REPORT OF INDEPENDENT ACCOUNTANTS

North Central Local School District
Wayne County
350 South Main Street
Creston, Ohio 44217

To the Board of Education:

We have audited the accompanying general purpose financial statements of North Central Local School District, Wayne County, (the District) as of and for the year ended June 30, 2001, as listed in the Table of Contents. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2001, and the results of its operations and the cash flows of its proprietary fund type and similar fiduciary funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 21, 2001 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

We performed our audit to form an opinion on the general purpose financial statements of the District, taken as a whole. The accompanying Schedule of Receipts and Expenditures of Federal Awards is presented for additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general purpose financial statements. We subjected this information to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2001**

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The North Central Local School District (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District operates under an elected Board of Education (5 members) and is responsible for providing public education to residents of the District as authorized by state statute and/or federal guidelines.

Average daily membership (ADM) as of October 1, 2000 was 1,415. The District employed 88 certificated employees and 56 non-certificated employees at that date.

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. The District does not have any component units.

Villages Located in the District

The Villages within the District are separate body politics and corporates. A mayor and council are elected independent of any District relationships and administer the provision of traditional village services. Council acts as the taxing and budgeting authority for these services.

Townships Located in the District

The Townships within the District are separate body politics and corporates. The trustees are elected independent of any District relationships and administer the provision of traditional township services. Trustees act as the taxing and budgeting authority for these services.

Reporting Entity (Continued)

Parent Teacher Organizations and/or Booster Clubs

The District is not involved in the budgeting or management, is not responsible for any debt, and has no influence over these organizations.

Joint Venture

The District participates in a joint venture to operate the Midland Council of Governments (COG), a regional council of governments established to provide efficient and cost effective computer and data processing services to each member. Other participants in the Midland COG include school districts in Ashland, Holmes, and Wayne Counties, and the Wadsworth City School District.

The Midland COG was established in July of 1993 and is governed by a seven-member Executive Committee, appointed by the COG. The Tri-County Educational Service Center serves as fiscal agent for the COG and is responsible for all financial reporting for the COG.

The Midland COG is funded by member fees and state grants. The Executive Committee determines and sets the member fees for all services of the COG. Fees are billed to member districts annually around July 1st. The District paid \$19,905 in fees for 1999-00 and \$19,800 in fees for 2000-01. The District has no equity interest in the COG.

Upon dissolution of the COG, any unclaimed assets remaining on the COG's books shall be distributed as follows:

1. All tangible personal property previously loaned or given to the Midland COG that is clearly identified as to ownership shall be returned to the owner member.
2. All remaining tangible personal property shall be sold at public sale in accordance with the ORC 307.12 by sealed bid. The cash proceeds and all remaining assets and other intangibles, including moneys, shall be distributed to the member districts in proportion to the ADM of the district.

Upon withdrawal from the COG, a member shall be released from all obligations and liabilities of the Midland COG except those for which it was a contracting party or for pending claims. The withdrawing member district shall receive any tangible personal property it individually owns and which is housed remotely. Any and all other moneys, grants, and property housed at the data center shall remain that of the Midland COG.

Upon termination/suspension from the COG, a member shall return all equipment or assets owned by the Executive Committee and will be responsible for any loss in state funding to the Midland COG as a result of the termination.

Complete financial statements for the Midland COG can be obtained from the Tri-County Education Service Center, 2534 Burbank Road, Wooster, Ohio 44691.

Jointly Governed Organizations

Wayne County Career Center

The Wayne County Career Center (the Career Center) is a separate body politic and corporate, established by the Ohio Revised Code. The Board of Education is comprised of representatives from the Board of each participating school district independent of the North Central Local School District. The Board is responsible for approving its own budgets, appointing personnel, and accounting and financing related activities. Students from the North Central School District may attend the Career Center.

Wayne County Schools Council

The District, in conjunction with four other Wayne County school districts, has created the Wayne County Schools Council (the Council) for the purpose of providing a Health Care Benefits program. Other school districts participating in the Council are Dalton Local, Green Local, Northwestern Local, and Southeast Local.

The Board of Directors is comprised of one representative from each school district. Northwestern Local School District serves as fiscal agent for the Council.

Through the Wayne County Schools Council, the District offers its employees a health care program through Medical Mutual of Ohio (MMO). Insurance rates are set by MMO, and payment is made to MMO, through the Council's fiscal agent.

Administrative costs are determined annually by the Board of Directors. The fees are paid out of the reserve balance fund, for administrative and consultant fees.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the District's accounting policies are described below.

A. Basis of Presentation - Fund Accounting

The District uses funds and account groups to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district functions or activities.

Separate funds are established to segregate money and other resources whose use is limited to a particular purpose either by state statute or by the resource provider. This separation facilitates the demonstration of compliance with these external restrictions and satisfies external reporting requirements. Separate funds are also used to split government activities which are similar to those of profit oriented organizations from those for which no correlation exists between the amount of revenues received and the services provided.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

For financial statement presentation purposes, the various funds of the District are grouped into the following generic fund types under the broad fund categories governmental, proprietary and fiduciary:

Governmental Fund Types

Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities, except those accounted for in proprietary and trust funds, are accounted for through Governmental Fund Types.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis of Presentation - Fund Accounting (Continued)

The Governmental Fund category includes the following:

General Fund - The General Fund is the operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the district for any purpose, provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Funds - The Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary and Non-Expendable Trust Funds).

Proprietary Fund Type

Proprietary Funds are used to account for the District's ongoing activities, which are similar to those found in the private sector. All assets, liabilities, equities, revenues, expenses, and transfers relating to the District's business and quasi-business activities, where net income and capital maintenance are measured are accounted for through Proprietary Fund Types.

The following is the District's Proprietary Fund type:

Enterprise Funds - Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, and other funds.

**NORTH CENTRAL LOCAL SCHOOL DISTRICT
WAYNE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2001**

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis of Presentation - Fund Accounting (Continued)

The Fiduciary Fund types are as follows:

Expendable Trust Funds - Expendable Trust Funds account for resources, including both principal and earnings, which must be expended according to the provisions of a trust agreement. Expendable Trust Funds are accounted for in essentially the same manner as Governmental Funds.

Non-Expendable Trust Funds - Non-Expendable Trust Funds account for trust principal, which may not be expended. Only interest earned on the principal may be used for trust operations. Non-Expendable Trust Funds are accounted for in essentially the same manner as Proprietary Funds.

Agency Funds - Agency Funds are purely custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group (GFAAG) - This account group is established to account for all fixed assets of the District, except those accounted for in the Proprietary or Non-Expendable Trust Funds.

General Long-Term Obligation Account Group (GLTOAG) - This account group is established to account for all long-term obligations of the District except those accounted for in the Proprietary or Non-Expendable Trust Funds.

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All Governmental Fund types and Expendable Trust Funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All Proprietary and Non-Expendable Trust Funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is disclosed as retained earnings. Proprietary Fund type and Non-Expendable Trust Fund type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2001**

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental, expendable trust and agency funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period for the District is 60 days after year-end.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property tax available as an advance, investment earnings, tuition, grants and entitlements, and student fees.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On the modified accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied and the resources are available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been met and the resources are available.

The District reports deferred revenue on its combined balance sheet. Deferred revenue arises when potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2001, and delinquent property taxes whose availability is indeterminable and which are intended to finance fiscal year 2002 operations, have been recorded as deferred revenue. In the proprietary fund type, unused donated commodities are reported as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the Debt Service Fund for payments to be made early in the following year, and the costs of accumulated unpaid vacation and sick leave are reported as fund liabilities in the period in which they will be liquidated with available financial resources rather than in the period earned by the employees. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2001**

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

The accrual basis of accounting is utilized for reporting purposes by the proprietary fund types. Revenues are recognized when they are earned and become measurable, and expenses are recognized when they are incurred, if measurable. Unbilled service charges are recognized as revenue at year end. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

On the accrual basis of accounting, revenue from nonexchange transactions, such as grants, entitlements and donations, is recognized in the fiscal year in which all eligibility requirements have been met. The proprietary funds receive no revenue from property taxes.

C. Budgetary Data

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the Tax Budget, the Certificate of Estimated Resources, and the Appropriations Resolution, all of which are prepared on the budgetary basis of accounting. The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than Agency funds, are legally required to be budgeted and appropriated. Any budgetary modifications at the legal level of control may only be made by resolution of the Board of Education.

Advances in and Advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget

Prior to January 15 of the preceding year, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Wayne County Budget Commission for tax rate determination.

C. Budgetary Data (Continued)

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the Certificate is amended to include any unencumbered cash balances from the preceding year. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statement reflect the amounts in the final Amended Certificate issued during fiscal year 2001.

Appropriations

Upon receipt from the County Auditor of an amended Certificate of Estimated Resources based on final assessed values and tax rates or a certificate stating no new certificate is necessary, the annual Appropriations Resolution must be legally enacted by the Board of Education at the fund level for all funds, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The Appropriation Resolution, by fund, must be within the estimated resources as certified by the County Budget Commission. The total of expenditures and encumbrances, by fund, may not exceed appropriation totals. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund does not exceed the amounts set forth in the most recent Certificate of Estimated Resources. During the year, several supplemental appropriations were legally enacted.

The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations and appropriation modifications. Formal budgetary integration is employed as a management control device during the year for all funds, consistent with statutory provisions. Although the legal level of budgetary control was established at the fund level of expenditures, the District has elected to present budgetary statement comparisons at the fund and function level of expenditures.

Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at year end are reported as a reservation of fund balance for subsequent-year expenditures for Governmental Funds and the Expendable Trust Fund and in the notes to the financial statements for Proprietary Funds and the Non-Expendable Trust Funds.

C. Budgetary Data (Continued)

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Cash and Investments

To improve cash management, all cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet.

During fiscal year 2001, investments were limited to STAR Ohio.

Nonparticipating investment contracts, including nonnegotiable certificates of deposit, are reported at cost. Investments in STAR Ohio are reported at fair market value which is based on quoted market prices.

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2001. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2001.

Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2001 amounted to \$116,255, which includes \$26,313 assigned from other District funds.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are considered to be investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items are recorded as an expense in the proprietary fund type when used. Inventories of proprietary funds consist of donated food, purchased food, and school supplies held for resale and are expensed when used.

F. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in the respective fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$500.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Improvements are capitalized and depreciated over the remaining useful life of the related fixed assets, as applicable.

Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the proprietary fund type is computed using the straight-line method over an estimated useful life of 5-20 years.

G. Intergovernmental Revenues

For governmental funds, intergovernmental revenue, such as grants awarded on a non-reimbursement basis and entitlements are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and became measurable.

The District currently participates in several State and Federal programs, categorized as follows:

Grants and entitlements totaled approximately sixty two percent (62%) of the District's operating revenues during the 2001 fiscal year.

H. Short-term Interfund Assets/Liabilities

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds." Short-term interfund loans are classified as "interfund receivables/payables."

I. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the termination method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future, in accordance with the provisions of Governmental Accounting Standards Board Statement No. 16, Accounting for Compensated Absences. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's severance policy.

The District records a liability for accumulated unused vacation time for all employees with more than one year of service. The District records a liability for accumulated unused sick leave for eligible employees in the period the employee becomes eligible to receive payment. The current portion of unpaid compensated absences is the amount expected to be paid using expendable, available financial resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In proprietary funds, compensated absences are expensed when earned. The entire amount of compensated absences is reported as a fund liability.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Accrued Liabilities and Long-Term Obligations

In general, Governmental Fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgments, compensated absences, contractually required pension contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Bonds, capital leases, and long-term loans are reported as a liability of the general long-term obligations account group until due. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

K. Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

Non-recurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

L. Restricted Assets

Restricted assets in the General Fund represent cash and cash equivalents set aside to establish a BWC refund reserve. This reserve is required by State statute. During fiscal year 2001, the District maintained the reserve as required by State statute.

M. Fund Balance Reserves

The District records reservations for portions of fund balance which are legally segregated for specific future use or which do not represent available spendable resources and, therefore, are not available for appropriations for expenditures. Undesignated fund balance indicates that portion of fund equity, which is available for appropriation in future periods. Fund equity reserves are established for BWC refund, encumbrances, contributions and property taxes. The following table reflects changes in the reserves during the year.

Effective April 10, 2001, the Ohio legislature passed Am. Sub. Senate Bill 345, that addressed H.B. 412 set-aside requirements. The requirement for establishment of a budget reserve set-aside has been deleted from the law. A district may still establish a reserve, if it so chooses; however, the requirement is no longer mandatory. Monies in the budget reserve set-aside as of April 10, 2001 are classified in two categories: (1) Bureau of Workers' Compensation (BWC) refunds and (2) the balance of the reserve which doesnot represent BWC refunds. The statute includes specific purposes for which the monies representing BWC refunds can be used. The monies which do not represent BWC refunds may be left in the budget reserve set-aside, transferred to the Classroom Facilities Fund, or returned to the General Fund and used at the discretion of the District's Board of Education.

Although the District had qualifying disbursements in the textbook reserve during the year that reduced the set-aside amount below zero, the District elected not to carry this amount forward to future years. The negative amount is therefore not presented as being carried forward to the next fiscal year.

N. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

O. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned (Memorandum Only) to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

P. Contributed Capital

Contributed capital is recorded in proprietary funds that have received capital grants, or contributions from developers, customers, or other funds. These assets are recorded at their fair market value on the date contributed. Depreciation on those assets acquired or constructed with contributed resources is expensed and closed to unreserved retained earnings at year end.

Deficit Fund Balances

Fund balances at June 30, 2001 included the following fund deficits:

<u>Special Revenue Funds</u>	<u>Deficit Balances</u>
Public School Preschool	\$ 9,578
Title I	3,620
Title VI	10
Title VI-R	31

These funds complied with Ohio State Law, which does not allow a cash deficit at year-end.

The deficit fund balances in the Public School Preschool, Title I, Title VI, and Title VI-R Special Revenue Funds are a result of accruing wage obligations in accordance with GAAP. These deficits will be eliminated by intergovernmental revenues not recognized at June 30.

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law and described above is based upon accounting for certain transactions on a basis of cash receipts and disbursements. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual - All Governmental Fund Types and Similar Fiduciary Funds and the Combined Statement of Revenues, Expenses and Changes in Fund Equity - Budget (Non-GAAP Basis) and Actual - Proprietary Fund Type and Similar Fiduciary Funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis)
3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosure for proprietary fund types (GAAP basis).
4. For proprietary funds, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements by fund type:

*Excess of Revenues and Other Financing Sources

NOTE 5 - CASH AND CASH EQUIVALENTS

State statutes classify monies held by the District into three categories:

Active deposits are public deposits necessary to meet current demands on the Treasury. Such monies must be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are public deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts. Interim monies may be invested in the following obligations. In general, investments must mature or be redeemable within two years from the date of purchase.

**NORTH CENTRAL LOCAL SCHOOL DISTRICT
WAYNE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

(Continued)

NOTE 5 - CASH AND CASH EQUIVALENTS (Continued)

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligations or security issued by the United States, or any other obligations guaranteed as to principal or interest by the United States;
2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed 30 days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investment in securities described in this division are made only through eligible institutions;
6. The State Treasurer's Investment Pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed 180 days in an amount not to exceed 25% of the interim monies available for investment at any one time; and
8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectations that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Protection of District cash and investments is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure repayment of all public monies deposited with the financial institution.

NOTE 5 - CASH AND CASH EQUIVALENTS (Continued)

The following information classifies deposits and investments by categories as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments and Repurchase Agreements":

Deposits

At year-end, the carrying amount of the District's deposits was \$748,688 and the bank balance was \$1,214,760. Of the bank balance:

1. \$209,572 was covered by federal depository insurance; and
2. \$1,005,188 was covered by collateral held in the pledging bank's trust department in the District's name.

Investments

The District's investments are categorized below to give an indication of the level of custodial credit risk assumed by the District at year end. Category 1 includes investments that are insured or registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the District's name. STAR Ohio is an unclassified investment since it is not evidenced by securities that exist in physical or book entry form.

	<u>Carrying Value</u>	<u>Fair Value</u>
STAR Ohio	\$1,770,976	\$1,770,976

The classification of cash and cash equivalents, and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9.

A reconciliation between the classifications of cash and cash equivalents and investment on the combined financial statements and the classifications of deposits and investments presented above per GASB Statement No. 3 is as follows:

	<u>Cash and Cash Equivalents Deposits</u>	<u>Investments</u>

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections by the County are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property located in the District. Property tax revenue received during calendar year 2001 for real and public utility property taxes represents collections of calendar 2000 taxes. Property tax payments received during calendar 2001 for tangible personal property (other than public utility property) is for calendar 2001 taxes.

2001 real property taxes are levied after April 1, 2001, on the assessed value as of January 1, 2001, the lien date. Assessed values are established by State law at 35% of appraised market value.

Public utility tangible personal property currently is assessed at varying percentages at true value; public utility real property is assessed at 35% of true value. 2001 public utility property taxes became a lien December 31, 2000, are levied after April 1, 2001 and are collected in 2002 with real property taxes.

2001 tangible personal property taxes are levied after April 1, 2000, on the value as of December 31, 2000. Collections are made in 2001. Tangible personal property assessments are 25% of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits earlier or later payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, the first payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The District receives property taxes from Wayne and Medina Counties. The respective County Auditors periodically advance to the District its portion of the taxes collected. Second half real property tax payments collected by June 30, 2001 are available to finance fiscal year 2002 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The full tax rate applied to real property for the tax year 2000 was \$34.80 per \$1,000 of assessed valuation. After adjustment of the rate for inflationary increases in property values, the effective tax rate was \$24.42 per \$1,000 of assessed valuation for real property classified as residential/agricultural and \$24.58 per \$1,000 of assessed valuation for all other real property. Real property owners' tax bills are further reduced by homestead and rollback deductions, when applicable. The amount of these homestead and rollback reductions is reimbursed to the District by the State of Ohio.

Owners of tangible personal property are required to file a list of such property including costs, by April 30 of each year. The property is assessed for tax purposes at varying statutory percentages of cost. The tax rate applied to tangible personal property for the tax year 2001 was \$32.00 per \$1,000 of assessed valuation.

NOTE 6 - PROPERTY TAXES (Continued)

The respective County Treasurers collect property tax on behalf of all taxing districts in their respective counties. The County Auditors periodically remit to the District its portion of taxes. Accrued property taxes receivable represents delinquent taxes outstanding and real property, personal property, and public utility taxes, which were measurable as of June 30, 2001. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30 is recognized as revenue.

Amount Available to the District as an Advance at June 30, 2001

NOTE 9 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions, injuries to employees and natural disasters. The District maintains comprehensive insurance coverage with private carriers to minimize its risk exposure.

Property and Vehicle Insurance

The District has a comprehensive property insurance policy with Nationwide Insurance Company and a comprehensive vehicle insurance policy with Personal Services Insurance Company. The property insurance policy has deductibles of \$250 and \$1,000, based on type of loss, and the vehicle insurance policy has various deductibles based on type of loss.

Liability Insurance

All District employees, including Board Members, are provided with liability insurance underwritten by the Nationwide Insurance Company. The limits of this coverage are \$1,000,000 per occurrence and \$5,000,000 in the aggregate. The District purchases an additional \$25,000 defense coverage for legal fees and defense costs against charges of deliberately and intentionally causing an employee harm through their work assignment and an additional \$300,000 in employee benefits liability coverage to provide protection for errors made in the administration of the fringe benefit program.

Employee Bonds

The District provides a \$25,000 surety bond through The Hamilton Mutual Insurance Company for the Board President, Superintendent, and Treasurer and a public employees dishonesty bond through The Hamilton Mutual Insurance Company for other employees who handle money.

Workers' Compensation Insurance

The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the Ohio School Boards Association (OSBA). The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating District pays an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representative with other participants in the GRP. The workers compensation experience of the participating Districts is calculated as one experience and a common premium rate is applied to all Districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated, and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates, McDonald & Company provides administrative, cost control and actuarial services to the GRP.

NOTE 9 - RISK MANAGEMENT (Continued)

Life Insurance

The District provides life insurance and accidental death and dismemberment insurance to most employees through the Great American Reserve Insurance Company.

Dental Insurance

The District provides dental insurance to most employees through the CoreSource Company.

Medical Insurance

The District has elected to provide employees with comprehensive medical, surgical, and drug benefits through the minimum premium-insurance from Medical Mutual of Ohio program.

NOTE 10 - DEFINED BENEFIT PENSION PLAN

The District provides retirement benefits to all certificated employees under the State Teachers' Retirement System and to all noncertified employees under the School Employees Retirement System.

A. School Employees Retirement System

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer public employee retirement system administered by the School Employees Retirement Board. SERS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information for SERS. This report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634.

Plan members are required to contribute 9 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. The adequacy of the contribution rates is determined annually. In addition to the salary contributions, the District pays an additional 14% contribution on salaries of employees who are paid below a level established annually by SERS actuaries. This additional contribution is referred to as the "employer surcharge."

The District's required contributions for pension obligations, including the employer surcharge, to SERS for fiscal years ended June 30, 2001, 2000, and 1999 were \$153,624, \$143,109 and \$135,537, respectively. 48% has been contributed for fiscal year 2001 and 100% for fiscal year 2000 and 1999. \$89,987, representing the unpaid contribution and surcharge for fiscal year 2001, is recorded as a liability within the respective funds and the General Long-Term Obligations Account Group.

NOTE 10 - DEFINED BENEFIT PENSION PLAN (Continued)

B. State Teachers Retirement System

The District also contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 9.3 percent of their annual covered salary and the District is required to contribute 14 percent. Contribution rates are established by STRS upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$529,326, \$494,736 and \$482,915, respectively. 82% has been contributed for fiscal year 2001, and 100% for fiscal years 2000 and 1999. \$93,528, representing the unpaid contribution for fiscal year 2001 is recorded as a liability within the respective funds.

NOTE 11 - POST-EMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS) and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State Statute. Both systems are funded on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care costs in the form of a monthly premium. By Ohio law, the cost of coverage paid from the STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. For the year ended June 30, 2001, the STRS Board allocated employer contributions equal to 4.2 percent of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$158,800 for fiscal year 2001.

STRS pays health care benefits from the Health Care Reserve Fund. At June 30, 2000 (the latest information available), the balance in the Fund was \$3.419 billion. For the fiscal year ended June 30, 2000, eligible benefit recipients totaled 99,011 and net health care costs paid by STRS were \$283,137,000.

NOTE 11 - POST-EMPLOYMENT BENEFITS (Continued)

For SERS, coverage is made available to service retirees with 10 or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than 25 years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

After the allocation for basic benefits, the remainder of the employer's 14% contribution is allocated to providing health care benefits. For this fiscal year ended June 30, 2000, employer contributions to fund health care benefits were 9.80 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2001, the minimum pay was established at \$12,400. For the District, the amount contributed to fund health care benefits, including the surcharge, during the 2001 fiscal year equaled \$94,477.

The surcharge, added to the unallocated portion of the 14 percent employer contribution provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care for the fiscal year ended June 30, 2000 (the latest information available), were \$140,700,000 and the target level was \$211.0 million. At June 30, 2000, SERS had net assets available for payment of health care benefits of \$252.3 million. The number of participants currently receiving health care benefits is approximately 50,000.

NOTE 12 - COMPENSATED ABSENCES

The criteria for determining vested vacation and sick leave components are derived from Board policy and negotiated agreements.

Eligible classified employees and administrators earn from 7 to 20 days of vacation per year, depending upon length of service in the District. Accumulated, unused vacation time is paid to these employees upon termination of employment.

Teachers, administrators, and classified employees earn sick leave at the rate of 1-1/4 days per month. Sick leave may be accumulated up to maximums established by Board policy and negotiated agreements. Upon retirement of teachers or classified employees, payment is made for 25 per cent of the total accumulated, unused sick leave up to a maximum of 68 days. Upon retirement of administrators, payment is made for 30 per cent of the total accumulated, unused sick leave up to a maximum of 68 days.

NOTE 13 - CAPITALIZED LEASES - LESSEE DISCLOSURE

The District has entered into capitalized leases for the acquisition of copiers. The terms of each agreement provide options to purchase the equipment. Each lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13 "Accounting for Leases," which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments are reflected as debt service expenditures in the Combined Financial Statements for the governmental funds. These expenditures are reflected as program/function expenditures on a budgetary basis. General Fixed Assets acquired by lease totaled \$50,222 and have been capitalized in the general fixed asset account group in an amount equal to the present value of the future minimum lease payments at the time of acquisition. A corresponding liability was recorded in the general long-term debt account group. Accumulated amortization on those assets totaled \$34,996. The following is a schedule of the future minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2001.

School Facilities General Obligation Bonds - On March 1, 1987, the District issued \$2,100,000 in voted general obligation bonds for the purpose of an addition and improvement to the elementary and middle school buildings. The bonds were issued for a 15 year period with final maturity at December 1, 2002. The bonds will be retired from the debt service fund.

Energy Conservation General Obligation Bonds - On August 1, 1996, the District issued \$645,000 in unvoted general obligation bonds for the purpose of providing energy conservation measures for the District, under the authority of Ohio Revised Code sections 133.06(G) and 3313.372. The bonds were issued for a 10 year period with final maturity at December 1, 2006. The bonds will be retired from the debt service fund.

Capital leases will be paid from the General Fund. Compensated absences and the SERS pension obligation and surcharge will be paid from the fund from which the employees' salaries are paid.

The District's voted legal debt margin was \$9,611,061, with an unvoted debt margin of \$322,106 at June 30, 2001.

NOTE 16 - CONTINGENCIES

Grants

The District receives financial assistance from federal and state agencies in the form of grants. The expenditures of funds received under these programs generally require compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District.

NOTE 17 - STATE SCHOOL FUNDING DECISION

On September 6, 2001 the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision identified aspects of the current plan that require modification if the plan is to be considered constitutional, including:

A change in the school districts that are used as the basis for determining the base cost support amount. Any change in the amount of funds distributed to school districts as a result of this change must be retroactive to July 1, 2001, although a time line for distribution is not specified.

Fully funding parity aid no later than the beginning of fiscal year 2004 rather than fiscal year 2006.

The Supreme Court relinquished jurisdiction over the case based on anticipated compliance with its order.

In general, it is expected that the decision would result in an increase in State Funding for most Ohio school districts. However, as of November 21, 2001, the Ohio General Assembly is still analyzing the impact this Supreme Court decision will have on funding for individual school districts. Further, the State of Ohio, in a motion filed September 17, 2001 asked the Court to reconsider and clarify the parts of the decision changing the school districts that are used as the basis for determining the base cost support amount and the requirement that changes be made retroactive to July 1, 2001.

On November 2, 2001, the Court granted this motion for reconsideration. The Court may reexamine and redetermine any issue upon such reconsideration.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this decision and the reconsideration will have on its future State funding and on its financial operations.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE AND ON
INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS**

North Central Local School District
Wayne County
350 South Main Street
Creston, Ohio 44217

To the Board of Education:

We have audited the general purpose financial statements of North Central Local School District, Wayne County, (the District) as of and for the year ended June 30, 2001, and have issued our report thereon dated November 21, 2001. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

However, we noted certain immaterial instances of noncompliance that we have reported to the management of the District in a separate letter dated November 21, 2001.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a certain matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the accompanying Schedule of Findings as item 2001-10985-001.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe the reportable condition to be a material weakness.

We also noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated November 21, 2001.

This report is intended for the information and use of management, the Audit Committee, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO MAJOR FEDERAL PROGRAMS AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

North Central Local School District
Wayne County
350 South Main Street
Creston, Ohio 44217

To the Board of Education:

Compliance

We have audited the compliance of the North Central Local School District, Wayne County, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2001. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs are the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended June 30, 2001.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of management, the Audit Committee, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

GAAP Conversion Plan

The District uses an old generic generally accepted accounting principles (GAAP) guide prepared by the Auditor of State's Local Government Services Division to prepare its GAAP conversion. This guide has not been updated in several years and was not tailored for the District. The District does not utilize outside consulting services to perform its conversion.

Numerous errors were noted with the GAAP conversion including calculation errors, journal entries not posted correctly, incorrect grouping of funds, new legislative changes not followed such as GASB statement 33 and S.B. 345 for changes to the budget stabilization reserve, supportive data not accumulated properly, inception of a new capital lease was not recorded, the agency fund included equity, etc.

In addition, schedules within the Notes to the Financial Statements, with the exception of the fixed asset schedule, were incorrectly completed.

As a result of these errors, extensive accounting services were necessary to correct the general purpose financial statements.

The lack of an updated written plan, and not utilizing the services of an outside consulting firm, increases the chance of errors occurring during the conversion process due to inconsistencies of accounting principles used from year to year and errors from incorrect reversing and adjusting entries.

The District should consider contracting with outside consultants to develop a formal GAAP Conversion Plan and to assist in the annual conversion process. Once a successful plan is developed, it can be a useful tool to guide the District's conversion team in preparing its financial statements. The GAAP Conversion Plan would assist the District in compiling financial statements more easily and allow for consistency in the statements between periods. Finally, the GAAP Conversion Plan can also serve as an effective resource for auditors when trying to determine the policies used and treatment applied to various accounts in the District's financial statements.
