Board of Education Loveland City School District 757 South Lebanon Loveland, Ohio 45140

We have reviewed the Independent Auditor's Report of the Loveland City School District, Hamilton County, prepared by Plattenburg & Associates, Inc., for the audit period July 1, 2001 through June 30, 2002. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Loveland City School District is responsible for compliance with these laws and regulations.

Betty Montgomeny

#### Report on compliance and on internal control over financial reporting based on an audit of financial statements performed in accordance with Government Auditing Standards

November 15, 2002

Board of Education Loveland City School District

We have audited the general purpose financial statements of the Loveland City School District, (the District), as of and for the year ended June 30, 2002, and have issued our report thereon dated November 15, 2002. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance required to be reported under *Government Auditing Standards*.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in

the internal control over financial reporting that might be material weaknesses. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information of management, the Auditor of State, Board of Education, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

#### Report on compliance with requirements applicable to each major program and internal control over compliance in accordance with OMB *Circular A-133*

November 15, 2002

Board of Education Loveland City School District

#### Compliance

We have audited the compliance of the District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2002. The District's major federal program is identified in the summary of auditor's results portion of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulation, contracts and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2002.

#### Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with *OMB Circular A-133*.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

#### Schedule of Federal Awards Expenditures

We have audited the general purpose financial statements of the District as of and for the year ended June 30, 2002, and have issued our report thereon dated November 15, 2002. Our audit was made for the purpose of forming an opinion on the general purpose financial statements of the District taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by *OMB Circular A133* and is not a required part of the general purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general purpose financial statements taken as a whole.

This report is intended for the information of management, Board of Education, the Auditor of State, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Telephone (513) 683-5600
Fax (513) 683-5697

November 15, 2002

To the Citizens and Board of Education of the Loveland City School District:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Loveland City School District (District) for the fiscal year ended June 30, 2002. Responsibility for both the accuracy of the presented data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. This report is prepared in conformance with generally accepted accounting principles (GAAP) as set fourth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative sources. We believe the enclosed data is fairly presented in all material aspects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report has been prepared by the Treasurer's Office and includes the unqualified opinion of our independent auditor.

The CAFR is presented in the following three sections:

<u>Introductory Section</u> – This section introduces the reader to the report and includes the table of contents, this transmittal letter, a list of principal and elected officials, and the District's organizational chart.

<u>Financial Section</u> – This section includes the general purpose financial statements and the combining and individual fund and account group financial statements and schedules, as well as the auditor's report.

<u>Statistical Section</u>—The information presented in this section is designated to reflect social and economic data, financial trends, and the fiscal capacity of the District.

#### THE REPORTING ENTITY AND SERVICES PROVIDED

This report includes all funds and account groups of the District. The District also acts as fiscal agent for State funds distributed to parochial schools located within the District boundaries. This fiduciary responsibility is included in the reporting entity as an agency fund. Although these organizations share operational and service similarity with the District, each is a separate and distinct entity. Because of their independent nature, none of these organizations' financial statements are included in this report.

The District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory, advanced placement, gifted, special education and vocational levels; a broad range of co-curricular and extra-curricular activities; adult and community education offerings; special education programs and community recreation activities.

#### VISION FOR THE LOVELAND CITY SCHOOLS

#### Academic Performance

The focus of Loveland Schools is academic performance. Loveland students perform at the highest level academically as recognized by experts and by the community. Student learning is centered on the Ohio proficiency test subject areas with mastery demonstrated by a 90% passing rate in each area. Allocation of available resources is directed toward improving student academic performance.

#### Student Success

Students are affirmed and challenged to perform their best in a positive, respectful environment. Success is achieved when each student's abilities and needs are determined and met. Student success is the primary responsibility of all staff.

#### Flexibility

Schools are highly flexible in meeting the learning needs of the school-age population and in providing expanded opportunities for the entire community. Programs are not constrained by traditional time factors and facilities. Technology is fully utilized and serves as a resource to expand both time and facilities.

#### LOVELAND SCHOOLS GUIDING PRINCIPLES

Student academic achievement is our primary product.

- We are student focused
- We seek to be recognized for student academic achievement
- We inspire and enable students in academic achievement
- We affirm students for academic performance

We build cooperative relationships with all parties who contribute to fulfilling our purpose. This includes students, staff, parents and community.

- Interests of school and community are inseparable and interdependent
- We show respect for all individuals and work to build confidence and trust
- We develop close, mutually productive, cooperative relationships with the community
- We communicate clearly, broadly and honestly with all stakeholders

We are a learning community:

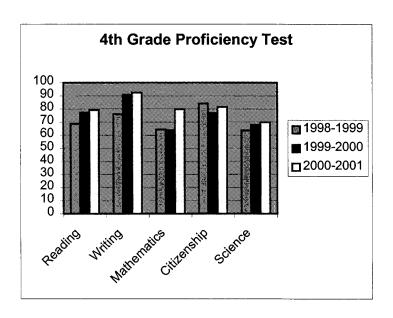

- We believe that it is the responsibility of all individuals to continually develop themselves and other members of the learning community
- We value personal achievement
- We value professional achievement
- We recognize achievement is broader than academics alone

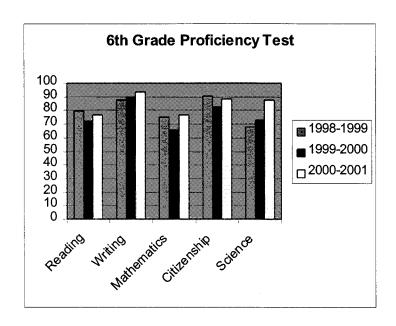

Ideas and concepts are evaluated as they relate to our vision and strategies:

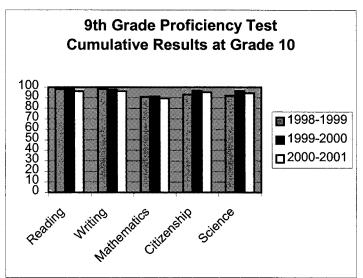

- Both innovative and proven programs will contribute to the success of Loveland schools
- Research data is used to evaluate programs prior to their implementation
- Benchmarks are used to evaluate the performance of ongoing programs
- Flexibility is an important aspect for the use of resources in our school system

#### **Summary of Results**

The vision and guiding principles of the Loveland City School District focus our efforts and provide a foundation upon which financial priorities are set. The vision articulates the school district's commitment to our primary enterprise, that of learning. Given this commitment, during the 2001-2002 school year, the district instituted a schedule for regular professional development for the leaders of this learning community. Teachers and principals worked together twice each month to analyze past achievement results, adjust instruction to meet areas of weakness, and continue the effort to help all students learn. We are confident that we are on the right track. The data below provides evidence of the trend in improved student achievement. As the passage rate meets or exceeds the vision of 90%, we will continue the work toward all students meeting success. All scores are reported in percentage of students passing each test.

#### **Public Participation and Community Engagement**

When Dr. Michael Cline resigned as Loveland City School District's superintendent, it provided the Board of Education with an opportunity to live by its guiding principles in the selection of a new superintendent. Through focus groups and an on-line survey, the Board sought input from the entire community concerning the desired attributes of a new superintendent. Once these attributes were established, the Board communicated back with the public, and began the process of screening applicants against these desired attributes. Three finalist candidates for the position were brought into the district to meet with stakeholder groups, each culminating with a public interview. Groups provided feedback concerning the candidates and how they matched the identified attributes. The Board of Education made a unanimous decision to extend a contract offer to Dr. Kevin Boys. This process of community engagement demonstrates this Board of Education's acknowledgement of the wealth in human capital that exists in the Loveland School District.

#### ECONOMIC CONDITION AND OUTLOOK

The District is just northeast of the City of Cincinnati. The School's Community lies in the corners of the counties of Hamilton, Clermont, and Warren and is comprised of approximately 10.6 square miles. The District surrounds the City of Loveland and overlaps portions of the townships of Symmes, Miami, and Hamilton.

Property tax revenues of the residential/agricultural class predominantly support Loveland City Schools. Through the continued conversion of agricultural land into upscale residential properties being inhabited by well-educated upper middle-class families, Loveland City Schools is secure in its economic future in that the community understands and supports the value of education not just for sustaining property values, but because of the intrinsic value it has brought to their own lives and their desire to insure this for the children.

The District is as stable as the region in which the Community works. Since Loveland City Schools is the largest employer within the District's boundaries, it is safe to say that the District's economic stability is as broad based as the businesses in the Cincinnati and surrounding areas, which employ these taxpayers.

#### FINANCIAL INFORMATION

The District's accounting system is organized on a "fund" basis. Each fund and account group is a distinct, self-balancing entity. For purposes of the District's CAFR the funds are presented in conformity with generally accepted accounting principles (GAAP). GAAP, as more fully described in the notes to the financial statements provides for a modified accrual basis of accounting for the General Fund, Special Revenue Funds, Debt Service Fund, Capital Projects Funds, Expendable Trust and Agency Funds, and for full accrual basis of accounting for all other funds.

#### **INTERNAL CONTROL**

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgements by management.

#### **BUDGETARY CONTROLS**

The District maintains its accounts, appropriations, and other financial records in accordance with the procedures established and prescribed by the Auditor of State. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution approved by the Board of Education. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated. As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management.

#### **GENERAL GOVERNMENT FUNCTIONS**

Revenues for the District's general operating fund totaled \$29,464,688, representing an increase of \$3,793,124 (15%) over 2001. Tax revenue increased from 2001 primarily due to the District passing a 7 mil levy and 2002 was the first full year of tax collection from the 7 mil levy. Tax revenue also increased due to the increase in assessed property values and new construction in the District. Intergovernmental revenue increased \$1,766,057 from 2001 mainly due to the implementation of a new formula to calculate how much funding the District would receive from the state foundation in 2002. The state foundation was capped (restricted in how much funding the District could receive) in prior years, but for 2002 it was uncapped (the restriction on how much funding the District could receive was removed), which is why a new formula was used to calculate the District's funding.

The amount of 2002 revenues and increases (decreases) over 2001 are presented below:

	Fiscal 2002	Fiscal 2001	Increase (Decrease) from 2001	Percent of Increase (Decrease)
Revenues:				
Taxes	\$17,202,208	\$15,235,977	\$1,966,231	13%
Intergovernmental	11,779,910	10,013,853	1,766,057	18%
Investment Revenue	78,926	65,787	13,139	20%
Tuition and Fees	378,214	213,793	164,421	77%
Other Revenues	25,430	142,154	(116,724)	(82%)
Total Revenues	<u>\$29,464,688</u>	<u>\$25,671,564</u>	\$3,793,124	15%

Expenditures for the District's general operating fund totaled \$27,040,343, representing a increase of (\$3,043,358) (13%) over 2001. The increase in regular and special instruction was primarily due to the hiring of additional teachers in all areas to address the needs to continue to provide quality education to the students of the District. Also, the purchasing of textbooks and instructional supplies attributed to the increase. Operations and maintenance increased from the prior year due to the increase in amount of maintenance to the District's facilities. Pupil transportation increased from 2001 due to the purchasing of additional buses and hiring of additional bus drivers to keep up with the increasing District enrollment.

The amount of 2002 expenditures increases (decreases) are presented below:

	Fiscal 2002	Fiscal 2001	Increase (Decrease) from 2001	Percent of Increase (Decrease)
Expenditures:				(200,000)
Current:				
Instruction:				
Regular	\$12,639,093	\$11,481,667	\$1,157,426	10%

#### Special Revenue Funds

Special Revenue Funds account for certain revenue sources restricted by law or other formal actions to be expended for a specific purpose. The sources are primarily grants and entitlements. In 2002, all Special Revenue Funds on a combined basis operated with \$1,587,587 in revenues and \$1,570,911 in expenditures.

#### Capital Projects Fund

The District's Capital Projects Fund is used to fund major equipment purchases and major capital improvement projects such as parking lots, bus purchases, roofs and heating and air conditioning plants. These funds ended the 2002 fiscal year with a fund balance of \$384,311.

#### Trust and Agency Funds

Trust and Agency funds require a fiduciary relationship in their management by the District. The District's Expendable Trust Fund had a fund balance of \$369 at June 30, 2002. The Agency fund utilized by the District is the Student Activities Fund. Agency fund liabilities totaled \$71,235 at June 30, 2002.

#### **Enterprise Funds**

The District's Enterprise fund is the Food Service Fund. This fund is similar in nature to profit making activities found in the private sector and are managed accordingly. The Enterprise Fund operated in 2002 with \$730,814 in operating revenues and recorded a net loss of \$14,529.

#### Internal Service Fund

The Internal Service Fund is used to account for goods and services provided by one department or agency to another department or agency of the District on a cost reimbursement basis. During fiscal 2002, the Internal Service Fund showed net income of \$2,848.

#### **Debt Administration**

The District had four debt issues outstanding at June 30, 2002. The debt was issued to provide funding for building improvements and the total principal balance at year-end was \$41,551,734. The overall direct debt margin of the District at June 30, 2002 is \$10,641,793. The estimated net bonded debt per capita was \$3,256 for 2002. The estimated population used is for the City of Loveland and the information specific to the school district boundaries could not be obtained. The population for the school district would be higher.

#### Risk Management

The District maintains comprehensive insurance coverage with private carriers for real property, building contents and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Real property and contents are 90% coinsured.

#### Cash Management

The District's cash management program addresses the issues of safety, liquidity, and yield while maximizing returns. The District uses the STAROhio program investment pool operated by the Treasurer of State, for ready cash and yield. The District also invests in U.S. Government Agency securities. Investment earnings for all funds during the fiscal year were \$173,079.

#### Independent Audit

The State of Ohio requires an annual audit by the Auditor of State or by an independent public accounting firm. An independent public accounting firm performed the audit for the fiscal year ended June 30, 2002. The auditor's report on the District's general purpose financial statements, combining and individual fund statements and schedules, is included in the financial section of this Comprehensive Annual Financial Report.

#### Awards

The District will seek the Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officer's Association of the United States (GFOA). We feel that the contents of the report are easily readable, efficiently organized, and conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. The District believes our current report conforms to the Certificate of Achievement Program requirements and we are submitting it to the GFOA to determine its eligibility for a certificate.

The District will also seek the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2002. This award certifies that a Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. This award is granted only after an extensive review of the report by an expert panel of certified public accountants and practicing school business officials.

#### Acknowledgements

The preparation of this report was made possible by the dedicated service of the staff of the Treasurer's Office.

Finally, this report would not have been possible without the leadership and support of the District's Board of Education, and the support of the Loveland Schools Community.

Sincerely,

Jill Manville

i Kaxull

# **Independent Auditors' Report**

November 15, 2002

Board of Education Loveland City School District

We have audited the accompanying general purpose financial statements of the Loveland City School District (the District), as of and for the year ended June 30, 2002. These general purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general purpose financial statements presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the District, as of June 30, 2002, and the results of its operations and the cash flows of its proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Governmental Auditing Standards, we have also issued a report dated November 15, 2002 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the District.

Such information has been subjected to the auditing procedures applied in the audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report and therefore express no opinion thereon.

#### LOVELAND CITY SCHOOL DISTRICT

# NOTES TO FINANCIAL STATEMENTS Fiscal Year Ended June 30, 2002

# 1. DESCRIPTION OF THE DISTRICT

The Loveland City School district (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The Loveland City School District is a city school district as defined by Section 3311.02, Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision of public education to residents of the District.

Management believes the financial statements included in this report represent all of the funds of the District for which the Board of Education has fiscal responsibility.

# A. Reporting Entity

The reporting entity is comprised of the primary government. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Loveland City School District, this includes general operations, food service, and student related activities of the District. Generally, component units are legally separate organizations for which the elected officials of the primary government (i.e. the District) are financially accountable. The District would consider an organization to be a component unit if:

- 1. The District appointed a voting majority of the organization's governing body; and (a) was able to impose its will on that organization; or (b) there was a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the District; or
- 2. The organization was fiscally dependent upon the District; or
- 3. The nature of the relationship between the District and the organization was such that the exclusion from the financial reporting entity would render the financial statements misleading.

The District included no component units in the accompanying financial statements.

**Parochial Schools** - Within the School District boundaries, Holy Family School is operated through the Saint Columbia Catholic Diocese. Current State legislation provides funding to this parochial school. These monies are received and disbursed on behalf of the parochial school by the treasurer of the School District, as directed by the parochial school. The activity of these State monies by the School District is reflected in a special revenue fund for financial reporting purposes.

The School District is associated with two jointly governed organizations and two public entity risk pools. These organizations are:

Jointly Governed Organizations:

Southwest Ohio Computer Association

Hamilton Clermont Cooperative Association / Unified Purchasing Association

**Public Entity Risk Pools:** 

Ohio School Boards Association Workers' Compensation Group Rating Greater Cincinnati Insurance Consortium

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the district have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below:

# A. Fund Accounting Basis of Presentation

The accounts of the District are organized and operated on the basis of funds and account groups. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained consistent with legal and managerial requirements. Account groups are a reporting device to account for certain assets and liabilities of the governmental funds not recorded directly in those funds.

Governmental Fund Types - Governmental funds are those through which most governmental functions of the District are financed. The acquisition, use and balances of the District's expendable financial resources and the related liabilities (except for those accounted for in Proprietary and Fiduciary Fund types) are accounted for through Governmental Funds. The following are the District's Governmental Fund Types:

General Fund - Is the general operating fund of the District and it is used to account for all financial resources except those required by law to be accounted for in another fund.

<u>Special Revenue Funds</u> - Are used to account for the proceeds of specific revenue sources (other than Expendable Trust or major Capital Projects) that are legally restricted to expenditures for specified purposes.

<u>Debt Service Fund</u> - Is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs; and for the payment of interest on general obligation notes payable, as required by Ohio Law.

<u>Capital Projects Funds</u> - Is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

<u>Proprietary Fund Types</u> - Proprietary Funds are used to account for the District's ongoing activities, which are similar to those most often, found in the private sector. The following are the District's Proprietary Fund Types:

Enterprise Fund - Are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or, (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

<u>Internal Service Fund</u> - Are used to account for the financing of goods and services provided by one department or agency to other departments or agencies of the District, or to other governments, on a cost reimbursement basis.

<u>Fiduciary Fund Types</u> - Fiduciary Funds are used for the assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. These include Expendable Trust and Agency Funds. Expendable Trust Funds are accounted for essentially the same as Governmental Funds. Agency Funds are custodial in nature (assets equal liabilities).

Account Groups - To make a clear distinction between fixed assets related to specific funds and those of general government and between long-term liabilities related to specific funds and those of general nature, the following account groups are used:

<u>General Fixed Assets Account Group</u> - This group of accounts is established to account for all fixed assets of the District, other than those accounted for in Proprietary Funds and Trust Funds.

General Long-Term Obligations Account Group - This group of accounts is established to account for all long-term obligations of the District, except those accounted for in Proprietary Funds and Trust Funds.

# B. Measurement Focus and Basis of Accounting

Measurement Focus: Governmental Funds types and Expendable Trust Funds are accounted for on a spending, or "current financial resources", measurement focus. Governmental Fund types and Expendable Trust Funds operating statements represent increases and decreases in net current assets. Their reported fund balances are considered a measure of available spendable resources.

Proprietary Funds types are accounted for on a cost of services, or "economic resources", measurement focus. Proprietary Fund type income statements represent increases and decreases in net total assets.

Basis of Accounting - The modified accrual basis of accounting is followed for Governmental, Expendable Trust and Agency Funds. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year, in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Proprietary Funds are accounted for on the accrual basis of accounting. Revenue is recognized in the period earned and expenses are recognized in the period incurred.

# C. Budgetary Data

Budgetary Basis of Accounting - The District's budgetary process accounts for certain transactions on a basis other than GAAP. The major difference between the budget basis and the GAAP basis are:

- (1) Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- (2) Expenditures are recorded when encumbered, or paid in cash (budget), as opposed to when susceptible to accrual (GAAP).

The actual results of operations, compared to the final appropriation, for each fund type by expenditure function and revenue by source are presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances-Budget and Actual (non-GAAP Budgetary Basis). The reserve for encumbrances is carried forward as part of the budgetary authority for the next year and is included in the revised budget amounts shown in the budget to actual comparisons. The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education. The specific timetable is as follows:

Prior to January 15 of the preceding fiscal year, the Treasurer submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The expressed purpose of this budget document is to reflect the need for existing or increased tax rates.

By no later than January 20, the Board-adopted budget is filed with the County Budget Commission for tax rate determination.

Prior to March 15, the Board of Education accepts by formal resolution the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the Certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statement reflect the amounts set forth in the final Amended Certificate.

By July 1, the annual appropriation resolution is legally enacted by the Board of Education. (State statute permits a temporary appropriation to be effective until no later than October 1 of each year). Resolution appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals.

Any revisions that alter the total of any appropriation at the fund level must be approved by the Board of Education.

Appropriation amounts are as originally adopted, or as amended by the Board of Education through the year by supplemental appropriations which either reallocated or increased the original appropriation amounts. All supplemental appropriations were legally enacted by the Board.

Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be re-appropriated. Expenditures plus encumbrances may not legally exceed budgeted appropriations.

#### D. Encumbrances

Encumbrance accounting is utilized by District funds in the normal course of operations for purchase orders and contract related expenditures. An encumbrance is a reserve on the available spending authority due to commitment for a future expenditure and does not represent a liability. For Governmental Fund types, encumbrances outstanding at fiscal year end appear on the combined balance sheet as a reserve of the fund balance on a GAAP Basis and for all funds as the equivalent of expenditures/expenses on a non-GAAP budgetary basis in order to demonstrate legal compliance.

#### E. Cash and Investments

Cash received by the District is deposited in a cash and investment pool used by all funds. Monies for all funds are maintained in these accounts or are temporarily used to purchase short-term cash equivalent investments. State Statute authorizes the District to invest in obligations of the U.S. Treasury, commercial paper and repurchase agreements. Under existing Ohio statutes, all investment earnings accrue to the General Fund except those specifically related to Agency Funds, certain Trust Funds, and those funds individually authorized by Board resolution.

For purposes of the Statement of Cash Flows (GASB Statement No. 9) all highly liquid investments with a maturity of three months or less when acquired, are considered to be cash equivalents and are included under the heading "Equity in pooled cash and investments".

The District has invested funds in the State Treasury asset Reserve of Ohio (STAROhio) during the current fiscal year. STAROhio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the fair value at year-end.

Investments are stated at fair value as determined by quoted market prices.

#### F. Restricted Cash

Restricted cash in the general fund represents cash and cash equivalents set aside for budget stabilization, textbooks, and capital maintenance. At fiscal year-end restricted cash equaled \$336,785.

# G. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

# H. Inventory (Materials and Supplies)

Inventories of the Enterprise Funds are valued at lower of cost (first-in, first-out method) or market and are determined by physical count. Inventories of Proprietary Funds consist of materials and supplies and are expensed when used. The amount of unused commodities at year-end is reported as deferred revenue since title does not pass to the school district until the commodities are used.

# I. Fixed Assets and Depreciation

- 1. General Fixed Assets are capitalized at cost (or estimated historical cost) and updated for the cost of additions and retirements during the year in the General Fixed Assets Account Group. Donated fixed assets are recorded at their fair market values as of the date donated. The District maintains a capitalization threshold in the amount of \$500. No depreciation is recognized for assets in the General Fixed Assets Account Group. The District does not possess any infrastructure.
- 2. Proprietary Funds Equipment reflected in the Proprietary Funds are stated at historical cost (or estimated historical cost) and updated for the cost of additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date donated. The District maintains a capitalization threshold in the amount of \$500. Depreciation has been provided, where appropriate, on a straight-line basis over the following estimated useful lives:

Building Improvements 20 - 40 years Equipment 3 - 15 years

# J. Compensated Absences

Compensated absences should be accrued as they are earned by employees if both of the following conditions are met:

- 1. The employee's right to receive compensation is attributable to services already rendered.
- 2. It is probable that the employer will compensate the employee for the benefits through paid time off or cash payment.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District had identified as probable of receiving payment in the future. The amount is based on the accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy.

For Governmental Funds, vested and accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of its respected Governmental Fund. Amounts of vested and accumulated vacation and sick leave that are not expected to be liquidated with expendable available financial resources are reported in the General Long-Term Obligations Account Group. Vested and accumulated vacation and sick leave of Proprietary Funds is recorded as an expense and liability of those funds as the benefits accrue to the employee. There are no material salary related payments applicable to the District.

# K. Interfund Transactions

During the course of normal operations, the District has numerous transactions between funds. The most significant include:

- 1. Routine transfers of resources from one fund to another fund through which resources to be expended are recorded as operating transfers.
- 2. Reimbursements from one fund to another fund are treated as expenditures/expenses in the reimbursing fund and as a reduction in expenditures/expenses in the reimbursed fund.
- 3. Short-term interfund loans are reflected as interfund loans payable/receivable, while long-term interfund loans (greater than one year in length) are recorded as advances to/from other funds. There were no long-term interfund loans outstanding at fiscal year-end.

# L. Long-Term Obligations

Long-term debt is recognized as a liability of a Governmental Fund when due, or when resources have been accumulated in the Debt Service Fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available resources is reported as a fund liability of a Governmental Fund. The remaining portion of such obligations is reported in the General Long-Term Obligation Account Group.

Long-term liabilities expected to be financed from Proprietary Fund operations are accounted for in those funds.

# M. Fund Balance Reserves

The District records reservations for portions of fund equity which are legally segregated for specific future use or which do not represent available spendable resources and therefore are not available for appropriations for expenditures. Unreserved fund balance indicates that portion of fund equity, which is available for appropriation, in future periods. Fund equity reserves are established for encumbrances, property taxes and budgetary set-asides required under Ohio law. The reserve for property taxes represents taxes recognized, as revenue under generally accepted accounting principles not available for appropriation under State statutes.

# N. Memorandum Only - Total Columns

Total columns on the general-purpose financial statements are captioned (Memorandum Only) to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with generally accepted accounting principals. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

# O. Proprietary Fund Accounting

In accordance with GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting", the District applies all GASB pronouncements and all FASB Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989, unless they conflict with GASB pronouncements.

# 3. EQUITY IN POOLED CASH AND INVESTMENTS

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments". State Statute requires the classification of monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the School District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current two-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits of interim monies. Interim monies are those monies, which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit, maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

State legislation permits interim monies to be deposited or invested in the following securities:

- 1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At year-end the carrying amount of the District's deposits was (\$250,931). The bank balance of deposits was \$369,123 and of the bank balance, \$100,000 was covered by federal depository insurance. The remaining amounts were uninsured and uncollateralized as defined by GASB. Although the securities were held by the pledging financial institutions' trust department in the School District's name and all statutory requirements for the investment of the money had been followed, noncompliance with the federal requirements could potentially subject the money held in the School District's name to a successful claim by the FDIC.

Generally accepted accounting principles require that investments held by the District should be categorized to give an indication of the level of risk assumed by the District at year-end. The District's investments are categorized to give an indication of the level of risk assumed by the entity at year-end.

CATEGORY 1 includes investments that are issued, registered, or held by the District or its agent in the District's name.

CATEGORY 2 includes uninsured and unregistered investments held by the counterparty's trust department or agent in the District's name.

CATEGORY 3 includes uninsured and unregistered investments held by the counterparty, or by its department or agent, but not in the District's name.

Based on the above criteria, the District's investments at year-end are classified as follows:

	RISK	CARRYING VALUE/
INVESTMENTS	CATEGORY	FAIR VALUE
STAR Ohio	N/A	\$3,754,099
U.S. Agencies	3	5,992,428
Money Market Fund	N/A	27,784
Total		\$9,774,311

\* STAR Ohio and Money Market Fund are unclassified investments because they are not evidenced by securities that exist in physical or book entry form. Investments in STAR Ohio and Money Market Fund are valued at quoted share price at year-end.

#### 4. PROPERTY TAXES

Property taxes include amounts levied against real, public utility and tangible personal (business) property. Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility and tangible personal (used in business) property located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are 25 percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment was due by January 20. If paid semi-annually, the first payment (at least one-half of amount billed) was due January 20, with the remainder due on June 20.

The County Auditor remits portions of the taxes collected with periodic settlements of Real and Public Utility property taxes in February and August and Tangible Personal Property Taxes in June and October to all taxing districts.

The School District receives property taxes from the County Auditor. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2002 are available to finance fiscal year 2003 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represent delinquent taxes outstanding and real property, personal property and public utility taxes, which became measurable as of June 30, 2002. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations.

The assessed values upon which the fiscal year taxes were collected are:

Agricultural/Residential	
And Other Real Estate	\$513,115,990
Public Utility Personal	10,635,170
Tangible Personal Property	16,917,640
Total Assessed Value	\$540,668,800

# 5. FIXED ASSETS

A summary of the General Fixed Assets Account Group at the year-end follows:

Class	Balance Beginning of Year	Additions	<u>Deletions</u>	Balance End of Year
Land	\$ 1,436,356	\$ 0	\$ 0	\$ 1,436,356
Buildings	39,896,572	2,793	0	39,899,365
Equipment	4,547,761	227,240	7,000	4,768,001
Construction In Progress	2,793	431,465	2,793	431,465
Total	<u>\$45,883,482</u>	\$661,498	<u>\$9,793</u>	<u>\$46,535,187</u>

A summary of the Proprietary Fund fixed assets at year-end follows:

Equipment	\$685,570
Less Accumulated Depreciation	(390,151)
Net Fixed Assets	\$295,419

# 6. CHANGES IN THE GENERAL LONG-TERM OBLIGATIONS ACCOUNT GROUP

At fiscal year-end, the following changes occurred in debt reported in the General Long-Term Obligations Account Group:

	Balance Beginning			Balance End
	of Year	Increase	Decrease	of Year
Accrued Wages & Benefits	\$ 184,993	\$ 0	\$ 9,055	\$ 175,938
Capital Leases Payable	1,433,987	0	139,439	1,294,548
Compensated Absences	2,558,881	0	105,755	2,453,126
General Obligation Bonds Payab	ole 41,965,734	0	1,775,000	40,190,734
Notes Payable	1,057,000	<u>304,000</u>	0	1,361,000
Total	<u>\$47,200,595</u>	<u>\$304,000</u>	<u>\$2,029,249</u>	<u>\$45,475,346</u>

The accrued wages and benefits amount above represents pension contributions that are not expected to be liquidated with expendable financial resources.

# 7. LONG-TERM DEBT

All General Obligation Bonds and Notes outstanding, issued to provide funds for the acquisition of equipment and facilities, are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Accordingly, such unmatured obligations of the District are accounted for in the General Long-Term Obligation Account Group. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Debt Service Fund.

A. The following is a description of the District's bonds and notes outstanding as of year-end:

Purpose	Interest Rate	Issue Date	Maturity <u>Date</u>	Balance Beginning of Year	Issu	ıed	Retired	Balance End of Year
1999 Bond Issue 1999 Bond Issue 2001 Note Issue 2002 Note Issue	5.00% 4.40%	02/01/99 04/29/99 05/10/01 04/30/02	12/01/24 05/01/04	\$1,900,000 40,065,734 1,057,000 0	\$ 304.	0 0 0	\$ 100,000 1,675,000 0 0	\$1,800,000 38,390,734 1,057,000 304,000
TOTAL				\$43,022,734	\$304	000	\$1,775,000	<u>\$41,551,734</u>

B. The following is a summary of the District's future annual debt service requirements to maturity for general obligation bonds and notes:

Year Ending	Duinainal	Intopast	Total
June 30	Principal	Interest	<u>Total</u>
2003	\$2,033,000	\$1,917,950	\$3,950,950
2004	3,345,000	1,820,072	5,165,072
2005	2,594,000	1,656,379	4,250,379
2006	2,920,000	1,519,466	4,439,466
2007	1,075,000	1,425,204	2,500,204
Thereafter	29,584,734	14,604,704	44,189,438
Totals	\$41,551,734	\$22,943,775	<u>\$64,495,509</u>

#### 8. INTERFUND ACTIVITY

As of fiscal year-end, receivables and payables that resulted from various interfund transactions were as follows:

Fund Type/Fund	Interfund <u>Receivables</u>	Interfund Payables
General Fund	\$27,464	\$ 0
Special Revenue Fund:		
Public School Support	275	0
Career Education	0	568
Athletic Fund	0	14,707
Agency Fund:		
Student Activities	0	275
Enterprise Fund:		
Food Service	0	12,189
Total All Funds	<u>\$27,739</u>	<u>\$27,739</u>

# 9. DEFINED BENEFIT PENSION PLANS

# A. School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS); a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the SERS, 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Plan members are required to contribute 9% of their annual covered salary and the School District is required to contribute 14%. The contribution requirements of plan member and employers are established and may be amended, up to statutory maximum amounts, by the SERS Retirement Board. The School District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2002, 2001, and 2000 were \$577,764, \$561,666, and \$478,794 respectively; 51% has been contributed for fiscal year 2002 and 100% for fiscal years 2001 and 2000.

# B. State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS), a cost sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides basis retirement benefits, disability, survivor, and health care benefits based on eligible service credit to members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issue a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing the State Teachers Retirement System, 275 E. Broad Street, Columbus, Ohio 43215-3771.

Plan members are required to contribute 9.3% of their annual covered salary and the School District is required to contribute 14%. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. The School District's contributions for pension obligations to STRS for the fiscal years ended June 30, 2002, 2001, and 2000 were \$1,814,868, \$1,737,444, and \$1,648,488 respectively; 82% has been contributed for fiscal year 2002 and 100% for fiscal years 2001 and 2000.

#### 10. POST-EMPLOYMENT BENEFITS

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursements of monthly Medicare premiums. Benefit provisions and the obligation to contribute are established by the Systems based on authority granted by State statue. Both systems are on a pay-as-you-go basis.

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by the STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate; currently 14% of covered payroll. The Retirement Board allocates employer contributions equal to 8% of covered payroll to the Health Care Reserve Fund. The Health Care Reserve Allocation for the year ended June 30, 2002 will be 4.5% of covered payroll.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Fund was \$3.256 billion at June 30, 2001. For the year ended June 30, 2001, net health care costs paid by STRS were \$300,772,000 and STRS had 102,132 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to maximum of 75 % of the premium.

For the fiscal year, employer contributions to fund health care benefits were 9.80% of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2001, the minimum pay has been established at \$12,400. The surcharge, added to the unallocated portion of the 14% employer contribution rate, provides for maintenance of the asset target level for the health care fund.

The target level for the health care reserve is 150% of annual health care expenses. Expenses for health care at June 30, 2001, were \$161,439,934 and the target level was \$242.2 million. At June 30, 2001 SERS had net assets available for payment of health care benefits of \$315.7 million. SERS had approximately 50,000 participants currently receiving health care benefits.

# 11. BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations and changes in fund balance/retained earnings on the basis of generally accepted accounting principles (GAAP); the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements. The main difference between the budget basis and GAAP basis are:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures/expenses for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and as note disclosures in the proprietary fund types (GAAP basis).
- 4. Proceeds from the principal payment on bond and tax anticipation notes are reported on the operating statement (budget basis) rather than on the balance sheet (GAAP basis).

# Reconciliation of Excess of Revenues and Other Financing Sources Over (Under) Expenditures and other Financing Uses From GAAP Basis to Budgetary Basis:

Governmental Fund Types	General <u>Fund</u>	Special Revenue <u>Funds</u>	Debt Service Funds	Capital Projects Funds
GAAP Basis	\$2,556,272	\$16,676	\$204,399	\$82,018
Net Adjustment for				
Revenue Accruals	583,398	187,935	(25,872)	136,684
Net Adjustment for				
Expenditure Accruals	(433,888)	(178,046)	0	(695,137)
Encumbrances	_(2,233)	(57,860)	0	(377,417)
Budgetary Basis	\$2,703,549	(\$31,295)	<u>\$178,527</u>	(\$853,852)

#### 12. CONTINGENT LIABILITIES

Grants - The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. Management is unable to estimate possible claims resulting from such audits until the audits have been completed. However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District.

# 13. JOINTLY GOVERNED ORGANIZATIONS

The Southwest Ohio Computer Association (SWOCA) is a jointly governed organization amount a three county consortium of Ohio school districts. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to the administrative and instructional functions of the member districts. Each of the governments of these schools and instructional functions of the member districts. Each of the governments of these schools supports SWOCA based upon a per pupil charge dependent upon the software package utilized. SWOCA is governed by a Board of Directors consisting of the superintendents and treasures of member school districts. The degree of control exercised by any participating school district is limited to its representation on the Board. The Board consists of one representative from each of the participating 29 school districts. The financial statements for SWOCA are available at the Butler County Career Center, 3603 Hamilton-Middletown Road, Hamilton, Ohio 45012.

Hamilton Clermont Cooperative Association/Unified Purchasing Association - The Hamilton Clermont Cooperative Association/Unified Purchasing Association is a jointly governed organization among a two county consortium of school districts. The Unified Purchasing Cooperative was organized under the Hamilton Clermont Cooperative Association to benefit member districts with a more economically sound purchasing mechanism for general school, office and cafeteria supplies. The United Purchasing Cooperative organization is governed by representatives from each of the governments that created the organization, but there is no ongoing financial interest or responsibility by the participating governments. Complete financial statement for H/CCA can be obtained from their administrative office at 7615 Harrison Avenue, Cincinnati, Ohio 45231.

#### 14. RISK MANAGEMENT

The District maintains comprehensive insurance coverage with private carriers for real property, building contents and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Real property and contents are 90% co-insured. The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2001, the School District contracted with Indiana Insurance for property insurance, Nationwide for fleet insurance and Nationwide Insurance for liability insurance coverage. Coverages provided by the above companies are as follows:

\$76,542,339
2,000,000
2,000,000
1,000,000
5,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

# 15. INSURANCE PURCHASING POOL

Greater Cincinnati Insurance Consortium - The Greater Cincinnati Insurance Consortium, an insurance purchasing pool, is a health trust formed to provide affordable and desirable dental, life, medical and other disability group insurance for member's, employees, eligible dependents and designated beneficiaries of such employees. The board of Directors consists of one representative from each of the participating members and are elected by the vote of the majority of the member school districts. The School District pays premiums to a third party administrator, Edward Paul Cerry, which in turn buys the insurance policies from various insurance companies. Upon termination, the School District shall be responsible for prompt payment of all plan liabilities accruing as a result of such termination and maintain no right to any assets of the Consortium. The School District may terminate participation in the Consortium for the benefit of its employees upon written notice to the Consortium delivered at least sixty days prior to the annual review date of the policy. Financial information can be obtained from the Greater Cincinnati Insurance Consortium at 20600 Chagrin Boulevard, Shaker Heights, Ohio 44122.

Ohio School Boards Association Workers' Compensation Group Rating Plan - The School District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), and insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

# 16. STATE SCHOOL FUNDING DECISION

On September 6, 2001, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision identified aspects of the current plan that require modification if the plan is to be considered constitutional, including:

- A change in the school districts that are used as the basis for determining the base cost support amount. Any change in the amount of funds distributed to school districts as a result of this change must be retroactive to July 1, 2001, although a time line for distribution is not specified.
- Fully funding parity aid no later than the beginning of fiscal year 2004 rather than fiscal year 2006.

The Supreme Court relinquished jurisdiction over the case based on anticipated compliance with its order.

The State of Ohio, in a motion filed September 17, 2001, asked the Court to reconsider and clarify the parts of the decision changing the school districts that are used as the basis for determining the base cost support amount and the requirement that changes be made retroactive to July 1, 2001. In November, 2001, the court granted the request for reconsideration, but also ordered the parties to participate in a settlement conference with a court appointed mediator. On March 21, 2002, the mediator issued his final report indicating that the conference was unable to produce a settlement. The case is now under reconsideration by the Court.

The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and on its financial operations.

# 17. ACCOUNTABILITY AND COMPLIANCE

# **Fund Deficits**

Fund balances at June 30, 2002, included the following individual fund deficits:

Fund Type/Fund	Deficit Fund Balance
Special Revenue Fund:	
Disadvantaged Pupil Impact Aid	\$6,504
Title I	50,001
Continuous Improvement	4,913

# Compliance

The following funds had appropriations in excess of estimated resources plus available balances for the fiscal year.

Fund Type/Fund	Excess
Special Revenue Funds:	
Auxilliary Services	\$21,099
Career Education	736
Capital Projects Fund:	
Building	59,842

### 18. SET-ASIDE CALCULATIONS

The School District is required by State stature to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for the same purposes in future years.

The following information describes the change in the year-end set-aside amounts for textbooks, capital acquisition, and budget stabilization. Disclosure of this information is required by State statute.

	Textb	ooks	Capit Acquisi		Budget Stabilization	Totals
Set-aside Cash Balance as of				<del></del>		
June 30, 2001	\$	0	\$	0	\$336,785	\$336,785
Current Year Set-aside						
Requirement	480	,660	480	,660	0	961,320
Current Year Offsets		0	(480	,660)	0	(480,660)
Qualifying Disbursements	<u>(480</u>	<u>,660)</u>		0	0	(480,660)
Set-aside Cash Balance as of June 30, 2002	\$	0	\$	0	\$336,785	\$336,785
us of suite 50, 2002	Ψ		Ψ		$\frac{4550,705}{100}$	Ψυυσ, 10υ

Qualifying disbursements for textbooks and instructional materials during the year were \$656,156, which exceeded the required set-aside and the reserve balance. Bond proceeds can be used as an offset to the capital improvement and maintenance reserve.

Senate Bill 345 eliminated the Budget Stabilization Reserve. The current year set-aside requirement for the Reserve is from a Bureau of Workers' Compensation refund received prior to April 10, 2001.

### 19. ADVANCED REFUNDING

On April 1, 1999, the District issued \$43,140,734 in General Obligation Bonds with interest rates from 3.2% to 5.25% to advance refund \$13,145,000 of outstanding 1992 General Obligation Bonds with interest rates from 4.1% to 7.1%. The net proceeds were used to purchase U.S. Government Securities. Those Securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1992 general obligation bonds. As a result, the 1992 general obligation bonds are considered defeased and the liability for those bonds has been removed from the debt service fund. The amount of outstanding refunded debt at fiscal year-end was \$10,680,313.

### 20. CAPITALIZED LEASES - LESSEE

The District entered into a capital lease for the installation of a HVAC system for Loveland High School. Principal payments totaled \$139,439 during the current fiscal year.

The terms of the agreement provide options to purchase the equipment. The lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term. Capital lease payments are reflected in the general fund in the combined financial statements.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments as of June 30, 2002:

June 2003	\$215,016
June 2004	215,016
June 2005	215,016
June 2006	215,016
June 2007	215,016
Thereafter	501,704
Total Payments	\$1,576,784
Less: Amounts representing	
Interest	(282,236)
Present Value of Minimum	
Lease Payments	\$1,294,548

### 21. CONSTRUCTION AND OTHER COMMITMENTS

At June 30, 2002, uncompleted construction contracts are as follows:

	Remaining
Description	Commitment
Bus Garage	\$350,832

### 22. CONTRIBUTED CAPITAL

During the year, contributed capital was as follows:

	Food
	Service Fund
Contributed Capital,	
Beginning of Year	\$ 259,200
Capital Contributed Additions	0
Contributed Capital,	
End of Year	<u>\$259,200</u>

In accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions", capital contributions received after June 30, 2000 are reported as revenue in the proprietary funds.

## 23. PRIOR PERIOD ADJUSTMENT

The beginning fixed asset balance of the general fixed asset account group and the beginning retained earnings balance of the food service enterprise fund have been adjusted for corrections to the fixed asset detail as follows:

	Enterprise Fund	General Fixed Assets Account Group
Balance previously stated, June 30, 2001	\$314,191	\$47,529,367
Prior period adjustment	(67,234)	(1,645,885)
As restated, July 1, 2001	<u>\$246,957</u>	\$45,883,482

This Page Intentionally Left Blank

# COMBINING, INDIVIDUAL FUND AND ACCOUNT GROUP FINANCIAL STATEMENTS AND SCHEDULES

This Page Intentionally Left Blank

### **GENERAL FUND**

The General Fund is used to account for government resources not accounted for in any other fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of the State of Ohio.

Since there is only one General Fund and the level of budgetary control is not greater than that presented in the General Purpose Financial Statements, no additional financial statements are presented here.

This Page Intentionally Left Blank

### SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects or expendable trusts) that are legally restricted to expenditure for specified purposes. The following are descriptions of each Special Revenue Fund:

<u>PUBLIC SCHOOL SUPPORT</u>: To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

<u>LEARNING LINKS</u>: To account for monies, which are provided for the Learning Links Program.

<u>VENTURE CAPITAL EAST</u>: To account for the state monies, which support the school improvement program, and to enhance faculty knowledge and experiences.

<u>ATHLETIC FUND</u>: To account for those student activity programs which have student participation in the activity but do not have student management in the programs. This fund includes athletic programs as well as the band, cheerleaders, flag corps and other similar types of activities.

<u>AUXILIARY SERVICES</u>: To account for state funds which provide services and materials to students attending non-public schools within the boundaries of the District as provided by state law.

<u>CAREER EDUCATION</u>: To account for state funds, which are provided to introduce various career opportunities to students.

<u>TEACHER DEVELOPMENT</u>: To account for state funds, which are provided to assist school districts in the development of in-service programs.

<u>MANAGEMENT INFORMATION</u>: To account for state funds which are provided to assist the District in implementing a staff, student and financial system as mandated by the Omnibus Education Reform Act of 1989.

SCHOOL BUILDING INCENTIVE GRANT: To account for monies, which are provided in conjunction with School Building Incentive Grant.

ENTRY YEAR PROGRAM: To account for state funds, which are provided for implementing entry year programs.

<u>AMERICAN SIGN LANGUAGE</u>: To account for monies, which are provided in conjunction with American Sign Language Grant.

<u>DISADVANTAGED PUPIL IMPACT AID</u>: To account for the provision of state funds to economically deprived pupils. The funds are grants designed to help level out the economic differences between students.

NETWORK CONNECTIVITY: To account for data communications support.

<u>SCHOOL NET PROFESSIONAL DEVELOPMENT:</u> To account for limited number of professional development subsidy grants.

OHIO READS: To account for state funds, which are designated reading.

<u>SUMMER INTERVENTION:</u> To account for summer remediation services.

<u>SAFE SCHOOL HOT LINE:</u> To account for funds provided for the Safe School Hot Line program.

<u>EISENHOWER GRANT</u>: To account for monies, which are provided for professional development.

<u>TITLE VI B PRE-SCHOOL</u>: To account for federal funds received for the purpose of assisting in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternate service patterns, and provision of full educational opportunities to handicapped children at preschool.

<u>CARL PERKINS</u>: Provision of funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, postsecondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work study projects, including sex equity grants. Funds are administered by the Ohio Department of Education, Division of Vocational and Career Education.

<u>TITLE I</u>: To account for federal funds used to meet special educational needs of educationally deprived children.

<u>TITLE VI</u>: To account for federal funds used to provide programs for at-risk students; instructional materials to improve the quality of instruction; programs of professional development; and programs to enhance personal excellence of students and student achievement.

<u>EHA PRE-SCHOOL</u>: To account for revenues and expenditures made in conjunction with child abuse, child neglect prevention programs and other grants.

<u>DRUG FREE SCHOOLS</u>: To account for federal funds used for establishment, operation and improvement of programs of drug abuse prevention, early intervention, rehabilitation referral and education in schools.

TELECOMM: To account for funds provided for the Telecomm Program.

<u>CONTINUOUS IMPROVEMENT</u>: To account for funds provided for the Continuous Improvement Program.

## **DEBT SERVICE FUND**

The Debt Service Fund is used to account for the accumulation of resources for and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

Since there is only one Debt Service Fund and the level of budgetary control is not greater than that presented in the General Purpose Financial Statements, no additional financial statements are presented here.

This Page Intentionally Left Blank

#### **CAPITAL PROJECTS FUNDS**

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings and additions to existing buildings, or for major renovation projects, including equipment purchases other than those financed by Proprietary Funds. The following are descriptions of each Capital Projects Fund:

<u>BUILDING</u>: To account for all transactions related to all special bond funds in the District. Proceeds from the sale of bonds, except premium and accrued interest, are paid into this fund.

<u>PERMANENT IMPROVEMENT</u>: To account for all transactions related to acquiring, constructing or improving such permanent improvements as are authorized by Chapter 5705, Revised Code.

<u>SCHOOL NET</u>: To account for revenues and expenditures related to the development and implementation of the School Net network within the district.

## **ENTERPRISE FUNDS**

Enterprise Funds are established to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that the expense (including depreciation) of providing goods or services primarily or solely to the general public be financed or recovered primarily through user charges. The following are descriptions of each of the District's Enterprise Funds:

Since there is only one Enterprise Fund and the level of budgetary control is not greater than that presented in the General Purpose Financial Statements, no additional financial statements are presented here.

This Page Intentionally Left Blank

## **INTERNAL SERVICE FUNDS**

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to another department or agency of the District on a cost reimbursement basis.

Since there is only one Internal Service Fund and the level of budgetary control is not greater than that presented in the General Purpose Financial Statements, no additional financial statements are presented here.

This Page Intentionally Left Blank

#### FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The District's fiduciary funds include an Expendable Trust Fund and Agency Funds. The following are descriptions of each of the District's Fiduciary Funds:

#### EXPENDABLE TRUST FUND

<u>SPECIAL TRUST</u>: To account for donations received by the District in a trustee capacity. (Since there is only one Expendable Trust Fund, the only financial statement presented here is the combining balance sheet).

#### AGENCY FUND

<u>STUDENT ACTIVITIES</u>: To account for the resources that belong to the various student groups in the District. The funds account for sales and other revenue generating activities by student activity programs, which have students involved in the management of the program.
