We have reviewed the *Independent Auditor's Report* of the Winton Woods City School District, Hamilton County, prepared by Caudill & Associates, CPA's, for the audit period July 1, 2008 through June 30, 2009. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Winton Woods City School District is responsible for compliance with these laws and regulations.

## **Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards***

To the Board of Education  
Winton Woods City School District  
Hamilton County  
1215 West Kemper Road  
Cincinnati, Ohio 45240

We have audited the financial statements of the government activities, each major fund, and the aggregate remaining fund information of the Winton Woods City School District, Hamilton County, Ohio (the "School District") as of and for the year ended June 30, 2009, which collectively comprise the School District's basic financial statements and have issued our report thereon dated December 10, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### **Internal Control over Financial Reporting**

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our audit procedures for expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the School District's financial statements that is more than inconsequential will not be prevented or detected by the School District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the School District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Winton Woods City School District  
Hamilton County

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the School District's management, Board of Education, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## **Report on Compliance with Requirements Applicable to each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133**

To the Board of Education  
Winton Woods City School District  
Hamilton County  
1215 West Kemper Road  
Cincinnati, Ohio 45240

### **Compliance**

We have audited the compliance of Winton Woods City School District, Hamilton County, Ohio (the "School District") with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to its major federal programs for the year ended June 30, 2009. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2009.

### **Internal Control Over Compliance**

The management of the School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance but not for the purpose of expressing an opinion on the effectiveness of internal controls over compliance, in accordance with OMB Circular A-133. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

Members of Board of Education  
Winton Woods City School District

Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control  
Over Compliance in Accordance with OMB Circular A-133

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material compliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

**Federal Awards Receipts and Expenditures Schedule**

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the School District as of and for the year end June 30, 2009. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the School District's basic financial statements. The accompanying federal awards receipts and expenditures schedule provides additional information as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the School District's management, Board of Education, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Board of Education  
Winton Woods City School District  
Hamilton County  
1215 West Kemper Road  
Cincinnati, Ohio 45240

Ohio Revised Code Section 117.53 states that "the auditor shall identify whether the school district or community has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedures enumerated below, which were agreed to by the Board, solely to assist the Board in evaluating whether Winton Woods City School District, Hamilton County, (the School District) has adopted an anti-harassment policy in accordance with Ohio Revised Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of the Board. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board adopted an anti-harassment policy at its meeting on December 13, 2004, and re-adopted the policy at its meeting on March 17, 2008.
2. We read the policy, noting it included the following requirements from Ohio Revised Code Section 3313.666(B):
  - 1) A statement prohibiting harassment, intimidation, or bullying of any student on school property or at school-sponsored events;
  - 2) A definition of harassment, intimidation, or bullying that shall include the definition in division (A) of Ohio Revised Code Section 3313.666;
  - 3) A procedure for reporting prohibited incidents;
  - 4) A requirement that the school personnel report prohibited incidents of which they are aware to the school principal or other administrator designated by the principal;
  - 5) A requirement that parents or guardians of any student involved in a prohibited incident be notified and, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended, have access to any written reports pertaining to the prohibited incident;
  - 6) A procedure for documenting any prohibited incident that is reported;
  - 7) A procedure for responding to and investigating any reported incident;
  - 8) A strategy for protecting a victim from additional harassment, intimidation, or bullying, and from retaliation following a report;
  - 9) A disciplinary procedure for any student guilty of harassment, intimidation, or bullying, which shall not infringe on any student's rights under the first amendment of the Constitution of the United States;

Winton Woods City School District  
Hamilton County  
Independent Accountant's Report on Applying Agreed Upon Procedures

- 10) A requirement that the district administration semiannually provide the president of the district board a written summary of all reported incidents and post the summary on its web site, if the district has a web site, to the extent permitted by section 3319.321 of the Revised Code and the "Family Educational Rights and Privacy Act of 1974," 88 Stat. 571, 20 U.S.C. 1232q, as amended.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board of Education and is not intended to be and should not be used by anyone other than these specified parties.

To the Citizens and Board of Education of the Winton Woods City School District:

I am pleased to present the Comprehensive Annual Financial Report (CAFR) of the Winton Woods City School District (District). This report is for the fiscal year ended June 30, 2009. The report, prepared by the Treasurer's office, includes an opinion from Caudill and Associates. Responsibility for the accuracy, completeness and fairness of this report rests with the District and more specifically, the Office of the Treasurer. This report was prepared in conformance with generally accepted accounting principles as set forth by the Governmental Accounting Standards Board (GASB) and is representative of the District's continuing commitment to provide meaningful financial information to the citizens of the District. Copies will be available upon request to taxpayers, financial rating services, banking institutions and other interested parties.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the independent auditor's report.

## **DESCRIPTION OF THE DISTRICT**

The District is located approximately 15 miles north of Cincinnati, Ohio. It serves an area of 13.2 square miles encompassing the City of Forest Park, Village of Greenhills and a small portion of Springfield Township. The total District population has decreased from 29,165 in 1980 to 28,175, latest information available, in 2001.

During the 2008-2009 school year, the District had 3,719 students enrolled in 4 narrow range grade level schools serving grades K-6, 1 middle school serving grades 7-8 and 1 high school serving grades 9-12. The District has been experiencing declining enrollment. The District also operates a variety of other facilities, including a central administration building, bus garage, maintenance building and several sports fields.

The District provides a full range of programs and services for its students. These include elementary and secondary course offerings at the general, vocational and college preparatory levels. A broad range of co-curricular and extra-curricular activities to complement the students' curricular programs are also offered.

## ORGANIZATION OF THE DISTRICT

The Board of Education of the Winton Woods City School District (Board) is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body and policy initiator of the operation of the District. The Board is also responsible for the adoption of the tax budget, the annual operating budget and approves all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code. The current Board members, their terms and years on the Board as of June 30, 2009 are:

<u>Board Member</u>	<u>Current Term</u>	<u>Total Years</u>
Mrs. Cindy Emmert	Jan. 2006 - Dec. 2009	10
Mr. John Pennycuff	Jan. 2008 - Dec. 2011	19.5
Mr. Robert Lee	Jan. 2008 - Dec. 2011	13
Mrs. Priscilla Franklin	Jan. 2006 - Dec. 2009	5
Mr. Tim Cleary	Jan. 2006 - Dec. 2009	5

The Superintendent is the chief executive officer of the District and is responsible directly to the Board for all operations of the District. Dr. Camille Nasbe was initially appointed as Superintendent effective September 1, 2002 and her current contract will expire on July 31, 2014.

The Treasurer is the chief financial officer of the District and is directly responsible to the Board for all financial operations, investments, custody of all District funds and assets, and serves as Secretary to the Board. Mr. Thomas Golinar was initially appointed Treasurer effective March 7, 2005 and his current contract will expire July 31, 2012.

All other District employees are responsible to the Superintendent and are employed by the Board upon the recommendation of the Superintendent.

## ECONOMIC CONDITION AND OUTLOOK

The District is located in Hamilton County, northwest of Cincinnati. Hamilton County has traditionally had a strong economy with unemployment rates consistently below state and national averages. The area has enjoyed growth during the past year in retail, business and industrial parks, and recreational facilities. Convenient access to interstate highways I-71 and I-75 and interstate connector I-275 has helped the growth of this area.

The last tax levy was passed in November of 2009. The residents of the District approved a \$4.2 million ten year emergency levy. Collections of this levy will begin in January of 2010. The State of Ohio has no inflationary effect built into voted property tax levies. Due to no inflationary increases, the District is required to periodically present tax levies to the voters.

## MAJOR INITIATIVES

### District Goals

The following is the vision the Board has set for the District:

- To assure financial stability.
- To improve academic achievement.
- To improve culture.

The administration will use these goals as benchmarks in planning for the future of the District.

### DEPARTMENTAL FOCUS - DEPARTMENT OF TEACHING AND LEARNING

The Department of Teaching and Learning manages all facets of the Winton Woods City Schools' instructional programs including Curriculum and Instruction, Special Education Services, Early Childhood Education, alternative Education, English as a Second Language, Gifted and Talented Education, Health Services, counseling, Communications and Enrollment. The department offers guidance, support and resources to staff and stakeholders in an effort to provide a world-class education in order to meet the diverse needs of our learners from pre-kindergarten through grade twelve. The focus of the department of Teaching and Learning for 2009-2010 school year is:

\*To ensure the educational success of all students by having high expectations and a commitment to excellence.

\*To coordinate and leverage resources and provide leadership for results.

\*To ensure access for all students to an engaging, rigorous, standards based curricular in order to increase academic achievement.

\*To use data to inform instruction to meet the needs of all learners.

### 2009-2010 Steps toward increasing student achievement:

1.

#### Curriculum and Instruction (Materials, Program)

- a. Teacher is to use board adopted materials and resources in all teaching environments.
- b. Implement an inquiry based, spiraling math and science curriculum (K-6, Math Investigations, grades 5-10, Process Oriented Guided Inquiry Learning)
- c. Standardized screening tool in the hiring process (Teacher Insight, [www.gallup.com](http://www.gallup.com))

2. Curriculum and Instruction (Instructional Strategies of emphasis across the district)
  - a. Marzano strategies of emphasis – Prior Knowledge and vocabulary, Note-taking and Summarizing (2009-2010)
  - b. Provide research-based, job-embedded professional development, mentoring, and coaching to building and classroom leaders.
  - c. To clarify core content power standards
  - d. Instructional strategies that focus on gaps in content mastery /skills of mobile students and students with disabilities -
  - e. Directors, curriculum coaches support curriculum development and provide instructional support
3. Assessment
  - a. Weekly use of short answer/ extended response (SA/ER) questions and teachers will explicitly teach specific strategies for students to use when answering SA/ER questions.
  - b. Monitoring:
  - c. Professional Feedback Form (aligned with district instructional strategies) – use of Professional Feedback Form to track key instructional and behavioral components of improvement plan and to share with teachers
  - d. Winton Woods Achievement Model monthly meetings to review building progress on goals, student work samples reviewed (writing), assessment/behavioral data from the Public School Works data collection system are reviewed and discussed in collaborative problem solving groups
  - e. Adequate Yearly Progress monthly meetings with Associate Superintendent and Dept. of Teaching and Learning; buildings present disaggregated short cycle assessment data, instructional decisions based on data, learning support and enrichment actions.
  - f. Implement regularly scheduled common short-cycle assessments in math and reading that exceed the rigor of the blueprint of the Ohio achievement tests to review curriculum and assessment and make appropriate modifications to instruction.

The Department of Teaching and Learning will continue to research, provide professional development and implement strategies that result in increased student achievement.

## **FINANCIAL INFORMATION**

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a cash basis system of accounting as prescribed by the Ohio Auditor of State. Cash basis accounting differs from generally accepted accounting principles (GAAP) as promulgated by the Governmental Accounting Standards Board (GASB).

### Internal Accounting and Budgetary Controls:

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

The District utilizes a fully automated accounting system as well as an automated system of control for fixed assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensures that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted within three months.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority for the Board. Budgets are controlled at the fund level. All purchase order requests must be approved by the individual program managers and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. In addition to interim financial statements, each program manager has access to daily reports showing the status of the budget account for which he or she is responsible. Each program manager may request additional financial reports during the month when necessary.

As an additional safeguard, all employees involved with receiving and depositing funds are covered by a blanket bond and certain individuals in policy-making roles are covered by a separate, higher bond.

The basis of accounting and the various funds utilized by the District are fully described in the notes to the basic financial statements. Additional information on the District's budgetary accounts can also be found in the notes to the basic financial statements.

### Long-Term Financial Planning:

The District prepares a five-year forecast outlining operation revenues and expenditures based on current assumptions. In Ohio, the five year forecast must be filed with the Ohio Department of Education in October of each year, and then revised the following May. The forecast is used as a management tool in determining the operating needs of the District. The five year forecast provides management with the information needed to seek additional revenue or make reductions in expenditures in order to maintain a positive cash balance. Ohio law prohibits a school district from closing its doors due to lack of funds.

### Cash Management

The Board has an aggressive cash management policy that expedites the receipt and deposit of revenues and invests the available cash balances. The cash management program is designed to minimize cash and maximize investment holdings. The total amount of interest earned for the general fund was \$139,542 for the fiscal year ended June 30, 2009.

The District's investment policy is to minimize market risk while maintaining a competitive yield on its portfolio. Accordingly, deposits were either insured by FDIC or collateralized. By law, financial institutions may establish a collateral pool to cover all public deposits. The market value of the pooled collateral must be equal to at least 105 percent of uninsured public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of financial institutions.

During fiscal year 2009, investments were limited to Star Ohio, certificates of deposit, and overnight Repurchase Agreements.

### Risk Management

The District faces the risk of a loss of assets by fire, storm, theft, accident, or other catastrophes. Generally, the District shifts the burden of such losses by entering into a contract with an insurance company, which in consideration of a premium payment, assumes all risk or a portion of the risk for these losses.

Indiana insurance company provides insurance coverage on the buildings and contents, boiler and machinery, theft related losses, earthquake, mobile instruction units, communication equipment, fleet, vehicles, and general liability. The District also has commercial excess umbrella policy coverage of \$10,000,000.

The District uses the State Workers' Compensation plan and pays a premium based on a rate per \$100 of salaries.

### Independent Audit

The State of Ohio requires an annual audit by either the Ohio Auditor of State or by an independent public accounting firm. Caudill and Associates unqualified opinion rendered on the District's basic financial statements, combining statements and individual fund schedules, is included in the financial section of this Comprehensive Annual Financial Report.

### Awards

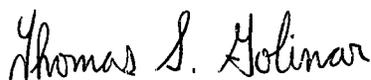

The District received the coveted Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association of the United States and Canada (GFOA) for the 2008 Comprehensive Annual Financial Report. This year's report will also be submitted for this award. We feel that the contents of the report are easily readable, efficiently organized and conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements. The District believes our current report conforms to the Certificate of Achievement Program requirements and we are submitting it to the GFOA to determine its eligibility for a certificate.

The District will also seek the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2009. The District received the Certificate of Achievement for Excellence in Financial Reporting from ASBO for the 2008 Comprehensive Annual Financial Report. This award certifies that a Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the Association of School Business Officials. This award is granted only after an extensive review of the report by an expert panel of certified public accountants and practicing school business officials.

### Acknowledgments

The preparation of this report was possible by the dedicated service of the entire Treasurer's staff. Finally, the support and commitment to excellence by the Winton Woods Board of Education was vital to the continuing efforts being made to improve our financial management and reporting.

Sincerely,

Thomas S. Golinar, CPA  
Treasurer

## INDEPENDENT AUDITOR'S REPORT

To the Board of Education  
Winton Woods City School District  
Hamilton County  
1215 West Kemper Road  
Cincinnati, Ohio 45240

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Winton Woods City School District, Cincinnati, Ohio, (the "School District"), as of and for the year ended June 30, 2009, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Winton Woods City School District, Cincinnati, Ohio, as of June 30, 2009, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2009, on the District's internal control over financial reporting and on our test of its compliance with certain provision of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Winton Woods City School District  
Hamilton County  
Independent Auditor's Report

The Management's Discussion and Analysis on pages 3 through 10 and the budgetary comparisons on pages 42 through 44, respectfully, is not a required part of the basic financial statements, but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The introductory section, combining and individual non-major fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual non-major fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**WINTON WOODS CITY SCHOOL DISTRICT**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**For the Fiscal Year Ended June 30, 2009**  
(Unaudited)

The management's discussion and analysis of Winton Woods City School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2009. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's performance.

**Financial Highlights**

Key financial highlights for 2009 are as follows:

- Net assets of governmental activities decreased \$1,048,236 which represents a 10% decrease from 2008.
- General revenues accounted for \$37,205,549 in revenue or 83% of all revenues. Program specific revenues in the form of charges for services and sales, grants and contributions accounted for \$7,442,875 or 17% of total revenues of \$44,648,424.
- The District had \$45,696,660 in expenses related to governmental activities; \$7,442,875 of these expenses were offset by program specific charges for services, grants or contributions. General revenues of \$37,205,549 were also used to provide for these programs.

**OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Assets* and *Statements of Activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. The General Fund is the major fund of the District.

## **Government-wide Financial Statements**

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the questions, "How did we do financially during 2009?" The *Government-wide Financial Statements* answers this question. These statements include *all assets* and *liabilities* using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position has improved or diminished. The causes of this change may be the result of many factors, both financial and non-financial. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Government-wide Financial Statements, the District presents:

- **Governmental Activities** – The District's programs and services are reported here and include instruction, support services, operation of non-instructional services, extracurricular activities and interest and fiscal charges.

## **Fund Financial Statements**

The analysis of the District's major funds is presented in the Fund Financial Statements (see Table of Contents). Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds.

**Governmental Funds** Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the Statement of Net Assets and the Statement of Activities) and governmental *funds* is reconciled in the financial statements.

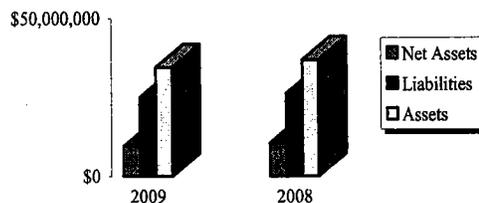

**Fiduciary Funds** Fiduciary Funds are used to account for resources held for the benefits of parties outside the government. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs.

## The District as a Whole

As stated previously, the Statement of Net Assets looks at the District as a whole. Table 1 provides a summary of the District's net assets for 2009 compared to 2008:

Table 1  
Net Assets

	Governmental Activities	
	2009	2008
<b>Assets:</b>		
Current and Other Assets	\$25,650,817	\$27,320,605
Capital Assets	8,857,803	9,447,865
<b>Total Assets</b>	<b>34,508,620</b>	<b>36,768,470</b>
<b>Liabilities:</b>

Unrestricted	3,729,274	4,886,206
<b>Total Net Assets</b>	<b>\$9,559,903</b>	<b>\$10,608,139</b>

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2009, the District's assets exceeded liabilities by \$9,559,903.

At year-end, capital assets represented 26% of total assets. Capital assets include land, land improvements, buildings and improvements, furniture and equipment, and vehicles. Capital assets, net of related debt to acquire the assets at June 30, 2009, was \$4,481,621. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net assets, \$1,349,008 represents resources that are subject to external restriction on how they must be used. The external restriction will not affect the availability of fund resources for future use.

Capital assets decreased due to depreciation expense being greater than current year additions. Total liabilities decreased mainly due to the District making regularly scheduled debt payments.

Table 2 shows the changes in net assets for fiscal years 2009 and 2008.

**Governmental Activities**

The District revenues came from mainly two sources. Property taxes levied for general purposes, capital projects purposes and grants and entitlements comprised 82% of the District’s revenues for governmental activities.

The District depends greatly on property taxes as a revenue source. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenues generated by a levy will not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become .5 mills and the owner would still pay \$35.00.

Thus Ohio districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 45% of revenue for governmental activities for Winton Woods City School District in fiscal year 2009. The District’s reliance upon tax revenues is demonstrated in the following graph:

Revenue Sources	2009	Percent of Total
General Grants	\$16,591,954	37.0%
Program Revenues	7,442,875	17.0%
General Tax Revenues	19,895,822	45.0%
Investment Earnings	147,697	0.0%
Other Revenues	570,076	1.0%
	<u>\$44,648,424</u>	<u>100%</u>

Instruction comprises 54.5% of governmental program expenses. Support services expenses were 39.0% of governmental program expenses. All other expenses and interest expense was 6.5%. Interest expense was attributable to the outstanding bond and borrowing for capital projects.

Property taxes revenue decreased mainly due to a decrease in property tax receipts. Total expenses decreased slightly from 2008 to 2009.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

### The District's Funds

The District has one major governmental fund: the General Fund. Assets of the general fund comprised \$22,712,476 (88%) of the total \$25,672,481 governmental funds assets.

**General Fund:** Fund balance at June 30, 2009 was \$4,895,695 including (\$2,283,781) of unreserved balance. The primary reasons for the decrease in fund balance was due to a decrease in taxes revenue.

### General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund. During the course of fiscal year 2009, the District amended its general fund budget numerous times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management. During the course of the year, the District revised the Budget in an attempt to deal with unexpected changes in revenues and expenditures.

For the General Fund, final budget basis revenue was \$37,731,490, compared to original budget estimates of \$39,973,288. Of the \$2,241,798 difference, most was due to an overestimate for taxes and intergovernmental revenue.

The District's ending unobligated actual fund balance for the General Fund was not significantly different from the final budgeted amount.

## Capital Assets and Debt Administration

### *Capital Assets*

At fiscal year end, the District had \$8,857,803 invested in land, land improvements, buildings and improvements, furniture and equipment, and vehicles. Table 4 shows fiscal 2009 balances compared to fiscal 2008:

Table 4  
Capital Assets at June 30

Vehicles	381,830	482,932
Total Net Capital Assets	<u>\$8,857,803</u>	<u>\$9,447,865</u>

Overall, capital assets decreased due to depreciation expense being greater than current year additions.

See Note 7 of the Notes to the Basic Financial Statements for further details on the District's capital assets.

## **Debt**

At fiscal year end, the District had \$4,376,182 in notes and capital leases payable, \$361,523 due within one year. Table 5 summarizes bonds and capital leases outstanding at year end.

See Note 8 and 9 of the Notes to the Basic Financial Statements for further details on the District's long-term obligations.

### **For the Future**

In June of 2005, the State legislature passed House Bill 66. House Bill 66 phases out the tax on tangible personal property of general business, telephone, and telecommunications companies, and railroads. The tax on general business and railroad property began being phased out in 2006 and will be eliminated by 2009. The tax on telephone and telecommunication property will begin being phased out in 2009 and will be eliminated by 2011. The tax is being phased out by reducing the assessment rate on the property each year. In the first five years, school districts are being reimbursed fully for the lost revenue; in the following seven years, the reimbursements are phased out.

This scenario requires management to plan carefully and prudently to provide the resources to meet student needs over the next several years.

All of the District's financial abilities will be needed to meet the challenges of the future. With careful planning and monitoring of the District's finances, the District's management is confident that the District can continue to provide a quality education for our students and provide a secure financial future.

 Reconciliation of the Statement of Revenues, Expenditures, and Changes  
 in Fund Balance of Governmental Funds to the Statement of Activities  
 For the Fiscal Year Ended June 30, 2009

Net Change in Fund Balance - Total Governmental Funds (\$1,419,856)

Amounts reported for governmental activities in the  
 statement of activities are different because:

Governmental funds report capital asset additions as expenditures.  
 However, in the statement of activities, the cost of those assets is  
 allocated over their estimated useful lives as depreciation  
 expense. This is the amount of the difference between capital  
 asset additions and depreciation in the current period.

Capital assets used in governmental activities	360,072	
Depreciation Expense	<u>(874,097)</u>	(514,025)

Governmental funds only report the disposal of assets to the  
 extent proceeds are received from the sale. In the statement  
 of activities, a gain or loss is reported for each disposal. The  
 amount of the proceeds must be removed and the gain or loss  
 on the disposal of capital assets must be recognized. This is the  
 amount of the difference between the proceeds and the gain or loss. (76,037)

Revenues in the statement of activities that do not provide  
 current financial resources are not reported as revenues in  
 the funds.

Delinquent Property Taxes	188,683	
Intergovernmental	<u>337,302</u>	525,985

Repayment of bond and capital lease principal is an  
 expenditure in the governmental funds, but the repayment  
 reduces long-term liabilities in the statement of net assets. 494,532

In the statement of activities interest expense is accrued when incurred,  
 whereas in governmental funds an interest expenditure is reported  
 when due. (18,896)

Some expenses reported in the statement of activities do not require the  
 use of current financial resources and therefore are not reported as  
 expenditures in governmental funds.

**WINTON WOODS CITY SCHOOL DISTRICT  
NOTES TO BASIC FINANCIAL STATEMENTS  
For the Fiscal Year Ended June 30, 2009**

**NOTE 1 - DESCRIPTION OF THE DISTRICT**

---

The District was chartered by the Ohio State Legislature. In 1853 state laws were enacted to create local Boards of Education. Today, the District operates under current standards prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 and Section 119.01 of the Ohio Revised Code.

The District operates under a locally elected five member Board form of government and provides educational services as authorized by its charter or further mandated by state and/or federal agencies. This Board controls the District's instructional and support facilities staffed by 220 noncertificated personnel and 309 certificated full time teaching and administrative personnel to provide services to students and other community members.

The District is the 127<sup>th</sup> largest in the State of Ohio (among 614 Districts) in terms of enrollment and the 9th largest in Hamilton County. It currently operates 4 narrow grade range elementary schools, 1 middle school (grades 7-8), and 1 high school (grades 9-12).

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The District's significant accounting policies are described below.

**REPORTING ENTITY**

In accordance with Governmental Accounting Standards Board [GASB] Statement 14, the financial reporting entity consists of a primary government. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments.

There are no component units combined with the District for financial statement presentation purposes, and it is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing body is financially accountable. The District's major operations include education, pupil transportation, food service, and maintenance of District facilities.

The following activity is also included within the reporting entity:

### **Nonpublic School**

Within the District boundaries, John Paul II Catholic School is operated through the Catholic diocese. Current state legislation provides funding to this nonpublic school. These monies are received and disbursed by the District on behalf of the nonpublic school by the Treasurer of the District, as directed by the nonpublic schools. These transactions are reported as a governmental activity of the District.

The District is associated with two organizations that are defined as jointly governed organizations. These organizations include Hamilton/Clermont Cooperative Association and Unified Purchasing Cooperative. These organizations are presented in Note 14.

### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

### **MEASUREMENT FOCUS**

#### **Government-wide Financial Statements**

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements which provide a more detailed level of financial information.

The government-wide statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the District are included on the statement of net assets. Fiduciary Funds are not included in entity-wide statements.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

## **Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Fiduciary Funds are reported using the economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fiduciary assets and liabilities.

## **FUND ACCOUNTING**

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental and fiduciary. The focus of government fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

## **Governmental Funds**

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major governmental fund:

General Fund - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

## **Fiduciary Funds**

Fiduciary fund reporting focuses on net assets and changes in net assets. Agency funds are custodian in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's only fiduciary fund is an Agency Fund, which accounts for student managed activities (consists of a student body, president, treasurer and faculty advisor).

## **NOTE 3 - BASIS OF ACCOUNTING**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

### **Revenues – Exchange and Non-exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, included property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: property taxes available for advance, grants and interest.

### Deferred Revenue

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2009, but which were levied to finance fiscal year 2010 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

### Unearned Revenue

Unearned revenue represents amounts under the accrual basis of accounting for which asset recognition criteria have been met, but for which revenue recognition criteria have not yet been met because such amounts have not yet been earned.

### Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

## **EQUITY IN POOLED CASH AND INVESTMENTS**

Cash received by the District is pooled for investment purposes. Interest in the pool is presented as "Equity in Pooled Cash and Investments" on the financial statements.

Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts such as nonnegotiable certificates of deposits and repurchase agreements are reported at cost.

The District has invested funds in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2009. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company but does operate in a manner consistent with Rule 2A7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2009.

Following Ohio statutes, the Board has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue during fiscal year 2009 amounted to \$139,542 credited to the General Fund and \$8,155 credited to Other Governmental Funds.

**INVENTORY**

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of food held for resale and consumable supplies.

**CAPITAL ASSETS**

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of one thousand five hundred dollars (\$1,500). The District does not possess any infrastructure. Improvements that add to the value of an asset or materially extend an asset's life are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated, except land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is allocated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Land Improvements	15 - 20 years
Buildings and Improvements	10 - 40 years
Furniture and Equipment	5 -15 years
Vehicles	10 years

**COMPENSATED ABSENCES**

The District reports compensated absences in accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences." Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time, when earned, for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting payment method. The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements, the current portion of unpaid compensated absences is the amount due to the employee at year end. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. Compensated absences are reported in governmental funds only if they have matured.

The District's policies regarding compensated absences are determined by the state laws and/or negotiated agreements. In summary, the policies are as follows:

<u>Vacation</u>	<u>Certified</u>	<u>Administrators</u>	<u>Non-Certificated</u>
How Earned	Not Eligible	25 days	10-20 days for each service year depending on length of service
Maximum Accumulation	Not Applicable	25 days	25 days

Maximum Accumulation	Unlimited	Unlimited	Unlimited
Vested	As Earned	As Earned	As Earned
Termination Entitlement	Per Contract	Per Contract	Per Contract

## NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available. Of the District's \$1,349,008 in restricted net assets, none were restricted by enabling legislation.

## **FUND BALANCE RESERVES AND DESIGNATIONS**

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for property tax advances and encumbrances.

The reserve for property taxes represents taxes recognized as revenue under generally accepted accounting principles but not available for appropriation under State statute.

## **INTERFUND ACTIVITY**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables" and "Interfund Payables". These amounts are eliminated on the governmental activities columns of the statement of net assets.

As a general rule the effect on interfund (internal) activity has been eliminated from the government-wide statement of activities. The interfund services provided and used are not eliminated in the process of consolidation.

## **RESTRICTED ASSETS**

Restricted assets in the other governmental funds represent equity in pooled cash and investments set aside to establish retainage accounts for the continuing improvements throughout the District.

## **ESTIMATES**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### **NOTE 4 - EQUITY IN POOLED CASH AND INVESTMENTS**

The District maintains a cash and investment pool used by all funds. Each fund type's portion of this pool is displayed on the statement of net assets and balance sheet as "Equity in Pooled Cash and Investments."

State statute requires the classification of monies held by the District into three categories:

Active Monies - Those monies required to be kept in a "cash" or "near cash" status for immediate use by the District. Such monies must by law be maintained either as cash in the District treasury, in depository accounts payable or withdrawable on demand.

Inactive Monies - Those monies not required for use within the current two year period of designated depositories. Ohio law permits inactive monies to be deposited or invested as certificates of deposit maturing not later than the end of the current period of designated depositories, or as savings or deposit accounts, including, but not limited to passbook accounts.

Interim Monies - Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested or deposited in the following securities:

- (1) Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest.
- (2) Bonds, notes, debentures, or other obligations or securities issued by any federal governmental agency.
- (3) No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions.
- (4) Interim deposits in the eligible institutions applying for interim monies to be evidenced by time certificates of deposit maturing not more than one year from date of deposit, or by savings or deposit accounts, including, but limited to, passbook accounts.
- (5) Bonds, and other obligations of the State of Ohio.
- (6) The Ohio State Treasurer's investment pool (STAR Ohio).
- (7) Commercial paper and banker's acceptances which meet the requirements established by Ohio Revised Code, Sec. 135.142.

- (8) Under limited circumstances, corporate debt interests in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation, by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The following information classifies deposits and investments by categories of risk as defined in GASB Statement 3, "Deposits with Financial Institutions, Investments and Reverse Repurchase Agreements" and amended by GASB Statement 40, "Deposit and Investment Risk Disclosures".

### **Deposits**

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District's policy for deposits is any balance not covered by depository insurance will be collateralized by the financial institutions with pledged securities. As of June 30, 2009, \$301,196 of the District's bank balance of \$1,301,196 was exposed to custodial risk.

Ohio Revised Code Chapter 135, Uniform Depository Act, authorizes pledging of pooled securities in lieu of specific securities. Specifically, a designated public depository may pledge a single pool of eligible securities to secure repayment of all public monies deposited in the financial institution, provided that all times the total value of the securities so pledged is at least equal to 105% of the total amount of all public deposits secured by the pool, including the portion of such deposits covered by any federal deposit insurance.

## Investments

As of June 30, 2009, the District had the following investments:

	<u>Fair Value</u>	<u>Weighted Average Maturity (Years)</u>
Repurchase Agreement	1,571,948	0.00
STAR Ohio	<u>1,038,366</u>	0.16
Total Fair Value	<u>\$2,610,314</u>	
Portfolio Weighted Average Maturity		0.06

Interest rate risk - In accordance with the investment policy, the District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio.

Credit Risk – It is the District’s policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings issued by nationally recognized statistical rating organizations. The District’s investments in STAR Ohio were rated AAAM by Standard & Poor’s. Repurchase Agreements, which are unrated, shall be transacted only through banks located within the State of Ohio with which the Treasurer has signed a master repurchase agreement as required in Ohio Revised Code 135.

Concentration of credit risk – The District’s investment policy requires investments to be diversified to reduce the risk of loss. The District’s policy allows investments in U.S. Agencies or Instrumentalities. Regarding the portfolio of investments, the District has invested 60% in repurchase agreements and 40% in STAR Ohio.

Custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Repurchase agreements and STAR Ohio are neither registered or insured.

## **NOTE 5 - PROPERTY TAXES**

Real property taxes collected in 2009 were levied in April on the assessed values as of January 1, 2008, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. A re-evaluation of real property is required to be completed no less than every six years, with a statistical update ever third year.

Tangible personal property tax is assessed on equipment and inventory held by businesses. Tangible property is assessed at 25 percent of true value (as defined). Each business was eligible to receive a \$10,000 exemption in assessed value which was reimbursed by the State.

The tangible personal property tax will phase out over a four-year period starting with tax year 2006 and ending with no tax due in 2009. This phase-out applies to most businesses and includes furniture and fixtures, machinery and equipment and inventory. New manufacturing and equipment first reportable on the 2006 and subsequent year returns is not subject to the personal property tax.

Real property taxes are payable annually or semi-annually. In 2009, if paid annually, payment was due by January 20th. If paid semi-annually, the first payment (at least 1/2 amount billed) was due January 20th with the remainder due on June 20th.

The County Auditor remits portions of the taxes collected to all taxing districts with periodic settlements of real and public utility property taxes in February and August and tangible personal property taxes in June and October. The District records billed but uncollected property taxes as receivables at their estimated net realizable value.

Accrued property taxes receivable represent delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable at June 30, 2009 and for which there is an enforceable legal claim. Delinquent property taxes collected within 60 days are included as a receivable and tax revenue as of June 30, 2009. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is available to finance current year operations. The receivable is, therefore, offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2009, was \$6,977,000 for General Fund and \$289,000 for Other Governmental Funds and is recognized as revenue, with a corresponding reserve to fund balance since the Board did not appropriate these receivables for fiscal year 2009 operations.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2009 taxes were collected are:

	<u>Amount</u>
Agricultural/Residential and Other Real Estate	\$518,429,700
Public Utility Personal	1,472,420
Tangible Personal Property	<u>13,265,840</u>
Total	<u><u>\$533,167,960</u></u>

**NOTE 6 – RECEIVABLES**

Receivables at June 30, 2009, consisted of taxes, accounts, intergovernmental, and interfund. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

**NOTE 7 - CAPITAL ASSETS**

Capital asset activity for the fiscal year ended June 30, 2009, was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>

#### **NOTE 9 - CAPITAL LEASES**

During 2006, the District entered into a \$4,075,000 lease purchase agreement payable with the Columbus Regional Airport Port Authority, Ohio (the Port Authority). The District capitalized permanent improvements related to the lease. The lease expires in 2020.

During 2007, the District entered into a \$1,121,020 lease purchase agreement to pay for several boiler replacements throughout many buildings within the District. The District capitalized the permanent improvements related to the lease. The lease expires in 2021.

The above leases meet the criteria of capital leases as defined by statement of Financial Accounting Standards No. 13 "Accounting for Leases", which defines a capital lease generally as one that transfers benefits and risks of ownership to the lessee. The gross amount of assets acquired under capital leases is \$5,196,020.

The following is a schedule of the future minimum lease payments required under the capital lease and the present value of the minimum lease payments as of fiscal year end.

## **NOTE 10 - PENSION PLANS**

---

### **SCHOOL EMPLOYEES RETIREMENT SYSTEM OF OHIO**

#### **Plan Description**

The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability, and survivor benefits; annual cost-of-living adjustments; and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at [www.ohsers.org](http://www.ohsers.org) under *Employers/Audit Resources*.

#### **Funding Policy**

Plan members are required to contribute 10% of their annual covered salary and District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care fund) of the System. For fiscal year ending June 30, 2009, the allocation to pension and death benefits is 9.09%. The remaining 4.91% of the 14% employer contribution rate is allocated to the Health Care and Medicare B Funds. The District's contributions to SERS for the years ended June 30, 2009, 2008, and 2007 were \$1,057,920, \$1,049,064, and \$971,928, respectively; 49% has been contributed for fiscal year 2009 and 100% for fiscal years 2008 and 2007.

### **STATE TEACHERS RETIREMENT SYSTEM OF OHIO**

#### **Plan Description**

The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, community school, college, university, institution, or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof. Additional information or copies of STRS Ohio's *Comprehensive Annual Financial Report* can be requested by writing to STRS Ohio, 275 E. Broad Street, Columbus, OH 43215-3771, by calling toll-free 1-888-227-7877, or by visiting the STRS Ohio web site at [www.strsoh.org](http://www.strsoh.org).

### Plan Options

New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate all their member contributions and employer contributions equal to 10.5% of earned compensation among various investment choices. The Combined Plan offers features of the DC Plan and DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

### DB Plan Benefits

Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money-purchase benefit" calculation. Under the "formula benefit," the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31<sup>st</sup> year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the "money-purchase benefit" calculation, a member's lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

### DC Plan Benefits

Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members' accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

### Combined Plan Benefits

Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1% of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

Eligible faculty of Ohio's public colleges and universities may choose to enroll in either STRS Ohio or an alternative retirement plan (ARP) offered by their employer. Employees have 120 days from their employment date to select a retirement plan.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalizations, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

### Funding Policy

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers.

Contribution requirements and the contributions actually made for the fiscal year ended June 30, 2009, were 10% of covered payroll for members and 14% for employers. The District's contributions to STRS for the years ended June 30, 2009, 2008, and 2007 were \$2,852,880, \$2,817,168, and \$2,851,428, respectively; 83% has been contributed for fiscal year 2009 and 100% for fiscal years 2008 and 2007.

## NOTE 11 - POST EMPLOYMENT BENEFITS

---

### **SCHOOL EMPLOYEES RETIREMENT SYSTEM OF OHIO**

#### Plan Description

In addition to a cost-sharing multiple-employer defined benefit pension plan, the School Employees Retirement System of Ohio (SERS) administers two postemployment benefit plans.

#### Medicare Part B Plan

The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2009 was \$96.40; SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2009, the actuarially required allocation was .75%. District contributions for the year ended June 30, 2009, 2008 and 2007 were \$56,674, \$50,955 and \$47,208, respectively, which equaled the required contributions each year.

#### Health Care Plan

ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMO's, PPO's, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with, Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. At June 30, 2009, the health care allocation was 4.16%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; not may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2009, the minimum compensation level was established at \$35,800. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District contributions assigned to health care for the years ended June 30, 2009, 2008, and 2007 were \$314,353, \$248,778, and \$237,428, respectively.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care and Medicare B plans are included in its *Comprehensive Annual Financial Report*. The report can be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at [www.ohsers.org](http://www.ohsers.org) under *Employers/Audit Resources*.

## **STATE TEACHERS RETIREMENT SYSTEM OF OHIO**

### Plan Description

STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan; a self-directed Defined Contribution Plan and a Combined Plan that is a hybrid of the Defined Benefit and the Defined Contribution Plan.

Ohio law authorized STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to 3307 of the Revised Code, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All benefit recipients, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

STRS Ohio issues a stand-alone financial report. Interested parties can view the most recent *Comprehensive Annual Financial Report* by visiting [www.strsoh.org](http://www.strsoh.org) or by requesting a copy by calling toll-free 1-888-227-7877.

### Funding Policy

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14% employer contributions rate, 1% of covered payroll was allocated to post-employment health care for the year ended June 30, 2009, 2008 and 2007. The 14% employer contribution rate is the maximum rate established under Ohio law. The District contributions for the years ended June 30, 2009, 2008, and 2007 were \$203,777, \$201,226, and \$203,673, respectively.

## **NOTE 12 - CONTINGENT LIABILITIES**

### **GRANTS**

The District receives financial assistance from numerous federal, state and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds.

However, in the opinion of management, any such disallowed claims will not have a material effect on any of the financial statements of the individual fund types included herein or on the overall financial position of the District as of June 30, 2009.

### **LITIGATION**

The District's attorney estimates that all other potential claims against the District not covered by insurance resulting from all other litigation would not materially affect the financial statements of the District.

## **NOTE 13 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During the current fiscal year, the District contracted with Indiana Insurance for general liability insurance and with Indiana Insurance for property, boiler and machinery insurance.

The District maintains an umbrella liability policy with limits of \$1,000,000 each occurrence, \$2,000,000 aggregate. Boiler and machinery coverage has a \$5,000 deductible with a \$108,278,581 limit of liability per accident. Professional liability is protected by Indiana Insurance with a \$1,000 deductible and limits ranging from \$1,000,000 to \$3,000,000 depending on the act of deception. Vehicles are covered by Indiana Insurance with a \$250-\$1,000 deductible for comprehensive and a \$250-\$1,000 deductible for collision. The District has excess umbrella liability coverage of \$10,000,000.

Public officials bond insurance is provided by Travelers Casualty and Security Company of America. The Treasurer is covered by a bond in the amount of \$50,000. The Superintendent, Associate and Assistant Superintendents, Board President, and Business Manager are covered by bonds in the amount of \$20,000 each.

For fiscal year 2009, the District provided employee medical/surgical benefits through Anthem Health Care, a Cincinnati based health maintenance organization.

There have been no material reductions in insurance coverage. The amounts of settlement did not exceed insurance coverage for any of the past three fiscal years.

#### **NOTE 14 - JOINTLY GOVERNED ORGANIZATIONS**

*Hamilton/Clermont Cooperative Association/Unified Purchasing Cooperative* - The School District is a participant in the Hamilton/Clermont Cooperative Association (H/CCA) which is a computer consortium. H/CCA is an association of 28 public school districts within the boundaries of Hamilton and Clermont Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of H/CCA consists of the superintendents and/or treasurers of the participating members. H/CCA is not accumulating significant financial resources nor is it experiencing fiscal stress that may cause an additional financial benefit to or burden on members in the future. The Unified Purchasing Cooperative was organized under H/CCA to benefit member districts with a more economically sound purchasing mechanism for general school, office and cafeteria supplies. The Unified Purchasing Cooperative organization is governed by representatives from each of the governments that create the organization, but there is no ongoing financial interest or responsibility by the participating governments. Financial information can be obtained from the H/CCA, Al Porter, Director, at 7615 Harrison Avenue, Cincinnati, Ohio 45231-3107.

#### **NOTE 15 - FUND BALANCE RESERVES FOR SET-ASIDES**

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by year end or offset by similarly restricted resources received during the year must be held in cash at year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the year end set-aside amounts for textbooks and capital acquisition. Disclosure of this information is required by State statute.

	<u>Textbooks</u>	<u>Capital Acquisition</u>
Set Aside Reserve Balance as of June 30, 2008	(\$2,609,335)	\$0
Current Year Set Aside Requirements	579,109	579,109
Qualified Disbursements	<u>(676,194)</u>	<u>(1,217,632)</u>
Set Aside Reserve Balance as of June 30, 2009	<u>(\$2,706,420)</u>	<u>(\$638,523)</u>
Restricted Cash as of June 30, 2009	<u>\$0</u>	<u>\$0</u>
Carried Forward to FY 2010	<u>(\$2,706,420)</u>	

Qualifying disbursements for capital activity during the year exceeded the amount required for the set-aside. Negative amounts are therefore not presented as being carried forward to the next fiscal year for the capital acquisition set-aside. Qualifying disbursements and carryover from prior years for textbooks totaled \$3,285,529, resulting in \$2,706,420 for carryover to offset textbook requirements in future years.

**NOTE 16 - INTERFUND BALANCES**

Interfund transactions at June 30, 2009, consisted of the following individual fund receivables and payables:

	Interfund	
	Receivable	Payable
General Fund	\$21,664	\$0
Other Governmental Funds	0	21,664
Total All Funds	<u>\$21,664</u>	<u>\$21,664</u>

During the current fiscal year, the District advanced money from the general fund to other governmental funds to fund various federal programs.

**NOTE 17 – ACCOUNTABILITY**

The following individual funds had a deficit in fund balance at year end:

Fund	Deficit
Special Revenue:	
Poverty Based Assistance	\$23,707
IDEA Part-B Special Education	72,582
Title III Limited English Proficiency	573
Title I	88,157
IDEA Preschool Handicapped	3,590
Improving Teacher Quality	6,273

The deficit in fund balance was primarily due to accruals in GAAP. The general fund is liable for any deficit in these funds and will provide operating transfers when cash is required not when accruals occur.

**WINTON WOODS CITY SCHOOL DISTRICT**  
**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**  
**For The Year Ended June 30, 2009**

**NOTE 1 – BUDGETARY PROCESS**

---

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriations resolution and the certificate of estimated resources which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount that the Board of Education may appropriate. The appropriation resolution is Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Board. The legal level of control has been established by Board at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources issued during the fiscal year 2009.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Board during the year.

While the District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Combined Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures for all funds (budget basis) rather than as a reservation of fund balance for governmental fund types and expendable trust funds (GAAP basis).
4. Advances in and advances out are operating transactions (budget basis) as opposed to balance sheet transactions.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the general fund.

Net Change in Fund Balance

	<u>General</u>
GAAP Basis	(\$1,329,597)
Net Adjustment for Revenue Accruals	(754,384)
Net Adjustment for Expenditure Accruals	(23,385)
Proceeds of Capital Assets	94
Advances In	10,654
Advances (Out)	(21,665)
Encumbrances	(364,751)
Budget Basis	<u><u>(\$2,483,034)</u></u>

## COMBINING STATEMENTS – NONMAJOR FUNDS

---

---

### NONMAJOR SPECIAL REVENUE FUNDS:

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects or expendable trusts) that are legally restricted to expenditure for specified purposes. The following are descriptions of each Special Revenue Fund:

#### FOOD SERVICE

To account for all revenues and expenses related to the provision of food services, including breakfast and lunch, for the District students and staff.

#### SCHOOL SUPPLY

To account for the purchase and sale of school supplies as adopted by the Board of Education for use in all schools of the District.

#### PUBLIC SCHOOL SUPPORT

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e. sales of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs.

#### LOCAL GRANTS

To account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

#### ATHLETICS / MUSIC

To account for those student activity programs which have student participation in the activity, but do not have student management of the programs. This fund includes athletic programs as well as band, cheerleaders, drama clubs, and other similar types of activities.

#### AUXILIARY SERVICES

To account for state funds which provide services and materials to students attending non-public schools within the boundaries of the District as provided by state law.

MANAGEMENT INFORMATION

To account for state funds provided to assist the district in implementing a staff, student, and financial reporting system as mandated by the Omnibus Education Reform Act of 1989.

DATA COMMUNICATION

To account for state funds, which provide affordable access to communication services.

SCHOOLNET STAFF DEVELOPMENT

To account for state funds which provide training and to attend regional workshops.

VOCATIONAL EDUCATION ENHANCEMENT

To account for state funds that expand the number of students enrolled in vocational education and/or replace or update equipment essential for the instruction of students in job skills.

POVERTY BASED ASSISTANCE

To account for state funds, which are designated to assist economically disadvantaged children in the learning process.

OTHER STATE GRANTS

To account for state funds received from state agencies which are not classified elsewhere per Auditor of State Guidelines.

IDEA PART-B SPECIAL EDUCATION

To account for federal funds for the provision of full educational opportunities to handicapped children at the preschool, elementary and secondary levels; assist in the training of teachers, supervisors and other specialists in providing educational services to the handicapped.

VOCATIONAL EDUCATION

To account for federal funds used in the development of vocational education programs in the following categories: secondary, post-secondary, adult, disadvantaged and handicapped persons, cooperative education, advisory committees, and work-study projects.

TITLE III LIMITED ENGLISH PROFICIENCY

To account for federal funds used to implement a program to effectively meet the educational needs of language minority students.

TITLE I

To account for federal funds for services provided to meet special educational needs of educationally deprived children.

TITLE V

To account for federal funds to provide programs for at-risk students; instructional materials to improve the quality of instruction; programs of professional development; programs to enhance personal excellence of students and student achievement.

DRUG-FREE SCHOOLS

To account for federal funds for the establishment, operation and improvement programs of drug abuse prevention, early intervention, rehabilitation referral and education in schools.

**IDEA PRESCHOOL HANDICAPPED**

To account for federal funds to be used to improve and expand the services to handicapped children ages three through five.

**IMPROVING TEACHER QUALITY**

To account for federal funds to be used for preparing, training, and recruiting high quality teachers and principals.

**OTHER FEDERAL GRANTS**

To account for federal funds to be used for and as directed by the Auditor of State and/or the Ohio Department of Education per Auditor of State guidelines.

(1) Hamilton County Auditor property tax records are maintained on a calendar year basis.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in businesses in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2007, 6.25 percent for 2008, and zero for 2009.

The tangible personal property values associated with each year are the values, that when multiplied by the applicable rates, generate the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemption before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.
