Comprehensive Annual Financial Report For the Years Ended December 31, 2007 and 2006

Issued by the Finance Department Christy J. Price, Deputy Executive Director, Chief Financial Officer

# Mary Taylor, CPA Auditor of State

Board of Trustees Regional Income Tax Agency 10107 Brecksville Road Brecksville, Ohio 44141

We have reviewed the *Independent Auditors' Report* of the Regional Income Tax Agency, Cuyahoga County, prepared by Ciuni & Panichi, Inc., for the audit period January 1, 2007 through December 31, 2007. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Regional Income Tax Agency is responsible for compliance with these laws and regulations.

Mary Taylor, CPA Auditor of State

Mary Taylor

June 15, 2008

The Board of Trustees of the Regional Income Tax Agency and Member Municipalities

The Regional Income Tax Agency (R.I.T.A. or the Agency) issues a Comprehensive Annual Financial Report (CAFR) in response to Ohio law ((Ohio Administrative Code Section 117-2-03(B)). This regulation requires the Agency's audited financial reports, prepared on a GAAP (Generally Accepted Accounting Principles) basis, to be filed with the Auditor of State within six months of the close of each fiscal year. This report was published to fulfill that requirement for the fiscal year ended December 31, 2007.

R.I.T.A.'s management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that is maintained for this purpose. As the cost of internal control should not exceed the benefit, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the Agency. All disclosures necessary to enable the reader to gain an understanding of the Agency's financial activities have been included.

Ciuni & Panichi, Inc. (Certified Public Accountants and Business Advisors), have issued an unqualified opinion on the Regional Income Tax Agency's financial statements for the year ended December 31, 2007. The Independent Auditors' Report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview and analysis of the basic financial statements. The information contained in the MD&A complements this letter of transmittal and should be read in conjunction with the transmittal for a complete comprehension of the results of the 2007 operations.

# Profile of the Government

The Regional Income Tax Agency was established in 1971 to collect and distribute municipal income taxes. The Agency was created by the members of a Regional Council of Governments (RCOG) under Section 167 of the Ohio Revised Code and is subject to Ohio law in areas that include investments, purchasing and employee benefits. The Membership has grown from 38 municipalities at inception to over 140 members today. R.I.T.A. is guided by a nine member Board of Trustees, elected by the members of the RCOG for three year terms. The Trustees appoint an Executive Director who is responsible for the operations of the Agency.

For financial reporting purposes, the Regional Income Tax Agency's basic financial statements include the two funds for which the Agency is financially responsible. Following the GASB (Governmental Accounting Standards Board) definition of financial accountability there are no other entities that required incorporation into the financial statements.

### **Budgetary Process**

Although not required under the Ohio Revised Code, an annual operating budget is adopted for management purposes. R.I.T.A.'s budget is prepared on the accrual basis, by department, for personal services and other expenses; the debt service is budgeted for the Agency as a whole. The Board of Trustees approves the budget and authorizes the Executive Director to expend the funds per purchasing restrictions.

During the year the Executive Director had the authority to approve most expenses for goods and services under \$7,500. The Board's Finance Committee approved all purchases \$7,500 to \$14,999 and all legal costs, regardless of amount. Finally, expenditures of \$15,000 and greater were authorized by the Board of Trustees. These limits were revised effective January 7, 2008 as follows: the Executive Director now has the authority to approve most expenses for goods and services up to \$10,000. The Board's Finance Committee approves all purchases from \$10,000 to \$24,999 with any expenditure of \$25,000 and greater needing full Board approval. The Trustees must also authorize any budget reallocation between departments or expense types, or for an increase in the total budget. The Board approved one budget amendment in 2007.

# **Factors Affecting Financial Condition**

### Local Economies

The Agency's membership extends across 42 counties in the State of Ohio. The municipalities' local economies range from situations of robust growth to circumstances of economic downturn. Overall, the membership appears to have a stable economic environment as the average collection growth for established members with no changes in rates or credits was 3.3% for 2007.

The Agency total collections have grown substantially over the past few years. In 2005 collections were approximately \$541 million; by the end of 2007 the number had grown to almost \$686 million. Current projections show that R.I.T.A. 2008 collections will approach three-quarters of a billion dollars. In addition to the rising tax revenues, the Agency's average net cost percentage has decreased from 2.15% in 2005 to 1.81% in 2007. This means that, on average, R.I.T.A.'s 2007 cost to the members was less than 2 cents per dollar collected. Such low costs help keep the Regional Income Tax Agency's services attractive to its members which in turn maintains the Agency's solid economic footing.

### **Relevant Financial Policies**

# Internal Control

As briefly discussed above, the Agency's management is responsible for establishing and maintaining an internal control structure designed to ensure that R.I.T.A.'s assets are protected from loss, theft or misuse. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management. All Agency internal controls are designed within the above framework. Accordingly, it is believed that the system of internal controls is adequate to safeguard assets and provide reasonable assurance of proper recording of transactions.

# Basis of Accounting

The Regional Income Tax Agency implemented GASB Statement 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments" in 2004. GASB 34 creates basic financial statements for reporting the Agency's financial activities. As such, the financial statements present one proprietary fund and one fiduciary fund.

### **Debt Administration**

The Agency is restricted in its ability to issue debt and consequently, has entered into such agreements sparingly. However, R.I.T.A. did assume debt several years ago and the funds were used to advance the Agency's effort to update its technology (see Footnote number seven for further information). The assets obtained with the proceeds of the debt are depreciated over the useful lives of the items and the related expense is recognized in the proper accounting periods. Furthermore, the debt repayment schedules were structured in a manner to best match the depreciation with the principal payments. Future debt issuances are not expected to be needed as continuous updating of the Agency's technology is a part of R.I.T.A.'s strategic planning.

# Cash Management

Prior to distribution all Agency cash is pooled for investment purposes to provide a maximum yield while protecting principal through conservative investment choices. The Agency's investment policy designates the type of investments that can be made and only permits investments which are in compliance with the Ohio Revised Code. Protection of the Agency's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), eligible instruments pledged by the financial institution as security for repayment or single collateral pools established by the financial institutions to secure the repayment of all public monies deposited with the institutions. The Agency primarily invests in short-term, liquid instruments; there is also a core of funds available for investments with terms not to exceed two years.

## Risk Management

R.I.T.A. is exposed to various risks of loss including theft, damage to or destruction of assets, errors and omissions, torts and legal judgments and employee injuries. The Regional Income Tax Agency mitigates these risks by maintaining comprehensive general liability insurance, an overall umbrella policy as well as coverage for business interruption and property losses. The Agency provides health, dental and vision insurance to its employees through two standard premium-based plans and obtains coverage through the State of Ohio Worker's Compensation program.

## Major Initiatives

During the year, the Agency continued to enhance its eBusiness functionalities. The systems are very user-friendly which has led to a 44% increase in eFile collections compared to 2006. Furthermore, online registrations grew by almost 5,000 new accounts over the prior year. The eBusiness systems increase processing efficiencies, lower operating costs and improve services for taxpayers. Development of the new tax system (RITAX) is also progressing. Currently under construction is a new on-line editing module which will present a graphical interface to which most computer users are accustomed. The RITAX system will continue to be rolled out in stages which has proven to be the most efficient and effective method for the Agency.

After several years of efforts, R.I.T.A. was successful in obtaining a change to Federal Law authorizing the Internal Revenue Service (IRS) to release taxpayer information to Regional Councils of Governments. Previously, regulations limited the data sharing to municipalities with populations in excess of 250,000. The new legislation was passed in December 2006; since that time the Agency has been working to meet the IRS sharing requirements. Thus far the IRS has approved the "Basic Agreement" which establishes the legal authority for the mutual disclosure of tax information. They are now in the process of reviewing R.I.T.A.'s "Safeguard Procedures Report" which indicates how the Agency will use the data for purposes of tax administration and enforcement with an emphasis on protection of the information from unauthorized access. Furthermore, the Agency has finalized the software selection process for the program that will be used with the Federal data. R.I.T.A. is anticipating completion and approval of the required IRS applications; once this process is complete R.I.T.A. will have access to data that will streamline business processes, while significantly enhancing tax revenues through the identification of non-compliant taxpayers

# Awards and Acknowledgements

# GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Regional Income Tax Agency for its comprehensive annual financial report for the fiscal year ended December 31, 2006. This was the twenty-second year that the Agency has achieved this prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. The CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a one year period. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

## Acknowledgments

The 2007 Comprehensive Annual Financial Report was prepared with substantial assistance from Lori Starcher and Sandy Majkrzak of the Finance Department. We wish to thank them for all of their efforts. We also thank the Board of Trustees for their interest and support of this endeavor and for the manner in which they have directed the financial operations of the Regional Income Tax Agency.

Respectfully submitted,

Rick Carbone

# Certificate of Achievement for Excellence in Financial Reporting

Presented to

# Regional Income Tax Agency Ohio

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2006

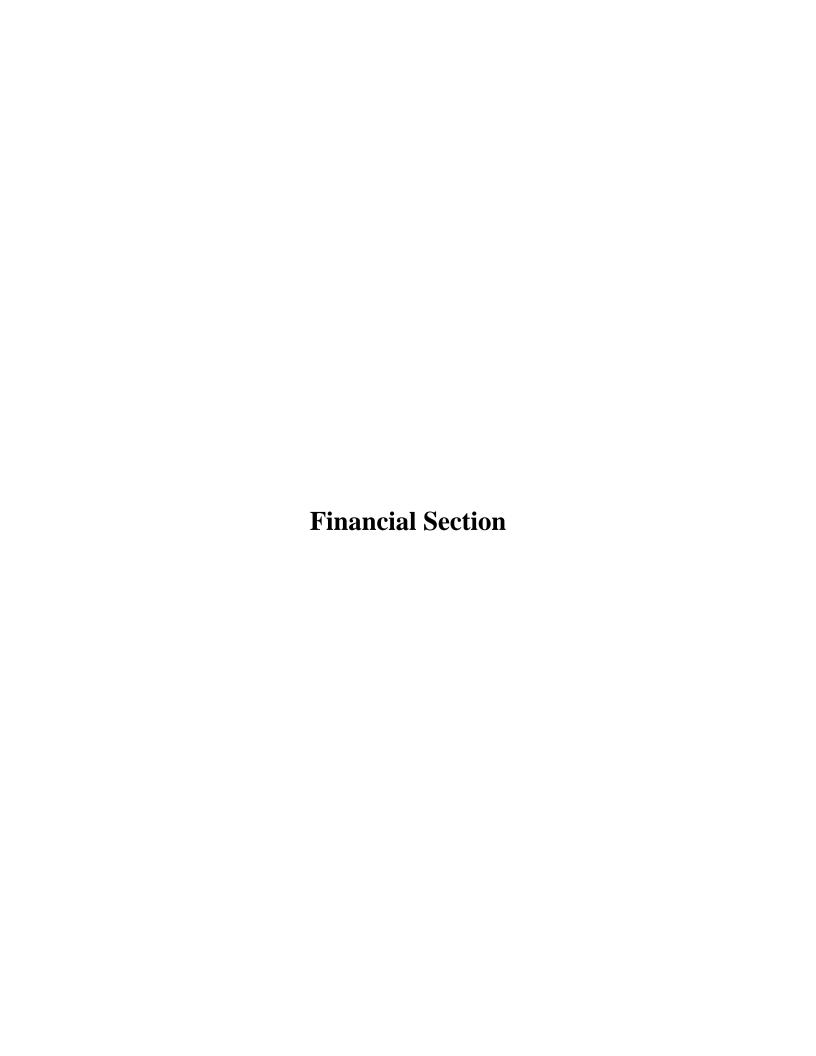

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

Olme S. Cx

President

**Executive Director** 

# **Independent Auditors' Report**

Board of Trustees Regional Income Tax Agency Brecksville, Ohio

We have audited the accompanying financial statements of the business-type activities and the aggregate remaining fund information of the Regional Income Tax Agency ("R.I.T.A.") as of and for the years ended December 31, 2007 and 2006, which collectively comprise the R.I.T.A.'s basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Regional Income Tax Agency's management. Our responsibility is to express opinions on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinions.

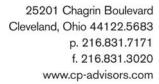

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the Regional Income Tax Agency, as of December 31, 2007 and 2006, and the respective changes in financial position and where applicable, cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 14, during the year ended December 31, 2007, the Regional Income Tax Agency implemented GASB Statement No. 43, Financial Reporting for Postemployment Benefit Plans other than Pension Plans, GASB Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits other than Pensions, GASB Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues and GASB Statement No. 49, Accounting and Financial Reporting for Pollution Remediation Obligations.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 23, 2008 on our consideration of the Regional Income Tax Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

C&P Wealth Management, LLC

Board of Trustees Regional Income Tax Agency

The management's discussion and analysis on pages 3 through 12 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Regional Income Tax Agency's basic financial statements. The introductory section, budgetary comparison information, statement of changes in assets and liabilities – agency fund, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The statement of changes in assets and liabilities – agency fund and budgetary comparison information have been subjected to the auditing procedures applied in the audits of the basic financials and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audits of the basic financial statement and, accordingly, we express no opinion on them.

& Panichi Inc.

Cleveland, Ohio June 23, 2008

# Management's Discussion and Analysis (Unaudited)

The purpose of the discussion and analysis is to provide a general review of the Regional Income Tax Agency's financial activities for the year ended December 31, 2007. The reader should consider this analysis in conjunction with the Transmittal Letter, the basic financial statements and the Statistical Section to gain a further understanding of the Agency's operations and financial performance.

### **Financial Highlights**

- Receipts grew from \$541 million in 2005, to \$622 million in 2006 and to almost \$686 million in 2007.
   Cash and Cash Equivalents increased primarily due to this growth in collections and the related fees retained from members.
- The average percent net cost of collections decreased again for a third year. The average percent was 2.16% in 2005, 1.84% in 2006 and 1.82% in 2007. In conjunction with the cost allocation reduction, the total amount of net retainer to be refunded to the municipalities increased to \$7.1 million from the \$6.4 million reimbursed last year.
- As of December 31, 2007 assets exceeded liabilities by \$16,092 versus the prior year balance of \$51,081. The change in net assets is due to a loss from the Municipal Services activities. The services are offered to our members on a cost basis. Charges are reviewed on an annual basis and adjusted if necessary to maintain adequate working capital without reserving excess funds.
- The repayment of debt during 2007 and 2006 resulted in the reduction of the Capital Lease Obligations.
- Depreciable Capital Assets, Net decreased reflecting a full year of depreciation for assets that were placed into service during 2006.
- The increase in Professional and Processing is due to greater use of temporary workers to meet the processing needs of R.I.T.A.'s growing membership, higher volumes processed by the bank lockbox and additional expert technical assistance necessary for the RITAX development project.

## **Overview of the Financial Statements**

A fund is a grouping of related accounts utilized to maintain control over the resources used to perform specific activities. R.I.T.A. has two funds; one is proprietary (business-type activity) and the other fund is a fiduciary fund.

The proprietary fund is an enterprise fund that primarily accounts for the Agency's tax collection services. R.I.T.A. provides these services to its members on a cost reimbursement basis with no margin or profit. During the year the operations are funded with advance fees from the municipalities. At year-end, costs are allocated to members based on transactions and amounts collected; the municipalities' individual fee refunds or fee payables are then computed. After settlement of the amounts owed/due, the net asset balance for the tax collections activity is brought to zero. The proprietary fund is also used to record the Municipal Services Department financial software leasing and support activities.

The fiduciary fund accounts for the members' tax receipts held by R.I.T.A. prior to distribution to the municipalities. The funds are invested in short-term instruments and all interest income is used to offset the members' costs of the tax collection services.

# Management's Discussion and Analysis (Unaudited)

The Regional Income Tax Agency's basic financial statements have three components: 1) Proprietary Fund statements, 2) Fiduciary Fund statements, and 3) Notes to the financial statements. The proprietary fund statements consist of the Statement of Net Assets, the Statement of Revenues, Expenses and Changes in Net Assets and the Statement of Cash Flows. The fiduciary fund statement is the Statement of Changes in Assets and Liabilites – Agency Fund. The CAFR also includes other supplementary information in the Statistical Section.

# Financial Analysis of the Agency's Financial Position and Results of Operations

The following tables below present summaries of the Agency's financial position and operations for 2007 compared to the 2006 and 2005 results. The Regional Income Tax Agency implemented Governmental Accounting Standards Board Statement 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* in 2004.

The first table is a summary of the Agency's net assets, which condenses information on all of R.I.T.A.'s assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating. However, take note that the primary purpose of the Agency is to provide tax collection services and, as previously noted, R.I.T.A. substantially operates on a cost basis only, with no margin or profit and no related net assets. Consequently, any change in the net asset amount is solely due to the fluctuations in the retained earnings from the Municipal Services software support activities. This department provides low cost, financial system support to member municipalities.

The second table is the Statement of Revenues, Expenses and Changes in Net Assets, which presents a summary of the change in the Agency's net assets. Appropriately, revenue is reported when earned and expense is reported when incurred.

# Management's Discussion and Analysis (Unaudited)

Table 1 Net Assets Proprietary Fund

	_	2007		2006	_	2005
Assets:						
Current Assets	\$	17,287,847	\$	15,111,391	\$	11,600,221
Capital Assets, Net		14,720,582		16,161,178		17,186,256
Other Noncurrent Assets	_	6,777,055		7,303,543	_	7,976,862
Total Assets	_	38,785,484	,	38,576,112	-	36,763,339
Liabilities:						
Current Liabilities		17,951,067		16,119,961		12,660,512
Long-term Liabilities		20,818,325		22,405,070		23,951,753
Total Liabilities	_	38,769,392	•	38,525,031	_	36,612,265
Net Assets:						
Invested in Capital Assets,						
Net of Related Debt		214,859		(61,107)		448,367
Restricted for:						
Debt Service		2,681,626		2,697,059		-
Capital Improvements		3,248,595		3,695,868		-
Unrestricted (Deficit)	_	(6,128,988)		(6,280,739)	_	(297,293)
Total Net Assets	\$	16,092	\$	51,081	\$	151,074

Overall, there are two significant offsetting factors that resulted in the fluctuation in Current Assets.

Substantial growth in tax collections provided almost \$2 million in additional retainers which contributed to the increase in Cash and Cash Equivalents. Also a factor is greater interest revenue which was approximately \$300,000 higher than last year.

The change in liabilities is primarily due to the larger amount owed to members for retainer refunds in June 2008. Note that during the year retainers are allocated from tax collections to the proprietary fund for use in operations. After the year-end, each member's expenses are computed and any excess retainers are refunded.

The Municipal Services department completed the transition of its customers to new software programs. The cost of the conversions resulted in the Total Net Assets decrease. However, the standard charges were increased subsequent to year-end as a result of the annual review previously noted and the department's working capital has been augmented.

The Statement of Revenue, Expense and Changes in Net Assets reports the proprietary fund operating income and costs, non-operating income and costs, and the change in net assets. This statement, shown in Table 2, reflects the results for 2007, 2006, and 2005.

# Management's Discussion and Analysis (Unaudited)

- The tax collection operating fees consist of amounts retained from the municipalities' tax distributions reduced by the net amount to be repaid to members. As the tax services are provided on a cost reimbursement basis, the fees in excess of the net cost are refunded back to the municipalities. The tax collection fees net of all other revenues are then reported as the actual revenues used for operations.
- The charges for services and other revenues include income from the following:
  - o Subpoena programs R.I.T.A. field auditors travel to local city halls to assist individuals who are delinquent in filing tax returns and to obtain the related tax payments.
  - Small claim lawsuits R.I.T.A. paralegals represent the municipalities in court to obtain judgments against taxpayers for unpaid taxes.
  - o Leasing of accounting software the Municipal Services department provides software and support services.
  - o Miscellaneous fees/reimbursements includes amounts charged for copies of records, charges for extraordinary services and reimbursements for employee time spent on special projects.
- The change in interest income is substantially due to the increased tax collections available for investment.
- The Agency's substantial expenses are:
  - Personal Services As R.I.T.A. is primarily a service-type organization, the bulk of the operating expenses are for personnel. The primary reason for the fluctuations in this expense is the staffing size which was 131 full time equivalents in 2005, 133 in 2006, and 138 in 2007. The increase in staff was made to meet the processing needs of R.I.T.A.'s growing membership.
  - Equipment Software and Maintenance R.I.T.A. operates a mainframe computer, network servers, robot tape library, scanning and imaging system and interactive voice response unit along with standard office equipment. This expense is for the ongoing software licenses and hardware/equipment maintenance costs. The 2007 amount is lower than 2006 and 2005 due to the replacement of aging equipment which resulted in reduced maintenance costs. Substantially all of the Cost of Equipment Purchased For Members is for the Municipal Service Department's acquisition of software licenses. This department provides low cost, financial software system support to member municipalities and in the course of business purchases the financial application software. The costs increased as participating member municipalities completed the implementation of a new software system.
  - Professional and Processing This line item consists of the costs of temporary help to meet peak processing needs, the expense for the two audits (financial and SAS70) that R.I.T.A. undergoes annually, the expense of lockbox services that are utilized to gain processing efficiencies and to maintain high security standards, the cost of Lobbyists to provide assistance in legislative matters at the State House and the cost of expert technical assistance. The increase in 2007 is due to the technical assistance required for the on-going development of the advanced tax system, higher lockbox costs resulting from the growth in membership and additional temporary workers needed to meet the greater processing needs.

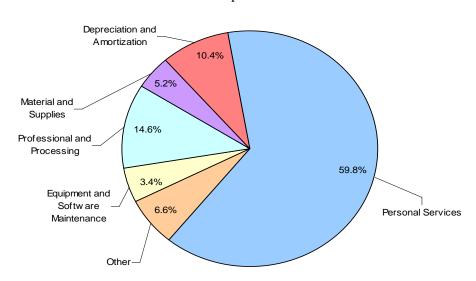

# Management's Discussion and Analysis (Unaudited)

- o Material and Supplies The costs of operating materials and postage are reflected in this line item. Increased postage costs are also a result of the growing membership.
- O Depreciation and Amortization The Agency uses the accrual basis of accounting. As such, when assets are purchased the costs are recognized over the life of the resources. The useful lives are 3 to 20 years and depreciation is calculated using a mid-year conversion. The increased expense in 2007 is primarily due to the recognition of a full year of depreciation for the equipment and the Data Entry System placed into service in 2006.
- Interest expense continued to decrease from 2006 to 2007 due to declining principal balances.

# Management's Discussion and Analysis (Unaudited)

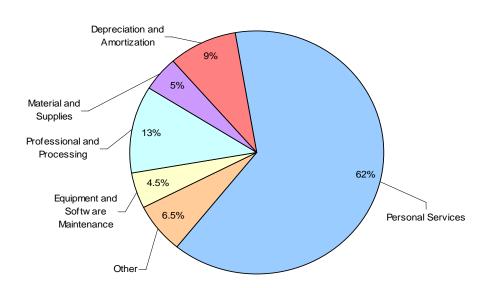

Graphic interpretations of the Agency operating expenses for 2007 and 2006 are presented as follows:

Graph 1

2007 Total Agency Operating Expense

# Management's Discussion and Analysis (Unaudited)

The 2007 additions activity is substantially due to the purchase of replacement computers and monitors with the retirement activity reflecting the disposal of the obsolete equipment. As noted above, the new equipment resulted in reduced maintenance costs for the year. The 2006 transfer from Projects in Process to Capital Assets being depreciated is substantially due to the new tax Data Entry System placed into service during that year.

# **Capital Lease Activity**

Details of the changes in the capital lease activity for the year ended December 31, 2007 is as follows:

Table 4

	Balance 12/31/2006	Additions	Retirements	Balance 12/31/2007	_	Amounts Due Within One Year

The activities in 2007 and 2006 reflect the repayment of the debt as scheduled. Further details on the capital balances and transactions can be found in Notes Five, Six and Seven.

# Management's Discussion and Analysis (Unaudited)

The other significant proprietary financial report is the Statement of Cash Flows, which provides information about the Agency's cash receipts and disbursements during the year. It summarizes net changes in cash resulting from operating, investing and financing activities. The notes to the financial statements provide further information that is essential to a full understanding of the financial statements

# Contacting the Agency's Financial Management

This financial report is designed to provide a general overview of the Agency's finances for all interested parties. Questions and requests for additional information regarding this report should be addressed to the Chief Financial Officer, Regional Income Tax Agency, 10107 Brecksville Road, Brecksville, Ohio 44141-3275 or by telephone at 440.526.0900.

Notes to Financial Statements

# December 31, 2007 and 2006

# **Note 1:** Reporting Entity

The Regional Income Tax Agency (R.I.T.A. or the Agency) is an independent entity that provides an efficient collection of municipal income taxes for the member municipalities of a Regional Council of Governments (the Members) formed under Section 167 of the Ohio Revised Code. The Members elect a nine member Board of Trustees to oversee the Agency operations. R.I.T.A. has a fiduciary responsibility to collect income taxes for its Members at the rates levied and then distribute the income taxes (less related net expenses and refunds) to its Members. Distributions of tax collections to Members are based upon information provided by taxpayers on tax returns and other supporting data.

For financial reporting purposes, R.I.T.A.'s financial statements include all funds for which R.I.T.A. is financially accountable. Financial accountability, as defined by the GASB, exists if R.I.T.A. appoints a voting majority of an organization's governing board and is either able to impose its will on that organization or there is potential for the organization to provide specific financial benefits to, or impose specific burdens on, R.I.T.A. The Agency may also be financially accountable for governmental organizations with a separately elected governing board, a governing board appointed by another government, or a jointly appointed board that is fiscally dependent on R.I.T.A. Also taken into consideration are any other organizations for which the nature and significance of their relationship with R.I.T.A. are such that exclusion would cause the financial statements to be misleading or incomplete. Based on these criteria, there were no other organizations that require incorporation into the financial statements.

# **Note 2:** Summary of Significant Accounting Policies

The following summarizes the significant accounting policies applied in the preparation of the accompanying combined financial statements.

The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. R.I.T.A. also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued after November 30, 1989, provided they do not conflict with or contradict GASB pronouncements. The more significant of the Agency's accounting policies are described below.

Notes to Financial Statements

# December 31, 2007 and 2006

# **Note 2:** Summary of Significant Accounting Policies (continued)

### A. Basis of Presentation

R.I.T.A.'s basic financial statements consist of statements of net assets, statements of revenue, expenses and changes in net assets, statements of cash flows, and statements of fiduciary net assets.

R.I.T.A uses a single enterprise fund and an agency fund to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts.

Enterprise fund reporting focuses on the determination of the change in net assets, financial position and cash flows. An enterprise fund may be used to account for any activity for which a fee is charged to external users.

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: Pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the entity under a trust agreement for individuals, private organizations, or other governments and are, therefore, not available to support the entity's own programs; the Agency has no trust funds. R.I.T.A.'s agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. R.I.T.A.'s only agency fund is used to account for tax collections held by the Agency as an agent for other governments.

### B. Measurement Focus

The enterprise fund is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of these funds are included on the statements of net assets. The statements of revenue, expenses and changes in net assets present increases (i.e. revenues) and decreases (i.e. expenses) in net total assets. The statements of cash flows provide information about how the Agency finances and meets the cash flows need of its enterprise activities.

# C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. The Agency's enterprise fund financial statements as well as the fiduciary fund financial statement are prepared using the accrual basis of accounting.

Revenue is recorded on the accrual basis when the exchange takes place. Expenses are recognized at the time they are incurred. However, under GASB Statement No. 33, it is necessary to calculate unearned revenue when recording an estimated receivable that R.I.T.A. will withhold from its members when collecting the taxes on current year earnings. Unearned revenue in the amount of \$5,555,161 at December 31, 2007 and \$4,897,693 at December 31, 2006 has not been recorded as revenue for the following reasons (1) the transactions have not yet been processed, therefore, the money has not yet been earned; and (2) if it were to be recorded as revenue, it would be included in the retainer refund calculation and money that has not yet been collected by R.I.T.A. would be prematurely refunded to its members.

Notes to Financial Statements

#### **December 31, 2007 and 2006**

#### **Note 2:** Summary of Significant Accounting Policies (continued)

#### D. Cash and Cash Equivalents

During fiscal year 2007 and 2006, the Agency invested in the State Treasury Asset Reserve of Ohio (STAROhio), certificates of deposit, obligations of United States governmental agencies, and repurchase agreements.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts and nonnegotiable certificates of deposit are reported at cost.

The Agency has invested funds in STAROhio. STAROhio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price which is the price the investment could be sold for on December 31st.

For purposes of the combined statement of cash flows and for presentation on the statements of net assets, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the Agency are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

#### E. Allowance for Doubtful Accounts

Income taxes of member municipalities receivable is shown net of a \$1,302,095 allowance for doubtful accounts at December 31, 2007 and \$1,337,961 at December 31, 2006. The allowance reflects management's best estimate of the amounts that will not be collected. This is based on an assessment of aged receivables and historical collection rates.

#### F. Capital Assets and Depreciation

All capital assets are recorded at historical cost. R.I.T.A. maintains a capitalization threshold of \$500. Depreciation is charged to operations over the assets' estimated useful lives using the straight-line method, with one half year's depreciation in the year of acquisition. Estimated useful lives are as follows:

Building	16 years
Equipment and Software	5-20 years
Equipment leased to Members	3 years
Vehicles	5 years

Notes to Financial Statements

#### December 31, 2007 and 2006

#### **Note 2:** Summary of Significant Accounting Policies (continued)

#### G. Deferred Loan Fees

R.I.T.A. has capitalized the cost of obtaining capital lease financing. Amortization is taken using the effective interest method over the term of the related capital lease obligation. Deferred loan fees of \$838,047 are shown net of \$360,451 of accumulated amortization at December 31, 2007. Deferred loan fees of \$910,616 are shown net of \$287,882 of accumulated amortization at December 31, 2006.

#### H. Allocation Of Expenses To Members

R.I.T.A. allocates to Members net operating expenses in the enterprise fund, after reduction for interest income, charges for services and other revenues. The Members' allocation is based upon the average of the percentage of each Member's transactions to total transactions and the percentage of each Member's collections to total collections.

#### I. Compensated Absences

R.I.T.A.'s employees accumulate earned but unused vacation and sick pay benefits. Vacation and sick pay benefits are accrued when incurred in the enterprise fund and are reported using the termination method dictated by GASB Statement No. 47.

#### J. Claims

As described in Note 13, R.I.T.A. was self-insured within certain limits for employee health care benefits. R.I.T.A. recognizes a liability for health care claims if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of this loss can be reasonably estimated.

#### K. Unearned Revenue

Unearned revenue in the enterprise fund represents tax collection fees received that will be earned in subsequent periods as the tax receivables are collected.

#### L. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets (net of accumulated depreciation), reduced by the outstanding balances of any borrowings (net of unexpended proceeds) used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by R.I.T.A. or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. The Agency's restricted net assets are comprised of assets due from trust. R.I.T.A. applies restricted resources when an expense is incurred for which both restricted and unrestricted net assets are available. As of December 31, 2007 and 2006, R.I.T.A had no net assets restricted by enabling legislation in the statements of net assets.

Notes to Financial Statements

#### December 31, 2007 and 2006

#### **Note 2:** Summary of Significant Accounting Policies (continued)

#### L. Net Assets (continued)

Invested in Capital Assets, Net of Related Debt:	2007	2006
Capital Assets	\$ <u>14,720,582</u>	\$ <u>16,161,178</u>
Capital Lease	22,405,070	23,951,753
Unspent proceeds	(5,939,008)	(6,392,927)
Proceeds spent on non-capital items	(1,960,339)	(1,336,541)
Net Capital Lease	14,505,723	16,222,285
Total Invested in Capital Assets, Net of Related Debt	\$ <u>214,859</u>	\$(61,107)

#### M. Revenues and Expenses

Operating revenues and expenses result from providing tax collection services, extraordinary services and goods to the members. Operating expenses consist of the cost of these services, including administrative expenses and depreciation on capital assets. Non-operating revenues and expenses are all revenues and expenses not meeting the definition of operating revenues and expenses. Non-operating revenues and expenses include revenues and expenses from capital and related financing activities, and investing activities.

#### N. Use of Estimates

The preparation of financial statements in conformity with the accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### O. Comparative Data/Reclassifications

Prior year data presented in Management's Discussion and Analysis has been reclassified in order to be comparative and provide an understanding of the changes in financial position and operations. Certain reclassifications have been made to the 2006 financial statements in order to conform to the 2007 presentation.

#### **Note 3:** Deposits and Investments

Per State of Ohio statutes the Agency classified funds held into three categories. The classifications are described as follows.

Active deposits are amounts necessary to meet current cash needs. Such monies are maintained either in commercial accounts payable or withdrawable on demand accounts, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are monies identified as not needed for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Notes to Financial Statements

#### December 31, 2007 and 2006

#### **Note 3: Deposits and Investments (continued)**

Interim monies are those funds that are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim monies may be deposited or invested in the following securities:

- 1. Bonds, notes or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest therein.
- 2. Bonds, notes, debentures or other obligations or securities issued by any federal government agency.
- 3. Deposits with financial institutions and savings and loan associations, collateralized, as required by law.
- 4. State Treasurer's investment pool (STAROhio).
- 5. Bonds and other obligations of the State of Ohio.
- 6. Commercial paper rated A1/P1 by Moody's and Standard and Poor's rating agencies.
- 7. Repurchase agreements fully collateralized with securities listed under 1 and 2 above.

Investments in mortgage backed securities, principal only or interest only or strips, reverse repurchase agreements and derivatives are forbidden. The use of leverage and short selling are also prohibited. Repurchase agreements are limited to maximum maturities of thirty days. A maximum of 13 million dollars can be invested over a longer period not to exceed two years with the exception of the debt reserve funds established under the agreements with the Cleveland-Cuyahoga County Port Authority. The debt reserve funds may be invested for the maximum time allowed under the Ohio Revised Code. All other funds shall be invested for a period not to exceed 45 days.

#### **Deposits**

Custodial credit risk is the risk that, in the event of bank failure, the Agency's deposits may be lost. Protection of the Agency's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution, by surety company bonds or by a single collateral pool established by the financial institution.

Public depositories must give security for all public funds on deposit. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC or may pledge a pool of government securities that have a face value that is at least 110 percent of the total value of public monies on deposit at the institution. Repurchase agreements must be secured by the specific government securities upon which the repurchase agreements are based. These securities must be obligations of or guaranteed by the United States and mature or be redeemable within five years of the date of the related repurchase agreement. The market value of the securities subject to a repurchase agreement must exceed the value of the principal by two percent and be marked to market daily. State law does not require security for public deposits and investments to be maintained in R.I.T.A.'s name.

At December 31, 2007, the carrying amount of R.I.T.A.'s deposits was \$1,650,773 and the bank balance was \$2,591,370. Of the bank balance, \$463,151 was covered by FDIC insurance and \$2,128,219 was uninsured and collateralized with securities held by the pledging institution's trust department, not in the Agency's name. At year end, R.I.T.A. had \$400 of undeposited cash on hand.

Notes to Financial Statements

#### **December 31, 2007 and 2006**

#### **Note 3:** Deposits and Investments (continued)

At December 31, 2006, the carrying amount of R.I.T.A.'s deposits was \$220,633 and the bank balance was \$1,652,302. Of the bank balance, \$403,249 was covered by FDIC insurance and \$1,249,053 was uninsured and collateralized with securities held by the pledging institution's trust department, not in the Agency's name. At year end, R.I.T.A. had \$400 of undeposited cash on hand.

#### **Investments**

Investments are reported at fair value. As of December 31, 2007, the Agency had the following investments:

		Weighted Average
	Fair Value	Maturity (days)
Certificate of Deposits	\$ 12,000,000	35
Repurchase Agreements	33,409,942	1
StarOhio	10,968,132	1
	<del></del>	
Portfolio Total	\$56,378,074	

As of December 31, 2006, the Agency had the following investments:

, , , , , , , , , , , , , , , , , , ,	C	Weighted Average
	<u>Fair Value</u>	Maturity (days)
Federal Home Loan Bank Bonds	\$ 9,742,119	35
Repurchase Agreements	38,128,297	1
StarOhio	<u>795,115</u>	1
Portfolio Total	\$ 48,665,531	

Safety of principal is an investment objective of the Regional Income Tax Agency. The Agency's policy states that each transaction shall seek to first ensure that capital losses are avoided, whether they are from securities, defaults or erosion of market value. The Agency seeks to attain market rates of return on its investments, consistent with constraints imposed by its safety objectives, cash flow considerations and state laws that restrict the placement of certain public funds.

*Interest Rate Risk* arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The Agency mitigates risk by timing investment maturities to match operating cash requirements. In addition, due to the bi-monthly cash distribution schedule, investments must be of a relatively short duration.

Custodial Risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the Agency will not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investments may only be made though institutions that are members of the National Association of Securities Dealers. The Board of Trustees reviews and approves these institutions.

Notes to Financial Statements

### December 31, 2007 and 2006

#### **Note 3:** Deposits and Investments (continued)

*Credit Risk* is addressed by the Agency's investment policy by the requirements that all investments are authorized by Ohio Revised Code and that the portfolio be diversified by issuer. All investments by the Agency are registered and carry a AAA rating by Standard & Poor's.

Concentration of Credit Risk is defined by the Governmental Accounting Standards Board as five percent or more in the securities of a single issuer. The Agency's investment policy requires that the repurchase agreements cannot exceed ten percent (10%) of the capital of the issuing institution or seventy-five percent (75%) of the Agency investment portfolio with the exception that the Agency is authorized to invest one-hundred percent (100%) of its portfolio in repurchase agreements or other investment vehicles with the State Treasurer's investment pool (Star Ohio).

The following is the Agency's allocation as of December 31, 2007:

Investment Issue	Percentage of Investments
The Huntington National Bank	43.12%
Charter One Bank	27.38
STAROhio	19.45
Fifth Third Bank	10.05

The following is the Agency's allocation as of December 31, 2006:

Investment Issue	Percentage of Investments
The Huntington National Bank	56.71%
Charter One Bank	30.60
Fifth Third Bank	11.06
STAROhio	1.63

#### Note 4: Receivables

Accounts receivable included on the statements of net assets at December 31, 2007 and 2006 consists primarily of subpoena fees receivable and miscellaneous service receivables due from member municipalities. Management considers all receivables fully collectible.

### **Note 7: Capital Lease Commitments**

Effective December 19, 2000, the Members entered into a capital lease agreement with the Cleveland-Cuyahoga County Port Authority ("Authority"). The Members are leasing the "Series 2000B Project" from the Authority. The "Series 2000B Project" provides funds for the acquisition and installation of personal property consisting of an HVAC system, computer equipment, computer software and certain other furnishings and equipment to be located and used at the Agency.

The initial term of the lease agreement ended on December 31, 2001, and is renewable for successive one-year terms upon appropriation of funds by R.I.T.A.'s Board of Trustees to pay the rental payments. The final renewal term ends on November 15, 2010 when the remaining balance under the lease is due. At the end of the lease term, the Members have the option to purchase the "Series 2000B Project" for \$1. Interest on the obligation is at 6% per annum. An administrative and trustee fee of 0.3% is also incurred on an annual basis.

Notes to Financial Statements

### December 31, 2007 and 2006

#### **Note 7:** Capital Lease Commitments (continued)

Future minimum lease payments under the "Series 2000B Project" lease agreement are as follows:

2008	\$	696,012
2009		700,115
2010	<u>.</u>	1,133,313
Future minimum lease payments		2,529,440
Less amount representing interest	. <u>-</u>	285,273
Present value of future minimum lease payments	\$	2,244,167

The 2010 repayment of this obligation will be partially offset by debt reserve funds included in the Due From Trust balance.

On December 1, 2001, the Members entered into a lease agreement with National City Leasing Corporation ("NCLC") to provide funds for the acquisition and installation of personal property consisting of computer equipment, computer software and certain other furnishings and equipment to be located and used at the Agency. The NCLC lease agreement was refinanced on January 31, 2003 and 2004. The refinancing on January 31, 2004, in the amount of \$18,580,000, had a maturity of December 31, 2004, however the Agency exercised its option to extend the maturity date to January 28, 2005. Interest on this obligation was 2.38% per annum. On December 30, 2004, the Agency obtained "Series 2004" permanent bond financing for this obligation with the Authority.

The new capital lease agreement signed by the Agency generated proceeds of \$21,662,747. This exceeded the par amount of \$20,990,000, resulting in a premium of \$672,747. From the proceeds, \$20,724,937 was placed in trust to refinance the NCLC capital lease in January 2005 and to establish new bond reserve and retirement funds, while \$937,810 was capitalized as deferred loan fees. The leased personal property includes the HVAC system, other improvements and furnishings of the project site, and the development, furnishing, and installing of certain computer hardware and software. The initial lease term was December 30, 2004 to December 31, 2005, however, the Agency exercised its options and extended the maturity date to December 31, 2007. The lessee can renew the lease for consecutive one-year periods, except that the final renewal term will mature on November 15, 2022. The Agency intends to renew the lease through the maturity date and this is stated in the lease. The lease includes a \$10 bargain purchase option, therefore management has recorded the obligation as a capital lease. The lease has an imputed interest rate of 4.726%.

Future minimum lease payments under the "Series 2004" lease agreement are as follows:

2008	\$ 1,883,537
2009	1,861,037
2010	1,938,204
2011	2,161,333
2012	1,945,244
Thereafter	17,280,300
Future minimum lease payments	27,069,655
Less amount representing interest	7,425,899
Present value of future minimum lease payments	\$ <u>19,643,756</u>

Notes to Financial Statements

### December 31, 2007 and 2006

#### **Note 7:** Capital Lease Commitments (continued)

The new capital lease agreement contains various covenants, including a minimum amount of annual income tax collections. If the minimum collection amount is not met, the lease could be subject to a special mandatory redemption.

Proceeds in the amount of \$5,939,008 and \$6,392,927 from capital lease arrangements are held in trust at December 31, 2007 and 2006, respectively. The funds consist of bond reserve and project funds. Project funds are distributed as project costs are incurred. Project costs in the amount of \$16,515,698 have been capitalized to date as of December 31, 2007. Of this amount, capital assets of \$10,654,821 have been placed into service as of December 31, 2007 and 2006. Accumulated depreciation of \$2,687,093 at December 31, 2007 and \$2,149,125 at December 31, 2006 has been recorded for the assets placed in service. During the year ended December 31, 2005, interest of \$467,998 was capitalized.

The Agency has utilized capital lease proceeds to implement a new, multi-dimensional tax information system. To date, operational systems include an Imaging and Document Workflow system, a Telephone Interactive Voice Recognition Unit, a Customer Relationship Management system, a Virtual Private Network, a Right Fax system, an eProcess system an eBusiness system and a Data Entry system.

Non-Depreciable Capital Assets, excluding land, on the statements of net assets consists of costs incurred prior to December 31, 2007 and 2006 for new systems, which have not yet been put into operation. The amount represents a new core tax system.

The tax system is being introduced by phase. Management believes this plan has proven to be effective in the roll out of functionality and that this approach is the most efficient method of implementation.

In 2004, the Agency early adopted GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and For Insurance Recoveries. This standard establishes accounting and financial reporting standards for impairment of capital assets. The Agency has performed an evaluation of construction costs to date to determine if impairment exists. During 2006, project costs of \$54,067 were identified as impairment expense and were written off before year-end.

Notes to Financial Statements

#### December 31, 2007 and 2006

#### **Note 8:** Tax Collection Fees

During each year, R.I.T.A. withholds, as its tax collection fee, a portion of the taxes, penalties and interest collected. At year end, the amount withheld in excess of operating expenses less other revenues is determined and recorded as amounts Due to Other Governments. In the subsequent year, this excess is distributed to the Members. At December 31, 2007 and 2006, the amount due to other governments is calculated as follows:

	2007	2006
Amounts withheld for tax collection fees	\$ 21,247,270	\$ 19,178,540
Charges for services and other revenues (expense)	571,885	662,417
Net interest income	2,500,499	2,219,436
Subtotal	24,319,654	22,060,393
Operating expenses and interest expense	15,540,826	14,344,807
Excess of amounts withheld (due to other governments)	\$ <u>8,778,828</u>	\$ <u>7,715,586</u>

#### **Note 9:** Compensated Absences

R.I.T.A. employees accumulate vacation leave and unlimited sick leave based upon hours worked and years of service. Upon retirement or death, employees are paid 25 percent of accumulated sick leave, not to exceed 250 hours. Sick leave in excess of the 250 hour maximum is not paid upon retirement or death, but will be paid only upon illness while in the employment of R.I.T.A.

During the first seven years of employment, employees can earn 10 days of vacation leave per year. During the next seven years of employment, employees can earn 15 days per year. After 14 years of employment, an employee can earn 20 days and after 22 years of service, employees can earn 25 days per year. Employees may accrue, and be paid upon termination of employment with R.I.T.A., up to a maximum of 20 days in the first seven years of employment, 30 days during the next seven years of employment, 40 days in the subsequent eight years and 50 days thereafter.

As of December 31, 2007, the liability accrued for vacation and sick leave is \$897,162 compared to \$848,351 at December 31, 2006. The liability is included in accrued wages and benefits on the statements of net assets.

### **Note 10: Operating Lease Commitments**

#### R.I.T.A. as Lessor

R.I.T.A. continues to lease computer software to Members and the leases have month-to-month payment terms. The total rental income recognized by the enterprise fund under R.I.T.A.'s hardware and software leases during 2007 and 2006 was \$300,139 and \$276,956, respectively.

#### R.I.T.A. as Lessee

The Regional Income Tax Agency leases office space and computer equipment under long-term operating leases. Rent expense related to the leases totaled \$58,925 and \$36,833 in 2007 and 2006, respectively.

Notes to Financial Statements

### December 31, 2007 and 2006

#### **Note 10: Operating Lease Commitments (continued)**

Future minimum rental commitments for the organization's non-cancelable operating leases are as follows:

2008	\$ 73,343
2009	14,362

#### Note 11: Defined Benefit Pension Plans – Ohio Public Employees Retirement System

R.I.T.A. participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan. Under the combined plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the Traditional Pension and Combined Plans. Members of the member directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 E. Town St., Columbus, OH 43215-4642 or by calling (614) 222-6701 or (800) 222-7377.

For the year ended December 31, 2007 the members of all three plans were required to contribute 9.50 percent of their annual covered salary to fund pension obligations. R.I.T.A. contributed 13.85 percent of covered payroll, of which 5.00 percent was used to fund health care coverage for the period of January 1, 2007 through June 30, 2007 and 6.00 percent was used to fund health care coverage for the period of July 1, 2007 through December 31, 2007 for retirees. For the year ended December 31, 2006 the members of all three plans were required to contribute 9.00 percent of their annual covered salary to fund pension obligations. R.I.T.A. contributed 13.70 percent of covered payroll, of which 4.50 percent was used to fund health care coverage for retirees. The contribution rate is determined actuarially. The Ohio Revised Code provides statutory authority for member and employer contributions.

The Agency's required contributions for pension obligations to the traditional and combined plans for the years ended December 31, 2007, 2006, and 2005 were \$933,576, \$802,391, and \$824,505, respectively, equal to the required contributions for each year. The full amount has been contributed for all three years.

Notes to Financial Statements

#### December 31, 2007 and 2006

#### Note 12: Postemployment Benefits – Ohio Public Employees Retirement System

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the Traditional Pension Plan – a cost-sharing multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing multiple-employer defined benefit pension plan.

OPERS provides retirement, disability, survivor and post-retirement health care benefits to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-retirement health care coverage, age and service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor recipients is available. The health care coverage provided by the Retirement System is considered an Other Post-employment Benefit (OPEB) as described in GASB Statement No. 12.

A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care. The Ohio Revised Code provides statutory authority requiring employers to fund post-retirement health care through their contributions to OPERS. The 2007 employer contribution rate was 13.85 percent of covered payroll. The portion of employer contributions for all employers allocated to health care was 5.00 percent from January 1, 2007 through June 30, 2007 and 6.00 percent from July 1, 2007 through December 31, 2007.

Benefits are advance-funded using the entry age normal actuarial cost method. Significant actuarial assumptions, based on OPERS's latest actuarial review performed as of December 31, 2006, include a rate of return on investments of 6.5 percent. An annual increase of 4.0 percent, compounded annually, is the base portion of the individual pay increase assumption. This assumes no change in the number of active employees. Additionally, annual pay increase, over and above the 4.0 percent base increase, were assumed to range from 0.50 percent to 6.3 percent. Health care costs were assumed to increase at the projected wage inflation rate plus an additional factor ranging from 0.5 percent to 5 percent for the next eight years. In subsequent years (9 and beyond) health care costs were assumed to increase at 4 percent (the projected wage inflation rate).

All investments are carried at market value. For actuarial valuation purposes, a smoothed market approach is used. Under this approach, assets are adjusted to reflect 25 percent of unrealized market appreciation or depreciation on investment assets annually, not to exceed a 12 percent corridor.

At December 31, 2007, the number of active contributing participants in the Traditional and Combined Plans totaled 362,130. The Agency's actual contributions for 2007, which were used to fund postemployment benefits, were \$366,329. The actual contribution and the actuarially required contribution amounts are the same. OPERS's net assets available for payment of benefits at December 31, 2006, (the latest information available) were \$12 billion. The actuarially accrued liability and the unfounded actuarially accrued liability for OPEB, based on the actuarial cost method used, were \$30.7 billion and \$18.7 billion, respectively.

On September 9, 2004, the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. In addition to the HCPP, OPERS has taken additional action to improve the solvency of the Health Care Fund in 2005 by creating a separate investment pool for health care assets.

Notes to Financial Statements

#### December 31, 2007 and 2006

#### **Note 12:** Postemployment Benefits – Ohio Public Employees Retirement System (continued)

Member and employer contribution rates increased as of January 1, 2006 and January 1, 2007, which will allow additional funds to be allocated to the health care plan.

Under the HCPP, retirees eligible for health care coverage will receive a graded monthly allocation based on their years of service at retirement. The Plan incorporates a cafeteria approach, offering a broad range of health care options that allow benefit recipients to use their monthly allocation to purchase health care coverage customized to meet their individual needs. If the monthly allocation exceeds the cost of the options selected, the excess is deposited into a Retirement Medical Account that can be used to fund future health care expenses.

#### Note 13: Risk Management

R.I.T.A. is exposed to various risks of loss including employee health care costs, errors and omissions, torts and legal judgments, and damage and destruction of assets.

R.I.T.A. carries \$1,000,000 of comprehensive general liability insurance coverage, a \$2,000,000 umbrella policy, as well as insurance coverage for R.I.T.A. business interruption and property losses. R.I.T.A. is insured through the State of Ohio for workers' compensation. R.I.T.A. employees have two health care options, both of which are standard premium-based insurance coverage. Previously, R.I.T.A. offered health care through a self-insurance policy; however, effective January 1, 2006, the self-insured health care plan was replaced by a second standard premium-based insurance plan. R.I.T.A.'s self-insurance costs related to employee health care covered up to a maximum exposure of \$27,500 per employee, with an aggregate annual exposure of \$1,009,875. As of December 31, 2007 and 2006, the liability accrued for health care claims was \$25,000 and \$160,000, respectively, and is included in accrued wages and benefits on the statements of net assets. The liabilities represent R.I.T.A.'s best estimates based upon available information and include an estimate for claims that have been incurred but not reported.

Changes in R.I.T.A.'s health care claims liability were as follows:

		Current Year		
	Balance at	Claims and		Balance
	Beginning	Changes in	Claim	at End
	Of Year	Estimates	Payments	of Year
2006	\$ 322,505	\$(101,934)	\$ (60,571)	\$ 160,000
2007	160.000	(135.000)	_	25.000

Notes to Financial Statements

### December 31, 2007 and 2006

#### **Note 14:** Change in Accounting Principles

For fiscal year 2007, the Agency implemented GASB Statement No. 43 "Financial Reporting for Postemployment Benefit Plans other than Pension Plans", GASB Statement No. 45 "Accounting and Financial Reporting by Employers for Postemployment Benefits other than Pensions", GASB Statement No. 48 "Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues", and GASB Statement No. 49 "Accounting and Financial Reporting for Pollution Remediation Obligations". GASB Statement No. 43 applies for other postemployment benefit (OPEB) trust funds included by administrators of multiple-employer OPEB Plans, when the fund used to accumulate assets and pay benefits or premiums when due is not a trust fund. GASB Statement No. 45 provides guidance on all aspects of OPEB reporting by employers. GASB Statement No. 48 establishes criteria that governments will use to ascertain whether certain transactions should be regarded as sales or a collateralized borrowing. The statement also includes disclosure requirements for future revenues that are pledged or sold. GASB Statement No. 49 provides guidance on how to calculate and report the costs and obligations associated with pollution cleanup efforts.

The implementation of GASB Statements No. 43, No. 45, No. 48 and No. 49 did not affect the presentation of the financial statements of the Agency.

Note: Although not required by law, an annual operating budget is adopted for management purposes.

Notes to Supplementary Information

#### **December 31, 2007**

### Note 1. Budgetary Process

Although not required under the Ohio Revised Code, an annual operating budget, which lapses as of the end of the year, is adopted for management purposes. The budget is adopted for the enterprise fund on the same accounting basis used to reflect actual revenues and expenses. The Executive Director is authorized to expend the budget amounts; however, any change between the departments, line items or in the total amount budgeted for a particular fund requires the approval of the Board of Trustees of R.I.T.A.

# Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Regional Income Tax Agency Brecksville, Ohio

We have audited the financial statements of the business-type activities and the aggregate remaining fund information of the Regional Income Tax Agency ("R.I.T.A.") as of and for the year ended December 31, 2007, which collectively comprise R.I.T.A's basic financial statements and have issued our report thereon dated June 23, 2008, wherein we noted that R.I.T.A. adopted *Government Accounting Standards Board No.* 43, 45, 48 and 49. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### **Internal Control over Financial Reporting**

In planning and performing our audit, we considered R.I.T.A.'s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of R.I.T.A.'s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of R.I.T.A's internal control over financial reporting.

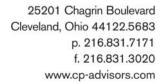

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects R.I.T.A.'s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of R.I.T.A.'s financial statements that is more than inconsequential will not be prevented or detected by R.I.T.A.'s internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by R.I.T.A.'s internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether R.I.T.A.'s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, members of the Regional Income Tax Agency, Board of Trustees, and the Auditor of State and is not intended to be and should not be used by anyone other than these specified parties.
