NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED JUNE 30, 2012

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Fairview Park City School District, Cuyahoga County, Ohio, (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE D - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. These transfers resulted in the Schedule reporting negative receipts. The District transferred the following amounts from 2011 to 2012 programs:

	CFDA	Amount 7	Transferred
Program Title	<u>Number</u>	From 201	11 to 2012
ARRA - Title I Grants to Local Educational Agencies, Recovery Act	84.689	\$	304
Special Education - Grants to States (IDEA - Part B)	84.027		2,669
Title III. Part A. English Acquisition State Grants	84.365		1.737

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Fairview Park City School District Cuyahoga County 21620 Mastick Road Fairview Park, Ohio 44126

To the Board of Education:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Fairview Park City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 19, 2012, wherein we noted the District restated July 1, 2011 beginning net assets of the Governmental Activities and Business-Type Activities. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Fairview Park City School District Cuyahoga County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note a certain matter not requiring inclusion in this report that we reported to the District's management in a separate letter dated December 19, 2012.

We intend this report solely for the information and use of management, the Financial Oversight Committee, Board of Education, federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

Dave Yost Auditor of State

December 19, 2012

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133, AND THE FEDERAL AWARDS RECEIPTS
AND EXPENDITURES SCHEDULE

Fairview Park City School District Cuyahoga County 21620 Mastick Road Fairview Park, Ohio 44126

To the Board of Education:

Compliance

We have audited the compliance of Fairview Park City School District, Cuyahoga County, Ohio, (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the Fairview Park City School District's major federal program for the year ended June 30, 2012. The *summary of auditor's results* section of the accompanying schedule of findings identifies the District's major federal program. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to the major federal program. Our responsibility is to opine on the District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' Government Auditing Standards; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with these requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with these requirements.

In our opinion, the Fairview Park City School District, Cuyahoga County, Ohio, complied, in all material respects, with the requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2012.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Government's internal control over compliance.

Independent Accountants' Report on Compliance with Requirements
Applicable to The Major Federal Program and on Internal Control Over
Compliance Required by OMB Circular A-133, and the Federal Awards
Receipts and Expenditures Schedule
Page 2

Internal Control Over Compliance (Continued)

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We also noted a matter involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated December 19, 2012.

Federal Awards Receipts and Expenditures Schedule

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Fairview Park City School District, Cuyahoga County, Ohio, (the District) as of and for the year ended June 30, 2012, and have issued our report thereon dated December 19, 2012, wherein we noted the District restated July 1, 2011 beginning net assets of the Governmental Activities and Business-Type Activities. Our audit was performed to form opinions on the financial statements taken as a whole. The accompanying federal awards receipts and expenditures schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the Financial Oversight Committee, management, Board of Education, others within the entity, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Dave Yost Auditor of State

December 19, 2012

Board of Education Members and Residents of the Fairview Park City School District

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Fairview Park City School District (the "District") for the fiscal year ended June 30, 2012. This CAFR includes an opinion from the State of Ohio Auditor and conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rest with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. This report will provide the taxpayers of the Fairview Park City School District with comprehensive financial data in a format which will enable them to gain an understanding of the District's financial affairs.

The Reporting Entity

The District has reviewed its reporting entity definition in order to insure conformance with Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments and organizations making up the Fairview Park City School District (the primary government) and its potential component units. The District has no component units.

The District is associated with one insurance purchasing pool and three jointly governed organizations. The Southwestern Ohio Educational Purchasing Council Group rating plan is an insurance purchasing pool. The Lake Erie Educational Computer Association, the Ohio Schools' Council Association and the Polaris Career Center are jointly governed organizations. The District's relationships with these organizations is described in Note 1 to the basic financial statements. A complete discussion of the District's reporting entity is provided in Note 1 to the basic financial statements.

Profile and Organizational Structure

The District covers approximately 4.77 square miles and is located approximately 10 miles west of downtown Cleveland, Ohio. The District provides education to 1,736 students in grades kindergarten through twelfth. The District provides general education, special education and vocational type academic programs. The District's enrollment has remained relatively flat over the last several years and is projected to slightly increase in the foreseeable future.

Statutorily, the District operates under the standard prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide educational services prescribed by State and Federal agencies. The Board of Education is made up of five members elected at large, for overlapping four-year terms. The Board of Education elects its President and Vice President annually, and appoints two officials: the Superintendent, who serves as the Chief Executive Officer (CEO), and the Treasurer, who serves as the Chief Financial Officer (CFO).

Local Economy and Relevant Financial Policies

In the past year, the following new businesses have opened in the City of Fairview Park:

Corky's of Fairview Park The Light Academy

Frickacio's Kitchen Market Simply Dineen Photography

Grady Podiatry Wally's Hair Salon

While economic development is good for the community as a whole, including the District, the benefits to the local District are not as great as one might imagine. The City of Fairview Park has a tax abatement program for which applicants can receive tax exemptions up to 100 percent on any remodeling or new construction for up to seven years. The school districts are not involved in the decision making of the abatement process. The school districts do receive additional revenue when the land value increases, but not on the land improvements (i.e. new buildings) until the abatement period expires.

Annually, the District prepares a five-year financial forecast. The financial forecast is the foundation for the District's operations and is used as a financial planning tool to assist the District in determining its ability to meet certain financial obligations and plan future funding needs. The forecast shows revenue and expenditures for the general operating fund for the past three fiscal years and projects revenue and expenditures for the ensuing five-year period. Through a collaborative process, the administration assists the Board of Education in determining and prioritizing the needs of the District. In accordance with State law, the Board of Education approves the financial forecast and submits it to the Ohio Department of Education prior to October 31 and reviews it again prior to May 31.

The funding structure of public education in Ohio is such that school districts receive very little revenue growth as a result of inflationary increases in their tax base. This is a result of House Bill 920, which mandates that any reappraised property increase results in an approximately equal value decrease in millage. As a result, school districts throughout Ohio must place operating funding issues on the ballot at regular intervals to keep pace with inflation and added programming.

Within the last three years, the State of Ohio has dramatically changed its public education funding formula three times. Most recently, state legislators passed House Bill 153 (H.B. 153), which eliminated the Ohio Evidence Based Model funding formula and was replaced with a "bridge" formula. This bridge formula is a temporary mechanism that will be used until the State has the opportunity to develop a permanent funding formula. Under the H.B. 153 bridge formula, the District will received a 16.45% reduction in basic state aid in fiscal year 2012 and no increase in state basic aid for fiscal year 2013. The Governor had publicly stated that his office was going to introduce a new funding formula by January 1, 2012 to be implemented in fiscal year 2013 that will be performance based. However, the release of the new funding formula has been delayed and is not expected to be introduced until after January 1st, 2013 for use in the fiscal year 2014 school year.

Additionally, the real property tax system in Ohio does not permit school districts to receive additional tax revenue solely as a result of reassessment or reappraisal. Consequently, the primary means of increasing revenue for the District is through additional operating levies or through the passage of a School District Income Tax. Historically, the District has been forced to go back to the taxpayers, on average, once every three years for new money. With careful, fiscal planning and management's ability to offset increases in cost with cost saving initiatives, the Board of Education has expanded the cycle to a minimum of seven years.

Major Initiatives

The District continues to be committed to providing "superior services and academic programs that challenge the mind and instill the joy of lifelong learning and responsible citizenship" as stated in the mission statement. The District's goals for fiscal year 2012 were as follows:

- Provide first class facilities, which entail the best possible learning environments to the students and residents of the Fairview Park City School District.
- Implementation of the third phase of the one to one laptop initiative. Within one year, this initiative will lead to every student in grades 5 12 having their own netbook computer.
- Examine the potential for development and implementation of alternative programs for high school students who are unable or unwilling to conform to the District's high academic and conduct standards.
- Improve the method of delivery of information to the students, parents, staff and stakeholders of the District.
- Implementation of a cost saving initiative plan that will prolong the financial stability of the District.
- Continue to develop the Professional Learning Communities model as a vehicle for building-based professional development initiatives.
- Provide support for transfer students to ensure that they will be able to pursue academic work at the highest level of which they are capable. To that end, the District will give individual attention to the placement and instruction of each transfer student.

Long-Term Financial Planning

As part of the District's long-term planning, the Treasurer/CFO prepares a five-year financial forecast. This document provides a snapshot of historical and projected revenues and expenses over the next five years and is accompanied by financial assumption notes. The Board of Education reviews this document on a quarterly basis for changes that might impact their financial decisions.

During the 2012 fiscal year, the District continued the practice of closely monitoring the student population and student needs and adjusting the staffing to the fluctuations accordingly. These comparisons allow the District to keep a streamlined organization. As a result of these monitoring efforts, the District has been able to maintain a relatively low increase in operating expenditures and a balanced budget.

Financial Information

Internal Accounting and Budgetary Control

In developing the District's accounting system much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual audit of each voucher prior to payment, ensures the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for that fiscal year. If a temporary appropriation measure is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measure, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level for all funds. All purchase order requests must be approved by either the Superintendent or the Assistant Superintendent and certified by the CFO/Treasurer; necessary funds are then encumbered and purchase orders are released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Each administrator and school principal is furnished with monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site. The basis of accounting and the various funds utilized by Fairview Park City School District are fully described in Note 2 of the basic financial statements. Additional information on the District's budgetary accounting can also be found in Note 2.

Financial Presentation

The District's basic financial statements consist of the following:

Government-wide financial statements: These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish those activities of the District that are governmental in nature.

Fund financial statements: These statements present information for individual major funds rather than by fund type. Nonmajor funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

Statement of budgetary comparisons: These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

Management is responsible for preparing a Management Discussion and Analysis (MD&A) of the District. This discussion follows the Independent Accountants' Report, providing an assessment of the District's finances for fiscal year 2012 and a discussion of current issues affecting the District in the future. The MD&A should be read in conjunction with this letter of transmittal.

Independent Audit

State statutes require the District to be subjected to an annual examination by an independent auditor. An annual audit serves to maintain and strengthen the District's accounting and budgetary controls. Independent auditor Dave Yost, Auditor of State, was selected to render an opinion on the District's financial statements as of and for the year ended June 30, 2012. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all school governments in Ohio. The District adopted and has been in conformance with that system beginning with its financial report for the 1979 year.

Awards

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Fairview Park City School District for its CAFR for the fiscal year ended June 30, 2011. The Certificate of Achievement is the highest form of recognition in the area of governmental financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such a report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

The Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

ASBO Certificate of Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) awards a Certificate of Excellence in Financial Reporting to school districts that publish Comprehensive Annual Financial Reports which substantially conform to the principles and standards of financial reporting as recommended and adopted by the Association of the School Business Officials. The award is granted only after an intensive review of the financial report by an all-expert panel of certified public accountants and practicing school business officials.

The District received the Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2011. The District believes that the Comprehensive Annual Financial Report for fiscal year June 30, 2012, which will be submitted to ASBO for review, will conform to ASBO's principles and standards.

Acknowledgments

The publication of this report is a significant step toward professionalizing the District's financial reporting. It enhances the District's accountability to the residents of the Fairview Park City School District.

The preparation of this report would not have been possible without the assistance and support of the staff of the CFO/Treasurer's office, various administrators and staff members of the District. Special appreciation is expressed to the accounting firm of Julian & Grube, Inc. for assistance in designing and reviewing this financial report.

Finally, sincere appreciation is extended to the Board of Education for their support on this project.

Respectfully Submitted,

Ryan Ghizzoni, CFO/Treasurer

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Fairview Park City School District, Ohio

For its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2011

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT ACCOUNTANTS' REPORT

Fairview Park City School District Cuyahoga County 21620 Mastick Road Fairview Park, Ohio 44126

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Fairview Park City School District, Cuyahoga County, Ohio, (the District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Fairview Park City School District, Cuyahoga County, Ohio, as of June 30, 2012, and the respective changes in financial position and where applicable, cash flows, thereof and the budgetary comparison for the General fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 3 to the financial statements, the District restated July 1, 2011 beginning net assets of the Governmental Activities and Business-Type Activities due to an error in reported capital assets.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Fairview Park City School District Cuyahoga County Independent Accountants' Report Page 2

Accounting principles generally accepted in the United States of America require this presentation to include Management's discussion and analysis, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provide additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Dave Yost Auditor of State

December 19, 2012

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

The management's discussion and analysis of Fairview Park City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2012. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, the notes to the basic financial statements and basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2012 are as follows:

- In total, net assets increased \$1,466,829. Net assets of governmental activities increased \$1,449,316, which represents a 6.56% increase from 2011 (as restated see Note 3.C). Business-type activities net assets increased \$17,513 over 2011 (as restated see Note 3.C). Net assets were restated due to a reappraisal of the District's capital assets which was performed in fiscal year 2012 and to correct for errors and omissions in the amounts previously reported.
- General revenues accounted for \$22,866,280 in revenue or 92.83% of governmental activities revenues. Program specific revenues in the form of charges for services and sales, operating/capital grants and contributions accounted for \$1,766,890 or 7.17% of governmental activities revenues.
- Total revenues for fiscal year 2012 were \$25,791,894. Of this total, \$24,633,170 was reported in the governmental activities and \$1,158,724 in the business-type activities.
- The District had \$23,183,854 in expenses related to governmental activities; only \$1,766,890 of these expenses was offset by program specific charges for services, operating/capital grants or contributions resulting in a net cost of \$21,416,964 for the District. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$22,866,280 were adequate to provide for these programs.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The statement of net assets and statement of activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund and bond retirement fund are by far the most significant funds, and the only governmental funds reported as major funds.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2012?" The statement of net assets and the statement of activities answer this question. These statements include all assets, liabilities, revenues and expenses using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current fund's revenues and expenses regardless of when cash is received or paid.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

These two statements report the District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net assets and the statement of activities, the District is divided into two distinct kinds of activities:

Governmental activities - Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, and extracurricular activities.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The District's food service and day care services are reported as business activities.

The District's statement of net assets and statement of activities can be found on pages 15-17 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page 10 and the analysis of the District's nonmajor enterprise funds begins on page 10. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and bond retirement fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages 18-22 of this report.

Proprietary Funds

Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match information provided in the statements for the District as a whole. The basic proprietary fund financial statements can be found on pages 23-25 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in an agency fund. The District's fiduciary activities are reported in separate statements of fiduciary net assets and changes in fiduciary net assets on pages 26 and 27. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 28-63 of this report.

The District as a Whole

The statement of net assets provides the perspective of the District as a whole.

The table below provides a summary of the District's net assets for 2012 and 2011.

Net Assets

	Governmental Activities		Business-typ	be Activities	Total		
	2012	Restated 2011	2012	Restated 2011	2012	Restated 2011	
Assets							
Current and other assets	\$ 34,163,821	\$ 34,303,428	\$ (154,751)	\$ (182,127)	\$34,009,070	\$34,121,301	
Capital assets, net	34,644,483	35,753,588	109,865	130,266	34,754,348	35,883,854	
Total assets	68,808,304	70,057,016	(44,886)	(51,861)	68,763,418	70,005,155	
Liabilities							
Current liabilities	16,239,776	17,940,744	36,293	55,287	16,276,069	17,996,031	
Long-term liabilities	29,018,047	30,015,107	63,190	54,734	29,081,237	30,069,841	
Total liabilities	45,257,823	47,955,851	99,483	110,021	45,357,306	48,065,872	
Net assets							
Invested in capital assets,							
net of related debt	8,373,342	9,202,452	109,865	130,266	8,483,207	9,332,718	
Restricted	2,614,797	2,790,289	-	-	2,614,797	2,790,289	
Unrestricted (deficit)	12,562,342	10,108,424	(254,234)	(292,148)	12,308,108	9,816,276	
Total net assets (deficit)	\$ 23,550,481	\$ 22,101,165	\$ (144,369)	\$ (161,882)	\$23,406,112	\$21,939,283	

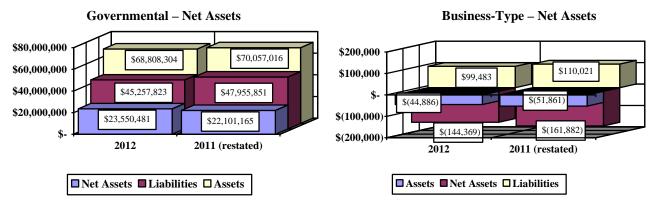

Capital assets for 2011 have been restated due to a reappraisal of the District's capital assets which was performed in 2012 and to correct for errors and omissions in the amounts previously reported. Current and other assets of governmental activities remained consistent from the prior year. Long-term liabilities of governmental activities decreased by \$997,060 primarily due to the payment of principal on general obligation bonds coupled with no new debt issuances in fiscal year 2012. Current liabilities of governmental activities decreased primarily due to the decrease in unearned revenue from the prior year in the amount of \$1,239,072 related to current taxes receivable.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

Over time, net assets can serve as a useful indicator of a government's financial position. At June 30, 2012, the District's assets exceeded liabilities by \$23,406,112. Of this total, \$2,614,797 is restricted in use.

At year-end, capital assets represented 50.54% of total assets. Capital assets include land, construction in progress, land improvements, buildings and improvements, furniture, fixtures and equipment, vehicles and textbooks. Invested in capital assets, net of related debt to acquire the assets at June 30, 2012, were \$8,483,207. These capital assets are used to provide services to the students and are not available for future spending. Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources to repay the debt must be provided from other sources, since capital assets may not be used to liquidate these liabilities.

A portion of the District's net assets, \$2,614,797, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net assets is \$12,308,108. The graphs below show the assets, liabilities and net assets of the governmental activities and business-type activities at June 30, 2012 and 2011 (as restated – See Note 3.C).

The negative asset balances for the business-type activities are the result of internal balances due to interfund loans made from the governmental activities to the business-type activities to support operations.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

The table below shows the changes in net assets for fiscal year 2012 and 2011.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

Governmental Activities

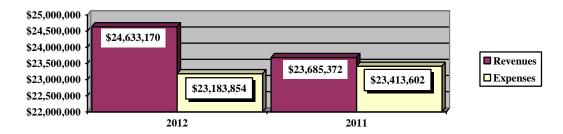

During fiscal year 2012, the District had a reappraisal of its capital assets and corrected errors and omissions in the amounts previously reported which resulted in a restatement of net assets at the beginning of the year (see Note 3.C for further detail). For fiscal year 2012, the net assets of the District's governmental activities increased \$1,449,316. Total governmental expenses of \$23,183,854 were offset by program revenues of \$1,766,890 and general revenues of \$22,866,280. Program revenues supported 7.62% of the total governmental expenses. Program revenues decreased \$617,120 or 25.89% due to decreased program revenues revenue in the IDEA Part B fund of \$281,434, the education stabilization fund of \$158,867, and Title I disadvantaged children fund of \$136,310. American Reinvestment and Recovery Act (ARRA) grant funding for 2011 was not available to the District again in fiscal year 2012. The decrease in this federal funding source contributed to the decrease in operating grants and contributions.

General revenues increased approximately \$1.5 million primarily due to the fluctuations in the amount of delinquent taxes receivable at year-end. The delinquent taxes receivable at June 30, 2012, 2011 and 2010 were \$846,183, \$65,370 and \$1,188,177, respectively. On the accrual basis of accounting, delinquent taxes receivable are recorded as revenue while on the fund statements they are reported as deferred revenue. The fluctuation between years is primarily responsible for the variance in general tax revenues.

Governmental activities expenses remained consistent with prior year, decreasing \$229,748, or 0.98% from the prior year.

The graph below presents the District's governmental activities revenue and expenses for fiscal year 2012 and 2011.

Governmental Activities - Revenues and Expenses

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. The following table shows, for governmental activities, the total cost of services and the net cost of services for 2012 and 2011. That is, it identifies the cost of these services supported by tax revenue and unrestricted State grants and entitlements.

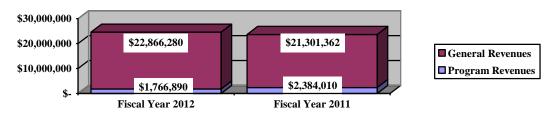

Governmental Activities

	Total Cost of Services 2012	Net Cost of Services 2012	Total Cost of Services 2011	Net Cost of Services 2011
Program expenses:				
Instruction:				
Regular	\$ 10,527,461	\$ 10,056,259	\$ 10,442,452	\$ 9,883,596
Special	2,044,031	1,639,649	2,124,180	1,469,984
Vocational	101,336	93,534	88,669	80,867
Other	26,963	24,597	24,695	22,148
Support services:				
Pupil	1,402,845	1,280,645	1,261,354	1,116,766
Instructional staff	1,227,221	1,227,221	1,406,625	1,328,983
Board of education	24,499	24,499	27,523	27,523
Administration	1,525,224	1,520,521	1,437,284	1,419,468
Fiscal	808,236	798,261	857,173	838,924
Business	15,108	15,108	20,454	20,454
Operations and maintenance	1,848,672	1,743,392	1,952,349	1,716,711
Pupil transportation	598,342	527,878	630,610	609,069
Central	703,144	694,823	602,701	597,441
Operation of non-instructional services:				
Other non-instructional services	440,844	2,478	567,715	46,732
Extracurricular activities	546,593	424,764	556,263	437,371
Interest and fiscal charges	1,343,335	1,343,335	1,413,555	1,413,555
Total expenses	\$ 23,183,854	\$ 21,416,964	\$ 23,413,602	\$ 21,029,592

The dependence upon tax revenues during fiscal year 2012 for governmental activities is apparent, as 93.05% of 2012 instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support is 92.38%. The District's taxpayers and unrestricted grants and entitlements from the State of Ohio, are the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2012 and 2011.

Governmental Activities - General and Program Revenues

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

Business-type Activities

Business-type activities include day care, preschool and after school programs and the food service operation. These programs had revenues of \$1,158,724 and expenses of \$1,141,211 for fiscal year 2012. Management reviews these programs to develop policies to allow these services to become self supporting. During fiscal year 2012, the District had a reappraisal of its capital assets and corrected errors and omissions in the amounts previously reported which resulted in a restatement to net assets of the business-type activities at June 30, 2011 (see Note 3.C).

The District's Funds

The District's governmental funds (as presented on the balance sheet on page 18) reported a combined fund balance of \$16,790,116, which is more than last year's fund total of \$15,969,647.

The schedule below indicates the fund balance and the total change in fund balance as of June 30, 2012 and 2011.

	Fund Balance	Fund Balance	Increase
	<u>June 30, 2012</u>	<u>June 30, 2011</u>	(Decrease)
General	\$ 14,045,271	\$ 13,017,602	\$ 1,027,669
Bond retirement	2,471,773	2,457,586	14,187
Other governmental	273,072	494,459	(221,387)
Total	\$ 16,790,116	\$ 15,969,647	\$ 820,469

General Fund

The District's general fund balance increased \$1,027,669, which is primarily due to a decrease of \$640,383 in transfers to other funds during fiscal year 2012.

The table that follows assists in illustrating the financial activities and fund balance of the general fund.

	2012 Amount	2011 Amount	Increase (Decrease)	Percentage Change	
Revenues					
Property taxes	\$ 15,013,527	\$ 14,993,555	\$ 19,972	0.13 %	
Intergovernmental	4,495,505	4,939,436	(443,931)	(8.99) %	
Investment earnings	112,348	118,106	(5,758)	(4.88) %	
Tuition and fees	394,839	320,166	74,673	23.32 %	
Other revenues	274,412	233,561	40,851	17.49 %	
Total	\$ 20,290,631	\$ 20,604,824	\$ (314,193)	(1.52) %	

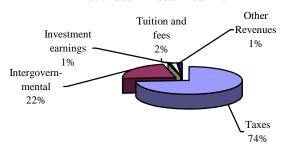

Tuition and fees increased \$74,673 or 23.32% from fiscal 2011 due to more open enrollment tuition revenue received in 2012. Intergovernmental revenue decreased \$443,931 primarily due to lower funding received from the State of Ohio. All other revenue remained comparable to 2011.

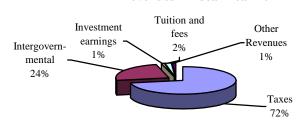

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

The graphs below show the District's revenues, by source, for fiscal year 2012 and 2011:

Revenues - Fiscal Year 2012

Revenues – Fiscal Year 2011

The table that follows assists in illustrating the expenditures of the general fund.

	2012 Amount	2011 Amount	Increase (Decrease)	Percentage <u>Change</u>	
Expenditures					
Instruction	\$ 10,784,860	\$ 10,754,271	\$ 30,589	0.28 %	
Support services	7,587,943	7,433,796	154,147	2.07 %	
Operation of non-instructional services	172	446	(274)	(61.43) %	
Extracurricular activities	437,487	454,589	(17,102)	(3.76) %	
Total	\$ 18,810,462	\$ 18,643,102	\$ 167,360	0.90 %	

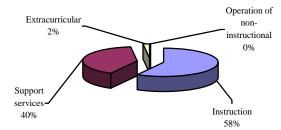

Due to the District's tight cost control policy expenditures only increased 0.90%. All expenditures remained consistent with 2011.

The graphs below show the District's expenditures, by functional area, for fiscal year 2012 and 2011:

Expenditures - Fiscal Year 2012

Extracurricular 2% Support Services 40% Instruction 58%

Expenditures – Fiscal Year 2011

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund.

Throughout fiscal year 2012, the District routinely made amendments to the general fund budget. These amendments were necessary to accompany initiatives that were established and needed funding throughout the fiscal year. The District uses a modified site-based budgeting technique which is designed to tightly control total site budgets, but also provide flexibility for site management.

For the general fund, the final budgeted revenue and other financing sources was \$20,690,388. The original budgeted revenue and other financing sources was \$19,870,644. Actual revenue and other financing sources was \$20,688,388. The only difference between the final budgeted revenues and other financing sources and the actual revenues and other financing sources was \$2,000 in interest revenues.

Total actual expenditures and other financing uses on the budget basis (cash outlays plus encumbrances) were \$19,873,504. This amount was \$255,519 more than the final budgeted amounts, of this amount \$257,019 was for advances out which are not required to be budgeted. The final budgeted expenditures and other financing uses were decreased \$89,839 from the original budgeted amounts. Overall, fund balance on the budget basis increased \$814,884 over the prior year.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal 2012, the District had \$34,754,348 invested in land, land improvements, buildings and improvements, furniture, fixtures and equipment, vehicles and textbooks. Of this total, \$34,644,483 was reported in governmental activities and \$109,865 was reported in business-type activities.

For 2011, amounts have been restated due to a reappraisal of capital assets performed by the District in 2012 and to correct for errors and omissions previously reported (see Note 11). The following table shows fiscal 2012 balances compared to 2011:

Capital Assets at June 30 (Net of Depreciation)

	Governmen	Governmental Activities		pe Activities	<u>Total</u>		
	2012	Restated 2011	2012	Restated 2011	2012	Restated 2011

Textbooks	265,610	304,916			265,610	304,916	
Total	\$ 34,644,483	\$ 35,753,588	\$ 109,865	\$ 130,266	\$ 34,754,348	\$ 35,883,854	

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

Overall capital assets, net of accumulated depreciation, decreased \$1,129,506 from fiscal year 2011 to fiscal year 2012. Depreciation expense of \$1,373,537 exceeded capital outlays of \$244,031 during the year. See Note 11 to the basic financial statements for more detail on the District's capital assets.

Debt Administration

At June 30, 2012, the District has \$25,980,773 in long-term bonds outstanding. Of this total, \$620,773 is due within one year and \$25,360,000 is due within greater than one year. The following table summarizes outstanding long-term debt:

Outstanding Debt, at Year End

	Governmental	Governmental
	Activities	Activities
Long Term Debt:	2011	2011
Series 2005 - Refunding Library improvement bonds	\$ 805,000	\$ 1,245,000
Series 2005 - School improvement bonds	25,175,773	25,379,993
Total	\$ 25,980,773	\$ 26,624,993

Payments of principal and interest on the general obligation bonds are made from the bond retirement fund. See Note 15 to the basic financial statements for more detail on the District's long-term obligations.

Current Financial Related Activities

As the preceding information shows, the District heavily depends on its property taxpayers. In the November 2012 election, the voters of the District renewed the District's emergency levy that was last renewed in May of 2008. Prior to the renewal, the last full collection year for this levy was scheduled to be in calendar year 2013. The passage of the renewal allowed the District to avoid a decrease in revenue.

During calendar year 2009, Cuyahoga County conducted a tri-annual update, which resulted in reductions in residential property due to the District's average appraised residential property ratio in Fairview Park being 105% of the market value on the average residential property sale reported in 2008. The County decreased residential property values by 9% to bring the Fairview Park average appraised residential property ratio closer to Ohio Department of Taxation (ODT) recommended range.

The ODT states on their website that "Under guidelines established by the International Association of Assessment Officers (IAAO), the median ratio should be between 90% and 110% for taxable values to best reflect actual market conditions. In practice, the ODT aims to have the ratios in the year of reappraisal or triennial update to be at least 90% and, preferably, in the 92% – 94% percent range." The property values adjustments needed to bring the Fairview Park average appraised residential property ratio within this range resulted in a 9% decrease in values from the previous value.

Even with the reset of property values that occurred in calendar year 2009, subsequent residential sales data for calendar year 2009, 2010 and 2011 hat has been obtained from the ODT website, reveals that median ratios for the District have continued to increase and remain higher than the ODT targets. The 3.13% decrease in residential property values that the District will experience due to calendar year 2012 property re-appraisal is anticipated to bring this ratio closer to the target range.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2012 (UNAUDITED)

In the last three years, the State of Ohio has dramatically changed its public education funding formula three times. Most recently, state legislators passed House Bill (H.B.) 153, which eliminated the Ohio Evidence Based Model funding formula and was replaced with a "bridge" formula. This bridge formula is a temporary mechanism that will be used until the State has the opportunity to develop a permanent funding formula. According to the Ohio of Budget and Management (OBM), under the H.B. 153 bridge formula, the District received a 16.45% reduction in basic state aid in fiscal year 2012 and there will be no change in state basic aid for fiscal year 2013 from fiscal year 2012. The Governor had publicly stated that his office would introduce a new funding formula by January 1, 2012 to be implemented in fiscal year 2013 that will be performance-based. However, subsequent legislation was introduced by the Governor and approved by the House and Senate that postponed the release of the new funding formula until July 1, 2013. Due to the lack of information regarding the new funding formula from Governor Kasich, it is very unclear how much and in what form the District will receive in State funding for fiscal years past fiscal year 2013.

The State "hold harmless" reimbursements for Tangible Personal Property Tax (TPPT) revenue are posted to the Property Tax Allocation function. Since the Tangible Personal Property accelerated phase out would have a significant impact on school districts and other local governments, H.B. 66 replaced the revenue lost due to the phasing-out of the tax with "hold harmless" reimbursements for the first five years and then phased out the reimbursements in the following seven years. H.B. 1 changed the reimbursement schedule by freezing the reimbursement level at fiscal year 2011 levels through fiscal year 2014, however, H.B. 153 applies a new formula to calculate the reimbursement payments. Based on this new formula, the District lost all of its reimbursement payments from the state after fiscal year 2011.

The District was one of the few remaining that still received the Electric Deregulation Reimbursement, which was established in fiscal year 2003. Under prior law, a district would receive the reimbursement as long as funding growth in state education aid from fiscal year 2002 to the current fiscal year is less than the inflation adjusted property tax loss (determined by the State). H.B. 1 changed the law pertaining to this reimbursement and held the deregulation reimbursement at the fiscal year 2009 level for fiscal year 2010 and 2011. It was assumed that this reimbursement would return to the previous phase out schedule in fiscal year 2012 and be completely eliminated in fiscal year 2016. However, under H.B. 153, this reimbursement follows the same formula as the TPPT reimbursement noted above. A result, the Electric Deregulation Reimbursement was completely eliminated for the District after fiscal year 2011.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have any questions about this report or need additional information contact: Ryan Ghizzoni, Treasurer/CFO at Fairview Park City Schools, 21620 Mastick Road, Fairview Park, Ohio 44126.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2012

Net change in fund balances - total governmental funds		\$	820,469
Amounts reported for governmental activities in the statement of activities are different because:			
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the costs of those assets are allocated over their useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period. Capital asset additions Current year depreciation Total	\$ 244,031 (1,353,136)	-	(1,109,105)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. Delinquent property tax revenue Earnings on investments Transportation fees Other local revenue Intergovernmental revenue Total	780,813 (11,787) 1,742 1,381 (236,879)		535,270
Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net assets.			1,210,000
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities: Decrease in accrued interest payable Accreted interest on capital appreciation bonds Amortization of bond issuance costs Amortization of bond premiums Total	11,611 (206,632) (49,807) 75,775		(169,053)
Some expenses reported in the statement of activities, such as compensated absences and retirement incentives, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. Compensated absences			160,203
An internal service fund used by management to charge the costs of insurance to individual funds is not reported in the statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities.			1,532
Change in net assets of governmental activities		\$	1,449,316

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 1 - DESCRIPTION OF THE DISTRICT AND THE REPORTING ENTITY

The Fairview Park City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District is located in Fairview Park, Ohio, Cuyahoga County. The District operates under a locally elected five-member Board form of government and provides educational services as mandated by State and/or federal agencies. The Board of Education controls the District's instructional/support facilities staffed by 68 classified employees, 119 certificated full-time teaching personnel, and 15 administrators who provide services to 1,736 students and other community members.

The Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "<u>The Financial Reporting Entity</u>" as amended by GASB Statement No. 39, "<u>Determining Whether Certain Organizations Are Component Units</u>". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Within the District's boundaries the elementary schools of St. Angela Merici, Messiah Lutheran, and Murton's Child Development Center operate as non-public schools. Current State legislation provides funding to these schools. These monies are received and distributed on behalf of the schools by the Treasurer/ CFO of the District as directed by the schools. The activity of these State monies by the District is reflected in a special revenue fund for financial reporting purposes.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary governments financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 1 - DESCRIPTION OF THE DISTRICT AND THE REPORTING ENTITY - (Continued)

The following organizations are described due to their relationship to the District.

JOINTLY GOVERNED ORGANIZATIONS

North Coast Council

The District is a member of the North Coast Council (NCC) which was formed when the Lakeshore Northeast Ohio Computer Association and the Lake Erie Educational Computer Association merged during fiscal year 2012. NCC was organized for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among 34 member districts. Each of the governments of these schools supports the NCC based on a per pupil charge. The District contributed \$78,918 to NCC during fiscal year 2012. NCC is governed by a nine member Board of Directors consisting of superintendents from member school districts. Financial information can be obtained by contacting the Treasurer at the Cuyahoga County Board of Education, who serves as fiscal agent, at 5700 West Canal Road, Valley View, Ohio 44125.

Polaris Career Center

The Polaris Career Center is a separate body politic and corporate, established by the Ohio Revised Code to provide for the vocational and special needs of the students. The Board of Education consists of representatives from the Board of each participating school district, independent of the District. The Board is responsible for approving its own budgets, appointing personnel, and accounting and finance related activities. District students may attend the vocational school. Each school district's control is limited to its representation on the Board. Financial information may be obtained by contacting the Polaris Career Center, 7285 Old Oak Blvd., Middleburg Heights, Ohio 44130.

Ohio Schools' Council Association

The Ohio Schools Council (Council) is a jointly governed organization among 126 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2012, the District paid \$1,330 to the Council (including participation fees and purchases through the natural gas purchase program). Financial information can be obtained by contacting Dr. David A. Cottrell, the Executive Director of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 1 - DESCRIPTION OF THE DISTRICT AND THE REPORTING ENTITY - (Continued)

The District participates in the natural gas purchase program. This program allows the District to purchase natural gas at reduced rates. Energy USA served as the natural gas supplier and program manager from October 1, 2008 to September 30, 2010. Compass Energy has been selected as the new supplier and program manager for the period from October 1, 2010 through March 31, 2013. There are currently 143 participants in the program including the Fairview Park City School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

INSURANCE PURCHASING POOL

Southwestern Ohio Educational Purchasing Council Group Rating Program

The District participates in the Southwestern Ohio Educational Purchasing Council Group Rating Program (GRP), an insurance purchasing pool. The GRP is administered by Hunter Consulting Group, a partner of Progressive Compensation Risk Advisors (PROCOMP). Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) guidance issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided it does not conflict with or contradict GASB pronouncements. The District has elected not to apply FASB pronouncements and interpretations issued after November 30, 1989 to its business-type activities and enterprise funds.

The most significant of the District's accounting policies are described below.

A. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories of governmental, proprietary, and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following are the District's major governmental funds:

<u>General fund</u> -The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Bond retirement fund</u> - The bond retirement fund is used to account for and report resources that are restricted, committed or assigned to expenditure for principal and interest related to retirement of serial bonds and short term loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds or loans, shall be paid into this fund.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

PROPRIETARY FUNDS

Proprietary funds focus on the determination of operating income/loss, changes in net assets, financial position and cash flows and are classified as either enterprise or internal service.

<u>Enterprise funds</u> - Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The District's enterprise funds account for the financial transactions related to the food service operations and day care services. The District has no major enterprise funds.

<u>Internal service fund</u> - Internal service funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District on a cost-reimbursement basis. The District's internal service fund accounts for a flexible spending account for employee benefits.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private purpose trust which accounts for money set aside for two annual scholarships. The income from such a fund may be expended, but the principal must remain intact. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds are student activities, District agency and workers' compensation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

B. Basis of Presentation

The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

<u>Government-wide Financial Statements</u> - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

<u>Fund Financial Statements</u> - Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of fund assets. The statement of revenues, expenses and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

The fiduciary funds are reported using the economic resources measurement focus. Agency funds do not report a resources measurement focus as they do not report operations.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences between the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

<u>Revenues - Exchange and Non-Exchange Transactions</u> - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, student fees and rentals.

<u>Unearned Revenue and Deferred Revenue</u> - Unearned revenue and deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Property taxes for which there is an enforceable legal claim as of June 30, 2012, but which were levied to finance fiscal year 2013 operations, and other revenues received in advance of the fiscal year for which they are intended to finance, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met and delinquent property taxes due at June 30, 2012 are recorded as deferred revenue in the governmental funds.

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

<u>Expenses/Expenditures</u> - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

D. Equity in Pooled Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds, including proprietary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

During fiscal year 2012, investments included Federal Home Loan Bank (FHLB) bonds, Federal Home Loan Mortgage Corporation (FHLMC) bonds, Federal National Mortgage Association (FNMA) bonds, FNMA notes, U.S. Government treasury bills and notes, commercial paper, negotiable certificates of deposit, U.S. Government money market mutual funds, nonnegotiable certificates of deposit and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as nonnegotiable certificates of deposit, are reported at cost.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2012.

Following Ohio statutes, the Board of Education has specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2012 amounted to \$112,348 which includes \$23,276 assigned from other funds.

For presentation on the financial statements, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months that are not purchased from the pool are reported as investments.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

E. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expensed when used. Inventories are accounted for using the consumption method.

Inventory consists of expendable supplies held for consumption, donated food and purchased food.

F. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the assets or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental	Business-Type
	Activities	Activities
<u>Description</u>	Estimated Lives	Estimated Lives
Land improvements	10-30 years	N/A
Buildings and improvements	10-50 years	N/A
Furniture, fixtures and equipment	5-15 years	5-15 years
Vehicles	8-10 years	N/A
Textbooks	7 years	N/A

G. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable/payable". These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances. The District's policy of internal service activity in the government-wide statement of activities indicates that interfund services provided and used are eliminated in the process of consolidation and any residual balance of the internal service activity is allocated on a pro-rata basis to the activities and functions participating in the internal service fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

H. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. The District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service and salary related payments, if applicable.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy. The District records a liability for accumulated unused sick leave for classified, certified, and administrative employees after eight years of current service with the District.

The entire compensated absences liability is reported on the government-wide statements.

For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

I. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, compensated absences and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current expendable available financial resources. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

J. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

<u>Nonspendable</u> - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

<u>Restricted</u> - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes, but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

K. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

L. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charges for food service, fees for day care service, and charges for a flexible benefits plan for employees. Operating expenses are necessary costs incurred to provide the goods or services that are the primary activity of the fund. Revenues and expenses not meeting this definition are reported as non-operating.

M. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

N. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the District and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2012.

O. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

P. Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents are the tax budget, the appropriation resolution, and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate in effect at the time the final appropriations were passed prior to fiscal year end.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Q. Unamortized Bond Issuance Costs and Bond Premiums

On government-wide financial statements, issuance costs are deferred and amortized over the term of the bonds using the straight-line method. Unamortized issuance costs are recorded as a separate line item on the statement of net assets.

Bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds.

On the governmental fund financial statements, issuance costs and bond premiums are recognized in the current period. The reconciliation between the bonds face value and the amount reported on the statement of net assets is presented in Note 15.

R. Budget Stabilization Arrangement

The District has established a budget stabilization reserve in accordance with authority established by State law. Additions to the budget stabilization reserve can only be made by formal resolution of the Board of Education. Expenditures out of the budget stabilization reserve can only be made to offset future budget deficits. At June 30, 2012, the balance in the budget stabilization reserve was \$373,830. This amount is included in unassigned fund balance of the general fund and in unrestricted net assets on the statement of net assets.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2012, the District has implemented GASB Statement No. 57, "OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans", and GASB Statement No. 64, "Derivative Instruments: Application of Hedge Accounting Termination Provisions - an Amendment of GASB Statement No. 53".

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

GASB Statement No. 57 addresses issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other postemployment benefit (OPEB) plans. The implementation of GASB Statement No. 57 did not have an effect on the financial statements of the District.

GASB Statement No. 64 clarifies the circumstances in which a hedge accounting should continue when a swap counterparty, or a swap counterparty's credit support provider, is replaced. The implementation of GASB Statement No. 64 did not have an effect on the financial statements of the District.

B. Deficit Fund Balances/Net Assets

Fund balances/Net Assets at June 30, 2012 included the following individual fund deficits:

Nonmajor governmental funds	<u>Deficit</u>
Title I	\$ 4,961
Nonmajor enterprise funds Day care services	244,632
Internal service fund	
Employee flex benefits plan	4,055

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

C. Restatement of Net Assets

During fiscal year 2012, the District had a reappraisal of its capital assets and corrected for errors and omissions in the amounts previously reported. These adjustments had the following effect on net assets as previously reported:

	 Governmental Activities	siness-Type Activities	Nonmajor Enterprise Funds
Net assets (deficit), June 30, 2011 Adjustment to capital assets	\$ 21,846,909 254,256	\$ (282,970) 121,088	\$ (282,970) 121,088
Restated net assets (deficit), July 1, 2011	\$ 22,101,165	\$ (161,882)	\$ (161,882)

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in such securities described are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash on Hand

At June 30, 2012, the District had \$100 in undeposited cash on hand, which is included on the financial statements of the District as part of "equity in pooled cash and investments".

B. Deposits

At June 30, 2012 the carrying amount of the District's deposits was \$5,931,707, including \$1,513,621 in non-negotiable certificate of deposits. Based on criteria described in GASB Statement No. 40, *Deposits and Investments Risk Disclosures*, as of June 30, 2012, \$3,098,318 of the District's \$6,255,068 bank balance was covered by Federal Depository Insurance (FDIC) and \$3,156,750 was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

C. Investments

As of June 30, 2012, the District had the following investments and maturities:

		Investment Maturities				
		6 months or	7 to 12	13 to 18	19 to 24	Greater than
Investment type	Fair Value	less	months	months	months	24 months

	\$ 14,413,681	\$ 7,536,569	\$ 1,408,815	\$ 1,830,658	\$ 914,835	\$ 2,722,804

The weighted average maturity of investments is 1.10 years.

The District has a formal investment policy. The District follows GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, and records all its investments at fair value. At June 30, 2012, the increase in fair value of investments was \$34,795 which is reported as investment earnings on the financial statements. Fair value is determined by quoted market prices and acceptable other pricing methodologies.

D. Interest Rate Risk

As a means of limiting its exposure to fair value of losses caused by rising interest rates, the District's investment policy requires that operating funds be invested primarily in short-term investments maturing within five years from the date of purchase and that the District's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments. The stated intent of the policy is to avoid the need to sell securities prior to maturity.

E. Credit Risk

The District's investments in federal agency and U.S. Treasury securities were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. The District's investments in U.S. Government money market mutual funds and STAR Ohio were rated AAAm by Standard & Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District has no investment policy that would further limit the investment choices.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

F. Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities, U.S Treasury securities and commercial paper are exposed to custodial credit risk in that they are uninsured, unregistered, and held by the counterparty's trust department or agent but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

G. Concentration of Credit Risk

The District places no limit on the amount it may invest in any one issuer. The District's investments in federal agency securities, U.S. Treasury bills and notes and U.S. government money market mutual funds represent 55.14 percent of the District's total investments. All other investments not explicitly guaranteed by the U.S. government are 44.86 percent of the District's total investments.

Investments at year end were as follows:

<u>Investment type</u>	Fair Value	% of Total
FHLB Bonds	\$ 2,713,357	18.82
FNMA Notes	508,355	3.53

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

H. Reconciliation of Cash and Investments to the Statement of Net Assets

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net assets as of June 30, 2012:

20,345,488

Cash and investments per note		
Carrying amount of deposits	\$	5,931,707
Investments		14,413,681
Cash on hand	_	100
Total	\$	20,345,488
Cash and investments per statement of net assets		
Governmental activities	\$	16,293,307
Business-type activities		20,575
Private-purpose trust fund		3,648,776
Agency fund		382,830

NOTE 5 - INTERFUND TRANSFERS AND BALANCES

A. Interfund Transfers

Total

During fiscal year 2012, interfund transfers were as follows:

Transfers from general fund to:

Nonmajor governmental funds \$ 452,500

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The transfer above was made from the general fund to the Permanent Improvement fund (a nonmajor governmental fund).

Interfund transfers between governmental funds are eliminated on the government-wide financial statements; therefore, no transfers are reported on the statement of activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 5 - INTERFUND TRANSFERS AND BALANCES - (Continued)

B. Interfund Balances

Interfund balances on fund financial statements at June 30, 2012 consist of the following:

Receivable fund	Payable fund		Amount_
General fund	Nonmajor governmental funds	\$	68,498
General fund	Nonmajor enterprise funds		183,532
General fund	Internal service fund	_	4,989
Total		<u>\$</u>	257,019

The primary purpose of interfund balances is to cover costs in a specific fund where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received.

Interfund balances between governmental funds and the internal service fund are eliminated on the government-wide financial statements. Interfund balances between governmental funds and enterprise funds are reported as "internal balance" on the statement of net assets.

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2012 represent the collection of calendar year 2011 taxes. Real property taxes received in calendar year 2012 were levied after April 1, 2011, on the assessed values as of January 1, 2011, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2012 represent the collection of calendar year 2011 taxes. Public utility real and personal property taxes received in calendar year 2012 became a lien on December 31, 2010, were levied after April 1, 2011, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Cuyahoga County. The County Auditor periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2012, are available to finance fiscal year 2012 operations. The amount available as an advance at June 30, 2012 was \$2,016,745 in the general fund and \$284,719 in the bond retirement fund. This amount is recorded as revenue. The amount available for advance at June 30, 2011 was \$2,273,630 in the general fund and \$321,510 in the bond retirement fund. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 6 - PROPERTY TAXES - (Continued)

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2012 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to unearned revenue.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been deferred.

The assessed values upon which the fiscal year 2012 taxes were collected are:

	2011 Second Half Collections		2012		2012 Fir Half Collec	12 1 1100	
		Amount	Percent		Amount	Percent	
Agricultural/residential and other real estate	\$	356,225,970	99.00	\$ 3	50,580,950	98.95	
Public utility personal		3,580,770	1.00		3,709,930	1.05	
Total	\$	359,806,740	100.00	\$ 3	54,290,880	100.00	
Tax rate per \$1,000 of assessed valuation	\$	97.27		\$	97.60		

NOTE 7 - RECEIVABLES

Receivables at June 30, 2012 consisted of property taxes, accounts (rent and billings for user charged services), accrued interest, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds.

A summary of the principal items of receivables reported on the statement of net assets follows:

Governmental activities:

Property taxes	\$ 17,506,927
Accounts	65,431
Intergovernmental	83,988
Accrued interest	 30,636
Total governmental activities	\$ 17,686,982

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 8 - RISK MANAGEMENT

A. Property and Liability

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. In order to minimize these components of risk, the District has obtained a number of insurance packages.

The Argonaut Insurance Company, through the Governmental Underwriters of America, Inc., provides building and personal property insurance as well as commercial inland marine insurance. The Argonaut Insurance Company, through the Governmental Underwriters of America, Inc.,, also provides public employee dishonesty coverage (commercial crime coverage). The Argonaut Insurance Company, through the Governmental Underwriters of America, Inc., provides boiler and machinery insurance. The Argonaut Insurance Company, through the Governmental Underwriters of America, Inc., provides commercial general liability insurance, employer's liability insurance, employee benefits liability insurance, automobile liability insurance, and uninsured motorists insurance.

A \$100,000 public official bond for the Treasurer is maintained by Travelers Casualty and Surety Company of America Insurance Company. Other employees handling money are also covered by performance bonds provided by Travelers Casualty and Surety Company of America Insurance Company. During fiscal year 2012, the District had the following coverage in effect:

		Coverage
<u>Company</u>	Type of Coverage	<u>Amount</u>
Argonaut Insurance	Building and Contents (\$1,000 deductible)	\$73,423,149
Argonaut Insurance	Extra Expense Coverage	1,000,000
Argonaut Insurance	Boiler and machinery (\$1,000 deductible)	73,423,149
Cincinnati Insurance	Crime Insurance (\$1,000 deductible)	250,000
Argonaut Insurance	Vehicles (\$1,000 deductible)	5,000,000
Argonaut Insurance	General Liability (per occurance)	1,000,000
Argonaut Insurance	General Liability (aggregate)	3,000,000
Argonaut Insurance	Uninsured Motorist (per occurance)	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There has been no change from prior year coverage.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 8 - RISK MANAGEMENT - (Continued)

B. Workers' Compensation

The District participated in the PROCOMP Management Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool for calendar year 2012 (Note 1). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "equity pooling fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to districts that can meet the GRP's selection criteria. The firm of PROCOMP Management provides administrative, cost control, and actuarial services to the GRP.

C. Group Medical, Dental, and Life Insurance

During fiscal year 2012, the District provided employees with medical, dental and life insurance coverage through fully insured plans. The entire risk of loss transfers to the commercial carrier upon payment of the premium.

Medical coverage was provided through Medical Mutual. For full-time certified employees and administrators, the District paid 88% of the monthly premium. The District's required monthly premium for single, two-person and family coverage was \$395, \$750 and \$1,303, respectively, in fiscal year 2012. For full-time classified employees, the District paid 92.32% of the monthly premium. The District's required monthly premium for single, two-person and family coverage was \$414, \$787 and \$1,368, respectively, in fiscal year 2012. For part-time classified employees, who are eligible for coverage, the District's portion of the monthly insurance premium varied depending upon the number of hours worked per day by the employee. For day care employees, the District paid 100% of the monthly cost of coverage which, for a single individual, was \$449 in fiscal year 2012.

Dental coverage was provided through MetLife. For full-time certified employees and administrators, the District paid over 87% of the single monthly premium, over 93% for two-person coverage and over 96% of the family monthly premium. The District's required monthly premium for single, two-person and family coverage was \$33.33, \$64.83 and \$112.54, respectively, in fiscal year 2012. For full-time classified employees and administrators, the District paid over 87% of the single monthly premium, over 93% for two-person coverage and over 96% of the family monthly premium. The District's required monthly premium for single, two-person and family coverage was \$33.33, \$64.83 and \$112.54, respectively, in fiscal year 2012. For part-time classified employees, who are eligible for coverage, the District's portion of the monthly insurance premium varied depending upon the number of hours worked per day. Day care employees were not eligible for dental coverage.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 8 - RISK MANAGEMENT - (Continued)

Life insurance coverage was provided through MetLife. Classified and certified employees received \$50,000 in coverage with the District paying 100% of the monthly premium which was \$7 for fiscal year 2011. Administrators received \$125,000 in coverage with the District paying 100% of the monthly premium which was \$17 for fiscal year 2011. Day care employees received \$12,500 in coverage with the District paying 100% of the monthly premium which was \$2 for fiscal year 2012.

NOTE 9 - EMPLOYEE BENEFITS

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws.

A. Vacation Leave

Only administrative and school support personnel accumulate annual vacation leave. Accumulated unused vacation time is paid upon termination of employment.

School support personnel accumulate annual vacation leave as follows:

Completed Service	Vacation Leave
After 1 year	2 weeks
6 thru 9 years	3 weeks
10 thru 24 years	4 weeks
25 or more years	5 weeks

Administrative personnel accumulate 20 days vacation leave. The Superintendent and Treasurer's vacation accumulation is dictated by their contracts.

B. Sick Leave

Each professional staff member is entitled to fifteen (15) days sick leave with pay for each year under contract. The sick leave accrues at the rate of one and one fourth (1- 1/4) days for each calendar month under contract. Upon retirement, an administrative or certified employee receives payment for 25% of their accumulated but unused sick leave balance up to a maximum of 40 days. Upon retirement, a classified employee receives payment for 50% of their accumulated but unused sick leave up to a maximum of 80 days.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 9 - EMPLOYEE BENEFITS - (Continued)

C. Retirement Incentive

In place of the "1/4 and 40 day" limitation, administrators and certified employees electing to retire in their first year of eligibility who meet the eligibility requirements for retirement with either: a) twenty-five years of service and age 55 or over, b) five years of service and age 60 or over, or c) any age with thirty years of service shall be eligible for an extended severance pay benefit. This extended severance pay benefit shall be equal to the employee's daily rate of pay times 100 percent of the employee's first 165 days for both certified and classified employees of accrued but unused sick leave. The extended severance pay benefit is only available for employees on step 14 or higher of the salary schedule at the time of retirement and the 165 days of payment is reduced to 82.5 days for employees who are on step 14 to 18 at the date of retirement. Payment of the extended severance pay benefit will be made in two equal installments. The first payment will be made on or after January 1st and no later than January 15th of the year following retirement, and the second payment will be made between January 1st and January 15th of the second year following retirement. All liabilities related to retirement incentives were paid to employees in fiscal year 2012. There is no remaining liability for retirement incentives at June 30, 2012.

NOTE 10 - OTHER COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

<u>Fund</u>	Year-En	d Encumbrances
General fund	\$	198,917
Other governmental		158,593
Total	\$	357,510

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 11 - CAPITAL ASSETS

Governmental Activities

During fiscal year 2012, the District had a reappraisal of its capital assets and corrected for errors and omissions in the amounts previously reported (see Note 3.C). The adjustments had the following effect on the District's governmental activities capital asset balances:

Governmental activities:	Balance June 30, 2011	Adjustments	Restated Balance July 1, 2011

All depreciation expense was charged to the food service fund (a nonmajor enterprise fund).

NOTE 12 - PENSION PLANS

A. School Employees Retirement System

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "Employers/Audit Resources".

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2012, 12.65 percent and 0.05 percent of annual covered salary was the portion used to fund pension obligations and death benefits, respectively. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations and death benefits to SERS for the fiscal years ended June 30, 2012, 2011 and 2010 were \$430,132, \$376,676 and \$384,228, respectively; 100 percent has been contributed for fiscal years 2012, 2011 and 2010.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 12 - PENSION PLANS - (Continued)

B. State Teachers Retirement System of Ohio

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio website at www.strsoh.org, under "Publications".

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For fiscal year 2012, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2012, 2011 and 2010 were \$1,222,636, \$1,199,772 and \$1,229,619, respectively; 100 percent has been contributed for fiscal years 2012, 2011 and 2010. Contributions to the DC and Combined Plans for fiscal year 2012 were \$30,694 made by the District and \$21,925 made by the plan members.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 13 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Plan Description - The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Section 3309.69 of the Ohio Revised Code. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2011 (latest information available) was \$96.40 for most participants, but could be as high as \$369.10 per month depending on their income and the SERS' reimbursement to retirees was \$45.50. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "Employers/Audit Resources".

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For 2012, 0.55 percent of covered payroll was allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the statewide SERS-covered payroll for the health care surcharge. For fiscal year 2012, the actuarially determined amount was \$35,800.

Active members do not contribute to the postemployment benefit plans. The Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2012, 2011 and 2010 were \$80,392, \$89,065 and \$60,113, respectively; 100 percent has been contributed for fiscal years 2012, 2011 and 2010.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2012, this actuarially required allocation was 0.75 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2012, 2011, and 2010 were \$25,401, \$24,240 and \$22,849, respectively; 100 percent has been contributed for fiscal years 2012, 2011 and 2010.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 13 - POSTEMPLOYMENT BENEFITS - (Continued)

B. State Teachers Retirement System of Ohio

Plan Description - The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org, under "Publications" or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2012, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2012, 2011 and 2010 were \$94,049, \$92,290 and \$94,586, respectively; 100 percent has been contributed for fiscal years 2012, 2011 and 2010.

NOTE 14 - CONTINGENCIES

A. Grants and ADM

The Auditor of State is currently performing a statewide review of supporting documentation for student attendance data reported to the Ohio Department of Education. The results of this review are still pending and will be reported separately to the Ohio Department of Education at a later date.

The District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. This also encompasses the Auditor of State's ongoing review of student attendance data; however, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2012, if applicable, cannot be determined at this time.

B. Litigation

The District is party to legal proceedings. The District is of the opinion that ultimate disposition of claims will not have a material effect, if any, on the financial condition of the District.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 15 - LONG-TERM OBLIGATIONS

The changes in the District's long-term obligations during fiscal year 2012 were as follows:

Governmental activities: Series 2005 Refunding Library Improvement Bonds	Balance June 30, 2011	<u>Additions</u>	Reductions	Balance June 30, 2012	Amounts Due In <u>One Year</u>
Serial Bond - 3.00% - 5.00%	\$ 1,245,000	\$ -	\$ (440,000)	\$ 805,000	\$ 455,000
Series 2005 School Improvement Bonds Serial Bond - 3.00% - 5.00% Term Bonds - 5.00% Capital Appreciation Bonds - 21.981%	15,350,000 9,660,000 369,993	- - -	- (204,220)	15,350,000 9,660,000 165,773	- - 165,773
Total Bonds Payable before Deferrals	26,624,993		(644,220)	25,980,773	620,773
Deferrals for: Issuance Premiums	1,171,143		(75,775)	1,095,368	75,775
Total Bonds Payable	27,796,136		(719,995)	27,076,141	696,548
Accretion of Capital Appreciation Bonds	887,207	206,632	(565,780)	528,059	528,059
Retirement Incentive	69,269	-	(69,269)	-	-
Compensated Absences	1,262,495	274,802	(123,450)	1,413,847	420,107
Total Governmental Long-Term Obligations	30,015,107	481,434	(1,478,494)	29,018,047	1,644,714
Business-type activities: Compensated Absences	54,734	14,770	(6,314)	63,190	6,721
Total	\$ 30,069,841	\$ 496,204	\$ (1,484,808)	\$ 29,081,237	\$ 1,651,435

Compensated absences will be paid from the fund from which the employees' salaries are paid. Compensated absences will be paid from the general fund and termination benefits fund which is combined and reported with the general fund on a GAAP-basis. Retirement incentive payments were paid from the termination benefits fund which is combined and reported with the general fund on a GAAP-basis.

All bonds outstanding are general obligation bonds of the District to which the full faith and credit of the District is pledged for repayment. Payments of principal and interest relating to the general obligation bonds are recorded as expenditures in the bond retirement fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 15 - LONG-TERM OBLIGATIONS - (Continued)

Series 2005 School Improvement General Obligation Bonds

On July 20, 2005, the District issued \$28,499,993 in general obligation bonds for the purpose of constructing, adding to, renovating, furnishing, equipping and otherwise improving school facilities and improving their sites as an integral part of a cooperative project with the City of Fairview Park.

The issue is comprised of both current interest serial and term bonds, par value \$28,130,000, and capital appreciation bonds par value \$369,993. The interest rates on the current interest bonds range from 3.00 percent to 5.00 percent. On December 1, 2011, \$204,220 of the capital appreciation bonds matured at an accreted value of \$770,000. The remaining capital appreciation are schedule to mature on December 1, 2012 (effective interest rate 21.981 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bond maturing December 1, 2012 is \$770,000. Total accreted interest of \$528,059 has been included in the statement of net assets at June 30, 2012.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2033.

Series 2005 Refunding Library Improvement General Obligation Bonds

On July 20, 2005, the District issued general obligation bonds advance refund the callable portion of the Series 1995 Library Improvement General Obligation Bonds. The \$2,729,999 issuance proceeds were used to purchase U.S. government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes the debt has been considered defeased and therefore removed as a liability from the District's government-wide financial statements. As of June 30, 2012, the amount of defeased debt outstanding, but removed from the statement of net assets amounted to \$805,000.

The refunding issue is comprised of both current interest serial bonds, par value \$2,520,000, and capital appreciation bonds, par value \$209,999. The interest rate on the current interest bonds range from 3.00 percent to 5.00 percent. The capital appreciation bonds matured on December 1, 2010 (effective interest 14.276 percent) at a redemption price equal to 100 percent of the principal, plus accrued interest to the redemption date.

Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2013.

The \$805,000 balance of the Library Improvement General Obligation Bonds at June 30, 2012 is not included in the District's calculation of net assets invested in capital assets, net of related debt since the District did not acquired any capital assets related to this bond issue.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 15 - LONG-TERM OBLIGATIONS - (Continued)

Principal and interest requirements to retire general obligation bonds outstanding at June 30, 2012 are as follows:

Fiscal		Serial and T	<u>Term Bonds</u>	Capital Appreciation Bonds			Total		
Year Ending,		Principal	Interest	Principal	_	Interest	Principal	Interest

Total	\$	25,815,000	\$15,565,254	\$ 165,773	\$	604,227	\$ 25,980,773	\$16,169,481	

Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2012, are a voted debt margin of \$8,377,179 (including available funds of \$2,471,773) and an unvoted debt margin of \$354,291.

NOTE 16 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

(a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 16 - BUDGETARY BASIS OF ACCOUNTING - (Continuing)

- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

		eneral fund
Budget basis	\$	814,884
Net adjustment for revenue accruals		(217,830)
Net adjustment for expenditure accruals		446,141
Net adjustment for other sources/uses		(58,797)
Funds budgeted elsewhere		(158,029)
Adjustment for encumbrances	_	201,300
GAAP basis	\$	1,027,669

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. These include the special trusts fund, the uniform school supplies fund, the public school support fund, the summer school fund and the termination benefits fund.

NOTE 17 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 17 - SET-ASIDES - (Continued)

The following cash-basis information describes the change in the fiscal year-end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

Waiver granted by ODE		-
Prior year offset from bond proceeds		
Total	\$	
Balance carried forward to fiscal year 2013	\$	_
Set-aside balance June 30, 2012	\$	

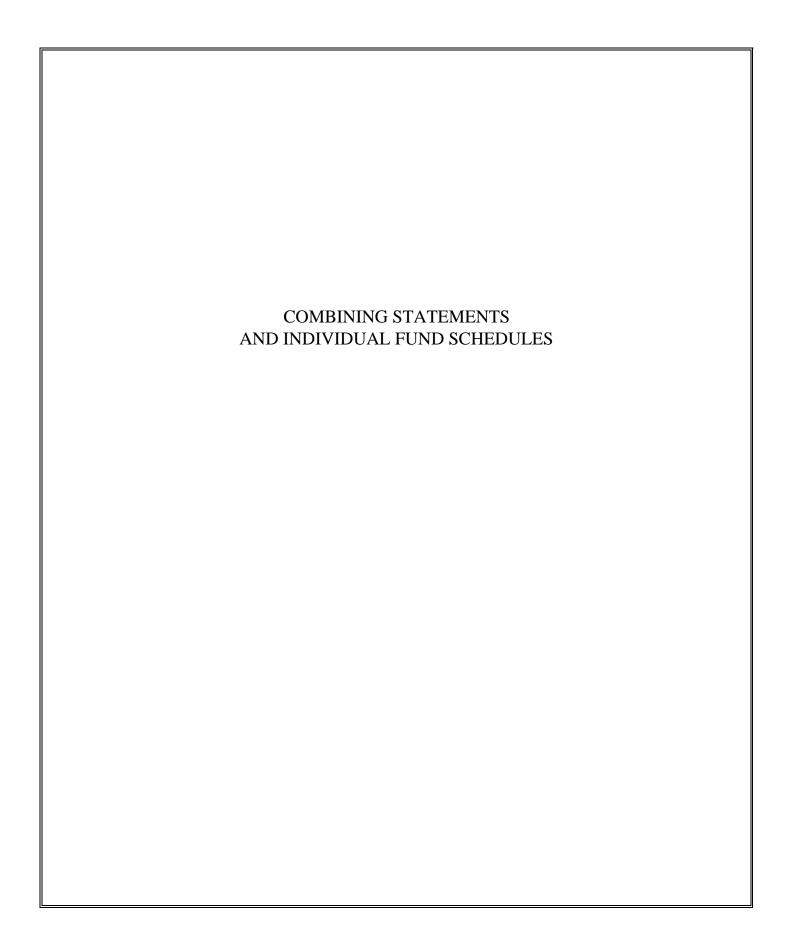

NOTE 18 - ENDOWMENT

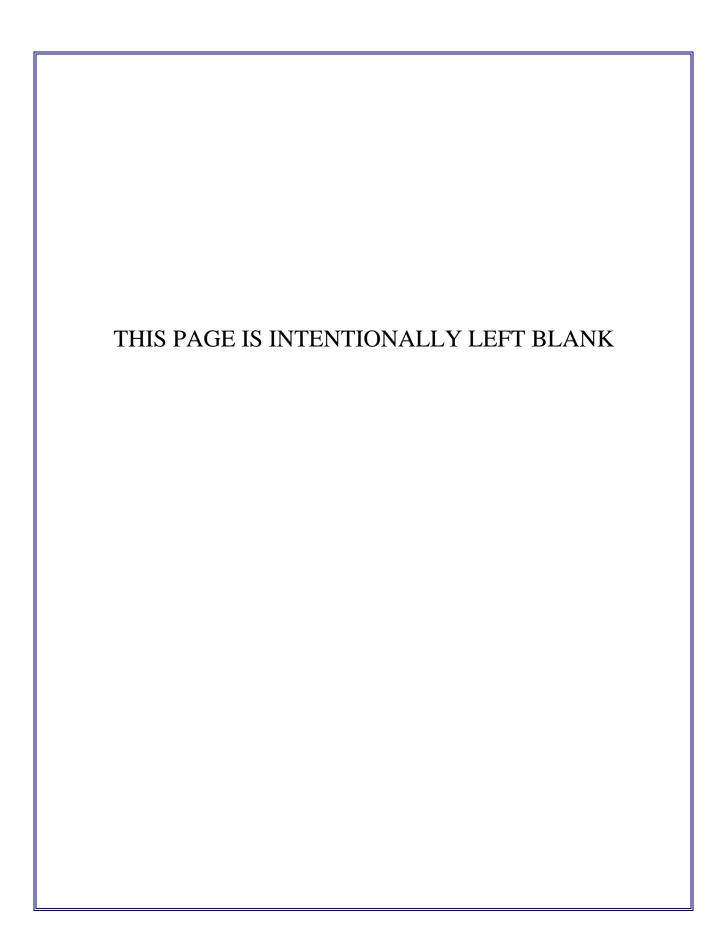

In fiscal years 2002 and 2003, the District received a three million dollar endowment from a former school graduate to create two annual scholarships. The endowment is accounted for as a private purpose trust with 55 percent of interest earned to be used for scholarships and 45 percent to be added to existing principal.

NOTE 19 – SIGNIFICANT SUBSEQUENT EVENT

In the November 2012 election, the voters of the District renewed the District's emergency levy for an additional five year period.

FAIRVIEW PARK CITY SCHOOL DISTRICT

DESCRIPTION OF FUNDS

General Fund

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio

Other Major Fund

Bond Retirement - The bond retirement fund is used to account for and report resources that are restricted, committed or assigned to expenditure for principal and interest related to retirement of serial bonds and short term loans. All revenue derived from general or special levies, either within or exceeding the ten-mill limitation, which is levied for debt charges on bonds or loans, shall be paid into this fund.

SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE - BUDGET AND ACTUAL (NON-GAAP BUDGETARY BASIS) BOND RETIREMENT FUND FOR THE FISCAL YEAR ENDED JUNE 30, 2012

FAIRVIEW PARK CITY SCHOOL DISTRICT

DESCRIPTION OF FUNDS

Nonmajor Special Revenue Funds

The Special Revenue Funds are used to account for and report specific revenue sources that are restricted or committed to an expenditure for a specific purpose. Following is a description of the District's nonmajor special revenue funds:

<u>Other Grants</u> - This fund is used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

<u>District Managed Student Activity</u> - This fund is used to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps and other similar types of activities.

<u>Auxiliary</u> <u>Services</u> - This fund accounts for monies which provide services and materials to pupils attending non-public schools within the District.

<u>Management Information System</u> - This fund provides for hardware and software development or other costs associated with the requirements of the management information system.

<u>Data Communication</u> - This fund accounts for money appropriated for Ohio Educational Computer Network Connections.

<u>School</u> <u>Net Professional Development</u> - This fund was established to account for a limited number of professional development subsidy grants.

Poverty Aid - Disadvantaged Pupil Impact Aid (DPIA), now referred to as Poverty-Based Assistance (PBA), has served as a major source of state aid to school districts with high percentages of economically disadvantaged students.

<u>Education</u> <u>Jobs</u> - This fund accounts for federal monies whose purpose is to create education jobs for the 2010-2011 school year. Jobs funded under this program include those that provide educational and related services for early childhood, elementary and secondary education.

IDEA, Part B Special Education - The purpose of this federal program is to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least-restrictive, alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool elementary and secondary levels.

<u>Stimulus</u> <u>Title</u> <u>II</u> <u>D</u> - Grant focus on Professional Development and Student Learning. Through sustained, collaborative, job-embedded professional development and the use of research-based methods, teachers will experience new models and strategies for teaching and learning.

<u>Limited English Proficiency</u> - This program is designed to help meet the educational needs of children of limited English proficiency.

(Continued)

FAIRVIEW PARK CITY SCHOOL DISTRICT DESCRIPTION OF FUNDS

Nonmajor Special Revenue Funds

(Continued)

<u>Title</u> <u>I</u> - The purpose of this federal program is to provide financial assistance to state and local education agencies to meet the special needs of educationally deprived children.

<u>Drug Free Schools</u> - This fund accounts for federal revenues to implement programs to educate and encourage students to live lives free of drug dependency.

<u>Early Childhood Education Development</u> - This fund accounts for federal monies which partially support the preschool program focusing on the early educatioon of handicapped children.

<u>Improving Teacher Quality</u> - This fund provides for improved instruction through better use of technology.

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

<u>Public School Support</u> - This fund is used for the general support of the school building, staff and students.

<u>Summer</u> <u>School</u> - This fund is used to account for operations of the District's summer school program.

<u>Termination Benefits</u> - This fund is used to accumulate cash for paying termination benefits or for paying salaries when the number of pay periods exceeds the usual and customary for a year.

<u>Special Trusts</u> - This fund is used to account for assets held by the school district for various activities of the District which there are no external restrictions on the use of resources and for which the Board of Education has not placed any constraints on the use of the reources.

<u>Uniform School Supplies</u> - This fund is used to account for the purchase and sale of school supplies for use in the District. Profits derived from such sales are used for school purposes or activities connected with the school.

Nonmajor Capital Projects Funds

Capital Projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities or/and other capital assets. Following is a description of the nonmajor capital projects funds:

(Continued)

FAIRVIEW PARK CITY SCHOOL DISTRICT DESCRIPTION OF FUNDS

Nonmajor Capital Projects Funds

(Continued)

<u>Permanent Improvement</u> - This fund accounts for all transactions related to the acquiring, constructing, or improving facilities.

Building - This fund accounts for and reports resources that are restricted, committed or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets. All proceeds from the sale of bonds, notes or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

FAIRVIEW PARK CITY SCHOOL DISTRICT

DESCRIPTION OF FUNDS

Nonmajor Enterprise Funds

Enterprise Funds are established to account for operations that are financed and operated in a manner similar to private sector business where the interest is that the expense (including deprecation) of the providing goods or services is primarily or solely to the general public be financed or recovered primarily through user charges.

<u>Food Services</u> - This fund accounts for the provision of food service to the high school and middle school.

<u>Day Care Services</u> - This fund accounts for services provided primarily to the general public for day care services, which are financed or recovered through user charges.

Internal Service Fund

An Internal Service Fund is used to account for the financing of services provided by one department to the other departments of the government or to other districts on a cost reimbursement basis.

Employee Flex Benefits Plan - This fund accounts for a flexible benefits plan offered to District employees.

Since there is only one internal service, no combining financial statements are required.

Fiduciary Funds

Fiduciary funds are used to account for assets when a governmental unit is functioning either as a trustee or an agent for another party. Because the governmental unit is functioning in a fiduciary capacity, the authority to employ, dispose of, or otherwise use the assets is determined not by a legislative body or oversight board but by the public laws and private agreements that create the trustee or agency relationship.

Private Purpose Trust Fund

Endowment Trust - This fund accounts for money set aside for two annual scholarships. The income from such a fund may be expended, but the principal must remain intact.

Since there is only one private-purpose trust, no combining financial statements are required.

Agency Funds

<u>District Agency</u> - This fund accounts for those assets held by a school district as an agent for individuals, private organization, other governmental units, and /or other funds. Agency funds could include a central payroll account, and funds for a teacher or parent-teacher organization. In an Agency fund, assets equal liabilities, and the fund balance is zero.

<u>Workers' Compensation</u> - This fund is used for Workers' Compensation Self-Insurance receipts and expenditures.

<u>Student Managed Activities</u> - This fund accounts for resources that belong to the student bodies of the various schools, accounting for sales and other revenue generating activities.

STATISTICAL SECTION

This part of the Fairview Park City School District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	102-115
Revenue Capacity These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	116-121
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	122-127
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	128-129
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	130-140

Sources: Sources are noted on the individual schedules. The District implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.

Note: The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility personal property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property is assessed at 25 percent for everything except inventories, which are assessed at 23 percent. Property is assessed annually. General business tangible personal property tax is being phased out beginning in 2006. The listing percentage is 18.75 percent for 2006, 12.5 percent for 2008, 6.25 percent for 2008 and zero for 2009.

Note: The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated by the property tax revenue to be received in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent, and homestead exemptions before being billed. Beginning in 2006 collection year, the 10 percent for commercial/industry property has been eliminated.
