School District had a valuation performed on its buildings, building improvements, and land improvements as of March 22, 2002 by Valuation Engineers, Inc. In addition, the District discovered adjustments that needed to be made to its capital asset listing as of July 1, 2002. Capital asset balances have been adjusted as of July 1, 2002, for the valuation and adjustments and for accumulated depreciation as required by GASB Statement No. 34.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

| | Balance 6/30/2002 | Adjustments | Balance 7/1/2002 |
|---|----------------------|----------------|---------------------|
| Governmental Activities | | | |
| <i>Capital Assets, not being depreciated:</i> | | | |

| Total Capital Assets, being depreciated | 28,213,994 | 3,631,673 | 31,845,667 |
| <i>Less Accumulated Depreciation:</i> | | | |
| Buildings and Improvements | 0 | (6,699,693) | (6,699,693) |
| Furniture and Equipment | (260,627) | (2,324,437) | (2,585,064) |
| Vehicles | 0 | (619,315) | (619,315) |
| Textbooks | 0 | (778,858) | (778,858) |
| Infrastructure | 0 | (25,183) | (25,183) |
| Total Accumulated Depreciation | (260,627) | (10,447,486) | (10,708,113) |
| Total Capital Assets being depreciated, net | 27,953,367 | (6,815,813) | 21,137,554 |
| Governmental Activities Capital Assets, Net | \$ 28,582,781 | \$ (6,815,813) | \$ 21,766,968 |

The restatements for GASB Statement No. 34 had the following effects on the fund balance of the major and nonmajor funds of the School District as they were previously reported. The transition from governmental fund balance to net assets of the governmental activities is also presented.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

| | General | Debt Service | Nonmajor | Total |
|--|--------------|--------------|------------|---------------|
| Fund Balances, July 1, 2002 | \$ 6,413,961 | \$ 1,293,027 | \$ 655,078 | \$ 8,362,066 |
| Fund Reclassification | 0 | 0 | 69,000 | 69,000 |
| Adjusted Fund Balances, July 1, 2002 | \$ 6,413,961 | \$ 1,293,027 | \$ 724,078 | \$ 8,431,066 |
| Capital Assets, July 1, 2002 | | | | \$ 21,766,968 |
| Capital Leases | | | | (198,539) |
| Compensated Absences | | | | (1,629,438) |
| Internal Service Fund | | | | (166,558) |
| Long Term (Deferred) Assets | | | | 208,428 |
| Long Term Liabilities | | | | (14,754,935) |
| Pension Obligations | | | | (137,139) |
| Governmental Activities Net Assets, July 1, 2002 | | | | \$ 13,519,853 |

Note 4 – Fund Deficits

Net assets/fund balances at June 30, 2003 included the following individual fund deficits:

| | Deficit |
|------------------|-----------|
| Non-Major Funds: | |
| Food Service | \$ 23,588 |
| Title VI-B | 7,142 |
| Title I | 42,979 |

The deficits in the non-major funds resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and will provide operating transfers when cash is required, not when accruals occur.

The self insurance internal service fund also had a deficit net assets of \$505,882. The District is currently addressing the deficit net assets to determine what to do to generate a positive balance.

Note 5 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual, is presented for the general fund on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

1. Revenues and Other Sources are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures and Other Uses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Encumbrances are treated as expenditures (budget) rather than as a reservation of fund balance (GAAP).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement on a fund type basis for the general fund.

Net Change in Fund Balance

| | General |
|---|--------------|
| GAAP Basis | \$ (186,545) |
| Net Adjustment for Revenue Accruals | (219,835) |
| Net Adjustment for Expenditure Accruals | 473,308 |
| Adjustment for Encumbrances | (641,539) |
| Budget Basis | \$ (574,611) |

Note 6 - Deposits and Investments

State statutes classify monies held by the District into three categories:

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Interim monies can be deposited or invested in the following securities:

- 1) United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2) Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3) Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement exceeds the principal value of the agreement by at least two percent and be marked to market daily with the term of the agreement not exceeding thirty days;
- 4) Bonds and other obligations of the State of Ohio;
- 5) No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6) The State Treasurer's investment pool (STAR Ohio);
- 7) Certain bankers' acceptance and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and
- 8) Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specific dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Cash on Hand At year end, the School District had \$1,500 in undeposited cash on hand which is included on the financial statements of the School District as part of equity in pooled cash and cash equivalents.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Deposits At fiscal year-end, the carrying amount of the School District's deposits was \$10,243,739 and the bank balance was \$10,312,857. Of the bank balance:

1. \$238,834 of the bank balance was covered by depository insurance; and
2. \$10,074,023 was covered by collateral held in the pledging bank's trust department in the School District's name.

Note 7 - Property Taxes

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the District. The Holmes, Wayne, Coshocton, and Ashland County Auditors are responsible for assessing and remitting these property taxes to the School District.

Real property taxes are based on assessed value equal to thirty-five percent of appraisal value. The Holmes, Wayne, Coshocton, and Ashland County Auditors reappraise real property every six years with a triennial update, which was last completed for the tax year 2001 for Holmes County, 2000 for Coshocton and 2002 for Ashland and Wayne Counties. Real property tax, which becomes a lien on the applicable real property, becomes due annually on December 31. However, in Holmes, Wayne, Coshocton, and Ashland Counties, real property taxes are billed semi-annually, one year in arrears. The tax rate applied to real property collected in 2002 before certain homestead and rollback reductions, which reductions are reimbursed to the District by the State of Ohio, amounted to \$33.80 per \$1,000 of valuation for Holmes, Wayne, Coshocton and Ashland Counties. The effective rate applied after adjustment for inflationary increases in property values was \$29.79 per \$1,000 of assessed valuation for residential and agricultural real property, and \$30.24 per \$1,000 of assessed valuation for other real property for Holmes, Wayne, Coshocton, and Ashland Counties.

Tangible personal property used in business is required to be reported by its owners by April 30 of each year. The property is assessed for tax purposes at varying statutory percentages of cost. The tax rate applied to tangible personal property for the current year ended December 31, 2002 was \$33.80 per \$1,000 of valuation for Holmes, Wayne, Coshocton, and Ashland Counties.

The property valuation consisted of:

| | <u>Holmes</u> | <u>Wayne</u> | <u>Coshocton</u> | <u>Ashland</u> |
|--------------------------------|--------------------------|------------------------|------------------------|------------------------|
| Real Property | | | | |
| Residential/Agricultural | \$182,944,100 | \$4,161,840 | \$4,625,830 | \$1,434,650 |
| Commercial/Industrial | 30,503,810 | 301,650 | 18,790 | 53,860 |
| Public Utilities | 20,620 | 7,750 | 0 | 0 |
| Mineral | 2,745,440 | 0 | 102,620 | 0 |
| Tangible Personal Property | | | | |
| General | 22,599,360 | 371,780 | 46,028 | 6,290 |
| Public Utilities | <u>16,360,850</u> | <u>1,793,580</u> | <u>299,970</u> | <u>200,380</u> |
| Total Valuation | <u>\$255,174,180</u> | <u>\$6,636,600</u> | <u>\$5,093,238</u> | <u>\$1,695,180</u> |

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Accrued property taxes receivable represent delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable as of June 30, 2003 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the delayed settlement of personal property tax and the amount of real property taxes available as an advance at June 30 were levied to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The late settlement and the amount available as an advance at June 30 are recognized as revenue.

The amount available as an advance at June 30, 2003, was \$391,006 and is recognized as revenue. \$309,942 was available to the general fund, \$60,432 was available to the bond retirement debt service fund and \$20,632 was available to the permanent improvement fund reported with Other Governmental Funds.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

Note 8 - Receivables

Receivables at June 30, 2003, consisted of taxes, accounts (fees), interfund, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. Intergovernmental receivables consisted of operating grants in the following Other Governmental funds:

| | |
|------------|------------|
| Title VI-B | \$ 41,956 |
| Title I | 55,131 |
| Title VI | 2,842 |
| Title VI-R | 26,183 |
| Title II-D | 1,541 |
| | <hr/> |
| | \$ 127,653 |
| | <hr/> |

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 9 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2003, was as follows:

| | Restated Balance 7/1/2002 | Additions | Reductions | Balance 6/30/2003 |
|---|---------------------------------|--------------|--------------|----------------------|
| Governmental Activities | | | | |
| <i>Capital Assets, not being depreciated:</i> | | | | |
| Land | \$ 629,414 | \$ 0 | \$ 0 | \$ 629,414 |
| <i>Capital Assets, being depreciated:</i> | | | | |
| Buildings and Improvements | 23,507,003 | 236,740 | 0 | 23,743,743 |
| Furniture and Equipment | 5,272,904 | 533,666 | (135,234) | 5,671,336 |
| Vehicles | 1,730,337 | 286,472 | (234,900) | 1,781,909 |

Note 10 - Risk Management

A. Property and Liability

The School District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. The School District has a comprehensive property and casualty policy with a deductible of \$2,500 per incident on property. The School District's vehicle insurance policy limit is \$1,000,000 with a \$1,000 collision deductible. All board members, administrators, and employees are covered under a school district liability policy. Additionally, the School District carries a \$1,000,000 blanket umbrella policy. The limits of this coverage are \$1,000,000 per occurrence and \$3,000,000 in aggregate. Settlements have not exceeded insurance coverage in any of the last three years. There has not been a significant reduction in coverage from the prior year.

The Superintendent has a \$25,000 position bond. The Treasurer is covered under a surety bond in the amount of \$50,000.

B. Workers' Compensation

For fiscal year 2003, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program, an insurance purchasing pool. The program is intended to reduce premiums for the participants. The workers' compensation experience of the participating members is calculated as one experience and a common premium rate is applied to all members in the program. Each participant pays its rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the program. A participant will then either receive money from or be required to contribute to the "equity pooling fund". This "equity pooling fund" arrangement insures that each participant shares equally in the overall performance of the program. Participation in the program is limited to members that can meet the program's selection criteria. The districts apply for participation each year. The firm of Gates McDonald and Co. provides administrative, cost control, and

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

actuarial services to the program. Each year the School District pays an enrollment fee to the program to cover the costs of administration.

C. Employee Medical Benefits

The School District has established a limited risk management program for its medical insurance program. Premiums are paid into the self-insurance fund and are available to pay claims and administrative costs. A stop-loss insurance contract with a private insurance carrier covers specific liability claims in excess of \$60,000, and aggregate claims in excess of \$2,227,107. The liability for unpaid claims cost of \$478,434 is reported in the fund at June 30, 2003 in accordance with Government Accounting Standards Board Statement No. 10.

Changes in the fund's claims liability amount in 2002 and 2003 were:

| | <u>Balance at Beginning of Year</u> | <u>Claims</u> | <u>Payments</u> | <u>Balance at End of Year</u> |
|------|---|---------------|-----------------|-----------------------------------|
| 2002 | \$ 393,748 | \$1,885,189 | \$1,944,505 | \$ 334,432 |
| 2003 | \$ 334,432 | \$2,397,170 | \$2,253,168 | \$ 478,434 |

Note 11- Defined Benefit Pension Plans

A. School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System 300 East Broad Street, Columbus, Ohio 43215-3746 or by calling (614) 222-5853.

Plan members are required to contribute 9% of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS's Retirement Board. The School District's required contributions to SERS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$374,424, \$362,832, and \$366,552, respectively; 50% has been contributed for fiscal year 2003 and 100% for the fiscal years 2002 and 2001. \$187,212 represents the unpaid contribution for fiscal year 2003, and is recorded as a liability.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

B. State Teachers Retirement System

The School District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information for STRS. That report may be obtained by writing to the State Teachers Retirement System 275 East Broad Street, Columbus, and Ohio 43215-3771, or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS funds times an actuarially determined annuity factor. The DC plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Plan members are required to contribute 9.3% of their annual covered salaries and the School District is required to contribute at an actuarially determined rate. The current rate is 14% of annual covered payroll. Contribution rates are established by and may be amended by the STRS Board of Trustees. The School District's required contributions to STRS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$1,190,736, \$1,218,072, and \$1,105,608, respectively; 83% has been contributed for fiscal year 2003 and 100% for the fiscal years 2002 and 2001. \$198,456 represents the unpaid contribution for fiscal year 2003, and is recorded as a liability within the respective funds.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2003, all members of the Board of Education have elected Social Security. The Board's liability is 6.2% of wages paid.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 12 - Postemployment Benefits

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the systems based on authority granted by State statute. Both systems are on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of health care costs in the form of a monthly premium. By law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate; currently 14% of covered payroll. For the fiscal year ended June 30, 2003, the STRS Board allocated employer contributions equal to 1% of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$85,053 during the 2003 fiscal year.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Health Care Reserve Fund was \$2.8 billion at June 30, 2003, and eligible benefit recipients totaled \$108,294 and net health care costs paid by STRS were \$352,301,000.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75% of the premium.

After the allocation for basic benefits, the remainder of the employer's 14% contribution is allocated to providing health care benefits. For the fiscal year, ended June 30, 2003, employer contributions to fund health care benefits were 5.83% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2003, the minimum pay has been established at \$14,500. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund. For the School District, the amount contributed to fund health care benefits, including the surcharge, during the 2003 fiscal year equaled \$203,203.

Health care benefits are financed on a pay-as-you-go basis. The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care for the fiscal year ended June 30, 2003, were \$204.931 million and the target level was \$307.4 million. At June 30, 2002, SERS had net assets available for payment of health care benefits of \$303.6 million. SERS had approximately 50,000 participants currently receiving health care benefits.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 13 - Long - Term Obligations

The changes in the School District's long-term obligations during the year consist of the following:

| | Outstanding 6/30/02 | Additions | Trade-ins | Reductions | Outstanding 6/30/03 | Amounts Due in One Year |
|---|------------------------|-------------------|-------------------|-------------------|------------------------|-------------------------------|
| Governmental Activities: | | | | | | |
| School Improvement Bonds, 3.7% - 5.35% variable rate interest, matures December 2023 | \$ 14,754,935 | | | \$141,104 | \$ 14,613,831 | \$118,831 |
| Capital lease payable | 198,539 | \$220,929 | \$177,148 | 35,945 | 206,375 | 45,838 |
| Compensated absences | 1,629,438 | 40,319 | | | 1,669,757 | 21,062 |
| Total Governmental Activities Long-Term Liabilities | <u>\$ 16,582,912</u> | <u>\$ 261,248</u> | <u>\$ 177,148</u> | <u>\$ 177,049</u> | <u>\$ 16,489,963</u> | <u>\$ 185,731</u> |

In 1997, the School District issued \$16,149,935 in general obligation bonds for construction of a new High School. The bonds mature in December 2023.

General obligation bonds will be paid from the debt service fund. Compensated absences will be paid from the general fund, Title VI-B, Title II-A, Title I, and food service special revenue funds.

In prior years, the District entered into capitalized leases for copiers. In the current year, the District entered into capitalized leases for copiers with a capitalized cost of 220,929. In addition, some copiers which were leased in prior years were traded-in with a capitalized cost of \$177,148. The total capitalized cost of the copiers is \$254,104. All of the leases meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service payments. Capital assets acquired by the leases have been capitalized in the General Fund in the amount equal to the present value of the minimum lease payments at the time of acquisition. A corresponding liability was recorded in the General Fund.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2003 are as follows:

| Fiscal Year Ending June 30, | <u>General Obligation Bonds</u> | | |
|--------------------------------|---------------------------------|---------------|---------------|
| | Principal | Interest | Total |
| 2004 | \$ 118,831 | \$ 1,077,342 | \$ 1,196,173 |
| 2005 | 440,000 | 746,273 | 1,186,273 |
| 2006 | 460,000 | 725,793 | 1,185,793 |
| 2007 | 480,000 | 704,053 | 1,184,053 |
| 2008 | 500,000 | 681,018 | 1,181,018 |
| 2009 - 2013 | 2,890,000 | 3,000,621 | 5,890,621 |
| 2014 - 2018 | 3,735,000 | 2,133,204 | 5,868,204 |
| 2019 - 2023 | 4,855,000 | 984,834 | 5,839,834 |
| 2024 | 1,135,000 | 30,503 | 1,165,503 |
| Total | \$ 14,613,831 | \$ 10,083,641 | \$ 24,697,472 |

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The following summarizes future minimum lease payments under the above capital leases, and the present values of net minimum lease payments at June 30, 2003:

| | | |
|---|------|------------|
| | 2004 | \$ 65,131 |
| | 2005 | 63,746 |
| | 2006 | 58,320 |
| | 2007 | 56,983 |
| | 2008 | 11,783 |
| Total Minimum Lease Payments | | 255,963 |
| Less: Amounts Representing Interest | | (49,588) |
| Present Value of Net Minimum Lease Payments | | \$ 206,375 |

Note 14 – Deferred Revenue

Deferred revenue at 6/30/03 consisted of the following:

| | Statement of Net Assets | Balance Sheet |
|---------------------------|----------------------------|------------------|
| Property Taxes Receivable | \$ 7,625,382 | \$ 7,818,976 |

Note 15 - Jointly Governed Organizations / Insurance Purchasing Pool

A. Tri-County Computer Service Association (TCCSA)

TCCSA is a jointly governed organization comprised of 23 school districts, created as a regional council of governments pursuant to State statute. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions for member districts. Each of the governments of these districts support TCCSA based on a per pupil charge dependent upon the software package utilized. The TCCSA assembly consists of a superintendent or designated representative from each participating district and a representative from the fiscal agent. TCCSA is governed by a board of directors chosen from the general membership of the TCCSA assembly. The board of directors consists of a representative from the fiscal agent, the chairman of each operating committee, and at least an assembly member from each county from which participating districts are located. Financial information can be obtained by contacting the Treasurer at the Tri-County Educational Service Center, located in Wooster, Ohio which serves as fiscal agent.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

B. Ashland County-West Holmes Career Center (Career Center)

The Career Center, a joint vocational school established by the Ohio Revised Code, is a jointly governed organization providing vocational services to its 11 member school districts. The Career Center is governed by a board of education comprised of 11 members appointed by the participating schools. The Board controls the financial activity of the Career Center and reports to the Ohio Department of Education and the Auditor of State of Ohio. The continued existence of the Career Center is not dependent on the District's continued participation and no measurable equity interest exists.

C. Ohio School Boards Association Workers' Compensation Group Rating Program

The District participates in the Ohio School Boards Association (OSBA) Workers' Compensation Group Rating Program (the Plan), an insurance purchasing pool. The Plan's business affairs are conducted by a three member Board of directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Plan is intended to reduce premiums for the participants. The workers' compensation experience of the participating school district is calculated as one experience and a common premium rate is applied to all school districts in the Plan. Each participant pays its rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the Plan.

Note 16 – Contingencies

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2003.

B. Litigation

The School District is not currently a party to any significant legal proceedings.

Note 17 - Set-Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

The following cash basis information describes the change in the year end set-aside amounts for textbooks and capital acquisition and budget stabilization. Disclosure of this information is required by State statute.

| | Budget Stabilization Reserve | Capital Improvement Reserve | Instructional Materials Reserve | Total |
|---|------------------------------------|-----------------------------------|---------------------------------------|------------------|
| Set-Aside Cash Balance as of June 30, 2002 | \$ 70,670 | \$ 0 | \$ 0 | \$ 70,670 |
| Set-Aside Carryover Balance as of June 30, 2002 | 0 | 0 | (373,383) | (373,383) |
| Current Year Set-Aside Requirement | 0 | 383,156 | 383,156 | 766,312 |
| Qualifying Disbursements | 0 | (443,944) | (310,228) | (754,112) |
| Total | \$ 70,670 | \$ (60,788) | \$ (300,455) | \$ (290,573) |
| Cash Balance Carried Forward FY 2004 | \$ 70,670 | \$ 0 | \$ 0 | \$ 70,670 |
| Amount to Restrict for Set-Asides/Restricted Cash | | | | \$ 70,670 |
| Total Restricted Assets | | | | \$ 70,670 |

Effective April 10, 2001, the Ohio legislature passed Am. Sub. Senate Bill 345, that addressed H.B. 412 set-aside requirements. The requirement for establishment of a budget reserve set-aside has been deleted from this law. A district may still establish a reserve, if it so chooses; however, the requirement is no longer mandatory. Monies in the budget reserve set-aside as of April 10, 2001 are classified in two categories: (1) Bureau of Workers' Compensation (BWC) refunds and (2) the balance of the reserve which does not represent BWC refunds. The statute includes specific purposes for which the monies representing BWC refunds can be used.

The School District had qualifying disbursements during the year that reduced the capital improvements and textbook reserve set-asides below zero. The extra amount in the textbook reserve may be used to reduce the set-aside requirement in future fiscal years. Although the District had qualifying disbursements during the fiscal year that reduced the set-aside amount to below zero for the capital improvement set-aside, this amount may not be used to reduce the set-aside requirement for future years. The total reserve balance/restricted cash for the set-asides at the end of the fiscal year was \$70,670.

West Holmes Local School District
Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2003

Note 18 – State School Funding Decision

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State’s school funding plan. The decision reaffirmed earlier decisions that Ohio’s current school-funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed “the Ohio General Assembly to enact a school funding scheme that is thorough and efficient”.

The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations.

Note 19 – Interfund Receivable and Payable

At June 30, 2002, the District had the following interfund balances:

| | <u>Interfund Receivable</u> | <u>Interfund Payable</u> |
|--------------------------------------|---------------------------------|------------------------------|
| General Fund | \$ 250,000 | \$ 0 |
| Self-Insurance Internal Service Fund | <u>0</u> | <u>250,000</u> |
| | <u>\$ 250,000</u> | <u>\$ 250,000</u> |

The interfund balances resulted from the increasing costs of health insurance and there not being enough receipts to cover the expenses being generated in the internal service fund.

As of June 30, 2003, the interfund balances were still outstanding. At year end, the District is unable to determine when the balance will be repaid due to the fund deficit in the Self-Insurance Internal Service Fund.

The Notes to the Schedule of Receipts and Expenditures of Federal Awards are an integral part of this statement.

**WEST HOLMES LOCAL SCHOOL DISTRICT
HOLMES COUNTY**

**NOTES TO SCHEDULE OF RECEIPTS AND EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2003**

NOTE A – SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Receipts and Expenditures of Federal Awards (Schedule) is a summary of the activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B – CHILD NUTRITION CLUSTER

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This monetary assistance (expenditures) is reported in the Schedule at the fair market value of the commodities received.

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

Auditor of State Betty Montgomery

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS

West Holmes Local School District
Holmes County
28 West Jackson Street
Millersburg, Ohio 44654

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of West Holmes Local School District, Holmes County, Ohio (the District) as of and for the year ended June 30, 2003, which collectively comprise the District's basic financial statements and have issued our report thereon dated July 22, 2004 in which we indicated the District adopted Governmental Accounting Standards Board Statement No. 34 and adjusted capital assets for an appraisal. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance we must report under *Government Auditing Standards*.

However, we noted certain immaterial instances of noncompliance that we have reported to the District's management in a separate letter dated July 22, 2004.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report that we have reported to the District's management in a separate letter dated July 22, 2004.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

West Holmes Local School District
Holmes County
28 West Jackson Street
Millersburg, Ohio 44654

To the Board of Education:

Compliance

We have audited the compliance of the West Holmes Local School District, Holmes County, Ohio, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2003. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs are the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

www.auditor.state.oh.us

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

We noted a matter involving the internal control over federal compliance that does not require inclusion in this report that we have reported to management of the District in a separate letter dated July 22, 2004.

This report is intended for the information and use of management, the Audit Committee, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
