Single Audit Reports

June 30, 2005

**Auditor of State
Betty Montgomery**

Board of Education
Brookville Local School District
Brookville, Ohio

We have reviewed the *Report of Independent Accountants* of the Brookville Local School District, Montgomery County, prepared by Plattenburg & Associates, Inc., for the audit period July 1, 2004 through June 30, 2005. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Brookville Local School District is responsible for compliance with these laws and regulations.

NOTES TO SCHEDULE OF FEDERAL AWARDS EXPENDITURES

NOTE A -- SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of federal awards expenditures is a summary of the activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B -- FOOD DISTRIBUTION

Nonmonetary assistance is reported in the schedule at the fair market value of the commodities received and disbursed. Monies are commingled with state grants, and it is assumed that federal monies are expended first.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Education
Brookville Local School District

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Brookville Local School District (the District), as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements and have issued our report thereon dated November 28, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, the Auditor of State, the Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

To the Board of Education
Brookville Local School District

Compliance

We have audited the compliance of Brookville Local School District (the District), with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2005. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005.

Internal Control Over Compliance

The management of the District, is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2005, and have issued our report thereon dated November 28, 2005. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the audit committee, management, the Auditor of State, the Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Education
Brookville Local School District

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Brookville Local School District, (the District) as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2005, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in conjunction with this report in considering the results of our audit.

The management's discussion and analysis is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

***Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2005***

Unaudited

The discussion and analysis of Brookville Local School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2005. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2005 are as follows:

- ❑ In total, net assets decreased \$270,017. Net assets of governmental activities decreased \$230,445, which represents a 2.6% decrease from 2004. Net assets of business-type activities decreased \$39,572 or 21.3% from 2004.
- ❑ General revenues accounted for \$12,187,266 in revenue or 87.4% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$1,762,554 or 12.6% of total revenues of \$13,949,820.
- ❑ The District had \$13,623,541 in expenses related to governmental activities; only \$1,205,830 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$12,187,266 were adequate to provide for these programs.
- ❑ Among major funds, the general fund had \$10,757,124 in revenues and \$11,176,780 in expenditures. The general fund's fund balance decreased \$453,156 to \$3,083,538. The decrease resulted from a combination of factors including increases in expenditures and decreases in revenues. The fund balance of the bond retirement fund increased \$116,235, from a beginning balance of \$950,741 to an ending balance of \$1,066,976. The increase was due to an increase in tax receipts. The fund balance of the building fund decreased by \$15,885,670 as a result of construction of a new school building.
- ❑ Net assets for the enterprise fund decreased by \$39,572. This decrease was attributable to expenditures continuing to exceed revenues in 2005.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of two parts – management's discussion and analysis and the basic financial statements. The basic financial statements include two kinds of statements that present different views of the District:

These statements are as follows:

1. The Government-Wide Financial Statements – These statements provide both long-term and short-term information about the District's overall financial status.
2. The Fund Financial Statements – These statements focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

BROOKVILLE LOCAL SCHOOL DISTRICT

***Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2005***

Unaudited

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net assets and how they have changed. Net-assets (the difference between the District's assets and liabilities) are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District you need to consider additional nonfinancial factors such as the property tax base, current property tax laws, student enrollment growth and facility conditions.

The government-wide financial statements of the District are divided into two categories:

Governmental Activities – Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

Business-Type Activities – These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The District's food service is reported as business-type activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

BROOKVILLE LOCAL SCHOOL DISTRICT

**Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2005**

Proprietary Funds – Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

Fiduciary Funds – The District is the trustee, or fiduciary, for various student managed activity programs, various scholarship programs and other items listed as agency. It is also responsible for other assets that, due to a trust arrangement can only be used for the trust beneficiaries. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Governmental Activities

Net assets of the District's governmental activities decreased by \$230,445. This was due mostly to the increase in instructional costs.

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. In general, the overall revenue generated by the levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Property taxes made up 45.4% of revenues for governmental activities for Brookville Local Schools in fiscal year 2005. The District's reliance upon tax revenues is demonstrated by the following graph:

Revenue Sources	2005	Percent of Total
General Grants	\$5,574,868	41.63%
Program Revenues	1,205,830	9.00%
General Tax Revenues	6,080,431	45.40%
General Other	531,967	3.97%
Total Revenue	<u>\$13,393,096</u>	<u>100.00%</u>

Business-Type Activities

Net assets of the business-type activities decreased by \$39,572. This decrease was caused by the continuation of expenses exceeding revenues in the food service fund, despite the District's efforts to reduce costs in 2005.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The District's governmental funds reported a combined fund balance of \$6,629,895, which is less than last year's balance of \$23,019,648. The schedule below indicates the fund balance and the total change in fund balance by fund type as of June 30, 2005 and 2004.

	Fund Balance June 30, 2005	Fund Balance June 30, 2004	Increase (Decrease)

General Fund – The District's General Fund balance decrease is due to many factors. The tables that follow assist in illustrating the financial activities and balance of the General Fund:

	2005 <u>Revenues</u>	2004 <u>Revenues</u>	Increase <u>(Decrease)</u>
Taxes	\$4,988,429	\$4,886,232	\$102,197

General Fund revenues in 2005 decreased approximately 1.3% compared to revenues in fiscal year 2004. The primary factor contributing to this decrease was the lower receipts from state foundation monies.

The expenditures increased by \$609,174 or 5.8% compared to the prior year mostly due to increases in instructional services and maintenance costs. An increase in wages and benefits is mostly accountable for the increase in instructional services. The increase within maintenance costs is mostly attributable to higher fuel and utility costs.

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2005 the District did not amend its General Fund budget.

For the General Fund, budget basis revenue was \$10.6 million, which equaled original budget estimates of \$10.6 million. The General Fund had an adequate fund balance to cover expenditures.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2005 the District had \$25,686,964 net of accumulated depreciation invested in land, buildings, machinery, equipment and vehicles. Of this total, \$25,664,121 was related to governmental activities and \$22,843 to the business-type activities. The following table shows fiscal year 2004 and 2005 balances:

	Governmental Activities		Increase (Decrease)
	2005	2004	
	Land	\$797,425	\$797,425

Debt

At June 30, 2005, the District had \$23.1 million in bonds outstanding, \$305,823 due within one year. The following table summarizes the District's debt outstanding as of June 30, 2005:

	<u>2005</u>	<u>2004</u>
Governmental Activities:		
General Obligation Bonds:		
School Improvement	\$23,147,220	\$23,398,043
Compensated Absences	<u>649,977</u>	<u>745,427</u>
Total Governmental Activities	23,797,197	24,143,470
Business-Type Activities:		
Compensated Absences	<u>10,299</u>	<u>9,976</u>
Totals	<u><u>\$23,807,496</u></u>	<u><u>\$24,153,446</u></u>

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2005, the District's outstanding debt was below the legal limit. Additional information on the District's long-term debt can be found in Note 10.

ECONOMIC FACTORS

The Brookville Local School District covers approximately 33 square miles and is located in Montgomery and Preble Counties. The District depends on taxes and the State Foundation for its funds. The State Foundation receipts account for 51% of the total and local taxes for 49% of the total.

The District's tax base is expected to benefit from its proximity to Dayton, and additional land for further development. Growth in the District's full value has been steady, averaging 5.6% over the last six years.

The District also has a Permanent Improvement Fund with a balance of \$1,211,136 at this time. The fund's revenues come from the .8% Permanent Improvement Levy and General Fund investment earnings, which is placed in the Permanent Improvement Fund.

In November 2002 the community approved a \$23,095,000 bond issue. The voters approved millage of 9.43 mills with an amortization of 28 years. The bond issue was passed the first time it was placed on the ballot. The A2 rating from Moody's reflects the District's sound financial operations, stable tax base and manageable debt burden.

A new school building is being constructed within the District. The building will house grades 4-12 and is currently projected to be completed in May of 2006. The building is expected to be used by students at the start of the 2005-2006 school year.

***Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2005***

Unaudited

There is a great deal of uncertainty involving the future of state funding. As a result of the DeRolph decision and subsequent court decisions the District is unable to determine what effect, if any, a future decision will have on its future state funding and its financial operations.

In conclusion, the Brookville Local School District is committed to continued conservative financial management in the years ahead.

***Reconciliation Of The Statement Of Revenues, Expenditures
And Changes In Fund Balances Of Governmental Funds
To The Statement Of Activities
For The Fiscal Year Ended June 30, 2005***

Net Change in Fund Balances - Total Governmental Funds \$ (16,399,475)

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

Capital Outlay	16,415,295	
Depreciation Expense	<u>(380,506)</u>	
		16,034,789

The net effect of various miscellaneous transactions involving capital assets (i.e. disposals and donations) is to increase net assets.

The statement of activities reports losses arising from the disposal of capital assets. Conversely, the governmental funds do not report any loss on the disposal of capital assets.	(20,073)
--	----------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(277,376)
--	-----------

The repayment of bond and loan principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

General Obligation Bond Principal Payment	240,000	
General Obligation Bond Premium	<u>10,823</u>	
		250,823

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.	247
--	-----

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Compensated Absences	67,281	
Pension Obligation (Intergovernmental Payable)	103,617

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Brookville Local School District, Ohio (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally elected five member Board of Education (the Board) which provides educational services. The Board controls the District's instructional support facilities staffed by approximately 70 noncertified and approximately 107 certified teaching personnel and administrative employees providing education to 1,558 students.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," in that the financial statements include all organizations, activities, functions and component units for which the District (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing board and either the District's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to, or impose a financial burden on, the District. There were no potential component units that met the criteria imposed by GASB Statement No. 14 to be included in the District's reporting entity. The District is a member of the Metropolitan Dayton Educational Cooperative Association, a jointly governed organization which provides computer service to thirty (30) school districts. Based on the foregoing, the reporting entity of the District includes the following services: instructional (regular, special education, vocational), student guidance, extracurricular activities, food service, pupil transportation and care and upkeep of grounds and buildings.

The District is associated with organizations, which are defined as jointly governed organizations and an insurance purchasing pool. These organizations are presented in Notes 14 and 15 to the basic financial statements.

The accounting policies and financial reporting practices of the District conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of its significant accounting policies.

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are summarized by type in the basic financial statements.

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

The following fund types are used by the District:

Governmental Funds - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the District's major governmental funds:

General Fund - This fund is the general operating fund of the district and is used to account for all financial resources except those accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund - This fund is used for the accumulation of resources for the payment of general long-term debt principal and interest.

Building Fund - This fund is used to account for the receipts and expenditures related to all special bond funds in the District. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures represent the costs of acquiring capital facilities, including real property.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds - The proprietary funds are accounted for on a "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of the proprietary funds are included on the balance sheet. The proprietary fund operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total assets.

Enterprise Fund - This fund is used to account for operations that are financed and operated in a manner similar to private business enterprises in which the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Fiduciary Funds – Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore not available to support the District’s own programs. The District’s two trust funds are private-purpose trust that account for scholarship programs for students. The agency fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operation.

C. Basis of Presentation – Financial Statements

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid “doubling up” revenues and expenses. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but Differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District’s governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation – Financial Statements (Continued)

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e. expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the District is considered to be 60 days after fiscal year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt which is recognized when due.

Under the modified accrual basis, the following revenue sources are considered susceptible to accrual at year end: property taxes, tuition, grants and entitlements, student fees, and interest on investments.

Current property taxes measurable at June 30, 2005, and which are not intended to finance fiscal 2005 operations, have been recorded as deferred revenues. Delinquent property taxes measurable and available (received within 60 days) and amounts available as an advance on future tax settlements are recognized as revenue at year end. Taxes available for advance and recognized as revenue but not received by the District prior to June 30, 2005 are reflected as a reservation of fund balance for future appropriations. The District is prohibited by law from appropriating this revenue in accordance with ORC Section 5705.35, since an advance of revenue was not requested or received prior to the fiscal year end.

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

The accrual basis of accounting is utilized for reporting purposes by the government-wide financial statements, proprietary funds and the private-purpose trust fund. Revenues are recognized when they are earned and expenses are recognized when incurred.

Pursuant to GASB Statement No. 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting," the District follows GASB guidance as applicable to proprietary funds and FASB Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB pronouncements. For proprietary funds the District has elected not to follow subsequent private-sector guidance.

Revenues – Exchange and Non-exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as deferred revenue.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only the General Fund are required to be reported. The primary level of budgetary control is at the fund level. Supplemental budgetary modifications may only be made by resolution of the Board of Education.

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

1. Tax Budget

By January 15, the Superintendent and Treasurer submit an annual operating budget for the following fiscal year to the Board of Education for consideration and passage. The adopted budget is submitted to the County Auditor, as Secretary of the County Budget Commission, by January 20 of each year for the period July 1 to June 30 of the following fiscal year.

2. Estimated Resources

Prior to March 15, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2005.

3. Appropriations

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 through June 30. The appropriation resolution establishes spending controls at the fund level. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. The allocation of appropriations may be modified during the year with approval of the Board. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. The budgetary figures which appear in the "Statement of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual" are provided on the budgetary basis to provide a comparison of actual results to the final budget, including all amendments and modifications.

4. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

5. Basis of Budgeting

The District's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting. Encumbrances are recorded as the equivalent of expenditures (budgetary basis) as opposed to reservations of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund:

Net Change in Fund Balance	General Fund
GAAP Basis (as reported)	(\$453,156)
Increase (Decrease):	
Accrued Revenues at June 30, 2005, received during FY 2006	(374,672)
Accrued Revenues at June 30, 2004, received during FY 2005	222,586
Accrued Expenditures at June 30, 2005, paid during FY 2006	1,425,516
Accrued Expenditures at June 30, 2004, paid during FY 2005	(1,230,686)
FY 2004 Prepays for FY 2005	71,173
FY 2005 Prepays for FY 2006	(91,932)
Encumbrances Outstanding	(223,385)
Budget Basis	(\$654,556)

BROOKVILLE LOCAL SCHOOL DISTRICT

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Cash and Cash Equivalents

During fiscal year 2005, cash and cash equivalents include amounts in demand deposits and investments with original maturities of less than three months.

The District pools its cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each fund maintained its own cash and investment account. See Note 3, "Cash, Cash Equivalents and Investments."

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the District records all its investments at fair value except for nonparticipating investment contracts (certificates of deposit) which are reported at cost, which approximates fair value. All investment income, including changes in the fair value of investments, is recognized as revenue in the financial statements. See Note 3, "Cash, Cash Equivalents and Investments."

H. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventory is stated at cost (first-in, first-out) in the governmental funds and at the lower of cost or market in the proprietary funds. The costs of inventory items are recorded as expenditures in the governmental funds when purchased and as expenses in the proprietary funds when used.

I. Capital Assets and Depreciation

The accounting and reporting treatment applied to capital assets is determined by their ultimate use:

1. Property, Plant and Equipment - Governmental Activities

Governmental activities capital assets are those not directly related to the business type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years). These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Assets, but they are not reported in the Fund Financial Statements. The District follows the policy of not capitalizing assets with a cost of less than \$500.

BROOKVILLE LOCAL SCHOOL DISTRICT

*Notes to the Basic Financial Statements
For the Fiscal Year Ended June 30, 2005*

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets and Depreciation (Continued)

1. Property, Plant and Equipment - Governmental Activities (Continued)

Contributed capital assets are recorded at fair market value at the date received. The District does not possess any infrastructure. Estimated historical costs for governmental activities capital asset values were initially determined at June 30, 1993 by identifying historical costs where such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

2. Property, Plant and Equipment - Business Type Activities

Property, plant and equipment acquired by the proprietary funds are stated at cost (or estimated historical cost), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed capital assets are recorded at fair market value at the date received. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Assets and in the respective funds.

3. Depreciation

All capital assets are depreciated, excluding land and Construction in Progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

Description	Estimated Lives (in years)
Land Improvements	20
Buildings and Improvements	40
Machinery and Equipment	15
Vehicles	8

J. Long-Term Obligations

Long-term liabilities are being repaid from the following funds:

Obligation	Fund
General Obligation Bond	Bond Retirement Fund
Compensated Absences	General Fund, Food Services Fund

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Compensated Absences

In accordance with GASB Statement No. 16, “*Accounting for Compensated Absences*,” vacation benefits are accrued as a liability when an employee’s right to receive compensation is attributable to services already rendered, and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Administrators and classified staff who work twelve month contracts are granted vacation leave based on length of service and position. Sick leave benefits are accrued as a liability using the vesting method. Employees may earn 15 days of sick leave per year up to a maximum of 252 days. Upon retirement, employees will receive one-fourth of the accumulated sick leave up to a maximum of 63 days. For governmental funds, that portion of unpaid compensated absences that is expected to be paid using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account “Compensated Absences Payable.” In the government wide statement of net assets, “Compensated Absences Payable” is recorded within the “Due within one year” account and the long-term portion of the liability is recorded within the “Due in more than one year” account. Compensated absences are expensed in the proprietary funds when earned and the related liability is reported within the fund.

L. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

M. Pensions

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred. Pension liabilities expected to be paid from current available financial resources are recorded as a fund liability.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flow of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayment from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as internal balances.

O. Restricted Assets

Restricted assets in the general fund represent cash and cash equivalents set aside to establish a reserve for textbook purchases and a reserve for capital maintenance. These reserves are required by State statute. Fund balance reserves have also been established for these amounts.

P. Reservations of Fund Balance

Reserves indicate that a portion of fund balance is not available for expenditure or is legally segregated for a specific future use. Fund balances are reserved for debt service, prepaid items, property taxes, supplies inventory and encumbered amounts which have not been accrued at year end. The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles, but not available for appropriation under State statute.

Q. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2005, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

S. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. The District had no extraordinary or special items during the year ended June 30, 2005.

NOTE 2 - COMPLIANCE AND ACCOUNTABILITY

Fund Deficits - The fund deficit at June 30, 2005 of \$4,217 in the Title VI-B Fund (special revenue fund), arose from the recognition of expenditures on the modified accrual basis of accounting, which are greater than expenditures recognized on the budgetary basis of accounting. A deficit did not exist under the budgetary basis of accounting.

NOTE 3 - CASH AND CASH EQUIVALENTS

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments. The District's investment policy is generally inline with the Ohio Revised Code, with its primary goals being the preservation of capital and protection of principal while earning investment interest. All investments should be made with prudence, discretion, and intelligence of the primary goals, fore mentioned, and with the District's liquidity needs.

Statutes require the classification of funds held by the District into three categories. Category 1 consists of "active" funds - those funds required to be kept in a "cash" or "near cash" status for immediate use by the District. Such funds must be maintained either as cash in the District Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of "inactive" funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of "interim" funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

BROOKVILLE LOCAL SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 3 - CASH AND CASH EQUIVALENTS (Continued)

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Protection of District cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

NOTE 3 - CASH AND CASH EQUIVALENTS (Continued)

At year end the carrying amount of the District's deposits was \$7,491,761 and the bank balance was \$7,965,422. Federal depository insurance covered \$200,000 of the bank balance and \$7,765,422 was uninsured. Of the remaining uninsured bank balance, the District was exposed to custodial risk as follows:

	<u>Balance</u>
Uninsured and uncollateralized	\$7,691,185
Uninsured and collateralized with securities held by the pledging institution's trust department not in the District's name	74,237
Total Balance	<u>\$7,765,422</u>

B. Investments

The District's investments at June 30, 2005 were as follows:

NOTE 4 - TAXES

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the District. Real property taxes (other than public utility) collected during 2005 were levied after October 1, 2004 on assessed values as of January 1, 2004, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revalued every six years with a statistical update every third year. The last revaluation was completed in 2002. Real property taxes are payable annually or semi-annually. The first payment is due January 20, with the remainder payable by June 20.

Taxes collected from tangible personal property (other than public utility) in one calendar year are levied in the prior calendar year on assessed values during and at the close of the most recent fiscal year of the taxpayer that ended on or before March 31 of that calendar year, and at the tax rates determined in the preceding year. Tangible personal property used in business (except for public utilities) is currently assessed for ad valorem taxation purposes at 25 percent of its true value. Amounts paid by multi-county taxpayers are due September 20 of the year assessed. Single county taxpayers may pay annually or semi-annually, the first payment is due April 30; with the remainder payable by September 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100 percent of its true value. Public utility property taxes are payable on the same dates as real property described previously.

NOTE 9 - DEFINED BENEFIT PENSION PLANS

All of the District's full-time employees participate in one of two separate retirement systems which are cost-sharing, multiple-employer defined benefit pension plans.

A. School Employees Retirement System of Ohio (SERS of Ohio)

All non-certified employees of the District, with minor exceptions, performing duties that do not require a certificate issued by the Ohio Department of Education are eligible to participate in the School Employees Retirement System of Ohio, a cost-sharing, multiple-employer public employee retirement system.

The SERS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and survivor benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The SERS of Ohio issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information for the SERS of Ohio. Interested parties may obtain a copy by making a written request to SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling (614) 222-5853.

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 10% respectively. The contribution rates are determined actuarially, and are established and may be amended, up to statutory amounts, by the School Employees Retirement Board (Retirement Board) within the rates allowed by State statute. The required employer contribution rate is allocated to basic retirement benefits and health care by the Retirement Board. At June 30, 2004, (latest information available) 9.09% was allocated to fund the pension benefit and 4.91% to fund health care. The District's contributions to the SERS of Ohio for the years ending June 30, 2005, 2004, and 2003 were \$275,808, \$270,000, and \$315,290, respectively, which were equal to the required contributions for each year.

The Ohio Revised Code gives SERS the discretionary authority to provide postretirement health care to retirees and their dependents. Coverage is made available to service retirees with ten or more years of qualifying service credit, disability and survivor benefit recipients. All retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility, and retirement status. A safety net is in place for retirees whose household income falls below federal poverty levels. Premiums are reduced by 50% for those who apply. The portion of the 2004 employer contribution rate (latest information available) that was used to fund health care for the year 2004 was 4.91%. In addition, SERS levies a surcharge to fund health care benefits equal to 14% of the difference between minimum pay and the member's pay, prorated for partial service credit. For fiscal year 2005, the minimum pay has been established as \$27,400. The amount contributed to fund health care benefits, including the surcharge amounted to \$96,730.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2005

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

A. School Employees Retirement System of Ohio (SERS of Ohio) (Continued)

Health care benefits are financed on a pay-as-you-go basis. The number of retirees and covered dependents currently receiving benefits is approximately 62,000. The target level for the health care reserve is 150% of annual health care expenses before premium deduction. Expenses for health care at June 30, 2004 (the latest information available) were \$223,443,805 and the target level was \$335.2 million. Net assets available for payment of benefits at June 30, 2004 were \$300.8 million.

B. State Teachers Retirement System of Ohio (STRS of Ohio)

All certified employees of the District are eligible to participate in the State Teachers Retirement System of Ohio, a cost-sharing, multiple-employer public employee retirement system.

The STRS of Ohio provides retirement and disability benefits, annual cost-of-living adjustments and survivor benefits based on eligible service credit to plan members and beneficiaries. Benefits are established by Chapter 3307 of the Ohio Revised Code. The STRS of Ohio issues a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS Ohio, 275 East Broad Street, Columbus, Ohio 43215-3371, or by calling (614) 227-4090 or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5% of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTE 9 - DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System of Ohio (STRS of Ohio) (Continued)

The Ohio Revised Code provides statutory authority for District and employee contributions of 14% and 10%, respectively. The contribution requirements of plan members and the District are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. At June 30, 2004, (latest information available) 13% was allocated to fund the pension benefit and 1% to fund health care. The District's contributions to the STRS of Ohio for the years ending June 30, 2005, 2004, and 2003 were \$856,008, \$853,464, and \$638,352, respectively, which were equal to the required contributions for each year.

STRS provides postemployment health care benefits to retirees who participated in the DB or Combined Plans and their dependents. Coverage includes hospitalization, physician fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. All benefit recipients and sponsored dependents are eligible for health care coverage. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. All benefit recipients pay a portion of the health care cost in the form of a monthly premium. By Ohio law, health care benefits are not guaranteed.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions to the Health Care Stabilization Fund. For the fiscal year ended June 30, 2004, (latest information available) the board allocated employer contributions are equal to 1% of covered payroll to the Health Care Stabilization Fund, which amounted to \$61,143 for the District. The balance of the Health Care Stabilization Fund was \$3.1 billion at June 30, 2004 (the latest information available). For the fiscal year ended June 30, 2004, the net health care costs paid by STRS were \$268,739,000. There were 111,853 eligible benefit recipients.

The District is required by state law to set aside certain general fund revenue amounts, as defined, into various reserves. During the fiscal year ended June 30, 2005, the reserve activity (cash-basis) was as follows:

	Textbook Reserve	Capital Acquisition Reserve	Total
Set-aside Cash Balance as of June 30, 2004	(\$40,427)	\$0	(\$40,427)
Current Year Set-Aside Requirement	216,230	216,230	432,460
Current Year Offset Credits	0	0	0
Qualifying Disbursements	(143,775)	(161,879)	(305,654)
Total	<u>\$32,028</u>	<u>\$54,351</u>	<u>\$86,379</u>
Set-aside Cash Balance as of June 30, 2005	<u>\$32,028</u>	<u>\$54,351</u>	<u>\$86,379</u>
Amount Restricted for Textbooks			\$32,028
Amount Restricted for Capital Acquisition			54,351
Total Restricted Assets			<u>\$86,379</u>

Although the District had offsets and qualifying disbursements during the year that reduced the set-aside amounts below zero, the extra amount for capital acquisition may not be used to reduce the set-aside requirements of future years. Negative amounts for capital acquisition are therefore not presented as being carried forward to the next fiscal year.

NOTE 12 - CONSTRUCTION COMMITMENTS

As of June 30, 2005, the District had the following commitment with respect to capital projects:

<u>Project</u>	<u>Remaining Construction Commitment</u>	<u>Expected Date of Completion</u>
New Grades 4-12 Building	\$1,502,710	Aug-05

NOTE 13 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. During fiscal year 2005 the District contracted with several different insurance providers for various insurance coverages, as follows:

<u>Insurance Provider</u>	<u>Coverage</u>	<u>Deductible</u>
Marsh Insurance Company	School Board Liability	\$5,000
Marsh Insurance Company	Excess Liability	\$1,000
Marsh Insurance Company	Excess Property	\$1,000
Marsh Insurance Company	Boiler & Machinery	\$2,500
Marsh Insurance Company	Auto Liability	\$1,000
Marsh Insurance Company	Builders Risk	\$1,000

There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

NOTE 14 - INSURANCE PURCHASING POOL

Southwestern Ohio Educational Purchasing Cooperative Workers' Compensation Group Rating Plan (WCGRP) - The District participates in the WCGRP, an insurance purchasing pool. The group rating plan for workers' compensation was established under Section 4123.29 of the Ohio Revised Code. The Plan's business and affairs are conducted by an executive committee elected by members of the cooperative. Each year, the participating school districts pay an enrollment fee to the WCGRP to cover the costs of administering the program.

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS

Southwestern Ohio Instructional Technology Association (SOITA) - SOITA is a not-for-profit corporation formed under section 1702.01 of the Ohio Revised Code. The purpose of SOITA is to serve the educational needs of the area through television programming for the advancement of educational programs.

The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. Nineteen representatives are elected from within the counties by the qualified members within the counties i.e. Auglaize, Butler, Champaign, Clark, Clifton, Darke, Fayette, Green, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby, and Warren. Montgomery, Green, and Butler counties shall elect two representatives per area. All others shall elect one representative per area. All superintendents except for those from educational service centers vote on the representatives after a nomination committee nominates individuals to run. One at-large non-public representative shall be elected by the non-public school SOITA members as the State assigned SOITA service area. One at-large higher education representative shall be elected by higher education SOITA members from within the State assigned SOITA service area.

All member districts are obligated to pay all fees, charges, or other assessments as established by the SOITA. Upon dissolution, the net assets shall be distributed to the federal government, or to a state or local government for a public purpose. Payments to SOITA are made from the general fund. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association at 150 East Sixth Street, Franklin, Ohio 45005.

Southwestern Ohio Educational Purchasing Cooperative (SOEPC) - SOEPC is a purchasing cooperative made up of nearly one hundred school districts in twelve counties. The Montgomery County Board of Education acts as fiscal agent for the group. The purpose of the cooperative is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC. Each member district has one voting representative. Title to any and all equipment and supplies purchased by the SOEPC is held in trust for the member district by the fiscal agent. Payments to SOEPC are made from the general fund. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Cooperative, 1831 Harshman Road, Dayton, Ohio 45424.

Metropolitan Dayton Educational Cooperative Association – The District is a member of the Metropolitan Dayton Educational Cooperative Association (MDECA) is an association of public school districts in a geographical area determined by the Ohio Department of Education. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative instructional functions among member districts. The Board of MDECA consists of one representative from each of the participating members. Each member pays an annual membership fee plus any other fees for services performed by the consortium.

NOTE 16 - CONTINGENCIES

A. Grants

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2005.

B. State School Funding

On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current-funding plan is unconstitutional.

The Supreme Court relinquished jurisdiction over the case and directed, 'the Ohio General Assembly to enact a school-funding scheme that is thorough and efficient.' The District is currently unable to determine what effect, if any, this decision will have on its future State funding and its financial operations.
