INDEPENDENT ACCOUNTANTS' REPORT

Benjamin Logan Local School District Logan County 4740 County Road 26 Bellefontaine, Ohio 43311

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Benjamin Logan Local School District, Logan County, Ohio (the District), as of and for the fiscal year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

Ohio Administrative Code § 117-2-03 (B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. However, as discussed in Note 2, the accompanying financial statements and notes follow the cash accounting basis. This is a comprehensive accounting basis other than generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, we cannot determine at this time.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Benjamin Logan Local School District, Logan County, Ohio, as of June 30, 2012, and the respective changes in cash financial position, thereof and the budgetary comparison for the General Fund thereof for the year then ended in conformity with the accounting basis Note 2 describes.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 2, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

We conducted our audit to opine on the District's financial statements taken as a whole. Management's Discussion & Analysis includes tables of net assets, changes in net assets, governmental activities, fund balances, cash receipts, and cash disbursements. The Schedule of Federal Awards Receipts and Expenditures (the Schedule) is required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. These tables and the Schedule provide additional information, but are not part of the basic financial statements. However these tables and the Schedule are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These tables and the Schedule were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. Other than the aforementioned procedures applied to the tables, we applied no procedures to any other information in Management's Discussion & Analysis, and we express no opinion or any other assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

The management's discussion and analysis of the Benjamin Logan Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the year ended June 30, 2012, within the limitations of the District's cash basis of accounting. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the cash-basis financial statements and the notes to the financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2012 are as follows:

- The total net cash assets of the District decreased \$959,889 or 14.39% from fiscal year 2011.
- General cash receipts accounted for \$15,230,283 or 78.72% of total governmental activities cash receipts. Program specific cash receipts accounted for \$4,117,803 or 21.28% of total governmental activities cash receipts.
- The District had \$20,307,975 in cash disbursements related to governmental activities; \$4,117,803 of these cash disbursements were offset by program specific charges for services, grants or contributions. General cash receipts (primarily taxes) of \$15,230,283 were not adequate to provide for these programs.
- The District's major funds are the general fund and the permanent improvement fund. The general fund, the District's largest major fund, had cash receipts of \$16,744,210 in 2012. The cash disbursements and other financing uses of the general fund, totaled \$17,079,517 in 2012. The general fund's fund cash balance decreased \$335,307 from a balance of \$4,993,408 to \$4,658,101.
- The permanent improvement fund, a District major fund, had cash receipts and other financing sources of \$661,149 in 2012. The permanent improvement fund had cash disbursements of \$410,775 in 2012. The permanent improvement fund's fund cash balance increased \$250,374 from 2011 to 2012.

Using this Cash Basis Basic Financial Statements (BFS)

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the District's cash basis of accounting.

The statement of net assets – cash basis and statement of activities – cash basis provide information about the activities of the whole District, presenting an aggregate view of the District's cash basis finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of the District, there are two major governmental funds. The general fund is the largest major fund.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

The statement of net assets – cash basis and the statement of activities – cash basis answer the question, "How did we do financially during 2012?" These statements include *only net cash assets* using the *cash basis of accounting*, which is a basis of accounting other than accounting principles generally accepted in the United States of America (GAAP). This basis of accounting takes into account only the current year's receipts and disbursements if the cash is actually received or paid.

These two statements report the District's net assets and changes in those assets on a cash basis. This change in net cash assets is important because it tells the reader that, for the District as a whole, the cash basis financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, mandated federal and state programs and other factors.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not collected) and liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements. Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations resulting from the use of the cash basis of accounting.

In the statement of net assets – cash basis and the statement of activities – cash basis, the governmental activities include District's programs and services including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, and food service operations.

The statement of net assets – cash basis and the statement of activities – cash basis can be found on pages 11-12 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and the permanent improvement fund. The analysis of the District's major governmental funds begins on page 8.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED) (Continued)

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the cash basis of accounting, which is a basis of accounting other than GAAP. The governmental fund statements provide a detailed view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer cash basis financial resources that can be readily spent to finance various District programs. Since the District is reporting on the cash basis of accounting, there are no differences in the net cash assets and fund cash balances or changes in net cash assets and changes in fund cash balances. Therefore, no reconciliation is necessary between such financial statements. The governmental fund statements can be found on pages 13-14 of this report.

The District's budgetary process accounts for certain transactions on a cash basis. The budgetary statement for the general fund is presented to demonstrate the District's compliance with annually adopted budgets. The budgetary statement can be found on page 15 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District's only fiduciary funds are agency funds. Only the cash held at year end for these funds is reported on page 16.

Notes to the Financial Statements

The notes provide additional information that is essential to full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 17-35 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED) (Continued)

The dependence upon general cash receipts for governmental activities is apparent; with 79.72% of cash disbursements supported through taxes and other general cash receipts during 2012.

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

Governmental Funds

The District's governmental funds are accounted for using the cash basis of accounting.

The District's governmental funds reported a combined fund cash balance of \$5,711,062, which is \$959,889 below last year's total balance of \$6,670,951. The schedule below indicates the fund cash balance and the total change in fund cash balance as of June 30, 2012 and June 30, 2011, for all major and non-major governmental funds.

	Fund Balance June 30, 2012	Fund Balance June 30, 2011	Increase (Decrease)
Major funds:			
General	\$4,658,101	\$4,993,408	(\$335,307)
Permanent improvement	702,908	452,534	250,374
Other non-major governmental funds	350,053	1,225,009	(874,956)
Total	\$5,711,062	\$6,670,951	(\$959,889)

General Fund

The general fund, the District's largest major fund, had cash receipts of \$16,744,210 in 2012. The cash disbursements and other financing uses of the general fund, totaled \$17,079,517 in 2012. The general fund's cash balance decreased \$335,307 from a balance of \$4,993,408 to \$4,658,101.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED) (Continued)

The table that follows assists in illustrating the cash receipts of the general fund.

	2012 Amount	2011 Amount	Percentage Change
Cash Receipts:			
Taxes	\$ 6,675,491	\$ 6,442,823	3.61 %
Tuition	1,429,517	1,408,153	1.52 %
Transportation fees	19,269	20,447	(5.76) %
Earnings on investments	33,256	60,549	(45.08) %
Other local revenues	520,382	391,459	32.93 %
Intergovernmental – State	8,066,295	8,380,497	(3.75) %
Total	\$16,744,210	\$16,703,928	0.24 %

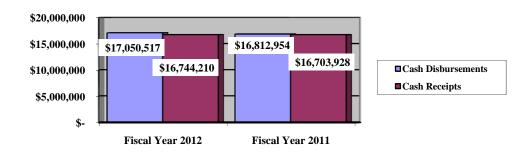

The District had more students from other districts apply for open enrollment, which resulted in an increase in tuition receipts. The interest rates have also fallen, which accounts for the decrease in earnings on investments.

The table that follows assists in illustrating the disbursements of the general fund.

	2012 Amount	2011 Amount	Percentage Change	•
Cash Disbursements:				
Instruction	\$10,153,970	\$ 9,892,165	2.65	%
Support services	6,511,363	6,527,148	(0.24)	%
Extracurricular	385,184	389,966	(1.23)	%
Facilities acquisition and construction		3,675	(100.00)	%
Total	\$17,050,517	\$16,812,954	<u></u> 1.41	%

Facilities acquisition and construction disbursements decrease as a result of fewer capital projects during the year. The District passed a Permanent Improvement Levy in November of 2009 and the District is planning to use those tax dollars on future facilities acquisitions and construction. All other cash disbursements remained comparable to 2011. Overall, cash disbursements increased \$237,563 from 2011.

Permanent Improvement Fund

The permanent improvement fund, a District major fund, had cash receipts and other financing sources of \$661,149 in 2012. The permanent improvement fund had cash disbursements of \$410,775 in 2012. The permanent improvement fund's fund cash balance increased \$250,374 from 2011 to 2012.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED) (Continued)

Budgeting Highlights – General Fund

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

For the general fund, final budget basis receipts and other financing sources did not change from the original budget estimates of \$14,431,600. Actual cash receipts of \$14,882,178 were more than final budget estimates by \$450,578. The final budget basis disbursements did not change from the original budget estimates of \$15,143,041. The actual budgetary basis disbursements and other financing uses of \$14,490,495 were \$652,546 less than the final budget estimates.

Capital Assets and Debt Administration

Capital Assets

The District does not record capital assets in the accompanying cash basis basic financial statements, but records payments for capital assets as disbursements. The District did not have any facilities acquisition and construction disbursements during fiscal year 2012.

Debt Administration

The District did not have any long-term obligations outstanding at June 30, 2012.

Current Financial Related Activities

The challenge for all school districts is to provide a quality education with limited revenue growth. This is even more challenging for a rural district such as Benjamin Logan Local Schools. With mainly one industry, whose Tangible Personal Property tax is being replaced with the House Bill 66 approved Commercial Activity Tax (CAT) that flows through the State, the District must rely on local taxes and State support even further for future revenue growth. The five-year forecast is predicting a deficit for fiscal year 2015.

The District has been an effective school district over the last five years, which is among the top 15% of schools statewide. This academic success has been achieved by staff and administration dedication to improvement, an increase in professional development, and community support.

Contacting the District's Financial Management

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

1. DESCRIPTION OF THE SCHOOL DISTRICT

Benjamin Logan Local School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The District provides educational services as authorized by State statute and/or federal guidelines.

The District was established in 1969 through the consolidation of existing land areas and school districts. The District serves an area of approximately 225 square miles, 201 square miles in Logan County, 18 square miles in Hardin County, and six square miles in Union County. It is located in Logan County and includes the Villages of Belle Center, Rushsylvania, Valley High, Middleburg, West Mansfield, Zanesfield, and East Liberty. The District is staffed by 93 non-certified employees and 130 certified full-time teaching personnel who provide services to 1,803 students and other community members. The District currently operates three instructional buildings and a garage building.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed in Note 2.B., these financial statements are presented on the cash basis of accounting. The cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In cases where these cash basis statements contain items that are the same as, or similar to, those items in financial statements prepared in conformity with GAAP, similar informative disclosures are provided.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>". The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food services, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Government Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following organizations are described due to their relationship to the District:

1. Jointly Governed Organizations

Western Ohio Computer Organization (WOCO)

The District is a participant in the Western Ohio Computer Organization (WOCO), which is a computer consortium. WOCO is an association of various public school districts within the boundaries of Auglazie, Champaign, Hardin, Logan, Shelby, and Miami Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions of member school districts. Each of the governments of these districts supports WOCO based upon a per pupil charge dependent on the software package utilized. In accordance with GASB Statement No. 14, the District does not have an equity interest in WOCO, as the residual interest in net resources of the joint venture upon dissolution is not equivalent to an equity interest. WOCO is governed by a board of directors consisting of the superintendents of the member school districts and the degree of control is limited to the representation on the board. Financial information can be obtained from Sonny Ivey, who serves as Director, at 129 East Court Street, Sidney, Ohio 45365.

Ohio Hi-Point Joint Vocational School

The Ohio Hi-Point Joint Vocational School District is a political subdivision of the State of Ohio, which possesses its own budgeting and taxing authority. The Vocational School is governed by a board of education that consists of a representative from each participating school district and its degree of control is limited to its representation on the board. To obtain financial information write to the Ohio Hi-Point Vocational School, Eric Adelsberger, who serves as Treasurer, at 2280 State Route 540, Bellefontaine, Ohio 43311.

Logan County Education Foundation

The Logan County Education Foundation was established to secure and distribute contributions from individuals, corporations, and foundations for the benefit of students within the county. The Foundation promotes, sponsors, and encourages the pursuit of excellence in education for students. The Foundation is managed by a Board of Trustees composed of six trustees from each school district. These trustees are nominated by their local school boards including Bellefontaine City School District, Benjamin Logan Local School District, Indian Lake Local School District, and Riverside Local School District. The Executive Board is comprised of the Logan County Educational Service Center Superintendent representing the three local school district. Financial information can be obtained by contacting the Eric Adelsberger, who serves as Financial Advisor, 2626 County Road 18, Bellefontaine, Ohio 43311.

2. Insurance Purchasing Pools

Ohio School Boards Association Workers' Compensation Group Rating Program

The District participates in a group-rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio School Boards Association Workers' Compensation Group Rating Program (the "Program") was established through the Ohio School Boards Association ("OSBA") as an insurance purchasing pool.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Program's business and affairs are conducted by a three-member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designees, serves as coordinator of the Program. Each year, the participants pay an enrollment fee to the Program to cover the costs of administering the Program.

Logan County School Benefit Plan Association

The District participates in the Logan County Schools Benefit Plan Association (the Plan); a public entity shared risk pool consisting of one educational service center, one joint vocational school district, and three local school districts. The District pays monthly premiums to the Plan for employee life insurance, dental and medical benefits. The Plan is responsible for the payment of all Plan liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

3. Related Organization

Belle Center Free Public Library

The Belle Center Free Public Library (the "Library") is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the District Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsides. Although the District does serves as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Belle Center Free Public Library, Anita Krummrey, Clerk/Treasurer, at 103 South Elizabeth Street, PO Box 336, Belle Center, Ohio 44310.

B. Basis of Accounting

Although required by Ohio Administrative Code § 117-2-03(B) to prepare its annual financial report in accordance with GAAP, the District chooses to prepare its financial statements and notes on the cash basis of accounting. The cash basis of accounting is a comprehensive basis of accounting other than GAAP. Receipts are recognized when received in cash rather than when earned, and disbursements are recognized when paid rather than when a liability is incurred.

Budgetary presentations report budgetary cash disbursements when a commitment is made (i.e. when an encumbrance is approved). The difference between disbursements reported in the fund and entity wide statements and disbursements reported in the budgetary statements are due to current year encumbrances being added to disbursements reported on the budgetary statements. These statements include adequate disclosure of material matters, in accordance with the basis of accounting described in the preceding paragraph.

C. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary. The District has no proprietary funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

1. Governmental Funds

The District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants) and other non-exchange transactions as governmental funds. The following are the District's major governmental funds:

General fund –The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent improvement fund – The permanent improvement fund is used to account for all transactions related to the acquiring, constructing or improving permanent improvements.

Other governmental funds of the District are used to account for (a) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (b) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

2. Fiduciary Funds

Fiduciary fund reporting focuses on net cash assets and changes in net cash assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for cash assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District does not have any trust or private purpose trust funds. Agency funds are custodial in nature and do not involve measurement of results of operations. The District's agency funds account for student activities.

D. Basis of Presentation

1. Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide statement of activities compares disbursements with program receipts for each function or program of the District's governmental activities. These disbursements are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program receipts include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Receipts which are not classified as program receipts are presented as general receipts of the District. The comparison of direct disbursements with program receipts identifies the extent to which each business segment or governmental function is self-financing on the cash basis or draws from the general receipts of the District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all non-major funds are aggregated into one column. Fiduciary funds are reported by fund type.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of account. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate.

The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control selected by the Board is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Budgetary allocations below the legal level within all funds are made by the District Treasurer.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

F. Cash and Investments

To improve cash management, cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the basic financial statements. A portion of cash and cash equivalents held within the athletic department of the District is recorded as "cash in segregated accounts".

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

During fiscal year 2012, investments were limited to certificates of deposit, and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rue 2a7 of the Investment Company act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares prices, which is the price the investment could be sold for on June 30, 2012.

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. By policy of the Board of Education, investment earnings are assigned to the general fund. Interest revenue credited to the general fund during fiscal year 2012 amounted to \$33,256, which includes \$7,180 assigned from other funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

- a. Restricted Net assets Consists of net assets with constraints places on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or (2) law through constitutional provisions or enabling legislation adopted by the school district. Net assets restricted for other purposes include resources restricted for food service operations, school supplies, and for student scholarships. As of June 30, 2012, the District had no net assets restricted by enabling legislation.
- **b. Unrestricted net assets** All other net assets that do not meet the definition of "restricted".

2. Fund Financial Statements

Governmental fund Equity is classified as net assets, and displayed in separate components:

The District reports classifications of fund cash balance based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The following categories may be used:

Non-spendable – amounts that cannot be spent because they are either (a) not in spendable form or (b) legally required to be maintained intact.

Restricted – amounts that have constraints placed on the use of resources that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Committed – amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the District's highest level of decision-making authority, the Board of Education.

Assigned – amounts that are constrained by the District's intent to be used for specific purpose, but are neither restricted nor committed. Assigned amounts include those approved through the District's formal purchasing procedure by the Treasurer. Through the District's purchasing policy, the Board of Education has given the Treasurer the authority to constrain monies for intended purposes.

Unassigned – residual fund balance within the general fund that is in spendable form that is not restricted, committed, or assigned.

The District applies restricted resources first when a disbursement is incurred for purposes for which restricted and unrestricted fund cash balance is available. The District considers committed, assigned, and unassigned fund cash balances, respectively, to be spent when disbursements are incurred for purposes for which any of the unrestricted fund cash balance classifications could be used.

H. Capital Assets

Acquisition of property, plant, and equipment purchased are recorded as disbursements when paid. These items are not reflected as assets on the accompanying financial statements under the cash basis of accounting. Depreciation has not been reported for any capital assets.

I. Unpaid Vacation and Sick Leave

Employees are entitled to cash payments for unused vacation and sick leave in certain circumstances, such as upon leaving employment. Unpaid vacation and sick leave are not reflected as liabilities under the cash basis of accounting.

J. Employer Contributions to Cost-Sharing Pension Plans

The Districts recognizes disbursements for employer contributions to cost-sharing plans when they are paid. As described in Notes 9 and 10, employer contributions include portions for pension benefits and postretirement health care benefits.

K. Long-Term Obligations

Bonds and other long-term obligations are not recognized as a liability in the financial statements under the cash basis of accounting. These statements report proceeds of debt when cash is received, and debt service disbursements for debt principal payments.

L. Interfund Activity

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund loans are reported as advances-in and advances-out. Advances are not reflected as assets and liabilities in the accompanying financial statements. Interfund transfers and advances are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented on the basic financial statements. Interfund activity between governmental funds is eliminated on the statement of assets – cash basis and the statement of activities – cash basis.

M. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Neither type of transaction occurred during fiscal year 2012.

N. Receipts and Disbursements

Program Receipts

In the statement of activities, receipts that are derived directly from each activity or from parties outside the District's taxpayers are reported as program receipts. The District has the following program receipts: charges for services and operating grants, contributions, and interest. All other governmental receipts are reported as general. All taxes are classified as general receipts even if restricted for a specific purpose.

3. ACCOUNTABILITY AND COMPLIANCE

A. Compliance

Ohio Administrative Code, Section 117-2-03(B), requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the District prepared its financial statements on a cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net assets/fund balances, and disclosures that, while material, cannot be determined at this time. The District can be fined and various other administrative remedies may be taken against the District.

B. Change in Accounting Principles

For fiscal year 2012, the District has implemented GASB Statement No. 57, "<u>OPEB</u> <u>Measurements by Agent Employers and Agent Multiple-Employer Plans</u>", and GASB Statement No. 64, "<u>Derivative Instruments: Application of Hedge Accounting Termination Provisions – an</u> <u>Amendment of GASB Statement No. 53</u>".

GASB Statement No. 57 addresses issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other postemployment benefit (OPEB) plans. The implementation of GASB Statement No. 57 did not have an effect on the financial statements of the District.

GASB Statement No. 64 clarifies the circumstances in which a hedge accounting should continue when a swap counterparty, or a swap counterparty's credit support provider, is replaced. The implementation of GASB Statement No. 64 did not have an effect on the financial statements of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

4. DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool the State Treasury Asset Reserve of Ohio (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed onehundred- eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

4. DEPOSITS AND INVESTMENTS (Continued)

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash in Segregated Accounts

At fiscal year end, \$3,000 was maintained in a checking account that the District established for funds related to athletics. This depository account is included in the total amount of "Deposits with Financial Institutions".

B. Deposits with Financial Institutions

At June 30, 2012, the carrying amount of all District deposits was \$5,114,574. Based on the criteria described in GASB Statement No. 40, "<u>Deposits and Investment Risk Disclosures</u>", as of June 30, 2012, \$4,020,432 of the District's bank balance of \$5,252,089 was exposed to custodial risk as discussed below, while \$1,231,657 was covered by the Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments.

C. Investments

As of June 30, 2012, the District had the following investments and maturities:

		Investment Maturity
		6 months or
Investment type	Fair Value	less
STAR Ohio	\$691,284	\$691,284

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

4. DEPOSITS AND INVESTMENTS (Continued)

Credit Risk: Standard & Poor's has assigned STAR Ohio an AAAm money market rating. The District has no investment policy that would further limit its investment choices.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2012:

Investment type	Fair Value	% of Total
STAR Ohio	\$691,284	100.00

D. Reconciliation of Cash and Investments to the Statement of Net Assets

Carrying amount of deposits	\$5,114,574
Investments	691,284
Total	\$5,805,858

Transfers from general fund to:	Amount
Non-major governmental funds	\$ 29,000
Transfers from non-major governmental fund to:	
Permanent improvement fund	91,009
Total	\$120,009

Transfers are used to move cash receipts from the fund that statute or budget required to collect them to the fund that statute or budget requires to disburse them and to use unrestricted cash receipts collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The transfer from the debt service fund (a non-major governmental fund) to the permanent improvement fund was a residual fund transfer.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements; therefore, no transfers are reported on the statement of activities.

8. RISK MANAGEMENT

A. Property and Liability

The District maintains comprehensive commercial insurance coverage for real property, building contents, and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Real property and contents are fully insured. Settled claims resulting from these risks have not exceeded the commercial coverage in any of the past three years.

The District's health, dental and life insurance is provided through Anthem Blue Cross Blue Shield, the insurance provider for the Logan County Schools Benefit Plan Association. The District's vision plan is provided through Vision Service Plan (VSP).

B. Workers' Compensation

For fiscal year 2012, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 2.A). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate.

9. PENSION PLANS

A. School Employees Retirement System

Plan Description – The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "Employers/Audit Resources".

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

9. PENSION PLANS (Continued)

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2012, 12.65 percent and 0.05 percent of annual covered salary was the portion used to fund pension obligations and death benefits, respectively. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations and death benefits to SERS for the fiscal years ended June 30, 2012, 2011 and 2010 were \$306,259, \$289,846 and \$319,205, respectively; 65.76 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

B. State Teachers Retirement System of Ohio

Plan Description – The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio website at www.strsoh.org, under "Publications".

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

9. PENSION PLANS (Continued)

Funding Policy – For fiscal year 2012, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2012, 2011 and 2010 were \$1,077,055, \$1,089,004 and \$1,089,053, respectively; 82.99 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010. Contributions to the DC and Combined Plans for fiscal year 2012 were \$45,171 made by the School District and \$32,265 made by plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2012, certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

10. POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Plan Description - The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the selfinsurance and prescription drug plans, respectively. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Section 3309.69 of the Ohio Revised Code. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2011 (latest information available) was \$96.40 for most participants, but could be as high as \$369.10 per month depending on their income and the SERS' reimbursement to retirees was \$45.50. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "Employers/Audit Resources".

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

10. POSTEMPLOYMENT BENEFITS (Continued)

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For 2012, 0.55 percent of covered payroll was allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of the statewide SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the statewide SERS-covered payroll for the health care surcharge. For fiscal year 2012, the actuarially determined amount was \$35,800.

Active members do not contribute to the postemployment benefit plans. The Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2012, 2011 and 2010 were \$48,511, \$72,103 and \$47,354, respectively; 65.76 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2012, this actuarially required allocation was 0.75 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2012, 2011, and 2010 were \$18,086, \$18,652 and \$18,892, respectively; 65.76 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

B. State Teachers Retirement System of Ohio

Plan Description – The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting <u>www.strsoh.org</u>, under "*Publications*" or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2012, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2012, 2011 and 2010 were \$82,850, \$83,770 and \$83,773, respectively; 82.99 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

11. CONTINGENCIES

A. ADM & Grants

The Auditor of State is currently performing a statewide review of supporting documentation for student attendance data reported to the Ohio Department of Education. The results of this review are still pending and will be reported separately to the Ohio Department of Education at a later date.

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. This also encompasses the Auditor of State's ongoing review of student attendance data. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2012, if applicable, cannot be determined at this time.

B. Litigation

The District is involved in no material litigation as either plaintiff or defendant.

12. STATUTORY RESERVES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	Cap Improv

Current year set-aside requirement	\$313	,234
Current year qualifying expenditures	(313	,234)
Total	\$	0
Balance carried forward to fiscal year 2013	\$	0
Set-aside balance June 30, 2012	\$	0

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (Continued)

13. BUDGETARY BASIS OF ACCOUNTING

While the District is reporting financial position, results of operations and changes in fund balances on the cash basis, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The budgetary comparison schedule presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budget basis and the cash basis is (1) outstanding year end encumbrances are treated as disbursements (budget) rather than assigned fund balance (cash) and (2) certain funds are included in the general fund on a cash-basis but budgeted as special revenue funds on a budget-basis.

The following table summarizes the adjustments necessary to reconcile the cash basis statement to the budgetary basis statement for the general fund:

Net Change in Fund Balance		
	General fund	
Cash basis	(\$335,307)	
Funds budgeted elsewhere **	830,015	
Adjustment for encumbrances	(103,025)	
Budget basis	\$391,683	

** As part of Governmental Accounting Standards Board Statement No. 54, "<u>Fund Balance</u> <u>Reporting</u>", certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a cash basis. This includes the rotary fund, uniform school supplies fund, the emergency levy fund and the public school support fund.

14. COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end are reservations of fund balance for subsequent-year expenditures and may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

	Year-End
Fund	Encumbrances
General	\$115,526
Permanent improvement	301,788
Other governmental	13,805
Total	\$431,119

15. CONTRACTUAL COMMITMENTS

As of June 30, 2012, the District was obligated for the following contracts:

Contractor	Contract Amount	Payments as of 06/30/12	Contract Balance 06/30/12
The Garland Company	\$264,516	\$0	\$264,516
Total	\$264,516	\$0	\$264,516

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Benjamin Logan Local School District Logan County 4740 County Road 26 Bellefontaine, Ohio 43311

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Benjamin Logan Local School District, Logan County, (the District) as of and for the fiscal year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated October 2, 2012, wherein we noted the District uses a comprehensive accounting basis other than generally accepted accounting principles. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Benjamin Logan Local School District Logan County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2012-001.

We also noted certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated October 2, 2012.

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

We intend this report solely for the information and use of management, the audit committee, the Board of Education, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Benjamin Logan Local School District Logan County 4740 County Road 26 Bellefontaine, Ohio 43311

To the Board of Education:

Compliance

We have audited the compliance of Benjamin Logan Local School District, Logan County, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Benjamin Logan Local School District's major federal programs for the fiscal year ended June 30, 2012. The *summary of auditor's results* section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to opine on the District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with these requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with these requirements.

In our opinion, the Benjamin Logan Local School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the fiscal year ended June 30, 2012.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance.

Internal Control Over Compliance (Continued)

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance with a federal program compliance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We intend this report solely for the information and use of the audit committee, management, the Board of Education, others within the entity, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

FINDING NUMBER 2012-001

Noncompliance

Ohio Rev. Code Section 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Administrative Code Section 117-2-03 further clarifies the requirements of Ohio Rev. Code Section 117.38.

Ohio Adm. Code Section 117-2-03(B) requires the District to file annual financial reports which are prepared using generally accepted accounting principles (GAAP). For fiscal year 2012, the District prepared financial statements that, although formatted similar to financial statements prescribed by Governmental Accounting Standards Board Statement No. 34, report on the basis of cash receipts and cash disbursements, rather than GAAP. The accompanying financial statements and notes omit certain assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. Pursuant to Ohio Rev. Code Section 117.38, the District may be fined and subject to various other administrative remedies for its failure to file the required financial report.

The District should prepare the financial statements according to generally accepted accounting principles to provide the users with more meaningful financial statements.

OFFICIALS' RESPONSE:

The Board of Education has elected not to prepare its annual financial reports in accordance with the generally accepted accounting principles (GAAP) due to the projected cost savings of \$10,000, in accordance with past practices.
