## REPORT OF INDEPENDENT ACCOUNTANTS

Greeneview Local School District  
Greene County  
4 South Charleston Road  
Jamestown, Ohio 45335

To the Board of Education:

We have audited the accompanying general-purpose financial statements of the Greeneview Local School District (the District), Greene County, as of and for the year ended June 30, 2001, as listed in the table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Greeneview Local School District, Greene County, as of June 30, 2001, and the results of its operations and the cash flows of its proprietary fund type and nonexpendable trust fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, during the year ended June 30, 2001, the District adopted Governmental Accounting Statement No. 33.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2001, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

We performed our audit to form an opinion on the general-purpose financial statements of the District, taken as a whole. The accompanying schedule of federal awards expenditures is presented for additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general-purpose financial statements. We subjected this information to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY**

Greeneview Local School District (the "School District") is a body politic and corporate for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as authorized by its charter and further mandated by State and/or federal agencies. It is staffed by 74 non-certified employees, 103 certified full time teaching personnel, including 7 administrators, who provide services to 1,652 students and other community members. The School District currently operates 4 instructional/support facilities.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Greeneview Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District does not have any component units.

The School District is associated with three jointly governed organizations and two insurance purchasing pools. These organizations are discussed in Note 16 and 17 to the general purpose financial statements. These organizations are:

Jointly Governed Organizations:

- Miami Valley Educational Computer Association (MVECA)
- Southwestern Ohio Educational Purchasing Cooperative (SOEPC)
- Greene County Career Center

Insurance Purchasing Pools:

- Southwestern Ohio Educational Purchasing Cooperative's Workers' Compensation Group Rating Program
- Southwestern Ohio Educational Purchasing Cooperative's Employee Benefit Plan Trust

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Greeneview Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

**A. Basis Of Presentation - Fund Accounting**

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available expendable resources.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories governmental, proprietary, and fiduciary.

*Governmental Fund Types:*

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition, use, and balances of the School District's expendable financial resources and the related current liabilities (except those accounted for in the proprietary fund and trust funds) are accounted for through governmental funds. The following are the School District's governmental fund types:

*General Fund* - The General Fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

*Special Revenue Funds* - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

*Debt Service Fund* - The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

*Capital Projects Funds* - The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by the proprietary fund or trust funds).

*Proprietary Fund Type:*

Proprietary funds are used to account for the School District's ongoing activities which are similar to those found in the private sector. The following is the School District's proprietary fund type:

*Enterprise Fund* - The enterprise fund is used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

*Fiduciary Fund Types:*

Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The School District's fiduciary funds include expendable trust, nonexpendable trust and agency funds. The expendable trust fund is accounted for in essentially the same manner as governmental funds. The nonexpendable trust fund is accounted for in essentially the same manner as proprietary funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

*Account Groups:*

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term obligations related to specific funds and those of a general nature, the following account groups are used:

*General Fixed Assets Account Group* - This account group is established to account for all fixed assets of the School District, other than those accounted for in the proprietary or trust funds.

*General Long-Term Obligations Account Group* - This account group is established to account for all long-term obligations of the School District except those accounted for in the proprietary or trust funds.

***B. Measurement Focus and Basis of Accounting***

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types and the expendable trust fund are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

The proprietary fund and nonexpendable trust fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of this fund are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund types and nonexpendable trust fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental, expendable trust and agency funds. The full accrual basis of accounting is followed for the proprietary fund and nonexpendable trust fund.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include income tax, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income tax is recognized in the fiscal year in which the exchange on which the tax is imposed takes place and revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 7). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: income tax, property taxes available as an advance, interest, tuition, grants, student fees and rentals.

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2001, but which were levied to finance fiscal year 2002 operations, have been recorded as deferred revenue. Grants and entitlements received before eligibility requirements are met are also recorded as deferred revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

**C. Budgetary Process**

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The special revenue funds grant activity that is administered by a fiscal agent is not budgeted by the School District. The primary level of budgetary control is at the object level within each function. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

*Tax Budget:*

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Greene County Budget Commission for rate determination.

*Estimated Resources:*

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2001.

*Appropriations:*

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund of expenditures, which are the legal levels of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant. The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

*Encumbrances:*

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds and reported in the notes to the financial statements for proprietary funds.

*Lapsing of Appropriations:*

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

**D. Cash and Cash Equivalents**

To improve cash management, all cash received by the School District is pooled. Monies for all funds, including the proprietary fund, are maintained in this pool. Individual fund integrity is maintained through School District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet. During fiscal year 2001, investments were limited to repurchase agreements and certificates of deposit.

Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2001 amounted to \$94,393, which includes \$45,108 assigned from other School District funds. The capital projects funds, enterprise fund and the nonexpendable trust fund also received interest of \$427,879, \$1,344 and \$14,923, respectively.

The balance of various grant activity administered by the fiscal agent is presented on the combined balance sheet as "cash and cash equivalents with fiscal agents" and represents deposits.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**E. Inventory**

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Reported material and supplies inventory is equally offset by a fund balance reserve in the governmental funds which indicates that it does not constitute available expendable resources even though it is a component of net current assets. Inventories of proprietary funds consist of donated food, purchased food, and non-food supplies and are expensed when used.

**F. Restricted Assets**

Restricted assets in the general fund represent cash and cash equivalents whose use is limited by legal requirements. Restricted assets include unexpended revenues restricted for the acquisition or construction of capital assets and for the creation of a reserve for budget stabilization. See Note 19 for the calculation of the year-end restricted asset balance and the corresponding fund balance reserves.

**G. Fixed Assets and Depreciation**

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the enterprise fund are capitalized in the fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five hundred dollars. The School District does not have any infrastructure.

Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of general fixed assets is also not capitalized.

Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the enterprise fund is computed using the straight-line method over an estimated useful life of ten years. Improvements to fund fixed assets are depreciated over the remaining useful lives of the related fixed assets.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**H. Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for employees after ten years of current service with the School District.

For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In the enterprise fund, the entire amount of compensated absences is reported as a fund liability.

**I. Accrued Liabilities and Long-Term Obligations**

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, compensated absences and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Payments made more than sixty days after year-end are considered not to have been paid using current available financial resources. Bonds are reported as a liability of the general long-term obligations account group until due. Long-term debt and other obligations financed by the proprietary fund are reported as liabilities in the appropriate proprietary fund.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**J. Interfund Transactions**

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed. Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

**K. Fund Balance Reserves**

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, inventory, property taxes, endowments, capital improvements and budget stabilization.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute. The reserve for endowments signifies the legal restriction on the use of principal. The reserve for budget stabilization represents workers' compensation refunds required to be set-aside by statute to offset future deficits, for school facility construction, renovation, or repair, for textbooks and instructional materials, for the purchase of school buses, or for professional development of teachers.

**L. Fund Designation**

Fund balance designations may be established to indicate tentative planned expenditures of financial resources. The designations reflects the School District's intentions and are subject to change. Designations are reported as part of unreserved fund balance. Designations may arise when amounts set-aside for HB 412 purposes exceed the statutory required amount. For the School District, the amount reported as "unreserved, designated for textbooks" is \$20,207.

**M. Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**N. Total Columns on General Purpose Financial Statements**

Total columns on the general purpose financial statements are captioned "Total - (Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

**NOTE 3 - CHANGES IN ACCOUNTING PRINCIPLES**

For fiscal year 2001, the School District has implemented GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions" and GASB Statement No. 36, "Recipient Reporting for Certain Shared Nonexchange Revenues." The effect of the implementation of these statements on the excess of revenues and other financing sources over (under) expenditures and the effect on opening fund balances follows:

	Governmental Fund Type
	General
Excess as previously reported	\$82,220
Restatement:	
GASB 33 Implementation	(666)
Restated Amounts at July 1, 2000	\$81,554
	Governmental Fund Type
	General
Fund Balance at June 30, 2000	(\$128,250)
Restatement:	
GASB 33 Implementation	(666)
Restated Amounts at July 1, 2000	(\$128,916)

**NOTE 4 - ACCOUNTABILITY AND COMPLIANCE**

**Deficit Fund Balances**

The Title VI-B Special Revenue Fund had a deficit fund balance of \$267 at June 30, 2001. The deficit in the special revenue fund was created by the application of generally accepted accounting principles. The general fund is liable for any deficit in this fund and provides operating transfers when cash is needed, rather than when accruals occur.

**Budgetary Compliance**

Contrary to Ohio Rev. Code Section 5705.41(B), the School District had budgetary expenditures which exceeded appropriations at the legal level of control in the Debt Service Fund.

**NOTE 5 - BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations, and changes in fund balances/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Budgetary Basis) and Actual - All Governmental Fund Types and Expendable Trust Fund and the Statement of Revenues, Expenses and Changes in Fund Equity - Budget (Non-GAAP Budgetary Basis) and Actual - Enterprise Fund and Nonexpendable Trust Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosure in the proprietary fund type (GAAP basis).
4. The School District does not budget for activities of various grants administered by the fiscal agent who collects and holds the assets. However, the activities of the fiscal agent are included in the special revenue funds for GAAP reporting purposes.
5. For the enterprise fund, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).

**NOTE 6 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings accounts, including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Inactive monies are permitted to be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
2. Bonds, notes debentures, or any other obligations or security issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 6 - DEPOSITS AND INVESTMENTS (continued)**

5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio); and
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time.

Investments in stripped principal or interest obligation, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

*Cash on Hand:* At fiscal year end, the School District had \$244 in undeposited cash in hand which is included on the balance sheet of the School District as part of "equity in pooled cash and cash equivalents".

The "cash and cash equivalents with fiscal agent" of \$6,142 shown in the special revenue funds is maintained by the Greene County Educational Service Center. GASB 3 disclosures regarding this amount can be obtained from their annual report.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments Including Repurchase Agreements), and Reverse Repurchase Agreements".

*Deposits:* At fiscal year end, the carrying amount of the School District's deposits was \$5,417,513 and the bank balance was \$5,359,920. Of the bank balance:

1. \$200,000 was covered by federal depository insurance
2. \$5,159,920 was uninsured and uncollateralized. Although all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 6 - DEPOSITS AND INVESTMENTS (continued)**

*Investments:* The School District's investments are categorized below to give an indication of the level of risk assumed by the School District at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the School District or its agent in the School District's name. Category 2 includes uninsured and unregistered investments which are held by the counterparty's trust department or agent in the School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the School District's name.

The School District's only investment at year end was a repurchase agreement. It is a Category 3 investment, with a carrying value and a fair value of \$444,379.

The classification of cash and cash equivalents and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9 entitled "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting."

A reconciliation between the classifications of cash and investments on the combined financial statements and the classification of deposit and investments presented above per GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents/ Deposits	Investments
GASB Statement 9	\$5,638,924	\$229,354
Cash on Hand	(244)	0
Cash with Fiscal Agent	(6,142)	0

**NOTE 7 - PROPERTY TAXES**

Property taxes levied are assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property located in the School District. Property tax revenue received during calendar year 2001 for real and public utility property taxes represents collections of calendar 2000 taxes. Property tax payments received during calendar year 2001 for tangible personal property (other than public utility property) is for calendar year 2001 taxes.

2001 real property taxes are levied after April 1, 2001, on the assessed value as of January 1, 2001, the lien date. Assessed values are established by State law at thirty-five percent of appraised market value.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at thirty-five percent of true value. 2001 public utility property taxes became a lien December 31, 2000, are levied after April 1, 2001, and are collected in 2002 with real property taxes.

2001 tangible personal property taxes are levied after April 1, 2000, on the value as of December 31, 2000. Collections are made in 2001. Tangible personal property assessments are twenty-five percent of true value.

Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

Assessed values upon which fiscal year 2001 taxes were collected are:

**NOTE 7 - PROPERTY TAXES (continued)**

The School District receives property taxes from Greene County. The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2001, are available to finance fiscal year 2001 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2001 and for which there is an enforceable legal claim.. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 were levied to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not levied to finance current year operations. The amount available as an advance is recognized as revenue. The amount available as an advance at June 30, 2001 was \$336,254. \$266,934 was available to the general fund and \$69,320 was available to the bond retirement fund.

**NOTE 8 - INCOME TAX**

The School District levies a voted tax of ½ percent for general operations on the income of residents and of estates. The tax was effective on 1/1/91, and is a continuing tax. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

**NOTE 9 - RECEIVABLES**

Receivables at June 30, 2001, consisted of property taxes and income taxes, accounts, interest and intergovernmental grants. All receivables are considered collectible in full. A summary of the principal items of intergovernmental receivables follows:

	<u>Amounts</u>
General Fund:	
Mont. Co. Transportation Reimbursement	\$1,305
Over-reduction of Foundation	<u>78,974</u>
Total General Fund	80,279

**NOTE 11 - RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2001, the School District contracted with Nationwide Insurance Company for general liability insurance with a \$1,000,000 single occurrence limit and a \$5,000,000 aggregate. Property is protected by Indiana Insurance Company and holds a \$500 deductible.

The School District's vehicles are covered under a business policy with Indiana Insurance Company which carries a \$1,000,000 limit on any accident.

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant change in coverage from prior years.

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

**NOTE 11 - RISK MANAGEMENT (continued)**

For fiscal year 2001, the School District participated in the Southwest Ohio Educational Purchasing Cooperative's Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 17). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Integrated Comp Incorporated provides administrative, cost control and actuarial services to the GRP.

**NOTE 12 - DEFINED BENEFIT PENSION PLANS**

**A. School Employees Retirement System**

The Greeneview Local School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement benefits, disability benefits, annual cost-of-living adjustments, and death benefits to members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634.

Plan members are required to contribute 9 percent of their annual covered salary and the Greeneview Local School District is required to contribute at an actuarially determined rate. The current rate is 14 percent of annual covered payroll. For fiscal year 2001, 4.2 percent was the portion to fund pension obligations. For fiscal year 2000, 5.5 percent was used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS's Retirement Board. The School District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$37,241, \$55,642, and \$87,561, respectively, 32.12 percent has been contributed for fiscal year 2001 and 100 percent for the fiscal years 2000 and 1999. \$25,279 representing the unpaid contribution for fiscal year 2001, is recorded as a liability within the respective funds and the general long-term obligations account group.

**NOTE 12 - DEFINED BENEFIT PENSION PLANS (continued)**

**B. State Teachers Retirement System**

The Greeneview Local School District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

For the fiscal year ended June 30, 2001, plan members are required to contribute 9.3 percent of their annual covered salary. Greeneview Local School District was required to contribute 14 percent; 9.5 percent was the portion used to fund pension obligations. For fiscal year 2000, the portion used to fund pension obligations was 6.0 percent. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. The School District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$419,565, \$228,616, and \$227,154 respectively, 83.72 percent has been contributed for fiscal year 2001 and 100 percent for fiscal years 2000 and 1999. \$68,300 representing the unpaid contribution for fiscal year 2001, is recorded as a liability within the respective funds.

**NOTE 13 - POSTEMPLOYMENT BENEFITS**

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly medicare premiums. Benefit provisions and the obligation to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefits recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2001, the STRS board currently allocates employer contributions equal to 4.5 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$198,741 during 2001.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Fund was \$3,419 million at June 30, 2000 (the latest information available). For the year ended June 30, 2000, net health care costs paid by STRS were \$283,137,000 and STRS had 99,011 eligible benefit recipients.

**GREENVIEW LOCAL SCHOOL DISTRICT  
GREENE COUNTY**

**NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS  
JUNE 30, 2001**

**NOTE 13 - POSTEMPLOYMENT BENEFITS (continued)**

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2001, employer contributions to fund health care benefits were 9.8 percent of covered payroll, an increase of 1.3 percent from fiscal year 2000. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2001, the minimum pay was established at \$12,400. For the School District, the amount contributed to fund health care benefits, including the surcharge, during the 2001 fiscal year equaled \$104,775.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of the annual health care expenses. Expenses for health care for the fiscal year ended June 30, 2000 (the latest information available), were \$140,696,340 and the target level was \$211.0 million. At June 30, 2000, SERS had net assets available for payment of health care benefits of \$252.3 million. SERS has approximately 50,000 participants currently receiving health care benefits.

**NOTE 14 - EMPLOYEE BENEFITS**

**A. Compensated Absences**

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is not paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 240 days for all personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 60 days.

**B. Health Insurance**

The School District provides life insurance and accidental death and dismemberment insurance to most employees through the Horace Mann Company. The School District has elected to provide employee medical/surgical benefits through United Health Care of Ohio. The employees share the cost of the monthly premium with the Board. The premium varies with employee depending on the terms of the union contract. Dental insurance is provided by the School District to most employees through the Southwestern Ohio Educational Purchasing Cooperative's Employee Benefit Plan Trust. See Note 17.

*Energy Conservation Bonds*

On July 1, 1993, Greeneview Local School District issued \$550,000 in unvoted general obligation bonds for the purpose of providing energy conservation measures for Greeneview Local School District under authority of the Ohio Revised Code section 133.06(G) and 3313.372. The bonds were issued for a ten year period with final maturity during fiscal year 2003 and the debt will be retired through the savings of the energy conservation measures.

*School Bus Bonds*

On June 1, 1998, the Greeneview Local School District issued \$500,000 in unvoted general obligation bonds for the purpose of acquiring school buses. The bonds were issued for a five year period with a final maturity on April 15, 2003.

*School Improvement Bonds*

On May 1, 1999, the Greeneview Local School District issued \$9,500,000 in voted general obligation bonds for the purpose of constructing a new high school and purchasing land to do so. The bonds were issued for a twenty-eight year period with a final maturity date of December 1, 2026.

All general obligation debt is supported by the full faith and credit of the School District. The Energy Conservation Bond will be paid from the General Fund while the School Bus Bonds and School Improvement Bonds will be paid from the Debt Service Fund. Compensated absences and the intergovernmental payable will be paid from the fund from which the employees' salaries are paid. The School District's overall debt margin was \$2,359,980, the energy conservation debt margin was \$1,013,043 and the unvoted debt margin was \$124,783 at June 30, 2001.

Principal and interest requirements to retire general obligation debt outstanding at June 30, 2001, are as follows:

**NOTE 16 - JOINTLY GOVERNED ORGANIZATIONS**

*Miami Valley Educational Computer Association (MVECA)* - The School District is a participant in MVECA, which is a computer consortium. MVECA is an association of public school districts within the geographic area determined by the Ohio Department of Education. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of MVECA consists of two representative from each of the participating members. The School District paid MVECA \$16,987 for services provided during the year. Financial information can be obtained from MVECA located at 330 Enon Road, Yellow Springs, Ohio 45387.

*Southwestern Ohio Educational Purchasing Cooperative* - The Southwestern Ohio Educational Purchasing Cooperative (SOEPC) is a purchasing cooperative made up of nearly 100 school districts in 12 counties. The purpose of the cooperative is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC.

Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the member districts. Any district withdrawing from the SOEPC shall forfeit its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations. Payments to SOEPC are made from the General Fund. Payments made to SOEPC during the 2001 fiscal year were \$943. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Cooperative, Robert Brown, who serves as Director, 1831 Harshman Road, Dayton, Ohio 45424.

*Greene County Career Center* - The Greene County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the seven participating school districts' elected Boards, which possesses it's own budgeting and taxing authority. To obtain financial information, write to the Greene County Career Center, Steve Sutcliffe, who serves as Treasurer, at 2960 W. Enon Rd., Xenia, OH 45385. The Greeneview Local School District did not contribute any money to the Greene County Career Center during the 2001 fiscal year.

**NOTE 17 - INSURANCE PURCHASING POOLS**

*Southwestern Ohio Educational Purchasing Cooperative's Workers' Compensation Group Rating Program* - The School District participates in the Southwestern Ohio Educational Purchasing Cooperative's Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a 11 member Board of directors. The Executive Director of the GRP, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

**NOTE 17 - INSURANCE PURCHASING POOLS (continued)**

*Southwestern Ohio Educational Purchasing Cooperative's Employee Benefit Plan Trust* - The EPC Benefit Plan Trust is a group purchasing pool consisting of public school districts who are members of the Southwestern Ohio Educational Purchasing Cooperative (SOEPC). The purpose of the pool is for members to pool funds or resources to purchase insurance products to provide health benefits to participants at a lower rate than if the individual districts acted independently.

Each district pays a monthly premium to the Trust fund for insurance coverage which is provided by Anthem Blue Cross Blue Shield or United Healthcare. Districts may also contribute monthly to the Trust fund for dental benefits provided through a dental plan administered by CoreSource. The plan is governed by a Board of Trustees elected in accordance with the Trust Agreement and voted on by participating member districts. In fiscal year 2001, Greeneview Local School District contributed \$704,876 which represented 1.334% of total contributions to the Trust. Financial information can be obtained from Barbara Coriell, who serves as administrator, at EPC Benefits Office, 1831 Harshman Road, Dayton, OH 45424.

**NOTE 18 - SIGNIFICANT CONTRACTUAL COMMITMENTS**

At June 30, 2001, the School District had the following significant contractual commitments for the addition at Greeneview Central High School:

Vendor	Contract Amount	Amount Completed	Amount Outstanding
Staffco	\$3,916,219	\$2,315,919	\$1,600,300
Demmy	1,011,179	753,611	257,568

**NOTE 19 - SET ASIDE CALCULATIONS AND FUND RESERVES**

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years. The School District is also required to set aside money for budget stabilization.

**NOTE 19 - SET ASIDE CALCULATIONS AND FUND RESERVES (continued)**

The following cash basis information describes the change in the year-end set-aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

	<u>Textbooks</u>	<u>Capital Acquisition</u>	<u>Budget Stabilization</u>	<u>Totals</u>
Set-aside Reserve Balance as of June 30, 2000	(\$42,404)	\$0	\$136,935	\$94,531
Reduction in Requirement Based on Revised Legislation	0	0	(60,697)	(60,697)
Current Year Set-aside Requirement	193,851	193,851	0	387,702
Qualifying Disbursements	<u>(173,644)</u>	<u>(123,234)</u>	<u>0</u>	<u>(296,878)</u>
Total	<u>(\$22,197)</u>	<u>\$70,617</u>	<u>\$76,238</u>	<u>\$124,658</u>
Total Restricted Assets				<u>\$146,855</u>

The School District had qualifying disbursements and offsets during the fiscal year that reduced the textbook set-aside amounts below zero. This extra amount may be used to reduce set-aside requirements in future fiscal years.

**NOTE 20- CONTINGENCIES**

**A. Grants**

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2001.

**B. Litigation**

The School District is party to no legal proceedings.

**NOTE 21 - SCHOOL FUNDING COURT DECISION**

On September 6, 2001, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision identified aspects of the current plan that require modification if the plan is to be considered constitutional, including:

- A change in the school districts that are used as the basis for determining the base cost support amount. Any change in the amount of funds distributed to school districts as a result of this change must be retroactive to July 1, 2001, although a time line for distribution is not specified.
- Fully funding parity aid no later than the beginning of fiscal year 2004 rather than fiscal year 2006.

The Supreme Court relinquished jurisdiction over the case based on anticipated compliance with its order.

During the fiscal year ended June 30, 2001, the School District received \$5,196,577 of school foundation support for its general fund.

In general, it is expected that the decision would result in an increase in State funding for most Ohio school districts. However, as of December 7, 2001, the Ohio General Assembly is still analyzing the impact this Supreme Court decision will have on funding for individual school districts. Further, the State of Ohio, in a motion filed September 17, 2001, asked the Court to reconsider and clarify the parts of the decision changing the school districts that are used as the basis for determining the base cost support amount and the requirement that changes be made retroactive to July 1, 2001. On November 2, 2001, the Court granted this motion for reconsideration. The Court may re-examine and redetermine any issue upon such reconsideration.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this decision and the reconsideration will have on its future State funding and on its financial operations.

## REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Greeneview Local School District  
Greene County  
4 South Charleston Road  
Jamestown, Ohio 45335

To the Board of Education:

We have audited the financial statements of Greeneview Local School District, Greene County, (the District) as of and for the year ended June 30, 2001, and have issued our report thereon dated December 7, 2001, wherein we noted that for the year ended June 30, 2001, the District adopted Government Accounting Statement No. 33. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance that is required to be reported under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2001-10329-001. We also noted immaterial instances of noncompliance that we have reported to management of the District in a separate letter dated December 7, 2001.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting, that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 7, 2001.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO MAJOR FEDERAL PROGRAMS AND INTERNAL CONTROL OVER  
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Greeneview Local School District  
Greene County  
4 South Charleston Road  
Jamestown, Ohio 45335

To the Board of Education:

**Compliance**

We have audited the compliance of Greeneview Local School District, Greene County, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2001. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2001.

**Internal Control Over Compliance**

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Report of Independent Accountants on Compliance with Requirements  
Applicable to Each Major Federal Program and Internal  
Control Over Compliance In Accordance With OMB Circular A-133  
Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses. We noted a matter involving the internal control over federal compliance that does not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 7, 2001.

This report is intended for the information and use of the audit committee, management, Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS  
 REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

<b>Finding Number</b>	<b>2001-10329-001</b>
-----------------------	-----------------------

**Ohio Rev. Code Section 5705.41 (B)** prohibits a subdivision from making an expenditure unless it has been properly appropriated. The District had instances of expenditures exceeding appropriations, as noted below. Budgetary expenditures exceeded appropriations at the legal level of control as follows:

	<b>Appropriations</b>	<b>Budgetary Expenditures</b>	<b>Variance</b>
at January 31, 2001			
Debt Service Fund:			
002-6100-810	224,000	279,000	(55,000)
at May 31, 2001			
Debt Service Fund:			
002-6100-810	224,000	504,269	(280,269)

Other less significant variances were noted throughout the fiscal year.

To meet compliance with the above Section of Code and to reduce the risk of deficit fund balances, the District should develop and implement procedures to monitor expenditures and encumbrances and compare with budgeted amounts. In instances where appropriations appear insufficient to meet projected needs, the Board should pass a resolution to amend such appropriations.

This citation was included in the Management Letter during the prior audit.
