We have reviewed the independent auditor's report of the East Palestine City School District, Columbiana County, prepared by Rea & Associates, Inc., for the audit period July 1, 1999 through June 30, 2000. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The East Palestine City School District is responsible for compliance with these laws and regulations.

Independent Auditor's Report

We have audited the accompanying general purpose financial statements of East Palestine City School District (the "District") as of and for the year ended June 30, 2000, as listed in the table of contents. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of East Palestine City School District as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund types and non-expendable trust funds for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we also have issued our report dated December 26, 2000 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 1: NATURE OF BASIC OPERATIONS AND DESCRIPTION OF THE ENTITY

The East Palestine City School District (District) was established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a school district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under an elected Board of Education, consisting of five members, and is responsible for providing public education to residents of the District. Average daily membership on, or as of October 1, 1999, was 1,565. The District employs 99 certificated and 44 non-certificated employees.

The reporting entity is required to be comprised of the primary government, component units and other organizations that are included to ensure that the general purpose financial statements of the District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provides financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District does not have any component units.

The District is involved with Ohio Mid-Eastern Regional Education (OME-RESA), and the Columbiana County Career Center, which are defined as jointly governed organizations. Additional information concerning the jointly governed organizations is presented in Note 20. The East Palestine Public Library is a related organization of the District, which is presented in Note 16 to the general purpose financial statements.

Management believes the general purpose financial statements included in the report represent all of the funds of the District over which the District has the ability to exercise direct operating control.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Measurement Focus, Basis of Accounting, and Basis of Presentation

The accounts of the District are organized and operated on the basis of funds and account groups to report on its' financial position and the results of operations. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements. Account groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds. The District has the following fund types and account groups:

Governmental Fund Types

Governmental fund types are used to account for the District's general government activities. Governmental fund types and the expendable trust funds use the flow of current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay obligations of the current period, which is considered to be sixty days after year end. Generally property taxes, although measurable, are not available soon enough after the current period to finance current period obligations, and accordingly, property taxes receivable are reflected as deferred revenue until available. Reimbursements due for federally funded programs are recognized when the corresponding expenditures are made.

Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, since the measurement focus of governmental funds is on decreases in financial resources. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service funds for payment to be made early in the following year. Compensated absences are reported as a fund liability when payment will require use of current available financial resources. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds. Governmental funds include the following fund types:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds - The special revenue funds are used to account for the proceeds of specific revenue sources, other than expendable trusts or major capital projects, that are legally restricted to expenditure for specified purposes.

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Debt Service Fund - The debt service fund is used to account for the accumulation of resources for the payment of general long-term obligation principal, interest, and related costs.

Capital Projects Funds - The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary or nonexpendable trust funds.

Proprietary Fund Types

Proprietary fund types are accounted for on a flow of economic resources measurement focus and the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time the liabilities are incurred. Allocations of costs, such as depreciation, are recognized in the proprietary funds. As permitted, the District has elected to apply only applicable Financial Accounting Standards Board Statements and Interpretations issued before November 30, 1989 in its accounting and reporting practices for its proprietary operations unless they contradict/conflict with Governmental Accounting Standards Board pronouncements. Proprietary fund types include the following fund types:

Enterprise Funds - Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs, including depreciation where applicable, of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the governing body has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Internal Service Fund - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other governmental units, on a cost-reimbursement basis.

Fiduciary Fund Types

Fiduciary fund types account for assets held by the District in a trustee capacity or as an agent on behalf of others. Fiduciary fund types are as follows:

Expendable Trust Funds - Expendable trust funds are accounted for in essentially the same manner as the governmental fund types.

Nonexpendable Trust Fund - The nonexpendable trust fund is accounted for in essentially the same manner as the proprietary fund types.

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Agency Funds – The agency funds are custodial in nature and do not present results of operations or have a measurement focus. These funds are used to account for assets that the District holds for others in an agency capacity.

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group - This account group is established to account for all fixed assets of the District, other than those accounted for in proprietary or nonexpendable trust funds.

General Long-term Obligations Account Group - This account group is established to account for all long-term obligations of the District except those accounted for in the proprietary or nonexpendable trust funds.

B. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources and the Appropriation Resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources as certified by the County Auditor.

All funds, other than the agency funds, are required to be budgeted and appropriated. The primary level of budgetary control is at the fund level for all funds. Budgetary modifications that change total appropriations may only be made by resolution of the Board of Education. Budgetary statements are not presented for proprietary and nonexpendable trust fund types.

C. Cash, Cash Equivalents, and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet.

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

During fiscal year 2000, investments were limited to Certificates of Deposit and a repurchase agreement. Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earning. Interest cash receipts credited to the Building Capital Projects Fund during fiscal year 2000 amounted to \$149,133, which includes \$145,493 assigned from other District funds.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

For purposes of the combined statement of cash flows and for presentation of the combined balance sheet, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash and cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

D. Restricted Assets

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve, textbook/instruction materials reserve, and capital maintenance reserve. These reserves are required by State statute. The budget stabilization reserve can be used only after receiving approval from the State Superintendent of Public Instruction. The capital maintenance reserve and textbook/instruction materials reserve can only be used for capital outlay expenditure and instructional materials and equipment, respectively. During fiscal year 2000, the District set aside the amounts required by state statute. Fund balance reserves have also been established.

E. Receivables

Receivables are reflected at their gross value reduced by the estimated amount that is expected to be uncollectible.

F. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Advances

Advances to and advances from governmental funds represent noncurrent portions of interfund receivables and payables. The governmental fund making the advance establishes a fund balance reserve equal to the amount of the advance.

H. Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Inventories of proprietary funds consist of donated food, purchased food, and school supplies held for resale and are expensed when used.

I. Fixed Assets and Depreciation

Fixed assets used in governmental fund types of the District are recorded in the general fixed assets account group at cost or estimated historical cost if purchased or constructed. Donated fixed assets are recorded at their estimated fair value at the date of donation. Assets in the general fixed assets account group are not depreciated. The District does not possess any infrastructure.

Fixed assets which are used in proprietary fund type activities are capitalized in the respective funds. Fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at estimated fair market value when received, based on historical information available. Depreciation is computed using the straight-line method based on the estimated life of assets. Estimated useful lives of the various classes of depreciable assets consist of: equipment - 5 to 20 years. The capitalization threshold is \$500.

J. Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, contractually required pension contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Bonds, capital leases, and long-term loans are reported as a liability of the general long-term obligations account group until due.

Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Under Ohio law, a debt service fund may be created and used for the payment of tax and revenue anticipation notes. Generally accepted accounting principles requires the reporting of the liability in the funds that received the proceeds. To comply with GAAP reporting requirements, the District's debt service fund has been split among the appropriate funds. Debt service fund resources used to pay both principal and interest have also been allocated accordingly.

K. Bond Premiums and Discounts

For governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as an other financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

L. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/ expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

M. Compensated Absences

The District reports compensated absences in accordance with GASB Statement No. 16, "Accounting for Compensated Absences."

Vacation benefits are accrued as a liability as the benefits are earned if the employee's rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to termination benefits and those the District has identified as probable of receiving payment in the future. All employees age fifty or greater with at least ten years of service and all employees with at least twenty years of service, regardless of their age, were considered probable of receiving termination benefits in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy.

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The entire estimated amount of unpaid compensated absences, including sick pay and vacation pay, of proprietary type funds is reflected as a liability in the respective funds. The current portion of unpaid compensated absences for sick leave related to governmental fund type operations is reflected in the respective funds. For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group.

N. Contributed Capital

Contributed capital reported in the enterprise funds represent resources provided from other funds, other governments, and private sources that is not subject to repayment. These assets are recorded at their fair market value on the date contributed. Depreciation on those assets acquired or constructed with contribute resources is expensed and closed to unreserved retained earnings at year end.

O. Fund Balance Reserves

The District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balances indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves are established for encumbrances, contributions to the nonexpendable trust fund that must be kept intact and HB412 reserves such as textbook and instructional supplies, capital improvements, and budget stabilization. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriations under State statute.

P. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and become measurable.

Q. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned "Memorandum Only" because they do not represent consolidated financial information and are presented only to facilitate financial analysis. The columns do not present information that reflects financial position, results of operations or cash flows in accordance with generally accepted accounting principles. Interfund eliminations have not been made in the aggregation of this data.

NOTE 3: BUDGETARY PROCESS

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit a proposed operating budget to the Board of Education. A budget of estimated revenue and expenditures is submitted to the Tuscarawas County Auditor, as Secretary of the County Budget Commission, by January 20 of each year for the ensuing July 1 to June 30 fiscal year.

Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Commission certifies its actions to the District by March 1. As part of the certification, the District receives the official Certificate of Estimated Resources which states projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the annual appropriation measure. On or about July 1, the Certificate of Estimated Resources is amended to include any unencumbered balances from the preceding year. The Certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. Budget receipts, as shown in the accompanying "Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget (NonGAAP Basis) and Actual - All Governmental Fund Types and Expendable Trust Fund" do not include July 1, 1999 unencumbered fund balances. However, those fund balances are available for appropriations.

Appropriations

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 to September 30. An annual Appropriation Resolution must be passed by October 1 of each year for the period July 1 to June 30. The Appropriation Resolution fixes spending authority at the fund level and may be amended during the year as new information becomes available provided that total fund appropriations do not exceed current estimated resources, as certified.

NOTE 3: BUDGETARY PROCESS (Continued)

Appropriations

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 to September 30. An annual Appropriation Resolution must be passed by October 1 of each year for the period July 1 to June 30. The Appropriation Resolution fixes spending authority at the fund level and may be amended during the year as new information becomes available provided that total fund appropriations do not exceed current estimated resources, as certified.

The allocation of appropriations among functions within a fund may be modified during the year by a resolution of the Board of Education. A supplemental appropriation resolution was legally enacted by the Board of Education during the year. The budget figures, as shown in the accompanying "Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (NonGAAP Basis) and Actual - All Governmental Fund Types and Expendable Trust Fund" represent the final appropriation amounts including all amendments and modifications.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective funds from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding fiscal year and need not be reappropriated.

Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits expenditures plus encumbrances from exceeding appropriations. On the generally accepted accounting principles (GAAP) basis, encumbrances outstanding at year-end for governmental funds are reported as reservations of fund balance for subsequent year expenditures.

Budgetary Basis of Accounting

While reporting financial position, results of operations, and changes in fund balances on the GAAP basis, the budgetary basis, as provided by law, is based upon accounting for transactions on a basis of cash receipts, disbursements, and encumbrances. Accordingly, the "Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (NonGAAP Basis) and Actual - All Governmental Fund Types and Expendable Trust Funds" is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget and to demonstrate compliance with state statute. The major differences between the budget basis and GAAP basis are that:

- 1) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2) Expenditures are recorded when paid in cash (budget basis) rather than when the liability is incurred (GAAP basis).

EAST PALESTINE CITY SCHOOL DISTRICT

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
JUNE 30, 2000

NOTE 3: BUDGETARY PROCESS (Continued)

- 3) Encumbrances are treated as expenditures for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types.
- 4) Proceeds from and principal payments on bond and revenue anticipation notes are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).
- 5) The District repays debt from the debt service fund (budget non-GAAP basis) as opposed to the fund that received the proceeds (GAAP basis). Debt service fund resources used to pay both principal and interest have been allocated accordingly.

The following table summarizes the adjustments necessary to convert the results of operations for the year from the budget basis to the GAAP basis:

NOTE 4: ACCOUNTABILITY AND COMPLIANCE

A. Accountability

At June 30, 2000, the Capital Projects Fund had a deficit fund balance of \$(2,783,522), which was created by the recognition of \$5,554,000 of notes payable in the Building and the Ohio School Facilities Commission Project funds in accordance with generally accepted accounting principles. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

B. Compliance

The Public School Special Revenue Fund and the Emergency School Building Repair Capital Projects Fund had expenditures which exceeded appropriations by \$2,176 and \$19,609, respectively.

NOTE 5: DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active monies are public deposits necessary to meet the demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order or withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1) United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
- 2) Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3) Written repurchase agreements in the securities listed above, provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4) Bonds and any other obligations of the State of Ohio;
- 5) No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and
- 6) The State Treasurer's Investment Pool (STAR Ohio).

NOTE 5: DEPOSITS AND INVESTMENTS (Continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institutions as security for repayment, by surely company bonds deposited with the District by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited within the institution.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the District or, if the securities are not represented by certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

At year-end, the carrying amount of the District's deposits was \$3,510,269 and the bank balance was \$3,721,049. Of the bank balance:

1. \$404,395 was covered by federal depository insurance.
2. \$2,418,098 was collateralized with securities held by the pledging financial institution's trust department or agent in the District's name.
3. \$898,556 was uncollateralized and uninsured. Although the pledging bank has an investment and securities pool used to collateralize all public deposits which are held in the financial institution's name, noncompliance with federal requirements would potentially subject the District to a successful claim by the FDIC.

Funds Held by Fiscal Agent

The District participates in the Columbiana County Insurance Consortium for employee benefits. The amount held at fiscal year end for the Employee Benefit Self-Insurance Fund was \$276,921. All benefit deposits are made to the consortium's depository account. Collateral is held by a qualified third-party trustee in the name of the consortium.

Investments

GASB Statement No. 3 entitled “Deposits with Financial Institutions, Investors (including Repurchase Agreements), and Reverse Repurchase Agreements” requires the District to categorize investments to give an indication of the level of risk assumed by the District at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the District or its agent in the District’s name. Category 2 includes uninsured and unregistered investments which are held by the counterparty’s trust department or agent in the District’s name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the District’s name. The carrying value of deposits and investments are presented in the combined balance sheet as equity in pooled cash and cash equivalents.

	<u>Category 3</u>	<u>Fair Value</u>

NOTE 6: PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property located in the District. Property tax revenue received during calendar year 2000 for real and public utility property taxes represent collections of calendar year 1999 taxes. Property tax payments received during calendar year 2000 for tangible personal property (other than public utility property) is for calendar year 2000 taxes.

2000 real property taxes are levied after April 1, 2000 on the assessed value as of January 1, 2000, the lien date. Assessed values are established by State law at thirty-five percent of appraised market value.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at thirty-five percent of true value. 2000 public utility property taxes became a lien December 31, 1999, are levied after April 1, 2000, and are collected in 2001 with real property taxes.

2000 tangible personal property taxes are levied after April 1, 1999 on the values as of December 31, 1999. Collections are made in 2000. Tangible personal property assessments are twenty-five percent of true value.

The assessed values upon which the fiscal year 2000 taxes were collected are:

	<u>1999 Second- Half Collections</u>		<u>2000 First- Half Collections</u>	
	<u>Amount</u>	<u>Percent</u>	<u>Amount</u>	<u>Percent</u>
Agricultural/Residential and Other Real Estate	\$ 74,956,240	79%	\$ 68,517,940	72%
Commercial Industrial	10,838,210	12%	10,928,830	11%
Tangible Personal Property	<u>8,695,250</u>	<u>9%</u>	<u>16,423,420</u>	<u>17%</u>

Tax rate per \$1,000 of assessed valuation		<u>\$ 33.60</u>		<u>\$ 33.60</u>

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

NOTE 6: PROPERTY TAXES (Continued)

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30, if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The District receives property taxes from Columbiana County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2000 are available to finance fiscal year 2001 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including East Palestine City School District. The County Auditor periodically remits to the District its portion of taxes. Accrued property taxes receivable represent delinquent taxes outstanding, the late settlement of personal property taxes and real property, personal property and public utility taxes which became measurable as of June 30, 2000. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available to the District as an advance at June 30, 2000 was \$61,135.

NOTE 7: RECEIVABLES

Receivables at June 30, 2000 consisted of taxes, accounts (customer services and student fees), accrued interest and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. A summary of the principal items of intergovernmental receivables follows:

NOTE 10: DEFINED BENEFIT PENSION PLANS

A. State Teachers Retirement System

The District participates in the State Teachers Retirement System of Ohio (STRS), a cost sharing multiple-employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771, or by calling (614) 227-4090.

Plan members are required to contribute 9.3% of their annual covered salary and the District is required to contribute 14%; 6.0% was the portion to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. The District's contributions for pension obligations to STRS for the fiscal years ended June 30, 2000, 1999 and 1998 were \$554,208, \$544,397 and \$495,822, respectively; 83.3% has been contributed for fiscal year 2000 and 100% for fiscal years 1999 and 1998. \$92,464, representing the unpaid contribution for fiscal year 2000, is recorded as a liability within the respective funds.

B. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215, or by calling (614) 222-5853.

Plan members are required to contribute 9% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current rate is 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The District's contributions to SERS for the fiscal years ended June 30, 2000, 1999 and 1998 were \$146,250, \$154,184, and \$131,904, respectively; 51.5% has been contributed for fiscal year 2000 and 100% for fiscal years 1999 and 1998. \$70,884, representing the unpaid contribution for fiscal year 2000, is recorded as a liability within the respective funds and the general long-term obligations account group.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2000, two members of the Board of Education have elected social security. The Board's liability is 6.2% of wages paid.

NOTE 11: POSTEMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligation to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14% of covered payroll. Through June 30, 2000, the Board allocated employer contributions equal to 8% of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$316,690 during fiscal 2000.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Fund was \$2,783 million at June 30, 1999 (the latest information available). For the year ended June 30, 1999 (the latest information available), net health care costs paid by STRS were \$249,929,000 and STRS had 95,796 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, and disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75% of the premium.

For this fiscal year, employer contributions to fund health care benefits were 6.30% of covered payroll, an increase from 4.98% for fiscal year 1999. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2000, the minimum pay has been established at \$12,400. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund.

NOTE 11: POSTEMPLOYMENT BENEFITS (Continued)

The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care at June 30, 1999 (the latest information available), were \$126,380,984 and the target level was \$189.6 million. At June 30, 1999 (the latest information available) SERS had net assets available for payment of health care benefits of \$188.0 million. SERS has approximately 51,000 participants currently receiving health care benefits. For the District, the amount to fund health care benefits, including the surcharge, equaled \$80,160 during the 2000 fiscal year.

NOTE 12: OTHER EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation, personal and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated to a maximum of 250 days for all employees. Upon retirement, certificated employees receive payment for 25% of 144 accrued sick leave days plus 10% of all sick leave days accrued above and beyond the first 144 days up to the maximum accumulation. Classified employees receive payment for 25% of 135 days accrued sick leave days plus 10% of all sick leave days accrued above and beyond the first 135 days up to the maximum accumulation.

B. Life Insurance

The District provides life insurance and accidental death and dismemberment insurance to contracted employees through Safeco, Inc.

NOTE 13: NON-CASH TRANSACTIONS

The District receives food commodities for its food service obligations. The revenue recognized in grant income from the non-cash commodities was \$29,626.

NOTE 15: STATUTORY RESERVES

The District is required by state law to set aside certain general fund revenue amounts, as defined by Statute, into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2000, the reserve activity was as follows:

	<u>Textbook Reserve</u>	<u>Capital Acquisition</u>	<u>Budget Stabilization</u>	<u>Totals</u>
Set-aside cash balance as of June 30, 1999	\$ 0	\$ 0	\$ 117,095	\$ 117,095
Current year set-aside requirement	188,224	188,224	0	376,448
Current year offsets	0	(1,758,867)	0	(1,758,867)
Qualifying disbursements	<u>(143,372)</u>	<u>(442,178)</u>	<u>0</u>	<u>(585,550)</u>
Total	<u>\$ 44,852</u>	<u>\$(2,012,821)</u>	<u>\$ 117,095</u>	<u>\$ 1,850,874</u>
Cash balance carried forward to FY 2001	<u>\$ 44,852</u>	<u>\$ 0</u>	<u>\$ 117,095</u>	

Although the District had offsets and qualifying disbursements during the year that reduced the capital acquisition set-aside amount below zero, this extra amount may not be used to reduce the set-aside requirements for future years. Negative amounts are therefore not presented as being carried forward to the next fiscal year.

A schedule of the restricted assets at June 30, 2000 follows:

Amount restricted for budget stabilization	\$ 117,095
Amount restricted for textbooks	<u>44,852</u>
Total restricted assets	<u>\$ 161,947</u>

NOTE 16: RELATED ORGANIZATIONS

The East Palestine Public Library (the "Library") is a related organization to the District. The school board members are responsible for appointing all the trustees of East Palestine Public Library; however, the school board cannot influence the Library's operation, nor does the Library represent a potential financial benefit or burden to the District. The District serves in a ministerial capacity as the taxing authority for the Library. Once the Library determines to present a levy to the voters, including the determination of the rate and duration, the District must place the levy on the ballot. The Library may not issue debt and determines its own budget. The Library did not receive any funding from the District during the fiscal year 2000.

NOTE 19: RISK MANAGEMENT

A. General Insurance

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2000, the District has property and liability insurance coverage as follows:

<u>Type of Coverage</u>	<u>Deductible</u>	<u>Coverage</u>
Building and contents – replacement cost	\$ 500	\$ 22,861,300
Boiler and machinery	500	5,000,000

Total per year	0	5,000,000

Settlements have not exceeded coverage in any of the last three fiscal years. There has not been a significant reduction in coverage from the prior year.

B. Fidelity Bond

The Treasurer is covered under a surety bond in the amount of \$25,000.

C. Workers' Compensation

The District pays the State Workers' Compensation System, an insurance purchasing pool, a premium based on a rate per \$100 of salaries. The District is a member of the Ohio School Board Association Group Rating System, an insurance purchasing pool. This rate is calculated based on accident history and administrative costs. The group presently consists of over 400 school districts.

D. Employee Health Insurance

Medical/surgical, vision and dental insurance is offered to employees through a self-insurance internal service fund. The District is a member of a claims servicing pool, consisting of seven school districts within the county, in which monthly premiums are paid to the fiscal agent who in turn pays the claims on the District's behalf. The claims liability of \$111,924 reported in the internal service fund at June 30, 2000 is based on an estimate provided by the third party administrator and the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for unpaid claim costs, including estimates of costs relating to incurred but not reported claims be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Changes in fund's claims liability for the fiscal years 2000 and 1999 are as follows:

	<u>Balance at Beginning of Year</u>	<u>Claims</u>	<u>Payments</u>	<u>Balance at End of Year</u>
2000	<u>\$ 92,614</u>	<u>\$ 607,801</u>	<u>\$ 588,491</u>	<u>\$ 111,924</u>

NOTE 20: JOINTLY GOVERNED ORGANIZATIONS

A. Ohio Mid-Eastern Regional Education Association (OME-RESA)

OME-RESA is a jointly governed organization comprised of 52 school districts, created as a regional council of governments pursuant to state statute. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions for member districts. Each of the governments of these districts support OME-RESA based on a per pupil charge dependent upon the software package utilized. The OME-RESA assembly consists of a superintendent or designated representative from each participating district and a representative from the fiscal agent. OME-RESA is governed by a board of directors chosen from the general membership of the OME-RESA assembly. The board of directors consists of a representative from the fiscal agent, the chairman of each operating committee, and at least an assembly member from each county from which participating districts are located. Financial information can be obtained by contacting the Treasurer at the Jefferson County Educational Service Center, which serves as fiscal agent, located in Steubenville, Ohio. The continued existence of OME-RESA is not dependent on the District's continued participation and no measurable equity interest exists. The District paid \$9,023 for services provided during fiscal year 2000.

B. Columbiana County Career Center

The Career Center, a joint vocational school established by the Ohio Revised Code, is a jointly governed organization providing vocational services to its eleven-member school districts. The Career Center is governed by a board of education comprised of eleven members appointed by the participating schools. The board controls the financial activity of the Career Center and reports to the Ohio Department of Education and the Auditor of State of Ohio. The continued existence of the Career Center is not dependent on the District's continued participation and no measurable equity interest exists.

The District does not retain an ongoing financial interest or an ongoing financial responsibility with any of these organizations.

NOTE 21: CONTINGENCIES

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material effect on the overall financial position of the District at June 30, 2000.

B. Litigation

The District is not party to any claims or lawsuits that would have a material effect on the general purpose financial statements.

NOTE 22: STATE SCHOOL FUNDING DECISION

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio School Funding Plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the Ohio General Assembly to design a plan to remedy the perceived defects in the system. Declared unconstitutional was the State's "school foundation program," which provides significant amounts of monetary support to this District. During the fiscal year ended June 30, 2000, the District received \$5,614,425 of school foundation support for its general fund.

In addition, the Court declared the classroom facilities program unconstitutional, because, in the Court's opinion, the program had not been sufficiently funded by the State. The classroom facilities program provided money to build schools and furnish classrooms. As of June 30, 2000, the District had received a total of \$767,343 under this program.

NOTE 22: STATE SCHOOL FUNDING DECISION (Continued)

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the Ohio General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County has reviewed the new laws and, in a decision issued on February 26, 1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, ". . . the mandate of the Ohio Constitution has not been fulfilled." The Court's majority recognized efforts by the Ohio General Assembly taken in response to the Court's March 24, 1997 decision, however, it found seven ". . . major areas warrant further attention, study, and development by the General Assembly . . .", including the State's reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took the place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15, 2001.

As of the date of these financial statements, the District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under these programs and on its financial operations.

Independent Auditor's Report on Compliance and Internal Control
Over Financial Reporting Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards

We have audited the financial statements of East Palestine City School District (the "School District") as of and for the year ended June 30, 2000, and have issued our report thereon dated December 26, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of the School District in a separate letter dated December 26, 2000.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted certain matters involving the internal control over financial reporting and its operation that we consider to be reportable conditions. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that in our judgment, could adversely affect the District's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements. A reportable condition is described in the accompanying schedule of findings and questioned costs as item 2000-001.

Page 2

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control structure over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses, and accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we consider the reportable condition described above to be a material weakness. We also noted other matters involving the internal control over financial reporting, which we have reported to management of the School District in a separate letter dated December 26, 2000.

This report is intended for the information of the Board of Education, management and federal awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

To the Board of Education
East Palestine City School District
East Palestine, OH 44413

Independent Auditor's Report on Compliance with Requirements
Applicable to Each Major Program and Internal Control
Over Compliance in Accordance with OMB Circular A-133

Compliance

We have audited the compliance of East Palestine City School District (the "School District") with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2000. The District's major federal program is identified in the "summary of auditor's results" section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of State, Local Governments, and Not-for-Profit Organizations Receiving Federal Awards. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, East Palestine City School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2000.

Internal Control Over Compliance

The management of the School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the general purpose financial statements of East Palestine City School District as of and for the year ended June 30, 2000, and have issued our report thereon dated December 26, 2000. Our audit was performed for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

This report is intended for the information of the Board of Education, management and federal awarding agencies and pass-through entities and is not intended to be, and should not be, used by anyone other than these specified parties.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
JUNE 30, 2000

NOTE A: SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of expenditures of federal awards is a summary of the activity of the School District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B: NUTRITION CLUSTER

Nonmonetary assistance is reported in the schedule of expenditures of federal awards at the fair market value of the commodities received and disbursed. At June 30, 2000, the School District had no significant food commodities inventory. Reimbursement moneys are commingled with local receipts and state grants. It is assumed federal moneys are expended first.

Estimated Revenues and Appropriations

Estimated revenues, appropriations, and amendments to estimated revenues and appropriations approved by the County and Board of Education were incorrectly posted to the District's accounting system. As a result, the budgetary amounts reported on the Statement of Expenditures and Encumbrances Compared with Expenditure Authority did not reflect accurate budget amounts, causing these statements to be misstated by material amounts.

We recommend all budgetary information certified by the budget commission and approved by the Board of Education be routinely posted to the accounting records. The treasurer should continuously evaluate this process by inspecting official documents from the county budget commission and comparing it to amounts posted.

Adjustments to reported budgeted amounts have been agreed upon by management and are reflected in the accompanying financial statements.
