

**CITY OF MADEIRA, OHIO**

**Independent Auditors' Report  
On Internal Control and Compliance**

**December 31, 2006**

Mary Taylor, CPA  
Auditor of State

City Council  
City of Madeira  
7141 Miami Avenue  
Cincinnati, Ohio 45243

We have reviewed the *Independent Auditors' Report* of the City of Madeira, Hamilton County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2006 through December 31, 2006. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Madeira is responsible for compliance with these laws and regulations.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS***

To the City Council  
City of Madeira, Ohio:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Madeira, Ohio ("City") as of and for the year ended December 31, 2006, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 26, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City's financial statements that is more than inconsequential will not be prevented or detected by the City's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the City in a separate letter dated June 26, 2007.

This report is intended solely for the information and use of management, others within the organization, and the City Council and is not intended to be and should not be used by anyone other than these specified parties.

# **INTRODUCTORY SECTION**

June 27, 2007

To the Honorable Mayor, Members of the Governing Council, and Citizens of the City of Madeira:

State law requires that all general-purposes local governments publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP). Pursuant to that requirements, we hereby issue the comprehensive annual financial report of the City of Madeira for the fiscal year ended December 31, 2006.

This report consists of management's representations concerning the finances of the City of Madeira. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Madeira has established a **comprehensive** internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Madeira financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Madeira's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Madeira's financial statements have been audited by Clark, Schaefer, Hackett & Co., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Madeira for the fiscal year ended December 31, 2006, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Madeira's financial statements for the fiscal year ended December 31, 2006, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Madeira's MD&A can be found immediately following the report of the independent auditors.

## **Profile of the Government**

The City of Madeira, incorporated in 1910 as a village, is located in the southwestern part of the state. The City of Madeira currently occupies a land area of 3.4 square miles and serves a population of 8,923. The City of Madeira is empowered to levy a property tax on both real and personal properties located within its boundaries.

The City of Madeira has operated under the council-manager form of government since 1959. Policy-making and legislative authority are vested in a governing council consisting of the mayor and six other members. The governing council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring both the government's manager and attorney. The City's manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day to day operations of the government, and for appointing the heads of the various departments. The council is elected on a non-partisan basis. Council members are elected at large and serve four-year staggered terms, with elections every two years. The Madeira Home Rule Charter specifies term limits of three consecutive terms.

The Madeira City Council elects a Mayor and Vice-Mayor from within its ranks. The Mayor and Vice-Mayor each serve a two-year term. The Mayor's primary duties include presiding over City Council meetings, performing ceremonial civic duties and overseeing the proceedings of Mayor's Court. The Vice-Mayor assumes the duties of the Mayor in his or her absence.

The City of Madeira provides a full range of services, including police and fire protection; the construction and maintenance of highways, streets, and other infrastructure; and recreational activities and cultural events.

The annual budget serves as the foundation for the financial planning and control. The government's manager presents his proposed budget to the council for review prior to December 31. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than December 31, the close of the City of Madeira's fiscal year. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., police). Budget to actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented as part of the basic financial statements for the governmental funds. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report.

## **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Madeira operates.

**Local economy.** The City of Madeira currently enjoys a favorable economic environment and local indicators point to continued stability. The region has a varied manufacturing and industrial base that adds to the relative stability of the unemployment rate. Major industries with headquarters or

divisions located within the City's boundaries or in close proximity include consumer product manufacturers, jet engine and automobile component manufacturers, and several financial and insurance institutions.

The City's central business district is expected to maintain its current high occupancy rate with a variety of stores, specialty shops, and commercial businesses. Meanwhile, there continues to be a discernable trend toward steady residential growth.

**Long-term financial planning.** The City Council plans to improve park space and obtain an improvement grant from the state.

The 2007 transportation-related project is expected to be the replacement of several streets. The cost of the street improvements are anticipated to be \$600,000.

**Cash management policies and practices.** Cash temporarily idle during the year was invested in certificates of deposit, and the State Treasurer's investment pool. The maturities of the investments range from 30 days to 1 year, with an average maturity of 7 months. The average yield on investments was 5 percent for the City.

**Pension and other postemployment benefits.** The City of Madeira provides pension benefits for its employees. These benefits are provided through state-wide plans managed by the Ohio Public Employees Retirement System and Ohio Police and Fire Pension Fund Pension Board. The City of Madeira has no obligation in connection with employee benefits offered through this plan beyond its annual contractual payment to the state retirement systems.

The City of Madeira also provides postretirement health care benefits for certain retirees and other dependents. These benefits are provided through the above mentioned state-wide plans. Additional information on the City of Madeira's pension arrangements and postemployment benefits can be found in the notes to the financial statements.

### **Awards and Acknowledgments**

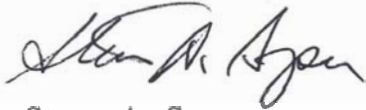

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Madeira for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2005. This was the twelfth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

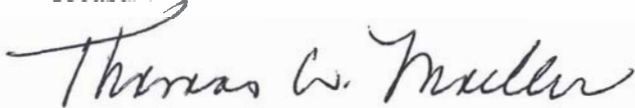

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance and administration department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation

of this report. Credit also must be given to the mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Madeira's finances.

Respectfully submitted,

Steven A. Soper  
Treasurer

Thomas W. Moeller  
City Manager

## INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of the City Council  
City of Madeira, Ohio:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Madeira, Ohio (the City) as of and for the year ended December 31, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Madeira, Ohio as of December 31, 2006, and the respective changes in financial position and cash flows, where applicable, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 26, 2007, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis on pages 15-25, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Madeira, Ohio's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

*Clark, Schaefer, Haskett & Co.*

Cincinnati, Ohio  
June 26, 2007

## Management's Discussion and Analysis

As management of the City of Madeira, we offer readers of the City of Madeira's financial statements this narrative overview and analysis of the financial activities of the City of Madeira for the fiscal year ended December 31, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in this report.

### Financial Highlights

The assets of the City of Madeira exceeded its liabilities at the close of the most recent fiscal year by \$6,364,576 (net assets). Of this amount, \$3,565,715 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.

The government's total net assets increased by \$1,814,055.

As of the close of the current fiscal year, the City of Madeira's governmental funds reported combined ending fund balances of \$3,048,502, an increase of \$741,479 in comparison with the prior year. Approximately 99 percent of this total amount, \$3,047,910 is available for spending at the government's discretion (unreserved fund balance).

At the end of the current fiscal year, unreserved fund balance for the general fund was \$2,557,550, or 52 percent of total general fund expenditures.

The City of Madeira's total debt decreased by \$230,000 (15 Percent) during the current fiscal year.

### Overview of the Financial Statements

The discussion and analysis are intended to serve as an introduction to the City of Madeira's basic financial statements. The City of Madeira's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City of Madeira's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City of Madeira's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Madeira is improving or deteriorating.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Madeira that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Madeira include general government, public safety, transportation, sanitation, community environment, and recreation. The business-type activity of the City of Madeira is rental property.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Madeira, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Madeira can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Madeira maintains fourteen individual governmental funds. Information is presented separately in the governmental fund balance sheet in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund and the debt service fund, both of which are considered to be major funds. Data from the other twelve governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Madeira adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

**Proprietary fund.** The City of Madeira maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Madeira uses an enterprise fund to account for its rental property operation.

Proprietary funds provide the same type of information as the governmental-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the rental property operation, which is considered to be a major fund of the City of Madeira.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City of Madeira's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the financial statements.

### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Madeira, assets exceeded liabilities by \$6,364,576 at the close of the most recent fiscal year.

A portion of the City of Madeira's net assets (39 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets to provide services to citizens consequently, these assets are not available for future spending. Although the City of Madeira's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**City of Madeira's Net Assets  
(In Thousands)**

	Governmental Activities		Business-type Activities		Total	
	2006	2005	2006	2005	2006	2005
Current and other assets	\$6,495	\$5,644	\$42	\$37	\$6,538	\$5,681
Capital Assets	3,400	2,535	367	383	3,767	2,918
Total Assets	9,895	8,179	409	420	10,305	8,599
Long-term liabilities outstanding	1,454	1,720	0	0	1,454	1,720
Other liabilities	2,483	2,325	3	3	2,486	2,328
Total Liabilities	3,937	4,045	3	3	3,940	4,048
<b>Net assets:</b>						
Invested in capital assets, net of related debt	2,095	1,000	367	383	2,462	1,383
Restricted	337	485	0	0	337	485
Unrestricted	3,526	2,649	39	34	3,565	2,683
Total Net Assets	\$5,958	\$4,134	\$406	\$417	\$6,365	\$4,551

An additional portion of the City of Madeira's net assets (5 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$3,565) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Madeira is able to report positive balances in all three categories of net assets, both for the government as whole , as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The government's net assets increased by \$1,814 during the current fiscal year. About two thirds of this increase represents a one-time infusion of resources from grants. The remainder of this growth largely reflects increases in Income and Property Taxes.

**Governmental activities.** Governmental activities increased the City of Madeira's net assets by \$1,824, thereby accounting for all of the growth in the net assets of the City of Madeira. Key elements of this increase are as follows:

**City of Madeira's Changes in Net Assets  
(In Thousands)**

	Governmental Activities		Business-type Activities		Total	
	2006	2005	2006	2005	2006	2005

Property tax collections increased \$362, from the previous year due to reassessments. The Income tax increased by the amount of \$479, due to a reduction in credit allowed for tax paid to other cities.

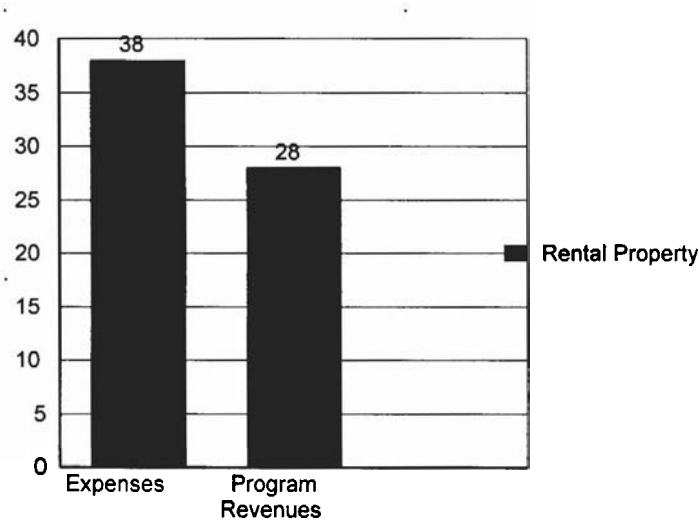

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services.

**Business-type activities.** Business-type activities decreased the City of Madeira's net assets by \$10,000. Key elements of this decrease are as follows.

- Property maintenance expenses and depreciation exceeding rental income.

---

**Expenses and Program Revenues - Business-type Activities  
(In Thousands)**

---

**Revenues by Source - Business-type Activities**

## **Financial analysis of the City of Madeira's Funds**

As noted earlier, the City of Madeira uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City of Madeira's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Madeira's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a governments's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Madeira's governmental funds reported combined ending fund balances of \$3,048,502, an increase of \$741,479 in comparison with the prior year. Approximately all of this total amount, \$3,047,910, constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to pay debt service (\$592).

The general fund is the chief operating fund of the City of Madeira. At the end of the current fiscal year, unreserved fund balance and total fund balance of the general fund was \$2,557,550. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved and total fund balance represents 52 percent of total general fund expenditures.

The fund balance of the City of Madeira's general fund increased by \$743,865 during the current fiscal year. Key factors in this increase are as follows:

- Increase in Intergovernmental Revenue and Taxes of \$1,225,409
- Increase in transfers out of \$509,196.
- Increased operating costs of \$384,767.

The debt service fund has a total fund balance of \$592, all of which is reserved for the payment of debt service. The net decrease in fund balance during the current year in the debt service fund was \$882, for which there was no significant reasons for the change.

**Proprietary Funds.** The City of Madeira's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the rental property at the end of the year amounted to \$39,580. The decrease in net assets was \$10,446. Other factors concerning the finances of this fund have already been addressed in the discussion of the City of Madeira business-type activities.

## **General Fund Budgetary Highlights**

Differences between the original budget and the final amended budget were relatively minor (\$446,229 increase in appropriations) and can be briefly summarized as follows:

- \$271,229 in increases in fire contract and police expense.
- \$145,000 in increases in improvements

Of this increase, \$446,229 was to be funded out of intergovernmental revenues. During the year, however, revenues exceeded budgetary estimates and expenditures were less than budgetary estimates, thus reducing the amount to be drawn upon the existing fund balance.

## **Capital Asset and Debt Administration**

**Capital assets.** The City of Madeira's investment in capital assets for its governmental and business type activities as of December 31, 2006 amounts to \$3,766,851 (net of accumulated depreciation). This investment in capital assets includes vehicles, improvements, furniture and equipment and roads. The total increase in the City of Madeira's investment in capital assets for the current fiscal year was 29 percent.

Major capital asset events during the current fiscal year included the following:

- A variety of street construction projects related to resurfacing of existing streets totaling \$600,000.
- \$310,000 for park improvement projects.

**City of Madeira's Capital Assets  
(net of depreciation)  
(In thousands)**

	Governmental Activities		Business-type Activities		Total	
	2006	2005	2006	2005	2006	2005

Additional information on City of Madeira's capital assets can be found in note IV.C.

**Long-term debt.** At the end of the current year, the City of Madeira had total bonded debt outstanding of \$1,305,000.

All \$1,305,000 is backed by the full faith and credit of the government.

**City of Madeira's Outstanding Debt  
General Obligation Bonds  
(In thousands)**

	Governmental Activities	
	<u>2006</u>	<u>2005</u>
General obligation bonds	\$1,305	\$1,535

Additional information on City of Madeira's long-term debt can be found in note IV.E.

The City of Madeira's total debt decreased by \$230,000 during the current fiscal year. The key factor in this decrease was the scheduled principal retirement.

**Economic Factors and Next Year's Budgets and Rates**

- The occupancy rate of the City's central business district has remained at a high percent for the past three years.
- Inflationary trends in the region compare favorably to national indices.
- Building permits have increased in the last two years.

All of these factors were considered in preparing the City of Madeira's budget for the 2007 fiscal year.

During the current fiscal year, unreserved fund balance in the general fund increased to \$2,557,550. The City of Madeira has not appropriated any of this amount for spending in the 2007 fiscal year budget. Council voted to reduce income tax for the 2007 fiscal year, by reducing the credit to .8% in order to prevent appropriating any of the fund balance.

### **Requests for Information**

This financial report is designed to provide a general overview of the City of Madeiras finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Treasurer, 7141 Miami Avenue, Madeira, Ohio, 45243.

## CITY OF MADEIRA, OHIO

### Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2006

---

**Net Change in Fund Balances - Total Governmental Funds** \$741,479

**Amounts reported for governmental activities in the  
statement of activities are different because**

Governmental funds report capital outlays as expenditures.  
However, in the statement of activities, the cost of those  
assets is allocated over their estimated useful lives as  
depreciation expense. This is the amount by which capital  
outlays exceeded depreciation in the current period.

865,377

Revenues in the statement of activities that do not provide  
current financial resources are not reported as revenues  
in the funds.

Property Taxes	(\$260)
Income Tax	32,453
Intergovernmental Revenues	<u>(82,599)</u>

Total

(50,406)

Repayment of bond principal is an expenditure in the  
governmental funds, but the repayment reduces long-term  
liabilities in the statement of net assets.

230,000

In the statement of activities, interest is accrued on  
outstanding bonds, whereas in governmental funds, an  
interest expenditure is reported when due.

2,329

Some expenses reported in the statement of activities,  
such as compensated absences do not require the use of  
current financial resources and therefore are not  
reported as expenditures in governmental funds.

Compensated Absences

35,722

Change in Net Assets of Governmental Activities

\$1,824,501

CITY OF MADEIRA, OHIO  
NOTES TO THE FINANCIAL STATEMENTS  
DECEMBER 31, 2006

**I. Summary of significant accounting policies**

**A. Reporting Entity**

The City of Madeira (the City) is a home rule municipal corporation organized under the laws of the State of Ohio. The City operates under its own charter, which provides for a council/manager form of government and was adopted in 1959. The seven-member council is elected to four-year terms. Every two years council selects one of its members to serve as mayor and one of its members to serve as vice-mayor. Council also appoints the city manager, treasurer, law director and clerk of council.

The City provides various services including police protection, parks and recreation, planning, street maintenance and repair, and community development. The City also provides refuse collection and fire protection through annual contracts with outside contractors.

For financial reporting purposes, the City's financial statements include all funds and account groups for which the City is financially accountable based upon criteria set forth in Governmental Accounting Standards Board (GASB) Statement 14. The City reviewed certain legally separate organizations to determine if the elected officials of the City were financially accountable. No such organizations were identified.

**B. Government-wide and fund financial statements**

The government-wide financial statements (i.e., the statement of net assets and the statement of changes in net assets) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements, however interfund services provided and used are not eliminated in the process of consolidating. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate

columns in the fund financial statements.

**C. Measurement focus, basis of accounting, and financial statement presentation**

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. However, Agency fund has no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The government reports the following proprietary fund:

The proprietary fund type consists of only one Enterprise Fund. This fund accounts for operations of rental properties.

The government reports the following fiduciary fund:

The fiduciary fund type consists of only one Agency Fund. This fund accounts for Mayor's Court.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial

statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund in rent. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

#### **D. Assets, liabilities, and net assets or equity**

##### **1. Deposits and investments**

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, Certificates of Deposit, repurchase agreements, and the State Treasurer's Investment Pool

Investments for the government are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

##### **2. Receivables**

All trade and property tax receivables are considered collectable at December 31, 2006, and the allowance for uncollectible amounts receivable is zero.

Real property taxes are levied on assessed values which equal 35% of appraised value. The county auditor reappraises all real property every six years with a triennial update. The last update was completed for tax year 2005.

Real property taxes collected in any calendar year are generally levied on assessed values as

of January 1 of the preceding year according to the following calendar:

Property Tax Calendar - 2006 Collections

Lien Date	January 1, 2005
Levy Date	October 31, 2005
First Installment Payment Due	January 31, 2006
Second Installment Payment Due	June 20, 2006

The full tax rate applied to real property for the fiscal year ended December 31, 2006, was \$7.50 per \$1,000 of assessed valuation. Real property owners' tax bills are further reduced by homestead and rollback deductions, when applicable. The amount of these homestead and rollback reductions is reimbursed to the City by the State of Ohio.

The Hamilton County Treasurer collects property tax on behalf of all taxing districts within the County. The Hamilton County Auditor periodically remits to the taxing districts their portions of the taxes collected.

Tangible personal property used in business, other than public utilities, is currently assessed for ad valorem taxation purposes at 25% of its true value. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30 with the remainder payable by September 20.

Public utilities real and tangible personal property taxes collected in any calendar year are those levied on assessed values as of December 31 of the preceding year. Certain tangible personal property of public utilities is currently assessed at 100% of its true value. Real property of public utilities is currently assessed at 35% of true value. Property taxes on public utilities are subject to the same calendar as real property taxes, which is described above.

Property taxes that are measurable but not available at fiscal year end are recorded as a receivable with the corresponding revenue deferred until available. Delinquent property tax amounts, net of allowance for uncollectibles, are recorded if material in amount.

### 3. Inventories and prepaid items

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

### 4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets

are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment of the City is depreciated using the straight line method over the following estimated useful lives:

<b>Assets</b>	<b>Years</b>
Building & Improvements	27
Infrastructure	15
Police Vehicles	3
All Other Vehicles	5
Office Furniture & Software	3 - 5

Infrastructure assets acquired prior to 2004 have not been capitalized.

#### 5. Compensated absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government, unless they are eligible to retire. If they are eligible to retire, a liability is recorded for 40 percent of their accrued sick leave up to a maximum of 480 hours. All vacation pay is accrued when incurred in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

#### 6. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

#### 7. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

## II. Reconciliation of government-wide and fund financial statements

### A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that “long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$1,468,748 difference are as follows:

Bonds Payable	\$1,305,000
Accrued Interest Payable	14,057
Compensated Absences	<u>149,691</u>
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental activities	<u><u>\$1,468,748</u></u>

**B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities**

The government fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statements of activities. One element of that reconciliation explains that “Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this difference are as follows:

Capital Outlay	\$1,080,843
Depreciation Expense	<u>(215,466)</u>
Net adjustment to increase net changes in fund balances - total governmental funds to arrive at changes in net assets of governmental activities	<u><u>\$865,377</u></u>

**III. Stewardship, compliance, and accountability**

**A. Budgetary information**

In 1994 the City, being a home rule municipal corporation, adopted, through ordinance, GAAP (generally accepted accounting principle) as its budgetary basis. This change was thought necessary in order to provide more comparable budget and actual revenue and expenditure analysis. Therefore, the revenue and expenditure statements contained herein for comparative purposes are presented on the basis of generally accepted accounting principles. The City is reporting at the legal level of budgetary control which requires the governing body to approve any over budget expenditures of appropriations or transfers of appropriated amounts at the fund level.

## Budgetary Process

Annual budgets are adopted for all governmental funds. The City adopts an annual budget for the proprietary fund; however, budgetary data is not presented for the proprietary fund due to the nature of the fund. There is no legal requirement to report on such budget. The budgetary process is prescribed by provisions of the Ohio Revised Code. The legal level of budgetary control under Ohio law is the level at which the appropriation measure is passed by the legislative authority of a local government. For the City, the legal level of control is the fund level for each fund. Management may not amend the budget without council approval. Budgetary modifications may only be made by resolution of the City council. The major documents prepared are:

Tax Budget. A tax budget of estimated cash revenues and expenditures for all budgeted funds, for the period January 1 to December 31 of the following year, is submitted to the County Auditor by July 20 of each year. The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The commission certifies its actions to the City by October 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenues of each fund. Prior to December 31, the City must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation ordinance. On or about January 1, the certificate of estimated resources is amended to include unencumbered fund balances at December 31 of the preceding year. The certificate may be further amended during the year if the fiscal officer determines that the revenue collected is greater or less than the current estimates. Because the tax budget prepared for the County Auditor is on a cash basis, those numbers do not match the GAAP-basis budget shown in this report as required by ordinance.

Appropriations. A temporary appropriation measure to control expenditures may be passed on or about January 1 of each year for the period from January 1 to March 31. The annual appropriation ordinance must be passed by April 1 of each year for the period January 1 to December 31. The appropriation ordinance may be amended during the year as new information becomes available provided that total fund appropriations do not exceed current estimated resources, as certified. The appropriations may be modified during the year only by an ordinance of council. During the year, two supplemental appropriation measures were passed. The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all amendments and modifications.

Encumbrances. As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Unencumbered and unexpended appropriations lapse at year end. Encumbrances are closed to unreserved fund balance/retained earnings at year end and are re-encumbered and re-appropriated at the start of the following year.

#### IV. Detailed notes on all funds

##### A. Deposits and investments

The City follows the practice of pooling cash and investments with the Treasurer, except for the cash and cash equivalents in Agency Fund. Each fund's portion of total cash and investments is summarized by fund type in the Combined Balance Sheet as either "Cash and Cash Equivalents" and/or "Investments."

##### Deposits

###### *Custodial Credit Risk*

Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's custodial credit risk policy requires that deposits be collateralized as required by ORC Chapter 135. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the City places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year-end, \$60,239 of the City's bank balance of \$865,119 was exposed to custodial credit risk since it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the City's name.

##### Investments

The City's investments at December 31, 2006 are as summarized as follows:

	Fair Value	Average Maturity Years
Star Ohio	\$1,676,145	n/a
U. S. Money Market Funds	4	n/a
	<u>\$1,676,149</u>	

### *Credit Risk*

It is the City's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings by nationally recognized statistical rating organizations. The City's investments in the U.S. Money Market Funds were rated AAA by Standard & Poor's. Investments in STAR Ohio were rated AAAM by Standard & Poor's.

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City is required to disclose the amount of investments with any one issuer that represent five percent or more of total investments. Investments issued by the U.S. government, investments, and investments in external investment pools are excluded from this requirement. At December 31, 2006, 99.9% of the City's investments are STAR Ohio which is an external investment pool.

STAR Ohio is an investment pool managed by the State Treasurer's Office that allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2006.

The classification of cash and cash equivalents and investments on the combined financial statements is based on criteria set forth in GASB Statement No. 9. A reconciliation between the classifications of cash and investments on the combined financial statements and the classifications per GASB Statement No. 3 is as follows:

	<u>Cash and Cash Equivalents</u>	<u>Investments</u>
GASB Statement 9	\$1,813,693	\$693,277
Investments:		
Certificates of Deposit	693,277	(693,277)
Money Market	(4)	4
Star Ohio	<u>(1,676,145)</u>	<u>1,676,145</u>
GASB Statement 3	<u><u>\$830,821</u></u>	<u><u>\$1,676,149</u></u>

### **Receivables**

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

## Capital assets

Capital asset activity for the year ended December 31, 2006 was as follows:

Governmental Activities	Balance at 1/1/06	Increases	Decreases	Balance at 12/31/06
Land - not being depreciated	\$645,000	\$0	\$0	\$645,000
Capital Assets - being depreciated				
Building & Land Improvements	2,509,547	308,864	0	2,818,411
Vehicles	487,052	80,503	(18,016)	549,539
Infrastructure	538,719	598,304	0	1,137,023
Furniture, Equipment and Software	499,834	93,172	(2,376)	590,630
<b>Total Capital Assets</b>	<b>\$4,680,152</b>	<b>\$1,080,843</b>	<b>(\$20,392)</b>	<b>\$5,740,603</b>
Less Accumulated Depreciation				
Building & Land Improvements	(1,436,817)	(73,213)	0	(1,510,030)
Vehicles	(374,917)	(65,695)	18,016	(422,596)
Infrastructure	(27,597)	(45,968)	0	(73,565)
Furniture, Equipment and Software	(305,930)	(30,590)	2,376	(334,144)
<b>Total Accumulated Depreciation</b>	<b>(2,145,261)</b>	<b>(215,466)</b>	<b>20,392</b>	<b>(2,340,335)</b>
<b>Total Capital Assets, being depreciated, net</b>	<b>1,889,891</b>	<b>865,377</b>	<b>0</b>	<b>2,755,268</b>
<b>Governmental Activities Capital Assets, Net</b>	<b>\$2,534,891</b>	<b>\$865,377</b>	<b>\$0</b>	<b>\$3,400,268</b>

Business-type Activities	Balance at 1/1/06	Increases	Decreases	Balance at 12/31/06
Land - not being depreciated	\$134,008	\$0	\$0	\$134,008
Capital assets being depreciated:				
Land Improvements	88,442	0	0	88,442
Buildings	304,491	0	0	304,491
Subtotal	526,941	0	0	526,941
Less Accumulated Depreciation:				
Land Improvements	(15,782)	(5,543)	0	(21,325)
Buildings	(127,785)	(11,248)	0	(139,033)
Total Accumulated Depreciation	(143,567)	(16,791)	0	(160,358)
Total Capital Assets, being depreciated, net	249,366	(16,791)	0	232,575
Net Capital Assets	\$383,374	(\$16,791)	\$0	\$366,583

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
General government	\$60,146
Public Safety	44,653
Highways and streets, including depreciation of general infrastructure assets	85,091
Recreation	<u>25,576</u>
Total depreciation expense - governmental activities	<u>\$215,466</u>
Business-type activities:	
Enterprise	<u>\$16,791</u>

#### D. Interfund transfers

Interfund transfers:

	Transfers In:		
	Debt Service	Nonmajor Governmental	Total
Transfer out:			
General Fund	\$290,000	\$504,996	\$794,996

Transfers were made to fund debt service, capital improvements and subsidize recreation programs.

## Long-term debt

### General Obligation Bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the City.

In April 1, 1999, the City issued general obligation bonds in the amount of \$2,750,000 with interest rates ranging from 3.5% to 4.5% and maturing April 1, 2001 through April 1, 2011. Proceeds were used to pay off \$625,000 of outstanding notes as they matured during 1999, as well as, \$1,500,000 of bonds that were callable on December 1, 1999. The balance of the proceeds were used to fund improvements throughout the City.

The City had no conduit debt obligations at December 31, 2006.

Compensated absences have been liquidated from the General Fund in the past.

### Changes in long-term liabilities

Long-term liability activity for the year ended December 31, 2006 was as follows:

<b>Governmental Activities</b>	<b>Beginning Balance</b>	<b>Additions</b>	<b>Reductions</b>	<b>Ending Balance</b>	<b>Due Within One Year</b>
Bonds Payable					
General Obligation Bonds	\$1,535,000	\$0	(\$230,000)	\$1,305,000	\$240,000
Compensated Absence	185,413	85,684	(121,406)	149,691	106,539
Governmental Activity Long-term Liabilities	<u>\$1,720,413</u>	<u>\$85,684</u>	<u>(\$351,406)</u>	<u>\$1,454,691</u>	<u>\$346,539</u>

## Debt Service Requirements to Maturity

Year End	Principal	Interest	Total
2007	240,000	51,305	291,305
2008	250,000	41,135	291,135
2009	260,000	30,295	290,295
2010	270,000	18,765	288,765
2011	285,000	6,413	291,413
Total	<u>\$1,305,000</u>	<u>\$147,913</u>	<u>\$1,452,913</u>

## V. Other information

### A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; error and omissions; injuries to employees and natural disasters. During 2006, the City contracted with Miami Valley Risk Management Association for vehicle, property and general liability insurance. There has been no reduction in coverage from the prior years and claims have not exceeded coverage in any of the past three years. The City provided medical insurance through Humana Health Insurance, dental insurance through Dental Care Plus and life insurance through Humana Health Insurance.

#### Insurance Pool

Miami Valley Risk Management Association, Inc. (MVRMA, Inc.) is a consortium of municipalities located in southwest Ohio which, beginning in 1988, formed an Association under Section 2744.081 of the Ohio Revised Code (ORC) to act collectively in addressing its members' risk management and risk financing needs. At December 31, 2006, Madeira's participation was limited to coverage for all property, crime liability, boiler and machinery and public official liability up to the limits stated below. MVRMA provides broad-based coverage, through self-insurance and commercial reinsurance, up to the limits stated below, with increased emphasis on safety and loss prevention and to create an opportunity for other local governments to participate.

MVRMA, Inc. is a corporation governed by a board of trustees, consisting of a representative appointed by each of the member cities. The board of trustees elects the officers of the corporation, with each trustee having a single vote. The board is responsible for its own financial matters and the corporation maintains its own books of account. Budgeting and financing of MVRMA, Inc. is subject to the approval of the board. The City of Madeira does not hold an equity interest in MVRMA, Inc.

The following is a summary of insurance coverage at year end:

General Liability	\$7,000,000/occurrence
Automobile Liability	\$7,000,000/occurrence MVRMA coverage: \$2 million/occurrence with \$1 million excess \$1 million reinsured by Government Entities Mutual Inc. (GEM) Excess insurance: \$5 million/occurrence excess \$2 million insured by Illinois Union Insurance Co. (ACE) - Annual Aggregate \$15 million per member
2. Police Professional Liability	MVRMA coverage: 2 million/occurrence with \$1 million excess \$1 million reinsured by Government Entities Mutual Inc. (GEM) Excess insurance: \$5 million/occurrence excess \$2 million insured by Illinois Union Insurance Co. (ACE) - Annual aggregate \$10 million per member*
3. Employment Practices Liability and Public Officials Liability	MVRMA coverage: \$2million/occurrence and annual aggregate per member with \$1 million excess \$1 million reinsured by GEM Excess insurance: \$5 million/occurrence excess \$2 million insured by Illinois Union Insurance Co. (ACE) - Annual aggregate 10 million per member
4. Property	\$1 billion/occurrence MVRMA SIR: \$200,000 occurrence Coverage excess SIR provided by PEPPIP USA with carriers as follows: Lexington Insurance Company (Primary \$10 million) Excess carriers (\$990 million excess \$10 million): AXIS Specialty Insurance Corp. Lloyds of London Great Lakes Commonwealth Ins. Co. Essex Insurance Corp. Arch Insurance Insurance Company of the West
5. Boiler & Machinery (included in PEPPIP Program)	\$100,000,000 per occurrence MVRMA SIR: \$5,000/occurrence Coverage excess SIR provided by Continental Casualty

	Flood (included in property policy)	\$25 million/occurrence and annual aggregate (Flood Zone A & V - \$5million/occurrence and annual aggregate) MVRMA SIR: \$100,000/occurrence excluding Flood Zones A & V MVRMA SIR: \$25,000/occurrence Flood Zones A & V
7.	Earthquake (included in property policy)	\$25,000,000/occurrence and annual aggregate MVRMA SIR: \$100,000/occurrence

\*Note: Police Professional, Employment Practices & Public Officials Liability are combined in a single aggregate limit of \$10 million per member by Illinois union Insurance Co. (ACE)

The deductible per occurrence for all types is \$2,500.

MVRMA prepares annual financial statements. Additional information can be obtained from their Comprehensive Annual Financial Report for 2006 by writing MVRMA, 1450 E. David Road, Suite 1B, Kettering, OH 45429-5706.

The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs. In order to lower rates charged to the City, the City has joined a group rating program through Ohio Municipal League.

**B. Contingent liabilities**

The City is of the opinion that ultimate disposition of claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

**C. Contractual commitments**

The City contracts with the Madeira/Indian Hill Joint Fire District for fire protection and emergency medical services. The contract fee for 2006 was \$1,198,200.

The City also contracts with CSI for solid waste collection. The contract fee for 2006 was \$393,576.

Health Department services are provided through Hamilton County. The cost of \$14,819 was deducted from property tax receipts collected by the County.

**D. Resolution of legal claim**

In March 1992, an employee of the City suffered a fatal accident while working on City business. In February of 1993, Council approved Resolution 10-93 which approved an agreement concerning a settlement with the employee's widow. The settlement provided for a guaranteed amount of \$88,400, payable to the widow (or her estate) in monthly installments of \$737 from February of 1993 through February of 2003. The guaranteed amount was paid off in February of 2003 and no liability exists at December 31, 2006 relative to the guaranteed settlement.

In addition, the agreement provided for monthly payments of \$650 to the widow after February of 2003, contingent upon death or remarriage. The City made all such required payments to the widow from January through December 2006.

**E. Employee retirement systems and pension plans**

Ohio Public Employees Retirement System

The City contributes to the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-

employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self directed by the member, accumulate retirement assets in a manner similar to the member directed plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional and combined plans. Members of the member directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-6705.

The Ohio Revised Code provides statutory authority for employee and employer contributions. Plan members are required to contribute at an actuarially determined rate of 9.0% of covered salary. The 2006 employer pension contribution rate for the City was 13.70% of covered payroll. The City's required contributions for pension obligations for the years ending December 31, 2006, 2005 and 2004 were \$93,594, \$94,615, and \$87,573, respectively, equal to the required contributions each year.

#### Ohio Police and Fire Pension Fund

The City of Madeira contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10% of their annual covered salary to fund pension obligations while employers are required to contribute 19.5% for police officers. Contributions are authorized by state statute. The City's contributions to OP&F for the years ended December 31, 2006, 2005, and 2004 were \$162,279, \$141,387, and \$136,814, respectively, equal to the required contributions each year.

#### **F. Other Postemployment benefits**

##### Public Employees Retirement System

The Ohio Public Employees Retirement System (OPERS) provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit with either the traditional or combined plans. Health care coverage for disability recipients and primary survivor recipients is available. Members of the member-directed plan do not qualify for postretirement health care coverage. The health care coverage

provided by the retirement system is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 12. A portion of each employer's contribution to the traditional or combined plans is set aside for the funding of post retirement health care based on authority granted by State statute. The 2006 local government employer contribution rate was 13.70% of covered payroll; of that amount 4.5% was the portion that was used to fund health care for 2006.

Benefits are advance-funded using the entry age normal cost method. Significant actuarial assumptions, based on OPERS's latest actuarial review performed as of December 31, 2005, include a rate of return on investments of 6.5%, an annual increase in active employee total payroll of 4.0% compounded annually (assuming no change in the number of active employees) and an additional increase in total payroll of between .50% and 6.30% based on additional annual pay increases. Health care costs were assumed to increase at the projected wage inflation rate plus an additional factor ranging from .5 to 6% for the next 9 years. In subsequent years (10 and beyond) health care costs were assumed to increase at 4% (the projected wage inflation rate).

All investments are carried at market. For actuarial valuation purposes, a smoothed market approach is used. Assets are adjusted to reflect 25% of unrealized market appreciation or depreciation on investment assets annually.

The number of active contributing participants was 369,214. The City's actual contributions for 2006 which were used to fund postemployment benefits were \$53,309. The actual contribution and the actuarially required contribution amounts are the same. OPERS's net assets available for payment of benefits at December 31, 2005, (the latest information available) were \$11.1 billion. The actuarially accrued liability and the unfunded actuarial accrued liability were \$31.3 billion and \$20.2 billion, respectively.

On September 9, 2004, the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. The HCPP restructures OPERS' health care coverage to improve the financial solvency of the fund in response to skyrocketing health care costs.

Under the HCPP, retirees eligible for health care coverage will receive a graded monthly allocation based on their years of service at retirement. The Plan incorporates a cafeteria approach, offering a broad range of health care options that allow benefit recipients to use their monthly allocation to purchase health care coverage customized to meet their individual needs. If the monthly allocation exceeds the cost of the options selected, the excess is deposited into a Retiree Medical Account that can be used to fund future health care expenses.

#### Ohio Police and Fire Pension Fund

The Ohio Police and Fire Pension Fund (OP&F) provides post-retirement health care coverage to any person who received or is eligible to receive a monthly benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child

under the age of 18 whether or not the child is attending school or under the age of 22 if attending school full-time or on a two-thirds basis.

The health care coverage provided by the retirement system is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 12. The Ohio Revised Code 742 provides the authority allowing the Ohio Police and Fire Pension Fund's board of trustees to provide health care coverage and states that health care costs paid from the Ohio Police and Fire Pension Fund shall be included in the employer's contribution rate. Health care funding and accounting is on a pay-as-you-go basis. The total police employer contribution rate is 19.5% of covered payroll, of which 7.75% of covered payroll was applied to the postemployment health care program during 2006. In addition, since July 1, 1992, most retirees have been required to contribute a portion of the cost of health care coverage through a deduction from their monthly benefit payment. Beginning in 2001, all retirees and survivors have monthly health care contributions.

The City's actual contributions for 2006 that were used to fund postemployment benefits were \$64,425. The OP&F's total health care expenses for the year ended December 31, 2005, (the latest information available) were \$108,039,449, which was net of member contributions of \$55,271,881. The total number of participants eligible to receive health care benefits as of December 31, 2005 were 13,922 for police.

## **Nonmajor Governmental Funds Special Revenue Funds**

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Street Repair: Required by the Ohio Revised Code to account for that portion of the state gasoline tax and motor vehicle registration fees designated for maintenance of streets within the City.

Recreation and Parks: Accounts for the City's operation of recreation programs and improvements to the City's two parks, Sellman and McDonald Commons. Revenues are derived from recreation fees.

Street Dance: Accounts for the annual Street Dance held in August by the Recreation and Parks Commission. Revenues are proceeds from the sale of beer at the function.

Police Trust Fund: Receives proceeds from the sale of confiscated properties (vehicles, weapons, etc.) other than from drug cases. Disbursements may be made from the fund only to pay the costs of investigations, technical training, matching funds for federal grants or other appropriate law enforcement purposes.

Police Forfeitures: Receives proceeds from the sale of confiscated properties and equipment from drug related cases. Expenditures may only be made for drug enforcement programs.

DUI: Receives fines imposed upon DUI offenders. Under state law, disbursements may be made from this fund for law enforcement purposes related to informing the public of laws governing the operation of a motor vehicle while under the influence of alcohol, and other information relating to the operation of a motor vehicle and the consumption of alcoholic beverages.

Computer Fund: Receives fines for the operation and maintenance of the computer system for the police department.

State & Federal Grants Fund: To receive grants from State & Federal Government Programs.

## **Capital Projects Funds**

Veteran's War Memorial Fund: Accounts for collection of public donations for the construction of the Veteran's Memorial at McDonald Commons.

Stormwater: Accounts for expenditures made to repair and replace parts of the City's stormwater system.

Central Business District: Accounts for expenditures made for the repair and improvement of Madeira's central business district.

CI&R: Accounts for capital expenditures made for all general improvement projects not funded elsewhere.

-98-

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal. The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. For collection year 2006 both types of general business tangible personal property were assessed at 18.75 percent. The percentage will be 12.5 percent for 2007, 6.25 percent for 2008 and zero for 2009.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

Notes: The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year. The City's basic property tax rate may be increased only by a majority vote of the City's residents.

Charter millage is consistently applied to all types of property.

The real property tax rates for the voted levies of the overlapping taxing districts are reduced so that inflationary increases in value do not generate additional revenue.

Overlapping rates are those of local and county governments that apply to property owners within the City.
