CITY OF HUBER HEIGHTS MONTGOMERY COUNTY

JANUARY 1, 2009 TO DECEMBER 31, 2009
REGULAR AUDIT

Mary Taylor, CPA Auditor of State

City Council City of Huber Heights 6131 Taylorsville Road Huber Heights, OH 45424

We have reviewed the *Independent Auditor's Report* of the City of Huber Heights, Montgomery County, prepared by Plattenburg & Associates, Inc., for the audit period January 1, 2009 through December 31, 2009. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Huber Heights is responsible for compliance with these laws and regulations.

Mary Taylor

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor, City Council and City Manager City of Huber Heights, Ohio

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Huber Heights (the City), as of and for the year ended December 31, 2009, which collectively comprise the City's basic financial statements and have issued our report thereon dated July 23, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies or material weaknesses have been identified. However, as described in the accompanying schedule of findings and responses, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and responses as Finding 2009-1 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The City's response to the findings identified in our audit is described in the accompanying schedule of findings and responses. We did not audit the City's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Auditor of State, and City Council and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF HUBER HEIGHTS, OHIO SCHEDULE OF FINDINGS AND RESPONSES Year Ended December 31, 2008

Finding 2009-1 –Restatement of Previously Issued Financial Statements and the Year End Financial Reporting Process

The City's 2009 financial statements contain a restatement of previously issued financial statements to reflect the correction of a material misstatement. The 2008 financial statements contained a similar restatement related to statements issued prior to January 1, 2008. Such restatements are indicators of material weaknesses in internal control over financial reporting.

Our audit procedures discovered various additional issues related controls over financial reporting. None of these additional issues would ordinarily be considered significant when considered on an individual basis however, our evaluation of these deficiencies both individually and in the aggregate, resulted in the issuance of finding 2009-1 related to both the restatement of previously issued financial statements and internal control over the year end financial reporting process.

The City's financial statement presentation is very complex as compared to Ohio cities of similar size. This complexity creates difficulties related to the design and/or operation of internal controls over the year end financial reporting process. Also, this complexity contributes to timeliness issues. A review of the controls over the year end financial reporting process might also provide insights as to how the financial statement presentation could be simplified.

Management Comments/Response

In 2008, the accounting method used was at the recommendation of the City's financial reporting consultant causing the 2008 prior period restatement. At the time City personnel objected to this method, but the consultant insisted upon adjusting the method previously used. In 2009, the financial reporting consultant rescinded their decision after a series of discussions with GFOA, which in turn caused the same finding for 2009." However, the City does understand that management is ultimately responsible for the financial statements and in future disagreements the City will seek a second opinion.

The City will consider a review of the entire financial reporting process, including associated internal controls, in an effort to improve controls and/or simplify the financial statement presentation.

Summary of Prior Audit Findings and Responses

Finding 2008-1 Restatement of previously issued financial statements and the year end financial reporting process was issued for the year ended December 31, 2008. This finding has not been corrected and has been reissued for the year ended December 31, 2009 as Finding 2009-1.

City of Huber Heights 6131 Taylorsville Road Huber Heights, Ohio 45424

937. 233.1423 Fax 937.233.1272 www.ci.huber-heights.oh.us July 27, 2010

Honorable Mayor Ronald A. Fisher Honorable Members of the City Council Residents of the City of Huber Heights

We are pleased to present our 2009 Comprehensive Annual Financial Report (CAFR) for the City of Huber Heights for your review. This report, for the year ended December 31, 2009, has been prepared using generally accepted accounting principles for governments, and contains the financial statements and other financial and statistical data that provide complete and full disclosure of all material financial aspects of the City of Huber Heights ("the City"). This report represents the commitment of the City to adhere to nationally recognized standards of excellence in financial reporting. Ohio law requires that every general purpose local government publish within 150 days of the close of each fiscal year a complete set of financial statements. This report is published to fulfill that requirement for the year ended December 31, 2009. The City is required to provide certain continuing disclosure information in conjunction with various debt offerings. Updated data are provided in the Statistical Section of this report.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation rests with the management of the City, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

The firm of Plattenburg & Associates, Incorporated, has issued an unqualified ("clean") opinion on the City's financial statements for the year ended December 31, 2009. The Independent Accountants' Report is located at the front of the financial section of this report.

Management's Discussion and Analysis (MD&A) immediately follows the Independent Accountants' Report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE CITY

The City of Huber Heights is located in southwestern Ohio, within Montgomery, Miami and Greene Counties; and encompasses 22 square miles. The area that currently includes the incorporated limits of the City of Huber Heights was originally formed in 1810 as Wayne Township, named after Major General Anthony Wayne of the United States Army. The City occupies the northeast corner of Montgomery County, adjoins Miami County on the north, and Clark and Greene Counties on the east, with Greene County also being a part of the southern border.

In 1981, Wayne Township incorporated; and in 1983 the citizens of Huber Heights adopted a City Charter, which took effect on January 1, 1984, providing for a Council/Manager form of government. The legislative powers of the City are vested in a nine-member Council. Two Council members are elected at large, while six Council members are elected by ward. The Mayor is elected separately. The Council members appoint the City Manager who is the Chief Executive and Administrative Officer of the City. The City Manager appoints all Department/Division Heads and employees, except the City Attorney and the Clerk of Council, who are appointed by City Council.

The City is empowered to levy a property tax on both real and personal property located within its boundaries. It also is empowered by Ohio statute to extend its corporate limits by annexation, which it has done from time to time.

A reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the City are not misleading. The primary government consists of all funds and Departments which comprise the legal entity of the City, and which provide various services including police and fire protection, emergency medical services, parks and recreation, planning, zoning, court facilities, street maintenance and repair, economic development, public health and welfare, sewer, water and wastewater. Council and the City Manager have ultimate responsibility for these services.

The City does not have any component units included in its reporting entity. However, the City has representation on the boards of eight entities. The Tri-Cities North Regional Wastewater Authority (Tri-Cities) and the Joint Economic Development District (JEDD) are joint ventures, while the Miami Valley Regional Planning Commission (the Commission), Miami Valley Fire/EMS Alliance (the Alliance), the Economic Development/Government Equity Program (ED/GE), the Regional Emergency Response Team (RERT), First Suburbs Consortium of Dayton, Ohio Council of Governments (First Suburbs Consortium), and the Community Improvement Corporation of Huber Heights (CIC) are jointly governed organizations. Information regarding these entities may be found in the notes to the basic financial statements.

The City normally adopts an annual budget before December 31st for the upcoming year. This annual budget serves as the foundation for the City's financial planning and control. The budget is adopted at the object level for all funds of the City. Any modifications to appropriations at or above this level require approval of City Council. In addition, a five-year capital improvement program is adopted on an annual basis. This program serves as a framework for long-term infrastructure improvements and capital acquisitions.

Local Economy

Situated along an extensive network of interstate and state highways, including Interstates 70 and 75, as well as U.S. Route 40 and State Routes 4, 201, 202 and 235, the City continued to experience growth and development during 2009. Historically, the City's population growth erupted in the late 1950's when Charles Huber recognized the enormous potential for residential development in the area and began building what is now the largest community of brick homes in the United States. With an estimated population of 38,212 in 2009, Huber Heights placed third among all cities within Montgomery County, with nearly 15,000 housing units. The City is the 29th largest city in the State of Ohio, and is situated primarily in Montgomery County. The City's boundaries expand into Miami and Greene Counties, as well.

The City, located 10 minutes from downtown Dayton, Wright Patterson Air Force Base and Dayton International Airport, is primarily residential, providing housing for those who work in the surrounding metropolitan areas. Huber Heights City government continued to take active steps toward diversifying its tax base, with strong residential growth generating greater commercial and industrial development. At the end of 2009, there were over 1,270 acres of industrially-zoned and 2,840 acres of commercially zoned land in the City, of which approximately 1,177 acres are available for development. In 2008, the citizens voted to reduce the City's income tax rate by 0.25% to 2.00%, effective January 1, 2009.

Based upon a 2009 survey of Huber Heights residents, it is estimated that the United States government and affiliated contractors at nearby Wright Patterson Air Force Base (WPAFB) employ approximately 14 percent of the residents. An additional 6.2% of the residents have retired from WPAFB. Despite the continuing trend toward military downsizing and base closures, WPAFB has gained operations through realignment from other bases around the country in the past several years. It is estimated that, as a result of the U.S. House Armed Services Committee Base Realignment and Closure (BRAC) proceedings, approximately 3,000 new government and contractor jobs will come to the Base by 2011. The strategic location of the City of Huber Heights within the area, combined with our proximity to WPAFB, 5 to 10 minutes' access to primary Base gates, evidences anticipated growth from BRAC.

Economic development in the City has been a top priority of City Council and City Staff. Since 1994, commercial, industrial, and residential developments, such as the Northpark Center, Center Point 70 Commerce Park, and The Oaks, Callamere Farms, and Carriage Trails, have created many diverse jobs, including fuel cell research, logistics, light industrial, high-tech and laser applications. The expansion of Interstate 70 to six lanes through the City, and the accompanying upgrades of the three major interchanges in the City, are expected to engender economic growth.

There are over 780 businesses within the City, including the following major companies:

Industrial

4-Over, Inc.

A B F Freight Systems

Rave Cinemas

Staples

Target Corporation

Wal-Mart Stores Incorporated

Commercial and Industrial Development

The existing Huber Health Center, on Old Troy Pike [SR202], is currently undergoing a major expansion and renovation. The project includes the expansion of the current medical office facility by more than 22,000 square feet. The+ project will bring a full-service non-trauma Emergency Room to the City. The upgrade of the facility will accommodate new medical service providers to serve the community. The project represents a significant potential benefit to the City by improving the City's tax base, increasing

taxable real estate values by \$16 million, and through the addition of an estimated 135 new health carerelated jobs. The project will also provide convenient accessibility to needed medical services for the residents of the City and surrounding areas. When the renovation is completed in early 2011, Huber Heights will be the only City in the Miami Valley to host major satellite facilities of both the Kettering Health Network and Good Samaritan Medical.

In November 2008, the Huber Heights' voters passed a \$82 million bond issue to build seven new state-of-the-art environmentally friendly [LEED Silver-certified] school buildings. The bond issue will be matched by \$84 million from Ohio's tobacco settlement. Construction began in early 2010, on the 5 elementary schools to be built; and a new middle school and high school will be occupied I Fall, 2013

Troy Pike Plaza medical center began construction of a medical office/retail complex on Old Troy Pike between Chambersburg and Fishburg Roads. The complex will eventually include three office buildings totaling 43,044 square feet; and retail frontage of 14,542 square feet. The estimated cost of the project is \$3,000,000.

Residential Development

The residential market in the City, which did not experience as severe a market correction as in other areas of the country or the region, continued the steady progression of residential developments. The City issued 50 zoning permits for new dwellings in 2009, up from 30 issued in 2008, evidence that Huber Heights continues to improve in light of the current housing market slump. Huber Heights' residential development market continues to outperform other areas of the region.

In 2008 the City approved the Basic and Detailed Development Plan presented by DEC Investment Group, Inc. of Dublin, Ohio for the Carriage Trails project within the City's northern quadrant. The project will include more than 2,000 new single family and clustered residential units, along with more than 30 acres of commercial and other non-residential uses. The development plans provide for approximately 90 acres of green space to be used for bike and pedestrian trails, ponds, landscaping, and connectivity to Carriage Hill Metro Park. In 2009, three sections were approved for platting and building began. Construction has continued through 2010, attracting new residents to the community.

MAJOR INITIATIVES

For the Year

The City increased by 50% the number of miles paved through its aggressive interior street improvement program; and enjoyed another successful year in economic development. For the sixteenth consecutive year, the City received the Certificate of Achievement for Excellence in Financial Reporting, awarded by the Government Finance Officers Association of the United States and Canada for the 2008 Comprehensive Annual Financial Report.

A five-year street improvement income tax levy, initially approved in 1999 and renewed in 2003, was made permanent in 2008, effective January 1, 2009. This levy generates approximately \$1.2 million each year for roadway reconstruction, resurfacing, and curb and gutter replacement. During 2009, expenditures included the repair and rebuilding 4.3 miles of neighborhood streets with curbing improvements, and miscellaneous roadway sealing and patching throughout the City. The improvements enhance the City streets and promote development of and investment in residential and commercial areas. Also in 2009, the City received notice that it was awarded \$499,966 of federal ARRA [stimulus] funding to repair additional streets in 2010.

Income Tax: The City's major source of operating revenue is the local income tax. During 2009, the rate was 2.00%, consisting of the following levies enacted over the past several years:

- 1.00% Permanent tax for General Fund operations
- 0.50% Permanent tax for public safety operations, police operations, and fire capital equipment
- 0.25% Permanent tax for local street operations
- 0.20% Originally effective through May 31, 2009 for local street capital improvements, this portion was made permanent in the November 2008 election, effective January 1, 2009
- 0.30% 0.25% effective through 2015 for public safety and support services; .05% effective through 2025 to fund the construction of a fire station and major fire equipment purchases
- (.25%) Effective January 1, 2009, a permanent decrease for General Fund operations

The permanent income taxes dedicated for public safety are used to pay debt on the City's two fire stations; initial financing costs related to the lease of a new fire pumper and ladder truck; general Police Division and Fire Division operations; and capital equipment purchases, including eight police cruisers, in-cruiser video cameras, and mobile data terminals. The permanent income taxes dedicated for street operations, pay for general street operations, including personnel; contracts and supplies; snow removal and street cleaning; traffic signal maintenance; the purchase of various equipment; and debt retirement on bonds issued in prior years for major street reconstruction.

The City established the Income Tax Collection Division in October 2001, a function which had been performed by independent contract with a neighboring political subdivision. Since creating the tax function internally, the City has tailored specific compliance programs more aggressively to target the collection of delinquent accounts, generating nearly \$1,900,000 in taxes not previously collected. In late 2008, in an effort to reduce processing costs and enhance filing features available to taxpayers, the City outsourced primary return filing and processing functions. The City contracted with the Regional Income Tax Agency (RITA) to perform these processing functions. The City retains a smaller Income Tax Division Staff, focused on compliance and collection of City tax revenues. In early 2010, City Council terminated its contract with RITA, and to make technological and other improvements to the City's income tax filing system. This will enhance the City's tax compliance programs, enabling it to determine whether mandatory residential filing requirement is being met.

In June 2001, City Council authorized the collection of Emergency Medical Service fees. During 2009, over \$924,000 was collected, and used to fund six Firefighter/Paramedic positions, a lead Fire Inspector, a Training Lieutenant, and a data entry technician for the Fire Division.

The U.S. Environmental Protection Agency mandated that governmental agencies with populations over 10,000 be in compliance with the Clean Water Act of 1972, including the development and implementation of a Stormwater Management Plan no later than March 10, 2003. During 2009, the City entered its seventh year of it's the Stormwater Management Program. The monies generated fully supported the operating costs, as well as stormwater-related capital improvements. The City spent \$237,274 for Stormwater Program operation and maintenance; and \$125,983 for Program capital improvements in 2009.

Capital Improvements

In 2009, the City completed its 25th year of an annual Sidewalk Improvement/Assessment Program. Other major improvements included 2009 the Senior Center, a 1,150 square foot building expansion along with the expansion of the adjacent parking lot; and completion of the Water Main Valve and Sanitary Sewer Manhole Survey, which provided a comprehensive digital map of the utility systems, and prepared the City for its sanitary sewer lining and manhole rehabilitation program, which was completed in mid-2010..

The landscaping and streetscaping phase of the I-70/State Route 202 (Old Troy Pike) interchange project, begun in 2008, was completed in September, 2009. This project provides a positive image of the City by enhancing the appearance of newly designed interchange, at one of the City's busiest commercial and retail districts. The project installed modular block retaining walls and ornamental fences, decorative street lights, and railings, extending sidewalks, planting trees and shrubs, and installing a sprinkler system. Other completed phases of the cloverleaf Interchange Project provided straight ramps at all four corners and standard deceleration lanes, helping to improve safety and reduce accidents at the interchange. When construction began, the average daily traffic count passing through this interchange was approximately 115,700. Projections show that approximately 145,000 vehicles will pass through the interchange on a daily basis by 2027. As part of the project, State Route 202 was widened and resurfaced; sidewalks have been added on both sides of State Route 202; and the bridge over I-70 was replaced. Financing for the project included over \$8 million in grants from various federal and state transportation agencies. The remaining City share, totaling \$2 million, was funded by a loan from the State of Ohio Infrastructure Bank (SIB). The loan allows the City to make draws, as needed, with a zero percent interest rate for the first year, and three percent interest thereafter over the succeeding nine years. The City has pledged tax increment financing (TIF) revenues to repay this loan.

The 2009 Stormwater Management Project comprised three sections. The work in Section One included stabilizing a section of Twin Creek. Section Two stabilized the section of Dry Lick Run north of Charlesgate. Section Three consisted of storm sewer improvements at the YMCA, on Shull at Chambersburg.

Department/Division Major Initiatives

The mission of the City of Huber Heights, its Mayor, Council, and Staff, is to enhance the quality of life for all residents, and to become the Community of Choice in Ohio, by providing outstanding services and a good quality of life for its residential and business citizens. In 2009, the City observed that mission by expanding and improving services, upgrading infrastructure, and enhancing public grounds and facilities.

The Department of Public Safety

Fire Division

A 33-year veteran of the Fire Division, Robert Maimone was appointed Fire Chief in 2009. The Fire Division responded to 4,355 EMS calls and 598 fire calls in 2009. Division Staff also conducted car seat checks; community CPR and first aid classes; and offered advanced NIMS (National Incident Management) classes to command staff and other area Fire and Police Departments. The Division continued to upgrade equipment and purchased new cardiac monitors, two new EMS response vehicles, a new vehicle for Public Education and Code Enforcement, and received a \$236,000 federal grant for radio replacement. Other technological advances included new software for inspections and pre-planning, a new key response program for Knox Boxes, and the installation of MDTs [Mobil Data Terminals] and GIS mapping in Fire vehicles.

The Fire Division continued to meet the service needs of the community by hiring four new Firefighter / Paramedics and a new Fire Prevention Manager. Two Firefighter/.Paramedics were promoted to Lieutenant; and one Lieutenant to Battalion Chief.

In the interest of continuity and fiscal responsibility, the City and IAFF Local 2926 reached an amicable 3-year bargaining agreement, which included a switch to a new HSA health care coverage program, resulting in significant savings in premium costs. Following the IAFF's lead, the City's other 4 bargaining units moved to the HSA system in 2009, which allowed the City to realize more than \$262,00 in one year's health insurance premiums.

In addition to the Fire Division's other community outreach programs[e.g., CPR, NIMS, etc.], Fire Division Staff volunteered to implement a new book reading program at the library [with the PD], in City Schools, and in daycare centers.

As part of the commitment made to City voters in 2005 to decrease response time in the northern part of our City, we are in the process of identifying affordable land for a new [third] fire station north of I-70 that meets our response requirements.

Police Division

Police Communications

In September 2009, our nationally-accredited Dispatch Center [the only one in Ohio] partnered with Butler Township Police and Fire to provide dispatching and emergency medical dispatching.

A new Power 9-1-1 emergency call management system was installed. The new system was put to continual successful use as Center Staff handled 107,907 calls, of which 17,882 were emergency 9-1-1 calls. 77,811 incidents were handled in the Communications Center, of which 72,130 were police-related; 4659 were EMS-related; and 1022 were fire-related.

As with the Fire Divisions, the City amicably entered a new 3-year bargaining agreement with Ohio FOP/OLC. The agreement calls for a 2.83% pay increase and new HAS health care coverage.

Police Divison

The Police Department continued its commitment to public safety, responding to 57,486 calls for service in 2009, of which 35,632 were preliminary investigations; 9327 were stops and contacts; 16,600 were productive atrol activities; and 4527 were administrative activities. These numbers reflect a three percent increase over 2008 levels.

The goal of reducing traffic crashes was exceeded: 884 crashes in 2009, compared with 1,121 in 2008, a 20% decrease.

Community outreach programs, including Area Watch and an active Police Explorers' program, continued to be offered and expanded. The Community Police Academy graduated two more classes and an innovated citizens' patrol, "PRIDE", was implemented.

The Police Division was awarded a Justice Assistance Grant (JAG) to purchase a digital evidence system, mobile and portable radios, and advanced crime detection and prevention equipment.

Through attrition, the Patrol Section was reduced by four officers, while the Division saw a- 10% increase in productivity over 2008 levels. A senior Detective James Gebhart, was recognized by the FBI

for outstanding investigation efforts leading to the apprehension of a nation-wide theft ring involving fraudulent UPC labels and codes.

As with the Fire Division, the City settled 3-year labor agreements with the Patrol and Command bargaining units, and at the same 2.83% increase and HSA coverage that all other bargaining units accepted.

Information Technology Division

The City reorganized its IT Division upon the retirement of its former Manager. Significant new projects were launched thereafter. The City's GIS function was also absorbed by the IT Division.

A new web domain, www.hhoh.org, was launched in 2009; and work on a new City website continued, culminating in the launch of the new site in February, 2010, The City's newsletter was updated and went "green" in 2009, making hard copies available only in small numbers, while encouraging residents to log onto the City's website to reads the newsletter. The newsletter was also brought in-house from an outside contractor, resulting in significant savings, both in editorial and in printing costs.

A fiber interconnect project linked the fire stations, allowing for remote training and better communication.

Our new Agenda Quick program, implemented in mid-2009, allows for work assignment tracking, meeting agenda building, and legislation writing easier and faster than before.

The Department of Finance

The **Accounting Division** received its sixteenth consecutive Certificate of Achievement for Excellence in Financial Reporting, awarded by the Government Finance Officers Association of the United States and Canada for the 2008 Comprehensive Annual Financial Report (CAFR). In 2009, the City issued new "rated" debt for infrastructure projects; and maintained the City's G.O. bond rating at Aa3 from Moody's Rating Agency.

The **Division of Taxation** in an effort to reduce processing costs, and enhance filing features to taxpayers the City affiliated with the Regional Income Tax Agency (RITA) to provide income tax collection and processing services. However, in order to continue to provide a high level of customer service to taxpayers, the City has maintained its local Tax Office with a significantly reduced Staff. The current Staff focuses on customer service and taxpayer assistance during the tax filing season, and on compliance and collections throughout the year. Additionally, the residents voted to decrease the local income tax rate to 2% effective January 1, 2009, resulting in expected decreased collections.

In late 2009, the Finance Director tasked every Department and Division with at least a 10% operations cost decrease for 2010's budget. Every Department and Division met or exceeded that percentage decrease.

Human Resources Department

The Human Resources Department, working in conjunction with Department and Division Heads, significantly reduced the number and severity of employee Workers' Compensation claims over the past four years. The City became continued its participation in the Ohio Bureau of Workers' Compensation Group Rating program. Doing so reduced the City's base premium per year by 51%, estimated to save the City over \$76000 in premiums. HR also negotiated favorable liability and health insurance rates for

2009, resulting in increases in health insurance of only 7%, and no increase in liability insurance from 2008 HR also conducted safety awareness training in late 2009 for all employees.

The Department of Public Service

Division of Engineering saw a change in leadership with the hiring of Russ Bergman as City Engineer, Scott Falkowski as Assistant City Engineer, and promotion of Hanane Eisentraut to that rank from Field Engineer. The Division completed numerous infrastructure projects during 2009, including the \$1.2 million annual Interior Streets Improvement Program and the \$150,000 annual sidewalk repair program. The Engineering Division was awarded over \$2.3 million in grant funding from State and federal agencies for a variety of public projects. In addition, the City received another \$1 million and more in ARRA funds for pavement improvement and for the sewer lining/manhole rehabilitation projects.

A community outreach effort resulted in the installation of more than 15,000 radio read water meters City-wide in the space of 5 months in late 2009, for a project that had been estimated to take 9 months. During 2009 the Engineering Division oversaw the resurfacing of over 4.3 miles of City streets.

The Engineering and Planning Divisions partnered with Huber Heights City Schools to ensure that the City regulatory process toward construction of the 7 new schools to be built from 2010 through 2013 will be smooth, efficient, and collegial among the parties to construction. City Engineering and Planning Staff members sit on the Schools' CORE building team.

Energy-efficiency became a top priority for all City Staff in 2009. The City secured EECDBG funding in the amount of \$155,000 for construction of a new energy-efficient cooling tower for the PD and courts buildings. City Staff revamped all City building and parks exterior lighting, and started a multiple-materials recycling program. A fiber optic traffic interconnect project on two major thoroughfares [SR201 and SR 202] improved traffic movement and reduced energy costs. Engineering also received a Favorable Review of Sanitary Sewer System on the Compliance Evaluation Inspection Report by the USEPA.

Engineering began the site selection process in 2009 for a new water tower, to be erected north f I-70.

The **Division of Public Works** experienced no great wind or snow storms in 2009 however, the Public Works Division remained quite busy with various projects throughout the year. During the winter months the Division responded to a total of 28 snow or ice incidents and used a total of 1156 tons of salt, with 683 total overtime hours. There were only two incidents with significant snowfall causing the Public Works Division to work around-the-clock 12-hour shifts. However, it was a difficult winter due numerous smaller snow events.

The City's Yard Waste Site hours of operation were cut back to reduce the amount of overtime hours that had been worked in previous years. However, the amount of yard waste received and mulch distributed remained consistent with past years.

The most significant impact on Public Works Division operations occurred in August, with the acquisition of Tom Cloud Park from Montgomery County. In the four months during which the City maintained the property in 2009 1858.5 regular hours and 113.5 overtime hours were used to maintain the park. An additional employee and equipment were added in anticipation of future maintenance responsibilities.

Significant capital purchases made in 2009 were an aerial bucket truck; mobile asphalt heater; new heating system for the building storage area; and a new snow plow dump truck. Some of this equipment

was funded with \$204,693.00 from FEMA, as reimbursement for expenditures during the 2008 windstorm.

A wage reopener with AFSCME Local 10, representing Public works Division workers and mechanics, was settled in a single 2-hour session in late 2009. Employees agreed to a 2-year deal at a 2.83% pay raise for each year, with new HSA health care coverage.

In 2009, the Planning and Development Division continued business retention and recruitment efforts in partnership with Montgomery County through the Business First! program. The Division also reorganized and improved effectiveness, achieving new levels of efficiency in procedures and costs. The Planning and Development Division joined the Dayton Development Coalition (DDC), allowing the City to capitalize on Base Realignment and Closure (BRAC) opportunities. City Staff traveled to Mesa, Arizona for a DDC fly-in event. This trip was to attract military personnel, who will be relocated due to BRAC, as new residents.

The Planning and Development Department initiated a Neighborhood Enhancement and Abatement Team (NEAT) in 2009. Initially, Staff focused on introducing the program to the community. City Council and Staff, took part in Ward Walks as part of this introduction, going from door to door to talk to residents directly about NEAT. In addition, NEAT worked to organize the Huber Heights Clean Sweep Day in October. Clean Sweep Day combined efforts to remove litter from City parks, collect recyclables, and properly dispose of medical waste. City employees volunteered their time in April and October to set an example for the community, and cleaned parks and interchanges throughout the City. The City established an Adopt-A-Park program in April, 2009, whereby community groups and families omit to clean up litter in our parks, paint equipment, and the like, The long-dormant Property Maintenance Review Board and Parks & Recreation Board were reconstituted, and both contributed to the City's renewed focus on beautification.

For the Future

In order to maintain a high quality of life and to foster a positive image, , the City has doubled its appropriation of funds allocated to the annual Interior Street Improvement Program in 2010. The cost of the 2010 annual Sidewalk Repair and Replacement program will be continue to be shared by the affected property owners and the City.

With the successful negotiation of a new development agreement for the 660-acre residential development Carriage Trails, the City is poised to experience significant new residential and commercial growth in the City's northern quadrant for the next decade. Additionally, numerous commercial projects are in the planning stages. These will transform the I-70 and State Route 201/202 corridors into a thriving regional commercial center. Along with these projects, the City will continue the steady growth of other residential developments, which continue to outperform other areas in the region.

Another quality-of-life effort, for the first time in many years, is the City's sponsoring a fireworks display on July 3rd at Tom Cloud Park. This will be the largest display in the region, and is made possible by the generous donations of local citizens and businesses. The City will also be opening a new 2100 sq/ft "splash pad" water feature at Tom Cloud Park for the enjoyment of its younger citizens. A parks master plan, encompassing all 12 of the City's parks, is in its initial phases, so that future parks improvements are made from sound judgment, and that every park benefit from improvements made.

RELEVANT FINANCIAL POLICIES

The City pursues an aggressive cash management program by expediting the receipt of revenues and prudently depositing and investing available cash pursuant to its legislated Investment Policy. A portion of the City's deposits are collateralized by a direct pledge of collateral or by pooled collateral. By law, those financial institutions that do not directly collateralize deposits must establish a collateral pool to cover all public deposits. The market value of the pooled collateral must equal at least 105 percent of the public funds on deposit. Trustees, including the Federal Reserve, the Federal Home Loan Bank, and designated third party trustees, hold the collateral of the financial institutions. The City regularly reviews the market value of the pool to ensure that adequate collateral is being provided. No portion of the City's funds was invested in derivatives.

The City analyzes its fund balances closely for cash flow purposes. The City is committed to having at least eight weeks' cash flow on hand at any given time.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Huber Heights, Ohio, for its Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2008, the sixteenth consecutive year that the City of Huber Heights has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a unit of government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements; and we are submitting it to the GFOA to determine our eligibility for another certificate.

Preparation of this report is a major and time-consuming task that cannot be accomplished without the professional, efficient and dedicated services of those individuals who assist and contribute to its production. All members of the City's Finance Department Staff, and many of the City's other employees, contributed to this effort. We wish to thank City Council, Department and Division Heads, and all employees who supported this effort to achieve excellence in financial reporting.

Our sincere gratitude goes to members of the Department of Finance Accounting Division Staff including: Michelle Diamond, Debi Jones, Lu Ann Miller, and Crystal Whitley, who contributed to the compilation of this report. We extend our special thanks to Accounting Administrator Jeanne Renick, CPA CPFO and Accountant Elizabeth Dunivan, who above all others played critical roles in producing this report.

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of City Council City of Huber Heights, Ohio

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Huber Heights (the City) as of and for the year ended December 31, 2009, which collectively comprise the City's basic financial statements. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2009, and the respective changes in financial position, and cash flows, where applicable, and the respective budgetary comparisons for the General Fund, Police Fund, and Fire Fund, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 23, 2010, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements, and statistical section, are presented for purposes of additional analysis and are not a required part of the financial The combining and individual nonmajor fund financial statements are the statements. responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

City of Huber Heights, Ohio

Management's Discussion and Analysis For The Year Ended December 31, 2009 Unaudited

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Huber Heights' discussion and analysis of the annual financial report provides an overview of the City's financial activities for the fiscal year ended December 31, 2009. Readers should consider the information presented here in conjunction with additional information that has been furnished in the letter of transmittal, which can be found on pages i-xii of this report.

FINANCIAL HIGHLIGHTS

The City's total net assets increased \$1,514,462. Net assets of governmental activities decreased \$2,422,576 primarily due to a decrease in cash caused by expenditures exceeding revenue in most governmental funds and the decrease in net capital assets due to the depreciation expense exceeding new capital assets. Regarding business-type activities, operating revenues and capital contributions from developers were the main factors in the increase of \$3,937,038.

The general fund transfers out totaled \$5,089,400. This is a decrease of \$337,600 from the prior year. Of the total transfers out, \$3,900,000 was for fire operations, \$700,000 was for police operations, \$37,000 was for general obligation debt service, \$374,000 was for support of special revenue fund park maintenance, \$25,000 was for capital improvements, \$26,370 was for the Assistance to Firefighters Grant city match, and \$27,030 for the city match for the Community Block Grant.

Total business-type operations reflected operating income. Each of the three enterprise funds earned an operating surplus for 2009. Business-type unrestricted net assets are \$27,743,085.

USING THIS ANNUAL FINANCIAL REPORT

This annual report consists of a series of financial statements. These statements are presented so that the reader can understand the City of Huber Heights' financial situation as a whole and also give a detailed view of the City's fiscal condition.

The Statement of Net Assets and Statement of Activities provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Major fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as the amount of funds available for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

REPORTING THE CITY AS A WHOLE

Statement of Net Assets and the Statement of Activities

The analysis of the City as a whole begins with the Statement of Net Assets and the Statement of Activities. These statements provide information that will help the reader determine the City of Huber Heights' financial health as a result of the year's activities. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector companies. All current year revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net assets and changes to those assets. These changes inform the reader whether the City's financial position, as a whole, has improved or diminished. In evaluating the overall financial health, the reader of these financial statements should take into account non-financial factors that also impact the City's financial well being. Some of these factors include the City's tax base and the condition of capital assets.

In the Statement of Net Assets and the Statement of Activities, the City is divided into two types of activities.

Governmental Activities – Most of the City's services are reported in this category including police, fire, leisure time activities, community environment, transportation, and general government.

Business-Type Activities – These services include sewer, water and stormwater management. Service fees for the sewer and the water operations are charged based upon the amount of usage; and service fees for the stormwater utility are assessed by property (parcel) based upon impervious area. The intent is that these activities be financially self-sufficient.

REPORTING THE CITY'S MOST SIGNIFICANT FUNDS

Fund Financial Statements

The analysis of the City's major funds begins on page 14. Fund financial statements provide detailed information concerning the City's major funds — not the City as a whole. Some funds are required by State law and bond covenants. Other funds may be established by the Finance Director, with the approval of Council and Auditor of State, to help control, manage and report money received for a particular purpose or to show that the City is meeting legal responsibilities for use of grants. The City of Huber Heights' major funds are General, Fire, Police, Special Assessment Bond Retirement, Sewer, Water and Stormwater.

Governmental Funds — The majority of the City's services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances remaining at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or less financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Funds – When the City charges citizens for the services it provides, with the intent of recapturing operating costs, these services are generally reported in proprietary funds. Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

THE CITY AS A WHOLE

As stated previously, the Statement of Net Assets looks at the City as a whole. Table 1 provides a summary of the City's net assets for 2009 compared to 2008.

Table 1 Net Assets

| | Governmental Activities | | Busines Activ | |

For governmental activities, equity in pooled cash and cash equivalents decreased \$2,403,081 due to a one-month delay in income tax collection since outsourcing collection combined with a .25% decrease in the City's income tax rate. Municipal income taxes receivable, net, increased in 2009 by 53%. The estimate increased due to the additional month to be collected by the City. Property and other taxes receivable decreased by 8.9% due to a decline in taxable value (assessed value) of public utility personal and tangible personal property within the City. This decline was offset by a slight increase in the real estate valuation. Special assessments receivable decreased (1.9%) due to the collection of past assessments and no new major assessment projects in 2009.

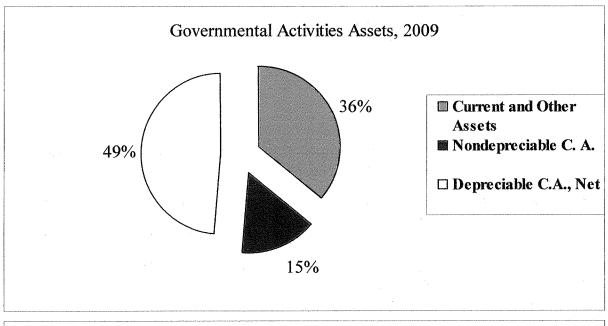

Due from other governments decreased 23.3% due to grant-supported projects being completed during 2009 and a reduction in the Local Government Funds provided by the State of Ohio.

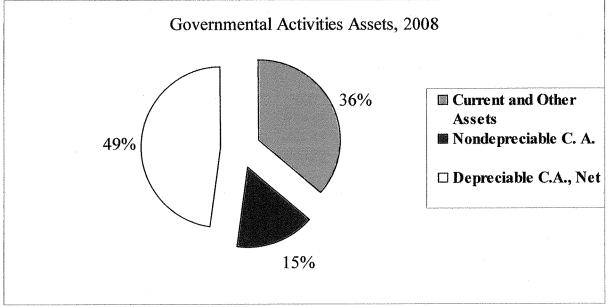

Depreciable capital assets, net decreased due to the increase in accumulated depreciation exceeding the acquisition of capital assets.

Accounts payable decreased 53.6% due to fewer goods and services ordered and received prior to year end because of budget constraints and a decrease in estimated income tax refunds. Contracts payable

decreased due to most capital projects being completed during 2009 as contracts retainage payable increased. Accrued salaries payable increased 12.9% due to normal wage increases and a longer accrual period. Due to other governments decreased 4.3% primarily due to an improvement in the City's experience rating with the Bureau of Worker's Compensation.

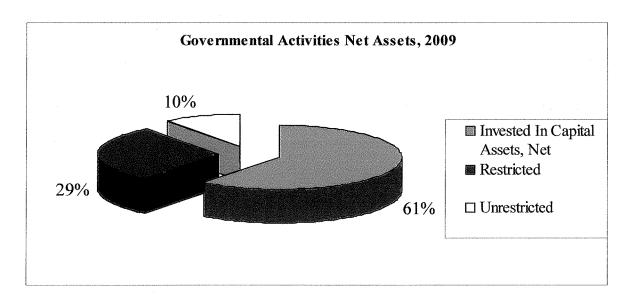

During 2009, a \$1,850,000 Carriage Trails Infrastructure bond anticipation note was issued to assist with the development of public improvements within the approximate 600 acre development. An additional note has been approved for this purpose in 2010. The notes will be retired with the issuance of bonds in the future.

Net assets of the City's governmental activities decreased \$2,422,576 due to depreciation expense exceeding the acquisition of capital assets and transfers of capital assets to the enterprise funds combined with a decrease in municipal income tax revenues.

Restricted net assets are subject to external restrictions as to their use. This category decreased \$1,150,826 from \$35,003,052 at December 31, 2008, to \$33,852,226 at December 31, 2009. This decrease was due to fewer funds being restricted for capital improvements as many projects were completed during 2009.

Total assets for business-type activities increased by \$3.93 million as a direct result of efficient operations which resulted in operating income of \$2,789,146 and the acquisition of capital assets.

The total net assets of the City's business-type activities increased \$3,937,038, equaling the increase in total assets, due to operating revenues covering operating expenses, along with increase in the value of the investment in joint venture and the increase in capital assets. Unrestricted net assets, which are available for future use as directed by City Council, increased \$406,669. The component, "invested in capital assets, net of related debt," increased \$3,530,369 from \$31,058,024 at December 31, 2008, to \$34,588,393 at December 31, 2009. Generally, this means capital asset additions and bond principal repayments were more than depreciation expense and net book value of disposals.

The following financial ratios may be used to assess the financial stability of the City over an extended period of time:

"Liabilities to Net Assets" indicates the extent of borrowing.

| Liabilities to Net Assets | 2005 | 2006 | 2007 | 2008 | 2009 |
|---------------------------|--------|--------|--------|--------|--------|
| Entity-Wide Summary | 41.22% | 38.63% | 35.58% | 32.52% | 32.28% |
| Governmental | 30.55% | 31.20% | 29.98% | 27.43% | 28.06% |
| Business-Type | 66.55% | 54.66% | 47.48% | 42.61% | 39.97% |

"Capital Asset Change" from previous year indicates whether the City financially maintains infrastructure for future generations.

| Capital Asset Change | 2005 | 2006 | 2007 | 2008 | 2009 |
|----------------------|---------|--------|---------|---------|---------|
| Entity-Wide Summary | 3.06% | 4.25% | 1.21% | (2.25%) | 1.21% |
| Governmental | (2.04%) | 0.09% | (0.44%) | (4.09%) | (1.23%) |
| Business-Type | 18.25% | 14.51% | 4.75% | 1.52% | 5.94% |

Table 2 shows the changes in net assets for the years ended December 31, 2009 and December 31, 2008.

The Statement of Activities reports the expenses of each of the governmental activities programs and the related program revenue that offsets the cost of each program. The amount by which the cost of a particular program exceeds its program revenue represents the extent of which that program must be subsidized by general revenues, such as income taxes, property and other taxes, and unrestricted contributions.

Expenses of governmental activities break down as follows:

The following table summarizes the net cost of each program:

| | Year | Year Ended December 31, 2009 | | Year | Year Ended December 31, 2008 | | |
|----------------------------------|--------------|------------------------------|--|--------------|------------------------------|---------------------|--|
| | Expense | Program Revenue | Net Program Cost | Expense | Program Revenue | Net Program Cost | |
| Security of Persons and Property | | | and any production of the configuration of the conf | | | | |
| Fire | \$6,157,894 | \$1,523,545 | (\$4,634,349) | \$6,030,286 | \$1,139,201 | (\$4,891,085) | |
| Police | 6,900,682 | 377,027 | (6,523,655) | 6,439,583 | 379,534 | (6,060,049) | |
| Other | 1,344,250 | 455,554 | (888,696) | 1,325,128 | 379,779 | (945,349) | |
| Leisure Time Activities | 491,037 | 1,871,422 | 1,380,385 | 281,663 | 1,500 | (280,163) | |
| Community Environment | 915,412 | 63,102 | (852,310) | 904,767 | 45,627 | (859,140) | |
| Transportation | 7,267,279 | 2,328,609 | (4,938,670) | 5,285,196 | 2,586,620 | (2,698,576) | |
| General Government | 3,723,292 | 346,902 | (3,376,390) | 5,817,955 | 5,389,653 | (428,302) | |
| Interest and Fiscal Charges | 1,076,028 | 0 | (1,076,028) | 1,225,990 | 0 | (1,225,990) | |
| Total Governmental Activities | \$27,875,874 | \$6,966,161 | (\$20,909,713) | \$27,310,568 | \$9,921,914 | (\$17,388,654) | |

Overall, the net program cost of governmental activities increased by \$3,521,059 or 20.25%. Public safety's net program cost (security of persons and property) increased by \$150,217 over 2008, or 1.26%, due mainly to the annual increase in personnel costs of 2.83% for 2009 offset by an increase in program revenue due to increased EMS fees and a fire assistance grant. The additional 0.30% income tax levy that became effective January 1, 2006, is helping to alleviate some of the burden to the General Fund for this program.

Leisure time activities' net program cost decreased \$1,660,548 due to the capital contribution of an approximately 122 acre park from Montgomery County. The green space with all of the improvements, such as parking areas, tennis courts, baseball and soccer fields, was valued at \$1,805,902. The increase in program revenue was offset slightly by increased program expenses for operating the park for four months in 2009.

Transportation's net program cost increased by \$2,240,094 or 83%. The program expense increased by \$1,982,083 - 37.5% as program revenue declined \$258,011 or 10%. Program expense increased for additional work for which the City issued a \$1.85 million note for infrastructure development within the Carriage Trails Development addressed earlier. Program revenue decreased due to a decline in intergovernmental assistance and a decrease in capital grants and contributions for new development being dedicated to the City.

General Government's net program cost increased 688%. Program revenues and expenses decreased to a normal level. In 2008, the purchase of rights for the general public's use of areas within a new development had increased expenses by \$2 million. Also in 2008, program income had increased by over \$5 million for a one-time special assessment project.

Overall, the program revenue decreased 29.79%. The decrease in charges for service of \$4.78 million was offset by the increase in capital grants, contributions and interest of \$2.04 million. Program expenses increased \$565,306 or 2.1%. As explained above, General Government expense decreased with a similar increase in Transportation expense.

The general revenue municipal income taxes decreased \$1,438,669 (9.9%). This decrease was predicted due to the decline in over-all economic environment and a decrease in the City's income tax rate from 2.25% to 2.0%. The income tax decrease was offered by the City's Council to stimulate development. Voters approved the decrease at the general election in November 2008 to become effective January 1, 2009. The 0.25% decrease was a reduction in the portion of the rate allocated to the General Fund. Withholding taxes make up approximately 75.4% of total income tax collections, and non-withholding resident taxes make up approximately 16.3%. Business taxes make up approximately 8.3% of collections.

The general revenue property and other taxes decreased by \$10,951 (0.27%) as a result of the elimination of the general business tangible property taxes. The only remaining tangible property tax for telecommunication property is being phased out by 2010. This decrease of \$16.3 million was offset by increases in the assessed value of real property of \$7,988,500 and public utility personal of \$160,850. Of the real estate taxes paid by City residents, approximately 64% is for Huber Heights City School District. 21% is for Montgomery County, 6.5% is for the City, with the remaining 8.5% to the Miami Valley Career Technical Center, Dayton Metro Library and Sinclair Community College.

Payment in lieu of taxes resulted from the implementation of four tax increment financing districts. The implementation of the districts replaces real property taxes on new construction and improvements to existing properties. With these districts, the City will collect revenues that would have been distributed to the city, school district and the county in the form of real estate taxes. These revenues are dedicated for use to retire debt and provide capital improvements benefiting the districts.

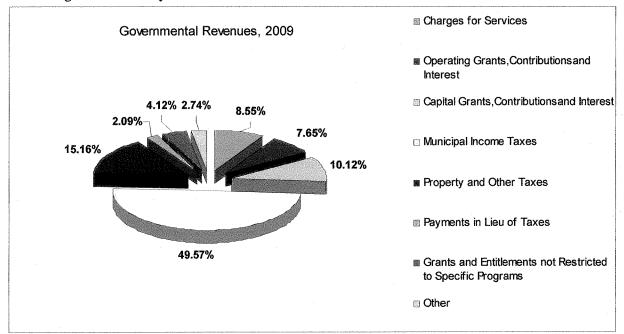

The general revenue grants and entitlements decreased due to a decline in intergovernmental assistance to the General Fund of \$551,271. Investment earnings decreased due to the general decline in interest rates.

For business-type activities, 2009 program revenues decreased \$204,756 or 2.1%. Charges for services declined \$138,561 (1.55%) and capital contributions from developers declined \$66,195 (7.7%). All of the enterprise funds showed a slight decrease in charges for services. There were no rate increases in 2009. Program expenses decreased \$18,289 less than 0.25% increasing 5.5% in the Sewer Fund as the Water and Stormwater funds decreased. All three of the enterprise funds reported operating income for 2009. The City strives to control operation expenses for business-type activities in order to maintain stability in charges for services for the consumers.

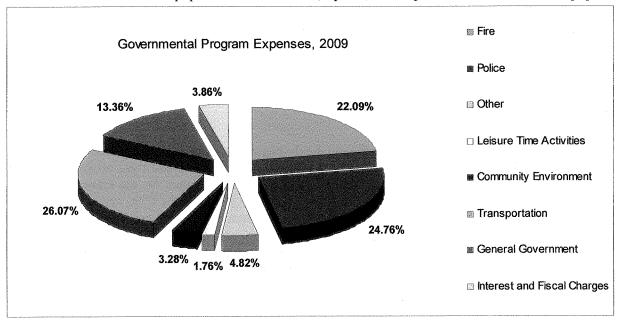

Governmental Activities

The 2.0% municipal income tax, reduced from 2.25% as of January 1, 2009, remains the largest source of revenue for the City. By ordinance, 0.75% of the of the net income tax received is designated for general fund activities; 0.8% is designated for public safety, which includes police and fire operations and fire capital purchases; 0.25% is designated for local street operations; 0.20% is designated for local street capital maintenance and repairs. Of the 0.8% for public safety, 0.5% is permanent and 0.3% is temporary, unless extended by the voters.

Municipal income tax general revenue decreased 9.9% from \$14,558,660 in 2008 to \$13,119,991 due to the slowing in the economy combined with the decrease in the rate.

City Council and Administration have a quality of life commitment to the citizens and businesses located in Huber Heights. With this in mind, City Council committed through appropriations over \$9.0 million for capital assets and equipment. These assets included street resurfacing, sidewalk replacements, safety and street maintenance equipment and vehicles, parks, and parks and recreation equipment.

As indicated above, citizen safety and well being is emphasized with over 82.8% of the program expenses dedicated for fire, police, leisure time activities, community environment, and transportation. City Council relies mainly on municipal income tax to furnish the quality of life to businesses and citizens to which they have always been committed.

Program revenues from governmental activities decreased \$2,955,753 as a result of a decrease in charges for services of \$4,776,664 offset by an increase in capital contributions of \$2,044,637. General revenues decreased by \$2,189,937 with significant decrease in municipal income tax, grants and entitlements, and investment earnings. Overall program expenses increased \$565,306 with a significant increase in transportation offset by a decrease in general government. No general revenues were used to support the business-type activities of the City as in the past.

Business-Type Activities

The City's business-type activities include Sewer, Water and Stormwater.

Sewer Treatment – Prior to 1996, the City wastewater treatment services were contracted with the Miami Conservancy District. In 1996, the Conservancy District decided they no longer wanted to furnish this service. A joint venture was formed among the Cities of Huber Heights, Vandalia and Tipp City to take over the Conservancy District operation. This joint venture now furnishes wastewater treatment services to each city. Each city owns and maintains the infrastructure necessary to furnish services to their citizens. All capital repairs and upkeep of the treatment plant are the responsibility of the joint venture. The joint venture in turn sets costs of service for the cities, based on flow, to maintain the plant. The City of Huber Heights charges its residents accordingly. At this time, any capital outlay needed to maintain Huber Heights sewer infrastructure is provided from resident charges.

Sewer and Water Operations – In January of 1994, the citizens of Huber Heights voted overwhelmingly to endorse the City's acquisition of the Ohio Suburban water and wastewater systems from American Water Works of Voorhees, New Jersey. On September 29, 1995, the City completed this acquisition enabling the City to more effectively attract new development to the community particularly through new annexations and service extensions while at the same time keeping water and sewer rates low. During 2001, the City began an operations study to identify the short and long range plans for the utility and to identify funding sources for the targeted projects. In late 2002, the City Council authorized increases in the rates for water and sewer, over a five year period, to fund various projects identified in the Plan. Currently, there are no plans for any rate increases, however, the City has completed a rate study and model to ensure that it can maintain operations, planned capital improvements and required debt service.

Stormwater – In February 2002, City Council established the citywide stormwater management program. The fees charged are based upon a formula of impervious area and is applied based upon an equivalent residential unit (3,431 sq. ft.). The revenues generated are used to fund operating and capital costs associated with this program.

THE CITY'S FUNDS

Information about the City's major governmental funds begins on page 24. These funds are reported using the modified accrual basis of accounting. All Governmental funds had total revenues of \$23.9 million and expenditures of \$27.5 million. The net change in fund balance for the General Fund is a decrease of \$959,166. The General Fund is the primary operating fund of the City, accounting for such activities as security of persons and property (dispatch and general lighting), community environment (planning and development, engineering), and general government (mayor, council, central services, management, finance/accounting, finance/taxation, legal, information services, human resources, building and grounds, and court facility). Within the General Fund, municipal income tax revenue decreased \$1,915,381 due primarily to the rate reduction and interest revenue decreased \$595,171 or 53% due to calls on federal agency investments and a decline in interest rates. General fund expenditures remained

nearly the same. Revenues exceeded expenditures \$4.1 million. Transfers to other funds totaled \$5,089,400. The funds transferred were used to support special revenue public safety (police and fire) and recreation programs, debt service and capital asset acquisition.

The net change in fund balance for the Fire Fund was a decrease of \$468,345. Fund balance at December 31, 2009, was \$1,171,903. The net change in fund balance for the Police Fund was a decrease of \$1,098,404. Fund balance at December 31, 2009, was \$1,349,472. These decreases were directly related to decreases in municipal income tax and property tax revenues.

The net change in fund balance for the Special Assessment Bond Retirement Fund was a decrease of \$45,003, with fund balance at year-end of \$196,030. This fund is used to account for the receipt of special assessments and the payment of the associated special assessment debt. Revenues and expenses for this fund remain relatively stable from year to year unless additional special assessment debt is issued.

Unreserved, undesignated fund balance is available for spending at the City's discretion. The remainder of fund balance is reserved to reflect that it is not available for new spending because it has already been committed to liquidate contracts and purchase orders of prior periods and to pay for a variety of other restricted purposes. The City's original budget for 2009 anticipated using a portion of available carryover fund balance as 2009 estimated expenditures were expected to exceed 2009 estimated revenues. It is anticipated that the City will continue to use a portion of available carryover fund balance to supplement funding of current operations for the next two to three budget years. The City has built a strong reserve fund balance and strongly believes the reserve will be sufficient to maintain current operations as the City continues to seek ways to reduce expenditures and increase revenues during these tough economic conditions.

The Sewer, Water, and Stormwater enterprise funds reflected operating incomes for 2009. Charges for services for sewer, water and stormwater services have been established to ensure that on a cash basis, fees are adequate to cover operations as required in the City's bond covenants. Council has set fees with the intention of funding operating costs, capital improvements and debt service. During 2002, the City authorized five years of annual increases in both Sewer and Water rates which provided funding for various capital projects including the expansion of the water treatment plant, and for the replacement of sewer and water lines. A professional 5-year rate study was conducted in 2008 and at this time there are no rate increases anticipated.

The Sewer fund's statement of cash flows has a net cash increase of \$976,370 reflecting a decrease in cash payments for employee services and benefits, and to suppliers for goods and services. Charges for services also decreased, but the net result was an increase in the net cash provided by operating activities. Net transfer out increased but acquisition of capital assets and interest income decrease.

The Water fund's statement of cash flows shows net cash decrease of \$279,448. The charges for services and cash payments for employee services and benefits decreased slightly while cash payments to suppliers increased resulting in \$2,446,251 net cash provided by operations. The acquisition of capital assets and the debt service payments remained consistent with prior years. Transfers increased slightly, but the decline in interest income was significant.

The Stormwater fund's statement of cash flows displays a net cash increase of \$161,071, reflecting an increase in cash received from customers and decreases in cash payments for employee services and benefits and to suppliers for goods and services, resulting in net cash provided by operating activities of \$326,903. The increases in transfers out and capital asset acquisition reduced net cash flows.

General Fund Budgeting Highlights

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of receipts, disbursements and encumbrances. The City's budget is adopted on a fund basis. Before the budget is adopted Council reviews detailed budget worksheets of each function within the General fund and then adopts the budget on a fund basis.

During 2009, there were nine revisions to the General fund budget. The net effect of the revisions was an increase in the appropriations of \$113,373, not including other financing uses. Increases in general government appropriations accounted for 77% of the increase. Advances out, part of other financing uses, had the largest increase due to unanticipated projects for which the City will be reimbursed.

Within each departmental/divisional function, the respective manager may make line item adjustments within their budgets within the broad categories of personal services and operations and capital with the approval of the City Manager, as long as the total does not exceed the total current budget appropriation. All other changes require Council approval.

Original General Fund budgeted revenue including other financing sources was \$10,498,074. The final budgeted amount including other financing sources was \$10,342,490. Municipal income tax collections were revised downward after a mid-year analysis of actual year-to-date receipts. The estate taxes received, which are part of intergovernmental revenue, decreased from \$235,000 in 2008 to \$88,800 but were near the projected amount. Charges for services increased due to charging Butler Township for dispatch services which began in October of 2009 and increase in zoning, inspection, and plan review fees after a mid-year review.

CAPITAL ASSETS AND DEBT ADMINISTRATION

77-4-1

See Note 7 of the notes to the basic financial statements for more detailed information.

Significant capital activity for the year included:

Governmental Activities

I-70/State Route 202 Enhancement – This \$1 million project, including the City's share, provides landscaping at one of the major entrances to the City. The three-year project was completed in October 2009.

2009 Street Improvement Program – This project provides for the resurfacing and repair of a mix of local and collector streets throughout the City at a cost for 2009 of approximately \$1.37 million. The street improvements were made on various streets throughout the City, including Chambersburg, Charlesgate, Longford and Rip Rap Roads, Center Point 70 and various ancillary streets.

2009 Sidewalk Program – This project provided for concrete replacement work predominately located In the south-west portion of the City. The area was bordered on the west by Old Troy Pike, on the east by Mangold Drive, extending just north of Powell Road. The total cost of the project was \$121,814.

Traffic Signal Grant – This project provided for the interconnection of signals on State Route 201 and State Route 202 for a total project cost of \$1.4 million. The City is responsible for 35% of the cost up to a maximum of \$489,000, with a federal TEA grant subsidizing the remainder of the project costs of approximately \$900,000.

Senior Citizens Center Addition – This \$375,000 project provides for the design and construction of a 1,200 square-foot addition that when complete will include handicap accessible restrooms, two addition multi-purpose rooms and a remodeled lobby area. The project was completed in May 2009.

Tom Cloud Park – This acquisition was a donation from Montgomery County of an approximately 22-acre park. The donated land was valued at \$791,690 with depreciable assets valued at \$1,099,354. Assets acquired in the acquisition included parking lots, baseball and soccer fields, tennis courts, shelters, playground equipment, a walking path and maintenance equipment.

Business-Type Activities

Radio-read Meters – This \$3.2 project provided for the upgrade of all water meters to radio-read meters throughout the City. The upgrade will allow for monthly reads versus quarterly reads. The new meters will allow for more accurate determination of water loss and earlier detection of faulty meters.

Stormwater Management Program – This project stabilized additional areas of Wildcat Run and the replacement of the storm sewer at Citrus Circle. The projects were completed in 2009 at a final cost of \$135,084.

Debt

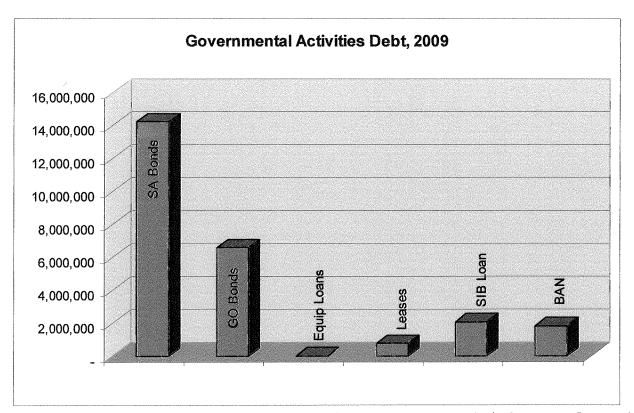

At December 31, 2009, the City of Huber Heights had \$49,272,819 in outstanding debt.

Table 4
Outstanding Debt at Year-End

| | Governmental Activities | | | ss-Type vities |
|---------------------------|-------------------------|--------------|--------------|-------------------|
| | 2009 | 2008 | 2009 | 2008 |
| Special Assessment | | | | , |
| Bonds | \$14,250,000 | \$15,020,000 | \$0 | \$0 |
| General Obligation | | | | |
| Bonds | 6,585,000 | 7,310,000 | 0 | 0 |
| Equipment/Vehicle | | | | |
| Loans | 17,320 | 65,963 | 1,187 | 3,503 |
| Vehicle Leases | 760,964 | 926,339 | 0 | .0 |
| State Infrastructure Loan | 2,093,585 | 2,152,649 | 0 | 0 |
| Notes Payable | 1,850,000 | 0 | 0 | 0 |
| Revenue Bonds Payable | 0 | 0 | 21,044,309 | 21,591,061 |
| OWDA Loan Payable | 0 | 0_ | 2,670,454 | 3,059,091 |
| Total | \$25,556,869 | \$25,474,951 | \$23,715,950 | \$24,653,655 |

Special Assessment bonds will be paid with special assessment revenue.

All general obligation bond issues will be paid through the General Obligation Bond Retirement Debt Service Fund with property tax and other revenues including transfers from various funds, based at least in part on municipal income and property tax revenues. The equipment/vehicle loans will be paid by the funds that are using the capital assets. The Water Fund's revenue bonds are paid from operating revenues of the water enterprise operation. The OWDA loan is paid from Sewer Enterprise Fund revenue.

Ohio law restricts the amount of debt that a City may issue. The aggregate principal amount of unvoted "net indebtedness" may not exceed 5.5% of the assessed valuation for property tax purposes of all real and personal property located within the City. Certain debt with a repayment source other than general tax revenues is excluded from the definition of net indebtedness. An additional statutory limitation restricted total indebtedness — both voted and unvoted — to 10.5% of the real and personal property assessed valuation.

Based on the City's assessed valuation during 2009, the 5½% unvoted debt limitation was \$37,598,648, and \$7,101,352 of City debt was within this limitation. Therefore, there remained \$30,497,296 of debt-issuing capacity available to the City under this limitation. The 10½% total indebtedness limitation was \$71,779,237, and \$7,471,352 of City debt was within this limitation. Therefore, there remained \$64,307,885 of debt-issuing capacity available to the City under this limitation. See Note 14 of the notes to the basic financial statements for more detailed information.

CONTACTING THE CITY'S DEPARTMENT OF FINANCE

This financial report is designed to provide our citizens, taxpayers, creditors and investors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Jeanne Renick, Accounting Administrator, City of Huber Heights, 6131 Taylorsville Road, Huber Heights, Ohio 45424. You can also contact the City by calling (937) 233-1423 or visiting the Internet at www.hhoh.org.

Non-Cash Transactions:

During 2009, the Sewer, Water, and Stormwater Enterprise Funds had capital contributions for capital assets from governmental funds of \$611,640, \$394,304 and \$347,459, respectively. In addition, Enterprise Funds had capital contributions for capital assets from developers of \$348,358, \$236,207 and \$208,127, respectively. The Water Enterprise Fund had accretion of capital appreciation bonds of \$568,248. In 2005, the City issued bonds to refund debt originally issued in 1995, which realized an accounting gain. Amortiztion of the accounting gain for 2009 was \$38,667.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 1 – DESCRIPTION OF THE CITY AND REPORTING ENTITY

The City of Huber Heights ("the City") is a charter municipal corporation operating under the laws of the State of Ohio. The community was established in 1810 as Wayne Township and was granted City status on November 29, 1979. It was incorporated on January 23, 1981. The charter was adopted on November 8, 1983, and became effective January 1, 1984. The municipal government provided by the charter is known as a Council/Manager form of government. Legislative power is vested in a nine-member Council, six members elected by wards and two elected at large, and a Mayor who is elected separately. The Council appoints a City Manager. The City Manager is the Chief Executive and Administrative Officer and the head of the administrative agencies of the City. The City Manager appoints all Department/Division heads and employees, except the City Attorney and Clerk of Council and staff, who are appointed by City Council.

The Department of Public Safety consists of the following divisions: Fire, Police, Public Works, Information Systems, and Buildings and Grounds. The Fire Division continues to be a first-class operation achieving a fire insurance rating of 2 for the community. The Police Division provides first rate public safety protection and was awarded accreditation by the Commission on Accreditation for Law Enforcement Agencies (CALEA). The Communications Division was also awarded accreditation by CALEA, the first ever awarded in the State of Ohio. The Division of Public Works maintains all public thoroughfares, public facilities, and all city vehicles. Public facilities includes parks and recreation, including maintenance of 14 parks with over 230 acres of park land that include ball fields, basketball courts, fitness courses, football fields, picnic and shelter facilities, playgrounds, soccer fields, tennis courts, volleyball courts, and walking trails. Public facilities also include the Senior Center, a City-owned building which is staffed with a coordinator and volunteers. The Senior Center has its own separately elected Board. The Department of Finance is responsible for overseeing the budget and managing the daily monetary activities of the City. This Department includes the Division of Accounting and the Division of Taxation (income tax). The Department of Public Services includes the Division of Engineering, the Division of Water and Wastewater, and the Division of Community Services and Special Projects. All road improvement plans, water/sewer improvements, stormwater construction, and inspections are administered by the Division of Engineering. The City has personnel charges for the allocation of City staff payroll to the utilities for the portion of staff time spent on utility activities. United Water NACO, LLC manages the water, wastewater, and stormwater system for the City. The Department of Planning and Development is responsible for planning, economic development, marketing, zoning, permitting, property maintenance, and housing inspections. The City Manager also serves as the Director of Human Resources.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds and departments that are not legally separate from the City. The primary government provides various services including police and fire protection, emergency medical services, parks and recreation, planning, zoning, building inspection, court facilities, street maintenance and repair, community development, public health and welfare, sewer, water and stormwater. Council and the City Manager have direct responsibility for these activities.

City Council also appoints various boards and commissions to oversee different aspects of the community. These boards and commissions are filled by volunteers who dedicate their time to making the City better for all residents and business owners.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 1 – DESCRIPTION OF THE CITY AND REPORTING ENTITY (Continued)

The current boards and commissions are as follows:

Citizen Water/Sewer Advisory Board Property Maintenance Board Parks and Recreation Board Personnel Appeals Board Senior Advisory Board Tax Appeals Board Zoning Appeals Board Arts Commission
Beautification Commission
City Planning Commission
Ordinance Review Commission
Records Commission
Youth Commission

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board; and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt or the levying of taxes. The City does not have any component units included in its reporting entity.

The City participates in the Tri-Cities North Regional Wastewater Authority (Tri-Cities) and the Joint Economic Development District (JEDD), which are defined as joint ventures. A joint venture is a legal entity or other organization that results from a contractual arrangement and that is owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain (a) an ongoing financial interest or (b) an ongoing financial responsibility. These organizations are presented in Note 18.

The City also participates in the Miami Valley Regional Planning Commission (the Commission), the Miami Valley Fire/EMS Alliance (the Alliance), the Economic Development/Government Equity Program (ED/GE), the Regional Emergency Response Team (RERT), the First Suburbs Consortium of Dayton, Ohio Council of Governments (First Suburbs Consortium), and the Community Improvement Corporation of Huber Heights (CIC), which are defined as jointly governed organizations. A jointly governed organization is governed by representatives from each of the governments that create the organization, but there is no ongoing financial interest or responsibility on the part of the participating governments. These organizations are presented in Note 19.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Huber Heights have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The City also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise funds provided they do not conflict with or contradict GASB pronouncements. The City has elected not to apply FASB pronouncements and interpretations issued after November 30, 1989, to its business-type activities and to its enterprise funds. The most significant of the City's accounting policies are described below.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the City that are governmental in nature and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the City at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business segment is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are two categories of funds utilized by the City: governmental and proprietary.

Governmental Funds

Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

General Fund - This fund accounts for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Ohio and the Charter of the City.

<u>Fire Fund</u> – This fund is used to account for voted tax millage, City income tax and miscellaneous revenue to finance the fire department operation.

<u>Police Fund</u> – This fund is used to account for voted tax millage to finance the police department operation and for a portion of City income tax which is to be used for police department operation.

<u>Special Assessment Bond Retirement Fund</u> – This fund is used to account for special assessments collected for the payment of special assessment bonded debt with governmental commitment.

The other governmental funds of the City account for grants and other resources whose use is restricted for a particular purpose.

Proprietary Funds

Proprietary funds focus on the determination of operating income, changes in net assets, financial position, and cash flows. The City's proprietary funds are enterprise funds.

<u>Enterprise Funds</u> – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The following are the City's major enterprise funds:

<u>Sewer Fund</u> - This fund is used to account for the provision of sanitary sewer service to the residents and businesses of the City.

 $\underline{\text{Water Fund}}$ - This fund is used to account for the provision of water service to the residents and businesses within the City.

<u>Stormwater Fund</u> – This fund is used to account for funds used for improvements to the City's green space, structures and natural watercourses, thereby maintaining the City's creeks.

Measurement Focus

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the City are included on the statement of net assets. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net assets.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all enterprise funds are accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its enterprise activities.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; enterprise funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transaction

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Measurable means the amount of the transaction can be determined and available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within thirty days of year-end.

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include property taxes, municipal income taxes, grants, entitlements, shared revenues and donations. On the accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied (See Note 6). Revenue from municipal income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: municipal income taxes, charges for services, fines and forfeitures, state-levied locally shared taxes (including gasoline tax), grants, and interest.

Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2009, but were levied to finance 2010 operations, have been recorded as deferred revenue. Payments in lieu of taxes, grants and entitlements received before the eligibility requirements are met have also been recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds, except cash held by fiscal agents, are maintained in this pool. Individual fund integrity is maintained through City records. Interest in the pool is presented as "equity in pooled cash and cash equivalents" on the financial statements.

Cash and cash equivalents that are held separately in accounts at a financial institution for retainage and bond reserve and debt service and not held with the Director of Finance are reported as "cash and cash equivalents with fiscal agents" and represent deposits.

During 2009, the City invested in the State Treasury Asset Reserve of Ohio (STAR Ohio), Bank of New York Trust Cash Reserve Fund, National City Commercial Money Market, a repurchase agreement and money market securities issued by the Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, Federal Farm Credit Bank, and the Federal Home Loan Bank.

Investments are reported at fair value which is based on quoted market prices, with the exception of non-participating repurchase agreements, which are reported at cost. For investments in open-end mutual funds, fair value is determined by the fund's share price.

The City has invested funds in STAR Ohio during 2009. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2009.

Interest income is distributed to the funds according to charter and statutory requirements. Interest revenue of \$516,765 was credited to the General Fund during 2009, which includes \$399,350 assigned from other City funds.

Investments with an original maturity of three months or less at the time of purchase and investments of the cash management pool are reported as cash equivalents on the financial statements.

Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2009, are recorded as prepaid items using the consumption method. A current asset is recorded for the prepaid amount at the time of purchase and reflects the expenditure/expense in the year in which services are consumed.

Inventory of Supplies

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. On fund financial statements, inventories of governmental funds are stated at cost while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased. Inventories of the proprietary funds are expensed when used. Inventory consists of expendable supplies held for consumption.

Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the enterprise funds represent cash and cash equivalents and cash and cash equivalents with fiscal agents set aside for the improvement and replacement of capital assets originally acquired with bond proceeds and for repayment of current debt service on revenue bonds that are required by the bond indenture to be held by a financial services corporation.

Capital Assets

General capital assets are capital assets that are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets used by the enterprise funds are reported in both the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market values on the date donated. The City maintains a capitalization threshold of five thousand dollars. Improvements are

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expended.

All capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacements. Depreciation is computed using the straight-line method over the following useful lives:

| Description | Estimated Lives |
|---------------------|-----------------|
| Buildings | 10-50 years |
| Equipment | 3-20 years |
| Furniture, Fixtures | |
| and Improvements | 7-20 years |
| Vehicles | 5-20 years |
| Infrastructure | 15-60 years |

The City's infrastructure consists of streets, bridges, sidewalks, curbs, gutters, lighting systems, storm and sanitary sewer lines, and water lines.

Interfund Balances

On fund financial statements, outstanding interfund loans and unpaid amounts for interfund services are reported as "interfund receivables/payables." On fund financial statements, long-term interfund loans are classified as a fund balance reserve account on the balance sheet which indicates that they do not constitute available expendable resources. Interfund balances are eliminated on the government-wide statement of net assets except for any net residual amounts due between governmental and business-type activities, which are presented as "internal balances."

Compensated Absences

Vacation, personal leave and compensatory time benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for all accumulated unused vacation, personal leave and compensatory time when earned for all employees with more than six months of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at year-end, taking into consideration any limits specified in the City's termination policy. The City records a liability for accumulated unused sick leave for all PERS employees after 13 years of current service, while the City records a liability for all Police and Fire employees after 15 years of current service.

The entire compensated absences liability is reported on the government-wide financial statements. On governmental fund financial statements, compensated absences are reported as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the funds from which the employees will be paid.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Arbitrage

The Federal Tax Reform Act of 1986 requires issuers of tax-exempt debt to make payments to the United States Treasury of investment income received at yields that exceed the issuer's tax-exempt borrowing rates. Although arbitrage earnings are rebated to the U. S. Treasury on a five-year installment basis, the City's bond counsel prepared rebate calculations to assure that the City stays current on compliance issues and to facilitate accountability for any potential rebate liability. For the year ended December 31, 2009, the City determined that an arbitrage liability did not exist.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the enterprise funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However compensated absences that will be paid from governmental funds are reported as a liability on the fund financial statements only to the extent that it is due for payment during the current year. Long-term loans, notes, and bonds are recognized as liabilities on the governmental fund financial statements when due.

Capital Contributions

Contributions of capital arise from outside contributions of capital assets, from grants or outside contributions of resources restricted to capital acquisition and construction or transfers from governmental capital assets.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The government-wide statement of net assets reports \$35,052,226 of restricted net assets of which \$1,200,000 is restricted by enabling legislation.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

The City's Sewer and Water Enterprise Funds have restricted net assets relative to those resources necessary to comply with various covenants of bond financing agreements.

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise funds. For the City, these revenues are charges for services for sewer, water and stormwater utility services. Operating expenses are the necessary costs incurred to provide the service that is the

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

primary activity of the fund. Revenues and expenses that do not meet these definitions are reported as non-operating.

Fund Balance Reserves

The City reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent expendable resources and therefore are not available for appropriation or expenditure. As a result, encumbrances, supplies inventory, long-term interfund loans and unclaimed monies are recorded as a reservation of fund balance.

Interfund Transactions

Transfers within governmental activities are eliminated on the government-wide financial statements. Payments of interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in enterprise funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Bond Premiums/Issuance Costs/Accounting Gain and Loss/Compounded Interest on Capital Appreciation Bonds

Bond premiums, issuance costs, and accounting gains/losses are deferred and amortized over the term of the bonds using the straight line method since the results are not significantly different from the effective interest method. Capital appreciation bonds are accreted each year for the compounded interest accrued during the year.

Bond premiums and the compounded interest on the capital appreciation bonds are presented as an addition of the face amount of the bonds payable whereas issuance costs are recorded as deferred charges.

On the governmental fund financial statements, amortization of bond premiums, bond issuance cost, accounting loss, accrued interest payable, and the accretion of bonds is not reported.

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Process

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The appropriation resolution is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of control has been established by Council at the object level for all funds (personal services, operations and capital, transfers, advances and debt service). Any budgetary modifications at this level may only be made by resolution of Council. The City Manager may approve line item modifications within these object levels.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Director of Finance. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final certificate requested during 2009.

The appropriation resolution is subject to amendment by Council throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year. Prior year encumbrances are automatically carried forward. The amounts reported as the final budgeted amounts represent the amounts in the certificate that was in effect at the time the final appropriation amounts were passed by Council.

NOTE 3 – BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP basis), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statements of Revenues, Expenditures, and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual, presented for the General, Fire, and Police Funds are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Outstanding year-end encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance for governmental fund types (GAAP basis).
- 4. Unreported cash represents amounts received but not included as revenue on the budget basis operating statements. These amounts are included as revenue on the GAAP basis operating statements.
- 5. The change in fair value of investments is not included on the budget basis operating statement. This amount is included as revenue on the GAAP basis operating statement.
- 6. Receipt and payment of year-end interfund loans are treated as other sources or uses (budget basis) rather than an increase or decrease in an asset or liability account (GAAP basis).

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 3 - BUDGETARY BASIS OF ACCOUNTING (Continued)

The adjustments necessary to convert the results of operations for the year on the GAAP basis to the budget basis for the General Fund, Fire, and Police Funds are as follows:

Net Change in Fund Balance

| | General Fund | Fire Fund | Police Fund |
|--|-----------------|--------------|----------------|
| GAAP Basis | (\$959,166) | (\$468,345) | (\$1,098,404) |
| Adjustments: | | | |
| Revenue Accruals | (407,375) | (26,196) | (200,804) |
| Expenditure Accruals | (19,873) | 19,712 | 25,259 |
| Unrecorded Cash - 2008 | 188,527 | 5,208 | 48,232 |
| Unrecorded Cash – 2009 | (71,150) | (23) | (2,389) |
| Change in Fair Value of Investments – 2008 Change in Fair Value of | 462,618 | 0 | 0 |
| Investments – 2009 | (194,035) | 0 | 0 |
| Encumbrances | (620,304) | (406, 144) | (428,124) |
| Transfers | 3,142 | 509 | 0 |
| Advances | 506,143 | 0 | 0 |
| Budget Basis | (\$1,111,473) | (\$875,279) | (\$1,656,230) |

NOTE 4 - FUND DEFICITS

Non-major Capital Projects Funds - Assistance to Firefighters Grant Fund and the Carriage Trails Infrastructure Fund - had fund balance deficits at December 31, 2009 of \$25,503 and \$1,823,180 respectively. The Assistance to Firefighters Grant Fund deficit is the result of an interfund payable for a pass-through grant. The deficit will be eliminated in 2010 with the reimbursement from the Department of Homeland Security. The Carriage Trails Infrastructure Fund deficit is the result of the short-term note payable and will be eliminated by the issuance of additional notes.

NOTE 5 - DEPOSITS AND INVESTMENTS

The City maintains a cash and investments pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheets as "Pooled Cash and Cash Equivalents". The investment and deposit of City monies are governed by the City's legislated investment policy and the Water Revenue Bond covenants. City deposits are collateralized pursuant to State statute.

Deposits

The State of Ohio by statute has established collateral requirements for financial institutions acting as public depositories. A public depository must either pledge specific qualified collateral to individual public fund deposits at a market value of at least 102% of the value of each deposit, or pledge a pool of collateral to all public funds held by the depository at a market value of at least 105% of total public fund deposits. Pooled securities so pledged provide the equivalent of a deposit insurance fund. This approach protects all public entities against a single public depository collapse.

At December 31, 2009, the carrying amount of the City's cash deposits was \$3,587,289 and the bank balance was \$3,685,037. Of the bank balance, \$647,623 was insured by the Federal Deposit Insurance Corporation, \$543,237 was collateralized by a direct pledge of collateral held by the bank's agent in the

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 5 - DEPOSITS AND INVESTMENTS (Continued)

City's name and \$19,179,858 was collateralized by financial institutions' collateral pools held in the financial institutions' names as specified by Section 135.181 of the Ohio Revised Code.

Investments

All investments are reported at fair value, which is based on quoted market prices. During 2009, the City's legislated investment policy authorized investments in the following securities and diversification limits:

| Authorized Investment | Maximum Allowable Percentage of City Cash Deposits & Investments |
|--|--|
| United States Treasury bills, notes, bonds or any other obligation or security issued by the United States Treasury or any other obligation or guaranteed as to principal and interest by the United States; | 100% |
| Bonds, notes, debentures, or other obligations or securities issued by any federal government agency or instrumentality, including but not limited to the Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, Government National Mortgage Association and Student Loan Marketing Association. All such securities shall be direct issuances of federal government agencies or instrumentalities | 20% per obligor |
| No-load money market mutual funds consisting exclusively of securities described above and repurchase agreements secured by such obligations provided all such investments under this paragraph 5 shall be made with a bank or savings and loan association eligible to be a depository for public funds of Ohio subdivisions and provided further that any such fund meets the requirements of Chapter 135 of the Revised Code, including that such fund not include any investment in a "derivative" | 20% |
| Time deposits in duly authorized depositories of the City, provided those deposits are properly insured or collateralized as required by law | 20% |
| Bonds and other obligations of the State of Ohio | 20% |
| Ohio Subdivision's Fund (STAROhio) | 100% |
| Overnight or term (not exceeding 30 days) repurchase agreements meeting the requirements of Section 135.14(E) of the Revised Code, with a bank or savings and loan association eligible to be a depository for public funds of Ohio subdivisions or a member of the National Association of Securities Dealers. | 20% |

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 5 - DEPOSITS AND INVESTMENTS (Continued)

In addition to the foregoing, the City's Water Revenue Bond covenants authorized the investment of Water utility monies in the following types of investments:

| Certificates of deposit, demand deposits or time deposits of any state bank, trust company, or national bank that is a member of the FDIC (including any investment in pools of those certificate/demand/time deposits of such institutions) provided that the deposit is (1) continuously and fully insured by the FDIC, or (2) Issued by an entity that has either unsecured, unguaranteed and uninsured commercial paper rated in the highest rating category or unsecured, unguaranteed and uninsured long-term obligations rated in the third-highest rating category by a Rating Service, or each Rating Service if the obligations are rated by more than one Rating Service; or (3) to the extent not insured by the FDIC, are fully secured by direct obligations of the United States or agencies or instrumentalities of the Unite States that have a market value at least equal to the amount of the deposit | 100% of Water Utility monies |
|---|---------------------------------|
| U.S. dollar-denominated deposit accounts, federal funds and banker's acceptances with domestic commercial banks having a rating on their short-term certificates of deposit of A-1 or A-1+ by Standard & Poor's and P-1 by Moody's and maturing within no more than 360days | 100% of Water Utility monies |
| Money market funds rated AAAm or AAAm-G or higher by Standard & Poor's | 100% of Water Utility monies |

At year-end, obligations of the following issuers represented in excess of 5% of the City's deposits and investment portfolio:

| 7 (011) | Percent of Investment Portfolio | Moody's / Standard & Poors Ratings |
|--|---------------------------------------|--|
| Issuer/Obligor | Portiono | Ratings |
| Federal Home Loan Mortgage Corporation (FHLMC) | 6.01% | Aaa/AAA |
| Federal National Mortgage Association (FNMA) | 14.98% | Aaa/AAA |
| Federal Home Loan Bank (FHLB) | 12.03% | Aaa/AAA |
| National City Bank (Interest Bearing Deposit Acct) | 34.35% | Unrated |
| J.P Morgan Chase Repurchase Agreement | 6.89% | Unrated |

The investment policy prohibits investment in "derivative" securities whose value or return is based upon or linked to another asset or index or both separate from the financial instrument. However, an authorized investment (set forth in the tables above) with a variable interest rate or call features is not prohibited.

The investment policy states that unless matched to a specific cash flow requirement, the City will not directly invest in fixed interest rate securities maturing more than five years from the date of purchase, and will not directly invest in variable rate securities maturing more than two years from the date of purchase. Callable securities are purchased on the assumption that they will not be called before maturity.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 5 - DEPOSITS AND INVESTMENTS (Continued)

Investments are made with the expectation that each will be held to maturity. However, securities are occasionally competitively sold for liquidity purposes.

The investment policy requires delivery of marketable securities, on a delivery-versus-pay basis, to a third-party safekeeping agent. At year-end all marketable securities were held by the City's third-party safekeeping agent in the City's name.

As of December 31, 2009, the City's investment portfolio had the following investments and maturities:

| Investment Type | Fair Value | Less than 1 | 1 - 2 | 2 - 3 | 3-4 | 4 - 5 |
|--|--------------|--------------|-------------|-------------|-------------|-------------|
| State Treasurer's Investment Pool | \$302,068 | \$302,068 | 0 | 0 | 0 | 0 |
| Money Market Mutual Funds U.S. Government- | 18,818,205 | 18,818,205 | 0 | 0 | 0 | 0 |
| Sponsored Corporations | 21,252,115 | 7,991,317 | 2,445,645 | 2,251,513 | 3,086,770 | 5,476,870 |
| Repurchase Agreement | 3,251,703 | 3,251,703 | 0 | 0 | 0 | 0 |
| Total | \$43,624,091 | \$30,363,293 | \$2,445,645 | \$2,251,513 | \$3,086,770 | \$5,476,870 |

NOTE 6 - RECEIVABLES

Receivables at December 31, 2009, consisted of municipal income taxes, property and other taxes, payments in lieu of taxes, accounts (including emergency medical services and billings for utility service), special assessments, accrued interest, and intergovernmental receivables arising from entitlements, grants, and shared revenues. Utility accounts receivable at December 31, 2009, was \$929,098. All receivables, except some municipal income tax revenues and emergency medical service charges for services revenues, are considered collectible in full. Some municipal income tax revenues for outstanding accounts greater than three years old are considered uncollectible, as well as emergency medical service calls that have insurance adjustments or no further collections from indigents. Total municipal income taxes receivable was \$4,221,931 and the uncollectible portion was \$304,087, for a net receivable of \$3,917,844. Total emergency medical service calls receivable was \$1,374,751 and the uncollectible portion was \$932,405, for net accounts receivable of \$442,346. Total net governmental accounts receivable of \$704,883 is the sum of the net emergency medical service calls and other various accounts receivable of \$262,537 for development fees, weed and grass cutting, and reimbursements for damage to City property.

Special assessments expected to be collected in the Special Assessment Bond Retirement Fund, the Sewer Fund, and the Water Fund amount to \$16,007,759, \$7,989, and \$9,758, respectively. The amount recorded in the Other Governmental Funds was \$943,935. At December 31, 2009, the amount of delinquent special assessments was \$293,319.

Income Taxes

For 2009, the City levies a municipal income tax of 2.00% on substantially all income earned within the City. In addition, the residents of the City are required to pay income tax on income earned outside of the City; however, the City allows a credit for income taxes paid to another municipality up to 100% of the City's current tax rate. Changes in the income tax rate require voter approval.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 6 - RECEIVABLES (Continued)

Employers within the City are required to withhold income tax on employee compensation and remit the tax at least quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. Income tax proceeds are to be used to pay the cost of administering the tax and for general, public safety operations, which include police and fire operations, fire capital equipment and a new fire house facility, local street improvements and local street capital improvements.

Property Taxes

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the City. Property tax revenue received during 2009 for real and public utility property taxes represents collections of the 2008 taxes. Property tax payments received during 2009 for tangible personal property (other than public utility property) were for telecommunications (telecom) tangible property (previously reported as general business property). The last year for the tangible personal property for general business property phase-out was 2008. Telecom tangible property tax is also being phased out, but over a different schedule – 10% for 2009 and 5% for 2010. After 2010, the assessment rate will be zero.

2009 real property taxes are levied after October 1, 2009, on the assessed value as of January 1, 2009, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2009 real property taxes are collected in and intended to finance 2010.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2009 public utility property taxes became a lien December 31, 2008, are levied after October 1, 2009, and are collected in 2010 with real property taxes.

The full tax rate for all City operations for the year ended December 31, 2009, was \$11.67 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2009 property tax receipts were based are as follows:

| Real Property | \$668,072,700 |
|---|---------------|
| Public Utility Tangible Personal Property | 10,160,590 |
| Tangible Personal Property | 1,930,790 |
| Total | \$680,164,080 |

Real property taxes are payable annually or semi-annually. If paid annually, the payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

The City receives property taxes from Montgomery, Miami and Greene Counties. The County Treasurers collect property taxes on behalf of all taxing districts in the counties, including the City of Huber Heights. The County Auditors periodically remit to the City its portion of the taxes collected. Property taxes receivable represents real, public utility taxes and outstanding delinquencies which are measurable as of December 31, 2009, and for which there is an enforceable legal claim. In the funds, the entire receivable has been offset by deferred revenue since the current taxes were not levied to finance 2009 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On an accrual basis, collectible delinquent property taxes have been recorded as revenue while the remainder of the receivable is deferred.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 8 - DEFINED BENEFIT PENSION PLANS

Ohio Public Employees Retirement System

The City participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans.

- The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan.
- The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the Member-Directed Plan, members accumulate retirement assets equal to the value of the member and (vested) employer contributions plus any investment earnings.
- The Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to the Traditional Pension Plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits.

Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing to OPERS, Attention: Finance Director, 277 East Town Street, Columbus, OH 43215-4642 or by calling (614) 222-5601 or 800-222-7377.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 8 - DEFINED BENEFIT PENSION PLANS (Continued)

The Ohio Revised Code provides statutory authority for member and employer contributions. For 2009, member and employer contribution rates were consistent across all three plans. Separate divisions for law enforcement and public safety exist only within the Traditional Pension Plan. The 2009 member contribution rates were 10.0 percent for members in state and local classifications and 10.1 percent for public safety members. These are the same contribution rates as in 2008. The City's contribution rate was 14.0 percent of covered payroll for 2009, with 7.0 percent dedicated for pension benefits from January 1, 2009 to March 31, 2009 and 8.5 percent dedicated for pension benefits from April 1, 2009 to December 31, 2009. In 2008, the City's contribution rate was 14.0 percent of covered payroll, with 7.0 percent dedicated for pension benefits. For both the law enforcement and public safety divisions, the employer contribution rate for 2009 was 17.65 percent, up from 17.40 percent in 2008.

The City's required contributions for pension obligations to the Traditional and Combined Plans for the years ended December 31, 2009, 2008, and 2007 were \$290,552, \$213,672, and \$300,115 respectively; 92 percent has been contributed for 2009 and 100 percent for 2008 and 2007. The City encumbered the December pension amount in 2009 but is not invoiced until 2010.

Ohio Police and Fire Pension Fund

The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10 percent of their annual covered salary, while the City is required to contribute 19.5 percent for police officers, with 12.75 percent dedicated to fund pension obligations. For firefighters, the City is required to contribute 24.0 percent, with 17.25 percent dedicated to fund pension obligations. Contributions are authorized by State statute. The City's contributions to the Fund for police and firefighters were \$ 477,622 and \$585,580 for the year ended December 31, 2009, \$471,334 and \$605,702 for the year ended December 31, 2008, and \$464,735 and \$595,364 for the year ended December 31, 2007, equal to the required contributions for each year. The full amount has been contributed for 2008 and 2007. 2009 contributions for police and firefighters were 73 percent and 75 percent respectively with the remainder being reported as a liability. The City encumbered the fourth quarter pension amount in 2009 but is not invoiced until 2010.

NOTE 9 - POSTEMPLOYMENT BENEFITS

Ohio Public Employees Retirement System

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement,

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 9 - POSTEMPLOYMENT BENEFITS (Continued)

to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing OPERS, Attention: Finance Director, 277 East Town Street, Columbus, OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits. Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2009, state and local employers contributed at a rate of 14.0 percent of covered payroll, and public safety and law enforcement employers contributed at 17.63 percent. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14.0 percent of covered payroll for state and local employer units, and 18.1 percent of covered payroll for law and public safety employer units. Active members do not make contributions to the OPEB Plan.

OPERS' Post Employment Health Care plan was established under, and is administered in, accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to health care was 7.0 percent of covered payroll from January 1 through March 31, 2009 and 5.5 percent from April 1 through December 31, 2009. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care coverage by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The rates stated above, are the contractually required contribution rates for OPERS. The City's contribution to fund post-employment benefits in 2009, 2008, and 2007 was \$212,548, \$213,672 and \$213,351.

The Health Care Preservation Plan (HCPP) adopted by the OPERS Retirement Board on September 9, 2004, was effective January 1, 2007. Member and employer contribution rates for state and local employers increased as of January 1 of each year from 2006 to 2008. Rates for law and public safety employers increased over a six year period beginning on January 1, 2006, with a final rate increase on January 1, 2011. These rate increases allowed additional funds to be allocated to the health care plan.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 9 - POSTEMPLOYMENT BENEFITS (Continued)

Ohio Police and Fire Pension Fund

The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing multiple-employer defined post-employment healthcare plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

The OP&F provides access to post-retirement healthcare coverage to any person who receives or is eligible to receive a monthly service, disability or survivor benefit check or is a spouse or eligible dependent child of such person. The healthcare coverage provided by OP&F meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide healthcare coverage to eligible participants and to establish and amend benefits are codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164

The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5 percent and 24.0 percent of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24.0 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree healthcare benefits. For the year ended December 31, 2009, the employer contribution allocated to the health care plan was 6.75 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and also is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

From the City's actual contributions, the amount allocated to the health care plan for police and firefighters was \$252,859 and \$229,140 for the year ended December 31, 2009, \$249,530 and \$237,014 for the year ended December 31, 2008, and \$246,036 and \$232,969 for the year ended December 31, 2007.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 10 - OTHER EMPLOYEE BENEFITS

<u>Deferred Compensation Plans</u>

City employees and elected officials may participate in three statewide deferred compensation plans, the Aetna deferred compensation plan, the Ohio Public Employees Deferred Compensation Plan or the ICMA Retirement Corporation. These plans were created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plans permit deferral of compensation until future years. According to the plans, the deferred compensation is not available until termination, retirement, death or an unforeseeable emergency.

Accumulated Unpaid Vacation

City employees earn vacation leave at varying rates based upon length of service and union contract, employment contract or personnel policy manual. All employees may carry over a maximum of total hours accrued in the past calendar year. For police command, patrol, dispatch officers, and police clerical union employees, excess vacation can carry over up to 90 days with written approval by the City Manager. For Street Division union employees, excess vacation can carry over up to 180 days with written approval by the City Manager. Non-union employees' excess vacation carries over automatically for 90 days. For the firefighters, vacation can carry over into the next calendar year at a maximum of 264 hours. In the event of resignation with two weeks notice, death, or retirement, employees (or their estates) are paid for unused vacation leave. All full-time and part-time employees can convert vacation leave to pay if the employee has at least five years of service with any Ohio political subdivision. If the employee has at least five years of service, up to six days of accrued vacation can be converted each calendar year, except for firefighters, who can convert up to 72 hours. If the employee has at least ten years of service, up to twelve days of accrued vacation can be converted each calendar year, except for firefighters, who can convert up to 120 hours.

Accumulated Unpaid Personal Leave

City employees are entitled to personal leave at varying rates based upon union contract, employment contract or personnel policy manual. Requests for leave are to be submitted with at least 24 hours notice if possible. If the hours are not used within the calendar year, the City Manager is allowed to grant requests for the carry over of personal leave, but the carry over must be used within 90 days. In addition, the City agrees to either grant one day of personal leave or pay a \$75 bonus, at the employee's option, to any non-union full-time employee that does not exceed eight hours of sick leave usage during the previous calendar year, to be credited in January of the following year.

Accumulated Unpaid Sick Leave

City employees earn sick leave at the rate of 5.0 hours per eighty hours of service. There is no maximum carry over from year to year for non-union employees. The maximum balance for all union employees except firefighters is 1,285 hours. The maximum balance for firefighters is 1,800 hours. If at the end of each contract year an employee has a balance greater than their allowed maximum, the excess hours are paid out in a 1:3 ratio at the employee's rate of pay at the contract year end.

Upon retirement, employees are paid for their accumulated leave according to the following schedules. Non-union employees are paid up to a maximum of 480 hours. For police command, patrol, and clerical, dispatch officers, and public works employees, accumulated leave between 1 and 357 is paid at a 1:4 ratio, accumulated leave between 358 and 714 is paid at a 1:3 ratio, accumulated leave between 715 and 1,071 is paid at a 1:2 ratio, and accumulated leave in excess of 1,071 is paid at a 1:1 ratio. For the firefighters, balances between 1 and 500 hours is paid at a 1:4 ratio, accumulated leave between 501 and

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 10 - OTHER EMPLOYEE BENEFITS (Continued)

1,000 is paid at a 1:3 ratio, accumulated leave between 1,001 and 1,500 is paid at a 1:2 ratio, and accumulated leave in excess of 1,500 is paid at a 1:1 ratio.

In the case of death, union employees (or their estates) are paid out 100% of their sick leave balances. The non-union employees pay out is a maximum of 200 days.

Accumulated Unpaid Compensatory Time

From time to time, employees may need to work overtime with prior approval from their supervisors. These overtime hours will usually be paid at the appropriate overtime rate; however, certain union employees by contract have the choice to take overtime pay or accrue compensatory time at one and one half times the amount of hours worked. For Street Division employees, any overtime hours worked in excess of 8 overtime hours in one day or 24 hours in a two week pay period are compensated at two times the regular hourly rate. Per contract agreement, different unions can accumulate compensatory time to different levels. The maximum hours allowed are as follows: Street Division - 80 hours, Police Clerks - 48 hours, Patrol Officers - 72 hours, Command Officers - 90 hours, and Dispatch Officers - 48 hours. In addition, dispatchers can be paid for up to 40 hours of compensatory time once per contract year. In the event of a termination of employment, death, or retirement, employees (or their estates) are paid for unused compensatory time.

Insurance and Other Benefits

The City provides healthcare benefits to full-time employees through a qualified High Deductible Health Plan (HDHP) in conjunction with a Health Savings Account (HSA) offered through Anthem. In addition to healthcare, the City also offers dental and optical insurance benefits. The dental plan insurance is carried through Superior Dental Care, Inc. and the vision insurance is carried by Vision Service Plan.

The City provides life insurance in the amount of \$30,000 for all full-time employees through Anthem Life. Employees have the option of taking out additional life insurance themselves through either Anthem Life or Reliance Standard Life. The City picks up 1 percent of the employees' share of retirement for all employees except Council members and seasonal employees. On January 12, 2004, the City provided to its employees the option through payroll deduction of contributing to an IRS Section 529 flexible benefit plan to save money for college.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 11- CONTRACTUAL COMMITMENTS

As of December 31, 2009, the City had contractual purchase commitments as follows:

NOTE 12 - RESTATEMENT OF PRIOR YEAR NET ASSETS

Restatement of Prior Year Assets

During 2008, it was determined that the City should have recognized a Payments in Lieu of Taxes Receivable based on the entire life of the agreement. Since that time through the Auditor of State's office and GASB, it has been determined that this revenue source is a non-exchange transaction and therefore not subject to long-term recognition. This change in treatment requires a restatement of net assets. The restatement had the following effect on net assets at December 31, 2008 as previously reported:

Governmental

| | <u>Activities</u> |
|---------------------------------------|-------------------|
| Net Assets December 31, 2008 | \$122,921,996 |
| Payments in Lieu of Taxes Receivable | (4,852,811) |
| Restated Net Assets December 31, 2008 | \$118,069,185 |

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 13 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The City pays an annual premium to Brower Insurance Services for coverage through Travelers/CNA. The types of coverage and the deductibles per occurrence are as follows:

| Type of Coverage | Limit | Deductible |
|---|-------------------|------------|
| Law Enforcement Liability – Each | | |
| Wrongful Act Limit | \$1,000,000 | \$10,000 |
| Public Entity Management Liability - Each | | |
| Wrongful Act Limit | 1,000,000 | 10,000 |
| Employment Practices – Each Wrongful | | |
| Employment Practice Limit | 1,000,000 | 10,000 |
| Automobile: | | |
| Automobile Liability – Any Auto | 1,000,000 | 0 |
| Automobile Liability – Any Auto – | , | |
| Medical Payments | 5,000 | 0 |
| | Actual cash value | |
| Automobile Physical Damage - Collision | on all vehicles | 2,000 |
| Property: | | |
| Blanket Building/Contents/Boiler and | | |
| Machinery | 16,782,057 | 2,500 |
| Water/Sewer Property/Boiler | 24,991,697 | 2,500 |
| Earthquake | 5,000,000 | 50,000 |
| Flood – Certain Areas | 5,000,000 | 50,000 |
| Communications Tower | 100,000 | 2,500 |
| Inland Marine | 1,849,510 | 1,000 |
| Contractors Equipment - Leased | 100,000 | 1,000 |
| General Liability: | | • |
| General Total Limit | 3,000,000 | 0 |
| Products & Completed Work Total Limit | Included | 0 |
| Personal Injury Each Person Limit | Included | 0 |
| Fire Damage – Any one fire | 100,000 | 0 |
| Emergency Medical Technicians | Included | 0 |
| Excess Liability: Liability: Feeb Event | 10,000,000 | 10,000 |
| Umbrella Liability – Each Event | 10,000,000 | 10,000 |

Buildings and personal property are written/insured on a replacement cost basis. Flood coverage is valid on certain locations only. Physical damage on other property is insured by the City up to actual cash value of the scheduled property less the deductible listed for the class of property for each accident and location. All property risks, including physical damage coverage on specialized-use vehicles (fire trucks and emergency vehicles), are fully insured through the City's private insurance carrier.

Settled claims have not exceeded this coverage in any of the past three years. There has been no material change in this coverage from the prior year.

The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

NOTE 14 - LONG-TERM OBLIGATIONS

A schedule of changes in bonds and other long-term obligations of the governmental activities of the City during 2009 follows:

| <i>g</i> | | | | | Amounts |
|--|------------|-----------|-----------|------------|-------------|
| | Balance at | | | Balance at | Due in |
| | 12/31/08 | Increases | Decreases | 12/31/09 | One Year |

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 14 - LONG-TERM OBLIGATIONS (Continued)

The equipment/vehicle loans will be paid from the General, Fire, Police, Local Street Operating, Parks and Recreation, Street Maintenance and Repair, and Fire Capital Equipment Funds.

The Various Purpose Bonds, Series 2001A consists of an original issue amount of \$4,300,000 in serial bonds and \$905,000 in term bonds. The term bonds maturing on December 1, 2021, will be subject to mandatory sinking fund redemption as follows:

| Year | Amount to be Redeemed |
|------|-----------------------|
| 2016 | \$135,000 |
| 2017 | 140,000 |
| 2018 | 145,000 |
| 2019 | 150,000 |
| 2020 | 165,000 |

The remaining \$170,000 will mature at stated maturity on December 1, 2021.

The Refunding Bonds, Series 2001B consists of an original issue amount of \$1,755,000 in serial bonds.

The special assessment bond issues will be paid through the Special Assessment Bond Retirement Debt Service Fund. The bond issues will be paid with special assessment revenue. They are backed by the full faith and credit of the City. In the event that an assessed property owner fails to make payments, the City will be required to pay the related debt.

All voted and unvoted general obligation bond issues will be paid through the General Obligation Bond Retirement Debt Service Fund with property tax revenues and transfers from the General Fund and other governmental funds (special revenue funds - Local Street Operating, Parks and Recreation, State Highway, and Street Maintenance and Repair, and Fire Capital Equipment Capital Projects Fund). These transfers are funded at least in part by municipal income and property tax revenues.

The compensated absences payable will be paid from the General, Fire, Police, Local Street Operating, Parks and Recreation, and Street Maintenance and Repair Funds.

On February 9, 2004, the City entered into a loan agreement with the Ohio Department of Transportation for a State Infrastructure Bank (SIB) Loan in the amount of \$2,059,000. These monies were used to finance the reconstruction of the I-70/State Route 202 interchange. Just as the I-70/State Route 201 SIB loan described below, closing on the loan did not commence until the first drawdown of SIB funds. The local loan portion is drawn down last after Federal and State sources. The loan has an interest rate for the first year of 0%, commencing at closing. For the next nine years, the interest rate is 3%. As of December 31, 2009, the City had drawn \$1,760,034 on this line of credit. Interest and principal payments began in 2008. This loan, along with the 2005 loan described below, is secured by tax increment financing (TIF) revenues. If there is any shortfall in SIB loan repayments, the City has pledged non-tax revenues, including local government fund revenues, to make up the difference.

On June 22, 2005, the City entered into a loan agreement with the Ohio Department of Transportation for a State Infrastructure Bank Loan in the amount of \$1,550,515. These monies will finance the reconstruction of the I-70/State Route 201 interchange. The loan has an interest rate for the first year of 0%. For the next nine years, the interest rate is 3%. The City made it's first draw on this line of credit in 2008 in the amount of \$504,000. Additional draws are anticipated in 2010 through 2012. From the 13th month to the 24th month, interest due on the loan will be funded with SIB loan proceeds. This capitalized interest amount will be used by ODOT to prepay at closing all interest due on the loan for months 13

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 14 - LONG-TERM OBLIGATIONS (Continued)

through 24. The City will begin making principal and interest payments on the 31st month after the first drawdown of SIB funds and every six months thereafter through the term of the loan. For the last payment, the City will have a balloon payment of approximately \$550,000 in principal, at which time tax increment financing revenue bonds are anticipated to be sold.

Changes in the long-term obligations reported in business-type activities of the City during 2009 were as follows:

The Water Fund's revenue bonds are paid from operating revenues of the water enterprise operation. The original issue amount for the 1995 Revenue Bonds was \$12,495,517. Of the original issue amount, \$8,270,000 were serial bonds, and \$4,225,517 were capital appreciation bonds. The capital appreciation bonds will mature in the years 2011 through 2025, and the amounts due on these dates will include interest compounded semiannually on June 1 and December 1 of each year beginning in 1996, at the compounding rates per year. The maturity amount of the capital appreciation bonds is \$16,875,000.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 14 - LONG-TERM OBLIGATIONS (Continued)

On November 1, 2005, the City issued \$11,120,000 for Water System Improvement and \$3,945,000 Refunding Revenue Bonds, Series 2005. The \$11,120,000 Water System Improvement Bonds are made up of \$3,280,000 serial bonds and \$7,840,000 term bonds. The Refunding Revenue Bonds, Series 2005, were used to retire a portion of the 1995 water revenue bonds, of which \$12,125,846 was outstanding. Of this amount, \$4,580,000 represented serial bonds, \$4,225,517 represented original issue capital appreciation bonds, and \$3,320,329 represented interest accretion on capital appreciation bonds. Only the serial bonds were refunded. The \$11,120,000 for Water System Improvement bonds were used to refund the \$1,723,000 and \$8,665,000 Rip Rap Road Wastewater Treatment Plant Notes. The bonds have interest rates varying from 3.50% to 5.00%, and the proceeds were used to build an addition to the plant to increase water treatment capacity.

The City covenants that it will at all times prescribe and charge such water rates and restrict operating and maintenance expenses so net revenue (including non-operating revenues and transfers) available for debt service will be no less than 115% of the aggregate amount of principal and interest requirements on the bonds during such year.

The City has pledged future revenues, net of operating expenses, to repay the revenue bonds in the Water fund. The debt is solely payable from the net revenues and are payable through 2030. Annual principal and interest on the debt issues are expected to require 39 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$35,726,081. Principal and interest paid for the current year and total net revenues were \$1,699,994 and \$3,183,826 respectively.

The OWDA loans payable represents amounts borrowed from the Ohio Water Development Authority for the acquisition of the sewer system, part of the Sewer Enterprise Fund. The loans will be paid from Sewer Enterprise Fund revenue. The original issue amount was \$6,908,108.

The City has pledged future revenues, net of operating expenses, to repay the loan in the Sewer fund. The debt is solely payable from the net revenues and are payable through 2015. Annual principal and interest on the debt issues are expected to require 30 percent of net revenues. The total principal and interest remaining to be paid on the bonds is \$3,016,241. Principal and interest paid for the current year and total net revenues were \$502,707 and \$1,430,923 respectively.

During 2003, the City issued a telephone system loan of which the utility portion is in the amount of \$14,910. The loan will be paid from the Water Fund revenue.

As of December 31, 2009, the City's overall legal debt margin (the ability to issue additional amounts of general obligation bonded debt) was \$64,307,885 and the unvoted legal debt margin was \$30,497,296.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 14 - LONG-TERM OBLIGATIONS (Continued)

*Note: This table also serves as Debt Table C of the City's continuing disclosure requirements

The City issued an IDRB in 1994 with the principal amount of \$1,185,000 outstanding at December 31, 2007. The proceeds of the bond do not constitute a general obligation, debt or bonded indebtedness of the City. Neither is the full faith and credit or taxing power of the City pledged to make repayment.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 14 - LONG-TERM OBLIGATIONS (Continued)

The City issued an economic development revenue bond (EDRB) on February 1, 2006, in the principal amount of \$2,423,000. The EDRB financed the purchase of land and the construction and equipping of a 15,315 square foot addition to the existing YMCA family social service center on Shull Road in the City, including parking facilities. The building addition was necessary to house a satellite campus for Sinclair Community College, which leases the building addition from the YMCA. Concurrently with the issuance of the EDRB, the City and the YMCA entered into a loan agreement whereby the YMCA unconditionally agreed to make loan payments to the bond trustee in amounts sufficient to pay the principal and interest on the EDRB. The EDRB is a special obligation of the City, payable solely from the loan payments. Concurrently with the issuance of the EDRB and the execution of the loan agreement, the City assigned all of its rights under the loan agreement to the original purchaser of the EDRB. The EDRB is not a general obligation of the City, and does not constitute a debt or pledge of the faith and credit or the taxing power of the city. The EDRB had a principal amount of \$2,006,500 outstanding at December 31, 2009.

NOTE 15 - SHORT-TERM OBLIGATIONS

A summary of the short-term note transactions for the year ended December 31, 2009, follows:

| | Balance at | | | Balance at |
|---|------------|-------------|-----------|--------------------|
| | 12/31/08 | Increases | Decreases | 12/31/09 |
| Notes Payable: | | *** *** *** | ** | #1 0 50 000 |
| 2009 2.50% - Carriage Trails Infrastructure | \$0 | \$1,850,000 | \$0 | \$1,850,000 |

The 2009 Carriage Trails Infrastructure Note was the original issue to partially fund the infrastructure for the approximately 600-acre development on the north side of the City. The intention is to refund the note with a renewal adding additional principal for continued development in the area. The build-out of the development is expected to continue for the next ten to fifteen years.

NOTE 16 - CAPITAL LEASES

In 2006, the City entered into two lease agreements as lessee for the purchase of two vehicles for the Fire division. In 2006, the vehicles were recorded as construction in process. In 2007, vehicles were placed in service. The final acquisition costs of the pumper and ladder trucks were \$394,639 and \$695,484 respectively and the City recorded depreciation for 2009 of \$19,732 and \$34,774 respectively. The lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future lease payments as of the inception date.

The future minimum lease obligations and the net present value of the minimum lease payments as of December 31, 2009, are as follows:

| Year Ending December 31, | <u>Amount</u> |
|---|------------------|
| 2010 | \$148,755 |
| 2011 | 148,755 |
| 2012 | 148,755 |
| 2013 | <u>366,811</u> |
| Total | 813,076 |
| Less: Amount representing interest | <u>107,950</u> |
| Present value of minimum lease payments | <u>\$705,126</u> |

In 2008, the City entered into a lease agreement as lessee for the purchase of a 2009 medic unit for the Fire division. The final acquisition cost was \$177,350 and the City recorded depreciation for 2009 of \$11,823. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of their future lease payments as of the inception date.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 16 - CAPITAL LEASES (Continued)

The future minimum lease obligations and the net present value of the minimum lease payments as of December 31, 2009, are as follows:

| Year Ending December 31, | <u>Amount</u> |
|---|-----------------|
| 2010 | \$58,346 |
| Less: Amount representing interest | <u>2,508</u> |
| Present value of minimum lease payments | <u>\$55,838</u> |

NOTE 17 - INTERFUND TRANSACTIONS

Interfund Receivables/Payables

The General Fund had an interfund receivable at December 31, 2009, of \$1,854,457. Other Governmental Funds had an interfund payable of the same amount. The loans were made to cover capital outlay and operations costs that will eventually be covered by reimbursable grants. The General Fund had an interfund receivable of \$206,119 that is not expected to be received until 2011 or later. All of this is recorded as an interfund payable in the Other Governmental Funds. All interfund receivable/payable transactions meet the requirements of the Ohio Revised Code.

Transfers In/Transfers Out

| Transfers In | <u>Transfers Out</u> |
|--------------------|---|
| \$40,905 | \$5,089,400 |
| 3,906,949 | 0 |
| 700,047 | 0 |
| 831,665 | 0 |
| 1,018,657 | 1,090,588 |
| 6,498,223 | <u>6,179,988</u> |
| 0 | 150,563 |
| 0 | 128,903 |
| <u>4,984</u> | 65,592 |
| 4,984 | <u>345,058</u> |
| <u>\$6,503,207</u> | <u>\$6,525,046</u> |
| <u>\$21,839</u> | |
| | \$40,905 3,906,949 700,047 831,665 1,018,657 6,498,223 0 0 4,984 4,984 |

*The \$21,839 difference between transfers out and transfers in is created due to the transfer of capital assets previously recorded in the Enterprise Funds to the Governmental Activities assets. Since the Governmental Funds do not report capital assets, there is no option but to report the transfer of the capital assets as a transfer out in the Enterprise Funds even though the Governmental Funds are not in a position to report the corresponding transfer in. However, transfers in and transfers out do continue to balance on the government-wide statement of activities.

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that the statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in the other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed. All of the above transfers met the requirement of the Ohio Revised Code.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 18 - JOINT VENTURES

Prior to June of 1996, the Miami Conservancy District provided the Cities of Huber Heights, Vandalia, and Tipp City with wastewater treatment services. The Miami Conservancy District expressed the intent to no longer provide these services to the cities and gave them the option to acquire and operate the facility. In order to do so, the three cities established the Tri-Cities North Regional Wastewater Authority (Tri-Cities). In June of 1996, the Miami Conservancy District deeded the wastewater facility and all of the assets associated with the facility to the joint venture at no cost to the joint venture.

Tri-Cities is a joint venture among the Cities of Huber Heights, Vandalia, and Tipp City. Tri-Cities is governed by a management board consisting of the city managers of the three cities. The board has complete authority over all aspects of the operation. Tri-Cities supplies all participating residents of the member cities with sewer services. Each City owns the sewage lines located in its city and bills its residents for usage. Continued existence of Tri-Cities is dependent on the City's continued participation. The percentage of equity interest in the joint venture for each City is based on annual usage and is adjusted each year accordingly. The City's equity interest is \$14,164,199 which represents 52.15% of the total equity in Tri-Cities. Tri-Cities is not accumulating significant financial resources or experiencing fiscal stress which would cause additional financial benefit to or burden on the City. The City of Huber Heights was party to several transactions during 2009 involving Tri-Cities for services provided to the City by Tri-Cities. The amount for services provided to the City was \$1,700,948.

Complete financial statements can be obtained from the fiscal agent by writing to Tri-Cities North Regional Wastewater Authority, c/o The City of Vandalia, 333 J. E. Bohanan Drive, Vandalia, Ohio 45377.

On January 22, 2001, the City entered into a contract for the creation of a Joint Economic Development District (JEDD) with the Township of Bethel and Clark County, Ohio. The contract was entered into under the authority of Ohio Revised Code Section 715.72. The JEDD was established for the purpose of cooperative regional development and job creation, along with growth in commercial and industrial development. The JEDD will permit the three jurisdictions to share tax revenues from the development of property without the need of annexation. The City will provide fire, police, rescue, zoning and building services, and marketing for the site. Clark County will provide water and sewer services. The 41 acres located in Bethel Township, along with a contiguous 17 acre parcel located within the City along State Route 235 are available for use. The contract will terminate on December 31, 2104, and can be renewed for three additional 25-year periods. Upon contract termination, all assets and liabilities of the JEDD will be divided equally between the three parties. The Board of Directors is made up of six individuals: one from each of the three participants; a representative of business existing within the JEDD; a representative of employees of businesses within the JEDD; and a representative appointed by the other five representatives whose term will rotate between a City resident and a township resident. Several international companies have expressed interest in the site. The JEDD results from a contractual arrangement and is governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial responsibility. The City has an equity interest since the contract stipulates the City will have claim to the net resources of JEDD, as set forth in the contract. Since the JEDD has had no financial activity since its inception in 2003, the City's equity interest at December 31, 2009, is \$0. Additional information can be obtained from the City of Huber Heights, Planning and Development Department, 6131 Taylorsville Road, Huber Heights, Ohio 45424-2951.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 19 - JOINTLY GOVERNED ORGANIZATIONS

The Miami Valley Regional Planning Commission (the Commission) is a jointly governed organization between Preble, Clark, Clinton, Darke, Greene, Miami, and Montgomery Counties, and various cities residing within these counties, including the City of Huber Heights. The Commission prepares plans, including studies, maps, recommendations, and reports concerning the physical, environmental, social, economic, and governmental characteristics, functions, and services of the region.

These reports show recommendations for systems of transportation, highways, parks and recreational facilities, water supply, sewage disposal, garbage disposal, civic centers, and other public improvements and land uses which affect the development of the region. The degree of control exercised by any participating government is limited to its representation on the Board. Members of the Board are as follows: the officers of the Commission (elected by member representatives), the immediate past Chair of the Commission, the Commission member representing the City of Dayton, the Commission member representing each of the respective member counties, the representatives selected by each county caucus, a nongovernmental member, and two at-large representatives.

Payments to the Commission are made from the General Fund. The City contributed \$17,567 during 2009. Financial information can be obtained from Donald R. Spang, Executive Director, at One Dayton Centre, Suite 260, One South Main Street, Dayton, Ohio 45402.

The Miami Valley Fire/EMS Alliance (the Alliance) is a jointly governed organization between municipal corporations and townships in Montgomery, Greene and Warren Counties. The purpose of the Alliance is to foster cooperation among the political subdivisions by promoting programs and recommending matters which will result in more efficient methods of delivering fire and emergency medical services in the region. The Board of the Alliance is made up of a representative appointed by the City of Dayton, a representative appointed by the members who are provided Fire/EMS Services by volunteers, two representatives appointed by the members who are provided Fire/EMS Services by a combination of full Fire/EMS Services by full time employees. Payments to the Alliance are made from the Fire Fund. The City contributed \$9,162 for the operation of the Alliance during 2009. Financial information can be obtained from Scott Anding, Executive Director, at 444 West Third Street, Suite 20-231, Dayton, Ohio 45402-1460.

The Economic Development/Government Equity Program (ED/GE) was established pursuant to Ohio Revised Code Chapter 307 for the purpose of developing and promoting plans and programs designed to assure that County resources are efficiently used, economic growth is properly balanced, and that County economic development is coordinated with that of the State of Ohio and other local governments. Members include villages, townships, and cities within Montgomery County, and Montgomery County itself. Cooperation and coordination between the members is intended to promote economic health and improve the economic opportunities of the people in Montgomery County by assisting in the establishment or expansion within the County of industrial, commercial or research facilities and by creating and preserving job and employment opportunities for the people of the County.

The ED/GE Advisory Committee, made up of alternating member entities' representatives, decides which proposed projects will be granted each year. Sales tax revenues, set aside by Montgomery County, are used to fund the projects. Members annually contribute to or receive benefits based on an elaborate zero-based formula designed to distribute growth in contributing communities to those communities experiencing less economic growth. The City has agreed to be a member for ten years, ending December 31, 2010. Any member in default of paying its contributions will be liable for the amount of the contribution, any interest accrued, and penalties. During this time, the member will not be entitled to any allocations from ED/GE. Payments to ED/GE are made from the General Fund. The City was required to make a contribution during 2009 for the operation of ED/GE of \$91,724. Financial information can be obtained from Linda Gum, ED/GE Coordinator, at 451 West Third Street, Dayton, Ohio 45422-1110.

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 19 - JOINTLY GOVERNED ORGANIZATIONS (Continued)

The Regional Emergency Response Team (RERT) is a jointly governed organization between the following cities: Huber Heights, Vandalia, Fairborn, and Beavercreek. The organization was created through an agreement by the cities to establish a regional council of governments for the RERT. The regional council of governments collects and expends resources to assist the RERT in fighting crime and for other related activities. The purpose of the RERT is to foster cooperation among municipalities through sharing of equipment/facilities/collective team expenses, team consultant expenses and grant sharing costs, for their common benefit. This includes the mutual interchange and sharing of police equipment, as well as police equipment to be jointly acquired and owned, to be utilized by all participating members. The Board of the RERT is made up of one representative from each municipality. Payments to the RERT are made from the Police Fund. The City contributed \$5,000 for the operation of the RERT for 2009. Financial information can be obtained from the fiscal agent by writing to the RERT, c/o The City of Beavercreek, Bill Kucera, Financial Administrative Services Director, at 1368 Research Park Drive, Beavercreek, Ohio 45432 or by e-mail: Kucera@ci.beavercreek.oh.us.

The First Suburbs Consortium of Dayton, Ohio Council of Governments (First Suburbs Consortium) is a jointly governed organization between the following members: Centerville, Clayton, Jefferson Township, Harrison Township, Huber Heights, Kettering, Miamisburg, Moraine, Oakwood, Riverside, Trotwood, Vandalia, and West Carrolton. The organization was created through an agreement by the governments to establish a regional council of governments. The purpose of the First Suburbs Consortium is to provide organizational status through cooperative efforts between member communities in matters of mutual concern, including but not limited to initiation and support of policies and practices which protect, maintain and redevelop mature communities and other matters which affect health, safety, welfare, education, economic conditions and regional development. The mission is to initiate and promote public policies and practices that maintain the vitality of communities, protects and redevelops mature communities, and fosters regional cooperation. The First Suburbs Consortium advocates: public policies that do not create disposable communities; balanced investments in new and existing infrastructure; maintenance and enhancement of the tax base; and creation of redevelopment opportunities. The Board of the First Suburbs Consortium is made up of two representatives from each government. Payments to the First Suburbs Consortium are made from the General Fund. The City paid \$250 for the 2009 annual membership fee. Financial information can be obtained from the fiscal agent by writing to the First Suburbs Consortium of Dayton Ohio, c/o Jack Jensen, Executive Director, P.O. Box 49552, Dayton, Ohio 45449-0552.

The Community Improvement Corporation of Huber Heights (CIC), also known as the Economic Development Corporation, is a jointly governed organization created as a not for profit corporation under Chapter 1724 of the Ohio Revised Code. The CIC is governed by a nine-member Board of Trustees, four of which are appointed by City Council among Council members. The other five members are volunteer citizens. The organization is designated by the City as its agency for the purpose of industrial, commercial, distribution and research development. The City entered into an agreement with the CIC to further development, which will create or preserve jobs and improve the economic welfare of citizens. No payments are made to the CIC by the City. Financial information can be obtained by writing to the CIC, c/o Gary Swords, Treasurer, at 7801 North Dixie Drive, Dayton, Ohio 45414.

City of Huber Heights, Ohio

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 20 - CONTINGENT LIABILITIES

Litigation

The City is party to legal proceedings. The City is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the City.

Grants

For the period January 1, 2009, to December 31, 2009, the City received federal and state grants for specific purposes that are subject to review and audit by grantor agencies or their designee. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

Lease Agreement

The City's utility contractor, United Water NACO, LLC, leases office space from Columbia Building Company. As part of the lease agreement, the City guarantees payment of the lease if United Water NACO, LLC defaults. Also, if the City discontinues using United Water NACO, LLC, the City is liable for the lease payments. The lease agreement began January 1, 2005, for a nine-year period through December 31, 2013. Lease payments are due in monthly installments. There is a renewal option of two renewal terms of five years each at the end of 2013. The total lease payment is made up of a fixed minimum rent, common area maintenance, taxes, and insurance.

The following table shows the total yearly lease payments:

| Year | Amount_ |
|-------|-----------|
| 2010 | \$42,530 |
| 2011 | 43,155 |
| 2012 | 43,780 |
| 2013 | 44,405 |
| Total | \$173,870 |

NOTE 21 - SUBSEQUENT EVENTS

The City Manager obtained authorization on February 8, 2010 to enter into an agreement with the City of Dayton to participate in the Montgomery County OVI (Operating a Vehicle under the Influence) Task Force. The City will be reimbursed for the overtime expenses incurred while participating in the task force.

In 2008, Council passed an ordinance for the City to stop collecting it's own income taxes and to begin using the services of the Regional Income Tax Agency (RITA). It has since been determined that there are functions that are necessary to the effective and efficient financial management of the City that RITA cannot provide. In addition, through the advancement of technology, the City can now offer services to our citizens that were previously unavailable. Therefore on February 22, 2010, Council passed an ordinance to terminate the contract with RITA. The date of termination is to be July 1, 2010, or as soon as administratively possible in order to achieve an efficient transition from RITA to internal processing, but no later than December 31, 2010.

On February 22, 2010, an ordinance was passed for the issuance and sale of notes for the purpose of paying the costs of public infrastructure in the Carriage Trails development. The maximum principal amount approved was \$3,950,000, with the amount of \$2,757,700 actually being issued. These notes

City of Huber Heights, Ohio

Notes to the Basic Financial Statements For the Year Ended December 31, 2009

NOTE 21 - SUBSEQUENT EVENTS (Continued)

were issued in anticipation of the issuance of bonds in 2011.

The City Manager was authorized to enter into a real estate purchase contract on February 22, 2010. This contract had a not-to-exceed amount of \$155,000. The land, approximately 3.3 acres, is located in Center Point 70 on Artz Road and State Route 235. The intent of this purchase is to facilitate industrial development. On March 22, 2010, it was approved to apply to the ED/GE program for funds to assist with this acquisition.

On March 22, 2010 a final resolution was approved for the repaving of both State Route 40 from Bridgewater Road to the Montgomery/Miami County line and State Route 201 (Brandt Pike) from Fishburg Road to Cedar Hill Drive. These projects are to be completed in conjunction with the Ohio Department of Transportation (ODOT). The City is responsible for 100% of the cost of the improvement less the amount of Federal-aid funds set aside by the Director of Transportation. This nets out to the City only being responsible for 20% of the project which is estimated to be \$123,784. This resolution increased the City portion by \$6,688 from \$117,096 which was approved on April 13, 2009. The original amount, \$117,096, was paid in 2009 leaving only the balance of \$6,688 due in 2010.

The first amendment of the State Infrastructure Bank (SIB) loan agreement, #SB0510, between the Ohio Department of Transportation and the City, was executed on April 12, 2010. This allowed changes to be made to the authorized projects. The revised project list is I70/State Route 202 Interchange Phase I and II, I70/State Route 201 Interchange Phase I and II, I70/State Route 202 Landscaping Enhancement, Brandt Pike (SR 201) Phase VII, Old Troy Pike (SR 202) Phase VIII, and Executive Boulevard Reconstruction.

The City authorized the following contractual commitments after December 31, 2009:

| Company | Project | Amount |
|--------------------------|---|---------|
| McBride, Dale and | | |
| Clarion | Professional Planning Services | \$5,000 |

Combining Financial Statements

NON-MAJOR SPECIAL REVENUE FUNDS

To account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specified purposes.

Byrne Memorial Grant

To account for grant monies used to purchase bullet-proof vests.

City Motor Vehicle License Permissive Tax

To account for permissive license tax received from the State to finance various street repair projects.

County Motor Vehicle Permissive Tax

To account for permissive license tax levied by Montgomery County. Expenditures include planning, constructing, improving, maintaining, and repairing roads, streets and bridges.

Drug Law Enforcement

To account for fines and costs collected for felonious drug trafficking convictions. This money may be used in any drug law enforcement activity.

Law Enforcement

To account for the fines generated from the prosecution of those in possession of contraband and the proceeds gained from the sale of confiscated contraband. This money may be spent for any law enforcement activity.

Lighting

To account for special assessments used to provide street lighting within the City neighborhoods.

Local Street Operating

To account for miscellaneous revenue and for a portion of City income tax which, beginning in 1994, is to be used for public works activities.

Parks and Recreation

To account for fees and other charges paid by the participants of recreation programs to cover the cost of the various programs.

State Highway

To account for gasoline tax and motor vehicle license fees received from the County and State for routine maintenance of state highways within the City.

Montgomery County TIF District

To account for payments in lieu of taxes collected for commercial tax increment financing district. The monies will be used to repay the State Infrastructure Bank Loan and for future capital projects that benefit the district.

Miami County TIF District

To account for payments in lieu of taxes collected for the three residential tax increment financing districts. The monies will be used to repay the State Infrastructure Bank Loan and for future capital projects that benefit the district.

(Continued)

Combining Statements – Non-major Governmental Funds (Continued)

Street Maintenance and Repair

To account for that portion of the state gasoline tax and motor vehicle registration fees designated for maintenance and repair of certain streets within the City.

Law Enforcement Assistance Fund

To account for a grant from the State of Ohio Attorney General's Office for the continuing professional training for police officers.

Community Development Block Grant

To account for monies received from the federal government under the Community Development Block Grant Programs.

Federal Emergency Management Assistance (FEMA)

To account for the funds received from FEMA for disaster relief. The funds will be used to reimburse the funds which originally paid for the damages and clean-up.

Enterprise Zone Management

To account for fees allowed by the Ohio Revised Code that are collected to cover the administrative costs of managing the enterprise zone participants.

Firefighters Assistance Grant

To account for monies received from the federal government to be used to improve the health and wellness of the firefighters, including use of a personal trainer, purchase of exercise equipment and replacement of self-contained breathing apparatus.

NON-MAJOR DEBT SERVICE FUND

To account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

General Obligation Bond Retirement

To account for various revenues collected for the payment of general obligation bonded debt.

NON-MAJOR CAPITAL PROJECTS FUNDS

To account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by enterprise funds.

Capital Improvement

To account for various capital improvement projects, including streets, sidewalks, building construction and major building improvements.

Economic Development/Government Equity Improvement

To account for grant revenues received from the County and used to develop and promote economic development through capital expenditures.

(Continued)

Combining Statements – Non-major Governmental Funds (Continued)

Federal Equity Sharing

To account for the City's share of federal forfeitures used by the law enforcement department for informant payments, travel and training, communication and computers, firearms, weapons, body armor, electronic surveillance equipment, building and improvements, and other law enforcement expenses.

Fire Capital Equipment

To account for City income tax revenues specifically dedicated for fire station building renovations and the equipment purchases of the fire division.

Issue II

To account for Ohio Public Works Commission grant funds received from the State of Ohio for each project awarded through this program and local matching funds.

Local Street Capital Improvement

To account for income tax revenues collected for reconstruction and maintenance of the City's interior streets.

Assistance to Firefighters Grant

To account for monies received from the federal government to be used to improve the radio/computer interconnect system of communications.

Carriage Trails Infrastructure

To account for the issuance of bond anticipation note for the construction of infrastructure in the Carriage Trails development.

Public Access Easement Acquisition

To account for the issuance of the bond anticipation note for the acquisition of public access easements in the Carriage Trails development.

Local Law Enforcement Block Grant

To account for grant revenues received from the federal government and used for equipment acquisition.

Capital Equipment

To account for the proceeds of debt used to purchase capital equipment.

STATISTICAL SECTION

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

| Contents | <u>Page</u> |
|---|-------------|
| Financial Trends These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time. | 136-152 |
| Revenue Capacity These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax and the municipal income tax. | 153-162 |
| Debt Capacity These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future. | 164-171 |
| Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place. | 172-182 |
| Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs. | 183-184 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note: The City implemented GASB Statement No. 34 in 2001. Therefore schedules presenting government-wide information are reported for nine years beginning in that year.

⁽¹⁾ Other purposes has decreased for the Lighting Special Revenue Fund due to special assessments revenue receipts outpacing new assessments and the Local Street Operating Special Revenue Fund spending more than what it received in revenue.

⁽²⁾ Debt service increased in 2004 due to revenues outpacing expenses.

⁽³⁾ Capital improvement increased beginning in 2003 due to transfers from the General Fund and repayment of 2002 outstanding advances. (4) Unrestricted decreased over the years due to declining cash in the General Fund.

as Brandt Vista Water Main and Old Troy Pike Phase VII Water and from developers for such projects as Wal-Mart Sulphur Grove and Parktowne Subdivision. (5) Invested in capital assets, net of related debt has increased over the years due in part to capital contributions from the governmental funds for such projects

⁽⁶⁾ Starting 2006, Other Purposes has been further defined into program expenditures.

Transportation increased in all but 2005 and 2006 due to depreciation for infrastructure.
 General government increased from 2002 to 2003 due to payment in lieu of taxes per the tax sharing revenues agreement with Huber Heights City School District.
 Stormwater was established as an enterprise activity by City Council in February 2002. Previously, this program was accounted for with governmental activities.

⁽⁴⁾ Capital grants, contributions and interest was low in 2002 because of fewer State grants in the Capital Improvement and Issue II Capital Projects Funds. The increase in 2004 was due to developer donated infrastructure and roadway special assessments.

⁽⁵⁾ Sewer and water charges for services has increased due to authorized increases in rates starting in late 2002 through 2006 by City Council to fund projects identified in an operations study (6) Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own

fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses indicate that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program. Numbers without parentheses indicates that program revenues were more than sufficient to cover expenses.

(7) City permissive tax levied for transportation was segregated from property and other taxes levied for general purposes in 2003.

⁽⁸⁾ Unrestricted investment earnings had declined due to lower interest rates and declining capital projects funds' balances until 2005 when interest rates and investable cash increased.

⁽⁹⁾ Transfers have varied due to transfers of assets from governmental activities to business-type activities for various projects.

^{(10) 2006} is the first year that municipal income tax became a revenue source for Fire Operating due to the .30% increase passed November, 2005 which became effective January 1, 2006.

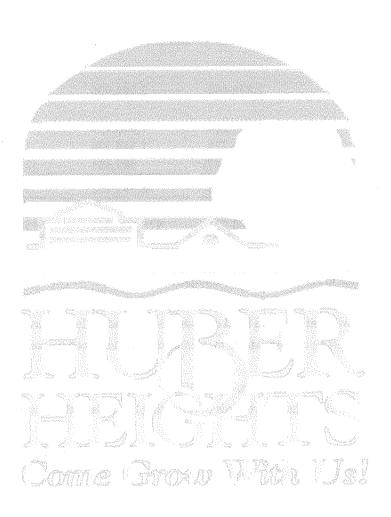

^{(11) 2007} was the first year for the revenue source Payment in Lieu of Taxes. This was generated by the creation of the Tax Increment Financing Districts.

| Total Governmental Funds | \$15,108,721 | \$18,606,041 | \$15,301,184 | \$17,234,894 |

- (1) Reserves fluctuated mainly due to advances and encumbrances.
- (2) Unreserved decreased beginning in 2000 due to economic development and other expenditures. The City has in recent years dealt with national and local economy issues and is closely monitoring fund balances for cash flow and matching appropriations to estimated revenues when preparing the annual budget.
- (3) Reserves fluctuated mainly due to encumbrances, especially in the capital projects funds.
- (4) Debt service funds increased in 2001 due to proceeds of refunding bonds issued in excess of current refunding debt service.
- (5) Capital projects funds have been negative due to short-term debt liabilities recorded in the funds.

- (1) The City tax rate increased from 1.75% to 1.95% on June 1, 1999. Actual collections were not fully realized until 2000. Municipal income taxes had a one-time increase in 2002. On September 14, 2001, the City terminated the income tax collection contract with the City of Dayton, establishing a collection office itself. The collection process was accelerated, as well as delinquents decreasing. During 2003, the City Attorney determined that over-the-road, interstate, non-resident truck drivers are not required to have local income taxes withheld. Prior to 2003, trucking companies withheld 100% for these employees. In November 2005, taxpayers approved an additional .30% increase which was effective January 1, 2006. Then in November 2008, taxpayers voted to decrease the income tax by .25%, effective January 1, 2009. This made the current tax rate 2.0%. Also in 2008, Council approved having the Regional Income Tax Agency (RITA) begin collecting the City's income taxes effective January 1, 2009.
- (2) 2007 was the first year for the revenue source Payment in Lieu of Taxes. This was generated by the creation of the Tax Increment Financing Districts.
- (3) Charges for services increased in 2001 and 2002 for emergency medical service fees. In June of 2001, the City Council authorized the collection of these fees. From 2003 to 2004, these receipts decreased due in part to reductions in reimbursement from Medicare, the total number of runs decreased slightly as well as removals, and slightly higher uncollectible amounts prior to switching third party administrators.
- (4) Rent prior to 1999 was included with other revenue. In the Fall of 1998, the court facilities building opened resulting in rent revenue being received from Montgomery County. In 2006, the increase is due to a one-time payment from the YMCA.

⁽⁵⁾ Although GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools" was implemented during 1998, the City did not have an investment account with a market value different than cost until 2001.

⁽⁶⁾ Other revenue increased in 2001 due to reimbursements from the pension systems for employer and employee shares of compensation that were not pensionable.

⁽⁷⁾ The Prevention, Retention and Contingency - Development Reserve Special Revenue Fund was created in 2001 for the City's recreation center for after school endangered youth. Funding for the program lapsed in 2003 when the former sponsor of the program resigned.

⁽⁸⁾ Issuance costs were first separated from interest and fiscal charges in 2001.

⁽⁹⁾ On September 1, 2001, the City issued \$5,205,000 for Various Purpose Bonds, Series 2001A and \$1,755,000 Refunding Bonds, Series 2001B. \$2,965,000 of the Various Purpose Bonds, Series 2001A along with the \$1,755,000 Refunding Bonds, Series 2001B was used to retire \$4,500,000 of the 1991 general obligation bonds. The remaining proceeds of Series 2001A was used to finance special assessment projects. The amount outstanding at December 31, 2000 was \$4,500,000. Along with the call premium of \$43,350, the total \$4,543,350 was the amount paid to the bond holders.

⁽¹⁰⁾ Debt service only includes principal and interest. In 2004, 2005 and 2008, the City's percentage increased due to the renewal of several note issues.

| | | | | | | | | | |

(1) Beginning in 2006, Fire increased and Other decreased due to a change in classification of the EMS fees.

(2) Other security of persons and property is higher in 2001, 2004, and 2005 because of an increase in lighting special assessments in those years.

(3) In 2006, Leisure Time Activites increased due to a one time payment received from the YMCA. In 2009, the increase is from the acquisition of Tom Cloud Park, the land and the infrastructure, from Montgomery County.

(4) Transportation decreased in 2002, 2006, 2008 and 2009 due in part to receiving less Issue II monies that year. With less Issue II money, fewer roadway projects could be completed. This line item increased in 2003 since the City started receiving permissive tax monies in the Capital Improvement and Issue II Capital Projects funds. In addition, for 2004, the City assessed a roadway project.

- (1) City taxes increased from 1% to 1.75% effective 1994
- (2) In 1995 the "due date" for payment of withholding taxes was accelerated by approximately 20 days. Therefore in 1995 a portion of revenues, which previously had been due and received in January of the next year, were actually received in December 1995. This resulted in a one time increase in collection in 1995 equivalent to 384 days versus 364 days of collections.
- (3) Adjusted to a normal 364-day year, the City estimates that it would have received approximately \$7,041,400 during 1995 had the accelerated withholding not been implemented. Based upon this adjusted figure, the growth in tax collections comparing 1996 to 1995 would have been approximately 5.78%.
- (4) City tax rate increased from 1.75% to 1.95% on 06/01/99; actual collections were not fully realized until 2000.
- (5) On September 14, 2001, the City of Huber Heights terminated the income tax collection contract with the City of Dayton, establishing a collection office for the City of Huber Heights.
- (6) The City Attorney recently determined that over-the-road, interstate, non-resident truck drivers are not required to have local income taxes withheld. Prior to 2003, trucking companies withheld 100% for these employees.
- (7) 2004 accounts for full year of loss of revenue for over-the-road, interstate, non-resident truck drivers (See Footnote #6). Approximately \$150,000 in withholding taxes normally received each December was not received until January 3, 2005, and is not included in the final 2004 data.
- (8) In November 2005, voters passed a 0.30% additional income tax levy to be used for public safety, effective January 1, 2006.
- (9) In November 2008, voters passed a decrease of 0.25% to the income rate applicable to the general fund, effective January 1, 2009. In addition, Council approved the use of the Regional Income Tax Agency (RITA), effective January 1, 2009, to collect the City's taxes.

(1) The City took over collection of its income taxes from the City of Dayton during 2001. 2002 is the first full year of information available.

income tax rate require voter approval. City residents pay City income tax on income earned outside the City, however, a credit is allowed for income taxes paid The City levies a 2.0% income tax on substantially all income earned within the City, excluding interest, dividends, and retirement. Additional increases in the to other municipalities. Employers within the City withhold income tax on employee compensation and remit at least quarterly.

In November 2005, voters passed a 0.30 % additional income tax levy to be used for public safety, effective January 1, 2006.

In November 2008, voters passed a (0.25) % decrease in the income tax rate for the general fund, effective January 1, 2009.

Also in 2008, Council approved the use of the Regional Income Tax Agency (RITA) to collect the City's income taxes.

Note: Dollar amounts are for municipal income tax revenues only. These amounts do not include penalties or interest.

⁽¹⁾ Ohio law provides for a reduction in the rates of voted levies to offset increased values resulting from a reappraisal of real property. Reduction factors are applied to authorized voted levies so that each levy yields the same amount of property taxes as in the year in which the levy was approved.

Increases to voted levy revenues are restricted to assessments for new construction. The reduction factors are computed annually and applied separately for residential/agricultural property and all other property.

City of Huber Heights, Ohio

Computation of Direct and Overlapping General Obligation Bonded Debt December 31, 2009

| Amount Applicable To City of Huber Heights | \$5,604,032 | 162,431 | 3,693,606 | \$9,460,069 |
|---|-----------------------------|------------------|-----------------------|-------------|
| Percentage Applicable To City of Huber Heights | 100.00% | 0.83 | 8.80 | |
| Net Debt Outstanding | \$5,604,032 | 19,570,000 | 41,972,796 | |
| Jurisdiction | City of Huber Heights (1) | Miami County (2) | Montgomery County (3) | |

Note: The percentage of gross indebtedness of the City's overlapping political subdivisions was determined by dividing each overlapping subdivision's assessed valuation within the City by the subdivision's total assessed value.

debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule of the City. This process recognizes that, which considering the City's ability to issue and repay long-term debt, the entire is a resident, and therefore responsible for repaying the debt, of each overlapping government.

(1) The City took over collection of its income taxes from the City of Dayton during 2001. 2002 is the first full year of information available.

Source: Regional Income Tax Agency (RITA), City of Huber Heights, Division of Taxation

Due to legal restrictions and confidentiality requirements, the City cannot disclose the amount of withholdings by taxpayer. The City chose not to disclose percentages and number of filers by income level because the City does not require all taxpayers to file a return, therefore, the City does not have, nor can it obtain, this type of information.

Source: County Auditor; Miami County and Montgomery County, Ohio

(1) Property tax payments received during 2009 for tangible personal property (other than public utility property) were for telecommunications (telecom) tangible property (previously reported as general business property). The last year for the tangible personal property for general business property phase-out was 2008. Telecom tangible property tax is also being phased out, but over a different schedule - 10% for 2009 and 5% for 2010. After 2010, the assessment rate will be zero.

NOTES:

Ohio Job and Family Services, Divison of Research and Statistics Source:

The City is situated in both Miami and Montgomery Counties. Miami County was first reported in 2004.
 Ohio estimates are based upon county of residence.
 Ohio and USA data are seasonally adjusted.
 Labor force in thousands.
 The unemployment rate is equal to the estimate of unemployed persons dividied by the estimated civilian work force which includes workers on strike.

Due to legal restrictions and confidentiality requirements, the City cannot disclose the amount of withholdings by taxpayer. The City chose not to disclose percentages and number of filers by income level because the City does not require all taxpayers to file a return, therefore, the City does not have, nor can it obtain, this type of information.

Land Use (Zoning Classification) by Acres and Valuation December 31, 2009

| | | Percent of Assessed |
|--|----------------|-------------------------------|
| | | Valuation of |
| | Area | Real Property |
| Land Use | (in acres) (1) | (Tax Year 2007 Valuation) (2) |
| Residential | 5,003 | 79.66% |
| Commercial/Industrial | 4,110 | 19.88% |
| Governmental, Public Utility, Other Tax Exempt | 471 | (a),(b) |
| Agricultural | 3,304 | 0.46% |
| Undeveloped (Estimated) | 1,177 (c) | (d) |

- (a) Not available from County Auditor
- (b) Not applicable. Exempt from property taxation
- (c) Developable (but currently undeveloped) land zoned Residential, Commercial, or Industrial
- (d) Included in above categories.

(1) In 2001, the City Council authorized the collection of Emergency Medical Service Fees. The funds were used to hire six fire fighter/paramedics, a lead fire inspector, a training officer, Source: Department of Finance, City of Huber Heights. The number of employees represents the number of allowed positions and not necessarily the number of filled positions.

a data entry technician for the Fire Department, and an Information Technician. The Information Technician has since been paid out of the General Fund.

⁽²⁾ As part of a five-year hiring program, the City increased the staffing level in the Police Division by committing to hiring two additional officers in 1997 and again in 1998. In 2003, the City established a Student Resource Officer program so that two police officers are provided to the Huber Heights City School District.

⁽⁴⁾ In 2005, the management of Parks and Recreation was transfered to the Division of Public Works. (3) The Dispatch Division is paid out of the General Fund, along with General Lighting.

⁽⁵⁾ The municipal pool had seasonal employees. Starting in 2005 the City contracted this service to the YMCA.

⁽⁶⁾ A portion of certain employees' salaries and benefits are charged to the Sewer and Water Divisions.

⁽⁷⁾ Transportation is made up entirely of the Public Works Division.

⁽⁸⁾ The Legal Division is a contractual service.

⁽⁹⁾ Council is made up of 8 Council members along with one Clerk of Council and one part-time Assistant Clerk of Council.

⁽¹⁰⁾ The Finance-Income Tax Department was created in 2001 when the City took over its own collections from the City of Dayton. In 2008, the Regional Income Tax Agency (RITA) took over collections. (11) In 2004, both the Management Information Systems Division and the Human Resources Department were created.

⁽¹²⁾ The Community Services Division was created in 2008.
