Lawrence Township

Financial Condition As of December 31, 2011

Together with Auditor's Report

Dave Yost · Auditor of State

Board of Trustees Lawrence Township 5828 Manchester Ave North Lawrence, Ohio 44666

We have reviewed the *Report of Independent Accountants* of Lawrence Township, Stark County, prepared by Kevin L. Penn, Inc., for the audit period January 1, 2011 through December 31, 2011. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Lawrence Township is responsible for compliance with these laws and regulations.

REPORT OF INDEPENDENT ACCOUNTANTS

To the Board of Trustee Lawrence Township Stark County

I have audited the accompanying financial statements of the governmental activities and each major fund, and the aggregate remaining fund information of Lawrence Township, Stark County, Oho (the Township), as of and for the year ended December 31, 2011 which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township's management. My responsibility is to express an opinion on these financial statements based on our audit.

I conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

As discussed in Note 2, the Township has prepared these financial statements using a cash basis of accounting. These practices differ from accounting principles generally accepted in the United States of America.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities and each major fund and the aggregate remaining fund information of the Township as of December 31, 2011 and the respective changes in cash financial position and the respective budgetary comparison for the General Fund , Gasoline Tax, Police Funds, Ambulance and Emergency Medical Services, Fire Funds and the Road District Fund thereof for the year then ended in conformity with the basis of the accounting Note 2 describes.

In accordance with Government Auditing Standards, I have also issued my report dated April 4, 2012, on my consideration of the Township's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our testing of internal controls over financial reporting and compliance and the results of testing. It does not opine on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards. You should read it in conjunction with this report in assessing the results of my audit.

The Management's Discussion and Analysis, is not a required part of the financial statements but is supplemental information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, consisting principally of inquires of management regarding the methods of measuring and presenting the required supplementary information. However, I did not audit the information and express no opinion on it.

Kevin L. Penn, Inc.

April 4, 2012

This discussion and analysis of the Ohio Local Government's financial performance provides an overall review of the Government's financial activities for the year ended December 31, 2011, within the limitations of the Government's cash basis accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the Government's financial performance.

<u>Highlights</u>

Key highlights for 2011 are as follows:

Net assets of governmental activities increased \$221,247 or 14.8 percent, a change from the prior year. The fund most affected by the increase in cash and cash equivalents was the Ambulance and EMS Fund. The Government's general receipts are primarily property taxes. These receipts represent respectively \$1,816,723 and 66 percent of the total cash received for governmental activities during the year.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the Government's cash basis of accounting.

Report Components

The statement of net assets and the statement of activities provide information about the cash activities of the Government as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the Government as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide explanation and detail regarding the information reported in the statements.

Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The Government has elected to present its financial statements on a cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the Government's cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the cash basis of accounting.

Reporting the Government as a Whole

The statement of net assets and the statement of activities reflect how the Government did financially during 2011, within the limitations of cash basis accounting. The statement of net assets presents the cash balances and investments of the governmental activities of the Government at year end. The statement of activities compares cash disbursements with program receipts for each governmental program activity. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts.

These statements report the Government's cash position and the changes in cash position. Keeping in mind the limitations of the cash basis of accounting, you can think of these changes as one way to measure the Government's financial health. Over time, increases or decreases in the Government's cash position is one indicator of whether the Government's financial health is improving or deteriorating. When evaluating the Government's financial condition, you should also consider other nonfinancial factors as well such as the Government's property tax base, the condition of the Government's capital assets and infrastructure, the extent of the Government's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property and income taxes.

In the statement of net assets and the statement of activities, the Government's activities are described as follows:

Governmental activities. Most of the Government's basic services are reported here, including police, fire, road, and zoning. State grants and property taxes finance most of these activities. Benefits provided through governmental activities are not necessarily paid for by the people receiving them.

Reporting the Government's Most Significant Funds

Fund financial statements provide detailed information about the Government's major funds – not the Government as a whole. The Government establishes separate governmental funds to better manage its many activities and to help demonstrate that money that is restricted as to how it may be used is being spent for the intended purpose.

Governmental Funds - Most of the Government's activities are reported in governmental funds. The governmental fund financial statements provide a detailed view of the Government's governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the Government's programs. The Government's significant governmental funds are presented on the financial statements in separate columns. The information for nonmajor funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The Government's major governmental funds are the General Fund, Road District Fund, Police Fund, Fire Fund, Gasoline Tax Fund and Ambulance and Emergency Medical Services Reserve Fund. The programs reported in governmental funds are closely related to those reported in the governmental activities section of the entity-wide statements. We describe this relationship in reconciliations presented with the governmental fund financial statements.

The Government as a Whole

Table 1 provides a summary of the Government's net assets for 2010 compared to 2011 on a cash basis:

	2010	2011
Assets		
Cash and Cash Equivalents	\$ 1,269,456	\$ 1,490,703
Total Assets	\$ 1,269,456	\$ 1,490,703
Net Assets		
Restricted for:		
Capital Projects	\$ 31,765	\$ 30,905
Debt Service	900	900
Special Revenue	927,040	1,137,100
Unrestricted	309,751	321,798
Total Net Assets	\$ 1,269,456	\$ 1,490,703

As mentioned previously, net assets of governmental activities increased \$221,247 or 15 percent during 2011. The primary reasons contributing to the increases in cash balances are as follows:

- Increase in Revenue from the Ambulance and EMS Fund
- FEMA Grant received by the Fire Department.

Table 2 reflects the changes in net assets in 2011 in comparative analysis with 2010.

(Table 2)

Changes in Net Assets

	2010	2011
Receipts:		
Program Receipts:		
Charges for Services and Sales	\$ 73,265	\$ 75,107
Operating Grants and Contributions		1,550
Total Program Receipts	73,265	76,657
General Receipts:		
Property and other local taxes	1,882,334	1,816,723
Fines, Forfeitures, and Penalties	9,379	14,045
Licenses, Permits and Fees	8,531	14,543
Intergovernmental Receipts	677,894	661,954
Interest	1,636	1,708
Miscellaneous	171,634	160,839
Total General Receipts	2,751,408	2,669,812
Total Receipts	2,824,673	2,746,469
Disbursements:		
General Government	310,478	312,747
Security of Persons and Property	1,390,315	1,421,278
Public Works	761,751	607,455
Health	42,432	43,876
Conservation - Recreation	7,438	958
Capital Outlay	173,062	135,308
Principal Retirement	3,600	3,600
Total Disbursements	2,689,076	2,525,222
Increase (Decrease) in Net Assets	135,597	221,247
Net Assets, January 1,	1,133,859	1,269,456
Net Assets, December 31,	\$ 1,269,456	\$ 1,490,703

Program receipts represent 87 percent of total receipts and are primarily comprised of restricted intergovernmental receipts such as levied taxes, motor vehicle license and gas tax money, and building permits.

General receipts represent 13 percent of the Government's total receipts, and of this amount and 27 percent are local taxes. Miscellaneous receipts, which include inheritance tax, and local government distributions make up the balance of the Government's general receipts. Other receipts are very insignificant and somewhat unpredictable revenue sources.

Disbursements for General Government represent the overhead costs of running the Government and the support services provided for the other Government activities. These include the costs of trustees, the fiscal office, zoning, and maintenance departments. Since these costs do not represent direct services to residents, we try to limit these costs to 15 percent of General Fund unrestricted receipts.

Security of Persons and Property are the costs of police and fire protection; and Transportation is the cost of maintaining the roads.

Governmental Activities

If you look at the Statement of Activities on page 10, you will see that the first column lists the major services provided by the Government. The next column identifies the costs of providing these services. The major program disbursements for governmental activities are for security of persons and property, and capital outlay which account for 64 percent of all governmental disbursements. General government also represents a significant cost, about 12 percent. The next three columns of the Statement entitled Program Receipts identify amounts paid by people who are directly charged for the service and grants received by the Government that must be used to provide a specific service. The net Receipt (Disbursement) column compares the program receipts to the cost of the service. This "net cost" amount represents the cost of the service which ends up being paid from money provided by local taxpayers. These net costs are paid from the general receipts which are presented at the bottom of the Statement. A comparison between the total cost of services and the net cost is presented in Table 3.

	Total Costs of Services 2011	Net Costs of Services 2011
General Government	\$ 312,747	\$ (312,747)
Public Safety	1,421,278	(1,344,621)
Public Works	607,455	(607,455)
Health	43,876	(43,876)
Conservation - Recreation	958	(958)
Capital Outlay	135,308	(135,308)
Principal Retirement	3,600	(3,600)
Total Expenses	\$ 2,525,222	\$ (2,448,565)

The Government's Funds

Total governmental funds had receipts of \$2,746,469 and disbursements of \$2,525,222.

General Fund Budgeting Highlights

The Government's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During 2011, the Government amended its General Fund budget several times to reflect changing circumstances. The difference between final budgeted receipts and actual receipts was not significant.

Final disbursements were budgeted at \$431,643 while actual disbursements were \$371,089. The Government kept spending very close to budgeted amounts as demonstrated by the minor reported variances.

Capital Assets and Debt Administration

Capital Assets

The Government does not currently keep track of its capital assets and infrastructure.

Debt

At December 31, 2011 the Government's outstanding debt included \$600 in general obligation bonds issued for land.

Current Issues

The challenge for all Governments is to provide quality services to the public while staying within the restrictions imposed by limited, and shrinking, funding. We rely heavily on local taxes and have very little industry to support the tax base.

Contacting the Government's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the Government's finances and to reflect the Government's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to Cynthia Meismer, Fiscal Officer, Lawrence Township, 5828 Manchester Ave.N.W.,North Lawrence, Ohio 44666.

<u>Note 1 – Reporting Entity</u>

Lawrence Township, Stark County, Ohio, is a body politic and corporate established in 1815 to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The Township is directed by a publicly elected three-member Board of Trustees. The Township also has an elected Township Clerk.

The reporting entity is comprised solely of the primary government.

A. Primary Government

The primary government consists of all funds, departments, boards and agencies that are not legally separate from the Township. The Township provides general governmental services, including road and bridge, maintenance, zoning services, police and fire protection, and emergency medical services. The Township contracts with the North Lawrence Volunteer Fire Department to provide fire protection and emergency medical services to the southwestern portion of the township.

Note 2 – Summary of Significant Accounting Policies

As discussed further in Note 2.C, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. In the government-wide financial statements and the fund financial statements for the proprietary funds, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989, have been applied, to the extent they are applicable to the cash basis of accounting, unless those pronouncements conflict with or contradict GASB pronouncements, in which case GASB prevails. Following are the more significant of the Township's accounting policies.

A. Basis of Presentation

The Township's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the Township as a whole. These statements include the financial activities of the primary government. The Township only has governmental activities. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions.

The statement of net assets presents the cash balance governmental activities of the Township at year end. The statement of activities compares disbursements with program receipts for each of the Township's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the Township is responsible.

Note 2 – Summary of Significant Accounting Policies (continued)

Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function activity is self-financing on a cash basis or draws from the Township's general receipts.

Fund Financial Statements

During the year, the Township segregates transactions related to certain Township functions or activities in separate funds to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Township at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column.

B. Fund Accounting

The Township uses fund accounting to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are used to segregate resources that are restricted as to use. The funds of the Township are all governmental funds.

Governmental Funds

The Township classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants), and other nonexchange transactions as governmental funds. The Township's major governmental funds are the General Fund, Police Fund, Fire Fund, Road District Fund, Gasoline Tax Fund and Ambulance and Emergency Medical Services.

<u>The General Fund</u> is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the Township for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>The Road District Fund</u> is used to account for a portion of property tax revenue received and used for the purpose of maintaining Township roads.

<u>The Police District Fund</u> is used to account for the portion of property tax revenue received and used for the purpose of maintaining the Township police department.

<u>The Fire District Fund</u> is used to account for the portion of property tax revenue received and used for the purpose of providing fire protection services for the Township.

<u>The Gasoline Tax Fund</u> is used to account for the portion of revenue received and used for the purpose of maintaining Township roads.

<u>The Ambulance and Emergency Medical Services</u> fund is used to account for portion of revenue received and used for the purpose of operating, managing and maintaining ambulance and emergency medical services in the Township.

Note 2 - Summary of Significant Accounting Policies (continued)

C. Basis of Accounting

The Township's financial statements are prepared using the cash basis of accounting. Except for modifications having substantial support, receipts are recorded in the Township's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the Township are described in the appropriate section in this note.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

D. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations ordinance, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Township may appropriate.

The appropriations ordinance is the Township's authorization to spend resources and sets limits on disbursements plus encumbrances at the level of control selected by the Township. The legal level of control has been established by the Township at the fund function object level. Budgetary modification may only be made by resolution of the Board at the legal level of control. Budgetary statements are presented beyond that legal level of control for information purposes only.

The certificate of estimated resources may be amended during the year if projected increases or decreases in receipts are identified by the Township Clerk. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts reported of estimated resources in effect at the time final appropriations were passed by the Township.

The appropriations ordinance is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation ordinance for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Township during the year.

E. Cash and Investments

Investments are included in the fund cash balances. Accordingly, purchases of investments are not recorded as disbursements, and sales if investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or disbursements, respectively.

Note 2 - Summary of Significant Accounting Policies (continued)

E. Cash and Investments (continued)

During 2011, the Township invested in an overnight repurchase agreement. Repurchase agreements (overnight sweep) are valued at cost. The Township's repurchase agreement investment is \$1,510,000, the amount reported by First Merit on December 31, 2011.

Interest earnings are allocated to Township funds according to State statutes, grant requirements, or debt related restrictions. Interest receipts to the General Fund during 2011 was \$1,283.

F. Restricted Assets

Cash, cash equivalents and investments are reported as restricted when limitations on their use change the nature or normal understanding of their use. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments, or imposed by law through constitutional provisions or enabling legislation.

G. Inventory and Prepaid Items

The Township reports disbursements for inventories and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

H. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

I. Interfund Receivables/Payables

The Township reports advances-in and advances-out for interfund loans. These items are not reflected as assets and liabilities in the accompanying financial statements.

J. Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the Township's cash basis of accounting.

K. Employer Contributions to Cost-Sharing Pension Plans

The Township recognizes the disbursement for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 7 and 8, the employer contributions include portions for pension benefits and for postretirement health care benefits.

Note 2 – Summary of Significant Accounting Policies (continued)

L. Long-Term Obligations

The Township's cash basis financial statements do not report liabilities for bonds or other long-term obligations. Proceeds of debt are reported when the cash is received and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither another financing source nor capital outlay expenditure are reported at inception. Lease payments are reported when paid.

M. Net Assets

Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include resources restricted for special revenue funds.

The Township's policy is to first apply restricted resources when an obligation is incurred for purposes for which both restricted and unrestricted net assets are available.

Restricted net assets total \$1,490,703.

N. Fund Balance Reserves

The Township reserves any portion of fund balances which is not available for appropriation or which is legally segregated for a specific future use. Unreserved fund balance indicates that portion of fund balance which is available for appropriation in future periods. Fund balance reserves have been established for encumbrances.

<u>Note 3 – Budgetary Basis of Accounting</u>

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the General Fund, Police Fund, Fire Fund and Road District Fund, are prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis) rather than as a reservation of fund balance (cash basis). The encumbrances outstanding at year end (budgetary basis) amounted to \$15,642 for the General Fund; \$60,475 for the Gasoline Tax Fund; \$49,793 for the Police Funds; \$30,419 for the Fire Funds; \$117,450 for the Road Funds; \$750 for the Ambulance & Emergency Medical Services Fund and \$25,840 for Other Governmental Funds.

Note 4 – Deposits and Investments

The Township adopted the provisions of GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. This new standard revised the existing requirements regarding disclosure of custodial credit risk and establishes requirements for disclosures regarding credit risk, concentration of credit risk, interest rate risk, and foreign currency risk.

A. Deposits

State statutes classify monies held by the Township into three categories.

Active deposits are public deposits necessary to meet demands on the treasury. Such monies must be maintained either as cash in the Township's Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Township has identified as not required for use within the current two year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

At year-end, the carrying amount of the Township's deposits was (\$19,297) and the bank balance was \$13,592.

Custodial Credit Risk

Custodial Credit Risk is the risk that, in the event of a bank failure, the Township's deposits may not be returned. The Township's policy is to place deposits with major local banks approved by the Board. Multiple financial institution collateral pools that insure public deposits must maintain collateral in excess of 105 percent of deposits, as permitted by Chapter 135 of the Ohio Revised Code. As of year-end, deposits totaling \$13,592 were covered by Federal Depository Insurance.

Note 4 – Deposits and Investments (continued)

B. Investments

State Statute, and Board resolutions authorize the Township to invest in obligations of the U. S. Treasury, agencies and instrumentalities, certificates of deposit, repurchase agreements, money market deposit accounts, municipal depository funds, super NOW accounts, sweep accounts, separate trading of registered interest and principal of securities, mutual funds, bonds and other obligations of this State, and the State Treasurer's investment pool. Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the Township and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

The Township has a formal investment policy. The objective of this policy shall be to maintain liquidity and protection of principal while earning investment interest. Safety of principal is the primary objective of the investment program. The Township follows GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, and records all its investments at fair value.

Interest Rate Risk

As a means of limiting its exposure to fair value of losses caused by rising interest rates, the Township's investment policy requires those funds which are not operating reserve funds to be invested in investments with a maximum term of one year or the Township's operating cycle. For investments of the Township's operating reserve funds, the maximum term can be up to three years. The intent of the policy is to avoid the need to sell securities prior to maturity.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The Township has no investment policy that would further limit its investment choices.

Concentration of Credit Risk

Generally, the Township places no limit on the amount it may invest in any one insurer. The Township's deposits in financial institutions represents 100 percent of its deposits.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Township has no investment policy dealing with investment custodial risk beyond the requirements in ORC 135.14(M)(2) which states, "Payment for investments shall be made only upon the delivery of securities representing such investments to the treasurer, investing authority, or qualified trustee.

Note 4 – Deposits and Investments (continued)

Reconciliation of cash and cash equivalents and investments is as follows:

	Cash and Cash
	<u>Equivalents * Investments</u>
Per Statement of Net Assets	\$1,490,703 \$1,510,000
Repurchase Agreement	0 (19,297)
Per GASB Statement No. 3	\$ <u>1,490,703 \$1,490,703</u>

* Includes Petty Cash.

<u>Note 5 – Property Taxes</u>

Property taxes include amounts levied against all real property, public utility property, and tangible personal property located in the Township. Real property tax receipts received in 2011 represent the collection of 2010 taxes. Real property taxes received in 2011 were levied after October 1, 2010, on the assessed values as of January 1, 2010, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31; with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax receipts received in 2011 represent the collection of 2010 taxes. Public utility real and tangible personal property taxes received in 2010 became a lien on December 31, 2010, were levied after October 1, 2010, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Tangible personal property tax receipts received in 2011 (other than public utility property) represent the collection of 2010 taxes. Tangible personal property taxes received in 2011 were levied after October 1, 2010, on the true value as of December 31, 2010. Tangible personal property is currently assessed at 25 percent of true value for capital assets and 23 percent for inventory. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, the first payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

The County is responsible for assessing property, and for billing, collecting, and distributing all property taxes on behalf of the Township.

The full tax rate for all Township operations for the year ended December 31, 2011, was \$13.8 per \$1,000 of assessed value. The assessed values of real property, public utility property, and tangible personal property upon which 2011 property tax receipts were based are as follows:

Real Property	
Residential and Agriculture	\$153,584,360
Other	5,157,140
Public Utility Property	
Personal	4,189,240
General Property	0
Total Assessed Value	<u>\$162,930,740</u>

Note 6 – Risk Management

The Township is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. During 2011 the Township contracted with the Ohio Government Risk Management Plan (The "Plan"), an unincorporated non-profit association with approximately 600 governmental entity members providing a formalized, jointly administered self-insurance risk management program and other administrative services.

Pursuant to Section 2744.081 of the Ohio Revised Code, the Plan is deemed a separate legal entity. The Plan provides property, liability, errors and omissions, law enforcement, automobile, excess liability, crime, surety and bond, inland marine and other coverage, modified for each member's needs. The Plan pays judgments, settlements and other expenses resulting from covered claims that exceed the members' deductible.

The Plan uses conventional insurance coverages and reinsures this coverage. The Plan retains 5% of the premium and losses on the first \$500,000 casualty treaty (up to \$25,000. of a loss) and 5% of the first \$1,000,000 property treaty (up to \$50,000. of a loss). The Plan also participates in a loss corridor in its first \$500,000 casualty reinsurance. The corridor includes losses paid between 55% and 65% or premiums earned under this treaty. (Reinsurance coverage would resume after a paid loss ration of 65% is exceeded.) The individual members are only responsible for their self-retention (deductible) amounts, which vary from member to member. The Township obtained insurance coverage for the following areas, comprehensive property and general liability: vehicles: and public officials' liability.

The Township also provides health insurance to full-time employees through a commercial insurance provider.

Coverage provided by The Ohio Plan is as follows:

Legal Liability	\$5,000,000	Per Occurrence
Automobile Liability	\$5,000,000	Per Occurrence
Law Enforcement Operations	\$5,000,000	Per Occurrence
Wrongful Acts	\$5,000,000	Per Occurrence
Property	\$4,088,250	Total Coverage
Boiler and Machinery	\$4,088,250	Limit

There were no significant reductions in coverage from prior years and claims have not exceeded insurance coverage in any of the past three years. The Township pays the State Workers' Compensation System a premium based on a rate of .032831 of employee salaries with the exception of fire and police whose rate is .302561. This rate is based on accident history and administrative costs.

Note 7 – Defined Benefit Pension Plan

A. Ohio Public Employees Retirement System

The Township participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings.

Note 7 – Defined Benefit Pension Plan (continued)

The combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member directed plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the traditional and combined plans. Members of the member directed plan do not qualify for ancillary benefits. Township to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642 or by calling (614) 222-6705 or (800) 222-7377.

For the year ended December 31, 2011, the members of all three plans, except those in law enforcement or public safety participating in the traditional plan, were required to contribute 10.00 percent of their annual covered salaries. Members participating in the traditional plan who were in law enforcement contributed 10.1 percent of their annual covered salary; members in public safety contributed 9 percent. The Township's contribution rate for pension benefits for 2011 was 14.00 percent, except for those plan members in law enforcement or public safety. For those classifications, the Township's pension contributions were 17.63 percent of covered payroll. The Ohio Revised Code provides statutory Township for member and employer contributions.

The Township's required contributions for pension obligations to the traditional and combined plans for the years ended December 31, 2011, 2010, and 2009 were \$199,461, 198,160 and \$179,920 respectively. The full amount has been contributed for 2011, 2010 and 2009. Contributions to the member-directed plan for 2011 were \$118,978 made by the Township and \$69,686 made by Township for the plan members, and \$10,797 made by employees.

Note 8 - Postemployment Benefits

A. Ohio Public Employees Retirement System

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Tradition Pension Plan- a cost sharing, multiple-employer defined benefit pension plan; the Member - Directed Plan- a defined contribution plan; and the Combined Plan- a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple employer defined benefit post-employment healthcare plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age-and service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available.

The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 45.

Note 8 - Postemployment Benefits (continued)

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642 or by calling (614) 222-6705 or (800) 222-7377.

The Ohio Revised Code provides the statutory authority requiring public employers to fund post retirement health care through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2011, state and local employers contributed at a rate of 14% of covered payroll and public safety and law enforcement employers contributed at 17.87%. The Ohio Revised Code currently limits the e employer contribution to a rate not to exceed 14.0% of covered payroll for state and local employer units and 18.1% of covered payroll for law and public safety employer units. Active members do not make contributions to the OPEB Plan.

OPERS' Post Employment Health Care plan was established under and is administrated in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to health care for members in the Traditional Plan was 5.5% from January 1 through February 28, 2011 and 5% for March I through December 31, 2011. The portion of employer contributions allocated to health care for members in the Combined Plan was 4.73% from January I through February 28, 2011, and 4.23% from March 1 through December 31, 2011. The OPERS Board of Trustees is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

On September 9, 2004, the OPERS Retirement Board adopted a Health Care Preservation Plan (HCPP) with an effective date of January 1, 2007. Member and employer contribution rates for state and local employers increased as of January 1, of each year from 2006 to 2008. Rates for law and public safety employers increased over a six year period beginning January 1, 2006, with a final rate increase January 1, 2011. These rate increases allowed additional funds to be allocated to the health care plan

Note 9 – Debt

The Township's long-term debt activity for the year ended December 31, 2011, was as follows:

General Obligation Bonds	Interest Rate	Balance ember 31, 2010	Additions	Re	eductions	De	Balance ecember 31, 2011	e Within me Year
2003 Issue (\$30,000.)	-	\$ 4,200		\$	3,600	\$	600	\$ 600
		\$ 4,200	\$ 0	\$	3,600	\$	600	\$ 600

The Township purchased real estate from the Stark County to expand and house its road maintenance operation for a purchase price of \$30,000. The Township has agreed to provide for payments of not less than three hundred dollars per month for a term of one hundred months.

Note 9 – Debt (continued)

The following is a summary of the Township's future annual debt service requirements:

Year	Principal	Interest
2012	\$ 600	\$-
	\$ 600	\$-

Note 10 – Jointly Governed Organizations

The Stark Council of Governments (Council) is a statutorily created political subdivision of Ohio for the purpose for providing a permanent forum for discussion and study of concerns of the county, cities, villages and townships for development of policies and programs for implementation by one or more of the local governing bodies. The Council is jointly governed among municipalities and townships located in Stark County. Each member's control over the operation of the Council is limited to its representation on the Board which consists of 27; members. The Board exercises total control over Council operations. Complete financial statements may be obtained from the Stark Council of Governments, Canton, Ohio.

Note 11 – Transfers

Following is a summary of transfers in and out for all funds for 2011:

<u>Fund</u>	<u>Transfer In</u>	Transfer Out
General Fund	\$	\$ 21,976
Police Fund	6,976	
Other Governmental Funds	15,000	
Total	<u>\$ 21,976</u>	<u>\$ 21,976</u>

Transfers are used to move revenues from funds that statute or budget requires to collect them to the funds that statue or budget requires to expend them; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; to return money to the fund from which it was originally provided once a project is completed; and to transfer capital assets. Money transferred out in 2011 was money from the General Fund.

Note 12 – Fund Balance

Fund balance is divided into two classifications based primarily on the extent to which the Township must observe constraints imposed upon the use of its governmental-fund resources. The classifications are as follows:

1. Restricted

Fund balance is *restricted* when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

Note 12 - Fund Balance (continued)

2. Unassigned

Unassigned fund balance is the residual classification for the general fund and includes amounts not included in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The Township applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards

To the Board of Trustee Lawrence Township Stark County

I have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Lawrence Township as of and for the year ended December 31, 2011, and have issued my report thereon dated April 4, 2012. I conducted my audit in accordance with generally accepted auditing standards in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. My report on the financial statements disclosed that, as described in Note 2 to the financial statements, the Township prepares its financial statements on a prescribed basis of accounting that demonstrates compliance with the cash basis and budget laws of Ohio, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Township's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of opining on the effectiveness of the Township's internal control over financial reporting. Accordingly, I have not opined on the effectiveness of the Township's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the Township's financial statements will not be prevented, or detected and timely corrected.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider material weaknesses, as defined above.

Compliance and Other Matters

As part of reasonably assuring whether the Township's financial statements are free of material misstatement, I tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and accordingly, I do not express an opinion. The results of my tests disclosed no instances of noncompliance or other matters I must report under Government Auditing Standards.

I noted certain matters that I reported to management of the Township's in a separate letter dated April 4, 2012.

This report is intended solely for the information and use of management, and those charged with governance and is not intended to be and should not be used by anyone other than these specified parties.

Kevin L. Penn, Inc.
