### THE COMPREHENSIVE ANNUAL FINANCIAL REPORT

**OF THE** 

### **CITY OF MADEIRA**

### **STATE OF OHIO**

### FOR THE YEAR ENDED DECEMBER 31, 2010

# Dave Yost • Auditor of State

City Council City of Madeira 7141 Miami Avenue Cincinnati, Ohio 45243

We have reviewed the *Independent Auditor's Report* of the City of Madeira, Hamilton County, prepared by Foxx & Company, for the audit period January 1, 2010 through December 31, 2010. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Madeira is responsible for compliance with these laws and regulations.

Jare Yort

## **CITY OF MADEIRA**

7141 Miami Avenue • Cincinnati, Ohio 45243-2699 (513) 561-7228 • Fax (513) 272-4211

June 29, 2011

To the Honorable Mayor, Members of the Governing Council, and Citizens of the City of Madeira:

State law requires that all general-purposes local governments publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP). Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Madeira for the fiscal year ended December 31, 2010.

This report consists of management's representations concerning the finances of the City of Madeira. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Madeira has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Madeira financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Madeira's comprehensive framework of internal controls has been designed to provide reasonable rather that absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Madeira's financial statements have been audited by Foxx & Company, CPAs, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Madeira for the fiscal year ended December 31, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent audit or concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Madeira's financial statements for the fiscal year ended December 31, 2010, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City of Madeira's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the Government**

The City of Madeira, incorporated in 1910 as a village, is located in the southwestern part of the state. The City of Madeira currently occupies a land area of 3.4 square miles and serves a population of 8,923. The City of Madeira is empowered to levy a property tax on real properties located within its boundaries.

The City of Madeira has operated under the council-manager form of government since 1959. Policy-making and legislative authority are vested in a governing council consisting of the mayor and six other members. The governing council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring both the government's manager and attorney. The City's manager is responsible for carrying out the policies and ordinances of the governing council, for overseeing the day to day operations of the government, and for appointing the heads of the various departments. The council is elected on a non-partisan basis. Council members are elected at large and serve four-year staggered terms, with elections every two years. The Madeira Home Rule Charter specifies term limits of three consecutive terms.

The Madeira City Council elects a Mayor and Vice-Mayor from within its ranks. The Mayor and Vice-Mayor each serve a two-year term. The Mayor's primary duties include presiding over City Council meetings, performing ceremonial civic duties and overseeing the proceedings of Mayor's Court. The Vice-Mayor assumes the duties of the Mayor in his or her absence.

The City of Madeira provides a full range of services, including police and fire protection; the construction and maintenance of highways, streets, and other infrastructure; and recreational activities and cultural events.

The annual budget serves as the foundation for the financial planning and control. The government's manager presents his proposed budget to the council for review prior to December 31. The council is required to hold public hearings on the proposed budget and to adopt a final budget by no later than December 31, the close of the City of Madeira's fiscal year. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., police). Budget to actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the general fund, this comparison is presented as part of the basic financial statements for the governmental funds. For governmental funds, other than the general fund, with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report.

#### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Madeira operates.

Local economy. The City of Madeira currently enjoys a favorable economic environment and local indicators point to continued stability. The region has a varied manufacturing and industrial base that adds to the relative stability of the unemployment rate. Major industries with headquarters or divisions located within the City's boundaries or in close proximity include consumer product manufacturers, jet engine and automobile component manufacturers, and several financial and insurance institutions.

The City's central business district is expected to maintain its current high occupancy rate with a variety of stores, specialty shops, and commercial businesses. Meanwhile, there continues to be a discernable trend toward steady residential growth.

**Long-term financial planning.** Unreserved, undesignated fund balance in the general fund (32% of general fund expenditures) falls above the policy guidelines set by the city council for budgeting and panning purposes (i.e. – between 20 and 25 percent of general fund expenditures). It is council's intent to not borrow to fund improvement projects unless the project size is over 1 million. The City Council plans to add and improve walk ways, bike ways, park space and obtain an improvement grant from the state. In addition, they are trying to repave all streets on existing 20 year schedule. The anticipated future annual street improvement budget is approximately \$500,000 per year.

**Relevant financial policies.** The 2010 transportation-related project was the replacement of Kenwood Road. The total cost of the street improvement was approximately \$4,000,000, for which the city received a state grant for 50% of the costs. In 2009, 30% of the project was completed and the remaining balance was completed in 2010.

**Major Initiatives.** The City borrowed \$1.2 million in 2010 to pay for the costs of the Kenwood Road Project. In 2009, the City also received a grant for sidewalk improvements that will require 50% participation by the City. The estimated cost is \$240,000 and the project should begin in 2011.

#### Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Madeira for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2009. This was the fifteenth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated

services of the entire staff of the finance and administration department. We would like to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Madeira's finances.

Respectfully submitted,

Con N.

Steven A. Soper Treasurer

#### **INDEPENDENT AUDITOR'S REPORT**

To the Honorable Mayor and Members of the City Council City of Madeira, Ohio:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Madeira, Ohio (the City) as of and for the year ended December 31, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Madeira, Ohio, as of December 31, 2010, and the respective changes in financial position, and cash flows, where applicable, and the respective budgetary comparison for the General Fund and the Street Repair fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2011, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial report is report is compliance. That report is

an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and statistical section, are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Faxe & Company

Cincinnati, Ohio June 27, 2011

#### Management's Discussion and Analysis

As management of the City of Madeira, we offer readers of the City of Madeira's financial statements this narrative overview and analysis of the financial activities of the City of Madeira for the fiscal year ended December 31, 2010. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in this report.

#### Financial Highlights

- The assets of the City of Madeira exceeded its liabilities at the close of the most recent fiscal year by \$10,972,588 (net assets). Of this amount, \$2,983,805 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$1,977,989.
- As of the close of the current fiscal year, the City of Madeira's governmental funds reported combined ending fund balances of \$2,445,886, an increase of \$557,969 in comparison with the prior year. Approximately 89 percent of this total amount, \$2,166,682 is available for spending at the government's discretion (unreserved fund balance).
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$1,697,869, or 32 percent of total general fund expenditures.
- The City of Madeira's total debt increased by \$930,000 (168 Percent) during the current fiscal year.

#### **Overview of the Financial Statements**

The discussion and analysis are intended to serve as an introduction to the City of Madeira's basic financial statements. The City of Madeira's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the City of Madeira's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City of Madeira's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Madeira is improving or deteriorating.

The statement of activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Madeira that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Madeira include general government, public safety, transportation, sanitation, community environment, and recreation. The business-type activity of the City of Madeira is rental property.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Madeira, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Madeira can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Madeira maintains fourteen individual governmental funds. Information is presented separately in the governmental fund balance sheet in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, street repair fund, OPWC Fund, and the debt service fund, all which are considered to be major funds. Data from the other ten governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Madeira adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

**Proprietary fund.** The City of Madeira maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Madeira uses an enterprise fund to account for its rental property operation.

Proprietary funds provide the same type of information as the governmental-wide financial statements, only in more detail. The proprietary fund financial statements provide information for the rental property operation, which is considered to be a major fund of the City of Madeira.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City of Madeira's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other information.** The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the notes to the financial statements.

#### Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Madeira, assets exceeded liabilities by \$10,972,588 at the close of the most recent fiscal year.

A portion of the City of Madeira's net assets (70 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets to provide services to citizens consequently; these assets are not available for future spending. Although the City of Madeira's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

#### City of Madeira's Net Assets (In Thousands)

	Governmental Activities		Business-type Activities		Tota	ıl
	2010	2009	2010	2009	2010	2009
Current and other assets	\$6,272	\$6,237	\$8	\$6	\$6,280	\$6,243
Capital Assets	8,873	6,571	367	390	\$9,240	\$6,961
Total Assets	15,145	12,808	375	396	15,520	13,204
Long-term liabilities outstanding	1,641	706	0	0	1,641	706
Other liabilities	2,904	3,497	3	6	2,907	3,503
Total Liabilities	4,545	4,203	3	6	4,548	4,209
Net assets:						
Invested in capital assets, net of related debt	7,388	6,017	367	390	7,755	6,407
Restricted	234	25	0	0	234	25
Unrestricted	2,978	2,563	5	0	2,983	2,563
Total Net Assets	\$10,600	\$8,605	\$372	\$390	\$10,972	\$8,995

An additional portion of the City of Madeira's net assets (2 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets (\$2,985) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City of Madeira is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

The government's net assets increased by \$1,978 during the current fiscal year. Most of this increase is due to onetime grants received for road work. The remainder of this growth largely reflects income in excess of expenses.

**Governmental activities.** Governmental activities increased the City of Madeira's net assets by \$1,995, thereby accounting for namely all of the growth in the net assets of the City of Madeira. Key elements of this increase are as follows:

#### City of Madeira's Changes in Net Assets

(In thousands)

	Governmental		Business-type			
	Activities			Activities		al
	2010	2009	2010	2009	2010	2009

Interest on Long-Term Debt	27	27	0	0	27	27
Rental Property	0	0	53	47	53	47
Total Expenses	6,139	6,024	53	47	6,192	6,071
Increase/(Decrease) in net assets	1,995	766	(18)	(24)	1,977	742
Net Assets – Beginning	8,605	7,839	390	414	8,995	8,253
Net Assets - Ending	\$10,600	\$8,605	\$372	\$390	\$10,972	\$8,995

- Property tax collections increased \$39 from the previous year due to increased personal property collections. The income and franchise taxes decreased by \$9 due to a flat economy.
- Grants for road work exceeded the depreciation by \$1,616.

For the most part, increases in expenses closely paralleled inflation and growth in the demand for services.

**Business-type activities.** Business-type activities decreased the City of Madeira's net assets by \$18.

#### Financial analysis of the City of Madeira's Funds

As noted earlier, the City of Madeira uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the City of Madeira's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Madeira's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Madeira's governmental funds reported combined ending fund balances of \$2,445,886, an increase of \$557,969 in comparison with the prior year. Approximately this entire amount, \$2,166,682, constitutes unreserved fund balance, which is available for spending at the government's discretion. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed to pay debt service \$279,204.

The general fund is the chief operating fund of the City of Madeira. At the end of the current fiscal year, unreserved fund balance and total fund balance of the general fund was \$1,697,869. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved and total fund balance represents 32 percent of total general fund expenditures.

The fund balance of the City of Madeira's general fund increased by \$1,119 during the current fiscal year. Key factors in this increase are as follows:

- One time increase in intergovernmental revenues of \$613,209 due to an increase in estate tax and a grant from Ohio Public Works Commission.
- Decrease in tax collections of \$83,462 due to the flat economy.
- Increase in charges for services of \$45,197 due to more EMS runs.
- Decrease in public safety of \$40,178 due to reduced capital purchases.
- Decrease in recreation of \$50,059 due to reduced capital purchases and summer staff reduction.
- Increase in transfers to other funds of \$256,800 to cover the 2011 debt repayment and future capital purchases.

The fund balance for Street Repair increased by \$209,168, which was due to increased intergovernmental revenue and notes the City issued for \$1,200,000 to pay for the balance of the street improvements in 2010.

The fund balance for the OPWC fund is zero and did not change during 2010. The fund records

the activity of the state matching grant received for the Kenwood Road Project. The City received and expended \$1,339,996 during the year resulting in no change to the fund balance.

The debt service fund has a total fund balance of \$279,204, all of which is reserved for the payment of debt service. The net increase in fund balance during the current year in the debt service fund was \$276,068, due to a transfer from the general fund.

**Proprietary fund.** The City of Madeira's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the rental property at the end of the year amounted to \$5,108. The decrease in net assets was (\$17,644). Other factors concerning the finances of this fund have already been addressed in the discussion of the City of Madeira business-type activities.

#### **General Fund Budgetary Highlights**

The increase between the original and final budget anticipated revenues totaled \$851,000. It was evident as the year progressed that intergovernmental revenue from estate tax was going to exceed original estimates. However, taxes did not increase as projected.

Differences between the original budget and the final amended budget for expenditures totaled \$0. During the year, however, revenues did not exceed budgetary estimates and expenditures were less than budgetary estimates, thus reducing the amount to be drawn upon the existing fund balance. The actual revenues fell short of our final budget, due to reduced income tax collections. Actual expenditures and transfers out were short of the final budget by a total of \$19,568. The favorable variance was due to anticipated capital expenditures not incurred prior to the end of the year and conservative budgeting.

#### Capital Asset and Debt Administration

**Capital assets.** The City of Madeira's investment in capital assets for its governmental and business type activities as of December 31, 2010 amounts to \$9,240,608 (net of accumulated depreciation). This investment in capital assets includes vehicles, improvements, furniture and equipment and roads. The total increase in the City of Madeira's investment in capital assets for the current fiscal year was 32 percent.

Major capital asset events during the current fiscal year included the following:

• Kenwood Road resurfacing and sidewalks totaling \$2,756,800.

#### City of Madeira's Capital Assets (net of depreciation) (In thousands

Additional information on City of Madeira's capital assets can be found in note IV.C.

Long-term debt. At the end of the current year, the City of Madeira had total bonded debt outstanding of \$1,485,000.

All \$1,485,000 is backed by the full faith and credit of the government.

#### City of Madeira's Outstanding Debt General Obligation Bonds (In thousands)

	Governmental Activities 2010 2009			
General obligation bond anticipation note	\$1,200	\$0		
General obligation bonds	285	555		
Total	\$1,485	\$555		

Additional information on City of Madeira's long-term debt can be found in note IV.E.

The City of Madeira's total debt increased by \$930,000 during the current fiscal year. The key factor in the increase was the issuance of bond anticipation note.

#### Economic Factors and Next Year's Budgets and Rates

• The occupancy rate of the City's central business district has remained at a high percent for the past three years.

.

- Inflationary trends in the region compare favorably to national indices.
- Building permits are anticipated to fall and earnings tax to remain flat.

All of these factors were considered in preparing the City of Madeira's budget for the 2011 fiscal year.

During the current fiscal year, unreserved fund balance in the general fund increased to \$1,697,869. The City of Madeira has not appropriated any of this amount for spending in the 2011 fiscal year budget.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Madeira's finances for all those with an interest in the City's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Office of the Treasurer, 7141 Miami Avenue, Madeira, Ohio, 45243.

## Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2010

Net Change in Fund Balances - Total Governmental Funds	557,969
Amounts reported for governmental activities in the statement of activities are different because	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	2,301,919
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Property Taxes(1,622)Income Tax7,505	
Intergovernmental Revenues 72,520 78,403	
Total	78,403
The issuance of long-term debt provides current financial resources, while the repayment of the principal consumes the current financial resources of the	
governemental funds. Neither transaction, however, has any effect on net assets.	(930,000)
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.	(8,373)
Some expenses reported in the statement of activities, such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	
Compensated Absences	(4,285)
Change in Net Assets of Governmental Activities	1,995,633

## CITY OF MADEIRA, OHIO NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2010

## I. Summary of significant accounting policies

## A. Reporting Entity

The City of Madeira (the City) is a home rule municipal corporation organized under the laws of the State of Ohio. The City operates under its own charter, which provides for a council/manager form of government and was adopted in 1959. The seven-member council is elected to four-year terms. Every two years council selects one of its members to serve as mayor and one of its members to serve as vice-mayor. Council also appoints the city manager, treasurer, law director and clerk of council.

The City provides various services including police protection, parks and recreation, planning, street maintenance and repair, and community development. The City also provides refuse collection and fire protection through annual contracts with outside contractors.

For financial reporting purposes, the City's financial statements include all funds for which the City is financially accountable based upon criteria set forth in Governmental Accounting Standards Board (GASB) Statement 14. The City reviewed certain legally separate organizations to determine if the elected officials of the City were financially accountable. No such organizations were identified.

## **B.** Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements; however interfund services provided and used are not eliminated in the process of consolidating. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from businesstype activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

## C. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. However, Agency fund has no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The street repair fund accounts for that portion of the state gasoline tax and motor vehicle registration fees designated for maintenance of streets within the City.

The OPWC fund accounts for expenditures for road improvements reimbursed by the State of Ohio.

The debt service fund accounts for the resources accumulated and payments made for principal and interest on long-term general obligation debt of governmental funds.

The government reports the following proprietary fund:

The proprietary fund type consists of only one Enterprise Fund. This fund accounts for operations of rental properties.

The government reports the following fiduciary fund:

The fiduciary fund type consists of only one Agency Fund. This fund accounts for Mayor's Court.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund is rent. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

## D. Assets, liabilities, and net assets or equity

1. Deposits and investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the City to invest in obligations of the U.S. Treasury, Certificates of Deposit, repurchase agreements, and the State Treasurer's Investment Pool.

Investments for the government are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

## 2. Receivables

All trade and property tax receivables are considered collectable at December 31, 2010, and the allowance for uncollectible amounts receivable is zero.

Real property taxes are levied on assessed values which equal 35% of appraised value. The county auditor reappraises all real property every six years with a triennial update. The last update was completed for tax year 2009. Real property taxes collected in any calendar year are generally levied on assessed values as of January 1 of the preceding year according to the following calendar:

### Property Tax Calendar - 2010 Collections

Lien Date	January 1, 2009
Levy Date	October 31, 2009
First Installment Payment Due	January 31, 2010
Second Installment Payment Due	June 20, 2010

The full tax rate applied to real property for the fiscal year ended December 31, 2010, was \$7.50 per \$1,000 of assessed valuation. Real property owners' tax bills are further reduced by homestead and rollback deductions, when applicable. The amount of these homestead and rollback reductions is reimbursed to the City by the State of Ohio.

The Hamilton County Treasurer collects property tax on behalf of all taxing districts within the County. The Hamilton County Auditor periodically remits to the taxing districts their portions of the taxes collected.

Tangible personal property used in business, other than public utilities, is no longer taxed.

Public utilities real and tangible personal property taxes collected in any calendar year are those levied on assessed values as of December 31 of the preceding year. Certain tangible personal property of public utilities is currently assessed at 100% of its true value. Real property of public utilities is currently assessed at 35% of true value. Property taxes on public utilities are subject to the same calendar as real property taxes, which are described above.

Property taxes that are measurable but not available at fiscal year end are recorded as a receivable with the corresponding revenue deferred until available. Delinquent property tax amounts, net of allowance for uncollectibles, are recorded if material in amount.

3. Inventories

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather that when purchased.

## 4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment of the City are depreciated using the straight line method over

the following estimated useful lives:

Assets	Years	
Building & Improvements	27	
Infrastructure	15	
Police Vehicles	3	
All Other Vehicles	5	
Office Furniture & Software	3 - 5	

Infrastructure assets acquired prior to 2004 have not been capitalized.

5. Compensated absences

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government, unless they are eligible to retire. If they are eligible to retire, a liability is recorded for 40 percent of their accrued sick leave up to a maximum of 480 hours and accounted for using the termination method. All vacation pay is accrued when incurred in the government-wide and proprietary financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

## 6. Long-term obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

7. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

8. Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## II. Reconciliation of government-wide and fund financial statements

## A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the

government-wide statement of net assets. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$1,655,068 difference are as follows:

Bond Anticipation Notes Payable	\$1,200,000
Bonds Payable	285,000
Accrued Interest Payable	14,549
Compensated Absences	155,519
Net adjustment to reduce fund balance - total governmental funds to arrive at net assets - governmental	
activities	\$1,655,068

# B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The government fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the government-wide statements of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital Outlay	\$2,854,111
Depreciation Expense	(552,192)
Net adjustment to increase net changes in fund balances – total governmental funds to arrive at changes in net	
assets of governmental activities	\$2,301,919

## III. Stewardship, compliance, and accountability

## A. Budgetary information

In 1994 the City, being a home rule Municipal Corporation, adopted, through ordinance, GAAP (generally accepted accounting principle) as its budgetary basis. This change was thought necessary in order to provide more comparable budget and actual revenue and expenditure analysis. Therefore, the revenue and expenditure statements contained herein for comparative purposes are presented on the basis of generally accepted accounting principles. The City is reporting at the legal level of budgetary control which requires the governing body to approve any over budget expenditures of appropriations or transfers of appropriated amounts at the fund level.

## Budgetary Process

Annual budgets are adopted for all governmental funds. The City adopts an annual budget for the proprietary fund; however, budgetary data is not presented for the proprietary fund due to the nature of the fund. There is no legal requirement to report on such budget. The budgetary process is prescribed by provisions of the Ohio Revised Code. The legal level of budgetary control under Ohio law is the level at which the appropriation measure is passed by the legislative authority of a local government. For the City, the legal level of control is the fund level for each fund. Management may not amend the budget without council approval. Budgetary modifications may only be made by resolution of the City council. The major documents prepared are:

<u>Tax Budget</u>. A tax budget of estimated cash revenues and expenditures for all budgeted funds, for the period January 1 to December 31 of the following year, is submitted to the County Auditor by July 20 of each year. The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The commission certifies its actions to the City by October 1. As part of this certification, the City receives the official certificate of estimated resources, which states the projected revenues of each fund. The certificate of estimated resources may be further amended during the year if the fiscal officer determines that the revenue collected is greater or less than the current estimates. Because the tax budget prepared for the County Auditor is on a cash basis, those numbers do not match the GAAP-basis budget shown in this report as required by ordinance.

<u>Appropriations</u>. A temporary appropriation measure to control expenditures may be passed on or about January 1 of each year for the period from January 1 to March 31. The annual appropriation ordinance must be passed by April 1 of each year for the period January 1 to December 31. The appropriation ordinance may be amended during the year by ordinance of council as new information becomes available provided that total fund appropriations do not exceed current estimated resources, as certified. During the year, two supplemental appropriation measures were passed. The budget figures which appear in the statements of budgetary comparisons represent the final appropriation amounts, including all amendments and modifications. All annual appropriations lapse at December 31.

<u>Encumbrances</u>. As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Unencumbered and unexpended appropriations lapse at year end. Encumbrances are closed to unreserved fund balance/net assets at year end and are re-encumbered and re-appropriated at the start of the following year.

## IV. Detailed notes on all funds

## A. Deposits and investments

The City follows the practice of pooling cash and investments with the Treasurer, except for the cash and cash equivalents in Agency Fund. Each fund's portion of total cash and investments is summarized by fund type in the Balance Sheet as either "Cash and Cash Equivalents" and/or "Investments."

## **Deposits**

<u>Custodial Credit Risk.</u> Custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's custodial credit risk policy requires that deposits be collateralized as required by ORC Chapter 135. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the City places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, Municipal Corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other legally constituted authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year-end, none of the City's bank balance of \$436,364 was exposed to custodial credit risk, as it was fully insured by the FDIC.

## Investments

The City's investments at December 31, 2010 are as summarized as follows:

	Fair Value	Average Maturity Years
Star Ohio	\$2,130,169	n/a

<u>*Credit Risk.*</u> It is the City's policy to limit its investments that are not obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government to investments which have a credit quality rating of the top 2 ratings by nationally recognized statistical rating organizations. Investments in STAR Ohio were rated AAAm by Standard & Poor's.

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of a government's investment in a single issuer. The City is required to disclose the amount of investments with any one issuer that represent five percent of more of total investments. Investments issued by the U.S. government, investments, and investments in external investment pools are excluded from this requirement. At December 31, 2010, 100% of the

City's investments are STAR Ohio, which is an external investment pool.

STAR Ohio is an investment pool managed by the State Treasurer's Office that allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2010.

The classification of cash and cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9. Reconciliation between the classifications of cash and investments on the financial statements and the classifications per GASB Statement No. 3 is as follows:

	Cash and Cash Equivalents	Investments
GASB Statement 9	\$2,376,292	0
Star Ohio	(2,130,169)	2,130,169
GASB Statement 3	\$246,123	\$2,130,169

## B. Receivables

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned.

# C. Capital assets

Capital asset activity for the year ended December 31, 2010 was as follows:

Governmental Activities	Balance at 1/1/10	Increases	Decreases	Balance at 12/31/10
Land - not being depreciated	\$645,000	\$0	\$0	\$645,000
Capital Assets - being depreciated				
Building & Land Improvements	3,126,035	57,041	0	3,183,076
Vehicles	672,970	29,062	0	702,032
Infrastructure	4,806,629	2,756,800	0	7,563,429
Furniture, Equipment and Software	629,115	11,208	(13,360)	626,963
Total Capital Assets	\$9,879,749	\$2,854,111	\$(13,360)	12,720,500
Less Accumulated Depreciation				
Building & Land Improvements	(1,858,330)	(127,224)	0	(1,985,554)
Vehicles	(550,462)	(65,483)	0	(615,945)
Infrastructure	(473,837)	(313,714)	0	(787,551)
Furniture, Equipment and Software	(425,318)	(45,771)	13,360	(457,729)
Total Accumulated Depreciation	(3,307,947)	(552,192)	13,360	(3,846,779)
Total Capital Assets, being depreciated, net	5,926,802	2,301,919	0	8,228,721
Governmental Activities Capital Assets, Net	\$6,571,802	\$2,301,919	\$0	\$8,873,721

Business-type Activities	Balance at 1/1/10	Increases	Decreases	Balance at 12/31/10
Land - not being depreciated	\$134,008	\$0	\$0	\$134,008
Capital assets being depreciated:				
Land Improvements	105,569	5,528	0	111,097
Buildings	370,164	0	0	370,164
Subtotal	609,741	5,528	0	615,269
Less Accumulated Depreciation:				
Land Improvements	(44,473)	(14,617)	0	(59,090)
Buildings	(175,612)	(13,680)	0	(189,292)
Total Accumulated Depreciation	(220,085)	(28,297)	0	(248,382)
Total Capital Assets, being				
depreciated, net	255,648	(22,769)	0	232,879
Net Capital Assets	\$389,656	(\$22,769)	\$0	\$366,887

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:	
General government	\$69,468
Public Safety	47,646
Transportation	378,937
Recreation	56,141
Total depreciation expense - governmental activities	<u>\$552,192</u>
Business-type activities:	<b>.</b>
Enterprise	<u>\$28,297</u>

#### **D.** Interfund transfers

Interfund transfers:

-	CI&R	Debt Service	Non Major Governmental	Total
Transfers Out: General Fund Veteran's Memorial	\$75,000 \$1,211	\$563,800	\$95,000	\$733,800 \$1,211

Transfers were made to fund debt service, capital improvements and subsidize recreation programs.

## E. Long-term debt

#### General Obligation Bonds

General obligation bonds are direct obligations and pledge the full faith and credit of the City and will be paid by the Debt Service Fund.

In April 1, 1999, the City issued general obligation bonds in the amount of \$2,750,000 with interest rates ranging from 3.5% to 4.5% and maturing April 1, 2000 through April 1, 2011. Proceeds were used to pay off \$625,000 of outstanding notes as they matured during 1999, as well as, \$1,500,000 of bonds that were callable on December 1, 1999. The balance of the proceeds was used to fund improvements throughout the City. All outstanding debt is capital related.

On May 25, 2010 the City issued a one-year bond anticipation note in the amount of \$1,200,000 for the Kenwood Road resurfacting project. This note will be due on May 24, 2011.

## Changes in long-term liabilities

Long-term liability activity for the year ended December 31, 2010 was as follows:

Governmental Activities	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Bond Anticipation Note					, <u></u>
	\$0	\$1,200,000	\$0	\$1200,000	\$1,200,000
General Obligation Bonds	555,000	0	(\$270,000)	285,000	285,000
Compensated Absences	151,234	96,434	(92,149)	155,519	118,325
Governmental Activity Long-term Liabilities	\$706,234	\$1,296,434	(\$362,149)	\$1,640,519	\$1,603,325

Compensated absences have been liquidated from the General Fund in the past.

Debt Service Requirements to Maturity

Year End	Principal	Interest	Total
2011	285,000	6,413	291,413

## V. Other information

## A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; error and omissions; injuries to employees and natural disasters. During 2010, the City contracted with Miami Valley Risk Management Association for vehicle, property and general liability insurance. There has been no reduction in coverage from the prior years and claims have not exceeded coverage in any of the past three years. The City provided medical insurance through Anthem Health Insurance, dental insurance through Met Life and life insurance through Anthem Health Insurance.

#### Insurance Pool

Miami Valley Risk Management Association, Inc. (MVRMA, Inc.) is a consortium of municipalities located in southwest Ohio which, beginning in 1988, formed an Association under Section 2744.081 of the Ohio Revised Code (ORC) to act collectively in addressing its members' risk management and risk financing needs. At December 31, 2010, Madeira's participation was limited to coverage for all property, crime liability, boiler and machinery and public official liability up to the limits stated below. MVRMA provides broad-based coverage, through self-insurance and commercial reinsurance, up to the limits stated below, with increased emphasis on safety and loss prevention and to create an opportunity for other local governments to participate.

MVRMA, Inc. is a corporation governed by a board of trustees, consisting of a representative appointed by each of the member cities. The board of trustees elects the officers of the corporation, with each trustee having a single vote. The board is responsible for its own financial matters and the corporation maintains its own books of account. Budgeting and financing of MVRMA, Inc. is subject to the approval of the board. The City of Madeira does not hold an equity interest in MVRMA, Inc.

1.	General Liability	\$10,000,000/occurrence

The deductible per occurrence for all types is \$2,500.

MVRMA prepares annual financial statements. Additional information can be obtained from their Comprehensive Annual Financial Report for 2010 by writing MVRMA, 1450 E. David Road, Suite 1B, Kettering, OH 45429-5706.

The City pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs. In order to lower rates charged to the City, the City has joined a group rating program through Ohio Municipal League.

# B. Contingent liabilities

The City is of the opinion that ultimate disposition of claims and legal proceedings will not have a material effect, if any, on the financial condition of the City.

# C. Contractual commitments

The City contracts with the Madeira/Indian Hill Joint Fire District for fire protection and emergency medical services. The contract fee for 2010 was \$1,506,600.

The City also contracts with CSI for solid waste collection. The contract fee for 2010 was \$539,028.

Health Department services are provided through Hamilton County. The cost of \$17,734 deducted from property tax receipts collected by the County.

# D. Resolution of legal claim

In March 1992, an employee of the City suffered a fatal accident while working on City business. In February of 1993, Council approved Resolution 10-93 which approved an agreement concerning a settlement with the employee's widow. The settlement provided for a guaranteed amount of \$88,400, payable to the widow (or her estate) in monthly installments of \$737 from February of 1993 through February of 2003. The guaranteed amount was paid off in February of 2003 and no liability exists at December 31, 2010 relative to the guaranteed settlement.

In addition, the agreement provided for monthly payments of \$650 to the widow after February of 2003, contingent upon death or remarriage. The City made all such required payments to the widow from January through December 2010.

# E. Defined Benefit Pension Plan

All of the City's full-time employees participate in one of two separate retirement systems which are cost-sharing multiple employer defined benefit pension plans.

# Ohio Public Employees Retirement System - (OPERS)

The following information was provided by OPERS to assist the City in complying with GASB Statement No. 27, "Accounting for Pensions by State and Local Government Employers."

All employees of the City, except full-time uniformed police officers, participate in one of the three pension plans administered by OPERS: The Traditional Pension Plan (TP), the Member-Directed Pland (MD), and the Combined Plan (CO). The TP Plan is a cost-sharing multiple-employer defined benefit pension plan. The MD Plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the MD Plan members accumulate retirement assets equal to the value of the member and (vested) employer contributions plus any investment earnings. The CO Plan is a cost-sharing multiple-employer defined benefit pension plan that has the elements of both defined benefit and defined contribution plan. Under the CO Plan employer contributions are invested by the retirement system to provide a formula retirement benefit similar in nature to the TP Plan. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the MD Plan.

OPERS provide retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the TP Plan and CO Plan. Members of the MD Plan do not qualify for ancillary benefits, including post-employment health care coverage. Chapte 145 of the Ohio Revised Code (ORC) provides statutory authority to establish and amend benefits. The Ohio Public Employees Retirement System issues a stand-alone financial report that includes financial statements and required supplementary information for OPERS. Interested parties may obtain a copy by making a written request to OPERS, Attention: Finance Director, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 OR 1-800-222-7377. The ORC provides statutory authority for employee and employer contributions. For 2010, employee and employer contribution rates were consistent across all three plans. The employee contribution rate is 10.0%. The 2010 employer contribution rate for local government employer units was 14.0% of covered payroll, which is the maximum contribution rate set by State statutes. The City's required employer contributions for all plans are equal to 100% of employer charges. The pension obligations for the years ending December 31, 2010, 2009, and 2008 were \$104,100, \$104,541, and \$98,606, respectively.

## Ohio Police and Fire Pension Fund – (OP&F)

All City full-time police officers participate in OP&F, a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164.

Plan members are required to contribute 10% of their annual covered salary, while employers are required to contribute 19.5%. The City's contributions to OP&F for the years ended December 31, 2010, 2009, and 2008 were \$189,015, \$188,217, and \$184,638, respectively, or

55 % of the required contributions for 2009, 75% of the required contributions for 2008 and 77% of required contributions for 2007.

## F. Other Postemployment benefits

## Ohio Public Employees Retirement System – (OPERS)

Plan Description - OPERS administers three separate pension plans: The Traditional Pension Plan - a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan - a defined contribution plan; and the Combined Plan - a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. OPERS maintains a cost-sharing multiple employer defined benefit postemployment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45. The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by writing OPERS, 277 East Town Street, Columbus OH 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2010, local government employer units contributed at 14% of covered payroll. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14% of covered payroll for local employer units. Active members do not make contributions to the OPEB Plan.

OPERS' Post Employment Health Care plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to health care for members in the Traditional Plan was 5.5% from January 1 through February 28, 2010 and 5.0% from March 1 through December 31, 2010. The portion of employer

contributions allocated to health care for members in the Combined Plan was 4.73% from January 1 through February 28, 2010 and 4.23% from March 1 through December 31, 2010. The OPERS Board of Trustees is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The rates stated above, are the contractually required contribution rates for OPERS. The employer contributions actually made to fund post-employment benefits for the years ending December 31, 2010, 2009, and 2008 were \$37,768, \$49,303, 38,020, respectively, which equaled the required contributions each year.

OPERS Retirement Board Implements its Health Care Preservation Plan - The Health Care Preservation Plan (HCPP) adopted by the OPERS Board of Trustees on September 9, 2004, was effective on January 1, 2007. Member and employer contribution rates increased January 1 of each year from 2006 to 2008. Rates for law and public safety employers increased over a six year period beginning January 1, 2006, with a final rate increase January 1, 2011. These rate increases allowed additional funds to be allocated to the health care plan.

## Ohio Police and Fire Pension Fund

Plan Description - The City of Madeira contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored health care program, a cost sharing multiple-employer defined postemployment health care plan administered by OP&F. OP&F provides healthcare benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the Plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy - The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.50% of covered

payroll for police employers. The Ohio Revised Code states that the employer contribution may not exceed 19.50% of covered payroll for police employer units. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For the year ended December 31, 2010, the employer contribution allocated to the health care plan was 6.75% of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City of Madeira's contributions to OP&F for the years ending December 31, 2010, 2009, and 2008 were \$189,015, \$188,217, and \$184,638, respectively, which equaled the required contributions each year. The portion of each year's payment allocated to the health care plan was \$65,428, \$65,123 and \$63,885, respectively.

This Page is Intentionally Left Blank

### Nonmajor Governmental Funds Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Sidewalk Repair Fund: Accounts for maintenance and repair of all city sidewalks.

<u>Recreation and Parks</u>: Accounts for the City's operation of recreation programs and improvements to the City's two parks, Sellman and McDonald Commons. Revenues are derived from recreation fees.

<u>Street Dance</u>: Accounts for the annual Street Dance held in August by the Recreation and Parks Commission. Revenues are proceeds from the sale of beer at the function.

<u>Police Trust Fund</u>: Receives proceeds from the sale of confiscated properties (vehicles, weapons, etc.) other than from drug cases. Disbursements may be made from the fund only to pay the costs of investigations, technical training, matching funds for federal grants or other appropriate law enforcement purposes.

<u>Police Forfeitures</u>: Receives proceeds from the sale of confiscated properties and equipment from drug related cases. Expenditures may only be made for drug enforcement programs.

<u>DUI</u>: Receives fines imposed upon DUI offenders. Under state law, disbursements may be made from this fund for law enforcement purposes related to informing the public of laws governing the operation of a motor vehicle while under the influence of alcohol, and other information relating to the operation of a motor vehicle and the consumption of alcoholic beverages.

<u>Computer Fund:</u> Receives fines for the operation and maintenance of the computer system for the police department.

<u>Centennial Celebration Fund:</u> Accounts for revenue and expenses due to the City of Madeira's Centennial Celebration.

## **Capital Project Funds**

<u>Veteran's War Memorial Fund:</u> Accounts for collection of public donations for the construction of the Veteran's Memorial at McDonald Commons.

<u>OPWC:</u> Accounts for expenditures for road improvements reimbursed by the State of Ohio.

Stormwater: Accounts for expenditures made to repair and replace parts of the City's stormwater system.

<u>Central Business District</u>: Accounts for expenditures made for the repair and improvement of Madeira's central business district.

<u>CI&R</u>: Accounts for capital expenditures made for all general improvement projects not funded elsewhere.

## STATISTICAL SECTION

This part of the City of Madeira's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	<u>Page</u>
Financial Trends	83
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	88
These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	
Debt Capacity	93
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	97
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	
Operating Information	99
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property were assessed at 18.75 memory. The memory was and the 10.55 memory for 7000 and 2006. For collection year 2006 both types of general business tangible personal property were assessed at 18.75 memory. Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal. The assessed value of real property (including

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, 2 1/2% and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generate the property tax revenue billed in that year. The city's basic property tax rate may be increased only by a majority vote of the City's residents. Notes:

Charter Millage is consistently applied to all types of property.

The real property tax rates for the voted levies of the overlapping taxing districts are reduced so that inflationary increases in value do not generate additional revenue.

Overlapping rates are those of local and county governments that apply to property owners within the City.

#### REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of the City Council City of Madeira, Ohio:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Madeira, Ohio (the City), as of and for the year ended December 31, 2010, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 27, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. A *significant deficiency* 

is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the City of Madeira, Ohio, in a separate letter dated June 27, 2011.

This report is intended solely for the information and use of management, City Council, and others within the entity, and is not intended to be and should not be used by anyone other than these specified parties.
