#### **INDEPENDENT ACCOUNTANTS' REPORT**

Preble Shawnee Local School District Preble County 124 Bloomfield Street Camden, Ohio 45311

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Preble Shawnee Local School District, Preble County, Ohio (the School District), as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the School District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the modified cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Preble Shawnee Local School District, Preble County, Ohio, as of June 30, 2007, and the respective changes in modified cash financial position and the respective budgetary comparison for the General Fund thereof for the year then ended in conformity with the basis of accounting Note 2 describes.

Preble Shawnee Local School District Preble County Independent Accountants' Report Page 2

In accordance with *Government Auditing Standards*, we have also issued our report dated April 2, 2008, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

We conducted our audit to form opinions on the financial statements that collectively comprise the School District's basic financial statements. U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* requires presenting a federal awards receipts and expenditure schedule and is not a required part of the basic financial statements. We subjected the federal awards receipts and expenditure schedule to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's discussion and analysis is not a required part of the basic financial statements but is supplementary information the Governmental Accounting Standards Board requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

Mary Taylor, CPA Auditor of State

Mary Taylor

April 2, 2008

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

The discussion and analysis of Preble Shawnee Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2007, within the limitations of the School District's modified cash basis of accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

# **Financial Highlights**

Key financial highlights for fiscal year 2007 are as follows:

In total, net assets increased \$1,235,011, which represents a 15.2 percent increase from fiscal year 2006.

General receipts accounted for \$12,077,268 or 83.6 percent of all receipts. Program specific receipts in the form of charges for services, operating grants, contributions, interest, and capital grants and contributions accounted for \$2,369,666 or 16.4 percent of total receipts of \$14,446,934.

The School District had \$13,211,923 in disbursements; only \$2,369,666 of these disbursements were offset by program specific charges for services, grants, contributions or interest.

Among major funds, the General Fund had \$12,426,885 in receipts and \$11,134,689 in disbursements. The General Fund's balance increased \$1,145,827.

# **Using this Annual Financial Report**

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the School District's modified cash basis of accounting.

#### Report Components

The Statement of Net Assets and the Statement of Activities provide information about the cash activities of the School District as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the School District as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the basic financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanations and details regarding the information reported in the statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

# Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The School District has elected to present its financial statements on a modified cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the School District's modified cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the modified cash basis of accounting.

# Reporting the School District as a Whole

Statement of Net Assets and Statement of Activities – Modified Cash Basis

The Statement of Net Assets and the Statement of Activities reflect how the School District did financially during fiscal year 2007, within the limitations of modified cash basis accounting. The Statement of Net Assets presents the cash balances and investments of the governmental activities of the School District at fiscal year-end. The Statement of Activities compares cash disbursements with program receipts for each governmental program. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental program draws from the School District's general receipts.

These statements report the School District's cash position and the changes in cash position. Keeping in mind the limitations of the modified cash basis of accounting, you can think of these changes as one way to measure the School District's financial health. Over time, increases or decreases in the School District's cash position is one indicator of whether the School District's financial health is improving or deteriorating. When evaluating the School District's financial condition, you should also consider other nonfinancial factors as well such as the School District's property tax base, the condition of the School District's capital assets, the extent of the School District's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local receipt sources such as property and income taxes.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

# Reporting the School District's Most Significant Funds

#### Fund Financial Statements

The analysis of the School District's major funds begins on page 8. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School District's most significant funds. The School District's major governmental funds are the General Fund, the Bond Retirement Fund, and the Replacement Fund.

#### Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at fiscal year-end available for spending in future periods. These funds are reported on a modified cash basis. The governmental fund statements provide a detailed short-term view of the School District's general governmental operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs.

# Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources of these funds are not available to support the School District's programs.

# The School District as a Whole

Recall that the Statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for fiscal year 2007 compared to fiscal year 2006:

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

Ta	ble 1
Net	Assets

	2007	2006	Change
Assets:			
Current and Other Assets	\$3,702,108	\$2,466,336	\$1,235,772
Capital Assets	8,821,032	9,161,793	(340,761)
Total Assets	12,523,140	11,628,129	895,011
Liabilities:			
Long-Term Liabilities	2,910,000	3,425,000	(515,000)
Other Liabilities	225,000	50,000	175,000
Total Liabilities	3,135,000	3,475,000	(340,000)
Net Assets:			
Invested in Capital Assets	5,686,032	5,686,793	(761)
Restricted	1,237,182	1,150,702	86,480
Unrestricted	2,464,926	1,315,634	1,149,292
Total Net Assets	\$9,388,140	\$8,153,129	\$1,235,011

Current assets consisting of cash and cash equivalents of governmental activities increased by \$1,235,772 and capital assets decreased by \$340,761. The decrease in capital assets was due to the fact that current fiscal year depreciation was significantly higher than additions during the fiscal year. Total liabilities decreased by \$340,000 as a result of payments for the energy conservation note and the two school improvement bonds. Unrestricted net assets, the part of net assets that can be used to finance day-to-day activities without constraints established by grants or legal requirements, increased by \$1,149,292. This increase coincides with the increase in current assets, mainly in the General Fund. The increase is due to several factors including property tax and income tax increases as well as decreases in disbursements. These increases and decreases are discussed in detail on page 7.

Table 2 shows the changes in net assets for the fiscal year ended June 30, 2007 compared to fiscal year 2006.

Net Assets at End of Year	\$9,388,140	\$8,153,129	

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

# **Governmental Activities**

The unique nature of taxes in Ohio creates the need to routinely seek voter approval for the School District's operations. Property taxes and income taxes made up 34.2 percent of receipts for governmental activities for the Preble Shawnee Local School District for fiscal year 2007.

Instruction comprises 55.8 percent of School District disbursements. Support services disbursements make up 36.5 percent of the disbursements.

Charges for services decreased by \$123,027. This decrease was a result of the School District drastically cutting pay to play fees from prior fiscal years.

Operating grants, contributions, and interest decreased by \$173,246. This decrease was a result of the timing of grant money received by the School District.

Property taxes increased \$226,537 or 7.5 percent from fiscal year 2006. This increase was the result of the County's reappraisal of assessed values.

Income taxes increased \$129,287 from fiscal year 2006 due to the collection of the additional five year income tax levy. Collections started January 1, 2007.

The increase in grants and entitlements is the result of the phase out of the personal property tax. The State is reimbursing local governments for this loss and as the phase out increases, so does the State's reimbursements.

Regular instruction disbursements decreased by \$700,270 from fiscal year 2006. The main decrease is the result of the School District not replacing personnel who left at the end of fiscal year 2006. Also, several higher salaried employees retired at the end of fiscal year 2006 and were replaced with entry level employees.

Operation and maintenance of plant disbursements decreased by \$223,139 from fiscal year 2006. The decrease was the result of the School District closely monitoring these disbursements and performing only the bare minimum repairs and maintenance necessary to keep the school buildings operating.

Pupil Transportation disbursements increased from fiscal year 2006 by \$169,632. The increase was the result of the change in the Kindergarten program. Beginning in fiscal year 2007, the School District went to everyday, half day Kindergarten as opposed to full day every other day Kindergarten as in prior fiscal years.

The Statement of Activities shows the cost of program services and the charges for services and grants and contributions offsetting those services. Table 3 shows the total cost of services and the net cost of services. That is, it identifies the cost of those services supported by tax revenue and unrestricted State entitlements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

Table 3
Governmental Activities

	Total Cost of Service 2007	Net Cost of Service 2007	Total Cost of Service 2006	Net Cost of Service 2006
Instruction:

Capital Outlay	0	0	85,876	(85,876)
Interest and Fiscal Charges	167,331	(167,331)	179,973	(179,973)
Total Disbursements	\$13,211,923	(\$10,842,257)	\$13,888,124	(\$11,216,661)
			· · · · · · · · · · · · · · · · · · ·	

The dependence upon tax revenues is apparent. Over 78.8 percent of instruction activities are supported through taxes and other general receipts; for all activities general receipt support is 82.1 percent. The community, as a whole, is the primary support for the Preble Shawnee Local School District.

#### The School District's Funds

Information about the School District's major funds starts on page 14. The School District's major funds are accounted for using the modified cash basis of accounting. All governmental funds had total receipts of \$14,446,934 and disbursements of \$13,161,162. The net change in fund balance for the fiscal year in the General Fund, the Bond Retirement Fund, and the Replacement Fund was \$1,145,827, \$6,291 and (\$175,000) respectively. The General Fund experienced an increase from fiscal year 2006 due to increases in tax money and a decrease in personnel. The Bond Retirement Fund increased slightly as property tax collections were enough to cover the cost of required school improvement bond payments. The Replacement Fund decreased due to the requirement to record the entire energy conservation note as a fund liability, as it was paid off October 22, 2007.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

# **General Fund Budgeting Highlights**

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2007, final appropriations increased \$703,339 to \$11,287,793 from original appropriations of \$10,584,454 mainly due to the overestimate in calculating the decrease brought on by personnel reductions and changes. The School District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. Actual disbursements differed from final appropriations by \$4,515.

For the General Fund, the final budgeted receipts estimate was \$12,410,825, a \$431,325 increase from the original budgeted receipts estimate of \$11,979,500. The increase was due to the underestimate of property tax receipts for the reappraisal done by the County and an underestimate of the amount of personal property tax reimbursements from the State. Actual receipts differed from final estimated receipts by \$15,579.

The School District's ending unobligated General Fund cash balance was \$20,094.

# **Capital Assets**

At the end of fiscal year 2007, the School District had \$8,821,032 invested in land, land improvements, buildings and improvements, furniture, fixtures, and equipment, and vehicles.

Table 4 shows year fiscal 2007 balances compared to fiscal year 2006.

Table 4
Capital Assets (Net of Depreciation) at June 30,

	2007	2006	Change
Land	\$247,991	\$247,991	\$0
Land Improvements	80,404	86,880	(6,476)
<b>Buildings and Improvements</b>	8,031,318	8,348,115	(316,797)
Furniture, Fixtures, and Equipment	293,099	268,422	24,677
Vehicles	168,220	210,385	(42,165)
Totals	\$8,821,032	\$9,161,793	(\$340,761)

Overall capital assets decreased \$340,761 from fiscal year 2006 to fiscal year 2007. The decrease was due to the depreciation disbursement for the fiscal year exceeding additions.

For more information on capital assets, see Note 13 of the Basic Financial Statements.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2007

# **Debt Administration**

At June 30, 2007, the School District had one school improvement debt issue. The issues were originally dated December 1, 1982 and March 3, 1999. The projects provided a new high school and additions to both the School District's elementary schools, respectively. The School Improvement Bond dated December 1, 1982 was paid off during fiscal year 2007. The energy conservation note was issued on October 24, 2006 and matured on October 22, 2007. On October 22, 2007 the School District completely paid of the note. Therefore, the \$225,000 liability outstanding at June 30, 2007 will be considered a short - term note payable. This project provided energy improvements to the high school.

Table 5
Outstanding Debt at June 30,

2007	2006
\$0	\$175,000
2,910,000	3,025,000
225,000	50,000
0	225,000
\$3,135,000	\$3,475,000
	\$0 2,910,000 225,000 0

At June 30, 2007, the School District's overall legal debt limitation was \$10,848,413 with an unvoted debt margin of \$146,574, and an Energy Conservation debt margin of \$1,094,162.

For more information on the School District's debt, see Notes 14 and 15 of the Basic Financial Statements.

# **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mollie M. Hansel, Treasurer at Preble Shawnee Local School District, 124 Bloomfield Street, Camden, Ohio 45311, or email at hanselm@preble-shawnee.k12.oh.us

# NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

Preble Shawnee Local School District (the "School District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by State statute and federal guidelines.

The School District was established in 1968 through the consolidation of existing land areas and school districts. The School District serves an area of approximately 89 square miles. It is located in Butler, Montgomery, and Preble Counties, including all of Gasper, German, Gratis, Israel, Lanier, Somers, and Wayne Townships.

# Reporting Entity:

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Preble Shawnee Local School District, this includes general operations, food service and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes. The School District does not have any component units.

The School District participates in three jointly governed organizations, two insurance purchasing pools, and one shared risk pool. These organizations include the Southwest Ohio Computer Association (SWOCA), the Southwestern Ohio Educational Purchasing Council (SOEPC), the Southwestern Ohio Instructional Technology Association (SOITA), the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), the Ohio School Plan, and the Preble County Schools Regional Council of Governments (the "Council") respectively. These organizations are presented in Note 16, 17 and 18 to the basic financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Section C of Note 2, these financial statements are presented on a modified cash basis of accounting. This modified cash basis of accounting differs from accounting principles generally accepted in the United States of America. Generally accepted accounting principles (GAAP) include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the modified cash basis of accounting. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied, to the extent they are applicable to the modified cash basis of accounting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. The more significant of the School District's accounting policies are described below.

# A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a Statement of Net Assets and a Statement of Activities, and fund financial statements which provide a more detailed level of financial information.

#### Government-wide Financial Statements:

The Statement of Net Assets and the Statement of Activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The government-wide statements usually distinguish between those activities that are governmental and those that are business-type. The School District, however, does not have any activities which are presented as business-type. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions.

The Statement of Net Assets presents the cash balance, capital assets, and debt of the governmental activities of the School District at fiscal year-end. The Statement of Activities compares disbursements with program receipts for each function of the School District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the government is responsible. Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be used to support a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a modified cash basis or draws from the School District's general receipts.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Fund Financial Statements:

During the fiscal year, the School District segregates transactions related to certain School District functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary Funds are reported by type.

# **B.** Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are divided into two categories, governmental and fiduciary.

#### Governmental Funds:

The School District classifies funds financed primarily from taxes, intergovernmental receipts (e.g., grants), and other nonexchange transactions as governmental funds. The following are the School District's major governmental funds:

General Fund – The General Fund is the operating fund of the School District and is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund – The Bond Retirement Debt Service Fund is used to account for various revenues collected for the payment of general obligation bonded debt.

Replacement Fund – The Replacement Capital Projects Fund accounts for the Energy Conservation Program (H.B. 264) which is an innovative program that gives the School District an opportunity to make improvements to their buildings for energy efficiency and to use the cost savings to pay for those improvements.

The other governmental funds of the School District account for grants and other resources whose use is restricted to a particular purpose.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fiduciary Fund:

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only fiduciary fund is an Agency Fund. The School District's Agency Fund accounts for those student activities which consist of a student body, student president, student treasurer, and faculty advisor.

# C. Basis of Accounting

The School District's financial statements are prepared using the modified cash basis of accounting. Receipts are recorded in the School District's financial records and reported in the financial statements when cash is received rather than when earned, and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the School District are described in the appropriate section in this note.

As a result of the use of this modified cash basis of accounting, certain assets and their related receipts (such as accounts receivable and receipts for billed or provided services not yet collected) and certain liabilities and their related disbursements (such as accounts payable and disbursements for goods or services received but not yet paid, and accrued disbursements and liabilities) are not recorded in these financial statements.

# **D.** Budgetary Process

All funds, except the Agency Fund, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on cash disbursements plus encumbrances at the level of control selected by the Board. The legal level of control has been established by the Board at the fund level. The Treasurer has been authorized to allocate appropriations to the function and object level within all funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in receipts are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources that were in effect at the time final appropriations were passed by the Board.

The appropriation resolution is subject to amendment by the Board throughout the fiscal year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year, including all supplemental appropriations.

# **E.** Cash and Investments

To improve cash management, cash received by the School District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements. The School District utilizes a financial institution to service bonded debt as principal and interest payments come due. The balance in this account is presented on the financial statements as "Cash and Cash Equivalents with Fiscal Agents" and represents deposits.

During fiscal year 2007, the School District's investments were limited to the State Treasury Asset Reserve of Ohio (STAROhio). STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on June 30, 2007.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest receipts credited to the General Fund during fiscal year 2007 were \$181,368, which included \$52,748 assigned from other School District funds.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the School District are presented on the financial statements as cash and cash equivalents.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

# F. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets in the General Fund represent amounts required by State statute to be set aside for the purchase of textbooks and instructional materials and budget stabilization.

# G. Capital Assets and Depreciation

All capital assets of the School District are general capital assets that are associated with governmental activities. General capital assets generally result from disbursements in the governmental funds. These assets are reported in the governmental activities column of the government-wide Statement of Net Assets but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost which is determined by indexing the current replacement cost back to the year of acquisition) and updated for additions and retirements during the fiscal year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets, except land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Estimated Lives
Land Improvements	20 years
<b>Buildings and Improvements</b>	45 years
Furniture, Fixtures, and Equipment	5-20 years
Vehicles	6-8 years

# H. Employer Contributions to Cost-Sharing Pension Plans

The School District recognizes the disbursement for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 10 and 11, the employer contributions include portions for pension benefits and for postretirement health care benefits.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

# I. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net related of debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources restricted for food service operations and federal and State grants restricted to cash disbursement for specified purposes. The School District's policy is to first apply restricted resources when a cash disbursement is incurred for purposes for which both restricted and unrestricted net assets are available.

The government-wide Statement of Net Assets reports \$1,237,182 of restricted net assets, of which none is restricted by enabling legislation.

# J. Fund Balance Reserves

The School District reserves any portion of fund balances which is not available for appropriation or which is legally segregated for a specific future use. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances, textbooks and instructional materials, and budget stabilization.

# K. Long-Term and Short-Term Obligations

Long-term obligations are reported in the government-wide financial statements. Short-term obligations are reported on the fund financial statements. The School District reported a liability for notes and general obligation bonds.

# L. Internal Activity

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the Statement of Activities.

Exchange transactions between funds are reported as revenues in the seller funds and as disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented on the financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

# M. Estimates

The modified cash basis of accounting used by the School District requires management to make estimates and assumptions that affect certain reported amounts and disclosures (such as estimated useful lives in determining depreciation expense); accordingly, actual results could differ from those estimates.

# NOTE 3 - COMPLIANCE AND ACCOUNTABILITY

# A. Compliance

Ohio Administrative Code § 117-2-03 (B), requires the School District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the School District prepared its financial statements on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net assets/fund balances, and disclosures that, while material, cannot be determined at this time. The School District can be fined and various other administrative remedies may be taken against the School District.

Ohio Revised Code § 9.38 provides, in part, that public money must be deposited with the treasurer of the public office or to a designated depository on the business day following the day of receipt, if the total amount of such monies received exceeds one thousand dollars. If the total amount of public money received does not exceed one thousand dollars, the person shall deposit the monies on the next business day following the day of receipt, unless the public office of which that person is a public official adopts a policy permitting a different time period, not to exceed three business days following the day of receipt, for making such deposits, and the person is able to safeguard the monies until such time as the monies are deposited. Money received from student activities was not always timely deposited. Seventy-four percent of student activities receipts were not deposited within one business day, ranging from 2 days to 16 days.

Ohio Revised Code § 149.351 provides that no public records shall be removed, destroyed, mutilated, transferred or otherwise damaged or disposed of, in whole or part, except as provided by law or under the rules adopted by the records commission provided under Ohio Revised Code § 149.38 to 149.42. Proper documentation was not maintained for the FFA Fruit Sale.

# **B.** Accountability

At June 30, 2007 the Replacement Fund had a deficit fund balance of \$225,000. The deficit was the result of the requirement to report notes in the fund which received the note proceeds. This deficit will be alleviated when the note is paid.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# **NOTE 4 - BUDGETARY BASIS OF ACCOUNTING**

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budget Basis presented for the General Fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The differences between the budgetary basis and the modified cash basis are outstanding year-end encumbrances treated as cash disbursements (budgetary basis) rather than as a reservation of fund balance (modified cash basis).

The following table summarizes the adjustments necessary to reconcile the modified cash basis statement to the budgetary basis statement for the General Fund.

# Net Change in Fund Balance

General
\$1,145,827
(148,639)
\$997,188

# **NOTE 5 - DEPOSITS AND INVESTMENTS**

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 5 - DEPOSITS AND INVESTMENTS (continued)

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above;
- 4. Bonds and other obligations of the State of Ohio;
- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
- 7. The State Treasurer's investment pool (STAROhio); and
- 8. Commercial paper and bankers acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

# A. Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year-end, \$508,939 of the School Districts' bank balance of \$901,697 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution.

The School District has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# NOTE 5 - DEPOSITS AND INVESTMENTS (continued)

# **B.** Investments

As of June 30, 2007 the School District only had investments in STAROhio.

	Fair Value	Maturity
STAROhio	\$2,937,551	Average 39 Days

Interest Rate Risk

The School District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity.

# **NOTE 6 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar year 2007 represents collections of calendar year 2006 taxes. Real property taxes received in calendar year 2007 were levied after April 1, 2006, on the assessed value listed as of January 1, 2006, the lien date. Assessed values for real property taxes are established by State law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2007 represents collections of calendar year 2006 taxes. Public utility real and tangible personal property taxes received in calendar year 2007 became a lien December 31, 2005, were levied after April 1, 2006 and are collected in 2007 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

# **NOTE 6 - PROPERTY TAXES** (continued)

Tangible personal property tax revenue received during calendar year 2007 (other than public utility property tax) represents the collection of 2007 taxes. Tangible personal property taxes received in calendar year 2007 were levied after April 1, 2006, on the value listed as of December 31, 2006. In prior years, tangible personal property was assessed at twenty-five percent of true value for capital assets and twenty-three percent of true value for inventory. The tangible personal property tax is being phased out – the assessment percentage for all property including inventory for 2007 is 12.5 percent. This will be reduced to 6.25 percent for 2008 and zero for 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30.

The School District receives property taxes from Butler, Montgomery, and Preble Counties. The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the Counties by June 30, 2007, are available to finance fiscal year 2007 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The assessed values upon which the fiscal year 2007 taxes were collected are:

	2006 Second-		2007 First-		
	Half Collec	Half Collections		Half Collections	
	Amount	Percent	Amount	Percent	
Real Estate	\$140,756,580	93.39%	\$136,261,200	93.65%	
Public Utility Personal	6,304,140	4.18%	5,860,030	4.03%	
General Business Personal	3,659,305	2.43%	3,371,339	2.32%	
Total	\$150,720,025	100.00%	\$145,492,569	100.00%	
Tax Rate per \$1,000 of					
Assessed Valuation	\$26.07		\$26.07		

# NOTE 7 - INCOME TAX

The School District levies a voted tax of one percent for general operations on the income of residents and of estates. The tax was effective on January 1, 1991, and is a continuing tax. The School District levies an additional voted tax of three-fourths of a percent. The tax was effective on January 1, 2007 and is a five year tax. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### NOTE 8 - INTERFUND ACTIVITY

The General Fund had transfers out to the Replacement Fund and Other Governmental Funds in the amounts of \$58,478 and \$34,365, respectively during fiscal year 2007. Transfers are used to move General Fund revenues that are used to subsidize various programs in other funds.

At June 30, 2007, the General Fund had an unpaid interfund cash advance, in the amount of \$57,126, for a short-term loan made to Other Governmental Funds. This is expected to be received within one year. The General Fund also received repayments from Other Governmental Funds of \$3,600 for short-term loans made during fiscal year 2006.

#### **NOTE 9 - RISK MANAGEMENT**

#### A. Property and Liability Insurance

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2007, the School District joined together with other school districts in Ohio to participate in the Ohio School Plan (OSP), an insurance purchasing pool. Each individual school district enters into an agreement with the OSP and its premium is based on types of coverage, limits of coverage, and deductibles that it selects. The School District pays this annual premium to the OSP (See Note 17). The School District contracts for property, fleet, and liability insurance with OSP.

Insurance coverage provided includes the following:

Building and Contents – Replacement Cost (\$1,000 deductible)	\$28,992,440
Inland Marine Coverage (\$1,000 deductible)	500,000
Boiler and Machinery (\$1,000 deductible)	14,214,200
Automobile Liability	2,000,000
Uninsured Motorists	1,000,000
Educational General Liability	
Bodily Injury and Property Damage	
Per Occurrence	1,000,000
Sexual Abuse Injury	
Per Occurrence	1,000,000
Personal and Advertising Injury	
Per Occurrence	1,000,000
Fire Damage Limit	500,000
Medical Expense	
Per Person	10,000
Per Occurrence	10,000
General Aggregate Limit	3,000,000

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 9 - RISK MANAGEMENT** (continued)

Products	
Completed Operations Limit	1,000,000
Employers' Liability and Stop Gap Endorsement	
Bodily Injury By Accident	
Per Occurrence	1,000,000
Bodily Injury By Disease	
Per Employee	1,000,000
Aggregate	1,000,000
Employee Benefits Liability	
Per Occurrence	1,000,000
Aggregate Limit	3,000,000
Educational Legal Liability Coverage From	
Errors and Omissions Injury Limit (\$5,000 deductible)	\$1,000,000
Aggregate	2,000,000
Employment Practices Injury Limit (\$5,000 deductible)	1,000,000
Aggregate	2,000,000
Defense Costs Cap	1,000,000
Defense Costs Aggregate Cap	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. There has been no significant decrease in insurance coverage from the last fiscal year.

#### **B.** Workers' Compensation

For fiscal year 2007, the School District participated in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool (Note 17). The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP.

A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund." This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to participants that can meet the GRP's selection criteria. The firm of Intergrated Comp, Inc. provides administrative, cost control, and actuarial services to the GRP.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 9 - RISK MANAGEMENT** (continued)

#### C. Employee Medical Benefits

For fiscal year 2007, the School District participated in the Preble County Schools Regional Council of Governments (the "Council"), a shared risk pool consisting of five local school districts and an educational service center (See Note 18). The School District pays monthly premiums to the Council for employee medical benefits. The Council is responsible for the management and operations of the program. Upon withdrawal from the Council, a participant is responsible for the payment of all the Council liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

#### NOTE 10 - DEFINED BENEFIT PENSION PLANS

#### A. School Employees Retirement System

The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3476, or by calling toll-free (800) 878-5853. It is also posted on SERS' website, www.ohsers.org, under Forms and Publications.

Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute at an actuarially determined rate. The current School District rate is 14 percent of annual covered payroll. A portion of the School District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2007, 10.68 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to a statutory maximum amount, by the SERS' Retirement Board. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2007, 2006 and 2005, were \$169,948, \$168,334, and \$176,917, respectively; 100 percent has been contributed for all three fiscal years.

#### **B.** State Teachers Retirement System of Ohio

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371, by calling toll-free (888) 227-7877, or by visiting the STRS Ohio website at www.strsoh.org.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2007, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2006, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to the DB Plan for the fiscal years ended June 30, 2007, 2006, and 2005, were \$652,627, \$709,787, and \$729,971, respectively; 100 percent has been contributed for all three fiscal years. Contributions to the DC and Combined Plans for fiscal year 2007 were \$8,461 made by the School District and \$15,577 made by the plan members.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 10 - DEFINED BENEFIT PENSION PLANS** (continued)

#### C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2007, two members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

#### **NOTE 11 - POSTEMPLOYMENT BENEFITS**

The School District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System (STRS Ohio), and to retired non-certificated employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

All STRS Ohio retirees who participated in the DB or Combined Plans and their dependents are eligible for health care coverage. The STRS Ohio Board has statutory authority over how much, if any, of the health care cost will be absorbed by STRS Ohio. All benefit recipients pay a portion of the health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS Ohio funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2007, the STRS Ohio Board allocated employer contributions equal to one percent of covered payroll to the Health Care Stabilization Fund. For the School District, this amount equaled \$50,202 for fiscal year 2007.

STRS Ohio pays health care benefits from the Health Care Stabilization Fund. At June 30, 2006, (the latest information available) the balance in the Fund was \$3.5 billion. For the fiscal year ended June 30, 2006, net health care costs paid by STRS Ohio were \$282,743,000 and STRS Ohio had 119,184 eligible benefit recipients.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 11 - POSTEMPLOYMENT BENEFITS** (continued)

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. All retirees and beneficiaries are required to pay a portion of their health care premium. The portion is based on years of service, Medicare eligibility, and retirement status.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2007, employer contributions to fund health care benefits were 3.32 percent of covered payroll, compared to 3.42 percent of covered payroll for fiscal year 2006. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2007, the minimum pay was established at \$35,800. However, the surcharge is capped at two percent of each employer's SERS salaries. For the School District, the amount contributed to fund health care benefits, including the surcharge, during the 2007 fiscal year equaled \$78,826.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of the projected claims less premium contributions for the next fiscal year. Expenses for health care at June 30, 2006, (the latest information available), were \$158,751,207. At June 30, 2006, SERS had net assets available for payment of health care benefits of \$295.6 million. SERS has 59,492 participants eligible to receive benefits.

#### **NOTE 12 - OTHER EMPLOYEE BENEFITS**

#### **Life Insurance**

The School District provides life insurance and accidental death and dismemberment insurance to all employees through Guardian Life.

#### **NOTE 13 - CAPITAL ASSETS**

Capital assets activity for the fiscal year ended June 30, 2007, was as follows:

/2007
47,991
17,414
99,841
00,260
93,752
11,267
37,010)
68,523)
07,161)
25,532)
38,226)
73,041
21,032

<sup>\*</sup> Depreciation disbursement was charged to governmental functions as follows:

Instruction:	
Regular	\$254,790
Special	18,788
Vocational	18,738
Support Services:	
Pupils	763
Instructional Staff	20,331
Administration	3,883
Business	147
Operation and Maintenance of Plant	19,564
Pupil Transportation	44,844
Central	1,033
Operation of Non-Instructional Services	27,972
Extracurricular Activities	8,710
Total Depreciation Disbursement	\$419,563

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 14 - LONG-TERM OBLIGATIONS**

The changes in the School District's long-term obligations during fiscal year 2007 were as follows:

	Outstanding			Outstanding	Due in
	6/30/2006	Additions	Deductions	6/30/2007	One Year
Governmental Activities					
Notes Payable:					
Energy Conservation					
2006 3.75%	\$225,000	\$0	\$225,000	\$0	\$0
General Obligation Bonds:					
School Improvement					
1982 10.75%	175,000	0	175,000	0	0
School Improvement					
1999 5.00%	3,025,000	0	115,000	2,910,000	120,000
Total General Obligation Bonds	3,200,000	0	290,000	2,910,000	120,000
Total Governmental Activities		_			
Long-Term Liabilities	\$3,425,000	\$0	\$515,000	\$2,910,000	\$120,000

#### Notes Payable

On October 24, 2006, the School District issued \$225,000 in notes for the purpose of providing energy conservation measures for the School District, under authority of the Ohio Revised Code Sections 113.06(G) and 3313.372. On October 22, 2007 the School District completely paid off the note. Therefore, the \$225,000 liability outstanding at June 30, 2007 will be considered a short - term note payable. This project provided energy improvements to the high school.

#### School Improvement General Obligation Bonds

On December 1, 1982, Preble Shawnee Local School District issued \$4,050,000 in voted general obligation bonds for the purpose of an addition and improvements to the schools in the School District. The bonds were issued for a twenty-four year period and reached maturity on December 1, 2006. The debt was retired from the Bond Retirement Fund.

On March 3, 1999, Preble Shawnee Local School District issued \$3,692,900 in voted general obligation bonds for the purpose of additions and improvements to the school buildings in the School District. The bonds were issued for a twenty-two year period with final maturity at December 1, 2021. The debt will be retired from the Bond Retirement Fund.

The School District's overall legal debt margin was \$10,848,413 with an unvoted debt margin of \$146,574, and an Energy Conservation debt margin of \$1,094,162 at June 30, 2007.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### NOTE 14 - LONG-TERM OBLIGATIONS (continued)

Principal and interest requirements to retire general obligation debt outstanding at June 30, 2007, are as follows:

Fiscal Year			
Ending June 30,	Principal	Interest	Total
2008	\$120,000	\$138,225	\$258,225
2009	130,000	132,910	262,910
2010	135,000	127,145	262,145
2011	145,000	120,731	265,731
2012	155,000	113,606	268,606
2013-2017	945,000	442,325	1,387,325
2018-2022	1,280,000	168,000	1,448,000
Total	\$2,910,000	\$1,242,942	\$4,152,942

#### **NOTE 15 - NOTES PAYABLE**

During fiscal year 2007, the School District paid \$50,000 of the outstanding \$275,000 Energy Conservation Note and reissued \$225,000. On October 22, 2007, the School District completely paid off the note. Therefore, the \$225,000 liability outstanding at June 30, 2007 will be presented as a fund liability in the financial statements.

	Balance			Balance
Types / Issues	6/30/2006	Additions	Deletions	6/30/2007
2006 - 3.75% Energy Conservation	\$50,000	\$225,000	\$50,000	\$225,000

#### **NOTE 16 - JOINTLY GOVERNED ORGANIZATIONS**

#### A. Southwest Ohio Computer Association

The School District is a participant in the Southwest Ohio Computer Association (SWOCA) which is a computer consortium. SWOCA is an association of public school districts within the boundaries of Butler, Warren, and Preble Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of SWOCA consists of one representative from each district plus one representative from the fiscal agent. The School District paid SWOCA \$37,677 for services provided during the fiscal year. Financial information can be obtained from K. Michael Crumley, Executive Director of SWOCA at 3607 Hamilton-Middletown Road, Hamilton, Ohio 45011.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### NOTE 16 - JOINTLY GOVERNED ORGANIZATIONS (continued)

#### **B. Southwestern Ohio Educational Purchasing Council**

The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing cooperative made up of nearly 100 school districts in 12 counties. The purpose of the cooperative is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC. Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the member districts. Any district withdrawing from the SOEPC forfeits its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group. During this time, the withdrawing member is liable for all member obligations.

Payments to SOEPC are made from the General Fund. During fiscal year 2007, the School District paid \$935 to SOEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Ken Swink, who serves as Director, at 303 Corporate Center Drive, Suite 208, Vandalia, Ohio 45377.

#### C. Southwestern Ohio Instructional Technology Association

The Southwestern Ohio Instructional Technology Association (SOITA) is a not-for-profit corporation. The purpose of the corporation is to serve the educational needs of the area through television programming for the advancement of educational programs. The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. Nineteen representatives are elected from within the counties by the qualified members within the counties, i.e., Auglaize, Butler, Champaign, Clark, Clinton, Darke, Fayette, Greene, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby, and Warren. Montgomery, Greene and Butler Counties elect two representatives per area. All others elect one representative per area. One at-large non-public representative is elected by the non-public school SOITA members in the State-assigned SOITA service area. One at-large higher education representative is elected by higher education SOITA members from within the State-assigned SOITA service area.

All member districts are obligated to pay all fees, charges, or other assessments as established by the SOITA. Upon dissolution, the net assets shall be distributed to the federal government, or to a state or local government, for a public purpose. Payments to SOITA are made from the General Fund. During fiscal year 2007, the School District paid \$20,205 to SOITA. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association, Dave Gibson, who serves as Director, at 150 East Sixth Street, Franklin, Ohio 45005.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 17 - INSURANCE PURCHASING POOLS**

## A. Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan

The School District participates in the Southwestern Ohio Educational Purchasing Council Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by an eleven member Executive Committee consisting of the Chairperson, the Vice-Chairperson, a representative from the Montgomery County Educational Service Center and eight other members elected by majority vote of all member school districts. The Chief Administrator of the GRP serves as the coordinator of the program. Each fiscal year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

#### **B.** Ohio School Plan

The School District participates in the Ohio School Plan (OSP), an insurance purchasing pool. The OSP is created and organized pursuant to and as authorized by Section 2744.081 of the Ohio Revised Code. The OSP is an unincorporated, non-profit association of its members and an instrumentality for each member for the purpose of enabling members of the Plan to provide for a formalized, joint insurance purchasing program to maintain adequate insurance protection, risk management programs and other administrative services. The OSP's business and affairs are conducted by a thirteen member Board of Directors consisting of school district superintendents and treasurers, as well as Dave Harcum, an independent consultant of the Hylant Group, Inc., and a partner of the Hylant Group, Inc. The Hylant Group, Inc. is the Administrator of the OSP and is responsible for processing claims. Harcum-Schuett Insurance Agency, Inc. is the sales and marketing representative, which establishes agreements between OSP and member schools.

#### **NOTE 18 - SHARED RISK POOL**

#### **Preble County Schools Regional Council of Governments**

The Preble County Schools Regional Council of Governments (the "Council"), a shared risk pool, was formed by five local school districts and the Preble County Educational Service Center for the purpose of achieving lower rates for medical insurance. The Council is governed by an advisory committee consisting of each member's superintendent or designee from each participating school district. Premiums are paid on a monthly basis to the Council and their designated insurance company. The Council is responsible for the operation and maintenance of the program. If the premiums are insufficient to pay the program costs for the fiscal year, the Council may assess additional charges to all participants. The Preble County Educational Service Center serves as coordinator of the Council. Financial information can be obtained from Teresa Freeman, who serves as Treasurer, at 597 Hillcrest Drive, Eaton, Ohio 45320.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 19 - SET-ASIDE CALCULATIONS**

The School District is required by State statute to annually set aside in the General Fund an amount based on a statutory formula for the purchase of textbooks and instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by fiscal year-end or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year-end and carried forward to be used for the same purposes in future fiscal years. The amount reserved for budget stabilization represents refunds received from the Bureau of Workers' Compensation. Based upon legislative changes, this is the only money still required to be set-aside for this purpose.

The following cash basis information describes the change in the fiscal year-end set-aside amounts for budget stabilization, textbooks and instructional materials, and capital improvements. Disclosure of this information is required by State statute.

ctional Capital
erials Improvements
.07,323 \$0
225,192 225,192
239,841) (187,563)
0 (473,551)
692,674 (\$435,922)
\$92,674
592,674 \$0

The School District had qualifying disbursements and offsets during the fiscal year that reduced the capital improvements amount below zero. This extra amount of offsets may not be used to reduce the set-aside requirements in future fiscal years. The total reserve balance for the set-asides at the end of the fiscal year was \$157,504.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2007

#### **NOTE 20 - CONTINGENCIES**

#### A. Grants

The School District received financial assistance from federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2007.

#### **B.** Litigation

The School District is defendant in several lawsuits. Although management cannot presently determine the outcome of these suits, they believe the resolution of these matters will not materially adversely affect the School District's financial condition.

#### **NOTE 21 - SIGNIFICANT CONTRACTUAL COMMITMENTS**

As of June 30, 2007, the School District had contractual purchase commitments as follows:

		Contract	Amount	Balance at
Company	Project	Amount	Expended	6/30/07
Asphalt Sealcoaters	Repair Parking Lots	\$20,900	\$0	\$20,900
Waggoner Improvements	Painting	12,230	0	12,230
Totals		\$33,130	\$0	\$33,130

#### NOTE 22 - SUBSEQUENT EVENT

The School District was a party in a lawsuit at June 30, 2007. The former superintendent sued the School District claiming that the School District wrongfully did not renew his contract. There was a ruling on September 14, 2007 in favor of the School District with no monetary damages as a result. The former superintendent appealed the trial court's decision to the Twelfth District Court of Appeals. The Appeals Court has not yet reached a decision.

### PREBLE SHAWNEE LOCAL SCHOOL DISTRICT PREBLE COUNTY

### NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE JUNE 30, 2007

#### **NOTE A - SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) summarizes activity of the School District's federal award programs. The schedule has been prepared on the cash basis of accounting.

#### **NOTE B - CHILD NUTRITION CLUSTER**

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

#### **NOTE C - FOOD DONATION PROGRAM**

Program regulations do not require the School District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair market value of the commodities received.

#### **NOTE D - MATCHING REQUIREMENTS**

Certain Federal programs require that the School District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The School District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

#### **NOTE E - NEGATIVE RECEIPTS**

Each project completed approved activities within the time frames allotted by the Ohio Department of Education (ODE). At the conclusion of the grant period, the School District requested that unexpended funds be transferred to the following grant period.

#### **NOTE F - TITLE I**

The Ohio Department of Education transferred \$3,529 of FY2006 Title I grant monies (C1S1-2006) to the FY2007 program (C1S1-2007). The \$3,529 transfer is reflected as a negative receipt for C1S1-2006 and included as revenue for C1S1-2007 on the accompanying schedule of federal awards expenditures.

The Ohio Department of Education transferred \$30,510 of FY2006 Title I grant monies (C1SK-2006) to the FY2007 program (C1SK-2007). The \$30,510 transfer is reflected as a negative receipt for C1SK-2006 and included as revenue for C1SK-2007 on the accompanying schedule of federal awards expenditures.

#### NOTE G - TITLE II-D TECHNOLOGY LITERACY CHALLENGE GRANT

The Ohio Department of Education transferred \$148 of FY2006 Title II-D Technology Literacy Challenge grant monies (TJS1-2006) to the FY2007 program (TJS1-2007). The \$148 transfer is reflected as a negative receipt for TJS1-2006 and included as revenue for TJS1-2007 on the accompanying schedule of federal awards expenditures.

# Mary Taylor, CPA Auditor of State

## INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Preble Shawnee Local School District Preble County 124 Bloomfield Street Camden, Ohio 45311

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Preble Shawnee Local School District, Preble County, Ohio (the School District), as of and for the year ended June 30, 2007, which collectively comprise the School District's basic financial statements and have issued our report thereon dated April 2, 2008, wherein, we noted the School District uses a comprehensive accounting basis other than generally accepted accounting principles. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinions on the financial statements, but not to opine on the effectiveness of the School District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over financial reporting that we consider a significant deficiency.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the School District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

We consider the following deficiency described in the accompanying schedule of findings to be a significant deficiency in internal control over financial reporting: 2007-003.

Preble Shawnee Local School District
Preble County
Independent Accountants' Report on Internal Control
Over Financial Reporting and Compliance and Other
Matters Required by Government Auditing Standards
Page 2

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the School District's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and accordingly, would not necessarily disclose all significant deficiencies that are also material weaknesses. We believe the significant deficiency described above is not a material weakness.

We also noted certain internal control matters that we reported to the School District's management in a separate letter dated April 2, 2008.

#### **Compliance and Other Matters**

As part of reasonably assuring whether the School District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed instances of noncompliance or other matters that we must report under *Government Auditing Standards* which are described in the accompanying schedule of findings as items 2007-001, 2007-002, and 2007-003.

We did note certain noncompliance or other matters that we reported to the School District's management in a separate letter dated April 2, 2008.

The School District's responses to the findings identified in our audit are described in the accompanying schedule of findings. We did not audit the School District's responses and, accordingly, we express no opinion on them.

We intend this report solely for the information and use of the audit committee, management, Board of Education, and federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

Mary Taylor, CPA Auditor of State

## INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Preble Shawnee Local School District Preble County 124 Bloomfield Street Camden, Ohio 45311

To the Board of Education:

#### Compliance

We have audited the compliance of Preble Shawnee Local School District, Preble County, Ohio (the School District), with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the year ended June 30, 2007. The summary of auditor's results section of the accompanying schedule of findings identifies the School District's major federal programs. The School District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, Preble Shawnee Local School District complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2007.

#### **Internal Control Over Compliance**

The School District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

Corporate Centre of Blue Ash / 11117 Kenwood Rd. / Blue Ash, OH 45242 Telephone: (513) 361-8550 (800) 368-7419 Fax: (513) 361-8577 www.auditor.state.oh.us

Preble Shawnee Local School District
Preble County
Independent Accountants' Report on Compliance with Requirements Applicable
To Each Major Federal Program and on Internal Control Over
Compliance in Accordance with OMB Circular A-133
Page 2

A control deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the School District's ability to administer a federal program such that there is more than a remote likelihood that the School District's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the School District's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We intend this report solely for the information and use of the audit committee, management, Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

(d)(1)(ix)	Low Risk Auditee?	Yes

Preble Shawnee Local School District Preble County Schedule of Findings Page 2

### 2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

#### **FINDING NUMBER 2007-001**

#### **Noncompliance**

Ohio Administrative Code, § 117-2-03 (B), requires a School District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the School District prepares its financial statements on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles accepted in the United States of America. The accompanying financial statements omit assets, liabilities, fund equities, and disclosure that, while material, cannot be determined at this time. The School District can be fined and various other administrative remedies may be taken against the School District, as such, we recommend the School District prepares its annual financial report in accordance with generally accepted accounting principles.

#### Officials' Response:

A couple of years ago the district changed to modified cash basis of accounting in order to save money. At this point it would be too expensive to switch back to generally accepted accounting principles.

#### **FINDING NUMBER 2007-002**

#### **Noncompliance**

Ohio Revised Code, § 9.38, provides, in part, that public money must be deposited with the treasurer of the public office or to a designated depository on the business day following the day of receipt, if the total amount of such monies received exceeds one thousand dollars. If the total amount of public money received does not exceed one thousand dollars, the person shall deposit the monies on the next business day following the day of receipt, unless the public office of which that person is a public official adopts a policy permitting a different time period, not to exceed three business days following the day of receipt, for making such deposits, and the person is able to safeguard the monies until such time as the monies are deposited. Money received from student activities was not always timely deposited. Seventy-four percent of student activities receipts were not deposited within one business day, ranging from 2 days to 16 days. Failure to deposit monies in accordance with the Ohio Revised Code could result in misappropriation of School District funds and also could result in the loss of interest revenue. We recommend the School District make timely deposits of all district monies.

#### Officials' Response:

I will continue to work with student activities to get them to better comply with Board Policy and Ohio Revised Code.

Preble Shawnee Local School District Preble County Schedule of Findings Page 3

#### **FINDING NUMBER 2007-003**

#### Noncompliance/Significant Deficiency

Ohio Revised Code, § 149.351(A), provides, in part, that no public records shall be removed, destroyed, mutilated, transferred or otherwise damaged or disposed of, in whole or part, except as provided by law or under the rules adopted by the records commission provided under Ohio Rev. Code Sections 149.38 to 149.42.

The following weaknesses in the design and operation of student activity receipts were noted during testing of the FFA Fruit Sale:

- The School District did not provide any duplicate receipts issued to students.
- The School District did not maintain all student order forms [total receipts per the available student order forms was \$14,684].
- The "total due" spreadsheet created by the activity advisor [the spreadsheet indicated receipts of \$19,438] did not match with all of the pay-in orders prepared by the activity advisor [pay-in orders prepared by the activity advisor indicated \$18,441 of receipts]. We could not verify that the total receipts amount of \$19,438 is correct. This receipts amount is generated from student order forms. However, not all student order forms were maintained. The School District actually received/deposited \$18,883 in FFA fruit sale receipts.
- The activity advisor did not update the "total due" spreadsheet for receipts collected after February 1, 2007; therefore, there is no comprehensive documentation of the total amount collected and the total amount still due from students.

To improve internal controls over the School District's student activities we recommend the following:

Failure to properly maintain supporting documentation could result in an incomplete record and loss of accountability for project receipts and disbursements, and misappropriation of funds. We recommend that the School District review their current policy. Additional controls and procedures are explained in the Auditor of State (AOS) "Guidelines for Developing Policies for Student Activity Programs available at the AOS web site: www.auditor.state.oh.us, under publications, scroll down to Manuals, Handbooks, Forms & Technical Resources and click on Guidelines for Developing Policies for Student Activity Programs Proper supporting documentation should be maintained for all student activity fundraisers. Pre-numbered duplicate receipts should be issued for all receipts collected from students. All student order forms should be maintained. Furthermore, comprehensive records should be maintained of the total amounts collected and still due from students.

#### Officials' Response:

The teacher in charge of the FFA fruit sale is no longer with the district. We have implemented procedures to ensure that this won't happen again.

#### 3. FINDINGS AND QUESTIONED COSTS FOR FEDERAL AWARDS

None.
