Mary Taylor, CPA Auditor of State

Board of Education North Central Local School District 350 South Main Street Creston, Ohio 44217

We have reviewed the *Independent Auditor's Report* of the North Central Local School District, Wayne County, prepared by Balestra, Harr & Scherer, CPAs, Inc., for the audit period July 1, 2007 through June 30, 2008. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The North Central Local School District is responsible for compliance with these laws and regulations.

Independent Auditor's Report

North Central Local School District Wayne County 350 South Main Street Creston, Ohio 44217

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the North Central Local School District, Wayne County, Ohio, (the District) as of and for the year ended June 30, 2008, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the cash accounting basis. This is a comprehensive accounting basis other than accounting principles generally accepted in the United States of America. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash basis financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2008, and the respective changes in cash basis financial position and the respective budgetary comparison of the General Fund thereof for the year then ended in conformity with the accounting basis Note 2 describes.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 24, 2008, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with the report in assessing the results of our audit.

Board of Education North Central Local School District Independent Auditor's Report Page 2

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying schedule of federal awards expenditures is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget *Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations,* and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

North Central Local School District Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008 Unaudited

The discussion and analysis of North Central Local School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2008, within the limitations of the District's cash basis of accounting. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

HIGHLIGHTS

Key financial highlights for the fiscal year 2008 are as follows:

- Net assets of governmental activities increased \$4,925,467.
- General cash receipts accounted for \$14,468,511 or 79.3% of all cash receipts. Program cash receipts in the form of charges for services, grants, and contributions, accounted for \$3,773,002 or 20.7% of total cash receipts of \$18,241,513.
- The School District had \$13,316,046 in cash disbursements related to governmental activities; only \$3,773,002 of these cash disbursements were offset by program specific charges for services, grants, and contributions.
- The District's major governmental funds are the general fund, debt service fund and classroom facilities fund. The general fund had \$10,221,566 in receipts and \$10,087,436 in disbursements and other financing disbursements. During fiscal year 2008, the general fund's fund balance increased \$134,130 from \$4,542,526 to \$4,676,656.
- Another District major governmental fund is the debt service fund. The debt service fund had \$752,098 in receipts and \$693,794 in disbursements, to pay for bonds issued in fiscal year 2007. During fiscal year 2008, the debt service fund's fund balance increased \$58,304 from \$142,370 to \$200,674.
- The last of the District's major governmental funds is the OSFC Projects capital projects fund. The OSFC Projects capital projects fund had \$5,434,839 in receipts and \$902,956 in disbursements. During fiscal year 2008, the OSFC Projects capital projects fund's fund balance increased \$4,531,883 from \$10,540,985 to \$15,072,868.

USING THE BASIC FINANCIAL STATEMENTS

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the School District's cash basis of accounting.

REPORT COMPONENTS

The Statement of Net Assets and Statement of Activities provide information about the cash activities of the District as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the District as a way to segregate money whose use is restricted to a particular specific purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the basic financial statements.

BASIS OF ACCOUNTING

The basis of accounting is a set of guidelines that determines when financial events are recorded. The District has elected to present its financial statements on a cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the District's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

REPORTING THE DISTRICT AS A WHOLE

Statement of Net Assets and Statement of Activities

The statement of net assets and the statement of activities reflect how the District did financially during 2008, within the limitations of the cash basis of accounting. The statement of net assets presents the cash balances and investments of the governmental activities of the District at year end. The statement of activities compares cash disbursements with program receipts for each governmental program. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the District's general receipts.

These statements report the District's cash position and the changes in cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the District's financial health. Over time, increases or decreases in the District's cash position is one indicator of whether the District's financial health is improving or deteriorating. When evaluating the District's financial condition, you should also consider other non-financial factors as well such as the District's property tax base, the condition of the District's capital assets and infrastructure, the extent of the District's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property taxes.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds – not the District as a whole. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District had three major funds in 2008: the General Fund, the Debt Service Fund and the OSFC Projects capital projects Fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year end available for spending in future periods. These funds are reported using the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The governmental fund statements provide a detailed short-term view of the District's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer cash basis of accounting, there are no differences in the Net Assets and fund cash balances or changes in Net Assets and changes in fund cash balances. Therefore, no reconciliation is necessary between such financial statements. However, differences will be apparent when comparing gross revenues and expenses on the Fund Financial Statements to the Statement of Activities due to transfers netted on the Statement of Activities. See Note 2 to the basic financial statements in the section entitled *Government-Wide Financial Statements*.

Fiduciary Funds

The District only has agency funds. All of the District's fiduciary activities are reported in a separate Statement of Fiduciary Net Assets – Cash Basis. We excluded these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Agency funds are custodial in nature (assets equal net assets – cash basis) and do not involve measurement of results of operations. Fiduciary funds use the cash basis of accounting.

THE DISTRICT AS A WHOLE

Recall that the Statement of Net Assets provides the perspective of the District as a whole on a cash basis of accounting. Table 1 provides a summary of the District's net assets for 2008 compared to 2007.

Table 1										
Net A	Net Assets Governmental Activities Increase/									
	2008	2007		Decrease)						
Assets	2008	2007	. <u>r</u>	<u>Deereasej</u>						
Equity in Pooled Cash and Cash Equivalents	\$22,090,718	\$ 17,165,251	\$	4,925,467						
Total Assets	22,090,718	17,165,251		4,925,467						
Net Assets										
Restricted for Debt Services	200,674	142,370		58,304						
Restricted for Capital Outlay	17,073,403	12,234,654		4,838,749						
Restricted for Other Purposes	106,487	244,242		(137,755)						
Restricted for Permanent Fund										
Expendable	15,749	15,850		(101)						
Nonexpendable	17,749	17,086		663						
Unrestricted	4,676,656	4,511,049		165,607						
Total Net Assets	\$22,090,718	\$17,165,251		4,925,467						

Total assets of the District, as a whole, increased \$4,925,467. The increase in total assets is primarily due the District receiving \$4,844,576 from the Ohio School Facilities Commission for the district's project.

Program cash receipts of \$3,773,002, which are primarily represented by charges for services and sales as well as restricted grants, made up 20.7% of total cash receipts. General cash receipts of \$14,468,511 which are primarily represented by property taxes and unrestricted grants and entitlements, made up 79.3% of total cash receipts.

Instruction costs represent the largest of the District's cash disbursements; 53.0% for fiscal year 2008. Other programs which support the instruction process, include pupils, instructional staff, and pupil transportation, account for 13.1% of program cash disbursements.

Other significant areas include administration and operation and maintenance of plant which account for 6.7% and 4.6%, respectively of program cash disbursements.

The Statement of Activities shows the cost of program services and the charges for services, grants, and contributions offsetting those services. Table 3 on the following page shows the total cost of services and the net cost of services. That is, it identifies the cost of those services supported by tax revenue and unrestricted state entitlements.

Central	25,798	8,326	24,377	6,967
Operation of Food Service	463,585	45,566	437,644	19,540
Extracurricular Activities	550,639	271,861	335,252	200,577
Capital Outlay	981,359	67,401	594,377	312,858
Debt Service:				
Principal	160,000	140,601	11,480,000	11,443,984
Interest and Fiscal Charges	520,331	457,243	258,888	258,076
Total	\$13,316,046	\$9,543,044	\$23,370,013	\$20,473,885

The dependence upon tax revenues and unrestricted state entitlements is apparent as program receipts only provided for \$3,773,002 of the total program cash disbursements of \$13,316,046 for 2008.

THE DISTRICT FUNDS

The District's governmental funds are accounted for using the cash basis of accounting. All governmental funds had total cash receipts and other financing receipts of \$18,279,513 and cash disbursements and other financing disbursements of \$13,354,046.

General Fund - The District's General Fund cash fund balance increased by \$134,130 due to an increase, an increase in intergovernmental receipts of approximately \$55,000 and an increase in property tax receipts of approximately \$23,000.

Debt Service Fund - Another District major governmental fund is the debt service fund. The debt service fund made the first payment on bonds sold during fiscal year 2007 and had \$693,794 in disbursements. During fiscal year 2008, the debt service fund's fund balance increased \$58,304 from \$142,370 to \$200,674.

North Central Local School District

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2008

Unaudited

OSFC Projects Capital Projects Fund - The last of the District's major governmental funds is the classroom facilities fund. The OSFC Projects Capital Projects fund had \$5,434,839 in receipts and \$902,956 in disbursements. During fiscal year 2008, the OSFC Projects Capital Projects fund's fund balance increased \$4,531,883 from \$10,540,985 to \$15,072,868.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. During 2008, no revisions were made to the General Fund estimated receipts and appropriations from the original budget to the final budget. The General Fund's ending unobligated cash balance was \$4,616,501.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District does not record capital assets in the accompanying basic financial statements, but records payments for capital assets as disbursements. The District had capital outlay disbursements of \$1,309,182 during fiscal year 2008.

Debt

Under the cash basis of accounting the District does not report bonds, long-term notes or short-term notes in the accompanying cash basis financial statements. However, in order to provide information to the readers of this report, we are providing the following detailed information about bonds, long-term notes and short-term notes. At June 30, 2008 the District had \$11,238,167 in bonds for Governmental Activities. For additional information regarding debt, please see note 6 of the notes to the basic financial statements.

Table 4 summarizes bonds outstanding for Governmental Activities for the past two years:

Table 4						
Outstanding Debt at June 30						
Governmenta	l Activities					
	2008	2007				
Various Purposes Bonds 4.15%	1,538,170	1,598,170				
2007 Classroom Facilities Bond 4.3%	9,699,997	9,799,997				
Totals long term bonds	\$11,238,167	\$11,398,167				

CURRENT ISSUES

State law fixes the amount of tax revenue, forcing it to remain constant except for new valuations in the District. Management must plan expenses accordingly, staying within the District's five-year plan. On December 11, 2002, the Ohio Supreme Court issued its latest opinion regarding the State's school funding plan. The decision reaffirmed earlier decisions that Ohio's current school-funding decisions are unconstitutional. The Supreme Court relinquished jurisdiction over the case and directed "the Ohio General assembly to enact a school-funding scheme that is thorough and efficient..." The District is currently unable to determine what effect, if any this decision will have on its future State funding and on its financial operations. Due to the unsettled issues in the school funding, management is required to plan carefully and prudently to provide the resources to meet student needs over the next several years.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Robert Rinehart, Treasurer at North Central Local School District, 350 South Main Street, Creston, Ohio 44217.

1. SUMMARY OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Description of the Entity

North Central Local School District (the District) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four-year terms. The District provides educational services to approximately 1,500 students and community members as authorized by state statute and/or federal guidelines. The District was established in *1952* through the consolidation of existing school districts. The District serves an area of approximately 79 square miles, is located in Medina and Wayne County, and includes all of the Villages of Burbank, Creston, and Sterling.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) The District is able to significantly influence the programs or services performed or provided by the organization; or (2) The District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. There are no component units of the District.

The District is associated with a jointly governed organization and a public entity risk pool. These organizations are the Tri-County Computer Services Association (TCCSA) and the Wayne County Schools Council for Health Care Benefit Program. These organizations are presented in Notes 12 and 13.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Accounting

The District's accounts are maintained on the basis of funds, each of which is considered a separate accounting entity. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to specific functions or activities. The operation of each fund is accounted for within a separate set of self-balancing accounts.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Cash disbursements are assigned to the fund from which they are paid. The difference between governmental fund assets and cash disbursements is reported as fund balance. The following are the District's major governmental funds:

General Fund

The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund

The Debt Service Fund is provided for the retirement of long-term debt. This fund receives tax monies for the repayment of such debt.

OSFC Projects Capital Projects Fund

The OSFC Projects Capital Projects Fund is provided to account for monies received and expended in connection with contracts entered into by the District and the Ohio Department of Education for the building and equipping of classroom facilities.

The other governmental funds of the District account for grants and other resources, and capital projects, whose use is restricted to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. The District's only fiduciary funds are agency funds.

Agency Funds

Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide statements. The District's agency funds are used to account for student-managed activities.

Basis of Presentation

The District uses the provisions of GASB 34 for financial reporting on a cash basis, which is a basis of accounting other than accounting principles generally accepted in the United States of America and GASB 38, for certain financial statement note disclosures. The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements that provide a more detailed level of financial information.

Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets-cash basis presents the cash basis financial condition of governmental activities of the District at year-end. The statement of activities-cash basis presents a comparison between direct cash disbursements and program cash receipts for each program or function of the District's governmental activities. Direct cash disbursements are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program cash receipts include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Cash receipts which are not classified as program cash receipts are presented as general cash receipts of the District. The comparison of direct cash disbursements with program cash receipts identifies the extent to which each governmental function is self-financing or draws from the general cash receipts of the District.

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of fund financial statements is on major funds rather than reporting funds by type. The District's major funds are presented in separate columns. Non-major funds are aggregated and presented in a single column.

Basis of Accounting

Although required by the Ohio Administrative Code Section 117-2-03 (B) to prepare its annual financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), the District chooses to prepare its financial statements on the cash basis of accounting. Receipts are recognized when received in cash rather than when earned, and disbursements are recognized when paid rather than when a liability is incurred. Budgetary presentations report budgetary disbursements when a commitment is made (i.e., when an encumbrance is approved). These statements include adequate disclosure of material matters, in accordance with the basis of accounting described above.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements. Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations resulting from the use of the cash basis of accounting.

Cash Receipts – Exchange and Non-exchange Transactions

Cash receipts resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the cash basis when the exchange takes place. On a cash basis, receipts are recorded in the year in which the resources are received.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On a cash basis, receipts from property taxes are recognized in the year in which the taxes are received. Receipts from grants, entitlements and donations are recognized in the year in which the monies have been received.

Cash Disbursements

On the cash basis of accounting, disbursements are recognized at the time payments are made.

Budgetary Process

Budget

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates. By no later than January 20, the Board-adopted budget is filed with the Medina and Wayne County Budget Commissions for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. Budget receipts as shown in the accompanying financial statements do not include July 1, 2008 unencumbered fund balances. However, those fund balances were available for appropriation.

The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statement reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts reflect the amounts in the final amended certificate for the fiscal year were passed.

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriate resolutions, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education. The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. The original budget figures that appear in the statement of budgetary comparisons represent the first permanent appropriation measure that was passed by the Board of Education. The final budget figures that appear in the statement of budgetary comparisons represent the final appropriation measure, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the disbursement of funds are recorded in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance.

Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not reappropriated.

Cash and Cash Equivalents and Investments

Cash and cash equivalents consist of the total of fund cash balances of all funds as of June 30, 2008. To improve cash management, cash received by the District is pooled. Individual fund integrity is maintained throughout the District's records. Balances of all funds are maintained in these accounts or are temporarily used to purchase certificates of deposit or investments. All interest receipts are reported in the General Fund except those specifically related to those funds deemed appropriate according to School Board policy. For fiscal year 2008, interest receipts amounted to \$880,827 of which \$224,766 was recorded in the General Fund and \$656,061 was recorded in other Governmental Funds.

During fiscal year 2008, investments were limited to STAR Ohio, Fifth Third U.S. Treasury money market accounts, Federal Home Loan Bank Bonds, Federal Home Loan Mortgage Corporation Discount Notes, and Federal National Mortgage Corporation Bonds. Investments are reported at cost.

Capital Assets

Property, plant, and equipment acquired or constructed by the District are recorded as disbursements at the time of acquisition. However, under the cash basis of accounting as described in Note 1, capital assets and the related depreciation are not reported on the financial statements.

Compensated Absences

Accumulated unpaid vacation leave, sick leave, and personal leave are not accrued under the cash basis of accounting as described in Note 2. All leave will either be utilized by time off from work or, within certain limitations, be paid to employees

Long-Term Obligations

In general, bonds, long-term loans, and capital leases are recorded as cash disbursements in the basic financial statements when paid and are not accrued under the cash basis of accounting as previously described in Note 2.

Net Assets

Net assets represent the difference between assets and liabilities. On the cash basis of accounting net assets equal assets since liabilities are not recorded. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Restricted for Other Purposes is comprised of net assets restricted for grants. The District applies restricted resources when a cash disbursement is made for purposes for which both restricted and unrestricted net assets are available. The District has no net assets restricted by enabling legislation.

Interfund Transactions

Exchange transactions between funds are reported as cash receipts in the seller funds and as cash disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented on the financial statements. In the government-wide financial statements transfers within governmental activities are eliminated.

3. EQUITY IN POOLED CASH AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies are permitted to be deposited or invested in the following securities.

- 1. United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by a federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the District;
- 5. Time certificates of deposit or savings or deposit accounts, including, but not limited to passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio);
- 8. Securities lending agreements in which the District lends securities and the eligible institution agrees to exchange either securities described in division (1) or (2) or cash or both securities and cash, equal value for equal value;

3. EQUITY IN POOLED CASH AND INVESTMENTS (Continued)

- 9. High grade commercial paper in an amount not to exceed five percent of the District's total average portfolio;
- 10. Certain bankers' acceptance and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time; and
- 11. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits:

The District's deposits are required to be categorized to give an indication of the level of risk assumed by the District at fiscal year end. Category 1 includes deposits that are insured or registered or for which the securities are held by the District or its agent in the District's name. Category 2 includes uninsured and unregistered deposits which are held by the counterparty's trust department or agent in the District's name. Category 3 includes uninsured and unregistered deposits for which the securities are held by the counterparty or by its trust department or agent but not in the District's name. For deposits, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it.

At June 30, 2008, the carrying amount of the District's deposits was \$726,280 and the bank balance was \$798,737. Of the bank balance, \$274,295 in deposits was insured by the Federal Depository Insurance Corporation and the remainder was covered by collateral held in the pledging bank's trust department in the District's name.

3. EQUITY IN POOLED CASH AND INVESTMENTS (Continued)

Investments:

As of June 30, 2008, the District had the following investments and maturities:

		Concentration of		
	Carrying Value	(in yea Less than 1	1-2	Credit Risk
STAR Ohio Federal Home Loan	\$8,237,508	\$8,237,508	\$0	38.5%
Bank Bonds	1,001,076	0	1,001,076	4.7%
Federal Home Loan				
Mortgage Corporation				
Discount Notes	5,200,235	5,200,235	0	24.3%
Federal National				
Mortgage Corporation				
Bonds	3,259,799	2,053,580	1,206,219	15.2%
Fifth Third U.S.				
Treasury Money				
Market Fund	3,704,688	3,704,688	0	17.3%
Total	\$21,403,305	\$19,196,010	\$2,207,295	

Interest rate risk – As a means of limiting its exposure to fair value losses caused by rising interest rates, the District attempts, to the extent possible, to match investments with anticipated cash flow requirements. Unless matched to a specific obligation or debt of the District, the District will not directly invest in securities maturing more than five years from the date of investment.

Credit risk – Investments in STAR Ohio and the Fifth Third U.S. Treasury Money Market Fund were rated AAAm by Standard & Poor's. The Federal Home Loan Mortgage Corporation Discount Notes are all short term securities rated A-1+ by Standard & Poor's and Prime-1 by Moody's. The Federal Home Loan Bank Bond long term securities are rated AAA by Standard & Poor's and Aaa by Moody's. The Federal National Mortgage Association Bond long term securities are rated AAA by Standard & Poor's and Aaa by Moody's. The Federal National Mortgage Association Bond long term securities are rated AAA by Standard & Poor's and Aaa by Moody's. The District limits their investments to those authorized by state statute.

Custodial credit risk – Custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. All of the District's securities are either insured and registered in the name of the District or at least registered in the name of the District. The District has no investment policy dealing with investment custodial risk beyond the requirement in state statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of credit risk – The District places no limit on the amount it may invest in any one issuer. See above for the concentration of credit risk for the District's investments. The investments in STAR Ohio and the money market fund have investment maturities of 0 days.

4. BUDGETARY BASIS FUND BALANCES

Differences between the budgetary basis fund balances and fund cash balances are due to encumbrances. The Table below presents those differences for the District's Major Fund:

	General Fund
Budgetary Basis Fund Balance	\$4,616,501
Encumbrances	60,155
Fund Cash Balance	\$4,676,656

5. PROPERTY TAX

Real property taxes are levied on assessed values, which equal 35% of appraised value. The County Auditor reappraises all real property every six years with a triennial update. The last reappraisal was completed for tax year 2006.

Real property taxes become a lien on all non-exempt real property located in the county on January 1. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31 with the remainder payable by June 20 of the following year. Under certain circumstances, state statute permits later payment dates to be established.

The full tax rate applied to real property for the tax (calendar) year 2007 was \$36.00 per \$1,000 of assessed valuation. After adjustment of the rate for inflationary increases in property values, the effective tax rate was \$28.23 per \$1,000 of assessed valuation for real property classified as residential/agricultural and \$29.19 per \$1,000 of assessed valuation for all other real property.

Real property owners' tax bills are further reduced by homestead and rollback deductions, when applicable. The amount of these homestead and rollback reductions is reimbursed to the District by the State of Ohio.

Owners of tangible personal property are required to file a list of such property including costs, by April 30 of each year. The property is assessed for tax purposes at varying statutory percentages of cost. The tax rate applied to tangible personal property for the tax (calendar) year 2007 was \$36.00 per \$1,000 of assessed valuation.

The respective County Treasurers collects property tax on behalf of all taxing districts within their respective counties. The County Auditors periodically remits to the taxing districts their portions of the taxes collected.

6. LONG-TERM DEBT

Under the cash basis of accounting as described in Note 2, the District does not record debt in the accompanying basic financial statements.

The changes in the District's long-term obligations during fiscal year 2008 were as follows:

6. LONG-TERM DEBT (Continued)

General Obligation Bonds:	Interest Rate	Principal Outstanding 7/1/2007	Additions	Reductions	Principal Outstanding 6/30/2008	Amount Due Within One Year
2007 Classroom Facility Improvement Bonds	4.30%	\$ 9,799,997	\$-	\$ 100,000	\$ 9,699,997 -	\$ 225,000
2007 Various Purpose Bonds	3,8- 4.15%	1,598,170	-	60,000	1,538,170	45,000
Total General Obligation Bonds		\$ 11,398,167	\$ -	\$ 160,000	\$ 11,238,167	\$ 270,000

The 2007 Classroom Facility Improvement Bonds were approved by the voters on November 7, 2006 and issued in 2007 for \$9,799,997 in general obligation bonds. The bonds were used to redeem the bond anticipation notes issued by the District to provide for its share of the Ohio School Facility Commission classroom construction grant. The bonds were issued for a 27 year period with final maturity of December 1, 2033. The bonds will be retired from the debt service fund.

The 2007 Various Purpose Bonds were approved by the voters on November 7, 2006 and issued in 2007 for a total of \$1,598,170 in general obligation bonds. The bonds were used to redeem the bond anticipation notes issued by the District to provide for its share of the Ohio School Facility Commission classroom construction grant. The bonds were issued for a 27 year period with final maturity of December 1, 2033. The bonds will be retired from the debt service fund.

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2008 are as follows:

Fiscal Year		Clas	ssroc	om Facility B	onds			Vario	us Ir	nprovement I	Bond	s
Ending June 30]	Principal		Interest		Total]	Principal		Interest		Total
2009	\$	225,000	\$	374,900	\$	599,900	\$	45,000	\$	57,768	\$	102,768
2010		255,000		365,300		620,300		45,000		55,968		100,968
2011		265,000		354,900		619,900		45,000		54,168		99,168
2012		275,000		344,100		619,100		50,000		52,268		102,268
2013		285,000		332,900		617,900		50,000		50,268		100,268

2019-2023		1,805,000		1,277,100		3,082,100		295,000		207,838		502,838
2024-2028		2,195,000		878,500		3,073,500		345,000		143,838		488,838
2029-2033		3,260,000		406,600		3,666,600		525,000		68,311		593,311
Total	\$	9,699,997	\$	6,293,114	\$	15,993,100	\$	1,538,170	\$	1,067,583	\$	2,605,753

8. RISK MANAGEMENT

The District maintains comprehensive insurance coverage with Ohio School Risk Sharing Authority for real property, building contents and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Real property and building contents are 100% coinsured. Settled claims have not exceeded this coverage in any of the past three years. There has been no significant reduction in coverage from the prior year.

The District participates in the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. Gates McDonald. provides administrative, cost control and actuarial services to the GRP.

The District also participates in the Medina and Wayne County Health Trust in order to provide dental, life, medical, and disability benefits to employees, their dependents and designated beneficiaries. The Trustee provides insurance policies in whole or in part through one or more group insurance policies.

9. DEFINED BENEFIT PENSION PLANS

School Employees Retirement System

The School District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by State statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website, www.ohsers.org, under Forms and Publications.

Plan members are required to contribute 10% of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current rate is 14% of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2008, 9.82% of annual covered salary was the portion allocated to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the years ended June 30, 2008, 2007, and 2006 were \$172,344, \$166,008, and \$162,156, respectively, which represents the required annual contribution for each year.

9. DEFINED BENEFIT PENSION PLANS (continued)

State Teachers Retirement System

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a costsharing multiple employer public employee retirement system. STRS Ohio provides retirement and disability benefits, annual cost-of-living adjustments, and death and survivor benefits to plan members and beneficiaries. STRS Ohio issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3371, by calling (888) 227-7877, or by visiting the STRS Ohio website at www.strsoh.org.

STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, community school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof.

New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5% of earned compensation. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money-purchase benefit" calculation. Under the "formula benefit," the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation of every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the "money-purchase benefit" calculation, a member's lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

9. DEFINED BENEFIT PENSION PLANS (Continued)

State Teachers Retirement System (Continued)

DC Plan Benefits – Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members' accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Combined Plan Benefits – Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1% of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or a equivalent lump-sum payment in addition to the original retirement allowance. Effective April 11, 2005, a reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for Defined Benefit Plan participants.

The Defined Benefit and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A Defined Benefit or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the Defined Benefit Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers.

For fiscal year 2008 plan members are required to contribute 10% of their annual covered salaries. The School District was required to contribute 14%; 13% was the portion used to fund pension obligations.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2008, 2007, and 2006 were \$660,168, \$649,932, and \$599,412, respectively, which represents the required annual contribution for each year.

10. POSTEMPLOYMENT BENEFITS

The School District provides access to health care coverage to retirees who participated in the Defined Benefit or Combined Plans and their dependents through the State Teachers Retirement System (STRS), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

Ohio law authorizes STRS to offer a cost-sharing, multiple employer health care plan. STRS provides access to health care coverage to eligible retirees who participated in the defined benefit or combined plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All benefit recipients pay a portion of the health care cost in the form of a monthly premium.

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. The 14% employer contribution rate is the maximum rate established under Ohio law. Of the 14% employer contribution rate was allocated to post-employment health care for the years ended June 30, 2008, 2007 and 2006. For the School District, this amount equaled \$43,332 for fiscal year 2008.

STRS pays health care benefits from the Health Care Stabilization Fund. At June 30, 2007 (the latest information available), the balance in the Fund was \$4.1 billion. For the fiscal year ended June 30, 2007, net health care costs paid by STRS were \$265,558,000 and STRS had 122,934 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. Effective January 1, 2004, all retirees and beneficiaries are required to pay a portion of their premium for health care. The portion is based on years of service, Medicare eligibility and retirement status. SERS administers two post-employment benefit plans.

Medicare Part B Plan

The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2008 was \$96.40; SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2008, the actuarially required allocation was 0.66%. For the School District, contributions for the year ended June 30, 2008 were \$8,125, which equaled the required contributions for the year.

11. REQUIRED SET-ASIDES

The District is required by the state law to annually set aside in the General Fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future fiscal years.

	Te	xtbooks	Capital Maintenance		
Set-Aside Reserve Balance as of June 30, 2007	\$	-	\$	-	
Set-Aside Balance Carried Forward		(99,866)		-	
Current Year Set-Aside Requirement		212,472		212,472	
Current Year Offsets		-		(114,256)	
Qualifying Disbursements		(222,647)		(270,042)	
Totals		(10,175)		(171,826)	
Set-Aside Balance Carried Forward to Future					
Fiscal Years		(10,175)		-	
Set-Aside Reserve Balance as of June 30, 2008	\$	-	\$	-	

The District had qualifying disbursements during the fiscal year that reduced the set-aside amount to below zero for the textbook set-aside. This extra amount may be used to reduce the set-aside requirement of future years. Although, the District had qualifying disbursements and current year offsets during the fiscal year that reduced the set-aside amount to below zero for the capital maintenance reserve, this amount may not be used to reduce the set aside requirement for future years. This negative balance is, therefore, not presented as being carried forward to future years.

12. JOINTLY GOVERNED ORGANIZATION

The Tri-County Computer Services Association (TCCSA) is a jointly governed organization comprised of 21 school districts. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions for member districts. Each of the governments of these districts support TCCSA based on a perpupil charge dependent upon the software package utilized. The TCCSA assembly consists of a superintendent or designated representative from each participating district and a representative from the fiscal agent. TCSSA is governed by a board of directors chosen from the general membership of the TCCSA assembly. The board of directors consists of a representative from the fiscal agent, the chairman of each operating committee, and at least one assembly member from each county from which participating districts are located. Financial information can be obtained by contacting the treasurer at the Tri-County Educational Service Center which serves as the fiscal agent located in Wooster, Ohio.

13. PUBLIC ENTITY RISK POOL

The Wayne County Schools Council for Health Care Benefit Program is a shared risk pool created pursuant to state statute for the purpose of administering health care benefits. The Council is governed by an assembly which consists of one representative from each participating school district (usually superintendent, treasurer or executive member of governing body). The Council elects officers to serve on the Board of Directors. The assembly exercises control over the operation of the Council. Council revenues are generated from charges for services received from participating school districts, based on the established premiums for the insurance plans. Each school district reserves the right to terminate the plan in whole or in part, at any time. If it is terminated, no further contributions will be made, but the benefits under the insurance contract shall be paid in accordance with the terms of the contract.

14. INTERFUND ACTIVITY

Interfund Transfers

Transfers made during the year ended June 30, 2008, were as follows:

	Transfer	Transfer
Fund:	To:	From:
General Fund	\$ -	\$ 38,000
Non-Major Food Service Fund	38,000	
Total	\$ 38,000	\$ 38,000

Transfers were made from the General Fund to the Food Service Fund to subsidize its loss.

15. CONTINGENCIES

A. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2008.

B. Litigation

There are currently no matters in litigation with the District as defendant.

16. COMPLIANCE

Ohio Revised Code Section 117.38 and Ohio Administrative Code Section 117-2-03(B) require the School District to prepare its financial statements in accordance with generally accepted accounting principles. However, the school district opts to prepares its financial statements in accordance with the cash basis of accounting.

NORTH CENTRAL LOCAL SCHOOL DISTRICT WAYNE COUNTY

NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES FOR THE FISCAL YEAR ENDED JUNE 30, 2008

NOTE A – SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Expenditures (the Schedule) is a summary of the activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B – FOOD DONATION

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This nonmonetary assistance (expenditures) is reported in the Schedule at the fair market value of the commodities received.

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Members of the Board North Central Local School District Wayne County, Ohio 350 South Main St. Creston, OH 44217

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of North Central Local School District (the School District) as of and for the year ended June 30, 2008, and have issued our report thereon dated October 24, 2008 wherein we noted the School District followed the cash basis of accounting rather than accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Governmental Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not to opine on the effectiveness of the School District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the School District's internal control will not prevent or detect a more-than-inconsequential financial statement.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the School District's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weakness. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Members of the Board North Central Local School District REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matter that is required to be reported under *Government Auditing Standards* which is described in the accompanying schedule of findings and questioned costs as item 2008-001.

The School District's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit the School District's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of the management, members of the Board, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

Members of the Board North Central Local School District Wayne County, Ohio 350 South Main Street Creston,OH 44217

Compliance

We have audited the compliance of North Central Local School District, Wayne County, Ohio (the District), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2008. The District's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the District's management. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the District complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2008.

Internal Control Over Compliance

The management of the District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing an opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that the entity's internal control will not prevent or detect more-thaninconsequential noncompliance with a federal program compliance requirement. Members of the Board North Central Local School District Wayne County, Ohio Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A - 133 Page 2

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the District's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We intended this report solely for the information and use of management, members of the Board, and federal awarding agencies and pass-through entities. It is not intended for anyone other than these specified parties.

1. SUMMARY OF AUDITOR'S RESULTS

NORTH CENTRAL LOCAL SCHOOL DISTRICT WAYNE COUNTY, OHIO

SCHEDULE OF FINDINGS AND QUESTIONED COSTS *OMB CIRCULAR A -133 SECTION .505* JUNE 30, 2008

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2008-001

Noncompliance Citation

Ohio Revised Code § 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Administrative Code § 117-2-03 further clarifies the requirements of Ohio Revised Code § 117.38.

Ohio Administrative Code § 117-2-03(B) requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. The District prepares its financial statements in accordance with the cash basis of accounting in a report format similar to the requirements of Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. This presentation differs from accounting principles generally accepted in the United States of America (GAAP). There would be variances on the financial statements between this accounting practice and GAAP that, while presumably material, cannot be reasonably determined at this time. The District can be fined and various other administrative remedies may be taken against the District.

The District should take the necessary steps to ensure that the financial report is prepared in accordance with generally accepted accounting principles.

Client Response:

The North Central Local School Board does not feel that it is cost effective to produce the financial statements in accordance with GAAP. All of the District's financial reports are given to the community and Board on a cash basis during the year. We feel that by filing the accepted cash (not GAAP) financial statements serves our district and community in the most cost effective manner.
