Cuyahoga Falls, Ohio 44221

We have reviewed the *Report of Independent Accountants* of the Summit County Educational Service Center, Summit County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2005 through June 30, 2006. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Summit County Educational Service Center is responsible for compliance with these laws and regulations.

OPINION ON SUPPLEMENTARY SCHEDULE
OF FEDERAL AWARDS EXPENDITURES

Summit County Educational Service Center
420 Washington Avenue
Cuyahoga Falls, Ohio 44221

To the Board of Governors:

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Summit County Educational Service Center (the Center) as of and for the year ended June 30, 2006, and have issued our report thereon dated December 15, 2006. These financial statements are the responsibility of the Center's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits conducted in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was performed for the purpose of forming opinions on the financial statements of the Summit County Educational Service Center that collectively comprise the basic financial statements. The accompanying Schedule of Federal Awards Expenditures is presented for purposes of additional analysis as required by the *U.S. Office of Management and Budget, Circular A-133, Audit of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. The information in that schedule has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly presented in all material respects in relation to the financial statements taken as a whole.

SUMMIT COUNTY EDUCATIONAL SERVICE CENTER
Notes to the Schedule of Federal Awards Expenditures
For the Year Ended June 30, 2006

1. Significant Accounting Policies

The accompanying schedule of federal awards expenditures is a summary of the activity of the Center's federal award programs. The schedule has been prepared on the cash basis of accounting. Consequently, certain revenues are recognized when received rather than when earned, and certain expenditures are recognized when paid rather than when the obligation is incurred.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Summit County Educational Service Center
420 Washington Avenue
Cuyahoga Falls, Ohio 44221

To the Board of Governors:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Summit County Educational Service Center (the Center) as of and for the year ended June 30, 2006, which collectively comprise the Center's basic financial statements and have issued our report thereon dated December 15, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Controls Over Financial Reporting

In planning and performing our audit, we considered the Center's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report that we have reported to management of the Summit County Educational Service Center in a separate letter dated December 15, 2006.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Center's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended for the information and use of management, the Board of Governors, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

Summit County Educational Service Center
420 Washington Avenue
Cuyahoga Falls, Ohio 44221

To the Board of Governors:

Compliance

We have audited the compliance of the Summit County Educational Service Center (the Center) with the types of compliance requirements described in *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program cluster for the year ended June 30, 2006. The Center's major federal program cluster is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program cluster is the responsibility of the Center's management. Our responsibility is to express an opinion on the Center's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and *OMB Circular A-133* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining, on a test basis, evidence about the Center's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Center's compliance with those requirements.

In our opinion, the Center complied, in all material respects, with the requirements referred to above that are applicable to its major federal program cluster for the year ended June 30, 2006.

Internal Control Over Compliance

The management of the Center is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Center's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with *OMB Circular A-133*.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of management, the Board of Governors, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Section

December 15, 2006

To the Citizens and Board of Governors of the Summit County Educational Service Center:

The Comprehensive Annual Financial Report (CAFR) of the Summit County Educational Service Center (the "Service Center") for the fiscal year ended June 30, 2006 is hereby submitted. This report, prepared by the Chief Fiscal Officer, includes basic financial statements, supplemental statements, and other financial and statistical information to provide a complete and full disclosure of all material financial aspects of the Service Center for the 2005-2006 fiscal year end.

Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the management of the Service Center. To the best of our knowledge and belief, the CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the Service Center.

This CAFR, which includes an opinion from our Independent Auditor's, conforms with accounting principles generally accepted in the United States of America as set forth by the Governmental Accounting Standards Board (GASB) and is representative of the Service Center's commitment to provide meaningful information to its' stakeholders.

This CAFR is presented in three sections:

The Introductory Section, which is unaudited, includes this transmittal letter, a list of public officials, the Service Center's organizational chart and the Government Finance Officers' Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting for fiscal year 2005.

The Financial Section, includes the Independent Accountants' Report, Management's Discussion and Analysis, the Basic Financial Statements and Notes that provide an overview of the Service Center's financial position and operating results, the Combining Statements for nonmajor funds, and other schedules that provide detailed information relative to the basic financial statements.

The Statistical Section, which is unaudited, includes selective financial, economic, and demographic information, generally presented on a multi-year basis for comparative purposes.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management’s Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Service Center’s MD&A can be found immediately following the Independent Accountants’ Report.

BACKGROUND AND GENERAL INFORMATION

History

In 1914, the Ohio Legislature created *county boards of education* to oversee the predominantly rural schools outside the cities and larger villages. From their inception, these county offices have performed many of the functions associated with the central office of a large city school system. For example, they provide supervision, psychological services, and prescribed courses of study. In 1995, the Ohio General Assembly adopted Am. Sub. H.B. 117, which altered the structure of county offices of education. Effective July 1, 1995 county offices of education would be known as “Educational Service Centers” governed by a Board of Governors and not a school board.

In Summit County, as the local districts grew larger and more capable of independent operation, the emphasis of the County Office gradually expanded to provide additional cooperative services which were too expensive for a single district to provide economically. Today, the Summit County Educational Service Center concentrates on four main areas of services: 1) curriculum and instructional technology; 2) pupil personnel; 3) support/supplementary services; and 4) administration. Experience has proven that service center organizations can provide advantages of economy of scale without the disadvantages of bureaucracy.

Since the early 1990’s, the Service Center has been able to contract with city school districts to provide services to non-local districts. This permits the city districts to have access to services that they currently cannot afford to provide, and until now, may not have been able to purchase at an affordable cost.

Districts Served

The Summit County Educational Service Center serves a student population of approximately 52,681 in sixteen districts. The districts served are:

Barberton City	Nordonia Hills City
Copley-Fairlawn City	Norton City
Coventry Local	Revere Local
Cuyahoga Falls City	Springfield Local
Green Local	Stow-Munroe Falls City
Hudson City	Tallmadge City
Manchester Local	Twinsburg City
Mogadore Local	Woodridge Local

These districts still maintain their local autonomy in smaller, more manageable, districts with enrollments ranging from 900 to over 6,000 students. Each of the districts has a locally elected board of education consisting of five members, a local superintendent and a treasurer.

The Service Center also provides selected contractual services to districts outside of Summit County. These school districts affiliate on an annual basis, by contract, for a broad spectrum of educational services available through the Service Center.

Organization

The Board of Governors (the “Board”) has five members elected by the voters of the seven local districts. The members must be residents and registered voters of one of the seven local districts. The term of office for each member is four years. Non-partisan elections are held biannually in November with two members being elected in one cycle and three in the following cycle.

The Board sets policies and enters into contracts and may serve in a judicial capacity to resolve disputes involving the organization. The Board appoints the Superintendent and the Chief Fiscal Officer. All other staff are recommended by the administration to the Board for approval. The Board meets monthly to conduct business.

The Superintendent is the Chief Executive Officer of the Service Center and is responsible directly to the Board for all operations. The current Superintendent is Linda Fuline who has served in this position since August 2006. Her current contract extends until July 31, 2009. The previous Superintendent, Patrick Corbett, contract expired in July 2006.

The Chief Fiscal Officer of the Service Center is responsible directly to the Board for all financial operations and serves as Secretary to the Board. The current Chief Fiscal Officer is Sondra Clevenger who has served in this position since July 2000. Her current contract extends until the organizational meeting in January 2007.

SERVICES

Curriculum and Instructional Technology

The Curriculum & Instructional Technology Service Team plays a major role in maintaining and improving the quality of education in Summit County school districts. The department’s staff works mainly with teachers in two related areas: consultation and professional development. Their main emphasis is on helping teachers maintain and improve their instructional skills. The vehicles used are consultation, workshops, and conferences. The tools used are demonstrations of new methods and materials, on site consultations, workshops on specific topics and/or for a specific school, assistance in textbook selection, course of study development, implementation of state standards and educational innovations. The staff development opportunities provided to teachers, through the office are among the most comprehensive in the State.

Ohio legislation requires school districts to have a Continuous Improvement Plan (CIP). In response to this requirement, the Service Center now offers services to support districts in their efforts to develop a CIP. These services are based on a model for developing district and building plans created by the Service Center for Leadership in School Reform System Standards. Analysis of Proficiency Test data is also a major component of the Service Center’s efforts in this area. New services are also being developed to assist districts in this process, data driven decision making.

The Service Center operates a media library for Summit County. Affiliated schools are able to borrow videotapes, CD-ROMS and laser discs from our consortium media library. This library is comprised of over 4,000 titles. There are no rental charges or delivery charges for the seven local and nine affiliate districts. All other users pay a modest rental fee and a delivery fee to cover the cost of postage. Teachers and administrators may call the office to book materials or access the MediaNet through the World Wide Web at <http://union.infohio.org/summit>.

Pupil Personnel

The Service Center provides services to school districts to assist in their delivery of services to special needs and at-risk populations. Services provided directly to students and families are: Attendance/Truancy, Psychological Testing and Individual Education Plans, Speech & Language Therapy and Audiology.

Specialized staffing and other programs are available to school districts to assist them in providing the necessary support for special populations. These include Gifted and Talented Coordination, Special Education Supervision, Speech and Language Supervision, and Work/Study Coordination.

The Summit County Preschool provides an integrated, comprehensive preschool program for all students, age three to five, with special needs or at-risk concerns. In addition to classroom teaching, some of the related services provided are occupational therapy, physical therapy, nursing and nutrition. Participating districts contract for this program.

Support/Supplementary

In order to serve their student populations, school districts must provide a complex network of services. Some of these services are more efficiently and cost effectively provided by a service agency such as the Service Center. To that end, the Service Center provides an array of services that some or all districts use. These include: a courier to and from all district central offices; license checks and safety records; substitute teacher screening; teacher certification; employee background screening and fingerprinting for local districts.

Administration

Of great benefit to the school districts, is the Service Center's cooperative and regional approach. Through this approach, the Service Center has the capacity to facilitate and manage projects in a manner that would not be otherwise possible. Some of the other vital benefits are the Service Center's ability to: 1) serve as a neutral convener; 2) provide consortium/partnerships formation and facilitation; 3) provide fiscal agency for grants, projects and other agencies (Northeast Ohio Network of Educational Technology and the Mid-Eastern Ohio Special Education Resource Center) and 4) provide legislative workshops.

The Service Center is committed to leadership development in the changing world of public education. To this end, the Service Center provides leadership academy opportunities to teachers, aspiring principals, principals, school building teams, treasurers, superintendents, and aspiring superintendents.

ECONOMIC CONDITION AND OUTLOOK

The Service Center's financial condition is dependent upon the collective financial condition of the districts served, and their ability to contract for the Service Center's services. The districts served are mainly within Summit County, Ohio.

Legislation has passed regarding management of regional services offered by the Ohio Department of Education. House Bill 115 established the Educational Regional Service System (ERSS). This new system requires a coordinated, integrated and aligned system to support state and school district efforts to improve school effectiveness and student achievement. The system will consist of sixteen regions. Each region will have a fiscal agent. The selection of a fiscal agent will be through a RFP (request for proposal) process. Selected Fiscal Agents in each region will have the responsibility of allocating resources to provide regional services and also assuring that the state-sponsored regional improvement initiatives are deployed according to Ohio Department of Education guidance. The Summit County Educational Service Center will complete a RFP to become our region's fiscal agent. The proposal due date is November 17, 2006. The date for notification of award is January 31, 2007.

Summit County has been historically associated with the rubber industry. Although the rubber industry is still extremely important to the economy in Summit County, the Goodyear Tire and Rubber Company has been replaced as the largest employer in Summit County. It should not come as a surprise that the largest employer in our county is associated with the health industry. Summa Health Systems is now the largest employer in Summit County with 6,102 employees. Akron General Medical Center is in second place with 4,056 employees, finally followed by the Goodyear Tire and Rubber Company with 4,000 employees. Akron City School District is in fourth place with 3,500 employees. The County of Summit takes fifth place with 3,468 employees.

The County is headquarters for ten corporations with annual revenues of more than one-hundred million dollars each. The top four are Goodyear Tire & Rubber Company, First Energy (Formerly Ohio Edison Company), Jo-Ann Stores, Inc. and A. Schulman, Inc.

Unemployment rates and stocks have been unstable since September 11, 2001. History shows Summit County has fared favorably in unemployment rates compared to National and State rates. Current numbers show this trend is changing. The unemployment rate in 2005 was at 6.7%. This percentage is up from 2004 rate that was 6.1%. The State rate of 6.0% and the National rate of 5.7% are lower than our area. The workforce is transitioning from manufacturing to service industries. In Akron, the largest segment of employment is still manufacturing followed by construction and trade, transportation and utilities.

In summary, the County's economy appeared to decline from the figures stated for 2005.

FINANCIAL INFORMATION

Accounting

This is the fifth year the Service Center has prepared financial statements following GASB Statement No. 34 “Basic Financial Statements – and Management’s Discussion and Analysis – State and Local Governments”. GASB Statement No. 34 creates new basic financial statements for reporting on the Service Center’s financial activities as follows:

Government-wide financial statements - These statements are prepared on the accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the Service Center that are governmental and those that are considered business type activities.

Fund financial statements - These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparison – This statement presents a comparison of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, cash disbursements and encumbrances.

As determined by criteria established by GASB Statement No. 34, the Service Center does not report any activities that qualify as proprietary or business type activities. As part of this new reporting model, management is also responsible for preparing a discussion and analysis of the Service Center. This discussion follows the Independent Accountants’ Report, providing an assessment of the Service Center’s finances for fiscal year 2006 and the outlook for the future. Because that discussion focuses on major funds, the financial highlights provided in this letter focus on certain nonmajor funds of the Service Center.

Internal Controls

The management of the Service Center is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the Service Center are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

Single Audit Act

As a recipient of federal financial assistance, the Service Center is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the Service Center and annual reviews by the Service Center's independent auditors. Based upon the level of federal spending for fiscal year 2006, a single audit was required.

Budgetary Controls

The Service Center maintains its accounts, appropriations and other financial records in accordance with the procedures established and prescribed by the Ohio Auditor of State. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution approved by the Board of Governors. The legal level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. The Service Center also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

CASH MANAGEMENT

The Service Center's approach to the cash management program has continued to be consistent during 2005-2006 with the use of certificates of deposit. Due to very poor interest rates, certificates of deposit have been invested for very short periods of time. Shorter certificates of deposit have had the best interest rates available. The total amount of interest earned was \$255,665.

Protection of the Service Center's cash and investments is provided by the Federal Deposit Insurance Corporation as well as by qualified securities pledged by the institution holding the assets. By law, financial institutions may establish a collateral pool to cover all public deposits. As required under Ohio law, pooled securities have been pledged in an amount equal to 105% of the total deposits, to secure the repayment of all public monies deposited in a financial institution. A detailed description of the Service Center's investment functions is described in Note 4 to the basic financial statements.

RISK MANAGEMENT

As a political subdivision, the Service Center maintains protection for its assets and employees through a comprehensive insurance program. Insurance policies for general liability, commercial equipment loss, and vehicle liability are purchased from insurance companies licensed to do business in the State of Ohio.

The Service Center offers health and dental insurance benefits to full time employees and pays 80% of the insurance rate. The Service Center belongs to the Stark County Schools Council of Government (COG) Health Plan. The COG holds the assets of the plan. The Service Center pays a monthly premium to the plan and shares in ownership. The plan is fully funded and the Service Center is not at risk.

All employees of the Service Center are covered by worker's compensation. Effective January 1, 1995, the Service Center joined a group-rating program through the Ohio School Board Association in an effort to control these costs.

PENSION PLANS

The statewide School Employees Retirement System of Ohio (SERS) or the State Teachers Retirement System (STRS) covers all Service Center employees. The Service Center's employer contributions to both systems are based on a percentage of employees' salaries. State law requires the Service Center to pay the employer share as determined by each retirement system, currently 14%. The Service Center's required contributions for fiscal year 2006 were \$615,682 and \$498,210 to STRS and SERS, respectively.

OTHER INFORMATION

Independent Audit

Provisions of State statute require the Service Center's financial statements to be subjected to bi-annual examination, annually if subject to the Federal Single Audit Act Amendments of 1996 and related OMB Circular A-133, by the Auditor of State. The accounting firm of Charles E. Harris and Associates, CPA's performed the audit for the period ended June 30, 2006. The auditor's unqualified opinion rendered on the Service Center's basic financial statements, and their report on the combining and individual fund statements and schedules, is included in the financial section of this CAFR.

GFOA Certificate of Achievement

The Government Finance Officers' Association of the United States and Canada (GFOA) awarded a Certificate of Achievement of Excellence in Financial Reporting to the Service Center for its fiscal year ended June 30, 2005 CAFR. The Certificate of Achievement is a prestigious national award-recognizing conformance with the highest standards for the preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report will conform to the high standards required by the Certificate of Achievement program.

Acknowledgments

Publication of this report significantly increases the accountability of the Service Center to the stakeholders. Without the support and efforts of the Chief Fiscal Officer's office and various administrators and staff of the Service Center, this accomplishment would not have been possible.

Sincere appreciation is extended to the Board of Governors for its support and interest in this project.

Respectfully Submitted,

REPORT OF INDEPENDENT ACCOUNTANTS

Summit County Educational Service Center
420 Washington Avenue
Cuyahoga Falls, Ohio 44221

To the Board of Governors:

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Summit County Educational Service Center (the Center), as of and for the year ended June 30, 2006, which collectively comprise the Center's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Center's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Center as of June 30, 2006, and the respective changes in financial position and the budgetary comparison for the General Fund for the year ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis on pages 3 through 11 is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 15, 2006 on our consideration of the Center's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Center's basic financial statements. The introductory section, combining and individual nonmajor fund statements, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

A handwritten signature in black ink that reads "Charles E. Harris" followed by a stylized flourish.

Summit County Educational Service Center

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2006

Unaudited

The discussion and analysis of the Summit County Educational Service Center's (the "Service Center") financial performance provides an overview of the Service Center's financial activities for the fiscal year ended June 30, 2006. The intent of this discussion and analysis is to look at the financial performance as a whole. Please read it in conjunction with the transmittal letter, the basic financial statements and notes to enhance understanding of the Service Center's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2006 are as follows:

- In total, net assets increased \$61,022. This represents a 1.2 percent increase from fiscal year 2005.
- Total assets increased \$341,051, or 5.6 percent as compared to fiscal 2005. The most significant asset increase was to depreciable capital assets, which totaled \$825,620.
- General revenues accounted for \$2,858,746 in revenue, or 31.9 percent of all revenues. Program specific revenues, in the form of charges for services and operating grants and contributions accounted for \$6,102,826 or 68.1 percent of all revenues.
- The General fund, the Service Center's only major fund, has \$ 8,497,077 in revenues, or 91 percent of total governmental revenues and \$8,910,941 in expenditures or 91 percent of total governmental expenditures. The General fund's balance decreased \$364,777 during 2006.
- During the fiscal year, the Service Center purchased the land and building, in which it has operated in for several years under a lease, from the Cuyahoga Falls Local School District. The net acquisition price was \$831,112.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can easily understand Summit County Educational Service Center's operations and activities as a whole, or as an entire operating entity.

The statement of net assets and the statement of activities (on pages 12 and 13) provide information about the activities of the Service Center, presenting an aggregate view of the finances of the Service Center and a longer-term view of these finances for future spending.

Reporting the Service Center as a Whole

Statement of Net Assets and Statement of Activities

The statement of net assets and the statement of activities answer the question of how did the Summit County Educational Service Center do financially during fiscal year 2006. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting system used by for-profit businesses, financial institutions, and the stockholders of those companies. This basis of accounting takes into consideration all of the current fiscal year's revenues and expenses regardless of when cash was received or paid.

These two statements report net assets and changes in those assets. The change in net assets is valuable in analyzing these statements. These results indicate whether the financial position has improved or diminished. The cause of this change may be the result of many factors. Some factors may be financial while other factors will be non-financial. Non-financial factors include mandated educational programs, as well as locally requested programs.

In the statement of net assets and the statement of activities, the Service Center reports governmental activities. Governmental activities are the activities where most of the Service Center's programs and services are reported including, but not limited to, instruction, support services, and interest and fiscal charges.

Reporting the Service Center's Most Significant Funds

Fund Financial Statements

The reporting of the Service Center's major fund begins on page 14. Fund financial reports provide detailed information about the Service Center's major fund. The Service Center uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the Service Center's most significant funds. The Service Center's only major governmental fund is the general fund.

Governmental Funds

All of the Service Center's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for future periods. These funds are reported using the modified accrual method of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Service Center's operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs.

The relationship, or differences, between governmental activities reported in the statement of net assets and the statement of activities and in the governmental funds are reconciled in the financial statements.

The Service Center as a Whole

The statement of net assets provides the perspective of the Service Center as a whole.

Table 1 provides a summary of the Service Center's net assets for 2006 compared to 2005:

Table 1
Net Assets

	<u>Governmental Activities</u>	
	<u>2006</u>	<u>2005</u>
Assets		
<i>Current and other assets</i>	\$ 5,336,625	\$ 5,821,194
<i>Capital assets, net</i>	<u>1,067,565</u>	<u>241,945</u>
<i>Total assets</i>	6,404,190	6,063,139
Liabilities		
<i>Long-term liabilities</i>	234,174	169,802
<i>Other liabilities</i>	<u>929,065</u>	<u>713,408</u>
<i>Total liabilities</i>	1,163,239	883,210
Net Assets		
<i>Invested in capital assets, net of related debt</i>	1,022,788	234,052
<i>Restricted</i>	166,267	212,594
<i>Unrestricted</i>	<u>4,051,896</u>	<u>4,733,283</u>
<i>Total net assets</i>	<u>\$ 5,240,951</u>	<u>\$ 5,179,929</u>

Total assets increased \$341,051 or 5.6 percent, as compared to fiscal year 2005. Overall net assets of the Service Center have increased by \$61,022, or 1.2 percent as compared to fiscal year 2005. This increase is a result of increased revenues generated from additional member school district service requests. Some of these increases have been offset by additional costs associated with these services and the recognition of depreciation expense on the general capital assets used to help provide these services.

Governmental Activities

A review of Table 2 reflects total revenues of \$8,961,572, which was an increase of \$809,867 as compared to 2005. The primary increase in revenues was attributed to an increase in charges of services of \$611,877. The primary factors causing this increase in revenues was approximately \$150,000 in increased revenues for the preschool program, \$165,000 in new administrative fees associated with becoming the fiscal agent of Mid-Eastern Ohio Special Education Resource Center (MEO/SERRC) during the year (see Note 13 for further disclosure of this jointly governed organization) and nearly \$200,000 in increased fees to cover payroll and administration costs of the Service Center to provide educational staffing to area private schools, which were not provided for in previous years.

The cost of instructional services was \$2,770,547, or 31.1 percent of the Service Center's total expenses. Instructional expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and pupil. These expenses increased over 2005 by \$580,303, or 26.5 percent. The primary cause to the overall increase in instructional expenses was caused by an increase in additional educational staffing services provided to member and other local public and private school districts.

Pupils and instructional staff include the activities involved in assisting staff with the content and process of teaching to pupils. This is a major emphasis of the Service Center as the total expenses were \$4,669,588, or 52.5 percent as compared to the total expenses of the Service Center. Of these expenses, pupils increased \$466,550, or 24 percent as compared to 2005. The primary cause to the overall increase in expenses was also caused by an increase in additional educational staffing services provided to member and other local public and private school districts.

Board of governors, administration, fiscal and business include expenses associated with administrative and financial supervision of the Service Center. These expenses totaled \$1,131,912 or 12.7 percent of the total expenses of the Service Center. These expenses only increased \$3,704 as compared to 2005.

The statement of activities reflects the cost of program services and the charges for services and operating grants and contributions offsetting those services. Table 3 indicates the total cost of services and the net cost of services.

The dependence upon general revenues for governmental activities is apparent, with 31 percent of expenses supported by general revenues. It is the intention of the Board of Governors not to over charge the districts served and to utilize the general revenues to offset the cost of programs to member districts.

The Service Center's Funds

The Service Center's governmental funds are accounted for using the modified accrual basis of accounting. Total revenues were \$9,332,604 and expenditures were \$9,791,308, which would appear to indicate that the Service Center was not able to meet current costs. In fact, the Service Center was able to accomplish this. Although expenditures exceeded revenues by \$458,704, it was the purchase of the land and building (as previously discussed) for over \$800,000 using available resources that caused the total decrease in fund balances. This purchase was made during the year by the general fund.

Summit County Educational Service Center

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2006

Unaudited

Budgeting Highlights

The Service Center's budget is prepared according to the requirements of the State Department of Education, and is based on cash receipts, disbursements, and encumbrances. The Service Center's most significant budgeted fund is the General fund. The General fund, and all other governmental funds, is budgeted at the fund level.

As services provided to the local school districts change during the fiscal year, adjustments are made to the original budget. These types of requests generally come directly from the superintendent of the school district where the students and staff are served. Additions to personnel are the primary cause for budget revisions and are approved by the Service Center's Board of Governors.

For the General Fund, budgeted revenues were significantly changed throughout the year. A review of the actual revenues, as compared to the original and final budgeted amounts, shows that resources received were comparable to the final anticipated amounts. However, the increase in originally budgeted revenues and final budgets was primarily caused by fluctuations in the member districts request for services. There are two options for districts to select from with regard to paying for services due to the ESC. One option is a direct billing method where the districts remit a check to us once they are billed for services. The other option is to have the estimated amount due for services deducted from their state funding and sent directly to the Service Center. These dollars are held on account here and when billed, the dollars then become Service Center revenue. There were three school districts that chose this payment option. This option was chosen after the original budget was submitted, thus creating the change.

Actual expenditures and other financing uses were not significantly changed throughout the year. These differences are primarily caused by the budgeting procedures of the Service Center. As part of the Service Center operations, revenues are received from member districts through a reduction of their state foundation settlements. These deductions are then remitted to the Service Center to hold and use for costs incurred from services provided by the Service Center, as requested by each individual district. The original and final budget includes any funds on hand from the previous year, in addition to an estimated amount to be received and expended for the current year. Actual expenditure variances, as compared to the original and final budgeted amounts, arise when individual member districts do not request enough services to match the budgeted amounts.

The Service Center's ending unobligated budgetary balance was \$379,984 above the final budgeted amount primarily due to districts not spending the full amount of their budget requests and carrying-over their money to the next fiscal year.

Summit County Educational Service Center

Management's Discussion and Analysis

For Fiscal Year Ended June 30, 2006

Unaudited

Capital Assets

At the end of fiscal year 2006, the Service Center had \$241,945 invested in capital assets. Table 4 reflects fiscal year 2006 balances compared to fiscal year 2005 amounts:

Table 4
Capital Assets at June 30, 2006
(Net of Depreciation)

	<u>Governmental Activities</u>	
	<u>2006</u>	<u>2005</u>
Land	\$ 207,778	\$ -
Furniture and equipment	248,920	241,945
Building and improvements	610,867	-
Vehicles	-	-
Total capital assets	<u>\$ 1,067,565</u>	<u>\$ 241,945</u>

Overall the value of capital assets increased over the prior year as a result of the purchase of the land and building in which the Service Center has operated in for several years. For fiscal year 2007, the capital budget calls for approximately \$250,000 in expenditures to make some necessary improvements to the facilities. See Note 6 to the basic financial statements for detail on the Service Center's capital assets.

Debt

At year-end, the Service Center had only a capitalized lease as debt. The lease obligation outstanding at year end totaled \$44,777, which is for four new copiers scheduled to mature during fiscal year 2011. See Note 11 to the basic financial statements for detail on the Service Center's long-term obligations.

Current Issues

Legislation has passed regarding management of regional services offered by the Ohio Department of Education. House Bill 115 established the Educational Regional Service System (ERSS). This new system requires a coordinated, integrated and aligned system to support state and school district efforts to improve school effectiveness and student achievement. The system will consist of sixteen regions. Each region will have a fiscal agent. The selection of a fiscal agent will be through a RFP (request for proposal) process. Selected Fiscal Agents in each region will have the responsibility of allocating resources to provide regional services and also assuring that the state-sponsored regional improvement initiatives are deployed according to Ohio Department of Education guidance. The Summit County Educational Service Center will complete a RFP to become the region's fiscal agent. The proposal due date is November 17, 2006. The date for notification of award is January 31, 2007.

Summit County Educational Service Center
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances to the Statement of Activities
For the Fiscal Year Ended June 30, 2006

Net Change in Fund Balances - Total Governmental Funds \$ (409,617)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital asset additions exceeded depreciation in the current period.

Capital Asset Additions	\$ 901,908	
Current Year Depreciation	<u>(64,106)</u>	837,802

Net effect of transactions involving disposal of capital assets are not reflected in the funds. (12,182)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Intergovernmental Revenue		(286,083)
---------------------------	--	-----------

Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement net assets. 12,203

Some capital additions were financed through a capital lease. In governmental funds, a capital lease arrangement is considered a source of financing, but in the statement of net assets, the lease obligation is reported as a long-term liability. (49,087)

Some expenses reported in the statement of activities do not use current financial resources and therefore, are not reported as expenditures in governmental funds.

Increase in compensated absences	\$ (27,488)	
Increase in vacation benefits payable	<u>(4,526)</u>	<u>(32,014)</u>

Change in Net Assets of Governmental Activities \$ 61,022

Summit County Educational Service Center

NOTE 1 - DESCRIPTION OF THE SERVICE CENTER

The Summit County Educational Service Center (the "Service Center") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The Service Center is a County Educational Service Center as defined by Section 3313.01 of the Ohio Revised Code. The Service Center operates under an elected Board of Governors (5 members). Board members must be residents of the local school systems located in Summit County. The Service Center provides educational services to the local school systems in Summit County as well as nine city school districts, which have a contractual relationship with the Service Center.

Average daily membership (ADM) for the area school districts served by the Service Center as of October 1, 2004 was 52,681. The Service Center employed 96 certificated employees and 101 non-certificated employees at that date.

Reporting Entity

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the Service Center are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the Service Center.

Component units are legally separate organizations for which the Service Center is financially accountable. The Service Center is financially accountable for an organization if the Service Center appoints a voting majority of the organizations' governing board and (1) the Service Center is able to significantly influence the programs or services performed or provided by the organization; or (2) the Service Center is legally entitled to or can otherwise access the organization's resources; the Service Center is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the Service Center is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the Service Center in that the Service Center approves the budget, the issuance of debt or the levying of taxes. The Service Center does not have any component units.

The Service Center is associated with the Northeast Ohio Network for Educational Technology (NEOnet) and the Mid-Eastern Ohio Special Education Resource Center (MEO/SERRC), which are defined as a jointly governed organization. Representatives from each of the governments that create the organization govern jointly governed organizations, but there is no ongoing financial interest or responsibility by the participating governments. Information regarding these organizations is presented in Note 13.

Notes to the Basic Financial Statements

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Service Center have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting entity for establishing governmental accounting and financial reporting principles. The Service Center will apply Financial Accounting Standards Board Statements and Interpretations issued on or before November 30, 1989, to any governmental activities provided they do not conflict with or contradict GASB pronouncements. For the year ended June 30, 2006, the School District has implemented GASB Statement No. 42, “*Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*,” Statement No. 46 “*Net Assets Restricted by Enabling Legislation*”, and Statement No. 47 “*Accounting for Termination Benefits*.”

Statement No. 42 establishes accounting and financial standards for impairment of capital assets and clarifies and establishes accounting requirements for insurance recoveries.

Statement No. 46 establishes that any amount of the primary government’s net assets at the end of the reporting period restricted by enabling legislation should be disclosed in the notes to the financial statements.

Statement No. 47 provides guidance to governmental employers for measuring, recognizing, and reporting liabilities and expenses/expenditures related to *all* termination benefits without limitation as to the period of time during which the benefits are offered.

There was no effect on fund balances as a result of the implementation of these new Standards. Following are the most significant of the School District’s accounting policies.

A. Basis of Presentation

The Service Center’s basic financial statements consist of government-wide statements, including a statement of net assets, and statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the Service Center as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of the governmental activities of the Service Center at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Service Center’s governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operations of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the Service Center, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Service Center.

Summit County Educational Service Center

Fund Financial Statements

During the fiscal year, the Service Center segregates transactions related to certain Service Center functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Service Center at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. The only major fund, the general fund, is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

B. Fund Accounting

The Service Center uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain Service Center functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the Service Center are grouped into the categories of governmental and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the Service Center are financed. Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

General Fund - The general fund is the operating fund of the Service Center and is used to account for all financial resources, except those required to be accounted for in another fund. The general fund balance is available to the Service Center for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the Service Center account for grants and other resources of the Service Center whose use is restricted for a particular purpose.

Proprietary Funds

Proprietary funds are used to account for the Service Center's ongoing activities that are similar to those found in the private sector. The Service Center has no proprietary funds.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the Service Center under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the Service Center's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Service Center's only fiduciary funds are agency funds, with the NEOnet agency fund being the most significant. This agency fund is used to account for funds associated with the NEOnet data acquisition site in which the Service Center acts as the fiscal agent.

Notes to the Basic Financial Statements

C. Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and liabilities associated with the operation of the Service Center are included on the statement of net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reflects on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, "available" means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Service Center, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the Service Center receives value without directly giving equal value in return, include grants, entitlements and donations. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Service Center must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Service Center on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: interest, tuition, fees, grants, and charges for services.

Summit County Educational Service Center

Deferred Revenue

Deferred revenues arise when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as deferred revenue.

On the governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major document prepared is the appropriation resolution, which is prepared on the budgetary basis of accounting. The appropriation resolution is subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Governors.

The Board of Governors must submit an annual appropriation of operating expenses to the State Board of Education for approval in accordance with ORC Section 3317.11. Part of the Service Center's operating expenses are apportioned among the member districts under the basis of the total number of pupils in each district and deducted from funds allocated to local districts under the State's School Foundation Program. Prior to the passage of the Annual Appropriation Resolution, the Board may pass a temporary resolution to meet the ordinary expenses of the Service Center. Appropriations by fund must be within the estimated resources and the total expenditures and encumbrances may not exceed the appropriation at any level of control. The Board must approve any revisions that alter the total of any fund appropriations.

The final budget figures, which appear in the statement of budgetary comparison, represent the last appropriation amounts. Formal budgetary integration is employed as a management control device during the year for all funds, other than agency funds, consistent with statutory provisions. Under Ohio law, advances are not required to be budgeted.

F. Cash and Cash Equivalents

To improve cash management, all cash received by the Service Center is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through Service Center records. Each fund's interest in the pool is presented as "Equity in pooled cash and cash equivalents". During the fiscal year, investments were limited to overnight repurchase agreements and certificates of deposit. Except for investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase, investments are reported at fair value, which is based on quoted market price. Under existing Ohio statutes, all investment earnings accrue to the general fund except those specifically related to certain trust funds, unless the Board specifically allows the interest to be recorded in other funds.

Notes to the Basic Financial Statements

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the Service Center are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments. During the fiscal year all investments of the Service Center had a maturity of three months or less.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2006, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure is reported in the year in which services are consumed.

H. Inventory

Within the basic financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed/expended when used.

I. Capital Assets

All of the Service Center's capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market values as of the date received. The Service Center maintains a capitalization threshold of one thousand dollars. The Service Center does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets are depreciated. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
<i>Buildings and improvements</i>	<i>50 years</i>
<i>Furniture and equipment</i>	<i>3-20 years</i>
<i>Vehicles</i>	<i>3-5 years</i>

J. Short-term Interfund Assets/Liabilities

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the statement of net assets.

Summit County Educational Service Center

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the Service Center will compensate the employees for the benefits through paid time off or some other means. The Service Center records a liability for accumulated unused vacation time earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the Service Center has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the Service Center's termination policy.

L. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term loans are recognized as a liability on the governmental fund financial statements when due.

M. Net assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Service Center or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments. Net assets restricted for other purposes primarily include amounts for activities associated with assisting the instructional staff with the content and process of providing learning experiences for pupils.

The Service Center applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Fund Balance Reserves and Designations

The Service Center records reservations and designations for portions of fund balance that are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriations for expenditures. Unreserved fund balance indicates that portion of fund balance that is available for appropriation in future periods. Fund balance reserves are only established for encumbrances. Designations were established by Board resolutions to account for monies held for contingencies and budget stabilization.

Notes to the Basic Financial Statements

O. Interfund transactions

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses for governmental funds. All transfers between governmental funds have been eliminated within the governmental activities column of the statement of net assets. Repayments from funds responsible for particular expenditures to the funds that initially paid for them are not presented in the financial statements.

P. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

While the Service Center is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The statement of revenues, expenditures and changes in fund balance - budget (non-GAAP basis) and actual, presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP and budgetary basis statements for the general fund.

Net Change in Fund Balance

	<u>General</u>
GAAP Basis	\$ (364,777)
Net Revenue accruals	(79,423)
Net Expenditure accruals	(706)
Encumbrances (Budget Basis)	
Outstanding at year end	(177,565)
Budget Basis	<u><u>\$ (622,471)</u></u>

Summit County Educational Service Center

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the Service Center into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the Service Center Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Governors has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including pass book accounts. Interim monies may be invested in the following obligations provided they mature or are redeemable within five years from the date of settlement:

1. United States Treasury Bills, Notes, Bonds, or any other obligations or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above, provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in item (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period of 180 days in an amount not to exceed 25% of the interim monies available for investment at any one time; and
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the Service Center's deposits may be provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Chief Fiscal Officer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Notes to the Basic Financial Statements

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities, representing the investments, to the Chief Fiscal Officer, or if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits:

At fiscal year-end, the carrying amount of the Service Center's deposits was \$3,837,076, and the bank balance was \$4,015,945. Of the bank balance, \$115,945 was covered by federal depository insurance. \$3,900,000 was collateralized with securities held by the pledging financial institution's trust department or agent but not in the Service Center's name. Although the securities serving as collateral were held by the pledging institution in the pledging institution's name, and all State statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the Service Center to a successful claim by the FDIC.

B. Investments:

Interest Rate Risk- The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. It is the Service Center's policy to evaluate market conditions, interest rate forecasts, and cash flow requirements to consider the term of an investment, with the goal being to buy where relative value exists along the maturity spectrum.

Credit Risk- The Service Center's only investment during fiscal year 2006 was in an overnight repurchase account, with a year ending balance of \$2,680,000. This account is not rated by Standard & Poor's or Moody's Investors Service.

Concentration of Credit Risk- The Service Center investment policy is to be diversified in its holdings of investments by avoiding concentrations of specific users. During the year, the Service Center's only investment was in an overnight repurchase account. These investments were secured with pledged collateral, held and in the name of the pledging institution, in which the investments are held.

Interest is legally required to be placed in the general fund. Interest revenue credited to the general fund during fiscal year 2006 amounted to \$255,665 which includes \$84,943 assigned from other Service Center funds.

NOTE 5 – RECEIVABLES

Receivables at year-end consisted of intergovernmental (grants and entitlements and charges for services provided to other governments) and interfund. All receivables are considered collectible in full due to the stable condition of state programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

	<u>Amount</u>
<i>Preschool excess costs</i>	\$ 874,414
<i>Services provided to member districts</i>	143,471
<i>Grants</i>	6,991
<i>Total Intergovernmental Receivable</i>	<u>\$ 1,024,876</u>

Summit County Educational Service Center

NOTE 6 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2006, was as follows:

<u>Governmental Activities</u>	<u>Balance July 1, 2005</u>	<u>Additions</u>	<u>Disposals</u>	<u>Balance June 30, 2006</u>
<i>Capital assets, not being depreciated</i>				
Land	\$ -	\$ 207,778	\$ -	\$ 207,778
<i>Capital assets, being depreciated</i>				
Furniture and equipment	663,129	70,796	(50,004)	683,921
Building and improvements	-	623,334	-	623,334
Vehicles	18,207	-	-	18,207
<i>Total capital assets, being depreciated</i>	<u>681,336</u>	<u>694,130</u>	<u>(50,004)</u>	<u>1,325,462</u>
<i>Less: Accumulated depreciation</i>				
Furniture and equipment	(421,184)	(51,639)	37,822	(435,001)
Building and improvements	-	(12,467)	-	(12,467)
Vehicles	(18,207)	-	-	(18,207)
<i>Total accumulated depreciation</i>	<u>(439,391)</u>	<u>(64,106)</u>	<u>37,822</u>	<u>(465,675)</u>
<i>Total capital assets being depreciated, net</i>	<u>241,945</u>	<u>630,024</u>	<u>(12,182)</u>	<u>859,787</u>
<i>Governmental activities capital assets, net</i>	<u>\$ 241,945</u>	<u>\$ 837,802</u>	<u>\$ (12,182)</u>	<u>\$ 1,067,565</u>

Depreciation expense was charged to governmental functions as follows:

	<u>Amount</u>
<i>Instruction:</i>	
Regular	\$ 337
Special	7,617
<i>Support services:</i>	
Instructional staff	8,181
Administrative	7,202
Fiscal	730
Operation and maintenance of plant	39,889
Central	150
<i>Total depreciation expense</i>	<u>\$ 64,106</u>

Notes to the Basic Financial Statements

NOTE 7 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at year-end consist of the following individual fund receivables and payables:

	<i>Interfund Receivable</i>	<i>Interfund Payable</i>
<i>General fund</i>	\$ 7,059	\$ -
<i>Nonmajor governmental funds</i>	-	7,059
	<u>\$ 7,059</u>	<u>\$ 7,059</u>

All interfund loans made during the year were to cover cash deficits. As of June 30, 2006 all interfund loans outstanding are anticipated to be repaid in fiscal year 2007.

NOTE 8 - RISK MANAGEMENT

The Service Center is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. There have been no settlements paid in excess of insurance coverage nor has insurance coverage been significantly reduced in the past three years. The Service Center is a participant in the Stark County Schools Council of Government ("Council") for the purpose of obtaining benefits at a reduced premium for health care. Mutual Health Services Company and the Aultcare Corporation administer the insurance program for health care. Payments are made to the Council for monthly premiums, monthly stop-loss premiums, and administrative charges. The fiscal agent of the Council is the Stark County Educational Service Center. The fiscal agent pays Mutual Health Services and the Aultcare Corporation monthly for all participating districts, the actual amount of claims processed, the stop-loss premium, and the administrative charges.

Premium contributions are determined annually based on the claims experience of the individual member. Premiums can be increased or decreased by up to 20% of the prior year's contribution. Members may become liable for additional contributions to fund the liability of the pool. In the event of termination, all participating members' claims would be paid without regard to their individual account balances. The Consortium's Board of Directors has authority to return monies to an exiting member subsequent to the settlement of all claims and expenses.

The Service Center pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Summit County Educational Service Center

NOTE 9 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The Service Center contributes to the School Employees Retirement System of Ohio (SERS), a cost sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling (614) 222-5853.

Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current rate is 14% of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2006, 9.09% of annual covered salary was the portion used to fund pension obligations. For the fiscal year 2005, 9.09% was also used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS Retirement Board. The Service Center's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2006, 2005, and 2004 were \$271,988, \$235,730 and \$171,840 respectively; 98.8% has been contributed for fiscal year 2006, 100% for the fiscal year 2005 and 2004; \$3,176 representing the unpaid contribution for fiscal year 2006 is recorded as a liability within the respective funds.

B. State Teachers Retirement System

The Service Center contributes to the State Teachers Retirement System of Ohio (STRS), a cost sharing multiple employer defined benefit pension plan. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3746 or by calling (614) 227-4090.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor.

The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment.

The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, the member invests member contributions, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001.

Notes to the Basic Financial Statements

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2006, plan members were required to contribute 10% of their annual covered salaries. The Service Center was required to contribute 14%; 13% was the portion used to fund pension obligations. For fiscal year 2005, 13% was also the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.. The Service Center's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2006, 2005, and 2004 were \$571,705, \$500,729 and \$451,513, respectively; 98% has been contributed for fiscal year 2006, 100% for 2005 and 2004; respectively. \$12,577, representing the unpaid contribution for fiscal year 2006 is recorded as a liability within the respective funds. Contributions to the DC and Combined plans for fiscal year 2006 were \$2,931 made by the Service Center and \$85,472 made by the plan members.

NOTE 10 - POSTEMPLOYMENT BENEFITS

Comprehensive health care benefits are provided to retired teachers and their dependents through the State Teachers Retirement System (STRS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. All benefit recipients and sponsored dependents are eligible for health care coverage. Benefit provisions and the obligations to contribute are established by the STRS based on authority granted by State statute. Most benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium. Health care benefits are financed on a pay-as-you-go basis.

By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14% of covered payroll. The retirement board currently allocates employer contributions equal to 1% of covered payroll to the Health Care Reserve Fund from which payments for health care benefits are paid. For the Service Center this amount equaled \$43,977 during the 2006 fiscal year. The balance in the Health Care Reserve Fund for the STRS was \$3.3 billion at June 30, 2005, (latest information available). For the year ended June 30, 2005, (latest information available), the net health care costs paid by the STRS were \$254,780,000 and eligible benefit recipients totaled 115,395.

For the School Employees Retirement System (SERS), coverage is made available to service retirees with ten or more years of qualifying service credit, disability and survivor benefit recipients. Effective January 1, 2004, all retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility and retirement status. A safety net is in place for retirees whose household income falls below federal poverty levels. Premiums are reduced by 50% for those who apply. For this fiscal year, employer contributions to fund health care benefits were 3.43% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2006, the minimum pay has been established at \$27,400. The surcharge, added to the unallocated portion of the 14% contribution rate, provides for maintenance of the asset target level for the health care fund. For the Service Center, the amount of employer contributions used to fund health care equaled \$226,222, which includes a surcharge of \$79,306 during the 2006 fiscal year.

Summit County Educational Service Center

Health care benefits are financed on a pay-as-you-go basis. Net health care costs for the year ending June 30, 2005 were \$178,221,113. The target level for the health care fund is 150% of the projected claims less premium contributions for the next fiscal year. As of June 30, 2005, (latest information available) the value of the health care fund was \$267.5 million, which is about 168% of next year's projected net health care costs of \$158,776,151. On the basis of actuarial projections, the allocated contributions will be insufficient, in the long term, to provide for a health care reserve equal to at least 150% of estimated annual net claim costs. The number of participants eligible to receive benefits is 58,123.

NOTE 11 - LONG TERM OBLIGATIONS

Changes in long-term obligations of the Service Center during the current fiscal year were as follows:

	<i>Balance</i>			<i>Amount</i>	
	<i>July 1</i>	<i>Additions</i>	<i>Reductions</i>	<i>Balance</i>	<i>due within</i>
				<i>June 30</i>	<i>one year</i>
<i>Governmental Activities</i>					
<i>Compensated absences</i>	\$ 161,909	\$ 43,678	\$ (16,190)	\$ 189,397	\$ 36,540
<i>Capital leases</i>	7,893	49,087	(12,203)	\$ 44,777	8,993
<i>Total governmental activities</i>					
<i>long-term liabilities</i>	<u>\$ 169,802</u>	<u>\$ 92,765</u>	<u>\$ (28,393)</u>	<u>\$ 234,174</u>	<u>\$ 45,533</u>

Compensated absences report no reductions for fiscal year 2006. This was a result of no Service Center employees retiring, which would have qualified and been paid severance. An estimate for an amount due within one year is reported based on historical trends, as it is not known if and when any Service Center employees will retire within the next fiscal year. Compensated absences will be paid from the fund in which the employee is paid. In prior years, this fund has primarily been the general fund. Capital leases will be paid from the general fund.

NOTE 12 - CAPITALIZED LEASES - LESSEE DISCLOSURE

The Service Center has entered into capitalized leases for the acquisition of copier equipment. The terms of each agreement provide options to purchase the equipment. Each lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13 "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service in the basic financial statements for the governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis. Capital assets acquired by lease have been capitalized in the amount of \$49,087; this amount is equal to the present value of the future minimum lease payments at the time of acquisition in the government-wide financial statements.

Principal payments in the current fiscal year totaled \$12,203. These payments include amounts for older leased copiers (removed from the capital asset listing), which were traded-in during the fiscal year and for the new copiers acquired by the inception of a new five year lease. The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2006:

Notes to the Basic Financial Statements

<i>Year</i>	<i>Amount</i>
2007	\$ 11,292
2008	11,292
2009	11,292
2010	11,292
2011	5,646
<i>Total payments</i>	50,814
<i>Less amount representing interest</i>	(6,037)
<i>Present value of minimum lease payments</i>	\$ 44,777

NOTE 13 - JOINTLY GOVERNED ORGANIZATION

A. Northeast Ohio Network for Educational Technology (NEOnet)

Northeast Ohio Network for Educational Technology (NEOnet) is the computer service organization or Data Acquisition Site (DAS) used by the Service Center. NEOnet is an association of public districts in a geographic area determined by the Ohio Department of Education. The Summit County Educational Service Center acts as the fiscal agent for the consortium. The purpose of the consortium is to develop and employ a computer system efficiently and effectively for the needs of the member Boards of Education. All districts in the consortium are required to pay fees, charges, and assessments as charged. A board made up of superintendents from all of the participating school districts governs NEOnet. An elected Executive Board consisting of five members of the governing board is the managerial body of the consortium and meets on a monthly basis.

The Service Center does not maintain an ongoing financial interest or an ongoing financial responsibility. Payments to NEOnet are made from the general fund. During the current fiscal year the Service Center made no significant contributions to NEOnet.

B.. Mid-Eastern Ohio Special Education Resource Center (MEO/SERRC)

MEO/SERCC is a network with a mission to improve the achievement of children and youths with disabilities by assisting educators and families in the development and delivery of specially designed instructions that is aligned with Ohio's academic and educational content standards. MEO/SERRC also assists school districts and agencies in complying with federal and state laws and regulations to ensure the full participation of children and youth with disabilities in the school community. MEO/SERRC resources are targeted to promote systems change, build capacity and improve outcomes for these targeted students. The Summit County Educational Service Center acts as the fiscal agent for MEO/SERRC. A board made up of superintendents from all of the participating school districts governs MEO/SERCC.

The Service Center does not maintain an ongoing financial interest or an ongoing financial responsibility. Payments to MEO/SERCC are made from the general fund. During the current fiscal year the Service Center made no significant contributions to MEO/SERRC.

Summit County Educational Service Center

NOTE 14 – CONTINGENCIES

A. Grants:

The Service Center received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements, and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Service Center at year-end.

B. Other Contingencies:

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school-funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school-funding scheme that is thorough and efficient...". The Service Center is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations.

NOTE 15 - FUND DEFICIT

As of June 30, 2006, the public school preschool special revenue fund reported a deficit fund balance of \$4,478 and a net asset balance of \$4,478. Also, the EHA preschool grant special revenue fund reported a deficit fund balance of \$2,925 and a net asset balance of \$2,925. These deficits were caused by the application of generally accepted accounting principles. The general fund provides advances to cover deficit balances in other funds; however, this is done when cash is needed rather than when accruals occur.

*Combining Statements for
Nonmajor Governmental Funds
and
Individual Fund Schedules for
Governmental Funds*

Combining Statements – Nonmajor Funds

Nonmajor Special Revenue Funds

Special revenue funds are established to account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the Service Center's special revenue funds follows:

Other Local

To account for funds received from individuals and member districts, in which there are no trust agreements, to be used for preschool field trips, math in-services and continuous improvement projects.

Miscellaneous Local Grants

To account for funds received from private organizations that are restricted for specific purposes.

Management Information Systems

To account for state funds provided to assist the Service Center in implementing a staff, student, and financial reporting system as mandated by the Omnibus Education Reform Act of 1989.

Public School Preschool

To account for state monies used to assist the Service Center in paying the cost of preschool programs for children ages three through five year.

Entry Year Program

To account for state grants designed to assist beginning teachers via mentors who will offer the support necessary to help them meet “real-world” fulltime classroom and building challenges.

SchoolNet Professional Development

To account for a limited number of professional development subsidy grants.

Miscellaneous State Grants

To account for monies received from state agencies which are not classified elsewhere.

EHA Preschool Grant

To account for federal funds used for the improvement and expansion of services for handicapped children ages three through five years.

Combining Statements Agency Funds

Agency funds are used to account for assets held by the Service Center as an agent for individuals, private organizations, and other governments. A description of the Service Center's agency funds follows:

Service Center Agency

To account for those assets held by the Service Center for school districts that participate in a variety of programs. Control of these funds rests solely with the members of each program. The Service Center acts as the fiscal agent of the funds.

MEO/SERRC

To account for the funds associated with the Special Education Regional Resource Center. This is a fiscal agent agreement through the Ohio Department of Education.

NEOnet

To account for the funds associated with the Northeast Ohio Network for Educational Technology data acquisition site. This is a "fiscal agent" arrangement.

Employee Benefits

To account for those assets held by the Service Center as an agent for individuals. Assets held include items related to payroll transactions.

Statistical Section

The World
A BRIEF HISTORY OF
THE TWENTIETH CENTURY
Thomas

STATISTICAL SECTION

This part of the Summit County Educational Service Center's (ESC) comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the ESC's overall financial health.

Statistical Section Contents

Page

Financial Trends

These schedules contain trend information to help the reader understand how the ESC's financial performance has changed over time.

60-65

Revenue Capacity

These schedules contain information to help the reader assess the affordability of the ESC's most significant local revenue source, "charges for services".

66

Debt Capacity

This section is designed to present information to help the reader assess the affordability of the ESC's current levels of outstanding debt and any limits that may prevent the ESC from issuing additional debt in the future. The ESC does not report any outstanding debt in the past ten years, nor are there any limitations placed on the ESC for issuing debt in the future.

-

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within the ESC's financial activities take place.

67-75

Operating

These schedules contain service data to help the reader understand how the information in the ESC's financial report relates to the services the ESC provides and the activities performed.

76-77

Most significant services provided to member districts (3):

Services provided by the ESC to member districts interested in our assistance include:

- *staffing services
- *curriculum and instruction consultation
- *psychological services
- *special education consultation
- *speech and language supervision/consultation
- *work study supervisor

- (1) Cash collections for the fiscal year.
- (2) 2006 is reported for governmental activities using the accrual basis of accounting. 1997 is provided for governmental funds using the modified accrual basis of accounting.
- (3) There is no direct rate applied to this revenue source. The fees for these revenues vary from service to service provided and vary by member districts who request the services.

(1) Member district income was deemed relevant information. Employer and Employee income does not directly effect the ESC's largest own revenue source. However, it is deemed to indirectly effect it. The financial stability of the member district's has a direct effect on the services they request from the ESC, thus effecting the ESC's largest own revenue source.
