**NOTES TO SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FOR THE YEAR ENDED JUNE 30, 2002**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) summarizes activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B - NUTRITION CLUSTER

Non-monetary assistance, such as food received from the U.S. Department of Agriculture, is reported in the Schedule at the fair market value of the commodities received and consumed. Cash receipts from the U.S. Department of Agriculture are commingled with State Grants and local funds. It is assumed federal monies are expended first.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require that the District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District complied with the matching requirements. The expenditures of non-Federal matching funds is not included on the Schedule.

NOTE D - PRESCHOOL TITLE VI-B

The Clark County Educational Service Center expended \$24,426 on the Preschool Title VI-B Program on behalf of Tecumseh Local School District during the current reporting period. These expenditures are included on the accompanying Schedule of Federal Award Expenditures.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE AND
ON INTERNAL CONTROL REQUIRED BY *GOVERNMENT AUDITING STANDARDS***

Tecumseh Local School District
Clark County
9760 West National Road
New Carlisle, Ohio 45344

To the Board of Education:

We have audited the financial statements of Tecumseh Local School District, Clark County, (the District) as of and for the year ended June 30, 2002, and have issued our report thereon dated December 13, 2002. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance that we have reported to the management of the District in a separate letter dated December 13, 2002.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. However, we noted a matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the District's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements. The reportable condition is described in the accompanying schedule of findings as item 2002-10312-001.

**Internal Control Over Financial Reporting
(Continued)**

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we do not believe the reportable condition described above is a material weakness. We also noted other matters involving the internal control over financial reporting that do not require inclusion in this report, that we have reported to management of the District in a separate letter dated December 13, 2002.

This report is intended for the information and use of the management, Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT OF INDEPENDENT ACCOUNTANTS ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Tecumseh Local School District
Clark County
9760 West National Road
New Carlisle, Ohio 45344

To the Board of Education:

Compliance

We have audited the compliance of Tecumseh Local School District, Clark County, (the District) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2002. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal programs is the responsibility of District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, Tecumseh Local School District complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended June 30, 2002.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

**Internal Control Over Compliance
(Continued)**

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Federal Awards Expenditures

We have audited the general-purpose financial statements of Tecumseh Local School District, Clark County, as of and for the year ended June 30 2002, and have issued our report thereon dated December 13, 2002. Our audit was performed for the purpose of forming an opinion on the general-purpose statements taken as a whole. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the general-purpose financial statements. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the general-purpose financial statements taken as a whole.

This report is intended for the information and use of the management, Board of Education, and federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

Reportable Condition

Latchkey

Latchkey programs were provided at several different Tecumseh Local School District buildings. Neither cash nor accounts receivable ledgers were maintained for Latchkey customers, which could result in a customer making an over / under payment and allow errors to occur in customer balances. Additionally, there was no consistent method of record keeping at the various buildings in the District. To provide that customer account balances are correct and records are consistently maintained, each building Latchkey program should maintain a similar cash /accounts receivable ledger for each student enrolled in their particular program. The ledger should include a cumulative total of fees due by week for the school year, fees owed per week, amounts paid made including date and receipt number, and a running cumulative total of charges due.

December 13, 2002

To the Citizens and Board of Education of the Tecumseh Local School District:

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the Tecumseh Local School District. The information reported is for the fiscal year ended June 30, 2002. The report contains financial statements, supplemental statements and schedules, as well as other financial and statistical information to provide complete and full disclosure of all material financial aspects of the District for fiscal year 2002.

Responsibility for the accuracy, completeness and fairness of this report rests with the District and more specifically, the Office of the Treasurer. To the best of our knowledge and belief, this report and the enclosed data are accurate in all material aspects. Our report is designed to present fairly the financial position, results of operation and cash flows of the various funds and account groups of the District.

This report is prepared in conformance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative services, and is representative of the District's continuing commitment to provide meaningful financial information to the citizens of the District.

The CAFR report is divided into three sections:

The Introductory Section introduces the reader to the report and provides an overview of the district and area. It also includes a table of contents, this transmittal letter, Certificate of Achievement for Excellence in Financial Reporting for fiscal year 2001 from GFOA and ASBO, an organizational chart, and list of principal officials.

The Financial Section includes the unqualified opinion of our independent auditor, Jim Petro, Auditor of State. It also includes the general purpose financial statements and the combining and individual fund and account group financial statements and schedules.

The Statistical Section includes selective financial, economic and demographic information generally presented on a multi-year basis for comparative purposes.

THE REPORTING ENTITY AND SERVICES PROVIDED

The School District has reviewed its operating entity definition in order to insure conformance with the Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity." In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up Tecumseh Local School District (the primary government) and its potential component units.

This report includes all funds and account groups of the district. The funds and account groups are used to account for the primary government's assets, liabilities, fund balances, and results of operations (or revenues over/under expenses) for those activities.

This report includes all funds and account groups of the school district. The school district provides a full range of traditional and non-traditional education programs, services and facilities. These include all day pre-school and kindergarten, elementary and secondary curriculum at the general, college preparatory and vocational levels, a broad range of co-curricular and extracurricular activities, special education programs and facilities.

MISSION STATEMENT

The mission of the Tecumseh Local School District is to provide a variety of educational programs for students of all ages and abilities. Our school system strives to prepare learners to be responsible, contributing members of an ever-changing society, and to have a feeling of success, and a pride in community.

SCHOOL DISTRICT DESCRIPTION AND ORGANIZATION

The Tecumseh Local School District was established in 1875 through the consolidation of existing land areas and school districts. The District serves an area of approximately 50 square miles. It is located in Clark County, and includes all of the City of New Carlisle and portions of Bethel and Pike Townships, with some parcels of property located in Miami County.

The School District is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio to provide educational services as authorized by State statute and/or federal guidelines. The School District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The Board appoints the Superintendent and the Treasurer. All departments, with the exception of the Treasurer's Office, are under the authority of the Superintendent's Office.

ECONOMIC CONDITION AND OUTLOOK

The Tecumseh Local School District is located in southwestern Clark County, which is just north of Dayton, Ohio and slightly to the west of Springfield, Ohio. Interstate 70 and Interstate 675 are only a few miles away. These major thoroughfares permit easy commuting to the Cities of Dayton and Springfield, as well as Wright Patterson Air Force Base (one of the areas largest employers).

The School District's tax base is supported mainly through residential and agricultural property. New housing projects have continued to be strong throughout the area, as lending rates have remained at record low levels for the past few years. The School District anticipates assessed property values and new housing projects to increase slightly or remain stable over the foreseeable future.

MAJOR INITIATIVES

Primary accomplishments for school year 2001-2002 were as follows:

Financial

Received School District's first Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA) of the United States and Canada for its Comprehensive Annual Financial Report (CAFR) for fiscal year ended June 30, 2001. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR, whose content conforms to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements.

Received School District's first Certificate of Excellence in Financial Reporting from the Association of School Business Officials International (ASBO) for its CAFR for fiscal year ended June 30, 2001. This award certifies that the CAFR substantially conformed to the principles and standards of financial reporting as recommended and adopted by ASBO.

FINANCIAL INFORMATION

Internal Accounting and Budgetary Control

Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. The management of the District is responsible for establishing and maintaining an internal control environment that provides reasonable assurance the District's financial statements are reliable, the District complied with applicable laws and regulations and the District is operating effectively and efficiently.

The District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

The District maintains its accounts and accounting records to facilitate budgetary control as outlined by Ohio Revised Code. Before October 1st of each fiscal year the Board adopts its annual appropriation measure. These appropriations may be amended as needed by Board action. Annual appropriations and any amendments may not exceed the County Budget Commissions official estimate of resources. The County Auditor must certify that the Board's appropriation measures do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the function level within the fund for the General, Permanent Improvement and Food Service funds, and at the fund level for the remaining funds. All purchase order requests must be approved by the building principal, department supervisor, or appropriate central office director and must be certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests that exceed the available appropriations are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail month and year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Each administrator and school principal is furnished the reports showing the status of the budget accounts for which they are responsible. In addition, an on line inquiry system is available at each cost center site. As an additional safeguard, all employees are covered by a blanket bond, and certain individuals in policy-making roles are covered by a separate, higher limit bond. Additional information on the District's budgetary accounts can also be found in notes to the general purpose financial statements.

General Fund

The General Fund is the general operating fund of the District, used to account for all revenues and expenditures not required to be accounted for in another fund.

The following schedule presents a summary of the General Fund revenues for the fiscal years ended June 30, 2002 and the amount and percentage of increases and decreases in relation to the 2001 fiscal year.

	2002 Amount	Percent of Total	Increase (Decrease) From 2001	Percent of Increase (Decrease)
Taxes	\$7,639,512	33.2%	\$1,309,687	20.7%
Intergovernmental	14,688,007	63.8%	846,519	6.1%
Interest	157,263	0.7%	(234,649)	-59.9%
Tuition and Fees	432,766	1.9%	169,151	64.2%
Rent	75,458	0.3%	75,458	100.0%
Transportation	0	0.0%	(82,226)	-100.0%
Miscellaneous	23,319	0.1%	(75,575)	-76.4%
TOTAL	\$23,016,325	100.0%	\$2,008,365	9.6%

The increase in the tax revenue was primarily related to increase in property values due to revaluation of all properties by the County Auditor, as well as the School District obtaining an advance on fiscal year 2003 property tax revenue in fiscal year 2002. The increase in intergovernmental revenue is primarily attributable to higher state payments related to property taxes and increases in the state per pupil funding amount in the foundation program. The decrease in interest revenue was due to lower cash balances available for investing purposes and significantly lower earning rates available.

The following schedule presents a summary of General Fund expenditures for the fiscal year ended June 30, 2002, and the amount and percentage of increase or decrease in relation to the 2001 fiscal year.

	2002 Amount	Percent Of Total	Increase (Decrease) from 2001	Percent of Increase (Decrease)

Capital Outlay	6,249	<0.1%	(3,796)	-37.8%
TOTAL	\$23,297,941	100.0%	\$1,422,204	6.5%

The increase in functional expenditures were due primarily to negotiated pay increases for all classifications of employees, substantial increases in the cost of providing employees with healthcare coverage and general inflation. An increase in the number of aides for special education and kindergarten classes comprise the majority of the increase in instructional staff support. Improvements to the various school facilities added to the operation and maintenance costs incurred by the District in 2002 as compared to 2001.

Special Revenue Funds

Special Revenue Funds account for certain revenue sources, primarily program grants and entitlements, which are restricted by law or other formal actions to expended for a specific purpose. In 2002, all Special Revenue Funds on a combined basis operated with \$1,787,220 in revenues and \$1,887,318 in expenditures. The District was successful in obtaining additional funding for several new grants during the 2001-2002 school year. These grant dollars provided additional services to District students and staff, either directly or indirectly.

Capital Project Funds

The District's Capital Projects Funds are used to fund major equipment purchases and major capital improvement projects. During the 2001-2002 school year, the District utilized funds from the Capital Projects Funds to resurface and seal parking lots, purchase new school busses, replace or repair roofs on nearly all school buildings, and repair and service various heating and air conditioning units throughout the District. The School District issued a tax anticipation note related to the renovation of the football stadium during the previous fiscal year.

Enterprise Funds

Food Service and Latchkey are classified as enterprise operations since they resemble those activities found in private industry and management can set fees and charges to cover the cost of providing the service. In fiscal year 2002, the Enterprise Funds had net income of \$22,918 as compared to \$10,019 in fiscal year 2001. The slight increase in the net income for fiscal year 2002 as compared with fiscal year 2001, was slightly lower expenses for goods and services during 2002. The Enterprise Funds are extremely dependent upon federal and state subsidies, as comparing fiscal year 2002's operating income of \$892,182 to operating expenses of \$1,406,123 would indicate. Substantially all these federal and state subsidies are associated with the District's food service program.

Trust and Agency Funds

Trust and Agency Funds require fiduciary relationship in their management of the District. The Agency fund utilized by the District is used to account for Student Activity Funds. The Student Activity Funds represent a large variety of student groups from the high schools and middle schools.

DEBT ADMINISTRATION

The District has no outstanding bond or other long-term debt issues outstanding at June 30, 2002. During the year, the District issued \$548,000 in tax anticipation notes related to the renovations made to the football stadium during fiscal year 2001. This tax anticipation note was the only debt instrument outstanding at June 30, 2002.

As of June 30, 2002, the District's overall debt margin was \$21,808,009, the energy conservation debt margin was \$2,235,601 and the unvoted debt margin was \$248,400.

CASH MANAGEMENT

The District's cash management program addresses the issues of safety, liquidity and yield while maximizing returns. All investments are spread among available investment options to insure maximum interest rates. Investment earnings for all funds during the fiscal year were \$163,555. The figure is lower than in the previous fiscal year due to lower cash balances available for investing purposes throughout the year, as well as lower interest rates available for investments.

RISK MANAGEMENT

The District continues to protect its assets through a comprehensive insurance program. Insurance policies are in effect for fleet liability; property loss, boiler and machinery, school errors and omissions liability, and excess liability is purchased through the Indiana Insurance Company.

All employees are covered under the District's liability policy. The Superintendent and Board President are covered with a \$20,000 performance bond. The Treasurer is covered with a \$100,000 performance bond.

The District uses the State Workers' Compensation plan and pays the premium based on a rate per \$100 of salaries. The School District is a member of Ohio School Boards Association Workers' Compensation Group Rating Program.

INDEPENDENT AUDIT

State statutes require the School District to be subjected to an annual examination by an independent auditor. Independent auditor Jim Petro, Auditor of State, was selected to render an opinion on the School District's financial statements as of June 30, 2002. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. Pursuant to statute, the State prescribed a uniform accounting system to standardize accounting classification and financial reporting for all governments in Ohio. The School District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to governments that publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose content conforms to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements. The District is submitting this report to GFOA to determine its eligibility for a certificate, which is the highest form of recognition in the area of governmental financial reporting.

The District will also seek the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2002. This award certifies that a Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. This award is granted only after an extensive review of the report by an expert panel of certified public accountants and practicing school business officials. The District believes our current report meets ASBO requirements.

ACKNOWLEDGEMENTS

The preparation of the 2002 Comprehensive Annual Financial Report was made possible by many, not only through effort but also through support. Thanks are extended to the Tecumseh Board of Education for their support of the Treasurer's office that allows reliable and progressive financial operations and reporting.

Appreciation for the preparation is extended to Clark, Schaefer, Hackett & Company, the Clark County Auditor's Office, and Richard Cost.

Respectfully submitted,

Paul E. Gerlach

REPORT OF INDEPENDENT ACCOUNTANTS

Tecumseh Local School District
Clark County
9760 West National Road
New Carlisle, Ohio 45344

To the Board of Education:

We have audited the accompanying general-purpose financial statements of the Tecumseh Local School District, Clark County, (the District) as of and for the year ended June 30, 2002, as listed in the table of contents. These general-purpose financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the Tecumseh Local School District, Clark County, as of June 30, 2002, and the results of its operations and the cash flows of its proprietary fund type and nonexpendable trust fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2002 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The combining and individual fund and account group financial statements and schedules listed in the table of contents are presented for additional analysis and are not a required part of the general-purpose financial statements. We subjected this information to the auditing procedures applied in the audit of the general-purpose financial statements. In our opinion, it is fairly stated in all material respects, in relation to the general-purpose financial statements taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report and therefore express no opinion thereon.

A handwritten signature in black ink, appearing to read "Jim Petro".

TECUMSEH LOCAL SCHOOL DISTRICT, OHIO
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2002

1. DESCRIPTION OF THE SCHOOL DISTRICT

Tecumseh Local School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The School District provides educational services as authorized by State statute and/or federal guidelines.

The School District was established in 1875 through the consolidation of existing land areas and school districts. The School District serves an area of approximately 50 square miles. It is located in Clark County, and includes all of the City of New Carlisle and portions of Bethel and Pike Townships. It is staff by 203 non-certified employees, 247 certificated full-time teaching personnel and 19 administrative employees who provide services to 3,616 students and other community members. The School District currently operates 8 instructional buildings, 1 administrative building and 1 garage.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Tecumseh Local School District, this includes general operations, food service, latchkey and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing body and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations for which the School District approves the budget, the issuance of debt or the levying of taxes. The School District has no component units.

The District is associated with six organizations, which are defined as jointly governed and one insurance purchasing pool. These organizations are discussed in Note 16 and 17 to the general-purpose financial statements. These organizations are:

Jointly Governed Organizations:

- Miami Valley Educational Computer Association
- Southwestern Ohio Educational Purchasing Council
- Southwestern Ohio Instructional Technology Association
- Clark County Family and Children First Council
- Springfield/Clark County Joint Vocational School
- Tecumseh Education Foundation

Insurance Purchasing Pool:

- Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan

NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2002

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Tecumseh Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

Basis of Presentation - Fund Accounting

The School District uses funds and account groups to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain School District functions or activities.

A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. An account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

For financial statement presentation purposes, the various funds of the School District are grouped into the following generic fund types under the broad fund categories governmental, proprietary and fiduciary.

Governmental Fund Types

Governmental funds are those through which most governmental functions typically are financed. The acquisition, use and balances of the School District's expendable financial resources and the related current liabilities (except those accounted for in proprietary funds and trust funds) are accounted for through governmental funds. The following are the School District's governmental fund types.

General Fund - This fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

TECUMSEH LOCAL SCHOOL DISTRICT, OHIO
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2002

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Capital Projects Funds – Capital project funds are used to account for financial resources to be used for major equipment purchases and major capital improvement projects (other than those financed by proprietary and trust funds).

Proprietary Fund Type

Proprietary funds are used to account for a School District's ongoing activities that are similar to those found in the private sector. The following is the School District's proprietary fund type:

Enterprise Funds – The enterprise funds is used to account for School District activities that are financed and operated in a manner similar to private business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services be financed or recovered primarily through user charges or where it has been decided that periodic determination of revenues earned, expense incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Fiduciary Fund Types

Fiduciary Funds are used to account for assets held by the School District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The School District's fiduciary funds include non-expendable trust and agency funds. The non-expendable trust fund is accounted for in essentially the same manner as proprietary funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Account Groups

To make a clear distinction between fixed assets related to specific funds and those of the general government, and between long-term liabilities related to specific funds and those of a general nature, the following account groups are used:

General Fixed Assets Account Group – This account group is established to account for all fixed assets of the School District, other than those accounted for in proprietary or trust funds.

General Long-Term Obligations Account Group – This account is established to account for all long-term obligations of the School District except those accounted for in the proprietary or trust funds.

Measurement Focus and Basis of Accounting

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included in the balance sheet. Operating statements of these funds present increases (i.e. revenues and other financing sources) and decreases (i.e. expenditures and other financing uses) in net current assets.

TECUMSEH LOCAL SCHOOL DISTRICT, OHIO
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2002

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The enterprise fund and non-expendable trust fund are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities are associated with the operation of these funds and are included on the balance sheet. The operating statements of the proprietary fund and non-expendable trust funds present increases (e.g. revenues) and decreases (e.g. expenses) in net total assets.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made. The modified accrual basis of accounting is followed for the governmental and agency funds. Full accrual basis of accounting is followed for the proprietary and non-expendable trust funds.

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of year-end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements including timing requirements, which specify the year when the sources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end; property taxes available as an advance, tuition, grants, student fees and rentals.

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2002, but which were levied to finance fiscal year 2003 operations, have been recorded as deferred revenue. Grants and entitlements received before eligibility requirements are met are also recorded as deferred revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

TECUMSEH LOCAL SCHOOL DISTRICT, OHIO
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2002

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of cost, such as depreciation and amortization, are not recognized in governmental funds.

Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The grant activity reported in the preschool grant special revenue fund is administered by a fiscal agent and therefore is not budgeted by the School District. The legal level of control is at the fund level for each fund. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing on the following July 1. The budget includes proposed expenditures and means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayer's comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Clark County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources, which states the projected revenue of each fund. Prior to June 30, the School District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the Certificate is amended to include unencumbered cash balances from the preceding year. The certificate may be further amended during the year if the School District Treasurer determines that the revenue collected is greater or less than the current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2002.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the School District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education. The Board of Education has authorized the School District Treasurer to further allocate appropriations among function/object levels of expenditures.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund does not exceed the amounts set forth in the most recent Certificate of Estimated Resources. During the year, three supplemental appropriations were legally enacted.

The budget figures, which appear in the statements of budgetary comparison, represent the final appropriation amounts, including all amendments and modifications. Formal budgetary integration is employed as a management control device during the year for all funds other than the preschool grant special revenue fund and the agency fund, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits expenditures plus encumbrances from exceeding appropriations. On the GAAP basis, encumbrances outstanding at year-end are reported as reservations of fund balances for subsequent-year expenditure for governmental funds and reported in the notes to the financial statements for proprietary funds.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds, except the non-expendable trust fund, are maintained in this pool. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the combined balance sheet. The original contribution to the non-expendable trust fund is invested separately.

The School District has segregated bank accounts for monies held separate from the School District's central bank account. These interest bearing depository accounts are presented on the combined balance sheet as "cash and cash equivalents in segregated accounts" since they are not required to be deposited into the School District Treasury.

The balance of the grant administered by the fiscal agent is presented on the combined balance sheet as "cash and cash equivalents with fiscal agent" and represents deposits held by the Clark County Educational Service Center.

During fiscal year 2002, investments consisted of U.S. Treasury Obligations, Federal Home Loan Bank Bonds, Federal Home Loan Mortgage Corporation Notes, Federal National Mortgage Associations Notes, U.S. Treasury Notes and a certificate of deposit.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost.

For the purposes of the combined balance statement of cash flows and for presentation on the combined balance sheet, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months not purchased from the pool are reported as investments.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest credited to the general fund during fiscal year 2002 amounted to \$157,263, which includes the general funds allocation as well as the allocations of all funds not specified in the Board's resolution. Interest was also recorded in special revenue, capital projects and enterprise funds in the amounts of \$347, \$5,733 and \$212 respectively.

Inventory

Inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditures in the governmental fund types when purchased. Reported supplies inventory is equally offset by a fund balance reserve in the governmental fund indicating that it does not constitute available expendable resources even though it is a component of net current assets. Inventories of proprietary funds consist of donated food, purchased food and non-food supplies and are expensed when used.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2002 are recorded as prepaid items by using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure is reported in the year in which services are consumed.

Restricted Assets

Restricted assets in the general fund represents cash and cash equivalents whose use is limited by legal requirements. Restricted assets represent amounts previously received thorough workers' compensation rebates that are required by State statute to be set-aside by the School District for specific purposes.

Fixed Assets and Depreciation

General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction costs are reflected as expenditures in the governmental funds, and the related assets are reported in the general fixed assets account group. Fixed assets utilized in the proprietary funds are capitalized in that fund. All fixed assets are capitalized at cost (or estimated historical cost) and updated for additions or retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five hundred dollars. The District does not have any infrastructure.

Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized. Interest incurred during construction of general fixed assets is also not capitalized.

Assets in the general fixed asset account group are not depreciated. Depreciation of furniture and equipment in the enterprise funds is computed using the straight-line method over an estimated useful life of ten years. Improvements to fund fixed assets are depreciated over the remaining useful lives of the related fixed assets.

Compensated Absences

A liability for sick leave is accrued using the vesting method which states that the District will estimate its liability based on sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as specified by the retirement system as well as other employees who are expected to become eligible in the future to receive such payments. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated sick leave for all employees after ten years of current service with the School District. For governmental funds, the current portion of unpaid compensated absences is the amount expected to be paid using available expendable resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The remainder is reported in the general long-term obligations account group. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Vacation benefits are accumulated throughout the year; however, vacation time may not be carried from one year to the next with employees receiving any cash payout on the last payroll check of the fiscal year. Therefore, no accrual has been recorded for vacation leave at the School District.

Interfund Assets/Liabilities

Short-term interfund loans are classified as "interfund receivables" and "interfund payables".

Accrued Liabilities and Long-Term Obligations

In general, governmental fund payables and accrued liabilities are reported as obligations of the funds regardless of whether they will be liquidated with current resources. However, compensated absences, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the general long-term obligations account group to the extent that they will not be paid with current available expendable financial resources. Payments made more than sixty days after fiscal year end are considered not to have used current financial resources. The early retirement incentive is reported as a liability of the general long-term obligations account group until due.

Long-term obligations financed by proprietary funds are reported as liabilities in the appropriate proprietary funds.

Fund Balance Reserves

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity, which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, inventory of supplies and materials, property taxes, and budget stabilization.

The reserve for property taxes represents taxes recognized as revenue under accounting principals generally accepted in the United States of America but are not available for appropriations under State statute. The reserve for budget stabilization represents money previously received through workers' compensation rebates which are required to be set-aside by statute to be spent on specific purposes. The reserve for contributions signifies the legal restrictions on the use of principal.

Intergovernmental Revenues

For governmental funds, intergovernmental revenues, such as entitlements and grants awarded on a non-reimbursement basis, are recorded as receivables when the School District has met all respective requirements and revenues are recognized if received within the available period, otherwise deferred revenue amounts are reported. Reimbursement type grants are recorded as receivables and revenues when the related expenditures are incurred.

In addition, the School District receives services from the Clark County Educational Service Center, which administers different programs on their behalf. Intergovernmental revenue, and the corresponding expenditure, is recognized when the services are provided by the Service Center.

Grants and entitlements for governmental funds amounted to 64 percent of governmental fund revenue during the 2002 fiscal year.

Interfund Transactions

Quasi-external transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund, are recorded as expenditures/expense in the reimbursing fund and as a reduction of expenditures/expenses in the fund that is reimbursed. All other interfund transactions are reported as operating transfers.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Total Columns on General Purpose Financial Statements

Total columns on the General Purpose Financial Statements overview are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or cash flows in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

3. BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis, as provided by law requires accounting for certain transactions on the basis of cash receipts, disbursements, appropriations and encumbrances. The Combined Statement of Revenues, Expenditures and Changes in Fund Balances, Budget and Actual (Budget Basis), All Governmental Fund Types and the Combined Statement of Revenues, Expenses and Changes in Fund Equity, Budget and Actual (Budget Basis), Proprietary and Nonexpendable Trust Funds, are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures/expenses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Outstanding year-end encumbrances are treated as expenditures/expenses (budget basis) rather than as a reservation of fund balance for governmental fund types or note disclosure for proprietary fund types (GAAP basis).
4. Proceeds from and principal payments on debt obligations are reported on the operating statement (budget basis) rather than as balance sheet transactions (GAAP basis).

The adjustments necessary to convert the results of operations for the year ended June 30, 2002 on the GAAP basis to the budget basis are as follows:

4. DEPOSITS AND INVESTMENTS

State statutes require the classification of monies held by the School District into three categories.

Category 1 consists of "active" monies, those monies required to be kept in a "cash" or "near-cash" status for immediate use by the District. Such monies must be maintained either as cash in the School Treasury, in depository accounts payable, withdrawals on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

TECUMSEH LOCAL SCHOOL DISTRICT, OHIO
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2002

4. DEPOSITS AND INVESTMENTS (Continued)

Category 2 consists of "inactive" monies, those monies not required for use within the current two-year period of designation of depositories. Inactive monies may be deposited or invested as certificates of deposit maturing not later than the end of the current period of designation of depositories, or as savings or deposit accounts including, but not limited to, passbook accounts.

Category 3 consists of "interim" monies, those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by the certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts including passbook accounts.

Protection of the School District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public money deposited with the institution.

Interim monies may be invested in the following obligations:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal governmental agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited.

4. DEPOSITS AND INVESTMENTS (Continued)

An investment must mature within five years from the date of purchase unless matched-to a specific obligation or debt of the School District and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation or transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined by GASB Statement No. 3, "Deposits with Financial Institutions, Investments (including Repurchase Agreements) and Reverse Repurchase Agreements".

At year-end, the School District had \$3,500 in undeposited cash on hand, which is included on the balance sheet of the School District as part of "equity in pooled cash and cash equivalents."

Deposits

At fiscal year end, the carrying amount of the School District deposit was \$5,199,702 and the bank balance was \$6,699,961. Of the bank balance:

- 1) \$100,000 was covered by federal depository insurance
- 2) \$6,599,961 was uninsured and uncollateralized. Although all state statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the School District to a successful claim by the Federal Deposit Insurance Corporation.

Investments

The School District's investments are categorized to give an indication of the level of risk assumed by the School District at fiscal year end. Category 1 includes investments that are insured or registered or for which the securities are held by the District. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty or by its trust department or agent but not in the District's name.

	Category 2	Fair/Carrying Value
U.S. Treasury Obligations	\$ 3,391	\$ 3,391

4. DEPOSITS AND INVESTMENTS (Continued)

The classification of cash and cash equivalents, and investments on the financial statements is based on criteria set forth in GASB Statement No. 9, "Reported Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting." Cash equivalents are defined to include investments with original maturities of three months or less.

A reconciliation between classifications of cash and cash equivalents and investments on the combined financial statements and the classification of deposits and investments presented above per GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents	Investments

5. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property located in the School District. Property tax revenue received during calendar year 2002 for real and public utility property taxes represents collections of calendar 2001 taxes. Property tax payments received during calendar 2002 for tangible personal property (other than public utility property) is for calendar 2002 taxes.

2002 real property taxes are levied after April 1, 2002, on the assessed value as of January 1, 2002, the lien date. Assessed values are established by State law at thirty-five percent of appraised market value.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at thirty-five percent of true value. 2002 public utility property taxes became a lien December 31, 2001, are levied after April 1, 2002, and are collected in 2003 with real property taxes.

TECUMSEH LOCAL SCHOOL DISTRICT, OHIO
NOTES TO THE GENERAL PURPOSE FINANCIAL STATEMENTS

5. PROPERTY TAXES (Continued)

2002 tangible personal property taxes are levied after April 1, 2001, on the value as of December 31, 2001. Collections are made in 2002. Tangible personal property assessments are twenty-five percent of true value.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30 with the remainder payable by September 20.

The assessed values upon which the fiscal year 2002 taxes were collected are as follows:

	<u>2001 Second Half Collections</u>	<u>2002 First Half Collections</u>
Agricultural/residential		
And other real estate	\$ 204,034,560	\$ 220,345,160
Public utility personal	14,049,160	9,930,650
Tangible personal property	<u>16,515,230</u>	<u>18,124,292</u>
Total	<u>\$ 234,598,950</u>	<u>\$ 248,400,102</u>
Tax rate per \$1,000 of Assessed valuation	\$44.10	\$44.10

The School District receives property taxes from Clark County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2002, are available to finance fiscal year 2002 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, tangible personal property, and public utility taxes which became measurable as of June 30, 2002. Although total property tax collections for the next fiscal year are measurable, the amount available as an advance at June 30 is intended to finance current year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2002, was \$624,174 in the general fund and \$47,780 in the permanent improvement capital projects fund.

6. RECEIVABLES

Receivables at June 30, 2002 consisted of property taxes, accounts (student fees), interest and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes and the stable condition of State programs, and the current fiscal year guarantee of federal funds.

8. DEFINED BENEFIT PENSION PLANS

School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The School Employees Retirement System issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to SERS, 45 North Fourth Street, Columbus, Ohio 43215 or by calling (614) 222-5853.

Plan members are required to contribute 9 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current rate is 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The School District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2002, 2001, and 2000 were \$638,800, \$778,041 and \$157,327, respectively; 47 percent has been contributed for fiscal year 2002 and 100 percent for the fiscal years 2001 and 2000. \$341,447 represents the unpaid contribution for fiscal year 2002 and is recorded as a liability within the respective funds and the general long-term obligation account group.

State Teachers Retirement System

The School District contributes to the State Teachers Retirement System of Ohio (STRS Ohio), which is a cost-sharing, multiple-employer public employee retirement system. STRS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3307 of the Ohio Revised Code. The State Teachers Retirement System issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. The report may be obtained by writing to STRS, 275 East Broad Street, Columbus, Ohio 43215-3371.

Plan members are required to contribute 9.3 percent of their annual covered salary and the School District was required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts of 10 percent for members and 14 percent for employers. The School District's contributions for pension obligations to STRS for the fiscal years ended June 30, 2002, 2001 and 2000 were \$1,756,624, \$1,815,345 and \$687,135, respectively; 83 percent has been contributed for fiscal year 2002 and 100 percent for the fiscal years 2001 and 2000. \$299,192, representing the unpaid contribution for fiscal year 2002, is recorded as a liability within the respective funds.

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System have an option to choose Social Security or the SERS/STRS. As of June 30, 2002, all members of the Board of Education have elected social security. The School District's liability is 6.2 percent of wages paid.

9. POSTEMPLOYMENT BENEFITS

The School District provides comprehensive healthcare benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS Ohio), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are on a pay-as-you-go basis.

All STRS benefit recipients and sponsored dependents are eligible for health care coverage. The STRS Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2002, the STRS Board allocated employer contributions equal to 4.5 percent of covered payroll to the Health Care Reserve Fund. For the School District, this amount equaled \$562,120 for fiscal year 2002.

STRS pays health care benefits from the Health Care Reserve Fund. At June 30, 2001 (the latest information available) the balance in the Fund was \$3.256 billion. For the years ended June 30, 2001, net health care costs paid by STRS were \$300,772,000 and STRS had 102,132 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989 with less than twenty-five years of service credit must pay a portion of their premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2002, employer contributions to fund health care benefits were 8.54 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2002, the minimum pay has been established at \$12,400. For the School District, the amount contributed to fund health care benefits, including the surcharge, during the 2002 fiscal year equaled \$447,160.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 2001 (the latest information available), were \$161,439,934 and the target level was \$242.2 million. At June 30, 2001, SERS had net assets available for payment of health care benefits of \$315.7 million. SERS has approximately 50,000 participants currently receiving health care benefits.

10. OTHER EMPLOYEE BENEFITS

Compensated Absences

Accumulated Unpaid Sick Leave

Sick leave may be accumulated up to a maximum of 220 days for all district employees. Upon retirement, payment is made for one-fourth of the total unused sick leave balance up to a maximum of thirty-five days for all employees with ten or more years of current service with the School District. Twelve percent of the remaining accrued but unused sick leave is paid, not to exceed nine days. The total obligation for sick leave accrual for the District as a whole as of June 30, 2002 was \$1,550,995.

Early Retirement Incentive

The Board of Education approved an early retirement incentive program. Upon initial eligibility for STRS retirement benefits, the Board agreed to pay a one-time lump sum of \$1,000 times each year of Tecumseh LSD service, not to exceed \$20,000, provided that such unit member has at least ten years of Tecumseh LSD service, the final five years of which must be consecutive and be in a paid status immediately prior to retirement. This program is available to bargaining unit members for the time period July 1, 2001 to June 30, 2003.

At the end of fiscal year 2002, the School District had five employees who had chosen to accept the early retirement incentive. They will receive the payment in October 2002. The liability at June 30, 2002 for these five employees has been recorded as an early retirement incentive liability in the general long-term obligation account group. There were three employees that accepted the early retirement incentive at the end of the 2000-01 school year and they received payment in September 2001. These expenditures are reflected as program/function expenditures in the general fund.

Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance to most employees through Medical Life Insurance. Medical/surgical benefits are provided by United Health Care. Dental coverage is provided by CoreSource and vision coverage is provided by Vision Service Plan.

11. RISK MANAGEMENT

Property and Liability

The School District is exposed to various risks of loss related to torts, thefts-of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2002, the School District contracted with Indiana Insurance for property, general liability and automobile insurance. Coverage provided by Indiana Insurance is as follows:

Total per year	5,000,000

There have been no significant reductions in insurance coverage from last year. Settled claims have not exceeded this commercial coverage in any of the past three years.

Workers' Compensation

For fiscal year 2002, the School District participated in the Southwest Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), a workers' compensation insurance purchasing pool (see Note 17). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP.

A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost control and actuarial services to the GRP.

12. GENERAL LONG-TERM OBLIGATIONS

The changes in the School District's long-term obligations during fiscal year 2002 were as follows:

	Balance June 30, 2001	Increase	Decrease	Balance June 30, 2002
Compensated Absences Payable	\$ 1,365,038	\$ 61,491	\$ -	\$ 1,426,529

12. GENERAL LONG-TERM OBLIGATIONS (Continued)

Compensated absences payable and early retirement incentive payable will be paid from the fund from which the employees' salaries are paid. The intergovernmental payable represents contractually required pension obligations paid outside the available period and will be paid from the fund which the person is paid.

The School District's voted legal debt margin was \$21,808,009, the energy conservation debt margin was \$2,235,601 and the unvoted debt margin was \$248,400 at June 30, 2002.

13. SHORT-TERM OBLIGATION

The following is a summary of the note activity for the School District for the year ended June 30, 2002 follows:

	Balance June 30, 2001	Increase	Decrease	Balance June 30, 2002
Energy Conservation Note 4.14%	\$ 173,000	\$ -	\$ 173,000	\$ -
Tax Anticipation Note 4.92%	685,000	-	137,000	548,000

The energy conservation note matured on September 16, 2001. The District issued a five-year tax anticipation note on December 15, 2000 for permanent improvements to be made to the School District's stadium. The debt will be repaid from proceeds of a tax levy collected by the County Auditor. This note is recorded in the permanent improvement capital projects fund, the fund which received the proceeds.

14. INTERFUND ACTIVITY

As of June 30, 2002, receivables and payables that resulted from various interfund transactions were as follows:

16. JOINTLY GOVERNED ORGANIZATIONS

Miami Valley Educational Computer Association

The School District is a participant in the Miami Valley Educational Computer Association (MVECA) which is a computer consortium. MVECA is an association of public schools within the boundaries of Clark, Clinton, Fayette, Greene and Highland Counties and Cities of Springfield, Wilmington, Washington Court House, Xenia and Hillsboro. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts.

The governing board of MVECA consists of five Superintendents and two Treasurers of member school districts, with four of the five Superintendents and both Treasurers elected by a majority vote of all member school districts except the Greene County Career Center. The fifth Superintendent is from the Greene County Career Center. The School District paid MVECA \$155,739 for services provided during the year. Financial information can be obtained from Gary Bosserman, who serves as Director, at 330 East Enon Road, Yellow Springs, Ohio 45387.

Southwestern Ohio Educational Purchasing Cooperative

The School District is a member of the Southwestern Ohio Educational Purchasing Cooperative (SOEPC). SOEPC is made up of nearly 100 school districts in 12 counties. The purpose of the cooperative is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC.

Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the member districts. Any district withdrawing from the SOEPC shall forfeit its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations. Payments to SOEPC are made from the General Fund. During fiscal year 2002, the School District paid \$66,540 to SOEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Robert Brown, who serves as Director, at 1831 Harshman Road, Dayton, Ohio 45424.

Southwestern Ohio Instructional Technology Association

The Southwestern Ohio Instructional Technology Association (SOITA) is a not-for-profit corporation organized to serve the educational needs of the area through television programming for the advancement of educational programs.

The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. Nineteen representatives are elected from within the counties by the qualified members within the counties, i.e. Auglaize, Butler, Champaign, Clark, Clinton, Darke, Fayette, Greene, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby and Warren. Montgomery, Greene and Butler Counties elect two representatives per area. All others elect one representative per area.

16. JOINTLY GOVERNED ORGANIZATIONS (Continued)

One at-large non-public representative is elected by the non-public school SOITA members from the State assigned SOITA service area. One at-large higher education representative is elected by higher education SOITA members from within the State assigned SOITA service area.

All member districts are obligated to pay all fees, charges or other assessments as established by SOITA. Upon dissolution, the net assets shall be distributed to the federal government, or to a state or local government, for a public purpose. Payments to SOITA are made from the General Fund. During the fiscal year 2002, the School District paid \$15,297 to SOITA. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association, Steve Strouse, who serves as Director, at 150 East Sixth Street, Franklin, Ohio 45005.

Clark County Family and Children First Council

The Clark County Family and Children First Council (the Council) is a voluntary association established for the purpose to coordinate and integrate services within Clark County which are available for families and children and to establish a comprehensive, coordinated, multi-disciplinary, interagency system for the delivery of these services in order to more effectively meet the needs of families and children.

The Board of Trustees is comprised of eighteen representatives of each of the members of the Council, including the Superintendent of the Clark County Educational Service Center, who was appointed by the Superintendents of the Clark County schools. All members are obligated to pay all dues as established by the Council to aid the financing of the operations and programs of the Council. The School District does not pay dues since the Clark County Educational Service Center represents the School District. Any member withdrawing from the Council must give one hundred eighty days written notice to the Council after formal action of the member's governing board. To obtain financial information, write to the Clark County Family and Children First Council, Marilyn Demma, who serves as Treasurer, at 6 West High Street, Suite 500, Springfield, Ohio 45502.

Springfield/Clark County Joint Vocational School

The Springfield/Clark County Joint Vocational School District (the JVS) is a legally separate body politic and corporate. The Board of the JVS consists of one representative from the following: Clark-Shawnee Local School District, Greenon Local School District, Northeastern Local School District, Northwestern Local School District, Southeastern Local School District, Tecumseh Local School District and the Clark County Educational Service Center; and two members from the Springfield City School District. The Tecumseh Local School District is not able to impose its will on the JVS and no financial benefit/burden relationship exists. The JVS Board of Education is responsible for approving its own budgets, appointing personnel, and accounting and finance related activities. The School District's students may attend the vocational school. During fiscal year 2002, the School District did contribute any money to the JVS. To obtain financial information, write to the Springfield/Clark County Joint Vocational School, Pam Ashbaugh, who serves as Treasurer, at 1901 Selma Road, Springfield, Ohio 45505.

Tecumseh Education Foundation

The Tecumseh Education Foundation (TEF) is a non-profit community organization of business, civic, industry and educational interests whose purpose is to secure and distribute contributions to assist the School District in enabling students to achieve their individual potential. The Board of Trustees is comprised of eleven representatives who are nominated and elected by a majority vote by the present trustees. One member of the Tecumseh Local School District Board of Education is designated annually by the Tecumseh Local School District Board to serve as one of the eleven trustees. Each of elected trustee serves a three year term, with one-third of the trustees being elected every year. The Superintendent of the School District will serve in an ex officio capacity on a continuing basis. Officers of the TEF are elected annually by the Board of Trustees. The officers of the foundation shall consist of a President, a Vice-President, a Secretary, a Treasurer and other offices as the Board of Trustees may appoint. The President and Vice-President of the Board of Trustees shall be members of the Board of Trustees. The Secretary and Treasurer need not be members of the Board of Trustees.

The School District is not able to impose its will on the TEF and no financial benefit/burden relationship exists. The TEF is responsible for approving its own budgets, appointing personnel, and accounting and finance related activities. The School District did not contribute any money to the TEF during fiscal year 2002. To obtain financial information, write to the Tecumseh Educational Foundation, Rita Lane, who serves as President, at P.O. Box 305, New Carlisle, Ohio 45344.

17. INSURANCE PURCHASING POOL

Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan

The School District participates in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by an eleven member Executive Committee consisting of the Chairperson, the Vice-Chairperson, a representative from the Montgomery County Educational Service Center and eight members elected by majority vote of all member school districts. The Chief Administrator of GRP serves as the coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

18. CONTINGENT LIABILITIES

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditures of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management any such disallowed claims will not have a material adverse effect on the overall financial position of the School District.

18. CONTINGENT LIABILITIES (Continued)

Litigation

The School District's attorney estimates that any potential claims against the District not covered by insurance resulting from all other litigation would not materially affect the financial statements of the District.

19. STATE SCHOOL FUNDING DECISION

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "... the Ohio General Assembly to enact a school funding scheme that is thorough and efficient...". The School District is currently unable to determine what effect, if any, this decision will have on its future State funding and on its financial operations.

20. ACCOUNTABILITY AND COMPLIANCE

Fund Equity at June 30, 2002, included the following individual fund deficits:

Disadvantaged Pupil Impact Aid Special Revenue Fund	\$ 3,388
Permanent Improvement Capital Projects Fund	141,195
Food Service Enterprise Fund	21,986

The deficit fund balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and provides operating transfers when cash is required, not when accruals occur.

21. SET-ASIDE DISCLOSURE

The following table represents the School District's set-aside calculations for textbooks and capital acquisition. Although the School District had qualifying offsets and disbursements during the year that reduced the set-aside amount below zero for capital acquisitions, these extra amounts may not be used to reduce the set-aside requirement of future years. Excess disbursements related to the textbook reserve may be carried forward from year to year.

Although legislation enacted eliminated the requirement that school districts maintain a budget stabilization account, the State of Ohio placed restrictions on the type of services and items that school districts may spend the Bureau of Workers' Compensation (BWC) rebates previously recorded in the budget stabilization account. Therefore, the funds related to the BWC rebates, \$80,264, continue to be reported as a restricted asset on the balance sheet with a corresponding amount reported as a reservation of fund balance.

GENERAL FUND

The General Fund is used to account for government resources not required to be accounted for in another fund. The General Fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of the State of Ohio

Since there is only one General Fund and the level of budgetary control is not greater than that presented in the General Purpose Financial Statements, no individual fund information is presented

TECUMSEH LOCAL SCHOOL DISTRICT

To account for monies received under a federal program for instructional programs of children of migratory agricultural workers; efforts to help youngsters who are deficient in oral English language facility and related language art skills; efforts to build foundation for expanded opportunities for useful adult employment.

Title II Grant

To account for monies received under a federal grant to assist schools in the enhancement of math and science programs.

Title VI-B Grant

To account for monies received under a federal grant to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full education opportunities to handicapped children at the elementary and secondary levels.

Title I Grant

To account for monies received under a federal grant to assist schools in meeting the special needs of educationally deprived children.

SPECIAL REVENUE FUNDS
(Continued)

Title VI Grant

To consolidate various programs into a single authorization of grants to states for the same purposes set forth in the provisions of law as specified in the authorization section, to be used in accordance with the educational needs and priorities of the state and local agencies.

Drug Free Schools Program

To account for monies received under a federal program to support the implementation of programs for drug abuse education and prevention.

Title VI-B Preschool Grant

To account for the revenue received, and services provided, on behalf of the District by the County Educational Service Center for services related to identification of and instruction of preschool children with disabilities. This fund is not maintained on the District's accounting records, nor is the activity of this fund required to be budgeted by the District; therefore, no schedule of revenues, expenditures and changes in fund balance – budget (non-GAAP basis) and Actual is presented for this fund

Telecommunications Grant

To account for federal grant funds which are paid directly to the telecommunications provider of the district.

Continuous Improvement Grant

To account for competitive grants that used to support a broad range of education improvement goals through an established network of schools that have developed a systematic improvement plan.

CAPITAL PROJECTS FUNDS

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings and additions to existing buildings, or for major renovation projects. The following are descriptions of each Capital Projects Fund.

Permanent Improvement

To account for the monies received through the District's two mill, permanent improvement levy that are used for the acquisition, construction or improvement of capital facilities other than those financed by the Non-Expendable Trust Fund.

SchoolNet Plus

To account for monies received through a State grant to help schools obtain computers and related educational technology equipment and/or the necessary infrastructure for educational technology.

Video Distance Learning

To account for monies received through a State grant to provide schools with the necessary equipment to facilitate video and teleconferencing capabilities to allow remote learning opportunities.

ENTERPRISE FUNDS

The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises (a) where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where it has been decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Food Service Fund

To account for the financial transactions related to the food service operation of the School District.

Latchkey Fund

To account for the financial transactions related to the operation of after school latchkey programs at the various schools throughout the School District.

(2) The ten year enrollment projection is required by Ohio law. The process of predicting enrollment is difficult at best, and should be considered only a judgement based on present information. The degree of potential error becomes greater each year into the future, particularly after the point at which predictions are made concerning children not yet born.
