AUDIT REPORT

YEAR ENDED DECEMBER 31, 2006

Wolfe, Wilson, & Phillips, Inc. 37 South Seventh Street Zanesville, Ohio 43701

Mary Taylor, CPA Auditor of State

Board of Trustees Village of Byesville P.O. Box 8 Byesville, Ohio 43723

We have reviewed the *Independent Auditors' Report* of the Village of Byesville, Guernsey County, prepared by Wolfe, Wilson & Phillips, Inc., for the audit period January 1, 2006 through December 31, 2006. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Village of Byesville is responsible for compliance with these laws and regulations.

Mary Taylor, CPA Auditor of State

INDEPENDENT AUDITORS' REPORT

Village of Byesville Guernsey County 221 East Main Street Byesville, Ohio 43723

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Village of Byesville, Guernsey County as of and for the year ended December 31, 2006, which collectively comprised the Village's basic financial statements. These financial statements are the responsibility of the Village's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 2, the Village has prepared these financial statements and notes using the cash basis of accounting. This is a comprehensive accounting basis other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position-cash basis of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Village of Byesville, Guernsey County, as of December 31, 2006, and the respective changes in financial position-cash basis and the respective budgetary comparison for the General Fund, thereof for the years then ended in conformity with the basis of accounting Note 2 describes.

In accordance with *Government Auditing Standards*, we have also issued a report dated April 1, 2008, on our consideration of the Village of Byesville's internal control structure over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

Management's discussion and analysis is not a required part of the basic financial statements but is supplementary information the Government Accounting Standards Board requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

Wolfe, Wilson, & Phillips, Inc. Zanesville, Ohio April 1, 2008

This discussion and analysis of the Village of Byesville's financial performance provides an overall review of the Village's financial activities for the year ended December 31, 2006, within the limitations of the Village's cash basis accounting. The intent of this discussion and analysis is to look at the Village's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the Village's financial performance.

Highlights

Key highlights for 2006 are as follows:

Net assets of governmental activities increased \$34,261, or 17.3 percent, a significant change from the prior year. This was due to an increase in intergovernmental receipts and municipal income tax.

The Village's general receipts are primarily property taxes, municipal taxes and intergovernmental receipts. These receipts represent respectively 10, 38, and 22 percent of total cash received for governmental activities.

The Village's business-type activities are water and sewer charges. Charges for services decreased by \$333,542 or 15 percent due to a decrease in sewer as the new sewer treatment plant project was beginning. The Village's total receipts for business-type activities decreased by \$313,147 due to a decrease in loan proceeds in regards to the water plant expansion.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the Village's cash basis of accounting.

Report Components

The statement of net assets and statement of activities provide information about the cash activities of the Village as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the Village as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the basic financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The Village has elected to present on a cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the Village's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

Reporting the Government as a Whole

This annual report includes all activities for which the Village is fiscally responsible. These activities, defined as the Village's reporting entity, are operated within separate legal entities that make up the primary government. The primary government consists of the Village.

The statements of net assets and statement of activities for 2006 reflect how the Village did financially within the limitations of the cash basis of accounting. The statement of net assets presents the cash balances and investments of the governmental and business-type activities of the Village at year-end. The statement of activities compares cash disbursements with program receipts for each governmental program and business-type activity. Program receipts include charges paid by the recipient of the programs services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General cash receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function and business-type activity draws from the Village's general receipts.

These statements report the Village's cash position and the changes in cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the Village's financial health. Over time, increases or decreases in the Village's cash position is one indicator of whether the Village's financial health is improving or deteriorating. When evaluating the Village's financial condition, you should also consider other nonfinancial factors as well such as the Village's tax base, the extent of the Village's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property and real estate taxes.

In the statement of net assets and the statement of activities, we divide the government into two types of activities.

Governmental activities. Most of the Village's basic services are reported here, including police, fire, EMS, streets, and parks. Real estate and property taxes finance most of these activities. Benefits provided through governmental activities are not necessarily paid for by the people receiving them.

Business-Type Activities. The Village has two business-type activities, the provision of water and sewer. Business-type activities are financed by a fee charged to the customers receiving the service.

Reporting the Government's Most Significant Funds

Fund financial statements provide detailed information about the Village's major funds – not the Village as a whole. The Village establishes separate funds to better manage its many activities and to help demonstrate that money that is restricted as to how it may be used is being spent for the intended purpose. The funds of the Village are split into two categories: governmental and proprietary.

Governmental Funds - Most of the Village's activities are reported in governmental funds. The governmental fund financial statements provide a detailed view of the Village's governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the Village's programs. The Village's significant governmental funds are presented on the financial statements in separate columns. The information for nonmajor funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The Village's major governmental fund for 2006 is the General Fund. The programs reported in governmental funds are related to those reported in the governmental activities section of the entity-wide statements. There are no reconciliations between the two reports as the Village reports on the cash basis.

Proprietary Funds - When the Village charges customers for the services it provides, these services are generally reported in proprietary funds. When the services are provided to the general public, the activity is reported as an enterprise fund. The Village has seven enterprise funds. The major enterprise funds are Water Operating Fund, Sewer Operating Fund, Water Enterprise Improvement Fund and Water Debt Service Fund. The other enterprise funds are combined and presented in total in a single column.

The Government as a Whole

Table 1 provides a summary of the Village's net assets for 2006 and 2005 on the cash basis:

Table 1 NET ASSETS

	Governmental Activities 2006	Business-Type Activities 2006	Governmental Activities 2005	Business-Type Activities 2005	Total 2006	Total 2005
Assets:

In Net Assets	34,261	(428,300)	30,180	4,101	(394,039)	34,281
Net Assets, January 1	198,415	743,059	168,235	738,958	941,474	907,193
Net Assets, December 31	\$ 232,676	\$ 314,759	\$ 198,415	\$ 743,059	\$ 547,435	\$ 941,474

Program receipts represent 49 % and 57% of total receipts for 2006 and 2005. They are primarily comprised of water and sewer user fees. Intergovernmental receipts such as motor vehicle license and gas tax money, licenses and permits and charges to local governments for fire and EMS services are included.

General receipts represent 51% and 43% of the Village's total receipts for 2006 and 2005. Local taxes represent 33% and 34% of the general receipts for 2006 and 2005. Grants and entitlements make up the balance of general receipts. Other receipts are insignificant and somewhat unpredictable receipt sources.

Disbursements for general government represent the overhead costs of running the Village and the support services provided for the other Village activities. These include the costs of council, mayor, village administrator, solicitor, clerk, and community environment departments as well as internal services such as payroll and purchasing.

Security of Persons and Property are the costs of police and fire protection; Leisure Time Activities are the costs of maintaining the parks; Basic Utility Services are costs associated with utilities in the general fund; and Transportation is the cost of maintaining roads.

Governmental Activities

If you look at the Statement of Activities, you will see that the first column lists the major services provided by the Village of Byesville. The next column identifies the costs of providing these services. The major program disbursements for governmental activities are for transportation, security of persons and property and general government, which account for 6, 34, and 36 percent of all governmental disbursements. The next three columns of the Statement entitled Program Receipts identify amounts paid by people who are directly charged for the service and grants received by the Village of Byesville that must be used to provide a specific service. This "net cost" amount represents the cost of the service, which ends up being paid from money provided by local taxpayers. These net costs are paid from the general receipts, which are presented at the bottom of the Statement. A comparison between the total cost of service and the net cost for 2006 and 2005 is presented in Table 3.

		Sotal Cost of Services 2006]	Net Cost of Services 2006	Т	otal Cost of Services 2005]	Net Cost of Services 2005
Security of Persons and Property	\$	470,080	\$	420,080	\$	515,198	\$	465,198
Public Health Services		424		424		420		420
Leisure Time Activities		18,847		18,847		16,064		16,064
Community Environment		-		(1,310)		-		(3,070)
Basic Utility Services		48,703		48,703		39,506		39,506
Transportation		87,885		(10,339)		126,829		33,353
General Government		239,300		217,267		293,087		279,457
Debt Service - Principal		25,970		25,970		9,004		9,004
Debt Service - Interest		2,298		2,298		1,000		1,000
Capital Outlay		502,589		502,589		128,225		128,225
Total Expenses	\$	1,396,096	\$	1,224,529	\$	1,129,333	\$	969,157

The dependence upon property and income tax is apparent as over 98% and 97% for 2006 and 2005 of governmental activities are supported through these general receipts.

Business-Type Activities

The water/sewer operations of the Village of Byesville are relatively huge and routinely reports receipts and cash disbursements that are not relatively equal. The sewer infrastructure is beginning to age and the Village of Byesville in 2006 has begun the improvement of the wastewater treatment plant after receiving notification from the Ohio EPA that improvements are necessary to satisfy new sewer plant standards.

The Government's Funds

Total governmental funds had receipts of \$1,510,125 and \$1,159,513 for 2006 and 2005 and disbursements of \$1,475,864 and \$1,129,333 for 2006 and 2005. The most significant change from the prior year in receipts is the increase in taxes and the large increase in disbursements is a increase in capital outlay.

General Fund receipts were not less than disbursements indicating the General Fund is in a surplus in its spending situation.

Fund Budgeting Highlights

The Village's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During 2006 and 2005, the Village made amendments to its appropriation budget and receipts budget to reflect changing circumstances. Final budgeted receipts were above original budgeted receipts for 2006 and 2005. The difference between final budgeted receipts and actual receipts was not significant after council certified to amend resources.

Final budgeted disbursements for 2006 and 2005 were \$1,017,576 and \$815,343. Actual disbursements for 2006 and 2005 were \$894,036 and \$746,341. The Village kept spending close to budgeted amounts.

Capital Assets and Debt Administration

Capital Assets

The Village of Byesville does not currently keep track of its capital assets and infrastructure in the accompanying financial statements, but records payments for capital assets as disbursements.

Debt Administration

At December 31, 2006, the Village had \$11,993,475 in loans with the Ohio Water Development Authority, with \$370,135 due within one year for improvements to water and sewer utilities. The Village had \$374,934 in loans with the Ohio Public Works Commission, with \$33,583 due within one year for improvements to water and sewer utilities. The Village had \$181,000 in loans with the USDA Rural Development, with \$3,800 due within one year for improvements to water and sewer utilities. The Village had Mortgage Revenue Bonds in the amount of \$210,000 with \$30,000 due in one year for improvements to water and sewer utilities. The Village has General Obligation Bonds in the amount of \$74,628 with \$37,314 due within one year for purchase of vehicles to be used for street maintenance and water/sewer utilities. These bonds are paid from governmental activities and business-type activities. The Village has General Obligation Bonds in the amount of \$100,000 with \$20,000 due in one year for street paving. These bonds are paid from governmental activities. See footnote #11 for more detail.

Current Issues

The challenge for all governments is to provide quality services to the public while staying within the restrictions imposed by limited, and in some cases shrinking funding. We rely heavily on local taxes and we are currently trying to increase the tax rate to help cover general expenses. In 2006, The Village issued a \$100,000 five year bond to cover the cost of paving, house demolitions, police equipment, Tax Administrator's equipment, and other general projects. The local industries have increased over the last five years and we predict that the increase will stay steady, if not grow even more. We have recently bought property in the Village and have a long-term goal of building a new Village hall.

Contacting the Government's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the Village's finances and to reflect the Village's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Tracey Cain, Clerk-Treasurer, Village of Byesville, 221 East Main Street, Byesville, Ohio 43723.

NOTES TO THE FINANCIAL STATEMENTS

1. REPORTING ENTITY

The Village of Byesville, Guernsey County (the Village), is a body politic and corporate established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. A six-member Council elected at large for four-year terms directs the Village. The Mayor is elected to a four-year term, and votes only to break a tie.

A. Primary Government

The primary government consists of all funds, departments, boards and agencies that are not legally separate from the Village. The Village provides general government services, water and sewer utilities, maintenance of Village roads and bridges, park operations, and police and fire services.

B. Component Units

Component units are legally separate organizations for which the Village is financially accountable. The Village is financially accountable for an organization if the Village appoints a voting majority of the organization's governing board and (1) the Village is able to significantly influence the programs or services performed or provided by the organization; or (2) the Village is legally entitled to or can otherwise access the organization's resources; the Village is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide support to, the organization; or the Village is obligated for the debt of the organization. The Village is also financially accountable for any organizations that are fiscally dependent on the Village in that the Village approves their budget, the issuance of their debt or the levying of their taxes. Component units also include legally separate, tax-exempt entities whose resources are for the direct benefit of the Village, are accessible to the Village and are significant in amount to the Village. Based on these criteria, the Village has no component units.

C. Joint Ventures, Jointly Governed Organizations and Public Entity Risk Pools

The Village participates in the Public Entities Pool of Ohio ("PEP") public entity risk sharing pool. Note 8 to the financial statements provides additional information for this entity. This organization is:

Public Entity Risk Pool:

The Village belongs to the Public Entities Pool of Ohio ("PEP"), an risk sharing pool available to Ohio local governments. PEP provides property and casualty insurance for its members. Member governments pay annual contributions to fund the Pool. The Pool pays judgments, settlements and other expenses resulting from covered claims exceeding the member's deductible

The Village's management believes these financial statements present all activities for which the Village is financially accountable.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 2.C, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied, to the extent they are applicable to the cash basis of accounting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. The Village does not apply FASB statements issued after November 30, 1989, to its business-type activities and to its enterprise funds. Following are the more significant of the Village's accounting policies.

A. Basis of Presentation

The Village's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the Village as a whole. These statements include the financial activities of the primary government and distinguish between those activities of the Village that are governmental and those that are considered business-type. Governmental activities generally are financed through taxes. Business-type activities are financed in whole or in part by fees charged to external parties for goods or service.

The statement of net assets present the cash balance of the governmental and business-type activities of the Village at year-end. The statement of activities compares disbursements with program receipts for each of the Village's governmental and business-type activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the Village is responsible. Program receipts include charges paid by the recipient of the programs goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function or business-type activity is self-financing on a cash basis or draws from the Village's general receipts.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements

During the year, the Village segregates transactions related to certain Village functions or activities in separate funds to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Village at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

Proprietary fund statements distinguish operating transactions from nonoperating transactions. Operating receipts generally result from exchange transactions such as charges for services directly relating to the funds' principal services. Operating disbursements include cost of sales and services and administrative costs. The fund statements report all other receipts and disbursements as nonoperating.

B. Fund Accounting

The Village uses fund accounting to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are used to segregate resources that are restricted as to use. The funds of the Village are divided into two categories, governmental and proprietary.

Governmental Funds

The Village classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants), and other non-exchange transactions as governmental funds. The Village's has one major governmental fund, which is the General Fund.

The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the Village for any purpose provided it is expended or transferred according to the general laws of Ohio.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental Funds (Continued)

The other governmental funds of the Village account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds

The Village classifies funds financed primarily from user charges for goods or services as proprietary. Proprietary funds are classified as enterprise.

<u>Enterprise Funds</u> – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The Village's major enterprise funds are the Water Operating Fund, the Sewer Operating Fund, Water Improvement Fund, and the Water Debt Fund.

<u>Water Operating Fund</u> – The water operating fund accounts for the provision of water to the residents and commercial users located within the Village.

<u>Sewer Operating Fund</u> – The sewer operating fund accounts for the provision of sanitary sewer services to the residents and commercial users within the Village.

<u>Water Debt Fund</u> - The water debt fund accounts for the provision of water to the residents and commercial users located within the Village. These charges are used to pay off the debt incurred to provide these services.

<u>Water Improvement Fund</u> – This water improvement fund accounts for the provision of water to the residents and commercial users located within the Village. These charges are used for improvements to the water system.

C. Basis of Accounting

The Village's financial statements are prepared using the cash basis of accounting. Receipts are recorded in the Village's financial records and reported in the financial statements when cash is received rather when earned and disbursements are recorded when cash is paid rather than when a liability is incurred.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budgetary Process

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations ordinance, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Village Council may appropriate.

The appropriations ordinance is the Village Council's authorization to spend resources and set limits on disbursements plus encumbrances at the level of control selected by the Village Council. The legal level of control has been established at the fund, function and object level for all funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in receipts are identified by the Village Clerk-Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Village Council.

The appropriations ordinance is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation ordinance for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Village during the year.

E. Cash and Investments

To improve cash management, cash received by the Village is pooled and invested. Individual fund integrity is maintained throughout Village records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains at the time of sale are recorded as receipts.

During 2006, the Village invested in National City Bank's Sweep Account only. The Village's Sweep Account investment is recorded at the amount reported by National City Bank at December 31, 2006.

Interest earnings are allocated to Village funds according to State statutes, grant requirements, or debt related restrictions. Interest receipts credited to the General Fund during 2006 was \$30,671.

F. Restricted Assets

Cash and cash equivalents are reported as restricted when limitations on their use change the nature or normal understanding of their use. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation. Restricted assets represent all funds except for general fund. The Water Reserve Fund holds a restricted amount of \$15,212, which is required by USDA to pay off the final loan payment with them.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Inventory and Prepaid Items

The Village reports disbursements for inventories and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

H. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

I. Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the Village's cash basis of accounting.

J. Employer Contributions to Cost-Sharing Pension Plans

The Village recognizes the disbursement for their employer contributions to cost-sharing pension plans when they are paid. As described in Notes 8 and 9 the employer contributions include portions for pension benefits and for postretirement health care benefits.

K. Long-Term Obligations

The Village's cash basis financial statements do not report liabilities for bonds or other long-term obligations. Proceeds of debt are reported when the cash is received and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither another financing source nor a capital outlay expenditure are reported at inception. Lease payments are reported when paid.

L. Net Assets

Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources restricted for debt payments, capital expenditures such as land and land improvements, street maintenance, and police and fire equipment.

The Village's policy is to first apply restricted resources when an obligation is incurred for purposes for which both restricted and unrestricted net assets are available.

M. Fund Balance Reserves

The Village reserves any portion of fund balances which is not available for appropriation or which is legally segregated for a specific future use. Unreserved fund balance indicates that portion of fund balance, which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Interfund Transactions

Transfers between governmental and business-type activities on the government-wide financial statements are reported in the same manner as general receipts.

Exchange transactions between funds are reported as cash receipts in the seller funds and as cash disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating receipts/disbursements in proprietary funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented on the financial statements.

3. BUDGETARY BASIS OF ACCOUNTING

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance-Budget and Actual-Budgetary Basis presented for the General Fund is prepared on the budgetary basis to provide a meaningful comparisons of actual results with the budget. The differences between the budgetary basis and the cash basis is outstanding year-end encumbrances are treated as disbursements (budgetary basis) rather than as a reservation of fund balance (cash basis). The encumbrances outstanding at year-end (budgetary basis) amounted to \$2,278 for the General Fund.

4. DEPOSITS AND INVESTMENTS

Monies held by the Village are classified by State into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the Village treasury. Active monies must be maintained either as cash in the Village treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Council has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the Village can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;

NOTES TO THE FINANCIAL STATEMENTS

4. DEPOSITS AND INVESTMENTS (Continued)

- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligation of the State of Ohio or Ohio local governments;
- Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 7. The State Treasurer's investment pool (STAR Ohio).

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the Village, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

Protection of the Village's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by collateral pledged to the Village by the financial institution, or by a collateral pool established by the financial institution, to secure the repayment of all public monies deposited with the institution. National City Bank is the financial institution for the Village.

Deposits

Custodial credit risk is the risk that in the event of bank failure, the Village will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$513,566 of the Village's bank balance of \$613,566 was exposed to custodial credit risk because those deposits were uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the Village's name.

The Village has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the Village or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

NOTES TO THE FINANCIAL STATEMENTS

4. DEPOSITS AND INVESTMENTS (Continued)

Investments

As of December 31, 2006, the Village's investments was a sweep agreement with National City Bank, which are in an internal investment pool.

Interest Rate Risk

As a means of limiting its exposure to fair value losses caused by rising interest rates, the Village' investment policy requires that the investment portfolio remain sufficiently liquid to enable the Village to meet all operating requirements by investing in adequate amount of short-term investments in the portfolio to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the Village, and that an investment must be purchased with the expectation that it will be held to maturity. Repurchase agreements are limited to 30 days and the market value of the securities must exceed the principal value of the agreement by at least two percent and be marked to market daily.

Credit Risk

The underlying security of the repurchase agreement is Federal Home Loan Mortgage Corporation Notes, which carry a credit rating of AAA by Moody's. The Village's investment policy limits investments to those authorized by State statute. State statute only addresses credit risk by limiting the investments that may be purchased to those offered by specifically identified issuers.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Village will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Home Loan Mortgage Corporation Notes related to the repurchase agreement are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the Village's name. The Village has no investment policy dealing with investment custodial credit risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Finance Director or qualified trustee.

Concentration of Credit Risk

The Village places no limit on the amount it may invest in any one issuer. Of the Village's total investments, 100 percent is invested in a sweep agreement.

5. INCOME TAXES

The Village levies a 1 percent income tax whose proceeds are placed into the General Fund. The Village levies and collects the tax on all income earned within the Village as well as on incomes of residents earned outside the Village. In the latter case, the Village allows a credit of the lesser of actual taxes paid to another city or 100 percent of the 1 percent tax rate on taxable income. Employers within the Village are required to withhold income tax on employee earnings and remit the tax to the Village at least quarterly. Corporations and other individual taxpayers are also required to pay their estimated tax at least quarterly and file a final return annually.

NOTES TO THE FINANCIAL STATEMENTS

6. PROPERTY TAXES

Property taxes include amounts levied against all real property, public utility property, and tangible personal property located in the Village. Real property tax receipts received in 2006 represent the collection of 2005 taxes. Real property taxes received in 2006 were levied after October 1, 2005, on the assessed values as of January 1, 2005, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstance, State statute permits alternate payment dates to be established.

Public utility property tax receipts received in 2006 represent the collection of 2005 taxes. Public utility real and tangible personal property taxes received in 2006 became a lien on December 31, 2005, were levied after October 31, 2005, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax receipts received in 2006 (other than public utility property) represent the collection of 2005 taxes. Tangible personal property taxes received in 2006 were levied after October 1, 2005, on the true value as of December 31, 2005. Tangible personal property is currently assessed at 18.75 percent of true value for capital assets and 18.75 percent for inventory. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, the first payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

The full tax rate for all Village operations for the year ended December 31, 2006, was \$4.80 per \$1,000 of assessed value. The assessed values of real property, public utility property, and tangible personal property upon which 2006 property tax receipts were based are as follows:

Real Property	
Residential	\$ 13,935,250
Agriculture	21,870
Commercial/Industrial/Mineral	7,990,050
Public Utility Property	
Real	1,530
Personal	991,070
Tangible Personal Property	 8,352,560
Total Assessed Value	\$ 31,292,330

NOTES TO THE FINANCIAL STATEMENTS

7. RISK MANAGEMENT

Commercial Insurance

The Village has obtained commercial insurance for the following risks:

Flood Insurance for the water and sewer treatment plant.

Risk Pool Membership

The Village belongs to the Public Entities Pool of Ohio ("PEP"), a risk sharing pool available to Ohio local governments. PEP provides property and casualty insurance for its members. PEP is a member of the American Public Entity Excess Pool (APEEP). Member governments pay annual contributions to fund PEP. PEP pays judgments, settlements and other expenses resulting from covered claims that exceed the member's deductibles.

Casualty Coverage

For an occurrence prior to January 1, 2006 PEP retains casualty risks up to \$250,000 per occurrence, including loss adjustment expenses. PEP pays a percentage of its contributions to APEEP. APEEP reinsures claims exceeding \$250,000, up to \$1,750,000 per claim and \$5,000,000 in the aggregate per year. For an occurrence on or subsequent to January 1, 2006, the Pool retains casualty risk up to \$350,000 per occurrence, including loss adjustment expenses. Claims exceeding \$350,000 are reinsured with APEEP in an amount not to exceed \$2,650,000 for each claim and 410,000,000 in the aggregate per year. Governments can elect additional coverage, up to \$10,000,000 from the General Reinsurance Corporation.

If losses exhaust PEP's retained earnings, APEEP provides excess of funds available coverage up to \$5,000,000 per year, subject to a per-claim limit of \$2,000,000 (for claims prior to january1, 2006) or \$3,000,000 (for claims after January 1, 2006) as noted above.

Property Coverage

PEP retains property risks, including automobile physical damage, up to \$100,000 on any specific loss in any one occurrence. The Travelers Indemnity Company reinsures losses exceeding \$100,000 up to \$500,000,000 per occurrence. APEEP's Guarantee Fund pays losses and loss adjustment expenses exceeding operating contributions.

Beginning in 2005, Travelers reinsures specific losses exceeding \$250,000 up to \$600 million per occurrence. APEEP reinsures members for specific losses exceeding \$100,000 up to \$250,000 per occurrence, subject to an annual aggregate loss payment. Travelers provides aggregate stop-loss coverage based upon the combined members' total insurable values. If the stop-loss is reached by payment of losses between \$100,000 and \$250,000, Travelers will reinsure specific losses exceeding \$100,000 up to their \$600 million per occurrence limit. The aggregate stop-loss limit for 2006 was \$1,901,127.

The aforementioned casualty and property reinsurance agreements do not discharge PEP's primary liability for claims payments on covered losses. Claims exceeding coverage limits are the obligation of the respective local government.

Property and casualty settlements did not exceed insurance coverage for the past three fiscal years.

NOTES TO THE FINANCIAL STATEMENTS

7. RISK MANAGEMENT (Continued)

Financial Position

PEP's financial statements (audited by other accountants) conform with generally accepted accounting principles, and reported the following assets, liabilities and retained earnings at December 31, 2006 and 2005 (the latest information available).

Casualty Coverage	2006	2005
Assets	\$ 30,997,868	\$ 29,719,675
Liabilities	(15,875,741)	(15,994,168)
Retained earnings	\$ 15,122,127	\$ 13,725,507
Property Coverage	2006	2005
Assets	\$ 5,125,326	\$ 4,443,332
Liabilities	(863,163)	(1,068,245)
Retained earnings	\$ 4,262,163	\$ 3,375,087

8. DEFINED BENEFIT PENSION PLANS

a. Ohio Public Employees Retirement System

The Village participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member directed plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional and combined plans. Members of the member directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642 or by calling (614) 222-6705 or (800) 222-7377.

For the year ended December 31, 2006, the members of all three plans, except those in law enforcement or public safety participating in the traditional plan, were required to contribute 9.0 percent of their annual covered salaries. Members participating in the traditional plan who were in law enforcement contributed 10.1 percent of their annual covered salary; members in public safety contributed 9 percent. The employer contribution rate for pension benefits for 2006 was 13.70 percent, except for those plan members in law enforcement or public safety. For those classifications, the employer's pension contributions were 16.93 percent of covered payroll. The Ohio Revised Code provides statutory authority for member and employer contributions.

NOTES TO THE FINANCIAL STATEMENTS

8. DEFINED BENEFIT PENSION PLANS (Continued)

The Village's required contributions for pension obligations to the traditional and combined plans for the years ended December 31, 2006, 2005, and 2004 were \$89,015, \$82,420, and \$81,292, respectively. The full amount has been contributed for 2006, 2005 and 2004.

b. Ohio Police and Fire Pension Fund

The Village contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10 percent of their annual covered salary to fund pension benefits while the employer is required to contribute 19.50 percent for police officers and 24.0 percent for firefighters. Contributions are authorized by State statute. The Village's contributions to OP&F for police and firefighters for the years ended December 31, 2006, 2005, and 2004 were \$35,122, \$34,445, and \$32,490, respectively. The full amount has been contributed for 2006, 2005 and 2004.

9. POSTEMPLOYMENT BENEFITS

a. <u>Ohio Public Employees Retirement System</u>

The Ohio Public Employees Retirement System (OPERS) provides postretirement health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit with either the traditional or combined plans. Health care coverage for disability recipients and qualified survivor benefit recipients is available. Members of the member-directed plan do not qualify for postretirement health care coverage. The health car coverage provided by the retirement system is considered an Other Postemployment Benefit as described in *GASB Statement No. 12*. A portion of each employer's contribution to the traditional or combined plans is set aside for the funding of postretirement health care based on authority granted by State Statute. The 2006 local government employer contribution rate was 13.70 percent of covered payroll (16.93 percent for public safety and law enforcement); 4.5 percent of covered payroll was the portion that was used to fund health care.

Benefits are advance-funded using the entry age normal actuarial cost method. Significant actuarial assumptions, based on OPERS's latest actuarial review performed as December 31, 2005, include a rate of return on investments of 6.5 percent, an annual increase in active employee total payroll of 4 percent compounded annually (assuming no change in the number of active employees) and an additional increase in total payroll of between 0.5 percent and 6.3 percent based on additional annual pay increases. Health care premiums were assumed to increase at the projected wage inflation rate plus an additional factor ranging from .5 to 6 percent annually for the next nine years and 4 percent annually after nine years.

All investments are carried at market. For actuarial valuation purposes, a smoothed market approach is used. Assets are adjusted to reflect 25 percent of unrealized market appreciation or depreciation on investment assets annually.

NOTES TO THE FINANCIAL STATEMENTS

9. POSTEMPLOYMENT BENEFITS (Continued)

The number of active contributing participants in the traditional and combined plans was 358,804. Actual Village contributions for 2006, which were used to fund post employment benefits, were \$29,238. The actual contribution and the actuarially required contribution amounts are the same. The actuarial value of OPERS's net assets available for payment of benefits at December 31, 2005, (the latest information available) was \$11.1 billion. The actuarially accrued liability and the unfunded actuarial accrued liability were \$31.3 billion and \$20.2 billion, respectively.

On September 9, 2004, the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. OPERSs took additional actions to improve the solvency of the Health Care Fund in 2005 by creating a separate investment pool for health care assets. Member and employer contribution rates increased as of January 1, 2006 and January 1, 2007, which will additional funds to be allocated to the health care plan.

b. Ohio Police and Fire Pension Fund

The Ohio Police and Fire Pension Fund (OP&F) provides postretirement health care coverage to any person who receives or is eligible to receive a monthly service, disability or survivor benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child under the age of 18 whether or not the child is attending school, or under the age of 22 if attending school full-time or on a 2/3 basis.

The health care coverage provided by the retirement system is considered an Other Postemployment Benefit (OPEB) as described in *GASB Statement No. 12*. The Ohio Revised Code provides the authority allowing the Ohio Police and Fire Pension Fund's board of trustees to provide health care coverage and states that health care costs paid from the funds of OP&F shall be included in the employer's contribution rate. Health care funding and accounting is on a pay-as-you-go basis. The total police employer contribution rate is 19.5 percent of covered payroll and the total firefighter employer contribution rate is 24 percent of covered payroll, of which 7.75 percent of covered payroll was applied to the postemployment health care program during 2006. In addition, since July 1, 1992, most retirees and survivors have been required to contribute a portion of the cost of their health care coverage through a deduction from their monthly benefit payment. Beginning in 2001, all retirees and survivors have monthly health care contributions.

The Village's actual contributions for 2006 that were used to fund postemployment health care benefits were \$13,959. The OP&F's total health care expense for the year ended December 31, 2005, (the latest information available) was \$108,039,449, which was net of member contributions of \$55,271,881. The number of OP&F participants eligible to receive health care benefits as of December 31, 2005, was 13,922 for police and 10,537 for firefighters.

NOTES TO THE FINANCIAL STATEMENTS

10. DEBTThe Village's long -term debt activity for the year ended December 31, 2006, was as follows:

	Interest Rate	Balance January 1 2006	Additions	Deductions	Balance December 31 2006	Amount Due Within One Year

NOTES TO THE FINANCIAL STATEMENTS

10. DEBT (CONTINUED)

The Ohio Water Development Authority (OWDA) loans and the USDA loans were used for improvements to the Village's utility systems that were mandated by Ohio Environmental Protection Agency regulations. The loans will be repaid in semiannual installments over 20 to 30 years. The loans are collateralized by water and sewer receipts.

The Ohio Public Works Commission loans were used for the improvements to the Village's utility systems that were mandated by Ohio Environmental Protection Agency regulations. The loans will be repaid in semiannual installments over 15 to 25 years. The loans are collateralized by water and sewer receipts.

The General Obligation Vehicle Acquisition Bonds were issued to refinance the Village's prior purchase of vehicles for the street, police, fire, water and sewer departments and a building to house the police department. Additional proceeds were used to purchase a backhoe and police cruiser. The bonds will be repaid in annual installments over five years. The bonds are collateralized solely by the Village's taxing authority.

The Sewer Mortgage Revenue Bonds were issued to finance sewer system capital improvements. The bonds will be repaid in semiannual installments of interest and annual installments of principal over 20 years. The bonds are collateralized by sewer receipts.

The General Obligation Paving Bonds were issued to finance the Village's paving of Village streets. The bonds will be repaid in annual installments over five years. The bonds are collateralized solely by the Village's taxing authority.

For the following OWDA projects, repayments terms have not been developed, as the projects have not been completed or true amortization schedules have not been created yet by OWDA. However, as of December 31, 2006, the Village is liable for the amounts drawn. These loans are not included in the amortization schedules that follow. These loans will be included in the amortization schedule when completed, however, amounts paid in 2007 have been included in the schedule above as due in one year even though a amortization schedule has not been completed.

At December 31, 2006, the Village has drawn \$397,569 on a \$420,000 loan with the Ohio Water Development Authority. The project related to the planning and design of a booster station.

At December 31, 2006, the Village has drawn \$2,907,656 on a \$2,907,656 loan with the Ohio Water Development Authority. The project related to the construction and installation of microfiltration units for the water treatment plant.

At December 31, 2006, the Village has drawn \$78,722 on a 992,297 loan with the Ohio Water Development Authority. The project related to the design of a wastewater treatment plant.

NOTES TO THE FINANCIAL STATEMENTS

10. DEBT (Continued)

Amortization of the above debt, including interest, is scheduled as follows:

			OPWC				
	OWDA Loans		Loans	USDA	USDA Loans		
Year	Principal	Interest	Principal	Principal	Interest		
2007	\$ 370,135	\$ 264,736	\$ 33,583	\$ 3,800	\$ 10,860

Total	\$	174,628		\$	17,928	\$ 210,000	_	\$	51,150

11. INTERFUND TRANSFERS

During 2006 the following transfers were made:

Transfers from the General Fund to:	
Parks & Recreation Fund	\$21,500
Street Construction Fund	30,000
Street Debt Service Fund	28,268
Total Transfers from the General Fund	\$79,768

Transfers were made out of the Village's General Fund to subsidize debt service payments and parks and recreation in 2006.

12. CONTINGENT LIABILITIES

Amounts grantor agencies pay to the Village are subject to audit and adjustment by the grantor, principally the federal government. Grantors may require refunding any disallowed costs. Management cannot presently determine amounts grantors may disallow. However, based on prior experience, management believes any refunds would be immaterial.

NOTES TO THE FINANCIAL STATEMENTS

13. COMPLIANCE AND ACCOUNTABILITY

Contrary to Ohio Revised Code Section 5705.41(D), the Village made disbursements prior to being certified.

Contrary to Ohio Revised Code Section 5705.39, the Village had appropriations greater than estimated resources in the Water Improvement Fund by \$35,496.

WOLFE, WILSON, & PHILLIPS, INC. 37 SOUTH SEVENTH STREET ZANESVILLE, OHIO 43701

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS.

Village of Byesville Guernsey County 221 East Main Street Byesville, Ohio 43723

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Village of Byesville as of and for the years ended December 31, 2006, and have issued our report thereon dated April 1, 2008, wherein we noted the Village followed accounting practices the Auditor of State prescribes rather than accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Village of Byesville's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinion on the financial statements, but not to opine on the effectiveness of the Village's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the Village's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Village's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that a misstatement of the Village's financial statements that is more than inconsequential will not be prevented or detected by the Village's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Village's internal control.

Our consideration of internal control over financial reporting was for the limited purposes described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards Page Two

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Village of Byesville's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed one instance of noncompliance or other matters that are required to be reported under *Government Auditing Standard* and which are described in the accompanying schedule of findings and responses as items 2006-01. Also, we noted certain immaterial instances of noncompliance that we have reported to the management of Village of Byesville in a separate letter dated April 1, 2008.

Village of Byesville's response to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit Village of Byesville response and, accordingly, we express no opinion on it.

This report is intended for the information of the Village's management, fiscal officer, and Auditor of State, and is not intended to be and should not be used by anyone other than these specified parties.

Wolfe, Wilson, & Phillips, Inc. Zanesville, Ohio April 1, 2008

SCHEDULE OF FINDINGS DECEMBER 31, 2006

FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2006-01

Ohio Revised Code Section 5705.41(D) states in part that no subdivision shall make any contract or give any order involving the expenditure of money unless there is attached thereto a certificate of Clerk of the subdivision. The Clerk must certify that the amount required to meet such a commitment has been lawfully appropriated and is in the treasury or in the process of collection to the credit of an appropriate fund free from any previous encumbrance.

Prior certification was not obtained for 14.6% in 2006 of the expenditures tested.

The Clerk should certify funds before each payment is made through the issuance of a regular, blanket, or super blanket purchase order. Blanket certificates should be issued for a certain sum of money not in excess of an amount established by resolution or ordinance adopted by a majority of the members of council against any specific line item account over a period not running beyond the end of the current fiscal year. A super blanket purchase order can be completed for any amount for expenditures and contracts from a specific line item appropriation account in a specified fund for most recurring or reasonable predictable operating expenditures. This is not to extend beyond the current year. More than one super blanket may be outstanding at one particular time for a particular line item appropriation account.

Also, as an alternative, the Village can issue then and now certificates for expenses up to \$3,000. Then and now certificates allow the Clerk to certify that both at the time the expenditure was made and at the time that the certification is completed, sufficient funds are available. These certificates can be certified by the Clerk without subsequent authorization from the Council. However, then and now certificates issued by the Clerk over \$3,000, must be authorized by the Council within thirty days after payment.

Client Response: We agree with finding and will try to improve in the future.
