Board of Education
Eastwood Local School District
Pemberville, Ohio

We have reviewed the independent auditor's report of the Eastwood Local School District, Wood County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2000 through June 30, 2001. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Eastwood Local School District is responsible for compliance with these laws and regulations.

JIM PETRO
Auditor of State

REPORT OF INDEPENDENT ACCOUNTANTS

**Board of Education
Eastwood Local School District
Pemberville, Ohio**

We have audited the accompanying general purpose financial statements of Eastwood Local School District (the District), as of and for the year ended June 30, 2001, as listed in the table of contents. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards and the standards generally accepted in the United States of America applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the District as of June 30, 2001, and the results of its operations and cash flows of its proprietary fund types and non-expendable trust funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 20 to the general purpose financial statements, the District changed its method of accounting for accounting and reporting for its nonexchange transactions and certain shared nonexchange revenues for the year ended June 30, 2001 as required by Governmental Accounting Standards Board Statements No. 33 and No. 36.

In accordance with *Government Auditing Standards*, we have also issued a report dated December 13, 2001 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements of the Eastwood Local School District taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by *U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

Charles E. Harris & Associates, Inc.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Eastwood Local School District (the "School District") is organized under Article VI, Sections 2nd of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state statute and/or federal guidelines.

The School District was established through the consolidation of existing land areas and school districts. The School District serves an area of approximately 27 square miles. It is located in Wood County, and includes the territories of the Villages of Pemberville and Luckey and the Townships of Freedom, Troy, Webster, Middleton, and Perrysburg. It is staffed by 89 non-certificated employees and 111 certificated full-time teaching personnel who provide services to 1,985 students and other community members. The School District currently operates 6 instructional buildings, 1 administrative building, and a garage.

Reporting Entity:

The reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For the Eastwood Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization, or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent of the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes.

Based on the above description, there are no component units within the School District.

The School District is involved with two organizations which are defined as jointly governed organizations and an insurance purchasing pool. These organizations are the Maumee Valley & Computer Association, the Penta County Vocational School, and the Ohio School Boards Association Worker's Compensation Group Rating Plan. These organizations are presented in Notes 15 and 16 to the General Purpose Financial Statements.

The following activities are included within the reporting entity as an agency fund:

Special Education Regional Resource Center (SERRC) - a separate body corporate and politic within the District's boundaries. The federal Department of Education provides funding to the SERRC, which is received and disbursed through the District's financial records, at the direction of the SERRC.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Eastwood Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities, provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

A. Basis Of Presentation - Fund Accounting

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provided for certain assets and liabilities not recorded in the funds because they do not directly affect net available expendable resources.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types."

Governmental Fund Types:

Government fund types are used to account for the District's general government activities. Governmental fund types used the flow of current financial resources measurement focus and the modified accrual basis of accounting.

Revenues – Exchange and Non-exchange Transactions – Revenue resulting from the exchange transactions, in which each party gives and received essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District received value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which taxes are levied. Revenue from grants is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose and expenditure requirements in which the resources are provided to the School District on a reimbursement basis.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Governmental Fund Types: (continued)

Deferred Revenue – Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2001, but which were levied to finance fiscal year 2002 operations, have recorded as deferred revenue.

Under the modified accrual basis of accounting, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenditures – Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, since the measurements focus of governmental fund is on decreases in financial resources. Principals and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service funds for payment to be made early in the following year. Compensated absences are reported as a fund liability when payment will require the current available financial resources. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds. Governmental funds include the following fund type:

General Fund - The General fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

Debt Service Funds - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term obligation principal, interest, and related costs.

Capital Projects Funds - The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Proprietary Fund Types:

Proprietary Funds are used to account for the School District's ongoing activities which are similar to those found in the private sector. The following are the School District's proprietary fund types:

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Proprietary Fund Types: (continued)

Enterprise Funds - Enterprise funds are used to account for the School District activities that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds - Internal service funds account for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis.

Fiduciary Fund Types:

Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The School District's fiduciary funds include expendable trust, and agency funds. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups:

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group - This account group is established to account for all fixed assets of the School District, other than those accounted for in the proprietary or trust funds.

General Long-Term Obligations Account Group - This account group is established to account for all long-term obligations of the School District, except those accounted for in the proprietary or trust funds.

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types and expendable trust funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing resources) and decreases (i.e., expenditures and other financing uses) in net current assets.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Measurement Focus and Basis of Accounting (continued)

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental, expendable trust, and agency funds. Under this basis, revenues are recognized in the accounting period when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period for the School District is sixty days after fiscal year end.

In applying the "susceptible to accrual" concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available in the County Auditor's Office, interest, tuition, grants, and student fees.

The School District reports deferred revenues on its combined balance sheet. Deferred revenues arise when a potential revenue does not meet both the measurable and available criteria for recognition in the current period. In the subsequent period, when both revenue recognition criteria are met, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized. Property taxes measurable as of June 30, 2001, and delinquent property taxes, whose availability is indeterminable and which are intended to finance fiscal year 2002 operations, have been recorded as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

The accrual basis of accounting is utilized for reporting purposes by the proprietary fund types. Revenues are recognized in the accounting period in which they are earned and expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported on the operating statement as an expense with a like amount reported as donated commodities revenue.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entail the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the object level within each function. Any budgetary modifications at this level may only be made of resolution of the Board of Education.

Advances in and Advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Wood County Budget Commission for rate determination.

Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2001.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Budgetary Process (continued)

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds, other than agency funds, consistent with statutory provisions.

Encumbrances:

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non - GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance.

Expenditures plus encumbrances may not legally exceed appropriations. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent - year expenditures for governmental funds and reported in the notes to the general purpose financial statements for proprietary funds.

Lapsing of Appropriations:

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet. During fiscal year 2001, there were no investments.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Cash and Cash Equivalents (continued)

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2001 amounted to \$241,774 and to the capital projects fund \$28,490.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

Restricted cash in the general fund represent cash and cash equivalents set aside to establish a budget stabilization reserve. This reserve is required by State statute and can be used only after receiving approval from the State Superintendent of Public Instruction. A fund balance reserve has also been established.

E. Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available expendable resources even though it is a component of net current assets. Inventories of proprietary funds consist of donated food, purchased food, and school supplies held for resale and are expensed when used.

F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2001, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

G. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them, instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Assets Account Group. Fixed assets utilized in the proprietary funds are capitalized in the fund. All fixed assets are capitalized at cost (on estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five hundred dollars. The School District does not have any infrastructure.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. Fixed Assets and Depreciation (continued)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Improvements are capitalized. Improvements to fund fixed assets are depreciated over the remaining useful lives of the related fixed assets.

Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the enterprise funds is computed using the straight-line method over estimated useful lives ranging from 8 to 20 years.

H. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are carried and become measurable.

I. Interfund Assets/Liabilities

Receivables and payables resulting from transactions between funds for services provided or goods received are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans are classified as "interfund receivables" and "interfund payables". Long-term interfund loans are classified as "advances to/from other funds" and are equally offset by a fund balance reserve account which indicates that they do not constitute available resources, since they are not a component of net current assets.

J. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the General Long-Term Debt Account Group. In proprietary funds, the entire amount of compensated absences is reported as fund liability.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

K. Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds, regardless of whether they will be liquidated with current resources. However, claims and judgements, compensated absences, contractually required pension contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the General Long-Term Debt Account Group to the extent that they will not be paid with current available expendable financial resources. Bonds, capital leases, and long-term loans are reported as a liability of the General Long-Term Debt Account Group until due.

Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

Under Ohio law, a debt service fund must be created and used for the payment of tax and revenue anticipation notes. Generally accepted accounting principles requires the reporting of short-term liabilities in the funds that received the proceeds.

L. Bond Premiums and Discounts

For governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as "other financing sources," net of the applicable premium or discounts. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

M. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

N. Fund Balance Reserves

The School District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves are established for encumbrances, inventories of supplies and materials, prepaid items, property taxes, debt service, and the budget stabilization reserve. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriations under State statute.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

O. Contributed Capital

Contributed capital represents resources from other funds, other governments, and private sources provided to proprietary funds that is not subject to repayment. These assets are recorded at their fair market value on the date donated. Depreciation on those assets acquired or constructed with contributed resources is expensed and closed to unreserved retained earnings at year end.

Because the School District did not prepare financial statements in accordance with generally accepted accounting principles prior to fiscal year 1996, the exact amount of contributed capital cannot be determined.

P. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Q. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned "Total - (Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Non-GAAP Basis) - All Governmental Fund Types and Similar Trust Funds is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as a note disclosure in the proprietary fund type (GAAP basis).

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING(continued)

4. Proceeds from and principal payments on bond and revenue anticipation notes are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).
5. The School District repays short-term note debt from the debt service fund (budget basis) as opposed to the fund that received the proceeds (GAAP basis). Debt service fund resources used to pay both principal and interest have been allocated accordingly.

The following tables summarize the adjustments necessary to reconcile the GAAP and budgetary basis statements by fund type.

Excess of Revenues and Other Financing Sources
Over/(Under) Expenditures and Other Financing Uses -
All Governmental Fund Types and Similar Trust Fund

	<u>General</u>	<u>Special Revenue</u>	<u>Debt Service</u>	<u>Capital Projects</u>	<u>Expendable Trust</u>
GAAP Basis	\$ 2,039,569	\$ 145,089	\$ 323,051	\$ (1,165,581)	\$ 1,248
Revenue Accruals	(1,738,652)	(113,119)	(148,067)	(107,997)	-
Expenditure Accruals	152,469	87,675	-	20,991	-
Encumbrances	(151,719)	(90,374)	-	(149,991)	(245)
Budget Basis	<u>\$ 301,667</u>	<u>\$ 29,271</u>	<u>\$ 174,984</u>	<u>\$ (1,402,578)</u>	<u>1,003</u>

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings accounts, including passbook accounts.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 4 - DEPOSITS AND INVESTMENTS(continued)

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bond and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAROhio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 4 - DEPOSITS AND INVESTMENTS (continued)

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public money deposited with the institution.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements".

Deposits: At fiscal year end, the carrying amount of the School District's deposits was \$3,806,749 and the bank balance was \$4,109,153. Of the bank balance, \$110,413 was covered by federal depository insurance and \$3,998,740 was uninsured, but collateralized with securities held by the pledging financial institution's trust department or agent not in the District's name. Although the securities serving as collateral were held by the pledging financial institution's trust department not in the School District's name and all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements would potentially subject the School District to a successful claim by the Federal Deposit Insurance Corporation.

Investments: At fiscal year end, the School District had no investments classified under GASB 3.

NOTE 5 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31, if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30, if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 5 - PROPERTY TAXES (continued)

The full tax rate applied to real property for the fiscal year ended June 30, 2001 was \$44.70 per \$1,000 of assessed valuation. After adjustment of the rate for inflationary increases in property values, the effective tax rate was \$27.467684 per \$1,000 of assessed valuation for real property classified as residential/agricultural and \$31.311662 per \$1,000 of assessed valuation for all other real property. Real property owners' tax bills are further reduced by homestead and rollback deductions when applicable. The amount of these homestead and rollback reductions is reimbursed to the District by the State of Ohio.

The rate applied to tangible personal property for the fiscal year ended June 30, 2001 was \$44.70 per \$1,000 of assessed valuation.

The School District receives property taxes from Wood County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2001, are available to finance fiscal year 2001 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2001. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2000, was \$2,158,509 in the General Fund, \$169,624 in the Debt Service Fund, and \$ 124,063 in the Capital Projects Fund.

The assessed values upon which fiscal year 2001 taxes were collected are:

	<u>2000</u>	<u>1999</u>
Real Property -		
Residential/Agricultural	\$ 121,944,580	\$ 118,841,420
Commercial/Industrial	11,313,460	11,488,760
Public Utility	119,410	148,030
Minerals	1,450	-
Tangible Personal Property -		
Personal	15,609,853	14,449,032
Public Utilities	<u>22,654,780</u>	<u>23,884,032</u>
Total Valuation	<u>\$ 171,643,533</u>	<u>\$ 168,811,274</u>

NOTE 6 - RECEIVABLES

Receivables at June 30, 2001, consisted of property taxes, accounts (rent, billings for user charged services, and student fees), interfund, and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 7 - FIXED ASSETS

A summary of the Enterprise Funds' fixed assets at June 30, 2001 follows:

	<u>Balance June 30, 2001</u>
Furniture and Equipment	\$ 181,612
Less Accumulated Depreciation	<u>(140,796)</u>
Net Fixed Assets	<u>\$ 40,816</u>

A summary of the changes in general fixed assets during fiscal year 2001 follows:

<u>Asset Category</u>	<u>Balance at 6/30/00</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance at 6/30/01</u>
Land and Improvements	\$ 261,067	-	-	\$ 261,067
Buildings and Improvements	9,160,663	\$1,500,000	-	10,660,663
Furniture, Fixtures and Equipment	1,864,225	136,574	\$(14,525)	1,986,274
Vehicles	<u>600,200</u>	<u>-</u>	<u>-</u>	<u>600,200</u>
Total General Fixed Assets	<u>\$11,886,155</u>	<u>\$1,636,574</u>	<u>\$ (14,525)</u>	<u>\$13,508,204</u>

NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2001, the District has entered into contracts with Nationwide Insurance Company for general liability insurance. Professional liability is protected by Nationwide Insurance Company with \$1,000,000 each occurrence, \$5,000,000 aggregate limit.

Vehicles are covered by Indiana Insurance Company and hold a \$100 deductible for comprehensive. Automobile liability has a \$1,000,000 combined single limit of liability. Settled claims have not exceeded this commercial coverage in any of the past three years. Also, the District did not reduce the limits of liability significantly in the current year.

All employees of the School District are covered by a blanket bond, while certain individuals in policy making roles are covered by a separate, higher bond coverage.

The School District pays the State Worker's Compensation System, a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 9 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The Eastwood Local School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634.

Plan members are required to contribute 9 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current rate is 14 percent of annual covered payroll. For fiscal year 2000, 10.5 percent was the portion to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The School District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$253,116, \$283,884, and \$262,192, respectively; 50 percent has been contributed for fiscal year 2001 and 100 percent for fiscal year 2000 and 1999. \$126,558 represents the unpaid contribution for fiscal year 2001 and is recorded as a liability within the respective funds and the General Long-Term Debt Account Group.

B. State Teachers Retirement System

The Eastwood Local School District participates to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 9.3 percent of their annual covered salary and the School District is required to contribute 14 percent, 4.5 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The School District's contributions for pension obligations to STRS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$783,648, \$746,134, and \$723,614, respectively, 83 percent has been contributed for fiscal year 2001 and 100 percent for fiscal year 2000 and 1999. \$136,920 represents the unpaid contributions for fiscal year 2001 and is recorded as a liability within the respective funds.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 10 - POSTEMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly medicare premiums. Benefit provisions and the obligation to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

For STRS, most benefit recipients are required to pay a portion of health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. The Board allocated employer contributions equal to 8.0 percent of covered payroll to the Health Care Reserve Fund for which payments for health care benefits are paid. For the District, this amount equaled \$447,799 during the 2001 fiscal year. As of June 30, 2000 (the latest information available) eligible benefit recipients totaled 99,011. For the fiscal year ended June 30, 2001, net health care costs paid by STRS were \$283,137,000.

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, and disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For this fiscal year, employer contributions to fund health care benefits were 8.45 percent of covered payroll for the fiscal year 2000 (the latest information available). In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2001, the minimum pay has been established at \$12,400. For District, this amount equaled \$152,774 during the 2001 fiscal year.

The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 2000 (the latest information available), were \$140,696,340 and the target level was \$211.0 million. At June 30, 2000, SERS had net assets available for payment of health care benefits of \$252.3 million. SERS has approximately 50,000 participants currently receiving health care benefits.

NOTE 11 - EMPLOYEE BENEFITS

A. Compensated Absences

Employees earn vacation at rates specified under State of Ohio law and based on credited service. Classified and Administrative employees with one or more years of service are entitled to vacation ranging from 5 to 20 days. Employees with less than one year of service earn a pro-rata vacation rate per month worked. At June 30, 2001, a liability of \$118,919 has been provided in several funds and the General Long-Term Debt Account Group for earned, but unused vacation leave.

All employees are entitled to a sick leave credit equal to one and one-quarter days for each month of service.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 11 - EMPLOYEE BENEFITS

A. Compensated Absences (continued)

This sick leave will either be absorbed by time off due to illness or injury or, within certain limitations, be paid to the employee upon retirement. The amount paid to an employee upon retirement is limited to 25% of the accumulated sick leave benefits up to 50 days for all employees. The sick leave liability is \$9,256 in the Enterprise Fund, and \$876,394 in the General Long-Term Debt Account Group.

B. Life Insurance

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Educational Employees' Life Insurance Trust and to classified employees through Core Source.

NOTE 12 - DEBT OBLIGATIONS

The changes in the School District's debt obligations during fiscal year 2001 were as follows:

	Balance Outstanding <u>6/30/00</u>	<u>Additions</u>	<u>Deletions</u>	Balance Outstanding <u>6/30/01</u>
<u>Long-term Obligations</u>				
General Obligation Bonds:				
H.S. addition and renovation 5.2792%	\$4,219,692	-	\$ (125,000)	\$ 4,094,692
Energy Conservation Bonds 4.5611%	<u>1,025,000</u>	<u>-</u>	<u>(95,000)</u>	<u>930,000</u>
Total general obligation bonds	5,449,692	-	(220,000)	5,024,692
Pension Benefit Obligations	83,432	84,372	(83,432)	84,372
Compensated Absences	<u>811,099</u>	<u>166,183</u>	<u>-</u>	<u>977,282</u>
Total Long-term Obligations	<u>\$6,139,223</u>	<u>\$ 250,555</u>	<u>\$(303,432)</u>	<u>\$6,086,346</u>

Compensated absences and the pension obligation will be paid from the fund from which the employees' salaries are paid. The current year activity for compensated absences is netted for practical purposes.

The School District's voted legal debt margin was \$10,052,380 with an unvoted debt margin of \$168,811 at June 30, 2001.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 12 - DEBT OBLIGATIONS (continued)

Principal and interest requirements to retire general obligation debt outstanding at June 30, 2001 are as follows:

<u>Fiscal Year</u> <u>June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Totals</u>
2002	\$ 220,000	\$ 221,744	\$ 441,744
2003	235,000	211,117	446,117
2004	245,000	199,801	444,801
2005-2009	1,400,000	830,566	2,230,566
2010-2014	529,692	1,005,512	1,535,204
2015-2019	1,050,000	469,775	1,519,775
2020-2024	<u>1,345,000</u>	<u>174,375</u>	<u>1,519,375</u>
Totals	<u>\$ 5,024,692</u>	<u>\$ 3,112,890</u>	<u>\$ 8,137,582</u>

NOTE 13 - INTERFUND ACTIVITY

As of June 30, 2001, receivables and payables that resulted from various interfund transactions were as follows:

<u>Fund Type/Fund</u>	<u>Interfund</u> <u>Receivables</u>	<u>Interfund</u> <u>Payables</u>
General Fund	\$ 48,630	-
Special Revenue Funds:		
Title I	-	19,929
Capital Projects		
Permanent Improvement	-	10,551
Enterprise Fund		
Food Service	-	<u>18,150</u>
Total All Funds	<u>\$ 48,630</u>	<u>\$ 48,630</u>

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 14 - SEGMENT INFORMATION FOR ENTERPRISE FUNDS

The School District maintains two enterprise funds to account for the operations of food service and uniform school supplies. The table below reflects the more significant financial data relating to the enterprise funds of the Eastwood Local School District as of and for the fiscal year ended June 30, 2001.

	<u>Food Service</u>	<u>Uniform School Supplies</u>	<u>Total Enterprise Funds</u>
Operating Revenues	\$ 427,889	\$ 70,082	497,971
Operating Expenses less			
Depreciation	503,798	76,186	579,984
Depreciation Expense	4,704	--	4,704
Operating Income (Loss)	(80,613)	(6,104)	(86,717)
Donated Commodities	47,999	--	47,999
Intergovernmental revenue	92,684	--	92,684
Net Income (Loss)	60,070	(1,321)	58,749

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS

The School District is a participant in the Maumee Valley & Computer Association (MAVCA) which is a computer consortium. MAVCA is an association made up of seventeen participating school districts and two county board. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. MAVCA is governed by an assembly consisting of the superintendents, or treasurers, or other designees of the member school districts. The assembly exercises total control over the operation of MAVCA including budgeting, appropriating, contracting and designating management. All the MAVCA revenues are generated from charges for services and state funding. To obtain information write to 30095 Oregon Road, Perrysburg, Ohio 43551.

The Penta County Vocational School is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the sixteen participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Penta County Vocational School, Carrie Herringshaw, who serves as Treasurer, at 30095 Oregon Road, Perrysburg, Ohio 43551.

NOTE 16 - INSURANCE PURCHASING POOL

The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the Ohio School Boards Association. The Executive Director of the OSBA, or his designee, serves as coordinator of the Program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the cost of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP.

The workers compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school district in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Gates, McDonald & Co. provides administrative, cost control and actuarial services to the GRP. In accordance with the above, the OSBA Group Rating Program has not been included as a component unit of the reporting entity.

NOTE 17 - SCHOOL FUNDING DECISION

On September 6, 2001 the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision identified aspects of the current plan that requires modification if the plan is to be considered constitutional, including:

A change in the school district that is used as a basis for determining the base cost support amount. Any change in the amount of funds distributed to a school district as a result of this change must be retroactive to July 1, 2001, although a time line for distribution is not specified.

Fully funding parity aid no later than the beginning of fiscal year 2004 rather than fiscal year 2006.

The Supreme Court relinquished over the case based on anticipated compliance with its order.

In general, it is expected that the decision would result in an increase in State funding for most Ohio school districts. However, as of November 2, 2001, the Ohio General Assembly is still analyzing the impact this Supreme Court decision will have on funding for individual school districts. Further, the State of Ohio, in a motion filed September 17, 2001, asked the Court to reconsider and clarify the parts of the decision changing the school districts that are used as the basis for determining the base cost support amount and the requirement that changes can be made retroactive to July 1, 2001.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 17 - SCHOOL FUNDING DECISION (continued)

On November 2, 2001, the Court granted this motion for reconsideration. The Court may reexamine and redetermine any issue upon such reconsideration.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this decision and the reconsideration will have on its future State funding and on its financial operations.

NOTE 18 - CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2001.

B. Litigation

The School District is party to legal proceedings. The School District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the School District.

NOTE 19- SET-ASIDE REQUIREMENTS

Substitute House Bill 412, as amended, required the District to “set aside” certain percentages of defined revenues for (1) textbook and instructional materials purchases and (2) capital and maintenance expenditures. As of April 10, 2001, any money on hand in a School District’s budget reserve set-aside account may at the discretion of the Board be left in the account and used by the Board to offset any budget deficit the District may experience in future years. The amendment places special conditions on any refunds or rebates from the Bureau of Workers’ Compensation. These monies are to be used to offset a budget deficit; for school facility construction, renovation or repair; for textbook or instructional materials; for purchases of school buses; or for teachers’ professional development. It also required five year budget projections, amended the fiscal watch and fiscal emergency statutes, created a state school district solvency fund, and amended “spending reserve” provisions.

The following information describe the changes in the amount set aside for textbook and instructional materials, capital improvements and budget stabilization from the end of the prior year to the end of the current year.

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 19- SET-ASIDE REQUIREMENTS (continued)

	<u>Textbooks</u>	<u>Capital Improvements</u>	<u>Budget Reserve</u>	<u>Total</u>
Set aside balance as of June 30,2000	--	--	\$501,090	\$501,090
Current year set aside requirement	\$333,074	\$333,074	29,360	\$695,508
Qualifying Expenditures	<u>\$(518,951)</u>	<u>\$(585,175)</u>	--	<u>\$(1,104,126)</u>
Totals	<u>\$ (185,877)</u>	<u>\$ (252,101)</u>	--	<u>\$ (437,978)</u>
Cash balance carried forward toFY2001	<u>--</u>	<u>--</u>	<u>\$ 530,450</u>	<u>\$ 530,450</u>
Amount restricted for budget stabilization				<u>\$ 530,450</u>
Total restricted assets				<u>\$ 530,450</u>

Although the District had qualifying expenditures during the year that reduced the set-aside amounts below zero, these extra amounts may not be used to reduce the set-aside requirements of future years. Negative amounts are not presented as being carried forward to the next fiscal year.

NOTE 20- CHANGE IN ACCOUNTING PRINCIPLE

For fiscal year ending June 30, 2001, the School District has adopted the new accounting provision GASB Statement 33, *Accounting and Financial Reporting for Nonexchange Transactions*. The College has also adopted the new provision GASB 36, *Recipient Reporting for Certain Shared Nonexchange Revenues*. The implementation of GASB 33 and 36 had no effect on fund balance as it was previously reported as of June 30, 2000.

NOTE 21- ACCOUNTABILITY AND COMPLIANCE

- A. Section 5705.39, Revised Code, prohibits the District from making a fund appropriation in excess of the estimated revenue available for expenditure plus carryover balances in that fund. The following funds were found to have appropriations exceeding estimated revenue plus carryover balances:

Special Revenue		
Student Activities	\$	(12,035)

EASTWOOD LOCAL SCHOOL DISTRICT
Notes to the General Purpose Financial Statements
For the Year Ended June 30, 2001

NOTE 21- ACCOUNTABILITY AND COMPLIANCE (continued)

- B. Section 5705.41 (D), Revised Code, requires that encumbrances be charged against proper appropriations. Section 5705.41 (B), prohibits the City from making an expenditure unless it has been properly appropriated. The following funds had expenditures plus encumbrances exceeding appropriations:

Capital Projects		
Building	\$	(46,317)
Enterprise Fund		
Food Service		(19,418)
Uniform Supplies		(2,299)

See accompanying Notes to the Schedule of Federal Awards Expenditures.

Eastwood Local School District
Notes to the Schedule of Federal Awards Expenditures
For the Year Ended June 30, 2001

1. Significant Accounting Policies

The accompanying schedule of federal awards expenditures is a summary of the activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

2. Food Distribution

Nonmonetary assistance is reported in the schedule at fair market value of the commodities received and disbursed. Monies are commingled with State grants. It is assumed federal monies are expended first. At June 30, 2001, the District had food commodities in inventory recorded in the Enterprise Fund.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL
REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

**Board of Education
Eastwood Local School District
Pemberville, Ohio**

We have audited the general purpose financial statements of the Eastwood Local School District as of and for the year ended June 30, 2001, and have issued our report thereon dated December 13, 2001, wherein we noted the District adopted Governmental Accounting Standards Board Statements Nos. 33 and 36, as of and for the year ended June 30, 2001. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's general purpose financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the general purpose financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

However, we noted other matters involving the internal control over financial reporting that we have reported to the management of the District in a separate letter dated December 13, 2001.

This report is intended solely for the information and use of the Board, management, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO
EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH OMB CIRCULAR A-133**

**Board of Education
Eastwood Local School District
Pemberville, Ohio**

Compliance

We have audited the compliance of the Buckeye Local School District with the types of compliance requirements described in *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program cluster for the year ended June 30, 2001. During the fiscal year ended June 30, 2001, the District implemented Governmental Accounting Standards Board Statements Nos. 33 and 36. The District's major federal program cluster is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program cluster is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and *OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and *OMB Circular A-133* require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program cluster for the year ended June 30, 2001.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with *OMB Circular A-133*.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of management, the Board, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
