SINGLE AUDIT
JULY 1, 2008 - JUNE 30, 2009

Mary Taylor, CPA
Auditor of State

Board of Education
Heath City School District
107 Lancaster Drive
Heath, Ohio 43056

We have reviewed the *Independent Auditors' Report* of the Heath City School District, Licking County, prepared by Wilson, Shannon & Snow, Inc., for the audit period July 1, 2008 through June 30, 2009. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Heath City School District is responsible for compliance with these laws and regulations.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FOR THE FISCAL YEAR ENDED JUNE 30, 2009**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) is a summary of the activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first.

NOTE C – FOOD DONATION PROGRAM

Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair value of the commodities received.

NOTE D – MEDICAL ASSISTANCE PROGRAM

The District received \$6,554 during fiscal year 2009 associated with the Medicaid Community Alternative Funding System (CAFS), CFDA 93.778. This program ended effective June 30, 2005 and any monies received by the District are attributed to residual payments for services rendered prior to June 30, 2005. Therefore, only CAFS monies received by the District are included on the Schedule of Federal Awards Receipts and Expenditures.

NOTE E - TRANSFERS

During fiscal year 2009, the Ohio Department of Education (ODE) authorized the District to transfer unneeded funds to other grants as well as carryover monies from the prior fiscal year to the current fiscal year. Authorized transfers and carryover monies are shown as a reduction of federal revenues in the program that the transfer was made from and increased federal revenue in the program that received the transfer or carryover. A detailed listing of the transfers/carryovers is as follows:

CFDA Number	Program Title	Transfers Out	Transfers In

Report on Internal Control over Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in Accordance with
Government Auditing Standards

Board of Education
Heath City School District
107 Lancaster Drive
Heath, Ohio 43056

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Heath City School District, Licking County, Ohio (the District) as of and for the fiscal year ended June 30, 2009, and have issued our report thereon dated November 23, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not to opine on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with its applicable accounting basis, such that there is more than a remote likelihood that the District's internal control will not prevent or detect a more-than-inconsequential financial statement misstatement.

A material weakness is a significant deficiency, or combination of significant deficiencies, resulting in more than a remote likelihood that the District's internal control will not prevent or detect a material financial statement misstatement.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all internal control deficiencies that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we did note certain internal control matters that we reported to the District's management in a separate letter dated November 23, 2009.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we did note certain noncompliance and other matters that we reported to the District's management in a separate letter dated November 23, 2009.

We intend this report solely for the information and use of management, Board of Education, the Auditor of State, federal awarding agencies and pass-through entities, and other members of the District. We intend it for no one other than these specified parties.

**Report on Compliance with Requirements Applicable to Each Major Program and on
Internal Control over Compliance in Accordance with OMB Circular A-133
and the Schedule of Federal Awards Receipts and Expenditures**

Board of Education
Heath City School District
107 Lancaster Drive
Heath, Ohio 43056

Compliance

We have audited the compliance of the Heath City School District, Licking County, Ohio, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that apply to each of its major federal programs for the fiscal year ended June 30, 2009. The summary of auditor's results section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the types of compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Heath City School District, Licking County, complied, in all material respects, with the requirements referred to above that apply to each of its major federal programs for the fiscal year ended June 30, 2009.

Internal Control over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A *control deficiency* in internal control over compliance exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that the entity's internal control will not prevent or detect more-than-inconsequential noncompliance with a federal program compliance requirement.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that the District's internal control will not prevent or detect material noncompliance with a federal program's compliance requirements.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Federal Awards Receipts and Expenditures

We have also audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Heath City School District, Licking County, (the District) as of and for the fiscal year ended June 30, 2009, and have issued our report dated November 23, 2009. Our audit was performed to form opinions on the financial statements that collectively comprise the District's financial statements. The accompanying Schedule of Federal Awards Receipts and Expenditures provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of management, Board of Education, the Auditor of State, federal awarding agencies and pass-through entities, and other members of the District. It is not intended for anyone other than these specified parties.

Independent Auditors' Report on Applying Agreed-Upon Procedures

Heath City School District
Licking County
107 Lancaster Drive
Heath, Ohio 43056

To the Board of Education:

Ohio Revised Code Section 117.53 states “the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school”.

Accordingly, we have performed the procedures enumerated below, which were agreed to by the Board, solely to assist the Board in evaluating whether the Heath City School District (the District) has adopted an anti-harassment policy in accordance with Ohio Revised Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Board. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board adopted an anti-harassment policy at its meeting on June 11, 2007.
2. We read the policy, noting it included the following requirements from Ohio Revised Code Section 3313.666(B):
 - (1) A definition of harassment, intimidation, or bullying that includes the definition in division (A) of Ohio Revised Code Section 3313.666;
 - (2) A procedure for reporting prohibited incidents;
 - (3) A requirement that school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;
 - (4) A procedure for documenting any prohibited incident that is report;
 - (5) A procedure for responding to and investigating any reported incident;
 - (6) A strategy for protecting a victim from additional harassment, intimidation, or bullying, and from retaliation following a report;
 - (7) A disciplinary procedure for any student guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment of the Constitution of the United States;

- (8) A requirement that the district administration semiannually provide the president of the district board a written summary of all reported incidents and post the summary on its website, if the district has a website, to the extent permitted by Section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974", 88 Stat. 571, 20 U.S.C. 1232q, as amended.
3. We read the policy, noting it did not include the following requirements from Ohio Revised Code Section 3313.666(B):
- (1) A statement prohibiting harassment, intimidation, or bullying of any student on school property or at school-sponsored events;
 - (2) A requirement that parents or guardians of any student involved in a prohibited incident be notified and, to the extent permitted by Section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974", 88 Stat. 571, 20 U.S.C. 1232q, as amended, have access to any written reports pertaining to the prohibited incident.

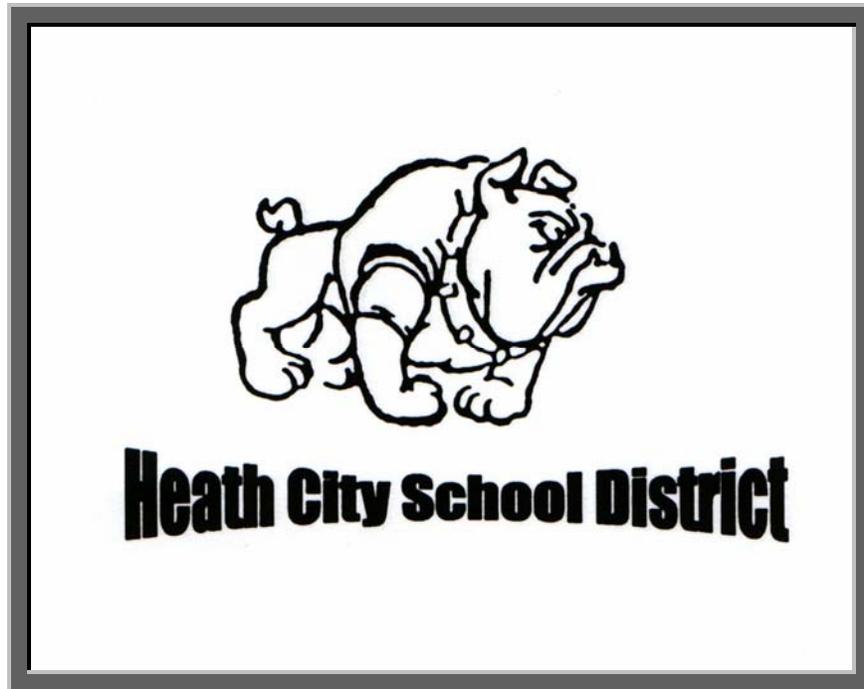

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than this specified party.

Board of Education Members and Citizens of the Heath City School District:

As the Superintendent and Treasurer of the Heath City School District (the District), we are pleased to submit to you this Comprehensive Annual Financial Report (CAFR) issued by the District. This CAFR for the year ended June 30, 2009 is prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and in conformance with standards of financial reporting established by the Governmental Accounting Standards Board (GASB) using guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

Accounting principles generally accepted in the United States of America (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Heath City School District's MD&A can be found immediately following the independent auditor's report.

The District provides a full range of education programs and services to 1,775 students. These include elementary and secondary curriculum offerings at the general, college preparatory, and vocational levels, a broad range of co-curricular and extracurricular activities, and special education services. In addition, the District provides state-financed assistance to non-public schools located within its boundaries. This assistance is accounted for in a special revenue fund. The non-public school operations have not met the established criteria for inclusion in the reporting entity and, accordingly, are excluded from this report.

HEATH CITY SCHOOL DISTRICT

***Letter of Transmittal
For the Fiscal Year Ended June 30, 2009***

ECONOMIC CONDITIONS AND OUTLOOK

The District is located within the City of Heath in Licking County, which is situated in the east-central part of the state. Heath is a community of 8,500 people. It is located approximately 6 miles north of Interstate 70, 45 miles east of Columbus and is bounded on the north by Newark, the county seat of Licking County. State Routes 79 and 13 serve as the major transportation arteries.

Consistent and modestly paced commercial, industrial, and residential growth continues to favor the City of Heath. Robertson Construction located its service complex and offices on Thornwood Drive, and Samuel Manu-Tech, Boeing, and Uni-Facs all invested significant capital, expanded existing facilities and created a significant number of industrial positions. Other major employers, including Kaiser Aluminum, continued to operate in a solid fashion. A very favorable sign related to industrial growth is that the Port Authority and Mid-Ohio Development were considered as possible sights by several national companies for the re-location of operation centers.

Several new businesses, including the Turkey Hill Convenient Store, Kanja's Japanese Steakhouse, Leghorn's Restaurant, and Ashery Farms Market opened this year.

Long-Term Financial Planning – The District prepares a five-year forecast for use as a tool for long range planning. The five-year forecast projects local and state revenues, spending patterns within each area of the budget, and cash balances in the District's operating fund. The District uses the five-year forecast to provide a basis for making financial decisions, including the construction of the annual budget, adjustments to staffing levels, collective bargaining, and the placement of tax levies on the ballot.

The District voters passed a \$1.3 million renewal levy in May 2007 along with an additional \$1.3 million emergency levy that will be in effect for 3 years. As part of its long-term financial planning, the District will be planning for another levy in 2010 when these expire.

MAJOR INITIATIVES

Current: - Each year, the District updates a five year continuous improvement plan developed by an administrative team consisting of the Superintendent, administrators, staff members, business members and the community. The team identifies and develops beliefs, a mission statement, objectives and strategies and then submits it to the Board for final approval before implementation.

During fiscal year 2009, the District focused on the continuing growth in student enrollment. The District's test score performance allowed the Heath City School's to be recognized as an "Effective" district by the Ohio Department of Education. The District completed some small projects during this year which included tile replacement in all buildings, visitor's side bleacher replacement, blacktop maintenance, and beginning interior building painting.

Future: - During the 2009-2010 school year, the primary concentration will continue to focus on test scores. The District is always trying to improve the test scores and regain our "Excellent" rating. This is how our District is compared with other districts. Also, with the newly implemented diagnostic testing program mandated by the state and the "NO CHILD LEFT BEHIND" Act, districts will focus much of their attention to meeting these standards. Future projects include maintaining current facilities.

Letter of Transmittal For the Fiscal Year Ended June 30, 2009

In addition to all the changes taking place within the District, the District will continue to evaluate all curriculum opportunities and build on raising the success rates of every student. The District will be implementing new foundation programs in cooperation with the Licking County Career and Technical Education Center. With the additions of new programs at the Middle School/High School levels, the elementary programs are too working with local corporations like Boeing and Dow Chemical in improving their Science and Math abilities and utilizing some local knowledge. Curriculum plans for the future include:

- Continue implementation of Technology Plan and State Model Curriculum.
- Offer various classes of summer remediation at no cost to students.
- Strive to reach the goal of 80% on proficiency tests.
- Review all curriculums.
- Increase opportunities of Post-secondary options.
- Implement District wide mapping Academic outcomes.
- Continue to expand technical preparatory opportunities.
- Emphasize DIBELS program K-3 to identify student reading problems.
- Increase student intervention to improve achievement tests and OGT scores.
- In-service staff on data interpretation in regard to OAT OGT testing.
- Implement short-cycle assessments to assess student progress.
- Institute M.A.P. (Measure of Academic Progress) testing designed to measure student growth

FINANCIAL INFORMATION

ACCOUNTING SYSTEM -- The District's accounting system is organized on a fund basis. Each fund is a separate self-balancing accounting entity. The basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

INTERNAL CONTROLS -- The Treasurer of the District is responsible for establishing an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse, and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The Management Team is responsible for assisting with implementation of the established internal controls. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of cost and benefit requires estimates and judgments by management.

HEATH CITY SCHOOL DISTRICT

Letter of Transmittal For the Fiscal Year Ended June 30, 2009

BUDGETARY CONTROLS -- All governmental fund types are subject to annual expenditure budgets. The procedures below outline the District's budgetary procedures:

1. The county budget commission certifies its actions to the District by March 1. As part of this certification, the District receives the official certificate of estimated resources which states the projected receipts of each fund. On or about July 1, this certificate is amended to include any unencumbered balances from the preceding year.
2. An annual appropriations measure is passed upon receipt of the County Auditor's final tax revenue estimates, October or November of each year for the period July 1 to June 30. Unencumbered appropriations lapse at year-end and encumbered appropriations are reported as expenditures in the current year. The Board adopts temporary appropriations at its June Board meeting to cover expenditures until the adoption of the permanent appropriations. The appropriations measure may be amended or supplemented during the year as new information becomes available. Individual buildings and/or departments are given building budgeting funds for instructional supplies, custodial supplies, meeting and mileage expenses and equipment. Buildings and/or departments may move funds within their budgets with approval of the Superintendent and Treasurer. Appropriations may not exceed estimated resources and expenditures may not exceed appropriations in any fund at the fund level.

Additionally, the District maintains an encumbrance accounting system as a useful technique of accomplishing budgetary control. Under encumbrance accounting, purchase orders, contracts and other commitments for expenditures of funds are recorded in order to reserve that portion of the applicable appropriation.

OTHER INFORMATION

INDEPENDENT AUDIT -- This report includes an unqualified audit report regarding the District's financial statements. The audit was conducted by Wilson, Shannon & Snow, Inc. The Independent Auditor's Report on the basic financial statements is included in the financial section of this report.

AWARDS -- The Government Finance Officers Association of the United States and Canada (GFOA) awards a Certificate of Achievement for Excellence in Financial Reporting to those governmental entities who qualify. To be awarded a Certificate of Achievement, a governmental unit must prepare an easily readable and efficiently organized Comprehensive Annual Financial Report whose contents satisfy all program standards. The report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements respective to the reporting entity. A Certificate of Achievement is valid for a period of one year only. The District received a Certificate of Achievement for the year ended June 30, 2008. We believe this, our tenth Comprehensive Annual Financial Report, meets the high standards set by the GFOA for a Certificate of Achievement for Excellence in Financial Reporting and we are submitting it to GFOA.

INDEPENDENT AUDITORS' REPORT

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Heath City School District, Licking County, Ohio (the District) as of and for the fiscal year ended June 30, 2009, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Heath City School District, Licking County, Ohio as of June 30, 2009, and the respective changes in financial position, thereof and the respective budgetary comparison for the General Fund for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 23, 2009, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Management's Discussion and Analysis is not a required part of the basic financial statements but is supplementary information accounting principles generally accepted in the United States of America requires. We have applied certain limited procedures, consisting principally of inquiries of management regarding the methods of measuring and presenting the required supplementary information. However, we did not audit the information and express no opinion on it.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining nonmajor fund statements and schedules and statistical tables provide additional information and are not a required part of the basic financial statements. We subjected the combining nonmajor fund statements and schedules to the auditing procedures applied in the audit of the basic financial statements. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical tables to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

*Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2009*

Unaudited

The discussion and analysis of Heath City School District's (the District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2009. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the District's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2009 are as follows:

- ❑ In total, net assets increased \$825,100, which represents a 16.4% increase from 2008.
- ❑ General revenues accounted for \$16,502,319 in revenue or 91.5% of all revenues. Program specific revenues in the form of charges for services and sales and grants and contributions accounted for \$1,527,508 or 8.5% of total revenues of \$18,029,827.
- ❑ The District had \$17,204,727 in expenses related to governmental activities; only \$1,527,508 of these expenses were offset by program specific charges for services and sales and grants and contributions.
- ❑ Among major funds, the general fund had \$14,695,371 in revenues and \$13,662,462 in expenditures. The general fund's fund balance increased \$1,260,969 to \$3,098,664.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis and the basic financial statements and an optional section that presents *combining statements* for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the District:

These statements are as follows:

1. The Government-Wide Financial Statements – These statements provide both long-term and short-term information about the District's overall financial status.
2. The Fund Financial Statements – These statements focus on individual parts of the District, reporting the District's operations in more detail than the government-wide statements.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

HEATH CITY SCHOOL DISTRICT

The two government-wide statements report the District's net assets and how they have changed. Net-assets (the difference between the District's assets and liabilities) is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District you need to consider additional nonfinancial factors such as the property tax base, current property tax laws, student enrollment growth and facility conditions.

The government-wide financial statements of the District reflect the following category for its activities:

- **Governmental Activities** – Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's most significant funds, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Fiduciary Funds – The District is the trustee, or fiduciary, for various student managed activity programs, various scholarship programs and other items listed as agency. It is also responsible for other assets that, due to a trust arrangement can only be used for the trust beneficiaries. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

The Statement of Net Assets provides a perspective of the District as a whole. The following table provides a summary of the District's net assets for 2009 compared to 2008:

	Governmental Activities		Increase (Decrease)
	2009	2008	
Current and other assets	\$15,056,885	\$14,436,300	\$620,585

Total net assets	<u>\$5,867,096</u>	<u>\$5,041,996</u>	<u>\$825,100</u>

At year-end for governmental activities, capital assets represented 54% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture, fixtures and equipment and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2009 was \$2,811,504. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities. A portion of the District's net assets, \$2,661,956, represents resources that are subject to external restriction on how they may be used.

Governmental Activities

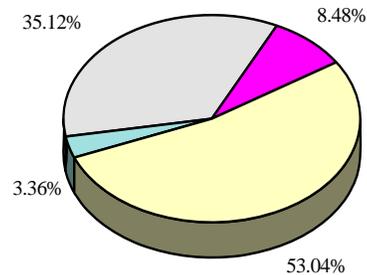

Net assets of the District's governmental activities increased by \$825,100. Total governmental expenses of \$17,204,727 were offset by program revenues of \$1,527,508 and general revenues of \$16,502,319. Program revenues supported 8.9% of the total governmental expenses. The primary reason for the increase in net assets is an increase in taxes and property tax reimbursements from the State while modestly increasing expenses.

The primary sources of revenues for governmental activities are derived from property taxes and grants and entitlements. The primary sources of general revenue total \$15,895,750 and represent 96.3% of total general revenue.

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. In general, the overall revenue generated by the levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Property taxes made up 53% of revenues for governmental activities for Heath City Schools in fiscal year 2009. The District's reliance upon tax revenues is demonstrated by the following graph:

Revenue Sources	2009	Percent of Total
General Grants	\$6,331,894	35.12%
Program Revenues	1,527,508	8.48%
General Tax Revenues	9,563,856	53.04%
General Other	606,569	3.36%
Total Revenue	\$18,029,827	100.00%

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

The District's governmental funds reported a combined fund balance of \$5,065,851, which is above last year's total of \$3,786,633. The schedule below indicates the fund balance and the total change in fund balance by fund type as of June 30, 2009 and 2008.

	Fund Balance June 30, 2009	Fund Balance June 30, 2008	Increase (Decrease)

General Fund – The tables that follow assist in illustrating the financial activities and balance of the General Fund:

	2009 Revenues	2008 Revenues	Increase (Decrease)
Taxes	\$8,127,933	\$7,625,981	\$501,952
Tuition	93,116	97,851	(4,735)
Investment Earnings	43,230	89,101	(45,871)
Intergovernmental - State	6,083,705	5,637,518	446,187
All Other Revenue	347,387	245,957	101,430
Total	\$14,695,371	\$13,696,408	\$998,963

General Fund revenues in 2009 increased approximately 7.3% compared to revenues in fiscal year 2008. The increase in taxes is a result of the first full year of taxes collected from the emergency levy that was passed in May 2007. The increase in intergovernmental revenue is due to the reimbursement by the State for personal property taxes that are being phased out by HB 66. Investment earnings decreased due to declining interest rates.

	2009 Expenditures	2008 Expenditures	Increase (Decrease)
Instruction	\$8,244,336	\$7,956,937	\$287,399
Supporting Services:			
Pupils	630,640	601,839	28,801

Interest and Fiscal Charges	11,454	3,831	7,623
Total	\$13,662,462	\$13,002,562	\$659,900

The expenditures increased by \$659,900 or 5.1% compared to the prior year. The increase in Instruction and Administration was due to increases in salaries and fringe benefits. The increase in Extracurricular Activities was due to the purchase of a piano and the increase in Capital Outlay was due to the lease of 12 new copiers. The decrease in Pupil Transportation was due to a decrease in insurance premiums and gasoline prices.

Bond Retirement Fund – This fund has remained consistent compared to the prior year with an increase of \$132,712.

Permanent Improvement Fund – The decrease in the Permanent Improvement fund resulted from an increase in expenditures for the purchase of technology equipment compared to 2008.

GENERAL FUND BUDGETING HIGHLIGHTS

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2009 the District amended its General Fund budget, the increase of \$1.6 million compared to the original budget was the result of not budgeting for supplemental contracts, termination benefits and payments to a community school in the original budget. The General Fund budget basis revenue of \$14.1 million increased compared to the original budget estimates because taxes did not account for a full year of collections of the emergency levy passed in May 2007.

Actual expenditures compared to the final budget resulted in an overall positive variance due to budgeting additional funds for salaries and insurance benefits.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2009 the District had \$17,436,649 net of accumulated depreciation invested in land, buildings, equipment and vehicles. The following table shows fiscal year 2009 and 2008 balances:

	Governmental Activities		Increase (Decrease)
	2009	2008	
Land	\$438,952	\$438,952	\$0
Land Improvements	2,151,716	2,071,766	79,950
Buildings and Improvements	21,718,867	21,718,867	0
Machinery and Equipment	1,509,935	1,289,401	220,534
Vehicles	928,848	921,287	7,561
Less: Accumulated Depreciation	(9,311,669)	(8,498,492)	(813,177)
Totals	\$17,436,649	\$17,941,781	(\$505,132)

The primary increase occurred in machinery and equipment. The District entered into a new capital lease for twelve new copiers. Additional information on the District's capital assets can be found in Note 9.

Debt

At June 30, 2009, the District had \$17.2 million in general obligation bonds, long-term notes, capital leases and compensated absences outstanding, \$884,436 due within one year. The following table summarizes the District's debt outstanding as of June 30, 2009 and 2008:

	2009	2008
Governmental Activities:		
General Obligation Bonds Payable	\$15,721,702	\$16,041,800
Long-Term Notes Payable	35,000	69,000
Capital Leases Payable	215,410	40,234
Compensated Absences	1,184,281	1,224,029
Totals	\$17,156,393	\$17,375,063

Under current state statutes, the District's general obligation bonded debt issues are subject to a legal limitation based on 9% of the total assessed value of real and personal property. At June 30, 2009, the District's outstanding debt was below the legal limit. Additional information on the District's long-term debt can be found in Note 12.

ECONOMIC FACTORS

New businesses that opened during fiscal year 2009 included the Turkey Hill Convenient Store, Kanja's Japanese Steakhouse, Leghorn's Restaurant and Ashery Farms Market. Residential growth remained slow, eleven single-family homes and 8 condo units were constructed.

House Bill 66, passed in 2006, phases out the tax on tangible personal property of general business, telephone and railroads. The tax on general business and railroad property will be eliminated by 2009 and the tax on telephone by 2011. The tax is phased out by reducing the assessment rate on the property each year. The loss and replacement of the tangible personal property revenues has been calculated by the Ohio Department of Taxation using 2004 as the base year. The base year amount is the amount of property tax revenue lost when the tax has been fully phased out. School districts are being "held harmless" and fully reimbursed for lost revenue in the first five years; in the following seven years, the reimbursements are phased out. Even with the direct reimbursement, a District will see no growth from tangible personal property revenues since the payment is calculated on a 2004 base year.

In conclusion, the Heath City School District has committed itself to financial excellence for many years.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mr. Bradley T. Hall, Heath City School District.

***Reconciliation Of The Statement Of Revenues, Expenditures
And Changes In Fund Balances Of Governmental Funds
To The Statement Of Activities
For The Fiscal Year Ended June 30, 2009***

Net Change in Fund Balances - Total Governmental Funds	\$ 1,279,036
<i>Amounts reported for governmental activities in the statement of activities are different because</i>	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.	(505,132)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	7,185
The issuance of long-term debt (e.g. notes, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences in the treatment of long-term debt and related items.	543,824
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, interest expenditure is reported when due.	2,582
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	
Compensated Absences	(124,512)
Interest Accretion	(315,969)
Amortization of Deferred Loss on Refunding	(117,876)

HEATH CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Heath City School District, Ohio (the District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is governed by a locally elected five member Board of Education (the Board) which provides educational services. The Board controls the District's instructional support facilities staffed by approximately 58 noncertified and approximately 115 certified teaching personnel and administrative employees providing education to 1,775 students.

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*," as amended by GASB Statement No. 39, "*Determining Whether Certain Organizations are Component Units*", in that the statements include all organizations, activities, functions and component units for which the District (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization and either the District's ability to impose its will over the organization's governing body or the possibility that the organization will provide a financial benefit to, or impose a financial burden on, the District. There were no potential component units that met the criteria imposed by GASB Statement No. 14 to be included in the District's reporting entity. The District participates in two jointly governed organizations. These organizations are the Licking Area Computer Association (LACA), which provides computer services to school districts and the Educational Regional Service System (ERSS) Region 11. The Licking County Career and Technical Education Center acts as fiscal agent for LACA and the Franklin Educational Service Center is the fiscal agent for ERSS. Based on the foregoing, the reporting entity of the District includes the following services: instructional (regular, special education, vocational), student guidance, extracurricular activities, food service, pupil transportation and care and upkeep of grounds and buildings.

The accounting policies and financial reporting practices of the District conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of its significant accounting policies.

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses.

HEATH CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

The following fund types are used by the District:

Governmental Funds - These are funds through which most governmental functions typically are financed. The acquisition, use and balances of the District's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of "financial flow" (sources, uses and balances of financial resources). The following are the District's major governmental funds:

General Fund - This fund is the general operating fund of the District and is used to account for all financial resources except those accounted for in another fund. The general fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond Retirement Fund - This fund is used for the accumulation of resources for, and the payment of, governmental long-term debt principal and interest.

Permanent Improvement Fund - This fund is used to account for financial resources to be used for the acquisition of major capital assets.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Fiduciary Funds - Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations or other governments and therefore are not available to support the District's own programs. The District's only trust fund is a private purpose trust that accounts for scholarship programs for students. The District's agency fund accounts for various student-managed activity programs. The agency fund is custodial in nature (assets equal liabilities) and does not involve the measurement of results of operation.

C. Basis of Presentation and Measurement Focus - Financial Statements

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

HEATH CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation and Measurement Focus – Financial Statements (Continued)

The government-wide statements are prepared using the economic resources measurement focus and differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

Private purpose trust funds are reported using the economic resources measurement focus.

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which for the District is considered to be 60 days after fiscal year end. Grants and entitlements must also meet eligibility, timing and any contingency requirements. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest and principal on general long-term debt which is recognized when due.

Revenue considered susceptible to accrual at year end includes property taxes, tuition, grants and entitlements, student fees, and interest on investments.

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2009, but which were levied to finance fiscal year 2010 operations, have been recorded as unearned revenue. Any grants and entitlements which also may be received before the eligibility requirements are met would also be recorded as unearned revenue. Deferred revenues on the governmental fund financial statements are receivables which will not be collected within the available period.

Current property taxes measurable at June 30, 2009, and which are not intended to finance fiscal 2009 operations, have been recorded as deferred revenues. Delinquent property taxes measurable and available (received within 60 days) and amounts available as an advance on future tax settlements are recognized as revenue at year end. Taxes available for advance and recognized as revenue but not received by the District prior to June 30, 2009 are reflected as a reservation of fund balance for future appropriations. The District is prohibited by law from appropriating this revenue in accordance with ORC Section 5705.35, since an advance of revenue was not requested or received prior to the fiscal year end.

The accrual basis of accounting is utilized for reporting purposes by the government-wide financial statements and fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

Revenues – Exchange and Non-exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Grants and entitlements received before eligibility requirements are met are recorded as deferred revenue.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year.

All funds other than agency funds are legally required to be budgeted and appropriated; however, only the General Fund and each Major Special Revenue Fund are required to be reported. The primary level of budgetary control is at the fund level. Budgetary modifications may only be made by resolution of the Board of Education.

HEATH CITY SCHOOL DISTRICT

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

1. Estimated Resources

Prior to March 15, the Board accepts by formal resolution, the tax rates as determined by the County Budget Commission and receives the Commission's Certificate of Estimated Resources which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about July 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2009.

2. Appropriations

A temporary appropriation measure to control expenditures may be passed on or about July 1 of each year for the period July 1 through September 30. An annual appropriation resolution must be passed by October 1 of each year for the period July 1 through June 30. The appropriation resolution establishes spending controls at the fund level. The appropriation resolution may be amended during the year as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources as certified. The allocation of appropriations among departments and objects within a fund may be modified during the year. During the year, several supplemental appropriations were necessary to budget the use of contingency funds. Administrative control is maintained through the establishment of more detailed line-item budgets. The treasurer may allocate appropriations among departments within a fund. The budgetary figures which appear in the "Statement of Revenues, Expenditures, and Changes in Fund Balances-Budget and Actual" are provided on the budgetary basis to provide a comparison of actual results to the final budget, including all amendments and modifications.

3. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

E. Budgetary Process (Continued)

4. Budgetary Basis of Accounting

The District's budgetary process accounts for certain transactions on a basis other than accounting principles generally accepted in the United States of America (GAAP). The major differences between the budgetary basis and the GAAP basis lie in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on a cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund:

<u>Net Change in Fund Balance</u>	
	<u>General Fund</u>
GAAP Basis (as reported)	\$1,260,969
Increase (Decrease):	
Accrued Revenues	
at June 30, 2009,

FY 2008 Prepays for FY 2009	31,881
FY 2009 Prepays for FY 2010	(32,046)
Encumbrances Outstanding	<u>(163,507)</u>
Budget Basis	<u>\$224,734</u>

F. Cash and Cash Equivalents

During fiscal year 2009, cash and cash equivalents included amounts in demand deposits, short-term certificates of deposit with original maturities of three months or less, repurchase agreements and the State Treasury Asset Reserve (STAR Ohio). STAR Ohio is a very liquid investment and is reported as a cash equivalent in the basic financial statements.

The District pools its cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each fund maintained its own cash and investment account. See Note 4, "Cash, Cash Equivalents and Investments."

HEATH CITY SCHOOL DISTRICT

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the District reports its investments in federal securities at fair value and its nonparticipating investment contracts (certificates of deposit and repurchase agreements) at cost.

The District has invested funds in the STAR Ohio during 2009. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on June 30, 2009. See Note 4, "Cash, Cash Equivalents and Investments".

H. Inventory

Inventory is stated at cost (first-in, first-out) in the governmental funds, if material. The costs of inventory items are recorded as expenditures in the governmental funds using the purchase method. Inventory is reported on the government-wide financial statements using the consumption method.

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2009, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

J. Capital Assets and Depreciation

Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000.

1. Property, Plant and Equipment - Governmental Activities

Governmental activities capital assets are those not directly related to the business-type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost (or estimated historical cost for assets not purchased in recent years). These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Assets, but they are not reported in the Fund Financial Statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Capital Assets and Depreciation (Continued)

1. Property, Plant and Equipment - Governmental Activities (Continued)

Donated capital assets are recorded at fair market value at the date received. The District does not possess any infrastructure. Estimated historical costs for governmental activities capital asset values were initially determined by identifying historical costs where such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

2. Depreciation

All capital assets are depreciated excluding land. Depreciation has been provided using the straight-line method over the following estimated useful lives:

<u>Description</u>	<u>Estimated Lives (in years)</u>
Land Improvements	20
Buildings and Improvements	20-50
Machinery, Equipment, Furniture and Fixtures	5-30
Vehicles	8

K. Long-Term Obligations

Long-term liabilities are being repaid from the following funds:

<u>Obligation</u>	<u>Fund</u>
General Obligation Bonds Payable	Bond Retirement Fund
Long-Term Notes Payable	Bond Retirement Fund
Compensated Absences	General Fund, Food Service Fund
Capital Leases Payable	General Fund

HEATH CITY SCHOOL DISTRICT

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation benefits are accrued as a liability when an employee's right to receive compensation is attributable to services already rendered, and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments at termination or retirement. Administrators and classified staff who work twelve month contracts are granted vacation leave based on length of service and position. Sick leave benefits are accrued as a liability using the vesting method. Employees may earn 15 days of sick leave per year up to a maximum of 245 days. Upon retirement, employees will receive one-fourth of the accumulated sick leave up to a maximum of 56.75 days for certified employees or 61 days for noncertified employees, plus one day for each year of service over ten years. Compensated absences accumulated by governmental fund type employees are retired as an expense when earned in the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported in the fund financial statements.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net Assets restricted for Statutory Purposes are monies set aside for textbooks and budget stabilization of \$1,006,293 as required by state statute.

The District policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. The District did not have net assets restricted by enabling legislation at June 30, 2009.

N. Pensions

The provision for pension costs is recorded when the related payroll is accrued and the obligation is incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Interfund Activity

Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Other than transfers, the District has no interfund activity. The effect of the transfers has been eliminated from the government-wide financial statements.

P. Reservations/Designations of Fund Balance

Reserves indicate that a portion of fund balance is not available for expenditure or is legally segregated for a specific future use. Fund balances are reserved for prepaid items, inventory, debt service, property taxes, statutory reserves, and encumbered amounts which have not been accrued at year end. The reserve for property taxes represents taxes recognized as revenue under accounting principles generally accepted in the United States of America, but not available for appropriations under state statute. The amount set-aside by the Board for budget stabilization is reported as a designation of fund balance in the General Fund.

Q. Restricted Assets

Restricted assets represent cash and cash equivalents set aside to establish reserves for textbooks and budget stabilization.

R. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

S. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Extraordinary item transactions did not occur during fiscal year 2009. Special items are transactions or events that within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. During fiscal year 2009, the District had no special items.

T. Bond Premiums, Bond Discounts, Gains/Losses on Refunding and Issuance Costs

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium and discount. Bond issuance costs are recorded as deferred charges and amortized over the term of the related debt. Bond premiums are deferred and accreted over the term of the bonds. Any gain or loss on refunding is allocated over the life of the old debt or the new debt whichever is shorter.

On the governmental fund financial statements, governmental fund types recognize issuance costs, bond premiums, and bond discounts in the current period. The face amount of the debt issue is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 2 – EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUND STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net assets of governmental activities as reported in the government – wide statement of activities. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

Amount by which depreciation exceeded capital outlays in the current period:

Capital Outlay	\$391,928
Depreciation Expense	(897,060)
	(\$505,132)

Governmental revenues not reported in the funds:

Increase in Delinquent Tax Revenue	\$2,301
Increase in Intergovernmental Grants Receivable	4,363
Increase in Interest Earnings	521
	\$7,185

Amount of bond and lease principal payments:

Bond Principal Payment	\$685,000
Long-term Notes Payable	34,000
Capital Lease Payment	72,884
Inception of Capital Lease	(248,060)
	\$543,824

NOTE 3 - COMPLIANCE AND ACCOUNTABILITY

A. Deficit Fund Equities

The fund deficit at June 30, 2009 of \$11,105 in the Title I Fund (special revenue) arose from the recognition of expenditures on the modified accrual basis which are greater than expenditures recognized on the budgetary basis. A deficit does not exist under the budgetary basis of accounting.

B. Excess Appropriations over Estimated Revenues

Excess Appropriations over Estimated Revenues - Ohio Revised Code Section 5705.39 requires that appropriations do not exceed estimated revenues. Appropriations exceeded estimated revenues in the following funds at June 30, 2009:

<u>Fund</u>	<u>Excess</u>
Nonmajor Special Revenue Funds:	
District Managed Student Activity Fund	\$ 2,514
Other State Grants Fund	100

NOTE 4 - CASH, CASH EQUIVALENTS AND INVESTMENTS

Cash resources of several individual funds are combined to form a pool of cash, cash equivalents and investments. The District has adopted an Investment Policy that follows Ohio Revised Code Chapter 135 and applies the prudent person standard. The prudent person standard requires the Treasurer to exercise the care, skill and experience that a prudent person would use to manage his/her personal financial affairs and to seek investments that will preserve principal while maximizing income.

Statutes require the classification of funds held by the District into three categories. Category 1 consists of "active" funds - those funds required to be kept in a "cash" or "near cash" status for immediate use by the District. Such funds must be maintained either as cash in the District Treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of "inactive" funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

HEATH CITY SCHOOL DISTRICT

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2009

NOTE 4 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

Category 3 consists of “interim” funds - those funds which are not needed for immediate use but, which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the federal national mortgage association, federal home loan bank, federal farm credit bank, federal home loan mortgage corporation, government national mortgage association, and student loan marketing association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;
- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- The State Treasury Asset Reserve of Ohio (STAR Ohio);
- Certain bankers’ acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any one time; and,
- Under limited circumstances, corporate debt interest rated in either of the two highest rating classification by at least two nationally recognized rating agencies.

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Protection of District cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. The District has no policy on custodial credit risk and is governed by Ohio Revised Code. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the District places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end the carrying amount of the District's deposits was \$55,837 and the bank balance was \$148,336. Federal deposit insurance covered all of the bank balance.

B. Investments

The District's investments at June 30, 2009 were as follows:

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date. The District has no policy that limits investment purchases beyond the requirements of the Ohio Revised Code.

Investment Credit Risk – The District has no investment policy that limits its investment choices other than the limitation of State statute for “interim” funds described previously.

Concentration of Credit Risk – The District places no limit on the amount the District may invest in one issuer. Of the District's total investments, 2.0% are FNMA, 5.7% are FHLB, 5.3% are FHLMC, 11.0% are FHLMC Discount Notes and 2.0% are bankers' acceptances.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. Of the District's investment in repurchase agreements, the entire balance is collateralized by underlying securities pledged by the investment's counterparty, not in the name of the District. The District has no policy on custodial credit risk and is governed by Ohio Revised Code as described under Deposits.

C. Reconciliation of Cash, Cash Equivalents and Investments

The classification of cash, cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9. Certificates of deposit with an original maturity of three months or less are treated as cash equivalents. The classification of cash and cash equivalents (deposits) for purposes of this note are based on criteria set forth in GASB Statement No. 3.

Fiduciary Funds - Cash and Investments	<u>(53,061)</u>
Total Governmental Activities - Cash and Investments	<u><u>\$4,909,735</u></u>

NOTE 5 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half collections are received by the District in the second half of the fiscal year. Second half distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real estate and public utility property, and tangible personal property used in business and located in the District. Real property taxes (other than public utility) collected during 2009 were levied after April 1, 2008 on assessed values as of January 1, 2008, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be reappraised every six years and equalization adjustments made the third year following reappraisal. The last revaluation was completed in 2008. Real property taxes are payable annually or semi-annually. The first payment is due January 20, with the remainder payable by June 20.

Tangible personal property tax revenues received in 2009 (other than public utility property) represent the collection of 2009 taxes. Tangible personal property taxes received in 2009 were levied after April 1, 2008, on the true value as of January 1, 2008. In prior years, tangible personal property assessments were twenty-five percent of true value for capital assets and twenty-three percent of true value for inventory. Tangible personal property tax is being phased out. The assessment percentage for property, including inventory was zero for 2009. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, the first payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

House Bill No. 66 was signed into law on June 30, 2005. House Bill No. 66 phases out the tax on tangible personal property of general businesses, telephone and telecommunications companies, and railroads. The tax on general business and railroad property will be eliminated by calendar year 2009, and the tax on telephone and telecommunications property will be eliminated by calendar year 2011. The tax is phased out by reducing the assessment rate on the property each year. The bill replaces the revenue lost by the District due to the phasing out of the tax. In calendar years 2006-2010, the District will be fully reimbursed for the lost revenue. In calendar years 2011-2017, the reimbursements will be phased out.

NOTE 5 - PROPERTY TAXES (Continued)

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the second year preceding the tax collection year, the lien date. Certain public utility tangible personal property is currently assessed at 100 percent of its true value. Public utility property taxes are payable on the same dates as real property described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County including the District. The County Auditor periodically remits to the District its portion of the taxes collected. The assessed values for collection in 2009, upon which the 2008 levies were based, were as follows:

	Assessed Values for Collection in:	
	2008 Second Half	2009 First Half

NOTE 10 - DEFINED BENEFIT PENSION PLANS

All of the District's full-time employees participate in one of two separate retirement systems which are cost-sharing, multiple-employer defined benefit pension plans.

A. School Employee Retirement System

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. Interested parties may obtain a copy by making a written request to SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling (800) 878-5853. It is also posted on SERS' website, www.ohsers.org, under Forms and Publications.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits; for fiscal year 2009, 9.09 percent of annual covered salary was the portion used to fund pension obligations. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2009, 2008 and 2007 were \$140,417, \$157,947 and \$168,360 respectively, which were equal to the required contributions for each year.

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2009, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2008, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

NOTE 10 - DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System (Continued)

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2009, 2008, and 2007 were \$884,386, \$856,239, and \$857,632 respectively; which were equal to the required contributions for each year. Contributions to the DC and Combined Plans for fiscal year 2009 were \$11,204 made by the District and \$15,628 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Retirement System. As of June 30, 2009, three members of the Board of Education have elected Social Security. The contribution rate is 6.2 percent of wages.

NOTE 11 - POSTEMPLOYMENT BENEFITS

A. School Employee Retirement System

Plan Description – The District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For 2009, 4.16 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2009, this amount was \$35,800.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

NOTE 11 - POSTEMPLOYMENT BENEFITS (Continued)

A. School Employee Retirement System (Continued)

The District's contributions for health care for the fiscal years ended June 30, 2009, 2008, and 2007 were \$92,938, \$99,616, and \$85,841 respectively; which were equal to the required contributions for each year.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2009, this actuarially required allocation was 0.75 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2009, 2008, and 2007 were \$11,586, \$11,380, and \$11,448 respectively; which were equal to the required contributions for each year.

B. State Teachers Retirement System

Plan Description – The District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2009, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2009, 2008, and 2007 were \$68,030, \$65,865, and \$65,972 respectively; which were equal to the required contributions for each year.

B. Defeased Debt

In October 2005 and May 2006, the District refunded \$10,000,000 and \$2,495,000 of General Obligation Bonds for School Improvement Series 2000A, dated August 15, 2000, through the issuance of \$9,999,987 and \$2,494,999 of General Obligation Bonds. The net proceeds of the 2005 and 2006 Bonds have been invested in obligations guaranteed as to both principal and interest by the United States Government and placed in irrevocable escrow accounts which, including interest earned, will be used to pay the principal and interest on the refunded bonds. The refunded bonds, which have an outstanding balance of \$12,495,000 at June 30, 2009, are not included in the District's outstanding debt since the District has in-substance satisfied its obligations through the advance refunding.

NOTE 13 - CAPITALIZED LEASES

The District leases several copiers under capital leases. The cost of the equipment obtained under capital leases is \$248,060, which is included in the Governmental Activities Capital Assets and the related liability is included in the Governmental Activities Long-Term Liabilities.

The following is a schedule of future minimum lease payments under the capital leases together with the present value of the net minimum lease payments as of June 30, 2009:

Year Ending June 30,	Capital Leases
2010	\$57,540
2011	57,540
2012	57,540
2013	57,540
2014	14,385
Minimum Lease Payments	244,545
Less: Amount representing interest at the District's incremental borrowing rate of interest	(29,135)
Present Value of minimum lease payments	\$215,410

NOTE 14 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; natural disasters; and injuries to employees. During fiscal year 2009 the District contracted with Ohio Casualty Insurance Company for various insurance coverages, as follows:

Coverage	Deductible	Aggregate
	\$250/Comprehensive	
Fleet Insurance	\$500/Collision	\$1,000,000
Buildings and Contents	\$1,000	\$37,777,500
Equipment Breakdown	\$1,000	\$37,777,500
School District Liability	\$0	\$2,000,000
Employee Benefits Liability	\$1,000	\$3,000,000

NOTE 14 - RISK MANAGEMENT (Continued)

The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Plan (the GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State, based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Sheakley, Inc. provides administrative, cost control and actuarial services to the GRP. The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-elect and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The District is currently providing group health care insurance by contracting with Anthem, Inc. for commercial health care coverage.

NOTE 15 – STATUTORY RESERVES

The District is required by state law to set aside certain general fund revenue amounts for textbook and capital acquisition into various reserves. These reserves are calculated and presented on a cash basis. During the fiscal year ended June 30, 2009, the reserve activity (cash-basis) was as follows:

	Textbook Reserve	Capital Acquisition Reserve	Budget Stabilization		Total
			Designation	Reserve	
Set-aside Cash Balance as of June 30, 2008 (Restated)	\$691,868	\$0	\$10,026	\$67,516	\$769,410

NOTE 15 – STATUTORY RESERVES (Continued)

The District had qualifying disbursements in past years that reduced the set-aside amounts below zero for the Capital Acquisition Reserve, however, this amount may not be used to reduce the set-aside requirement for future years. The amount restricted for budget stabilization and the textbook reserve is \$1,006,293 and the amount designated by the District for budget stabilization is \$10,026.

NOTE 16 - JOINTLY GOVERNED ORGANIZATIONS

A. Licking Area Computer Association

Licking Area Computer Association - The District is a participant in the Licking Area Computer Association (LACA) which is a computer consortium. LACA is an association of public school districts within the boundaries of Licking and Muskingum Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of LACA consists of thirteen members made up of the thirteen district superintendents. The District paid LACA \$104,532 for services provided during the year. Financial information can be obtained from their fiscal agent, the Licking County Career and Technical Education Center, Cory Thompson, who serves as Treasurer, at 150 Price Road, Newark, Ohio 43055.

B. Educational Regional Service System Region 11

The School District participates in the Educational Regional Service System (ERSS) Region 11, a jointly governed organization consisting of educational entities within Delaware, Fairfield, Franklin, Licking, Madison, Pickaway, and Union counties. The purpose of the ERSS is to provide support services to school districts, community schools, and chartered nonpublic schools within the region by supporting State and school initiatives and efforts to improve school effectiveness and student achievement with a specific reference to the provision of special education and related services. The ERSS is governed by an advisory council, which is the policymaking body for the educational entities within the region, who identifies regional needs and priorities for educational services and develops corresponding policies to coordinate the delivery of services. They are also charged with the responsibility of monitoring the implementation of State and regional initiatives and school improvement efforts. The Advisory Council is made up of the director of the ERSS, the superintendent of each educational service center within the region, the superintendent of the region's largest and smallest school district, the director and an employee from each education technology center, one representative of a four-year institution of higher education and appointed by the Ohio Board of Regents, one representative of a two-year institution of higher education and appointed by the Ohio Association of Community Colleges, three board of education members (one each from a city, exempted village, and local school district within the region), and one business representative. The degree of control exercised by any participating educational entity is limited to its representation on the Advisory Council. Financial information can be obtained from the Franklin Educational Service Center, Citygate Business Park, 2080 Citygate Drive, Columbus, OH, 43219.

NOTE 17 – CONTINGENCIES

A. Grants

The District receives financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2009.

B. Litigation

The District is not a party to any legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects as of June 30, 2009.

To record financial transactions associated with food service operations.

Uniform School Supply Fund

To account for the purchase and sale of school supplies. Profits derived from sales must be used for school purposes or activities.

Rotary Fund

To account for operations that provide goods and services provided by the District.

Public School Support Fund

To account for specific local revenue sources, other than taxes that are restricted to expenditures for specified purposes, curricular and extracurricular, approved by board resolutions.

Other Grants Fund

To account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

District Managed Student Activity Fund

To account for student activity programs which have student participation in the activity, but do not have student management of the programs. Typically this includes athletic programs, band, cheerleaders and other similar types of activities.

Auxiliary Services Fund

To account for monies which provide services and materials to pupils attending non-public schools within the District.

Management Information System Fund

To account for costs related to hardware and software development or other costs associated with the requirements of the management information system.

Data Communication Fund

To account for monies received for the maintenance of the Ohio Educational Computer Network connections.

HEATH CITY SCHOOL DISTRICT

Special Revenue Funds

SchoolNet Professional Development Fund

To account for professional development subsidy grants.

Interactive Video Distance Learning Grant Fund

To account for monies spent by the State on behalf of the District. The monies are used for fixed assets for the interactive video distance learning project.

Other State Grants Fund

To account for various monies from State agencies which are not classified elsewhere.

Title VI-B Fund

To account for monies received through grants to assist in the identification of children with disabilities, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to children with disabilities at the preschool, elementary and secondary levels.

Vocational Education Fund

To account for grant monies to be used for the development of vocational education programs.

Title I Fund

To account for federal revenues received to meet the special needs of educationally deprived children.

Title V Fund

To account for various grant programs to be used in accordance with educational needs.

Drug Free Grant Fund

To account for grant funds to be used for drug abuse prevention, early intervention, rehabilitation referral and education.

Improving Teacher Quality Fund

To account for federal monies received which are used to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

Other Federal Grants Fund

To account for various revenues received through state agencies from the federal government or directly from the federal government which are not classified elsewhere.

HEATH CITY SCHOOL DISTRICT

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary or trust funds.

Building Fund

To account for the acquisition, construction and improvement of capital facilities as authorized by Chapter 5705 of the Ohio Revised Code.

Vocational Education Equipment Fund

To account for receipts and expenditures involved in the replacement or updating of equipment essential for the instruction of students in job skills.

HEATH CITY SCHOOL DISTRICT

STATISTICAL TABLES

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

Contents

Financial Trends	S 2 – S 13
These schedules contain trend information to help the reader understand how the District's financial position has changed over time.	
Revenue Capacity	S 14 – S 21
These schedules contain information to help the reader understand and assess the factors affecting the District's ability to generate its most significant local revenue sources, property taxes.	
Debt Capacity	S 22 – S 29
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	
Economic and Demographic Information	S 30 – S 33
These schedules offer economic and demographic indicators to help the reader understand the environment within which the District's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	
Operating Information	S 34 – S 45
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	

Sources Note:

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented GASB Statement 34 in 2004; schedules presenting government-wide information include information beginning in that year.
