

City of Piqua, Ohio

Report on Internal Controls and Compliance
For the Year Ended December 31, 2009

Mary Taylor, CPA
Auditor of State

Honorable Mayor and City Commission Members
City of Piqua
201 West Water Street
Piqua, Ohio 45356

We have reviewed the *Independent Auditors' Report* of the City of Piqua, Miami County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2009 through December 31, 2009. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Piqua is responsible for compliance with these laws and regulations.

Report on Internal Control over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards* 1 – 2

This Page is Intentionally Left Blank.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

Honorable Mayor, City Commission
and City Manager
City of Piqua, Ohio

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Piqua, Ohio (the City), as of and for the year ended December 31, 2009, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 1, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with

springfield, oh 45503

www.cshco.com
p. 937.399.2000
f. 937.399.5433

those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the City Commission, management and the Auditor of the State of Ohio and is not intended to be and should not be used by anyone other than these specified parties.

June 1, 2010

Honorable Mayor Lucinda L. Fess, City Commission Members
and Citizens of the City of Piqua, Ohio:

This Comprehensive Annual Financial Report is for the year ended December 31, 2009. We believe this report, prepared by the Department of Finance, presents financial and operating information about the City's activities during the year that should be useful to citizens, taxpayers and investors. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief the enclosed data, as presented, is accurate in all material respects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the City; and that all disclosures necessary to enable the reader to gain an understanding of the City's financial activity have been included.

Reporting Entity

This report includes all funds of the City. The City provides a full range of services including police and fire protection, parks, recreation and cultural facilities, street maintenance, health programs, planning, zoning and general governmental services. In addition, the City owns and operates business-type activities, with the major ones consisting of a power system, a sewer system, a water system and a waste disposal system.

Piqua, founded in 1807, celebrated its Bicentennial in 2007. Piqua operates and is governed by the laws of the State of Ohio and its own charter which was adopted by the electorate in 1929. The Charter provides for a commission-manager form of government. Legislative authority is vested in a five-member commission. All members are elected from wards for four-year terms and serve in a part-time capacity. The Commission determines compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriations and borrowings, licensing and regulating of businesses and trades, and other municipal purposes. The City's Chief Executive and Administrative Officer is the City Manager who is appointed by the City Commission.

Local Economic Conditions and Outlook

The City of Piqua is a community (2000 Census 20,738) in Miami County, located in the west central part of the state, twenty-five miles north of Dayton. Inter and intra state highways I-75, Route 36 and Route 66 serve as the City's major transportation arteries. Edison Community College, with over 4,500 students, is located on the east side of the city.

The City does not depend on one firm for local employment; as many as six companies employ in excess of 250 people each, lending to the City's diversification. The City has four industrial parks with plenty of room for expansion. The City's emphasis on economic retention and development are significant factors affecting the future economic strength of the community. Promoting Piqua as a good place for all types of businesses, new and existing, will continue to be one our highest priorities.

Major Initiatives

Current Year Projects: During 2009 the City continued efforts to enhance and expand services provided to local residents.

The City continued supporting the Future Piqua Strategic Plan recommendations, including public access television and a quarterly community newsletter (financial support is shared between the City and the Chamber of Commerce).

The City is continuing its commitment to provide assistance to low and moderate income property owners by continuing its tenth round of a Federal Comprehensive Housing Improvement Program in which local housing rehabilitation loans totaling \$4,590,946 were given to some 337 qualified low and moderate income property owners. During 2009, the City completed the ninth round and started the tenth round of CHIP grants by awarding an additional fourteen families \$117,905 in housing and mortgage assistance.

The following significant events took place in 2009:

- Continue implementation of a city-wide comprehensive plan for future development of the City of Piqua.
- Commencement and completion of Riverside Drive Phase 1 reconstruction project.
- Completion of restoration, and grand opening of a restaurant facility in the Fort Piqua Plaza.
- Continued redevelopment of the City's downtown and surrounding areas.
- Continued neighborhood improvements through the Neighborhood Associations and City's Neighborhood Improvement Team.
- Continuation of the Storm Water Infiltration Study.
- Review and evaluation of a Storm Water Utility based on the feasibility study to address sanitary sewer overflow infiltration.
- Review of Water Plant study, water source exploration, and potential new Water Plant design and construction.
- Wastewater Equalization Tank, construction and implementation.
- Study, review and exploration of a new municipal information system.
- Continue phase in of long range financial plan.

Future Projects: The city anticipates the following significant events to take place in 2010:

- Continued redevelopment of the City's downtown and surrounding areas. The redevelopment includes improved signage, sidewalks, brick pavers, traffic signals, and streetlights.
- Continued neighborhood improvements through the Neighborhood Associations and City's Neighborhood Improvement Team.
- Water source exploration, well drilling and potential new Water Plant design and construction
- Selection and begin implementation of a new municipal information system
- Continue phase in of the long range financial plan
- Complete study and assessment for demolishing the Electric Power Plant
- Monitor and assess the Wastewater Equalization tank function to determine current performance and anticipated future needs.
- Continuation of the Storm Water Infiltration Study
- Continue implementation of a city-wide comprehensive plan for future development of the City of Piqua
- Commencement of Broadway Phase II reconstruction project
- Implementation of a Storm Water Utility to address sanitary sewer overflow infiltration.
- Review, selection and begin implementation of a new records management system in co-operation with Miami County Communication Center

Financial Information

Management of the City is responsible for establishing and maintaining an internal control system designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary System: Detailed provisions regulating the City’s budget, tax levies and appropriations are set forth in the City Charter and in the Ohio Revised Code. The City Manager is required to submit to the City Commission annually, an appropriation measure, which must be adopted by the first Commission meeting in January. The Miami County Auditor must certify that the City’s appropriation measure does not exceed the amounts set forth in the County Budget Commission’s Certificate of Estimated Resources.

The City maintains legal budgetary control utilizing GAAP at an object level (personnel/administrative support, operation and maintenance, capital expenditures and transfers) for all funds. Lower levels within each object level are accounted for and reported internally. Such lower levels are referred to as the suffix level. All purchases are properly approved through the legislative process or issuance of a purchase order.

Expenditures are controlled at the suffix level throughout the year and any budgetary adjustments (at the object level), if necessary, are with the approval of the City Commission.

Accounting System: The City’s accounting system is organized and operated on a fund basis. A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts. The types of funds to be used are in accordance with GAAP and the number of individual funds established is determined by legal requirements and sound financial administration.

The City’s records are maintained on modified accrual basis for all governmental and similar fiduciary fund types. Accordingly, revenues are recognized when susceptible to accrual (i.e. both measurable and available). Expenditures, other than interest on long-term debt, are recorded as liabilities when incurred. Proprietary funds utilize the accrual basis of accounting and the electric system employs the Federal Energy Commission’s system of accounts. A more detailed explanation of the basis of accounting for the various funds is included in the Notes to the Combined Financial Statements, located in the Financial Section of this report.

Financial Reporting: Beginning in 2002 the City has prepared financial statements following GASB Statement 34, “Basic Financial Statements – Management’s Discussion and Analysis – for State and Local Governments.” As part of this new reporting model, management is responsible for preparing a Management’s Discussion and Analysis of the City. This discussion follows the Report of Independent Accountants, providing an assessment of the City’s finances for 2009. During 2006, the City implemented GASB 44, Economic Condition Reporting and a Statistical Data Section. For 2009, the City is implementing GASB 54, Fund Balance Reporting and Governmental Fund Type Definitions, a year earlier than required.

General Government

General Fund Revenues: The 2009 municipal income tax revenue of \$6,999,179 decreased due to the 2008 lottery winners' one time payment; other taxes and the Kwh tax revenues remained relatively the same. Interest revenue is down due to lower interest rates in 2009 and is expected to drop in 2010 as rates remain low. Municipal income tax revenue has somewhat stabilized through April 2010 and is expected to be similar to 2009 levels. Grants were also significantly lower in 2009 than 2008.

General Fund Expenditures: The 2009 General Fund expenditures and other financing uses decreased 3.1% compared with 2008 as there were fewer community development and parks and recreation projects completed.

General Fund Balances: Current year activity contributed to a \$650,372 decrease in the unassigned fund balance from 2008.

Business-Type Funds

The City's utility operations, consisting of a power system, a water system, a wastewater system, and a solid refuse system, account for over half of the total City revenues. The City also operates smaller enterprises such as a golf course, a swimming pool and a banquet/conference center.

During 2009 the area experienced unseasonal temperatures and increased moisture, contributing to a slight decline in usage. Rate increases allowed revenue to remain stable.

Power System: Total customer revenues were \$23 million with usage down 8% compared to 2008 levels. Revenues remained stable based on a slight rate increase. With operating costs decreasing 6.9% due to decreased purchased power costs, revenues exceeded expenses in 2009 by \$1,064,987.

The system supplies electricity to more than 11,000 accounts within its service area. The power system, established in the 1930's, purchases power from power wholesalers, while supplementing power needs with fuel oil generation. The system is responsible for purchasing and generating power, transmitting and distributing electricity and providing all related services.

The City of Piqua obtains its power supply from various sources. Two megawatts of Power is available from the New York Power Authority (NYPA). A twenty-year transmission agreement with the Dayton Power & Light Company guarantees supply access. Alternative contracts and projects are being considered by the Power system. During 2006, the City entered into a contract with Dayton Power & Light and AMP Ohio to provide power at an economic price through 2009. Piqua Power participates in the American Public Power Association's Reliable Public Power Provider (RP3) program. In 2009 Piqua achieved a perfect score and Diamond level status, one of only six municipal electric systems in the country to reach Diamond level.

Water System: Customer revenues of \$3.1 million were slightly higher than 2008 levels even though usage was down 2.9% based on a small rate increase. Operating expenses of \$2.7 million also remained at 2008 levels. Net income was \$452,128. More than 8,800 accounts are serviced by Piqua's municipal water system.

Wastewater System: Customer revenues of \$3.2 million were slightly higher than 2008 levels even though usage was down 4.1% based on a slight rate increase. Operating Expenses of \$2.8 million were similar to 2008 generating a net profit of \$401,334 in 2009.

Refuse System: System revenues of \$1.8 million were slightly higher than 2008 levels. Operating expenses of \$1.5 million remained at 2008 levels. Net income was \$286,112. Refuse service is provided to more than 7,740 customers.

The Independent Audit

Piqua's City Charter requires an annual audit of the financial statements of the City by an independent auditor. The 2009 audit was completed by Clark, Schaefer, Hackett & Co. and represents the thirtieth consecutive year that an independent firm has performed the City's financial audit. All State of Ohio compliance and federal grant audit requirements are included as part of the independent annual engagement. See page 9 of the Financial Section of this report for their unqualified opinion.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded for the nineteenth consecutive year a Certificate of Achievement for Excellence in Financial Reporting to the City of Piqua, Ohio, for its comprehensive annual financial report for the fiscal year ended December 31, 2008. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

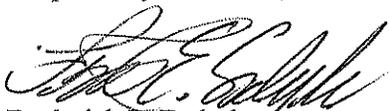

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City of Piqua, Ohio has received a Certificate of Achievement for nineteen consecutive years. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

Acknowledgments

To the many conscientious people who have contributed so much of their time and effort to the preparation of this report our sincere appreciation is extended. The Finance Department staff is commended for their commitment to professional excellence once again exemplified by the contents of this report. Timely preparation of this report was accomplished by the diligent efforts and contributions of the entire Finance Department working jointly with the engagement team representing the independent public accounting firm of Clark, Schaefer, Hackett & Co. Finally, contributions to the financial condition of the City of Piqua by the Mayor, members of City Commission, and Department Directors and Managers cannot be overlooked. Their support and guidance are invaluable factors necessary for the City to continue to successfully manage the financial affairs and reporting requirements of municipal government within the Piqua Community.

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2008

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

President

Executive Director

FINANCIAL SECTION

INDEPENDENT AUDITORS' REPORT

Honorable Mayor, City Commission
and City Manager
City of Piqua, Ohio

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Piqua, Ohio (the City), as of and for the year ended December 31, 2009, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Piqua's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the City of Piqua, Ohio, as of December 31, 2009, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 1, 2010 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States

2525 north limestone street, ste. 103
springfield, oh 45503

www.cshco.com
p. 937.399.2000
f. 937.399.5433

of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Clark, Schaefer, Hackett & Co.

Springfield, Ohio
June 1, 2010

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

The discussion and analysis of the City of Piqua's financial performance provides an overall review of the City's financial activities for the fiscal year ended December 31, 2009. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Readers should also review the transmittal letter and the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

- The assets of the City exceeded its liabilities at December 31, 2009 by \$133.2 million (net assets). Of this amount, \$41.9 million is considered unrestricted. The unrestricted net assets of the City's governmental activities are \$24.6 million and may be used to meet the government's on-going obligations. The unrestricted net assets of the City's business-type activities are \$17.3 million and may be used to meet the on-going obligations of the City's business-type activities, including the water, wastewater, refuse, and electricity enterprises.
- The City's total net assets increased by \$3.0 million in 2009. Net assets of the governmental activities increased \$0.7 million, which represents a 1.1 percent increase from 2008.
- The total cost of the City's programs decreased \$4.6 million or 9.27 percent. The cost of governmental activities decreased \$3.0 million or 16.9 percent, while the cost of business-type activities decreased \$1.6 million or 5.1 percent.
- At the close of the current fiscal year, the City's governmental funds reported a combined ending fund balance of \$23.8 million. The combined governmental funds fund balance increased \$0.9 million from the prior year's ending fund balance. Approximately \$5.2 million of the \$23.8 million fund balance is considered unassigned at December 31, 2009.
- The general fund reported a fund balance of \$19.5 million at the end of the current fiscal year. The unassigned fund balance for the general fund was \$5.3 million or 45 percent of total general fund expenditures (including transfers out). There was a \$0.7 million increase in the total general fund balance for the year ended December 31, 2009.
- The City had \$3.3 million more in debt at December 31, 2009 than at December 31, 2008.
- Total costs of governmental services decreased by over \$3.0 million, while net costs of services decreased by over \$1.0 million for governmental activities.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

Using This Annual Financial Report

This annual report consists of a series of financial statements. These statements are presented so that the reader can understand the City of Piqua's financial situation as a whole and also give a detailed view of the City's fiscal condition.

The Statement of Net Assets and the Statement of Activities (on pages 22-23) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Major fund financial statements provide the next level of detail and start on page 24. For governmental funds, these statements tell how services were financed in the short term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

Reporting the City of Piqua as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole considers all financial transactions and asks the question, "How did we do financially during 2009?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting method used by the private sector. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net assets and the changes in those assets. This change in assets is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, non-financial information such as changes in the City's tax base and the condition of City capital assets will also need to be evaluated.

In the Statement of Net Assets and the Statement of Activities, the City is divided into two types of activities:

- **Governmental Activities** – Most of the City's programs and services are reported here, including general government, public safety, street and maintenance, parks and recreation, and community development. These services are funded primarily by property and income taxes and intergovernmental revenues including federal and state grants and other shared revenues.
- **Business-Type Activities** – These services are provided on a fee basis to recover all of the expenses of the goods or services provided. The City's electric, water, refuse, wastewater, golf, municipal pool and Fort Piqua Plaza activities are reported here.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

Reporting the City of Piqua's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 24 and provide detailed information about the City's major funds – not the City as a whole. Some funds are required by State law and bond covenants. Funds are established to help control and manage money for particular purposes or to show that the City is meeting legal responsibilities for using certain taxes, grants, and other money. The City of Piqua's two kinds of funds – *governmental* and *proprietary* – use different accounting approaches.

- *Governmental funds* – Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. On the government-wide statements, these funds are reported using the accrual method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of timing of related cash flows. The governmental fund statements, using a modified accrual system of accounting, provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps one determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements or on an accompanying schedule.
- *Proprietary funds* – When the City charges customers for the services it provides – whether to outside customers or to other units of the City – these services are generally reported in proprietary funds. The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Piqua uses enterprise funds to account for its electric, water, refuse, wastewater services, golf, municipal pool and Fort Piqua Plaza. Internal service funds are an accounting method used to accumulate and allocate costs internally among the City's various functions. The City of Piqua uses an internal service fund to account for its information technology and insurance activities. As these activities predominantly benefit governmental rather than business-type functions, they are shown within governmental activities in the government-wide financial statements. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the electric, water, wastewater, and refuse systems as well as golf, municipal pool and Fort Piqua Plaza, which are considered to be major funds of the City.
- *Fiduciary funds* – Funds used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements as the resources of those funds are not available to support the City's own programs.

Notes to the basic financial statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 32 through 51 of this report.

CITY OF PIQUA, OHIO

For The Year Ended December 31, 2009
(Unaudited)

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's general fund budget. The City adopts an annual appropriation budget for its general fund and other major funds. A budgetary comparison statement has been provided for the general fund and other major funds to demonstrate compliance with this budget. Required supplementary information can be found on pages 52 through 57 of this report.

The combining statements in connection with non-major governmental funds and internal service funds are presented immediately following the required supplemental information. Combining and individual fund statements and schedules can be found on pages 58 through 72 of this report.

The City of Piqua as a Whole

Recall that the analysis of the Statement of Net Assets looks at the City as a whole. One of the most important questions to consider is, "Is the City as a whole better off or worse off as a result of this year's activities?" The Statement of Net Assets and the Statement of Activities report information to help answer this question. The Net Asset statement shows the difference between assets and liabilities, which is one way to measure the City's financial position. As reviewed over time, increases or decreases in the City's net assets are an indicator of whether the City's financial health is improving or deteriorating. However, other non-financial factors must also be considered such as changes in the property tax base of the city, the condition of the City's roads and neighborhoods, and the reputation of the public schools in order to assess the overall health of the City. Our analysis below focuses on the net assets (Table 1) and changes in net assets (Table 2) of the City's governmental and business-type activities for both 2009 and 2008.

Table 1
Net Assets

	Governmental Activities		Business-type Activities		Total Primary Government

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

The amount by which the City's assets exceed its liabilities is called net assets. Net Assets may serve over time as a useful indicator of a government's financial position. At year-end, the City's net assets were \$133.2 million compared to \$130.2 million in 2008, an increase of \$3.0 million. Net Assets for governmental activities increased \$0.7 million, while business-type activities increased \$2.3 million.

Of that amount, in 2009 approximately \$90.9 million (68%) was invested in capital assets, net of debt related to those assets. At year-end 2008 that amount was approximately \$91.8 million (70.5%). The largest portion of the City's net assets (68%) reflects investments in net capital assets (e.g. land, construction in progress, buildings, improvements, machinery and equipment, vehicles, and infrastructure), less any related debt to acquire those assets that is still outstanding. The City uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

During 2009, the City loaned \$1.675 million to the Fort Piqua Redevelopment Corp. for the Fort Piqua Hotel restoration project. Previously in 2007 and 2008, the City loaned \$4.3 million to the Piqua Investment Fund, LLC and \$2.3 million to the Fort Piqua Redevelopment Corporation for the same restoration project. The loan is for a period of thirty years making these funds unavailable for use in the near future.

For 2009 another \$4 million (.3%) was subject to legislative and external restrictions upon its use. The remaining \$41.9 million (31.5%) in 2009 was unrestricted and available for future use. For 2008 \$4 million (.3%) was subject to external restrictions and \$37.9 million (29.1%) was unrestricted.

At the end of the current year, the City of Piqua is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

Our total net assets of the City's governmental activities increased \$0.7 million during the current year, primarily due to the increase in assets mentioned above. Unrestricted net assets increased by \$0.8 million, while restricted net assets decreased slightly by \$1,200, reflecting their use in designated ways.

Total net assets of the City's business-type activities increased \$2.3 million during the current year; \$0.8 million due to decreased net capital assets and \$3.1 million due to an increase in unrestricted net assets.

In order to further understand what makes up the changes in net assets for the current year, the following table gives readers further details regarding the results of activities for the current year.

(Unaudited)

Governmental Activities

Governmental activities increased the City's net assets by \$714,219, in 2009 as compared to an increase of \$3,551,013 during 2008, thereby accounting for 1.1 percent of growth in total net assets. Total revenues decreased by \$5,720,568 due to decreased capital grants and income tax. Our program expenses decreased by \$2,990,630 due to fewer street maintenance, infrastructure projects, parks and recreation projects and less community development projects.

Several types of revenues fund our governmental activities with city income tax being the largest contributor. The income tax revenue for 2009 was \$6,999,791 compared to \$10,275,491 in 2008 a decrease of 31.8 percent. During 2008 several residents won the lottery with their one time payout accounting for over \$1.9 million of the increase in income tax in 2008. During 2009 the City also experienced further tax revenue decline due to the local economic condition. The City's income tax rate was 1.75 percent for 2009, the same as the prior year. Both residents of the City and non-residents who work inside the City are subject to the income tax. However, if residents work in a locality that has a municipal income tax, the City provides 100 percent credit up to 1.75 percent for those who pay income tax to another city.

General revenues from other taxes, such as Kilowatt-hour tax, Inheritance tax and Local Government Funds, are also revenue generators and in 2009, we received amounts slightly lower by \$175,446 than in 2008 due to a lower Kilowatt-hour tax. Program revenues saw a slight increase of \$127,827 in charges for services while operating and capital grants decreased \$2,047,049 as projects were completed. Overall decrease in program revenues was \$1,919,222 or 41.3%. With the combination of program revenues, property tax, income tax, intergovernmental funding and investment earnings, all expenses in the governmental activities are funded. The City monitors its source of revenues very closely for fluctuations.

For the most part, increases in expenses closely parallel inflation and growth in the demand for services. The largest program function for the City relates to Public Safety, which accounts for 53.3 percent of total program expenses. Street Maintenance accounts for 24.3 percent of total program expenses, while General Government accounts for 14.3 percent. Street and Maintenance cost of services increased due to the County Road 25-A reconstruction project. Cost of services decreased in the areas of parks and recreation and community development as more projects were completed.

The Statement of Activities reports the expenses of each of the governmental activities programs and the related program revenue that offsets the cost of each program. The amount by which the cost of a particular program exceeds its program revenue represents the extent to which that program must be subsidized by general revenues. The following table summarizes the net cost of each program:

Table 3
Government Activities

	Total Cost of Services		Program Revenues		Net Cost of Services	
	2009	2008	2009	2008	2009	2008
General Government	\$ 2,099,961	\$ 2,960,257	\$ 784,370	\$ 1,397,798	\$ 1,315,591	\$ 1,562,459
Public Safety	7,859,160	7,796,876	1,019,990	1,032,938	\$ 6,839,170	\$ 6,763,938
Street and Maintenance	3,574,236	5,143,056	433,705	1,303,478	\$ 3,140,531	\$ 3,839,578
Parks and Recreation	685,518	915,284	193,941	406,316	\$ 491,577	\$ 508,968
Community Development	242,528	618,328	295,853	506,551	\$ (53,325)	\$ 111,777
Interest on long-term debt	271,155	289,387	-	-	\$ 271,155	\$ 289,387
Total	\$ 14,732,558	\$ 17,723,188	\$ 2,727,859	\$ 4,647,081	\$ 12,004,699	\$ 13,076,107

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

Business-Type Activities

The Business-Type activities of the City, which include the City's Electric, Wastewater, Water and Refuse operations as well as Golf, Pool and Fort Piqua Plaza activities, increased the City's net assets by \$2,325,491 in 2009.

Table 4
Business-type Activities

	Total Cost of Services		Program Revenues		Net Revenue (Expense) from Operations	
	2009	2008	2009	2008	2009	2008
Electric	\$ 22,309,943	\$ 23,953,783	\$ 23,374,930	\$ 24,242,210	\$ 1,064,987	\$ 288,427
Wastewater	2,857,643	2,845,460	3,258,977	3,098,853	401,334	253,393
Water	2,793,284	2,850,285	3,245,412	3,051,532	452,128	201,247
Refuse	1,481,691	1,523,263	1,767,803	1,659,648	286,112	136,385
Golf	657,378	688,377	594,385	605,828	(62,993)	(82,549)
Ft. Piqua Plaza	185,207	42,372	63,946	18,200	(121,261)	(24,172)
Pool	190,158	199,277	79,048	92,746	(111,110)	(106,531)
Total	\$ 30,475,304	\$ 32,102,817	\$ 32,384,501	\$ 32,769,017	\$ 1,909,197	\$ 666,200

For 2009 the Electric, Wastewater, Water and Refuse utilities all had operating revenues in excess of expenses. The decreased in Electric expense was due to a lower cost of power. For the most part, other increases in expenses closely parallel inflation and growth in the demand for services. Golf and Pool activity funds had expenses in excess of revenues of \$174,103 in 2009 as compared to \$189,080 in 2008. The Ft. Piqua Plaza activity funds has expenses in excess of revenues of \$121,261 in 2009 compared to \$24,172 in 2008 as only a portion of the Plaza was opened late in the 2008 year.

The City's Funds

Information about the City's major funds starts on page 24. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues in 2009 of \$16.1 million compared to \$21.0 million in 2008. All governmental funds had expenditures in 2009 of \$16.0 million compared to \$18.4 million in 2008. The most significant fund is our general fund, which had an unassigned fund balance at year-end of \$5.3 million in 2009 compared to \$5.9 million in 2008. The General fund accounts for such activities as Police and Fire protection, and parks and recreation along with city administration. Within the General fund, revenues exceeded expenditures by \$1,604,184 in 2009 as compared to \$3,380,696 in 2008. The funds are monitored consistently with adjustments made to the budgets to accommodate yearly revenues.

Within the Street Maintenance Fund, revenues exceeded expenditures by \$265,271 in 2009 as compared to \$291,299 in 2008. Fund balance at year-end in 2009 was \$1,984,235 as compared to \$1,734,290 in 2008. The City was able to maintain a similar fund balance for use on planned construction needs in 2010.

Within the Street Levy Construction Fund, expenditures exceeded revenues by \$708,659 in 2009 compared to revenues exceeding expenditures by \$62,011 in 2008. Fund balance at year-end in 2009 was \$1,357,286 as compared to \$1,343,063 in 2008. The City was able to maintain a similar fund balance in anticipation of street maintenance needs in 2010.

Information about the Enterprise Funds starts on the Balance Sheet on page 27. These funds are accounted for on an accrual basis. All business type funds had operating revenues of \$32.0 million in 2009 and \$32.3 million in 2008. Operating expenses were \$30.2 million in 2009 and \$31.7 million in 2008.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

The enterprise fund balances increased \$2,363,428 with the Electric fund increasing \$1.2 million based on a planned rate stabilization program, Wastewater increasing \$.4 million and Water increasing \$.5 million and Refuse \$.3 million based on increased rates. The other fund balances were similar to 2008. The City is consistent with reviews of these funds, and the necessary adjustments are made to ensure strength in our enterprise funds.

General Fund Budgetary Highlights

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on the same basis as the entity reports. The most significant governmental budgeted fund is the General Fund. The Commission is provided with a detailed line item budget for all departments and after a discussion at a regularly held commission meeting, which is open to the public; the budget is adopted at an object level by City commission. Within each object, appropriations can be transferred between line items with the approval of the Finance Director and the respective department head. The Commission must approve any revisions in the budget that alter the object level totals or the total appropriations for any department or fund. During the course of fiscal 2009, the City amended its general fund budget during the middle and at end of the fiscal year. The General Fund is monitored closely, looking for possible revenue shortfalls or overspending by individual departments.

For the 2009 general fund, original budgeted revenues were \$12.2 million. The final budgeted revenue amount was \$14.0 million. Actual revenues were \$12.0 million. The decrease in actual revenues compared to budget was due to lower income tax collections. For the 2008 general fund, original budgeted revenues were \$12.2 million. The final budgeted revenue amount was \$12.0 million. Actual revenues collected were \$14.3 million. The increase in actual revenues over budget for 2008 was due to a higher municipal income tax based on the late year lottery winners, an unanticipated year end inheritance tax and larger operating contributions.

For 2009, original general fund appropriations were budgeted at \$13.0 million. Final budgeted appropriations were \$13.2 million. Actual expenditures were \$10.4 million. This decrease was due to lower than expected personnel costs, general government operating expenditures and hotel investment costs. For 2008, original general fund appropriations were budgeted at \$12.8 million. Final budgeted appropriations were \$12.2 million. Actual expenditures were \$10.9 million. This decrease was due to lower than expected personnel and general government operating expenditures.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

Total Capital Assets for the City of Piqua for the year ended December 31, 2009 were \$101,875,041, an increase of \$2,567,819 over 2008. Additions in 2009 were \$3,095,433 more than in 2008. The City is committed to a long-term goal of meeting the needs of its infrastructure and facilities. Additional information concerning the City's capital assets can be found in Note G of the financial statements.

Debt

At December 31, 2009, the City of Piqua had \$3.3 million more in debt at \$13.4 million compared to \$10.1 million in debt outstanding at December 31, 2008.

Capital Lease	-	28,809		
Total	\$ 4,472,461	\$ 4,152,183	\$ 8,914,614	\$ 5,981,365

The General Obligation Bonds in Governmental Activities are primarily for the construction of the municipal government complex in 2001. This general obligation bond issue is paid through the General Obligation Bond Retirement Debt Service Fund with general city revenues and transfers from various funds. The Pension Bonds are paid with property tax revenues.

The General Obligation Bonds in Business-type Activities are comprised of various obligations in the City's Enterprise funds including Electric system, Municipal Pool and Golf Course improvements. They are paid from the operating revenues generated in each enterprise.

During 2003, \$5.2 million of General Obligation Bonds related to the Electric system, Municipal Pool and the Golf Course were refinanced resulting in lower interest rates for both issuances.

During 2007, the City issued Taxable Revenue Bonds of \$2.4 million to help finance the Hotel restoration project. The bonds are paid through the General Fund.

During 2009, the City issued General Obligation Bonds, Ohio Capital Asset Series 2009 to purchase a new fire truck. The bonds are paid through the General Fund.

The Special Assessment Bonds are paid from the collection of special assessments by the County Auditor from the specific property owners who primarily benefited from the projects.

During 2008 the Street Construction Fund borrowed \$486,977 and in 2009 \$722,882 from the State Infrastructure Bank to help finance the County Road 25-A widening project which was completed in 2009.

The Ohio Water Development Authority ("OWDA") Loans are paid semi-annually from wastewater revenues. Additional funds were borrowed in 2005 and 2006 to help fund the City's new hydropillar water tower.

CITY OF PIQUA, OHIO
Management's Discussion and Analysis
For The Year Ended December 31, 2009
(Unaudited)

During 2009, \$3,919,940 was borrowed from the Ohio Water Development Authority ("OWDA 2009") to fund the Wastewater Sewer Equalization tank. The Wastewater Sewer project notes are paid with sewer utility revenues.

State statutes limit the amount of general obligation debt a governmental entity may issue up to 10.5 percent of total assessed valuation. The City's overall legal debt margin was \$36,187,769 on December 31, 2009.

Additional information concerning the City's debt can be found in Note H of the financial statements.

Economic Factors and Next Year's General Fund Budget

The City's key objectives set for the 2010 budget were Economic development, job creation, safety, and long-term fiscal stability. With the uncertainty surrounding the economy, the City closely monitors and takes into consideration the impact on two primary revenue sources: income tax revenue and state shared revenue.

In the 2010 budget process City Commission decided that it was important to: 1) continue the City's investment in Economic development and job creation; 2) safety for the citizens of Piqua and City employees; and 3) adopt a budget designed to promote long-term fiscal stability. In order to meet the objectives of the 2010 budget, the City recognized the need to continue its pattern of cost containment while pursuing new revenue sources.

General fund expenditure appropriations for 2010 have been approved by City Commission in the amount of \$12.8 million. This appropriation level is approximately \$2.4 million more than actual 2009 general fund budgetary basis expenditures (including transfers out). The appropriation level was set based on estimated revenues in the General Fund similar to 2009 levels.

Current Financial Related Activities

The City anticipates the following significant events to take place in 2010:

- Commencement of Broadway Phase 2 reconstruction project.
- Implementation of a Storm Water Utility based on the feasibility study to address sanitary sewer overflow infiltration.
- Water Source exploration, and potential new Water Plant design and construction.
- Selection and begin implementation of a new municipal information system.
- Complete study and assessment of demolishing the Electric Power Plant.
- Review, selection and begin implementation of a new records management system in co-operation with Miami Co. Communication Center

The City of Piqua has committed itself to financial excellence. The City has received the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence for nineteen consecutive years.

Contacting the City's Finance Department

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Cynthia A. Holtzapple, CPA, Director of Finance, City of Piqua, 201 West Water Street, Piqua, Ohio 45356, (937) 778-2065.

CITY OF PIQUA, OHIO

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED DECEMBER 31, 2009**

Total net change in fund balances Governmental funds	\$ 956,508
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures; however in the statement of activities, the cost of those assets are allocated over their useful lives as depreciation expense. This is the amount by which capital outlays (\$2,123,232) exceed depreciation expense (\$1,626,503)	496,729
Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds: State shared taxes(\$377,487), Income taxes (\$3,600), Ems billings (\$3,841), Fema revenue(\$93,046)	(477,974)
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets	802,604
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:	
Vacation and sick leave benefits	226,073
Interest payable	2,663
Proceeds from the issuance of bonds, capital lease or other debt instruments are not considered revenues on the Statement of Activities	(1,122,882)
The net book value of assets retired (the difference of original cost (\$196,025) and accumulated depreciation (\$194,897) is not recorded on the Governmental Fund Statements, but is recorded as a expense on the Statement of Activities	(1,128)
An Internal Service Fund is used by management to charge the cost of certain activities, such as the city's health care costs, to individual funds. The net revenue (expense) of the internal service fund related to governmental activities is reported with governmental activities	(168,374)
Change in the net assets of governmental activities on the statement of activities	<u>\$ 714,219</u>

See accompanying notes to the basic financial statements

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity—The City of Piqua, Ohio, (the “City”) was incorporated in 1823 and operates under a Commission-Manager form of government. The following services are provided by the City: public safety (police and fire), highways and streets, electricity, water, wastewater, refuse, parks and recreation, public improvements, planning and zoning and general governmental administrative services.

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) governmental organizations for which the primary government is not financially accountable, but for which the nature and significance of their financial relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. In addition, component units can be governmental organizations for which the primary government is not financially accountable, but for which the nature and significance of their financial relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete. No separate government units meet the criteria for inclusion as a component unit.

BASIS OF PRESENTATION

Government-Wide Statements—The statement of net assets and the statement of activities display information about the primary government. Eliminations have been made to minimize the double counting of internal activities. Inter-fund receivables and payables between governmental and business type activities have been eliminated in the Government-wide Statement of Net Assets. These eliminations minimize the duplicating effect on assets and liabilities within governmental and business type activities total column. Internal service fund balances, whether positive or negative, have been eliminated against the expenses and program revenues shown in the governmental activities Statement of Activities. Governmental activities, which normally are supported through taxes, intergovernmental revenues and other nonexchange transactions, are reported separately from business type activities, which rely to a significant extent on fees and charges for support. The government-wide financial statements do not include the assets and liabilities of the City’s fiduciary funds.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City’s governmental activities. Direct expenses are those that are specifically associated with a program or a function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. When both restricted and unrestricted resources are available for use, it is the government’s policy to use restricted resources first, then unrestricted resources as they are needed. When expenditure is incurred for purposes for which amounts in an unrestricted fund balance classification could be used it is the government’s policy to use assigned resources first, and then unassigned amounts as they are needed.

Fund Financial Statements—The fund financial statements provide information about the City’s funds. Separate statements for each fund category—governmental, agency, and business type—are presented. The emphasis of fund financial statements is on major funds, each displayed in a separate column. All remaining funds are aggregated and reported as nonmajor funds.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

The City reports the following major governmental funds:

General Fund is the general operating fund of the City. It is used to account for all financial resources traditionally associated with government, which are not required to be accounted for in another fund.

Street Maintenance Fund—This fund accounts for the portion of gasoline tax and motor vehicle license fees restricted for maintenance of streets.

Street Levy Construction Fund—This fund accounts for a .25% levied income tax restricted for the specific purpose of street construction.

Debt Service Funds are used to account for the resources received and used to pay principal and interest on long-term general obligation debt of governmental funds. Revenues and financing resources are derived primarily from property taxes.

Enterprise Funds (Business type funds) are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City reports the following major enterprise funds: electric, water, wastewater, refuse, golf, Fort Piqua Plaza and municipal pool.

The City, in its business type funds, accounts for all recurring type revenues, including all revenues, which the City controls through statutory pricing or regulatory authority, as operating revenue and all recurring type expenses as operating expense. Non-recurring revenues such as gains on sales of assets and revenues over which the City has minimal or no control, primarily interest earnings, are accounted for as nonoperating revenues. Interest expense and other non-recurring expenses over which the City has minimal or no control are reported as non-operating expense.

Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its self-insurance activities and information technology functions. Because these activities predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements.

Fiduciary Fund Types are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organization, other governments, and/or other funds. The City reports the following agency and/or trust funds: Unclaimed funds, Employee flexible spending fund, and a private purpose centennial trust fund.

Basis of Accounting - Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurements made, regardless of the measurement focus applied.

Government-wide and business type fund financial statements measure and report all assets (both financial and capital), liabilities, revenues, expenses, gains and losses using the economic resources measurements focus and

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

All governmental funds are accounted for using a current financial resources measurement focus and are reported on the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to use to pay liabilities of the current period which, for the City's purposes, is considered to be 60 days after year end. Revenues considered susceptible to accrual are community development block grants, delinquent property taxes, income taxes, kwh taxes, hotel/motel taxes, franchise fees, emergency service billings, and interest on investments. Property taxes levied before year end are not recognized as revenue until the next calendar year. The fiscal period for which property taxes are levied at year-end in the State of Ohio is the succeeding calendar year.

Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for interest on unmatured general long-term debt, and on special assessment indebtedness collateralized by special assessment levies, which are recognized when payment is due. Inventory and prepaid expenditures are recognized when used.

Pronouncements of the Financial Accounting Standards Board (FASB) issued on or before November 30, 1989, are followed in both the government-wide and business type fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Government Accounting Standards Board. Governments also have the option of following subsequent FASB guidance for their business-type activities and enterprise funds, subject to this same limitation; however, the City has elected not to follow subsequent FASB guidance.

Cash and Cash Equivalents and Investments—City funds are pooled and invested to improve cash management. Each fund type's portion of the pool is shown on the Statement of Net Assets as "cash and cash equivalents" and "investments". For purposes of the statement of cash flows, the business type funds consider all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

The City's investment policy authorizes the City to invest in obligations of the United States Government, or other investments where the principal and interest are collateralized by the full faith and credit of the United States Government, and bonds of other states, cities and political subdivisions.

Receivables—Receivables primarily consist of municipal income taxes, state shared revenue taxes, property taxes, kwh taxes, hotel/motel taxes, franchise fees, emergency service billings, and utility charges.

Inventory—Inventory is valued at average cost. The business type fund inventories are capitalized or expensed when used.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

Prepaid Expenses—Payments made to vendors for services that will benefit beyond year-end are recorded as prepaid items.

Capital Assets—Capital assets are recorded based on historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

The City defines capital assets as assets with an individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Property, plant, and equipment of the City is depreciated using the straight-line method over the following estimated useful lives:

Buildings	34 – 50 years
Land improvements other than buildings	25 – 75 years
Machinery and equipment	10 – 30 years
Vehicles	7 – 10 years
Computer equipment	5 years
Public domain infrastructure	45 years
Rolling stock	5 years
Sewer and water lines and underground piping	34 – 50 years

Fund Balance Classifications—Fund balance is reported as restricted when constraints placed on the use of resources are either: a. externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or b. imposed by law through constitutional provisions or enabling legislation.

Fund balance is reported as committed when the City Commission enacts legislation requiring specific revenue to be used for a special purpose. The City Commission can modify or rescind that legislation at any time through additional legislation.

Fund balance is reported as assigned when a revenue source is not previously restricted or committed but the management of the City in their professional opinion determines that the assigning of the revenue is the desire of the City Commission and in the best interest of the City.

Use of Estimates—The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the basic financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the estimates.

Deferred Revenue— Pertains to the City’s adoption of Bulletin 96-013 from the Auditor of State which deals with the recognition of entitlements and state shared revenues, as well as locally levied, income and estate taxes.

Grants and Other Intergovernmental Revenues—Federal grants, assistance awards made on the basis of entitlement periods, are recorded as intergovernmental receivables and revenues when entitlement occurs and

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

other reimbursement-type grants are recorded as intergovernmental receivables and revenues when eligible expenditures/expenses are incurred.

Compensated Absences—City employees are granted vacation, personal and sick leave. These leave benefits are accrued as a liability using the vesting method. The liability is based on the leave accumulated at December 31 by those employees who are currently eligible to receive termination payments as well as leave accumulated by those employees expected to become eligible to receive termination benefits in the future. In the event of termination, an employee may be reimbursed for accumulated vacation, personal and sick leave at various rates based on years of service. Vested vacation, personal, and sick leave is recorded as an expense in the government-wide statements for the period in which the leave was earned. For governmental fund type employees, an expenditure is recorded in the governmental funds' statements for only the portion of vested vacation, personal and sick leave that is expected to be liquidated with expendable available resources in accordance with Interpretation No. 6 of the Governmental Accounting Standards Board-Recognition and Measurement of Certain Liabilities and Expenditure in Government Fund Financial Statements.

Vested vacation, personal, and sick leave is recorded as an expense in both the government wide statements and statements for all business type funds. Payment of vacation, personal and sick leave recorded in the government-wide financial statements is dependent upon many factors; therefore, timing of future payments is not readily determinable. Management believes that sufficient resources will be made available when payment is due.

B. POOLED CASH DEPOSITS AND INVESTMENTS

In 2005, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 40 "Deposit and Investment Risk Disclosures-an amendment of GASB Statement No. 3."

Deposits—Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the City. At December 31, 2009 the City had cash on hand in the amount of \$4,625.

At December 31, 2009, the carrying amount of the City's deposits was \$1,229,278 while the balance as shown by the bank statements was \$1,986,308. As of December 31, 2009, \$1,736,308 of the City's bank balance was exposed to custodial risk as discussed above, while \$250,000 was covered by Federal Deposit Insurance.

Investments—The ORC, the City's charter, and the City's investment policy authorize the City to invest in the State Treasury Asset Reserve of Ohio (STAR Ohio), certificates of deposit, repurchase agreements, United States treasury bills and notes, notes issued by United States agencies, bankers' acceptances and commercial paper of the highest rating. All investments are reported at fair value which is based on quoted market prices.

STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities Exchange Commission as an investment company but does operate in a manner similar to rule 2a7 of the

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

Investment Company Act of 1940. Investments in STAR Ohio are valued at the pool's share price, which is the price for which the investment could be sold for on December 31, 2009.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of a failure of a depository institution or counterparty to a transaction, the City will be unable to recover the value of deposits, investments or collateral securities in the possession of an outside party. Except in regards to repurchase agreements, the City's investment policy does not address custodial credit risk. At December 31, 2009, all investments were registered in the name of the City.

Foreign Currency Risk – Foreign currency risk is the risk that changes in exchange rates between the U.S. Dollar and foreign currencies could adversely affect an investment's fair value. The City does not have a formal investment policy regarding foreign currency risk. The City had no exposure to foreign currency risk at year end.

Credit Risk – Credit risk is the risk that an issuer or counterparty to an investment will be unable to fulfill its obligations. The City does not have a formal investment policy regarding exposure to credit risk. The City's exposure to credit risk, based on both Moody's and Standard & Poor's Credit Ratings, is as follows:

<u>Investment Type</u>	<u>Quality Rating</u>	<u>Fair Value</u>
City of Piqua Bonds	Non-Rated	\$ 377,603
U.S. Government Agency Obligations	AAA	6,277,338
Unity National Investment	Non-Rated	505,497
STAR Ohio	AAAm	<u>22,088,593</u>
Total		<u>\$29,249,031</u>

Concentration of Credit Risk – Concentration of credit risk is the risk of inability to recover the value of deposits, investments, or collateral securities in the possession of an outside party caused by lack of diversification. The following table includes the percentage to total of each investment type held by the City at December 31, 2009.

<u>Investment Type</u>	<u>Fair Value</u>	<u>% of Total</u>
City of Piqua Bonds	\$ 377,603	1.29%
FHLB	4,031,928	13.78%
FHLMC	2,245,410	7.68%
Unity National Investment	505,497	1.73%
STAR Ohio	<u>22,088,593</u>	<u>75.52%</u>
Total	<u>\$29,249,031</u>	<u>100.00%</u>

Except for investments in STAR Ohio, no more than 15% of the City's total investment portfolio will be invested in a single security type or with a single financial institution.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

Interest Rate Risk – Interest rate risk is the risk that an interest rate change could adversely affect an investment’s fair value. According to the City’s investment policy, the maximum maturity for any single security may not exceed 5 years.

<u>Investment Type</u>	<u>Investment Maturities (in years)</u>			<u>Total Fair Value</u>

C. PROPERTY TAXES

Property tax revenues include amounts collected for all real, public utility and tangible (used in business) property located in the City. Property taxes are levied each January 1 on the assessed value listed as of the prior January 1. Assessed values are established by the County Auditor for real and public utility property at 35% of appraised market value, and for tangible property at 25% of appraised market value(excluding the first \$10,000 of value). Property values are required to be updated every three years and revalued every six years. A revaluation was completed in 2007.

The property tax calendar is as follows:

Levy date	January 1, 2008
Lien date	January 1, 2009
Tax bill mailed	January 20, 2009
First installment payment due	February 20, 2009
Second installment payment due	July 20, 2009

The assessed values for the City at January 1, 2009 were as follows:

Real estate	\$ 326,538,330
Tangible personal property	<u>18,107,090</u>
Total	<u>\$ 344,645,420</u>

The County Treasurer collects property taxes on behalf of taxing districts, including the City of Piqua. The County Auditor periodically remits to the City its portion of taxes collected. Property taxes may be paid on either an annual or semiannual basis. Although total property tax collections for the next fiscal year are measurable, amounts to be received are not available at December 31, 2009, nor are they intended to finance 2009 operations. Therefore, the City has recorded property taxes receivable with a corresponding amount as deferred revenue.

Ohio law prohibits taxation of property in excess of \$10 per \$1,000 (10.0 mills) of assessed value without a vote of the citizens. The City’s share is currently \$3.70 (3.7 mills) of assessed value. In 2009, the City also received an additional 0.60 mills to fund the Pension Refunding Bonds, and 0.12 mills for costs of the Miami Conservancy District.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

House Bill 66 phases out the tax on tangible personal property. The tax is phased out by reducing the assessment rate on the property each year. In the first five years, the City is fully reimbursed for the lost revenue. Reimbursements to the City are then phased out in the following seven years.

D. INCOME TAXES

The City levies a 1.75% income tax on all income earned within the City. Income tax in excess of 1% is voter approved. Income tax is allocated by fund in accordance with voter and commission authorizations. In addition, City residents pay City tax on income earned outside the City; however, a credit is allowed for income taxes paid to other municipalities.

Employers within the City withhold income tax on employee compensation and remit payments at least quarterly. Corporations and other individual taxpayers pay estimated taxes quarterly and file an annual declaration.

E. OTHER TAXES

The caption "State Shared Taxes" on the Statement of Activities is comprised of taxes levied by the State or the County and distributed to the City. The components of the number are as follows:

Estate taxes	\$ 1,256,879
Local government revenue assistance	755,369
Gasoline taxes	695,706
Vehicle license taxes	261,415
Miscellaneous other taxes	<u>434,681</u>
	<u>\$ 3,404,050</u>

The City has two locally issued taxes; a KWH tax totaling \$1,070,323 which is recognized based upon sales of electrical services, and a hotel/motel tax totaling \$52,722 which is recognized based upon 3% of gross receipts.

F. RECEIVABLES

Governmental receivables at year end, consisted primarily of municipal income taxes, property and other taxes, intergovernmental receivables arising from entitlements and shared revenues, special assessments, accrued interest on investment, accounts and notes receivable. Loans receivable represent an economic development loan in the amount of \$12,508,303 for the restoration of the historic Fort Piqua Hotel into a library and conference/banquet center; and real estate second mortgages which are partially forgivable over five to fifteen year periods netted by an estimated allowance for forgiveness or amounts uncollectible. The real estate second mortgages are \$960,353 with an estimated allowance for forgiveness of \$953,203.

Business type receivables at year end consisted primarily of billed and unbilled utility revenues, and interest receivable on investments.

Total long-term liabilities		<u>\$ 7,088,320</u>	<u>\$ 4,423,980</u>	<u>\$ 1,577,439</u>	<u>\$ 9,934,861</u>	<u>\$ 1,490,976</u>

The terms of the various bonds include certain covenants, which provide for, among other things, minimum debt coverage ratios, maintenance of insurance and restrictions regarding disposal of property.

The full faith and credit of the City are pledged as collateral for all General Obligation Bonds.

Ohio Water Development Authority (“OWDA 1995”) Wastewater Sewer Project Notes are issued under a cooperative agreement for construction, maintenance and operation of a state sewer project. Payments to the OWDA will be made from the utility’s pledged future revenues. The total principal and interest remaining to be paid on the note is \$2,532,684. Principal and interest paid for the current year and total customer net revenues were \$506,537 and \$1,396,506, respectively.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

Ohio Water Development Authority (“OWDA 2009”) Wastewater Sewer Project Notes are issued under a cooperative agreement for construction, maintenance and operation of a state sewer project. Payments to the OWDA will be made from the utility’s pledged future revenues. Principal and interest payments will commence after project completion (July 1, 2010).

Ohio Water Development Authority (“OWDA 2005” & “OWDA 2006”) drinking water assistance notes are issued under a cooperative agreement for construction maintenance and operation of the City’s Hydropillar Water Tower. Payments to the OWDA will be made from the utility’s pledged future revenues. The total principal and interest remaining to be paid on the notes is \$809,446. Principal and interest paid for the current year and total customer net revenues were \$147,172 and \$808,983, respectively.

State Infrastructure Bank Revenue Note was issued to finance a joint city/county road widening project. The city’s .25% income tax revenues from the Street construction fund and county highway use funds have been pledged for a ten year period ending in 2020. The total principal and interest remaining to be paid on the note is \$1,390,033, which will be payable starting in October 2010. The city’s .25% income tax levy will pay two thirds of the principal and interest with the remaining one third from county highway use funds. The estimated annual principal and interest payments represent 11.5% of the estimated net revenues from this tax levy.

Taxable Economic Development Bonds were issued to facilitate the rehabilitation of Fort Piqua Hotel complex. Net project revenues and non tax revenues will be used for the repayment of the bonds. Principal and interest paid for the current year totaled \$357,352

The Special Assessment Bonds which are held for investment by other City funds were issued annually to finance the public’s costs associated with various street reconstruction projects. The total principal and interest remaining to be paid on the bonds is \$77,280. Principal and interest paid for the current year and total net revenue were \$37,021 and 52,596 respectively.

Restricted deposits are confiscated funds held under court order until released by judicial authority.

Compensated absences	General Fund, Street maintenance, Community development, Electric, Water, Wastewater, Refuse, Golf, Pool, and

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

K. PENSION PLAN OBLIGATIONS

Both the Ohio Police and Fire Pension Fund (“OP&F”) and the Ohio Public Employees Retirement System (“OPERS”) are reported using GASB Statement No. 27 “Accounting for Pensions by State and Local Governmental Employers”. Substantially all City employees are covered by one of the two cost-sharing multiple-employer defined benefit pension plans, namely, the Ohio Police and Fire Pension Fund (“OP&F”) or the Ohio Public Employees Retirement System (“OPERS”). The systems provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries.

Police and Fire Disability Pension Fund Plan—Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. The OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10.0% of their annual covered salary, while employers are required to contribute 19.5% and 24.0%, respectively for police officers and firefighters. The contribution requirements for the years ended December 31, 2009, 2008, and 2007 were \$1,370,823, \$1,407,327 and \$1,417,029, which consisted of \$937,247, \$962,921 and \$968,889 from the City and \$433,576, \$444,405, and \$448,140 from the employees, respectively, or 75% of the required contributions for 2008 and 77% of the required contributions for 2007 and 73% of the required contributions for 2006. The unpaid portion of \$248,296 is reported as liability in the respective funds.

Public Employees Retirement System—Authority to establish and amend benefits is provided by State statute per Chapter 145 of the Ohio Revised Code. The OPERS issues a stand-alone financial report. Interested parties may obtain a copy by making a written request to 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or (800) 222-PERS (7377).

OPERS administers three separate pension plans as described below:

The Traditional Pension Plan (TP) – a cost-sharing multiple-employer defined benefit pension plan.

The Member-Directed Plan (MD) – a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the Member-Directed Plan members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings.

The Combined Plan (CO) – a cost-sharing multiple-employer defined benefit pension plan. Under the Combined Plan employer contributions are invested by the retirement system to provide a formula retirement Benefit similar in nature to the Traditional Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the Traditional and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits.

The Ohio Revised Code also provides statutory authority for member and employer contributions. For 2009, member and employer contribution rates were consistent across all three plans (TP, MD, and CO).

Plan members are required to contribute 10% of their annual covered salary and the City is required to contribute 14%. The City's contributions to the plan for the years ending December 31, 2009, 2008 and 2007 were \$1,744,218, \$1,843,620, and \$1,785,377 respectively, equal to the required contributions for the year.

L. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

Both the OPERS and the OP&F provide post-retirement health care coverage as defined by GASB Statement No. 45 "Accounting by employers for post-employment benefits other than pension". For both systems, the Ohio Revised Code provides the statutory authority for public employers to fund postretirement health care through their contributions.

Police and Firemen's Disability Pension Fund OPEB—The fund provides postretirement health care coverage to any person who receives or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child under the age of 18, whether or not the child is attending school, or under the age of 22, if attending full-time or on a 2/3 basis. The Ohio Revised code provides that health care costs paid shall be included in the employer's contribution rate. The total police employer contribution rate is 19.5% of covered payroll and the total firefighter employer contribution rate is 24% of covered payroll.

The Ohio Revised Code provides the statutory authority allowing OP&F's Board of Trustees to offer health care coverage to all eligible employees and is administrated as an Internal Revenue Code 401(h) account within the defined benefit pension plan. Health care funding and accounting is on a pay-as-you-go basis. A percentage of covered payroll, as defined by the Board, is used to pay retiree health care expenses. The Board defined allocation was 6.75% of covered payroll in 2009 and 2008 respectively. Beginning in 2001, active members do not make contributions to the OPEB, all retirees and survivors make monthly health care contributions.

The number of participants eligible to receive health care benefits statewide as of December 31, 2008, the date of the last actuarial valuation available, was 14,567 for police and 10,750 for firemen. OP&F's total health care expense for the year ending December 31, 2008, the date of the last actuarial valuation available, was \$96,472,398, which was net of member contributions of \$56,948,977. The City's contributions that were used to pay post employment benefits by Ohio Police and Fire for the years ended December 31, 2009, 2008, and 2007 \$292,473, \$299,776, and \$302,297 respectively.

Public Employees Retirement System OPEB— OPERS provides post-retirement health care coverage to age and service retirees with 10 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by the Retirement System is considered an Other Post-employment Benefit (OPEB) as described in GASB Statement No. 45. A portion of each employer's contribution to OPERS (7% of the total 14% contribution—See Note K) is set aside for the funding of post-retirement health care. The Ohio Revised Code provides the statutory authority for employer contributions and for requiring public employers to fund pension and post-retirement health care

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

through their contributions to OPERS. The 2008 employer contribution rate for local government employer units was 14% of covered payroll, of which 7% from January 1 through March 31, 2009 and 5.5% from April 1 through December 31, 2009 was used to fund health care for the year.

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan (TP) - a cost-sharing multiple-employer defined benefit pension plan; the Member-Directed Plan (MD) - a defined contribution plan; and the Combined Plan (CO) - a cost-sharing multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS provides retirement, disability, survivor and post-retirement health care benefits to qualifying members of both the Traditional and the Combined Plans; however, health care benefits are not statutorily guaranteed. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

Actuarial Review: The assumptions and calculations below were based on the OPERS' latest actuarial review performed as of December 31, 2008.

Funding Method: The individual entry age actuarial cost method of valuation is used in determining the present value of OPEB. The difference between assumed and actual experience (actuarial gains and losses) becomes part of the unfunded actuarial accrued liability.

Assets Valuation Method: All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Under this approach assets are adjusted to reflect 25% of unrealized market appreciation or depreciation on investment assets annually, not to exceed a 12% corridor.

Investment Return: The investment assumption rate for 2008 was 6.50%.

Active Employee Total Payroll: An annual increase of 4.00%, compounded annually, is the base portion of the individual pay increase assumption. This assumes no change in the number of active employees. In addition, annual pay increases over and above the 4.00% base increase, were assumed to range from 0.50% to 6.30%.

Health Care: Health care costs were assumed to increase at the projected wage inflation rate plus an additional factor ranging from .5% to 3% for the next 6 years. In subsequent years, (7 and beyond) health care costs were assumed to increase at 4% (the projected wage inflation rate). OPEBs are advance-funded on an actuarially determined basis. At year-end 2009, the number of active contributing participants in the Traditional and Combined Plans totaled 357,584. The number of active contributing participants for both plans used in the December 31, 2008 actuarial valuation was 356,388. The amount of \$10.7 billion represents the actuarial value of the OPERS' net assets available for OPEB at December 31, 2008. Based on the actuarial cost method used, the Actuarial Valuation as of December 31, 2008, reported the actuarial accrued liability and the unfunded actuarial accrued liability for OPEB at \$29.6 billion and \$18.9 billion, respectively. The City's contributions that were used to pay post employment benefits by Ohio Public Employee Retirement System for the years ended December 31, 2009, 2008, and 2007 \$424,707, \$537,720, and \$422,508 respectively.

The Health Care preservation Plan (HCPP) adopted by the OPERS Retirement Board on September 9, 2004, was effective on January 1, 2007. Member and employer contribution rates increased as of January 1, 2006, January 1, 2007 and January 1, 2008, which allowed additional funds to be allocated to the health care plan.

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

M. OHIO PUBLIC EMPLOYEES DEFERRED COMPENSATION PROGRAM

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code (“IRC”) Section 457. The plan, which is available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

N. OHIO PROFESSIONAL FIRE FIGHTERS DEFERRED COMPENSATION PROGRAM

In addition to the Ohio Public Employees Deferred Compensation Program; the City offers its sworn fire officers an optional deferred compensation plan created in accordance with Internal Revenue Code (“IRC”) Section 457. The plan which is only available to sworn fire officers permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

O. CONTINGENCIES

Certain claims and suits have been filed or are pending against the City. Management believes that the liability, if any, which may result would not have a material adverse effect on the financial position of the City.

The City participates in several federally assisted programs, which are subject to program compliance audits by the grantors or their representatives. A single financial and compliance audit of the City has been completed with no findings for recovery. The grantor agencies, at their option, may perform economy and efficiency audits, program results audits or conduct monitoring visits. Such audits and visits could lead to reimbursement to the grantor agencies. Management believes such reimbursements, if any, would not be material.

P. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. In 2002, the City joined a joint insurance pool, Miami Valley Risk Management Association, Inc. (“MVRMA”) with other local cities. The pool has been operational since December 1988, and was formed in accordance with Section 2744.081 of the Ohio Revised Code. This jointly governed organization provides real and personal property, crime, surety, general liability, boiler and machinery, employment practices liability, police professional and public officials liability coverage up to the limits stated below. Membership in MVRMA is intended to provide broad-based coverage up to the limits stated below, with increased emphasis on safety and loss prevention and to create opportunity for other local governments to participate. MVRMA is a non-profit corporation governed by a twenty-member board of trustees, consisting of a representative appointed by each of the member cities. The board of trustees elects the officers of the corporation, with each trustee having a single vote. Management is provided by an executive director, who is assisted by a claims manager, a full-time loss control manager and office staff. The board is responsible for its own financial matters and the corporation maintains its own books of account. Budgeting and financing of MVRMA is subject to the approval of the board, and the organization is covered by policies, procedures, and formally adopted bylaws.

The City pays an annual member contributions premium to MVRMA for this coverage. The agreement provides that MVRMA will be self-sustaining through member contributions premiums and the purchase of excess insurance and reinsurance. The city’s deductible per occurrence for all types of claims is \$2,500. During 2009,

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

MVRMA'S per-occurrence retention limit for property was \$200,000, with the exception of boiler and machinery for which there was a \$5,000 per occurrence retention limit. Liability had a per occurrence retention limit of \$1,000,000.

Excess insurance and/or reinsurance will cover up to the limits stated below:

General Liability (including law enforcement)	\$10,000,000 per occurrence/ excess \$1,000,000 sir
Automobile Liability	\$10,000,000 per occurrence/excess \$1,000,000 sir
Police Professional Liability	\$10,000,000 excess \$1,000,000 (\$10,000,000 aggregate per city)
Boiler and Machinery	\$100,000,000 per occurrence
Property	\$1,000,000,000 per occurrence
Flood and Earthquake	\$25,000,000 per occurrence and annual aggregate
Employment Practices Liability and Public Officials Liability	\$10,000,000 excess \$1,000,000 (\$10,000,000 annual combined aggregate per city)

The City joined a workers' compensation group rating plan, which allows local governments to group the experience of employers for workers' compensation rating purposes. The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries.

The City employee's health plan is provided through a fully insured plan with Medical Mutual of Ohio and is accounted for and financed through an internal service fund.

Q. RELATED PARTY DISCLOSURES

The current City Manager, Fred Enderle, is the Vice-President of the Fort Piqua Redevelopment Corporation, which is the general partner of the City of Piqua Downtown Redevelopment Project, L.P. The City of Piqua Downtown Redevelopment Project L.P. is in the process of restoring the historical Fort Piqua Hotel into a library and conference/banquet center. To date the City has loaned the project \$12,508,303 which will be funded 75% from donations, grants, and state tax credits reimbursements.

R. PURCHASED POWER

The City's electric distribution system during 2009 purchased wholesale electric power from two sources; Dayton Power and Light Company provides ten megawatts of firm power under a long term power which will expire in May 2014. Amp-Ohio provides the remaining power requirements with purchases from various sources including the New York Power Authority. In 2007, the city entered into two long term purchased power commitment contracts with Amp-Ohio. These are the Prairie State Energy Campus Project (20 megawatts), and the Ohio River Hydroelectric Project (6 megawatts). These projects when completed in 2012 will provide firm power commitments through Amp-Ohio.

S. FUND BALANCE COMPONENTS

Under the guidelines of GASB statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions"; the City has reported non spendable fund balance of \$12,521,223. This is comprised of amounts in non-spendable form for non-current loans receivable for the Fort Piqua Plaza of \$12,508,303, low income

CITY OF PIQUA, OHIO
Notes to the Basic Financial Statements
December 31, 2009

mortgage assistance loans of \$7,150, and prepaid items of \$5,770. The City reported restricted fund balance of \$3,598,037, which is comprised of debt restrictions of \$387,228, donor restrictions of \$18,316, grant restrictions of \$50,923, and legislative restrictions of \$3,141,570. The City reported assigned fund balance of \$2,479,995, which is comprised of amounts management has set aside for; future equipment purchases of \$357,835, encumbrances of \$288,049, and managerially assigned assets of \$1,834,111. The City reported un-assigned fund balance of \$5,233,694.

CITY OF PIQUA, OHIO
Notes to the Required Supplemental Information
December 31, 2009

BUDGETS AND BUDGETARY ACCOUNTING—The City follows procedures prescribed by State law in establishing the budgetary data shown in the financial statements, as follows:

- The City must submit a budget of estimated revenues and expenditures for all governmental funds to the County Budget Commission by July 20 of each year for the following calendar year.
- The County Budget Commission certifies its actions by September 1, and issues a “Certificate of Resources” limiting the maximum amount the City may expend from a given fund during the year.
- On approximately January 1, this Certificate is amended to include any unencumbered balances from the preceding year. The City must prepare its appropriations so that the total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Resources.
- Before the first Commission meeting in January, a permanent appropriation measure must be passed for the period January 1 through December 31. The permanent appropriation may not exceed estimated resources certified by the County Budget Commission.
- Unused appropriations lapse at year-end and are re-appropriated in the following year’s budget.
- All funds have annual budgets, which are prepared in accordance with generally accepted accounting principles and are legally adopted by the City Commission.

The City Manager acts as budget officer for the City and submits a proposed operating budget to the City Commission on an annual basis. Public hearings are held to obtain taxpayer comments. The Commission enacts the budget through passage of an appropriations ordinance. The appropriations ordinance controls expenditures in each fund at the object levels of personal services/administrative support, operating expenditures, transfers, and capital outlay. Amendments to object totals of appropriations require Commission approval. The City Manager has the authority to allocate and amend appropriations at the account level, provided that fund totals appropriated by ordinance are not adjusted. Earnings of the Power, Water, Wastewater, and Refuse systems may not be appropriated for other City uses.

The budget process is controlled by both the State of Ohio Revised Code and the City Charter and is prepared based on anticipated revenues and appropriated expenditures.

The City’s financial position, results of operations and changes in fund balances, as well as the budgetary basis as provided by law, are reported on the basis of GAAP.

CITY OF PIQUA, OHIO

NON-MAJOR FUNDS

Revolving Loan/Federal Program Income	To account for micro-enterprise loans and home mortgages resulting from federal grant activities
Community Development	To account for activities for social, economic, and other special development of the community
Trust	To account for resources recovered or held through legislation or enforcement activities.
Conservancy	To account for receipts and disbursements for the city's share of the district's operation and maintenance.
Federal Grants	To account for federal funds available for public transit, FEMA, comprehensive housing, and block grants.

CITY OF PIQUA, OHIO

NON-MAJOR INTERNAL SERVICE/FIDUCIARY FUNDS

Internal Service Funds

Worker Compensation	To account for funds set aside for possible future retrospective rating plan
Liability Insurance	To account for assets reserved for future self-insurance options
Health Insurance	To account for an internally financed and self-insured health insurance program.
Information Technology	To account for centralized communication, networking, and data processing services for all city departments

Fiduciary Funds

Unclaimed Funds	To account for unclaimed liabilities of the city.
Private-Purpose Centennial Trust	To account for assets of a centennial escrow as established by legislation.
Employee Flexible Spending	To account for assets held for the employee's cafeteria plan.

Statistical Section

This part of the City of Piqua, Ohio's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

<u>Contents</u>	<u>Pages</u>
Financial Trends	74-78
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	79-81
These schedules contain information to help the reader assess the City's most significant local revenue sources, the property tax, and the municipal income tax.	
Debt Capacity	82-84
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Economic and Demographic Information	85-87
These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	88-91
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement 34 in 2002; schedules presenting government-wide information include information beginning in that year.

Source: City of Piqua, Ohio Income Tax Department-certain amounts may be estimates-years are tax years. The City instituted a mandatory filing requirement in 2008. Comparisons between 2008 and prior years may be exaggerated. Prior to 2008 the number of filers does not equal total taxpayers due to taxpayers paying city taxes through employer withholding without a filing requirement. Tax years 2002,2001,2000,1999 information is not available.
