Members of City Council
City of Urbana

We have reviewed the Independent Auditor's Report of the City of Urbana, Champaign County, prepared by Charles E. Harris & Associates, Inc. for the audit period January 1, 2001 through December 31, 2001. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Urbana is responsible for compliance with these laws and regulations.

A handwritten signature in black ink, appearing to read "Jim Petro".

**OPINION ON SUPPLEMENTARY SCHEDULE
OF FEDERAL AWARDS EXPENDITURES**

**The Honorable Mayor and City Council
City of Urbana
Urbana, Ohio**

We have audited the basic financial statements of the City of Urbana, Ohio, as of and for the year ended December 31, 2001, and have issued our report thereon dated July 17, 2002, wherein we noted the City adopted Governmental Accounting Standards Board Statement Nos. 33, 34, and 36 for the year ended December 31, 2001. These basic financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits conducted in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was performed for the purpose of forming an opinion on the basic financial statements of the City of Urbana taken as a whole. The accompanying Schedule of Federal Awards Expenditures is presented for purposes of additional analysis as required by the *U.S. Office of Management and Budget, Circular A-133, Audit of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. The information in that schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

CITY OF URBANA, OHIO
Notes to the Schedule of Federal Awards Expenditures
For the Year Ended December 31, 2001

1. Significant Accounting Policies

The accompanying schedule of federal awards expenditures is a summary of the activity of the City's federal award programs. The schedule has been prepared on the cash basis of accounting. Consequently, certain revenues are recognized when received rather than when earned, and certain expenditures are recognized when paid rather than when the obligation is incurred.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and City Council
City of Urbana
Urbana, Ohio

We have audited the basic financial statements of the City of Urbana, Ohio as of and for the year ended December 31, 2001, and have issued our report thereon dated July 17, 2002, wherein we noted the City adopted Governmental Accounting Standards Board Statement Nos. 33, 34, and 36 for the year ended December 31, 2001. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the City's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management in a separate letter dated July 17, 2002.

Internal Controls Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the basic financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted other matters involving the internal control over financial reporting that we have reported to the management of the City in a separate letter dated July 17, 2002.

This report is intended for the information and use of the audit committee, management, others within the organization, City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Charles E. Harris & Associates, Inc.
July 17, 2002

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

The Honorable Mayor and City Council
City of Urbana
Urbana, Ohio

Compliance

We have audited the compliance of the City of Urbana, Ohio with the types of compliance requirements described in *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended December 31, 2001. The City's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and *OMB Circular A-133* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended December 31, 2001.

Internal Control Over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with *OMB Circular A-133*.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the audit committee, management, others within the organization, City Council, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

City of Urbana
205 S Main St.
Urbana, Ohio 43078

July 15, 2002

To the Honorable Mayor, City Council and the Citizens of the City of Urbana, Ohio

The Comprehensive Annual Financial Report of the City of Urbana, Ohio is hereby submitted for your review. This report, although not legally required, represents the commitment the City of Urbana to submit to nationally recognized standards of excellence in its financial reporting.

Management is responsible for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures. We believe that the data presented in this report is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the City. Further, we believe that all disclosures necessary to enable the reader to gain an understanding of the City of Urbana's activities have been included.

This Comprehensive Annual Financial Report incorporates financial reporting standards established by Governmental Accounting Standards Board Statement No. 34- Basic Financial Statements and Management's Discussion & Analysis for State and Local Governments. Statement 34 was developed to make annual financial reports of governments more comprehensive and easier to understand a use. Except for the requirement to retroactively report general infrastructure assets, this report incorporates all required elements of Statement 34 two years before the required implementation date. Retroactive restatement of general infrastructure assets is not required until the report for the year ending December 31, 2007; however, management intends to comply with this requirement in advance of the due date.

The accompanying report consists of three major sections:

1. Introductory Section

As the title indicates, this section introduces the reader to the report and includes this transmittal letter, a listing of City officials and a City organizational chart.

2. Financial Section

The Financial Section of the report is structured in the form of a financial "reporting pyramid" beginning with broad-based financial data followed by more specific financial data. The financial section includes the report of the independent auditors, the Management Discussion and Analysis, the Basic Financial Statements including the Notes to the Basic Financial Statements, and Required Supplementary Information. The remainder of the Financial Section presents more specific combining statements of individual funds and schedules.

3. Statistical Section

The Statistical Section includes a number of tables of unaudited data depicting the financial history of the City for the past ten years plus demographic data and other miscellaneous information.

GENERAL INFORMATION

Urbana covers approximately six square miles, with a population of 11,613 (2000 U.S. Census). Urbana is located 15 miles north of Springfield and has several nationally- known companies such as Honeywell, Sieman Allis, and most recent addition in 1999 of Rittal. The prominent landmark and commonly used reference point of the City is "The Man on the Monument" or "Monument Square" located at the heart of downtown at the intersection of U.S. Route 68 (north & south) and U.S. Route 36 (east and west). The Man on the Monument is a casting of a Union Cavalryman and was placed in the square in 1871.

MUNICIPAL SERVICES AND FACILITIES

The City of Urbana provides a full range of basic municipal services including police and fire protection, ambulance services, parks, recreation, street maintenance, zoning, economic and community development, cemetery, water, sewer, airport and general government support.

The City of Urbana designed the following mission statement: "The City of Urbana employees are committed to provide a superior quality and cost effective service that meets the needs of the community and promotes the feeling of security and safety." Each division has prepared key strategies that will help the City employees and officials achieve the City's mission. Several of the goals mentioned in the "Major Projects" and "Outlook" section support these strategies. In support of Total Quality Management, the City is continually improving the efforts to meet our mission statement.

GOVERNMENT ORGANIZATION

The municipal government provided by the Urbana Charter is best described as the "mayor-administrator-council" form of government and applies to the residents of the City.

This form of home rule was recommended by the Urbana Charter Commission in 1977, and subsequently approved by City voters. It provides a great measure of administrative and legislative control and efficiencies while maintaining direct participation by the residents of the community.

The City Charter continues to have widespread support among the city electorate. At the beginning of 2000, Council appointed a 12-member Charter Review Committee to conduct a scheduled and charter-mandated review of the governing document. Later that year, the committee submitted seven minor changes which were placed on the May ballot. Six of the seven proposed changes were approved by a majority of voters.

Under the Urbana Charter form of government nine persons are elected to office: the Mayor, seven members of City Council and the President of City Council. All other members of the governing and advisory structure are appointed.

The Mayor is elected to a four-year term as the chief executive officer of the City. He appoints the Directors of Administration, Finance, and Law, as well as members of most City boards, commissions, and committees. The Mayor is responsible for all aspects of City government and is the ceremonial representative of the City. He may veto actions of City Council.

In general terms, the Urbana government structure can be compared to the federal or state structures. There is an executive branch, the Mayor and his appointees, which oversees the day-to-day working of the City; the legislative branch, the City Council, which drafts, submits, and approves laws by which the City is governed; and the judicial branch, the Municipal Court, which administers City and state laws.

DEPARTMENTAL HIGHLIGHT

Each year in this report we spotlight the activities and accomplishments of one of the outstanding departments or divisions of the City. This year, the focus is upon the Urbana Street Maintenance Division, located at 416 Taft Avenue. The citizens of Urbana are rewarded with a dedicated group of 11 employees and the Street Superintendent Richard McCain, who has been with the City for 33 years of service, that

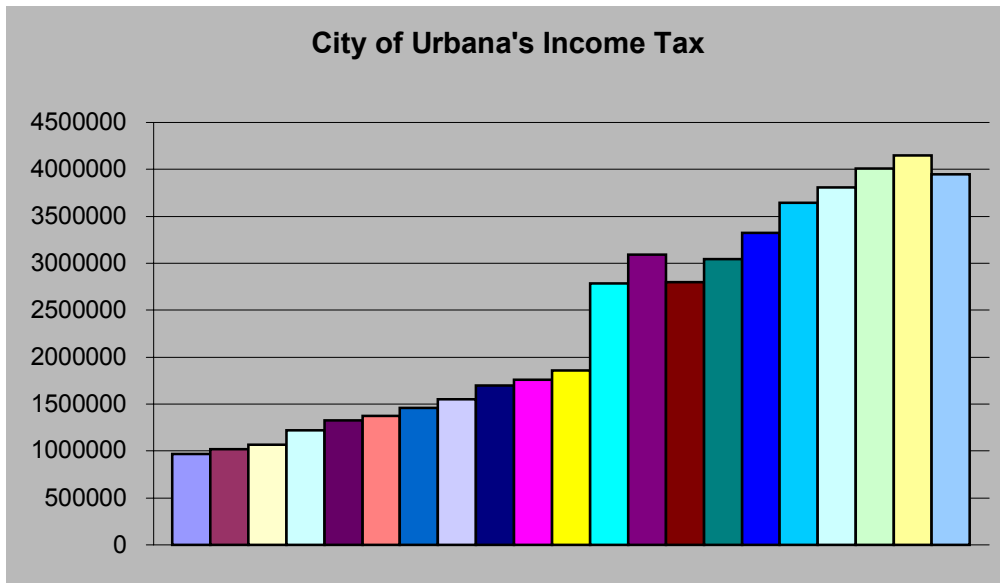

given time and material can accomplish many minor projects. The Street Department maintains approximately 57 miles of streets, snow plowing, sweeping, leaf clean-up, and general maintenance. The Street Department also provides the equipment and manpower to dig water and sewer line repairs and projects.

ECONOMIC CONDITION AND OUTLOOK

Grimes Field is the legacy of Warren Grimes, Urbana’s premier entrepreneur and “Father of the Aircraft Lighting Industry.” At the age of 15, Grimes ran away from his orphanage home in Tiffin, Ohio, to live with his brother Frank in Detroit to work for Ford. Eventually he left Ford to become a partner in an electrical business, designing lighting fixtures. Impressed with Grimes’ work Henry Ford approached him in the mid 1920s to design new lights Ford and Tri-Motors. 48 hours after the request, Grimes produced the light Ford wanted and “the rest is history.” In 1930, Grimes returned to Urbana with a plan to market his design to Waco Aircraft in Troy, Ohio. Waco found his lights to be superior, as did many other companies, and from 1932 to 1942 Grimes’ company grew from 20 employees to 1300.

In the 1930’s Mr. Grimes purchased the Johnson Farm just north of Urbana. On August 8, 1943, opening ceremonies were held in front of a large crowd and Mr. Grimes presented Grimes Field to the City of Urbana. Grimes has changed several times and is currently Honeywell Incorporated and accounts for approximately 20% of the City’s income tax. Fortunately, several small industries over the years have complimented the tax receipts.

A twenty-year history of income tax reflect strong average increase of 7.75% with only two years of decline. The decline occurred in 1994 with the lose of the second largest employer, Drackett, and the slow economy of 2001. The City was fortunate to attract Rittal, who now operates facility vacated by Drackett.

Economic Environment Today

As mentioned early Grimes Honeywell is a major part of Urbana, however we are fortunate to have several small stable additional industries to support Urbana. Siemen-Allis, Rittal, Menahsa, Fox River Paper, Q3 and RT Bundy are the key local industries. Honda of America in Marysville, KTH in St. Paris, and TruTech north of Urbana are industries outside Urbana the our residents are employed.

The Champaign County Chamber of Commerce and the Ohio State Economic Development Department are continuously researching to attract new industries to our industrial area on the south edge of town and our airport that can be a strong tool in attracting the new employer.

2001 Economic Activity and Outlook

Income Tax receipts, the largest single source of revenues, were down 7% in 2001. The City struggled with cut backs in services for 2002 to balance the budget. The lower income taxes and increased health care impacted the City finances in 2001 to a cash operating deficit of \$240,000, 1/3 of the reserve. In late 2001 the City saw positive economic signs with two major employers (Rittal Corporation and Howard Paper). The City is being careful in spending in early 2002 after a poor 2001. One of the goals of the City must be to rebuild a comfortable General Fund reserve.

The Water Fund will struggle through the need to address the water quality issue. One factor in favor of Urbana is the Water and Sewer rates are one of the lowest rate in the Miami Valley of West Central Ohio.

Several projects were completed and several are planned with the cooperative efforts of the Champaign County offices and City Urbana offices. The new cooperative approach to common problems is providing both entities new and exciting methods to provide our citizens the necessary services. The project that is on going is the Emergency 9-1-1 dispatch center that is expected to handle fire, emergency medical, Police and Sheriff dispatching for the entire county.

In August 2001 the City opened the new 4500 foot runway with plenty of available acres for expansion and in the past year the State opened the US Route 68 By-Pass south of town which has eased the accessibility to a major four-lane highway. The City of Urbana industrial land is available on the south side. These factors along with tax incentives provide Urbana several options to help locate a new industry.

Major Initiatives

The City of Urbana has four major project progresses through 2000 and into 2001. The first is an exciting team effort with the Federal Aviation Administration, Ohio Department of Transportation, Champaign County, the City of Urbana, and several private individuals to accelerate the grant process for a new 5,000 foot runway at Grimes Municipal Airport. New privately owned hangars, a new hangar to house an aviation business, and purchase of land will show community support with new involvement to complete steps in the master plan of the airport expansion. The cost of this project is \$ 4.2 million and is estimated to be 65% complete at the end of the year.

The second project involves increasing the City of Urbana above ground water storage; the project consists of plans for a new 750,000 gallon water towers. The estimated cost of construction is \$ 960,000. Once again the City will use multiple sources to fund the project, low interest loan from the Ohio Water Development Authority, an interest free loan and a grant from the Ohio Public Works Commission. The tower was completed and in service May of 2001.

The third project is of major concern; the City of Urbana water supply is at risk. The current level of volatile organic compounds is far below the drinking water standards; however, the monitoring wells installed in 1996 for wellhead protection indicates level above the standard. The City, Bennett & Williams (Engineers), and the Ohio Environmental Protection Agency have combined effort to make plans to resolve the issue and look for alternative well field sites.

Finally, a project consisting of a community effort to rehabilitate the Downtown area with grants, financial institutes, local, state and private monies to improve the traffic signal system, lighting and structures. The City and Champaign County are jointly pressing the State to get funding for a Route 68 by-pass.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

The Finance Department is responsible for providing all City financial services including financial accounting and reporting, payroll, accounts payable, disbursement functions, cash and investment management, debt management, budgeting, purchasing, contract administration, utility customer services, income tax administration, and special financial and policy analysis for City management. The Director of

Finance supervises the department's operations.

The City utilizes a computerized financial accounting system which includes a system of internal accounting controls. Such controls have been designed and are continually being re-evaluated to provide reasonable, but not absolute, assurance regarding:

1. The safeguarding of assets against loss from unauthorized use or disposition, and records for preparing financial statements and maintaining accountability for assets.
2. The reliability of financial records for preparing financial statements and maintaining accountability of assets.

The concept of reasonable assurance recognizes that:

1. The cost of a control should not exceed the benefits likely to be derived, and
2. The evaluation of costs and benefits requires estimates and judgment by management.

All internal control evaluations occur within the above framework, and are believed to adequately safeguard assets and to provide reasonable assurance of proper recording of financial transactions.

Budgetary control is maintained by the adoption of an annual appropriation ordinance and amendments thereto. The annual budget is proposed by the Mayor and enacted by the City Council after public discussion. Prior to the issuance of purchase orders, a corresponding amount of appropriations is reserved by the use of encumbrances for later payment to assure that appropriations will not be overspent. A more detailed explanation of budgetary control is provided in the Notes to the Basic Financial Statements.

RISK MANAGEMENT

The City protects itself from liabilities that arise from unforeseen events through a variety of insurance policies. Outside contractors are required to carry liability coverage while undertaking and completing projects for the City.

The City carries comprehensive vehicle insurance to cover fifty vehicles that are commonly operated on public roadways. The policy coverage provides up to \$250,000 for each individual injury or \$500,000 for each occurrence and up to \$100,000 for property damage, and it includes underinsured or uninsured motorist coverage. All other self-propelled equipment such as mowers and front-end loaders are insured through the City's comprehensive business policy.

The comprehensive business policy provides more than \$17 million of building and property protection as well as \$500,000 of general liability coverage. Both the public official liability and the police officials liability insurance policies provide up to \$1 million coverage per incident and annual aggregate.

The City employees health insurance was a partial self-funded plan that was impacted significantly through usage in 1999. The weaker market and higher employee usage resulted in a 12% increase for 2000-2001 and terminal by out of approximately \$ 108,000. The City had a fully insured plan for 2000-2001, and in 2002 the City insurance increased 16% of which the employees contribute nothing.

CASH MANAGEMENT

The City of Urbana pools all available cash for maximum investment efficiency and return. All interest from the general pool of City funds is credited to the General Fund. In compliance with Chapter 133 of the Codified Ordinances of the City of Urbana, the investment of proceeds from the gas system sale are invested, and 100 percent of the interest is credited to the General Fund as long as the Supplemental Investment Fund maintains a balance greater than \$150,000. The majority of investments are timed

Certificates of Deposit.

Bequests made to the Cemetery Trust Principal Fund must remain permanently in the City's possession. The interest earned can be used for the maintenance of Oak Dale Cemetery, and is credited to the Cemetery Trust Income Fund.

<u>Interest Earnings</u>	
General Fund	\$205,748
Community Development Block Grant Fund	3,017
Supplemental Investment Fund	16,572
Capital Project Fund	<u>5,648</u>
Total	<u>\$230,985</u>

INDEPENDENT AUDIT

Included in the financial section is the independent auditors' opinion, which is a significant part of the Comprehensive Annual Financial Report. The financial statements have received an "unqualified opinion" from Charles Harris & Associates indicating that the general purpose financial statements are presented fairly and in conformity with generally accepted accounting principles.

ACKNOWLEDGMENT

The preparation of this report could not have been accomplished on a timely basis without the dedicated efforts of a highly qualified staff. I would like to express my appreciation to all the staff within the Finance Department.

Many other departments and offices also contributed to the preparation of this report. In particular, all division heads provided much assistance in the preparation of fixed asset records and inventory process.

I wish to thank Champaign County Auditor Bonnie M. Warman and her staff for their efforts in obtaining assessment and taxation rates for property taxes, and Champaign County Treasurer Kermit Russell and his staff for information regarding collection of property taxes.

I would also like to acknowledge the staff of Charles Harris & Associates for the timely review of the City's financial reports.

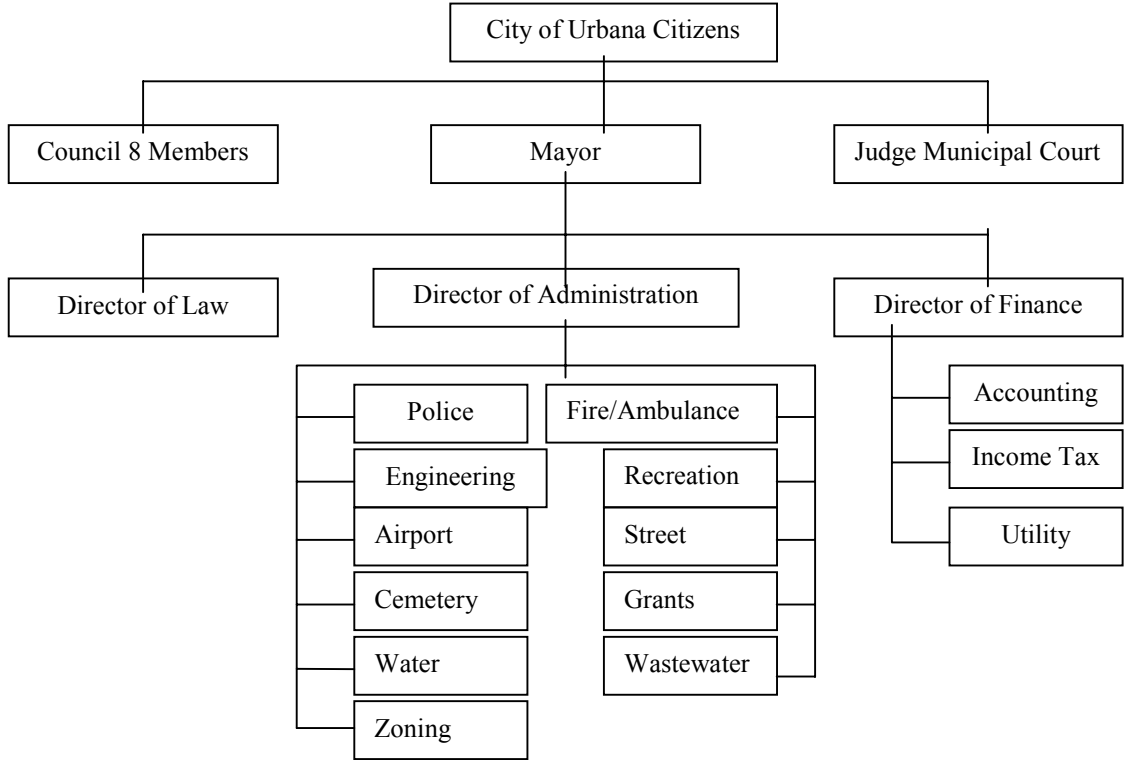

Finally, I wish to acknowledge Mayor Thomas J. Crowley, the members of the City Council and the Director of Administration, Bernie J. Ray, who have supported this effort to achieve excellence in financial reporting.

Respectfully submitted,

Dale R. Miller, Director of Finance, CPA

REPORT OF INDEPENDENT ACCOUNTANTS

**The Honorable Mayor and City Council
City of Urbana
Urbana, Ohio**

We have audited the accompanying basic financial statements of the City of Urbana, Ohio (the City), as of and for the year ended December 31, 2001, as listed in the table of contents. These basic financial statements are the responsibility of the City's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the City as of December 31, 2001 and the results of its operations and cash flows of its proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 14 to the basic financial statements, the City adopted Governmental Accounting Standards Board Statements No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*, Statement No. 34, *Basic Financial Statements – Management's Discussion and Analysis – For State and Local Governments* and Statement No. 36, *Reporting for Certain Shared Nonexchange Revenues* as of January 1, 2000. These Statements result in a change in the City's method of accounting for certain nonexchange transactions and a change in the format and content of the basic financial statements.

In accordance with *Government Auditing Standards*, we have also issued a report dated July 17, 2002 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis and the budgetary information on pages 1-6 and pages 46-54, respectively, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying financial information listed on pages 55-63 is presented for the purposes of additional analysis and are not a required part of the basic financial statements of the City. The supplemental data has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

We did not audit the introductory and statistical information as listed in the table of contents and therefore express no opinion thereon.

Charles E. Harris & Associates, Inc.

July 17, 2002

Management Discussion and Analysis (Unaudited)

The management of the City of Urbana provides the following information as an introduction, overview, and analysis of the City's financial statements for the year ended December 31, 2001.

Please read this analysis in conjunction with the City's basic financial statements which begins on page 26. The first two financial statements are government-wide statements that account for all activities of the City. The fund financial statements that follow report activities of the City's major funds in more detail.

Government-wide statements

These statements report on the City as a whole. They are on the accrual basis of accounting, much the same way as private industry.

- *The Statement of Net Assets* this statement reports all assets and liabilities of the City as of December 31, 2001. The difference between total assets and total liabilities is reported as "net assets". Increases in net assets generally indicate an improvement in financial position while decreases may indicate a deterioration of financial position.
- *The Statement of Activities* this statement serves the purpose of the traditional income statement. It provides consolidated reporting of the results of all activities of the City for the year ended December 31, 2001. Changes in net assets are recorded in the period in which the underlying event takes place, which may differ, from the period in which cash is received or disbursed. The Statement of Activities displays the expense of the City's various programs net of related revenues, as well as a separate presentation of revenues available for general purposes.

Fund financial statements

These statements provide financial position and results of the City's major funds. A fund is an accounting entity created to account for a specific activity or purpose. Major funds of the City of Urbana are the General Fund, Street Repair and Maintenance Fund, Airport Operation and Maintenance Fund, Oak Dale Cemetery Fund, Police & Fire Tax Levy Fund, Capital Improvement Fund, Police & Fire Tax Levy Capital Improvement Fund, Water Fund, and Sewer Fund. The creation of some funds are mandated by law and others are created by management to demonstrate financial compliance with budgetary or legal requirements. Funds are classified into three broad categories: governmental funds, proprietary funds and fiduciary funds.

- *Governmental Funds* Governmental Funds are used to account for "governmental-type" activities". Unlike the government-wide financial statements, governmental fund statements use a "flow of financial resources" measurement focus. That is to say, the operating statement of a governmental fund attempts to answer the question "Are there more or less resources that can be spent in the near future as a result of events and transactions of the period?" Increases in spendable resources are reported in the operating statement as "revenues" or "other financing sources." Decreases in spendable resources are reported as "expenditures" or "other financing uses." We describe the difference between governmental funds and governmental activities in the Reconciliation of the statements presented beside the governmental fund financial statements.

The City of Urbana maintains 25 separate governmental funds. The governmental fund financial statements display only the governmental funds considered to be major funds. All other governmental funds - "non-major" funds - are combined into a single column. Detailed financial data for each of the non-major governmental funds is provided in combining statements in the supplementary information section of this report.

- *Proprietary Funds* There is one type of proprietary fund: enterprise funds. Proprietary funds provide similar information as is provided in the government-wide statement only in more detail.
Enterprise Funds- These funds are used to account for the operations that are financed and operated in a manner similar to private business enterprises for which 1) the intent is that the costs (expenses, including depreciation) be recovered primarily through user charges, or 2) determination of net income is appropriate for management control, accountability or other purposes. The City of Urbana's Water Fund and Sewer Fund are considered to be major funds and are displayed separately in the proprietary fund statement.

- *Fiduciary Funds* Fiduciary funds are used to account for resources held for the benefit of parties outside the City government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for the fiduciary funds is much like that for the proprietary funds.
- *Notes to the basic financial statements* the notes provide additional and explanatory data. They are an integral part of the basic financial statements.
- *Required supplementary information* In addition to the basic financial statements and notes, this report also contains required supplementary information (RSI).
- *Supplemental information.* Combining statements and budgetary schedules for the non-major funds are presented in the Supplemental Section of this report. These statements and schedules are presented for the purpose of additional analysis and are not a required part on the basic financial statements.

Government-wide summary and analysis

The amount by which the City's assets exceed its liabilities is called net assets. At year-end the City's net assets were \$8.2 million. Of that amount, approximately \$4.0 was invested in capital assets, net of the debt related to those assets. The remaining \$4.2 million was unrestricted and available for future use as directed by City Council.

	Net Assets, December 31, 2001

Leisure Activities	\$ 348,031	\$ -	\$ 348,031
Basic Utilities	\$ 117,721	\$ -	\$ 117,721
Interest on Long-Term Debt	\$ 214,145	\$ -	\$ 214,145
Water	\$ -	\$ 759,073	\$ 759,073
Sewer	<u>\$ -</u>	<u>\$ 1,856,752</u>	<u>\$ 1,856,752</u>
Total Expenses	<u>\$ 8,893,727</u>	<u>\$ 2,615,825</u>	<u>\$ 11,509,552</u>
Increase(decrease) in Net Assets	<u>\$ 2,006,923</u>	<u>\$ 268,554</u>	<u>\$ 2,275,477</u>
Net Assets January 1,2001	<u>\$ 6,599,251</u>	<u>\$ (111,700)</u>	<u>\$ 6,487,551</u>
Net Assets December 31,2001	<u>\$ 8,606,174</u>	<u>\$ 156,854</u>	<u>\$ 8,763,028</u>

Net assets increase by \$2.1 million during the year. The portion of net assets devoted to capital assets net of related debt increased \$3.6, indicating that the net assets available for other purposes decreased by \$1.5 million. Several significant capital-assets-related events occurred in 2001 and will be discussed later in the report.

Governmental Activities

Governmental net assets increased by \$2.0 million. Net assets invested in capital assets net of related debt increased by \$3.5 million, meaning that the net assets available for other governmental purposes decreased by \$1.5 million. The percentages of expenses are skewed for 2001 from inclusion of \$ 2.8 million for the Grimes Municipal Airport Realignment and Expansion projects.

The Statement of Activities reports the expenses of each governmental activities programs and the related program revenue that offsets the cost of each program. The amount by which the costs of a program exceeds its program revenues represents the extent to which that program must be subsidized by the general revenues. The following table and graph summarizes the net cost of each program:

Expense and Program Revenue- Governmental Activities

	<u>Expense</u>	<u>Program Revenue</u>	<u>Net Program Cost</u>
General Government	\$1,794,545	\$345,933	\$1,448,612
Public Safety	\$4,228,483	\$262,524	\$3,965,959
Transportation	\$1,240,739	\$582,194	\$658,545
Community Environment	\$720,536	\$326,886	\$393,650
Leisure Activities	\$348,031	\$102,506	\$245,525
All Other	<u>\$561,393</u>	<u>\$231,224</u>	<u>\$330,169</u>
Total Governmental Activities	<u>\$8,893,727</u>	<u>\$1,851,267</u>	<u>\$7,042,460</u>

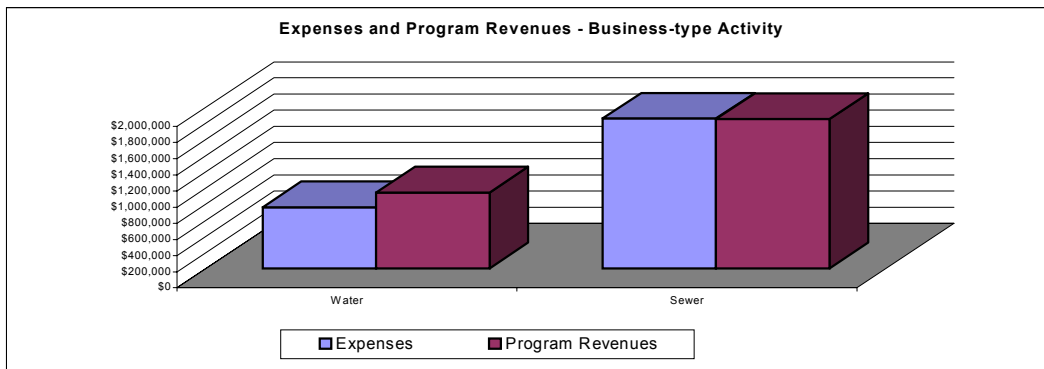

The Program Revenue for the transportation line does include a Federal Aviation Administration Grant of \$2,840,258 so not to skew to net program costs from the fact that no expense is recorded due to the capitalization of the governmental asset.

Business-type Activities

Business-type activities' net assets increased \$89,175. Of that amount about \$117,450 was attributed to an increase in the investments in capital assets net of debt. The remainder of the increase in net assets was in the unrestricted net assets category. There were user rate increases in 2001 in Water of 3% and in Sewer of 3.5%.

Expense and Program Revenue- Business-type Activities

	<u>Expense</u>	<u>Program Revenue</u>	<u>Net Program Cost</u>
Water	\$759,073	\$944,234	-\$185,161
Sewer	<u>\$1,856,752</u>	<u>\$1,849,291</u>	<u>\$7,461</u>
Total Business-type Activities	<u>\$2,615,825</u>	<u>\$2,793,525</u>	<u>-\$177,700</u>

Budget variations

There were four significant variations from budget in all funds:

- 1) Income Tax revenues were 8% below budget from the loss of two industries and slow economy.
- 2) The City changed from a partially self-insured health insurance plan to a fully insured and 23% increase in the premium. Those two factors accounted for close to \$200,000 citywide increased expenditure for health care benefits.
- 3) Water was impacted by several lower usages by the two industries as well as change in process in two others caused the Water Fund to be underbudget on the revenues.
- 4) In most cases if the water revenues changes the sewer revenues follow.

Capital Assets and Debt Administration

Capital Asset Activity

Significant capital activity for the year includes:

- Completion of realignment and expansion of the Grimes Municipal Airport Runway 2-20.
- Expenditures of the annual resurfacing street \$111,069.
- Completion of a major traffic signal upgrade included with downtown streetscape and downtown rehabilitation with the Ohio Department of Development.
- Sidewalk Curb and Gutter project on Jefferson Avenue
- Reserved \$175,000 for the 68 By-Pass Project

Debt

Ohio law restricts the amount of debt that a City may issue. The aggregate principal amount of unvoted debt "net indebtedness may not exceed 5.5% of the assessed valuation for property tax purposes of all real and personal property located within the City. Certain debt with a repayment source other than general tax revenues is excluded from the definition of net indebtedness. Under that definition, the City has approximately \$5.9 million of net indebtedness as of December 31, 2001, leaving a legal debt margin for unvoted debt of approximately \$5.0 million.

During 1995 and 1996 the City upgraded the wastewater treatment plant to a Class A plant financed with Ohio Water Development Authority (OWDA) debt. At the same time the City refinanced General Obligation Debt of 5.75% to 7.0% with OWDA debt with a fixed rate of 4.56%.

A summary of outstanding debt at year-end is as follows:

	<u>Governmental Activities</u>		<u>Business-Type Activities</u>	
	<u>12/31/00</u>	<u>12/31/01</u>	<u>12/31/00</u>	<u>12/31/01</u>
General Obligation Bonds	\$3,655,000	\$3,414,000	\$2,045,000	\$2,521,000
OWDA Loans	<u>\$0</u>	<u>\$0</u>	<u>\$3,466,771</u>	<u>\$3,480,512</u>
Total	<u>\$3,655,000</u>	<u>\$3,414,000</u>	<u>\$5,511,771</u>	<u>\$6,001,512</u>

Additional detailed data for all debt of the City of Urbana is presented in the Notes to the Basic Financial Statement in note 8 Long-Term Liabilities.

Contacting the City of Urbana Management

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with an overview of the City of Urbana's finances. If you have any questions or need additional financial information, please contact the Finance Office, City of Urbana, 205 S Main Street, Urbana, Ohio 43078.

CITY OF URBANA
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR YEAR ENDED DECEMBER 31, 2001

Net Change in Fund Balances - Total Governmental Funds (967,628)

Amounts reported for governmental activities in the
Statement activities in the statement of net
assets are different because:

Governmental funds report capital outlays as expenditures. 45,471

However, in the statement of activities, the cost of those assets
is allocated over their estimated useful lives as depreciation
expense. This amount by which capital outlays exceeded
depreciation in the current period

Revenues in the statement of activities that do not provide
current financial resources are not reported as revenues in
the funds:

Contribution of Capital Assets 3,029,728
Deferred Revenues (193,008)

Repayment of bond principal is an expenditure in the 191,667
governmental funds, but the repayment reduces long-term
liabilities in the statement of net assets.

Some expenses reported in the statement of activities do
not require the use of current financial resources and therefore
are not reported as expenditures in governmental funds.

Vacation/Sick Leave (95,301)
Interest Payable (4,006)

Change in Net Assets 2,006,923

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

1. Summary of Significant Accounting Policies:

A. Reporting Entity

The City of Urbana, Ohio (City) is a political unit incorporated and established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The City was incorporated in 1868, and has a Council-Mayor form of government. The City provides the following services: public safety (police and fire), highways and streets, water, sewer, recreation, planning and zoning and general administrative services.

For financial reporting purposes, the City includes in this report all funds, account groups, agencies, boards, commissions, and departments in accordance with Governmental Accounting Standards Board (GASB) Statement No. 14 criteria for determining the entity and component units. Under the provisions of GASB Statement No. 14, the City of Urbana is the primary government, since it is a special purpose government that has a separate elected governing body; functions as a separate legal entity; and is fiscally independent of other state and local governments. As used in GASB Statement No. 14, fiscally independent means that the City may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue debt. As required by generally accepted accounting principles, these basic financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities are, in substance, part of the government's operations and so data is combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the combined financial statements to emphasize it is legally separate from the government. There are no blended or discretely presented component units at December 31, 2001.

Certain units of local governments, over which the City exercises no authority, such as the Champaign County Library, Champaign County Health District and Ohio Hi-Point Joint Vocational School, are other local governmental and non-profit entities with independent elected officials and are excluded from the accompanying basic financial statements. The City is not a component unit of any other entity and does not have any component units, which require inclusion in the basic financial statements.

Several other local governments and non-profit entities that overlap the City's boundaries are Champaign County and the Urbana City School District. These entities do not meet the reporting entity criteria and, therefore, are not included in the City's financial reports.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements

B. Basis of Presentation

Government-wide financial statements

The statement of net assets and the statement of activities display information about the City as a whole. These statements distinguish between activities that are governmental in nature, which are normally supported by taxes and intergovernmental revenues; and business-type activities, which rely to a significant extent upon fees and charges for support. Interfund and internal service fund activities are generally eliminated to avoid the “doubling-up” effect on revenues and expenses.

The government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The government-wide statement of activities presents a comparison between expenses and program revenues for each segment of the business-type activities of the City and for each governmental program. Program revenues include charges paid by the recipients of the goods or services as well as grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business-type segment is self-supporting or relies upon general revenues of the City.

The caption “Capital assets, net of related debt” consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Net assets are reported as restricted when constraints placed upon their use are either: 1) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or 2) imposed by law through constitutional provisions or enabling legislation. The net assets restricted for other purposes result from special revenue funds and the restrictions on their net asset use. When both restricted and non-restricted resources are available for use, it is the City’s policy to use non-restricted resources first, then restricted resources, as they are needed.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and proprietary funds are reported in separate columns in the fund financial statements. All other funds are aggregated and reported as non-major governmental or non-major proprietary funds.

The accounting policies and financial reporting practices of the City conform to generally accepted accounting principles for local governments as prescribed by the GASB.

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures (expenses). Fund accounting segregates funds according to the intended purpose and is used to aid management in demonstrating compliance with financial related legal and contractual provisions.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. The acquisition, use and balances of the City's expendable financial resources and the related current liabilities (except those accounted for in proprietary and non-expendable trust funds) are accounted for through governmental funds. The City reports the following major governmental funds:

General Fund - The General Fund is used to account for government resources not accounted for in any other fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the City Charter and/or the general laws of the State of Ohio.

Street Repair and Maintenance Fund – To account for state-levied and controlled gasoline tax and motor vehicle registration fees designated for street maintenance and repair.

Airport Maintenance Fund – To account for the operation and maintenance of Grimes Municipal Airport, consisting of rental of facility, sale of aviation fuel, and other miscellaneous operations.

Oak Dale Cemetery Fund - To account for the operation of the municipal owned cemetery and mausoleum.

Police & Fire Tax Levy Fund - To account for the 3/10% income tax for additional patrolman and firefighter that the General Fund can not financially support.

Capital Improvement Fund – To account for the income tax resources earmarked for capital improvements used for general improvement of all City facilities and operations.

Police & Fire Capital Improvement Fund – To account for the income tax resources earmarked for capital improvements for Police and Fire facilities and operations.

Proprietary (Business-type) Funds

The proprietary funds are used to account for the City's ongoing activities that are similar to those found in the private sector where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

The City reports the following major proprietary funds:

Water Fund – Accounts for the operation of the waterworks distribution system and related expenses, including capital improvement and debt service. The operation is exclusively financed by customer user charges.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

Sewer Fund – Accounts for the operation of the sanitary sewer collection and treatment system and related expenses, including capital improvement and debt service. The operation is exclusively financed by customer user charges.

Additionally, the City reports the following fund types:

Agency funds – generally are used to account for assets held in a fiduciary capacity on behalf of others.

C. Basis of Accounting

Governmental Funds. The accounting and financial reporting treatment that applies to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in current financial resources.

The modified accrual basis of accounting is used for all governmental fund types. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The City considers revenues available if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred. Principal and interest of general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Fines and permits revenues are not susceptible to accrual because they are generally not measurable until received in cash.

The City reports deferred revenues on its governmental funds' balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when the City receives resources before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

Because governmental funds' financial statements employ a different measurement focus and basis of accounting than the government-wide statements, governmental funds' financial statements include reconciliations to the government-wide statements.

Proprietary Funds. All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

Proprietary fund-type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The accrual basis of accounting is utilized by proprietary funds. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Agency Funds. The agency funds, being custodial in nature, are merely "assets equal liabilities" and, thus, do not involve the measurement of results of operations. Agency funds are accounted for using the accrual basis of accounting.

D. Budgets and Budgetary Accounting

The City follows procedures prescribed by State law in establishing the budgetary data reflected in the financial statements as follows:

- (1) The City must submit a tax budget of estimated cash receipts and disbursements for all funds to the County Budget Commission by July 20 of each year for the following year, January 1 through December 31.
- (2) The County Budget Commission certifies its actions by September 1 and issues an Official Certificate of Estimated Resources, (the "Certificate") limiting the maximum amount the City may expend from a given fund during the year to the estimated resources available.
- (3) About January 1, the Certificate is amended to reflect the actual unencumbered balances from the preceding year. The City must prepare its appropriations so that the total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the initial or amended Certificate.
- (4) A temporary appropriation measure may be passed to control cash disbursements for the period January 1 through March 31. Before April 1, a permanent appropriation measure must be passed for the period January 1 through December 31. The budget identifies specific expenditure amounts by character for each division within each fund.
- (5) Unencumbered appropriations lapse at year end. State Statute provides that no contract, agreement or other obligation involving the expenditure of money shall be entered into unless the Director of Finance first certifies that the money required for such contract, agreement, obligation or expenditure is in the treasury, or is anticipated to come into the treasury, before the maturity of such contract. Prior year ending budgetary fund balances do not trace to current beginning fund balances due to the cancellation of certain encumbrances.
- (6) Several City funds are deemed appropriated by local ordinance or City Charter and are therefore exempt from the budget process.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

The Mayor acts as budget officer for the City and submits a proposed operating budget to the City Council on an annual basis. Public hearings are held to obtain taxpayer comments. The Council enacts the budget through passage of an ordinance. The appropriation ordinance controls expenditures at the level of salaries and wages, fringe benefits, contractual and materials and capital outlay. Council can amend the budget at functional expense lines, through the passage of supplemental ordinances. Management can amend appropriations below this level without council approval. Supplemental appropriations to the original appropriations ordinance were made during the year, but were not material in relation to the original appropriations.

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary control in the governmental funds. Encumbrances outstanding at year end are reported as reservations of fund balances, since they do not constitute expenditures or liabilities.

While reporting financial position, results of operations and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

Schedules of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual - Budget (Non-GAAP) Basis are presented on the budgetary basis in the Required Supplementary Information to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (1) Revenues are recorded when received in cash (budget) as opposed to when they are both measurable and available (GAAP).
- (2) Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- (3) Encumbrances are recorded as the equivalent of expenditures (budget) as opposed to a reservation of fund balance (GAAP).

E. Pooled Cash and Investments

For purposes of the statements of cash flows, the proprietary funds consider all highly liquid investments held by trustees with a maturity of three months or less when purchased to be cash equivalents. All investments of the City are recorded at fair value, in accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools." The statement established accounting and reporting guidelines for government investments and investment pools. Certain investments that were reported at cost in previous years may now be reported at fair value. Cash balances for all City funds, as allowed by law, are pooled and invested to improve cash management. Interest earnings from investments are allocated to the General Fund except for funds derived from contract, trust agreement or City ordinance which require crediting otherwise. Except for non-participating investment contracts, investments are reported at fair value, which is based on quoted market prices. Non-participating investment contracts such as certificates of deposit are reported at cost.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

F. Inventory

Inventory is valued at cost (first-in, first-out). The proprietary funds' inventories are recorded as expenses when used. Inventory in governmental funds consists of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are purchased. Reported inventories are offset by a fund balance reserve, which indicates they do not constitute "available spendable resources," and are not available for appropriations.

G. Insurance and Risk

The City of Urbana covers most of its risks of loss through commercial insurance. See Note 15.

H. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type columns in the government-wide financial statements. Pursuant to GASB Statement No. 34, for all fiscal years beginning after June 15, 2006, the City must retroactively report all infrastructure assets acquired before January 1, 2000. The City expects to accomplish retroactive reporting of infrastructure prior to that deadline.

The City defines capital assets as assets with an initial, individual cost of more than \$500 and an estimated useful life in excess of one year.

All capital assets are valued at historical cost, or estimated historical cost, if actual cost is not available. Donated capital assets are valued at their estimated fair market value at the time received. Interest on constructed capital assets is capitalized.

When capital assets are purchased, they are capitalized and depreciated in the government-wide statements and the proprietary fund statements. Capital assets are recorded as expenditures of the current period in the governmental fund financial statements.

Depreciation is calculated using the straight-line method over the estimated useful lives of the assets. Estimated useful lives of the various classes of depreciable capital assets are as follows:

<u>Description</u>	<u>Estimated Useful Life (Years)</u>
Land improvements	25
Buildings and improvements	25
Machinery and equipment	5 to 20
Infrastructure	23 to 43

I. Bond Issuance Costs

Bond issuance costs for proprietary fund types are deferred and amortized over the terms of the bonds using methods that approximate the effective interest method. Issuance costs at year-end amounted to \$64,218 net of accumulated amortization. These costs are included in prepaid costs

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

on the combined balance sheet.

J. Compensated Absences

City employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation and sick leave at various rates.

Vested vacation and sick leave is recorded as an expense in the government-wide statements for the period in which such leave was earned. For governmental fund type employees, an expenditure is recorded in the governmental funds' statements for only the portion of vested vacation and sick leave that is expected to be liquidated with expendable available resources.

Payment of vacation and sick leave recorded in the government-wide financial statements is dependent upon many factors; therefore, timing of future payments is not readily determinable. Management believes that sufficient resources will be made available when payment is due.

K. Pensions

The provision for pension costs are recorded when the related payroll is accrued and the obligation is incurred.

L. Reserves and Designations

Reserves are portions of fund equity that are not appropriable for expenditures/expenses or that are legally restricted to a specific future use, or both.

Designations are tentative plans for financial resource use in a future period. Such plans or intentions are subject to change. They may never be legally authorized or result in expenditures.

M. Grants and Other Intergovernmental Revenues

Federal grants and assistance awards made on the basis of entitlement periods are recorded as intergovernmental receivables and revenues when entitlement occurs. All other reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures are incurred.

N. Financial Disclosure

The City has elected to report its financial statements in accordance with statements issued by the Financial Accounting Standards Board (FASB) unless they are superseded by GASB, as outlined by GASB 20.

O. Estimates

The preparation of these financial statements in conformity with generally accepted accounting principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and reported amounts of revenues and expenditure/expenses during the reporting period. Actual results could differ from those estimates.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

2. Pooled Cash and Investments:

At December 31, 2001, the carrying values of pooled cash and investments and restricted cash and investments were as follows:

	<u>Carrying Amount</u>
Deposits:	
Demand deposits:	
Interest-bearing, 0.88% to 2.47%	\$ 479,053
Champaign County Municipal Court	223,345
Non-interest bearing	969
Time deposits:	
Money Market/Passbook, 2.33 to 2.47%	314,015
Certificates of deposit, 3.05% to 7.00% maturing January 30, 2002 to October 30, 2003	<u>3,297,945</u>
Total deposits and investments	\$4,315,327
Less: Cash and investments held with fiscal agent	<u>(143,046)</u>
Total pooled cash and investments	<u>\$ 4,172,281</u>

Deposits & Investments

Except for items in-transit, the carrying value of deposits by the respective depositories equates to the City's carrying value. All deposits are collateralized with eligible securities, as described by the Ohio Revised Code, in amounts equal to at least 110% of the City's carrying value of the deposits (demand and time deposits and certificates of deposit). Such collateral, as permitted by the State of Ohio, is held at the respective depository bank's Federal Reserve Bank, or member bank other than the depository bank, in a pool for the City of Urbana. One institution, in accordance with the Ohio Revised Code, has pledged first mortgages equal to twice the City's deposit for collateral.

The year-end bank balance of all City deposits was \$4,548,536. Based on criteria described in GASB Statement No. 3, Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, the bank balance was covered by:

FDIC Insured Deposits	\$400,000
Deposits collateralized with securities held by pledging financial institution's agent in the City's name	<u>\$4,148,536</u>
Total	<u>\$4,548,536</u>

3. Income Taxes

Municipalities within the State of Ohio are permitted by state statute to levy an income tax up to a maximum rate of 1% subject to the approval of the local legislative body. Any rate in excess of 1% requires the approval of a majority of the eligible voters residing within the municipal corporation. The City of Urbana levies a tax on all wages, salaries, commissions and other compensation paid by employers and the net profits from a business or professional person earned within the City, excluding income from intangible personal property. In addition, City residents pay city income tax on income earned outside the City; net of a credit limited to 1% for income taxes paid to other municipalities. In 1992 the City Council ordered mandatory income tax filing.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

The tax rate applied in 2001 was 1.4% of which 1% was unvoted and 0.4% was voted. The additional 0.4% tax became effective January 1, 1992, and is designated to fund fire and police personnel and capital improvement costs.

Twenty-five percent (25%) of all income tax revenues are required to be used for the purpose of financing capital improvements, including debt service charges on notes and bonds issued for capital improvements. This portion of income tax revenues is distributed to the Capital Improvement Fund from which capital improvements and related debt service charges are financed.

Honeywell Inc., Grimes Division, a local manufacturing company, accounted for approximately 14.7% of income tax receipts to the City in 2001 through the remittance of employee payroll withholdings.

4. Property Taxes

Property taxes are levied against all real, public utility and tangible (used in business) property located in the City.

Revenues from property taxes are used by the City pursuant to state statutes for General Fund operations and as a partial provision for payment of accrued police and fire pension costs.

Ohio law prohibits taxation of property from all taxing authorities in excess of 1% (10 mills) of assessed value without a vote of the people. Under current procedures, the City's share is 0.330% (3.3 mills) of assessed value.

Real property and public utility taxes collected during 2001 were levied on December 31, 2000 on assessed values listed as of January 1, 2001, the lien date. One-half of these taxes were due on March 10, 2001, with the remaining balance due on July 12, 2001.

Tangible personal property taxes collected during 2001 had a lien and levy date of January 1, 2001. One-half of these taxes were due between February 15, 2001, and May 10, 2001, with the remaining balance due on October 11, 2001.

Assessed values of real property are established by State law at 35% of appraised market value. A revaluation of all property is required to be completed no less than every six years with equalization adjustments in the third year following reappraisal. The last revaluation was completed in 2001. Public utility property taxes are assessed on tangible personal property as well as land and improvements at true value (50% of cost). Tangible personal property assessments are 25% of true value. The assessed value for 2001 upon which the 2002 levy will be based is approximately \$197,842,239. The assessed value for 2000 upon which the 2001 levy was based was approximately \$191,150,506.

The Champaign County Treasurer collects property taxes on behalf of all taxing districts, including the City of Urbana. The County Auditor periodically remits to the City its portion of taxes collected. Property taxes may be paid on either an annual or semi-annual basis.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

5. Capital Assets

A summary of changes in capital assets governmental activities for year ended December 31, 2001 follows:

	<u>Balance</u> <u>1/1/2001</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance</u> <u>12/31/2001</u>
Land & Land Improvements	\$2,888,790	\$0	\$0	\$2,888,790
Building & Improvements	\$7,860,352	\$3,109,069	\$0	\$10,969,421
Machinery & Equipment	\$3,679,670	\$439,118	(\$148,634)	\$3,970,154
Total	<u>\$14,428,812</u>	<u>\$3,548,187</u>	<u>(\$148,634)</u>	<u>\$17,828,365</u>
Less Accumulated Depreciation	<u>\$7,965,909</u>	<u>\$923,929</u>	<u>\$0</u>	<u>\$8,889,838</u>
Net Capital Assets	<u>\$6,462,903</u>	<u>\$2,624,258</u>	<u>(\$148,634)</u>	<u>\$8,938,527</u>

Depreciation was Charged to Governmental Activities as follows:

General Government	\$261,283
Security of Person & Property	\$189,519
Transportation	\$407,053
Health	\$3,395
Community Environment	\$0
Leisure Activities	<u>\$62,679</u>
Total Governmental Activities Depreciation Expense	<u>\$923,929</u>

A summary of business-type activities, excluding Work in Progress Capital Assets at December 31, 2001 follows:

	(in thousands)		
	<u>Water</u>	<u>Sewer</u>	<u>Total</u>
Land	\$72	\$455	\$527
Buildings	\$10,196	\$20,325	\$30,521
Equipment	<u>\$2,117</u>	<u>\$1,827</u>	<u>\$3,944</u>
Total	\$12,385	\$22,607	\$34,992
Less Depreciation	<u>\$11,043</u>	<u>\$19,484</u>	<u>\$30,527</u>
Net Fixed Assets	<u>\$1,342</u>	<u>\$3,123</u>	<u>\$4,465</u>

6. Defined Benefit Pension Plans:

Both the Police and Firemen's Disability and Pension Fund and the Public Employees Retirement System are reported using GASB Statement No. 27 "Accounting for Pensions by State and Local Governmental Employers". Substantially all City employees are covered by one of the two cost-sharing multiple-employer defined benefit pension plans, namely, the Police and Firemen's Disability and Pension Fund or the Public Employees Retirement System of Ohio (PERS). Both funds provide retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

Public Employees Retirement System

The City of Urbana participates in the Public Employees Retirement System of Ohio (PERS), a cost-sharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 145 of the Ohio Revised Code. PERS issues a publicly available stand-alone financial report. Interested parties may obtain a copy by making a written request to 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 466-2085 or 1-800-222-PERS (7377).

The Ohio Revised Code provides statutory authority for employee and employer contributions. Plan members are required to contribute 8.5% of their annual covered salary and the City's contribution rate for 2001 was 13.55% of covered payroll. The City's contributions, representing 100% of employer contributions for the periods ended December 31, 2001, 2000, and 1999 were \$304,692, \$281,482, and \$279,747, respectively. Approximately 91% has been contributed for 2001 and 100% has been contributed for 2000 and 1999. The unpaid contribution for 2001 is recorded as a liability in the respective funds.

Ohio Police and Fire Pension Fund

The City of Urbana contributes to the Ohio Police and Fire Pension Fund (OP&F); a cost-sharing multiple-employer defined pension plan. OP&F provides retirement and disability benefits, cost-of-living adjustments, and death benefits to plan member and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial statements and required supplementary information for the plan. Interested parties may obtain a copy by making a written request to 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10.0% of their annual covered salary, while employers are required to contribute 19.5% and 24.0% respectively for police officers and firefighters. The City's contributions to OP&F for the years ending December 31, 2001, 2000 and 1999 were \$472,685, \$490,553, and \$431,886, respectively, equals to the required contribution for each year. Approximately 86% has been contributed for 2001 and 100% has been contributed for 2000 and 1999. The unpaid contribution for 2001 is recorded as a liability in the respective funds.

The City also makes payments to OP&F for its portion of past service cost determined at the time the fund was established in the mid-1930's. As of December 31, 2001, the unfunded liability is payable, including principal and interest, in annual installments for \$16,666 through the year 2035. The principal balance of \$295,922 is accounted for as a non-current liability in the governmental activities column of the Statement of Net Assets. The State of Ohio assumed the liability for past service cost at the time PERS was established.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

7. Postemployment Benefits:

A. Public Employees Retirement System

The Public Employees Retirement System (PERS) of Ohio provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and primary survivor recipients is available. The health care coverage provided by the retirement system is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 12. A portion of each employer's contribution to PERS is set aside for the funding of post retirement health care. The Ohio Revised Code provides statutory authority for employer contributions. For local government employer units the rate was 13.55% of covered payroll; 4.30% was the portion that was used to fund health care for the year.

The Ohio Revised Code provides the statutory authority requiring public employers to fund postretirement health care through their contributions to PERS.

Actuarial Review: The following assumptions and calculations were based on the System's latest Actuarial Review as of December 31, 2000

Funding Method: An entry age normal actuarial cost method of valuation is used in determining the present value of OPEB. The difference between assumed and actual experience (actuarial gains and losses) becomes part of the unfunded actuarial accrued liability.

Assets Valuation Method: All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Under this approach, assets are adjusted annually to reflect 25% of unrealized market appreciation or depreciation on investment assets.

Investment Return: The investment assumption rate for 2000 was 7.75%.

Active Employee Total Payroll: An annual increase of 4.75% compounded annually, is the base portion of the individual pay increase assumption. This assumes no change in the number of active employees. Additionally, annual pay increases, over and above the 4.75% base increase, were assumed to range from 0.54% to 5.1%.

Health Care: Health care costs were assumed to increase 4.75% annually.

The OPEB's are advance-funded on an actuarially determined basis. The number of active contributing participants was 411,076. The portion of City's contributions that were used to fund postemployment benefits was \$96,679. \$14,364.6 million represents the actuarial value of the Retirement System's net assets available for OPEB at December 31, 2000. The actuarially accrued liability and the unfunded actuarial accrued liability based on the actuarial cost method used, were \$11,735.9 million and \$2,628.7 million, respectively.

B. Ohio Police and Fire Pension Fund

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

The Ohio Police and Fire Pension Fund provides postretirement health care coverage to any person who receives or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such persons. An eligible dependent child is any child under the age of eighteen whether or not he is attending school or under twenty-one if attending full-time or on a 2/3 basis. The Ohio Revised Code provides the authority allowing the OP&F's Board of Trustees to provide health care coverage and states that health care cost paid from the fund shall be included in the employer's contribution rate. The total police employer contribution is 19.5 percent of covered payroll and the total firemen's employer contribution rate is 24 percent of covered payroll.

Health care funding and accounting is on a pay-as-you go basis. A percentage of covered payroll, as defined by the Board, is used to pay retiree health care expenses. The allocation is 7.50% in 2001. In addition, since July 1, 1992, most retirees have been required to contribute a portion of the cost of their health care coverage through a deduction from their monthly benefit payment.

The statewide number of participants eligible to receive health care benefits as of December 31, 2000, the date of the last actuarial valuation available, were 12,853 for Police and 10,037 for Firefighters. The City's annual contribution for 2001 that were used to fund postemployment benefits was \$296,066 for police and \$240,355 for firemen. The fund's total health care expenses for the year ending December 31, 2000 was \$106,160,054, which was net of members contributions of \$5,657,431.

8. Long-Term Liabilities:

The following is a summary of changes during 2001 and yearend balances for governmental activities long-term liabilities of the City for the year ended December 31, 2001:

<u>Governmental Activities</u>	<u>Balance</u>			<u>Balance</u>	<u>Due within</u>

Loans payable to the Ohio Water Development Authority (OWDA) are revenue obligations incurred to help finance sewage treatment plants to be repaid from charges for services.

The Ohio Revised Code provides that the net debt of a municipal corporation whether or not approved by the electors, shall not exceed 10.5% of the total value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total taxation value of property. The statutory limitations of debt are measured by a direct ratio of net debt to tax valuation in terms of a percentage. On December 31, 2001, the City's total net debt amounted to 3.0% of the total assessed value of all property within the City. The aggregate amount of the City's unvoted debt is also subject to overlapping debt restrictions with Champaign County and the Urbana City School District. As of December 31, 2001, these entities have complied with the requirement that overlapping debt must not exceed 1% (10 mills) of the assessed property value.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

8. Advanced Refunding

On February 1, 1995, the City of Urbana advance-refunded the 1991 Wastewater Treatment Plant Upgrade Bonds with a new Ohio Water Department Authority (OWDA) Loan. The City signed a loan agreement for \$ 2,600,000 from the OWDA to provide resources to purchase U.S. Government Securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments on the refunded debt, as of December 31, 2001 \$ 1,831,565 was the outstanding balance of this loan. As a result, the refunded bonds are considered defeased and the liability was removed from the Sewer Fund. The advanced refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$ 105,661. This difference reported in the accompanying financial statements is being charged to operations through the year 2012 using the effective interest method. The advanced refund was taken to reduce total debt service payments over the remaining 17 years by \$655,522 and to obtain an economic gain (difference between present value of the debt service payments of the refunded and refunding bonds) of \$ 414,214.

On July 1, 1995, the City issued \$4.885 million in General Obligation Bonds to fund a \$3.6 million municipal building upgrade and advance refund the 1979 Water Mortgage Revenue Bonds. The new bonds with an interest rate of 3.9% to 5.5% , refunded the \$1,545,000 revenue bonds with an average rate of 6.75% as of December 31,2001 \$845,000 was the outstanding balance of this issue. The net proceeds (after the public safety building proceeds, underwriting fees and other closing costs) of \$1,662,373 plus \$341,172 of the 1979 Revenue Bonds' sinking funds were used to purchase U.S. government securities. These securities were deposited in an irrevocable trust with an escrow agent to provide all future debt service payments on the 1979 revenue bonds. As a result, the 1979 revenue bonds are considered to be defeased and the liability for those bonds has been removed from the Water Enterprise fund. The advance refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$86,172. This difference, reported in the accompanying financial statements, is being charged to operations through the year 2009 using the effective interest method. The advance refunding reduces its total debt service over the next 14 years by \$655,262 and to obtain an economic gain (difference between present values of the old and new debt service payments) of \$120,593.

9. Interfund Receivables and Payable

Interfund balances at December 31, 2001 consist of the following individual fund receivables and payables:

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

	<u>Due FROM Other Funds</u>	<u>Due TO Other Funds</u>
General Fund	\$300,000	\$0
Special Revenue Funds		
Airport	\$0	\$25,252
Street	\$17,436	\$0
Cemetery	\$0	\$426
Total Special Revenue Funds	\$17,436	\$25,678
Capital Project Fund	\$10,578	\$0
Enterprise Funds		
Water/Sewer	<u>\$0</u>	<u>\$302,336</u>
Total Enterprise Funds	<u>\$0</u>	<u>\$302,336</u>
Total Interfund Receivables & Payables	<u>\$328,014</u>	<u>\$328,014</u>

10. Contingent Liabilities

Under the terms of federal grants, periodic audits are required and certain expenditures may be questioned as not appropriate under the terms of the grants. Such audits could lead to reimbursements to the grantor agencies. It is the opinion of management that any questioned costs will be resolved in favor of the City and that reimbursement, if any, will not have a material effect on the City's financial position.

The City was a defendant in a number of lawsuits pertaining to matters which are incidental to performing routine governmental and other functions. Legal counsel cannot estimate exposure, if any, in these suits. All cases are being defended vigorously by the City. It is the opinion of management and the City's legal counsel that sufficient resources will be available for the payment of such claims, if any, upon ultimate settlement or covered by insurance.

11. Subsequent Events

No major events occurred after the date of the audit completion that would impact these financial statements.

12. Deficit Fund Balances/Retained Earnings

The following individual funds had deficit fund balances/retained earnings at December 31, 2001:

Probation Grant	\$ 6,932
Victims Assistance Grant	\$ 3,094
FAA Airport Grant	\$ 15,104
CDBG CHIP Grant	\$ 13,178
Sewer Revenue	\$ 784,281

The negative fund balances are a result of the conversion to GAAP or the fact that the grant expenditures will be reimbursed from the Granting Agency in the near future.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

13. Budget Basis of Accounting

The adjustments necessary to convert the results of operations for the year ended December 31, 2001, from the GAAP basis to the budget basis for the budgeted funds are as follows:

	General Fund	Major Special Revenue Funds	Major Capital Projects Funds
GAAP Basis	(\$246,263)	(\$167,904)	(\$217,452)
Increase(Decrease)			
Due To Revenues	\$637,513	\$43,222	(\$37,004)
Due to Expenditures	(\$500,724)	(\$88,775)	\$6,845
Due to Other financing sources and uses	(\$129,790)	\$0	\$0
Budget Basis	(\$239,264)	(\$213,457)	(\$247,611)

Funds within the Special Revenue Funds and Capital Improvement by local charter may not be required to be formally budgeted.

14. Prior Year Restatements:

In 2001, the City adopted GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions", GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments" and GASB 36 "Reporting for Certain Shared Non-Exchange Revenues.

Statement 34 established new financial reporting requirements for all state and local governments and includes the following elements:

- Management's discussion and analysis;
- Basic financial statements:
 - Government-wide financial statements, prepared using the economic resources measurement focus and the accrual basis of accounting;
 - Fund financial statements, consisting of a series of statements that focus on a government's major governmental funds and enterprise funds;
 - Notes to the basic financial statements;
- Required supplementary information, including budgetary comparison schedules.

Statement 34 narrowed the definition of fiduciary fund types, required the elimination of the effects of internal service fund activities in the government-wide statements, and required the reporting of general infrastructure assets. Pursuant to GASB Statement No. 34, for all fiscal years beginning after June 15, 2006, the City must retroactively report all infrastructure assets acquired before January 1, 2000. The City expects to accomplish retroactive reporting of infrastructure prior to that deadline.

CITY OF URBANA, OHIO
Notes to the Basic Financial Statements
December 31, 2001

The impact of these restatements on the governmental funds are as follows:

	General Fund	Street Maintenance Fund	Sewer Fund
Fund Balance January 1, 2001	\$ 853,927	\$ (4,780)	\$ (612,441)
Restatement for GASB 33			
Vehicle and Gas Taxes	\$ -	\$ 51,926	
Local Government	\$ 128,991	\$ -	\$ -
Homestead and Rollback Taxes	\$ 25,873	\$ -	\$ -
Timing on Loan Payment OWDA	\$ -	\$ -	\$ 365,568
Fund Balance January 1, 2001 as restate	<u>\$1,008,791</u>	<u>\$47,146</u>	<u>(\$246,873)</u>

15. Risk Management:

The City is exposed to various risks of loss related to torts, thefts of, damage to and destruction of assets, errors and omissions, injuries to employees and natural disasters. The City has joined the Public Entity Pool of Ohio (PEP), a joint insurance pool. The pool consists of municipalities who pool risk for property, crime, liability, boiler and machinery and public official liability.

The City pays an annual premium to PEP for this coverage. The agreement provides that PEP will be self-sustaining through member premiums and the purchase of excess and stop-loss insurance. The deductible per occurrence for all types of claims is \$2,500. Liability had a per-occurrence retention limit of \$500,000. After the retention limits are reached, excess insurance will cover up to the limits stated below.

General Liability (including law enforcement)	\$2,000,000 per occurrence
Automobile Liability	\$2,000,000 per occurrence
Public Officials Liability	\$2,000,000 per occurrence
Boiler and Machinery	BLANKET COVERAGE
Property	BLANKET COVERAGE

There were no significant reductions in insurance coverage during the year in any category of risk. Settled claims did not exceed insurance coverage in the past three years.

Supplemental Section

GENERAL FUND

The General Fund is used to account for government resources not accounted for in any other fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the City Charter and/or the general laws of the State of Ohio.

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for revenues from specific sources which legally are restricted to expenditures for specified purposes. A description of those funds follows:

Major Special Revenue Funds:

Airport Operation and Maintenance Fund - accounts for the operation and maintenance of the Urbana Municipal Airport/Grimes Field. The revenue is primarily the sale of aviation fuel and hanger rental income. The General Fund subsidizes the operation.

Street Maintenance and Repair Fund - accounts for the use of state-shared auto license taxes and gasoline taxes as provided in the Ohio Revised Code. These taxes and other resources, including a General Fund subsidy, may be used for general maintenance and repair of city streets, bridges, and traffic equipment.

Oak Dale Cemetery Fund - accounts for all financial resources and their uses in operating and maintaining the city's cemetery, excluding capital outlay.

Police and Fire Income Tax Levy - levy passed by voters in 1992 a 0.4% increase in income tax to fund new hires and capital improvements for the Police and Fire divisions.

Non-Major Special Revenue Funds:

State Highway Fund - accounts for the use of state-shared auto license taxes and gasoline taxes required to be used in maintaining and repairing state highways within the municipal corporation.

Police and Fire Pension Levy - accounts for 0.6 mill property tax authorized by state statute for the payment of current and past Police and Fire Pension liabilities.

Supplemental Investment Fund - accounts for 10% of the interest yielded from invested proceeds of the sale of the city's natural gas line system. In 1989, this fund accumulated \$150,000 of interest. Council designated that this amount of interest shall remain in the fund and all excess interest earned on the gas proceeds, from that point on, shall go to the General Fund. In compliance with Section 133.08 of the City of Urbana Codified Ordinances, the fund shall receive the interest on the fund balance.

Community Development Block Grant (CDBG) Program Income Fund - accounts for revenue generated by completed housing rehabilitation projects. The revenue received is primarily repayment of loans issued to owners of rehabilitated properties and is used to finance other community development projects.

Law Enforcement Fund - accounts for property confiscated and resold as provided by State law.

Mandatory Drug Fine Fund - accounts for mandatory court fine levied in all drug cases, and used for drug investigations as provided by State law.

Indigent Drunk Drivers Fund - accounts for mandatory court fine levied in all drunk-driving cases, and used for law enforcement as provided by State law.

Probation Grant Fund - a grant from the Ohio Department of Corrections to administer probation office for municipal court.

Victims Advocate Fund - a grant from the Attorney General of Ohio to administer assisting victim of crimes for municipal court.

D.A.R.E. Grant- A grant for Drug Abuse Resistance Education from the Attorney General of Ohio.

FAA Airport Plan Grant Fund – accounts for the receipts and expenditures of Federal Aviation Administration grant and city monies for carrying out the Grimes Field Master Expansion Plan.

Community Development Block Grant Community Housing Improvement Program (CDBG CHIP) - makes funds available to assist low and moderate income households for residents of the City of Urbana, which has substandard housing occupied by low and moderate income families who can not afford the costs of home repair and other related difficulties.

FY98 Formula Grant – State money for low and moderate income families for a sewer extension project.

CAPITAL PROJECT FUNDS

Capital Project Funds are established to account for the receipt and disbursement of resources for the purpose of building or acquiring major capital assets.

Major Capital Project Funds:

Capital Improvement Fund - accounts for all financial resources, primarily twenty-five percent (25%) of city income tax receipts, required by city ordinance to be used for acquisition or construction of equipment and capital facilities, excluding those financed by the Water, Sewer, or Grant funds.

Police & Fire Capital Project Fund - accounts for 1/10% of additional police & fire equipment and/or project needs.

Non-Major Capital Project Funds

Municipal Court Improvement Project - accounts for an additional \$5.00 per case levied by the Municipal Court Judge for court improvement needs.

Perpetual Investment Fund - accounts for the proceeds from the sale of the city's gas system. The proceeds are currently restricted by ordinance to be retained and invested. The interest earned goes to the General Fund.

ENTERPRISE FUNDS

Enterprise Funds are established to account for operations where the intention is to finance such operations primarily through user charges. By state statute, Enterprise Funds cannot be profit making operations to the extent of benefiting other operations of the city.

Water Revenue Fund - accounts for the operation of the waterworks distribution system and related expenditures, including capital improvement and debt service. The operation is exclusively financed by customer user charges.

Sewer Revenue Fund - accounts for the operation of the sanitary sewer system and wastewater treatment plant and related expenditures, including capital improvements and debt service. The operation is financed exclusively by customer user charges.

AGENCY FUNDS

Agency Funds are used to account for assets held on behalf of other parties.

Health Insurance Fund - accounts for city and employee contributions to be used specifically for the city's health and life insurance programs and flexible benefits plan.

Airport Escrow Fund –accounts for the monies set aside for escrow on the airport runway realignment project.

Municipal Court Fund – to account for assets received and disbursed by the Champaign County Municipal Court as agent and custodian or the civil or criminal court matters.
