INDEPENDENT ACCOUNTANTS' REPORT

Canton City School District Stark County 617 McKinley Avenue S.W. Canton, Ohio 44707

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Canton City School District, Stark County, Ohio, (the District), as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Canton City School District, Stark County, Ohio, as of June 30, 2007, and the respective changes in financial position and where applicable, cash flows, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated April 11, 2008, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Canton City School District Stark County Independent Accountants' Report Page 2

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The Federal Awards Receipts and Expenditures Schedule is required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-profit Organizations,* and is not a required part of the basic financial statements. We subjected the Federal Awards Receipts and Expenditure Schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Mary Jaylo

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

The management's discussion and analysis of Canton City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2007. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2007 are as follows:

- In total, net assets increased \$.148 million. Net assets of governmental activities increased \$.850 million, which represents a 0.55% increase from 2006. Net assets of business-type activities decreased \$.702 million or 19.48% from 2006.
- General revenues for governmental activities, accounted for \$91.877 million in revenue or 72.31% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$35.181 million or 27.69% of total governmental activities revenues of \$127.058 million.
- The District had \$126.208 million in expenses related to governmental activities; only \$35.181 million of these expenses were offset by program specific charges for services or grants and contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$91.877 million were adequate to provide for these programs.
- The District's major governmental funds are the general fund, debt service fund and classroom facilities fund. The general fund had \$94.584 million in revenues and \$93.066 million in expenditures and other financing uses. The general fund's fund balance increased \$1.485 million from a deficit of \$8.534 million to a deficit of \$7.049 million.
- The debt service fund had \$4.483 million in revenues and other financing sources and \$3.479 million in expenditures. The debt service fund's fund balance increased \$1.004 million from \$8.695 million to \$9.699 million.
- The classroom facilities fund had \$1.961 million in revenues and \$12.872 million in expenditures. The classroom facilities fund's fund balance decreased \$10.911 million from \$26.133 million to \$15.222 million.
- The District's two nonmajor enterprise funds are the food service fund and adult education fund. The food service fund had \$4.658 million in revenues and \$5.148 million in expenses. The food services fund net assets decreased \$.490 million from \$2.631 million to \$2.141 million.
- The District's other nonmajor enterprise fund is the adult education fund. The adult education fund had \$1.393 million in revenues and \$1.605 million in expenses. The adult education fund net assets decreased \$.212 million from \$.972 million to \$.760 million.

Using the Basic Financial Statements (BFS)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

The *Statement of Net Assets* and *Statement of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund, debt service fund and classroom facilities fund are by far the most significant funds, and the only governmental funds reported as major funds.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2007?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include *all assets, liabilities, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the District is divided into two distinct kinds of activities:

<u>Governmental Activities</u> - Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

<u>Business-Type Activities</u> - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The District's adult education programs and food service operations are reported as business-type activities.

The District's statement of net assets and statement of activities can be found on pages 15-18 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page 10. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund, debt service fund and classroom facilities fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term* view of the District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* are reconciled in the financial statements. The basic governmental fund financial statements can be found on pages 19-24 of this report.

Proprietary Funds

Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match information provided in the statements for the District as a whole. The basic proprietary fund financial statements can be found on pages 25-28 of this report.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private purpose-trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in two agency funds. The District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets on pages 29 and 30. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the governmentwide and fund financial statements. These notes to the basic financial statements can be found on pages 31-66 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

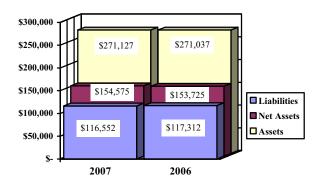

The District as a Whole

The Statement of Net Assets provides the perspective of the District as a whole. The table below provides a summary of the District's net assets for 2007 and 2006.

	Ant Assets (Amounts in 000 s)											
		Governmental Activities		ctivities	Business-Type Activities				Total			
		2007		2006		2007		2006		2007		2006

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

Governmental Activities

The net assets of the District's governmental activities increased \$.850 million. Total governmental expenses of \$126.208 million were offset by program revenues of \$35.181 million and general revenues of \$91.877 million. Program revenues supported 27.88% of the total governmental expenses. The increase in governmental activities net assets is primarily due to the reduction of expenses namely in the area of personnel costs and operations and maintenance. The District has been forced to reduce the work force due to the failure of an 8.0 mill operating levy in May 2007 coupled with economic factors that have resulted in relatively flat revenues. In addition to other personnel cuts, during fiscal year 2007, the District eliminated 6 administrative positions resulting is savings of over \$611,000. Although operations and maintenance expenses tend to increase from year to year, the decrease in operations and maintenance expenses from 2006 to 2007 was due to a decrease in the amount of non-capitalized purchases (items that do not meet the District's capitalization threshold) in 2007 versus 2006. This correlates with the District's budget cuts which called for cost cutting measures in 2007. The operations and maintenance expenses for 2007 compare to those incurred in fiscal year 2005 (two fiscal years ago).

The primary sources of revenue for governmental activities are derived from property taxes and grants and entitlements. These two revenue sources represent 70.23% of total governmental revenue. Real estate property is reappraised every six years. The graph below presents the District's governmental activities revenue and expenses for fiscal years 2007 and 2006.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2007 and 2006. That is, it identifies the cost of these services supported by tax revenue and restricted State grants and entitlements. "Net cost of services" for special instruction and vocational instruction for 2006 have been restated to conform to 2007 presentation.

Governmental Activities (Amounts in 000's)

Total expenses	<u>\$ 126,208</u>	<u>\$ 91,027</u>	<u>\$ 130,710</u>	<u>\$ 100,584</u>

The dependence upon general revenues during fiscal year 2007 for governmental activities is apparent, as 70.58% of 2007 instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 72.12% in 2007. The District's taxpayers, as a whole, are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2007 and 2006. Both general and program revenues for 2006 have been restated to conform to 2007 presentation.

Governmental Activities - General and Program Revenues (Amounts in 000's)

Business-Type Activities

Business-type activities include adult education and the food service operation. These programs had revenues of \$6.051 million and expenses of \$6.753 million for fiscal year 2007. During fiscal year 2007, the District was taking steps to increase revenues. The District's business-type activities receive no support from tax revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 19) reported a combined fund balance of \$21.225 million, which is below last year's total of \$29.088 million. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2007 and 2006 (amounts in 000's).

	Fund (de June 3			d Balance deficit) 2 30, 2006	Increase (Decrease)		
General	\$	(7,049)	\$	(8,534)	\$	1,485	
Debt Service		9,699		8,695		1,004	
Classroom Facilities		15,222		26,133		(10,911)	
Other Governmental		3,353		2,794		559	
Total	\$	21,225	\$	29,088	\$	(7,863)	

Other Governmental Funds

The fund balance of the other governmental funds increased \$559,000. The fund balance of the Classroom Facilities Maintenance fund and the IDEA Part B fund increased \$568,000 and \$457,000, respectively, primarily due to increased revenues received in 2007 versus 2006. The fund balance of the Poverty Aid fund and Title I fund decreased \$313,000 and \$500,000, respectively, as the expenditures incurred outpaced the increase in funding received for these programs. In addition, the fund balance of the permanent improvement fund increased \$369,000 as the District implemented cost cutting measures and reduced the amount of capital improvements for 2007.

General Fund

The District's general fund balance increased \$1.485 million. The table below assists in illustrating the financial activities and fund balance of the general fund (amounts in 000's).

	2007 Amount		2006 Amount		Increase (Decrease)		Percentage Change
Revenues							
Taxes	\$	29,285	\$	32,830	\$	(3,545)	(10.80) %
Interest earnings		977		1,006		(29)	(2.88) %

Intergovernmental pass through		-		10		(10)	(100.00) %
Debt Service		298		288		10	3.47 %
Total	\$	92,191	\$	93,759	\$	(1,568)	(1.67) %

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

The decrease in tax revenue is due primarily to approximately \$2.1 million less in cash tax collections in fiscal year 2007 versus 2006 coupled with approximately \$1.0 million less in tax revenue being available for an advance from the Stark County auditor at June 30, 2007 versus 2006. On a GAAP basis, tax revenue collected by the Stark County Auditor and available as an advance at fiscal year end is recorded as revenue. The amount of tax revenue collected by the County Auditor and available as an advance can vary depending upon when tax bills are sent.

The decrease in investment income is due to the fluctuation in the fair market value of applicable investments coupled with adjustments recorded to accrue the interest earnings in the proper fiscal year. Actual cash basis interest revenue increased approximately \$584,000 from fiscal year 2006; however, the GAAP adjustments to record investments in federal agency securities and U.S. Treasury notes at their fair market value at June 30, 2007 and to adjustments to accrue interest earnings into the fiscal year they were earned resulted in investment earnings for 2007 being less than 2006.

Intergovernmental revenue, primarily in the form of State Foundation, increased \$1.093 million from fiscal year 2006. Other revenues consist primarily of tuition, rental income and charges for services. Tuition revenue increased approximately \$963,000 over the prior year resulting in the overall increase to the other revenues line item. Tuition revenue includes approximately \$629,000 due from other school districts for fiscal year 2007 has been accrued as a receivable and revenue at June 30, 2007. All other revenue remained comparable to 2006.

Instruction expenditures decreased 3.33% and represented the largest expenditure item of the District. Instruction expenditures continue to decrease as the District continues to implement budget cuts in the area of personnel costs. The District has implemented a retirement incentive program (RIP) and a health care reimbursement arrangement (HRA) to attract eligible employees to retire. As of June 30, 2007, 147 employees have retired under the RIP and HRA. The reduction of these employee's personnel costs have directly resulted in the decrease in instruction expenditures. All other expenditure line items remained comparable to fiscal year 2006.

Debt Service Fund

The District's debt service fund balance increased by \$1.004 million, due to transfers in during 2007. The table that follows assists in illustrating the financial activities and fund balance of the debt service fund (amounts in 000's).

		2007 <u>mount</u>	2006 <u>mount</u>	ncrease ecrease)	Percentage Change
<u>Revenues</u> Taxes Interest earnings Intergovernmental	\$	2,658	\$ 4,376 7 348	\$ (1,718) (7) (30)	(39.26) % (100.00) % (8.62) %
Total	\$	2,976	\$ 4,731	\$ (1,755)	(37.10) %
Expenditures Debt Service: Principal retirement Interest and fiscal charges	\$	1,860 1,619	\$ 2,270 1,868	\$ (410) (249)	(18.06) % (13.33) %
Total	<u>\$</u>	3,479	\$ 4,138	\$ (659)	(15.93) %

The debt service fund received transfers in of \$414,000 and \$1.093 million from the general fund and permanent improvement fund (a nonmajor governmental fund), respectively, during fiscal year 2007. These transfers in resulted in the debt service fund balance increase of \$1.004 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

Classroom Facilities Fund

The District's classroom facilities fund balance decreased \$10.911 million. The table that follows assists in illustrating the financial activities and fund balance of the classroom facilities fund (amounts in 000's).

	2007 Amount		2006 Amount		Increase (Decrease)		Percentage Change	
Revenues					<u></u>			
Interest earnings	\$	1,298	\$	1,232	\$	66	5.36 %	
Intergovernmental		663		3,766		(3,103)	(82.40) %	
Total	\$	1,961	\$	4,998	\$	(3,037)	(60.76) %	
<u>Expenditures</u>								
Facilities acquisition and construction	\$	12,872	\$	26,701	\$	(13,829)	(51.79) %	
Total	\$	12,872	\$	26,701	\$	(13,829)	(51.79) %	

Intergovernmental revenue decreased \$3.103 million from the prior year. This decrease is attributed to a decrease in the State share of funding under the Ohio Schools Facilities grants. Expenditures for the building projects decreased in 2007 versus 2006. The increase in investment income is due to fluctuations in the fair market value of applicable investments. Actual interest received on a cash basis during fiscal year 2007 was \$.963 million.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2007, the District amended its general fund budget numerous times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. For the general fund, final budgeted revenues and other financing sources were \$101.925 million, above original budget estimates of \$95.440 million. The actual revenues and other financing sources were \$100.730 million, which was \$1.195 million lower than the final budget revenues. The variance between the original budgeted revenues, final budgeted revenues and actual revenues is in the area of advances which are other financing sources that are not required to be budgeted. The increase in the original budgeted revenues for intergovernmental-state versus the final budgeted revenues for intergovernmental-state was due to conservative budgeting for intergovernmental revenues received from the State of Ohio in the original budget. Final budgeted intergovernmental-state revenues approximated actual revenues received. General fund original appropriations and other financing uses of \$98.256 million were increased to \$104.186 million in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2007 totaled \$100.535 million, which was \$3.651 million less than final budgeted appropriations, primarily due to overall decreases among the various expenditure line items including instructional activities. The general fund had advances out and advances in of \$2.697 million and \$3.479 million, respectively. Advances in and out are not required to be budgeted. Advances are used to cover costs in specific funds where revenues are not received by June 30. On a GAAP basis, advances outstanding at year-end are recorded as receivables and payables in the respective funds.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2007, the District had \$188.616 million invested in land, land improvements, buildings and improvements, furniture and equipment, vehicles and construction in progress (CIP). Of this total, \$188.374 million was reported in governmental activities and \$.242 million was reported in business-type activities. The following table shows fiscal year 2007 balances compared to 2006:

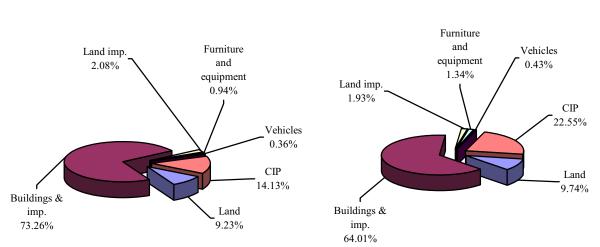

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

Capital Assets at June 30 (Net of Depreciation) (Amounts in 000's)

	_	Governmental Activities			<u> </u>	siness-Typ	e Activ	ities	Total

Total	\$	188,374	\$	177,605	\$	242	\$	230	\$	188,616	<u>\$</u>	177,835

Total additions to governmental activities capital assets for 2007 were \$15.441 million. Governmental activities depreciation expense for fiscal year 2007 was \$4.672 million. Overall, governmental activities capital assets of the District increased \$10.769 million.

The following graphs show the breakdown of total capital assets by category for 2007 and 2006.

Capital Assets - 2007

Capital Assets - 2006

See Note 8 to the basic financial statements for additional information on the District's capital assets.

Debt Administration

At June 30, 2007 the District had \$52.332 million in general obligation bonds, notes and capital lease obligations outstanding. Of this total, \$2.109 million is due within one year and \$50.223 million is due within greater than one year.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (UNAUDITED)

The following table summarizes the governmental activities bonds, notes and leases outstanding.

Outstanding Debt, at Year End (Amounts in 000's)

	Balance	Balance		
	June 30, 2007	June 30, 2006		
General obligation bonds	\$ 45,361	\$ 45,655		
Notes payable	6,020	7,280		
Capital lease obligation	951	1,277		
Total	<u>\$ 52,332</u>	\$ 54,212		

See Note 10 to the basic financial statements for additional information on the District's debt administration.

Current Financial Related Activities

Declining enrollment continues to be the District's number one problem. Canton City Schools continues to lose approximately 200 students annually. The main reasons for this appear to be students switching to charter schools and people moving out of the District. This is the eighth straight year that enrollment has declined. The total number of students lost in those eight years is approximately 2,450. Community schools have dramatically impacted many school districts in Ohio. During fiscal year 2007, the District estimates that \$7 million in state funding revenue was lost to community schools. The District receives approximately \$5,500 per pupil in the current State funding formula.

The number two problem is that the State of Ohio continues to fund schools well below historical levels. The state's financial problems have had a very negative effect on school districts throughout Ohio. Unless the unconstitutional state funding system is fixed, the District will be forced to continue with budget cuts and layoffs as they have for the past four years (fiscal years 2004, 2005, 2006 and 2007). Budget cuts have been reflected in the fiscal year 2008 budget. The District has cut 239 employees from it's payroll since 2003.

The District did pass a 7.9 mill operating levy on March 2, 2004. This levy increased revenues by \$6.8 million per year beginning January 1, 2005. However, due to the District's cash flow situation the District borrowed \$3.4 million in June of 2004 in anticipation of these future collections. The note will be repaid over a five year period. The District placed an 8.0 mill continuing operating levy on the ballot in May 2007. This ballot was rejected by the voters. Had the voters approved the levy, it would have generated approximately \$6.5 million annually for the District's general operating expenses. Since the levy did not pass, the District is forced to continue with budget cuts in efforts to avoid being declared in Fiscal Watch by the Ohio Department of Education.

The \$176 million school facility projects are proceeding on time and on budget. The Ohio School Facilities Commission (OSFC) has raised some concerns about the District's declining enrollment. The District however is well aware of the problem and would prefer to continue with the new buildings as scheduled and deal with the declining enrollment issue by closing older buildings. The District's legal counsel believes that there is no legal basis for the OSFC to halt any of the planned construction; however, the District and the OSFC have agreed not to renovate the Souers Middle School as originally planned, which will reduce the overall project under the OSFC by approximately \$8 million.

Contacting the District's Financial Management

This financial report is designed to provide our citizen's, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mr. Tim Pickana, Treasurer, Canton City School District, 617 McKinley Avenue SW, Canton, Ohio 44707.

CANTON CITY SCHOOL DISTRICT STARK COUNTY, OHIO RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2007 (AMOUNTS IN 000's)

Net change in fund balances - total governmental funds	\$	(7,830)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation expense in the current period. Capital asset additions Current year depreciation Total	\$ 15,441 (4,672)	10,769
Governmental funds report expenditures for inventory when purchased, however, in the statement of activities, they are reported as expenditures when consumed.		(33)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(2,778)
Repayment of long-term principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net assets. The following principal payments were made in the fiscal year: Bonds Notes Capital lease obligations Total	 600 1,260 325	2,185
In the statement of activities, interest is accrued on outstanding bonds and notes, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in increased interest being reported on the statement of activities: Accreted interest on "capital appreciation" bonds Amortization of bond and note issuance costs Amortization on bond and note premiums Amortization of deferred charge on refunding Total	 (306) (30) 154 (124)	(306)
Some expenses reported in the statement of activities, such as the long-term portion of compensated absences and the health reimbursement arrangement payable do not require the use of current financial resources and therefore are not reported as as expenditures in governmental funds.		(1,435)
The internal service funds used by management to charge the costs of workers' compensation and warehouse services to individual funds are not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service funds revenues are eliminated. The net revenue of the internal service funds are allocated among the governmental activities.		278
Change in net assets of governmental activities	\$	850

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Canton City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District operates under a locally elected five-member Board of Education and is responsible for the provision of public education to residents of the District. The Board oversees the operations of the District's twenty-four instructional/support facilities.

The District ranks as the 14th largest by enrollment among the 876 public school districts and community schools in the State of Ohio. The District employs 632 non-certified and 936 certified employees to provide services to approximately 10,403 students and community groups.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The District has the option to also apply FASB Statements and Interpretations issued after November 30, 1989 to its business-type activities and enterprise funds, subject to this same limitation. The District has elected not to apply these FASB Statements and Interpretations. The most significant of the District's accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". When applying GASB Statement No. 14, management has considered all potential component units. Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the debt, the issuance of debt, or the levying of taxes. Based upon the application of these criteria, the District has three component units. The financial statements of the reporting entity include those of the District (the primary government) and the three component units. In addition, the District is involved in the following educational agreement:

Comprehensive Collaborative Agreement ("CCA")

The CCA is an agreement between six schools in Stark County to provide comprehensive educational programs that offer students of the participating districts enhanced educational opportunities. Each participating district has one representative on an Oversight Committee that discusses issues and reviews decisions regarding programs established through the CCA. The CCA expires June 30, 2008.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following component units and other organizations are described due to their relationship to the District:

COMPONENT UNITS

The Canton City Schools Digital Academy

The Canton City Schools Digital Academy (the "Digital Academy") is a legally separate, conversion community school, served by a Board of Directors. The Digital Academy provides students within the District with curriculum and instruction via distance learning technology. The Board of Directors consists of the District's Assistant to the Superintendent-Elementary Instruction, the District's Director of Special Education, the District's Director of Instructional Technology and Assessment and two additional Board members appointed by the District. The Canton City School District is the sponsoring School District of the Digital Academy under Ohio Law Section 3314. The Superintendent of the District serves as the Chief Administrative Officer of the Digital Academy and the Treasurer serves as the Chief Financial Officer. Based on the significant services provided by the District to the Digital Academy, the Academy's purpose of servicing the students within the District, and the relationship between the Board of Education of the District and the Board of Directors of the Digital Academy is reflected as a component unit of the District. Separately issued financial statements can be obtained from the Treasurer of the Digital Academy at 617 McKinley Avenue SW, Canton, Ohio 44707.

The Canton Academy Community School

The Canton Academy Community School (the "Academy") is a legally separate, conversion community school, served by a Board of Directors. The Academy is designed to meet the academic and mental health needs of high school students, grades 9 through 12, ages 14 through 22, who are unsuccessful in the traditional educational setting. Typically, they are identified as students with special needs or are "at highest risk" for academic failure. The Board of Directors consists of one member from each of the following organizations: Stark County Community Mental Health Board, Stark County Family Council, City of Canton, Stark County Department of Jobs and Family Services and Canton City Schools. The Canton City School District is the sponsoring School District of the Academy under Ohio Law Section 3314. The Superintendent of the District serves as the Chief Financial Officer. Based on the significant services provided by the District to the Academy, the Academy's purpose of servicing the students within the District, and the relationship between the Board of Education of the District and the Board of Directors of the Academy, the Academy is reflected as a component unit of the District. Separately issued financial statements can be obtained from the Treasurer of the Academy at 617 McKinley Avenue SW, Canton, Ohio 44707.

The Canton Arts Academy Community School

The Canton Arts Academy Community School (the "Arts Academy") is a legally separate, conversion community school, served by a Board of Directors. The Arts Academy is designed to meet the academic and mental health needs of students, grades 3 through 8, ages 9 through 14, who have an interest in visual and music arts. The Arts Academy operates under the direction of a Board of Directors that include as voting members one person serving as the representative of the District. In addition, the voting members of the Board of Directors shall include not more than six other persons who are neither officers nor employees of the District. No person may become a voting member of the Board of Directors without prior approval of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The Canton City School District is the sponsoring School District of the Arts Academy under Ohio Law Section 3314. The Superintendent of the District serves as the Chief Administrative Officer of the Arts Academy and the Treasurer serves as the Chief Financial Officer. Based on the significant services provided by the District to the Arts Academy, the Arts Academy's purpose of servicing the students within the District, and the relationship between the Board of Education of the District and the Board of Directors of the Arts Academy, the Arts Academy is reflected as a component unit of the District. Separately issued financial statements can be obtained from the Treasurer of the Arts Academy at 617 McKinley Avenue SW, Canton, Ohio 44707.

JOINTLY GOVERNED ORGANIZATIONS

Canton Joint Recreation District

The District appoints two of the five members of the Canton Joint Recreation District (the "CJRD"). The CJRD manages recreational activities within the City of Canton at facilities owned by either the City of Canton or the District. The CJRD hires and fires its own staff and does not rely on the District to finance deficits. The District is not financially accountable for the CJRD nor is the CJRD financially dependent upon the District. The CJRD serves as its own budgeting, taxing and debt issuance authority. The District Treasurer is the Financial Advisor of the CJRD. The District paid maintenance fees of \$2,280 to the CJRD during fiscal year 2007. Complete financial statements can be obtained from the Canton Joint Recreation District at 1101 Market Avenue, Canton, Ohio 44702.

PUBLIC ENTITY RISK POOL

The Stark County Schools Council of Government (the "COG") is governed by an assembly which consists of one representative from each participating school district (usually the superintendent or designee). The assembly elects officers for one year terms to serve as the Board of Directors. The assembly exercises control over the operation of the COG. All COG's revenues are generated from charges for services. The COG has a Health Benefits Program which is a shared risk pool comprised of various entities, most of which are school districts.

B. Fund Accounting

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

GOVERNMENTAL FUNDS

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following are the District's major governmental funds:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund</u> - The debt service fund is used to account for the accumulation of resources and payment of general obligation bond principal and interest and certain long-term obligations from governmental resources when the government is obligated in some manner for payment.

<u>Classroom Facilities Fund</u> - This fund is used to account for monies received and expended in connection with contracts entered into by the District and the Ohio Department of Education for the building and equipping of classroom facilities.

Other governmental funds of the District are used to account for (a) financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary and trust funds; and (b) for grants and other resources whose use is restricted to a particular purpose.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. Proprietary funds consist of enterprise funds and internal service funds.

<u>Enterprise Funds</u> - The enterprise funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

The District's nonmajor enterprise funds are:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the District.

<u>Adult Education Fund</u> - This fund accounts for educational opportunities offered on a tuition basis to adults living within the community.

<u>Internal Service Funds</u> - The internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, or to other governments, on a cost-reimbursement basis. The internal service funds of the District are used to account for workers' compensation and warehouse service programs.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into two classifications: private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities and District agency services.

C. Basis of Presentation

<u>Government-wide Financial Statements</u> - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Private-purpose trust funds are reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting on the fund financial statements. Proprietary and fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Non-exchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

<u>Unearned Revenue and Deferred Revenue</u> - Unearned revenue and deferred revenue arise when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2007, but which were levied to finance fiscal year 2008 operations, and other revenues received in advance of the fiscal year for which they are intended to finance, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met and delinquent property taxes due at June 30, 2007 are recorded as deferred revenue.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities received during the year is reported as a nonoperating revenue (federal donated commodities) with a like amount reported as materials and supplies expense in the proprietary fund statements.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budget documents within an established timetable. The major documents prepared are the Alternate Tax Budget, the Certificate of Estimated Resources, and the Appropriations Resolution, all of which are prepared on the budgetary basis of accounting. All funds, other than agency funds, are required to be budgeted and appropriated. The legal level of budgetary control is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The Certificate of Estimated Resources and the Appropriations Resolution are subject to amendment throughout the year with legal restriction that appropriations cannot exceed estimated resources, as certified. The amounts reported as the original budgeted revenues in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted revenues in the budgetary statement reflect the amounts in the amended certificate that was in effect at the time the final appropriations were passed by the Board of Education. The amounts reported as the original budgeted expenditures reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted expenditures represent the final appropriation amounts passed by the Board during the year.

F. Cash and Investments

To improve cash management, cash received by the District, other than those reported in segregated accounts, is pooled. Monies for all funds, including proprietary and fiduciary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

During fiscal year 2007, investments were limited to federal agency securities, U.S. Treasury notes, repurchase agreements and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements, are reported at cost.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District has invested funds in STAR Ohio during fiscal year 2007. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2007.

Under existing Ohio statute, interest earnings are allotted to the general fund unless the Board of Education has, by resolution, specified funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2007 amounted to \$977,000 which includes \$798,000 assigned from other District funds.

Cash in segregated accounts represents monies held in depository accounts for construction retainage. These funds are held by the District until successful completion of the related construction project. These monies are held outside the District's internal investment pool.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year-end is provided in Note 4.

G. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a firstin, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Inventories of proprietary funds consist of donated food, purchased food, and school supplies held for resale and are expensed when used. Inventories for governmental funds are accounted for using the purchase method on the fund financial statements and using the consumption method.

H. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000 for its general capital assets. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of enterprise capital assets is capitalized.

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental Activities	Business-Type Activities
Description	Estimated Lives	Estimated Lives
Land improvements	20 years	N/A
Building/ improvements	25 - 50 years	N/A
Furniture/equipment	5 - 20 years	5 - 20 years
Vehicles	6 - 10 years	N/A

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances. The District had no internal balances at fiscal year-end.

J. Compensated Absences

Compensated absences of the District consist of vacation leave and severance liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, "<u>Accounting for Compensated</u> <u>Absences</u>", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for severance is accrued using the vesting method; i.e., the liability is based on the sick leave accumulated at the balance sheet date by those employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future. For purposes of establishing a liability for severance on employees expected to become eligible to retire in the future, all employees age fifty or greater with at least ten years of service were considered expected to become eligible to retire in accordance with GASB Statement No. 16.

The total liability for vacation and severance payments has been calculated using pay rates in effect at June 30, 2007, and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences and future retirement obligations that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and notes are recognized as a liability in the fund financial statements when due.

L. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, materials and supplies inventory, prepayments, textbooks/instructional materials, debt service, and property taxes unavailable for appropriation. The reserve for property taxes unavailable for appropriation represents taxes recognized as revenue under GAAP but not available for appropriation under state statute.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net assets restricted for other purposes represent monies restricted by State Statute for the purchase of textbooks/instructional materials (see Note 16).

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

N. Prepayments

Certain payments to vendors reflect the costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. These items are reported as assets on the financial statements using the consumption method. A current asset for the prepaid amounts is recorded at the time of the purchase and the expenditure/expense is reported in the year in which services are consumed.

O. Parochial Schools

Within the District boundaries are various parochial schools operated through the Catholic Diocese. Current state legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial school. The fiduciary responsibility of the District for these monies is reflected in a special revenue fund (a nonmajor governmental fund) for financial reporting purposes.

P. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Q. Restricted Assets

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. See Note 16 for further detail on the District's restricted assets at June 30, 2007 related to statutory reserves and see Note 10.C. for further detail on restricted assets related to QZAB sinking fund deposits maintained by the District.

R. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are tuition for adult education classes, sales for food service and charges for services for workers' compensation and warehouse service programs. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. All revenues not related to operating activities have been reported as nonoperating revenue.

S. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2007.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

Deficit Fund Balances

Fund balances at June 30, 2007 included the following individual fund deficits (amounts in 000's):

Major Funds	 Deficit alance
General	\$ 7,049
Nonmajor Governmental Funds	
Poverty Aid	1,155
District Managed Student Activities	217
Public School Preschool	213
Career Education	2
Adult Basic Education	19
Title I, Disadvantaged Children/Targeted Assistance	404
Vocational Education	3
Alternative Schools	17
Ohio Reads	11
Children's Trust	12

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities. These deficits should be eliminated by future intergovernmental revenues not recognized under GAAP at June 30.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim moneys are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time: and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Protection of District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash in Segregated Accounts

At June 30, 2007, the District had \$783,000 on deposit in retainage accounts related to various construction projects. This amount is included on the financial statements as "Cash in Segregated Accounts" and is included in deposits with financial institutions below.

B. Deposits with Financial Institutions

At June 30, 2007, the carrying amount of all District deposits was \$11.392 million, exclusive of the \$3.780 million repurchase agreement included in investments below. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2007, \$8.460 million of the District's bank balance of \$8.817 million was exposed to custodial risk as discussed below, while \$357,000 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

C. Investments

As of June 30, 2007, the District had the following investments and maturities (amounts in 000's):

		Investment Maturities									
Investment type	 lance at ir Value	6 n	nonths or less	7 to mon		13 to 1 month	-	19 to 24 months			ater than <u>months</u>
Repurchase Agreement	\$ 3,780	\$	3,780	\$	-	\$	-	\$	-	\$	-
STAR Ohio	6,224		6,224		-		-		-		-
FHLMC	1,992		1,992				-		-		-
FNMA	12,189		12,189		-		-		-		-
Treasury Notes	 6,897						-		-		6,897
	\$ 31,082	\$	24,185	\$	_	\$	_	\$	_	<u>\$</u>	6,897

The weighted average maturity of investments is 1.29 years.

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less. The District's investment policy limits investment in commercial paper to maturities of 180 days or less from the date of purchase.

Credit Risk: The District's investments in federal agency securities, the federal agency securities underlying the repurchase agreement, and the treasury notes were rated AAA and Aaa by Standard & Poor's and Moody's Investor Services, respectively. Standard & Poor's has assigned STAR Ohio an AAAm money market rating.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent but not in the District's name. Of the District's \$3.780 million investment in repurchase agreements, the entire balance is collateralized by underlying securities that are held by the investment's counterparty, not in the name of the District. Ohio law requires the market value of the securities subject to repurchase agreements must exceed the principal value of securities subject to a repurchase agreement by 2%. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk: The District investment policy places limits on the amount that may be invested in any one issuer. Investments in federal agency securities may not exceed 70% of the Districts portfolio at time of purchase. In addition, no more than 25% of investments in federal agency securities may be in callable agency securities. Investments in commercial paper may not exceed 25% of the District's portfolio at time of purchase.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

The following table includes the percentage of each investment type held by the District at June 30, 2007 (amounts in 000's):

Investment type	<u>Fa</u>	ir Value	<u>% of Total</u>
Repurchase Agreement	\$	3,780	12.16
STAR Ohio		6,224	20.02
FHLMC		1,992	6.41
FNMA		12,189	39.22
Treasury Notes		6,897	22.19
	\$	31,082	100.00

D. Reconciliation of Cash and Investment to the Statement of Net Assets

The following is a reconciliation of cash and investments as reported in the footnote above to cash and investments as reported on the statement of net assets as of June 30, 2007 (amounts in 000's):

Cash and Investments per note		
Carrying amount of deposits	\$	11,392
Investments	_	31,082
Total	\$	42,474

Cash and investments per Statement of Net Assets	
Governmental activities	\$ 39,514
Business type activities	2,649
Private-purpose trust funds	104
Agency funds	 207
Total	\$ 42,474

NOTE 5 - INTERFUND TRANSACTIONS

A. Interfund loans receivable/payable consisted of the following at June 30, 2007, as reported on the fund statements (amounts in 000's):

Receivable Fund	Payable Fund	Ar	nount
General Fund	Nonmajor Governmental Funds	\$	553
Nonmajor Governmental Funds	Nonmajor Governmental Funds		500
Bond Retirement	General		201
Bond Retirement	Nonmajor Governmental Funds		283
		\$	1,537

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 5 - INTERFUND TRANSACTIONS - (Continued)

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received.

The interfund balances between the nonmajor governmental funds represent an interfund loan from the Permanent Improvement fund to the Capital Projects fund to finance construction projects. This loan will be repaid as resources are received in the Capital Projects fund.

The interfund loan payable in the District Managed Student Activity special revenue fund (a nonmajor governmental fund) and the general fund of \$283,000 and \$201,000, respectively, represent the fiscal year-end balance of manuscript bonds that were issued by the Bond Retirement fund. A corresponding interfund loan receivable has been recorded in the Bond Retirement fund.

Interfund loans receivable/payable between governmental funds are eliminated for reporting on the statement of net assets. There are no internal balances between governmental activities and business-type activities at June 30, 2007.

B. Interfund transfers for the year ended June 30, 2007, consisted of the following, as reported on the fund statements (amounts in 000's):

	Amount
Transfers from general fund to:	
Nonmajor governmental funds	\$ 454
Debt service fund	414
Internal Service Fund	7
Transfers from nonmajor governmental funds:	
Debt service fund	1,093
Total	\$ 1,968

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

During fiscal year 2007, the District made a \$1.093 million transfer from the Permanent Improvement capital projects fund (a nonmajor governmental fund) to the debt service fund.

Interfund transfers between governmental funds are eliminated for reporting on the statement of activities. The internal service fund is consolidated with the governmental activities for reporting on the statement of activities. There were no transfers between governmental activities and business-type activities to report on the statement of activities at June 30, 2007.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 6 - PROPERTY TAXES - (Continued)

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2007 represents collections of calendar year 2006 taxes. Real property taxes received in calendar year 2007 were levied after April 1, 2006, on the assessed value listed as of January 1, 2006, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2007 represents collections of calendar year 2006 taxes. Public utility real and tangible personal property taxes received in calendar year 2007 became a lien December 31, 2005, were levied after April 1, 2006 and are collected in 2007 with real property taxes. Public utility real property is assessed at thirty-three percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar 2007 (other than public utility property) represents the collection of 2007 taxes. Tangible personal property taxes received in calendar year 2007 were levied after April 1, 2006, on the value as of December 31, 2006. For 2006, tangible personal property was assessed at 18.75% for property including inventory. This percentage was reduced to 12.5% for 2007 and will be reduced to 6.25% for 2008 and zero for 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phases out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property will be eliminated by calendar year 2009, and the tax on telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. The bill replaces the revenue lost by the District due to the phasing out of the tax. In calendar years 2006-2010, the District will be fully reimbursed for the lost revenue. In calendar years 2011-2017, the reimbursements will be phased out.

The District receives property taxes from Stark County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2007, are available to finance fiscal year 2007 operations. The amount available as an advance at June 30, 2007 was \$1.144 million in the general fund, \$136,000 in the debt service fund and \$50,000 in the permanent improvement capital projects fund (a nonmajor governmental fund). The amount that was available for advance at June 30, 2006 was \$1.782 million in the general fund, \$208,000 in the debt service fund and \$78,000 in the permanent improvement capital projects fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary depending upon when the tax bills are sent by the County Auditor.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2007 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to unearned revenue.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 6 - PROPERTY TAXES - (Continued)

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2007 taxes were collected are (amounts in 000's):

	2006 Second Half Collections			2007 First Half Collections			
		Amount	Percent	_	Amount	<u>P</u>	ercent
Agricultural/Residential							
and Other Real Estate	\$	669,813	76.15	\$	736,371		85.28
Public Utility Personal		45,780	5.20		44,862		5.20
Tangible Personal Property		163,955	18.65	_	82,197		9.52
Total	\$	879,548	100.00	\$	863,430		100.00
Tax rate per \$1,000 of assessed valuation:							
Operations	\$	60.10				\$	60.10
Debt service		3.50					3.30
Permanent improvement		2.00					2.00
Classroom maintenance		0.50					0.50

NOTE 7 - RECEIVABLES

Receivables at June 30, 2007 consisted of taxes, accounts (billings for user charged services and student fees), accrued interest, loans, amounts due from component units, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of federal funds. Principal items of receivables reported on the statement of net assets follows (amounts in 000's):

Governmental Activities	
Taxes	\$ 38,621
Accounts	348
Intergovernmental	3,186
Accrued interest	159
Due from component units	334
Total governmental activities	\$ 42,648
Business-Type Activities	
Intergovernmental	\$ 519
Accounts	1
Total business-type activities	<u>\$ 520</u>

Receivables have been disaggregated on the face of the basic finance statements. All receivables are expected to be collected within the subsequent year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 8 - CAPITAL ASSETS

A. Governmental Activities

Capital asset activity for the fiscal year-ended June 30, 2007, was as follows (amounts in 000's):

	Balance June 30, 2006	Additions	Deductions	Balance June 30, 2007
Governmental Activities	<u> </u>		Deddettelle	<u>eune e 0, 2007</u>
Capital assets, not being depreciated:				
Land	\$ 17,315	\$ 97	\$ -	\$ 17,412
Construction in progress	40,094	15,176	(28,625)	26,645

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 8 - CAPITAL ASSETS - (Continued)

B. Business-Type Activities

The June 30, 2006 balance of the capital assets for the business-type activities have been restated by \$40,000 to remove assets previously capitalized that were under the District's capitalization threshold. The cost of the business-type activities capital assets have been restated from \$947,000 to \$907,000 and the accumulated depreciation of the business-type activities capital assets have been restated from \$717,000 to \$677,000. The removal of the capital assets had no effect on the net assets of the business-type activities or the enterprise funds at June 30, 2006. Capital asset activity for the fiscal year-ended June 30, 2007, was as follows (amounts in 000's):

		stated lance					Ba	alance

Total depreciation expense	\$ 29

NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In prior fiscal years, the District entered into capital lease agreements for copier equipment, the acquisition of a stadium scoreboard and various stadium improvements. These leases meet the criteria of a capital lease as defined by FASB Statement No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee at the conclusion of the lease term. Capital lease payments have been reclassified and are reflected as debt service expenditures in the basic financial statements. These expenditures are reflected as program/function expenditures on a budgetary basis.

Governmental activities capital assets consisting of copier equipment, stadium scoreboard and stadium improvements have been capitalized in the amount of \$2.113 million. This amount represents the present value of the future minimum lease payments at the time of acquisition.

A corresponding liability is recorded on the statement of net assets. Principal and interest payments in the 2007 fiscal year totaled \$326,000 and \$63,000, respectively. These amounts are reported as debt service payments of the general fund, the permanent improvement fund (a nonmajor governmental fund) and the wells/fawcett stadium trust fund (a nonmajor governmental fund).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 9 - CAPITALIZED LEASES - LESSEE DISCLOSURE - (Continued)

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the future minimum lease payments as of June 30, 2007 follows (amounts in 000's):

Less: amount representing interest		(245)
Present value of minimum lease payments	\$	951

NOTE 10 - LONG-TERM OBLIGATIONS

A. During fiscal year 2001, the District issued Series 2000 general obligation bonds to provide long-term financing of the construction and renovation of various school buildings in accordance with the terms of a Facilities grant from the Ohio Schools Facilities Commission (OSFC). The total project (hereafter "Construction Project") encompasses the construction of nine new elementary schools, one new middle school, and a high school campus and the remodeling of five elementary schools, three middle schools and two high schools. These bonds are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Payments of principal and interest relating to this bond are recorded as an expenditure in the debt service fund. The source of payment is derived from a current 3.7 mills bonded debt tax levy.

These bonds represent the amount of the Construction Project that the District itself was required to finance, in accordance with the terms of a facilities grant from the OSFC. OSFC will make quarterly disbursements to the District as the project is completed.

In conjunction with the 3.7 mills which support the bond issue, the District also passed in fiscal year 2000 a 0.8 mill levy to fund land acquisition. Tax revenue from this levy had been reported in the capital projects fund (a nonmajor governmental fund).

During fiscal year 2005, the callable portion of the Series 2000 bonds were advance refunded (see Note 10.B). At June 30, 2007, current interest bonds with a par value of \$425,000 remained along with the capital appreciation bonds, par value \$1.685 million. The \$425,000 current interest bond is scheduled to mature on December 1, 2010 and bears an interest rate of 5.625%. The capital appreciation bonds mature at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. During fiscal year 2007, the District retired one of the capital appreciation bonds in the amount of \$425,000 (original principal of \$176,000 plus accreted interest of \$249,000).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

The following is a schedule of maturity dates and effective interest rates for the capital appreciation bonds (amounts in 000's):

	iginal ncipal	creted at Maturity	Maturity Date	Effective Interest Rate
Capital appreciation bond Capital appreciation bond Capital appreciation bond	\$ 150 129 112	\$ 420 420 420	12/1/2007 12/1/2008 12/1/2009	15.47% 15.49% 15.51%
Total	\$ 391	\$ 1,260		

The present value (as of issue date) reported in the statement of net assets at June 30, 2007 was \$391,000. As of June 30, 2007, a total of \$631,000 in accreted interest on the capital appreciation bonds has been included on the statement of net assets.

Interest payments on the remaining current interest bonds, after refunding, are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2010.

The following is a schedule of activity for fiscal year 2007 on the Series 2000 general obligation bonds (amounts in 000's):

	 alance <u>30, 2006</u>	<u>Addi</u>	tions	<u>Redu</u>	ctions	alance 30, 2007

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

B. On April 5, 2005, the District issued Series 2005 general obligation bonds refunding bonds to advance refund \$28.325 million of the Series 2000 current interest bonds. The issuance proceeds were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net assets.

The refunding issue is comprised of both current interest bonds, par value \$27.855 million, and capital appreciation bonds, par value \$470,000. The average interest rate on the current interest bonds is 4.10%. The capital appreciation bonds mature December 1, 2012 and December 1, 2013 (effective interest 22.126%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The present value (as of issue date) reported in the statement of net assets at June 30, 2007 was \$470,000. Total accreted interest of \$269,000 has been included in the statement of net assets.

The reacquisition price exceeded the net carrying amount of the old debt by \$2.314 million. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued.

Interest payments on the current interest bonds are due on June 1 and December 1 each year. The final maturity stated in the issue is December 1, 2023.

The following is a schedule of maturity dates and effective interest rates for the capital appreciation bonds (amounts in 000's).

	iginal ncipal	Accreted Value at Maturity	Maturity Date	Effective Interest Rate
Capital appreciation bond Capital appreciation bond	\$ 133 337	\$665 	12/1/2012 12/1/2013	22.126% 22.126%

C. During the fiscal year 2001, the District issued a total of \$16.1 million in Classroom Facilities Improvement Bonds, Qualified Zone Academy Bonds (QZAB). The total proceeds were comprised of two separate issues; one of QZAB Series 2000 bonds in the amount of \$14 million and one of QZAB Series 2001 bonds in the amount of \$2.1 million. The QZAB Series 2000 bonds mature November 29, 2013 and the QZAB Series 2001 mature November 30, 2015. The District is required to make mandatory sinking fund deposits (consisting of cash and/or U.S. Treasury obligations) on December 1 in the following years and in the following amounts (in each case equal to the value of any cash deposits, plus the stated principal value at maturity of any U.S. Treasury obligations plus any interest to be paid thereon through and including the maturity date):

December 1	QZAB	AB QZAB

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

The QZAB Series 2000 bonds bear no interest and the QZAB Series 2001 bonds required stated annual interest payments. During fiscal year 2007, the District made \$1.210 million in sinking fund deposits. Since inception, a total of \$7.064 million in sinking fund deposits have been made by the District to retire the QZAB's at maturity. These deposits are maintained by the District until maturity of the QZABS in fiscal year 2014 and 2016. The resources, being accumulated through the sinking fund, are reported in the debt service fund. On the statement of net assets, the resources accumulated in the sinking fund are reported as a restricted asset since the condition underlying the restriction will not be met in the short or medium term.

D. During fiscal year 2004, the District issued \$3.4 million in Series 2004 tax anticipation notes. During fiscal year 2002, the District issued \$6.165 million in Series 2002 tax anticipation notes. The Series 2004 notes bear annual interest rates ranging from 2.80% - 4.75% and mature on December 1, 2009. The Series 2002 notes bear annual interest rates ranging from 3.25% - 5.00% and mature on June 1, 2013. The 2004 Series notes will be retired from future tax revenues from the general fund while the Series 2002 notes will be retired with future tax revenues of the Permanent Improvement capital projects fund (a nonmajor governmental fund). In accordance with GASB Statement No. 34, these notes are considered long-term since the notes are used for capital acquisition and construction. A summary of the tax anticipation note activity for the fiscal year ended June 30, 2007 follows (amounts in 000's):

	ance 0, 2006	Additic	ons	Ree	ductions	alance 30, 2007

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

- **E.** During fiscal year 2004, the District joined the Stark County Schools COG for purposes of obtaining employee health benefits for certain employees (see Note 2.A. and Note 12.B.). The District entered into an agreement with the COG allowing the District to defer the payment of premiums for the period July 1, 2003 to December 31, 2003. These deferred premiums were paid over the period July 1, 2005 through June 30, 2007 through an adjustment applied to the District's monthly insurance premiums for that period. The deferred insurance liability was retired in full during fiscal year 2007. No liability for the deferred insurance premium remains at June 30, 2007.
- **F.** The changes in the District's long-term obligations during the year consist of the following (amounts in 000's):

Compensated absences will be paid from the fund from which the employee is paid which, for the District, is primarily the general fund and the food service fund (a nonmajor enterprise fund). The health care reimbursement arrangement payable will be paid from the general fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)

Retirement Incentive Program

The District has offered a retirement incentive plan (RIP) to certified teaching staff. Severance payments for teachers electing to retire under the RIP shall be paid in two equal installments with each installment paid on or about January 15 of the first and second calendar years following the retirement. A liability for severance payments due under the RIP have been recorded on the fund financial statements as a component of "compensated absences payable" and on the government-wide statement of net assets as a component of "long-term liabilities".

In addition to severance payments, employees electing to retire under the RIP are entitled to a health care reimbursement arrangement (HRA) established by the District for the benefit of the retiring teachers and their spouses. Under the HRA, retiring teachers will receive payments, by year, in varying amounts between \$500 to \$5,300 which will be deposited by the District into a separate account established for the retired employee and their spouse. The HRA is effective until January 15, 2016 or until the retiree and his or her spouse become deceased. The amounts deposited to a retiree's account may be carried forward over to subsequent years and shall not be subject to forfeiture, except upon the death of both the retiree and his or her spouse. The HRA liability has been recorded in the general fund to the extent the health care costs are expected to be liquidated with expendable available resources. The remainder of the liability has been recorded on the government-wide statement of net assets as a component of "long-term liabilities". The total estimated liability under the HRA June 30, 2007 was \$7.291 million of which \$1.585 million is expected to become due within one year. A total of 197 employees have retired under the HRA as of June 30, 2007. The total HRA liability was calculated based upon required payments under the HRA for each applicable employee and has not been discounted to present value.

G. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation use in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2007, are a voted debt margin of \$50.591 million (including available funds of \$9.699 million) and an unvoted debt margin of \$769,000.

NOTE 11 - COMPENSATED ABSENCES

Employees earn vacation at rates specified under State of Ohio law and based on credited service. Teachers and some administrators do not earn vacation time. Administrators, clerical, technical, and maintenance and operations employees with one or more years of service are entitled to vacation ranging from 5 to 25 days. Employees with less than one year of service earn one vacation day per month worked, not to exceed five days. Unused vacation is not cumulative to the next year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 11 - COMPENSATED ABSENCES - (Continued)

All employees are entitled to a sick leave credit equal to one and one-quarter days for each month of service (earned on a pro rata basis for less than full-time employees). This sick leave will either be absorbed by time off due to illness or injury or, within certain limitations, be paid to the employee upon retirement. The amount paid to an employee upon retirement is limited to one-quarter of the accumulated sick leave for the first 120 days, one-fifth of sick leave for days between 121 - 215 and an additional 2 - 10 days (based upon applicable contracts) for an employee with greater than 215 days accumulated to a maximum payout of between 51 - 59 days.

NOTE 12 - RISK MANAGEMENT

A. Comprehensive

The District maintains comprehensive insurance coverage with private carriers for liability, real property, building contents and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. In addition, real property contents are 90% coinsured. The District has obtained coverage from commercial insurance carriers. The following is a description of the District's insurance coverage:

	Limits of	
Coverage	Coverage	<u>Deductible</u>
General liability:		
Each occurrence	\$ 1,000,000	\$ 0
Aggregate	2,000,000	0
Building and contents	292,055,014	10,000
Boiler and machinery	5,000,000	5,000
Fleet:		
Liability	1,000,000	0
Uninsured motorist	1,000,000	0
Comprehensive	1,000,000	250
Collision	1,000,000	500
Umbrella liability	10,000,000	0
Umbrella liability	10,000,000	0

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from fiscal year 2006.

B. Shared Risk Pool

The District is a participant in the Stark County Schools Council of Government (the "COG") for the purpose of obtaining benefits at a reduced premium for health care benefits. The District's insurance program for health care, through the COG, is administered by Mutual Health Services Company. Payments are made to the COG for monthly attachment point, monthly stop-loss premiums, and administrative charges. The fiscal agent of the COG is the Stark County Education Service Center. The Treasurer of the Stark County Educational Service Center pays Mutual Health Services monthly for the actual amount of claims processed, the stop-loss premium, and the administrative charges.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 12 - RISK MANAGEMENT - (Continued)

C. Workers' Compensation Program

The District has participated in the Ohio Bureau of Workers' Compensation (Bureau) Retrospective Rating Plan since 1989, except for 1993 and 1997. The alternative rating program requires the District to pay only administrative charges to the Bureau, and in turn the district assumes the responsibility of paying all claims incurred during the policy period for up to ten years. After the tenth year, the Bureau will assume any existing claim for its duration. The District will be charged an actuarial amount for the claims transferred to the Bureau. The District's stop-loss coverage through the plan is limited to \$300,000 per claim stop-loss coverage with an annual aggregate.

The District's Workers' Compensation Trust internal service fund pays for all claims, claim reserves and administrative costs of the program. The Workers' Compensation Trust internal service fund generates revenues by charging each fund a percentage rate determined by the Bureau for the payroll during the reporting period. The claims liability is recorded based on an actuarial determination of future claims, review of five years of claim liabilities and claim payment trends including the settlement to the Bureau after the tenth year. Changes in claims activity for the past two fiscal years are as follows (amounts in 000's):

Fiscal Year	Beginning Balance	Current Year Claims	Claims <u>Payments</u>	Ending Balance
2007	\$ 503	\$ 723	\$ (365)	\$ 861
2006	455	384	(336)	503

The Ohio Bureau of Workers' Compensation uses the Micro Insurance Reserving Analysis (MIRA) to estimate the reserves (liability) for future costs. The MIRA reserve (liability) can vary between years as it is based upon numerous factors which estimate the future cost of a particular claim at that point in time.

NOTE 13 - PENSION PLANS

A. School Employees Retirement System

The District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling (800) 878-5853. It is also posted on SERS' website, <u>www.ohsers.org</u>, under Forms and Publications.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 13 - PENSION PLANS - (Continued)

Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2007, 10.68 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2006, 10.58 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2006, 10.57 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2005, 10.57 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The District's required contribution for pension obligations to SERS for fiscal years ended 2007, 2006, and 2005 were \$1.580 million, \$1.593 million, respectively; 42.15 percent has been contributed for fiscal year 2007 and 100 percent for fiscal years 2006 and 2005.

B. State Teachers Retirement System

The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371 or by calling (614) 227-4090, or by visiting the STRS Ohio website at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 13 - PENSION PLANS - (Continued)

For the fiscal year ended June 30, 2007, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal years 2006 and 2005, the portion used to fund pension benefits was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2007, 2006, and 2005 were \$7.159 million, \$7.113 million and \$7.200 million, respectively; 83.11 percent has been contributed for fiscal year 2007 and 100 percent for fiscal years 2006 and 2005. Contributions to the DC and Combined Plans for fiscal year 2007 were \$50,000 made by the District and \$114,000 made by plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by SERS or the STRS have an option to choose Social Security or the SERS/STRS. As of June 30, 2007, certain members of the Board of Education have elected Social Security. The District's liability is 6.2% of wages paid.

NOTE 14 - POSTEMPLOYMENT BENEFITS

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System of Ohio (STRS Ohio) and to retired non-certificated employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

All STRS Ohio retirees who participated in the DB or combined plans and their dependents are eligible for health care coverage. The STRS Ohio Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. All benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS Ohio funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2007, the STRS Ohio Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. For the District, this amount equaled \$551,000 for fiscal year 2007.

STRS Ohio pays health care benefits from the Health Care Stabilization Fund. At June 30, 2007, the balance in the Health Care Stabilization Fund was \$4.1 billion. For the fiscal year ended June 30, 2007, net health care costs paid by STRS Ohio were \$265.558 million and STRS had 122,934 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. All retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility, and retirement status.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 14 - POSTEMPLOYMENT BENEFITS - (Continued)

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2007, employer contributions to fund health care benefits were 3.32 percent of covered payroll compared to 3.42 percent of covered payroll for fiscal year 2006. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2007, the minimum pay was established at \$35,800. However, the total surcharge is capped at 2 percent of each employer's SERS salaries. For the District, the amount contributed to fund health care benefits, including the surcharge, during the 2007 fiscal year equaled \$711,000.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of the projected claims less premium contributions for the next year. Expenses for health care for the fiscal year ended June 30, 2006 (the latest information available) were \$158.751 million. At June 30, 2006 (the latest information available), SERS had net assets available for payment of health care benefits of \$295.6 million. At June 30, 2006 (the latest information available), SERS had 59,492 participants currently receiving health care benefits.

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of GAAP, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The Statement of Revenue, Expenditures, and Changes in Fund Balance - Budget and Actual (Non-GAAP Budgetary Basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a reservation of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Investments are reported at fair value (GAAP basis) rather than cost (budget basis); and
- (e) Advances-In and Advances-Out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 15 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows (amounts in 000's):

Net Change in Fund Balance

	General Fund
Budget basis	\$ 195
Net adjustment for revenue accruals	(989)
Net adjustment for expenditure accruals	1,260
Net adjustment for other sources/uses	(784)
Adjustment for encumbrances	
GAAP basis	<u>\$ 1,518</u>

NOTE 16 - STATUTORY RESERVES

The District is required by state statute to annually set-aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year-end. These amounts must be carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year-end set-aside amounts for textbooks/instructional materials and capital acquisition. Disclosure of this information is required by state statute (amounts in 000's):

	Inst	ktbooks/ ructional aterials	Capital equisition
Set-aside cash balance			
as of June 30, 2006	\$	220	\$ (40,000)
Current year set-aside requirement		1,684	1,684
Qualifying off-sets		-	(268)
Qualifying disbursements		(875)	
Total	<u>\$</u>	1,029	\$ (38,584)
Balance carried forward to fiscal 2008	\$	1,029	\$ (38,584)

During fiscal year 2001, the District issued \$46.706 million related to the Ohio Schools Facilities Commission project under taken by the District. Those proceeds may be used to reduce the capital acquisition reserve until the debt proceeds are spent.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 16 - STATUTORY RESERVES - (Continued)

The balance in the set-aside reserve carried forward to fiscal year 2008 for textbook/instructional materials is reported as a reservation of fund balance and a restricted asset in the general fund (amounts in 000's).

A schedule of the restricted assets at June 30, 2007 follows:	
Amounts restricted for textbooks/instructional materials	\$ 1,029
Total restricted assets	\$ 1,029

NOTE 17 - CONTRACTUAL COMMITMENTS

As of June 30, 2007, the District entered into various contractual commitments for the OSFC Project described in Note 10A. A summary of the primary contractual commitments outstanding at June 30, 2007, follows (amounts in 000's):

Project	Contractual Cost Estimate	Total Estimated Costs at June 30	Remaining Contractual Commitment
Claredon Elementary	\$ 7,085	\$ 6,979	\$ 106
Hartford Middle	6,813	6,763	50
McKinley High School	14,726	11,994	2,732
Commons	44	44	-
Fawcett Stadium	864	864	
Totals	<u>\$ 29,532</u>	<u>\$ 26,644</u>	\$ 2,888

NOTE 18 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is a party to legal proceedings seeking damages or injunctive relief generally incidental to its operations and spending projects. The District management is of the opinion that disposition of the claim and legal proceedings will not have a material effect, if any, on the financial condition of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

NOTE 19 - SIGNIFICANT SUBSEQUENT EVENTS

On November 6, 2007, voters of the District rejected an 8.0 mill continuing operating levy that would have generated approximately \$6.5 million annually for the District's general operating expenses.

On December 1, 2007, the District made its seventh sinking fund payment on the QZAB's for the eventual retirement of the QZAB Series 2000 and 2001.

On February 4, 2008, the Canton City School District Board of Education accepted the recommendation of the Canton City School District Facilities Committee that the Canton Arts Academy become a PreK - 8 Canton City School District theme/magnet school and cease to be a District sponsored conversion school.

On February 4, 2008, the Canton City School District Board of Education accepted the recommendation of the Canton City School District Facilities Committee that the Canton City Schools Digital Academy become a Canton City School District program and cease to be a District sponsored conversion school.

Additionally, the Canton Academy Community School passed a resolution to become a Canton City School District program and cease to exist as a District sponsored conversion school effective June 6, 2008.

NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED JUNE 30, 2007

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) summarizes activity of the District's federal award programs. The schedule has been prepared on the cash basis of accounting.

NOTE B – FOOD DONATION PROGRAM

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair value of the commodities received.

NOTE C - CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE D – MEDICAL ASSISTANCE PROGRAM

Cash receipts from the U.S. Department of Health and Human Services for the Medical Assistance Program are commingled with local funds. It is assumed federal monies are expended first.

Mary Taylor, CPA Auditor of State

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Canton City School District Stark County 617 McKinley Avenue S.W. Canton, Ohio 44707

To the Board of Education:

We have audited the financial statements of the governmental activities, business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Canton City School District, Stark County, Ohio, (the District) as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements and have issued our report thereon dated April 11, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements, but not to opine on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the District's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

We noted certain matters that we reported to the District's management in a separate letter dated April 11, 2008.

101 Central Plaza South / 700 Chase Tower / Canton, OH 44702-1509 Telephone: (330) 438-0617 (800) 443-9272 Fax: (330) 471-0001 www.auditor.state.oh.us Canton City School District Stark County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain noncompliance or other matters that we reported to the District's management in a separate letter dated April 11, 2008.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, Federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Canton City School District Stark County 617 McKinley Avenue S.W. Canton, Ohio 44707

To the Board of Education:

Compliance

We have audited the compliance of the Canton City School District, Stark County, Ohio, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that apply to each of its major federal programs for the year ended June 30, 2007. The summary of auditor's results section of the accompanying Schedule of Findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

The District's basic financial statements include the operations of the Canton Academy Community School, Canton City Schools Digital Academy, and Canton Arts Academy, which received \$329,853; \$16,855; and \$387,529, respectively, in federal awards which is not included in the Federal Awards Receipts and Expenditures Schedule for the year ended June 30, 2007. Our audit of Federal awards, described below, did not include the operations of Canton Academy Community School, Canton City Schools Digital Academy, and Canton Arts Academy because each component unit is legally separate from the primary government, which this report addresses, and because each expended less than \$500,000 of federal awards for the year ended June 30, 2007, they were not subject to OMB Circular A-133 audit requirements.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Canton City School District complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2007. In a separate letter to the District's management dated April 11, 2008, we reported other matters related to federal noncompliance not requiring inclusion in this report.

Canton City School District Stark County Independent Accountants' Report On Compliance With Requirements Applicable to Each Major Federal Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133 Page 2

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that the entity's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the District's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, we noted a matter involving the internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated April 11, 2008.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.
