REPORT OF INDEPENDENT AUDITORS

Board of Directors
Schools of Ohio Risk Sharing Authority
Columbus, Ohio

We have audited the accompanying statements of net assets of Schools of Ohio Risk Sharing Authority as of June 30, 2007 and 2006, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of Schools of Ohio Risk Sharing Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above presents fairly, in all material respects, the financial position of Schools of Ohio Risk Sharing Authority as of June 30, 2007 and 2006 and the results of its operations, changes in net assets and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Management's discussion and analysis, on pages i through vi, is not a required part of the basic financial statements, but is supplemental information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consist principally of inquiries of management regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 24, 2007, on our consideration of the Schools of Ohio Risk Sharing Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

SCHOOLS OF OHIO RISK SHARING AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS

Member premiums are the amount paid or due for the June 30, 2007 fiscal period. SORSA purchases reinsurance to cover the cost of large claims. For property and automobile physical damage claims SORSA collectively self-insures the first \$100,000 of each claim; the reinsurer reimburses amounts above this level. For third-party liability claims SORSA collectively self-insures the first \$250,000 of each claim; the reinsurer reimburses amounts above this level. For equipment breakdown claims SORSA reinsures 100% of this exposure and does not retain any level of self-insurance.

For the July 1, 2007 to June 30, 2008 policy year, SORSA has reduced its third-party liability self-insured amount from \$250,000 to \$100,000 of each claim by taking advantage of market conditions and improving overall risk for its members.

Non-operating gain consists of the interest earned on SORSA's various checking and investment accounts. For the fiscal period ending June 30, 2007 and 2006, and 2005 SORSA held its funds in fixed income federal obligations and various liquid cash accounts.

Loss adjustment expenses consist of claims paid during the year, plus the ultimate cost of claims determined to be incurred for the current year but not yet reported.

Claims administration and reinsurance broker fees are fees paid to vendors who process claims and provide underwriting, rating, billing, reinsurance brokering and consulting services for SORSA. Other expenses are general and administrative costs incurred during the year.

For the year ending June 30, 2007, SORSA's change in net assets was (\$59,722).

The Statement of Cash Flows

This statement shows how SORSA's cash balance changed in each period. It is divided into three different sections, each indicating the source or use of cash during the period. These sections relate to SORSA's operations, investing activities, and capital and related financing activities. This statement provides detail regarding the increases and decreases in SORSA's cash position during the period.

SORSA had a net cash outflow for the year ended June 30, 2007 totaling \$107,255. The net cash generated by operating activities was \$202,219. Other cash flows included the purchase of investments of approximately \$306,000.

SCHOOLS OF OHIO RISK SHARING AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS

Going Forward

Insurance Market for Ohio School Districts

The environment in which SORSA operates is moderately competitive. There are options available to school districts for both pooling alternatives as well as traditional insurance.

Member Dividends

In order to maintain conservative funding for the SORSA pool, the Board of Directors has taken the position that there will be no dividends declared for distribution to members during the first several program years. When the SORSA Board of Directors determines that a dividend may be declared, SORSA will rely upon conservative actuarial estimates to formulate the plan for dividend distribution.

Cost Containment

SORSA endeavors to contain loss costs by utilizing claims administrators and defense attorneys who are very experienced in handling third-party liability cases for political subdivisions, by full utilization of statutory immunities and by implementing loss control and risk management training programs.

Legal Environment

The legal environment in which SORSA operates is relatively stable, with recent modest improvements in statutory immunity for school districts and other political subdivisions.

SCHOOLS OF OHIO RISK SHARING AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2007 AND 2006

1. ORGANIZATION AND PLAN OF OPERATION

The Schools of Ohio Risk Sharing Authority (SORSA) is an Ohio non-profit organization formed by Ohio school districts to provide cost effective pooled insurance to its members. SORSA is a self-funded, group insurance consortium that offers property, electronic data processing, boiler and machinery, crime, general liability, automobile liability and physical damage, and school board errors and omissions insurance coverage. SORSA is governed by a Board of Directors comprised of representatives of school districts that participate in the program.

Premiums are paid on an annual basis. Pursuant to participation agreements with SORSA, each member agrees to pay all funding rates associated with the coverage elected, as such funding rates are set and billed to the members by SORSA. The assigned funding rates consist of the following components: administrative fees, stop loss fees, expected claims costs, and reserves. Reserves are determined by an independent actuary and allocated based on expected claim activity. Rates are calculated to cover the administrative expenses and expected claims costs of the program as well as provide additional member equity.

SORSA was incorporated as a governmental insurance pool on January 31, 2002. Operations and plan coverage officially began on February 1, 2002.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

SORSA uses enterprise fund accounting. Revenues and expenses are recognized on the accrual basis using the economic resources measurement focus. Based on Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, as amended, the Authority has elected to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB), including those issued after November 30, 1989, that do not conflict with or contradict GASB pronouncements.

SCHOOLS OF OHIO RISK SHARING AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2007 AND 2006

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of funds on deposits in banks and money market funds. SORSA maintains cash balances which are in excess of those insured by the Federal Depository Insurance Corporation. However, to date, no losses have been experienced.

Investments

Investment income or loss (including realized gains and losses on investments, interest and dividends) is recognized in the statement of revenues, expenses and changes in net assets as a component of other revenue. Investments are carried at fair value and consist of fixed income securities at June 30, 2007 and 2006.

Capital Assets

SORSA's capital assets are reported at historical cost net of depreciation. Depreciation is computed principally on the straight-line basis over the estimated useful lives of the assets. SORSA's capitalization policy is to capitalize all items greater than \$500 with a useful life greater than one year. SORSA's capital assets consist of fixtures and are depreciated over a five year useful life.

SCHOOLS OF OHIO RISK SHARING AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2007 AND 2006

Reserve for Unpaid Claims

SORSA's reserve for unpaid claims is determined using estimates of the ultimate cost of claims (including future claim adjustment expenses) that have been reported but not settled, and of claims that have been incurred but not reported. The length of time for which such costs must be estimated varies depending on the coverage involved. The reserve represents an estimate of the ultimate cost of all claims incurred which were unpaid at each fiscal period end. While information is available for the known losses, the liability for which has been established on a case-by-case basis, the unknown losses are based on SORSA's best estimate of such liabilities. Although SORSA considers its experience and industry data in determining such reserves, assumptions and projections as to future events are necessary and ultimate losses may differ significantly from amounts projected. The effects of changes in reserve estimates are included in the statement of revenues, expenses, and changes in net assets in the period in which estimates are changed. Reserves are not discounted.

Premiums Revenue and Unearned Premiums

Premiums are paid annually by participating entities and are recognized as revenue over the policy period. Receivables are recorded when earned. Premiums collected in advance of applicable coverage periods are classified as unearned premiums.

Income Taxes

SORSA is a not-for-profit corporation as defined under Section 501(c)(3) of the Internal Revenue Code. Accordingly, SORSA is exempt from federal, state and local taxes.

Risk Management

SORSA is exposed to various risks of loss from torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses and natural disasters.

SCHOOLS OF OHIO RISK SHARING AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2007 AND 2006

Unpaid claims and claim adjustment expenses at beginning of period	\$ 1,631,885	\$ 1,278,244

CLAIMS DEVELOPMENT YEARS ENDED JUNE 30, 2007 AND 2006

Ten Year Claims Development Information

The table below illustrates how SORSA's earned revenues and investment income compare to related costs of loss and other expenses assumed by SORSA. The rows of the table are defined as follows:

- 1) This line shows the total of each fiscal year's earned contract revenues and investment revenues.
- 2) This line shows each fiscal year's other operating costs of SORSA including overhead and claims expense not allocable to individual claims.
- 3) This line shows SORSA's incurred claims and allocated claim adjustment expense (both paid and accrued) as originally reported at the end of the first year in which the event that triggered coverage under the contract occurred (called policy year).
- 4) This section of rows show the cumulative amounts paid as of the end of successive years for each policy year.
- 5) This section of rows shows how each policy year's incurred claims increased or decreased as of the end of the successive years. This annual reestimation results from new information received on known claims, reevaluation of existing information on known claims, as well as emergence of new claims not previously known.
- 6) This line compares the latest reestimated incurred claims amount to the amount originally established (line 3) and shows whether the latest estimate of claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between the original estimated and reestimated amounts is commonly used to evaluate the accuracy of incurred claims currently recognized in less mature policy years. The columns of the table show data for successive policy years.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Schools of Ohio Risk Sharing Authority
Columbus, Ohio

We have audited the financial statements Schools of Ohio Risk Sharing Authority (SORSA) as of June 30, 2007 and 2006 and have issued our report thereon dated December 24, 2007. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered SORSA's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of SORSA's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of SORSA's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether SORSA's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Organization in a separate letter dated December 24, 2007.

This report is intended solely for the information and use of the Board of Directors, management and The Ohio Auditor of State is not intended to be and should not be used by anyone other than those specified parties.
