STATE OF OHIO OFFICE OF THE AUDITOR

JIM PETRO, AUDITOR OF STATE

35 North Fourth Street, 1st Floor Columbus, Ohio 43215 Telephone 614-466-4514 800-282-0370 Facsimile 614-728-7398

Board of Education Upper Sandusky Exempted Village School District

We have reviewed the Independent Auditor's Report of the Upper Sandusky Exempted Village School District, Wyandot County, prepared by Steen & Co. LLC for the audit period July 1, 1999 through June 30, 2000. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Upper Sandusky Exempted Village School District is responsible for compliance with these laws and regulations.

JIM PETRO Auditor of State

REPORT OF INDEPENDENT ACCOUNTANTS

Board of Education Upper Sandusky Exempted Village School District 390 West Walker Street Upper Sandusky, Ohio 43351

We have audited the accompanying general purpose financial statements of the Upper Sandusky Exempted Village School District, Wyandot County, Ohio (the District) as of and for the year ended June 30, 2000, as listed in the table of contents. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the Upper Sandusky Exempted Village School District, Wyandot County, as of June 30, 2000, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust fund for the year then ended in conformity with generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2000 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Board of Education Upper Sandusky Exempted Village School District Report of Independent Accountants Page 2

Our audit was performed for the purpose of forming an opinion on the general purpose financial statements of the District, taken as a whole. The accompanying schedule of federal awards receipts and expenditures is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations,* and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

The Upper Sandusky Exempted Village School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state statute and/or federal guidelines.

The School District was established in 1960 through the consolidation of existing land areas and school districts. The School District serves an area of approximately three hundred square miles. It is located in Wyandot, Marion, and Crawford Counties, and includes all of the City of Upper Sandusky. It is staffed by 84 classified employees, 115 certified full-time teaching personnel, and eleven administrative employees who provide services to 1,977 students and other community members. The School District currently operates five instructional buildings and one bus garage.

Reporting Entity

The reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Upper Sandusky Exempted Village School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. There are no component units of the Upper Sandusky Exempted Village School District.

The School District's reporting entity includes the following:

<u>St. Peter Elementary</u> - Within the School District's boundaries, St. Peter Elementary is operated through the Toledo Catholic Diocese. Current State legislation provides funding to the parochial school. These monies are received and disbursed on behalf of the parochial school by the Treasurer of the School District, as directed by the parochial school.

The School District is associated with two jointly governed organizations, two insurance pools, and a related organization. These organizations are the Tri-Rivers Educational Computer Association (TRECA), Vanguard-Sentinel Joint Vocational School, the Ohio School Boards Association Workers' Compensation Group Rating Plan, the Wyandot-Crawford Health Benefit Plan, and the Upper Sandusky Community Public Library. Information about these organizations is presented in Notes 17, 18, and 19 to the general purpose financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Upper Sandusky Exempted Village School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to the proprietary funds provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

A. Basis of Presentation - Fund Accounting

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available expendable resources.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories governmental, proprietary, and fiduciary.

Governmental Fund Types

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition, use, and balances of the School District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds and trust funds) are accounted for through governmental funds. The following are the School District's governmental fund types:

<u>General Fund</u> - The General Fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Special Revenue Funds</u> - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

<u>Capital Projects Funds</u> - Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds or trust funds).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. Basis of Presentation - Fund Accounting (continued)

Proprietary Fund Types

Proprietary funds are used to account for the School District's ongoing activities which are similar to those found in the private sector. The following are the School District's proprietary fund types:

<u>Enterprise Funds</u> - Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

<u>Fiduciary Fund Types</u> - Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. These include expendable trust, nonexpendable trust, and agency funds. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Nonexpendable trust funds are accounted for in essentially the same manner as proprietary funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

<u>General Fixed Assets Account Group</u> - This account group is established to account for all fixed assets of the School District, other than those accounted for in proprietary funds or trust funds.

<u>General Long-Term Obligations Account Group</u> - This account group is established to account for all long-term obligations of the School District, except those accounted for in proprietary funds or trust funds.

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types and the expendable trust fund are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds and the nonexpendable trust fund are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Operating statements of these funds present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Measurement Focus and Basis of Accounting (continued)

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental fund types, expendable trust and agency funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period for the School District is sixty days after fiscal year end.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: taxpayer-assessed income taxes, grants, interest, tuition, student fees, and rent.

The School District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 1999, and delinquent property taxes, whose availability is indeterminable and which are intended to finance fiscal year 2000 operations, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

The accrual basis of accounting is utilized for reporting purposes by the proprietary fund types and the nonexpendable trust fund. Revenues are recognized in the accounting period in which they are earned, and expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the object level within each function. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Budgetary Process (continued)

Resources received through Senate Bill 81, which are reflected in the General Fund, and the Gifted and Talented and Public School Preschool special revenue funds are flow through grants in which the North Central Ohio Educational Service Center is the primary recipient. Budgetary information for these funds is not included within the School District's reporting entity for which the "appropriated budget" is adopted, and the School District does not maintain separate budgetary records.

Tax Budget

Prior to January 15, the Treasurer submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with the Wyandot County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2000.

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund, function, and object level of expenditures, which are the legal levels of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriation resolutions were legally enacted; however, none of these amendments were significant.

The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds, except agency funds, consistent with statutory provisions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Budgetary Process (continued)

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds and reported in the notes to the financial statements for proprietary funds.

Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Cash and Investments

To improve cash management, cash received by the School District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet.

During fiscal year 2000, investments were limited to STAR Ohio. These investments are reported at fair value.

The school district has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2000. STAR Ohio is an investment pool managed by the State Treasurer's office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2000.

Cash and cash equivalents held for the School District by the North Central Educational Service Center are included on the balance sheet as "Cash and Cash Equivalents with Fiscal Agent".

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with a maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents.

Restricted Assets and Reserve for Set-Asides

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve. These reserves are required by State statute and can be used only for defined purposes, requiring approval from the State Superintendent of Public Instruction.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

F. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2000, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

H. Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Reported materials and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available expendable resources even though it is a component of net current assets. Inventories of proprietary funds consist of donated food, purchased food, and school supplies held for resale and are expensed when used.

I. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in the fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of one hundred fifty dollars. The School District does not have any infrastructure.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Improvements are capitalized. Improvements to proprietary fund fixed assets are depreciated over the remaining useful lives of the related fixed assets.

Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the enterprise funds is computed using the straight-line method over an estimated useful life of twenty years.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

J. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for employees.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for teachers after ten years of current service, administrators after six years of current service, and after five years of current service for all other positions.

For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "Compensated Absences Payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

K. Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, compensated absences and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Payments made more than sixty days after fiscal year end are considered not to have used current available financial resources. Capital leases and long-term loans are reported as a liability of the general long-term obligations account group until due.

Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

L. Interfund Assets/Liabilities

Short-term interfund loans are classified as "interfund receivables/payables". Long-term interfund loans are classified as "advances to/from other funds" and are equally offset by a fund balance reserve account which indicates that they do not constitute available expendable resources since they are not a component of net current assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

M. Contributed Capital

Contributed capital represents resources from other funds, other governments, and private sources provided to proprietary funds that is not subject to repayment. These assets are recorded at their fair market values on the date donated. Depreciation on those assets acquired or constructed with contributed resources is expensed and closed to unreserved retained earnings at year end.

Because the School District did not prepare financial statements in accordance with generally accepted accounting principles prior to fiscal year 1993, the exact amount of contributed capital cannot be determined. Consequently, only those amounts that have been specifically identified have been classified as contributed capital in the accompanying combined financial statements. All other fund equity amounts pertaining to proprietary funds have been classified as retained earnings.

N. Fund Balance Reserves

The School District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves are established for property taxes, budget stabilization, inventories of materials and supplies, advances, contributions to the nonexpendable trust fund that must be kept intact, and encumbrances. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute.

O. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as grants awarded on a non-reimbursement basis, entitlements, and shared revenues are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and become measurable.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

O. Intergovernmental Revenues (continued)

The School District currently participates in several State and Federal programs, categorized as follows:

Entitlements General Fund State Foundation Program State Property Tax Relief School Bus Purchase Allocation Non-Reimbursable Grants Special Revenue Funds Auxiliary Services **Professional Development** Gifted and Talented **Education Management Information Systems** SchoolNet Professional Development Adult Basic Education Eisenhower Title VI-B Title I Title VI Title VI-R Drug Free Public School Preschool School Incentive Before and After School Capital Projects Funds SchoolNet Reimbursable Grants Special Revenue Funds Family Resource Center **Proprietary Funds** National School Lunch Program National School Breakfast Program Government Donated Commodities

Grants and entitlements amounted to approximately 47 percent of the School District's operating revenue during the 2000 fiscal year.

P. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Q. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned "Totals (Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Combined Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual - All Governmental Fund Types and Expendable Trust Fund and the Combined Statement of Revenues, Expenses, and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual - All Proprietary Fund Types and Nonexpendable Trust Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosure in the proprietary fund types (GAAP basis).
- 4. For proprietary funds, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).
- 5. Although not part of the appropriated budget, Senate Bill 81 resources in the General Fund and the Gifted and Talented and Public School Preschool special revenue funds are included as part of the reporting entity when preparing financial statements that conform with GAAP.

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING (continued)

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements by fund type.

Excess (Deficiency) of Revenues and Other Financing Sources Over (Under) Expenditures and Other Financing Uses Governmental Fund Types

	General	Specia1 Revenue	Capital Projects
Budget Basis	\$ (447,269)	(33,167)	(121,857)
Adjustments:

Expenditure Accrual		(54,122)
Encumbrances	_	19,723
GAAP Basis – Net Income	\$_	(543)

NOTE 4 – CASH AND CASH EQUIVALENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not to exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);

NOTE 4 – CASH AND CASH EQUIVALENTS (continued)

- 7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days from the date of purchase in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rated classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The School District had no investments at year end.

Cash on Hand - At fiscal year end, the School District had \$818 in cash with fiscal agent held by the North Central Ohio Educational Service Center. This amount is included on the balance sheet as "Cash and Cash Equivalents with Fiscal Agent".

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments, and Reverse Repurchase Agreements".

Deposits - At fiscal year end, the carrying amount of the School District's deposits was \$1,520,419 and the bank balance was \$1,760,448. Of the bank balance:

- 1. \$200,000 was covered by federal depository insurance; and
- 2. \$1,560,448 was uninsured and uncollateralized. Although all state statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

Investments – The School District's investments are required to be categorized to give an indication of the level of risk assumed by the School District at year end. Category 1 includes investments that are insured or registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which securities are held by the counterparty or its trust department, but not in the District's name. STAR Ohio is an unclassified investment since it is not evidenced by securities that exist in physical or book entry form.

	Carrying <u>Amount</u>	Market <u>Value</u>
STAR Ohio - Not Categorized	\$1,693,904	\$1,693,904

NOTE 4 – CASH AND CASH EQUIVALENTS (continued)

The classification of cash and cash equivalents and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9, "Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting".

A reconciliation between the classifications of cash and cash equivalents and investments on the combined financial statements and the classifications of deposits and investments presented above per GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents		
	Deposits	Investments	
GASB Statement 9	\$ 3,217,941	-	
State Treasurer's Investment Pool	(1,693,904)	1,693,904	
Cash on Hand	(2,800)	-	
Cash with Fiscal and Escrow Agents	(818)	<u> </u>	
GASB Statement 3	<u>\$ 1,520,419</u>	<u>\$ 1,693,904</u>	

NOTE 5 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value.

Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are 25 percent of true value. The assessed value upon which the 1999 taxes were collected was \$183,489,920, of which real and public utility property represented 73% (\$133,384,980) of the total and tangible personal property represented 27% (\$49,654,940).

After adjustment of the rate for inflationary increases in property values, the effective rate was \$20 per \$1,000 of assessed valuation for real property classified as residential/agricultural and \$23.27 per \$1,000 of assessed valuation for all other real property. Real property owner's tax bills are further reduced by homestead and rollback deductions, when applicable. The amount of these homestead and rollback reductions is reimbursed to the District by the State of Ohio.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

NOTE 5 - PROPERTY TAXES (continued)

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The School District receives property taxes from Wyandot, Marion and Crawford Counties. The Counties' Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the Counties by June 30, 2000, are available to finance fiscal year 2000 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility property taxes which became measurable as of June 30, 2000. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2000, was \$298,422, in the General Fund. The amount available as an advance at June 30, 1999, was \$372,964 in the General Fund.

NOTE 6 - INCOME TAXES

The School District levies a voted tax of ½ percent for general operations on the income of residents and of estates. The tax was effective on January 1, 2000, and will continue for five years. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

NOTE 7 - RECEIVABLES

Receivables at June 30, 2000, consisted of property and income taxes, accounts (student fees and billings for user charged services), intergovernmental grants, accrued interest, and interfund receivables. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds

NOTE 8 - FIXED ASSETS

A summary of the enterprise funds' fixed assets at June 30, 2000, follows:

Furniture and Equipment	\$ 180,957
Less Accumulated Depreciation	(135,364)
Net Fixed Assets	\$ 45,593

A summary of the changes in general fixed assets during fiscal year 2000 follows:

Asset Category	Balance at 6/30/99	Additions	Deletions	Balance at 6/30/00
Land and Improvements	\$ 174,492	\$ -	\$ -	\$ 174,492
Buildings and Improvements	5,083,122	589,183	-	5,672,305
Furniture, Fixtures, and Equipment	3,385,335	361,725	30,538	3,716,522
Books	1,188,751	167,036	-	1,355,787
Vehicles	1,373,620	126,136	143,499	1,356,257
Totals	\$11,205,320	\$ 1,244,080	\$ 174,037	\$12,275,363

NOTE 9 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2000, the School District contracted for the following coverages :

Building and Contents -replacement cost (\$1,000 deductible)	\$26,411,354
Inland Marine Coverage (\$250 deductible)	419,891
Boiler and Machinery (\$1,000 deductible)	26,411,354
Automobile Liability (\$250 deductible)	2,000,000
Uninsured Motorists (\$250 deductible)	12,500/25,000
General Liability	
Per occurrence	1,000,000
Total per year	5,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years and there have been no significant reductions in insurance coverage from last year.

NOTE 9 - RISK MANAGEMENT (continued)

INSURANCE PURCHASING POOLS:

<u>OSBA Workers' Compensation Group Rating Program</u> - The District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP) established in April, 1991. The program was created by the Ohio School Boards Association as a result of the Workers' Compensation group rating plan, as defined in Section 4123.29, Ohio Revised Code. The group rating plan will allow school districts to group together to potentially achieve a lower premium rate than they may otherwise be able to acquire as individual employers. Each participant pays its workers' compensation premium to the State based on the rate for the Plan rather than its individual rate.

Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the Plan. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the Plan. Participation in the Plan is limited to school districts that can meet the Plan's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control, and actuarial services to the Plan.

<u>Wyandot-Crawford Health Benefit Plan</u> - Beginning in fiscal year 1997, the School District participated in the Wyandot-Crawford Health Benefit Plan (the Plan), a public entity shared risk pool consisting of five school districts, operating as a common risk management and insurance program for the member districts. The School District pays monthly premiums to the Plan for insurance coverage. The Plan is responsible for the management and operations of the program. Upon withdrawal from the Plan, the participant is responsible for the payment of all Plan liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

NOTE 10 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement Systems

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer public employee retirement system administered by the School Employees Retirement Board. SERS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3309 of the Ohio Revised Codes. SERS issues a publicly available financial report that includes financial statements and required supplementary information for SERS. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634.

Plan members are required to contribute 9 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$178,404, \$167,232, and \$133,409, respectively; 50 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998, \$94,788 representing the unpaid contribution for fiscal year 2000, including the surcharge, is recorded as a liability within the respective funds.

B. State Teachers Retirement System

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

NOTE 10 - DEFINED BENEFIT PENSION PLANS (continued)

Plan members are required to contribute 9.3 percent of their annual covered salary and the District is required to contribute 14 percent. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The District's contributions for pension obligations to STRS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$680,028, \$628,536, and \$522,612, respectively; 83.3 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998, \$121,920 representing the unpaid contribution for fiscal year 2000, including the surcharge, is recorded as a liability within the respective funds.

The District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 9.3 percent of their annual covered salary and the District is required to contribute 14 percent. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The District's contributions for pension obligations to STRS for the fiscal years ended June 30, 2000, 1999, and 1998 were \$823,440, \$723,456, and \$740,064, respectively; 83.3 percent has been contributed for fiscal year 2000 and 100 percent for fiscal years 1999 and 1998. \$137,240 representing the unpaid contribution for fiscal year 2000, is recorded as a liability within the respective funds.

C. Social Security

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have the option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. As of June 30, 2000, two members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

NOTE 11 – POST-EMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired classified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by the State Statute. Both systems are funded on a pay as you go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended

June 30, 2000, the STRS Board allocated employer contributions equal to 8 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$388,587 for fiscal year 2000. The balance in the Health Care Reserve Fund was \$2.783 million at June 30, 1999 (the latest information available). For the year ended June 30, 2000, net health care costs paid by STRS were \$249,929,000 and STRS had 95,796 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

NOTE 11 – POST-EMPLOYMENT BENEFITS (continued)

For the fiscal year ended June 30, 1999, employer contributions to fund health care benefits were 6.3 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 15 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2000, the minimum pay has been established at \$12,400. The surcharge rate added to the unallocated portion of the 14 percent employer contribution rate provides for maintenance of the asset target level for the health care fund. For the district, this amount equaled \$107,666 during the 2000 fiscal year.

The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care at June 30, 1999 (the latest information available), were \$126,380,984 and the target level was 189.6 million. At June 30, 1999, SERS had net assets available for payment of health care benefits was 188.0 million. The number of participants currently receiving health care benefits is approximately 51,000.

NOTE 12 - EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements, Board policies and State laws. Only administrative and support personnel who are under a full year contract (12 months) are eligible for vacation time. The Superintendent is granted twenty days of vacation per year and the Treasurer is granted twenty days per year. Classified staff are granted days as follows:

Years of Service	Vacation Days
1-9	10
9-19	15
20+	20

Vacation time for classified employees has use restrictions. Employees are expected to use earned vacation during the ensuing twelve month period. If at the end of the twelve month period, an employee has not used all of their earned vacation, the employee has the option of transferring the unused vacation to the following year. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment, based upon their years of service.

Each employee earns sick leave at the rate of one and one-fourth days per month. Sick leave shall accumulate during active employment on a continuous year-to-year basis. Maximum sick leave accumulation for severance is 190 days. Upon retirement, payment is made for 25 percent of the employee's balance based upon their years of service. Teachers are also entitled to an additional forty bonus days if certain requirements are met.

B. Health Care Benefits

The School District offers medical, dental, and Ife insurance to most employees through Wyandot-Crawford Health Benefit Plan. The School District offers cancer insurance to its employees through American Family Life or Capital American Life. Premiums vary for each employee depending on the terms of the union contracts.

NOTE 13 - CAPITAL LEASES - LESSEE DISCLOSURE

The School District has entered into capitalized leases for equipment. Each lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. New capital leases are reflected in the accounts "Capital Outlay" and "Inception of Capital Lease" in the fund which will be making the lease payment. Capital lease payments are reflected as debt service expenditures on the combined financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements.

Principal payments in fiscal year 2000 totaled \$30,507 in the General Fund.

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2000.

Fiscal Year Ending June 30,	GLTDAG
2001	33,991
2002	26,916
2003	20,740
2004	20,740
2005	5,939
Total	108,326
Less: Amount Representing Interest	(15,007)
Present Value of Minimum Lease Payments	93,319

NOTE 14 – NOTES AND LONG-TERM DEBT

Long-term obligations of the District as of June 30, 2000 were as follows:

Energy Conservation Improvement Notes totaling \$265,000 were issued on February 21, 1991, b provide energy conservation measures for the School District. A loan was issued under the authority of Ohio Revised Code sections 133.06(G) and 3313.372 at 6.5% interest, for a ten year period, with final maturity in fiscal year 2002.

Energy Conservation Improvement Notes totaling \$72,875 were issued on May 23, 1997, to provide energy conservation measures for the School District. A loan was issued under the authority of Ohio Revised Code sections 133.06(G) and 3313.372 at 5.38% interest, for a ten year period, with final maturity in fiscal year 2007.

The District received an interest-free Smart Financing Loan in the amount of \$106,357, on October 31, 1997, for a five year period, with final maturity in fiscal year 2002.

Compensated absences will be paid from the fund from which the employees' salaries are paid. Capital leases will be paid from the General Fund.

NOTE 14 - LONG-TERM OBLIGATIONS (continued)

....

Fiscal year Ending June 30,	Principal	Interest	Total
2001	60,039	6,229	66,268
2002	63,408	3,683	67,091
2003	14,615	2,156	16,771
2004	7,936	1,746	9,682
2005	8,369	1,313	9,682
2006-2007	18,131	1,233	19,364
Total	\$172,498	\$16,360	\$188,858

Principal and interest requirements to retire energy conservation loans at June 30, 2000, are as follows:

A summary of changes in long-term obligations for the year ended June 30, 2000, are as follows:

	Balance		Principal		Balance
	July 1, 1999	Additions	Payments	Retirements	June 30, 2000
Energy Conservation Notes					
Payable	160,281	0	37,417	0	122,864

Total Assets	111,225	14,680	8,536	134,441
Total Equity (Deficit)	26,730	14,680	8,536	49,946

NOTE 17 - JOINTLY GOVERNED ORGANIZATIONS

A. Tri-Rivers Educational Computer Association

The School District is a participant in the Tri-Rivers Educational Computer Association (TRECA), which is a computer consortium. TRECA is an association of public school districts within the boundaries of Delaware, Marion, Morrow, and Wyandot Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of TRECA consists of two representatives from each county elected by majority vote of all charter member school districts within each county plus one representative from the fiscal agent. Financial information can be obtained from Mike Carder, who serves as Director, at 2222 Marion-Mt. Gilead Road, Marion, Ohio 43302.

NOTE 17 - JOINTLY GOVERNED ORGANIZATIONS (continued)

B. Vanguard-Sentinel Joint Vocational School

The Vanguard-Sentinel Joint Vocational School (JVS) is a distinct political subdivision of the State of Ohio which provides vocational education for students. The JVS is operated under the direction of a Board consisting of one representative from the Upper Sandusky Local School District, one representative from twelve other participating school districts, and two representatives from the Fremont City School District. The JVS possesses its own budgeting and taxing authority. Financial information can be obtained from Jay Valasek, Vanguard-Sentinel Joint Vocational School, at 1306 Cedar Street, Fremont, Ohio 43420.

NOTE 18 - INSURANCE POOLS

A. Ohio School Boards Association Workers' Compensation Group Rating Plan

The School District participates in a group rating plan for workers' compensation as established under Section 4123.29, Ohio Revised Code. The Ohio School Boards Association Workers' Compensation Group Rating Plan (the Plan) was established through the Ohio School Boards Association (OSBA) as a group purchasing pool. The group rating plan will allow school districts to group together to potentially achieve a lower premium rate than they may otherwise be able to acquire

The Plan's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the Plan. Each year, the participating school districts pay an enrollment fee to the Plan to cover the costs of administering the program.

B. Wyandot-Crawford Health Benefit Plan

The Wyandot-Crawford Health Benefit Plan (the Plan) is a public entity shared risk pool consisting of five school districts. The Plan is organized as a Voluntary Employee Benefit Association under section 501(c)(9) of the Internal Revenue Code and provides sick, accident, and other benefits to employees of the participating school districts. Each participating school district's superintendent is appointed to the Board of Directors which advises the Trustee, Huntington Trust Company, N.A., concerning aspects of the administration of the Plan.

Each school district decides which benefit programs offered by the Plan will be extended to its employees. Participation in the Plan is by written application subject to acceptance by the Board of Directors and payment of the monthly premiums. Financial information can be obtained from Elaine Shaffley, Account Manager, 229 Huber Village Blvd., Westerville, Ohio 43081-5325.

NOTE 19 - RELATED ORGANIZATION

Upper Sandusky Community Public Library

The Upper Sandusky Community Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Upper Sandusky Exempted Village School District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel, and does not depend on the School District for operational subsidies. Although the School District serves as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate, and the purpose are discretionary decisions made solely by the Board of Trustees. The Library is not considered part of the School District, and its operations are not included within the accompanying financial statements. Financial information can be obtained from the Upper Sandusky Community Public Library, John Lyon, Clerk/Treasurer, at 310 North Sandusky Avenue, Upper Sandusky, Ohio 43351.

NOTE 20 - SCHOOL FUNDING DECISION

On March 24, 1997, the Ohio Supreme Court rendered a decision declaring certain portions of the Ohio school funding plan unconstitutional. The Court stayed the effect of its ruling for one year to allow the State's legislature to design a plan to remedy the perceived defects in that system. Declared unconstitutional was the State's "school foundation program", which provides significant amounts of monetary support to the School District. During the fiscal year ended June 30, 2000, the School District received \$4,266,018 of school foundation support for its general fund.

Since the Supreme Court ruling, numerous pieces of legislation have been passed by the State General Assembly in an attempt to address the issues identified by the Court. The Court of Common Pleas in Perry County reviewed the new laws and, in a decision issued on February 26,1999, determined they are not sufficiently responsive to the constitutional issues raised under the "thorough and efficient" clause of the Ohio Constitution. The State appealed the decision made by the Court of Common Pleas to the Ohio Supreme Court. On May 11, 2000, the Ohio Supreme Court rendered an opinion on this issue. The Court concluded, "…the mandate of the [Ohio] Constitution has not been fulfilled." The Court's March 24, 1997, decision, however, it found seven "…major areas warrant further attention, study, and development by the General Assembly…", including the State's reliance on local property tax funding, the state's basic aid formula, the school foundation program, as discussed above, the mechanism for, and adequacy of, funding for school facilities, and the existence of the State's School Solvency Assistance Fund, which the Court found took place of the unconstitutional emergency school loan assistance program.

The Court decided to maintain jurisdiction over these issues and continued the case at least until June 15,2001.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this ongoing litigation will have on its future State funding under this program and on its financial operations.

NOTE 21 - CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2000.

B. Litigation

The School District is a party to legal proceedings. The School District is of the opinion that the ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

NOTE 22 - STATUTORY RESERVES

The School District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. During the fiscal year ended June 30, 2000, the reserve activity was as follows:

	Textbook <u>Acquisition</u>	Capital <u>Acquis ition</u>	Budget <u>Stabilization</u>	Total
Set-Aside Cash Balance as of June 30, 1999 Current Year Set-Aside Requirement Qualifying Disbursements	\$ - 227,121 \$ <u>(359,707)</u>	\$ 78,752 227,121 \$ <u>(818,080)</u>	\$ 76,286 75,707 \$	\$ 155,038 529,949 \$ <u>(1,177,787)</u>
Cash Balance Carried Forward to Fiscal Year 2001	\$ <u>(132,586)</u>	\$ <u>(512,207)</u>	\$ <u>151,993</u>	\$ <u>(492,800)</u>
Amount Reserved for Set-Asides				\$ <u>151,993</u>

Although the district's qualifying capital acquisition disbursements exceeded the set aside requirement, excess capital acquisition amounts are not permitted to be carried forward to offset future set-asides. Furthermore, qualifying disbursements in excess of individual set-aside requirements do not offset the current year's total amount to be reserved for set asides.

NOTE 23 – FIXED ASSETS

The following is a summary of changes in the General Fixed Assets Account Group during the fiscal year 2000

Land and Improvements	General Fixed Assets June 30, 2000 \$ 174,492	Additions \$0	<u>Deletions</u> \$ 0	General Fixed Assets June 30, 2000 \$ 174,492
Buildings and Improvements	5,083,122	589,183	0	5,672,305
Furniture and Equipment	3,385,335	361,725	30,538	3,716,522
Books	1,188,751	167,036	0	1,355,787
Vehicles	1,373,620	126,136	143,499	1,356,257
Total General Fixed Assets	\$ <u>11,205,320</u>	1,244,080	174,037	12,275,363

The District had no construction in progress at June 30, 2000

CERTIFIED PUBLIC ACCOUNTANTS BUSINESS AND GOVERNMENT CONSULTANTS

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS

Board of Education Upper Sandusky Exempted Village School District 390 West Walker Street Upper Sandusky, Ohio 43351

We have audited the general purpose financial statements of the Upper Sandusky Exempted Village School District, Wyandot County, Ohio, (the District) as of and for the year ended June 30, 2000, and have issued our report thereon dated December 15, 2000. We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller Ge neral of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Board of Education Upper Sandusky Exempted Village School District 390 West Walker Street Upper Sandusky, Ohio 43351

Compliance

We have audited the compliance of Upper Sandusky Exe mpted Village School District, Wyandot County, Ohio (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2000. The District s major federal program is identified in the summary of auditor s results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District s management. Our responsibility is to express an opinion on the District s compliance based on our audit.

We conducted our audit of compliance in accordance with generally accepted auditing standards; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District s compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2000.

Steen and Co. LLC NORTHWOODS CORPORATE CENTER 110 NORTHWOODS BLVD/SUITE 210 COLUMBUS, OHIO 43235 OFFICE: (614) 848-7855 FAX: (614) 888-8634

CERTIFIED PUBLIC ACCOUNTANTS BUSINESS AND GOVERNMENT CONSULTANTS

Board of Education Upper Sandusky Exempted Village School District Report on Compliance with Requirements Applicable to Each Major Federal Program and Internal Control Over Compliance in Accordance with OMB Circular A-133 Page 2

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District s internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of officials authorized to receive this report under Section 117.26, of the Ohio Revised Code, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

The accompanying notes to this schedule are an integral part of this schedule.

FOR THE YEAR ENDED JUNE 30, 2000

NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) summarizes activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B – FOOD DISTRIBUTION

Non-monetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the Schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first. At June 30, 2000, the District had no significant food commodities in inventory.

SCHEDULE OF FINDINGS OMB CIRCULAR A-133 § .505

JUNE 30, 2000
