Hancock County Schools Health Benefit Fund Hancock County, Ohio

Audited Financial Statements

For the Fiscal Year Ended September 30, 2012

Board of Trustees Hancock County Schools Health Benefit Fund 7746 County Road 140 Findlay, Ohio 45840

We have reviewed the *Independent Auditor's Report* of the Hancock County Schools Health Benefit Fund, Hancock County, prepared by Rea & Associates, Inc., for the audit period October 1, 2011 through September 30, 2012. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Hancock County Schools Health Benefit Fund is responsible for compliance with these laws and regulations.

Dave Yost Auditor of State

To the Board of Trustees Hancock County Schools Health Benefit Fund Hancock County, Ohio 7746 County Road 140 Findlay, Ohio 45840

INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying financial statements of the Hancock County Schools Health Benefit Fund, Hancock County, Ohio (the "Fund"), as of and for the year ended September 30, 2012. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 2, the accompanying financial statements and notes follow the cash accounting basis. This is a comprehensive accounting basis other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the Hancock County Schools Health Benefit Fund as of September 30, 2012, and the respective change in the cash financial position, for the year then ended in conformity with the accounting basis Note 2 describes.

Hancock County Schools Health Benefit Fund Independent Auditor's Report February 21, 2013 Page 2

In accordance with *Government Auditing Standards*, we have also issued our report dated February 21, 2013, on our consideration of the Fund's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. While we do not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance, and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

We conducted our audit on the Fund's financial statements taken as a whole. Management's Discussion and Analysis includes tables of net assets and changes in net assets. The Loss Development Information includes a table of historic analysis of the Fund's claims experience. These tables provide additional information, but are not part of the basic financial statements. However these tables are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These tables were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. Other than the aforementioned procedures applied to the tables, we applied no procedures to any other information in the Management's Discussion and Analysis or Loss Development Information, and we express no opinion or any other assurance on it.

Rea & Associates, Inc.

Management's Discussion and Analysis For the Fiscal Year Ended September 30, 2012

The following report reflects on the financial condition of the Hancock County Schools Health Benefit Fund (the "Fund") for the fiscal year ended September 30, 2012. Within the limitations of the Fund's cash basis of accounting, this information is provided to enhance the information in the financial statements and the corresponding notes and should be reviewed in concert with the report.

Financial Highlights

Key financial highlights for fiscal year 2012 are as follows:

- Total operating receipts were \$8,575,910, representing contributions from nine Fund members during the period from October 1, 2011 through September 30, 2012.
- o Total non-operating receipts were \$4,705 for the fiscal year.
- O Total disbursements were \$7,916,986, with claims payments representing \$6,924,231, or 87 percent, insurance premium for coverage representing \$283,444, or 4 percent and administrative and professional disbursements representing 9 percent.

Using these Annual Report

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the Fund's cash basis of accounting. This annual report consists of financial statements and notes to those statements. These statements are organized so the reader can understand the Fund's activities. The Statement of Net Assets – Cash Basis and the Statement of Cash Receipts, Disbursements, and Change in Net Assets – Cash Basis provide information about the activities of the Fund.

Reporting the Fund's Financial Activities

Statement of Net Assets – Cash Basis and Statement of Cash Receipts, Disbursements, and Change in Net Assets – Cash Basis

These statements look at all financial transactions and ask the question, "How did we do financially during fiscal year 2012?" The Statement of Net Assets – Cash Basis and the Statement of Cash Receipts, Disbursements, and Change in Net Assets - Cash Basis answer these questions.

These statements include only net assets using the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting takes into account only the cash actually received or paid within the current year. These two statements report the Fund's net assets and changes in those assets on a cash basis. This change in net cash assets is important because it tells the reader that, for the Fund as a whole, the cash basis financial position of the Fund has improved or diminished.

As a result of the use of the cash basis of accounting, certain assets and their related receipts (such as accounts receivable) and liabilities and their related disbursements (such as claims payable) are not recorded in these cash basis financial statements. Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations resulting from the use of the cash basis of accounting.

Management's Discussion and Analysis For the Fiscal Year Ended September 30, 2012

The table below provides a summary of the Fund's net assets at September 30, 2012 and 2011.

(Table 1) Financial Analysis

Net Assets - Cash Basis

	2012	2011
Assets Equity in pooled cash & investments	\$ 3,103,403	\$ 2,439,774
Total assets	\$ 3,103,403	\$ 2,439,774
Net Cash Assets Unrestricted	\$ 3,103,403	\$ 2,439,744
Total net cash assets	\$ 3,103,403	\$ 2,439,744

Over time, net assets can serve as a useful indicator of a government's financial position. At September 30, 2012, the Fund's net assets totaled \$3,103,403.

The table below shows the change in net assets for the fiscal years ending September 30, 2012 as compared to September 30, 2011. This will enable the reader to draw further conclusions about the Fund's financial status and possibly project future problems.

(Table 2) Change in Net Cash Assets

	2012	2011
Total operating receipts	\$ 8,575,910	\$ 8,458,503
Total operating disbursements	7,916,986	7,630,097
Operating income	658,924	828,406
Total non-operating receipts	4,705	5,828
Increase in net assets	\$ 663,629	\$ 834,234

From fiscal year 2011 to 2012, net assets increased \$663,629 primarily as a result of an increase in operating receipts.

Management's Discussion and Analysis For the Fiscal Year Ended September 30, 2012

Current Financial Related Activities

The Fund is a not-for-profit insurance group owned and operated by nine school districts in Hancock County, Ohio. The Fund's main source of receipts is premiums paid by the member school districts.

The Fund is committed to providing its member districts with the advantages of a larger buying cooperative, while maintaining control at the local district leadership. Providing coverage for all County schools is a priority for the Fund and it is committed to managing the pool to protect the long-term financial interests of its members.

The Fund requires its members to participate in the medical/prescription insurance program with individual district choice as to participation in the vision/dental program. The Board of Trustees and its fund manager, Larry Busdeker, continually discuss program enhancements, long-term viability and management risks inherent in these benefit programs.

Like all employer-sponsored health insurance programs, the Fund's most significant challenge is the current trend of double-digit increases in health care costs. As costs escalate, the Board is faced with the challenge of balancing the financial constraints facing Ohio's public school districts with offering a quality benefit program for its member's employees. This is further complicated by the fact that each school district in the Fund must collectively bargain benefit levels with the respective employee unions. Even with these challenges, a collective approach to managing health care within the Fund provides many advantages over individual management by school district.

Contacting the Fund's Financial Management

This financial report is designed to provide our member districts and citizens with a general overview of the Fund's finances and to show the Fund's accountability for the money it receives. If you have questions about this report or need additional financial information contact Mr. Larry Busdeker, Superintendent, Hancock County Educational Service Center, 7746 Count Rd., Findlay, Ohio 45840.

Notes to the Basic Financial Statements For the Fiscal Year Ended September 30, 2012

NOTE 1 – DESCRIPTION OF THE REPORTING ENTITY

The Hancock County Schools Health Benefit Fund (the "Fund") was created for the purpose of establishing and administering a cooperative health insurance program for school districts located in Hancock County, Ohio. The Fund is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

Currently, the Fund has nine participating members: Hancock County Board of Education, Arcadia Local School District, Arlington Local School District, Blanchard Valley Local School District, Cory-Rawson Local School District, Liberty-Benton Local School District, McComb Local School District, Van Buren Local School District, and Vanlue Local School District.

Members pay monthly premiums that are placed in a common Trust Fund from which eligible claims are paid for member employees and their covered dependents. The Trust Fund is held by a Trustee, which holds, invests and reinvests all or part of the Fund.

The Fund's management believes this financial statement presents all activities for which the Fund is financially accountable.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed further in Note 2.A, these financial statements are presented on a cash basis of accounting. This cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) Pronouncements, which have been applied to the extent they are applicable to the cash basis of accounting. In cases where these cash basis statements contain items that are the same as, or similar to, those items in the financial statements prepared in conformity with GAAP, similar informative disclosures are provided.

A. Basis of Accounting

The Fund's financial statements are prepared using the cash basis of accounting. Receipts are recorded in the Fund's financial records and reported in the financial statements when cash is received rather than when earned, and disbursements are recorded when cash is paid rather than when a liability is incurred.

As a result of the use of this cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

The Fund uses an enterprise fund to account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for public policy, management control, accountability or other purposes.

Operating receipts are those receipts that are generated directly from the primary activity of the Fund. Operating disbursements are necessary costs incurred to provide the service that is the primary activity of the Fund. All receipts and disbursements not meeting this definition are reported as non-operating.

Notes to the Basic Financial Statements For the Fiscal Year Ended September 30, 2012

B. Basis of Presentation

For the fiscal year ended September 30, 2012, the Hancock County Schools Health Benefit Fund has elected to present the financial statements in the GASB Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments" format.

The Fund's financial statements consist of a statement of cash receipts, disbursements and change in net assets. The statement includes adequate disclosure of material matters, in accordance with the basis of accounting described in preceding paragraphs.

C. Cash, Cash Equivalents and Investments

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or disbursements, respectively. Money market funds and federal agency securities are valued at cost.

D. Budgetary Process

The Fund is not required to follow the budgetary process by law, but it is incorporated in the bylaws that a budget should be prepared along with the other budgets prepared by the Hancock County Educational Service Center.

E. Member Contributions

Member Districts contribute monthly premiums to the Consortium based upon amounts recommended by independent insurance consultants and approved annually by the Board of Trustees. The premiums are recorded and pooled by the Fund in a single fund from which eligible claims are paid for member district employees and their covered dependents. Each member district assumes the risks of all other members, to the extent contributions by that member district are paid into the Fund. The Fund tracks member district's contributions made to the single fund and the disbursements are paid for the member district's type of coverage.

F. Net Assets

Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the Fund or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The Fund had no restricted net assets at fiscal year-end.

NOTE 3 – DEPOSITS AND INVESTMENTS

State statutes classify monies held by the Fund into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Fund has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Notes to the Basic Financial Statements For the Fiscal Year Ended September 30, 2012

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the Fund's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

The Fund primarily funds to meet the basic monetary demands of its claims and administration payments. It had Interim deposits to invest as of September 30, 2012.

Interim monies may be deposited or invested in the following securities:

- 1. United States treasury notes, bills, bonds, or other obligations or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAROhio);
- Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty
 days in an amount not to exceed twenty-five percent of the interim moneys available for investment at any
 one time; and
- 8. Under certain circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the Fund, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Notes to the Basic Financial Statements For the Fiscal Year Ended September 30, 2012

Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned to it. Protection of the Fund's cash and deposits is provided by the Federal Deposit Insurance Corporation, as well as qualified securities pledged by the institution holding the assets. By law, financial institutions must collateralize uninsured public deposits. The face value of the pooled collateral must equal at least 105 percent of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At September 30, 2012, the carrying amount of the Fund's deposits and the bank balance was \$117,057, which was covered fully by the Federal Deposit Insurance Corporation (FDIC).

Investments

As of September 30, 2012, the Fund had the following investments:

	Matur	laturities (at Cost)				
	Cost		< 1 Year		<u>1 - 5 Yea</u>	
\$	887,182	\$	887,182		\$	0
	500,238		0			500,238
	674,490		0			674,490
	524,213		0			524,213
	300,203		300,203			0
	100,020		0			100,020
\$	2,986,346	\$	1,187,385		\$	1,798,961
	\$	\$ 887,182 500,238 674,490 524,213 300,203 100,020	\$ 887,182 \$ 500,238 674,490 524,213 300,203 100,020	Cost < 1 Year \$ 887,182 \$ 887,182 500,238 0 674,490 0 524,213 0 300,203 300,203 100,020 0	Cost < 1 Year \$ 887,182 \$ 887,182 500,238 0 674,490 0 524,213 0 300,203 300,203 100,020 0	Cost < 1 Year 1 \$ 887,182 \$ 887,182 \$ 500,238 0 0 674,490 0 0 524,213 0 0 300,203 300,203 100,020

Interest Rate Risk

The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. Interest rate risk arises because potential purchases of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The Fund's investment policy addresses interest rate risk by requiring that the Fund's investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Fund will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Fund has no investment policy dealing with investment custodial risk beyond the requirement of ORC 135.14(M)(2) which states, "Payments for investments shall be made only upon the delivery of securities representing such investments to the treasurer, investing authority, or qualified trustee. If the securities transferred are not represented by a certificate, payment shall be made only upon receipt of confirmation of transfer from custodian by the treasurer, governing board, or qualified trustee."

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Fund's investment policy does not specifically address credit risk beyond requiring the Fund to only invest in securities authorized by State statute.

The Federal National Mortgage Bonds, Federal Home Loan Bank Bonds, Federal Home Loan Mortgage Bonds, and Federal Farm Credit Bank Bonds carry a rating of Aaa by Moody's. The Federated Mutual Funds account held with First Federal Bank has a credit rating of AAAm with Standard and Poor's and is held by the investment's counterparty and not in the name of the Fund.

Notes to the Basic Financial Statements For the Fiscal Year Ended September 30, 2012

Concentration of Credit Risk

The Fund places no limit on the amount it may invest in any one issuer. At September 30, 2012, the investments in Federated Mutual Funds account for 30%, Federal National Mortgage Bonds account for 13%, Federal Farm Credit Bank Bonds account for 17%, Federal Home Loan Mortgage Bonds account for 23% and Federal Home Loan Bank Bonds account for 17% of the Fund's total investments.

NOTE 4 – RISK MANAGEMENT

A. Medical and Vision/Dental Benefits

The Fund contracts with a third party administrator, Mutual Health Services, Inc., to process and pay health claims and vision/dental claims incurred by its members. Members pay monthly premiums to the Fund, which are placed in a local bank account. The third party administrator emails weekly invoices to the fiscal officer who then wires the money to Mutual Health Services, Inc. to pay the claims.

B. Stop-Loss Coverage

The Fund employs reinsurance agreements (stop-loss coverage) to reduce its risk that large losses may be incurred on medical claims. This allows the Fund to recover a portion of losses on claims from reinsurers, although it does not discharge their primary liability.

NOTE 5 – ACTUARIAL REPORT

Actuarial valuations of claim liability and funded status were performed for the year ended September 30, 2012. The purpose of the valuations is to estimate claims that have been incurred, whether reported or not, under the Fund as of the valuation date, and to compare its liability to funds reserved. Information regarding the financial status as of September 30, 2012 and 2011 is as follows:

	2012	2011		
Cash and investments	\$ 3,103,403	\$	2,439,774	
Actuarial liability	2,083,796		1,312,200	
Net surplus of cash reserves	\$ 1,019,607	\$	1,127,574	

NOTE 6 – CONTRACTED SERVICES

During fiscal year 2012, the Fund contracted with Hylant Group, Inc. to provide services and advice for insurance funds that include medical, prescription drugs and dental. As of October 1, 2012, the above services and advice will be provided by Neace Lukens. Contracts also exist with Express Scripts and Quantum Health for prescription and disease management administration, respectively.

NOTE 7 – RESERVE FOR CLAIMS LOSSES

Hancock County Schools Health Benefit Fund, under its terms of membership, shall establish adequate reserves for claims and unallocated loss adjustment expenses. In fiscal year 2012, the Loss Reserve increased \$771,596 to \$2,083,796. The estimated expenses that have been incurred but not recorded represent 26.8 percent of the incurred and paid claims for fiscal year 2012. Total expenses for the year ended September 30, 2012 were approximately \$6.9 million.

The Fund also has a fluctuation reserve in excess of current liabilities established to neutralize the impact of claim level fluctuations not covered by insurance. The fluctuation reserve for fiscal year 2012 is \$1,019,607.

Notes to the Basic Financial Statements For the Fiscal Year Ended September 30, 2012

The total reserve for claim loss for fiscal year 2012, including the loss reserve and fluctuation reserve is \$3,103,403.

Changes in the Fund's reserve for claims losses amount for the two previous fiscal years are as follows:

Fiscal	Beginning	Clair.	D	Ending
Year	Balance	Claims	Payments	Balance
2011	\$1,199,923	\$6,819,629	\$6,707,352	\$1,312,200
2012	\$1,312,200	\$7,695,827	\$6,924,231	\$2,083,796

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited the financial statements of Hancock County Schools Health Benefit Fund, Hancock County, Ohio, (the "Fund") as of and for the year ended September 30, 2012, and have issued our report thereon dated February 21, 2013, wherein we noted the Fund uses a comprehensive accounting basis other than generally accepted accounting principles. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

Management of the Fund is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Fund's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Fund's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Hancock County Schools Health Benefit Fund Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards February 21, 2013 Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fund's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Fund in a separate letter dated February 21, 2013.

This report is intended solely for the information and use of management and the Board of Trustees and is not intended to be and should not be used by anyone other than those specified parties.
