#### SANDUSKY CITY SCHOOL DISTRICT ERIE COUNTY

### NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE A - SIGNIFICANT ACCOUNTING POLICIES**

The accompanying Federal Awards Expenditures Schedule (the Schedule) summarizes activity of the District's Federal award programs. The schedule has been prepared on the cash basis of accounting.

#### **NOTE B - COMINGLED FUNDS**

Cash receipts from the U.S. Department of Agriculture and the U.S. Department of Health and Human Services are commingled with State grants. It is assumed Federal monies are expended first.

#### **NOTE C – FOOD DONATION PROGRAM**

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair value of the commodities received.

#### **NOTE D - MATCHING REQUIREMENTS**

Certain Federal programs require that the District contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has complied with the matching requirements. The expenditure of non-Federal matching funds is not included on the Schedule.

#### NOTE E - ENVIRONMENTAL PROTECTION AGENCY GRANT

The District received an interest free loan in 1988 from the U.S. Environmental Protection Agency under the Asbestos Removal Grant Program (CFDA 66.702). As of June 30, 2007, the District owed \$30,733 on this loan. This loan is subject to certain compliance requirements imposed by the U.S. Environmental Protection Agency. The initial expenditure of these loan proceeds were reported on the Schedule in the year funds were disbursed. No additional financial activity has been incurred other than the District's repayment of the loan. Such activity is not required to be reported in the Schedule.

# INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Sandusky City School District Erie County 407 Decatur Street Sandusky, Ohio 44870-2483

To the Board of Education:

We have audited the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Sandusky City School District, Erie County, Ohio, (the District) as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 31, 2007, wherein we noted the District changed the classification of funds previously classified as nonmajor enterprise funds. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinions on the financial statements, but not to opine on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

A material weakness is a significant deficiency, or combination of significant deficiencies resulting in more than a remote likelihood that the District's internal control will not prevent or detect a material financial statement misstatement.

One Government Center / Suite 1420 / Toledo, OH 43604-2246 Telephone: (419) 245-2811 (800) 443-9276 Fax: (419) 245-2484 www.auditor.state.oh.us Sandusky City School District
Erie County
Independent Accountants' Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Required by Government Auditing Standards
Page 2

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

#### **Compliance and Other Matters**

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, and federal awarding agencies and pass-through entities. We intend it for no one other than these specified parties.

#### INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER **COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Sandusky City School District Erie County 407 Decatur Street Sandusky, Ohio 44870-2483

To the Board of Education:

#### Compliance

We have audited the compliance of the Sandusky City School District, Erie County, Ohio (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133, Compliance Supplement that apply to each of its major federal programs for the year ended June 30, 2007. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Sandusky City School District complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the year ended June 30, 2007.

> One Government Center / Suite 1420 / Toledo, OH 43604-2246 Telephone: (419) 245-2811 (800) 443-9276 Fax: (419) 245-2484

Sandusky City School District
Erie County
Independent Accountant's Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance in Accordance with OMB Circular A-133
Page 2

#### **Internal Control Over Compliance**

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A control deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a federal program compliance requirement on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to administer a federal program such that there is more than a remote likelihood that the District's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the District's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

#### **Federal Awards Expenditures Schedule**

We have also audited the financial statements of the governmental activities, the major fund and the aggregate remaining fund information of the Sandusky City School District as of and for the year ended June 30, 2007, and have issued our report thereon dated December 31, 2007, wherein we noted the District changed the classification of funds previously classified as nonmajor enterprise funds. Our audit was performed to form opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying federal awards expenditures schedule provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

INTRODUCTORY SECTION

# Sandusky City Schools

407 Decatur Street + Sandusky, Ohio 44870-2442 + 419-626-6940

December 31, 2007

Members of the Board of Education and Residents of the Sandusky City School District

The Comprehensive Annual Financial Report (CAFR) of the Sandusky City School District (the "District") for the fiscal year ended June 30, 2007 is hereby submitted. This CAFR includes financial statements and other financial and statistical data and conforms to accounting principles generally accepted in the United States of America (GAAP) as they apply to governmental entities. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of costs and benefits requires estimates and judgments by management.

State statute requires an annual audit by independent accountants. The Ohio Auditor of State's office conducted the audit. The audit has been conducted in accordance with generally accepted auditing standards, generally accepted government auditing standards, and include a review of internal controls and test of compliance with Federal and State laws and regulations. The Independent Accountant's Report is included in this CAFR.

As a part of the District's independent audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the school district has complied with applicable laws and regulations. The results of the District's independent audit for the fiscal year ended June 30, 2007 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

This transmittal letter is designed to provide historical information about the District, as well as compliment the required Management's Discussion and Analysis (MD&A). Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements. The District's MD&A, which focuses on the government-wide statements, can be found immediately following the Independent Accountant's Report.

#### PROFILE OF SANDUSKY CITY SCHOOL DISTRICT

The District ranks as  $102^{nd}$  largest by total enrollment among the 876 public and community school districts in the state and is the largest in Erie County. As of the current school year (2006-07), the average daily membership (ADM) was 3,864 students. Most of these students attend one of the District's thirteen schools (six of which were built in the 1800's, with the most recent additions having been constructed in 1991), while a number of handicapped students are served by Erie County special education units outside the District. District enrollment is expected to gradually decline over the next several years.

The District has 556 full and part time employees. The District employs 345 certified staff members and 30 administrators. Additionally, the District employs 10 full-time adult education instructors and 171 full-time and part-time non-teaching staff members.

The District offers a wide variety of educational programs for all segments of the community. Sandusky High School is one of the few comprehensive high schools in Ohio, containing twelve (12) career technical education programs as well as a wide range of college preparatory offerings. Additionally, the adult continuing education program serves more than 2,000 adults each year. The District provides extensive special education services and offers a kindergarten through twelfth grade accelerated and gifted program. All District kindergarten students attend all-day, everyday kindergarten classes and benefit from a full day of instruction.

A full range of extracurricular programs and activities is available to students beginning with the elementary grades. All District schools have libraries, special purpose rooms, including computer labs and unique curricular offerings designed by the individual building staff and administration.

An active Council of local neighborhood Parent Councils provides for articulation, cooperation, and communication and partnership between parents, community members, and school officials.

The District cooperates with the City of Sandusky Recreation and Parks Department, churches and a number of community and civic organizations in making school facilities available for athletic, recreational and enrichment activities.

Classroom teachers at all levels are supported by specialists in media, guidance, art, instrumental and vocal music, physical education and curriculum development. A comprehensive interscholastic and intramural sports program is offered to students at select grade levels of the District. All elementary schools have full-time media aides and secondary schools are staffed by certified media specialists. Three school nurses, four psychologists, one media coordinator, ten counselors, specific coordinators for Title I (a federally funded reading and mathematics program), and gifted programs offer direction, support and coordination of services for all students.

#### **Overlapping Governmental Entities**

The major political subdivisions or other governmental entities that overlap the territory of the District are listed below. The stated percentage is that percentage of the tax valuation of the overlapping entity that is located within the District.

- 1. A portion (24.88%) of Erie County (functions allocated to counties by Ohio law, such as elections, health and human services, and judicial).
- 2. The City of Sandusky (100%) (municipal corporation responsibilities).

Each of these entities operates independently, with its own separate budget, taxing power, and sources of revenue. Both Erie County and the City of Sandusky levy ad valorem property taxes within the ten-mill limitation (subject to available statutory allocation of the 10 mills). The District also acts as fiscal agent for local tax revenues distributed to the Sandusky Library, located within the District's boundaries, with this revenue reported in the agency funds. The District is not considered a component unit of another government.

The District is an active member of the Enterprise Zone Negotiating Committee, along with the City of Sandusky and Erie County. The Enterprise Zone offers tax abatements for real and personal property improvements and additions to businesses located within the city. A number of local companies have been granted partial tax abatements on additions made during the last several years. The City of Sandusky and the District have also benefited from these expansions through additional tax revenues from the unabated portion of valuation increases on the property and from improved economic conditions resulting from growth in employment of city residents.

#### **Employees**

A statewide public employee bargaining law applies generally to public employee relations and collective bargaining. The starting salary (2006-07 school year) for a teacher with a bachelor's degree is \$31,230, and the maximum salary for a teacher with a master's degree plus 24 graduate hours and 23 years of experience is \$65,583.

The District's certificated employees, excluding administration, are members of the Sandusky Education Association (S.E.A.), a labor organization affiliated with the Ohio Education Association. The current contract between the Board of Education and the S.E.A. expires August 31, 2010.

All of the District's support staff employees, including secretarial, custodial, maintenance, transportation, and teacher aides, are represented for bargaining purposes by the Sandusky Non-Teaching Employees Association (S.N.T.E.A.), a labor organization affiliated with the Ohio Education Association. The current S.N.T.E.A. contract expires June 30, 2009.

The District has never experienced any work stoppage or job actions. In the judgment of the Board and administration, labor relations between the District and its employees remain excellent.

#### Parochial Schools

The District acts as fiscal agent for state funds distributed to parochial schools, with revenue reported in special revenue funds. The following four (4) parochial schools, located within the District, serve students who reside both inside and outside the District. As of June, 2007, approximately 56% of the students reside within the District.

	2006-07 Enrollment		
Parochial School	<b>District</b>	<b>Outside</b>	<u>Total</u>
St. Mary's Elementary (Grades 4 - 8)	163	113	276
Sts. Peter & Paul Elementary (Grades K - 3)	128	88	216
Holy Angels Elementary (Pre-School)	7	7	14
St. Mary's Central Catholic High School	<u>102</u>	<u>106</u>	<u>208</u>
	<u>400</u>	<u>314</u>	<u>714</u>

#### **Budgetary Controls**

In addition to the internal control structure mentioned above, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Activities of all funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established by function and object of expenditure within an individual fund. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

Unencumbered amounts lapse at year-end. A complete description of the District's Budgetary Process can be found in Note 2.E. to the basic financial statements.

#### **ECONOMIC CONDITION**

#### Local Economy

The District is located in Erie County, in Northwest Ohio, approximately sixty miles west of Cleveland and sixty miles east of Toledo. All of the District is located within Erie County and falls entirely within the corporate boundaries of the City of Sandusky, which lies on the shores of Sandusky Bay and Lake Erie.

The District is served by diversified transportation facilities including immediate access to four State highways and Interstate 80 (Ohio Turnpike). The District is served by CSX, Norfolk and Southern, and Amtrak Rail Services. Griffing Airport (Commuter Services) is located within the District's boundaries.

Major commercial banks with offices within the District include National City Bank, US Bank, Key Bank, Fifth Third Bank and The Citizens Banking Company.

Two daily newspapers serve the District. The District falls within the broadcast area of seven television stations and numerous AM/FM radio stations. One television station is located within the city limits as are two AM/FM radio stations. The District has a cable television license and broadcasts school information on cable Channel 81.

Within commuting distance of the District are numerous public and private two and four-year colleges and universities including Firelands College, Ashland University, Cleveland State University, Toledo University, Bowling Green State University, and Lorain Community College. Ashland University and Bowling Green State University utilize District facilities and staff for course offerings to District staff members and other interested residents and students.

The District is served with a wide range of recreational offerings through school and City recreation and park programs. One of the things that make the District an attractive place to live is its unique location. It is located on both Sandusky Bay and Lake Erie with over twenty-two (22) miles of shoreline within the city limits. The close association with the water and the inherent access to boating, sailing, fishing, and swimming, etc. gives this District an atmosphere of a coastal city. Lake freighters, ferry boats, commercial fishing boats and pleasure boats are commonplace. The lake and bay along with Cedar Point Amusement Park, many fine golf courses, restaurants, motels, shops, and business enterprises have resulted in a booming tourist trade and have given the District's area the reputation of being one of the premier places in the country to live. The District offers the advantages of a small town, a reasonable cost of living, and excellent medical facilities (including Firelands Regional Medical Center in Sandusky).

The local economy has been in a gradual decline for several years. A number of businesses have closed or left Sandusky, taking with them a significant number of manufacturing jobs. The City's unemployment rate in 2006 was 6.6%, compared with state and national unemployment rates of 5.5% and 4.6% respectively. If one or both of the large plants in the area that manufacture automotive components are closed within the next several years as expected, the loss of jobs will further impact City residents who are currently employed there or who are searching for employment.

As further evidence of a struggling economy in Sandusky, according to the U.S. Census Bureau the median family income in the City was \$37,749 in the year 2000, compared with \$40,956 and \$41,994 state and national averages, respectively. Additionally, the median home value in Sandusky in 2000 was \$75,400, compared with \$103,700 and \$119,600 median home values in the state and the nation, respectively.

#### Long-Term Financial Planning

The District prepares a five-year financial forecast annually for use as a tool for long range planning. The five-year forecast contains projected local and state revenues, spending patterns within each area of the budget, and cash balances in the District's operating fund. The five-year forecast provides early warning signs of potential financial problems.

The District uses the five-year forecast to provide a basis for making financial decisions, including the construction of the annual budget, adjustments to staffing levels, collective bargaining, and the placement of tax levies on the ballot. Specific examples of recent decisions that have resulted in improvements in the District's financial condition include the approval of a 5.4 mill operating levy in 2007, the elimination of 75 staff positions over a six-year period, in conjunction with the closing of an two elementary school buildings and an alternative school.

#### Major Initiatives for the Year

The District implemented a number of significant programs during the past year to meet student and community needs.

The District continued to invest in technology in the 2006-07 school year. Completed upgrades in technology include the purchase of new hardware and software to replace many outdated computers. Hundreds of interactive

SMART Boards have been installed in classrooms throughout the school system. The District employs a director of network technology, two computer technicians, and an instructional technology facilitator to provide support to District staff.

The District received a Reading First Ohio grant in the amount of \$1,285,828 for the 2006-07 school year, to be used for improving reading scores in grades K-3 in the seven elementary buildings. In the second year of the grant, funds were used to continue to purchase a scientifically research-based reading program, equipment to assess student data, and to fund personnel to assist in reading improvement (7 literacy specialists, 4 data manager/resource coordinators, and 1 coordinator.) The goal is to improve reading scores and to ensure that all students will be able to read successfully by the end of the third grade, in compliance with the U.S. Department of Education's No Child Left Behind Act.

The District implemented a cost reduction plan at the end of the 2006-07 school year, following the defeat of a school operating levy in the May election. The restructuring plan resulted in the elimination of twelve staff positions and is expected to save the District more than \$1 million per year. In November, 2007, a 5.4 mill tax levy was approved by the District's electorate. The tax levy will generate an additional \$2.7 million annually for school operations.

#### Major Initiatives for the Future

The District will continue to upgrade all areas of technology in the 2007-08 school year and beyond. Plans include the replacement of outdated computer software and hardware annually, as well as providing all staff with regularly scheduled in-service training in technology.

The District will continue to refine its master plan for future facility needs in concert with the Ohio School Facilities Commission. Public meetings have been scheduled for community discussion and direction as the District prepares to implement its master plan, which provides for the construction of a number of new schools and the renovation of all existing school buildings that will remain in service.

In the third year of the Reading First Ohio grant, the estimated funding in the amount of \$1,384,667 is to be used to provide personnel to assist in reading improvement and to purchase materials for the reading program.

The District plans to implement a new pre-school program during the 2007-08 school year.

#### AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Sandusky City School District for its comprehensive annual financial report for the fiscal year ended June 30, 2006. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principals and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The District has also received a Certificate of Excellence in Financial Reporting in School Districts from the Association of School Business Officials (ASBO) for the District's comprehensive annual financial report for the fiscal year ended June 30, 2006. The award is granted only after an intensive review of financial reports by an expert panel of certified public accountants and practicing school business officials. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated services of the Treasurer's office staff. In addition, we acknowledge the outstanding services of our data processing department in meeting the vast informational requirements. Our consultant, Julian & Grube, Inc., provided us with expert technical assistance in all phases of preparing the report. The assistance of the Erie County Auditor's office in providing information is also appreciated. Finally, we wish to acknowledge the cooperation of the team from the Ohio Auditor of State's office, who conducted a thorough audit of our finances.

In closing, without the leadership and support of the Board of Education of the District, preparation of this report would not have been possible.

Sincerely,

A. Troy Boyts, Treasurer

William F. Pahl, Superintendent

#### INDEPENDENT ACCOUNTANTS' REPORT

Sandusky City School District Erie County 407 Decatur Street Sandusky, Ohio 44870-2483

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Sandusky City School District, Erie County, Ohio (the District), as of and for the year ended June 30, 2007, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Sandusky City School District, Erie County, Ohio, as of June 30, 2007, and the respective changes in financial position and where applicable, cash flows, thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 3, the District changed the classification of funds previously classified as nonmajor enterprise funds.

Sandusky City School District Independent Accountants' Report Page 2

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2007, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Managements Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining nonmajor fund statements and schedules, and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Mary Taylor, CPA Auditor of State

Mary Taylor

December 31, 2007

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

The discussion and analysis of the Sandusky City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2007. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

### **Financial Highlights**

Key financial highlights for 2007 are as follows:

- Net assets of governmental activities increased \$349,903, which represents a 2.73% increase from 2006.
- General revenues related to governmental activities accounted for \$35,877,672 in revenue or 71.17% of all
  governmental revenues. Program specific revenues related to governmental activities in the form of charges for
  services and sales, grants and contributions accounted for \$14,530,549 or 28.83% of total governmental revenues of
  \$50,408,221.
- The District had \$49,514,548 in expenses related to governmental activities; only \$14,530,549 of these expenses was
  offset by program specific charges for services, grants or contributions. General revenues supporting governmental
  activities (primarily taxes and unrestricted grants and entitlements) of \$35,877,672 were adequate to provide for
  these programs.
- The District's only major governmental fund is the general fund. The general fund had \$36,585,221 in revenues and other financing sources and \$36,616,734 in expenditures. The general fund's fund balance decreased \$72,035 from a balance of \$1,496,991 to \$1,424,956.
- The District reclassified the food service and adult education funds, which were previously reported as nonmajor enterprise funds, to nonmajor special revenue funds at July 1, 2006 as described in Note 3.A. to the basic financial statements. The District now has no enterprise funds or business-type activities.

### Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund is by far the most significant fund, and the only governmental fund reported as a major fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

### Reporting the District as a Whole

#### Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2007?" The statement of net assets and the statement of activities answer this question. These statements include *all assets*, *liabilities*, *revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net Assets and the statement of activities, the governmental activities include the District's programs and services, including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, food service operations, and the adult education program.

The District's statement of net assets and statement of activities can be found on pages 26-27 of this report.

### Reporting the District's Most Significant Funds

### Fund Financial Statements

The analysis of the District's major governmental fund begins on page 20. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's only major governmental fund is the general fund.

#### Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs.

The relationship (or differences) between governmental *activities* (reported in the statement of net assets and the statement of activities) and governmental *funds* is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages 28-32 of this report.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

#### **Proprietary Fund**

The District maintains one proprietary fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District's internal service fund accounts for self-insurance of the District's medical, dental and vision benefits. The basic proprietary fund financial statements can be found on pages 33-35 of this report.

### Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in two agency funds. All of the District's fiduciary activities are reported in separate statements of fiduciary net assets and changes in fiduciary net assets on pages 36 and 37. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

### **Notes to the Basic Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 39-68 of this report.

### The District as a Whole

The statement of net assets provides the perspective of the District as a whole. The District reclassified the net assets of the business-type activities into the governmental activities at July 1, 2006, as described in Note 3.A. to the basic financial statements. The table below provides a summary of the District's net assets for 2007 compared to fiscal 2006.

#### **Net Assets**

	Governmental Activities				
				Restated	
	_	2007	_	2006	
Assets					
Current assets	\$	33,025,382	\$	31,687,345	
Capital assets		10,531,786		11,200,697	
Total assets		43,557,168		42,888,042	
<b>Liabilities</b>					
Current liabilities		25,011,301		24,735,084	
Long-term liabilities		5,375,657		5,332,651	
Total liabilities		30,386,958		30,067,735	
Net Assets					
Invested in capital assets, net of related debt		9,618,666		9,904,226	
Restricted		2,342,360		2,277,541	
Unrestricted		1,209,184		638,540	
Total net assets	\$	13,170,210	\$	12,820,307	

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

Total governmental activities assets increased by \$669,126 while total governmental liabilities increased by \$319,223 resulting in an increase to net assets of \$349,903. Taxes receivable in 2007 contributed \$21,151,911 or 48.56% of total governmental assets. Liabilities of governmental activities increased due to an overall increase in accrued wages and benefits, claims payable and long term liabilities involving compensated absences and future retirement incentives.

### **Governmental - Net Assets**

The table below shows the changes in net assets for governmental activities for fiscal year 2007 compared to fiscal year 2006. Refer to Note 3.A. to the basic financial statements for detail on the fund reclassification and restatement of net assets at the beginning of the fiscal year.

### **Change in Net Assets**

	Governmental Activities					
Revenues	_	2007	_	Restated 2006

Interest and fiscal charges	62,932	68,650	
Total expenses	49,514,548	50,007,497	
Excess (deficiency) before special item	893,673	(969,725)	
Special item - loss on sale of capital assets	(543,770)		
Changes in net assets	349,903	(969,725)	
Net assets, beginning of year	12,820,307	13,790,032	
Net assets, end of year	\$ 13,170,210	\$ 12,820,307	

#### **Governmental Activities**

Net assets of the District's governmental activities increased \$349,903. Total governmental expenses of \$49,514,548 were offset by program revenues of \$14,530,549 and general revenues of \$35,877,672. The District had a special item in 2007, a loss on the sale of capital assets in the amount of \$543,770 (see Note 2.S. to the basic financial statements for further detail). Program revenues supported 29.35% of the total governmental expenses.

The primary sources of revenue for governmental activities are derived from property taxes and unrestricted grants and entitlements. These two revenue sources represent 69.40% of total governmental revenue. Real estate property is reappraised every six years. Erie County underwent a triennial update during 2003. Although recent growth has had a positive effect on the District's tax base, the full tax revenue impact has not been realized due to H.B. 920. This state law, enacted in 1976, does not allow for revenue increases caused by inflationary growth of real property values. Increases in valuation prompt corresponding annual reductions in the "effective millage", the tax rates applied to real property.

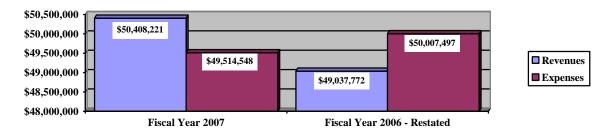

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

Thus, although District tax valuation continues to grow, this built-in revenue limitation requires the District to request additional school operating revenue by placing a levy on the ballot periodically (every three to five years, on average). Instructional expenses accounted for 57.79% of total expenses. Supporting service include those related to pupils, staff, administration and business operations and account for an additional 32.31% of expenses. The remaining amount of program expenses, 9.90% is used to finance other obligations of the District such as food service operations, operations of non-instructional services, extracurricular activities, intergovernmental pass through, and interest and fiscal charges.

Total expenses decreased \$492,949 or 0.99% from fiscal year 2006. In fiscal year 2007 other instructional expenses decreased by \$1,298,743 from fiscal year 2006 due to poverty aid expenses being charged to regular and special instruction during fiscal year 2007, rather than other instruction.

The graph below presents the District's governmental activities revenue and expenses for fiscal years 2007 and 2006.

#### Governmental Activities - Revenues and Expenses

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2007 and 2006. That is, it identifies the cost of these services supported by tax revenue and unrestricted state grants and entitlements. Refer to Note 3.A. to the basic financial statements for detail on the fund reclassification and restatement of net assets at the beginning of the fiscal year.

Total expenses	\$ 49,514,548	\$ 34,983,999	\$ 50,007,497	\$ 37,883,873

The dependence upon tax revenues during fiscal year 2007 for governmental activities is apparent, as 71.72% of 2007 instruction activities are supported through taxes and other general revenues. All governmental activities, general revenue support is 70.65% in 2007. The District's taxpayers and unrestricted grants and entitlements as a whole, are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2007 and 2006.

### Governmental Activities - General and Program Revenues

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

#### The District's Funds

The District's governmental funds (as presented on the balance sheet on page 28) reported a combined fund balance of \$2,522,965, which is below last year's total of \$2,720,441. The District reclassified the net assets for the two enterprise funds as described in Note 3.A. to the basic financial statements. The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2007 and 2006.

	Fund Balance June 30, 2007	Fund Balance June 30, 2006	(Decrease)	
General Other Governmental	\$ 1,424,956 1,098,009	\$ 1,496,991 1,223,450	\$ (72,035) (125,441)	
Total	\$ 2,522,965	\$ 2,720,441	\$ (197,476)	

#### General Fund

The table that follows assists in illustrating the financial activities and fund balance of the general fund.

	2007 Amount	2006 Amount	Percentage <u>Change</u>	
Revenues				
Taxes	\$ 17,428,562	\$ 17,782,508	(1.99) %	
Interest earnings	468,437	351,124	33.41 %	
Intergovernmental	18,110,122	16,805,825	7.76 %	
Other revenues	577,900	541,647	6.69 %	
Total	\$ 36,585,021	\$ 35,481,104	3.11 %	

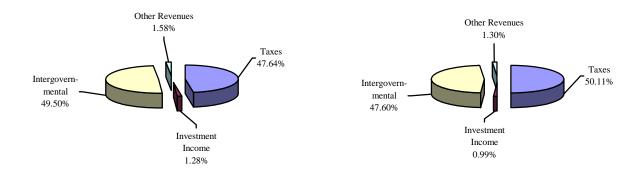

The fund balance of the general fund decreased \$72,035. Tax revenue decreased 1.99% from fiscal year 2006 as a result in the amount of taxes collected by the Erie County Auditor and the amount of taxes available to the District as an advance at fiscal year end. These amounts vary depending upon when the tax bills are sent. Also, on a cash basis, the fiscal year 2007 tax revenue actually decreased \$630,017 as a result of the phase-out of the tangible personal property tax.

These amounts are reserved on the fund financial statements as tax advance unavailable for appropriation. Intergovernmental revenue increased \$1,304,297 or 7.76% from the prior year. This is attributed to an increase in the amount of grants and state foundation the District received in 2007. The significant increase in investment income is the result of the rising interest rate market. The increase in other general fund revenues can be attributed to an increase in tuition and local revenue.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

### Revenues - Fiscal Year 2007

### Revenues - Fiscal Year 2006

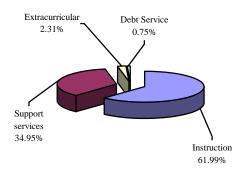

The table that follows assists in illustrating the expenditures of the general fund.

	2007	2006	Percentage
	Amount	Amount	<u>Change</u>
<b>Expenditures</b>			
Instruction	\$ 22,694,673	\$ 22,336,031	1.61 %
Support services	12,798,695	12,460,616	2.71 %
Operation of non-instructional services	-	24,810	(100.00) %
Extracurricular activities	847,664	727,855	16.46 %
Capital outlay	-	474,690	(100.00) %
Debt service	275,702	275,702	- %
Total	\$ 36,616,734	\$ 36,299,704	0.87 %

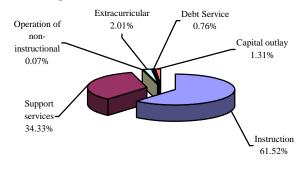

Total expenditures of the general fund increased 0.87% in fiscal year 2007. The decrease in capital outlay is due to the District not entering in to any new capital leases during 2007. Instruction expenditures increased 1.61% due to an overall increase in salaries, wages, and fringe benefits. Other expenditures remained comparable to 2006, other than non-instructional services which decreased a total of \$24,810.

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

### **Expenditures - Fiscal Year 2007**

### **Expenditures - Fiscal Year 2006**

### General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal 2007, the District amended its general fund budget several times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, final budgeted revenues and other financing sources were \$37,249,221, above original budget estimates of \$36,750,000. The actual revenues and other financing sources were \$37,145,616, which was \$103,605 less than final budgeted revenues and other financing sources.

General fund original appropriations (expenditures and other financing uses) of \$37,158,474 were increased to \$38,164,060 in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2007 totaled \$36,909,450, which was \$1,254,610 less than the final budget appropriations, primarily because salary costs proved to be lower than anticipated in the final budget.

### **Capital Assets and Debt Administration**

### Capital Assets

At the end of fiscal 2007, the District had \$10,531,786 invested in land, land improvements, buildings and improvements, furniture and equipment and vehicles. The entire amount was reported in governmental activities. The District reclassified the net assets for the two enterprise funds as described in Note 3.A. to the basic financial statements. The following table shows fiscal 2007 balances compared to 2006:

### MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

### Capital Assets at June 30 (Net of Depreciation)

	Governmental Activities			
			(Restated)	
	2007		2006	
Land	\$ 2,079,726	\$	2,280,969	
Land improvements	213,418		144,729	
Building and improvements	6,262,563		6,700,918	
Furniture and equipment	1,057,782		1,130,783	
Vehicles	 918,297	_	943,298	
Total	\$ 10,531,786	\$	11,200,697	

Refer to Note 8 to the basic financial statements for detail on the District's capital assets.

### **Debt Administration**

At June 30, 2007 the District had \$1,173,078 in general obligation bonds, a loan and a capital lease outstanding. Of this total, \$456,362 is due within one year and \$716,716 is due within greater than one year. The following table summarizes the bonds, loan and capital lease obligations outstanding.

### **Outstanding Debt, at Year End**

	Governmental Activities2007	Governmental Activities 2006	
General obligation bonds:			
Elementary building addition	\$ 320,000	\$ 505,000	
Asbestos abatement loan	30,733	92,201	
Capital lease obligation	822,345	1,052,785	
Total	\$ 1,173,078	\$ 1,649,986	

The asbestos abatement loan was received in 1988 from the U.S. Environmental Agency for an asbestos project at Sandusky High School. This loan is scheduled to mature in fiscal year 2008 and is interest free as long as the District remains current on repayment.

On March 3, 2003, the District issued general obligation refunding bonds. The general obligation refunding bonds are scheduled to mature in fiscal year 2009 and bear an annual interest rate of 4.45%.

The District has entered into capital lease obligations for computers, fiber optic equipment, and telephone equipment. The final principal and interest payments are scheduled to be made in fiscal year 2013.

At June 30, 2007 the District's overall legal debt margin was \$43,635,388 with an unvoted debt margin of \$486,065.

See Note 10 to the basic financial statements for detail on the District's long-term obligations.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2007 UNAUDITED

#### **Current Financial Related Activities**

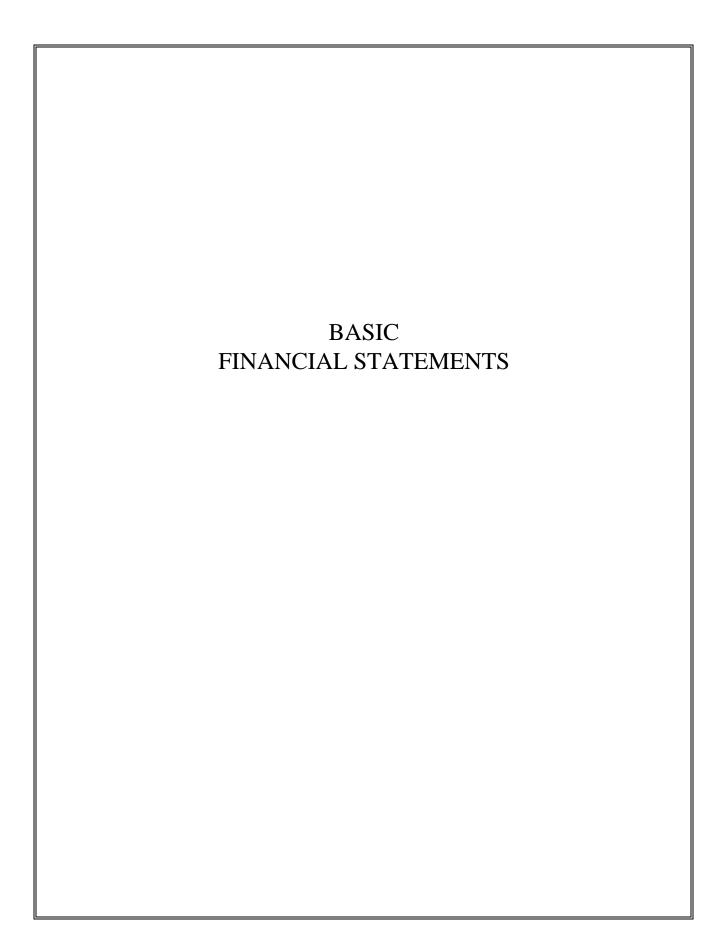

As the preceding information shows, the District relies heavily upon grants and entitlements and property taxes. The increase in tax revenue and intergovernmental revenue combined with a tighter control of operating expenses allowed the District to end fiscal year 2007 financially strong. The additional tax revenue from the 5.9 mill operating levy passed by voters in November 2003 will provide the District with the necessary funds to meet its operating expenses through 2007. District voters approved a 5.4 mill operating levy at the November 6, 2007, election which will generate \$2.7 million per year. However, the future financial stability of the District is not without challenges.

One challenge is that the District's Management must continue to provide the resources necessary to meet student needs while diligently planning expenses, staying within the five-year plan. The five-year plan is utilized by management to manage resources effectively and efficiently. Additional revenues should not be treated as a windfall to expand programs but as an opportunity to extend the life of the five-year plan.

The next challenge facing the District is the future of state funding. The State of Ohio was found by the Ohio Supreme Court in March 1997 to be operating an unconstitutional educational system, one that was neither "adequate" nor "equitable." Since 1997, the state has directed its tax revenue growth toward school districts with little property tax wealth. On May 16, 2003, the Ohio Supreme Court emphatically clarified that jurisdiction of the DeRolph case had ended. The Ohio Coalition for Equity and Adequacy of School Funding filed a petition with the U.S. Supreme Court for permission to file an appeal. Currently, associations throughout the State are working on a proposed funding solution which will require a constitutional amendment. Without a solution, the District does not anticipate growth in state revenue, as in the ten years prior to the DeRolph decision; no state revenue growth was realized.

### Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact: A. Troy Bouts, treasurer at Sandusky City School District, 407 Decatur Street, Sandusky, Ohio, 44870.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Sandusky City School District (the "District") is located in northern Erie County and is within the corporate boundaries of the City of Sandusky, which lies on the shores of Sandusky Bay and Lake Erie. The District serves an area of approximately 15 square miles.

The District is organized under Sections 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the District is vested in the Board of Education, consisting of five members elected at large for staggered four-year terms.

The District ranks as the 102<sup>nd</sup> largest by total enrollment among the 876 public and community school districts in the state. It currently operates 8 elementary schools, 2 alternative schools, 2 junior high schools, and 1 comprehensive high school. The District employs 171 non-certified employees, 345 certified employees, 10 full-time adult education instructors and 30 administrators, to provide services to approximately 3,864 students in grades K through 12, more than 5,000 adult education students, and various community groups.

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental type activity and to its proprietary fund provided they do not conflict with or contradict GASB pronouncements. The District's significant accounting policies are described below.

### A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>". When applying GASB Statement No. 14 and GASB Statement No. 39, management has considered all potential component units. Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits or provide financial support to the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. Based upon the application of this criteria, the District has no component units. The financial statements of the reporting entity include only those of the District (the primary government). The following organizations are described due to their relationship to the District:

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### JOINTLY GOVERNED ORGANIZATION

### Northern Ohio Educational Computer Association (NOECA)

The District is a participant in the Northern Ohio Educational Computer Association (NOECA), which is a computer consortium. NOECA is an association of 41 public school districts formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The NOECA Board of Directors consists of two representatives from each county in which participating school districts are located, the chairman of each of the operating committees, and a representative from the fiscal agent. The District paid \$159,870 to NOECA in fiscal year 2007 for services provided. Financial information can be obtained from Betty Schwiefert, who serves as Controller, 2900 South Columbus Avenue, Sandusky, Ohio 44870.

### RELATED ORGANIZATION

#### Sandusky Public Library

The Sandusky Public Library is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel, and does not depend on the District for operational subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Sandusky Public Library at 114 W. Adams Street, Sandusky, Ohio 44870.

### PUBLIC ENTITY RISK POOL

#### Workers' Compensation

The District participates in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio Association of School Business Officials Workers' Compensation Group Rating Plan (the "Plan") was established through the Ohio Association of School Business Officials (OASBO) as a group purchasing pool.

The Executive Director of the OASBO, or his designee, serves as coordinator of the Plan. Each year, the participating school district pays an enrollment fee to the Plan to cover the costs of administering the program

### **B.** Fund Accounting

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### GOVERNMENTAL FUNDS

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major governmental fund:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Other governmental funds of the District are used to account for (a) the accumulation of resources for, and payment of, general long-term debt principal, interest and related costs; (b) financial resources to be used for the acquisition, construction, or improvement of capital facilities; and (c) for grants and other resources whose use is restricted to a particular purpose.

#### PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. The District has no enterprise funds. The following is a description of the District's internal service fund:

<u>Internal Service Fund</u> - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service fund of the District accounts for a self-insurance program which provides medical, dental and vision benefits to employees.

#### FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into two classifications: private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The agency funds are used to account for student activities and for the fiscal agent activity of the Sandusky Public Library.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### C. Basis of Presentation

<u>Government-wide Financial Statements</u> - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

The proprietary fund type is accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of the proprietary fund are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's internal service fund is charges for services. Operating expenses for the internal service fund include claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Private-purpose trust funds are reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

### D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting on the fund financial statements. Proprietary and fiduciary funds also use the accrual basis of accounting.

<u>Revenues - Exchange and Non-exchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

<u>Unearned Revenue and Deferred Revenue</u> - Unearned revenue and deferred revenue arise when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2007, but which were levied to finance fiscal year 2008 operations, and other revenues received in advance of the fiscal year for which they are intended to finance, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met and delinquent property taxes due at June 30, 2007 are recorded as deferred revenue.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

### E. Budgets

The District is required by state statute to adopt an annual appropriated cash basis budget for all funds. The specific timetable for fiscal year 2007 is as follows.

- 1. Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The expressed purpose of this budget document is to reflect the need for existing (or increased) tax rates.
- 2. By no later than January 20, the board-adopted budget is filed with the Erie County Budget Commission for tax rate determination.
- 3. Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as a basis for the appropriation measure. On or about July 1, the Certificate is amended to include any unencumbered balances from the preceding year as reported by the District Treasurer. The Certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the final budgeted revenue amount in the budgetary statement reflect the amounts set forth in the final Certificate issued for fiscal year 2007.
- 4. By July 1, the annual appropriation resolution is legally enacted by the Board of Education at the fund, function, and object level of expenditures, which are the legal levels of budgetary control. (State statute permits a temporary appropriation to be effective until no later than October 1 of each year.)

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Board adopted appropriations by fund must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed appropriations at the legal level of control.

- 5. Any revisions that alter the total of any fund appropriation or alter total function appropriations within a fund, or alter object appropriations within functions within a fund must be approved by the Board of Education.
- 6. Formal budgetary integration is employed as a management control device during the year for all funds consistent with the general obligation bond indenture and other statutory provisions. All departments/functions and funds completed the year within the amount of their legally authorized cash basis appropriation.
- 7. Appropriation amounts are as originally adopted, or as amended by the Board of Education through the year by supplemental appropriations which either reallocated, increased or decreased the original appropriated amounts. All supplemental appropriations were legally enacted by the Board during fiscal 2007.
- 8. Unencumbered appropriations lapse at year-end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Cash disbursements plus encumbrances may not legally exceed budgeted appropriations at the fund, function and/or object level.

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. On fund financial statements, encumbrances outstanding at year end (not already recorded in accounts payable) are reported as a reservation of fund balance for subsequent-year expenditures for governmental funds. A reserve for encumbrances is not reported on government-wide financial statements.

#### F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements.

During fiscal year 2007, investments were limited to U.S. savings bonds, shares of common stock, a repurchase agreement, corporate bonds, limited partnership, investments in the State Treasury Asset Reserve of Ohio (STAR Ohio) and open-ended money market mutual funds.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements are reported at cost.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District has invested funds in STAR Ohio during fiscal 2007. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2007.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2007 amounted to \$468,437, which includes \$151,966 assigned from other District funds.

While common stock is not an allowable investment according to Ohio Statute, the District has been endowed with gifts of stock to its private-purpose trust fund. No public funds were used to acquire the stock. At the time the common stock was endowed to the District its value was \$3,612,515. Due to changes in fair market value, at June 30, 2007, the common stock has increased in value by \$747,088. The amount of common stock available for expenditure is reported in net assets available in trust for scholarships on the statement of fiduciary net assets. A committee has been created to authorize the spending of the investment income.

For presentation on the financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at year-end is provided in Note 4.

### G. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method. On fund financial statements, inventories of governmental funds are stated at cost. Cost is determined on a first-in, first-out basis and is expended when purchased.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

### H. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of five thousand dollars. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives (with an estimated 10% salvage value):

Description	Estimated Lives
Land improvements	20 years
Buildings/improvements	25 - 50 years
Furniture/equipment	5 - 20 years
Vehicles	6 - 10 years

#### I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable/payable." These amounts are eliminated in the governmental type activities columns of the statement of net assets.

### J. Compensated Absences

Compensated absences of the District consist of vacation leave and severance liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16 "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for severance is based on a policy whereby an employee who was hired prior to July 1, 2004 is compensated upon retirement for the greater of (1) sixty five (65) days of severance pay regardless of the employee's sick leave balance, or (2) 25% of accrued but unused sick leave up to a maximum of 75 days, plus 10% of all unused sick leave over 300 days. Employees hired on or after July 1, 2004 are eligible for severance pay only as in (2) above. This liability exists for employees who are currently eligible to receive termination (severance) payments, as well as those employees expected to become eligible in the future and is reported as a component of "future retirement obligation" in the basic financial statements.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District has entered into a First Opportunity Retirement Incentive (FORI) whereby, upon election, an employee reaching their first year of retirement eligibility (with a minimum age of 60 years or 30 or more years of service) is entitled to receive an additional 30 days of severance pay or 12% of their unused sick leave balance, whichever is greater. The corresponding liability for the FORI has been recorded for employees who have elected to retire under the terms of the FORI and is reported as a component of "future retirement obligation" in the governmental fund balance sheet and as a component of long-term liabilities in the statement of net assets. The FORI is reported as a component of "future retirement obligation" in the governmental fund balance sheet and statement of net assets. Amounts for FORI represent liabilities at June 30, 2007 on the fund financial statements.

The total liability for vacation and severance payments has been calculated using pay rates in effect at June 30, 2007, and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

### K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the internal service fund are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences and future retirement obligations that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, long-term loans, and contractually required pension contributions are recognized as a liability in the fund financial statements when due.

#### L. Fund Balance Reserves

The District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for encumbrances, inventories of supplies and materials, prepayments, property taxes unavailable for appropriation, and scholarships. The reserve for property taxes unavailable for appropriation represents taxes recognized as revenue under GAAP but not available for appropriation under State statute.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

#### N. Prepayments

Payments made to vendors for services that will benefit periods beyond June 30, 2007, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of purchase and an expenditure/expense is reported in the year which services are consumed.

#### O. Unamortized Bond Issuance Costs/Bond Premium and Discount/Accounting Gain or Loss

On the government-wide financial statements, bond issuance costs are deferred and amortized over the term of the bonds using the straight line method, which approximates the effective interest method. Unamortized bond issuance costs are recorded as an asset on the financial statements.

Bond premiums are deferred and accreted over the term of the bonds. Bond premiums are presented as an addition to the face amount of the bonds.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or reduction of the face amount of the new debt.

On the governmental fund financial statements, deferred charges, issuance costs and bond premiums are recognized in the current period.

#### P. Parochial Schools

Within the District boundaries, St. Mary's, Sts. Peter and Paul, and Holy Angels Elementaries and St. Mary's Central Catholic High School are operated through the Toledo Catholic Diocese. Current state legislation provides funding to these parochial schools. These monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial school. These activities are reported as a governmental activity of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

#### Q. Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### R. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the District, these revenues are charges for services for self-insurance programs. Operating expenses are claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating.

#### S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. The District sold the Monroe school land and building at public auction during on March 20, 2007. The loss on the sale of land and building in the amount of \$543,770 is reported as a special item on the statement of activities.

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

#### A. Fund Reclassification and Restatement of Fund Balance and Net Assets

A fund reclassification is required to report funds previously reported as nonmajor enterprise funds as nonmajor special revenue funds. The fees received by these funds are not designed to cover all costs associated with the operation of the funds. These funds are largely supported by intergovernmental grants and entitlements and should be reported as governmental funds rather than enterprise funds. This fund reclassification had the following effect on the District's governmental fund balances and nonmajor enterprise fund net assets as previously reported:

	General	Nonmajor Governmental	Total Governmental	Nonmajor Enterprise
Fund balance/net assets as previously reported	\$ 1,496,991	\$ 1,458,747	\$ 2,955,738	\$ (216,953)
Fund reclassification:				
Net assets of nonmajor enterprise				
funds at June 30, 2006	-	(216,953)	(216,953)	216,953
Capital assets	-	(130,010)	(130,010)	-
Long-term liabilities	<u>-</u> _	111,666	111,666	
Net fund reclassification		(235,297)	(235,297)	216,953
Restated fund balance at July 1, 2006	\$ 1,496,991	\$ 1,223,450	\$ 2,720,441	<u>\$</u>

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

The fund reclassification had the following effect on the governmental activities and business-type activities net assets as previously reported:

	Governmental Activities	siness-Type Activities
Net assets at June 30, 2006	\$ 13,070,072	\$ (249,765)
Fund reclassification	(249,765)	 249,765
Restated net assets at July 1, 2006	\$ 12,820,307	\$ <u>-</u>

#### **B.** Deficit Fund Balances

Fund balances at June 30, 2007 included the following individual fund deficits:

Nonmajor Governmental Funds	Deficit
Food Service	\$ 121,964
Ohio Reads	5,450
Poverty Aid	5,570
Adult Basic Education	18,996
Title IV-B	148,121
Vocational Education	41,918
Title I	175,274
Drug-Free	4,539
Preschool	4,972
Improving Teacher Quality	46,355
Miscellaneous Federal Grants	209,030

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

#### **NOTE 4 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

Interim deposits are deposits of interim monies. Interim moneys are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time: and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

#### A. Deposits with Financial Institutions

At June 30, 2007, the carrying amount of all District deposits was \$489,762, exclusive of the \$1,585,000 repurchase agreement included in investments below. As of June 30, 2007, \$500,941 of the District's bank balance of \$616,656 was exposed to custodial risk as discussed below, while \$115,715 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District will not be able to recover deposits or collateral securities that are in the possession of an outside party. As permitted by Ohio Revised Code, the District's deposits are collateralized by a pool of eligible securities deposited with Federal Reserve Banks, or at member banks of the Federal Reserve System, in the name of the depository bank and pledged as a pool of collateral against all public deposits held by the depository. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

#### **B.** Investments

As of June 30, 2007, the District had the following investments and maturities:

		Investment Maturities							
		6	months or		7 to 12	13 to 18	3	19 to	o 24
Investment type	Fair Value	_	less	_	months	months		mor	nths
Repurchase Agreement	\$ 1,585,000	\$	1,585,000	\$	-	\$	-	\$	-
STAR Ohio	10,937,386		10,937,386		-		-		-
U.S. Savings Bonds	41,500		41,500		-		-		-
Money Market Mutual Funds	265,221		265,221		-		-		-
Corporate Bonds	55,942		55,942						
Limited Partnership	56,440		-						
Stock	 4,359,603	_					_		
	\$ 17,301,092	\$	12,885,049	\$		\$	_	\$	

Interest Rate Risk: The Ohio Revised Code general limits security purchases to those that mature within five years of the settlement date. The Ohio Revised Code also requires that repurchase agreements cannot exceed thirty days and the market value of securities for repurchase agreements must exceed the principal value by greater or equal to 2%. Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The District's investment policy addresses interest rate risk by requiring the consideration of market conditions and cash flow requirements in determining the term of an investment.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment in repurchase agreements is collateralized by underlying securities pledged by the investment's counterparty, not in the name of the District. Ohio law requires the market value of the securities subject to a repurchase agreement must exceed the principal value of securities subject to a repurchase agreement by 2%. Ohio law requires that depositories must collateralize deposits. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Credit Risk: STAR Ohio carries a rating of AAAm by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard service rating. The District's money market mutual funds carry a rating of AAAm by Standard & Poor's. No load money market mutual funds must have the highest credit rating issued by national raters. The District's stocks were rated ranging from AA to BBB, Aa1 to B1, and AA+ to BB+ by Standard & Poor's, Moody's Investor Services, and Fitch Ratings, respectively. The District's corporate bonds were rated A and BB+ by Moody's Investor Services and were rated A and Ba1 by Standard & Poor's. The investments in the limited liability partnership are not rated. The District has no investment policy that would further limit its investment choices.

Concentration of Credit Risk: The District's investment policy addresses concentration of credit risk by requiring investments to be diversified to reduce the risk of loss resulting from over concentration of assets in a specific issue or specific class of securities. The following table includes the percentage of each investment type held by the District at June 30, 2007:

<u>Investment type</u>	Fair Value	% of Total
Repurchase Agreement	\$ 1,585,000	9.16
STAR Ohio	10,937,386	63.22
U.S. Savings Bonds	41,500	0.24
Money Market Mutual Funds	265,221	1.53
Corporate Bonds	55,942	0.32
Limited Partnership	56,440	0.33
Stock	4,359,603	25.20
	\$ 17,301,092	100.00

#### D. Reconciliation of Cash and Investment to the Statement of Net Assets

The following is a reconciliation of cash and investments as reported in the footnote above to cash and investments as reported on the statement of net assets as of June 30, 2007:

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)**

Cash and Investments per footnote		
Carrying amount of deposits	\$	489,762
Investments	_	17,301,092
Total	\$	17,790,854
Cash and investments per Statement of Net Assets		
Governmental activities	\$	9,384,326
Private-purpose trust funds		8,321,403
Agency funds	_	85,125
Total	\$	17,790,854

#### **NOTE 5 - INTERFUND TRANSACTIONS**

Interfund loans receivable/payable consisted of the following at June 30, 2007, as reported on the fund statements:

Receivable Fund	Payable Fund	<u>Amount</u>
General Fund	Nonmajor Governmental Funds	\$ 127,000

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received.

#### **NOTE 6 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2007 represents collections of calendar year 2006 taxes. Real property taxes received in calendar year 2007 were levied after April 1, 2006, on the assessed value listed as of January 1, 2006, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2007 represents collections of calendar year 2006 taxes. Public utility real and tangible personal property taxes received in calendar year 2007 became a lien January 1, 2006, were levied after April 1, 2006 and are collected in 2007 with real property taxes. Public utility real property is assessed at thirty-five percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 6 - PROPERTY TAXES - (Continued)**

Tangible personal property tax revenue received during calendar 2007 (other than public utility property) represents the collection of 2007 taxes. Tangible personal property taxes received in calendar year 2007 were levied after April 1, 2006, on the value as of December 31, 2006. For 2006, tangible personal property is assessed at 18.75% for property including inventory. This percentage will be reduced to 12.5% for 2007, 6.25% for 2008 and zero for 2009. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the District prior to June 30.

House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phases out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property will be eliminated by calendar year 2009, and the tax on telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. The bill replaces the revenue lost by the District due to the phasing out of the tax. In calendar years 2006-2010, the District will be fully reimbursed for the lost revenue. In calendar years 2011-2017, the reimbursements will be phased out.

The District receives property taxes from Erie County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2007, are available to finance fiscal year 2007 operations. The amount available to be advanced can vary based on the date tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2007 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2007 was \$1,147,635 in the general fund, \$22,608 in the debt service fund (a nonmajor fund) and \$36,843 in the permanent improvement fund (a nonmajor fund). These amounts have been recorded as revenue. The amount that was available as an advance at June 30, 2006 was \$1,251,763 in the general fund, \$22,726 in the debt service fund (a nonmajor fund), and \$40,908 in the permanent improvement fund (a nonmajor fund).

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2007 taxes were collected are:

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 6 - PROPERTY TAXES - (Continued)**

	2006 Sec Half Collec		2007 First Half Collections

Tax rate per \$1,000 of assessed valuation	\$ 71.35		\$ 71.35			

#### **NOTE 7 - RECEIVABLES**

Receivables at June 30, 2007 consisted of taxes, accounts (billings for user charged services and student fees), and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of state programs and the current year guarantee of federal funds. A summary of the principal items of receivables reported on the Statement of Net Assets follows:

#### **Governmental Activities**

Taxes - current and delinquent	\$ 21,151,911
Accounts	102,857
Intergovernmental	2,116,670
Total receivables	\$ 23,371,438

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 8 - CAPITAL ASSETS**

Capital assets of the governmental activities have been restated by \$130,010 at June 30, 2006 to include the capital assets of the business-type activities that have been reclassified into the governmental activities (see Note 3.A. for detail). Capital asset activity for the fiscal year ended June 30, 2007, was as follows:

	Restated			
	Balance			Balance
	June 30, 2006	Additions	<u>Deductions</u>	June 30, 2007
Governmental Activities Capital assets, not being depreciated:

Central	28,770
Operation of non-instructional services	30,155
Food service operations	5,355
Extracurricular activities	108,357
Total depreciation expense	\$ 627,918

#### NOTE 9 - CAPITAL LEASES - LESSEE DISCLOSURE

During a prior fiscal year, the District entered into capitalized leases for fiber optic, telephone equipment and computer equipment. These lease agreements meet the criteria of capital lease as defined by FASB Statement No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements.

Capital assets consisting of building improvements and equipment have been capitalized in the amount of \$746,516 and \$322,443, respectively. These amounts represent the present value of the minimum lease payments at the time of acquisition. Accumulated depreciation as of June 30, 2007 for building improvements and equipment was \$335,932 and \$145,099, respectively, leaving a current book value of \$410,584 and \$177,344, respectively. Computer equipment in the amount of \$353,515 has not been capitalized since the assets individually do not meet the District's capitalization threshold. A corresponding liability is recorded in the government-wide financial statements. Principal payments in fiscal year 2007 totaled \$230,440 paid by the general fund.

### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### NOTE 9 - CAPITAL LEASES - LESSEE DISCLOSURE - (Continued)

The following is a schedule of the future long-term minimum lease payments required under capital lease and the present value of the future minimum lease payments as of June 30, 2007:

Fiscal Year Ending June 30,	Amount		
2008	\$ 275,702		
2009	275,702		
2010	121,509		
2011	94,797		
2012	94,797		
2013 - 2014	47,398		
Total minimum lease payments	909,905		
Less amount representing interest	(87,560)		
Total	\$ 822,345		

#### **NOTE 10 - LONG-TERM OBLIGATIONS**

**A.** On March 3, 2003, the District issued general obligation bonds (Series 2003 School Improvement Refunding Bonds) to currently refund the callable portion of the Series 1991 School Improvement General Obligation Bonds (principal \$1,395,000; interest rate 7.088%). The refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net assets.

The refunding issue is comprised of current interest bonds, par value \$1,090,000. The annual interest rate on the bonds is 4.450%.

The refunding bonds outstanding are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Payments of principal and interest relating to these liabilities are recorded as expenditures in the debt service fund. The source of payment is derived from a current 0.60 mill bonded debt tax levy.

The following is a description of the District's bonds outstanding as of June 30, 2007:

			Loan				
	Interest	Issue	Maturity	Outstanding			Outstanding
<u>Purpose</u>	Rate	Date	Date	June 30, 2006	Additions	Reductions	June 30, 2007
Elementary building							
additions - 2003	4.450%	03/03/03	12/01/08	\$ 505,000	\$ -	\$ (185,000)	\$ 320,000

**B.** In 1988, the District received a loan from the U.S. Environmental Protection Agency for an asbestos abatement project at Sandusky High School. The loan is interest free as long as the District remains current on repayment. Payments relating to the loan are recorded as expenditures in the debt service fund. The following schedule describes the loan:

## NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)**

			Loan					
	Interest	Issue	Maturity	Ou	tstanding		Ou	tstanding
<u>Purpose</u>	Rate	<u>Date</u>	Date	June	e 30, 2006	Reductions	June	30, 2007
Asbestos Abatement	None	03/01/88	07/31/08	\$	92,201	\$ (61,468)	\$	30,733

**C.** The following is a summary of the District's future annual debt service requirements to maturity for general obligation bonds and the EPA loan:

Year Ending	Principal on		In	iterest on				
June 30	Bonds/EPA Loan		Bonds/EPA Loan			Total		
2008 2009	\$	215,733 135,000	\$	10,124 3,004	\$	225,857 138,004		
Total	\$	350,733	\$	13,128	\$	363,861		

**D.** Long-term obligations of the governmental activities have been restated by an increase of \$111,666 at June 30, 2006 to include the long-term obligations of the business-type activities that have been reclassified into the governmental activities (see Note 3.A. for detail). The changes in the District's long-term obligations during the year consist of the following:

	Restated				Amounts
	Balance			Balance	Due in
	June 30, 2006	Increase	Decrease	<u>June 30, 2007</u>	One Year
Governmental Activities					
Future retirement obligation	\$ 3,363,002	\$ 814,770	\$ (319,959)	\$ 3,857,813	\$ 353,098

Less: Unamortized deferred charge on	refunding			(9,294)	
Add: Unamortized premium of refundi	C			19,649	
Total on statement of net assets				\$ 5,375,657	

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 10 - LONG-TERM OBLIGATIONS - (Continued)**

Compensated absences and the future retirement obligation will be paid from the fund from which the employee is paid. The payments will be made from the general fund and the following nonmajor special revenue funds: food service, adult education, and Title VI-B. Further detail on the future retirement obligation is provided in Note 2.J.

#### E. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation use in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2007, are a voted debt margin of \$43,635,388 (including available funds of \$209,513) and an unvoted debt margin of \$486,065.

#### **NOTE 11 - RISK MANAGEMENT**

#### A. Comprehensive

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2007, the District has contracted with Indiana Insurance Company to provide insurance coverage in the following amounts:

<u>Limits of Coverage</u>	Coverage	<u>Deductible</u>
General liability: Each occurrence Aggregate	\$ 1,000,000 2,000,000	\$ 1,000 0
Fleet: Comprehensive/collision	1,000,000	250/500
Umbrella liability and fleet	3,000,000	10,000
Building and contents Boiler and machinery	95,858,303	10,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no significant reduction in coverage from the prior year.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 11 - RISK MANAGEMENT - (Continued)**

#### **B.** Health Benefits

The District has established a Risk Management Fund (an internal service fund) to account for and finance its uninsured risks of loss. Under this program, the Risk Management Fund provides coverage for up to a maximum of \$125,000 for each health benefits claim. The District purchases commercial insurance for claims in excess of coverage provided by the fund and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

All funds of the District participate in the program and make payments to the Risk Management Fund based on actuarial estimates of the amounts needed to pay claims and actual amounts needed to pay fixed costs (premiums for stop-loss coverage and medical conversion and administrative fees and services).

The claims liability of \$669,510 reported in the basic financial statements at June 30, 2007, is based on an estimate provided by the third party administrator and the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues", as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling the claims. Changes in claims activity for the current and previous fiscal year are as follows:

Fiscal <u>Year</u>	Beginning Balance	Current <u>Year Claims</u>	Claims Payments	Ending Balance
2006-2007	\$ 443,712	\$ 4,751,619	\$ (4,525,821)	\$ 669,510
2005-2006	609,093	4,789,745	(4,955,126)	443,712

#### C. Workers' Compensation Rating Program

The District participates in the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 2.A.). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. Participants in the GRP are placed on tiers according to their loss history. Participants with low loss histories are rewarded with greater savings than participants with higher loss histories. Each participant pays its workers' compensation premium to the state based on the rate for its GRP tier rather than its individual rate. Participation in the GRP is limited to school districts than can meet the GRP's selection criteria. The firm of Sheakley UniService, Inc. provides administrative, cost control, assistance with safety programs, and actuarial services to the GRP.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 12 - PENSION PLANS**

#### A. School Employees Retirement System

The District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, or by calling (800) 878-5853, or by visiting the SERS website at <a href="https://www.ohsers.org">www.ohsers.org</a> under Forms and Publications.

Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2007, 10.68 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2006, 10.58 percent of annual covered salary was the portion used to fund pension obligations. For fiscal year 2005, 10.57 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The District's required contribution for pension obligations to SERS for fiscal years ended 2007, 2006, and 2005 were \$536,230, \$537,198, and \$525,547; 45.59 percent has been contributed for fiscal year 2007 and 100 percent for fiscal years 2006 and 2005. \$307,859 represents the unpaid pension contribution for fiscal year 2007 and is recorded as a liability within the respective funds.

#### B. State Teachers Retirement System of Ohio

The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3371, or by calling (614) 227-4090, or by visiting the STRS Ohio website at <a href="https://www.strsoh.org">www.strsoh.org</a>.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on member contributions and earned interest matched by STRS Ohio funds times an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 12 - PENSION PLANS - (Continued)**

DC and Combined Plan members will transfer to the Defined Benefit Plan during their fifth year of membership unless they permanently select the DC or Combined Plan. Existing members with less than five years of service credit as of June 30, 2001, were given the option of making a one time irrevocable decision to transfer their account balances from the existing DB Plan into the DC Plan or the Combined Plan. This option expired on December 31, 2001. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

For the fiscal year ended June 30, 2007, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal years 2006 and 2005, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for fund pension obligations to STRS Ohio for the fiscal years ended June 30, 2007, 2006, and 2005 were \$2,836,639, \$2,800,057 and \$2,576,779; 82.51 percent has been contributed for fiscal year 2007 and 100 percent for fiscal years 2006 and 2005. \$496,188 represents the unpaid pension contribution for fiscal year 2007 and is recorded as a liability within the respective funds. Contributions to the DC and Combined Plans for fiscal year 2007 were \$15,888 made by the District and \$42,386 made by plan members.

#### C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS or the STRS have an option to choose Social Security or the SERS/STRS. As of June 30, 2007, certain members of the Board of Education have elected Social Security. The District's liability is 6.2% of wages paid.

#### **NOTE 13 - POSTEMPLOYMENT BENEFITS**

The District provides comprehensive health care benefits to retired teachers and their dependents through the State Teachers Retirement System of Ohio (STRS Ohio), and to retired non-certified employees and their dependents through the School Employees Retirement System (SERS). Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare premiums. Benefit provisions and the obligations to contribute are established by the Systems based on authority granted by State statute. Both systems are funded on a pay-as-you-go basis.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)**

All STRS Ohio retirees who participated in the DB or combined plans and their dependents are eligible for health care coverage. The STRS Ohio Board has statutory authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. All benefit recipients pay a portion of health care cost in the form of a monthly premium. By law, the cost of coverage paid from STRS Ohio funds is included in the employer contribution rate, currently 14 percent of covered payroll. For the fiscal year ended June 30, 2007, the STRS Ohio Board allocated employer contributions equal to 1 percent of covered payroll to the Health Care Reserve Fund. For the District, this amount equaled \$218,203 for fiscal year 2007.

STRS Ohio pays health care benefits from the Health Care Stabilization Fund. At June 30, 2006 (the latest information available), the balance in the Health Care Stabilization Fund was \$3.5 billion. For the fiscal year ended June 30, 2006 (the latest information available), net health care costs paid by STRS Ohio were \$282.743 million and STRS had 119,184 eligible benefit recipients.

For SERS, coverage is made available to service retirees with ten or more fiscal years of qualifying service credit, and to disability and survivor benefit recipients. All retirees and beneficiaries are required to pay a portion of their premium for health care. The portion is based on years of service, Medicare eligibility, and retirement status.

After the allocation for basic benefits, the remainder of the employer's 14 percent contribution is allocated to providing health care benefits. For the fiscal year ended June 30, 2007, employer contributions to fund health care benefits were 3.32 percent of covered payroll, a decrease of .10 percent from fiscal year 2006. In addition, SERS levies a surcharge to fund health care benefits equal to 14 percent of the difference between a minimum pay and the member's pay, pro-rated for partial service credit. For fiscal year 2007, the minimum pay was established at \$35,800. However, the surcharge is capped at 2 percent of each employer's SERS salaries. For the 2007 fiscal year, District paid \$270,073 to fund health care benefits, including the surcharge.

The surcharge, added to the unallocated portion of the 14 percent employer contribution rate, provides for maintenance of the asset target level for the health care fund. The target level for the health care reserve is 150 percent of the projected claims less premium contributions for the next year. Expenses for health care for the fiscal year ended June 30, 2006 (the latest information available) were \$158.751 million. At June 30, 2006 (the latest information available for payment of health care benefits of \$295.6 million. At June 30, 2006 (the latest information available), SERS had 59,492 participants currently receiving health care benefits.

#### NOTE 14 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The Statement of Revenue, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 14 - BUDGETARY BASIS OF ACCOUNTING - (Continued)**

- (a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to a reservation of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

General Fund

#### **Net Change in Fund Balance**

	<u>-50</u>	.01411 0110
Budget basis	\$	236,166
Net adjustment for revenue accruals		57,765
Net adjustment for expenditure accruals		(205,894)
Net adjustment for other sources/uses		(491,160)
Adjustment for encumbrances		371,610
GAAP basis	<u>\$</u>	(31,513)

#### **NOTE 15 - CONTINGENCIES**

#### A. Grants

The District receives significant financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

#### B. Litigation

A lawsuit has been filed by the Columbia Gas Transmission Corporation arguing that the Corporation's public utility property tax assessment rate should be 25% of true value rather than the 88% used by the Tax Commissioner. The Board of Tax Appeals has agreed with the Corporation and the case has been appealed by the Tax Commissioner to the Ohio Supreme Court. The District receives a significant amount of property tax from the Corporation. Should the Corporation prevail in the Supreme Court, it may be entitled to a refund from the District based on the lower assessment rate beginning from tax year 2001. The amount of the refund is estimated to be approximately \$1,852 per year. A portion of the refund may be recovered from additional state entitlement payments.

#### NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### **NOTE 15 - CONTINGENCIES - (Continued)**

The District is a party to legal proceedings seeking damages or injunctive relief generally incidental to its operations and spending projects. The District management is of the opinion that disposition of the claim and legal proceedings will not have a material effect, if any, on the financial condition of the District.

#### **NOTE 16 - STATUTORY RESERVES**

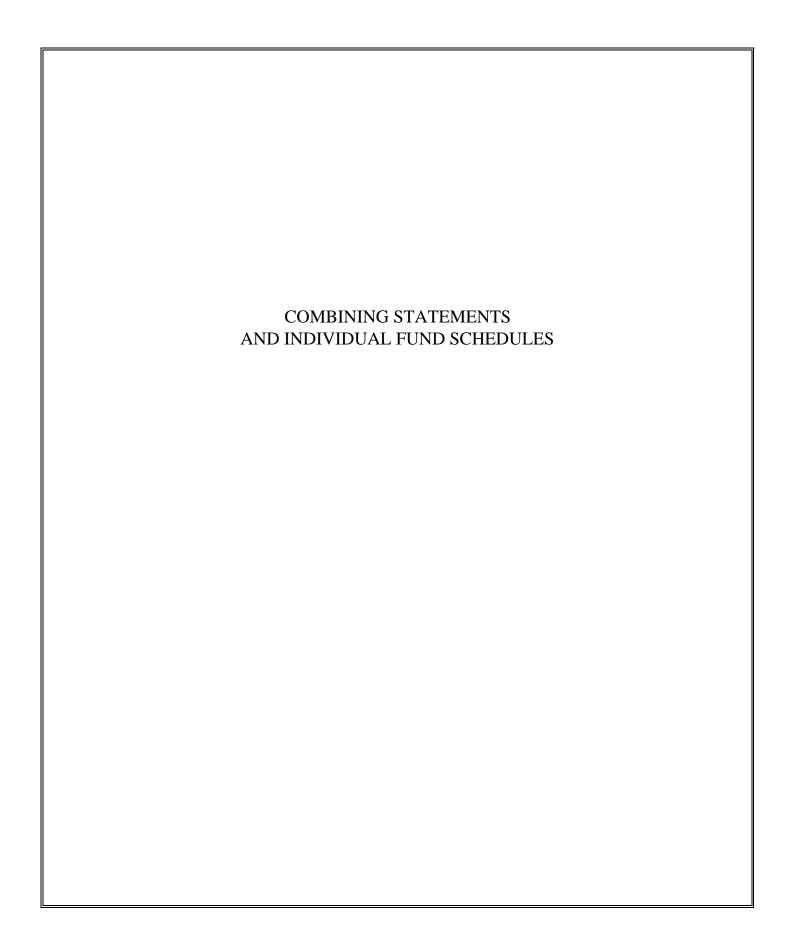

The District is required by state law to set-aside certain general fund revenue amounts, as defined by statute, into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2007, the reserve activity was as follows:

	Textbooks	Capital Acquisition
Set-aside cash balance as of June 30, 2006	\$ (595,309)	\$ -
Current year set-aside requirement	636,583	636,583
Current year offsets	-	(560,749)
Qualifying disbursements	_(496,119)	(173,976)
Total	<u>\$ (454,845)</u>	\$ (98,142)
Balance carried forward to FY 2008	(454,845)	<u>\$</u>

Although the District had offsets and qualifying disbursements during the year that reduced the set-aside amounts below zero for the capital acquisition reserve, this extra amount may not be used to reduce the set-aside requirement for future years. The negative amount is therefore not presented as being carried forward to the next fiscal year. The amount of qualifying disbursements exceeding the set-aside requirement in the textbooks reserve may be carried forward to reduce the set-aside requirement for future years.

#### **NOTE 17 - SIGNIFICANT SUBSEQUENT EVENTS**

On November 6, 2007, District voters approved a 5.4 mill operating levy.

#### GOVERNMENTAL FUND DESCRIPTIONS

#### **General Fund**

The general fund is used to account for resources traditionally associated with a school district which are not legally or by sound financial management to be accounted for in another fund. These activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transportation, and administration.

#### **Nonmajor Special Revenue Funds**

Special revenue funds are established to account for revenues from specific sources which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's special revenue funds follows:

Food Service Fund Section 3313.81, Revised Code

A fund which is used to account for all revenues and expenditures related to food service operations.

Adult Education Section 5705.12, Revised Code

A fund which accounts for transactions made in connection with adult education classes. Receipts include, but are not limited to, tuiton from patrons and students, and reimbursement from the State Department of Education. Expenditures include supplies, salaries and textbooks.

#### Special Trust

A fund which is used to account for trust agreements in which the principal and income is used to support District programs.

#### **Public School Support**

Section 5705.12, Revised Code

A fund provided to account for specific local revenue sources that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

Other Grant Sections 5705.09 and 5705.13. Revised Code

A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

#### District Managed Student Activity

Section 3313.062

A fund provided to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

Auxiliary Services AM SUB H.B. 291

A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district.

Current Budget Bill

#### Teacher Development

appropriation line item 200-527

A fund provided to account for reciepts and expenditures necessary for providing assistance to local school districts for the development of in-service programs.

#### Gifted Education

A fund provided to account for research and demonstration projects and other purposes as established under the Gifted Pupil Program.

#### **Management Information Systems**

Am Sub H B 111

A fund used to account for funds associated with the state-wide requirements of the Education Management System (EMIS).

#### GOVERNMENTAL FUND DESCRIPTIONS

#### Nonmajor Special Revenue Funds - (Continued)

Current Budget Bill

**Entry Year Programs** 

appropriation line item 200-410

A fund used to implement entry-year programs.

Poverty Aid

Current Budget Bill, Revised Code 3317.029

A fund used to account for monies appropriated for poverty based assistance as well as part of the state foundation system. Programs included are academic intervention, all-day kindergarten, class-size reduction, Limited English Proficient students, professional development, dropout prvention, and community outreach.

Data Communications Section 5705.09, Revised Code

A fund provided to account for money appropriated for Ohio Educational Computer Network Connections.

#### SchoolNet Professional Development

Section 5705.09, Revised Code

A fund provided to account for a limited number of professional development subsidy grants.

Current Budget Bill

Ohio Reads Grant

appropriation line item 200-566 and 200-455

A fund intended to improve reading outcomes, especially on the fourth grade reading proficiency test and for volunteer coordinators in public school buildings, for educational service centers for costs associated with volunteer coordination, for background checks of volunteers, to evaluate the Ohio Reads Program, and for operating expenses associated with administering the program.

Current Budget Bill

**Summer Intervention** 

appropriation line item 200-513

A fund used to account for summer intervention services satisfying criteria defined in division (E) of section 3313.608 of the Revised Code.

Current Budget Bill

#### **Vocational Education Enhancement**

appropriation line item 200-545

A fund used to account for the Vocational Education Enhancements that expand the number of students enrolled in tech prep programs, enable students to develop career plans and replace or update equipment essential for the instruction of students in job skills taught as part of a vocational program or programs approved for such instruction by the State Board of Education.

Able/Jobs Grant State of Ohio (4P1 200-629)

A fund established to provide assistance to welfare recipients to fund employment. The school district collaborates with the Department of Human Services in preparing participants for the work force by providing them with skills, development, work experience and placement.

Adult Basic Education P L Law 91-230, Title III

This fund accounts for the Federal monies used to provide programs in reading, writing and math competency for adults who have not earned a high school diploma.

Title VI-B

Education; of the Handicapped Act, P L 91-230

To account for Federal monies which assist states in the identification of handicapped children, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

#### GOVERNMENTAL FUND DESCRIPTIONS

#### Nonmajor Special Revenue Funds - (Continued)

Carl D. Perkins Vocational Education Act

#### **Vocational Education**

of 1984, Public Law 98-524

Provision of funds to boards of education, teacher training institutions, and the state administering agency for cooperating in development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, exemplary programs, cooperative education, construction of area vocational schools, ancillary services, research, advisory committees, and work-study projects, including sex equity grants. Funds are administered by the Ohio Department of Education, Division of Vocational and Career Education.

Higher Education amendments of 1972, Title IV, part A, section 411; Public Law 92-318; 20 USC 1070a.

#### **Basic Educational Opportunity Grant**

Provision of funds to assist in making available the benefits of post-secondary education to qualified students.

Title I P L 97-35; Title I ESEA 1965

To account for funds which are to: 1) establish or improve programs designed to meet the special educational need of migratory children of migratory agricultural workers or migratory fishers' and 2) enable State education agencies to coordinate their state migrant education programs and local projects with similar programs and projects in other states, including the transfer of school records of other information about migratory children.

*Title V* P L 97-35; ESEA 1965

To account for Federal revenues which support the implementation of a variety of programs such as computer education, gifted and talented programs, and inservice and staff development.

#### Drug-Free School Grant

Catalog of Federal Domestic Assistance #84-166

To provide funds to local educational agencies and consortia of these agencies to establish, operate and improve local programs of drug abuse prevention, early intervention, rehabilitation referral and education in elementary and secondary schools, and to engage in development, training, technical assistance and coordination activities.

Education of the Handicapped Act, Amendments, P.L. 99-457

#### EHA Preschool Grant

Catalog of Federal Domestic Assistance #84.173

The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for the handicapped children ages three (3) through five (5) years.

#### Improving Teacher Quality

Catalog of Federal Domestic Assistance #84.340

A fund used to account for monies to hire additional classroom teachers in grades one through three so that the number of students per teacher will be reduced.

Head Start - Follow Through Act, P.L. 93-644

#### Youth Involvement

Title V, Part B; 42 U.S.C. 2929

A fund used to account for various monies received through state agencies from the federal government or directly from the federal government which are not classified elsewhere. A separate cost center must be used for each grant and be approved by the Auditor of State.

#### GOVERNMENTAL FUND DESCRIPTIONS

#### **Nonmajor Debt Service Fund**

A fund provided for the retirement of serial bonds and short term loans. All revenue derived from general or special levies, either within or exceeding the statutory unvoted ten-mill limitation, which is levied for debt charges on bonds or loans, are paid into this fund. The District maintains only one debt service fund, therefore, combining statements and schedules are not required.

#### **Nonmajor Capital Projects Funds**

Capital Projects funds account for financial resources to be used for the construction or acquisition of major capital facilities (other than those financed by proprietary funds and trust funds). A description of the District's capital projects funds follows:

#### Permanent Improvement

Section 5705.10, Revised Code

A fund provided to account for all transactions related to the acquiring, constructing, or improving of such permanent improvements as are authorized by chapter 5705, Revised Code.

Replacement Section 3314.11, Revised Code

A fund provided to account for monies used in the rebuilding, restoration or improvement of property which has been totally or partially destroyed due to any cause. Such property may have become unfit for use necessitating its demolition in whole or in part, and may require repair or restoration before it can again be used.

SchoolNet Section 5705.09, Revised Code

A fund provided to account for wiring to all classrooms in the State and to provide a computer workstation and related technology for every classroom in Ohio's low-wealth school districts.

#### **Nonmajor Permanent Fund**

A fund used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the District's programs.

## SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL (NON-GAAP BUDGETARY BASIS) GENERAL FUND

FOR THE FISCAL YEAR ENDED JUNE 30, 2007

	Budgeted	l Amounts		Variance with Final Budget Positive	
	Original	Final	Actual	(Negative)

#### PROPRIETARY FUND DESCRIPTION

#### **Nonmajor Internal Service Fund**

Internal service funds account for the financing of goods or services provided by one department or agency of the District to other departments or agencies on a cost-reimbursement basis. Charges are intended to recoup the total cost of such services.

#### Employee Benefits Self Insurance

Section 5705.09, Revised Code

A fund used to account for a self-insurance program which provides medical, dental and vision benefits to employees.

# SCHEDULE OF REVENUES, EXPENSES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL (NON-GAAP BUDGETARY BASIS) EMPLOYEE BENEFITS SELF-INSURANCE FOR THE FISCAL YEAR ENDED JUNE 30, 2007

#### FIDUCIARY FUND DESCRIPTIONS

#### **Fiduciary Funds**

Fiduciary fund reporting focuses on net assets and changes in net assets. The fidicuary fund category is split into two classifications: private purpose trust and agency funds. Private purpose trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results

#### **Private-Purpose Trust Funds**

#### **Endowment Fund**

A fund provided to account for monies set aside from endowments for scholarships for students enrolled in the District. The income from such a fund may be expended, but the principal must remain intact.

#### Scholarship Trust Fund

A fund provided to account for monies set aside from endowments for scholarships for students enrolled in the District. The principal and income from such a fund may be expended.

#### **Agency Funds**

#### Student Managed Activity

Section 3315.062, Revised Code

A fund provided to account for those student activity programs which have student participation in the activity and have students involved in the management of the program. This fund typically includes those student activities which consist of a student body, student president, student treasurer, and faculty advisor. There are 160 student managed activity groups

District Agency Section 5705.12, Revised Code

A fund used to account for those assets held by a school district as an agent for individuals, private organization, other governmental units, and/or other funds.

#### STATISTICAL SECTION

This part of the Sandusky City School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

<u>Contents</u> <u>Page</u>

Financial Trends 144-155

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

Revenue Capacity 156-163

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

Debt Capacity 164-167

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information 168-169

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information 170-179

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

**Sources:** This is the District's fifteenth comprehensive annual financial report. Sources are noted on the individual schedules. The District implemented GASB Statement No. 34 in 2001; schedules presenting government-wide information include information beginning in that year.

**Note:** The District implemented GASB Statement No. 44 *Economic Condition Reporting: The Statistical Section* during fiscal year 2006. The purpose of this statement is to improve the understandability and usefulness of the information presented in the statistical section.

<sup>(</sup>a) The assessed value of real property is fixed at 35% of true value.

<sup>(</sup>b) Tangible personal property and public utility tangible property are assessed at varying percentages of true value. As categories of tangible personal property have not been separated for this table, the maximum assessed rate of 25% of true value is assumed.

Source: Erie County Auditor and District financial records

**Note:** Ohio Bond Law sets a limit of 9% for voted debt and 1/10 of 1% for unvoted debt.

**Note:** Voted Debt Margins are determined without reference to applicable monies in the District's debt service fund.

**Note:** Beginning in fiscal year 2007 the amount of assessed valuation for railroad and telephone personal property has been excluded from the debt margin calculation.
