REPORT OF INDEPENDENT ACCOUNTANTS

Van Wert City School District Van Wert County 205 West Crawford Street Van Wert, Ohio 45891

To the Board of Education:

We have audited the accompanying general-purpose financial statements of the Van Wert City School District, Van Wert County, (the School District) as of and for the year ended June 30, 2001, as listed in the table of contents. These general-purpose financial statements are the responsibility of the School District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Van Wert City School District, Van Wert County, as of June 30, 2001, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust funds for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, during the year ended June 30, 2001, the Government adopted Governmental Accounting Statement No. 33 and 36. Additionally, the School District changed the capital asset capitalization threshold as described in Note 3.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2001 on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Van Wert City School District Van Wert County Report of Independent Accountants Page 2

The accompanying schedule of federal awards expenditures is presented for additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the general-purpose financial statements. We subjected this information to the auditing procedures applied in the audit of the general-purpose financial statements. In our opinion, it is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

Jim Petro Auditor of State

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Van Wert City School District is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state statute and/or federal guidelines.

The School District is located in a prosperous community within Van Wert County, consisting of residences and significant office and retail commercial development. The School District is the 217th largest in the State of Ohio (among 613 school districts) in terms of enrollment. It is staffed by 84 non-certificated employees and 174 certificated full-time teaching personnel who provide services to 2,367 students and other community members.

The reporting entity is comprised of the primary government and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Van Wert City School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organizations' governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District does not have any component units.

The School District is associated with five organizations which are defined as jointly governed organizations and public entity risk pools. These organizations include the Northwest Ohio Area Computer Services Cooperative, Vantage Joint Vocational School, Northwest Ohio Area Cooperative Workers' Compensation Group Rating Plan, Van Wert Area Schools Consortium Local Professional Development Committee, and the Van Wert Area School Insurance Group (VWASIG). These organizations are presented in Notes 19 and 20 to the general purpose financial statements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Van Wert City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities provided they do not conflict with or contradict GASB pronouncements.

The more significant of the School District's accounting policies are described below.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis Of Presentation - Fund Accounting

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities not recorded in the funds because they do not directly affect net available expendable resources.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories governmental, proprietary, and fiduciary.

Governmental Fund Types

Governmental funds are those through which most governmental functions of the School District are financed. The acquisition, use, and balances of the School District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds and trust funds) are accounted for through governmental funds. The following are the School District's governmental fund types:

General Fund - The General Fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes.

Capital Projects Funds - The capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds or trust funds).

Proprietary Fund Types

Proprietary funds are used to account for the School District's ongoing activities which are similar to those found in the private sector. The following are the School District's proprietary fund types:

Enterprise Funds - Enterprise funds are used to account for School District activities that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis Of Presentation - Fund Accounting (Continued)

Fiduciary Fund Types

Fiduciary funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. The School District's fiduciary funds include expendable trust, nonexpendable trust, and agency funds. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Nonexpendable trust funds are accounted for in essentially the same manner as proprietary funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group - This account group is established to account for all fixed assets of the School District, other than those accounted for in the proprietary or trust funds.

General Long-Term Obligations Account Group - This account group is established to account for all long-term obligations of the School District except those accounted for in the proprietary or trust funds.

B. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary fund types are accounted for using a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity (i.e., net total assets) is segregated into contributed capital and retained earnings components. Operating statements of these funds present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made.

The modified accrual basis of accounting is followed for the governmental fund types and agency funds. The full accrual basis of accounting is followed for the proprietary fund types.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Measurement Focus and Basis of Accounting (Continued)

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available.

Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, grants, interest, tuition, and student fees.

Deferred revenues arise when assets are recognized before revenue recognition criteria has been satisfied. Delinquent property taxes and property taxes for which there is an enforceable legal claim as of June 30, 2001, but which were levied to finance fiscal year 2002 operations, are recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met and receivables that are not collected within the available period are also recorded as deferred revenue. On the modified accrual basis, revenues that are not collected within the available period are recorded as deferred revenue.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

C. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Budgetary Process (Continued)

resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the object level for the General Fund and at the fund level for the rest of the funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Advances in and Advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Standard County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's certificate of estimated resources which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2001.

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund, function, and object level of expenditures, which are the legal levels of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation, or alter total function appropriations within a fund, or alter object appropriations within functions, must be approved by the Board of Education.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Budgetary Process (Continued)

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations. On the GAAP basis, encumbrances outstanding at fiscal year end are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds and reported in the notes to the financial statements for proprietary funds.

Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

D. Estimates

The preparation of financial statements in conformity generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

E. Cash and Cash Equivalents

To improve cash management, all cash received by the School District, except for the VWASIG individual investment trust fund, is pooled in a central bank account. Monies for all funds, including proprietary funds, are maintained in this account or temporarily used to purchase short term investments. Individual fund integrity is maintained through School District records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the balance sheet. During fiscal year 2001, investments were limited to certificates of deposit, repurchase agreements, and STAR Ohio. All investments of the School District had a maturity of two years or less. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Cash and Cash Equivalents (Continued)

The School District has a segregated bank account for the individual investment account held separate from the School District's bank accounts. The depository account is presented on the combined balance sheet as "Cash and Cash Equivalents in Segregated Accounts" since it is not required to be deposited into the School District's treasury. Investments for the individual investment account are recorded as "Investments in Segregated Account".

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during the fiscal year 2001. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in Star Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2001.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during the fiscal year 2000 amounted to \$205,576 which includes \$23,473 assigned from other School District funds.

For purposes of the combined statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with an original maturity of twelve months or less at the time they are purchased by the School District are considered to be cash equivalents.

F. Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. Inventories of proprietary funds consist of donated food, purchased food, and school supplies held for resale and are expensed when used.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2001, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

H. Restricted Assets

Restricted assets in the general fund represent cash and cash equivalents whose use is limited by legal requirements. Restricted assets include amounts required by statute to be set-aside by the School District to create a reserve for budget stabilization. See Note 23 for the calculation of the year-end restricted asset balance and the corresponding fund balance reserves.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in the fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of one thousand dollars. The School District does not have any infrastructure.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Improvements are capitalized. Improvements to fund fixed assets are depreciated over the remaining useful lives of the related fixed assets.

Assets in the general fixed assets account group are not depreciated. Depreciation of furniture and equipment in the enterprise funds is computed using the straight-line method over an estimated useful life of eight to twenty years.

J. Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables and revenues when measurable and available. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred. Other than commodities, grants and entitlements for proprietary fund operations are recognized as non-operating revenues in the accounting period in which they are earned and become measurable.

The School District currently participates in several State and Federal programs, categorized as follows:

Entitlements

General Fund

State Foundation Program
State Property Tax Relief
School Bus Purchase Reimbursement

Non-Reimbursable Grants

Special Revenue Funds

Education Management Information Systems
Public School Preschool
Disadvantaged Pupil Impact Aid
Teacher Development
Chapter 1
Title VI
Title VI-B

Eisenhower Math and Science Grant Professional Development Block Grant

Drug Free

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Intergovernmental Revenues (Continued)

Capital Projects Funds School Net

Reimbursable Grants
General Fund
Driver Education
Proprietary Funds
National School Lunch Program
National School Breakfast Program
Government Donated Commodities

K. Interfund Assets/Liabilities

Receivables and payables resulting from transactions between funds for services provided or goods received are classified as "due from other funds" or "due to other funds" on the balance sheet. Short-term interfund loans are classified as "interfund receivables" and "interfund payables". Long-term interfund loans are classified as "advances to/from other funds" and are equally offset by a fund balance reserve account which indicates that they do not constitute available expendable resources since they are not a component of net current assets.

L. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

M. Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, claims and judgements, compensated absences, contractually required pension contributions, and special termination benefits that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Bonds, capital leases, and long-term loans are reported as a liability of the general long-term obligations account group until due.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Accrued Liabilities and Long-Term Obligations (Continued)

Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

N. Interfund Transactions

Quasi-external transactions are accounted for as revenues and expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

Nonrecurring or nonroutine permanent transfers of equity are reported as residual equity transfers. All other interfund transfers are reported as operating transfers.

O. Contributed Capital

Contributed capital represents resources from other funds. These assets are recorded at their fair market value on the date contributed and are not subject to repayment.

P. Fund Balance Reserves and Designations

The School District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves are established for encumbrances, prepaid items, property taxes, budget stabilization, principal and individual investment account. The reserve for budget stabilization represents money required to be set aside by State statute to protect against cyclical changes in revenues and expenditures. The reserve for individual investment account represents monies of the VWASIG individual investment trust fund that are invested by the School District.

The designations for textbooks and capital improvements in the general fund represents revenues set aside that exceed statutorily required amounts.

Q. Total Columns on General Purpose Financial Statements

Total columns on the general purpose financial statements are captioned "Total - (Memorandum Only)" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 3 - CHANGES IN ACCOUNTING PRINCIPLE

For fiscal year 2001, the School District has implemented Governmental Accounting Standards Board (GASB) Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions" and Statement No. 36, "Recipient Reporting for Certain Shared Nonexchange Revenues". These statements establish accounting and financial reporting standards for nonexchange transactions involving financial or capital resources. The timing for the recognition of assets, liabilities, and expenditures/expenses resulting from nonexchange transactions will be the same whether the accrual or the modified accrual basis of accounting is required. However, for revenue recognition to occur on the modified accrual basis, the criteria established for accrual basis revenue recognition must be met and the revenues must be available.

The School District elected to change the capital asset capitalization criteria from \$250 to \$1,000 in the current fiscal year. This change resulted in a restatement of capital assets for the General Fixed Asset Account Group and Enterprise Funds as of June 30, 2000 as reflected in Note 4.

NOTE 4 - RESTATEMENT OF FUND EQUITY

The School District also reclassified a nonexpendable trust fund to an expendable trust fund due to a change in donor designations. The changes in accounting policies and reclassification of funds had the following effects on the retained earnings and fund balances as they were previously reported as of June 30, 2000:

	Special Revenue Fund	Enterprise Fund	Non- Expendable Trust	Expendable Trust
Equity Balances as previously reported	\$115,187	\$(108,623)	\$130,700	\$170,761
Reclassification of fund type	-	-	(2,821)	2,821
Restatement due to change In accounting policies	54,526	(19,465)		
Equity restated balances June 30, 2000	\$169,713	\$(128,088)	\$127,879	\$173,582

The restatement had the following effect on the excess of revenues and other financing sources over (under) expenditures and other financing uses as previously reported for the fiscal year ended June 30, 2000.

	Special Revenue	Enterprise
Excess as Previously Reported	\$36,238	\$8,604
Restatement due to change in accounting policy	54,526	(19,465)
Restated Amount for the Fiscal Year Ended June 30, 2000	\$90,764	\$(10,861)

The change in the capitalization threshold resulted in a restatement of the fixed assets in the General Fixed Asset Account Group. As of June 30, 2000, the amount was changed from \$11,920,019 to \$11,045,914.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 5 - ACCOUNTABILITY AND COMPLIANCE

The following fund had deficit fund balance/retained earnings at June 30, 2001:

Special Revenue Funds:	
Auxiliary Services Fund	\$12,286
EMIS Fund	241
Preschool Fund	98
Ohio Read Fund	197
Summer Intervention Fund	291
499 Miscellaneous Grant Fund	2,699
Title VI-B Fund	32,560
Title I Fund	43,832
599 Miscellaneous Federal Grants Fund	10,069
Capital Projects Funds:	
Permanent Improvement Fund	\$263,650
School Net	8,185
Enterprise Funds:	
Lunchroom	\$156,553

The deficits resulted from the application of generally accepted accounting principles. The general fund is liable for any deficit in these funds and provides operating transfers when cash is required, not when accruals occur.

NOTE 6 - BUDGETARY BASIS OF ACCOUNTING

While the School District is reporting financial position, results of operations, and changes in fund balances/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual (Budget Basis) - All Governmental Fund Types and Similar Fiduciary Funds and the Combined Statement of Revenues, Expenses and Changes in Fund Balances - Budget and Actual (Budget Basis) - All Proprietary Fund Types and Similar Fiduciary Funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosure in the proprietary fund type (GAAP basis).
- 4. For proprietary funds, the acquisition and construction of capital assets are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).

The following tables summarize the adjustments necessary to reconcile to GAAP and budgetary basis statements by fund type:

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 7 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the School District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 7 - DEPOSITS AND INVESTMENTS (Continued)

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Protection of School District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

- 1. United/States Treasury notes, bills bonds, or other obligations or security issued by the United States or any other obligation guaranteed as to principal and interest by the United States:
- 2. Bonds, notes debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal securities shall be direct issuances of federal government agencies or instrumentalities:
- Written repurchase agreements in the securities listed above provided that the market value of
 the securities subject to the repurchase agreement must exceed the principal value of the
 agreement by at least two percent and be marked to market daily, and that the term of the
 agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed 25 percent of interim monies available for investment at any one time; and
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rated classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited.

An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 7 - DEPOSITS AND INVESTMENTS (Continued)

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At fiscal year end, the School District had \$4,380 in undeposited cash on hand which is included on the balance sheet of the School District as part of "equity in pooled cash and cash equivalents".

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements".

Deposits for the District_- At fiscal year end, the carrying amount of the School District's deposits was \$1,740,130 and the bank balance was \$1,998,466. Of the Bank balance, \$325,000 was covered by federal depository insurance and \$1,673,466 was uninsured and uncollateralized. Although the securities serving as collateral were held by the pledging financial institution's trust department in the School District' name and all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements would potentially subject the School District to a successful claim by the Federal Deposit Insurance Corporation.

Deposits for Van Wert Area School Insurance Group - At fiscal year end, the carrying amount of the VWASIG's deposits was \$733,538 and the bank balance was \$826,652. Of the bank balance, \$400,000 was covered by federal depository insurance and \$426,652 was uninsured and uncollateralized. Although, the securities serving as collateral were held by the pledging financial institution's trust department in the name of VWASIG and all State statutory requirements for the deposit of money had been followed, noncompliance with federal requirements would potentially subject VWASIG to a successful claim by the Federal Deposit Insurance Corporation.

Investments - Investments are required to be categorized to give an indication of the level of risk assumed by the entity at year-end. Category 1 includes investments that are insured or registered or for which the securities are held by the Van Wert City School District. Category 2 includes uninsured and unregistered investments for which the securities are held by the broker's or dealer's trust department or agent in the Van Wert City School District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the broker or dealer or by its trust department but not in the Van Wert City School District's name. The School District's investments in STAR Ohio, an investment pool operated by the Ohio Treasurer are unclassified investments since they are not evidenced by securities that exist in physical or book entry form.

	Category _3_	Carrying <u>Value</u>	Fair <u>Value</u>
Repurchase Agreement (VWASIG)	\$146,096	\$ 146,096	\$ 146,096
Investments not subject to categorization:			
STAR Ohio		2,027,109	2,027,109
Total Investments		<u>\$2,173,205</u>	<u>\$2,173,205</u>

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 7 - DEPOSITS AND INVESTMENTS (Continued)

The classification of cash and cash equivalents and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9. A reconciliation between the classifications of cash and investments on the combined financial statements and the classification per GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents/Deposits	<u>Investments</u>
GASB Statement 9	\$ 3,933,683	\$ 717,570
Cash on Hand	(4,380)	-
Certificates of Deposit	717,570	(717,570)
Repurchase Agreement	(146,096)	146,096
STAR Ohio	(2,027,109)	2,027,109
GASB Statement 3	\$2,473,668	<u>\$ 2,173,205</u>

NOTE 8 - INDIVIDUAL INVESTMENT ACCOUNT

Van Wert City Schools serves as fiscal agent for the Van Wert Area Schools Insurance Group (VWASIG), a legal separate entity. The School acquires specific investments on behalf of the VWASIG. Investments are limited to certificates of deposit and repurchase agreements which are valued at cost. All interest on these investments accrues to the benefit of the VWASIG. The individual investment account is not registered with the SEC as an investment company. The fair value of investments is determined annually.

NOTE 9 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility, and tangible personal (used in business) property located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes.

Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are 25 percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 9 - PROPERTY TAXES (Continued)

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20.

The School District receives property taxes from Van Wert County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2001, are available to finance fiscal year 2001 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2001. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2001, was \$518,800 in the General Fund and \$66,567 in the Capital Projects Fund.

The assessed values upon which fiscal year 2001 taxes were collected are:

	2000 Second-Half Collections		2001 First-Half Collections	
	<u>Amount</u>	Percent	<u>Amount</u>	<u>Percent</u>
Real Property Residential/Agricultural Commercial/Industrial Public Utilities	\$125,631,590 38,432,230 66,210	58.75% 17.97 .03	\$126,990,020 41,177,230 59,700	58.08% 18.83 .03
Tangible Personal Property General Public Utilities	40,090,700 9,621,100	18.75 4.50	40,361,156 10,053,350	18.46 4.60
Total Valuation	<u>\$213,841,830</u>	<u>100.00%</u>	<u>\$218,641,456</u>	<u>100.00%</u>
Tax rate per \$1,000 of assessed valuation	\$49.60		\$52.20	

NOTE 10 - RECEIVABLES

Receivables at June 30, 2001 consisted of property taxes, accounts, intergovernmental, accrued interest and interfund. All receivables are considered collectible in full. A summary of the receivables follows:

	Amounts
General Fund	
Taxes	\$6,378,034
Accounts	2,114
Interfund	555,000

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

Total	<u>\$11,045,914</u>	<u>\$498,462</u>	<u>\$ (2,768</u>)	<u>\$11,541,608</u>

NOTE 12 - RISK MANAGEMENT

Public Liability

The School District is exposed to various risks related to torts, theft of, damage to, and destruction of assets, error and omissions, injuries to employees and natural disasters. During fiscal year 2001, the School District contracted with the Nationwide Insurance Company for property and general liability insurance and boiler and machinery insurance. Professional liability is protected by Nationwide Insurance Company with \$1,000,000 each occurrence, \$3,000,000 in annual aggregate limit.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 12 - RISK MANAGEMENT (Continued)

Vehicles are also covered by Nationwide Insurance Company. Automobile liability has a \$2,000,000 combined single limit of liability. Settled claims have not exceeded this commercial coverage in any of the past three years. In addition, there is a \$2,000,000 umbrella liability policy which provides additional liability coverage to both the general liability policy and the auto policy.

Public officials bond insurance is provided by the Ohio Casualty Insurance Company, Purmort Brothers Agency, Van Wert, Ohio.

Workers' Compensation

For fiscal year 2001, the School District participated in the Northwest Ohio Area Computer Services Cooperative Worker's Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 20). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The worker's compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the Cooperative based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

Health Care Benefits

The School District participates in the Van Wert Area School Insurance Group, a public entity shared risk pool consisting of five members. (See Note 20) Each member pays premiums to VWASIG for employee medical, dental, and life insurance benefits to the employees of the participants. VWASIG is responsible for the management and operation of the program. Upon withdrawal, the School District is responsible for the payment of all of VWASIG liabilities to its employees, dependants, and designated beneficiaries accruing as a result of the withdrawal. Upon termination of VWASIG, all member's claims would be paid without regard to the member's account balance.

NOTE 13 - DEFINED BENEFIT PENSION PLANS

A. School Employees Retirement System

The Van Wert City School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer public employee retirement system administered by the School Employees Retirement Board. SERS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information for SERS. The report may be obtained by writing to the School Employees Retirement System, 45 North Fourth Street, Columbus, Ohio 43215-3634.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 13 - DEFINED BENEFIT PENSION PLANS (Continued)

A. School Employees Retirement System (Continued)

Plan members are required to contribute 9 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for the fiscal year 2001, 4.2 percent of annual covered salary was the portion used to fund pension obligations. For fiscal years 2000 and 1999, 5.5 percent and 7.7 percent were used to fund pension obligations, respectively. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board.

The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$61,205, \$82,393 and \$107,125, respectively; 42.51 percent has been contributed for fiscal year 2001, and 100 percent for the fiscal years 2000 and 1999. \$35,184 representing the unpaid contribution for fiscal year 2001, is recorded as a liability within the respective funds and the general long-term obligations account group.

B. State Teachers Retirement System

The Van Wert City School District contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basic retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information for STRS. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

For the fiscal year ended June 30, 2001, plan members are required to contribute 9.3 percent of their annual covered salary. The School District is required to contribute 14 percent; 9.5 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers.

The School District's required contributions for pension obligations to STRS for the fiscal years ended June 30, 2001, 2000, and 1999 were \$742,206, \$443,630 and \$415,923, respectively; 84.29 percent has been contributed for fiscal year 2001 and 100 percent for the fiscal years 2000 and 1999. \$116,572, representing the unpaid contribution for fiscal year 2001, is recorded as a liability within the respective funds.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System. The Board's liability is 6.2 percent of wages paid.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 14 - POST RETIREMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statuted. Both systems are funded on a pay-as-you-go basis.

For STRS, all benefit recipients are required to pay a portion of health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. The board currently allocates employer contributions equal to eight percent of covered payroll to the Health Care Reserve Fund for which payments for health care benefits are paid. As of June 30, 2000, eligible benefit recipients totaled 99,011. For the fiscal year ended June 30, 2000, net health care costs paid by STRS were \$283,137,000.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, disability, and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For this fiscal year, employer contributions to fund health care benefits were 6.3 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2000, the minimum pay has been established at \$12,400. The number of participants currently receiving health care benefits is 50,000. For the fiscal year ended June 30, 2000, net health care costs paid by SERS were \$140.696.340.

NOTE 15 - COMPENSATED ABSENCES

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 195 days for all personnel. An additional 25 days over the 195 days can be accumulated and paid at retirement but not used for sick leave. Upon retirement, payment is made for 25.7% of accrued and any days accumulated over the 195 day limit not to exceed 25 days. A maximum of 75.12 days can be paid at retirement.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (Continued)

16. LONG-TERM DEBT

A. Long-Term Obligations

Long-term obligations of the School District at June 30, 2001, consisted of the following:

	Principal			Principal
	Outstanding			Outstanding
	6/30/00	<u>Additions</u>	<u>Deductions</u>	6/30/01
Intergovernmental Payable	\$ 76,629	\$ 81,416	\$ (76,629)	\$ 81,416
Compensated Absences	1,388,639		<u>(11,090</u>)	1,377,549
Total General Long-Term				
Obligations	<u>\$1,465,268</u>	<u>\$ 81,416</u>	<u>\$ (87,719</u>)	<u>\$1,458,965</u>

Compensated absences and intergovernmental payable will be paid from the fund which the person is paid.

17. INTERFUND TRANSACTIONS

Interfund balances at June 30, 2001 consisted of the following individual fund receivables and payables.

	<u>Receivables</u>	<u>Payable</u>
<u>Fund</u>	<u>Interfund</u>	<u>Interfund</u>
General	\$555,000	\$ -
Capital Project Funds Permanent Improvement Fund	-	525,000
Enterprise Funds Food Service Fund		30,000
Total	<u>\$555,000</u>	<u>\$555,000</u>

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 19 - JOINTLY GOVERNED ORGANIZATIONS

Northwest Ohio Area Computer Services Cooperative - The Northwest Ohio Area Computer Services Cooperative (NOACSC) is a jointly governed organization among forty-seven school districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. Each of the governments of these schools supports NOACSC based upon a per pupil charge dependent upon the software package utilized.

The NOACSC Assembly consists of a representative from each participating school district and the superintendent from the fiscal agent. The Board of Directors consists of the superintendent from the fiscal agent, the two Assembly members from each county in which participating school districts are located. The degree of control exercised by any participating school district is limited to its representation of the Board. Financial information can be obtained by contacting Michael Wildermuth, who serves as Director of the Van Wert Educational Service Center, at 645 South Main Street, Lima, Ohio.

Vantage Joint Vocational School - The Vantage Joint Vocational School is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Vantage Joint Vocational School at 818 North Franklin Street, Van Wert, Ohio 45891.

Van Wert Area Schools Consortium Local Professional Development Committee - The School District is a participant in the Van Wert Area Schools Consortium Local Professional Development Committee (the Committee) which is a regional council of governments established to provide professional educator license renewal standards and procedures. The Committee is governed by a board made up of one teacher from Crestview Local School District, one teacher from Lincolnview Local School District, two teachers from Van Wert City School District, three teachers from Vantage Joint Vocational School District, two teachers collectively from the Western Buckeye Educational Service Center and the Thomas Edison MRDD, and one principal from the schools of the Consortium with terms of three years. The degree of control exercised by any participating school district is limited to its representation on the Board. Financial information can be obtained from the Van Wert City School District, 641 North Jefferson Street, Van Wert.

NOTE 20 - INSURANCE POOLS

Northwest Ohio Area Computer Service Cooperative Workers' Compensation Group Rating Plan - The School District participates in a group rating plan (GRP) for workers' compensation as established under Ohio Revised Code Section 4123.29. The Group Rating Plan was established through the Northwest Ohio Area Computer Service Cooperative as a group insurance purchasing pool. The GRP's business and affairs are conducted by a twenty-five member Board of Directors consisting two representatives from each county elected by a majority vote of all charter member schools within each county plus one representative from the fiscal agency A-site. The treasurer of Findlay City Schools serves as coordinator of the program. Each year, the participating Districts pay an enrollment fee to cover the costs of administering the program.

Van Wert Area School Insurance Group (VWASIG) - The School District is a member of the Van Wert Area School Insurance Group (VWASIG) a cooperative group of Van Wert County Schools established to provide a self-insurance fund to provide life insurance and pay medical/surgical, prescription drug, and dental benefits of employees and their covered dependents. The medical insurance program operates under the control of a Board of Trustees representing the member schools and is administered by Calends Inc. of Fort Wayne, Indiana. The fiscal records of the pool are maintained and kept by the Van Wert City School District.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 21 - CONTINGENCIES

A. Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2001.

B. Litigation

There are currently no matters in litigation with the School District as defendant.

NOTE 22 - STATE SCHOOL FUNDING DECISION

On September 6, 2001, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision identified aspects of the current plan that require modification if the plan is to be considered constitutional, including:

- A change in the school districts that are used as the basis for determining the base cost support amount. Any change in the amount of funds distributed to school districts as a result of this change must be retroactive to July 1, 2001, although a time line for distribution is not specified.
- Fully funding parity aid no later than the beginning of fiscal year 2004 rather than fiscal year 2006.

The Supreme Court relinquished jurisdiction over the case based on anticipated compliance with its order.

In general, it is expected that the decision would result in an increase in State funding for most Ohio school districts. However, as of December 17, 2001, the Ohio General Assembly is still analyzing the impact this Supreme Court decision will have on funding for individual school districts. Further, the State of Ohio, in a motion filed September 17, 2001, asked the Court to reconsider and clarify the parts of the decision changing the school districts that are used as the basis for determining the base cost support amount and the requirement that changes be made retroactive to July 1, 2001.

On November 2, 2001, the Court granted this motion for reconsideration. The Court may reexamine and redetermine any issue upon such reconsideration.

As of the date of these financial statements, the School District is unable to determine what effect, if any, this decision and reconsideration will have on its future State funding and on its financial operations.

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2001 (CONTINUED)

NOTE 23 - STATUTORY RESERVES

The District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. For fiscal year ended June 30, 2001, the reserve activity was as follows:

	<u>Textbooks</u>	<u>Capital</u> <u>Acquisitions</u>	Budget Stabilization
Set-Aside Cash Balance as of June 30, 2000	\$ -	\$ -	\$151,385
Carryover	(68,901)	-	-
Required Set-Aside	311,673	311,673	1,154
Legislative Reduction	-	-	(99,546)
Offset Credits	-	(596,085)	-
Qualifying Expenditures	<u>(319,316</u>)	<u>(195,351</u>)	
Total	<u>\$ (76,544</u>)	<u>\$(479,763</u>)	<u>\$52,993</u>
Cash balance carried forward to following year 2001	<u>\$</u>	<u>\$ -</u>	<u>\$52,993</u>

The School District had qualifying expenditures during the year that reduced the textbooks set aside amount below zero. This amount may be used to reduce the set aside requirements of future years. The total reserve balance for set asides at the end of the fiscal year was \$52,993.

NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES FOR THE FISCAL YEAR ENDED JUNE 30, 2001

NOTE A -SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Expenditures (the Schedule) summarizes activity of the Government's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - NUTRITION CLUSTER

Nonmonetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the Schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first. At June 30, 2001, the School District had \$7,939 in donated food commodity inventory.

NOTE C - MATCHING REQUIREMENTS

Certain federal programs require that the School District contribute non-federal funds (matching funds) to support the federally-funded programs. The expenditure of non-federal funds is not included on the Schedule.

REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE AND ON INTERNAL CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS

Van Wert City School District Van Wert County 205 West Crawford Street Van Wert, Ohio 45891

To Board of Education:

We have audited the financial statements of the Van Wert City School District, Van Wert County (the School District) as of and for the year ended June 30, 2001, and have issued our report thereon dated December 17, 2001, wherein we noted the School District implemented Governmental Accounting Standards Board Statement numbers 33 and 36 and changed the capitalization threshold. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to management of the School District in a separate letter dated December 17, 2001.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered School District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses. However, we noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the School District in a separate letter dated December 17, 2001.

REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO MAJOR FEDERAL PROGRAMS AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Van Wert City School District Van Wert County 205 West Crawford Street Van Wert, Ohio 45891

To the Board of Education:

Compliance

We have audited the compliance of the Van Wert City School District, Van Wert County (the School District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2001. The School District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2001.

Internal Control Over Compliance

The management of the School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Report of Independent Accountants on Compliance with Requirements
Applicable to Each Major Federal Program and Internal
Control Over Compliance In Accordance With OMB Circular A-133
Page 2

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the audit committee, management, the Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
