INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Hudson City School District
Summit County
2386 Hudson - Aurora Road
Hudson, Ohio 44236-2322

To the Board of Education:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hudson City School District, Summit County, (the District) as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 21, 2011 wherein we noted the District restated governmental fund balances due to implementing GASB Statement 54. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Government's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the Government's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the Government's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the Government's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matter we must report under *Government Auditing Standards* which is described in the accompanying Schedule of Findings as item 2011-001.

We also noted certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated December 21, 2011.

The District's response to the finding identified in our audit is described in the accompanying Schedule of Findings. We did not audit the District's responses and, accordingly, we express no opinion on it.

We intend this report solely for the information and use of management, the audit committee, Board of Education, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Hudson City School District
Summit County
2386 Hudson - Aurora Road
Hudson, Ohio 44236-2322

To the Board of Education:

Compliance

We have audited the compliance of Hudson City School District Ohio (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Hudson City School District's major federal programs for the year ended June 30, 2011. The summary of auditor's results section of the accompanying Schedule of Findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to express an opinion on the District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the Hudson City School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2011. However, the results of our auditing procedures disclosed an instance of noncompliance with those requirements that, while not affecting our opinion on compliance, OMB Circular A-133 requires us to report. The accompanying Schedule of Findings lists this instance as Finding 2011-02.

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with the requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of expressing our opinion on compliance, and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and therefore, we cannot assure we have identified all deficiencies, significant deficiencies, or material weaknesses. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a material weakness

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Finding as item 2011-02 to be a material weakness.

The District's response to the finding we identified is described in the accompanying Schedule of Findings. We did not audit the District's responses and, accordingly, we express no opinion on it.

We also noted matters involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated December 21, 2011.

Federal Awards Receipts and Expenditures Schedule

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hudson City School District, Summit County, Ohio (the District), as of and for the year ended June 30, 2011, and have issued our report thereon dated December 21, 2011 wherein we noted the District implemented GASB 54. Our audit was performed to form opinions on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The accompanying Federal Awards Receipts and Expenditures Schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The Schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This Schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic

financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the audit committee, management, Board of Education, others within the entity, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

**NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE
FISCAL YEAR ENDED JUNE 30, 2011**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Hudson City School District (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE D - TRANSFERS BETWEEN PROGRAM YEARS

Federal regulations require schools to obligate certain federal awards by June 30. However, with ODE's consent, schools can transfer unobligated amounts to the subsequent fiscal year's program. The District transferred the following amounts from 2011 to 2012 programs:

<u>Program Title</u>	<u>CFDA Number</u>	<u>Amount Transferred from 2011 to 2012</u>
Title I Grants to Local Educational Agencies	84.010	\$ 7,712
Special Education - Grants to States	84.027	66,190
Improving Teacher Quality State Grant	84.367	18,763
ARRA – Race to the Top	84.395	10,000

FINDING NUMBER 2011-01

Noncompliance - Ohio Rev. Code Section 3313.46

Finding Number 2011-02 describes deficiencies in bidding various federal contracts. We believe this finding also represents material noncompliance under auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Officials' Response:

Noncompliance and Material Weakness

40 USC Section 3142, states (a) the advertised specifications for every contract in excess of \$2,000, to which the Federal Government or the District of Columbia is a party, for construction, alteration, or repair, including painting and decorating, of public buildings and public works of the Government or the District of Columbia that are located in a State or the District of Columbia and which requires or involves the employment of mechanics or laborers shall contain a provision stating the minimum wages to be paid various classes of laborers and mechanics. (b) The minimum wages shall be based on the wages the Secretary of Labor determines to be prevailing for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the civil subdivision of the State in which the work is to be performed, or in the District of Columbia if the work is to be performed there. (c) Every contract based upon the specifications referred to in subsection (a) must contain stipulations that — (1) the contractor or subcontractor shall pay all mechanics and laborers employed directly on the site of the work, unconditionally and at least once a week, and without subsequent deduction or rebate on any account, the full amounts accrued at time of payment, computed at wage rates not less than those stated in the advertised specifications, regardless of any contractual relationship which may be alleged to exist between the contractor or subcontractor and the laborers and mechanics;

29 CFR 5.5 further states the contractor shall submit weekly for each week in which any contract work is performed a copy of all payrolls to the (write in name of appropriate federal agency) if the agency is a party to the contract, but if the agency is not such a party, the contractor will submit the payrolls to the applicant, sponsor, or owner, as the case may be, for transmission to the (write in name of agency). Each payroll submitted shall be accompanied by a "Statement of Compliance," signed by the contractor or subcontractor or his or her agent who pays or supervises the payment of the persons employed under the contract.

Noncompliance and Material Weakness (continued)

34 CFR 80.36(i)(5) states compliance with the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) as supplemented by Department of Labor regulations (29 CFR part 5) [is required]. (Construction contracts in excess of \$2000 awarded by grantees and subgrantees when required by Federal grant program legislation.)

Additionally, **Ohio Rev. Code Section 3313.46** requires any project to build, repair, enlarge, improve, or demolish any school building which will exceed twenty-five thousand dollars of cost is subject to competitive bidding.

The District utilized ARRA Title VI-B Special Education funding to renovate several bathrooms in the District; the Middle School Project at a cost of approximately \$30,000 and the High School/McDowell School at a cost of approximately \$43,130. The District did not formally bid these contracts and did not issue written contracts to contractors that specified prevailing wages must be paid to laborers and mechanics. In addition, the contractors did not submit and the District did not require certified payroll reports that demonstrated compliance with the prevailing wage requirements of Davis Bacon.

While the District obtained approval from the Ohio Department of Education to use ARRA funds for these projects, the District did not bid these two projects which exceeded \$25,000 according to the Construction Approval Requests and did not follow the provisions of Davis Bacon to ensure prevailing wages were applied to the project.

The District should require written contracts that include prevailing wage language for all construction projects paid for with Federal funding for which Davis Bacon laws apply. In addition, the District should require the submission of certified payroll reports from contractors performing work on these projects.

Corrective Action Plan/Officials' Response: As per the preliminary results of the fiscal year 2011 audit, this office has made the administration aware of the lack of bidding citation. We have made the pertinent administrators aware of the law and bidding requirements and have put in place overview controls to catch any future violations.

Independent Accountants' Report on Applying Agreed-Upon Procedure

Hudson City School District
Summit County
2386 Hudson-Aurora Road
Hudson, Ohio 44236-2322

To the Board of Education:

Ohio Rev. Code Section 117.53 states "the auditor of state shall identify whether the school district or community school has adopted an anti-harassment policy in accordance with Section 3313.666 of the Revised Code. This determination shall be recorded in the audit report. The auditor of state shall not prescribe the content or operation of any anti-harassment policy adopted by a school district or community school."

Accordingly, we have performed the procedure enumerated below, which was agreed to by the Board, solely to assist the Board in evaluating whether Hudson City School District (the District) has updated its anti-harassment policy in accordance with Ohio Rev. Code Section 3313.666. Management is responsible for complying with this requirement. This agreed-upon procedure engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of this procedure is solely the responsibility of the Board. Consequently; we make no representation regarding the sufficiency of the procedure described below either for the purpose for which this report has been requested or for any other purpose.

1. We noted the Board amended its anti-harassment policy at its meeting on June 30, 2011 to include violence within a dating relationship within its definition of harassment, intimidation or bullying.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on compliance with the anti-harassment policy. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board and is not intended to be and should not be used by anyone other than these specified parties.

Citizens and Board of Education, Hudson City School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Hudson City School District (the "District") for the fiscal year ended June 30, 2011. This CAFR, which includes an opinion from the Auditor of the State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for both the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The report provides the taxpayers of the District, bond rating agencies, and other interested parties with comprehensive financial information, enabling them to gain a clear understanding of the District's finances. This report is intended to meet the accountability requirements of the District to the public.

Copies of this report will be widely distributed throughout the District. A copy will be sent to all school buildings, the Chamber of Commerce, major taxpayers, Hudson Public Library, Moody's and Standard and Poor's Financial Rating Services, banks, the District's Business Advisory Council and any other interested parties.

The District provides a full range of traditional and non-traditional educational programs and services. These include elementary and secondary curriculum offerings at the general, college preparatory and vocational levels; a broad range of co-curricular and extracurricular activities; adult and community education and recreation offerings; and special education programs and facilities.

The Reporting Entity

The District has reviewed its reporting entity definition in order to ensure conformance with Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments and organizations making up the District, the primary government and its potential component units.

The District has administrative responsibility for state funds distributed to private schools located within District boundaries. The private schools served are: Hudson Montessori School, Cuyahoga Valley Christian Academy, Seton Catholic School, Western Reserve Academy, Walsh Jesuit High School, Le Chaperon Rouge, and Academy for Young Children (TLC). While these organizations share operational and service similarity with the District, all are separate and distinct entities. Because of their independent nature, none of these organizations' financial statements are included in this report. Their Boards are not appointed by the District, nor are they fiscally dependent on the District.

The District And Its Facilities

The District serves an area of approximately 31 square miles in and around the City of Hudson (the “City”). It is located in Summit County, approximately 28 miles southeast of downtown Cleveland and 14 miles north of Akron. The District is an affluent suburban district that grew rapidly from 1980 to 2000 but has since leveled off. Nearly 100 percent of the City of Hudson and portions of three other municipalities and a township are located within the District. They are: the City of Cuyahoga Falls, the City of Stow, the Village of Boston Heights and Boston Township. Hudson’s population in 1980 was 12,645 residents. By 1990, according to the U.S. Census Bureau, Hudson’s population had grown to 17,125 and the 2000 Census showed the population of the City of Hudson was 22,439. The 2010 Census shows a population of 22,262.

Because of the rapid growth of Hudson and the surrounding area, the District had recorded more than 19 consecutive years of increasing enrollment until fiscal year 2000 when enrollment slowed. The District’s enrollment for fiscal year-end June 30, 2011, was 4,890 students.

The District’s facilities include four elementary schools, one middle school (grades six to eight), one high school (grades nine to twelve), a field house, a maintenance building, a bus garage, central offices residing in four houses and several athletic fields.

Economic Condition And Outlook

Ohio’s unemployment rate was 8.8 percent in June 2011, and the nation’s unemployment rate for June 2011 was 9.2 percent. Additionally, June 2011 employment in the Akron Metropolitan Statistical Area was 352,900. Specific employment figures for the Hudson City School District are not available. (Labor Force Estimates, June 2011 Ohio Bureau of Labor Statistics.)

Hudson is the headquarters for companies such as JoAnn Stores, Inc. (retail) and Windstream Company (telecommunications). The City is also home to the division headquarters of Little Tikes (Newell Corp.); Caliber Logistics, Inc. (Federal Express); and Allstate Insurance.

On a budgetary-basis, the District receives approximately 77 percent of its total operating revenues from local property tax collections. Therefore, the long-term financial health of the District is very dependent on its tax base. Total assessed valuation of the District rose by 23.2 percent in the last ten years. The increased value in the tax duplicate is attributed to new construction and to revisions in property values made by the County Fiscal Officer over the most recent ten-year period.

The District has an excellent relationship with the City of Hudson, which assures that commercial development projects selected by the City are also highly desirable for the District. When the City of Hudson uses an inducement to attract a business, the City seeks the input of the School District to see the impact an abatement would cause. The District will continue to work with the City of Hudson to attract desirable development to the community.

Long-Term Financial Planning

The District prepares a five-year financial forecast annually for use as a tool for long range planning. The five-year forecast contains projected local and state revenues, spending patterns within each area of the budget, and cash balances in the District’s operating fund. The five-year forecast provides early warning signs of potential financial problems.

The District uses the five-year forecast to provide a basis for making financial decisions, including the construction of the annual budget, adjustments to staffing levels, collective bargaining, and the placement of tax levies on the ballot. Specific examples of recent decisions resulting from long range planning are the construction of the building additions and the energy conservation improvements that did not require any additional millage and adding new programs and staffing as enrollment and the economy allow.

Organization Of The District

The District is governed by the Constitution of the State of Ohio and various statutes enacted by the Ohio General Assembly through the State Department of Education. Under Ohio law, the District is a separate and distinct unit of government. The Hudson City School District Board of Education is a five-member board elected at-large, with staggered four-year terms.

The Board serves as the taxing authority, contracting body, policy maker, approves the annual appropriation resolution and tax budget and ensures that all other general laws of the State of Ohio are followed in the expenditure of the District’s tax dollars.

Employee Relations

The District currently has approximately 636 full-time and part-time employees. Two labor organizations represent District employees. Certified employees, including teachers and educational specialists, are represented for collective bargaining purposes by the Hudson Education Association (HEA). Support employees, including cooks, custodians, educational aides and clerical staff, are represented for collective bargaining purposes by the Ohio Association of Public School Employees Local 372 (OAPSE).

Services Provided

The District provides a wide variety of educational and support services as mandated by the Ohio Revised Code or Board directives. The District contracts out its transportation of students. During fiscal year 2011, the District's fleet of 54 buses traveled 3,000 miles each day providing transportation services to 2,697 public and 189 private and parochial students. The Food Service Department served an average of 2,844 meals daily for a total of 512,000 meals annually through the District's school lunchrooms.

In addition to transportation and school lunch support services offered to children in the District, guidance, special education, (including school psychology services) and health services are available free of charge. Guidance services support the school environment and are designed to help students achieve a well-adjusted social life. Special education services, including school psychology services, are provided for all 14 federal disability categories ranging from preschool-age students through high school. Health services consist of the staffing of school clinics with R.N. or L.P.N. level nurses and health promotion classes.

At the center of the District's services are the instructional programs. The District offers regular instructional programs daily to students in grades pre-kindergarten to twelve. The District served approximately 793 identified students who need specially designed programs. These students received services through the wide array of special education programs offered in the District.

Finally, there are numerous academic and athletic programs for students, providing them with a number of enriching experiences. The District provides, through its Community Education and Recreation Department, a community-wide recreation program during the school year and throughout the summer months. The programs and activities provide a lifetime of memories for Hudson's students.

Financial Reporting

For the fiscal year ended June 30, 2011, the District continued to report in accordance with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements-and Management's Discussion and Analysis-for the State and Local Governments." The basic financial statements for reporting on the District's financial activities are as follows:

- *Government-wide financial statements:* These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by business enterprises. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

INTRODUCTION

- *Fund financial statements:* These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.
- *Statement of budgetary comparisons:* These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Discussion and Analysis of the District. This discussion appears after the Independent Accountants' Report in the financial section of this report. The Management's Discussion and Analysis (MD&A) provides an assessment of the District's finances for 2011. The letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

Financial Information

Internal Accounting and Budgetary Control

The District's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Governmental fund operations are presented on the modified accrual basis, whereby revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. "Measurable" means the amount of the transaction can be determined. "Available" means collectable within the current fiscal period or soon enough thereafter to be used to pay liabilities of the current fiscal period, which the District considers to be sixty days after fiscal year-end. Proprietary funds and the private-purpose trust fund operations are presented on the accrual basis, whereby revenues are recognized when earned, and expenses when incurred.

In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing the financial statements and maintaining the accountability of assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation. Management believes that the District's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The District utilizes a fully-automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts a permanent appropriation measure for the fiscal year. The permanent appropriation measure is adopted upon receipt from the County Fiscal Officer of an Amended Certificate of Estimated Resources based on final assessed values and tax rates, which is usually received before the beginning of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's Official Certificate of Estimated Resources. The County Fiscal Officer must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are managed at the object account level within a function but controlled at the fund level. All purchase order requests must be approved by the purchasing agent and certified, as to the availability of funds, by the Treasurer. Following certification, the necessary funds are encumbered and purchase orders released to vendors.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations to date. In addition to interim financial statements, each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. As an additional safeguard, all employees are covered by a blanket bond and certain individuals in policy-making roles are covered by a separate, higher limit bond.

The basis of accounting and the various funds utilized by the District are fully described in Note 2 of the basic financial statements. Additional information on the District's budgetary accounting can also be found in Note 2.

As demonstrated by the statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. As with the financial section, all amounts presented in the remainder of this letter are expressed in rounded dollar amounts.

Cash Management

The Board of Education has a fiscally responsible cash management program which consists of expediting the receipt of revenues and prudently depositing cash that is insured by the Federal Deposit Insurance Corporation as well as investing available cash in instruments issued by the United States Government, STAR Ohio, repurchase agreements and other investments allowed by State law and the District's Board approved investment policy. The District maintains depository relationships with several banking institutions in order to provide for competitive treasury management and investment options as well as to contain the cost of services.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation as well as by qualified securities pledged by the institution holding the assets or individual surety bonds. Per Ohio law, financial institutions may establish a collateral pool to cover all public deposits. The face value of the pooled collateral must equal at least 105 percent of public funds deposited. Trustees, including the Federal Reserve Bank and designated third party trustees of the financial institutions, hold collateral for public deposits.

Risk Management

A blanket bond covers all employees of the District while certain positions in decision/policy making roles are covered by separate, higher bond coverage.

The District maintains general liability coverage of \$1,000,000 per occurrence, an aggregate of \$2,000,000 and an umbrella of \$10,000,000. The District also has insurance contracts for its buildings and contents, vehicles and crime protection. The District also contracts with private firms to assist in the management of its workers' compensation program.

Independent Audit

State statutes require an annual audit by independent accountants. The Ohio Auditor of State conducted the District's 2011 fiscal year audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133 *Audits of States, Local Governments and Non-Profit Organizations*. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of this report.

Awards:

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Hudson City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010. This was the twelfth consecutive year that the District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

INTRODUCTION

ASBO Certificate of Excellence

The District received the Association of School Business Officials (ASBO) International Certificate of Excellence in Financial Reporting Award for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2010. This was the twelfth consecutive year that the District has achieved this prestigious award. The award represents a significant achievement by the District and reflects the District's commitment to the highest standards of school system financial reporting. The District is also submitting this report to the Association of School Business Officials (ASBO) International for consideration of the Certificate of Excellence in Financial Reporting award. This award will certify that the Comprehensive Annual Financial Report conforms to the principles and standards of financial reporting as recommended and adopted by the Association of Schools Business Officials. This award is granted only after an intensive review of the financial report by an expert panel of certified public accountants and practicing school business officials. Management believes the Comprehensive Annual Financial Report for the fiscal year ended June 30, 2011, which will be submitted to ASBO for review, will continue to conform to ASBO's principles and standards.

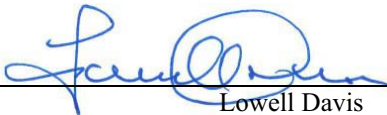

Acknowledgments

The continued publication of this report is an indication of the District's commitment to be accountable to our investors, the residents of the Hudson City School District, and to our customers, the students.

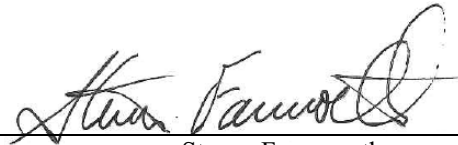

The preparation and publication of this Comprehensive Annual Financial Report on a timely basis could not have been possible without the cooperation of the entire staff of the Treasurer's Office. Additional appreciation is extended to Mr. Derek Cluse, Business Manager, for working so diligently to maintain the District's Capital Asset Records, to Ms. Doreen Osmun, Director of Curriculum & Instruction, for her contributions to the Curricular Initiatives section, to Ms. Sheryl Sheatzley, Communications Management Specialist, for her work on the cover and design, and also to Julian & Grube Inc., for their expert guidance and assistance.

In closing, without the leadership and support of the Board of Education of the District, preparation of this report would not have been possible.

Respectfully submitted,

INDEPENDENT ACCOUNTANTS' REPORT

Hudson City School District
Summit County
2386 Hudson - Aurora Road
Hudson, Ohio 44236-2322

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hudson City School District, Summit County, Ohio (the District), as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Hudson City School District, Summit County, Ohio, as of June 30, 2011, and the respective changes in financial position and where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As describe in Note 3B, during 2011, Hudson City School District restated its July 1, 2010 governmental fund balances due to changes in fund structure as a result of implementing the provisions of the Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2011, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provide additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

The management's discussion and analysis of Hudson City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2011. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2011 are as follows:

- In total, net assets increased \$3,465,839. Net assets of governmental activities increased \$3,394,844, which represents a 9.87% increase from 2010. Net assets of business-type activities increased \$70,995 or 17.82% from 2010.
- General revenues, related to governmental activities, accounted for \$62,501,452 in revenue or 87.40% of all revenues. Program specific revenues, related to governmental activities, in the form of charges for services and sales, and grants and contributions accounted for \$9,009,197 or 12.60% of total revenues of \$71,510,649.
- The District had \$68,115,805 in expenses related to governmental activities; only \$9,009,197 of these expenses was offset by program specific charges for services, grants or contributions. General revenues supporting governmental activities (primarily taxes and unrestricted grants and entitlements) of \$62,501,452 were adequate to provide for these programs.
- The District had \$1,173,451 in expenses related to business-type activities; program specific revenues in the form of charges for services of \$1,244,446 were adequate to provide for these programs.
- The District's only major governmental fund is the general fund. The general fund had \$58,934,220 in revenues and other financing sources and \$60,085,395 in expenditures and other financing uses. The general fund's fund balance decreased \$1,151,175 from a restated balance of \$8,442,865 to \$7,291,690.

Using the Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net assets* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other nonmajor funds presented in total in one column. In the case of the District, the general fund is by far the most significant fund, and the only governmental fund reported as a major fund.

Reporting the District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2011?" The statement of net assets and the statement of activities answer this question. These statements include all non-fiduciary *assets, liabilities, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net assets* and changes in those assets. This change in net assets is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the statement of net assets and the statement of activities, the District is divided into two distinct kinds of activities:

Governmental activities - Most of the District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities and food service operations.

Business-type activities - These services are provided on a charge for goods or services basis to recover all or a significant portion of the expenses of the goods or services provided. The District's community education and recreation programs are reported as business-type activities.

The District's statement of net assets and statement of activities can be found on pages F 15 - F 17 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

The analysis of the District's major governmental funds begins on page F 10. Fund financial reports provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's only major governmental fund is the general fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term* view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net assets and the statement of activities) and governmental *funds* is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages F 18 - F 22 of this report.

Proprietary Funds

Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match information provided in the statements for the District as a whole. The basic proprietary fund financial statements can be found on pages F 23 - F 25 of this report.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in two agency funds. The District's fiduciary activities are reported in separate statements of fiduciary net assets and changes in fiduciary net assets on pages F 26 - F 27. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages F 29 - F 62 of this report.

Governmental Activities

Net assets of the District's governmental activities increased \$3,394,844. Program revenues supported 13.23% of the total governmental expenses.

Total revenues for governmental activities increased \$2,052,386 or 2.95%. This is primarily the result of increased operating grants and contributions due to the Education Jobs Grant funding from the federal government. The primary sources of revenue for governmental activities are derived from property taxes and grants and entitlements. These two revenue sources represent 86.39% of total governmental revenue. Property taxes and payments in lieu of taxes support 60.35% of total expenses while grants and entitlements supported 30.09% of total expenses. Between these two revenue items, 90.43% of total governmental expenses were funded.

The largest expense of the District is for instructional programs. Instruction expenses totaled \$38,391,064 or 56.36% of total governmental expenses for fiscal year 2011.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

The dependence upon tax revenues during fiscal year 2011 for governmental activities is apparent, as 89.77% of 2011 instruction activities are supported through taxes and other general revenues. For all governmental activities, general revenue support was 86.77% in 2011. The District's taxpayers and unrestricted grants and entitlements from the State, are by far the primary support for District's students.

The graph below presents the District's governmental activities revenue for fiscal years 2011 and 2010.

Business-Type Activities

Business-type activities include the District's community education program which had revenues of \$1,244,446 and expenses of \$1,173,451 for fiscal year 2011. This resulted in an increase to net assets for the fiscal year of \$70,995. These operations are self-supporting through user fees and charges. Management assesses its performance to ensure that they are run efficiently.

The District's Funds

The District's governmental funds (as presented on the balance sheet on page F 18) reported a combined fund balance of \$14,425,765, which is below last year's total of \$15,441,500. The District restated fund balances at June 30, 2010 as described in Note 3.B. The schedule below indicates the fund balance as of June 30, 2011 and 2010, and the total change in fund balance.

	Fund Balance <u>June 30, 2011</u>	Restated Fund Balance <u>June 30, 2010</u>	Increase <u>(Decrease)</u>

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

General Fund

The District's general fund balance decreased \$1,151,175. As a measure of the general fund's liquidity, it is useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 10.05% of total general fund expenditures, while total fund balance represents 12.14% of that same amount. The table that follows assists in illustrating the financial activities and fund balance of the general fund.

	2011	Restated 2010	Percentage Change
	<u>Amount</u>	<u>Amount</u>	
<u>Revenues</u>			
Taxes	\$ 37,205,157	\$ 35,720,224	4.16 %
Payments in lieu of taxes	314,000	314,000	- %
Tuition	102,236	125,137	(18.30) %
Interest earnings	130,603	316,452	(58.73) %
Intergovernmental	19,170,565	19,410,178	(1.23) %
Other revenues	<u>1,145,367</u>	<u>962,286</u>	19.03 %
 Total	 <u>\$ 58,067,928</u>	 <u>\$ 56,848,277</u>	 2.15 %

Taxes revenue increased \$1,484,933 or 4.16% from the prior year. This is attributable to fluctuations in the amount of tax advance that was available to the District from the County Fiscal Officer at fiscal year end. Interest earnings decreased significantly due to lower interest rates and lower cash balances held by the District in interest-bearing accounts. The increase in other revenues is primarily the result of fees charged for extracurricular activities.

The table that follows assists in illustrating the expenditures of the general fund.

	2011	Restated 2010	Percentage Change
	<u>Amount</u>	<u>Amount</u>	
<u>Expenditures</u>			
Instruction	\$ 35,799,884	\$ 35,860,138	(0.17) %
Support services	22,668,789	24,906,733	(8.99) %
Other non-instructional services	7,271	10,311	(29.48) %
Extracurricular activities	958,698	930,359	3.05 %
Debt service	<u>616,618</u>	<u>47,162</u>	1,207.45 %
 Total	 <u>\$ 60,051,260</u>	 <u>\$ 61,754,703</u>	 (2.76) %

The overall decrease in general fund expenditures is the result of cost saving measures employed by the District. In particular, pupil transportation expenditures decreased by more than \$1 million, or about 24%. Debt service expenditures represent payments on the District's Energy Conservation Bonds, which increased in fiscal year 2011. In addition, payments on the District's capital lease obligation are recorded as debt service expenditures in the general fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

Enterprise Fund

The District maintains an enterprise fund to account for the community education program. Since the enterprise fund is accounted for on the same basis of accounting as business-type activities (the accrual basis of accounting), the statement of net assets and the results of operations on the fund financial statements mirror those reported as business-type activities on the District-wide financial statements. See page F 10 for a discussion of the District's business-type activities.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

During the course of fiscal year 2011, the District amended its general fund budget several times. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, both the original and final budgeted revenues and other financing sources were \$56,854,871. Actual revenues and other financing sources were \$56,625,895, or \$228,976 less than the final budget.

General fund original appropriations (expenditures and other financing uses) of \$62,309,214 were decreased slightly to \$61,916,490 in the final budget. The actual budget basis expenditures and other financing uses for fiscal year 2011 totaled \$60,025,814, which was \$1,890,676 less than the final budget appropriations.

Capital Assets and Debt Administration

Capital Assets

At the end of fiscal year 2011, the District had \$51,082,818 invested in land, construction in progress, land improvements, buildings and improvements, furniture and equipment, and vehicles. This entire amount is reported in governmental activities. The following table shows fiscal year 2011 balances compared to 2010:

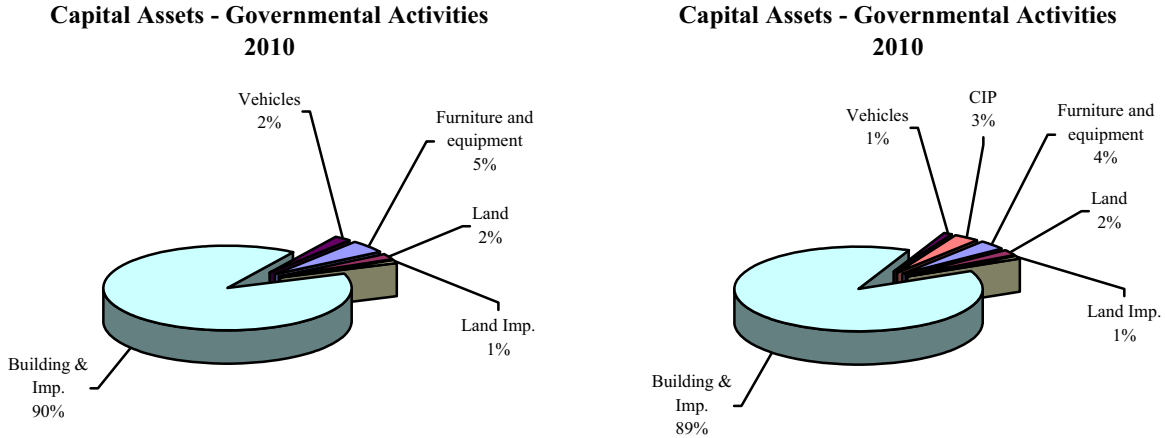

Capital Assets at June 30 (Net of Depreciation)		
<u>Governmental Activities</u>		
	<u>2011</u>	<u>2010</u>
Land	\$ 1,032,204	\$ 1,032,204
Construction in progress	-	1,614,430
Land improvements	620,291	654,617
Building and improvements	45,681,260	44,641,696
Furniture and equipment	2,622,006	1,892,296
Vehicles	<u>1,127,057</u>	<u>699,189</u>
Total	<u>\$ 51,082,818</u>	<u>\$ 50,534,432</u>

The increase from 2010 to 2011 was a result of capital outlays of \$2,291,720 exceeding depreciation expense of \$1,743,334 in fiscal year 2011.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

The following graphs show the breakdown of governmental activities capital assets by category for 2011 and 2010.

See Note 8 to the basic financial statements for more information on the District's capital assets.

Debt Administration

At June 30, 2011, the District had \$32,326,707 in general obligation bonds, certificates of participation and capital leases outstanding. Of this total, \$2,904,594 is due within one year and \$29,422,113 is due in greater than one year. The following table summarizes the bonds outstanding.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

Current Financial Related Activities

The District has carefully managed its general fund budgets in order to optimize the dollars available for educating the students it serves, and to minimize the levy millage amounts needed periodically from the community's citizens. The general fund cash balance was \$10,791,463 at June 30, 2011. Fiscal year-end general fund cash balances were \$13,096,732, \$16,864,531, \$17,888,470, and \$15,967,803 at June 30 in fiscal years 2010, 2009, 2008 and 2007, respectively. Although the general fund cash balance has decreased in recent years, sound fiscal management by the Board of Education and Administration has enabled the District to maintain a healthy cash balance and continue a quality, comprehensive educational program.

The voters of the District passed an additional operating levy of 4.9 mils in May 2011. Collections on this levy will commence in calendar year 2012. With Board guidance, the recent fiscal year budgets have been carefully managed in order to maintain the integrity of the financial planning process, while being cognizant of future tax levy levels that are reasonable and in accordance with the expected educational excellence of our community.

Several significant legislative and judicial actions have occurred that will have a major impact on the District. The Ohio General Assembly has recently implemented major tax reform in Ohio that has not had a positive impact on the District. House Bill 66 introduced a phase-out of the tangible personal property tax the schools used to receive. The District is partially reimbursed for the lost tax revenues; however, this reimbursement from the State is being phased out so that by 2014 the District will lose approximately four million dollars. The District will either have to cut programs or ask our taxpayers to pass a levy to replace that amount. These subsidies are designed to bring District revenues back to 2004 levels and do not provide additional revenues to offset inflationary pressures on the operating budget. In addition, there are concerns that the State may not have the ability to fully fund these subsidies for primary and secondary education in the State budget. In spite of this, the Board will continue to evaluate all aspects of its operations, making prudent decisions where appropriate, in order to maximize its resources and offer excellent educational offerings.

Enrollment fluctuations will continue to be a concern as new housing developments are under construction or contemplated in areas that are within the District. Outside of the City of Hudson, but within the District, growth management ordinance that limits the number of residential housing permits issued in a given year are not set. Additional enrollment and/or identification of handicapped students could put additional pressure on facilities and resources. Each of these factors will have a profound impact on the operations of the District.

The District has committed itself to educational and financial excellence for many years. The budgeting and internal controls utilized by the District have resulted in unqualified audit opinions. Each challenge identified in this section is viewed simultaneously as an opportunity for the District to foray down paths not previously traveled to continue its commitment to excellence. The District is committed to living within its financial means, and working with the community it serves in order to garner adequate resources to support the educational program.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

Net change in fund balances - total governmental funds \$ (1,015,735)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation expense in the current period.

Capital asset additions	\$	2,291,720	
Current year depreciation		(1,743,334)	
Total			548,386

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent property taxes		422,928	
Accrued interest		(32,233)	
Intergovernmental		304,953	
Total			695,648

The proceeds from capital lease transactions are recorded as an other financing source in the governmental funds; however, the proceeds increase long-term liabilities on the statement of net assets. (854,187)

Repayment of bond and capital lease principal (including accreted interest on capital appreciation bonds) is an expenditure in the governmental funds, but the payment reduces long-term liabilities on the statement of net assets. 2,935,517

In the statement of activities, interest is accrued on outstanding bonds and certificates of participation, whereas in governmental funds, an interest expenditure is reported when due. The following items resulted in additional interest being reported in the statement of activities:

Decrease in accrued interest payable		10,621	
Amortization of bond issuance costs		(21,244)	
Amortization of bond premiums		3,712	
Accreted interest on capital appreciation bonds		(275,452)	
Total			(282,363)

Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. (155,878)

An internal service fund used by management to charge the costs of medical and dental insurance to individual funds is not reported in the district-wide statement of activities. Governmental fund expenditures and the related internal service fund revenues are eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental activities. 1,523,456

Change in net assets of governmental activities \$ 3,394,844

SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Hudson City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The District operates under a locally-elected five-member Board of Education and provides educational services as mandated by state and/or federal agencies. This Board controls the District's nine instructional/support facilities. The District provides more than instruction to its students. These additional services include student guidance, extracurricular activities, educational media, and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education through the budgetary process. These District operations will be included as part of the reporting entity.

The District ranks as the 74th largest by enrollment among the 918 public and community school districts in the State. The District employs 236 non-certified and 400 certified employees (including administrators) to provide services to approximately 4,890 students and community groups.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) guidance issued on or before November 30, 1989, to its governmental and business-type activities and its proprietary funds provided it does not conflict with or contradict GASB pronouncements. The District has the option to also apply FASB guidance issued after November 30, 1989 to its business-type activities and enterprise funds, subject to this same limitation. The District has elected not to apply this FASB guidance. The District's significant accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

JOINTLY GOVERNED ORGANIZATION

Six District Educational Compact (the "Compact")

The Compact is a jointly governed organization to provide for the vocational needs of the students of six participating school districts. The six member Board consists of the superintendent from each of the participating school districts. Students may attend any vocational class offered by any of the six school districts. Hudson City School District serves as fiscal agent for the Compact, collecting and distributing payments pertaining to the administrative portion of the agreement. The Board exercises total control over the operations of the compact, including budgeting, appropriating, contracting and designating management.

B. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary and fiduciary.

GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The following is the District's major governmental fund:

General fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, (b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects and (c) financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector where the determination of net income is necessary or useful to sound financial administration. Proprietary funds consist of an enterprise fund and an internal service fund.

Enterprise fund - The enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises-where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The District's major enterprise fund is the Community Education fund which accounts for all financial activities related to the Community Education and Recreation Center operations.

Internal service fund - The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the district, or to other governments, on a cost-reimbursement basis. The internal service fund accounts for operations of the District's self-insurance program for medical and dental benefits.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities and for the fiscal agent activity for the Six District Educational Compact.

C. Basis of Presentation and Measurement Focus

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. Internal service fund activity is eliminated to avoid "doubling up" revenues and expenses. Interfund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the District that are governmental and those that are considered business-type activities.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the District and for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses and changes in net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activities.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the District's proprietary funds are charges for sales and services. Operating expenses for the enterprise fund include personnel and other expenses related to the operations of the Community Education and Recreation Center and operating expenses for the internal service fund include primarily claims and purchased services expenses. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

The private-purpose trust fund is reported using the economic resources measurement focus. Agency funds do not report a measurement focus as they do not report operations.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Nonexchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, payments in lieu of taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6).

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, interest and grants.

Unearned Revenue and Deferred Revenue - Unearned revenue and deferred revenue arise when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes and payments in lieu of taxes for which there is an enforceable legal claim as of June 30, 2011, but which were levied to finance fiscal year 2012 operations, and other revenues received in advance of the fiscal year for which they are intended to finance, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met and delinquent property taxes due at June 30, 2011 are recorded as deferred revenue in the governmental funds.

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the financial statements as an expense/expenditure with a like amount reported as intergovernmental revenue.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax alternate budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Although the legal level of budgetary control was established at the fund level of expenditures for the general fund, the District has elected to present the budgetary statement comparison at the fund and function level of expenditures.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The purpose of this budget document is to reflect the need for existing (or increased tax) rates. By no later than January 20, the Board-adopted budget is filed with Summit County Budget Commission for rate determination. The Summit County Budget Commission waived this requirement for fiscal year 2011.

Estimated Resources:

By April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts from the certificate of estimated resources that was in effect at the time the original permanent appropriations covering the entire fiscal year were passed by the Board of Education. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts from the certificate of amended resources that was in effect at the time the final appropriations were passed by the Board of Education.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Appropriations:

Upon receipt from the County Fiscal Officer of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is enacted by the Board of Education. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, at the fund level, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the level of budgetary control must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, all supplemental appropriations were legally enacted.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budget amounts reflect the first appropriation for that fund covering the entire fiscal year, including amounts automatically carried over from prior year. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

Lapsing of Appropriations:

Unencumbered appropriations lapse at year end. Encumbered appropriations are carried forward to the succeeding fiscal year and need not be reappropriated. Expenditures may not legally exceed budgeted appropriations at the fund level.

F. Cash and Investments

To improve cash management, cash received by the District is pooled into central bank accounts. Monies for all funds, including proprietary and fiduciary funds, are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the basic financial statements.

Cash with fiscal agent represents amounts held by a trustee in accordance with the agreement for the issuance of the Certificates of Participation (COPs).

During fiscal year 2011, investments were limited to overnight repurchase agreements, non-negotiable certificates of deposit and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements, and non-negotiable certificates of deposit are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2011. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2011.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Under existing Ohio statutes all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund or the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2011 amounted to \$130,603, which includes \$9,584 assigned from other District funds.

For purposes of the statement of cash flows and for presentation on the basic financial statements, investments purchased by the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year end is provided in Note 4.

G. Inventory

On government-wide and fund financial statements, purchased inventories are presented at the lower of cost or market and donated commodities are presented at their entitlement value. Inventories are recorded on a first-in, first-out basis and are expended/expensed when used. Inventories are accounted for using the consumption method.

On the fund financial statements, reported material and supplies inventory is equally offset by a nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets.

Inventory consists of expendable supplies held for consumption, donated food, purchased food and bookstore inventory held for resale.

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District's maintains a capitalization threshold of \$5,000. Interest is not capitalized in the governmental funds and the District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

All reported capital assets except land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Land improvements	15 - 20 years
Buildings and improvements	10 - 50 years
Furniture and equipment	5 - 20 years
Vehicles	6 - 8 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “due to/from other funds”. Interfund balances between governmental funds are eliminated in the governmental activities column on the statement of net assets.

J. Compensated Absences

Compensated absences of the District consist of vacation leave and sick leave liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

The District reports compensated absences and salary related payments in accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences”. The total liability for vacation and sick leave payments has been calculated using pay rates in effect at the balance sheet date and reduced to the maximum payment allowed by labor contract and/or statute, plus any applicable additional salary related payments. Vacation leave and other compensated absences with similar characteristics should be accrued as a liability as the benefits are earned by the employees if both of the following conditions are met:

1. The employees’ rights to receive compensation are attributable to services already rendered.
2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Other compensated absences with characteristics similar to vacation leave are those which are not contingent on a specific event outside the control of the employer and employee.

Further, sick leave and other similar compensated absences are those which are contingent on a specific event that is outside the control of the employer and employee. The District has accrued a liability for these compensated absences using the termination method which is based on the District’s past experience of making termination payments for sick leave.

The entire compensated absence liability is reported on the government-wide financial statements.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

For governmental fund financial statements, the current portion of unpaid matured compensated absences is the amount expected to be paid using expendable available resources. These amounts are recorded in the account "compensated absences payable" in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported.

K. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from the proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

L. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

M. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The amount restricted for other purposes include amounts restricted by State statute for food service and special grants.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

N. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

O. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in the proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Transfers between governmental funds are eliminated for reporting on the government-wide statement of activities.

P. Nonpublic Schools

Within the District boundaries, there are seven private or parochial schools which receive funding from the State of Ohio through current State legislation. These monies are received and disbursed on behalf of the private or parochial schools by the Treasurer of the District, as directed by the schools. The fiduciary responsibility of the District for these monies is reflected in a special revenue fund (a nonmajor governmental fund) for financial reporting purposes.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Q. Unamortized Bond Issuance Costs and Premiums

On government-wide financial statements, bonds issuance costs are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Unamortized bond issuance costs are recorded as an asset on the government-wide financial statements. On the governmental fund financial statements, bond issuance costs are recognized in the current period. Bond premiums are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond premiums are presented as an addition to the face amount of the bonds.

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2011.

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2011, the District has implemented GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions", and GASB Statement No. 59, "Financial Instruments Omnibus".

GASB Statement No. 54 establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. GASB Statement No. 54 also clarifies the definitions of governmental fund types.

GASB Statement No. 59 updates and improves guidance for financial reporting and disclosure requirements of certain financial instruments and external investment pools. The implementation of GASB Statement No. 59 did not have an effect on the financial statements of the District.

SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

B. Fund Reclassifications

Fund reclassifications are required in order to report funds in accordance with GASB Statement No 54. These fund reclassifications had the following effect on the District's governmental fund balances as previously reported:

	General	Nonmajor Governmental	Total Governmental
Fund balance as previously reported	\$ 8,104,817	\$ 7,336,683	\$ 15,441,500
Fund reclassifications:			
Special trust fund	18,402	(18,402)	-
Uniform school supplies fund	211,666	(211,666)	-
Public school support fund	107,980	(107,980)	-
Total fund reclassifications	338,048	(338,048)	-
Restated fund balance at July 1, 2010	\$ 8,442,865	\$ 6,998,635	\$ 15,441,500

The fund reclassifications did not have an effect on net assets as previously reported.

C. Budgetary Prior Period Adjustment

In prior years certain funds that are legally budgeted in separate special revenue funds were considered part of the general fund on a budgetary basis. Pursuant to GASB Statement No. 54, only the legally budgeted general fund should be reported in the budgetary statement; therefore, a restatement to the beginning budgetary balance is required. The restatement of the general fund's budgetary-basis fund balance at June 30, 2010 is as follows:

Budgetary Basis

	General Fund
Balance at June 30, 2010	\$ 11,285,254
Funds budgeted elsewhere	(241,457)
Restated balance at July 1, 2010	\$ 11,043,797

NOTE 3 - ACCOUNTABILITY AND COMPLIANCE - (Continued)

D. Deficit Fund Balances

Fund balances at June 30, 2011 included the following individual fund deficits:

<u>Nonmajor funds</u>	<u>Deficit</u>
Race to the top	\$ 24
Title I	6,351
Drug-free grant	13,891

The general fund is liable for any deficits in these funds and provides transfers when cash is required, not when accruals occur. The deficit fund balances resulted from adjustments for accrued liabilities.

NOTE 4 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasury Asset Reserve of Ohio (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one-hundred-eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash on Hand

At fiscal year end, the District had \$1,300 in undeposited cash on hand which is included on the financial statements of the District as part of "equity in pooled cash and cash equivalents".

B. Cash with Fiscal Agent

At fiscal year end, the District had \$2,391,319 in cash and equivalents held by a trustee in accordance with the agreement for the issuance of the certificates of participation (COPs). This amount is included on the balance sheet and the statement of net assets as "cash with fiscal agent".

C. Deposits with Financial Institutions

At June 30, 2011, the carrying amount of all District deposits was \$18,458,481, exclusive of the \$1,860,000 repurchase agreement included in investments below. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2011, \$14,213,992 of the District's bank balance of \$18,954,276 was exposed to custodial risk as discussed below, while \$4,740,284 was covered by the FDIC.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 4 - DEPOSITS AND INVESTMENTS - (Continued)

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

D. Investments

As of June 30, 2011, the District had the following investments and maturities:

<u>Investment type</u>	<u>Fair Value</u>	Investment Maturities 6 months or less
Repurchase agreement	\$ 1,860,000	\$ 1,860,000
STAR Ohio	<u>144,487</u>	<u>144,487</u>
Total	<u>\$ 2,004,487</u>	<u>\$ 2,004,487</u>

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less, unless matched to a specific obligation or debt of the District.

Credit Risk: The District's investments in the federal agency securities that underlie the District's repurchase agreement, were rated AAA and Aaa by Standard & Poor's and Moody's Investor Services, respectively. Standard & Poor's has assigned STAR Ohio an AAAM money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's investment policy does not specifically address credit risk beyond requiring the District to only invest in securities authorized by State statute.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Of the District's investment in repurchase agreements, the entire balance is collateralized by underlying securities that are held by the investment's counterparty, not in the name of the District. Ohio law requires the market value of the securities subject to repurchase agreements must exceed the principal value of securities subject to a repurchase agreement by 2%. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held at June 30, 2011:

<u>Investment type</u>	<u>Fair Value</u>	<u>% of Total</u>
Repurchase agreement	\$ 1,860,000	92.79
STAR Ohio	<u>144,487</u>	<u>7.21</u>
Total	<u>\$ 2,004,487</u>	<u>100.00</u>

E. Reconciliation of Cash and Investments to the Statement of Net Assets

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net assets as of June 30, 2011:

<u>Cash and investments per note</u>	
Carrying amount of deposits	\$ 18,458,481
Investments	2,004,487
Cash on hand	1,300
Cash with fiscal agent	<u>2,391,319</u>
Total	<u>\$ 22,855,587</u>
 <u>Cash and investments per statement of net assets</u>	
Governmental activities	\$ 21,976,546
Business type activities	625,603
Private-purpose trust funds	13,856
Agency funds	<u>239,582</u>
Total	<u>\$ 22,855,587</u>

NOTE 5 - INTERFUND TRANSACTIONS

Interfund transfers for the fiscal year ended June 30, 2011, consisted of the following, as reported on the fund statements:

<u>Transfers from:</u>	<u>Transfer to:</u>	<u>Amount</u>
General fund	Nonmajor governmental funds	\$ 34,135
Nonmajor governmental funds	Nonmajor governmental funds	1,195,182

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Transfers between nonmajor governmental funds consisted of \$1,195,182 from the building capital projects fund to the debt service fund in order to cover a debt payment.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements.

All transfers were made in compliance with Ohio Revised Code Sections 5705.14, 5705.15 and 5705.16.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 6 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility property, and certain tangible personal (used in business) property located in the District. Real property tax revenues received in calendar year 2011 represent the collection of calendar year 2010 taxes. Real property taxes received in calendar year 2011 were levied after April 1, 2010, on the assessed values as of January 1, 2010, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2011 represent the collection of calendar year 2010 taxes. Public utility real and tangible personal property taxes received in calendar year 2011 became a lien on December 31, 2009, were levied after April 1, 2010, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax revenues received in the District's fiscal year ended June 30, 2011 (other than public utility property) generally represent the collection of calendar year 2010 taxes levied against local and inter-exchange telephone companies. Tangible personal property taxes received from telephone companies in calendar year 2010 were levied after October 1, 2009 on the value as of December 31, 2009. Amounts paid by multi-county taxpayers were due September 20, 2010. Single county taxpayers could pay annually or semiannually. If paid semiannually, the first payment was due April 30, 2010, with the remainder payable by September 20, 2010.

The District receives property taxes from Summit County. The County Fiscal Officer periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2011, are available to finance fiscal year 2011 operations. The amount available as an advance at June 30, 2011 was \$4,281,696 in the general fund, \$257,640 in the debt service fund (a nonmajor governmental fund) and \$148,698 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available for advance at June 30, 2010 was \$3,337,714 in the general fund, \$213,784 in the debt service fund (a nonmajor governmental fund) and \$114,344 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2011 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to unearned revenue.

On the accrual basis of accounting, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis of accounting the revenue has been deferred.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 9 - LONG-TERM OBLIGATIONS - (Continued)

Series 1993 School Improvement General Obligation Bonds

During 1993, the District issued general obligation bonds to provide for building improvements to the high school. During fiscal year 2005, the District refunded the callable portion of the outstanding bonds by issuing the Series 2003 refunding bonds described below. The remaining capital appreciation bonds matured on December 15, 2010.

Series 2003 Refunding General Obligation Bonds

On August 19, 2003, the District issued general obligation bonds (Series 2003 School Improvement Refunding bonds) to advance refund the callable portion of the Series 1993 School Improvement General Obligation Bonds (principal \$7,245,000; interest rate 7.10%). The issuance proceeds were used to purchase securities which were placed in an irrevocable trust to provide resources for all future debt service payments on the refunded debt. This refunded debt is considered defeased (in-substance) and accordingly, has been removed from the statement of net assets.

The refunding issue is comprised of both current interest bonds par value \$6,045,000, and capital appreciation bonds, par value \$1,199,964. The interest rate on the current interest bonds range from 2.0%-4.0%. The capital appreciation bonds mature on December 15, 2011 (stated interest 7.860%) at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The accreted value at maturity for the capital appreciation bonds is \$2,280,000. Total accreted interest of \$993,816 has been included on the statement of net assets.

The capital appreciation bonds are not subject to early redemption. The current interest bonds maturing on or after December 15, 2012 are subject to prior redemption on or after December 15, 2011 by and at the sole option of the District, at the following redemption prices, plus accrued interest:

<u>Redemption Dates</u>	<u>Redemption Price</u>
December 15, 2011 through December 14, 2012	101.0% of par
December 15, 2012 through December 14, 2013	100.5% of par
December 15, 2013 and thereafter	100.0% of par

Interest payments on the current interest bonds are due on June 15 and December 15 of each year. The final maturity for the current interest bonds is December 15, 2014.

Certificates of Participation

The certificates of participation (COPs) were issued to finance various construction projects throughout the District. The COPs range in interest rates from 2.25% - 5.00% and mature in fiscal year 2034.

NOTE 9 - LONG-TERM OBLIGATIONS - (Continued)

Energy Conservation Bonds

The energy conservation bonds were issued during fiscal year 2010. The proceeds were used to retire the energy conservation bond anticipation notes issued in fiscal year 2009. The notes were used to finance improvements throughout the District for the purpose of reducing future energy costs. These improvements are not capital in nature and were not added to the District's capital assets; therefore, the bonds are not included in the District's investment in capital assets, net of related debt. The bonds bear an interest rate ranging from 2.00% to 4.00% and mature on December 1, 2021. Debt payments will be made from the general fund from the savings on energy costs resulting from the improvements.

Qualified School Construction Bonds

The qualified school construction bonds were issued during fiscal year 2010. The proceeds will be used to finance various energy improvements throughout the District. The bonds bear an interest rate of 1.69%. Payments on the bonds, which mature on September 15, 2024, will be made from the general fund.

D. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2011, are a voted debt margin of \$58,673,379 (including available funds of \$3,828,701) and an unvoted debt margin of \$949,774.

NOTE 10 - CAPITALIZED LEASES - LESSEE DISCLOSURE

In July 2010, the District entered into a lease agreement to acquire copiers and copier equipment. Lease payments have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds.

Capital assets consisting of equipment have been capitalized in the amount of \$854,187. Accumulated depreciation as of June 30, 2011 was \$122,027, leaving a current book value of \$732,160. Principal and interest payments of \$156,260 and \$37,876, respectively, were paid from the general fund.

NOTE 11 - COMPENSATED ABSENCES

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees working 11 or 12 months per year are entitled to an annual vacation, with pay, based on length of service in the District. Accumulated unused vacation time is paid to employees upon termination of employment. Teachers and administrators working fewer than ten months per year do not earn vacation time. Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated for an unlimited number of days. For certified employees, payment is made at retirement for accumulated sick leave and is determined by taking one-fourth of the first 144 days and adding to that one day for every eight days in excess of 144 days to a maximum of 36 additional days of severance. Maximum severance in total is 72 days. For classified employees, payment is made at retirement for accumulated sick leave and is determined by taking one-fourth of the first 136 days and adding to that one day for every eight days in excess of 136 days to a maximum of 34 additional days of severance. Maximum severance in total is 68 days. See Note 2.J. for further detail on the financial reporting of the District's compensated absences.

NOTE 12 - RISK MANAGEMENT

A. General Insurance

The District is exposed to various risks of loss related to torts, theft, damage to or destruction of assets, errors and omissions, employee injuries, and natural disasters. The District has a comprehensive property and casualty policy with deductibles that vary from \$0 to \$50,000 depending on the type of coverage. The District's vehicle liability insurance policy limit is \$1,000,000 with a \$500 collision deductible. All Board Members, administrators and employees are covered under a District liability policy. The limits of this coverage are \$1,000,000 per occurrence, \$2,000,000 in aggregate, and an umbrella of \$10,000,000. Settled claims have not exceeded this commercial coverage in any of the past three years. There was no significant reduction in coverage from the prior year.

NOTE 12 - RISK MANAGEMENT - (Continued)

B. Fidelity Bond

The Treasurer is covered under a surety bond in the amount of \$50,000. Selected other employees are covered for faithful performance in the District's property and casualty liability policy for \$100,000, subject to a \$100 deductible.

C. Employee Health Insurance

The District has elected to provide employee medical, prescription and dental benefits through a self-insurance program. The District maintains a self-insurance internal service fund to account for and finance its uninsured risk of loss in this program. This plan provides a medical plan with a \$400 family and \$200 single deductible. A third party administrator reviews and processes all claims for payment. Medical Mutual of Ohio is the claims administrator for medical claims while Klais and Company is the third party administrator for dental and prescription only. The District purchases stop-loss coverage of \$125,000 per individual and \$4,714,295 in the aggregate.

The District pays into the self-insurance internal service fund for full-time medical and prescription drug family coverage \$1,363.82 per month for certified, classified and administrative employees. Single coverage full-time costs are \$622.03 for certified, classified and administrative employees. Employees are considered part-time if they work 17.5 or more hours per week for certified staff or 25 or more hours per week for classified staff and administrators and less than 35 hours per week. Part-time employees are eligible for family and single coverage. The premiums for part-time employees are prorated according to hours worked per week for certified employees and classified employees.

Dental coverage is also provided on a self-insured basis through the third party administrator, Klais and Company. There are two dental plans; Plan S and Plan T. For this coverage the District pays \$79.97 and \$119.55 per month under Plan S and Plan T, respectively, for family coverage and \$36.02 and \$51.00 per month under Plan S and Plan T, respectively, for single coverage for certified employees. Premiums for classified employees are prorated according to hours worked per 35-hour week with premiums ranging from \$4.00 to \$103.30 for family coverage and \$0.72 to \$44.00 for single coverage. Employees working 17.5 or more hours per week for certified staff or 25 hours per week for classified and administrative staff are eligible for dental coverage. The District is responsible for payment of all claim amounts in excess of the employee payment percentages of fixed rates established in each plan.

The premiums are paid by the funds that pay the salary for the employees, except for those grant funds whose agreements do not fund employee health insurance, and is based on historical cost information.

The District also provides prescription drug insurance to its employees through a self-insured program. The District pays the cost of prescription drug above the employee co-payment for a 34 day supply. The employee co-payment for a 34 day supply is: generic \$15, preferred \$20 and non-preferred \$25. The District pays the cost of mail order prescriptions above the employee co-payment for a 90 day supply. The employee co-payment for a 90 day mail order supply is: generic \$25, preferred \$35 and non-preferred \$45. The third party administrator, Klais and Company, reviews and processes the claims. The premium for this coverage is included in the medical plan premium amounts stated above.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 12 - RISK MANAGEMENT - (Continued)

The claims liability of \$719,910 reported in the internal service fund at June 30, 2011, is based on an estimate provided by the third party administrators and the requirements of GASB Statement No. 10, “Accounting and Financial Reporting for Risk Financing and Related Insurance Issues”, as amended by GASB Statement No. 30, “Risk Financing Omnibus”, which requires that a liability for unpaid claims costs, including estimates of costs relating to incurred but not reported claims, be accrued at the estimated ultimate cost of settling the claims. Changes in claims activity for the past two fiscal years are as follows:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2011	\$ 894,945	\$ 6,321,147	\$ (6,496,182)	\$ 719,910
2010	802,923	8,169,972	(8,077,950)	894,945

Post employment health care is provided to plan participants or their beneficiaries through the respective retirement systems discussed in Note 14. As such, no funding provisions are required by the District.

D. Workers’ Compensation

For fiscal year 2011, the District participated in the Ohio Bureau of Workers’ Compensation (Bureau) Individual Retrospective Rating program. In the program, the District assumes a portion of the risk in return for a reduction in premium. The total premium to be paid is a combination of the minimum premium, all medical costs, indemnity, and any remaining reserves (not to exceed the claim limit and aggregate premium percentage limit) at the end of the 10 year liability period. Since the program is retrospective in nature, the 2011 premium will be paid in 2012 after total medical and indemnity costs are known for 2011. The minimum premium percentage is 46% of the experience modified premium determined by the Bureau of Workers Compensation. The District selected an individual claim limit of \$200,000 and a maximum premium percentage of 150% of the experience rated premium. The District contracted with Sheakley Uniservice, Inc. for claims management service and CareWorks for medical care management services.

The District’s Workers’ Compensation program is accounted for in the general fund which pays for all claims, claim reserves and administrative costs of the program. The general fund generates revenues by charging each fund a percentage rate determined by the Bureau for the payroll during the reporting period.

The claims liability is recorded based on an actuarial determination of future claims, review of five years of claim liabilities and claim payment trends including the settlement to the Bureau after the tenth year. The change in claims activity for the past fiscal year is as follows:

<u>Fiscal Year</u>	<u>Beginning Balance</u>	<u>Current Year Claims</u>	<u>Claims Payments</u>	<u>Ending Balance</u>
2011	\$ -	\$ 29,920	\$ (22,583)	\$ 7,337

NOTE 13 - PENSION PLANS

A. School Employees Retirement System

Plan Description - The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "*Media/Financial Reports*".

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2011, 11.77 percent and 0.04 percent of annual covered salary was the portion used to fund pension obligations and death benefits, respectively. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations and death benefits to SERS for the fiscal years ended June 30, 2011, 2010 and 2009 were \$890,217, \$998,339 and \$704,240, respectively; 51.57 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

B. State Teachers Retirement System of Ohio

Plan Description - The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio website at www.strsoh.org, under "*Publications*".

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

NOTE 13 - PENSION PLANS - (Continued)

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For fiscal year 2011, plan members were required to contribute 10 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2011, 2010 and 2009 were \$4,014,133, \$4,042,798 and \$3,904,683, respectively; 82.24 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009. Contributions to the DC and Combined Plans for fiscal year 2011 were \$142,651 made by the District and \$101,894 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2011, certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

NOTE 14 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Plan Description - The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Section 3309.69 of the Ohio Revised Code. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B premium for calendar year 2011 was \$96.40 and SERS' reimbursement to retirees was \$45.50. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "Media/Financial Reports".

NOTE 14 - POSTEMPLOYMENT BENEFITS - (Continued)

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For 2011, 1.43 percent of covered payroll was allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the statewide SERS-covered payroll for the health care surcharge. For fiscal year 2011, the actuarially determined amount was \$35,800.

Active members do not contribute to the postemployment benefit plans. The Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2011, 2010 and 2009 were \$228,248, \$148,323 and \$426,776, respectively; 51.57 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2011, this actuarially required allocation was 0.76 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2011, 2010, and 2009 were \$57,287, \$59,369 and \$58,106, respectively; 51.57 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

B. State Teachers Retirement System of Ohio

Plan Description - The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org, under "Publications" or by calling (888) 227-7877.

Funding Policy - Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2011, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2011, 2010 and 2009 were \$308,779, \$310,984 and \$300,360, respectively; 82.24 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 15 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the financial position of the District.

B. Litigation

In the normal course of operations, the District may be subject to litigation and claims. While the outcome of such matters cannot presently be determined, management believes that their ultimate resolution will not have a material adverse effect on the financial statements.

NOTE 16 - SET-ASIDES

The District is required by State statute to annually set-aside in the general fund an amount based on a statutory formula for the purchase of textbooks and other instructional materials and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. These amounts must be carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year-end set-aside amounts for textbooks and capital improvements. Disclosure of this information is required by State statute.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 16 - SET-ASIDES - (Continued)

The District had qualifying disbursements during the fiscal year that reduced the textbook set-aside amount to below zero. Effective July 1, 2011, the textbook set-aside is no longer required and has been removed from existing law. This negative balance is therefore not being presented as being carried forward to the future fiscal year. Although the District had qualifying disbursements during the fiscal year that reduced the set-aside amount to below zero for the capital improvements set-aside, this amount may not be used to reduce the set-aside requirement for future fiscal years. The negative balance is therefore not presented as being carried forward to future fiscal years.

During fiscal year 2005, the District issued \$20,810,000 in capital related certificates of participation. These proceeds may be used to reduce the capital improvements set-aside amount to below zero for future years. The District is responsible for tracking the amount of the proceeds that may be used as an offset in future periods, which was \$20,810,000 at June 30, 2011.

NOTE 17 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and,
- (d) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2011

NOTE 17 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	<u>General fund</u>
Budget basis	\$ (3,399,919)
Net adjustment for revenue accruals	934,338
Net adjustment for expenditure accruals	(515,476)
Net adjustment for other sources/uses	774,994
Funds budgeted elsewhere	(83,744)
Adjustment for encumbrances	1,138,632
GAAP basis	<u>\$ (1,151,175)</u>

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the uniform school supplies fund, rotary fund, Co-Op Compact fund, public school support fund and special trust fund.

NOTE 18 - COOPERATIVE AGREEMENT

In 2004, the City of Hudson and the District entered into a cooperative agreement to dedicate 13.5 percent of the revenues that are collected annually from an additional 1 percent municipal income tax levy to provide for the acquisition, construction, equipping, furnishing, financing, and the operation and maintenance of Community Learning Centers. The District is considered the owner of the improvements to the Community Learning Centers. The agreement shall remain for so long as a portion of the municipal income tax is being levied for the purpose of providing dedicated tax revenues, or for such time as debt issued to finance costs associated with the Community Learning Centers is outstanding, whichever period ends later.

The City of Hudson shall make payments to the District in an amount sufficient to enable the District to make timely debt service payments on the Certificates of Participation that were issued by the District to finance improvement costs associated with the Community Learning Centers. The City of Hudson shall also make payments to the District in which the funds will be applied to pay costs of improvements to the Community Learning Centers, as detailed in the agreement. The District received \$1,260,719 from the City of Hudson during fiscal year 2011 as a result of this agreement. This revenue is reported in the debt service nonmajor governmental fund.

FUND DESCRIPTIONS

GENERAL FUND

The general fund is used to account for and report all financial resources not accounted for and reported in another fund. These activities include, but are not limited to, general instruction, pupil services, operation and maintenance of facilities, student transportation, and administration.

Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis):

Uniform School Supplies - To account for the purchase and sale of school supplies for use in the District. Profits derived from such sales are used for school purposes or activities connected with the school.

Rotary - This fund is used to account for the District's activities for which a fee is charged to users for goods and services.

Co-Op Compact - Rotary fund to account for elementary school language arts class fees.

Public School Support - This fund accounts for school site sales projects; field trips, assemblies and other activity costs. These funds have been developed at each school with purpose and policy statements.

Special Trust - Special fund that is used to account for contributions for school district programs that are not restricted in use.

NONMAJOR SPECIAL REVENUE FUNDS

The special revenue funds are established to account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specified purposes. A description of the District's special revenue funds are as follows:

Other Grants - This fund accounts for the proceeds of specific revenue sources except for State and federal grants that are legally restricted to expenditures for specified purposes.

Athletic and Music - This fund accounts for gate receipts and other revenues from athletic events and all costs (except supplemental coaching contracts) of the District's athletic programs.

Auxiliary Services - This fund is used to account for monies which provide services and materials to pupils attending non-public schools within the District.

Management Information Systems - This fund accounts for State monies which are used solely for costs associated with the requirements of the educational management information system.

Data Communications - This fund accounts for money appropriated for Ohio Educational Computer Network Connections.

Other State Grants - A miscellaneous fund to account for certain State grants not accounted for in other funds.

Education Jobs Grant - This fund accounts for restricted Federal grant monies to assist schools in providing educational and related services for early childhood, elementary and secondary education. This fund did not have any activity on cash-basis during fiscal year 2011, therefore a budget and actual (non-GAAP budgetary basis) schedule has not been presented.

Race to the Top - To account for federal funds received from the Race to the Top grant.

Title VI-B - This fund accounts for federal revenues which assist states in the identification of handicapped children and provision of full educational opportunities of handicapped children at the pre-school, elementary and secondary levels.

Education Stabilization - Grant from the American Recovery and Reinvestment Act (ARRA) in State Fiscal Stabilization Funds (SFSF) to help stabilize state and local budgets in order to minimize and avoid reductions in education and other essential services.

FUND DESCRIPTIONS

NONMAJOR SPECIAL REVENUE FUNDS (CONTINUED)

Stimulus Title II D - Grant focus on professional development and student learning. Through sustained, collaborative, job-embedded professional development and the use of research-based methods, teachers will experience new models and strategies for teaching and learning.

Title I-G Stimulus - Federal grant fund used to provide resources in order to raise substantially the achievement of students in the District's lowest performing schools.

Nutrition Education & Training - To account for federal grant monies used to encourage the effective dissemination of scientifically valid information to children participating or eligible to participate in the school lunch and related nutrition programs.

Title III - Used to account for federal grant monies provided to develop and carry out elementary and secondary school programs, including activities at the preschool level, to meet the educational needs of children of limited English proficiency.

Title I - To provide financial assistance to State and local educational agencies to meet the special needs of educationally deprived children.

Drug-Free Grant - This fund accounts for federal revenues for education of students and staff in drug abuse prevention.

EHA Preschool Grant - A federal grant that addresses the improvement and expansion of services for handicapped children ages three to five years.

Classroom Reduction - To account for grant monies used for the hiring of additional classroom teachers in grades one through three, so that the number of students per teacher will be reduced.

Other Federal Grants - This fund accounts for various monies received through State agencies from the federal government or directly from the federal government which are not classified elsewhere.

Food Service - To account for monies received and used that are related to the food service operations of the District.

Other Special Revenue - A fund used to account for the proceeds of specific revenue sources, except for State and federal grants that are legally restricted for specified purposes.

NONMAJOR DEBT SERVICE FUND

The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

CAPITAL PROJECTS FUNDS

The capital projects funds account for the receipts and disbursements of monies used for the acquisition, construction or major renovation of capital facilities (other than those financed by enterprise funds).

NONMAJOR CAPITAL PROJECTS FUNDS

Building - This fund is used to account for the receipts and expenditures involved in the construction and replacement of facilities for the instruction of students. A portion of the proceeds from the sale of certificates of participation are paid into this fund. Expenditures recorded here represent the costs of acquiring and improving capital facilities.

**HUDSON CITY SCHOOL DISTRICT
SUMMIT COUNTY, OHIO**

FUND DESCRIPTIONS

NONMAJOR CAPITAL PROJECTS FUNDS (CONTINUED)

Permanent Improvement - The permanent improvement fund may be used for acquiring real estate for school purposes; for constructing, adding to, remodeling and improving school buildings. Such expenditures shall add permanently to the school land or buildings, or extend the useful life of existing buildings for five years or more. The fund may also be used for landscaping and making other school site improvements which have an anticipated useful life of five years or more.

MAJOR ENTERPRISE FUND

The enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. The District's major enterprise fund is the community education fund which accounts for all the financial activities related to the community education and recreation center operations.

INTERNAL SERVICE FUND

The internal service fund is used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the District, on a cost-reimbursement basis. The internal service fund accounts for operations of the District's self-insurance program for medical and dental benefits.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into two classifications: private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results of operations.

PRIVATE-PURPOSE TRUST FUND

The private-purpose scholarship fund accounts for monies set-aside from endowments for scholarships for students enrolled in the District. The principal and income from such a fund may be expended.

AGENCY FUNDS

Student Activities - This fund accounts for resources that belong to the student bodies of the various schools; accounting for sales and other revenue generating activities.

Six District Educational Compact - To account for the activity of the Six District Compact for which the District is the fiscal agent.
