### NOTES TO SCHEDULE OF FEDERAL AWARDS EXPENDITURES FOR YEAR ENDED JUNE 30, 2000

### **NOTE A--SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Schedule of Federal Awards Expenditures (the Schedule) summarizes activity of the Government's federal award programs. The schedule has been prepared on the cash basis of accounting.

### **NOTE B--FOOD DISTRIBUTION**

Nonmonetary assistance, food received from the U.S. Department of Agriculture, is reported in the Schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first. At June 30, 2000, the District had no significant food commodities in inventory.

# REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS

Board of Education North Royalton City School District Cuyahoga County 6579 Royalton Road North Royalton, Ohio 44133

We have audited the financial statements of North Royalton City School District, Cuyahoga County, (the District) as of and for the year ended June 30, 2000, and have issued our report thereon dated October 27, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of the District in a separate letter dated October 27, 2000.

### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated October 27, 2000.

# REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO ITS MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Education North Royalton City School District Cuyahoga County 6579 Royalton Road North Royalton, Ohio 44133

### Compliance

We have audited the compliance of North Royalton City School District, Cuyahoga County, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2000. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2000.

### **Internal Control Over Compliance**

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

North Royalton City School District Cuyahoga County Report on Compliance With Requirements Applicable to its Major Federal Program and Internal Control Over Compliance In Accordance With OMB Circular A-133 Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. We noted other matters involving the internal control over federal compliance that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated October 27, 2000.

### **Schedule of Federal Awards Expenditures**

We have audited the general-purpose financial statements of North Royalton City School District as of and for the year ended June 30, 2000, and have issued our report thereon dated October 27, 2000. Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

This report is intended for the information and use of management, Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

October 27, 2000

Board of Education Members
North Royalton City School District

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the North Royalton City School District for the fiscal year ended June 30, 2000. This CAFR, which includes financial statements and other financial and statistical data, conforms to generally accepted accounting principles as applicable to governmental entities. Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including all disclosures, rests with the District.

The report provides the taxpayers of the North Royalton City School District, bond rating agencies and other interested parties with comprehensive financial information, enabling them to gain a clear understanding of the School District's finances. This report is intended to contribute to meeting the accountability requirements of the public. Copies will be distributed to all school buildings, the North Royalton Public Library, the North Royalton Chamber of Commerce, rating agencies and other interested organizations. Copies will be made available to residents of the North Royalton City School District.

This report is divided into the following sections:

- I. The Introductory Section, which includes this transmittal letter, a list of principal officials, and the District's organizational chart.
- II. The Financial Section, which includes the general purpose financial statements and the combining and individual fund and account group financial statements and schedules, as well as the Independent Accountants' Report on the financial statements and schedules.
- III. The Statistical Section, which includes related financial and demographic information, generally presented on a multi-year basis.

### The School District

The North Royalton City School District is governed by the Constitution of the State of Ohio and various statutes enacted by the Ohio General Assembly through the State Department of Education. Under Ohio law, the School District is a separate and distinct unit of government with its own taxing authority. The North Royalton Board of Education is a five member board, elected at large, with overlapping four year terms.

The District is located in Cuyahoga County in northeastern Ohio, twenty miles south of the downtown area of the City of Cleveland and covers 25 square miles. Based on property valuations, the District includes 98.5% of the City of North Royalton and 24.7% of the City of Broadview Heights (the remainder of each of these communities is in the Brecksville-Broadview Heights City School District). The District is bounded by the City of Parma on the north, the City of Broadview Heights on the east, the City of Strongsville on the west and Medina County on the south.

North Royalton became a township in 1818, was incorporated as a village in 1927 and became a city in 1961. Early records show that formal schooling began in approximately 1821 with a log schoolhouse on State Road. In 1858, there were 41 students enrolled in the North Royalton School District. On February 13, 1961, North Royalton Local Schools became a City School District.

Population in the City of North Royalton increased from approximately 20,600 in 1988 to approximately 27,000 in 1998 (a 31% increase). This growth caused school enrollment to increase by 1,360 (47%) in the same period.

The North Royalton School District provides a comprehensive array of programs and services in five school buildings: one high school with grades 9 through 12, one middle school with grades 5 through 8 and three elementary schools with each containing grades K through 4. Course offerings, supplemented by extra-curricular opportunities, afford students with the skills necessary to pursue post-high school educational and career goals.

The results of achievement, competency and proficiency testing continue to substantiate the effectiveness of the teaching-learning process in the North Royalton School District.

The success of North Royalton students is a reflection of the community as a whole with parents, businesses, residents and educators working together to form a school district of which we can all be proud.

### The Reporting Entity

The District has reviewed its reporting entity definition in order to insure conformance with the Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity." In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up the North Royalton City School District (the primary government) and its potential component units.

Numerous entities operate within the District's geographical boundaries. These entities have been excluded from the accompanying financial statements because the District cannot legally access their resources, the District has no obligation to finance deficits or provide financial support to them and the District is not obligated for their debts.

### **Major Educational Initiatives:**

### 1999 - 2000 School Year

- Continued to upgrade technology, specifically through staff development to enable more efficient utilization of technology as a support to instruction.
- Continued the cycle of curriculum review, enabling monitoring and updating of the K-12 educational program.
- Developed Continuous Improvement Plans that are designed to improve student performance on proficiency tests (K-12).

### For the Future

- Continue to work collaboratively with our state representatives regarding school funding, specifically protecting the interests of our school district.
- Continue implementation of interactive distance learning opportunities for students and staff.
- Enhance our professional development program to support delivery of instruction
- Strive to sustain district-wide accreditation from the North Central Association.

The District has a \$21.5 million bond issue on the November, 2000 ballot to provide for the following:

- construction of a new 600-student elementary school building
- increasing instructional space for music and art at the high school
- refurbishing and updating the three existing elementary buildings
- renovating the 50-year-old addition of the high school
- renovating facilities at the football stadium
- developing additional athletic fields on school-owned property
- continued improvements in technology

### **Financial Information**

The District's accounting system is organized on a "fund" basis where each fund (and account group) is a distinct, self-balancing accounting entity. Beginning with the year ended June 30, 1992, the District changed its basis of accounting from the cash basis to:

- 1. The modified accrual basis for governmental funds, where the measurement focus is the flow of current financial resources.
- 2. The accrual basis for proprietary operations, where the measurement focus is on reporting all assets and liabilities associated with these activities.

This change to the accrual and modified accrual bases of accounting was accomplished according to generally accepted accounting principals (GAAP).

Governmental and fiduciary fund types are accounted for on the modified accrual basis of accounting. Revenues are recognized when they become measurable and available to finance expenditures of the current period. Revenue items, which are susceptible to accrual, are recorded as receivable. Expenditures are recognized and recorded as liabilities when incurred, with the exception of accumulated unpaid employee compensation which is not payable from current expendable financial resources, and general long term obligation debt which is recognized as a liability and recorded when due.

Proprietary fund types are accounted for on the accrual basis of accounting. Their revenues are recognized in the period earned and expenses are recognized in the period incurred. Proprietary fund unbilled services receivable are recognized as revenue in the period when the services are provided.

### **Internal Control**

In developing and evaluating the District's accounting system, consideration was given to the adequacy of internal accounting controls. Internal accounting controls are in place and are designed to provide reasonable, but not absolute assurance regarding:

- (1) safeguarding against loss of assets; and
- (2) reliability of financial data used in preparing the financial statements and maintaining the accountability of assets.

The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits likely to be gained from the implementation of the controls. Management believes that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

### **Budgetary Control**

The District also maintains a series of budgetary controls. These controls are in place to ensure compliance with legal requirements of the District's annual appropriation measure. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by object in the General Fund and at the fund level for all other funds.

One such budgetary control is the encumbrance accounting system utilized by the District. Encumbrances are made when the District makes an obligation to purchase an item or service and they are not relieved until payment is made or the District revokes that obligation. Open encumbrances are reviewed at fiscal year end and, if determined to still be valid, are carried over to the succeeding fiscal year. Special attention is given to encumbrances which have been in effect for a long period of time. Encumbrances are reported as a reservation of fund balance at year end.

Budgets, including encumbrances, are legally adopted and controlled on a cash basis. For that reason, the Combined Statement Of Revenues, Expenditures and Changes In Fund Balances - Budget And Actual (Budget Basis) reports actual cash revenues and expenditures (including encumbrances) compared to budget amounts. Unencumbered appropriations terminate at year end.

### **Governmental Functions**

The following schedule presents a summary of revenues for the governmental and expendable trust funds, which include general, special revenue, debt service, capital projects and expendable trust fund types for the fiscal year ended June 30, 2000:

### **REVENUES**

	Fiscal 2000	Fiscal 1999	%Increase/ (Decrease)
Property Taxes	\$21,489,911	\$23,299,237	(7.8)%
Earnings on Investments	362,541	326,446	11.1%
Extracurricular Activities	154,521	150,352	2.8%
Classroom Materials & Fees	111,257	110,366	0.8%
Intergovernmental	8,427,372	7,875,351	7.0%
Other	231,266	331,467	(30.2)%
Total Revenues	\$30,776,868	\$32,093,219	(4.1)%

Local property tax is the key revenue component of the District. The chart above shows a decline (on a GAAP basis) in property tax revenues from Fiscal Year 1999 to Fiscal Year 2000: since "tax monies collected and available for advance as of June 30<sup>th</sup>" are a component of the revenue shown for property taxes and since the closing date for taxes was a week later in 2000 than in 1999, a smaller portion of the tax bills were paid as of June 30<sup>th</sup>. Consequently, "monies . . . available for advance" were less than the year before. On a cash basis, governmental revenues increased by nearly \$500,000.

Approximately 86.4 percent of tax revenue is utilized for general fund operations, 11.0 percent is utilized for debt service fund activities and 2.6 percent is utilized for permanent improvements. Real estate tax revenues have been growing from year to year due, primarily, to new residential construction.

"Extracurricular Activities" revenues are comprised primarily of gate receipts & ticket sales from student events and funds donated by the local student activities booster organizations.

"Classroom Materials & Fees" include general classroom fees, fees for supplies and student fines.

"Intergovernmental" include "rollback" reimbursements from the State of Ohio, State Foundation Program receipts, State and Federal grants and other reimbursements from the State. Rollback is a 12½% reduction in taxes for residential real estate property owners and a 10% reduction in taxes for commercial real estate property owners. The State reimburses those funds to school districts. The State Foundation funds are determined and controlled by the State Legislature. Intergovernmental payments provide 27 percent of the District's General Fund revenues.

In July 1994, the District issued \$24 million in School Improvement General Obligation Bonds. Bond proceeds were utilized in Fiscal Years 1995, 1996, 1997 and 1998 for constructing and equipping a new Middle School. Funds remaining after completion of the construction project (primarily accumulated interest earned) have been utilized for permanent improvement projects.

The following schedule presents a summary of expenditures for governmental and expendable trust funds for the fiscal year ended June 30, 2000:

### **EXPENDITURES**

	Fiscal 2000	Fiscal 1999	%Increase/ (Decrease)
Current:			
Instruction	\$16,878,389	\$15,007,639	12.5%
Support Services:			
Pupil	1,532,063	1,444,322	6.1%
Instructional	1,743,107	1,501,589	16.1%
Administration	2,355,345	2,256,472	4.4%
Business & Fiscal Services	963,201	853,059	12.9%
Plant Operations/Maintenance	2,734,729	2,626,710	4.1%
Pupil Transportation	2,129,235	1,960,510	8.6%
Central Services	120,075	93,740	28.1%
Community Service	397,691	439,865	(9.6)%
Other	71,086	62,905	13.0%
Extracurricular Activities	667,421	432,962	54.2%
Capital Outlay	357,399	693,582	(48.5)%
Debt Service	2,628,381	2,764,050	(4.9)%
Total Expenditures	\$32,578,122	\$30,137,405	8.1%

"Instruction" includes the salaries and benefits of teachers, textbooks, classroom supplies and classroom equipment.

Of the total Support Services expenditures, "Plant Operations & Maintenance" made up 24% and "Pupil Transportation" made up 18%.

Expenditures within the Debt Service Fund relate to general obligation bonds: a 1977 issue, a 1988 issue that was re-financed in 1993 and the 1994 Middle School bond issue.

"Capital Outlay" included purchases of textbooks and educational equipment and repairs to facilities.

The budget basis General Fund balance at June 30, 2000 was \$807,800. Under the modified accrual basis of accounting, the General Fund had a balance at June 30, 2000 of (\$102,980). The primary components of the difference between the two were the accrued salaries and benefits which have been recognized as expenditures of the current fiscal year and the difference in "tax monies collected and available for advance as of June 30<sup>th</sup>", as discussed above.

### **Proprietary Operations**

### **Enterprise Funds**

The District operates several enterprise activities, including the Food Service program, the Rotary/Bookstore Fund and the After School Care Program. It is the Board of Education's desire to operate these programs on a self-supporting basis. Therefore, profit/loss measures must be maintained. These operations are classified and accounted for as enterprise funds.

The Food Service program provides lunches and other food-related services to the pupils and staff of the District's schools. It is among the very few programs in the State that have consistently operated on a self-supporting basis.

The After School Care Program Fund accounts for revenues and expenses related to supervision of "latch key" children.

The Rotary/Bookstore Fund accounts for all revenues and expenses related to the high school bookstore, evening school, Saturday enrichment, summer school and safety town.

### **Internal Service Funds**

The District maintains one internal service fund for the purpose of isolating activity for fringe benefit plans.

### **Fiduciary Operations**

### **Agency Fund**

The District acts in an agency capacity for those activities managed by students.

### **Expendable Trust Fund**

The expendable trust fund accounts for donations to be used for specific purposes, as specified by the donor.

### **Debt Administration**

At June 30, 2000, the District had general obligation bonds outstanding of \$25,035,709. Under the Ohio Revised Code, total general obligation bonded debt is subject to legal limitations on both voted and unvoted debt. These limitations are 9.0% and 0.1% of the total assessed valuation of the District, respectively.

The District's total general obligation debt of \$25,035,709 is below the legal limit of \$62,106,657 (voted and unvoted). All bonds outstanding are general obligations of the District for which the full faith and credit of the District is pledged for repayment.

### **Cash Management**

During the year, cash not needed for immediate use was invested. Investments at June 30, 2000 consisted of a Certificate of Deposit, a Money Market Fund and U.S. Government securities with a total carrying value of \$1,278,866 and an investment in the State Treasurer's Asset Reserve of Ohio (STAR Ohio) with a carrying value of \$3,103,527. The carrying value of these investments approximates their fair values at June 30, 2000.

STAR Ohio is a program administered by the Office of the Treasurer of the State of Ohio. STAR Ohio is an investment pool offered to political subdivisions of the State of Ohio for the investment of funds. STAR Ohio's investment portfolio consists of investments authorized by the Ohio Revised Code including instruments of the Federal government and its agencies and instrumentalities, collateralized certificates of deposit and repurchase agreements. This investment pool features daily liquidity of all funds, no minimum balance requirements and no service charges. Total GAAP-basis interest earned from these investments during the year was \$362,541.

### Risk Management

The District provides hospital/medical, vision, dental and life insurance benefits for its employees on a partially self-insured basis. Third party administrators process and pay all claims. An excess coverage (stop loss) insurance policy covers the self-insured portion of hospital/medical claims in excess of (1) \$50,000 per employee and (2) an annual aggregate for the District of \$1,853,915 at June 30, 2000.

Self-insurance arrangements usually include savings on administrative costs and they allow the District to hold and earn interest on the reserves. The District utilizes fully insured programs only when the projected costs will be less than the self-insured alternative. This relationship is evaluated annually. Control of the plan rests with the School District.

The District continues to protect its assets through a thorough and comprehensive insurance program.

### **Economic Condition and Outlook**

The City of North Royalton is in a period of very rapid growth and the economic outlook is very good. The City's population increased by 31% (17,671 to 23,197) from the 1980 census to the 1990 census.

The number of new single-family homes being built in the City annually has averaged over 190 for the past decade. The new homes being built typically range in price from \$130,000 to \$240,000, with some homes costing over \$500,000.

The North Royalton City School District receives 70% of its governmental revenues from local property tax collections. Therefore, the long term financial health of the District is very dependent on its tax base. While the total assessed valuation of the District's tax duplicate rose 29% in the past five years, the residential real estate component rose by 36%. This increase was primarily due to construction of new homes.

### Financial Condition and Outlook

Ohio's system of funding public schools was declared unconstitutional by the Ohio Supreme Court on March 24, 1997. The 4 - 3 Court ruling ended a five-year battle over the constitutionality of Ohio's school funding system. The plaintiffs (500 school districts organized as the Ohio Coalition for Equity and Adequacy of School Funding) provided evidence to show that their school districts were starved for funds, lacked adequate buildings, textbooks and equipment and that their pupils were being deprived of educational opportunities. One of the Justices stated the Supreme Court's conclusion clearly and briefly: "By our decision today, we send a clear message to lawmakers: the time has come to fix the system. Let there be no misunderstanding. Ohio's public school financing scheme must undergo a complete systematic overhaul." The Ohio Legislature was given one year to develop a plan for providing a "thorough and efficient system of public schools" in Ohio.

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the Legislature in an attempt to address the issues identified by the Court. On May 11, 2000, the Court rendered a second opinion, popularly known as "DeRolph II." The Court concluded that "... major areas warrant further attention, study and development ..." The District is unable to determine what effect, if any, this ongoing litigation will have on its future state funding and on its financial operations.

Deregulation of public utilities, and the consequent reduction in tax rates, is a fact of life in Ohio. The decrease in the tangible property tax assessment rate for telecommunications companies reduced annual revenues for Ohio's public schools by over \$125 million. Electric utility deregulation is slated to begin affecting tax revenues on January 1, 2002. Although a

revenue replacement plan is incorporated into the deregulation legislation, only time will tell if the alternative revenue is sufficient. Gas utility deregulation is also being discussed and it has been estimated that the resulting annual revenue loss to Ohio's public schools will be over \$50 million.

### **Use of Report**

This report is published to provide the Board of Education, the citizens in the North Royalton City School District and other interested persons, detailed information concerning the financial condition of the School District, with particular emphasis placed on the utilization of resources during Fiscal Year 2000. Further, this report will serve as a guide to formulating policies and conducting the School District's day-to-day activities. The information is presented in a manner designed to fairly set forth the financial activity of its various funds. All disclosures necessary to enable the reader to gain the maximum understanding of the School District's financial affairs have been included.

In today's school finance environment it is increasingly important that public agencies prepare soundly conceived annual financial reports independently audited by a qualified firm or agency. It has become essential that such reports be prepared in accordance with generally accepted accounting principles (GAAP). Bond rating agencies review the data presented before determining a public agency's bond rating.

### Legal Compliance/Independent Audit

Federal regulations require an annual audit of the District's financial statements and its compliance with certain grant requirements and the Ohio Revised Code. The Ohio Auditor of State's Office conducted the audit for the Fiscal Year 2000. In addition, the audit was designed to meet the requirements of the Single Audit Act Amendments of 1996 and related OMB Circular A-133. The Independent Accountants' Report on the general purpose financial statements and combining and individual fund statements and schedules are included in the Financial Section of this report.

### **Government Finance Officers Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to North Royalton City Schools for its comprehensive annual financial report for the fiscal year ended June 30, 1999. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such a CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. North Royalton City Schools has received a Certificate of Achievement for the last seven consecutive years (fiscal years ended June 30, 1993 through June 30, 1999). We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to GFOA.

### Acknowledgments

The preparation of this report was made possible by the dedicated service of the Treasurer's office staff.

The Board of Education's commitment to excellence, to the District in general and support for this project, in particular, are sincerely appreciated.

Respectfully submitted,

#### INDEPENDENT ACCOUNTANTS' REPORT

North Royalton City School District Cuyahoga County 6579 Royalton Road North Royalton, Ohio 44133

We have audited the accompanying general-purpose financial statements of the North Royalton City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2000, as listed in the table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the North Royalton City School District, Cuyahoga County, Ohio, as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 27, 2000 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was performed for the purpose of forming an opinion on the general-purpose financial statements of the District, taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly presented, in all material respects, in relation to the general-purpose financial statements taken as a whole.

CUYAHOGA COUNTY

### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2000

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the North Royalton City School District (the "District") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (the "GASB Codification"). The District's significant accounting policies are described below.

## 1. <u>Description of the District</u>

North Royalton City School District is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. North Royalton City School District is a city school district created under provisions of Section 3311.02 of the Ohio Revised Code. The District operates under an elected Board of Education (five members) and is responsible for the provision of public education to residents of the District.

The District operates three elementary schools, a middle school, and a high school. The average daily membership as of October 31, 1999 was 4,331. The District employed 265 certified and 215 non-certified employees.

# 2. The Reporting Entity

In evaluating how to define the governmental reporting entity, the District follows the provisions of GASB Statement No. 14, *The Financial Reporting Entity*, under which the financial statements include all the organizations, activities, functions, and component units for which the District is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board and either (1) the District's ability to impose its will over the component unit, or (2) the possibility that the component will provide a financial benefit to or impose a financial burden on the District. On this basis, the District's financial reporting entity has no component units but includes all funds and account groups that are part of the District.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 2. The Reporting Entity (continued)

Non-public schools located within the boundaries of the District include: St. Albert the Great, Royal Redeemer, and Beginners World. These non-public schools are operated independently of the District. The District receives auxiliary services money from the State for the support of these non-public schools and serves as the primary recipient having administrative responsibilities with respect to these grants. The accounting for these receipts and disbursements is reflected in a special revenue fund in accordance with GASB Statement No. 24, Accounting and Financial Reporting for Certain Grants and Other Financial Assistance, but the non-public schools' operations are not reflected in the accompanying financial statements.

The following entities which perform activities within the District's boundaries for the benefit of its residents are excluded from the accompanying financial statements because the District is not financially accountable for these entities nor are they fiscally dependent on the District.

City of North Royalton – the city government of North Royalton is a separate body politic and corporate. A mayor and council are elected independent of any District relationships and administer the provision of traditional city services. Council acts as the taxing and budgeting authority for these city services.

Cuyahoga County Public Library – The Library is a distinct political subdivision of the State of Ohio governed by a board of trustees. The board of trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies.

Parent Teacher Association – The District is not involved in budgeting or managing the association, is not responsible for any debt of the association and has no influence over the association.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 2. The Reporting Entity (continued)

The District is associated with three jointly governed organizations (see Note P) and one public entity risk pool (see Note L). These organizations are:

## Jointly Governed Organizations:

Ohio Schools Council Lakeshore Northeast Ohio Computer Association Cuyahoga Valley Career Center

## **Public Entity Risk Pool:**

Ohio School Boards Association Workers' Compensation Group Rating Program

### 3. <u>Basis of Presentation – Fund Accounting</u>

The District uses funds and account groups to report its financial position and the results of its operations. The various funds and account groups are reported by type in the general purpose financial statements. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to District activities or functions.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulation, restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

For financial statement presentation purposes, the various funds of the District are grouped into the following generic fund types under the broad fund categories, governmental, proprietary and fiduciary.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 3. <u>Basis of Presentation – Fund Accounting</u> (continued)

## **Governmental Fund Types**

Governmental Funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in proprietary or fiduciary funds) are accounted for through governmental funds. The following are the District's Governmental Fund Types:

#### General Fund

The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required by law or contract to be accounted for in another fund.

#### Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

### Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs. According to governmental accounting principles, the Debt Service Fund accounts for the payment of long-term debt for governmental funds only. Under Ohio law, the Debt Service Fund might also be used to account for the payment of the long-term debt of proprietary funds and the short-term debt of both governmental and proprietary funds.

### Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary and trust funds).

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 3. Basis of Presentation - Fund Accounting (continued)

## **Proprietary Fund Types**

Proprietary Funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The following are the District's Proprietary Fund Types:

## Enterprise Funds

Enterprise Funds are used to account for operations: (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the Board of Education is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the Board of Education has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

#### Internal Service Fund

The Internal Service Fund is used to account for the financing of services provided by one department or fund to other departments or funds of the District on a cost reimbursement basis.

## Fiduciary Fund Types

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The following is the District's Fiduciary Fund Types:

## Agency Funds

Agency Funds are used to account for assets held by the District as an agent for individuals, private organizations, other governments, or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

## Expendable Trust Fund

The Expendable Trust Fund is used to account for trusts whose principal and income may be expended in the course of their designated operations.

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 3. Basis of Presentation - Fund Accounting (continued)

## **Account Groups**

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used.

# General Fixed Assets Account Group

This group of accounts is established to account for capital assets used in the general government operations with a useful life of greater than one year (other than those accounted for in proprietary funds).

# General Long-Term Obligations Account Group

This group of accounts is established to account for all long-term obligations of the District, except those accounted for in proprietary funds. These obligations are secured by the credit of the District as a whole and are payable from general government resources or assessments against property owners.

## 4. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. Governmental Fund Types and Expendable Trust Fund are accounted for on a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

Proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operations of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 4. Measurement Focus and Basis of Accounting (continued)

The modified accrual basis of accounting is followed for Governmental, Expendable Trust and Agency Funds. Under this basis of accounting, revenues are recognized when they become both measurable and available to finance expenditures for the current period. Revenues accrued at the end of the fiscal year primarily represent property taxes. Expenditures are recognized in the period in which the related fund liability is incurred with certain exceptions, including the portion of compensated absences which is not payable from current expendable financial resources and general long-term obligation interest which is reported when due. The available period for the District is 30 days after year end.

The District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2000, which are intended to finance fiscal year 2001 operations, and delinquent property taxes, whose availability is indeterminable, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Proprietary funds are accounted for on the accrual basis of accounting. Their revenues are recognized in the period earned, and expenses are recognized in the period incurred. Under the guidelines of GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that use Proprietary Fund Accounting, the District has elected not to apply Financial Accounting Standards Board Statements and Interpretations issued after November 30, 1989 to its proprietary activities.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 5. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are required to be budgeted and appropriated. The primary level of budgetary control is at the object code function level in the general fund and at the fund level for all other funds. Budgetary modifications may only be made by resolution of the Board of Education.

### Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed tax budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are announced and conducted to obtain taxpayers' comments. The express purpose of this tax budget document is to reflect the need for existing (or increased) tax rates and to provide a basis for the development of the first permanent appropriations for the coming fiscal year.

By no later than January 20, the Board-adopted budget is filed with the Cuyahoga County Budget Commission (the "Budget Commission") for determination of tax rates. The Budget Commission will determine the appropriate tax rates and will prepare a certificate of estimated resources for the District. A hearing may be held by the Budget Commission where the Budget Commission members discuss the proposed budget with District officials.

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 5. <u>Budgetary Process (continued)</u>

## Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the District by April 1. As part of this certification, the District receives the official certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The budget figures which appear in the statement of budgetary comparison reflect the amounts in the final amended official certificate of estimated resources issued during the year.

## <u>Appropriations</u>

A temporary appropriation resolution to control expenditures may be passed on or about July 1 of each year for the period of July 1 to September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 to June 30. The appropriation resolution fixes spending authority at the object code function level in the general fund and at the fund level for all other funds. The appropriation resolution may be amended during the year as new information becomes available, provided that total fund appropriations do not exceed current estimated resources, as certified. The allocation of appropriations among functions within a fund may be modified during the year by a resolution of the Board of Education. Several supplemental appropriation resolutions were legally enacted by the Board of Education during the year. The budget figures which appear in the statements of budgetary comparison represent the final appropriation amounts including all amendments and modifications.

## **Encumbrances**

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. On the GAAP basis, encumbrances outstanding at year-end are reported as a reservation of fund balance for subsequent year expenditures for governmental funds and reported in the notes to the financial statements for proprietary funds.

CUYAHOGA COUNTY

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 5. Budgetary Process (continued)

## Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding fiscal year and need not be reappropriated.

# **Budgetary Accounting**

While reporting financial position, results of operations, and changes in fund balance/retained earnings on the basis of GAAP, the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

The Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Budget Basis) - All Governmental Fund Types and Expendable Trust Fund and the Combined Statement of Revenues, Expenses and Changes in Fund Equity - Budget and Actual (Budget Basis) – All Proprietary Fund Types are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budgetary basis and the GAAP basis are that:

- (a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- **(b)** Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- (c) Outstanding year-end encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental funds and as note disclosures for proprietary funds (GAAP basis).
- **(d)** For proprietary funds, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).

## 6. Cash and Cash Equivalents

To improve cash management, all cash received by the District is pooled. Amounts for all funds, including proprietary funds, are maintained in a central bank account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through District records. Each fund's interest in the pooled account is presented as "equity in pooled cash and cash equivalents" on the Combined Balance Sheet. During fiscal year 2000, investments were limited to nonnegotiable certificates of deposit, money market funds, U.S. Government and Federal Agency Securities, Commercial Paper, and STAROhio. Except for investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase, investments are reported at fair value which is based on quoted market prices. Investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase are reported at cost or amortized cost.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 6. Cash and Cash Equivalents (continued)

STAROhio is an investment pool managed by the State Treasurer's office which allows governments within the state to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a 7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2000. Under existing Ohio statutes, the Board of Education may, by resolution, identify the funds to receive an allocation of interest earnings. During 2000, the District elected to distribute interest to the general fund, athletics special revenue fund, auxiliary services special revenue fund, building capital projects fund, and lunchroom/cafeteria enterprise fund. Interest income earned for the year ended June 30, 2000 totaled \$371,561.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents.

Investments with an original maturity of more than three months are reported as investments.

### 7. Materials and Supplies Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. Inventories of proprietary funds primarily consist of purchased food, and school supplies held for resale. The cost of inventory items is recognized as an expenditure when used (consumption method). Reported material and supplies inventory in the general fund is equally offset by a fund balance reserve which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 8. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Assets Account Group. All purchased fixed assets are valued at cost where historical records are available and at an estimated historical cost where historical records are not available. Donated fixed assets are valued at their estimated fair market value on the date received. The District maintains a capitalization threshold of one thousand dollars. Interest incurred during construction is not capitalized on general fixed assets. The District does not possess any infrastructure.

Assets in the General Fixed Assets Account Group are not depreciated. Depreciation of furniture and equipment in the Proprietary Fund Type is computed using the straight-line method over an estimated useful life of five to twenty years.

# 9. Compensated Absences

In conformity with the provisions of GASB Statement No. 16, Accounting for Compensated Absences, the District accrues vacation and sick pay related severance benefits as earned by its employees. For Governmental Fund Types, the liability not currently due and payable at June 30, 2000 is recorded in the General Long-Term Obligations Account Group as part of accrued wages and benefits. For Proprietary Fund Types, the entire liability for compensated absences is reported as a fund liability. The District uses the vesting method to calculate compensated absences.

### Vacation Pay

Only administrative and school support personnel, as well as the Superintendent and the Treasurer, accumulate annual vacation leave. Administrative personnel, the Superintendent, and the Treasurer accumulate 25 days vacation leave. School support personnel accumulate annual vacation leave as follows:

Completed Service	Vacation Leave		
After 1 year	10 days		
5 or more years	15 days		
10 or more years	20 days		

Included in the accrual for wages and benefits at June 30, 2000 is a vacation leave liability of \$100,291 in the General Long-Term Obligations Account Group.

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 9. Compensated Absences (continued)

Sick Leave

Each professional staff member is entitled to fifteen (15) days sick leave with pay for each year under contract. The sick leave accrues at the rate of one and one-fourth (1-1/4) days for each calendar month under contract. Upon retirement, as described below, an employee is paid a severance benefit limited to 25% of the accumulated sick leave to a maximum pay out of fifty-five days for certified employees and 35% of accumulated sick leave to a maximum pay out of eighty days for classified employees.

Employees meet the eligibility requirements for retirement with either (a) twenty-five years of service and age 55 or over, (b) five years of service and age 60 or over, or (c) any age with thirty years of service. Included in the accrual for wages and benefits at June 30, 2000 is a \$31,265 fund liability of the Enterprise Fund and a \$1,882,323 liability in the General Long-Term Obligations Account Group for sick pay-related severance benefits.

## 10. <u>Long-Term Obligations</u>

Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-Term Obligations Account Group. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

#### 11. Fund Balance Reserves

Reserved fund balances indicate that portion of fund equity which is not available for current appropriation or is legally segregated for a specific future use. Fund equity reserves are established for encumbrances, inventory, property tax advances, and budget stabilization. The unreserved portions of fund equity reflected for the governmental funds are available for use within the specific purposes of those funds.

## 12. Contributed Capital

Contributed capital represents resources from other funds, other governments, and private sources provided to proprietary funds that are not subject to repayment. These assets are recorded at their fair market value on the date donated. Depreciation on those assets acquired or constructed with contributed resources is expensed and charged to contributed capital.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS – CONTINUED

For the Fiscal Year Ended June 30, 2000

### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 13. <u>Intergovernmental Revenues</u>

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and became measurable.

The District currently participates in several State and Federal programs, categorized as follows:

### **Entitlements**

General Fund

State Foundation Program

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

## 13. Intergovernmental Revenues (continued)

Grants and entitlements received in governmental funds amounted to approximately 27% of governmental fund revenue during the 2000 fiscal year.

## 14. Interfund Transactions

During the course of normal operations, the District has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. Operating subsidies are recorded as operating transfers. The classification of amounts recorded as subsidies, advances, or equity contributions is based on the intent of the District at the time of the transaction.

Quasi-external transactions are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

### 15. Estimates

The preparation of financial statements in conformity with generally accepted accounting principals requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## 16. Memorandum Only - Total Columns

Total columns on the general purpose financial statements are captioned "Totals (Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles, nor is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

CUYAHOGA COUNTY

### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE B - EQUITY IN POOLED CASH AND CASH EQUIVALENTS

The District maintains a cash and investment pool used by all funds. Individual fund integrity is maintained through the District's records. Each fund type's portion of this pool is displayed on the Combined Balance Sheet as "Equity in Pooled Cash and Cash Equivalents".

# 1. Legal Requirements

Statutes require the classification of monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the District. Such deposits must, by law, be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the District has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts, including, but not limited to passbook accounts.

Interim deposits are those deposits which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

Interim monies may be invested in the following securities:

- United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the
  United States Treasury or any other obligation guaranteed as to principal and interest by the
  United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE B - EQUITY IN POOLED CASH AND CASH EQUIVALENTS - CONTINUED

## 1. <u>Legal Requirements (continued)</u>

- Written repurchase agreements in the securities listed above provided that the market value of
  the securities subject to the repurchase agreement must exceed the principal value of the
  agreement by at least two percent and be marked to market daily, and that the term of the
  agreement must not exceed thirty days;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- The State Treasurer's investment pool (STAROhio);
- Certain bankers' acceptances and commercial paper notes for a period not to exceed one
  hundred and eighty days from the date of purchase in an amount not to exceed twenty-five
  percent of the interim moneys available for investment at any one time.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

CUYAHOGA COUNTY

### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE B - EQUITY IN POOLED CASH AND CASH EQUIVALENTS - CONTINUED

## 1. <u>Legal Requirements (continued)</u>

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, *Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements.* 

## 2. Deposits

At June 30, 2000, the carrying amount of the District's deposits was \$52,663 and the bank balance was \$277,016. Of the total bank balance, \$100,000 was covered by Federal depository insurance and \$177,016 was uninsured and uncollateralized. Although all state statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the Federal Deposit Insurance Corporation.

### 3. Investments

The District's investments are required to be categorized to give an indication of the level of risk assumed by the District at year-end. Category 1 includes investments that are insured and registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department agency, but not in the District's name. STAROhio is an unclassified investment since it is not evidenced by securities that exist in physical or book entry form.

Investments at June 30, 2000 consisted of the following:

Category 1	Category 2	Category 3	Reported Amount	Fair Value
			THIIOUIL	, arac
\$500,000	\$ -	\$ -	\$500,000	\$500,000
-	-	41,324	41,324	41,324
-	737,542	-	737,542	737,542
	-	-	3,103,527	3,103,527
\$500,000	\$737,542	\$41,324	\$4,382,393	\$4,382,393
	\$500,000	1 2 \$500,000 \$ - - 737,542	1 2 3 \$500,000 \$ - \$ - 41,324 - 737,542 -	1         2         3         Amount           \$500,000         \$ -         \$ -         \$500,000           -         -         41,324         41,324           -         737,542         -         737,542           -         -         3,103,527

CUYAHOGA COUNTY

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE B - EQUITY IN POOLED CASH AND CASH EQUIVALENTS - CONTINUED

## 3. Investments (continued)

At June 30, 2000, the carrying value of the District's deposits and investments, classified in accordance with GASB Statement No. 3, are as follows:

Deposits	\$ 52,663
Investments	4,382,393
	\$4,435,056

The classification of the above amounts on the combined financial statements is based on criteria set forth in GASB Statement No. 9, Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities that Use Proprietary Fund Accounting. Using that criteria, the above amounts are included on the Combined Balance Sheet under the following captions:

Equity in Pooled Cash and Cash Equivalents	\$3,970,131
Cash in Segregated Accounts	41,324
Restricted Assets – Equity in Pooled Cash	
and Cash Equivalents	423,601
	\$4,435,056

#### **NOTE C - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility and tangible personal (used in business) property located in the District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35% of appraised market value. The county auditor reappraises all real property every six years with a triennial update. The last update was completed for tax year 1996. Public utility property taxes are assessed on tangible personal property at 88% of true value (with certain exceptions) and on real property at thirty-five percent of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are twenty-five percent of true value.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### **NOTE C - PROPERTY TAXES - CONTINUED**

Since property taxes are assessed and levied on a calendar year basis, the District receives property taxes from two taxing years during the District's fiscal year. The assessed values upon which the fiscal year 2000 taxes were collected are as follows:

	2000	1999
Real Property:		
Residential/Agricultural	\$531,317,510	\$506,178,520
Commercial/Industrial	97,965,850	99,080,010
Tangible Personal Property:		
General	24,721,006	21,230,513
Public Utilities	28,486,370	31,814,060
<b>Total Valuation</b>	\$682,490,736	\$658,303,103

The full tax rate applied to real property for the 2000 collection year was \$60.70 per \$1,000 of assessed valuation. After adjustment of the rate for inflationary increases in property values, the effective tax rate was \$35.60 per \$1,000 of assessed valuation for real property classified as residential/agricultural and \$35.60 per \$1,000 of assessed valuation for all other real property. Real property owners' tax bills are further reduced by homestead and rollback deductions, when applicable. The amount of these homestead and rollback reductions is reimbursed to the District by the State of Ohio.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### **NOTE C - PROPERTY TAXES - CONTINUED**

The Cuyahoga County Treasurer collects property tax on behalf of all taxing districts within the county. The Cuyahoga County Auditor periodically remits to the taxing districts their portions of the taxes collected. Second-half real property tax payments collected by the county by June 30, 2000 are available to finance fiscal year 2000 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Property taxes receivable represent delinquent taxes outstanding, the late settlement of personal property taxes, and real property, tangible personal property, and public utility tangible taxes which became measurable as of June 30, 2000. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for the portion not intended to finance current year operations. The amount available as an advance at June 30, 2000 was \$1,506,183 for the General Fund, \$153,584 for the Debt Service Fund and \$39,631 for the Capital Projects Fund.

#### **NOTE D - RECEIVABLES**

Receivables at June 30, 2000, consisted of taxes, accounts (billings for user charged services), and intergovernmental receivables arising from grants, entitlements, and shared revenues. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of Federal funds.

## **NOTE E - FIXED ASSETS**

The following is a summary of changes in the General Fixed Assets Account Group during the fiscal year:

	Balance June 30, 1999	Additions	Reductions	Balance June 30, 2000
Land	\$ 478,111	\$ -	\$ -	\$ 478,111
Buildings and improvements	39,518,892	133,032	-	39,651,924
Furniture, fixtures and equipment, vehicles	5,304,990	489,821	381,825	5,412,986
Textbooks and library books	1,809,042	244,451	18,778	2,034,715
	\$47,111,035	\$867,304	\$400,603	\$47,577,736

The following is a summary of the Enterprise Funds' fixed assets at June 30, 2000:

Net fixed assets	\$356,671
Less accumulated depreciation	221,945
Furniture and equipment	\$578,616

## NOTE F – CHANGES IN CONTRIBUTED CAPITAL

Changes in contributed capital for the year ended June 30, 2000 are as follows:

	Lunchroom/Cafeteria
	Fund
Contributed capital on July 1, 1999	\$269,859
Less depreciation expense charge to	
contributed capital	8,086
Contributed capital on June 30, 2000	\$261,773

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### **NOTE G – LONG-TERM OBLIGATIONS**

The changes in the District's general long-term obligations during the year ended June 30, 2000 are as follows:

	Balance at June 30, 1999	Additions	Reductions	Balance at June 30, 2000
General Obligation Bonds				
School Improvement Bonds, Series 1993, June 16, 1993, 5.65% interest rate maturing December 2008	\$ 4,219,994	\$ -	\$ 525,000	\$ 3,694,994
School Improvement Bonds Series 1994, July 1, 1994, 6.10% interest rate maturing				
December 2019	22,050,715	-	710,000	21,340,715
Accrued Wages and Benefits	2,294,571	158,151	-	2,452,722
Grand Total	\$28,565,280	\$158,151	\$1,235,000	\$27,488,431

The District's voted legal debt margin for general obligation bonds was \$36,388,457 with an unvoted legal debt margin of \$682,491 at June 30, 2000.

General obligation bonds were issued to pay the costs of school improvements and are general obligations of the District for which its full faith, credit, and resources are pledged for repayment. Accordingly, obligations resulting from bond indebtedness are represented within the General Long-Term Obligations Account Group.

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE G - LONG-TERM OBLIGATIONS - CONTINUED

The District's future annual debt service requirements for bonded debt are as follows:

For the Years Ending			
June 30	Principal	Interest	TOTAL
2001	\$ 1,295,000	\$ 1,332,570	\$ 2,627,570
2002	1,027,931	1,602,965	2,630,896
2003	1,055,655	1,573,361	2,629,016
2004	1,086,057	1,542,874	2,628,931
2005	1,116,961	1,508,590	2,625,551
2006	1,153,390	1,465,337	2,618,727
2007	1,675,000	1,004,611	2,679,611
2008	981,594	1,661,350	2,642,944
2009	973,984	1,644,692	2,618,676
2010	245,137	1,648,623	1,893,760
2011	1,095,000	840,910	1,935,910
2012	1,160,000	773,260	1,933,260
2013	1,230,000	701,560	1,931,560
2014	1,300,000	625,660	1,925,660
2015	1,380,000	545,260	1,925,260
2016	1,465,000	459,178	1,924,178
2017	1,550,000	367,220	1,917,220
2018	1,645,000	269,773	1,914,773
2019	1,745,000	166,378	1,911,378
2020	1,855,000	56,578	1,911,578
Total	\$25,035,709	\$19,790,750	\$44,826,459

General obligation bonds will be paid by the debt service fund from property taxes. Accrued wages and benefits will be paid from the fund from which the employee is paid.

In 1993, the District defeased a 1988 building improvement bond issue in order to take advantage of lower interest rates. The proceeds of the new bonds were placed in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. On June 30, 2000, \$3,694,994 of bonds outstanding were considered defeased.

CUYAHOGA COUNTY

Encumbrances	30	-	-	30

#### NOTE I - ACCOUNTABILITY AND COMPLIANCE

## 1. <u>Deficit Fund Balances</u>

Fund balances at June 30, 2000 included the following individual fund deficits:

General Fund	\$( <u>102,980)</u>
Special Revenue Preschool Handicapped Fund	\$ <u>(8)</u>
Capital Projects Classroom Facilities Fund	\$( <u>126,800</u> )

The General Fund deficit primarily resulted from adjustments made for accounts and contracts, accrued wages and benefits and insurance benefits payable. The Special Revenue Preschool Handicapped Fund deficit primarily resulted from adjustments made for accrued wages and benefits. The Capital Projects Classroom Facilities Fund deficit primarily resulted from the recording of contracts payable.

**CUYAHOGA COUNTY**

#### NOTE I – ACCOUNTABILITY AND COMPLIANCE - CONTINUED

## 2. Legal Compliance

Contrary to Ohio Revised Code Section 5705.41 (B) and (D), expenditures plus encumbrances exceeded appropriations at the legal level of control as follows:

General Fund Class

General Fund
Support Services
Business and Fiscal Services
Other

\$ 484

Enterprise Fund Class

Rotary/Bookstore Fund

\$1,521

## NOTE J - PENSION AND RETIREMENT PLANS

The employees of the District are covered by either the School Employees Retirement System of Ohio (SERS) or the State Teachers Retirement System of Ohio (STRS). The State of Ohio accounts for the activities of these retirement systems and the amounts of the funds are not reflected in the accompanying financial statements. Under both SERS and STRS, a member is eligible for retirement when the member reaches age 60 and has five or more years of service credit; reaches age 55 and has 25 years or more of service credit; or has 30 or more years of service credit at any age.

CUYAHOGA COUNTY

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE J-PENSION AND RETIREMENT PLANS - CONTINUED

## <u>School Employees Retirement System</u>

The District contributes to the School Employees Retirement System of Ohio, a cost-sharing multiple-employer defined benefit pension plan administered by the School Employees Retirement Board. All employees of the District performing duties that do not require a certificate issued by the Ohio Department of Education are required to contribute to SERS. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State Statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement Systems, 45 North Fourth Street, Columbus, Ohio 43215-3634.

Plan members are required to contribute 9% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current rate is 14% of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 1999, 7.7 percent of annual covered salary was the portion used to fund pension obligations. For certain employees, the District pays the 9% member contribution as an employee benefit. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The District's required contributions to SERS for the years ended June 30, 2000, 1999 and 1998 were \$628,112, \$584,336 and \$518,564, respectively; 49.2% has been contributed for fiscal year 2000 and 100% has been contributed for fiscal years 1999 and 1998. The amount representing the unpaid contribution for fiscal year 2000, \$318,996, is recorded as a liability within the respective funds and the general long-term debt account group.

CUYAHOGA COUNTY

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE J - PENSION AND RETIREMENT PLANS - CONTINUED

#### State Teachers Retirement System

All full-time certified District employees participate in STRS, a cost-sharing multiple-employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 9.3% of their annual covered salary and the District is required to contribute 14%, an actuarially determined rate. Of the 14% District portion, 6 percent was the portion used to fund pension obligations. For certain employees, the District pays the 9.3% member contribution as an employee benefit. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. The District's required contributions to STRS for the years ended June 30, 2000, 1999 and 1998 were \$2,036,974, \$2,198,492 and \$1,759,390, respectively; 82.9% has been contributed for fiscal year 2000 and 100% has been contributed for fiscal years 1999 and 1998. The amount representing the unpaid contribution for fiscal year 2000, \$349,156, is recorded as a liability within the respective funds and the general long-term debt account group.

#### **NOTE K - POSTEMPLOYMENT BENEFITS**

The District provides comprehensive health care benefits to retired teachers and their dependents through STRS, and to retired non-certified employees and their dependents through SERS. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

CUYAHOGA COUNTY

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE K - POSTEMPLOYMENT BENEFITS - CONTINUED

## School Employees Retirement System

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, and disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium. For this fiscal year, employer contributions to fund health care benefits were 6.30 percent for fiscal year 1999. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for the partial service credit. For fiscal year 1999, the minimum pay has been established at \$12,400. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund. For the District, the amount to fund health care benefits, including the surcharge equaled approximately \$327,650 during the 2000 fiscal year.

The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 1999 (the latest information available) were \$126,380,984 and the target level was \$189.6 million. At June 30, 1999, SERS had net assets available for payment of health care benefits of \$188.0 million. SERS has approximately 51,000 participants currently receiving health care benefits.

## State Teachers Retirement System

The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of health care costs in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the overall employer contribution rate, currently 14% of covered payroll. For the fiscal year ended June 30, 2000, the STRS Board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$1,163,906 for fiscal year 2000. The balance in the Health Care Reserve Fund was \$2.783 billion at June 30, 1999 (the latest information available). For the year ended June 30, 1999, net health care costs paid by STRS were \$249,929,000 and STRS had 95,796 eligible benefit recipients.

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### **NOTE L - RISK MANAGEMENT**

#### 1. Insurance

The District has a comprehensive property and casualty policy with Crum & Forster Insurance which includes boiler coverage. The deductible is \$1,000 per incident. All vehicles are insured with Nationwide Insurance Company and have a \$250 deductible. All Board members, administrators, and employees are covered under a District liability policy with Nationwide Insurance Company. The limits of this coverage are \$2,000,000 per occurrence and \$5,000,000 aggregate. Also, the District has a commercial umbrella liability policy of \$1,000,000 with Nationwide Insurance Company and a commercial crime policy with Ohio Casualty. Due to the middle school construction project, the District purchased builder's risk insurance from the Great American Insurance Company. Settled claims have not exceeded this commercial coverage in any of the past four years. There has not been a significant reduction in coverage from the prior year.

## 2. Bonding

The Board President and the Superintendent are covered with surety bonds for \$25,000. The Treasurer also is covered by a surety bond in the amount of \$25,000. These bonds are with Nationwide Insurance Company.

## 3. Workers' Compensation

The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the Ohio School Boards Association (OSBA). The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "equity pooling fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control and actuarial services to the GRP.

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE L - RISK MANAGEMENT - CONTINUED

## 4. Employee Medical Benefits

The District provides medical/surgical, vision, and dental benefits for its employees and their covered dependents and life insurance for full-time employees through its self-insurance fund. The life, dental and a portion of the health insurance coverage is provided through insurance contracts. The remaining coverage is self insured. For the self insured portion, third party administrators review and pay all claims on behalf of the District. Over 50% of covered employees are in a preferred provider medical plan with no annual deductible. The remaining covered employees are in a traditional medical plan with a \$100-per-year individual deductible and a \$200-per-year family deductible. The dental plan has a \$25-per-year individual deductible and a \$50-per-year family deductible. An excess coverage insurance (stop loss) policy covers claims in excess of \$50,000 per employee and an aggregate of \$1,853,915.

The claims liability of \$240,455 reported in the internal service fund at June 30, 2000 is based on the requirements of GASB Statement No. 10 Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, which requires that a liability for unpaid claims cost, including estimates of cost relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Changes in the fund's claims liability amount in fiscal 1999 and 2000 were as follows:

Fiscal Year	Balance at Beginning of Year	Current Year Claims	Claims Payments	Balance at End of Year
1999	\$246,052	\$1,997,976	\$1,962,329	\$281,699
2000	\$281,699	\$2,066,160	\$2,107,404	\$240,455

The balance available in the internal service fund to pay the cost of future claims was \$102,899 and \$(94,836) at June 30, 2000 and 1999, respectively.

## NOTE M - INTERFUND RECEIVABLES/PAYABLES

Short-term interfund loans at June 30, 2000 are as follows:

Payable	Receivable	Fund
-	\$126,800	General Capital Projects
\$126,800		Classroom facilities
\$126,800	\$126,800	
	\$126,800	

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### **NOTE N - CONTINGENCIES**

#### 1. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2000.

## 2. <u>Litigation</u>

As of June 30, 2000, the District was a party to various legal proceedings, seeking damages or injunctive relief arising in the ordinary course of business. The ultimate disposition of these proceedings is not presently determinable. The District carries adequate insurance coverage for most risks including property damage and personal liability and the District's management does not believe that any potential claims not covered by such insurance would have a material effect on the financial condition of the District.

#### **NOTE O - SCHOOL FUNDING DECISION**

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's "school foundation program," which provides significant amounts of monetary support to the District. During the fiscal year ended June 30, 2000, the District received \$4,697,187 of school foundation support in total (all funds).

CUYAHOGA COUNTY

## NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

#### NOTE O - SCHOOL FUNDING DECISION - CONTINUED

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the Ohio General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "...the mandate of the [Ohio] Constitution has not been fulfilled". The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997, decision, however, it found seven "...major areas warrant further attention, study, and development by the General Assembly...," including the State's reliance on local property tax funding, the State's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001.

As of the date of these financial statements, the District is unable to determine what effect, if any, this ongoing litigation will have on its future state funding under these programs and on its financial operations.

## NOTE P - JOINTLY GOVERNED ORGANIZATIONS

## 1. Ohio Schools Council

The Ohio Schools Council (the "Council") is a jointly governed organization among eighty-three school districts. The jointly governed organization was formed to purchase quality products and services at the lowest possible cost to the member districts. Each district supports the Council by paying an annual participation fee. The Council's Board consists of seven superintendents of the participating districts whose terms rotate every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2000, the District paid \$700 to the Council. Financial information can be obtained by contacting Albert G. Vasek, the Executive Secretary of the Ohio Schools Council at 155 Center Road, Bedford, Ohio 44146.

The District participates in the Council's electric purchase program which was implemented during fiscal year 1998. This program allows school districts to purchase electricity at reduced rates, if the school district will commit to participating for an eight-year period. The participants make monthly payments based on estimated usage. Each June, these estimated payments are compared to their actual usage for the year and any necessary adjustments are made.

CUYAHOGA COUNTY

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE P - JOINTLY GOVERNED ORGANIZATIONS - CONTINUED

## 1. Ohio Schools Council (continued)

Energy Acquisition Corporation, a non-profit corporation with a self-appointing board, issued \$119,140,000 in debt to prepurchase eight years of electricity from Cleveland Electric Illuminating (CEI) for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, that district is required to repay savings to CEI and CEI will refund the remaining prepayment related to that participant to Energy Acquisition Corporation.

The District also participates in the Council's prepaid natural gas program which was implemented during fiscal year 2000. This program allows school districts to purchase natural gas at reduced rates, if the school districts will commit to participating for a twelve-year period. The participants make monthly payments based on estimated usage. Each month these estimated payments are compared to their actual usage and any necessary adjustments are made.

The City of Hamilton, a municipal corporation and political subdivision duly organized and existing under the laws of the State of Ohio, issued \$89,450,000 in debt to purchase twelve years of natural gas from CMS Energy Corporation for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is entitled to recover that amount, if any, of its contributions to the operating fund which are not encumbered for its share of program administrative costs.

## 2. Lakeshore Northeast Ohio Computer Association

The Lakeshore Northeast Ohio Computer Association (LNOCA) is a jointly governed computer service bureau among 18 public school districts. The primary function of LNOCA is to provide data services to the 18 member districts. Major areas of service provided by LNOCA include accounting, payroll, inventory, career guidance services, handicapped student tracking, pupil scheduling, attendance reporting and grade reporting. Each school is represented on the LNOCA Board of Directors by its superintendent or designated representative. Each year, the Board of Directors elects a Chairman, a Vice Chairman and a Recording Secretary. The Treasurer of the fiscal agent is a nonvoting, ex-officio member of the Board of Directors. The Cuyahoga County Educational Service Center serves as the fiscal agent of LNOCA. Each school district supports LNOCA based upon a per pupil charge dependent upon the software packages used. The degree of control exercised by any participating school district is limited to its representation on the Board. Financial information can be obtained by contacting the Treasurer of the fiscal agent at 7800 Wall Street, Valley View, Ohio 44104.

## 3. Cuyahoga Valley Career Center

The Cuyahoga Valley Career Center (a joint vocational school district) is a distinct political subdivision of the State of Ohio operated under the direction of a Board, consisting of representatives from each participating school district's elected board, which possesses its own budgeting and taxing authority. Accordingly, the Cuyahoga Valley Career Center is not part of the District and its operations are not included as part of the reporting entity. Financial information can be obtained by contacting the Treasurer at the Cuyahoga Valley Career Center, 8001 Brecksville Road, Brecksville, Ohio, 44141.

#### **NOTE Q – STATUTORY RESERVES**

Substitute House Bill 412, as amended, required the District to "set-aside" certain percentages of defined revenues for (1) textbooks and instructional material purchases, (2) capital and maintenance expenditures, and (3) to establish a budget reserve. It also required five-year budget projections, amended the Fiscal Watch and Fiscal Emergency Statutes, created a State School District Solvency Fund, and amended "spending reserve" provisions. During the fiscal year ended June 30, 2000, the reserve activity (cash basis) was as follows:

	Textbook	Capital Maintenance	Budget Stabilization	
	Reserve	Reserve	Reserve	Total
Set-Aside Cash Balance				
July 1, 1999	\$ -	\$ -	\$345,975	\$ 345,975
Required Set-Aside	669,688	669,688	217,581	1,556,957
Offset Credits	-	(589,001)	(139,955)	(728,956)
Qualifying Disbursements	(681,759)	(136,954)	-	(818,713)
Total	\$ (12,071)	\$ (56,267)	\$ 423,601	\$ 355,263
Cash Balance Carried Forward to FY 2001	\$ (12,071)	\$ (56,267)	\$ 423,601	\$ 355,263

**CUYAHOGA COUNTY** 

#### NOTES TO GENERAL PURPOSE FINANCIAL STATEMENTS - CONTINUED

For the Fiscal Year Ended June 30, 2000

## NOTE Q – STATUTORY RESERVES - CONTINUED

Expenditures in excess of current year or accumulated set-aside requirements in the Textbooks or Capital Maintenance Reserves may be carried forward to offset future year's set aside requirements, with certain restrictions. Actual cash balances in excess of required set asides may also be carried forward to offset future year(s) set aside requirements.

## **NOTE R – SUBSEQUENT EVENTS**

The Board of Education passed a resolution of necessity to put a \$21,500,000 bond levy on the November 7, 2000 ballot for the purpose of constructing, furnishing, and equipping a new elementary school, renovate/improve school recreational/athletic facilities and additional educational technology.

# COMBINING, INDIVIDUAL FUND AND ACCOUNT GROUP STATEMENTS AND SCHEDULES

# General Fund

The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in other funds.

# Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of the specific revenue sources that are legally restricted to expenditure for specified purposes. A description of the District's special revenue funds follows:

Local Grants Fund – This fund accounts for funds received to promote community involvement and volunteer activities between the school and community.

Athletics Fund – This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the District's Athletic Program.

Auxiliary Services Fund – This fund accounts for services to non-public schools within the District which are provided for in state law. Funds are primarily for educational supplies, materials, and testing.

Professional Development Grant Fund – This fund accounts for State monies in support of locally developed professional development programs.

Peer Assistance Grant Fund – This fund accounts for State monies in support of new teacher mentoring programs.

Model Project for Gifted Education Fund – This fund accounts for research and demonstration projects pertaining to gifted pupils.

Educational Management Information Systems (EMIS) Fund – This fund accounts for State monies which are used solely for costs associated with the requirements of the education management information system.

Ohio School Net – Technology Training Fund – This fund accounts for State monies used to support technology training of teachers.

Instructional Material Subsidy Fund – This fund accounts for State monies which are used to purchase instructional materials.

Summer Intervention Fund – This fund accounts for State monies used for costs relating to summer school teachers.

Eisenhower Grant Fund – This fund accounts for Federal monies used for strengthening instruction in science, mathematics, modern foreign languages, English, the arts, and computer learning.

Title VI-B/Preschool Grant Fund – This fund accounts for Federal revenues that assist states in identification of handicapped children and provide full educational opportunities to handicapped children at the preschool, elementary and secondary levels. It also accounts for Federal monies used to implement a variety of programs intended to provide instruction for early childhood education.

Innovative Education Program Strategies Title VI Fund – This fund accounts for Federal revenues which support the implementation of a variety of programs (drug/alcohol abuse, computer education) to benefit children attending public and provide non-profit schools within the community.

*Immigration Education Grant Fund* – This fund accounts for Federal revenues relating to educational services and costs for eligible immigrant children enrolled in elementary and secondary schools.

# Special Revenue Funds - Continued

*Drug-Free School Fund* – This fund accounts for Federal revenues which support the implementation of programs for drug abuse education and prevention.

*Preschool Handicapped Fund* – This fund accounts for Federal monies which provide for the cost of developing a public school preschool for handicapped and non-handicapped children.

Telecommunications Grant Fund - This fund accounts for rebates earned relating to cabling.

Entry Year Program Fund - This fund accounts for Federal monies used for teacher mentoring.

Class Size Reduction Grant Fund – This fund accounts for Federal monies used to support a teacher at Royalview.

## **Debt Service Fund**

The Debt Service Fund is used to account for the accumulation of resources for the payment of general long-term debt principal, interest, and fiscal charges.

Since there is only one debt service fund and the level of budgetary control is not greater than that presented in the Combined Financial Statements, no additional financial statements have been presented here.

### **Capital Projects Funds**

The Capital Projects Funds are used to account for financial resources used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). A description of the District's capital projects funds follows:

Permanent Improvement Fund – This fund accounts for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by Chapter 5705, Revised Code.

Building Fund – This fund is used to account for the receipts and expenditures related to all special construction bond funds in the District. Expenditures recorded here represent the costs for constructing, enlarging, extending, rehabilitating, renovating, remodeling and improving District buildings and sites, and equipping and furnishing same.

Classroom Facilities Fund – This fund accounts for state monies providing for a mobile unit classroom for St. Albert the Great Non-Public School.

School Net Plus Fund – This fund accounts for state monies providing for computer hardware and wiring for buildings for kindergarten through fourth grade.

#### **Enterprise Funds**

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the District is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The measurement focus is upon determination of net income, financial position, and changes in financial position. A description of the District's enterprise funds follows:

Lunchroom/Cafeteria Fund – This fund accounts for financial activity related to the food service operations of the District.

Rotary/Bookstore Fund – This fund accounts for all revenues and expenses related to the following activities: high school bookstore, evening school, Saturday enrichment, summer school, and Safety Town.

After School Care Program Fund – This fund is a "Latch Key" children's fund designed for activities and supervision of "Latch Key" children.

#### **Internal Service Fund**

The Internal Service Fund is used to account for the financing of goods or services provided by one department or agency of the District to the other departments or agencies of the District on a cost reimbursement basis. Charges are intended to recoup the total costs of such services. A description of the District's Internal Service Funds follows:

Employee Benefits Self-Insurance Fund – A fund provided to account for monies received from other funds as payment for providing medical, hospitalization, dental, vision, life, or other similar employee health benefits. The self-insurance fund may make payments for services provided to employees, for reimbursements to employees who have paid providers, to third party administrators for claim payments or administration, for stop-loss coverage, or any other reinsurance or other similar purpose.

Since there is only one internal service fund and the level of budgetary control is not greater than that presented in the Combined Financial Statements, no additional financial statements have been presented here.

### **Fiduciary Funds**

The Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, and other governments and/or other funds. The following is the District's fiduciary funds types:

#### Agency Fund

**Student Activities Fund** – This Fund accounts for resources that belong to the student bodies of the various schools; accounting for sales and other revenue generating activities.

#### Expendable Trust Fund

**Donated Scholarship Fund** (an expendable trust fund) – This Fund accounts for minor amounts of monies as donated to the Board of Education to be used for specific purposes as stipulated by the donor.

#### **General Fixed Assets Account Group**

General Fixed Assets is a balanced account group used to establish control and accountability for the costs of all fixed assets other than those accounted for in proprietary funds. The investment in fixed assets is carried until the disposition of the property and ownership is relinquished. Depreciation on fixed assets is not recorded.

Note: Governmental Funds include General, Special Revenue, Debt Service, Capital Projects and Expendable Trust Funds for 1997 and before. For 1998, and thereafter, Governmental Funds include General, Special Revenue, Debt Service and Capital Projects. During 1998, the Expendable Trust Fund was reclassified to the Enterprise Fund Type and during 2000, a new Expendable Trust Fund was established.

- (1) Fiscal years end on June 30th
- (2) 1992 through 2000 reflect GAAP reporting and are thus not comparable to prior years which were determined under the cash basis of accounting.
- (3) 1989 and 1995 include repayment of bond anticipation notes
