**INDEPENDENT ACCOUNTANT'S REPORT**

Northwest Ohio Educational Service Center  
Fulton County  
602 South Shoop Avenue  
P.O. Box 552  
Wauseon, Ohio 43567-0552

To the Governing Board:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Northwest Ohio Educational Service Center, Fulton County, Ohio (the Service Center), as of and for the year ended June 30, 2003, which collectively comprise the Service Center's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Service Center's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Northwest Ohio Educational Service Center, Fulton County, Ohio, as of June 30, 2003, and the respective changes in financial position and the respective budgetary comparison for the General fund thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, during the year ended June 30, 2003, the Service Center implemented a new financial reporting model, as required by the provisions of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 26, 2004, on our consideration of the Service Center's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to form opinions on the financial statements that collectively comprise the Service Center's basic financial statements. The federal awards expenditure schedule is required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. We subjected the federal awards expenditure schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2003**

The discussion and analysis of Northwest Ohio Educational Service Center's financial performance provides an overall review of the Educational Service Center's financial activities for the fiscal year ended June 30, 2003. The intent of this discussion and analysis is to look at the Educational Service Center's financial performance as a whole. Readers should also review the basic financial statements and notes to enhance their understanding of the Educational Service Center's financial performance.

**Highlights**

Key highlights for fiscal year 2003 are as follows:

- Total net assets increased by \$572,123, or 18 percent, from the prior fiscal year. A significant portion of this increase can be attributed to grants for migrant education and for emergency repair.
- During fiscal year 2003, the Educational Service Center purchased an elementary school building from the Northeastern Local School District. Students gave the building a new name, Independence Education Center (IEC). The IEC was purchased with funds from all twenty-three school districts served by the Educational Service Center within a four county area of Northwest Ohio. Educational programming for emotionally disturbed students is provided at the IEC. Major renovations to the building took place over the summer of 2003, over \$312,000 was awarded through a Federal Emergency Repair Program Grant to replace the boiler with a forced air furnace system, to remove hazardous materials from the entire building; and to replace and upgrade the electrical service to the building. At the time of purchase, the twenty-three school districts also provided additional funds to replace the roof, which was also done during the summer.

**Using the Basic Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand Northwest Ohio Educational Service Center as a financial whole, or as an entire operating entity.

The statement of net assets and the statement of activities provide information about the activities of the whole Educational Service Center, presenting both an aggregate view of the Educational Service Center's finances and a longer-term view of those finances.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for

(Continued)**

spending in the near future. The fund financial statements also look at the Educational Service Center's most significant funds, with all other nonmajor funds presented in total in a single column. For Northwest Ohio Educational Service Center, the General Fund is the most significant fund.

**Reporting the Educational Service Center as a Whole**

The statement of net assets and the statement of activities reflect how the Educational Service Center did financially during fiscal year 2003. These statements include all assets and liabilities using the accrual basis of accounting similar to that which is used by most private-sector companies. This basis of accounting considers all of the current fiscal year's revenues and expenses regardless of when cash is received or paid.

These statements report the Educational Service Center's net assets and changes in those assets. This change in net assets is important because it tells the reader whether the financial position of the School District as a whole has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Non-financial factors include facility conditions, required educational programs, and other factors.

In the statement of net assets and the statement of activities, the Educational Service Center discloses a single type of activity. All of the Educational Service Center's activities are reported as governmental activities and include instruction, support services and non-instructional services.

**Reporting the Educational Service Center's Most Significant Funds**

Fund financial statements provide detailed information about the Educational Service Center's major funds. While the Educational Service Center uses many funds to account for its financial transactions, the fund financial statements focus on the Educational Service Center's most significant funds. The Educational Service Center's only major governmental fund is the General Fund.

Governmental Funds - Most of the Educational Service Center's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for spending in future periods. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed short-term view of the Educational Service Center's general government operations and the basic services it

provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the Educational Service Center. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the Educational Service Center's programs. These funds use the accrual basis of accounting.

| <i>Total Net Assets</i>       | <u>\$ 3,773,431</u>     | <u>\$ 3,201,308</u> |

The increase in current and other assets is due to a 159 percent increase in intergovernmental receivables at June 30, 2003. This increase is found in the Migrant Grant and the Federal Emergency Repair Program Grant, a new funding source for the Educational Service Center in fiscal year 2003. While not a new program for the Educational Service Center, all resources for

the Migrant Grant were received within the fiscal year for fiscal year 2002, while a portion of this grant was still outstanding for fiscal year 2003.

Construction in progress related to building renovations at the IEC is reflected as an increase in non-depreciable capital assets and invested in capital assets for fiscal year 2003. This construction also impacted current and other liabilities with increases in both contracts and retainage payable.

Due to increases in the Migrant and Federal Emergency Repair Program grants, an increase in restricted net assets might be expected for fiscal year 2003. However, during fiscal year 2002, the Educational Service Center received a State grant for reading mentoring. At the end of fiscal year 2002, most of these grant resources were unspent and reflected in restricted net assets. As these resources were spent in fiscal year 2003, the effect was a reduction in restricted net assets. This offset to restricted net assets was greater than the increases recognized at fiscal year end for the Migrant and Federal Emergency Repair Program grants resulting in an overall reduction in restricted net assets as of June 30, 2003.

Table 2 reflects the changes in net assets for fiscal year 2003. Since this is the first year the Educational Service Center has prepared financial statements according to GASB Statement No. 34, revenue and expense comparisons to fiscal year 2002 are not available. In future years, when prior fiscal year information is available, a comparative analysis of government-wide data will be presented.

Program revenues were 94 percent of total revenues for fiscal year 2003 and are primarily represented by charges for educational programs provided to the school districts served by the Educational Service Center. Charges for services were 64 percent of total revenues. The

services being charged to the school districts involve various instruction and support services. The Educational Service Center provides services to seventeen local, three exempted village, and three city school districts in Northwest Ohio, as well as some services to various other area school districts.

Charges for special instruction make up the majority of the charges for services with significant levels of regular instruction services as well.

Expenses related to the services charged to school districts are a large portion of the Educational Service Center's budget with 28 percent of overall expenses directly related to special instruction activities including instruction of gifted, multiple disabled, hearing impaired, visual impaired, orthopedic impaired, emotional disturbed, cognitive and specific learning disabled, and preschool disabled children.

Regular instruction costs (5 percent of total expenses) include opportunity programs, alternative programs, suspension programs, and intervention tutors.

Expenses for the services of a nurse, school psychologists, speech therapists, an attendance officer, adapted physical education instructors, occupational therapists, physical therapists, and work-study coordinators represented 26 percent of overall expenses and are reflected as instructional staff support services.

Pupil support services were 22 percent of total expenses. These expenses include the costs of supervisors, child information management specialists, paraprofessionals (teacher aides), and a technology director.

The County Commissioners charge the Educational Service Center for office space. This cost is charged to school districts, prorated by the dollar amount of services charged by the Educational Service Center per county (four counties served). These costs will continue to increase by 20 percent through fiscal year 2007, at which time the County Commissioners will be charging the Educational Service Center for 100 percent of office space costs.

Intergovernmental expenses include the Individual Disabilities Education Act Grant (IDEA-B), Early Childhood Special Education Grant (ECSE), and Limited English Proficiency Grant (LEP). These are flow-through grant resources received and spent by the Educational Service Center on behalf of the school districts.

Governmental Activities

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted State entitlements.

Over 96 percent of the Educational Service Center's costs for providing services are supported by program revenues. Funding for gifted units and preschool units are provided by the State based on the degree and experience of the staff employed in those positions. These units have been and continue to be funded below actual costs. The remaining costs are covered by general revenues.

Expenses for paraprofessionals (teacher aides) are included in the instructional staff support services program. In contrast, instructional programs are charged to school districts and recorded by the Educational Service Center as charges for services revenue for activities related to regular and special instruction. Therefore, the instruction programs appear to be over funded

while the instructional staff support services program seems to be quite under funded. Some expenses within the pupils support services program are also charged to school districts with the revenue recorded by the Educational Service Center as charges for services for activities related to special instruction.

The Educational Service Center's Funds

The Educational Service Center's governmental funds are accounted for using the modified accrual basis of accounting. Total governmental funds had revenues of \$19,329,625 and expenditures \$18,942,672. The positive difference of \$386,953 in fund balance for the fiscal year indicates that revenues generated within the fiscal year covered current fiscal year expenditures.

General Fund Budgeting Highlights

The Educational Service Center's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During fiscal year 2003, the Educational Service Center amended its General Fund budget as needed. Final budgeted revenues, in the amount of \$12,734,466, were above original budgeted revenues, in the amount of \$12,234,356. Actual revenues were \$15,994,135. The \$3,259,669 difference is due primarily to conservative estimates of customer service revenues.

Final expenditures were budgeted at \$17,192,947 while actual expenditures were \$15,318,620. This difference was primarily due to unanticipated reductions in contractual services expenditures.

Actual General Fund revenues exceeded expenditures by \$675,515. The difference can largely be attributed to Community Alternative Funding Source (CAFS) monies. The cash balance of those resources increased by approximately \$400,000. CAFS is a program of federal Medicare reimbursements serving Medicare eligible students.

The Educational Service Center has determined that CAFS monies will be held until settlements are received to ensure that sufficient funds remain on hand in the event the Educational Service Center is ordered to return funds to the State and, in turn, the Federal government. Once settlements are received, then school district's program costs are reduced by a prorated share of CAFS funds. A share of those settled CAFS funds is used for expenses by the Educational Service Center that are not charged to school districts for services.

**Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2003  
(Continued)**

No settlements were received during fiscal year 2003 which resulted in an increase in CAFS funds held. Funding from fiscal years 2000, 2001, 2002, and 2003 have not been settled yet. The Educational Service Center estimated settlements for fiscal years 2000 and 2001 and credited school district's program costs for those amounts.

Capital Assets

At June 30, 2003, the Educational Service Center had \$750,594 invested in capital assets (net of accumulated depreciation), an increase of \$114,176, or 18 percent. The increase is due to construction in progress for renovations of the IEC building. For further information regarding the School District's capital assets see Note 9 to the basic financial statements.

Current Issues

The Educational Service Center will continue with smaller renovations of the IEC building now that the major issues have been addressed. Those costs will be much lower with funding coming from program cost charges to school districts.

No significant increases in funding are expected for fiscal year 2004 from the State. Costs for services will increase due to salary schedule increases and staff moving up the schedules, plus ever increasing insurance costs. Since the Educational Service Center charges school districts for services based on costs, charges for services will increase in fiscal year 2004.

of Governmental Funds to Statement of Activities  
For the Fiscal Year Ended June 30, 2003**

**Net Change in Fund Balances - Total Governmental Funds** \$ 387,093

*Amounts reported for governmental activities on the statement of activities are different because of the following:*

Governmental funds report capital outlays as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current fiscal year:

|                |                  |         |
|----------------|------------------|---------|
| Capital Outlay | 292,410          |         |
| Depreciation   | <u>(161,834)</u> |         |
|                |                  | 130,576 |

The proceeds from the sale of capital assets are reported as other financing sources in the governmental funds. However, the cost of the capital assets is removed from the capital asset account on the statement of net assets and is offset against the proceeds from the sale of capital assets resulting in a loss on disposal of capital assets on the statement of activities.

|                                      |                 |          |
|--------------------------------------|-----------------|----------|
| Proceeds from Sale of Capital Assets | (140)           |          |
| Loss on Disposal of Capital Assets   | <u>(16,260)</u> |          |
|                                      |                 | (16,400) |

Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds:

|                   |            |         |
|-------------------|------------|---------|
| Intergovernmental | 134,002    |         |
| Tuition and Fees  | 17,423     |         |
| Customer Services | 11,477     |         |
| Miscellaneous     | <u>128</u> |         |
|                   |            | 163,030 |

Some expenses reported on the statement of activities, such as compensated absences and intergovernmental payables representing contractually required pension contributions, do not require the use of current financial resources, therefore, are not reported as expenditures in governmental funds:

|                              |                 |                 |

For the Fiscal Year Ended June 30**

**Note 1 - Reporting Entity**

Northwest Ohio Educational Service Center (the Educational Service Center) is located in Wauseon, Ohio, the county seat. The Educational Service Center supplies supervisory, special education, administrative, and other services to seventeen local, three exempted village, and three city school districts. The Educational Service Center furnishes leadership and consulting services designed to strengthen these school districts in areas they are unable to finance or staff independently.

The Educational Service Center operates under a locally-elected Governing Board elected from sub-districts within the four-county area. The Board consists of nine members elected for staggered four year terms. The Educational Service Center has twenty-six administrators, two hundred nineteen classified employees, and one hundred seventy-eight certified employees who provide services to the local, exempted village, and city school districts.

A reporting entity is composed of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading. The primary government of the Educational Service Center consists of all funds, departments, boards, and agencies that are not legally separate from the Educational Service Center. For the Northwest Ohio Educational Service Center, this consists of general operations.

Component units are legally separate organizations for which the Educational Service Center is financially accountable. The Educational Service Center is financially accountable for an organization if the Educational Service Center appoints a voting majority of the organization's governing board and (1) the Educational Service Center is able to significantly influence the programs or services performed or provided by the organization; or (2) the Educational Service Center is legally entitled to or can otherwise access the organization's resources; the Educational Service Center is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the Educational Service Center is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the Educational Service Center in that the Educational Service Center approves the budget, the issuance of debt, or the levying of taxes. There are no component units of the Northwest Ohio Educational Service Center.

The Educational Service Center participates in four jointly governed organizations and three insurance pools. These organizations are the Northwest Ohio Computer Association, the Northern Buckeye Education Council, the Four County Career Center, the Northwestern Ohio Educational Research Council, Inc., the Ohio School Plan, the Northern Buckeye Education Council Employee Insurance Benefits Program, and the Northern Buckeye Education Council

Workers' Compensation Group Rating Plan. Information about these organizations is presented in Notes 16 and 17 to the basic financial statements.

**Note 2 - Summary of Significant Accounting Policies**

The financial statements of Northwest Ohio Educational Service Center have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Educational Service Center also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental activities provided they do not conflict with or contradict GASB pronouncements. Following are the more significant of the Educational Service Center's accounting policies.

**A. Basis of Presentation**

The Educational Service Center's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**Government-Wide Financial Statements**

The statement of net assets and the statement of activities display information about the Educational Service Center as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of the government activities of the Educational Service Center at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Educational Service Center's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants, contributions, and interest that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Educational Service Center, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental activity is self-financing or draws from the general revenues of the Educational Service Center.

Fund Financial Statements

During the fiscal year, the Educational Service Center segregates transactions related to certain Educational Service Center functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Educational Service Center at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

**B. Fund Accounting**

The Educational Service Center uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are two categories of funds used by the Educational Service Center, governmental and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the Educational Service Center are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The Educational Service Center's only major governmental fund is the General Fund.

General Fund - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the Educational Service Center for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the Educational Service Center account for grants and other resources whose use is restricted to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the

**Notes to the Basic Financial Statements

(Continued)**

Educational Service Center under a trust agreement for individuals, private organizations, or other governments and are not available to support the Educational Service Center's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The Educational Service Center's agency fund accounts for various payroll related deductions.

**C. Measurement Focus**

Government-Wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and liabilities associated with the operation of the Educational Service Center are included on the statement of net assets. The statement of activities presents increases (e.g., revenues) and decreases (e.g., expenses) in total net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

**D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; the fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified

**NORTHWEST OHIO EDUCATIONAL SERVICE CENTER  
FULTON COUNTY**

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30

accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Educational Service Center, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the Educational Service Center receives value without directly giving equal value in return, include grants, entitlements, and donations. On the accrual basis, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Educational Service Center must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Educational Service Center on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: grants, interest, tuition, fees, and customer services.

Deferred Revenues

Deferred revenues arise when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period are reported as deferred revenue.

Expenses/Expenditures

On the accrual basis, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**NORTHWEST OHIO EDUCATIONAL SERVICE CENTER  
FULTON COUNTY**

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30  
(Continued)**

**E. Budgetary Process**

The Educational Service Center adopts its budget for all funds, other than agency funds. The budget includes the estimated resources and expenditures for each fund and consists of three parts; Part (A) includes entitlement funding from the State, Part (B) includes the cost of all other lawful expenditures of the Educational Service Center (which are apportioned by the State Department of Education to each local board of education under the supervision of the Educational Service Center), and Part (C) includes the adopted appropriation resolution.

The Educational Service Center's Board adopts an annual appropriation resolution, which is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The level of control has been established by the Board at the fund, function, object level within the General Fund and the fund level in all other funds. The Chief Fiscal Officer has been authorized to allocate appropriations to the function and object level within all other funds.

Throughout the fiscal year, estimated resources and appropriations may be amended or supplemented as circumstances warrant. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts on the budgetary statements represent the final appropriation amounts passed by the Board during the fiscal year.

**F. Cash and Investments**

To improve cash management, cash received by the Educational Service Center is pooled. Monies for all funds are maintained in the pool. Individual fund integrity is maintained through Educational Service Center records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During fiscal year 2003, investments were limited to STAR Ohio. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2003.

The Educational Service Center allocates interest according to State statutes. Interest revenue credited to the General Fund during fiscal year 2003 was \$73,839, which includes \$11,155 assigned from other Educational Service Center funds.

**NORTHWEST OHIO EDUCATIONAL SERVICE CENTER  
FULTON COUNTY**

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30  
(Continued)**

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the Educational Service Center are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

**G. Prepaid Items**

Payments made to vendors for services that will benefit periods beyond June 30, 2003, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year in which services are consumed.

**H. Inventory**

Inventory is stated at the lower of cost or market on a first-in first-out basis and is expensed when used. Inventory consists of expendable supplies held for consumption.

**I. Capital Assets**

All of the Educational Service Center's capital assets are general capital assets. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column on the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the fiscal year. Donated capital assets are recorded at their fair market value on the date donated. The Educational Service Center maintains a capitalization threshold of one thousand dollars. The Educational Service Center does not have any infrastructure. Improvements are capitalized.

All capital assets, except construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| <u>Description</u>                 | <u>Useful Lives</u> |
|------------------------------------|---------------------|
| Buildings                          | 25-50 years         |
| Furniture, Fixtures, and Equipment | 5-20 years          |
| Vehicles                           | 8 years             |

**J. Interfund Assets/Liabilities**

On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as “Interfund Receivables/Payables”. Interfund balances within governmental activities are eliminated on the statement of net assets.

**K. Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employees’ rights to receive compensation are attributable to services already rendered and it is probable that the Educational Service Center will compensate the employees for the benefits through paid time off or some other means. The Educational Service Center records a liability for accumulated unused vacation time when earned for all employees.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the Educational Service Center has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees’ wage rates at fiscal year end, taking into consideration any limits specified in the Educational Service Center’s termination policy. The Educational Service Center records a liability for accumulated unused sick leave for all employees who have eight or more years of service with the Educational Service Center.

The entire compensated absences liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account “Matured Compensated Absences Payable” in the fund from which the employees who have accumulated unpaid leave are paid.

**L. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that

**NORTHWEST OHIO EDUCATIONAL SERVICE CENTER  
FULTON COUNTY**

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30  
(Continued)**

are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year.

**M. Net Assets**

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets consist of capital assets, net of accumulated depreciation. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Educational Service Center or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include activities for federal and state grants restricted to expenditure for specified purposes.

The Educational Service Center's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

**N. Fund Balance Reserves**

The Educational Service Center reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for encumbrances.

**O. Interfund Transactions**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

**P. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence.

**NORTHWEST OHIO EDUCATIONAL SERVICE CENTER  
FULTON COUNTY**

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30  
(Continued)**

**Q. Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Note 3 - Change in Accounting Principles and Restatement of Fund Balance**

**A. Change in Accounting Principles**

For fiscal year 2003, the Educational Service Center has implemented GASB Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments", GASB Statement No. 37, "Basic Financial Statements for State and Local Governments: Omnibus", GASB Statement No. 38, "Certain Financial Statement Note Disclosures", GASB Statement No. 41, "Budgetary Comparison Schedules - Perspective Differences", and GASB Interpretation No. 6 "Recognition and Measurement of Certain Liabilities and Expenditures in Governmental Fund Financial Statements".

GASB Statement No. 34 creates new basic financial statements for reporting on the Educational Service Center's financial activities. The financial statements include government-wide financial statements prepared on the accrual basis of accounting and fund financial statements which present information for individual major funds rather than by fund type. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

On the government-wide financial statements, the beginning net asset amount for governmental activities reflects the change in fund balance for governmental funds at June 30, 2002, caused by the conversion to the accrual basis of accounting.

GASB Statement No. 37 makes certain clarifications regarding escheat property and modifies several provisions of GASB Statement No. 34, including Management's Discussion and Analysis. GASB Statement No. 38 modifies, establishes, and rescinds certain financial statement disclosure requirements.

GASB Statement No. 41 allows the presentation of budgetary schedules as required supplementary information based on the fund, organization, or program structure that the Educational Service Center uses for its legally adopted budget when significant budgetary perspective differences result in the Educational Service Center not being able to present budgetary comparisons for the General Fund and each major special revenue fund. The implementation of this statement did not have any effect

FULTON COUNTY**

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30  
(Continued)**

on the presentation of the Educational Service Center's budgetary financial statements for fiscal year 2003.

GASB Interpretation No. 6 clarifies the application of standards for modified accrual recognition of certain liabilities and expenditures in areas where differences have arisen, or potentially could arise, in interpretation and practice.

**B. Restatement of Fund Balance**

The restatement due to the implementation of the above statements and interpretation had the following effect on fund balance of the major and nonmajor funds of the Educational Service Center as they were previously reported. The transition from governmental fund balance to net assets of governmental activities is also presented:

|  | General             | Other<br>Governmental | Total<br>Governmental<br>Activities |

**Note 4 - Accountability**

At June 30, 2003, the Education Management Information System special revenue fund had a deficit fund balance of \$257, resulting from adjustments for accrued liabilities. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

**Note 5 - Budgetary Basis of Accounting**

While the Educational Service Center is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

- Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

The adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund are as follows:

| Net Change in Fund Balance                                    |             |

**Note 6 - Deposits and Investments**

State statutes classify monies held by the Educational Service Center into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the Educational Service Center Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Protection of the Educational Service Center's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Chief Fiscal Officer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio); and
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed 25 percent of the interim monies available for investment at any one time.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the Educational Service Center, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Chief Fiscal Officer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement No. 3, "Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements".

At fiscal year end, the carrying amount of the Educational Service Center's deposits was \$158,373 and the bank balance was \$485,295. Of the bank balance, \$191,465 was covered by federal depository insurance and \$293,830 was uninsured and uncollateralized. Although all State statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the Educational Service Center to a successful claim by the FDIC.

The Educational Service Center’s investments are categorized to give an indication of the level of risk assumed by the Educational Service Center at fiscal year end. Category 1 includes investments that are insured or registered for which the securities are held by the Educational Service Center or its agent in the Educational Service Center’s name. Category 2 includes uninsured and unregistered investments for which the securities are held by the counterparty’s trust department or agent in the Educational Service Center’s name. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the Educational Service Center’s name. The Educational Service Center’s investment in STAR Ohio is unclassified since it is not evidenced by securities that exist in physical or book entry form. At June 30, 2003, the fair value of funds on deposit with STAR Ohio was \$5,448,263.

The classification of cash and cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9, “Reporting Cash Flows of Proprietary and Non-Expendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting”. A reconciliation between the classification of cash and cash equivalents and investments on the financial statements and the classification of deposits and investments according to GASB Statement No. 3 is as follows:

|                      | Cash and<br>Cash Equivalents/<br>Deposits | Investments |
|----------------------|---|-------------|
| GASB Statement No. 9 | \$5,606,806                               | \$0         |

**Note 7 - State Funding**

The Educational Service Center is funded by the State Department of Education for the cost of Part (A) of their budget. This funding is provided from State resources.

Part (B) of the budget is provided by the school districts to which the Educational Service Center provides services and by the State Department of Education. Each school district’s portion is determined by multiplying the average daily membership of the school district (the total number of students enrolled) by \$6.50. This amount is deducted by the State Department of Education

**NORTHWEST OHIO EDUCATIONAL SERVICE CENTER  
FULTON COUNTY**

**Notes to the Basic Financial Statements

from that school district's resources provided under the State's School Foundation Program. The Department of Education's portion is determined by multiplying the sum of the average daily memberships of all of the school districts served by the Educational Service Center by \$40.43. This amount is provided from State resources.

If additional funding is needed by the Educational Service Center, and if a majority of the Boards of Education of the school districts served by the Educational Service Center approve, the cost of Part (B) of the budget can be increased. The portion that is in excess of the original funding calculation is shared by all of the school districts served by the Educational Service Center through additional reductions in their resources provided through the School Foundation Program. The State Board of Education initiates and supervises the procedure under which the school districts approve or disapprove the additional apportionment.

**Note 8 - Receivables**

Receivables at June 30, 2003, consisted of accounts, intergovernmental, and interfund receivables. All receivables are considered collectible in full and within one year.

**Note 10 - Interfund Assets/Liabilities**

At June 30, 2003, the General Fund had an interfund receivable in the amount of \$23,458, from other governmental funds; \$15,000 to provide cash flow resources until the receipt of grant monies and \$8,458 for services provided in the administration of grant programs.

**Note 11 - Risk Management**

The Educational Service Center is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2003, the Educational Service Center contracted for the following insurance coverage:

|  |              |
|--|--------------|
| Coverage provided by Ohio School Plan                              |              |
| General Liability  |              |
| Per Occurrence   | \$ 1,000,000 |
| Total per Year   | 3,000,000    |
| Excess Liability   | 2,000,000    |
| Coverage provided by the Hartford                                  |              |
| Commercial Property  | 4,086,700    |
| Coverage provided by Selective Insurance Company of South Carolina |              |
| Auto Coverage  |              |
| Liability  | \$ 2,000,000 |
| Uninsured Motorist   | 1,000,000    |

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

For fiscal year 2003, the Educational Service Center participated in the Ohio School Plan (Plan), an insurance purchasing pool. Each participant enters into an individual agreement with the Plan for insurance coverage and pays annual premiums to the Plan based on the types and limits of coverage and deductibles selected by the participant.

The Educational Service Center participates in the Northern Buckeye Education Council Employee Insurance Benefits Program (Program), a public entity shared risk pool consisting of educational entities within Defiance, Fulton, Henry, Lucas, Williams, and Wood Counties. The Educational Service Center pays monthly premiums to the Northern Buckeye Education Council for the benefits offered to its employees including medical, dental, and life insurance. The Northern Buckeye Education Council is responsible for the management and operations of the Program. The agreement for the Program provides for additional assessments to participants if

**NORTHWEST OHIO EDUCATIONAL SERVICE CENTER  
FULTON COUNTY**

For the Fiscal Year Ended June 30  
(Continued)**

the premiums are insufficient to pay the program costs for the fiscal year. Upon withdrawal from the Program, a participant is responsible for any claims not processed and paid and any related administrative costs.

The Educational Service Center participates in the Northern Buckeye Education Council Workers' Compensation Group Rating Plan (Plan), an insurance purchasing pool. The Plan is intended to reduce premiums for the participants. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in the Plan. Each participant pays its workers' compensation premium to the State based on the rate for the Plan rather than its individual rate. Participation in the Plan is limited to participants that can meet the Plan's selection criteria. Each participant must apply annually. The Plan provides the participants with a centralized program for the processing, analysis, and management of workers' compensation claims and a risk management program to assist in developing safer work environments. Each participant must pay its premiums, enrollment or other fees, and perform its obligations in accordance with the terms of the agreement.

**Note 12 - Defined Benefit Pension Plans**

**A. State Teachers Retirement System**

The Educational Service Center contributes to the State Teachers Retirement System of Ohio (STRS), a cost-sharing multiple employer public employee retirement system administered by the State Teachers Retirement Board. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. STRS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771.

New members have a choice of three retirement plans, a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service or on an allowance based on member contributions and earned interest matched by STRS funds multiplied by an actuarially determined annuity factor. The DCP allows members to place all of their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The CP offers features of both the DBP and DCP. In the CP, member contributions are invested by the member and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP. DCP and CP members will transfer to the DBP during their

fifth year of membership unless they permanently select the DCP or CP. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balance from the existing DBP into the DCP or CP. This option expired on December 31, 2001.

A DBP or CP member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DCP who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2003, plan members were required to contribute 9.3 percent of their annual covered salary and the Educational Service Center was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by STRS, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers.

The Educational Service Center's required contribution for pension obligations for the DBP for the fiscal years ended June 30, 2003, 2002, and 2001 was \$1,039,754, \$738,664, and \$683,631, respectively; 83 percent has been contributed for fiscal year 2003 and 100 percent has been contributed for fiscal years 2002 and 2001. Contributions for the DCP and CP for the fiscal year ended June 30, 2003, were \$12,404 made by the Educational Service Center and \$16,165 made by plan members.

**B. School Employees Retirement System**

The Educational Service Center contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan administered by the School Employees Retirement Board. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746.

For the fiscal year ended June 30, 2003, plan members were required to contribute 9 percent of their annual covered salary and the Educational Service Center was required to contribute an actuarially determined rate. The rate for fiscal year 2003 was 14 percent of annual covered payroll; 8.17 percent was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to

statutory maximum amounts, by the SERS Retirement Board. The Educational Service Center's required contribution for pension obligations to SERS for the fiscal years ended June 30, 2003, 2002, and 2001 were \$291,452, \$175,428, and \$117,236, respectively; 85 percent has been contributed for fiscal year 2003 and 100 percent has been contributed for fiscal years 2002 and 2001.

**C. Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the State Teachers Retirement System or the School Employees Retirement System have an option to choose Social Security or the State Teachers Retirement System/School Employees Retirement System. As of June 30, 2003, three of the Board of Education members have elected Social Security. The Board's liability is 6.2 percent of wages paid.

**Note 13 - Postemployment Benefits**

The Educational Service Center provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS), and to retired classified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare premiums. Benefit provisions and the obligation to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

The State Teachers Retirement Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS. Most benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS funds shall be included in the employer contribution rate, currently 14 percent of covered payroll. For fiscal year 2003, the Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. For the Educational Service Center, this amount was \$80,935.

STRS pays health care benefits from the Health Care Reserve Fund. The balance in the Fund was \$2.8 billion at June 30, 2003. For the fiscal year ended June 30, 2003, net health care costs paid by STRS were \$352,301,000, and STRS had 108,294 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more years of qualifying service credit, and to disability and survivor benefit recipients. Members retiring on or after August 1, 1989, with less than twenty-five years of service credit, must pay a portion of their

FULTON COUNTY**

**Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30  
(Continued)**

premium for health care. The portion is based on years of service up to a maximum of 75 percent of the premium.

For the fiscal year ended June 30, 2003, employer contributions to fund health care benefits were 5.83 percent of covered payroll. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2003, the minimum pay was established at \$14,500. For the Educational Service Center, the amount to fund health care benefits, including the surcharge, was \$285,979 for fiscal year 2003.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of annual health care expenses. Expenses for health care at June 30, 2003, were \$204,930,737, and the target level was \$307.4 million. At June 30, 2003, SERS had net assets available for payment of health care benefits of \$303.6 million. SERS has approximately 50,000 participants currently receiving health care benefits.

**Note 14 - Other Employee Benefits**

**A. Compensated Absences**

The criteria for determining vacation and sick leave benefits are derived from Board policy and State laws. Classified employees earn ten to twenty days of vacation per year, depending on length of service. Accumulated unused vacation time is paid to classified employees and superintendents upon termination of employment. Teachers do not earn vacation time.

Teachers, superintendents, and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of one hundred eighty-five days. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of forty-six and one-fourth days for all employees.

**B. Health Care Benefits**

The Educational Service Center participates in the Northern Buckeye Education Council Employee Insurance Benefits Program. Through this program, the Educational Service Center offers medical, dental, and life insurance benefits. Depending upon the coverage selected, the employees share the cost of the monthly premium with the Board.

Compensated absences will be paid from the General Fund and the Migrant and OMEC special revenue fund.

**Note 16 - Jointly Governed Organizations**

**A. Northwest Ohio Computer Association**

The Educational Service Center is a participant in the Northwest Ohio Computer Association (NWOCA), which is a computer consortium. NWOCA is an association of educational entities within the boundaries of Defiance, Fulton, Henry, Lucas, Williams, and Wood Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member educational entities.

The NWOCA Assembly consists of the superintendent from each participating educational entity and a representative from the fiscal agent. The Assembly elects the governing Council of two representatives from each of the six counties in which member educational entities are located and the representative from the member educational entity serving as fiscal agent for NWOCA. The degree of control exercised by any participating educational entity is limited to its representation on the Board. During fiscal year 2003, the Educational Service Center paid \$37,722 to NWOCA for various services. Financial information can be obtained from Cindy Siler, who serves as Treasurer, 22-900 State Route 34, Archbold, Ohio 43502.

**B. Northern Buckeye Education Council**

The Northern Buckeye Education Council (NBEC) was established in 1979 to foster cooperation among educational entities located in Defiance, Fulton, Henry, Lucas, Williams, and Wood Counties. NBEC is organized under Ohio laws as a regional council of governments pursuant to a written agreement entered into by its member educational entities and bylaws adopted by the representatives of the member educational entities. NBEC is governed by an elected Board

consisting of two representatives from each of the six counties in which the member educational entities are located. The Board is elected from an Assembly consisting of a representative from each participating educational entity. Financial information can be obtained from the Northern Buckeye Education Council, Cindy Siler, who serves as Treasurer, 22-900 State Route 34, Archbold, Ohio 43502.

**C. Four County Career Center**

The Four County Career Center (Career Center) is a distinct political subdivision of the State of Ohio which provides vocational education to students. The Career Center is operated under the direction of a Board consisting of five representatives from the Northwest Ohio Educational Service Center and one representative from the participating school districts elected boards. The degree of control exercised by the Educational Service Center is limited to its representation on the Board. The Career Center possesses its own budgeting and taxing authority. Financial information can be obtained from the Four County Career Center, Lois Knuth, who serves as Treasurer, Route 1, Box 245A, Archbold, Ohio 43502.

**D. Northwestern Ohio Educational Research Council, Inc.**

The Northwestern Ohio Educational Research Council, Inc. (NOERC) is a jointly governed organization formed to bring educational entities into a better understanding of their common educational problems, facilitate and conduct practical educational research, coordinate educational research among members, provide a means for evaluating and disseminating the results of research, serve as a repository for research and legislative materials, and provide opportunities for training. The NOERC serves a twenty-five county area in Northwest Ohio. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools and three institutions of higher education. Each active member is entitled to one vote on all issues addressed by the Board of Directors. Financial information can be obtained from the Northwestern Ohio Educational Research Council, Inc., Box 456, Ashland, Ohio 44805.

**Note 17 - Insurance Pools**

**A. Ohio School Plan**

The Educational Service Center participates in the Ohio School Plan (Plan), an insurance purchasing pool established under Section 2744.081 of the Ohio Revised Code. The Plan is an unincorporated nonprofit association of its members which enables the participants to provide for a formalized joint insurance purchasing program for maintaining adequate insurance protection

and provides risk management programs and other administrative services. The Plan's business and affairs are conducted by a fifteen member board consisting of superintendents, treasurers, the president of Harcum-Hyre Insurance Agency, Inc., and a member of the Hylant Group, Inc. The Hylant Group, Inc. is the Plan's administrator and is responsible for processing claims. Harcum-Hyre Insurance Agency serves as the sales and marketing representative which establishes agreements between the Plan and its members. Financial information can be obtained from Harcum-Hyre Insurance Agency, 246 East Sycamore Street, Columbus, Ohio 43206.

**B. Northern Buckeye Education Council Employee Insurance Benefits Program**

The Northern Buckeye Education Council Employee Insurance Benefits Program (Program) is a public entity shared risk pool consisting of educational entities within Defiance, Fulton, Henry, Lucas, Williams, and Wood Counties. The Program is governed by the Northern Buckeye Education Council (NBEC) and its participating members.

**C. Northern Buckeye Education Council Workers' Compensation Group Rating Plan**

The Educational Service Center participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Northern Buckeye Education Council Workers' Compensation Group Rating Plan (Plan) was established through the Northern Buckeye Education Council (NBEC) as an insurance purchasing pool. The Plan is governed by the NBEC and the participants of the Plan. The Executive Director of the NBEC coordinates the management and administration of the Plan. Each year, the participants pay an enrollment fee to the Plan to cover the costs of administering the program.

**Note 18 - State School Funding Decision**

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed "...the Ohio General Assembly to enact a school funding scheme that is thorough and efficient..."

The Educational Services Center is currently unable to determine what effect, if any, this decision will have its future State funding and on its financial operations.

**Notes 19 - Contingencies**

**A. Grants**

The Educational Service Center received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the Educational Service Center at June 30, 2003.

**B. Litigation**

There are currently no matters in litigation with the Educational Service Center as defendant.

**INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE AND ON INTERNAL  
CONTROL REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Northwest Ohio Educational Service Center  
Fulton County  
602 South Shoop Avenue  
P.O. Box 552  
Wauseon, Ohio 43567-0552

To the Governing Board:

We have audited the financial statements of Northwest Ohio Educational Service Center (the Service Center) as of and for the year ended June 30, 2003, and have issued our report thereon dated April 26, 2004, in which we noted the Service Center adopted Governmental Accounting Standards Board Statement 34. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

**Compliance**

As part of obtaining reasonable assurance about whether the Service Center's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

**Internal Control over Financial Reporting**

In planning and performing our audit, we considered the Service Center's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over

financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the audit committee, management, the governing board, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH  
REQUIREMENTS APPLICABLE TO MAJOR FEDERAL PROGRAMS  
AND INTERNAL CONTROL OVER COMPLIANCE  
IN ACCORDANCE WITH *OMB CIRCULAR A-133***

Northwest Ohio Educational Service Center  
Fulton County  
602 South Shoop Avenue  
P.O. Box 552  
Wauseon, Ohio 43567-0552

To the Governing Board:

**Compliance**

We have audited the compliance of Northwest Ohio Educational Service Center (the Service Center) with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2003. The Service Center's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Service Center's management. Our responsibility is to express an opinion on the Service Center's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance occurred with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about the Service Center's compliance with those requirements and performing such other procedures as we considered

necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Service Center's compliance with those requirements.

In our opinion, the Service Center complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2003.

### **Internal Control over Compliance**

The management of the Service Center is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Service Center's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended for the information and use of the audit committee, management, the governing board, federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.
