CITY OF RITTMAN, OHIO

City Council City of Rittman 30 N. Main Street Rittman, OH 44270

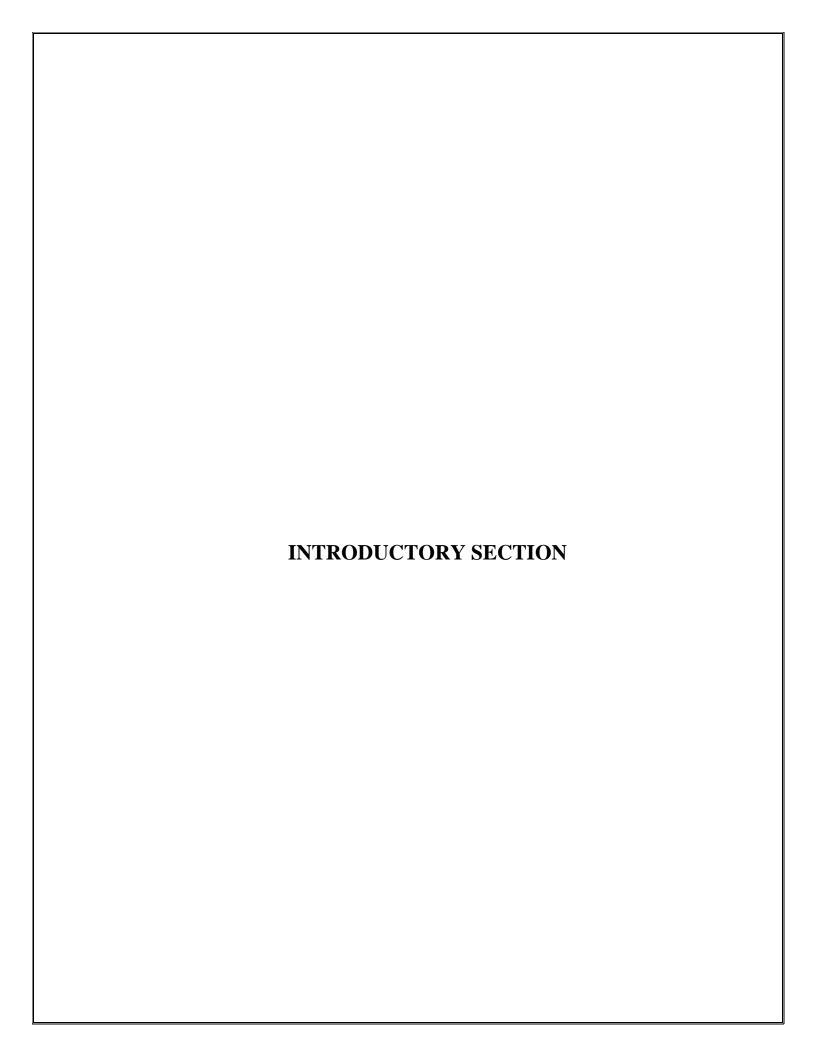

We have reviewed the *Independent Auditor's Report* of the City of Rittman, Wayne County, prepared by Rea & Associates, Inc., for the audit period January 1, 2011 through December 31, 2011. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Rittman is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

June 25, 2012

Members of Rittman City Council and Citizens of Rittman, Ohio

The Comprehensive Annual Financial Report (CAFR) of the City of Rittman (the "City") for the fiscal year ended December 31, 2011 is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report. The MD&A provides a narrative introduction, overview and analysis of the basic financial statements and complements this letter of transmittal and should be read in conjunction with it.

The City's Finance Department is responsible for management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed its anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

In developing and revising the City's accounting and reporting control systems, consideration is given to the adequacy of internal controls to provide reasonable but not absolute assurance regarding the safeguarding of assets from loss, theft, or misuse and reliability of financial records for preparing the City's financial statements in conformity with GAAP and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

As management, we believe the data presented is accurate in all material aspects and that all disclosures necessary to enable the reader to acquire the maximum understanding of the City's financial activity have been included.

The City of Rittman

The City of Rittman is located in the north central part of the State of Ohio, within the boundaries of Wayne and Medina Counties. The City of Rittman is a home rule municipal corporation under the laws of the State of Ohio and, as such, operates under its own charter. The current charter was adopted in 1960 and has undergone three amendments since that time. The government consists of a Mayor and six-member council.

The Mayor and all members of City Council are elected to four-year terms. All of these officials are elected on an at-large basis. The City provides the full range of municipal services addressed in its charter. These services include police, fire, public health, recreation and parks, transportation programs, water and sewer programs, planning and zoning, and general administrative services.

For financial reporting purposes, the City includes in this report all funds, agencies, boards, and commissions that are controlled by, or dependent on, the City's legislative branch. "Controlled by" or "dependent on" the City is determined on the basis of budget adoption, taxing authority, outstanding debts secured by revenues or general taxing authority of the City, and/or the City's obligation to fund any deficits that may occur.

The annual budget serves as the foundation for the City's financial planning and control. The City complies with the requirements of the Ohio Revised Code in the adoption of the Budget. Appropriations for the operation of various City departments are established through the passage of an ordinance by City Council. Budgetary control is facilitated through the maintenance of an encumbrance system for purchase orders, and through the use of the City's automated financial system.

The appropriated budget is prepared by fund, (e.g., General Fund), department (e.g., Police) and line item (e.g., Personal Services). The City Council may pass supplemental appropriations at any time by ordinance. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. The General Fund is presented in the basic financial statements, beginning on page 20. For other funds, this comparison is presented in the governmental fund subsection of this report, which starts on page 68.

2011 Initiatives

In 2011, the Salt Street Water Main Project, which replaced an existing eight inch cast iron line that was over 75 years old, was completed. This project is important because the main being replaced services the City's largest employer and there have been numerous water breaks over the last few years. OPWC funds will help to defer part of the cost of this improvement.

Last year, City Council adopted a sidewalk repair and replacement plan, addressing both existing sidewalks and fill-in of areas that currently have no sidewalks. This multi-year plan is phased with priority being given to the school complex area. For 2010, the program provided voluntary replacement of sidewalk, with the City furnishing free removal. The residents are required to reimburse the City for the cost of replacement, but will receive the benefit of lower prices due to the volume of concrete ordered. In 2011, the program was expanded to include mandatory as well as voluntary replacement.

In 2011, the City contracted with an engineering firm to begin design of the Douglas Drive Project. This project consists of replacing a six inch waterline that is over 50 years old and replacing deteriorated concrete pavement with new asphalt. Also included in the project are underdrains, hydrants and sidewalks. OPWC funds and special assessments will help defer some of the cost of the project. This project is important because the street is located adjacent to the High School football field and has high levels of use during many different sporting events.

The City also continued an engineering contract for replacing the existing bar screen at the wastewater treatment plant with an automated, finer screen. Currently, the bar screen is manually raked two to three times a day. This process still allowed debris to enter the plant and clog sludge tubes, clarifiers and air diffusers. The new process has a finer bar screen that will automatically remove debris, thereby enhancing treatment operations, reducing labor costs and eliminating safety concerns.

The City's Recreation Center, in addition to celebrating its tenth anniversary in 2011, was approved as a Silver Sneakers program facility. The Silver Sneakers program allows persons 65 or older to participate in fitness programs, with insurance or Medicare paying the admission charges directly to the City. This program is good for the seniors and the Recreation Center is seeing an increase in attendance and revenue, as well.

Finally, City Council voted to detach from the overlapping townships. This was an important step because it will allow the City to potentially collect additional property taxes. Currently, township taxes are levied on City property and the proceeds are on township operations, outside the City limits.

Development Activities

The Rittman Exempted Village Schools completed construction of a replacement high school on Saurer Street. With the help of state funding, the school system is continuing with their plan to create a school campus area. As part of this project, the old Middle School on North Main Street was demolished, which created vacant land for potential new development.

In 2010, the City completed a sewer line to the Apostolic Nursing Home, which is located outside City limits but within the City's sewer service area. This sewer line provides for the possibility of an additional 20 service tie-ins. During 2011, the City continued working with the nursing home to provide water to the same area. Since the City has additional capacity available at both the water and the wastewater treatment facilities, projects of this type will help defray fixed costs, therefore keeping rates lower for the citizens of the City.

The City is also working with a plastics manufacturer who is relocating and expanding an existing business. Construction of the new facility began in 2011 and should be completed in 2012. This expansion will create approximately fifteen new positions.

In 2011, the City continued to work with the Wayne County Economic Development Council, the current property owner, surrounding property owners, and the State Environmental Protection Agency to attempt to facilitate the redevelopment of a vacant industrial site. This site is comprised of 100 plus usable acres, and contains rail spurs, independent water wells, and very convenient access to several highway systems. During the year, two interested developers produced business plans for the purchase, clean-up, and remarketing of this site. The City is hopeful that there may by some progress in 2012.

Long-term Financial Planning

In an effort to be proactive instead of reactive, the City continually evaluates its revenues and expenditures, especially those under its control. To ensure ongoing sustainability and infrastructure replacement, City Council voted to implement a 35 percent water rate increase, implemented in January 2011. A committee continued to evaluate the income tax rate and the amount of credit granted to residents who work outside the City and pay taxes to other municipalities. Also, the allocation of income taxes to the capital and water funds is currently being evaluated. This evaluation is planned to be completed in 2012.

In 2010, the Administration adopted a five-year capital improvement program to assess the City's ability to meet the needs of the community in future years. One component of the plan is long-term financial projections, which are intended to indicate the need for continued cost containment or revenue enhancement efforts.

Economic Condition and Outlook

Due to the overall deterioration of the national and state economies, the City of Rittman also saw a decline of 4.8% in governmental revenues on a modified accrual basis. The majority of the decrease was due to a drop in income taxes and intergovernmental revenue. There was a corresponding decrease in expenditures of 4.9%; however, 55% of the decline in expenditures was related to the timing of capital projects. The remainder of the decrease was due to fiscally conservative management of expenditures.

Budget deficits on the state level will result in loss of state-levied, locally-shared taxes in 2012. The City's governing body, administration, and employees are committed to working together to provide quality services to the residents. Employees agreed to forego wage increases in 2012 and income tax collections are on the rise in 2012. Additionally, Morton Salt, the City's largest employer, has been spending several million dollars upgrading their operations to stay competitive in the world market. These facts, coupled with the potential increase in property tax from the township split, should allow the City to gain some financial strength in 2012. However, the City will remain vigilant in evaluating their financial position and be proactive wherever possible by implementing revenue enhancing or cost cutting measures. Administration will continue to look for other ways to expand the City's tax base, focusing on small businesses looking to relocate or revitalization of vacant property. Looking forward, the City will continue to do what it can to draw on its resources and weather the storm of poor economic times.

Independent Audit

The City is not legally required to obtain an independent annual audit. The minimum requirement is for the State of Ohio to perform an audit, directly or indirectly, through an independent auditing firm at least every two years. The City, consistent with the professional manner in which it has conducted its financial affairs, has chosen to fund annual audits. The City has engaged Rea & Associates, Incorporated, to audit the City's financial records. The auditor's unqualified opinion is included herein.

Certification of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Rittman, Ohio for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2010. The City has received this award since 1996, the first year that the City prepared and submitted a CAFR. The Certificate of Achievement is a prestigious national award, recognizing conformance to the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report conforms to Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report could not have been accomplished without the dedicated services of the administrative staff. We wish to express our appreciation to members of other City departments who assisted and contributed to the preparation of this report. The staff at the Wayne County Auditor's Office was helpful as always. In addition, gratitude is extended to the independent accounting firm of James G. Zupka, Certified Public Accountants, Incorporated, for their advice and guidance. City Council also deserves a special acknowledgment for their support and commitment to responsible fiscal reporting.

Respectfully Submitted,

Poh a Rel

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Rittman, Wayne County, Ohio, (the "City") as of and for the year ended December 31, 2011, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City, as of December 31, 2011, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund and emergency medical service fund for the year then ended in conformity with accounting principles generally accepted in the United States of America

As described in Note 4, the City restated the net assets balances to adjust accumulated depreciation of capital assets and to fund balances to account for the implementation of GASB Statement No. 54.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2012, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

City of Rittman, Wayne County, Ohio Independent Auditor's Report Page 2

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 3 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual nonmajor fund financial statements and other schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Lea & Casociates, Inc.

Management's Discussion and Analysis For the Year Ended December 31, 2011

The discussion and analysis of the City of Rittman's (the "City") financial performance provides an overall review of the City's financial activities for the year ended December 31, 2011. The intent of this discussion and analysis is to look at the City's financial performance as a whole. Readers should also review the transmittal letter, basic financial statements, and notes to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2011 are as follows:

- The total net assets of the City increased \$419,775. Net assets of governmental activities decreased \$43,937, which represents a 0.60 percent decrease from 2010. Net assets of business-type activities increased \$463,712 or 4.40 percent from 2010.
- General revenues, for governmental activities, accounted for \$2,231,184 or 56.15 percent of total governmental activities revenue. Program specific revenues accounted for \$1,742,090 or 43.85 percent of total governmental activities revenue.
- Governmental activities' capital assets, net of accumulated depreciation, decreased \$323,916, primarily due to current year depreciation exceeding current year capital additions.
- The City had \$4,017,211 in expenses related to governmental activities; \$1,742,090 of those expenses was offset by program specific charges for services, grants, and contributions. General revenues (primarily taxes) of \$2,231,184 were not sufficient to offset those program expenses.
- The General Fund, the City's largest major governmental fund, had revenues and other financing sources of \$2,677,972 in 2011, or 64.91 percent of total governmental funds. Expenditures and other financing uses of the General Fund were \$2,724,674, or 68.40 percent of total governmental funds. The General Fund balance decreased \$46,702, or 5.64 percent in 2011.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are prepared and organized so the reader can understand the City as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide summary information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements show how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor governmental funds presented in total in one column. In the case of the City, there are three major governmental funds and two major enterprise funds.

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Reporting the City as a Whole

Statement of Net Assets and Statement of Activities

While this document contains information about the funds used by the City to provide programs and activities, the view of the City as a whole looks at all financial transactions and answers the question, "How did we do financially during 2011?" These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting method used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid. These two statements report the City's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the City as a whole, the financial position of the City has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the City's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions and other factors.

In the Statement of Net Assets and the Statement of Activities, the City is divided into two distinct kinds of activities:

- Governmental Activities Most of the City's programs and services are reported here, including general government, safety services, public health and welfare, transportation, leisure time activities, and basic utility services. These services are funded primarily by taxes and intergovernmental revenues including federal and state grants and other shared revenues.
- Business-Type Activities These services are provided on a fee-for-usage basis to recover all or a significant portion of the expenses of the goods or services provided. The City's business-type activities include water and sewer services.

Reporting the City's Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Fund financial reports provide detailed information about the activities within the City's major funds. The City uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the City's most significant funds. The City's major governmental funds are the General Fund, Emergency Medical Service Fund and Capital Improvements Fund. An analysis of the City's major governmental funds begins on page 9.

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a multitude of individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report. The basic governmental fund financial statements can be found on pages 16-21 of this report.

Proprietary Funds

Proprietary funds (Water and Sewer) have historically operated as enterprise funds and are used to report the same functions presented as business-type activities in the government-wide financial statements. Since they use the same basis of accounting as business-type activities, these fund statements will essentially match the information provided in statements for the City as a whole. The basic proprietary fund financial statements can be found on pages 22-24 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government and are not reflected in the government-wide financial statements because resources are not available to support the City's own programs. The City has only agency funds to report within the fiduciary fund category. Agency funds are reported on a full accrual basis of accounting and only present a statement of fiduciary net assets. The basic fiduciary fund financial statement can be found on page 25 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 26-54 of this report.

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules, which can be found on pages 55-85 of this report.

Government-Wide Financial Analysis

The Statement of Net Assets provides the perspective of the City as a whole.

Table 1 below provides a summary of the City's net assets for 2011 compared to 2010:

Table 1 - Net Assets

| | Gove | rnmental | Busin | ess-Type | | | | |

| Unrestricted | 973,377 | 1,191,775 | 1,989,652 | 1,754,091 | 2,963,029 | 2,945,866 | | |
| Total Net Assets | \$ 7,274,023 | \$ 7,317,960 | \$ 11,010,233 | \$ 10,546,521 | \$ 18,284,256 | \$ 17,864,481 | | |

Over time, net assets can serve as a useful indicator of a government's financial position. At December 31, 2011, the City's assets exceeded liabilities by \$18,284,256. This amounts to \$7,274,023 in governmental activities and \$11,010,233 in business-type activities. Capital assets reported on the government-wide statements represent the largest portion of the City's net assets. At year-end, capital assets represented 74.80 percent of total governmental and business-type assets. Capital assets include land, construction in progress, land improvements, buildings, equipment, and infrastructure. Capital assets, net of related debt to acquire the assets at December 31, 2011, were \$13,651,615. These capital assets are used to provide services to citizens and are not available for future spending. Although the City's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities. As of December 31, 2011, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities.

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

A portion of the City's governmental activities net assets, \$1,669,612 or 9.13 percent, represent resources that are subject to external restrictions on how they may be used. Of the total governmental activities restricted net assets, \$558,872 for capital projects, \$71,554 is for debt service, \$736,734 is for safety services and \$302,452 is for other purposes. The governmental activities unrestricted net assets of \$973,377 may be used to meet the City's ongoing obligations to citizens and creditors.

Table 2 below shows the changes in net assets for governmental and business-type activities for year 2011 compared to 2010:

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Governmental Activities

Governmental activities decreased the City's net assets by \$43,937 during 2011. This decrease was due mainly to a decrease in revenues of \$202,213 or 4.84 percent which was chiefly the result of the overall economic downturn, which impacts wages, new construction, and interest rates. Management partially offset the decrease in revenues by reducing expenses by \$233,798 or 5.50 percent. The expense reduction was for the most part achieved through a voluntary reduction in employee benefits and reduction in staffing levels through attrition. Also contributing to the decrease was a reduction in services provided with the City's trash contract, as well as reduced transportation costs due to a mild winter and the timing of street maintenance work. The expense reductions were partially offset by an increase in safety services primarily due to the return to work of a police officer who had been on active military leave.

Governmental revenue is comprised of program revenue and general revenue. Program revenues accounted for \$1,742,090 or 43.85 percent of total governmental revenue and the most significant category was charges for services which totaled \$1,282,246 and reflected an increase of \$68,058 or 5.61 percent as compared to 2010 due in large part to the addition of a new cell tower lease and a voluntary sidewalk replacement program, coupled with increased participation in recreation programs. General revenues totaled \$2,231,184, and amounted to 56.15 percent of total revenues. These revenues primarily consist of property and other taxes and income taxes totaling \$1,629,075, or 73.01 percent of the general revenues. The other major contributor to general revenues is grants and entitlements not restricted to specific programs, with a majority of the revenue being state and locally shared taxes. For 2011, these revenues totaled \$524,776, or 23.52 percent of the total general revenues. Income taxes along with grants and entitlements were the only general revenue areas to show significant decreases when compared to 2010.

Safety services, which primarily supports the operations of the City's police, fire and emergency medical services, accounts for \$1,692,217 of expenses, or 42.12 percent of total governmental expenses of the City. These expenses were funded by \$278,118 in charges to users of services and operating grants and contributions. Transportation expenses, which primarily include repairs and maintenance of the City's roads, totaled \$609,020 or 15.16 percent of total governmental expenses. Transportation expenses were covered by \$388,513 of operating and capital grants and contributions. General government expenses, which primarily include legislative, executive and financial management, totaled \$661,984 or 16.48 percent of total governmental expenses. General government expenses were covered by \$312,027 of direct charges to users and operating grants and contributions.

Business-Type Activities

The water and sewer funds represent the City's business-type activities. Business-type activities reported an increase in net assets of \$463,712, or 4.40 percent as compared to 2010. Charges for services account for 77.93 percent of total business-type revenues. The increase in charges for services of \$165,405 or 10.08 percent is primarily the result of a 35 percent water rate increase that was implemented in early 2011. These programs had revenues of \$2,317,837 and expenses of \$1,854,125 for year 2011. Expenses in business-type activities decreased by \$161,668 or 8.02 percent. The decrease in expenses relates to the payment of \$150,000 in 2010, which was the result of the mediated settlement of a claim related to the City's wells and surrounding water table.

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Program Expenses

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for government-wide activities, the total cost of services and the net cost of services for 2011 compared to 2010. That is, it identifies the cost of these services supported by general revenues.

Table 3 - Program Expenses

| Interest and Fiscal Charges | | 47,759 | | 47,759 | | 52,024 | | 52,024 | | (4,265) | | (4,265) |
| Business-type Activites: | | | | | | | | | | | | |
| Water | | 790,762 | | 136,605 | | 969,734 | | 590,379 | | (178,972) | | (453,774) |
| Sewer | | 1,063,363 | | (247,992) | | 1,046,059 | | (233,353) | | 17,304 | | (14,639) |
| Total Expenses | \$ | 5,871,336 | \$ | 2,163,734 | \$ | 6,266,802 | \$ | 2,785,266 | \$ | (395,466) | \$ | (621,532) |

The dependence upon general revenues for government-wide activities is apparent, with over 36.85 percent of expenses supported through general revenues.

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The General Fund is the operating fund of the City. At the end of the year, the fund balance of the General Fund was \$781,742, a 5.64 percent decrease from the prior year. The primary reason for the decrease of the General Fund balance in 2011 was attributed to the overall reduction in revenues related to general economic conditions, as stated previously. A decrease in expenditures primarily related to voluntary reductions in employee benefits and management's close monitoring of expenditures helped to offset the revenue decreases.

The other two major funds are the Emergency Medical Service Fund and the Capital Improvements Fund. The Emergency Medical Service Fund balance increased \$55,122 or 13.29 percent over 2010. The revenue in this fund is comprised mostly of charges for services, followed by property and other taxes and related intergovernmental revenues. Overall, revenue decreased slightly - \$15,645 or 3.69 percent. Expenditures decreased \$7,672 or 2.13 percent. The City's emergency medical service is staffed with part-time employees, and expenditures vary based upon the level of staffing in the station and the volume and timing of activity, specifically multiple calls. Fund balance in the City's Capital Improvements Fund increased \$66,559 or 23.61 percent over 2010 due to the timing and level of infrastructure expenditures.

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Table 4 below reports year 2011 balances compared to 2010:

Note: 2010 Fund Balances were restated

Budgeting Highlights - General Fund

The City's budgeting process is prescribed by the Ohio Revised Code (ORC). Essentially the budget is the City's appropriations that are restricted by the amounts of anticipated revenues certified by the County Budget Commission in accordance with the ORC. Therefore, the City's plans or desires cannot be totally reflected in the original budget. If budgeted revenues are adjusted due to actual activity, then the appropriations can be adjusted accordingly. Final budgeted revenues of \$2,607,691 were \$16,050 higher than the original amount mainly due to higher than anticipated property and other taxes, intergovernmental revenue, participation in recreation programs, and a new cell tower lease. The continuation of historically low interest rates also required revision of the original estimate. Actual revenues exceeded the final amount by \$77,319, primarily due to charges for services.

Final budgeted expenditures exceeded the original budgeted expenditures by \$62,000. The majority of this change was a \$21,000 advance that was required due the timing a street maintenance project that will be funded with a reimbursement from Wayne County. Increases in fuel costs and unanticipated legal fees related to economic development also necessitated amendments. Actual expenditures for the year were \$272,606 less than the final budgeted amounts. These differences were caused by conservative budgeting coupled with cost containment measures. There were no individually significant events that led to these differences.

Capital Assets and Debt Administration

Capital Assets

At the end of year 2011, the City had \$17,387,821 (net of accumulated depreciation) invested in land, construction in progress, land improvements, buildings, equipment, and infrastructure. Of this total, \$5,606,756 was reported in governmental activities and \$11,781,065 was reported in business-type activities. Table 5 below reports year 2011 balances compared to 2010:

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Table 5 - Capital Assets, at Year End (Net of Depreciation)

| | Govern | | | Business-Type | | | | | _ | | | |
|--------------------------|-----------------|--------|-------------|---------------|-------------|--------|-------------|-------|-------------|----------|-------------|--|
| | Acti | vities | | | Acti | vities | | Total | | | | |

| | | | | | | | Restated | | | Restated | | |
| Land | \$ 167,508 | \$ | 153,608 | \$ | 63,936 | \$ | 72,606 | \$ | 231,444 | \$ | 226,214 | |
| Land Improvements | - | | - | | 3,792 | | 4,298 | | 3,792 | | 4,298 | |
| Buildings | 3,700,723 | | 3,813,159 | | 5,032,743 | | 5,226,532 | | 8,733,466 | | 9,039,691 | |
| Equipment | 532,449 | | 688,160 | | 146,645 | | 197,594 | | 679,094 | | 885,754 | |
| Infrastructure | 1,197,098 | | 1,275,745 | | 6,501,977 | | 6,304,050 | | 7,699,075 | | 7,579,795 | |
| Construction in Progress | 8,978 | | - | | 31,972 | | 18,598 | | 40,950 | | 18,598 | |
| Total | \$ 5,606,756 | \$ | 5,930,672 | \$ | 11,781,065 | \$ | 11,823,678 | \$ | 17,387,821 | \$ | 17,754,350 | |

Depreciation exceeding asset additions caused decreases in most of the capital asset categories. The City's investment in capital assets decreased by \$323,916 or 5.46 percent for governmental activities and decreased by \$42,613 or 0.36 percent for business-type activities when comparing 2011 to 2010. However, the City is committed to a long-term goal of meeting its infrastructure and facilities' needs. In 2011, management updated the five-year capital plan that provides for building and infrastructure improvements to complement the City's current capital assets. See Note 8 to the basic financial statements for detail on the governmental and business-type activities capital assets.

Debt Administration

At December 31, 2011, the City had total long-term debt outstanding of \$3,736,206. Of this total, \$468,227 is due within one year and \$3,267,979 is due in more than one year. Table 6 below summarizes the bonds, loans and capital lease outstanding:

Table 6 - Outstanding Debt, at Year End

| | | _ 0000 | | | | | | | | | |
|--------------------------|-----------------|--------|-----------|-----------------|-----|-----------|----|-----------|----|-----------|--|

| | | | | | | | | | | | |

All governmental long-term debt will be repaid by the Debt Retirement Debt Service Fund. The revenue bonds and OWDA loans will be repaid by the Sewer Enterprise Fund and the business-type general obligation bonds and OPWC loans will be repaid from the Water Enterprise Fund.

At December 31, 2011, the City's overall legal debt margin was \$8,071,099, with an unvoted debt margin of \$3,246,270. The City's credit rating remained unchanged in 2011 as compared to 2010. See Note 10 to the basic financial statements for details on the City's long-term obligations.

Management's Discussion and Analysis (continued) For the Year Ended December 31, 2011

Current Issues Affecting Financial Condition

During the volatile economic times spanning the last several years, efficient use of the City's workforce and cost containment measures have resulted in no layoffs of City employees. However, in 2010 management decided to evaluate every position that is vacated and only fill those that are critical to operations, a practice which continued throughout 2011.

Efforts to balance the budget on the state level will result in lost revenue to the City. The loss will total approximately \$300,000 annually by mid-2013. Management is closely monitoring the situation and is preparing a strategy to provide the best service possible with current resources.

In 2011, City Council voted to detach from Milton township, an act which is anticipated to increase property taxes to the City in 2013 by more than \$40,000. City Council is also evaluating a reduction of the 100 percent tax credit for income taxes paid to other taxing districts by Rittman residents. Another option being considered is a reallocation of income tax revenue, which would require voter approval. Finally, the City is evaluating various scenarios to reduce expenditures if additional revenues cannot be raised, including the possibility of shared service agreements with surrounding political subdivision.

During 2010, the Council adopted a five-year capital improvement program which was updated in 2011. The plan will be used to assess the City's ability to meet the needs of the community in future years. One component of the plan is long-term financial projections, which are intended to indicate the need for continued cost containment or revenue enhancement efforts. Projections in the plan accentuated the need to increase water rates, and a 35 percent rate increase was approved by Council late in 2010 and a corresponding increase in water revenue is reflected in the 2011 financials.

The City also has excess capacity at both the water and waste water treatment plants. In an effort to defray fixed costs, the City will continue to evaluate provision of utility services to areas outside the City limits, either by agreement or possible annexation.

Finally, the City continues to promote itself to business owners and possible investors in order to increase retail and industrial growth. With prime areas for development and redevelopment available, the City will focus on facilitating those types of developments.

Contacting the City's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Barbara Rissland, City of Rittman Finance Director, 30 North Main Street, Rittman, Ohio 44270.

Statement of Net Assets December 31, 2011

Notes to the Basic Financial Statements For The Year Ended December 31, 2011

NOTE 1: DESCRIPTION OF THE CITY AND REPORTING ENTITY

The City of Rittman, Ohio (the "City") is a home rule municipal corporation established under the laws of the State of Ohio which operates under its own Charter. The current Charter, which provides for a Mayor-Council-Manager form of government, was adopted in 1960.

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the City are fairly presented and complete. The primary government consists of all funds, departments, boards, and commissions that are not legally separate from the City. The City provides municipal services such as police, fire fighting and prevention, street lighting and maintenance, emergency medical service, solid waste collection and recycling, parks and recreation, and a staff to provide the necessary support to these services. The City also operates certain enterprise operations such as a sewage treatment plant and a water treatment plant. The operations of all of these services are included in the reporting entity.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; (3) the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the City is obligated for the debt of the organization. Component units may also include organizations for which the City approves the budget, the issuance of debt or the levying of taxes. The City has no blended or discretely presented component units.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City also applies Financial Accounting Standards Board Statements (FASB) and Interpretations issued on or before November 30, 1989, to its government-wide and proprietary fund financial statements provided they do not conflict with or contradict GASB pronouncements. The City has elected not to follow FASB guidance for business-type activities and enterprise funds issued after November 30, 1989. The FASB has codified its standards and the standards issued to November 30, 1989 are included in the codification. The more significant of the City's accounting policies are described below.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a Statement of Net Assets and a Statement of Activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements

The Statement of Net Assets and the Statement of Activities display information about the City as a whole. These statements include the financial activities of the primary government. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

The Statement of Net Assets presents the financial condition of the governmental and business-type activities of the City at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for the business-type activities of the City. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and proprietary fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are presented by type.

B. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Fund Accounting (Continued)

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. The acquisition, use, and balances of the City's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is upon determination of financial position and changes in financial position. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the City's major governmental funds:

<u>General Fund</u> The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the laws and regulations of the City and/or the general laws of Ohio.

<u>Emergency Medical Service Fund</u> This Special Revenue Fund is to account for property taxes levied and other revenues for the operations of emergency medical services.

<u>Capital Improvements Fund</u> This Capital Projects Fund is used to account for financial resources that are used for the acquisition, construction, or improvement of the City's capital facilities.

Proprietary Funds

Proprietary funds are used to account for the City's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon determination of changes in net assets, financial position, and cash flows. The City's only proprietary funds are classified as enterprise funds. Enterprise activities are financed and operated in a manner similar to private sector business enterprises where the intent is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City's major enterprise funds are:

<u>Water Fund</u> The Water Fund accounts for the provision of water treatment and distribution to its residential and commercial users located within the City.

<u>Sewer Fund</u> The Sewer Fund accounts for the provision of sanitary sewer service to the residents and commercial users located within the City.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The Fiduciary Fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The City does not have trust funds. The Agency Funds account for unclaimed funds and returnable bonds. The City's Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus and Basis of Accounting

Government-wide Financial Statements

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the Statement of Net Assets. The Statement of Activities presents increases (e.g. revenue) and decreases (e.g. expenses) in total net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the Balance Sheet. The Statement of Revenues, Expenditures and Changes in Fund Balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the Statement of Fund Net Assets. The Statement of Revenues, Expenses, and Changes in Fund Net Assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The Statement of Cash Flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting and proprietary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, available means expected to be received within sixty days of year-end.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Measurement Focus and Basis of Accounting (Continued)

Non-exchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied (See Property Tax Note 12). Revenue from grants, entitlements and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: income tax, state-levied locally shared taxes (including gasoline tax), fines and forfeitures, interest, grants, fees, and rentals.

Deferred/Unearned Revenue

Deferred/Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of December 31, 2011, but which were levied to finance fiscal year 2012 operations, have been recorded as deferred/unearned revenue. Special assessments not received within the available period and grants and entitlements received before the eligibility requirements are met are also recorded as deferred/unearned revenue.

On the governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgets and Budgetary Accounting

The City follows these procedures in establishing the budgetary data reported in the basic financial statements:

<u>Tax Budget</u> A tax budget of estimated revenue and expenditures for all funds is submitted to the County Auditor, as Secretary of the County Budget Commission, by July 20 of each year, for the period January 1 to December 31 of the following year. All City funds are legally required to be budgeted. The purpose of the tax budget is to reflect the need for existing (or increased) tax rates.

<u>Estimated Resources</u> The County Budget Commission (the Commission) determines if the budget substantiates a need to levy the full amount of authorized property tax rates and reviews revenue estimates. The Commission certifies its actions to the City by September 1. As part of this certification, the City receives the Official Certificate of Estimated Resources, which states the projected revenue of each fund.

On or about January 1, the certificate of estimated resources is amended to include unencumbered fund balances at December 31. Further amendments may be made during the year if the Finance Director determines that revenue to be collected will be greater than or less than the prior estimates and the Commission finds the revised estimates to be reasonable. The amounts set forth in the financial statements represent estimates from the final amended certificate issued for 2011.

<u>Annual Budget</u> The City Manager with the assistance of the Finance Director submits to Council an annual budget in November. The annual budget contains an estimate of the revenues and expenditures of each fund and department of the City for the next fiscal year. As part of the process, Council holds public meetings throughout its review. The annual budget serves as the basis for appropriations (the appropriated budget) in each fund.

<u>Appropriations</u> An appropriation ordinance (the appropriated budget), to control the level of expenditures for all funds, must be legally enacted on or about January 1. Appropriations may not exceed estimated resources as established in the Official Amended Certificate of Estimated Resources. Supplemental appropriations may be adopted by Council action. Amounts shown in the financial statements represent the appropriated budgeted amounts and all supplemental appropriations. During the year, several supplemental appropriation measures were passed.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. <u>Budgets and Budgetary Accounting</u> (Continued)

<u>The Appropriated Budget</u> For all funds, except agency funds, Council appropriations (the legal level) are made for personal services and other services. Administrative control is maintained through the establishment of detailed line-item budgets. Appropriated funds may not be expended for purposes other than those designated in the appropriation ordinance without authority from Council. Expenditures plus encumbrances may not legally exceed appropriations at the level of appropriation adopted by Council. The appropriations set by Council must remain fixed unless amended by Council ordinance. The Finance Director may make more detailed appropriation allocations as long as the allocations are within Council's appropriated amount.

<u>Lapsing of Appropriations</u> At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried over for the subsequent year's expenditures and is not reappropriated.

F. Deposits and Investments

Cash received by the City is deposited in a central bank account. Monies for all funds, except cash held by a trustee or fiscal agent, are maintained in the account or temporarily used to purchase investments. Individual fund integrity is maintained through City records. Each fund's interest in the pool of cash and investments is presented as "Equity in Pooled Cash and Cash Equivalents" in the basic financial statements. Except for investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase, investments are reported at fair value, which is based on quoted market price.

Investments with original maturities of three months or less and investments of the cash management pool are presented on the financial statements as cash equivalents.

The City utilizes financial institutions to service bonded debt as principal and interest payments come due. These account balances are presented as "Cash and Cash Equivalents in Segregated Accounts". The Water Fund also has accounts with an escrow agent during the year for a construction account.

G. Inventory of Supplies

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used. Inventories of governmental funds are stated at cost, while inventories of proprietary funds are stated at the lower of cost or market. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure/expense in the governmental and proprietary funds when used under the consumption method.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2011, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure or expense is reported in the year in which services are consumed.

I. Capital Assets and Depreciation

Governmental capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements.

Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of five thousand dollars. The City's infrastructure consists of bridges, culverts, curbs, sidewalks, storm sewers, streets, irrigation systems and water and sewer lines. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

| | Governmental and |
|-------------------|----------------------------------|
| | Buisiness-Type Activities |
| Asset Class | Estimated Useful Life |
| Buildings | 20 to 40 years |
| Land improvements | 5 to 50 years |
| Equipment | 5 to 30 years |
| Infrastructure | 30 to 75 years |
| | |

J. Deferred Charges

Bond issuance costs are recorded as expenditures when incurred on the governmental fund statements. Bond issuance costs are recorded as deferred charges and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method, on the government-wide and proprietary fund financial statements.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent it is probable that benefits will result in termination payments. The liability is an estimate based on the City's past experience of making termination payments. The entire compensated absences liability is reported on the government-wide financial statements.

L. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are also reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases and long-term loans are recognized as a liability on the fund financial statements when due.

M. Capital Contributions

Contributions of capital in the proprietary fund financial statements arise from donations by developers, grants restricted for capital construction, and special assessments. These assets are recorded at their fair market value on the date contributed and are not subject to repayment.

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are not spendable in form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as properly acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Fund Balance (Continued)

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (ordinance) of the City's Council. Those committed amounts cannot be used for any other purpose unless the City's Council removes or changes the specified use by taking the same type of action (ordinance) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts would represent intended uses established by City Council.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classification. In the other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

O. Interfund Transactions

During the course of normal operations, the City has numerous transactions between funds, most of which are in the form of transfers of resources to provide services, construct assets and service debt. The accompanying financial statements generally reflect such transactions as transfers. Operating subsidies are also recorded as transfers. These amounts are eliminated in the governmental activities columns of the Statement of Net Assets.

Transactions that constitute reimbursements for expenditures or expenses initially made from a fund that are properly allocable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of the expenditures and expenses in the fund that is reimbursed. As a general rule, interfund services provided and used are not eliminated in the process of consolidation in the government-wide Statement of Activities.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net assets restricted for other purposes include amounts to provide transportation, general government, and public health and welfare services. The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Q. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for sewer treatment and water services. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating.

R. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

S. Interfund Balances

On fund financial statements, interfund loans are classified as "Interfund Receivable/Payable" on the balance sheet and if they are long-term loans an equal offset should be included in nonspendable fund balance unless the proceeds from their collection are restricted, committed, or assigned. This provision indicates that the loans do not constitute available expendable resources. These amounts are eliminated in the governmental and business-type activities columns of the Statement of Net Assets, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

T. Implementation of New Accounting Policies

For 2011, the City has implemented Governmental Accounting Standards Board (GASB) Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, and GASB Statement No. 59, Financial Instruments Omnibus.

GASB Statement No. 54 enhances the usefulness of fund balance information by providing clearer fund balance classification that can be more consistently applied and by clarifying the existing governmental fund type definitions. The implementation of this Statement resulted in the reclassification of fund balances on the City's governmental fund financial statements.

Notes to the Basic Financial Statements (Continued)

For The Year Ended December 31, 2011

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

T. <u>Implementation of New Accounting Policies</u> (Continued)

GASB Statement No. 59 updates and improves guidance for financial reporting and disclosure requirement of certain financial instruments and external investment pools. The implementation of this Statement did not have an effect on the City's financial statements.

NOTE 3: FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

| | | Emergency Medical | Capital | Other Governmental | |
|-------------------------------------|------------|----------------------|--------------|-----------------------|--------------|
| | General | Service | Improvements | Funds | Total |
| Nonspendable | | | | | |
| Prepaid Items | \$ 18,643 | \$ 2,968 | \$ - | \$ 1,483 | \$ 23,094 |
| Inventories | 3,332 | | | 10,038 | 13,370 |
| Total Nonspendable | 21,975 | 2,968 | | 11,521 | 36,464 |
| Restricted | | | | | |
| Emergency Services | - | 466,897 | - | - | 466,897 |
| Streets and Highways | - | - | - | 136,904 | 136,904 |
| Law Enforcement | - | - | - | 10,406 | 10,406 |
| Education and Recreation Assistance | - | - | - | 5,612 | 5,612 |
| Fire Department | - | - | - | 211,448 | 211,448 |
| Special Assessment Debt Retirement | - | - | - | 22,959 | 22,959 |
| Cemetery Capital Improvements | - | - | - | 92,594 | 92,594 |
| Capital Improvements | | | 348,490 | | 348,490 |
| Total Restricted | | 466,897 | 348,490 | 479,923 | 1,295,310 |
| Committed | | | | | |
| Recreation | 5,945 | | | | 5,945 |

| Assigned | | | | | |
| Fiscal Year 2012 Appropriations | 217,208 | - | - | - | 217,208 |
| Other Purposes | 1,925 | - | - | - | 1,925 |
| Total Assigned | 219,133 | | | | 219,133 |
| Unassigned | 534,689 | - | _ | - | 534,689 |
| Total Fund Balance | \$ 781,742 | \$ 469,865 | \$ 348,490 | \$ 491,444 | \$ 2,091,541 |

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 4: PRIOR PERIOD ADJUSTMENTS AND FUND RECLASSIFICATIONS

Prior Period Adjustments

The City restated the December 31, 2010 net assets of the Business-Type Activities and the Water Fund as a result of an adjustment to the accumulated depreciation of a capital asset. The restatement had the following effect on the net assets of the Business-Type Activities and the Water Fund:

| | Bus | siness-Type | Water | | |
|--|-----|-------------|-------|-----------|--|
| | | Activities | | Fund | |
| Net Assets, December 31, 2010 | \$ | 10,664,211 | \$ | 4,532,019 | |
| Adjustment to Accumulated Depreciation | | (117,690) | | (117,690) | |
| Net Assets, December 31, 2010, as Restated | \$ | 10,546,521 | \$ | 4,414,329 | |

Fund Reclassifications

The implementation of GASB Statement No. 54 and the City's review of fund classifications and activity had the following effect on governmental fund balances as they were previously reported:

| | | Other | | | |
|--|---------------|-------|------------|--|--|
| | | Go | vernmental | | |
| | General | Funds | | | |
| Fund Balance, December 31, 2010 | \$ 911,480 | \$ | 341,308 | | |
| Change in Fund Structure | (83,036) | | 83,036 | | |
| Restated Fund Balance, December 31, 2010 | \$ 828,444 | \$ | 424,344 | | |

The General Fund's budgetary fund balance at December 31, 2010 has been restated from \$673,286 to \$590,488. This fund's budgetary fund balance was restated as result of the City's implementation of GASB Statement No. 54 and review of fund classifications.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 5: BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance/equity on the basis of generally accepted accounting principles, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances.

The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Budgetary Basis) and Actual presented for the General Fund and Emergency Medical Service Fund are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budgetary basis and the GAAP basis are that:

- (a) Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) Encumbrances are treated as expenditures (budget basis) rather than as a part of restricted, committed, and assigned fund balances (GAAP basis);
- (d) Some funds may be included in the General Fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the GAAP basis to the budget basis for the General Fund and the Emergency Medical Service Fund are as follows:

| | | En | nergency |
|-----------------------------|-----------------|----|----------|
| | | N | Medical |
| | General | | Service |
| GAAP Basis | \$ (46,702) | \$ | 55,122 |
| Revenue Accruals | (8,771) | | 6,797 |
| Expenditure Accruals | (17,396) | | (636) |
| Encumbrances (Budget Basis) | | | |
| outstanding at year end | (45,633) | | (6,282) |
| Budget Basis | \$ (118,502) | \$ | 55,001 |

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 6: DEPOSITS AND INVESTMENTS

The City's policy is to invest public funds in a manner which will provide the highest return with the maximum security while meeting daily cash flow needs and conforming to state statutes and the City Charter governing the investment of public funds. The Charter of the City specifies that the Finance Director has responsibility for selecting depositories and investing idle funds and the authority to choose the types of deposits and investments made. The Charter allows the Finance Director to invest in government securities, direct obligations of the U.S. Treasury and federal agencies, certificates of deposit, savings accounts, NOW accounts, repurchase agreements, state and local government securities, and the State Treasurer's investment pool (STAR Ohio). The City's practice is to limit deposits and investments to insured and/or collateralized demand deposit accounts, the STAR Ohio, certificates of deposit, U.S. Treasury bills, or obligations of other U.S. Agencies for which the principal and interest is guaranteed by the U.S. Government. The Charter allows for ten percent of funds to be invested for a maximum maturity of three years from the date of purchase. The City does not enter into reverse repurchase agreements.

Protection of City cash and investments is provided by the various federal deposit insurance corporations as well as qualified pledged or pooled securities by the institutions holding the assets. Such collateral is held by the various institutions or their trustees including the Federal Reserve Bank.

The City invested funds in STAR Ohio during 2011. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the Securities and Exchange Commission as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in

STAR Ohio is valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2011.

Interest earnings are distributed to the Sewer Enterprise fund, Street Maintenance and Repair and the State Highway Special Revenue funds based on daily cash balances, and the remainder is reported in the General Fund. The interest earned in the Water Bond Escrow account is credited to the Water Enterprise Fund. Interest revenue credited to the General Fund during fiscal year 2011 amounted to \$30,467, which includes \$18,297 assigned from other City funds.

Deposits: At year-end, the carrying amount of the City's deposits was \$3,486,947 and the bank balances totaled \$3,558,712. Of the bank balances, \$2,508,491 was exposed to custodial credit risk. This amount was uninsured and collateral is held by the pledging financial institution's trust department, and not in the City's name.

Notes to the Basic Financial Statements (Continued)

For The Year Ended December 31, 2011

NOTE 6: DEPOSITS AND INVESTMENTS (Continued)

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. According to state law, public depositories must give security for all public funds on deposit in excess of those funds that are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agency or instrumentality of the federal government. These institutions may either specifically collateralize individual accounts in lieu of amounts insured by the FDIC, or may pledge a pool of government securities valued at least 105 percent of the total value of public monies on deposit at the institution. The City's policy is to deposit money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Investments: As of December 31, 2011, the City had the following investments and maturities:

| | | Fair | | Less than |
|-----------------|----|---------|--------|------------|
| Investment type | | _ | 1 Year | |
| STAROhio | \$ | 158,994 | | \$ 158,994 |
| | \$ | 158,994 | | \$ 158,994 |

The City's policy is to invest money with financial institutions that are able to abide by the laws governing insurance and collateral of public funds.

Interest rate risk is the possibility that changes in interest rates will adversely affect the fair value of an investment. The City's investment policy does not address limits on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk is the possibility that an issuer or other counterparty to an investment will not fulfill its obligation. Standard and Poor's has assigned STAR Ohio an AAAm rating. The City's investment policy requires certain credit ratings for some investments as allowed by state law.

NOTE 7: RECEIVABLES

Receivables at year end for governmental funds consisted primarily of municipal income taxes, property and other taxes, amounts due from other governments, accounts, special assessments, and accrued interest.

Due from other governments consists primarily of entitlements to be received from the state:

| Revenue Description | Amount | | |
|------------------------------------|--------|---------|--|
| Cents Per Gallon and Excise Tax | \$ | 117,174 | |
| Homestead and Rollback | | 44,943 | |
| Local Government | | 178,638 | |
| Motor Vehicle Tax | | 23,905 | |
| Permissive Sales Tax | | 91,557 | |
| Miscellaneous | | 16,253 | |
| Total Intergovernmental Receivable | \$ | 472,470 | |

Notes to the Basic Financial Statements (Continued)

For The Year Ended December 31, 2011

NOTE 8: <u>CAPITAL ASSETS</u>

Capital asset activity for the year ending December 31, 2011 is as follows:

Governmental Activities: A summary of the governmental activities' capital assets as of December 31, 2011 follows:

| | Balance 12/31/10 | A dditions | Deletions | Balance 12/31/11 | |

The amount of depreciation expense that was charged to the Water and Sewer funds for the year ended December 31, 2011 is as follows:

| Deprectation Expense: | |
|-----------------------|---------------|
| Water | \$ 189,296 |
| Sewer | 235,648 |
| | \$ 424,944 |
| | |

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 9: COMPENSATED ABSENCES

City employees earn vacation leave at varying rates based upon length of service, from two to five weeks per year. Vacation leave is accrued bi-weekly. Employees are allowed to accrue up to two times their annual vacation rate.

In the event of a termination of employment, death, or retirement, employees (or their estates) are paid for unused vacation leave.

City employees earn sick leave at the rate of 4.6 hours for every 80 hours worked. Sick leave accrual is continuous, without limit. In the case of death or retirement, employees (or the employees' estates) are paid between 600 to 650 hours of accumulated, unused sick leave.

NOTE 10: BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS

Governmental Activities: A summary of the governmental activities' debt and other long-term obligations as of December 31, 2011 follows:

| | Balance January 1 | Additions | Deletions | Amount Outstanding December 31 | Amount Due in One Year | |

| | | | | | |

General obligation bonds are direct obligations of the City for which its full faith and credit are pledged for repayment. General obligation bonds will be retired from the Debt Service Fund using general property taxes.

On July 12, 2004, the City issued \$1,410,000 and \$415,000 in general obligation bonds with interest rates varying between; 2.00-4.35 percent, and 2.00-2.75 percent, respectively. The bond issues were used to refund \$1,361,000 of outstanding recreation center bonds with an interest rate of 5.30 percent, and to refund \$415,000 of outstanding safety building bonds with an average interest rate of 4.84 percent. As of December 31, 2011, all of the old bonds have been called and subsequently redeemed. The refunding recreation center bonds will mature on December 1, 2020.

In 2009, the City issued \$77,000 in bonds with an interest rate of 4.25 percent and will mature in 2024. These bonds were issued to replace and improve the City's 911 emergency dispatch communication system.

Mortgage revenue bonds are to be repaid from income derived from the constructed and improved assets of the Sewer Fund. The Sewer Mortgage Revenue bonds (maturing October 15, 2013) were issued for the purpose of constructing and improving the wastewater treatment facilities.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 10: BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

The City has pledged future revenues to repay OPWC loans in the Water Fund. The debt is payable solely from revenues and is payable through 2025. In 2011, the annual principal payment on the loan required 2.38 percent of operating revenues and 1.25 percent of total revenues. The total principal remaining to be paid on the loan is \$175,000. Principal paid in the current year was \$12,500, total operating revenues were \$525,257 and total revenues were \$997,670.

The City has pledged future revenues to repay revenue bonds and OWDA loans in the Sewer Fund. The debt is payable solely from operating revenues and is payable through 2033. In 2011, the annual principal and interest payments on the bonds and loans required 31.70 percent of operating revenues and 31.04 percent of total revenues. The total principal and interest remaining to be paid on the bonds and loans is \$1,957,223. Principal and interest paid in the current year was \$409,760, total operating revenues were \$1,292,555 and total revenues were \$1,320,158.

The 2005 Ohio Public Works Commission (OPWC) loan was for a new water filtration system to be used by the City. The City received \$141,647 in proceeds in 2005, with the remaining \$108,353 received in 2006. The loan ends in 2026 and is an interest-free loan.

The 1993 Ohio Water Development Authority (OWDA) loan was for the construction, maintenance and operation of wastewater treatment facilities. This loan ends in 2013 and has a 5.00 percent interest rate.

In 2010, OPWC provided funding to the City in the form of interest-free loan proceeds for waterline improvements on Salt Street and Terrace Street. The City began drawing down on the loan proceeds in 2011. As of December 31, 2011, the project is not complete and a final amortization schedule is not available.

Compensated Absences: Sick leave benefits will be paid from the fund from which the person is paid. The compensated absences liability is mainly paid from the General Fund, Water Fund, and Sewer Fund.

Notes to the Basic Financial Statements (Continued)

For The Year Ended December 31, 2011

NOTE 10: BONDED DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

The annual requirements to amortize all bonded debt and loans as of December 31, 2011, including interest payments of \$4,941,251, are as follows:

| | Gen | | | | | | |
|-------------|-----------------|------|----------|----|-----------|-----|----------|
| | Obligatio | n Bo | nds | | PWC & OV | VDA | Loans |

NOTE 11: <u>CAPITAL LEASE – LESSEE DISCLOSURE</u>

Capital lease payments are reflected as debt service payments in the basic financial statements for the governmental funds. These expenditures are reflected as functional expenditures on a budgetary basis.

In prior years, governmental activities' capital assets consisting of equipment have been capitalized in the amount of \$55,891. The capitalized amount is equal to the present value of the future minimum lease payments at the time of acquisition.

Notes to the Basic Financial Statements (Continued)

For The Year Ended December 31, 2011

NOTE 11: <u>CAPITAL LEASE – LESSEE DISCLOSURE</u> (Continued)

The future minimum lease payment required under the capital leases are as follows:

| <u>Year</u> | <u>Payment</u> | |
|----------------------|----------------|---------|
| 2012 | \$ | 11,706 |
| 2013 | | 11,706 |
| | | 23,412 |
| Less Interest | | (1,690) |
| Future Minimum Lease | \$ | 21,722 |

NOTE 12: PROPERTY TAX

Property taxes include amounts levied against all real and public utility property, and tangible personal property located in the City. Real property taxes were levied after October 1, on the assessed value as of the prior January 1, the lien date. Assessed values are established by State law at 35 percent of appraised market value. All property is required to be revalued every six years. The last revaluation was in 2008 for both Wayne and Medina counties.

Public utility property taxes were levied after October 1 on the assessed value as of the prior December 31 and are collected with real property taxes. Public utility property taxes are assessed on tangible personal property at 100 percent of true value and on real property at 35 percent of assessed valuation.

Tangible personal property taxes are levied on January 1 of the current year on the value listed as of December 31 of the prior year. Tangible personal property tax revenues received during 2011 (other than public utility property tax) represent the collection of 2011 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected.

The full-tax rate for all City operations applied to taxable property for the year ended December 31, 2011 was \$7.1 and \$5.8 per \$1,000 of assessed valuation in Wayne and Medina counties, respectively. For 2011, only 2.41 percent of the total valuations were attributed to property in Medina County.

The assessed values upon which the 2011 taxes were collected are as follows:

| Property Category | Assessed Value | Percent |
|------------------------------|----------------|---------|
| Real Property | | |
| Residential and agricultural | \$82,363,310 | 85.35 |
| Commercial and industrial | 12,266,040 | 12.71 |
| | | |
| Tangible Personal Property | | |
| General | 72,830 | 0.08 |
| Public utilities | 1,794,390 | 1.86 |
| Total | \$96,496,570 | 100.00 |

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 12: PROPERTY TAX (Continued)

Real and public utility property taxes are payable annually or semiannually. If paid annually, payment is due March 1. If paid semi-annually, the first payment is due March 1 with the remainder payable by July 15. Under certain circumstances, state statute permits earlier or later payment dates to be established. Due dates are normally extended an additional thirty days.

Tangible personal property taxes received from telephone companies in 2011 were levied after October 1, 2010, on the value as of December 31, 2010. Tangible personal property taxes paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due May 10; if paid semi-annually, the first payment is due May 10, with the remainder payable by September 20.

The County Treasurer collects property tax on behalf of all taxing districts within the County. The County Auditor periodically remits to the taxing districts their portions of the taxes collected.

Accrued property taxes receivable represents delinquent taxes outstanding and real property, public utility, and tangible personal property taxes which became measurable as of December 31, 2011. However, since these tax collections will not be received during the available period nor are they intended to finance 2011 operations, the receivable is offset by a credit to deferred/unearned revenue.

NOTE 13: INCOME TAX

The City levies and collects an income tax of 1.5 percent on all income earned within the City, as well as on incomes of residents earned outside the City. In the latter case, the City allows a credit of 100 percent of the tax paid to another municipality, not to exceed the amount owed. Employers within the City are required to withhold income tax on employee earnings and remit the tax to the City at least quarterly. Corporations and other individual taxpayers are also required to pay their estimated taxes at least quarterly and to file a final return annually. Income tax revenues are distributed between the General Fund (50 percent), the Water Enterprise Fund (25 percent), and the Capital Improvements Capital Projects Fund (25 percent).

NOTE 14: CONTINGENCIES

A few claims and lawsuits are pending against the City. It is management's opinion that the ultimate liability will be covered by insurance and/or will not have a material effect on the financial statements.

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, City management believes such disallowance, if any, will be immaterial.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 15: DEFINED BENEFIT PENSION PLANS

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the Traditional Pension Plan (TP), a cost-sharing, multiple-employer defined benefit pension plan; and the Member-Directed Plan (MD), a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the Member-Directed Plan members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings. The third plan is the Combined Plan (CO), cost-sharing, multiple-employer defined benefit pension plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to, but less than, the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan. All full-time uniform police participate in the Ohio Police and Fire Pension Fund (OP&F), also a cost-sharing, multiple-employer defined benefit pension plan.

OPERS provides basic retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits for OPERS and OP&F is provided by the Ohio State Legislature and are codified in the Ohio Revised Code, Chapters 145 and 742, respectively.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting https://www.opers.org/investments/cafr.html, writing to OPERS at 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (800)222-7377 and OP&F at 140 East Town Street, Columbus, Ohio 43215-5164.

OPERS: The Ohio Revised Code provides statutory authority for member and employer contributions. For 2011, member and employer contribution rates were consistent across all three plans. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the Traditional Plan. The 2011 member contribution rates were 10 percent for members in state and local classifications. Public safety and law enforcement members contributed 11.0 percent and 11.6 percent, respectively. For 2011, the employer pension contribution rate for the City was 14 percent of covered payroll. The 2011 employer contribution rate for both the law enforcement and public safety divisions was 18.10 percent of covered payroll. The contribution rates are determined actuarially. The City's required pension contributions to OPERS for the years ending December 31, 2011, 2010, and 2009, were \$170,755, \$154,370, and \$211,493 respectively. The full amount has been contributed for 2010 and 2009, and 92.36 percent had been contributed for 2011, with the remainder being reported as a liability within the respective funds.

OP&F: Plan members are required to contribute 10 percent of their covered salary to fund pension obligations, while employers are required to contribute 19.5 percent and 24 percent respectively for police officers and firefighters. The portion used to fund pension obligations was 12.75 percent and 17.25 percent, respectively, for police officers and firefighters. Contributions are authorized by state statute. The City's required pension contributions to OP&F for the years ending December 31, 2011, 2010, and 2009, were \$60,564, \$52,357, and \$57,068, respectively. The full amount has been contributed for 2010 and 2009, and 73.85 percent has been contributed for 2011, with the remainder being reported as a liability within the respective funds.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 16: POST-EMPLOYMENT BENEFITS

The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans, the Traditional Plan (TP), the Member-Directed Plan (MD), and the Combined Plan (CO), all of which are described in Note 15. OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the MD Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age and service retirees must have ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor benefit recipients is available. The health care coverage provided by the Retirement System is considered an Other Post-employment Benefit (OPEB) as described in GASB Statement No. 45. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care. The Ohio Revised Code provides statutory authority for employer contributions. The OPERS law enforcement program is separated into two divisions, law enforcement and public safety, with separate employee contribution rates and benefits. The 2011 employer contribution rate for local government employers was 14.0 percent of covered payroll. For both the public safety and law enforcement divisions the 2011 employer rate was 18.10 percent.

OPERS Post-employment Health Care plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care benefits. The portion of employer contributions allocated to health care was 4.0 percent during calendar year 2011. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care coverage by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. The City's contributions for the years ending 2011, 2010, and 2009, which were used to fund post-employment benefits, were \$68,302, \$89,143, and \$151,305, respectively. For 2011, 92.36 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2010 and 2009.

On September 9, 2004, the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. Member and employer contribution rates increased as of January 1, 2006, January 1, 2007, and January 1, 2008. Rates for law and public safety employers increase over a six year period beginning on January 1, 2006, with a final rate increase on January 1, 2011. These rate increases allow additional funds to be allocated to the health care plan.

The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored health care program, a cost-sharing, multiple-employer defined post-employment health care plan administered by OP&F. OP&F provides health care benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B premium and long term care to retirees, qualifying benefit recipients, and their eligible dependents.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 16: POST-EMPLOYMENT BENEFITS (Continued)

OP&F provides access to post-employment health care coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. An eligible dependent child is any child under the age of 18 whether or not the child is attending school, or under the age of 22 if attending school full-time or on a 2/3 basis. The health care coverage provided by OP&F meets the definition of an Other Post-employment Benefit (OPEB) as described in GASB Statement No. 45.

OP&F maintains funds for health care in two separate accounts. One account is for health care benefits under IRS Code Section 115 trust and one account is for Medicare Part B reimbursements administered as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Ohio Revised Code permits, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F (defined benefit pension plan). Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.50 percent and 24.00 percent of covered payroll for police and fire employers, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.50 percent of covered payroll for police employer units and 24.00 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For the year ended December 31, 2011, the employer contribution allocated to the health care plan was 6.75 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of the Sections 115 and 401(h).

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contributions for the years ending 2011, 2010, and 2009 that were used to fund post-employment benefits were \$32,063, \$27,718, and \$30,212, respectively. For 2011, 73.85 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2010 and 2009.

Notes to the Basic Financial Statements (Continued) For The Year Ended December 31, 2011

NOTE 17: RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

These risks are covered by commercial insurance policies purchased from independent third parties. The City purchases extended coverage insurance on all buildings and contents to \$24,152,772. Coverage is purchased on City vehicles for a combined single limit liability of \$1,000,000. The City purchases general liability insurance coverage with a \$1,000,000 limit per occurrence and \$2,000,000 aggregate. Other policies held by the City include law enforcement, public officials, boiler & machinery, inland marine, and commercial crime. An umbrella policy held by the City provides an additional \$5,000,000 of coverage over the policies listed above. There were no settled claims from these risks that have exceeded commercial insurance coverage nor has insurance coverage been significantly reduced in the past three years.

Workers' compensation coverage is provided by the State of Ohio and is based on a rate per \$100 of salaries. The rate is calculated based on accident history and administrative costs.

NOTE 18: INTERFUND TRANSFERS

Transfers are used to (1) move revenues from the fund that statue or budget requires to collect them to the fund that statue or budget requires to expend them, (2) move receipts restricted to debt service from the fund collecting the receipts to the Debt Service Fund as debt service payments become due, and (3) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. During the year, the Capital Improvements Fund transferred \$121,364 to the Debt Service Fund and the General Fund transferred \$25,000 and \$52,000 to the Fire Department Levy and Street Maintenance and Repair funds, respectively, for these purposes.

This space is intentionally left blank.

Notes to the Basic Financial Statements (Continued)

For The Year Ended December 31, 2011

NOTE 19: INTERFUND RECEIVABLES AND PAYABLES

Internal borrowing consists of internal bonds issued by the City to finance projects internally rather than through outside parties. For reporting purposes, these internal bonds were reflected as an interfund receivable in the Capital Improvements Fund and an interfund payable in the Other Governmental Funds.

Following is a detail of the Interfund Receivable/Payable, by debt issue, as of December 31, 2011:

| | Ado | litions | De | eletions | _ | alance 31/2011 |
|--------------|---------------------------|---|--|--|--|--|
| | | | | | | |
| | | | | | | |
| \$ 12,910 | \$ | - | \$ | 6,283 | \$ | 6,627 |
| | | | | | | |
| 2,694 | | - | | 2,694 | | - |
| | | | | | | |
| 10,647 | | - | | 2,470 | | 8,177 |
| | | | | | | |
| 23,463 | | | | 4,246 | | 19,217 |
| | | | | | | |
| \$ 49,714 | \$ | | \$ | 15,693 | \$ | 34,021 |
| 12/ | 2,694 10,647 23,463 | 12/31/2010 Add \$ 12,910 \$ 2,694 10,647 23,463 | 12/31/2010 Additions \$ 12,910 \$ - 2,694 - 10,647 - 23,463 - | 12/31/2010 Additions Do \$ 12,910 \$ - \$ 2,694 - 10,647 - 23,463 - | 12/31/2010 Additions Deletions \$ 12,910 \$ - \$ 6,283 2,694 - 2,694 10,647 - 2,470 23,463 - 4,246 | 12/31/2010 Additions Deletions 12/31/2010 \$ 12,910 \$ - \$ 6,283 \$ 2,694 - 2,694 10,647 - 2,470 23,463 - 4,246 |

Of the \$34,021 balance, \$20,342 will be repaid in more than one year.

In addition to the City's internal bonds outstanding, the General Fund provided temporary funding in the amount of \$21,000 to a nonmajor governmental fund until funds are received. This loan will be repaid within one year.

NOTE 20: OTHER COMMITMENTS

The City utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end are components of fund balance for subsequent year expenditures and may be reported as part of restricted, committed, or assigned classifications of fund balance. As of December 31, 2011, the City's commitments for encumbrances in the governmental funds were as follows:

| | Encumbrances Outstanding | | | | |
|---------------------------|--------------------------|---------|--|--|--|
| General | \$ | 1,925 | | | |
| Capital Improvements Fund | | 100,334 | | | |
| Nonmajor Funds: | | | | | |
| Special Revenue Funds | | 25,346 | | | |
| Total | \$ | 127,605 | | | |

Combining Statements

Combining Statements Fund Descriptions December 31, 2011

Non-Major Special Revenue Funds

Special Revenue funds are established to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. A description of the City's special revenue funds follows:

Street Maintenance and Repair

Required by the Ohio Revised Code to account for that portion of the state gasoline tax and motor vehicle registration fees restricted for maintenance of streets within the City.

State Highway

Required by the Ohio Revised Code to account for that portion of the state gasoline tax and motor vehicle registration fees restricted for maintenance of state highways within the City.

Permissive Tax

Required by the Ohio Revised Code to account for that portion of motor vehicle registration fees allocated to assist in maintaining those city streets designated as contributing to the effective and efficient flow of traffic through and within the county

Permissive Tax II

To account for the City's share of motor vehicle registration fees levied by the City for maintaining city streets.

Police Pension

To accumulate property taxes levied for the partial payment of the current liability for police disability and pension.

Law Enforcement and Education

To account for funds from the municipal court restricted to enforce drunk driving laws and related educational programs.

Law Enforcement

To account for funds from the municipal court restricted for law enforcement programs.

Law Enforcement Assistance Grant

To account for funds to be used for law enforcement and public safety programs.

Education and Recreation Assistance

To account for monies received and expended for the Parks and Recreation Department programs and activities.

Fire Department Levy

To account for property taxes levied for the maintenance and acquisition of fire equipment.

Combining Statements Fund Descriptions December 31, 2011

Non-Major Debt Service Fund

Debt Service funds are established to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest and to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. A description of the City's debt service fund follows:

Debt Retirement

To account for the resources that are used for payment of principal and interest and fiscal charges on debt.

Non-Major Capital Project Fund

Capital Project funds are established to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. A description of the City's capital project fund follows:

Cemetery Endowment

This fund accounts for resources restricted for capital improvements for the Rittman Municipal Cemeteries.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. Agency funds are purely custodial (assets equals liabilities) and thus do not involve measurement of results of operations.

Agency Funds

Unclaimed Funds

To account for stale dated checks issued by the City for various expenses. These dollars are held in this fund until a legal claim is made.

Returnable Bonds

To hold deposits for various aspects of construction such as inspections, street openings, grade settings, and building deposits and to hold as agent monies received for insurance which are to be remitted as required.

Statistical Section

This part of City of Rittman's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

| <u>Contents</u> | Page(s) |
|--|-------------|
| Financial Trends | |
| These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time. | S-3 - S-7 |
| Revenue Capacity | |
| These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax. | S-8 - S-12 |
| Debt Capacity | |
| These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's | g 12 g 10 |
| ability to issue additional debt in the future. | S-13 - S-18 |
| Economic and Demographic Information | |
| These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities | G 10 G 20 |
| take place. | S-19 - S-20 |
| Operating Information | |
| These schedules contain service data to help the reader understand how the information in the City's financial report relates to the services the | |
| City provides and the activities it performs. | S-21 - S-26 |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement 34 in 2002; schedules presenting government-wide information include information beginning in that year.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal.

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax is being phased out beginning in 2006. For collection year 2009 and beyond both types of general business tangible personal property were assessed at zero percent.

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10%, $2\,1/2\%$ and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10% rollback for commercial/industrial property has been eliminated.

Note: The County does not identify delinquent collections by the year for which the tax was levied.

City of Rittman Wayne County, Ohio 30 N. Main Street Rittman. OH 44270

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Rittman, Wayne County, Ohio (the City) as of and for the year ended December 31, 2011, which collectively the City's basic financial statements and have issued our report thereon dated June 25, 2012 in which we noted the City restated the net assets balances to adjust accumulated depreciation of capital assets and to fund balances to account for the implementation of GASB Statement No. 54. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of the City is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying *Schedule of Findings*, we identified a certain deficiency in internal control over financial reporting that we consider to be a material weakness.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying *Schedule of Findings* to be a material weakness: 2011-001.

City of Rittman, Wayne County, Ohio Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted a certain matter that we reported to management of the City in a separate letter dated June 25, 2012.

The City's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the City's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of City Council, others within the entity and management and is not intended to be and should not be used by anyone other than these specified parties.

Lea & Associates, Inc.

City of Rittman Wayne County, Ohio

Schedule of Findings December 31, 2011

FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

Finding Number: 2011-001

Material Weakness – Internal Controls over Financial Reporting

Criteria: The American Institute of Certified Public Accountants (AICPA), the national professional organization for certified public accountants, issued its Statement on Auditing Standards (SAS) No. 115, Communicating Internal Control Related Matters Identified in an Audit, which supersedes SAS No. 112. The AICPA establishes auditing standards generally accepted in the United States that certified public accountants and government auditors must follow in conducting audits of state and local governments. SAS No. 115 establishes standards, responsibilities and guidance for auditors during a financial statement audit engagement for identifying and evaluating a client's internal control over financial reporting. This new standard requires the audit to report in writing to management and the governing body any control deficiencies found during the audit that are considered significant deficiencies and/or material weaknesses. In addition, Accounting Principles Board Opinions (APB) 20, states that correction of an error should be reported as a prior period adjustment.

Condition: During depreciation analytic testing, we identified a significant increase in current depreciation expense for the water fund/business-type activities. This increase was a result of management correcting an error in accumulated depreciation in which certain capital assets were not being depreciated properly.

Cause: The correction of a prior period error was treated prospectively rather than retroactively as prescribed by APB 20.

Effect: This treatment resulted in overstatement of current year depreciation expense and beginning book value of the water fund/business-type activities capital assets.

Recommendation: We recommend consulting with the Governmental Accounting Standards Board or other authoritative body prior to treating a correction of error prospectively to prevent misstatement of financial statements

Schedule of Findings (Continued)
December 31, 2011

FINDINGS RELATED TO THE FINANCIAL STATEMENTS REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS

Finding Number: 2011-001 (Continued)

Material Weakness – Internal Controls over Financial Reporting

Management's Response: The aforementioned "Material Weakness" finding is unjustified for the following reasons:

- During the compilation of the financial reports for the year ended December 31, 2011, the City's Finance Department identified a capital asset in the Water Fund that had not been properly depreciated in prior periods. Since this asset is still in use and not scheduled to be replaced for the next several years, the City corrected the issue prospectively by depreciating the net value over the next 7.5 years.
- In my professional judgment, this solution was appropriate since the asset was still in use, the beginning balance was overstated by only 2.3% of the Water Fund's total capital assets, 2.7% (\$123,824 / \$4,532,019) of the Water Fund's total net assets, 1.0% of the total Business-Type capital assets and 1.2% (\$123,824 / \$10,664,211) of the total Business-Type net assets.
- The prospective adjustment to the asset was identified by the City's Finance Department and clearly marked with pink highlights on the workpapers provided to the auditors. The auditors did not agree with this solution and advised that a restatement was the appropriate way to deal with the issue due to their materiality limit. As a result, we restated the financials at the auditor's suggestion.
- There was no attempt to withhold information from the auditors. We simply had differing opinions on the definition of materiality, which according to the auditor's engagement letter should be based upon both quantitative and qualitative measures. If a quantitative materiality limit is to be strictly applied, it would be helpful to make sure that this limit is communicated to all involved.
