The accompanying notes to this schedule are an integral part of this schedule.

#### NOTES TO FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED DECEMBER 31, 2012

#### 1) General

The accompanying Federal Awards of Receipts and Expenditures Schedule (the Schedule) presents the federal grant activity of Franklin County, Ohio (the County). The Schedule only reflects the federal awards of the primary government except for the Alcohol, Drug and Mental Health Board of Franklin County as this board was audited separately. See note 6 to the Schedule.

#### 2) Basis of Accounting

The accompanying Schedule is presented using the cash basis of accounting in which revenues are recognized when received and expenditures are recognized when paid. Therefore, some amounts presented in the Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. Amounts reported may also differ from other federal award reports the County submits directly to federal granting agencies or pass-through entities because the award reports may be presented for a different fiscal period, and/or may include cumulative (from prior years) data rather than data for the current year only.

#### 3) <u>Subrecipients</u>

The County passes-through to local governments or not-for-profit agencies (subrecipients) certain federal assistance received by the County directly from the federal awarding agency or from a pass-through entity. As described in note 2, the County records expenditures of federal awards to subrecipients when paid in cash.

The subrecipients have certain compliance responsibilities related to administering these federal programs. Under OMB Circular A-133, the County is responsible for monitoring subrecipients to help assure that federal awards are expended for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements, and that performance goals are achieved. The total amounts of federal assistance provided to subrecipients by the County for each federal program is summarized below:

#### NOTES TO FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED DECEMBER 31, 2012 (Continued)

#### 3) <u>Subrecipients</u> (Continued)

Program Title	Federal CFDA Number	Amounts Provided to Subrecipients
Supplemental Nutritional Assistance Program	10.561	\$ 477,750
Community Development Block Grant	14.218	3,205,956
Emergency Shelter Program	14.231	78,957
Home Investment Partnership Program	14.239	1,140,439
ARRA – Neighborhood Stabilization Program	14.256	1,756,431
Juvenile Justice and Delinquency Prevention Program	16.540	184,035
Violence Against Women Formula Grant	16.588	289,060
Edward Byrne Memorial Justice Assistance Grant	16.738	343,300
ARRA - Edward Byrne Memorial Justice Assistance Grant	16.804	30,866
Temporary Assistance for Needy Families (TANF)	93.558	4,398,267
Refugee and Entrant Assistance	93.566	1,471,088
Refugee and Entrant Assistance – Discretionary Grant	93.576	102,733
Refugee and Entrant Assistance – Targeted Assistance Grants	93.584	23,672
Social Services Block Grant	93.667	461,850
Interoperable Emergency Communications Grant Program	97.055	116,780
Homeland Security Grant Program	97.067	3,236,257

#### 4) Loan Programs

The County has established a revolving loan program to provide low-interest loans to rehabilitate homes for persons from low-moderate income households and to businesses to create jobs. The Federal Department of Housing and Urban Development (HUD) grants money for these loans to the County. The initial loan of this money is recorded as a disbursement on the accompanying Schedule of Federal Awards Expenditures (the Schedule). Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule. The County had the following loan balances outstanding at December 31, 2012, including delinquent loans of \$6,218,000:

Program Title	Federal CFDA Number	Loan Balances Outstanding
Community Development Block Grant	14.218	\$ 2,154,520
Home Investment in Affordable Housing	14.239	\$ 6,254,878

#### NOTES TO FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED DECEMBER 31, 2012 (Continued)

#### 5) Matching Requirements

Certain federal programs require the County to contribute non-federal funds (matching funds) to support the federally funded programs. The County has complied with the matching requirements (if applicable) for the major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings. Expenditures of matching funds are not included in the Schedule.

#### 6) Alcohol, Drug and Mental Health Board of Franklin County

The Schedule does not include the Alcohol, Drug and Mental Health Board of Franklin County (ADAMH) federal grant receipts and expenditures as they issued a separate audit report performed in accordance with OMB Circular A-133. The amounts of ADAMH federal receipts and expenditures for 2012 are summarized below:

Program Title	Federal CFDA Number	Cash Federal Receipts	Cash Federal Disbursements
Projects for Assistance in Transition from Homelessness	93.150	\$ 296,483	\$ 315,837
Substance Abuse and Mental Health Services Administration	93.243	48,000	48,000
Social Services Block Grant	93.667	1,019,368	798,349
State Children's Insurance Program	93.767	67,067	41,712
Medical Assistance Program	93.778	363,179	268,881
Block Grants for Community Mental Health Services	93.958	1,255,917	1,211,914
Block Grants for Prevention and Treatment of Substance Abuse	93.959	5,225,246	5,237,633
Total		\$ 8,275,260	\$ 7,922,326

#### 7) Job and Family Services

During fiscal year 2012, the County made allowable transfers of \$3,023,343 from the Temporary Assistance for Needy Families (TANF) (93.558) program to the Social Services Block Grant (SSBG) (93.667) program. The Schedule shows the County spent approximately \$28,557,410 on the TANF program. The amount reported for the TANF program on the Schedule excludes the amount transferred to the SSBG program. The amount transferred to the SSBG program is included as SSBG expenditures when disbursed. The following table shows the gross amount drawn for the TANF program during fiscal year 2012 and the amount transferred to the Social Services Block Grant program.

Temporary Assistance for Needy Families	\$ 31,580,753
Transfer to Social Services Block Grant	<u>(3,023,343</u> )
Total Temporary Assistance for Needy Families	<u>\$ 28,557,410</u>

#### NOTES TO FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED DECEMBER 31, 2012 (Continued)

#### 8) U.S. Department of Homeland Security

The County reported the following federal programs for the Homeland Security Cluster on the Schedule. Several programs for federal fiscal year 2011 were incorporated into the Homeland Security Grant Program (97.067) in accordance with the guidance from the U.S. Department of Homeland Security.

Program Title	Federal CFDA Number	Cash Federal Receipts	Cash Federal Disbursements
Urban Area Security Initiative	97.008	\$ 3,282,139	\$ 3,202,528
Citizen Corps	97.053	4,538	4,538
State Homeland Security Program	97.073	1,140,281	1,201,383
Total		\$ 4,426,958	\$ 4,408,449

#### 9) Ohio Department of Developmental Disabilities

During the calendar year, the Franklin County Board of Developmental Disabilities received a refund for eFMAP (ARRA) funds for the Medicaid Program (CFDA #93.778) in the amount of \$121,578.14 from the Ohio Department of Developmental Disabilities. This refund was a correction to the eFMAP percentage for four billing cycles during July and August 2009. This revenue is not listed on the County's Schedule since the underlying expenses occurred in prior reporting periods.

During the calendar year, the Franklin County Board of Developmental Disabilities received a settlement for the 2007 Cost Report from the Ohio Department of Developmental Disabilities for the Medicaid Program (CFDA #93.778) in the amount of \$417,086.96. The Cost Report settlement was for settlement of the difference between the statewide payment rate and the rate calculated based upon actual expenditures for Medicaid services. This revenue is not listed on the Schedule since the underlying expenses occurred in prior reporting periods.

Dave Yost · Auditor of State

#### INDEPENDENT AUDITOR' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Franklin County 373 South High Street, 26<sup>th</sup> Floor Columbus, Ohio 43215

To the Board of County Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate discretely presented component units and the aggregate remaining fund information of Franklin County, Ohio, (the County) as of and for the year ended December, 31, 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 27, 2013. Our reports refers to other auditors who audited the financial statements of Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. and ARC Industries, Inc., which are discretely presented component units, as described in our report on the County's financial statements. This report does not include the results of other auditors' testing of internal control over financial reporting or compliance and other matters that those auditors separately reported.

#### Internal Control over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Franklin County Independent Auditors' Report On Internal Control Over Financial Reporting And On Compliance And Other Matters Required By *Government Auditing Standards* Page 2

#### **Compliance and Other Matters**

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

#### Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### INDEPENDENT AUDITOR' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM, INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133, AND FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE

Franklin County 323 South Front Street Columbus, Ohio 43215

To the Board of County Commissioners:

#### Report on Compliance for Each Major Federal Program

We have audited Franklin County, Ohio (the County) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Franklin County's major federal programs for the year ended December 31, 2012. The *Summary of Audit Results* in the accompanying schedule of findings identifies the County's major federal programs.

#### Management's Responsibility

The County's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to opine on the County's compliance for each of the County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the County's major programs. However, our audit does not provide a legal determination of the County's compliance.

The County's basic financial statements include the operations of the Alcohol, Drug and Mental Health Board of Franklin County (ADAMH), which received \$8,275,260 in federal awards which is not included in the County's Federal Awards Receipts and Expenditure Schedule for the year ended December 31, 2012. Our audit of Federal awards, described below, did not include the operations of ADAMH because the component unit engaged to have a separate audit of its Federal award programs in accordance with OMB Circular A-133.

88 East Broad Street, Tenth Floor, Columbus, Ohio 43215-3506 Phone: 614-466-3402 or 800-443-9275 Fax: 614-728-7199 www.ohioauditor.gov Franklin County Independent Auditor' Report On Compliance With Requirements Applicable To Each Major Federal Program, Internal Control Over Compliance Required By Omb Circular A-133, And Federal Awards Receipts And Expenditures Schedule Page 3

#### **Opinion on Each Major Federal Program**

In our opinion, Franklin County complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2012.

#### Report on Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the County's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

#### Report on Federal Awards Receipts and Expenditures Schedule Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate discretely-presented component units and the aggregate remaining fund information of Franklin County, Ohio, (the County) as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated June 27, 2013, wherein we noted other auditors audited the financial statements of the Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. and ARC Industries, Inc., which are discretely presented component units. We conducted our audit to opine on the County's basic financial statements.

Franklin County Independent Auditor' Report On Compliance With Requirements Applicable To Each Major Federal Program, Internal Control Over Compliance Required By Omb Circular A-133, And Federal Awards Receipts And Expenditures Schedule Page 3

The accompanying federal awards receipts and expenditures schedule presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

**Introductory Section** 

**FISCAL SERVICES** 

June 27, 2013

#### **Citizens of Franklin County, Ohio:**

As Auditor of Franklin County, Ohio, (the County), I am pleased to present the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2012. This CAFR conforms to generally accepted accounting principles (GAAP) as applicable to local government entities. The report has been filed with the Auditor of State pursuant to Ohio Revised Code (ORC) Section 117.38. Responsibility for the accuracy of the data and the completeness and fairness of the presentation rests with the County's management. We believe the data is accurate in all material respects and fairly reflects the County's financial position and the results of its operations. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included.

In implementing the County's integrated, automated accounting system, consideration was given to incorporating sound internal controls. Internal controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition, and the reliability and accuracy of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of the controls should not outweigh their benefits. The accounting system encompasses appropriations, encumbrances, expenditures, revenues, payroll and capital assets and ensures the financial information generated is both accurate and reliable.

In County government, internal controls are enhanced through the separation of powers. The Commissioners, the Auditor and the Treasurer share the management and administration of the County's financial resources, providing an inherent system of checks and balances. Each of the County's elected officials and agency directors is responsible for internal controls over the cash collection function within their office. Some County offices and agencies hold money in bank accounts outside the County treasury. The individual offices and agencies are responsible for the transaction activity through and reconciliation of those accounts.

*U.S. Office of Management and Budget Circular A-133* requires an independent audit to be conducted annually. The audit, which includes procedures to fulfill federal Single Audit requirements, serves to maintain and strengthen the integrity of the County's accounting and budgetary controls. Included in this CAFR is the report of Dave Yost, Auditor of State. The State Auditor has issued an unqualified ("clean") opinion on the County's financial statements for the year ended December 31, 2012. The Single Audit, which meets not only Circular A-133 requirements but also those of the American Recovery and Reinvestment Act, is published under separate cover and can be obtained by sending a written request to the Franklin County Auditor, Fiscal Services Division, 373 South High Street, 21<sup>st</sup> Floor, Columbus, Ohio 43215-6310.

Management's Discussion and Analysis (MD&A) provides a narrative introduction, overview and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A begins on page 5, immediately following the Independent Accountants' Report.

#### Letter of Transmittal For the Year Ended December 31, 2012

Each year we also publish the Franklin County Popular Annual Report (PAFR) that provides significant financial information in a reader-friendly format. Unlike this CAFR, the PAFR does not conform to GAAP and should be used as a supplement to, not in place of, the CAFR. Both the CAFR and the PAFR can be accessed through the Internet on our web site at http://www.FranklinCountyAuditor.com.

#### Profile of Franklin County Government

Formed in 1803, Franklin County is a political subdivision of the State of Ohio and has only those powers conferred upon it by state law. The following offices respectively hold the primary responsibility for budgeting, accounting and cash management in Franklin County. Each officeholder is elected to a four-year term.

The three-member Board of Commissioners (the Commissioners) serves as the taxing authority, the contracting body and the chief administrator of public services. The Commissioners adopt and oversee the annual operating budget, approve expenditures and issue debt.

As the County's chief fiscal officer, the Auditor is responsible for maintaining accurate records of all money received by or paid out of the County treasury. As the tax assessor for all political subdivisions within the County, the Auditor is responsible for computing the taxing rates for real estate and manufactured homes as determined by proper taxing authorities and popular vote.

As the County's banker, the Treasurer serves as custodian and investment officer for County funds. The Treasurer collects real estate and manufactured homes taxes.

The financial statements contained within this CAFR include all funds, agencies, boards and commissions that are not legally separate and for which Franklin County (the primary government and reporting entity) is financially accountable. The County provides many services to its citizens including tax collection and distribution, civil and criminal justice systems, public safety, health assistance, human services, and road and bridge maintenance. The County also operates two public parking garages and several water supply and sewage treatment systems. The County does not operate schools or hospitals, nor is it responsible for refuse collection or fire safety services.

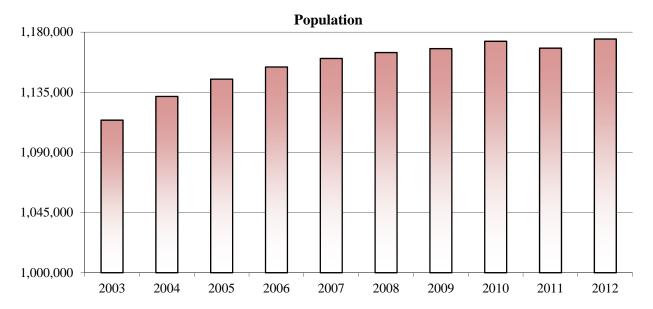

Organizations that are legally separate from the County are included as component units if the County's elected officials appoint a voting majority of the organization's governing body and (1) the County has the ability to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the County. The following entities are included in the financial statements as component units: ARC Industries, Veterans Memorial Hall and Stadium and Team. A complete discussion of the reporting entity is provided in Note 1 to the basic financial statements.

#### *Letter of Transmittal For the Year Ended December 31, 2012*

Note 19 to the basic financial statements presents information about joint ventures with the City of Columbus, including the Columbus/Franklin County Affordable Housing Trust Corporation, the Franklin Park Conservatory Joint Recreation District and the Columbus-Franklin County Finance Port Authority. Other related organizations are discussed in Note 20, including the Central Ohio Workforce Investment Corporation, the Columbus Metropolitan Library, the Columbus Metropolitan Housing Authority, the Columbus and Franklin County Metropolitan Park District, the Franklin County Family and Children First Council, the Franklin County Convention Facilities Authority, the Central Ohio Community Improvement Corporation, and Friends of the Shelter.

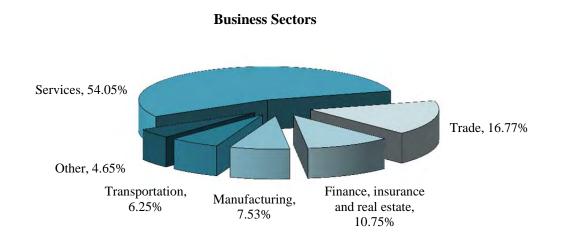

#### Economic Condition and Outlook

The County is located in central Ohio, within 500 miles of half the nation's population. The Mid-Ohio Regional Planning Commission has estimated the County's population to be 1,174,835 at December 31, 2012, an increase of 0.6 percent for the year and increase of 5.4 percent in the last ten years. Columbus, the largest city in the County, serves as the state capital and the county seat, and is home to The Ohio State University. The County encompasses 16 cities, 17 townships and 9 villages.

*Local Economy* Central Ohio is among the more economically stable metropolitan areas in the United States. The area has shown resiliency during recessions. The economy is broad-based, with no single industry dominating it. Nationwide Insurance and Limited Brands have located their headquarters and home offices in Franklin County. Other large employers include JPMorgan Chase Bank, OhioHealth Corp, Nationwide Mutual Insurance Company, and the Kroger Company. The chart below shows the proportionate number of employees in the various industries (excluding government), as reported by the U.S. Census Bureau, County Business Patterns for 2011.

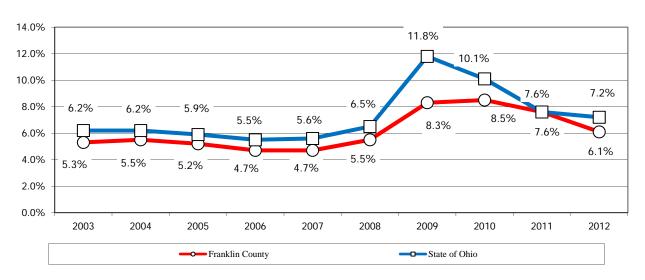

#### Letter of Transmittal For the Year Ended December 31, 2012

Government and education are also major employers. Together, the State of Ohio, City of Columbus and Franklin County employ 39,000 people. An additional 37,000 people are employed by either The Ohio State University or Columbus Public Schools.

The diversity of business sectors helps the region weather the economic fluctuations experienced on a larger scale elsewhere. The County's average unemployment rate decreased from 7.6 percent in 2011 to 6.1 percent in 2012. The County's unemployment rate is lower than the state average, which is 7.2 percent, and the national average of 8.1 percent.

A factor contributing to the lower unemployment rate is the County's well-educated workforce. Based on 2011 educational attainment data published by the U. S. Census Bureau, 89.6 percent of County residents ages 25 and older have graduated from high school, and 35.3 percent have completed four or more years of college.

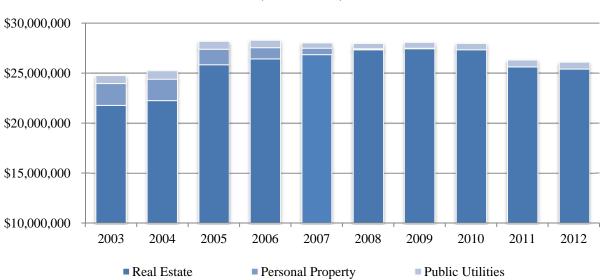

#### **Unemployment Rates**

During 2012, a sales tax of 6.75 percent was collected by the State of Ohio on sales made in Franklin County. The tax was split as follows: 5.50 percent for the State of Ohio; 0.75 percent for the County's General Fund; and 0.50 percent for the Central Ohio Transit Authority. The County receives no direct funding through income taxes.

Property taxes are a significant revenue source for the General Fund and these County agencies: Board of Developmental Disabilities, Children Services Board, the Alcohol, Drug and Mental Health Board and the Office on Aging.

The total value of new construction was \$398 million in 2012, with \$200 million in residential/ agricultural and \$198 million in commercial/industrial construction. In comparison, 2011 total new construction was \$438 million. Overall, real property continues to hold its value. The appraisal cycle is six years, with an update performed at the mid-point. The reappraisal performed in 2011 resulted in a decline in real property tax values.

In the past, tangible personal property used in business (including inventory) was assessed for tax purposes. This tax has been phased out. However, for a temporary period, the State of Ohio is reimbursing the County for tax losses related to the phased elimination of taxes. A commercial activity tax is imposed on sales in Ohio to replace a portion of the lost revenue. Additional information can be found in Note 6 to the basic financial statements and in the statistical tables.

*Financial Policies* The budget must be structurally balanced so that continuing revenues support continuing expenditures. One-time surpluses may not be used to expand continuing expenditures. Rather, they may be used for one-time expenditures, such as capital projects. County agencies are encouraged to maximize the use of state and federal revenues so as to help preserve general revenues for other needs.

Budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. Department and agency budget requests are submitted in a program-based format in conjunction with strategic business plans that outline each program's performance goals for the following year. Actual performance data related to the demands, outputs, results and efficiencies of each program are part of the budget presentation. Some special revenue funds are required to maintain a balance necessary to cover operational needs for the first several pay periods of the following year in the event that a revenue stream is delayed. Agencies funded through tax levies are required to show that the expenditures forecast over the life of the levy do not exceed the estimated revenue collections.

The budget may be amended or supplemented at any time during the year upon formal action of the Commissioners. Transfers of cash between funds require the Commissioners' authorization. Appropriations lapse at the end of the year. The Commissioners adopted the County's 2012 operating budget on December 20, 2011. Additional information on the County's budgetary process can be found in Note 3 to the basic financial statements.

ORC § 5705.13 and ORC § 5705.29 permit the taxing authority of a political subdivision to establish reserve balance accounts and to estimate contingent expenses. In accordance with actions taken by the Commissioners, the following set-asides are in place:

- General Fund Contingency up to three percent of the General Fund budget or one-sixth of the previous year's General Fund expenditures may be set aside for unanticipated critical needs. In 2012, \$7.0 million was set aside for this purpose.
- Economic Stabilization five percent of the preceding year's General Fund revenue may be reserved to stabilize the budget against cyclical changes in revenue and expenditures. This account had a balance of \$14.5 million as of December 31, 2012, and is shown as unassigned within the General Fund.
- Risk Management funds may be reserved for self-insurance. Liability claims arising from automobile accidents, litigation settlements and judgment awards are paid from agency budgets or from the amount designated for risk management within the General Fund. The actual claims paid during 2012 totaled \$178,000. As of December 31, 2012, \$23,000 was recorded as payable related to known claims, and \$1.7 million is shown as committed in the General Fund for unasserted claims.

- Workers' Compensation funds may be reserved for the payment of claims under a self-insured program or a retrospective ratings plan for workers' compensation. As of December 31, 2012, the County has \$6.3 million recorded as committed in the General Fund for these future claims.
- 27<sup>th</sup> Pay Period established in 1995, this reserve gradually collects the funds necessary to meet the payroll requirements of a 27<sup>th</sup> pay period for General Fund employees which occurred in 2009. The next year with twenty-seven pay days will be 2020. The balance at December 31, 2012, was \$0.6 million and is shown as committed in the General Fund in the financial statements.

In addition to the reserve balances and contingencies permitted by state law, the Commissioners have pledged \$3.6 million for debt service on the special obligation bonds and notes. This amount is shown as committed in the General Fund.

The Treasurer is responsible for the investment of funds in accordance with the County's investment policy as authorized by the Investment Advisory Committee and in keeping with ORC § 135.35. Specific requirements and limitations are described in Note 4 to the basic financial statements. To maximize the County's return on investment, the Treasurer's Office employs a cash management program and contracts with an investment advisory firm that systematically coordinates cash management, bank relations and the investment of surplus cash. Communication with other County agencies is integral in this process. At December 31, 2012, the County had \$168.6 million unrestricted cash and investments in its General Fund and \$900.7 million for the entire reporting entity. The cash and investments balance includes the designated monies previously described.

It is the County's policy to issue long-term, fixed-rate debt as a supplement to current tax revenues and fund balances for financing infrastructure and capital projects. Consistent with Ohio law, long-term debt is not issued to support current operations. The County sells bond anticipation notes instead of bonds only when market conditions dictate, or as part of a multi-step construction program. The County will consider using either a competitive process or a negotiated process when issuing bonds. Debt capacity is benchmarked against means and medians for other triple-A rated counties of similar size and complexity as published by Moody's Investor Services and Standard & Poor's. The County's capital plan, debt obligations and debt capacity are evaluated together in an integrated manner, on an annual basis.

*Long-term Financial Planning* The capital budgeting process utilizes a detailed five-year capital plan. A multi-year linkage between operating and capital budgets aids in determining the impact on future spending. Particular attention is focused on extending an asset's life. A thorough preventive maintenance program is required on each project, helping to avert major or emergency repairs.

The County normally relies on the strength of its triple-A ratings, conservative fiscal practices, substantial revenue capacity, and reasonable debt ratios to access capital markets for financing projects. When beneficial in view of interest rates and the general economic picture, the County pays for capital improvements from current tax revenues and available cash balances. Franklin County's triple-A credit rating was reaffirmed by Moody's Investors Service in February 2013 and Standard & Poor's in May 2013.

*Major Initiatives* The County has undertaken projects for construction of key community assets, including:

- Completion of a new Common Pleas Courthouse which accommodates long-term growth, improves building safety and security, and better meets the court's technological and operating needs. In addition, the County has also constructed tunnel and pedestrian concourse improvements, which will improve way-finding, access, and security within the Government Center. The total project, including land, tunnel and concourse improvements was approximately \$140 million.
- Completion of a new animal shelter that replaced a thirty-two year old facility and expanded shelter and adoption capacity. The total project cost for the new animal shelter was approximately \$18 million.
- Renovation of the Hall of Justice, which was vacated upon completion of the new Common Pleas Courthouse. The first phase of the project totaling \$7.5 million included the design and abatement of asbestos, while the remaining phases will consist of renovations to the core, shell and infrastructure of the facility. The next phase of the project is expected to total \$37.5 million, with the total project costs for the renovation of the Hall of Justice expected to be approximately \$64 million.
- Several infrastructure improvements, the most major of which is the widening and reconstruction of portions of Clime Road. The total spent or committed to be spent on the Clime Road project is in excess of \$19 million.
- Other infrastructure improvements undertaken by the County include the design and construction of a water treatment plant as well as several wastewater system improvements. These infrastructure improvements include: the Timberlake wastewater system; the Brown Road East sanitary sewer system; the Mon-E-Bak sanitary sewer system; the Holton Pak sanitary sewer system; the Taylor Estates sanitary sewer system; and the completion of the Timberlake water treatment plant. The total spent or committed on these water or wastewater improvements is nearly \$20 million.

The projects have been at least partially funded through long-term debt. See the discussion of Long-Term Debt in the MD&A on page 15 and Note 10 for more information.

#### Awards and Acknowledgements

*Awards* The Government Finance Officers Association (GFOA) has awarded us the Certificate of Achievement for Excellence in Financial Reporting for the year ended December 31, 2011. The County has received this prestigious award for twenty-nine consecutive years. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. To earn the Certificate of Achievement, the County published a readable and well-organized CAFR whose contents conformed to program standards and satisfied GAAP and applicable legal requirements. The Certificate of Achievement is valid for a period of one year. We believe our current report continues to conform to the Certificate of Achievement program requirements and we are submitting it to the GFOA.

The GFOA has also presented us an Award for Outstanding Achievement in Popular Annual Financial Reporting for the year ended December 31, 2011. This is our seventeenth consecutive Award. To earn the Award, the Auditor's Office published the Franklin County Annual Report to provide taxpayers and other interested parties with an overview of the County's financial condition and results of its operations. The 2012 Annual Report will be submitted to the GFOA for award consideration.

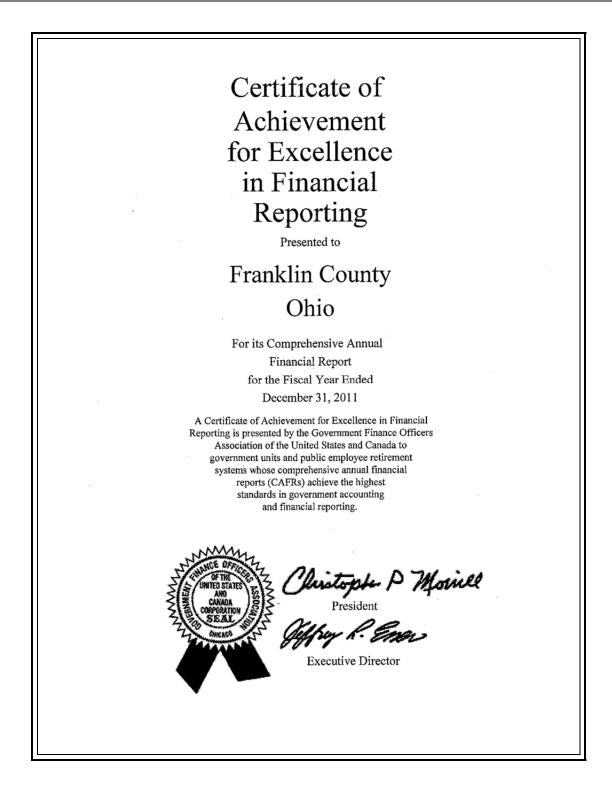

**Acknowledgements** The preparation of this report could not have been accomplished without the dedicated effort of the entire Fiscal Services Division. I especially want to thank the Financial Reporting Department who worked diligently to continue to comply with the precise guidelines established by the GFOA's award programs. Their commitment to excellence in financial reporting added to the quality of this CAFR. I would also like to express my appreciation to each of the County's elected officials and the various County agencies for their cooperation in the preparation of this report.

Sincerely,

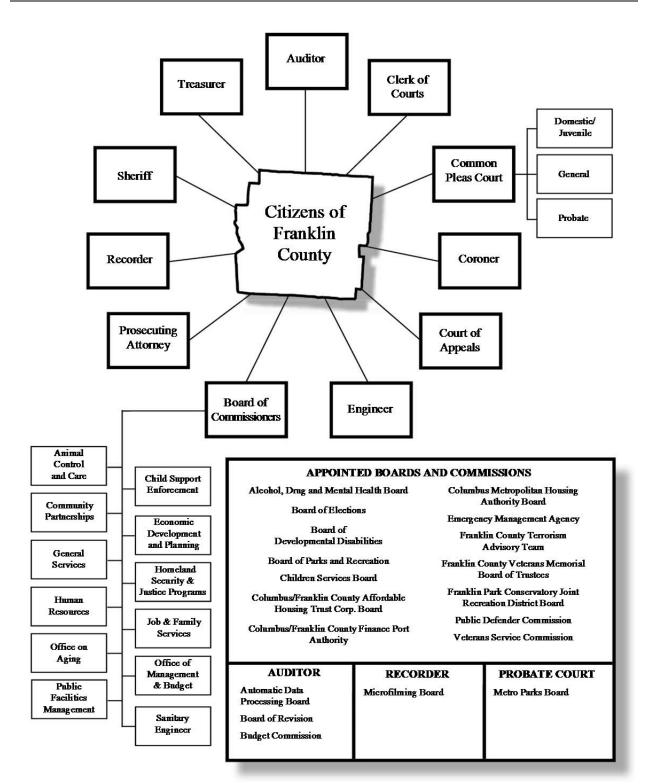

Clarence MM

Clarence E. Mingo, II Franklin County Auditor

#### **INDEPENDENT AUDITOR'S REPORT**

Franklin County 373 South High Street, 26<sup>th</sup> Floor Columbus, Ohio 43215

To the Board of County Commissioners:

#### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and the remaining fund information of Franklin County, Ohio (the County), as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. and ARC Industries, Inc., which represent 1.03% and 0.44% of assets, 8.43% and 7.49% of net position, and 3.98% and 2.99% of revenues, respectively, of the aggregate discretely presented component units and remaining fund information. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amount included for the County, is based solely on the report of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

88 East Broad Street, Tenth Floor, Columbus, Ohio 43215-3506 Phone: 614-466-3402 or 800-443-9275 Fax: 614-728-7199 www.auditor.state.oh.us

#### Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate discretely presented component units and the remaining fund information of Franklin County, Ohio, as of December 31, 2012, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General, Board of Developmental Disabilities, Children Services Board, Alcohol, Drug and Mental Health Board and Public Assistance Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

#### Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Franklin County Independent Auditor's Report Page 3

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 27, 2013, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Management's Discussion and Analysis	
For the Year Ended December 31, 2012	Unaudited

As management of Franklin County (the County), we offer readers this narrative overview and analysis of the financial activities of the County as a whole for the fiscal year ended December 31, 2012. We encourage readers to consider the information presented here in conjunction with our letter of transmittal, which can be found at the front of this report, and the financial statements, which follow this section and provide more specific detail. All amounts, unless otherwise indicated, are expressed in thousands of dollars.

## Financial Highlights

- The County's assets and deferred outflows exceeded its liabilities and deferred inflows at the close of 2012 by \$1.261 billion. Of this amount, \$235.4 million is considered unrestricted. Unrestricted net position may be used to meet ongoing obligations. The unrestricted net position of the County's governmental activities and business-type activities are \$230.1 million and \$5.3 million, respectively.
- The County's total net position increased by \$16.8 million in 2012, an increase of 1.4 percent. Net position of the governmental activities increased \$15.9 million, or 1.3 percent. Net position of the business-type activities increased \$0.9 million, or 3.2 percent.
- Total revenues for 2012 were \$1.001 billion. General revenues (taxes, investment earnings, unrestricted grants) accounted for \$559.7 million, or 55.9 percent of all revenues. Program revenues (charges for services, program-specific grants and contributions) were \$441.4 million, or 44.1 percent.
- The County's expenses related to governmental activities were \$974.9 million. Of this amount, \$431.0 million, or 44.2 percent of the total expenses were offset by program revenues. General revenues, primarily taxes, provided \$559.7 million.
- At the close of 2012, the County's governmental funds reported a combined ending fund balance of \$754.3 million, a decrease of \$17.0 million in comparison with the prior year. Of the combined fund balance, \$164.7 million was considered unassigned and available for spending at the County's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$172.1 million, or 55.9 percent of total General Fund expenditures (including transfers out). Unassigned fund balance for the General Fund decreased by \$27.3 million, or 13.7 percent, when compared to 2011's General Fund unreserved fund balance.
- The County's investment in capital assets (net of related debt) increased by \$31.8 million, representing a 7.8 percent increase related to governmental activities and a 11.7 percent increase related to business-type activities.
- The County's total long-term debt (bonds, notes, loans and capital leases) decreased by \$11.7 million, representing a 3.3 percent decrease in debt related to governmental activities and a 1.1 percent decrease in debt related to business-type activities.

#### **Overview of the Financial Statements**

Management's discussion and analysis is intended to serve as an introduction to the County's basic financial statements, which are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplementary information.

**Government-wide Financial Statements** The government-wide financial statements provide a broad overview of the County's finances in a manner similar to a private-sector business and can be found on pages 18 and 19 of this report.

The statement of net position presents information on all the County's assets and deferred outflows and liabilities and deferred inflows, with the difference reported as net position. Over time, the change in net position may serve as a useful indicator of whether the County's financial position is improving or declining.

The statement of activities shows how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover their costs through user fees and charges (business-type activities). The County's governmental activities include general government, judicial, public safety, human services, health, public works, conservation and recreation, and community development functions. The County's business-type activities include water and sewer, and parking facilities operations.

The government-wide financial statements include not only Franklin County itself (known as the primary government), but also certain organizations for which the County is financially accountable. Financial information for these component units is reported separately. The County's component units include ARC Industries, Incorporated, of Franklin County, Ohio (ARC Industries); Veterans Memorial Hall; and Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. (Stadium and Team). Notes 1 and 18 to the basic financial statements contain more information about the component units.

**Fund Financial Statements** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The County's funds can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

*Governmental Funds:* Governmental funds are used to account for essentially the same functions that are reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's short-term financing requirements.

```
Unaudited
```

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements so as to understand the long-term impact of the County's short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide reconciliations to facilitate this comparison between governmental funds and governmental activities. See pages 22 and 26 of this report.

The County maintains many individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for those funds considered to be major funds. For Franklin County, these are the General Fund, Board of Developmental Disabilities (FCBDD) fund, Children Services Board fund, Alcohol, Drug and Mental Health (ADAMH) Board fund, and the Public Assistance fund. Data from the other governmental funds is aggregated for presentation as a single column. Individual fund data for each of the nonmajor governmental funds is provided in the combining statements.

The County adopts a budget resolution annually. Financial statements for the major funds have been prepared on a budgetary basis that does not conform with generally accepted accounting principles (GAAP) and are provided on pages 27 - 31 to demonstrate budgetary compliance.

*Proprietary Funds:* The County maintains two types of proprietary funds. Enterprise funds report the same functions presented as business-type activities in the government-wide financial statements. Enterprise funds are used to account for water and sewer, and parking facilities operations. Internal service funds are an accounting device used to accumulate and allocate costs internally across the County's various functions. Internal service funds are used to account for in the internal service funds predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary fund statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements show the Water and Sewer fund and the Parking Facilities fund separately; the internal service funds are aggregated. The basic proprietary fund financial statements are on pages 32 - 34.

*Fiduciary Funds:* Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because those resources are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statement can be found on page 35.

*Notes to the Basic Financial Statements:* The notes provide additional information essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 36 - 91.

*Other Information:* The combining statements referred to earlier in connection with nonmajor governmental funds, proprietary funds, fiduciary funds and component units are presented immediately following the notes. Individual fund schedules prepared on a non-GAAP, budgetary basis are also presented. Combining nonmajor fund statements and individual fund schedules can be found on pages 95 -168 of this report.

#### **Government-wide Financial Analysis**

The following table provides a summary of the County's 2012 net position compared to 2011:

			t Position ants in 000's)			
	Govern Activ	mental	Busines Activ	21	To	tal
	2012	2011	2012	2011	2012	2011
Assets:

of resources	444,796	424,917	-	-	444,796	424,917
Net position:						
Invested in capital assets						
net of related debt	400,608	371,504	25,809	23,112	426,417	394,616
Restricted	598,881	601,905	-	-	598,881	601,905
Unrestricted	230,103	240,291	5,257	7,000	235,360	247,291
Total net position	\$ 1,229,592	\$ 1,213,700	\$ 31,066	\$ 30,112	\$ 1,260,658	\$ 1,243,812

As noted earlier, net position may serve as a useful indicator of the County's financial position. The County's assets and deferred outflows exceeded liabilities and deferred inflows by \$1.261 billion (\$1.230 billion in governmental activities and \$31.1 million in business-type activities) at the close of 2012. The County as a whole, and its separate governmental and business-type activities, had positive balances in all categories of net position in the prior fiscal year as well.

A large portion of the County's net position (33.8 percent) reflects its investment in capital assets (e.g., land, buildings and improvements, infrastructure, machinery and equipment, and construction in progress) less accumulated depreciation and any related outstanding debt that had been used to acquire those assets. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position (47.5 percent) represents resources that are subject to external or legal restrictions on how they may be used. The remaining balance of net position (\$235.4 million) is unrestricted and may be used to meet the County's ongoing obligations to citizens, employees and creditors. It is important to note, however, that the unrestricted net position of the County's business-type activities (\$5.3 million) may not be used to fund governmental activities. The amount invested in capital assets, net of related debt, increased by \$31.8 million or 8.1 percent, primarily related to building improvements and various infrastructure improvements. Restricted net position decreased by \$3.0 million in 2012 when compared with 2011.

Unaudited

The County's total net position increased by \$16.8 million during 2012: \$15.9 million increase for governmental activities and \$0.9 million increase for business-type activities. The following table shows the changes in net position for 2012 compared with 2011:

		Changes in N (Amounts i

*Governmental Activities* Governmental activities added to the County's net position by \$15.9 million. Key elements of this change are as follows:

- Operating grants and contributions decreased by \$37.8 million resulting from decreases in federal funding.
- Property taxes decreased by \$20.5 million or 5.1 percent due to a decline in taxable values.
- Sales taxes increased by \$9.8 million over sales tax revenue of calendar year 2011.
- Charges for services and capital grants and contributions experienced a combined decrease of \$5.8 million.

Unaudited

• Expenses for nearly all general government functions were decreased to correspond with decreased revenues. In total, general government expenses decreased \$58.4 million, the majority of which were in health and public works expenses.

**Expenses and Program Revenues – Governmental Activities** (Amounts in 000's)

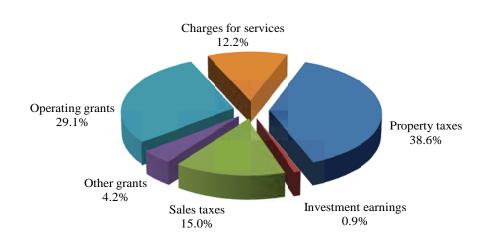

For governmental activities, revenues exceeded expenses, resulting in a \$15.9 million increase in net position during 2012.

Operating grants were the largest type of program revenue, accounting for \$289.0 million or 29.1 percent of total governmental revenues. The major recipients of operating grant revenue were FCBDD, the Children Services Board, the ADAMH Board, and the Department of Jobs and Family Services accounted for in the Public Assistance fund.

Property taxes accounted for \$382.7 million or 38.6 percent of total revenues for governmental activities. The major recipients of property tax revenues were FCBDD, the Children Services Board, the ADAMH Board and the General Fund. Another major component of general revenues was sales tax, which totaled \$148.2 million. Sales tax was the largest revenue source for the General Fund.

Charges to users of governmental services, another type of program revenue, made up \$120.7 million or 12.2 percent of total governmental revenues. These charges included fees for conveyance of real estate, fees associated with the collection of property taxes, fines and forfeitures related to judicial activity, and licenses and permits.

## Unaudited

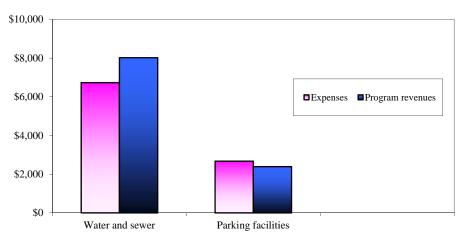

#### **Revenues by Source - Governmental Activities**

On the expense side, the largest activity in 2012 was health, accounting for \$285.8 million or 29.3 percent of the total expenses for governmental activities. The major providers of health activities are FCBDD and the ADAMH Board. The human services program accounted for \$278.1 million or 28.5 percent of total governmental expenses.

The general government function represents activities related to the governing body as well as activities that directly support other County programs that serve the County's residents. In 2012, this represented 11.7 percent of the County's total governmental expenses. 2012 general government expenses decreased by \$0.9 million or 0.8 percent from the prior year.

*Business-type Activities* The County's net assets for business-type activities increased by \$0.9 million. Capital grants and contributions totaling \$0.2 million were received for water and sewer.

### **Expenses and Program Revenues - Business-type Activities**

(Amounts in 000's)

Unaudited

### **Financial Analysis of the County's Funds**

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

*Governmental Funds* The focus of the County's governmental funds is to provide information on nearterm inflows, outflows and balances of spendable resources. This information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a measure of the County's net resources available for spending at the end of the year.

At December 31, 2012, the County's governmental funds reported combined ending fund balances of \$754.3 million, a decrease of \$17.0 million in comparison with the prior year balances. Approximately \$164.7 million of this amount constitutes unassigned fund balance, available for spending at the County's discretion. The remainder is nonspendable, restricted, committed or assigned to indicate that it is not available for new spending because it is related to notes receivable, advances to other funds or inventories of consumable supplies, none of which can easily be converted into cash.

*General Fund* The General Fund is the chief operating fund of the County. The net change in the fund balance of the General Fund was a decrease of \$18.1 million during 2012. However, at December 31, 2012, unassigned fund balance of the General Fund was \$172.1 million, while total fund balance was \$200.0 million. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 55.9 percent of total General Fund expenditures (including transfers out), while total fund balance represents 65.0 percent of that same amount.

*Major Special Revenue Funds* The Board of Developmental Disabilities, Children Services Board, ADAMH Board, and Public Assistance funds are major special revenue funds used to account for specific governmental revenues and the associated expenditures are restricted to specified purposes because of legal or regulatory provisions or administrative action. The Board of Commissioners must approve tax levy requests before they are placed on the ballot.

The Board of Developmental Disabilities fund accounts for property taxes and federal and state grants restricted to expenditures for those services that benefit the developmentally disabled. Property tax revenue decreased by \$3.3 million and intergovernmental revenue decreased by \$1.5 million when compared to the prior year. Expenditures for social service contracts, medical providers, and the maintenance and operation of buildings and buses increased by \$5.6 million or 2.6 percent when compared with the prior year. The net change in fund balance for 2012 was a decrease of \$2.0 million or 0.7 percent.

The Children Services Board fund accounts for property taxes and federal funds restricted for programs designed to help abused, neglected, dependent, and troubled children and their families. The net change in fund balance for 2012 was a decrease of \$6.5 million or 5.1 percent. The primary factor for the decrease in fund balance was the decline in intergovernmental revenue. Expenditures remained constant.

Unaudited

The ADAMH Board fund accounts for alcohol and drug addiction treatment programs and mental health services to the public, generally through contracts with local health care providers. The largest revenue sources are property taxes and state funding. The net change in fund balance for 2012 was an increase of \$11.6 million or 19.5 percent. Property tax revenue remained relatively constant compared to revenue reported in 2011, however intergovernmental revenue decreased by \$44.6 million or 66.8 percent. Expenditures decreased by \$43.4 million or 41.5 percent.

The Public Assistance fund accounts for funding from the State of Ohio for job training and various other types of assistance and services for qualified clients. Intergovernmental revenue decreased by \$4.7 million or 8.5 percent, and program spending decreased by \$28.0 million or 30.9 percent. The net decrease in fund balance was \$2.2 million. Some of the major programs and related intergovernmental revenue previously handled by the County are now provided and accounted for by the State of Ohio.

Other Governmental Funds Other Governmental Funds represents all nonmajor special revenue funds, nonmajor capital projects funds and nonmajor debt service funds. The largest revenue sources are intergovernmental revenues from the state (primarily related to road and bridge construction and collection of court-ordered child support) and property taxes for the zoo and for senior services. The net change in fund balance for 2012 was an increase of \$0.3 million or 0.4 percent. This activity was recorded in the related capital projects fund. See the Capital Asset and Debt Administration section on pages 14 and 15 and the related notes to the basic financial statements, Note 9 and Note 10, on pages 64 - 75 for more information on the capital assets and related debt issuances.

**Proprietary Funds** The County's proprietary funds provide the same type of information found in the business-type activities in the government-wide financial statements, but in more detail. Unrestricted net position of Water and Sewer at the end of the year amounted to \$2.2 million and those for Parking Facilities amounted to \$3.0 million. The total change in net position for the funds was an increase of \$1.2 million and a decrease of \$0.3 million, respectively. Other factors concerning the finances of these two funds have already been addressed in the discussion of the County's business-type activities.

## **Budgetary Highlights**

The County's budget is prepared according to Ohio law. The most significant budgeted fund is the General Fund. For calendar year 2012, the total original appropriations for the General Fund, including those for advances and transfers out, were \$308.5 million, while the final appropriations were \$313.0 million, resulting in a net increase of \$4.5 million or 1.5 percent. While the total general fund budget did not change significantly between original and final budget, there were some significant changes to the functional classifications as follows:

- \$7.0 million was originally budgeted within the Board of Commissioners budget as a contingency item but was reclassified to other functional areas as needs were evident. Major adjustments included commitments to certain construction and permanent improvement projects.
- There was a \$1.0 million increase in appropriations for vehicles and a new deputy training class.

Management's Discussion and Analysis	
For the Year Ended December 31, 2012	Unaudited

Final General Fund appropriations for 2012 were lower than the final 2011 appropriations by \$12.7 million or 3.9 percent, and 3.8 percent higher than actual 2012 budgetary basis expenditures. Significant variances between the final budget and actual results for the General Fund are described as follows:

- Actual general government expenditures were \$3.2 million or 4.2 percent lower than budgeted. While all of the general government agencies had positive variances, the most significant variance was due to commissioners' expenditures \$0.8 million lower than budget.
- Actual judicial expenditures were \$2.0 million or 2.3 percent lower than expected. Spending by common pleas court was \$0.6 million lower than budgeted; the prosecuting attorney was \$0.5 million lower than budgeted and by the clerk of court, \$0.5 million lower than budgeted. Expenditures for data processing equipment, supplies and services were lower than expected.
- Actual public safety expenditures were \$0.4 million or 0.5 percent lower than expected, primarily due to Sheriff expenditures being lower than final budget.
- Actual transfers out of the General Fund were \$4.8 million lower than budget.

### **Capital Asset and Debt Administration**

*Capital Assets* The County's investment in capital assets for its governmental and business type activities at December 31, 2012, amounts to \$426.4 million (net of related debt). The increase in the County's investment in capital assets (net of related debt) for 2012 was 8.1 percent when compared to 2011 activity. The amount reported for capital assets in the financial statements increased by \$30.8 million as detailed in the table below:

				(Amounts	in 000'	's)						
		Governmental				Busines	ss-type					
	Activities			Activities					Total			
		2012		2011		2012		2011		2012		2011
Land	\$	58,100	\$	57,275	\$	442	\$	442	\$	58,542	\$	57,717
Buildings and improvements		426,024		429,218		7,844		8,097		433,868		437,31
Infrastructure		141,787		136,007		16,674		17,052		158,461		153,059
Machinery and equipment		31,374		32,973		611		673		31,985		33,640
Construction in progress		66,224		39,771		17,274		14,077		83,498		53,848
	\$	723,509	\$	695,244	\$	42,845	\$	40,341	\$	766,354	\$	735,585

The major capital asset expenditures during 2012 involved construction projects: renovation of the hall of justice, building improvements and infrastructure improvements. More information regarding the County's capital assets can be found in Note 9 on pages 64 - 66.

Unaudited

*Long-term Debt* At December 31, 2012, the County had total long-term debt outstanding of \$352.6 million. All of the County's debt is unvoted. General obligation debt as shown in the table below includes bonds, notes, loans and capital leases.

Outstanding Debt (Amounts in 000's)											
	Activ	vities	Acti	vities	Total						
	2012	2011	2012	2011	2012	2011					
General obligation debt	\$ 254,660	\$ 266,560	\$ 8,770	\$ 8,770	\$ 263,430	\$ 275,330					
Special obligation debt	45,923	45,563	8,266	8,459	54,189	54,022					
Unamortized bond premiums	10,314	11,712	-	-	10,314	11,712					
Capital leases	24,626	23,179	-	-	24,626	23,179					
•	\$ 335,523	\$ 347,014	\$ 17,036	\$ 17,229	\$ 352,559	\$ 364,243					

The County's total long-term debt decreased by \$11.7 million, or 3.2 percent during calendar year 2012. During 2012, \$3.4 million was received for governmental activity construction projects, \$0.4 million was received for business-type activity construction projects, and retiring special obligation notes were partially refinanced.

Both Standard & Poor's and Moody's Investor Services have given Franklin County a "triple-A" credit rating, the highest rating possible. The County's rating is based on the County's financial management and debt burden, and the strength of the local economy. The County is within all its legal debt limitations. As of December 31, 2012, the County's non-exempt debt was \$213.7 million. The County's limit for total voted and unvoted non-exempt debt was \$651.6 million, leaving a borrowing capacity of \$437.9 million. Unvoted, non-exempt debt is limited to one percent of total assessed property value. For 2012, that limit was \$261.2 million, leaving a borrowing capacity of \$447.5 million. The aggregate amount of the County's unvoted debt is also subject to overlapping debt restrictions with other political subdivisions. At year-end, the County's total net bonded debt amounted to 0.94 percent of the total assessed value of all property within the County.

In addition to the bonded debt, notes, loans and capital leases, the County's long-term obligations include compensated absences and workers' compensation. More information regarding the County's long-term obligations can be found in Note 10 on pages 67 - 75.

Unaudited

### **Economic Factors and Next Year's Budgets and Rates**

Franklin County has experienced significant growth in the past thirty years, both in population and in tax base. The County's financial condition remains strong. The County's General Fund unrestricted cash balance at December 31, 2012, was \$168.6 million, an amount sufficient to cover General Fund expenditures for more than seven months.

When preparing the budget for the 2013 fiscal year, the following factors were taken into consideration:

- Franklin County's unemployment rate for 2012 was 6.1 percent, a decrease of 1.5 percent from 2011. As unemployment remains high, the demand for health and human services provided by County agencies is expected to continue.
- Sales tax revenues are projected to remain relatively flat and a significant revenue source. Another major revenue source, the local government fund, is expected to be significantly reduced in future years.
- Investment earnings are expected to decline by \$3.0 million in the General Fund and \$3.0 million overall due to lower interest rates and less money to invest.
- The economic stabilization reserve and contingency funding remain at the maximum levels permitted by Ohio law. Despite cost savings measures, General Fund cash reserves are expected to decrease by approximately \$28.4 million.

#### **Requests for Information**

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the County's finances, and to demonstrate accountability for the money the County receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Franklin County Auditor, Fiscal Services Division, 373 South High Street, 21st Floor, Columbus, Ohio 43215-6310. This report is also available on-line at www.franklincountyauditor.com/fiscal/financial-reports.

# Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2012 (Amounts in 000's)

nounts reported for governmental activities in the statement of activities (page 19) are different because:		
Governmental funds report capital outlays as expenditures.		
However, in the statement of activities, the cost of those assets		
is allocated over their estimated useful lives as depreciation		
expense. The effect on the change in net position is calculated		
as follows:		
Per statement of revenues, expenditures and changes in fund balances:		
Capital outlay expenditures	18,291	
Capitalized expenditures reported in functional areas	30,692	
Per statement of activities:		
Depreciation expense (Note 9)	(19,897)	29,0
The net effect of transactions involving sales and retirements of capital		_,,
assets decreased net position (Note 9)		(4,24
Revenues in the statement of activities that do not provide current		
financial resources are not reported as revenues in the funds. The amount		
is the net effect of the prior year items against current year accruals.		(9,5
Proceeds of debt provide current financial resources to governmental		
funds, but issuing debt increases long-term liabilities in the		
statement of net position. Repayment of principal is an expenditure		
in the governmental funds, but the repayment reduces long-term		
liabilities in the statement of net position. The effect on the change in		
net position is as follows:		
Per statement of revenues, expenditures and changes in fund balances:		
Issuance of debt, including refunding bonds and capital leases	(15,648)	
Principal retirement, including capital leases (Note 10)	25,741	10.0
Governmental funds report the effect of issuance costs and premiums when		10,0
the debt is first issued, whereas these amounts are deferred to future		
periods and amortized in the statement of activities. The effect		
on the change in net position is as follows:		
Per statement of revenues, expenditures and changes in fund balances:		
Premiums on issuance of debt (Note 10)	(25)	
Debt issuance costs	24	
Per statement of activities:	1 202	
Amortization of bond premiums (Note 10)	1,398	
Amortization of deferred charges (Note 10) Amortization of issuance costs	(301) (1.969)	
Amortization of issuance costs	(1,909)	(8
Some expenses are reported in the statement of activities but do		
not require the use of current financial resources and therefore		
are not reported as expenditures in governmental funds. The amount		-
is the net effect of prior year items against current year accruals.		7,82
Internal service funds are used by management to charge the		
costs of employee benefits and telecommunications to individual		
costs of employee benefits and telecommunications to individual		
funds. The net revenue of the internal service funds is

#### Note 1 – Summary of Significant Accounting Policies

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting principles. Franklin County (the County and the primary government) follows GASB guidance as applicable to its governmental and business-type activities. The most significant of the County's accounting policies are described below.

#### A. Reporting Entity

Franklin County was formed in 1803 and is a political subdivision of the State of Ohio. The three Commissioners serve as the County's budgeting, taxing and contracting authority. The Auditor serves as the chief fiscal officer. The Treasurer serves as the custodian of funds. All are elected positions.

The reporting entity is comprised of the primary government and other organizations (component units) that are included to ensure that the financial statements are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the County and for which the Commissioners are financially accountable.

Component units are legally separate organizations for which the County is financially accountable. Financial accountability exists in situations where the Commissioners appoint a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units may also include organizations for which the County approves the budget, the issuance of debt or the levying of taxes.

The component units column on the government-wide financial statements includes the financial data of the County's discretely presented component units. They are reported in a separate column to emphasize their legal separation from the County. Condensed financial information for each component unit is provided in Note 18.

*ARC Industries, Incorporated, of Franklin County, Ohio (ARC Industries)* ARC Industries is a sheltered, not-for-profit workshop that enters into contracts with the business community to provide workers for various manufacturing and service industry jobs. ARC Industries employs clients of the Franklin County Board of Developmental Disabilities (FCBDD) to fill these positions. FCBDD is part of the primary government and its operations are accounted for as a special revenue fund. All supervisory personnel at ARC Industries are FCBDD employees. FCBDD trains the client-employees and provides the

#### Note 1 – Summary of Significant Accounting Policies (Continued)

training supplies as well as the production facilities. ARC Industries buys the supplies used in its manufacturing processes. The two entities cooperate under a joint agreement that is automatically renewed annually unless either party gives notice within thirty days of yearend of its intention to cancel the agreement.

Through ARC Industries' relationship and financial integration with the FCBDD, the County can impose its will on ARC Industries, and ARC Industries imposes a financial burden on the County.

*Veterans Memorial* Veterans Memorial Hall was built to commemorate the services of all members and veterans of the United States armed forces and to provide a center for veterans' meetings and programs. The Commissioners appoint the board of trustees in a non-authoritative manner. The designation of Veterans Memorial's management and control of its operations are under the direction and control of the trustees.

The County owns Veterans Memorial and leases it to the trustees under an agreement that extends until 2013. Under the agreement, the County receives rent equal to Veterans Memorial's annual net income from operations plus all reserves in excess of \$250,000. No rent has been paid the last seven years (2005 - 2012). The County issued general obligation bonds to finance renovations and improvements to the facility. Debt service is the County's responsibility.

*Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. (Stadium and Team)* These two interrelated nonprofit corporations were organized under Ohio Revised Code (ORC) Chapter 1702 to provide entertainment and recreation in the stadium for the benefit and general welfare of the County. Upon dissolution of the corporations, their assets become the property of the Commissioners. The Franklin County Board of Parks and Recreation directs both the stadium and the team. While appointed by the Commissioners, the board operates autonomously and selects its own management.

The County owns the franchise for the team, entitling the County to field a team in the International League but without the authority to determine which team plays in the stadium. During 2007, the County issued special obligation bonds and notes for the construction of a new stadium (Huntington Park) and has pledged non-tax General Fund revenue for the related annual debt service, placing a financial burden on the County. The County owns the ballpark, and leases it to Stadium and Team through a lease agreement expiring in December 2033. See Note 8 for more information about the lease.

Complete financial statements for each of the individual component units may be obtained from the unit's administrative office.

#### Note 1 – Summary of Significant Accounting Policies (Continued)

In the case of the entities listed below, the County serves as fiscal agent but is not financially accountable for their operations. Accordingly, the activities of these entities are presented as agency funds within the basic financial statements.

Franklin County Public Health Franklin County Soil and Water Conservation District Franklin County Family and Children First Council Mid-Ohio Regional Planning Commission Franklin County Community Based Correctional Facility

The County's joint ventures and related organizations are listed below. A joint venture is a legal entity or other organization that results from a contractual arrangement, and that is owned, operated or governed by two or more participants as a separate and specific activity subject to joint control, in which the participants retain an ongoing financial interest or responsibility. For the related organizations, the County either appoints or acts as a member on the board, but the County's accountability for the organizations does not extend beyond the board membership, or the County receives financial benefit from the organization. See Notes 19 and 20, respectively, for more detail.

#### B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

**Measurement Focus** Measurement focus refers to *what* is expressed in reporting an entity's financial performance and position. A particular measurement focus is accomplished by considering *which* resources are measured. Changes in the economic resources are reflected as changes in net position (total assets and deferred outflows less total liabilities and deferred inflows). This focus is used in the government-wide, the proprietary fund and the fiduciary fund financial statements. Changes in the current financial resources focuses on the transactions or events that have increased or decreased the resources available for spending in the near future. This focus is used in the governmental fund financial statements.

#### **Note 1 – Summary of Significant Accounting Policies** (Continued)

**Basis of Accounting** Basis of accounting determines when transactions are reported on the financial statements. Differences in the accrual and the modified accrual basis of accounting arise in the timing of recognition of revenue and the recording of unavailable revenue, and in the presentation of expenses versus expenditures. The government-wide, the proprietary fund and the fiduciary fund financial statements report transactions on the accrual basis. The governmental fund financial statements utilize the modified accrual method. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means that the resources will be collected soon enough to be used to pay liabilities of the current fiscal year. The County considers revenues to be available if collected within sixty days of year-end. Under the non-GAAP budgetary basis, transactions are recorded when cash is received or disbursed.

**Revenues:** Exchange and Non-exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales taxes, property taxes, grants, entitlements and donations. On the accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place.

On the modified accrual basis, revenue from transactions must also be available before it can be recognized. Under this basis, the following revenue sources are considered to be both measurable and available at year-end: sales taxes, interest, federal and state grants and subsidies, state-levied locally shared taxes (including motor vehicle license fees and gasoline taxes), fees and rentals.

**Unearned Revenue** Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of December 31, 2012, but which were levied to finance year 2013 operations, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue.

*Expenses/Expenditures* On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is decreases in net financial resources (expenditures) rather than expenses. On the modified accrual basis, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, provided current financial resources are to be used. As a result, compensated absences and most claims and judgments are not recorded as expenditures or liabilities until current financial resources are required. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

#### Note 1 – Summary of Significant Accounting Policies (Continued)

*Financial Statement Presentation* The County's basic financial statements consist of government-wide statements displaying information about the County as a whole, and fund financial statements that provide a more detailed level of financial information.

*Government-wide Financial Statements* The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. The statement of net position and the statement of activities include the non-fiduciary financial activities of the primary government and its component units. The statements distinguish between those primary government activities that are governmental (financed primarily by taxes and grants) and those that are business-type (relying significantly on user fees and charges). Component units are aggregated and shown in a single column, regardless of the type of underlying activity.

The statement of net position presents the financial condition of the governmental and business-type activities of the County and its component units at year-end. All assets and liabilities associated with the operation of the County are included. Interfund receivables and payables within governmental activities and within business-type activities have been eliminated to minimize the duplicating effect on assets and liabilities within the governmental and business-type activities total columns. The balances of the internal service funds have been eliminated against the expenses and program revenues shown in governmental activities.

The statement of activities demonstrates the degree to which the direct expenses are offset by program revenues for each function of the County's governmental activities, for each segment of the business-type activities of the County and for activities of the County's component units. This comparison of direct expenses with program revenues identifies the extent to which each segment or function is self-financing or draws from the County's general revenues. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function or segment. Program revenues include (1) charges paid by the recipient of the goods or services and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Revenues that are not classified as program revenues are presented as general revenues of the County. The activities of the internal service funds and interfund activity within the same function have been eliminated to avoid duplicating revenues and expenses. However, interfund services provided and used between functions are not eliminated in the process of consolidation. The County does not allocate indirect expenses to functions or segments in the statement of activities.

Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 6). Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements that specify the year when the resources are required to be used or the year when use is first permitted; matching requirements in which the County must provide local resources to be used for a specified purpose; and expenditure requirements in which the resources are provided to the County on a reimbursement basis.

#### Note 1 – Summary of Significant Accounting Policies (Continued)

*Fund Financial Statements* The County uses funds to segregate transactions related to certain functions or activities in order to aid financial management and demonstrate legal compliance. Separate financial statements present financial information at a more detailed level for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The governmental and enterprise fund financial statements focus on major funds, with each major fund presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The County also maintains two internal service funds. Agency funds, a type of fiduciary fund, are used to account for assets held by the government as agent for individuals, private organizations and other governments.

*Governmental Funds* Governmental funds are those through which most governmental functions are financed. All governmental funds are reported using the flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Expendable assets are assigned to the various governmental funds according to the purposes for use. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financial resources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Reconciliation with brief explanations is included so as to better identify the relationship between the government-wide statements for governmental funds.

The following are the County's major governmental funds:

*General Fund* The General Fund is the primary operating fund and is available for any purpose, provided it is expended or transferred in accordance with state law. It accounts for all financial resources of the primary government not recorded elsewhere.

*Board of Developmental Disabilities (FCBDD) Fund* The FCBDD fund accounts for property taxes and federal and state grants restricted to expenditures for those services that benefit its clients. Expenditures include those for social service contracts, medical providers and the maintenance and operation of buildings and buses.

*Children Services Board Fund* The Children Services Board fund accounts for property taxes and federal and state funds restricted for programs designed to help abused, neglected, dependent and troubled children and their families.

Alcohol, Drug and Mental Health Board (ADAMH Board) Fund The ADAMH Board fund accounts for the provision of alcohol, drug addiction and mental health services to the public, generally through contracts with local mental health agencies. The largest revenue sources are property taxes, and federal and state funding.

#### Note 1 – Summary of Significant Accounting Policies (Continued)

*Public Assistance Fund* The Public Assistance fund accounts for funding from various federal and state grants used to provide job training and public assistance to qualified clients, to pay their medical providers and for certain social services.

The County's nonmajor governmental funds account for (1) grants and other resources where use is restricted to a particular purpose; (2) the accumulation of resources for, and payment of, the principal, interest and related costs for the County's long-term debt; and (3) financial resources used for the acquisition, construction or renovation of facilities (other than those financed by proprietary funds).

**Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. Proprietary funds are classified as either enterprise or internal service. Like the government-wide statements, all proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. All assets, deferred outflows, liabilities and deferred inflows associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The County intends that the cost of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. The County's enterprise funds are listed below:

*Water and Sewer Fund* The Water and Sewer fund accounts for the provision of water and sewer services to some parts of the County not serviced by others.

*Parking Facilities Fund* The Parking Facilities fund accounts for the fees and operations of parking facilities near County offices that serve County employees and the general public.

Internal service funds account for the financing of services provided by one agency to other agencies of the government on a cost-reimbursement basis. The County has an internal service fund to account for employee benefits and one for telecommunication charges to other funds.

*Fiduciary Funds* Fiduciary fund reporting uses the accrual basis of accounting. Because of their custodial nature, fiduciary funds do not measure results of operations and do not have a measurement focus. The County uses agency funds to account for assets held in a purely custodial capacity as fiscal agent for other entities and for various taxes, state-shared revenues, and fines and forfeitures collected on behalf of and distributed to other local governments. Agency fund transactions typically involve only the receipt, temporary investment and distribution of these resources.

#### **Note 1 – Summary of Significant Accounting Policies** (Continued)

#### C. Cash, Cash Equivalents and Investments

Cash resources of the majority of individual funds are combined to form a pool of cash and investments managed by the County Treasurer. Interest earned on investments is accrued as earned. Under existing Ohio law, all investment earnings are assigned to the General Fund unless contractually required to be credited to a specific fund. Distribution is made utilizing a formula based on the average monthly balance of cash and cash equivalents of all funds.

For reporting purposes, "Equity with County Treasurer" is defined as cash on hand, demand deposits and investments held in the County treasury. "Cash and investments in segregated accounts" is defined as cash, deposits and investments not held in the treasury. "Restricted cash" is defined as cash, deposits and investments held either in the treasury or in an outside account, and which is separate from the County's assets (e.g., customer deposits or unclaimed moneys).

For cash flow reporting purposes, the County's proprietary funds consider cash and cash equivalents to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. "Equity with County Treasurer" is considered to be cash and cash equivalents since these assets are available on demand.

Investments held by the Treasurer are stated at fair value using quoted market prices, except for repurchase agreements that are reported at cost. Net unrealized gains and losses calculated through the aggregate method are recorded as investment income. By statute, the Treasurer invests any short-term cash surplus. The residual investments are included in "Equity with County Treasurer." STAR Ohio is an investment pool that allows governments within the state to pool their funds for investment purposes. STAR Ohio is managed by the State Treasurer's Office and is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2012. Note 4 provides details regarding cash, cash equivalents and investments held by the County.

Investments held by the component units are considered available for sale and are stated at fair value. The component units use the specific identification cost method when calculating realized gains and losses on sales of investments.

#### D. Loans Receivable

"Loans receivable" consists of long-term revolving loans for housing and community development projects. The programs are primarily funded by a federal block grant, with a local match from the County. "Loans receivable" is offset by a credit to "Unearned revenue." The expenditure is recorded when the loan is made. The loans for which there is some doubt of collection are not included in the receivable.

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### E. Inventories

Inventories consist of expendable supplies held for consumption. Inventories are valued at cost using the first in/first out (FIFO) method and recorded as expenditures/expenses when used rather than when purchased.

#### F. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2012, are recorded as prepaid items in both the government-wide and fund financial statements. The consumption method is used, recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

#### G. Capital Assets

Capital assets are those assets not specifically related to activities reported in the proprietary funds and generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market value as of the date received. For assets other than infrastructure, the County maintains a capitalization threshold of \$5,000 (amount not rounded), an estimated life of five or more years and a salvage value equal to 10 percent of the original cost for certain assets. The County's infrastructure consists of roads, bridges, water lines and sewer lines, with a capitalization threshold of \$100,000. The costs of improvements and major renovations that extend the asset's useful life are capitalized. Interest incurred during the construction of assets utilized by the enterprise funds is also capitalized. Normal maintenance and repair costs that do not add to the value of the asset nor materially extend an asset's life are not capitalized.

Capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure have been estimated based on the County's historical records of necessary improvements and replacement. Capital assets are shown net of accumulated depreciation. Depreciation and amortization of capitalized interest are computed using the straight-line method over the following estimated useful lives:

Buildings	30-50 years
Building improvements	10-25 years
Roads and bridges	37-50 years
Sewer and water lines	20-70 years
Machinery and equipment	5-20 years

#### **Note 1 – Summary of Significant Accounting Policies** (Continued)

#### H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The County only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunding debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The County has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

#### I. Interfund Balances

Activity between funds that represents lending/borrowing arrangements outstanding, and unpaid interfund services at the end of the fiscal year are referred to as "Due to/from other funds" or "Advances to/from other funds." Interfund receivables and payables within governmental activities and within business-type activities have been eliminated in the government-wide statement of net position; any residual outstanding between the governmental activities and business-type activities are reported as "Internal balances."

#### J. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported on the government-wide statement of net position, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

Bonds payable are reported net of the applicable bond premium or discount. Debt issuance costs, except any portion related to prepaid insurance costs, are recognized as an expense in the period incurred.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in full from current financial resources are reported as obligations of the funds. Bonds, loans and capital leases are recognized as liabilities on the fund financial statements when due.

#### **Note 1 – Summary of Significant Accounting Policies** (Continued)

#### K. Self-insurance

The Commissioners have formed the Franklin County Cooperative Health Benefits Program (the Program) to provide multiple employee health care benefit plans. Approximately 4,900 County employees and 1,500 employees of other political subdivisions are covered by the Program. Premiums are established based on an independent actuarial evaluation, and are designed to be sufficient to cover all incurred claims and build a reserve for this joint self-insurance arrangement. If the reserve is insufficient at any point in time to cover catastrophic losses, the losses will be covered by the County's General Fund with adjustments made to future premium rates. The County is the predominant participant, and activities related to the Program are reported in the Employee Benefits internal service fund. The County has recorded a liability at year-end in the Employee Benefits fund for pending claims and incurred but unreported claims.

Beginning in 2012 the County began to self-insure its workers' compensation costs. Charges are established based on an independent actuarial evaluation, and are designed to be sufficient to cover all incurred claims and maintain a reserve for this self-insurance arrangement. If the reserve is insufficient at any point in time to cover claims, the claims will be covered by the County's General Fund with adjustments made to future charge rates. The County is the only participant and activities related to the program are reported in the Employee Benefits internal service fund.

#### L. Compensated Absences

The County permits employees to accumulate earned but unused vacation and sick leave benefits. Vacation benefits are accrued as a liability in the government-wide and proprietary fund financial statements when the benefits are earned if (1) the vacation leave is related to services already rendered and (2) it is probable that the employee will be compensated through time off or some other means in a future period. Sick leave benefits are accrued in the government-wide and proprietary fund financial statements using the vesting method. The sick leave liability is based on accumulated sick leave and employee wage rates at December 31<sup>st</sup> for those employees who are currently eligible to receive termination benefits and those the County has identified as probable of receiving payment in the future. A liability for compensated absences is recorded in governmental funds only if they have matured, for example as a result of employee resignation or retirement.

The criteria for determining vacation and sick leave liabilities are based on Commissioners' policies for compensated absences. The policies set by negotiated agreements and by other appointing authorities may vary slightly. Vacation and sick leave are accumulated based on hours worked. Vacation pay is fully vested after one year of full-time service. By Ohio law, accumulated vacation cannot exceed three times the annual accumulation rate for an employee. There is no limit for the accumulation of sick leave. Employees with eight to eighteen years of service at time of separation or retirement receive payment for one-fourth of their accumulated sick leave. Employees with eighteen or more years of service receive payment for one-half of their accumulated sick leave. All payments are made at the employee's current wage rate.

#### Note 1 – Summary of Significant Accounting Policies (Continued)

#### M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

**Restricted** – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation (County resolutions).

Enabling legislation authorizes the County to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the County can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

*Committed* – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Board of County Commissioners. Those committed amounts cannot be used for any other purpose unless the Board of County Commissioners removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board of County Commissioners, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

#### Note 1 – Summary of Significant Accounting Policies (Continued)

*Assigned* – Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. The Board of County Commissioners may assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of County Commissioners. Unlike commitments, assignments generally only exist temporarily and additional action does not normally have to be taken for the removal of an assignment.

**Unassigned** – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### N. Net Position

Net position represents the difference between assets, deferred outflows, liabilities and deferred inflows. Net investment in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use through Commissioners' resolution, or external restrictions imposed by creditors or grantors, or laws or regulations of other governments. Restricted resources are applied when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### **O.** Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for water and sewer services and for use of the parking facilities. Operating expenses are necessary costs incurred to provide the services that are the primary activities of the fund. Revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### P. Capital Contributions

Capital contributions are made from the federal, state, and other participating local governments to the governmental funds for construction projects. For business-type activities, capital contributions arise from contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

#### **Note 1 – Summary of Significant Accounting Policies** (Continued)

#### Q. Interfund Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

#### R. Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### Note 2 – Changes in Accounting Principles and Restatement of Budgetary Fund Balance

During the year, the County adopted the GASB Statements listed below.

Statement No. 60, Accounting and Financial Reporting for Service Concession Arrangements. The objective of this Statement is to improve financial reporting by addressing issues related to service concession arrangements, which are a type of public-private or public-public partnership.

Statement No. 61, *The Financial Reporting Entity: Omnibus – an amendment of GASB Statements No. 14 and No. 34.* The objective of this Statement is to improve financial reporting for a governmental financial reporting entity. This Statement modifies certain requirements for inclusion of component units in the financial reporting entity. This Statement also amends the criteria for reporting component units as if they were part of the primary government in certain circumstances and clarifies the reporting of equity interest in legally separate organizations.

Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA pronouncements.* The objective of this Statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in FASB and AICPA pronouncements issued on or before November 30, 1989 which does not conflict with or contradict GASB pronouncements.

Statement No. 64, *Derivative Instruments: Application of Hedge Accounting Termination Provisions – an amendment of GASB Statement No. 53.* The objective of this Statement is to clarify whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider.

The adoption of the above statements had no impact on these financial statements.

# **Note 2 – Changes in Accounting Principles and Restatement of Budgetary Fund Balance** (Continued)

During the year, the County also adopted the following GASB Statements.

Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.* This Statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources.

Statement No. 65, *Items Previously Reported as Assets and Liabilities*. This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

As a result of adopting Statements No. 63 and No. 65, debt issuance costs are no longer deferred but treated as an expense in the year incurred. Rather than restating beginning balances as a result of this change in accounting principle, the remaining debt issuance costs were expensed in the current year. The additional amount of expense reported in these financial statements was \$1,824,000 for Governmental Activities and \$60,000 for Business-type Activities.

Other pronouncements (listed below) have been issued by the GASB. The County intends to adopt these pronouncements at the required time. The County has not determined the effect that adoption of these statements will have on its financial statements.

- GASB Statement No. 66, *Technical Corrections* 2012 an amendment of GASB Statements No. 10 and No. 62 effective for financial statements for periods beginning after December 15, 2012.
- GASB Statement No. 67, *Financial Reporting for Pension Plans an amendment of GASB Statement No.* 25 effective for financial statements for periods beginning after June 15, 2013.
- GASB Statement No. 68, Accounting and Financial Reporting for Pensions an amendment of GASB Statement No. 27 effective for financial statements for periods beginning after June 15, 2014.
- GASB Statement No. 69, *Government Combinations and Disposals of Government Operations* effective for governmental combinations and disposals of government operations occurring in financial statements for periods beginning after December 15, 2013.

During the year, the County determined that the ADAMH Board Special Revenue Fund's fund balance on the Statement of Revenues, Expenditures and Changes in Fund Balance – Budget and Actual was misstated. The previously reported Fund Balance – Budget and Actual at December 31, 2011 of \$64,375,000 was reduced by a correction of \$3,967,000, which resulted in a restated Fund Balance – Budget and Actual at December 31, 2011 of \$60,408,000.

#### Note 3 – Budgetary Information and Compliance

In accordance with Ohio law, annual budgets are adopted for the General Fund, special revenue funds, the Debt Service fund, capital projects funds, and proprietary funds.

The Franklin County Budget Commission, composed of the Auditor, Treasurer and Prosecutor, approves tax budgets and certificates of estimated resources for the County itself and for schools, municipalities, townships and other agencies that are funded by tax dollars. The certificate of estimated resources issued by the Budget Commission states the projected revenue of each fund and establishes a limit on the amount the County may appropriate. The County's total contemplated expenditures from any fund during the fiscal year cannot exceed the amount available as stated in the certificate of estimated resources. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. During the year, as actual revenues vary from the estimates, the certificate may be amended further if an estimate needs either to be increased or decreased. Such amendments were made during 2012. The amounts reported as the original budget reflect the amounts in the amended certificate of estimated resources in place on the date the operating budget is adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate issued during 2012.

The appropriations resolution is the Commissioners' authorization to spend resources. The resolution sets annual limits on expenditures plus encumbrances at the major object level within a fund, thereby establishing the legal level of control. The Commissioners passed the 2012 appropriation resolution on December 20, 2011. Revisions to the original budget require a resolution signed by at least two Commissioners. Supplemental appropriations were made during 2012. At the end of the year, all encumbrances are canceled and all appropriations lapse, reverting to the respective funds from which they were appropriated.

There were certain items of noncompliance with the ORC. Under Ohio law, budgetary appropriations may not exceed estimated resources, with a balanced budget maintained in each fund. Ohio law also mandates that appropriations may not exceed actual resources.

One major governmental fund and four nonmajor governmental funds had negative fund balances on the GAAP basis. The deficits were due to the timing of intergovernmental revenue and temporary financing through loans from the General Fund. The Veterans Memorial Hall, a discretely presented component unit, also carried a deficit balance.

The County reports financial position, results of operations and changes in fund balance based on GAAP. State law also requires the County to account for transactions on a non-GAAP budgetary basis of cash receipts, cash disbursements and encumbrances. The major differences between the non-GAAP budgetary basis and the GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
- 2. Expenditures/expenses are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 3. Borrowing arrangements between funds are treated as revenues and expenditures (budget) as opposed to increases and decreases in assets and liabilities (GAAP).

#### Note 3 – Budgetary Information and Compliance (Continued)

The statement of revenues, expenditures and changes in fund balances – budget and actual (non-GAAP budgetary basis) is presented in the basic financial statements for the General Fund and major special revenue funds. Adjustments necessary to reconcile the results of operations at the end of the year between the GAAP basis and the non-GAAP budgetary basis are as follows:

	Ge	neral and M	-	Special Rev ts in 000's)	enue	Funds		
		General		CBDD	S	Children Services Board	 DAMH Board	Public
GAAP basis	\$	(18,076)	\$	(2,039)	\$	(6,507)	\$ 11,557	\$ (2,216)
Net adjustment for revenue accruals		(1,688)		(724)		(53)	1,290	2,644
Net adjustment for expenditure accruals		3,994		449		71	737	(306)
Differences in reporting for interfund balances		3,029		-		-	-	26
Funds budgeted as Special Revenue Funds		(1,636)		_		_	-	-
Non-GAAP budgetary basis	\$	(14,377)	\$	(2,314)	\$	(6,489)	\$ 13,584	\$ 148

#### Note 4 – Cash, Deposits and Investments

Moneys held by the County are classified by state statute into two categories. Active moneys are public moneys determined to be necessary to meet current demand upon the County treasury. Active moneys must be maintained either as cash in the County treasury, in commercial accounts payable or able to be withdrawn on demand, or in money market deposit accounts. Moneys held by the County that are not considered active are classified as inactive. Inactive moneys are invested in authorized securities in accordance with the Franklin County Treasurer Investment and Depository Policy, as adopted by majority vote of the Investment Advisory Committee.

#### A. Primary Government

*Deposits*: Deposits include amounts held in demand accounts and savings accounts. At year-end, the carrying amount of the County's deposits was \$54,126,000. The bank balances totaled \$59,162,000.

#### **Note 4 – Cash, Deposits and Investments** (Continued)

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned. Protection of the County's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by letter of credit deposited with the County Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution. Of the bank balances totaling \$59,162,000, \$26,069,000 was insured by FDIC. The remaining balance of \$33,093,000 was collateralized with securities held in single financial institution collateral pools in the name of the respective depository bank, and pledged as a pool of collateral against all the public moneys it holds. All County demand deposits were either insured or collateralized, in accordance with state law and the County's investment policy. The County has no deposit policy for custodial credit risk beyond the requirements of state statute.

*Investments*: The following securities are authorized investments under both the County's policy and the ORC:

- 1. United States Treasury notes, bills, bonds, or other obligation or security issued by the Treasury, any other obligation guaranteed as to principal and interest by the U. S., or any book entry, zero-coupon security that is a direct obligation of the United States.
- 2. Bonds, notes, debentures, or any other obligations or securities issued directly by any federal government agency or instrumentality.
- 3. Bonds and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County and the investments shall not exceed five percent of the County's total average portfolio.
- 4. The State Treasurer's investment pool (STAR Ohio).
- 5. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that the investments are made only through eligible institutions and the investments shall not exceed fifty percent of the County's total average portfolio.
- 6. Up to fifteen percent of the County's total average portfolio in high-grade notes issued by U. S. corporations, and the notes mature no later than two years after purchase.
- 7. Up to twenty-five percent of the County's total average portfolio in either of the following:
  - a. High grade commercial paper when the aggregate value of the notes does not exceed ten percent of the aggregate value of the outstanding commercial paper of the issuing corporation, and the notes mature no later than 270 days after purchase.
  - b. Bankers acceptances of banks insured by the FDIC when the obligations are eligible for purchase by the Federal Reserve System and mature no later than 180 days after purchase.

#### **Note 4 – Cash, Deposits and Investments** (Continued)

- 8. High-grade debt interests issued by foreign nations diplomatically recognized by the U.S. government. All interest and principal shall be denominated and payable in U.S. funds. In the aggregate, this investment shall not exceed one percent of a two-year rolling average of the County's portfolio, and shall mature no later than five years after purchase.
- 9. Written repurchase agreements in the securities described in (1) or (2) provided that the market value of the agreement be at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days.

Investments in derivative securities, reverse repurchase agreements and collateralized mortgage obligations are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and purchases on margin or short sale are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific County obligation or debt.

As of December 31, 2012, the primary government had the following investments (based on quoted market prices) and maturities:

	Less							% of	
Investment Type	Fa	air Value than 1		1 – 2		1-2 2-5		Portfolio	
U.S. Treasuries	\$	15,003	\$	-	\$	15,003	\$	-	1.69%
FHLB notes		68,309		37,752		-		30,557	7.70%
FHLMC notes		143,520		-		20,043		123,477	16.17%
FNMA notes		326,293		19,115		25,301		281,877	36.77%
FFCB notes		288,991		48,541		61,032		179,418	32.57%
Foreign bonds		8,500		2,000		3,500		3,000	0.96%
County municipal bonds		26,598		-		2,625		23,973	3.00%
Commercial paper		1,734		1,734		-		-	0.20%
STAR Ohio		2,407		2,407		-		-	0.27%
Money markets		6,013		6,013		-		-	0.67%
Total investments	\$	887,368	\$	117,562	\$	127,504	\$	642,302	100.00%

*Interest rate risk:* The ORC and the Investment and Depository Policy of the County limit the purchase of securities to those with a maturity of no more than five years from the date of purchase unless matched to a specific obligation or debt of the County.

*Credit risk:* The ORC limits investments in commercial paper, corporate bonds and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations at the time of purchase. All federal agency notes had a rating of AAA from Standard & Poor's, and Aaa from Moody's. The State of Israel Bonds were rated A by Standard & Poor's, and Aa by Moody's. Standard & Poor's has assigned STAR Ohio an AAAm money market rating. The County had investments in two other money market accounts at year-end, each rated AAAm by Standard & Poor's and Aaa by Moody's.

#### **Note 4 – Cash, Deposits and Investments** (Continued)

*Concentration of credit risk:* The County's investment policy provides for diversification to avoid undue concentration in securities of one type or securities of one financial institution. This restriction does not apply to obligations guaranteed by the U.S. government. Of the County's total investments, 16.17 percent are FHLMC notes, 36.77 percent are FNMA notes and 32.57 percent are FFCB notes. All other investment types are less than ten percent of the County's total investments.

*Custodial credit risk:* For an investment, the custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the County will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. In order to mitigate custodial risk, the County purchases its investments only through an approved broker/dealer or institution. Further, payment for investments is made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

#### **B.** Component Units

*Deposits:* All monies are deposited into banks or investment companies designated by each component unit's governing board. Funds not needed for immediate expenditure may be deposited in interest bearing or non-interest bearing accounts, or U.S. government obligations. Security shall be furnished for all deposits, whether interest bearing or non-interest bearing, except that no such security is required for U.S. government obligations.

Custodial risk is the risk that, in the event of bank failure, the deposits of the component unit might not be recovered. At December 31, 2012, discretely presented component units held demand deposits with a carrying value of \$3,125,000. The bank balances totaled \$3,341,000. All bank balances, with the exception of \$283,000, were insured by FDIC as the financial institutions participate in the Temporary Liquidity Guarantee Program.

*Investments:* As of December 31, 2012, the component units had the following investments (based on quoted market prices) and maturities (where applicable):

			I	Less	% of	
Investment Type	Fair	Value	th	nan 1	Portfolio	
Corporate bonds	\$	3,300	\$	3,300	46.12%	
Managed equity account		1,352		1,352	18.89%	
Mutual funds		1,773		1,773	24.77%	
Money markets		94		94	1.31%	
Cash surrender value						
of life insurance		638		638	8.91%	
Total investments	\$	7,157	\$	7,157	100.00%	

*Interest rate risk:* The component units do not have policies limiting investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates, except for ARC Industries, which limits fixed income securities to maturity of fifteen years.

#### **Note 4 – Cash, Deposits and Investments** (Continued)

*Credit risk:* ARC Industries limits investments so that average rating is between BBB and AAA based on the type of investment. No other component units place a limit on the ratings of their securities other than the ORC requirements. ARC Industries corporate bonds have an A rating, bond mutual funds have implied AAA ratings, and money markets have an A+ rating.

*Concentration of credit risk:* The component units do not place a limit on the amount that may be invested in any one issuer.

*Custodial credit risk:* For an investment, the custodial credit risk is the risk that, in the event of the failure of the counterparty to a transaction, the component unit will not be able to recover the value of the investments or collateral securities that are in the possession of an outside party. In order to mitigate custodial risk, the component units purchase their investments only through an approved broker/dealer or institution.

#### C. Reconciliation to Statement of Net Position

The deposits and investments reconcile to the statements of net position as follows:

	Primary Government		Component Units		Total	
Deposits and investments:		vernment				Total
Carrying amount of deposits	\$	54,126	\$	3,125	\$	57,251
Fair value of investments	φ	887,368	φ	5,125 7,157	φ	894,525
		,		7,137		,

Total per statements of net position	\$	935,961	\$	10,282	\$	946,243

#### Note 5 – Interfund Balances and Transfers

Interfund balances consisted of the following:

## A. Due to/from Other Funds

These balances resulted primarily from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur and payment is made.

Receivable Fund	Payable Fund	Amount
General	Board of Developmental Disabilities	\$ 4
	Children Services Board	212
	ADAMH Board	1
	Public Assistance	20
	Nonmajor governmental funds	306
	Enterprise funds	15
	Internal service fund	3
		561
Children Services Board	Nonmajor governmental funds	29
ADAMH Board	Board of Developmental Disabilities	10
	Nonmajor governmental funds	137
		147
Nonmajor governmental funds	General Fund	24
	Public Assistance	121
	Nonmajor governmental funds	24
		169
Internal service fund	General Fund	10
	Nonmajor governmental funds	3
		13
		\$ 919

#### Note 5 – Interfund Balances and Transfers (Continued)

#### B. Advances to/from Other Funds

The following loans between funds, in anticipation of grant revenue, are long-term in nature and are classified as advances. The advances at December 31, 2012 are as follows:

Receivable Fund	Payable Fund	Amount		
General	Public Assistance	\$	1,164	
	Nonmajor governmental funds		6,239	
	Enterprise fund		225	
	Internal service fund		400	
		\$	8,028	

#### C. Interfund Transfers

Transfers are used to move revenues from the fund that collects them in accordance with statute or budget to the fund that is required to expend them in accordance with statute or budget; to segregate money for anticipated capital projects; to provide resources for current operations; or to service debt.

			Tra	ansfer in		
			No	onmajor		
	P	ublic	Gover	nernmental		
Transfer Out	Ass	Assistance		Funds		Total
General	\$	5,953	\$	24,594	\$	30,547

Enterprise fund		-		53		53
	\$	5,953	\$	45,037	\$	50,990

#### Note 5 – Interfund Balances and Transfers (Continued)

# D. Due from/to Component Unit

The following balances occurred between the primary government and component unit due to services provided, reimbursable expenditures and short term loans:

(Amounts in 000's)	
Payable Component Unit	Amount
Veterans Memorial	\$ 266
(Amounts in 000's)	
Payable Fund	Amount
FCBDD	\$ 75
	Payable Component Unit Veterans Memorial (Amounts in 000's) Payable Fund

#### **Note 6 – Property Taxes**

Property taxes are levied against all real and public utility property in Franklin County.

Real property taxes for 2012 are levied after October 1, 2012. The lien date is as of January 1, 2012. The tax is based on the assessed value of the property and is established by state law at 35 percent of the appraised value. Real property taxes for 2011 are collected in 2012 and are intended to finance 2012 expenditures. The total assessed value upon which the 2012 real estate tax collection was based was \$25,648,101,000. The full tax rate for the 2012 collection applied to real property for all County units was \$17.72 per \$1,000 of assessed valuation.

Due to the phase out which began in 2005, the tangible personal property tax percentage was reduced to zero in 2009 for businesses. The tax temporarily applied to telephone and interexchange telecommunications companies, which was phased out for 2011. After 2011, tangible personal property was not subject to tax.

Public utility real property is subject to tax. The total assessed value upon which the 2012 tax collection was based was \$654,908,000.

The County Treasurer bills and collects property taxes on behalf of all taxing districts within Franklin County. The Auditor periodically remits to the taxing districts their portion of the taxes collected. Collection of the taxes and remittance to the taxing districts are accounted for in various County agency funds.

"Property taxes receivable" represents delinquent real property, tangible personal property, and public utility taxes outstanding as of the last settlement, and current real property and public utility taxes that were measurable at year-end for which there is an enforceable legal claim. In the fund financial statements, receivables are offset by unearned revenue since these taxes were not levied to finance 2011 operations. In the full accrual government-wide financial statements, collectible delinquent property taxes have been recorded as revenue while the remainder of the receivable is unearned.

The County uses actual billings to estimate taxes receivable by using an estimate based on the tax rate multiplied by property value. The collection of substantially all real property and public utility taxes both current and delinquent is reasonably assured because of the County's ability to force foreclosure of the properties on which the taxes are levied. For tangible personal property taxes, a determination of the percentage deemed collectible was made based on past experience. This percentage was applied against the gross taxes receivable to yield the estimated net realizable value of these resources.

#### Note 7 – Notes Receivable

In 1997, the County and the Solid Waste Authority of Central Ohio (SWACO) entered into a repayment agreement under which SWACO is obligated to pay the debt service for bonds issued to finance expansion at the solid waste facility. To secure SWACO's obligation, contract documents were executed and delivered to the County whereby SWACO granted the County a lien on the solid waste facilities, a security interest in its fixtures and personal property, and assignment of permits and licenses necessary for operation of the solid waste facilities. At December 31, 2012, the County recorded \$7,000,000 as a note receivable for the landfill expansion bonds with a similar reservation of fund balance in the Debt Service fund.

In 2002, the County, the City of Columbus and the Columbus Municipal Airport Authority entered into the Port Authority Consolidations and Joinder Agreement. As part of that agreement, the County assumed certain debt related to the former Rickenbacker Port Authority, with the stipulation that the debt will be serviced with revenues from the newly created Columbus Regional Airport Authority (CRAA). At December 31, 2012, the County recorded \$149,000 as a note receivable for an outstanding Ohio Public Works Commission loan, with a similar reservation of fund balance in the General Fund.

In 2009, the County authorized an interest free economic development loan to the Central Ohio Community Improvement Corporation (Central Ohio CIC) in the amount of \$200,000 and to the Community Improvement Corporation of Gahanna (Gahanna CIC) for \$2,600,000. At December 31, 2012, the County recorded a note receivable in the amount of \$197,000 and \$2,566,000 respectively, with a similar reservation of the fund balance in the General Fund.

			(	Other		Total
			Gov	ermental	Gov	rmental
	G	eneral	I	Funds	1	Funds
2013	\$	137	\$	1,600	\$	1,737
2014		174		1,612		1,786
2015		100		1,616		1,716
2016		100		1,627		1,727
2017		100		1,633		1,733
2018-2022		500		-		500
2023-2027		500		-		500
2028-2032		500		-		500
2033-2037		501		-		501
2038-2040		300		-		300

Less: Amount representing interest		-		(1,088)		(1,088
Notes receivable	\$	2,912	\$	7,000	\$	9,912

The following is a summary of the future payments to be received by the County for the notes:

#### Note 8 – Leases - Lessor Disclosure

#### A. Capital Leases

The County acts as lessor in two outstanding direct financing lease agreements. The facilities under lease, the lessees and debt principal outstanding at December 31, 2012, include the following:

	(Amounts in 000's)		
		Pri	ncipal
Facility	Lessee	Outs	tanding
Fairgrounds Project	Franklin County Agricultural Society	\$	300
Maryhaven Facility	Maryhaven, Inc.		1,557
		\$	1,857

Under the agreements, the lessees are required to pay the cost of maintaining and operating the leased facility. Lease payments from Maryhaven are substantially equal to the debt service to be paid by the County for retirement of the bonds associated with those facilities. The payments from Maryhaven are recognized as revenue in the Debt Service fund prior to payment of interest and principal on bonds.

The County has recognized the future minimum lease payments, less unearned interest income to be received for capitalized leases, as "Leases receivable" in the General and Debt Service funds. That portion not collected at year-end is classified as "Unavailable revenue."

A summary of the future minimum lease payments to be received by the County, and the components of the net investment in direct financing leases at December 31, 2012, follows:

	Fairgrounds Project		Mar	yhaven		
			P1		Fa	cility
2013	\$	50	\$	359	\$	409
2014		50		365		415
2015		50		365		415
2016		50		364		414
2017		50		337		387
2018		50		-		50
Minimum lease payments		300		1,790		2,090
Unearned interest income		-		(233)		(233)
Net investment in leases	\$	300	\$	1,557	\$	1,857

#### Note 8 – Leases - Lessor Disclosure (Continued)

#### **B.** Operating Leases

During 2009, the County completed construction on Huntington Park, which has been leased to the Stadium and Team, a component unit of the County. The lease was initiated in April 2009 and expires December 2033. The terms of the lease agreement require the Stadium and Team to pay for operating expenses and leasehold improvements of the stadium. In addition, the Stadium and Team shall pay, as rent, an amount equal to the debt service of the financing package issued under the County's name for the construction of Huntington Park. Minimum annual rent may vary between years as a result of the anticipated debt service payments, and is subject to change as a portion of the financing consists of bond anticipation notes. The asset is recorded as a capital asset of the County as follows:

(Amounts in 000	's)	
Acquisition cost	\$	64,114
Less: accumulated depreciation		(3,811)
Carrying amount	\$	60,303

The Stadium and Team may renew the lease for two consecutive ten year terms under similar terms upon thirty days written notice prior to the end of the lease term. Future payments under the non-cancellable operating lease are as follows:

(Amounts	in 000's)
	Lease
	Payments
2013	\$ 4,213
2014	4,250
2015	4,234
2016	4,194
2017	4,151
2018-2022	10,706
2023-2027	10,706
2028-2032	10,530
	\$ 52,984

## **Note 9 - Capital Assets**

Capital asset activity of the primary government for the year ended December 31, 2012, is shown below:

For bonds, interest rates vary over the term of the bond per a set schedule and none are demand bonds.

#### Note 10 – Long-term Liabilities (Continued)

#### B. New Issues

*March, 2012 Stadium Facility Project (\$10,000,000)* In March 2012, the County issued Series 2012 Taxable Special Obligation notes in the amount of \$10,000,000 with an interest rate of 0.85% (maturing March 8, 2013) for the purpose of refunding outstanding notes previously issued for the purpose of providing funds to pay a portion of the costs of acquiring, constructing, installing and equipping a county park and recreational facility including a baseball stadium.

*July, 2012 Ohio Water Development Authority Loan (\$158,000)* In July 2012, the County entered into a loan agreement with the Ohio Water Development Authority for the Pleasant Acres Construction Design project. The term of the loan is five (5) years with an interest rate of 3.86%.

#### C. Changes in Long-term Liabilities

*Primary Government* Changes in governmental activity long-term obligations during the year, including new issuances, consisted of the following:

#### **Note 10 – Long-term Liabilities** (Continued)

## E. Funds Used to Retire Long-term Liabilities

All general obligation bonds are supported by the full faith and credit of the County. General obligation bonds will be paid with \$246,085,000 from taxes, and the remainder from lease revenues (Note 8), user charges and payments received on the SWACO and CRAA loans including portions of the Series 2005 Refunding (Note 7). Compensated absences liabilities will be paid from the fund from which the employee's salary is paid. Typically the General Fund and the Board of Developmental Disabilities Fund have been used in prior years to liquidate the liability for compensated absences. Capital lease obligations will be paid from the fund that supports the department using the underlying asset, also typical of past treatment.

The taxable special obligations (the "Stadium Facility Bonds" and the "Stadium Facility Note") in the amount of \$35,495,000 are not general obligations of the County, but are payable solely from the proceeds derived from the operation, lease, sale, or other disposition of a County park and recreation facility, including a baseball stadium and from the following non-tax revenue sources that are deposited in the County's General Fund: (i) fines and forfeitures, (ii) fees imposed from licenses and permits, (iii) investment earning on any fund or account of the County, including the County's General Fund, that are credited to the County's General Fund, (iv) proceeds from the sale of capital assets, (v) charges for services, and (vi) other revenues, including but not limited to, rental income, gifts and donations and payments received as reimbursement (the "Pledged Revenues"). Annual principal and interest payments on the special obligations are expected to require less than 27.3 percent of the pledged revenues within the County's General Fund. Other than the retirement of notes described in Note 10.B., there were principal payments of \$700,000 in 2012. Interest charges amounted to \$1,531,000, while pledged revenue amounted to \$69,329,000. The County has covenanted to appropriate each year a sufficient amount of the Pledged Revenues to pay the debt service required in such year.

#### Note 10 – Long-term Liabilities (Continued)

From the original proceeds of the Stadium Facility Bonds and Notes, \$4,100,000 was deposited in the Stadium Debt Service fund to be applied to the payment of interest during the construction phase of the project. As of December 31, 2012, the fund balance of the Stadium Debt Service fund is \$410,000. In addition, the Commissioners have designated \$3,644,000 of the fund balance in the General Fund to secure the pledge for the payment of the debt service on the special obligations from the County's Pledged Revenues.

#### F. Debt Limitations

The ORC provides that the net general obligation debt of the County, exclusive of certain exempt debt, issued without a vote of the electors should not exceed one percent of the total assessed valuation of the County. The ORC further provides that the total voted and unvoted net debt of the County less the same exempt debt should not exceed a sum equal to three percent of the first \$100,000,000 of the assessed valuation, plus one and one-half percent of such valuation in excess of \$100,000,000 and not in excess of \$300,000,000, plus two and one-half percent of such valuation in excess of \$300,000,000. The effects of the debt limitations at December 31, 2012, are an overall debt margin of \$437,906,000 and an unvoted debt margin of \$47,545,000.

## G. Defeased Bonds

In 1993, the County defeased certain general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the County's financial statements. At December 31, 2012, \$46,120,000 remained outstanding on the defeased bonds from the 1993 refunding.

#### H. Optional Redemption

Certain bonds issued by the County are subject to redemption at the County's option. When partial redemption of any of the following bonds is authorized, the bond registrar will select bonds or portions thereof by lot within a maturity in such manner as the bond registrar may determine, provided, however, that the portion of any bond so selected will be in the amount of \$5,000 or an integral multiple thereof. In each case, accrued interest will be paid to the date fixed for redemption. The following schedule summarizes the bond issues subject to optional redemption, the relevant maturity dates, the redemption dates and the redemption rates:

#### Note 10 – Long-term Liabilities (Continued)

Bonds	Maturity Date	Redemption Dates (Dates Inclusive)	Redemption Prices
Series 2005 FCCS Building	after 12/01/2015	12/01/2015 and thereafter	100%

#### Note 11 – Leases - Lessee Disclosure

#### A. Capital Leases

#### **Primary Government**

The County leases buildings and various equipment through lease arrangements. Some of the lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Payments are made from the funds that purchase the assets. The assets acquired through capital leases are as follows:

(Amounts in 000's)		
	F	Primary
	Go	vernment
Buildings and improvements	\$	23,798
Machinery and equipment		2,189
Less accumulated depreciation		(2,248)
	\$	23,739

#### Note 11 – Leases - Lessee Disclosure (Continued)

The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2012, were as follows:

	F	rimary
	Go	vernment
2013	\$	1,990
2014		1,948
2015		1,906
2016		2,011
2017		2,291
2018-2022		10,615
2023-2027		10,615
2028-2031		7,961
Total minimum lease payments		39,337
Less amount representing interest		(14,711)
Present value of minimum lease	\$	24,626

#### **B.** Operating Leases

The County has entered into various contracts and leases for equipment, land and office space. The following table represents the non-cancellable rental liabilities:

2013       \$ 2,309         2014       1,493         2015       1,335         2016       471         2017       281         2018-2022       1,273         2023-2027       883         2028       125		R	ental

2017         281           2018-2022         1,273           2023-2027         883	2015		1,335
2018-2022         1,273           2023-2027         883	2016		471
2023-2027 883	2017		281
	2018-2022		1,273
2028 125	2023-2027		883
	2028		125

The County does not have operating leases or contracts after 2028. During 2012, the County incurred expenditures of \$3,470,000 for non-cancellable operating leases including \$280,000 to Veterans Memorial, a component unit, for rented office space.

#### Note 12 – Contingencies and Commitments

#### A. Contingent Liabilities

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. At December 31, 2012, the audits of certain programs had not been completed. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. Based on prior experience, the County believes such disallowances, if any, will be immaterial.

Several claims and lawsuits are pending against the County. The Prosecuting Attorney has used his best judgment as legal counsel for the County to estimate the possible liability that the County could incur. \$23,000 has been accrued to offset expected liability arising from the current pending lawsuits.

By resolution, the Commissioners have designated amounts in the fund balance of the General Fund to be used for expenditures in future years. \$14,517,000 has been set aside for "rainy day" purposes. In addition, the Commissioners have committed \$3,644,000 to secure the pledge for the payment of debt service on the Stadium Facility Bonds and Note.

#### **B.** Commitments

The County had several outstanding capital projects as of December 31, 2012, including software development projects and various construction projects. The projects include the following major commitments:

		Sp	pent to	Commitment Remaining		
Project	Phase	]	Date			
Hall of Justice remodeling	Construction	\$	7,901	\$	3,563	
Children Services building	Construction		2,128		13,223	
Road and bridge projects	Construction		40,628		8,743	
Software development	Development		2,806		387	
Engineer's building	Construction		4,154		102	
		\$	57,617	\$	26,018	

The County has continued to honor commitments made in prior years including a long-term commitment whereby the County has agreed to contribute approximately \$4,340,000 to the Columbus Regional Airport Authority annually through 2012.

#### Note 13 – Risk Management

The County is exposed to various risks of loss related to torts and general liability; theft of, damage to and destruction of assets; natural disasters; errors and omissions; health care claims for employees and their eligible dependents; and injuries to employees. Insurance policies are procured for commercial crime, flood, buildings and contents, equipment, boilers and machinery. In addition, a Commercial Crime and Public Employees Dishonesty policy is in effect for certain agencies that deal with large amounts of cash, and a Faithful Performance Blanket bond is in place for all County employees. Medical malpractice insurance is purchased for claims involving inmate medical care. Settled claims have not exceeded commercial coverage in any of the past three years. There has not been a significant reduction in coverage from the prior year. The County has elected to retain risk for losses related to torts, general and excess liability, and automobile casualty rather than insuring those risks through a third-party. Employee health care claims are self-insured, with purchased stop-loss coverage of \$1,000,000 per individual for the calendar year. The County purchases workers' compensation insurance from the State of Ohio to cover employees and auxiliary staff.

#### A. Self-insurance for General Liability

The County's General Fund provides unlimited coverage for court judgments resulting from tort and general liability claims of County officials and employees. The County does not use actuaries to determine possible claims liability, nor are any interfund premiums charged. However, the County incorporates nonincremental claims adjustments when setting the annual budget amount for claims, judgments and settlements. The Commissioners appropriated \$500,000 within the General Fund in 2012 to satisfy court-ordered judgments, self-insured claims or other settlements. The actual claims paid during 2012 totaled \$178,000. It is estimated that \$23,000 claims and judgments will be due within one year. \$1,687,000 of the General Fund's fund balance has been designated for unasserted claims.

## B. Self-insurance for Health Benefits

The County provides multiple health care benefit plans that cover approximately 4,900 County employees. Approximately 1,500 employees of other political subdivisions are also in the County's insurance program. Coverage is extended to eligible dependents. Costs are allocated to the fund that pays the salary of the enrolled employee. These payments are accounted for as expenditures in the paying funds and as fees and charges for services in the Employee Benefits internal service fund from which the claims are paid. An estimate of amounts to be paid for claims incurred but not reported (IBNR) as of year-end has been developed by the County in conjunction with an actuary, based on appropriate standards of practice promulgated by the Actuarial Standards Board. At December 31, 2012, accounts payable balances included \$1,449,000 of reported, unpaid County claims and \$5,267,000 as an estimate for IBNR. Actual claims experience may differ from the estimate. Given the nature of health benefits, the County predicts that the entire liability will be paid within one year. As such, the entire claims liability is a current liability.

The Comprehensive Omnibus Budget Reconciliation Act of 1986 requires the County to offer terminated or retired employees continued participation in the County's employee health care benefits program, provided that the employees pay the rate established by the plan administrator.

#### Note 13 – Risk Management (Continued)

#### C. Workers' Compensation

Prior to 2012, the County solely reimbursed the Ohio Bureau of Workers' Compensation for the cost of injured workers' claims. All County agencies participate in the program and make payments for prior and current year claims. Because the plan is retrospectively rated, payments will be made in future periods for injuries sustained during 2012 and prior years. Beginning in 2012 the County began to self-insure its workers' compensation costs. Charges are established based on an independent actuarial evaluation, and are designed to be sufficient to cover all incurred claims and maintain a reserve for this self-insurance arrangement. If the reserve is insufficient at any point in time to cover claims, the claims will be covered by the County's General Fund with adjustments made to future charge rates. The County is the only participant and activities related to the program are reported in the Employee Benefits internal service fund. At December 31, 2012, the long-term liability for Workers' Compensation claims was estimated to be \$5,140,000, a net decrease of \$1,160,000 from the estimate as of December 31, 2011. The County has designated \$6,310,000 of the General Fund's fund balance for these future payments.

#### D. Summary

When it is probable that a loss has occurred and the amount of the loss can be reasonably estimated, the liability is reported in the fund. The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors. Accordingly, claims liabilities are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of pay-outs) and other economic and social factors. The estimate of the claims liabilities includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Liabilities also include an amount for estimated IBNR claims. Changes in claims liabilities for the various plans during 2011 and 2012 were as follows:

	General Liability		Health Benefits		Workers' <u>Compensation</u>		Total	
Unpaid claims at 01/01/11	\$	127	\$	8,667	\$	6,392	\$	15,186
2011 net change in claims estimate		-		-		(92)		(92)
2011 incurred claims & IBNR		365		76,310		2,374		79,049
2011 paid claims		(485)		(78,020)		(2,374)		(80,879)
Unpaid claims at 12/31/11		7		6,957		6,300		13,264
2012 net change in claims estimate		_		_		(1,160)		(1,160)
2012 incurred claims & IBNR		194		80,102		1,581		81,877
2012 paid claims		(178)		(80,343)		(1,581)		(82,102
Unpaid claims at 12/31/12	\$	23	\$	6,716	\$	5,140	\$	11,879

#### Note 13 – Risk Management (Continued)

The County analyzes all outstanding and potential claims that have arisen or could arise due to the occurrence of a loss contingency on or before December 31, 2012. Those claims that are judged to have a high probability of requiring a settlement and for which the amount required to settle the claim is reasonably estimable are shown as liabilities. Those claims for which the liability cannot be reasonably estimated or which are judged not to have a high probability of settlement are not displayed as liabilities on the balance sheet, but are discussed in Note 12.

#### Note 14 – Defined Benefit Retirement Plans

#### A. Ohio Public Employees Retirement System

Ohio Public Employees Retirement System (OPERS) administers three separate pension plans. The authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code. The three plans are described below:

- Traditional Pension (TP) Plan a cost-sharing, multiple-employer defined benefit pension plan. OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the TP Plan.
- Member-Directed (MD) Plan a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the MD Plan, members accumulate retirement assets equal to the value of member and vested employer contributions, plus any investment earnings. Members of the MD Plan do not qualify for ancillary benefits.
- Combined (CO) Plan a cost-sharing, multiple-employer defined benefit pension plan. Under the CO Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to, but less than, the TP Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the MD Plan. OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the CO Plan.

The Ohio Revised Code provides statutory authority for member and employer contributions. For 2012, member and employer contribution rates were consistent across all three plans. Members in the law enforcement and public safety divisions exist only within the TP Plan. The 2012 contribution rate for members, other than those engaged in law enforcement and public safety, was 10.0 percent of covered payroll. The law enforcement classification had a member contribution rate of 12.1 percent. The 2012 employer contribution rate was 14.0 percent of covered payroll, except for law enforcement where the rate was 18.1 percent.

#### Note 14 – Defined Benefit Retirement Plans (Continued)

The County's required contributions to OPERS for the years ended December 31, 2012, 2011 and 2010 were as follows:

(A	moun	ts in 000's)		
		2012	 2011	 2010
Employer share	\$	40,820	\$ 41,565	\$ 41,639
Employee share, paid by employer		3,046	 3,063	 3,042
Total contributions	\$	43,866	\$ 44,628	\$ 44,681
	\$		\$ 	\$ 11.00

The full amount has been contributed for 2010 and 2011. For 2012, 89.22 percent has been contributed with the remaining contributions paid when due in 2013.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <u>https://www.opers.org/investments/cafr.shtml</u>, writing to OPERS, 277 East Town Street, Columbus, OH 43215-4642, or calling 614-222-5601 or 800-222-7377.

#### B. State Teachers Retirement System of Ohio

The County also contributes to State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, community school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof.

New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC Plan allows members to allocate their member contributions and employer contributions equal to 10.5 percent of earned compensation among various investment choices. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

#### Note 14 – Defined Benefit Retirement Plans (Continued)

STRS Ohio administers three separate pension plans:

- Defined Benefit (DB) Plan Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money-purchase benefit" calculation. Under the "formula benefit," the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest salary years. The annual allowance is calculated by using a base percentage of 2.2 percent multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31<sup>st</sup> year of earned Ohio service credit is calculated at 2.5 percent. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6 percent for 32 years, 2.7 percent for 33 years and so on) until 100 percent of the final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5 percent instead of 2.2 percent. Under the "money-purchase benefit" calculation, a member's lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.
- Defined Contribution (DC) Plan Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5 percent are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members' accounts are vested after the first anniversary of the first day of paid service. Members of the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

#### Note 14 – Defined Benefit Retirement Plans (Continued)

• Combined (CO) Plan – Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1 percent of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3 percent of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Actual contributions during 2012 were made equal to the statutory maximum rates. The County's contributions to STRS Ohio for the years ended December 31, 2012, 2011 and 2010 were approximately \$1,366,000, \$1,431,000, and \$1,452,000, respectively. The full amounts have been contributed for 2012, 2011 and 2010.

STRS Ohio issues a stand-alone financial report. A copy can be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling toll-free 1-888-227-7877, or by visiting the STRS Ohio website at <u>www.strsoh.org</u>.

#### Note 15 – Postemployment Benefits

#### A. Ohio Public Employees Retirement System

OPERS administers three separate pension plans (see Note 14.A.): the Traditional Pension Plan – a cost sharing, multi-employer defined benefit pension plan; the Member-Directed Plan – a defined contribution plan; and the Combined Plan – a cost-sharing, multi-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple employer defined benefit post-employment health care plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-retirement health care coverage, age and service retirees under the Traditional Pension and Combined Plans must have ten or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45.

The ORC permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in ORC Chapter 145.

The ORC provides the statutory authority requiring public employers to fund post retirement health care through contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2012, local government employers contributed at 14.00 percent of covered payroll, and public safety and law enforcement employers contributed at 18.10 percent. These are the maximum employer contribution rates permitted by the ORC. Active members do not make contributions to the OPEB Plan.

OPERS' Post Employment Health Care plan was established under, and is administrated in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of post employment health care benefits. The portion of employer contributions allocated to health care for members in the Traditional Plan was 4.0 percent during calendar year 2012. The portion of employer contributions allocated to health care for members in the Combined Plan was 6.05 percent during calendar year 2012. The portion of employer contributions allocated to health care for members in the Combined Plan was 6.05 percent during calendar year 2012. The portion of employer contributions allocated to health care for the calendar year beginning January 1, 2013 remained the same, but they are subject to change based on Board action. Employers will be notified if the portion allocated to health care changes during the calendar year 2013. The OPERS Board of Trustees is also authorized to establish rules for the retiree, or their surviving beneficiaries, to pay a portion of the health care benefits provide. Payment amounts vary depending on the number of covered dependents and the coverage selected.

#### Note 15 – Postemployment Benefits (Continued)

The County's actual contributions for 2012, 2011 and 2010, used to fund OPEB, were approximately \$12,094,000, \$12,307,000, and \$15,705,000, respectively. Actual contributions represent 100 percent of required contributions.

The Health Care Preservation Plan adopted by the OPERS Board of Trustees on September 9, 2004, was effective January 1, 2007. Member and employer contribution rates increased on January 1 of each year from 2006 to 2008. Rates for law and public safety employers increased over a six year period beginning on January 1, 2006, with a final rate increase on January 1, 2011. These rate increases allowed additional funds to be allocated to the health care plan.

#### B. State Teachers Retirement System of Ohio

STRS Ohio administers a pension plan that is comprised of: a Defined Benefit Plan; a self-directed Defined Contribution Plan, and a Combined Plan that is a hybrid of the Defined Benefit and Defined Contribution Plan.

Ohio law authorizes STRS Ohio to offer a cost-sharing, multiple-employer health care plan. STRS Ohio provides access to health care coverage to eligible retirees who participated in the Defined Benefit or Combined Plans. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums.

Pursuant to ORC Chapter 3307, the Retirement Board has discretionary authority over how much, if any, of the associated health care costs will be absorbed by STRS Ohio. All benefit recipients, for the most recent year, pay a portion of the health care costs in the form of a monthly premium.

Under Ohio law, funding for post-employment health care may be deducted from employer contributions. Of the 14.00 percent employer contribution rate, 1.00 percent of covered payroll was allocated to post-employment health care for the years ended June 30, 2012, 2011, and 2010. The 14.00 percent employer contribution rate is the maximum rate established under Ohio law. The County's actual contributions for 2012, 2011 and 2010, used to fund OPEB were approximately \$98,000, \$102,000, and \$104,000, respectively.

#### Note 16 – Conduit Debt Obligations

From time to time, the County has issued Hospital, Housing and Industrial Revenue Bonds to provide financial assistance to private sector entities for the acquisition and construction of facilities deemed to be in the public interest. The bonds are secured by the financed property and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the facility transfers to the private-sector entity served by the bond issuance. The County is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of December 31, 2012, there were 146 series of bonds outstanding. The aggregate principal amount payable of these series was \$2,541,214,000.

#### Note 17 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented on the below.

	General	FCBDD	Children Services Board	ADAMH Board	Public Assistance	Other Governmental Funds	Total Governmental Funds
Nonspendable	¢ 1.050	¢ 262	¢ 14	¢	¢ 16	¢ 000	¢ 2.244
Inventory	\$ 1,959	\$ 363	\$ 14	\$ -	\$ 16	\$ 992	\$ 3,344

#### Note 19 – Joint Ventures

Franklin County and the City of Columbus (the City) participate in the following three joint ventures.

*Columbus/Franklin County Affordable Housing Trust Corporation (AHT)* The AHT is a nonprofit corporation created in 2000 to promote home ownership and affordable rental housing opportunities in the County and City. The AHT Board is appointed jointly by the Franklin County Board of Commissioners and the Mayor of the City of Columbus, and receives annual support from the County and City, including \$1,915,163 from the County in 2012. AHT will receive annual funding from the County as long as the current agreement continues. Complete financial statements may be obtained from AHT at 185 South Fifth Street, Columbus, Ohio 43215.

*Franklin Park Conservatory Joint Recreation District (Conservatory District)* The Conservatory District was created in 1990 pursuant to the authority contained in ORC Section 755.14 (B), and is dedicated to the promotion of environmental appreciation and ecological awareness. There is an ongoing financial responsibility on the part of the County and the City, whereby both the County and the City provide annual operating subsidies. The County provided \$285,000 in 2012. Complete financial statements can be obtained from Franklin Park Conservatory Joint Recreation District, 1777 East Broad Street, Columbus, Ohio 43203.

*Columbus-Franklin County Finance Port Authority (Finance Authority)* The Finance Authority was created in 2006 pursuant to the authority contained in ORC Sections 4582.21 through 4582.59, to serve economic development needs. The County and City have committed to provide subsidies to the Finance Authority. The County provided an annual operating subsidy of \$150,000 in 2012. Audited financial statements for the Finance Authority may be obtained from The Columbus-Franklin County Finance Authority, 350 East First Avenue, Suite 120, Columbus, Ohio 43201.

#### Note 19 – Joint Ventures (Continued)

#### Note 20 – Related Organizations and Other Agreements

*Housing of City Prisoners* Under the terms of an agreement between the County and the City of Columbus, the County provides housing and medical treatment to persons incarcerated under City ordinances. For this service, the City has agreed to pay its proportionate share of the jail's costs. During 2012, the General Fund realized revenue of \$4,476,000 under this agreement.

*Central Ohio Workforce Investment Corporation* The Franklin County Department of Job and Family Services (FCDJFS) provides workforce development services for the Central Ohio Workforce Investment Corporation (COWIC) established pursuant to the Workforce Investment Act of 1998. A board of directors separate from FCDJFS heads the COWIC.

*Columbus Metropolitan Library* The Commissioners are responsible for a majority of the board appointments for the Columbus Metropolitan Library. The County has no further accountability or oversight for the library's operation.

*Columbus Metropolitan Housing Authority* The County and the City of Columbus jointly formed the Columbus Metropolitan Housing Authority (CMHA). CMHA is a separate body from the City and the County, with no oversight or accountability by the County for CMHA's management or operations.

Note 20 – Related Organizations and Other Agreements (Continued)

*Columbus and Franklin County Metropolitan Park District* The Columbus and Franklin County Metropolitan Park District (Metro Parks) was organized under ORC Chapter 1545. Metro Parks is a separate political subdivision and is governed by a three-member Board of Park Commissioners, appointed in a non-authoritative manner by the Franklin County Probate Judge. The Board of Park Commissioners adopts the annual budget. Metro Parks' operations are autonomous.

*Franklin County Family and Children First Council* The operation of the Franklin County Family and Children First Council is controlled by an oversight committee. The chair of the County Commissioners serves on the committee. The Franklin County Educational Service Center is the administrative agent for the Council.

*Franklin County Convention Facilities Authority* The Commissioners appoint a majority of the board members of the Franklin County Convention Facilities Authority (CFA) but have no further accountability for it. The CFA is a separate and distinct legal entity. Neither the County nor the City of Columbus is responsible for the operation of CFA or of the Greater Columbus Convention Center (Convention Center).

The CFA issued lease revenue bonds in 1990 to finance the construction of the Convention Center. Several bond issues have been completed since that date through which tax and lease revenue anticipation bonds were used to refund and refinance portions of the original and subsequent issues, and to finance further construction and renovations. In 2010, the CFA issued \$160 million lease revenue anticipation bonds to finance a full-service convention center hotel. In 2011, the CFA issued \$16 million in parking garage improvement bonds to finance the expansion of the Vine Street parking facility. In 2012, the CFA issued \$42.5 million of tax and lease revenue anticipation refunding bonds for the purpose of refunding outstanding 2002 bonds to achieve interest cost savings. Also, in 2012, the CFA issued \$10 million first lien arena lease revenue bonds to finance a portion of the purchase of Nationwide Arena and \$44.2 million second lien arena lease revenue bonds to finance a portion of the purchase of Nationwide Arena and to finance other capital and operating activities. The total amount of these revenue bonds outstanding as of December 31, 2012, was \$375,782,000 net of premiums and discounts of \$712,000 or a gross amount of \$376,494,000.

For the bond issues prior to 2010, the bond issues and the facility were made possible through a lease/sublease agreement whereby the County and the City lease the facility from CFA and concurrently sub-lease it back to CFA. The lease rent charged by CFA equals the annual debt service amount, with each party paying an amount equal to one half the amount of the debt service on the revenue bonds. The sub-lease rent charged by the County and the City also equals the annual debt service amount, and is expected to be paid from hotel/motel tax revenues. The County, at its discretion and without incurring any penalty or further liability, may cancel the lease by not appropriating funds for the lease payment. The terms of the agreement provide many alternative plans for payment of the debt service in the event that the hotel/motel tax revenues prove insufficient. The County considers it highly unlikely that it will ever be faced with meeting CFA's debt service. The County Considers it highly unlikely that it will ever be faced with sub-lease payments made and received by the County.

#### Note 20 – Related Organizations and Other Agreements (Continued)

In conjunction with the 2010 bond issue, the CFA has agreed to lease the project to the County and the County has agreed to sublease the project back to the CFA. The lease requires the County to pay rent to the CFA equal to the aggregate principal and interest required to be paid on the Series 2010 bonds. Under the sublease, the CFA has agreed to make rental payments to the County for the same amount.

In December 2011, the County authorized the execution and delivery of a lease and a sub-lease agreement with the CFA and the City for the purpose of financing the purchase of Nationwide Arena and future improvements thereto and to approve loan agreements with the State of Ohio, and the issuance of Arena Lease Revenue Anticipation Bonds by FCA for such purposes. Pursuant to the lease, the County will make a rental payment in an amount equal to a percentage of the revenue it receives from the casino tax collected by the State and distributed to the County. The percentage of casino tax receipts to be paid as rent is as follows:

Year	Percentage
2013 through 2015	25%
2016	26%
2017	27%
2018	28%
2019	29%
2020	30%
2021	31%
2022 and thereafter	32%

*Central Ohio Community Improvement Corporation* The Commissioners are responsible for the appointments of two of the seven trustees for the Central Ohio Community Improvement Corporation; the Treasurer makes one appointment. The County has no further accountability for this organization.

*Friends of the Shelter* Friends of the Shelter is a not-for-profit organization with a self-appointing board. Money raised by Friends of the Shelter supports various programs at the Franklin County Animal Shelter. The amount of funding is immaterial to the Dog and Kennel special revenue fund. The County is not financially accountable for the organization, nor does the County approve the organization's budget.

#### Note 21 – Subsequent Events

On February 12, 2013, the County issued taxable special obligation notes in the amount of \$8 million for the purpose of retiring the Series 2012 Stadium Facility Project Notes. Huntington Investment Company, a party with a vested interest in the Huntington Park stadium, held the old notes and purchased the new notes. Huntington National Bank has entered into a sponsorship agreement with the Stadium and Team, whereby in exchange for naming rights, the bank will provide \$9 million over twenty years.

On April 9, 2013, the County authorized the issuance of limited tax bonds in an amount not to exceed \$182,235,000, for the purpose of providing funds to refund certain outstanding general obligation bonds of the County.

On April 23, 2013, the County authorized the County Administrator to enter into a loan agreement with the Ohio Air Quality Development Authority for the financing of various energy conservation measures in an amount not to exceed \$10 million.

# **Combining and Individual Fund**

Statements and Schedules

## Nonmajor Governmental Funds

#### Nonmajor Special Revenue Funds

The special revenue funds are used to account for proceeds of specific revenue sources (other than debt service, capital projects, or enterprise funds) that are legally restricted to expenditures for specified purposes. A description of the nonmajor special revenue funds follows:

<u>Motor Vehicle and Gasoline Tax</u> – This fund accounts for revenue derived from taxes on gasoline and motor vehicle licenses. State law restricts expenditure of these funds to road and bridge maintenance and construction.

<u>Senior Services</u> – This fund accounts for the property taxes and grants spent for programs benefiting senior citizens.

Zoological Park – This fund accounts for the property taxes for the Columbus Zoo.

<u>Child Support Enforcement</u> – This fund accounts for the administration of the collection and distribution of voluntary and court-ordered child support payments.

<u>Real Estate Assessment</u> – This fund accounts for activities related to the appraisal of real property for tax purposes, and periodic county-wide revaluation. Funding is provided through charges to the various political subdivisions during the distribution of their property tax revenue.

Additional special revenue funds are listed below:

- Convention Center Lease
- Homeland Security and Justice Programs
- Economic Development and Planning
- Dog and Kennel
- Certificate of Title Administration (Budgetary only)
- Wireless Enhanced 9-1-1

- Domestic and Juvenile Court Grants
- Adult Probation and Community Corrections
- Emergency Management Agency
- Recorder Equipment (Budgetary only)
- Other Special Revenue Funds

## Nonmajor Debt Service Funds

The debt service funds are used to account for the accumulation of governmental resources and payment of principal and interest on long-term debt. Debt service funds are as follows:

- General Bond Retirement
- Maryhaven Debt Service
- Stadium Debt Service

## Nonmajor Capital Projects Funds

The capital projects funds are used to account for the financial resources used for the acquisition, construction or renovation of facilities (other than those financed by the enterprise funds). Following are descriptions of the nonmajor capital project funds:

<u>New Building Construction</u> – This fund accounts for land acquisition and construction of a new court building.

<u>Animal Shelter Construction</u> – This fund accounts for the land acquisition and construction of a new animal shelter.

<u>Vets Memorial Projects</u> – This fund accounts for improvements to the Veterans Memorial Hall.

<u>Clean Ohio Grant</u> – This fund accounts for the environmental remediation and redevelopment of a former landfill site.

<u>E-Filing Project</u> – This fund accounts for cost associated with providing a case management system that will allow attorneys to file petitions and other documents electronically through the internet.

<u>Stadium Construction</u> – This fund accounts for land acquisition and construction of a new baseball stadium.

<u>Hall of Justice Improvements</u> – This fund accounts for improvements to the Franklin County Hall of Justice.

<u>Road Projects-2010 Bonds</u> – This fund accounts for construction costs associated with improving certain intersections and roads in the County. These costs are financed by bonded debt.

Whim's Ditch – This fund accounts for land acquisition and construction costs of Whim's Ditch.

<u>Children Services Building Purchase</u> – This fund accounts for the land acquisition and purchase of a new building.

<u>Other Capital Projects</u> – This fund accounts for miscellaneous capital projects.

#### **Other Capital Projects Funds**

### **Enterprise Funds**

Enterprise funds are used to account for operations that are financed and operated in a manner similar to a private business enterprise. The County intends that the cost of providing services to the general public on a continuing basis be financed or recovered primarily through user charges. Following are descriptions of the enterprise funds:

<u>Water and Sewer</u> – This fund accounts for the provision of water and sewer services to a relatively small area of the County not serviced by other local water and sewer operations. All activities necessary to provide such services are accounted for in this fund.

<u>Parking Facilities</u> – This fund accounts for the fees and operations of the County-owned parking facilities. The facilities serve both County employees and the general public.

Since the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Assets and the Statement of Cash Flows for each of the enterprise funds are presented in the basic financial statements, they are not repeated in this section.

### **Internal Service Funds**

The internal service funds report activities provided to the departments and agencies on a costreimbursement basis. The County has two internal service funds:

<u>Employee Benefits</u> – This fund accounts for the provision of medical, dental, optical, prescription, life and mental health insurance to departments and agencies.

<u>Telecommunications</u> – This fund accounts for the provision of telecommunication services, primarily voicemail.

### **Fiduciary Funds**

### **Agency Funds**

Agency funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments, or other funds. A description of the agency funds follows:

<u>Undivided Taxes</u> – This fund includes the collection and distribution of property, motor vehicle, and estate taxes.

<u>Payroll and Benefit Revolving</u> – This fund accounts for the collection and distribution of the employer and employee shares of all payroll taxes and other withholdings.

<u>Other Agency Funds</u> – These funds account for the collection and distribution of local government taxes levied and collected by the State of Ohio. Also included are the collection and distribution of moneys held by County agencies in outside bank accounts, moneys held outside of the County treasury by the courts, and all funds that are not part of the County's reporting entity, but for whom the County serves as fiscal agent.

### **Component Units**

#### Component units are legally separate organizations for which the County is financially accountable.

<u>ARC</u> Industries, Incorporated, of Franklin County, Ohio (ARC Industries) – ARC Industries is a sheltered, not-for-profit workshop that enters into contracts with the business community to provide workers for various manufacturing and service industry jobs.

<u>Veterans Memorial Hall</u> – Veterans Memorial Hall was built to commemorate the services of all members and veterans of the United States armed forces and to provide a center for veterans' meetings and programs.

<u>Franklin County Stadium, Inc. and Columbus Baseball Team, Inc. (Stadium and Team)</u> – These two interrelated nonprofit corporations were organized under ORC Chapter 1702 to provide entertainment and recreation in the stadium for the benefit and general welfare of the County.

**Statistical Section** 

## **Statistical Section**

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Contents	Tables
<i>Financial Trends</i> These schedules contain trend information to help the reader understand how the County's financial position has changed over time.	1 - 4
<b>Revenue Capacity</b> These schedules contain information to help the reader understand and assess the factors' effect on the County's ability to generate its most significant local revenue sources, the property tax and the sales tax.	5 - 13
<i>Debt Capacity</i> These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.	14 - 19
<i>Economic and Demographic Information</i> These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments.	20 - 21
<i>Operating Information</i> These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	22 - 23
<i>Compliance Information</i> This schedule provides the continuing disclosures required by Securities and Exchange Commission Rule 15c2-12.	24

**Sources:** Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The County implemented GASB Statement 44 in 2005, and GASB Statement 54 in 2011; related schedules present information beginning in the year of implementation.

Notes: All are appraised values.

<sup>1</sup>Years 2006 and forward include value and or class adjustments (e.g., homestead, current agricultural use valuation). <sup>2</sup>Includes abated values.

## FRANKLIN COUNTY, OHIO Property Taxes on a \$100,000 Owner-Occupied Home or a Business City of Columbus / Columbus School District December 31, 2012

Real estate taxes help finance your school district, your city, village or township, your public library, your parks and zoo, and various County services. In the example below, if your home or business has an appraised value of \$100,000 located in the City of Columbus and the Columbus City School District for tax year 2012, this is how the taxes will be distributed in calendar year 2013.

Tax Recipient	 Home	 Business
Columbus City Schools	\$ 1,339.44	\$ 1,937.39
Board of Developmental Disabilities	214.38	245.00
Children Services	148.58	173.71
City of Columbus	96.16	109.90
ADAMH Board	67.38	77.00
County General Fund	45.02	51.45
Columbus Public Library	85.75	98.00
Office on Aging	39.81	45.50
Zoological Park	21.29	25.74
Metro Parks	 22.97	 26.25
Total	\$ 2,080.78	\$ 2,789.94

Notes: <sup>1</sup>Tax rates displayed are for tax years 2012 and 2003, to be collected in 2013 and 2004 respectively. <sup>2</sup>While authority exists to collect this levy because the levy was voted as a continuing levy, the County has opted to discontinue collection of this levy due to the passage of the 2008 FCBDD levy.

## FRANKLIN COUNTY, OHIO Other Major General Fund Revenue Sources Last Ten Years (Amounts in 000's)

## County sales tax:

The County imposes a one-half percent sales tax effective September 1, 1985, and an additional permanent one-fourth percent effective October 1, 2005. A temporary onefourth percent sales tax became effective October 1, 2005, and expired December 31, 2007. The sales tax may be repealed if a majority of voters approve the repeal at a general election. The question of repeal must be placed on the ballot by a petition signed by qualified voters equal in number to 10% of those voting for governor in the last gubernatorial election. No such petition has been filed with the County Board of Elections.

#### Local Government fund:

The Ohio local government fund was created by statute and is comprised of designated state revenues, which are distributed to each county and then allocated among the county and cities, villages and townships in the county on the basis of statutory formulas.

The following table shows sales taxes and local government fund revenue for the County's General Fund:

		Local
Fiscal	Sales	Government
Fiscal Year	Tax	Fund
2003	\$ 82,728	\$ 27,213
2004	85,718	25,593
2005	105,886	27,184
2006	175,343	27,184
2007	177,398	24,223
2008	130,723	26,383
2009	124,249	22,229
2010	130,876	23,600
2011	138,479	20,661
2012	148,245	11,491

#### Sources:

<sup>1</sup> Estimates by Mid-Ohio Regional Planning Commission.

<sup>2</sup> Population and Net Bonded Debt per Capita amounts are not in thousands.

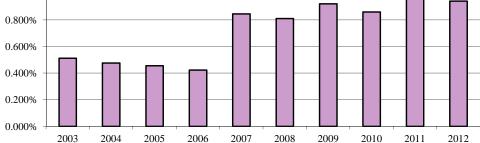

<sup>3</sup> Gross Bonded Debt does not include unamortized bond premiums or deferred charges, and is calculated as below for 2012:

General obligation bonds	\$ 254,660
Special obligation bonds	25,495
Bonds supported by enterprise revenues	8,770
	\$ 288,925

<sup>4</sup> Resources available in the general obligation debt service fund to pay principal of outstanding debt.

<sup>5</sup> Includes bonds supported by enterprise revenues, leases, and special obligations payable from non-tax revenues.

Special district		140,545	80.7%	 113,457
Total overlapping debt		5,359,114		 4,528,690
Total direct and overlapping debt	\$	5,684,323		\$ 4,853,899

## Source: Debt schedules submitted by political subdivisions to the Franklin County Budget Commission and Settlement Division and the Ohio Municipal Advisory Council.

Note: <sup>1</sup>Some political subdivisions are not wholly located within the legal boundaries of Franklin County. For those entities, the amount applicable to Franklin County is determined by dividing the assessed valuation of the Franklin County portion of the subdivision by the total assessed valuation. 2012 tax year valuations were used. Major entities partially within Franklin County include the cities of Columbus, Dublin, Pickerington, Reynoldsburg, and Westerville, along with their respective school districts.

<sup>2</sup> Direct debt of Franklin County includes the following:	
Governmental activities:	
General obligation bonds and notes	\$ 254,660
Special obligation bonds, notes and loans	45,923
Capital leases	24,626
	\$ 325,209

Source: Franklin County Auditor's Office.

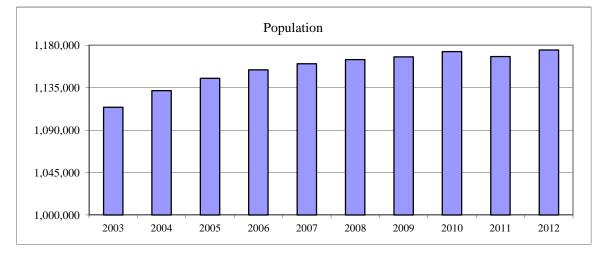

Note: The County issued \$10,000,000 taxable special obligation notes in 2012 for the purpose of retiring previously issued notes used to pay a portion of the cost of acquiring, constructing, installing, and equipping a county park and recreation facility, including a baseball stadium. The special obligation bonds and notes do not represent general obligation debt or a pledge of the full faith and credit or taxing power of the County. The special obligations are payable solely from, and secured by, a pledge of project revenues and the above non-tax General Fund revenues of the County. As of December 31, 2012, \$25,495,000 of the bonds and \$10,000,000 of the notes remain outstanding.

<sup>1</sup> Does not include principal payments due to refinancing of bond anticipation notes.

Source: Franklin County Auditor's Office.

Method: 1.0 for each full time and .5 for each part-time employee. Includes 5,555 full-time

employees and 383.5 full-time equivalents for part-time employees as of 12/31/2012.

Notes: <sup>1</sup> The County implemented GASB Statement No. 44, which revised the statistical tables in 2005;

information for this table has only been compiled since that year.

 $^2$  Total employment declined from 2005 to 2006 due to CBCF becoming independent from Common Pleas Court.

<sup>3</sup> The County pays a portion of the salaries for judges and magistrates; in general, municipal court

employees are paid by the City of Columbus.

## FRANKLIN COUNTY, OHIO Securities and Exchange Commission Rule 15c2-12 Compliance Information As of December 31, 2012

On February 12, 2013, the County issued taxable special obligation notes in the amount of \$8,000,000 for the purpose of retiring the Series 2012 Stadium Facility Project Notes.

On April 9, 2013, the County authorized the issuance of limited tax bonds in an amount not to exceed \$182,235,000, for the purpose of providing funds to refund certain outstanding general obligation bonds of the County.

On April 23, 2013, the County authorized the County Administrator to enter into a loan agreement with the Ohio Air Quality Development Authority for the financing of various energy conservation measures in an amount not to exceed \$10,000,000.

No other obligations have been sold from that date to the date of this letter, June 30, 2013.

The following description of significant events is provided in compliance with the Rule for existing obligations outstanding at December 31, 2012.

- 1. There were no delinquencies of principal and/or interest payments.
- 2. There were no non-payment related defaults.
- 3. There have been no modifications to rights of the holders of the County's obligations.
- 4. There were no issuances of bonds in 2012.
- 5. There were no calls of the County's obligations outstanding during 2012, nor did the County defease any other bonds during 2012.
- 6. There were no rating changes during 2012. The County maintains the highest long-term bond rating given by both Moody's Investor Services (Aaa) and Standard & Poor's (AAA) for its general obligation debt.
- 7. There have been no adverse tax opinions or events affecting the tax-exempt status of any of the County's outstanding obligations.
- 8. There were no unscheduled draws on debt service reserves reflecting financial difficulties.
- 9. There were no unscheduled draws on credit enhancements reflecting financial difficulties.
- 10. There was no substitution of credit or liquidity providers, nor was there a failure to perform.
- 11. The County did not release, substitute or sell any property securing repayment of its obligations.
- 12. The County will continue to provide all necessary annual information by filing its Comprehensive Annual Financial Report with the Municipal Securities Rulemaking Board through the use of the MSRB's electronic portal "EMMA," short for Electronic Municipal Market Access.

## Dave Yost • Auditor of State
