## INDEPENDENT ACCOUNTANTS' REPORT

Delaware City School District  
Delaware County  
248 North Washington Street  
Delaware, Ohio 43015

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Delaware City School District, Delaware County, Ohio (the District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Delaware City School District, Delaware County, Ohio, as of June 30, 2012, and the respective changes in financial position thereof and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated February 6, 2013, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The federal awards receipts and expenditures schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133. *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The federal awards receipts and expenditures schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

For the Fiscal Year Ended June 30, 2012

(Unaudited)

---

The discussion and analysis of the Delaware City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2012. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the financial statements and notes to the basic financial statements to enhance their understanding of the School District's financial performance.

## Financial Highlights

Key financial highlights for fiscal year 2012 are as follows:

- Total net assets increased by 39.1 percent from fiscal year 2011 due primarily to the additional taxes receivable associated with the property tax levy approved November 8, 2011 as well as the increase reported for general capital assets.
- Total assets of governmental activities increased by \$8.1 million (10.6 percent) from one year prior. The emergency levy property tax levy (8.3 mill) approved resulted in an increase in property taxes receivable of nearly \$6.0 million compared with those reported for the prior year. General capital assets increased by \$1.6 million as current year additions exceeded depreciation expense. Total liabilities increased by \$3.0 million which was due to the increase in unearned revenue reported at June 30, 2012 associated with additional property tax receivable reported for the current fiscal year.
- General revenues accounted for \$50.2 million or 86.5 percent of total revenue. Program specific revenues in the form of charges for services, as well as operating grants and contributions account for \$7.8 million or 13.5 percent of total revenues of \$58.0 million. Total revenue reported for fiscal year 2012 was \$3.8 million more than the amount reported for the prior year. Property tax revenue for the year increased by \$4.7 million due to additional levy millage approved which was partially offset by decreases in state and federal funding received for fiscal year 2012.
- Of the School District's \$53.0 million in expenses, only \$7.8 million were offset by program specific charges for services, grants or contributions. General revenues and unrestricted net assets were used to cover the net expense of \$45.1 million.
- The General Fund, the School District's most significant fund, had an ending fund balance of \$5.4 million or 50.3 percent of the total ending fund balance for governmental funds. The other two major funds, the Debt Service and Permanent Improvement Funds, had \$2.0 million or 18.9 percent and \$2.6 million or 24.5 percent of the total ending fund balance for government funds, respectively.

## Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Delaware City School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the whole School District, presenting both an aggregated view of the School District's finances and a longer-term view of those statements. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds with all other nonmajor funds presented in total in one column. While the General Fund is by far the most significant fund at Delaware City School District, individual fund statements are also presented for the Debt Service and Permanent Improvement Funds since local property and other taxes are paid into these funds.

## **Reporting the School District as a Whole**

### *Statement of Net Assets and the Statement of Activities*

While this document contains a large number of funds used by the School District to provide programs and activities, the view of the School District as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2012?" The Statement of Net Assets and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those net assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District reports governmental activities. Governmental activities are the activities where most of the School District's programs and services are including, but not limited to, instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities. The School District does not have any business-type activities.

## **Reporting the School District's Most Significant Funds**

### *Fund Financial Statements*

The analysis of the School District's funds begins after the statement of activities. The School District uses many funds to account for a multitude of financial transactions. All the funds of the School District can be divided into two categories: governmental and fiduciary funds. The School District does not have any funds which are classified as proprietary. The fund financial statements focus on the School District's most significant funds, and therefore only the major funds are presented separate from the other funds. For fiscal year 2012, the School District has three major governmental funds: the General, Debt Service and Permanent Improvement Funds.

## Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

## Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected in the district-wide financial statements because the resources of those funds are not available to support programs of the School District. The accounting used for fiduciary funds is much like that in the district-wide financial statements.

## **The School District as a Whole**

Recall that the Statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for 2012 compared to 2011:

Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2012  
(Unaudited)

The amount by which the School District's assets exceeded its liabilities is called net assets. As of June 30, 2012, the School District's total net assets were \$18.1 million. Of that amount, approximately \$9.1 million was invested in capital assets, net of debt related to those assets. Another \$3.7 million was subject to external restrictions upon its use. The remaining \$5.3 million was unrestricted and available for future use as directed by the Board of Education and the School District's Administration. The increase in unrestricted net assets resulted primarily from the approval of an 8.3 mill, emergency operating property tax levy in November 2011 which generates approximately \$5.5 million of additional annual tax revenue. In addition, in September 2011 the Board of Education adopted appropriations for fiscal year 2012 which resulted in expense for the year being approximately \$2.0 million less than those reported in the prior year.

Total assets increased by \$8.1 million at June 30, 2012 compared to one year prior as property taxes receivable increased due to the additional tax levy approved and capital asset additions exceeded current year depreciation expense. Total liabilities increased by \$3.0 million over fiscal year 2011 amounts due to the increase in unearned revenue associated with the additional property taxes receivable for the year.

Table 2 shows the changes in net assets for fiscal year 2012 as compared to those for fiscal year 2011.

## Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 (Unaudited)

The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. Property taxes made up 55.7 percent of the total revenue for governmental activities for the Delaware City School District for fiscal year 2012 compared with 51 percent for fiscal year 2011. Property tax revenue increased by \$4.7 million due primarily to the emergency operating levy approved in November 2011. Operating grants decreased by \$583,268 as funding provided through ARRA programs ended shortly into fiscal year 2012. Unrestricted grants decreased by \$914,803 as the School District received less state foundation funding in the current fiscal year under the new funding method than it did in the prior year.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services for each function for fiscal year 2012 as compared with fiscal year 2011.

**TABLE 3**  
**TOTAL AND COST OF PROGRAM SERVICES**  
**GOVERNMENTAL ACTIVITIES (in 000's)**

	2012		2011	
	Total Cost of Service	Net Cost of Service	Total Cost of Service	Net Cost of Service
Instruction	\$ 30,027	\$ 25,905	\$ 31,349	\$ 26,366
Support Services:				
Pupil and Instructional Staff	5,110	4,649	5,621	4,947
Board of Education, Administration, Fiscal and Business	4,553	3,957	4,603	4,409
Plant Operation and Maintenance	4,339	4,243	4,548	4,511
Pupil Transportation	3,223	3,061	3,375	3,259
Central	265	265	152	147
Operation of Non-Instructional Services	2,002	39	1,781	50
Extracurricular Activities	1,174	763	1,167	867
Unallocated Depreciation	947	947	950	950
Interest and Fiscal Charges	1,320	1,320	1,378	1,378
Total Expenses	<u>\$ 52,960</u>	<u>\$ 45,149</u>	<u>\$ 54,924</u>	<u>\$ 46,884</u>

Total expenditures of the School District decreased by 3.6 percent in fiscal year 2012 compared with the previous year. The majority of the School District's functional areas are driven by the cost of personnel (wages and fringe benefits). The efforts to maintain costs are affected by annual wage adjustments and the ever increasing cost of providing employees the necessary fringe benefits. Prior to the approval of the additional tax levy in November 2011, the School Board adopted appropriations under existing estimates of revenues resulting in the decrease in operating expenses reported for the fiscal year.

As shown in Table 3 above, not only did total expenses decrease for fiscal year 2012, the net cost of service also decreased by \$1.7 million compared with those reported for the prior fiscal year. In the current year, general revenues of the School District were responsible for \$45.1 million of the total program expenses compared to \$46.9 million in the prior year. This decrease, along with increased revenue reported for the year, allowed for additional funds to be added to unrestricted net assets reported at June 30, 2012 which can be used to finance program expenses in future fiscal years.

## Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 (Unaudited)

---

Unallocated depreciation represents current period depreciation charges associated with capital assets that are utilized by several different functions, typically school buildings and related improvements throughout the District. Depreciation expense on specific assets of a functional area is included in the expense reported for those functions.

### **The School District's Funds**

Governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$57.4 million and expenditures of \$57.3 million. The net change in fund balance was most significant in the General Fund, an increase of \$2.5 million due to the previously mentioned additional tax levy. Total General Fund revenue increased by \$3.7 million over amount reported for 2011; only approximately one-half of the anticipated annual increase in tax receipts associated with the new levy was received in the current year. The overall fund balance reported in the General Fund increased to \$5.4 million, of which approximately \$4.9 million was reported as unassigned. The ending unassigned fund balance of the general fund at June 30, 2012 represents 11.1 percent of the total general fund expenditures reported for the fiscal year.

Of the remaining two major funds, the Debt Service Fund reported a \$47,852 increase in fund balance and the Permanent Improvement Fund reported a \$64,515 increase in fund balance for fiscal year 2012.

### **General Fund Budgeting Highlights**

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

For the General Fund, budget basis revenue was \$43 million as compared to the original budget estimates of \$39.4 million. Total actual expenditures on the budget basis (cash outlays plus encumbrances) were \$43.2 million, or less than 1.0 percent more than what was originally budgeted. Remember, the original budget for the fiscal year was adopted prior to the approval of the emergency tax levy in November 2011 which produced the additional revenue realized during the fiscal year.

As the budget for the General Fund is amended throughout the fiscal year for unanticipated revenues and expenditures, the final amended budget amounts approximate the actual budgetary results realized by the School District.

### **Capital Assets**

At the end of fiscal year 2012, the School District had \$38.6 million invested in land, buildings, furniture and equipment, vehicles, and textbooks and library books in governmental activities. Table 4 shows fiscal year 2012 balances compared to 2011, however for greater detail readers should review Note 9 to the basic financial statements.

Total Net Capital Assets	<u>\$ 38,648,356</u>	<u>\$ 37,051,192</u>

Overall, net capital assets increased \$1.6 million from fiscal year 2011. This increase in net capital assets results from the current year acquisition of capital assets being a greater amount than current year depreciation expense.

Significant capital asset acquisitions by the School District during the fiscal year included; construction in progress associated with energy conservation project throughout the District (\$2.4 million), the roofing project at Willis Intermediate School (\$182,204), and purchase of three new school buses and two additional vehicles (\$338,881). Total capital asset additions for the year were valued at \$3.1 million with depreciation expense for the year reported at \$1.5 million.

Cost associated with repair and maintenance of the School District's facilities and other assets that do not extend the useful life of the capitalized item, is included within the plant operation and maintenance function.

### **Debt Administration**

At June 30, 2012, the School District had four general obligation bond issues outstanding with a combined outstanding principal of \$28.6 million, of which \$2.4 million is due within one year. Three of the outstanding bond issues were used to advance refund portions of school construction bonds issued in the 1990's to achieve savings on reduced debt service payments in the future. Total principal payments made on all bond issues during fiscal year 2012 were \$2.4 million.

During the fiscal year, the School District issued \$2.8 million in energy conservation notes to finance various building improvements throughout the District. These notes mature in fiscal year 2027 with \$155,370 being due within one year.

Other significant obligations include \$14,957 of capital lease obligations associated with copiers that are being utilized throughout the School District, and \$1.1 million of long-term compensated absences expected to be paid as severance payment to employees, but not in the near future.

Total long-term obligations of the School District were \$32.9 million at June 30, 2012 with approximately \$2.8 million being due within one year.

RECONCILIATION OF THE STATEMENTS OF REVENUES, EXPENDITURES  
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
FOR THE FISCAL YEAR ENDED JUNE 30, 2012

Net Change in Fund Balances - Total Governmental Funds \$ 2,940,561

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. The following represents the capital asset activity for the year.

Capital asset acquisition cost	3,136,488	
Current year depreciation	<u>(1,537,263)</u>	
Total		1,599,225

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal.

Loss on disposed of capital assets		(2,061)
------------------------------------	--	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Taxes	493,391	
Intergovernmental	<u>166,485</u>	
Total		659,876

In governmental funds, the issuance of debt is considered a source of financing, but in the statement of net assets, the debt obligations are reported as a liability.

(2,819,270)

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

General obligation bonds	2,370,000	
Capital leases	<u>57,197</u>	
Total		2,427,197

In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due.

(2,317)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Compensated absences	427,706	
Amortization of bond issuance costs	(26,991)	
Accreted interest on capital appreciation bonds	(139,763)	
Amortization of bond premium	150,789	
Amortization of deferred amount on refunding	<u>(121,591)</u>	
Total		<u>290,150</u>

Change in Net Assets of Governmental Activities \$ 5,093,361

Delaware County, Ohio

Notes to the Basic Financial Statements

For the Fiscal Year Ended June 30, 2012

### **NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY**

The Delaware City School District (School District) operates under a locally-elected five member board form of government and provides educational services mandated by state and, or federal agencies. This board controls the School District's eight instructional/support facilities staffed by 270 non-certificated employees and 398 certificated employees, including 27 administrative employees, to provide services to a student enrollment of 5,263 students.

The School District was established in 1871 through the consolidation of existing land areas and school districts and is organized under Section 2 and 3, Article VI of the Constitution of the State of Ohio. Under such laws, there is no authority for a school district to have a charter or adopt local laws. The legislative power of the School District is vested in the Board of Education, consisting of five members elected at large for staggered four-year terms.

The School District serves an area of approximately 41 square miles within Delaware County, including all of the City of Delaware, Ohio and portions of surrounding townships. The School District is the second largest in Delaware County in terms of enrollment. It currently operates five elementary schools, one intermediate school, one middle school and one comprehensive high school.

#### ***Reporting Entity***

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements of the School District are not misleading.

The primary government consists of all funds and departments, not legally separate from the School District, which provide various services including instruction, student guidance, extracurricular activities, educational media and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing body and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations for which the School District approves the budget, the issuance of debt or the levying of taxes.

The School District does not have any component units.

The District is associated with two organizations, which are defined as jointly governed. These organizations include the Tri-Rivers Educational Computer Association and the Delaware Area Career Center. These organizations are presented in Note 16 to the basic financial statements.

### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the Delaware City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) guidance effective on or before November 30, 1989, to its government-wide activities provided they do not conflict with or contradict GASB pronouncements. The more significant of the School District's accounting policies are described below.

#### ***A. Basis Of Presentation***

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

#### **Government-Wide Financial Statements**

The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of the governmental activities of the School District at year-end. The government-wide statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities.

Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

#### **Fund Financial Statements**

During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

#### ***B. Fund Accounting***

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental and fiduciary.

### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **Governmental Funds**

Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The General, Debt Service and Permanent Improvement Funds are the School District's major funds:

**General Fund** - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The general fund is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

**Debt Service Fund** – The Debt Service Fund is used to account for the accumulation of resources for, and the repayment of, the School District's general obligation debt, including the three school improvement bonds previously approved by voters within the School District's boundaries.

**Permanent Improvement Fund** – The Permanent Improvement Fund is used to account for financial resources, specifically property and other local taxes generated by the District's permanent improvement levy, to be used to maintain the School District's facilities, as well as provide for major equipment and instructional material purchases.

The other governmental funds of the School District account for grants and other resources, and capital projects of the School District whose uses are restricted to a particular purpose.

#### **Fiduciary Funds**

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District has various funds established to provide scholarships to its students that are classified as private-purpose trust funds. Funds used to account for the activity of the numerous student managed activities within the School District are classified as agency funds.

#### ***C. Measurement Focus***

##### **Government-wide Financial Statements**

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the Statement of Net Assets.

### **NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

#### **Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Fiduciary funds are reported using the economic resources measurement focus.

#### ***D. Basis of Accounting***

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Private purpose trust funds use the accrual basis of accounting. Differences in the accrual and modified accrual bases of accounting arise in the recognition of revenue, the recording of deferred revenue and in the presentation of expenses versus expenditures.

#### **Revenues – Exchange and Non-exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. “Measurable” means the amount of the transaction can be determined, and “available” means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed to be both measurable and available: property taxes available as an advance, grants, investment earnings, tuition, and student fees.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2012, but which were levied to finance fiscal year 2013 operations, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

**Expenditures/Expenses**

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are recorded when the related liability is incurred, if measurable. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year. The costs of accumulated unpaid vacation and sick leave are reported as fund liabilities in the period in which they will be liquidated with available financial resources rather than in the period earned by the employee. Allocation of costs, such as depreciation and amortization, are not recognized in governmental funds.

The accrual basis of accounting utilized on the government-wide financial statements and by private purpose trust funds recognizes revenues when they are earned, and expenses are recognized at the time they are incurred.

***E. Budget Data***

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The Board has established the legal level of control at the fund, function, and object level within the individual funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue, are identified by the School District. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2012.

The appropriation resolution is subject to amendment by the Board throughout the school year with the restriction that appropriations may not exceed estimated revenues. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

***F. Cash and Cash Equivalents***

To improve cash management, cash received by the School District is pooled in a central bank account. Monies for all funds are pooled in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through the School District's records. Each fund's interest in the pool is presented on the balance sheet as "Equity in Pooled Cash and Cash Equivalents".

During fiscal year 2012, investments were limited to certificates of deposit and STAR Ohio.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts, such as repurchase agreements and nonnegotiable certificates of deposit, are reported at cost.

The School District has invested funds in the State Treasury Assets Reserves of Ohio (STAR Ohio) during fiscal year 2012. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2012.

For presentation purposes on the balance sheet, investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

The School District has allocated interest according to Ohio statutes. Interest revenue credited to the General Fund during fiscal year 2012 amounted to \$2,397, which includes \$847 assigned from other funds. Interest was also recorded in the debt service, permanent improvement, non-major and private purpose trust funds in the amounts of \$725, \$1,173, \$281 and \$663, respectively.

***G. Inventory***

On government-wide financial statements, inventories are presented at the lower cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when consumed rather than when purchased.

***H. Prepaid Items***

Payments made to vendors for services that will benefit periods beyond June 30, 2012, are recorded as prepaid items using the consumption method and recording a current asset for the prepaid amount and reflecting the expenditure in the year in which services are consumed.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

***I. Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

***K. Capital Assets and Depreciation***

General capital assets generally result from expenditures in the governmental funds. These assets are reported within the governmental activities on the government-wide statement of net assets but are not reported in the fund statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements throughout the year. Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of five thousand dollars. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives.

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements	20 to 50 years
Furniture and Equipment	8 to 20 years
Vehicles	10 years
Library and Text Books	5 to 15 years

***L. Interfund Activity***

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures or expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources and uses in governmental funds. Repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are not presented on the financial statements.

***M. Compensated Absences***

Vacation benefits are accrued as a liability as the benefits are earned when both of these conditions are met:

1. The employees' rights to receive compensation are attributable to services already rendered.
2. It is probable that the employer will compensate the employees for the benefits through paid time off or some other means, such as cash payments at termination or retirement.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

A liability for sick leave is accrued using the vesting method which states that the District will estimate its liability based on sick leave accumulated at the balance sheet date by those employees who currently are eligible to receive termination payments as specified by the retirement system as well as other employees who are expected to become eligible in the future to receive such payments. The amount is based on accumulated sick and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated sick leave for all employees after fifteen years of current service with the School District.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not reported.

***N. Accrued Liabilities and Long-Term Obligations***

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that once incurred are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year.

***O. Net Assets***

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws, or regulations of other governments.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

#### ***P. Fund Balance***

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance category includes amounts that cannot be spent because they are in spendable form, or legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District’s governing board. Those committed amounts cannot be used for any other purpose unless the governing board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the District’s governing board.

Unassigned – Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**NOTE 3 – FUND BALANCES**

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

<u>Fund Balances</u>	<u>General</u>	<u>Bond Retirement</u>	<u>Permanent Improvement</u>	<u>Nonmajor Governmental Funds</u>	<u>Total</u>

**NOTE 4 – ACCOUNTABILITY AND COMPLIANCE**

***A. Deficit Fund Balances***

At June 30, 2012, the Miscellaneous State Grants, Education Jobs and Title VI(B) Grant non-major special revenue funds reported fund deficits of \$1,699, \$50,400, and \$2,971, respectively. These deficits resulted from adjustments for accrued liabilities. Management expects the deficits in the above mentioned funds to be corrected in early fiscal year 2012. The general fund is liable for any deficit in other funds and provides operating transfers when cash is required, not when accruals occur.

***B. Appropriations in Excess of Estimated Resources***

Ohio Revised Code Section 5705.39 prohibits total appropriations from each fund from exceeding the total estimated resources of respective funds. Despite the restriction noted above, the original permanent appropriation measure adopted for fiscal year 2012 exceeded the total estimated resources by \$41,676 in the General Fund.

**NOTE 5 - BUDGETARY BASIS OF ACCOUNTING**

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual – General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis for the general fund are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the fund liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).
4. For GAAP reporting purposes, certain funds which are budgeted separately from the general fund, are reported as part of the general fund.

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

<u>Net Change in Fund Balance</u>	
<u>General Fund</u>	
GAAP Basis	\$ 2,476,682

### **NOTE 6 - DEPOSITS AND INVESTMENTS**

State statutes require the classification of monies held by the School District into three categories.

**Active Monies** – Those monies required to be kept in a “cash” or “near-cash” status for the immediate use of the district. Such monies must be maintained either as cash in the treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

**Inactive Monies** – Those monies not required for use within the current five-year period of designation of depositories. Inactive monies may be deposited or invested as certificate of deposit maturing no later than the end of the current period of designation of depositories, or as savings or deposit accounts including, but not limited to, passbook accounts.

**Interim Monies** – Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested in legal securities (see Note 2F).

#### Deposits

Custodial credit risk is the risk that in the event of bank failure, the School District’s deposits may not be returned to it. Protection of the School District’s deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the assets. By Ohio law, financial institutions must collateralize all public deposits. The face value of the pooled collateral must equal at least 105 percent of public funds on deposit with that specific institution. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end, the carrying amount of the School District’s deposits was \$361,891 and the bank balance was \$553,623; \$263,000 of the bank balance was covered by federal depository insurance and the remaining \$290,623 was covered by pledged collateral pools.

#### Investments

Investments are reported at fair value. As of June 30, 2012, the School District’s only investment was an equity interest in the STAROhio investment pool with a carrying value of \$9,849,911. Standards and Poor’s has rated the STAROhio investment pool “AAAm”.

The School District’s investment policy permits the purchase of any security specifically authorized by the Ohio Revised Code and includes the following:

*Custodial Credit Risk* – All investments shall be issued in the name of the School District.

*Concentration of Credit Risk* – Diversification shall ensure potential losses on individual securities do not exceed the income generated from the remainder of the initial investment.

**NOTE 7 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis. Second half distributions occur in a new fiscal year. Property taxes include amounts levied against all real, public utility and tangible personal property located in the School District. Real property taxes are levied after April 1 on the assessed value listed as of the prior January 1, the lien date. Public utility property taxes attached as a lien on December 31 of the prior year were levied April 1 and are collected with real property taxes. Assessed values for real property taxes are established by State Law at 35 percent of appraised market value. All property is required to be reevaluated every six years. Public utility property taxes are assessed on tangible personal property at 88 percent of true value (with certain exceptions) and on real property at 35 percent of true value. Tangible personal property taxes are levied after April 1 on the value listed as of December 31 of the current year. Tangible personal property assessments are 25 percent of true value. Tangible personal property tax on business inventory, manufacturing and equipment, furniture and fixtures is no longer levied and collected.

Real property taxes are payable annually or semi-annually. The first payment is due February 10, with the remainder payable by July 10.

The County Treasurer collects property taxes on behalf of all taxing districts in the County, including the Delaware City School District. The County Auditor periodically remits to the District its portion of the taxes collected. The full tax rate for all District operations for the year ended June 30, 2012 was \$76.38 per \$1,000 of assessed value. The assessed values upon which the fiscal year 2012 taxes were collected are as follows:

	<u>2012 First Half Collections</u>	<u>2011 Second Half Collections</u>
Agricultural/residential and other real estate property	\$ 670,334,220	\$ 703,647,190
Public utility personal property	<u>24,044,560</u>	<u>22,653,280</u>
Total	<u>\$ 694,378,780</u>	<u>\$ 726,300,470</u>

Property taxes receivables represent real and tangible personal property taxes, public utility taxes and outstanding delinquencies that are measurable as of June 30, 2012. Although total property tax collections for the next year are measurable, only the amount available as an advance at June 30 is intended to finance current year operations. For the governmental fund financial statements, the receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. The amount available as an advance at June 30, 2012 was recognized as revenue.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

**NOTE 8 - RECEIVABLES**

Receivables at June 30, 2012, consisted of current and delinquent property taxes, accounts (rent and student fees), and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. A summary of the principal items of intergovernmental receivables follows:

*General Fund:*

Unallocated depreciation	<u>947,128</u>
<b>Total Depreciation Expense</b>	<b><u>\$ 1,537,263</u></b>

Unallocated depreciation is depreciation of the individual school buildings throughout the District, which essentially serve all functions/programs, and therefore is not included as a direct expense of any function or program but disclosed as a separate expense.

**NOTE 10 - RISK MANAGEMENT**

The School District is exposed to various risks of loss related to torts, thefts-of, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2012, the School District contracted with the Ohio School Plan for general liability insurance with a \$1 million single occurrence and a \$3 million aggregate limit. Property is protected by Hartford Insurance and holds a \$1,000 deductible per occurrence. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage for any part of the last three years.

**NOTE 11 - DEFINED BENEFIT PENSION PLANS**

***A. School Employees Retirement System***

Plan Description - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at [www.ohsers.org](http://www.ohsers.org) under Employers/Audit Resources.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year ending June 30, 2012, the allocation to pension and death benefits is 12.70 percent. The remaining 1.30 percent of the 14 percent employer contribution rate

is allocated to the Health Care and Medicare B Funds. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2012, 2011 and 2010 were \$1,035,492, \$1,079,724 and \$1,126,224 respectively; 100.0 percent has been contributed for fiscal year 2012 and 2011; 66.7 percent has been contributed for fiscal year 2010.

***B. State Teachers Retirement System***

Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at [www.strsoh.org](http://www.strsoh.org).

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2012, plan members were required to contribute 10 percent of their annual covered salaries. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2011, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2012, 2011, and 2010 were \$3,043,008, \$3,176,904, and \$3,281,070 respectively; 82.3 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

***C. Social Security System***

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Retirement System. As of June 30, 2012, three members of the Board of Education have elected Social Security. The contribution rate is 6.2 percent of wages.

**NOTE 12 – POSTEMPLOYMENT BENEFITS**

***A. School Employee Retirement System***

Plan Description – The School District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2012, 0.55 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2012, this amount was \$104,409.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$145,089, \$248,475, and \$173,921 respectively; 100.0 percent has been contributed for fiscal year 2012 and 2011; 66.7 percent has been contributed for fiscal year 2010.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2012, this actuarially required allocation was 0.75 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2012, 2011, and 2010 were \$55,472, \$58,614, and \$61,138 respectively; 100.0 percent has been contributed for fiscal year 2012 and 2011; 66.7 percent has been contributed for fiscal year 2010.

***B. State Teachers Retirement System***

Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting [www.strsoh.org](http://www.strsoh.org) or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2012, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$217,358, \$226,922, and \$234,362 respectively; 82.3 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010.

**NOTE 13 – OTHER EMPLOYEE BENEFITS**

***Compensated Absences***

Accumulated Unpaid Vacation

District classified employees earn vacation leave at varying rates based upon negotiated agreements and State laws. In the case of death or retirement, an employee (or his estate) is paid for his unused vacation leave.

Accumulated Unpaid Sick Leave

District employees may accumulate sick leave. Upon retirement, payment is made for one-fourth of the total unused sick leave balance up to a maximum of sixty days for certified and classified employees. As of June 30, 2012, the District's total obligation for sick leave accrual as a whole was \$1,396,636.

**NOTE 14 - LONG-TERM OBLIGATIONS (Continued)**

Other Long-Term Obligations

Compensated absences represent the long-term portion of the accrued liability associated with sick and vacation leave. These items will be repaid from the funds from which the employees work to whom the liability is associated with or the General Fund if no such funds are available. The capital lease obligations are being repaid with revenues from the permanent improvement capital project fund.

**NOTE 15 - CAPITAL LEASES - LESSEE DISCLOSURE**

Prior to fiscal year 2012, the School District utilized a capitalized lease to finance the acquisition of several copiers for use throughout the District. The lease meets the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, "Accounting for Leases", which defines a capital lease generally as one which transfers benefits and risks of ownership to the lessee. Capital lease payments will be reflected as debt service expenditures in the basic financial statements for the governmental funds.

Capital assets acquired by lease have been capitalized in the statement of net assets for governmental activities in the amount of \$298,689, which is equal to the present value of the minimum lease payments at the time of acquisition. The corresponding liability was split between long-term liabilities due within a year and long-term liabilities due within more than one year on the statement of net assets for governmental activities. Principal payments in fiscal year 2012 totaled \$57,197.

The following is a schedule of the future long-term minimum lease payments required under the capital leases and the present value of the minimum lease payments as of June 30, 2012.

**NOTE 16 – JOINTLY GOVERNED ORGANIZATIONS**

*Tri-Rivers Educational Computer Association*

The School District is a participant in the Tri-Rivers Educational Computer Association (TRECA), which is a computer consortium. TRECA is an association of public schools within the boundaries of Delaware, Knox, Marion, Morrow, Muskingum, and Wyandot Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts.

The governing board of TRECA consists of one representative from each county elected by a majority vote of all charter member school districts within each county, one representative from the city school districts and the superintendent from Tri-Rivers Joint Vocational School. Financial information can be obtained from Mike Carder, who serves as Director, at 2222 Marion Mt. Gilead Road, Marion, Ohio 43302. The School District paid \$309,936 to TRECA during fiscal year 2012.

*Delaware Area Career Center*

The Delaware Area Career Center (Career Center) is a distinct political subdivision of the State of Ohio, which provides vocational education. The Career Center operates under the direction of a Board consisting of one representative from each of the ten participating school district's Board of Education. The degree of control exercised by the School District is limited to its representation on the Board. The Board possesses its own budgeting and taxing authority. Financial information can be obtained from the Treasurer's Office at 4565 Columbus Pike Road, Delaware, Ohio 43015.

**NOTE 17 - CONTINGENCIES**

Student Attendance Data/Grants

The Auditor of State is currently performing a statewide review of supporting documentation for student attendance data reported to the Ohio Department of Education. The results of this review are still pending and will be reported separately to the Ohio Department of Education at a later date.

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund or other applicable funds. This also encompasses the Auditor of State's ongoing review of student attendance data. However, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2012, if applicable, cannot be determined at this time.

Litigation

The School District is not currently party to any legal proceedings.

**NOTE 19 - SET-ASIDE CALCULATIONS**

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year-end or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end and carried forward to be used for the same purposes in future fiscal years.

The following cash basis information describes the change in the fiscal year-end set-aside amount for capital acquisition. Disclosure of this information is required by State statute.

	<u>Capital Improvements</u>
Set-aside Reserve Balance as of June 30, 2011	\$ -
Current Year Set-aside Requirement	862,725
Current Year Offsets	<u>(2,097,931)</u>
Total	<u>\$ (1,235,206)</u>
Balance Carried forward to FY 2013	<u>\$ -</u>
Set-aside Reserve Balance June 30, 2012	<u>\$ -</u>

Although the School District had qualifying disbursements during the year that reduced the set-aside below zero due to current year offsets, the extra amounts may not be used to reduce the set-aside requirements of future years.

## INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Delaware City School District  
Delaware County  
248 North Washington Street  
Delaware, Ohio 43015

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Delaware City School District, Delaware County, Ohio (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated February 6, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

### **Compliance and Other Matters**

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2012-01.

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

We intend this report solely for the information and use of management, the audit committee, the Board of Education, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

## INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Delaware City School District  
Delaware County  
248 North Washington Street  
Delaware, Ohio 43015

To the Board of Education:

### Compliance

We have audited the compliance of Delaware City School District, Delaware County, Ohio (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Delaware City School District's major federal programs for the year ended June 30, 2012. The *summary of auditor's results* section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to opine on the District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with these requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with these requirements.

In our opinion, the Delaware City School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2012.

### Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We noted a matter involving federal compliance or internal control over federal compliance not requiring inclusion in this report, that we reported to the District's management in a separate letter dated February 6, 2013.

We intend this report solely for the information and use of the audit committee, management, Board of Education, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

**Alcohol Expenditures – Finding for Recovery – Repaid Under Audit**

**State ex rel. McClure v. Hagerman, 155 Ohio St. 320 (1951)**, provides that expenditures made by a governmental unit should serve a public purpose. Typically the determination of what constitutes a “proper public purpose” rests with the judgment of the governmental entity, unless such determination is arbitrary or unreasonable.

REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS (Continued)**

**FINDING NUMBER 2012-01 - (Continued)**

**Alcohol Expenditures – Finding for Recovery – Repaid Under Audit (Continued)**

Even if a purchase is reasonable, Ohio Attorney General Opinion 82-006 indicates that it must be memorialized by a duly enacted ordinance or resolution and may have a prospective effect only. **Auditor of State Bulletin 2003-005 Expenditure of Public Funds/Proper “Public Purpose”** states that the Auditor of State’s Office will only question expenditures where the legislative determination of a public purpose is manifestly arbitrary and incorrect. The use of public funds to purchase alcohol will be considered arbitrary and incorrect and will be cited by the Auditor of State’s Office.

In November of 2010, Charles Swain traveled to Orlando, Florida to attend a NCTE conference. The table below designates meal and other reimbursements made by Delaware City School District to Charles Swain, for expenses incurred.

Check		Total	
Number	Date	Reimbursement	Alcohol
148563	12/15/2010	\$369.59	\$6.00

The \$6 reimbursement was for a receipt which included alcoholic purchases. Purchases of alcohol with public funds have been determined not to be a “proper public purpose” as described in Auditor of State Bulletin 2003-005.

In accordance with the forgoing facts, and pursuant to Ohio Revised Code Section 117.28, a Finding for Recovery for public money illegally expended is hereby issued against Charles Swain in the amount of six dollars (\$6), in favor of the Delaware City School District General Fund in the amount of \$6.

On December 12, 2012, \$6 was repaid in cash by Charles Swain and posted to the District's General Fund.

**Officials’ Response:**

Delaware City Schools takes the expenditure of public funds seriously and does not intentionally reimburse employees for the purchase of alcoholic beverages. The District will re-evaluate its expenditure reimbursement process to ensure that employees are only compensated for allowable purchases.
