NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE FOR THE YEAR ENDED DECEMBER 31, 2012

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Expenditures Schedule (the Schedule) reports the Miami County's (the County's) federal award programs' disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The County passes certain federal awards received from the Ohio Department of Job and Family Services and Ohio Department of Development to other governments or not-for-profit agencies (sub-recipients). As Note A describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a sub-recipient, the County has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that sub-recipients achieve the award's performance goals.

NOTE C - CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE D - FOOD DONATION PROGRAM

The County reports commodities consumed on the Schedule at the fair value. The County allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE E - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAMS

The County has a revolving loan fund (RLF) program to provide low-interest loans to eligible persons to rehabilitate homes. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Department of Development. The Schedule reports the initial loan as a disbursement. Loans repaid, including interest, are used to make additional loans. Such subsequent loans are subject to certain compliance requirements imposed by HUD, but are not included as disbursements on the Schedule.

These loans are collateralized by mortgages on the property.

NOTES TO THE FEDERAL AWARDS EXPENDITURES SCHEDULE FOR THE YEAR ENDED DECEMBER 31, 2012 (Continued)

NOTE E – COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAMS (Continued)

Activity in the CDBG revolving loan fund during 2012 is as follows:

Beginning loans receivable balance as of January 1, 2012 \$1,718,489
Loans made 258,992
Loan principal repaid 104,188
Ending loans receivable balance as of December 31, 2012 \$1,873,293

NOTE F - MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE G - PRIOR YEAR PROGRAM ADJUSTMENTS

During the calendar year, the County Board of Developmental Disabilities received a refund for eFMAP (ARRA) funds for the Medicaid Program (CFDA #93.778) in the amount of \$827 from the Ohio Department of Developmental Disabilities. This refund was a correction to the eFMAP percentage for four billing cycles during July and August 2009. This revenue is not listed on the County's Federal Awards Expenditures Schedule since the underlying expenses occurred in prior reporting periods.

During the calendar year, the County Board of Developmental Disabilities received a settlement for the 2007 Cost Report from the Ohio Department of Disabilities for the Medicaid Program (CFDA #93.778) in the amount of \$177,014. The Cost Report settlement was for settlement of the difference between the statewide payment rate and the rate calculated based upon actual expenditures for Medicaid services. This revenue is not listed on the County's Federal Awards Expenditures Schedule since the underlying expenses occurred in prior reporting periods.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Miami County Commissioners Miami County Auditor Miami County Treasurer 201 West Main Street Troy, Ohio 45373

To the Board of County Commissioners, County Auditor and County Treasurer:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Miami County, (the County) as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 24, 2013, wherein we noted that the County adopted provisions of Governmental Accounting Standards Board Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and Statement No. 65, *Items Previously Reported as Assets and Liabilities*. We also noted that net position was restated in the Business Type Activities and Water and Sewer Fund for a prior period adjustment. Other auditors audited the financial statements of Riverside Training Industries, Inc (discretely presented component unit), as described in our opinion of the County's financial statements. This Report does not include the results of the other auditors testing of internal control over financial reporting or compliance and other matters that those auditors separately reported.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Miami County
Independent Auditor's Report On Internal Control Over
Financial Reporting And On Compliance And Other Matters
Required By Government Auditing Standards
Page 2

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dave Yost Auditor of State

Columbus, Ohio

June 24, 2013

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Miami County Commissioners Miami County Auditor Miami County Treasurer 201 West Main Street Troy, Ohio 45373

To the Board of County Commissioners, County Auditor and County Treasurer:

Report on Compliance for Each Major Federal Program

We have audited Miami County's (the County) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of Miami County's major federal programs for the year ended December 31, 2012. The *Summary of Audit Results* in the accompanying schedule of findings identifies the County's major federal programs.

Management's Responsibility

The County's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the County's compliance for each of the County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the County's major programs. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, Miami County complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2012.

Miami County
Independent Auditor's Report On Compliance With Requirements
Applicable To Each Major Federal Program And On Internal Control Over
Compliance Required By OMB Circular A-133
Page 2

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which OMB Circular A-133 requires us to report, described in the accompanying schedule of findings as item 2012-001. This finding did not require us to modify our compliance opinion on each major federal program.

The County's response to our noncompliance finding is described in the accompanying schedule of findings. We did not audit the County's response and, accordingly, we express no opinion on it.

Report on Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the County's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Therefore, we cannot assure we have identified all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. However, as discussed below, we identified a certain deficiency in internal control over compliance that we consider to be a material weakness.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program's compliance requirement will not be prevented, or timely detected and corrected. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings as item 2012-001 to be a material weakness.

The County's response to our internal control over compliance finding is described in the accompanying schedule of findings. We did not audit the County's response and, accordingly, we express no opinion on it.

This report only describes the scope of our tests of internal control over compliance and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Miami County
Independent Auditor's Report On Compliance With Requirements
Applicable To Each Major Federal Program And On Internal Control Over
Compliance Required By OMB Circular A-133
Page 3

Report on Federal Awards Expenditures Schedule

We have also audited the financial statements of the governmental activities, the business-type activities, the discretely-presented component unit, each major fund and the aggregate remaining fund information of Miami County (the County) as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated June 24, 2013. Our opinion also explained that the County adopted Governmental Accounting Standard Nos. 63 and 65 during the year. We conducted our audit to opine on the County's basic financial statements. We have not performed any procedures to the audited financial statements subsequent to June 24, 2013. The accompanying federal awards expenditures schedule presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Dave Yost Auditor of State

| Pass-Through Agency | Ohio Department of Job and Family Services |

NONCOMPLIANCE AND MATERIAL WEAKNESS - ELIGIBILITY

45 USC Section 601(a) states the purpose of the Temporary Assistance to Needy Families (TANF) program is to increase flexibility of States in operating a program designed to:

- (1) provide assistance to needy families so that children may be cared for in their own homes or in the homes of relatives;
- (2) end the dependence of needy parents on government benefits by promoting job preparation, work, and marriage;
- (3) prevent and reduce the incidence of out of-wedlock pregnancies and establish annual numerical goals for preventing and reducing the incidence of these pregnancies; and
- (4) encourage the formation and maintenance of two-parent families.

To be awarded TANF funding, which is subsequently passed through to the county level as subrecipients, Ohio Department of Job and Family Services (ODJFS) must submit to the Secretary of Health and Human Services a plan described in section 402(a) of the Social Security Act [section 602(a) of this title] (as added by the amendment made by section 103(a)(1) of this Act).

The State of Ohio's *Temporary Assistance to Needy Families (TANF) Program State Title IV-A Plan* dated June 1, 2010 states on page 14, in part, each County Job and Family Services (CDJFS) must establish or specify eligibility requirements for the benefits and services. In addition, ODJFS' Prevention and Contingency (PRC) Reference Guide, Chapter 3, states in part, the CDJFS must define eligibility components for receipt of benefits and services. Eligibility components are dependent upon which TANF purpose the benefits and services are intended to serve. Eligibility for a benefit or service shall be determined based upon information the CDJFS requires, consistent with federal and state law.

The Miami County Department of Job and Family Services Prevention, Retention, and Contingency Program Plan dated effective October 1, 2011 states, in part, that the assistance group must complete the specialized PRC application to request PRC assistance. Additionally, the applicant for PRC is responsible for completing all the necessary documents.

Financial Condition Miami County Schedule Of Findings Page 3

FINDING NUMBER 2012-01 (Continued)

The Miami County Department of Job and Family Services failed to obtain client signatures on 5 of the 60 (8.3%) of the Prevention, Retention, and Contingency (PRC) applications in which monies were later paid. Three additional applications did not have an approval form completed by County JFS staff attesting that the payee and expense were eligible. In order for an application to be complete it must include the signature of the applicant and an approval or denial form.

The Miami County Department of Job and Family Services should implement procedures to verify that every application is being properly completed by the PRC participants prior to the disbursement of program funds and that all applications have an approval form approved by County JFS Staff. Failure to do so could result in program funds being disbursed to ineligible recipients and potential federal questioned costs.

Officials' Response: See corrective action plan page 17

SCHEDULE OF PRIOR AUDIT FINDINGS OMB CIRCULAR A -133 § .315 (b) DECEMBER 31, 2012

| Finding Number | Finding Summary | Fully Corrected? | Not Corrected, Partially Corrected; Significantly Different Corrective Action Taken; or Finding No Longer Valid; <i>Explain</i> |

|-------------------|---|-----------------------------------|---|
| 2012-001 | Miami County Department of Job and Family Services implemented an internal audit process of the PRC files in October 2012. The Contract Administrator for Job and Family Services will review a sample of files bi-annually. If the review shows there are continuing problems with signatures, and approval and denial notices, instructions and additional reviews will be completed. Miami County Department of Job and Family Services developed a PRC Checklist Form. The PRD Checklist is a form that each caseworker must complete while processing PRC applications. This form is an extra measure put in place to ensure the caseworkers complete each step of the eligibility process. | 11/1/12 | Teresa Brubaker, Director Miami County Jobs and Family Services |

INTRODUCTORY

Matthew W. Gearhardt Miami County Auditor

Miami County Safety Building 201 W. Main Street Troy, Ohio 45373 (937) 440-5934

June 24, 2013

To The Citizens of Miami County, and the Board of County Commissioners:

The Comprehensive Annual Financial Report (CAFR) for Miami County, Ohio (the "County") for the fiscal year ended December 31, 2012 is hereby presented to its citizens. The report has been prepared in accordance with generally accepted accounting principles established by statements of the Governmental Accounting Standards Board (GASB), other authoritative pronouncements and guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Introduction

While there is no legal requirement for the preparation of this report, it represents a commitment by Miami County to conform to nationally recognized standards of excellence in financial reporting. Responsibility for both the accuracy of the presented data, and the completeness and fairness of the presentation, including all disclosures, rests with the County Auditor's Office. To the best of our knowledge and belief, the enclosed data, as presented, is accurate in all material respects, is presented in a manner designed to fairly set forth the financial position and results of operations of the County, and presents all disclosures necessary to enable the reader to gain an understanding of the County's financial activity.

Generally Accepted Accounting Principles require that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Miami County's MD&A can be found immediately following the independent auditor's report.

The Reporting Entity:

The accompanying basic financial statements comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 14, The Financial Reporting Entity, in that the financial statements include all the organizations, activities, functions and component units for which the County (the reporting entity) is financially accountable. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and either (1) the County's ability to impose its will over the component unit, or (2) the possibility that the component unit will provide financial benefit to, or impose a financial burden on, the County. Therefore, the reporting entity of the County includes the following services: human and social services, health and community assistance related services, law enforcement, civil and criminal justice system services, road and bridge maintenance, and other general and administrative support services. The County also operates a water distribution system, a wastewater collection and treatment system and a solid waste transfer station.

Letter of Transmittal For the Year Ended December 31, 2012

In addition to general government activities, the County is financially accountable for the following legally separate entities: the Miami County Board of Developmental Disabilities (BDD), Miami County Children's Services Board and the Miami County Public Defender Commission, therefore, these activities are included in the reporting entity.

Riverside Training Industries, Inc. (RTI) is an adult workshop operated for clients throughout Miami County. Miami County has an annual master operating agreement with RTI to subsidize a portion of the operations. RTI contracts with various companies and individuals including the County to provide janitorial services, assembly work, packaging, clerical, and other activities which are performed by the workshop participants. Separate financial statements for RTI may be obtained from RTI's administrative offices at 110 Foss Way, Troy, Ohio 45373.

Miami County participates in two jointly governed organizations, the Tri-County Board of Recovery and Mental Health Services (Tri-County Board) and the West Central Ohio Network (West Con). Miami County is the fiscal agent for the Tri-County Board and therefore, the financial activity of the Board is included within the County's financial statements. These organizations are discussed further in Note 22.

The County's officials are also responsible for appointing the members of the boards of other organizations, but the County's accountability for these organizations do not extend beyond making the appointments. The Board of County Commissioners appoints a voting majority of the Troy-Miami County Public Library Board and the Miami County Visitors and Convention Bureau. In addition, the Courts and Board of County Commissioners appoint a majority of the board of the Miami Metropolitan Housing Authority, but the County is not financially accountable for these organizations.

Other organizations share some degree of name similarity with the County; however, they constitute separate and distinct entities, not only from the County, but also from each other. The County is not financially accountable for these entities. Due to their independent nature, none of these organizations' financial statements are included in this report. Separate financial statements for these organizations may be obtained by contacting their respective administrative offices. These organizations are as follows:

- Miami County Board of Education
- Miami County Community Action Council
- Miami County Agricultural Society
- Miami County Private Industry Council
- Miami County Residential Living, Inc.
- Miami Valley Regional Planning Commission
- Miami County Humane Society, Inc.

A thorough presentation of the County's reporting entity is contained in Note 1 of the basic financial statements.

County Organization and Services:

Miami County was established by an act of the State Legislature, April 1, 1807. The Miami River, which flows entirely through the County from north to south, derived its name from the Indian word meaning "Mother" and is the namesake for Miami County.

Letter of Transmittal For the Year Ended December 31, 2012

Miami County is located in the west central part of the state, approximately 70 miles north of Cincinnati and 70 miles west of Columbus. Its 428.48 square mile area serves a residential population estimated at 102,506 (2010 U.S. Bureau of Census) and is classified as the 27th largest populated county in the state. The County includes 12 townships, 9 villages and 3 cities, with the City of Troy serving as the county seat. The County has only those powers conferred upon it by Ohio statutes. A three member Board of County Commissioners is elected at large in even numbered years for overlapping four year terms. The Board of County Commissioners serves as the taxing authority, the contracting body and the chief administrator of public services for the County. The Board of County Commissioners prepares and adopts the annual operating budget and makes the annual appropriation measure for expenditures of all County funds. In addition to the Board of County Commissioners, the offices of the County Auditor and County Treasurer are included in the category of general government and are of particular importance to the financial affairs of the County.

The County Auditor is elected to a four year term and serves as the chief fiscal officer for the County and the tax assessor for all political subdivisions within the County. According to state law, a complete reappraisal must be conducted every six years as well as a triennial update every third year between reappraisals. Upon collection by the County Treasurer, the County Auditor is responsible for distributing certain taxes to various political subdivisions including municipalities, villages, townships, school and library districts, special districts and County agencies. As chief fiscal officer, the County Auditor must certify that funds for all contracts and obligations of the County have been lawfully appropriated and are available or in the process of collection before the contract or obligation is binding upon the County. In addition, the Auditor is also the central disbursing agent, who by the issuance of County warrants distributes funds to creditors in payment of liabilities incurred by the County. The Auditor is also responsible for the County payroll and has other statutory accounting responsibilities. He is, by state law, secretary of the County Board of Revision and the County Budget Commission and the administrator and supervisor of the County Data Processing Board.

The County Treasurer is also elected to a four year term and is the custodian of all County funds. The Treasurer is responsible for collecting all tax monies, applying payments to the appropriate tax accounts and investing all available idle County funds as specified by Ohio law. The Treasurer is the distributing agent for expenditures authorized by the Board of County Commissioners upon the Auditor's warrant. The Treasurer must make daily reports showing receipts, payments and balances to the County Auditor. The Treasurer is a member of the County Board of Revision and the County Budget Commission. The Budget Commission plays an important part in the financial administration of the County government, as well as, all political subdivisions throughout the County.

The other elected officials serving four year terms are the Prosecuting Attorney who serves as the third and final member of the County Budget Commission, the Clerk of Courts, the Recorder, the Sheriff, the Engineer and the Coroner. Three Common Pleas Court Judges and two Municipal Court Judges are elected to six year terms.

Letter of Transmittal For the Year Ended December 31, 2012

Economic Outlook

Miami County is located just north of the intersection of two of America's most vital interstate highways, Interstates I-70 and I-75, known as the "Crossroads of America." Interstate I-75 bisects the County from north to south and is a major factor in the continued success of the County's economic development. Miami County is located at the center of the eighth largest 90 minute surface travel market area and the single largest 90 minute air travel market area in North America.

Miami County is in the Dayton-Springfield-Greenville Combined Statistical Area (CSA), which is the fourth largest CSA in the State of Ohio. Miami County's population comprises approximately ten percent (10%) of the total population of the CSA.

The 2010 Census sets the population of Miami County at 102,506. Based upon the 2010 Census figure, there has been approximately a 3.7% increase in population over the period 2000 to 2010.

The average 2012 unemployment rate for Miami County decreased to 7.0% (2012) from 7.6% (2011), compared with a 7.2% rate for the State of Ohio and an 8.1% rate for the nation. Historically, Miami County has experienced a lower unemployment rate than that of the state or the nation.

The diversity of employers is evident when one views a sampling of the businesses that have chosen to locate in Miami County:

| Company | Industry | |
|-----------------------------------|--|--|
| Regal Beloit America, Inc. | Electric motors | |
| American Honda Motor | Automotive parts distribution | |
| Goodrich Corporation | Aircraft wheels and brakes | |
| Evenflo Company Inc. | Juvenile furniture | |
| F & P America Manufacturing, Inc. | Automotive parts manufacturing | |
| French Oil Mill Machinery Co. | Vegetable oil extraction machinery | |
| Tailwind Technologies Inc. | Aircraft propellers | |
| Hartzell Industries | Air movement equipment and wood products | |
| ITW/Hobart Corporation | Commercial food and scale systems | |
| Troy Laminating & Coating, Inc. | Paper converting | |
| Clopay Building Products | Garage Door Manufacturer | |
| Systemax Manufacturing | Computers | |
| Orr Felt | Paper and felts | |
| Spinnaker Coatings, LLC | Adhesive coated papers | |
| Upper Valley Medical Center | Health Care | |
| | | |

The Miami County Planning and Zoning Department's Comprehensive Land Development Plan notes that the local economy is reliant on the manufacturing and agricultural sectors while retail and service sectors continue to make sizable gains, a trend that is expected to continue.

Letter of Transmittal For the Year Ended December 31, 2012

The County's overall land use goal was summarized as follows:

"It shall be the goal of Miami County to achieve a high-quality living environment through a wise distribution of compatible land use patterns and to reflect the integrity of the natural environment while accommodating development within communities that meet the social and economic needs of Miami County residents."

In preparation for the future, the private and public sectors are working to assure the availability of building sites for all types of business activities.

Upper Valley Medical Center completed a multi-million dollar expansion project of the Cancer Care Center. Phase I of the expansion began in July 2010 with the remodeling of the center's lower level space to accommodate a second linear accelerator for cancer radiation therapy treatment. The second phase which began in April 2011 involved the center's expansion to the hospital's main level. A new Cancer Care Center entrance was unveiled in April 2012 offering clients and their families a new waiting room, library, multi-use therapy room and infusion center with 10 private rooms overlooking a healing garden. The final phase of the UVMC expansion includes the addition of a 40,000 square foot physician's office building at an estimated cost of \$8 million. The office space will house primary care and specialty physicians as well as an outpatient sleep study center and is scheduled to be completed by the end of 2013.

Abbott Nutrition announced plans in March 2012 to build a nutrition manufacturing facility in Tipp City to produce two of the company's fastest growing adult brands, Ensure and Glucerna. Abbott will invest \$270 million in the facility which will employ around 240 people. The facility will specialize in aseptic packaging technology, allowing the company the benefits of expanding the use of new ingredients, shortening product development time and reducing energy use during manufacturing. The plant is expected to be operational by late 2013.

The French Oil Mill Machinery Company announced in July 2012 that its subsidiary, press-maker TMP, Inc. will relocate from Cleveland to the Piqua headquarters and manufacturing facility. TMP designs, manufactures and supports a wide assortment of stand-alone hydraulic presses and turnkey systems for the composite, friction, lamination and rubber industries. While no estimates on job growth were available, TMP currently serves customers such as Boeing, DuPont, General Electric, Goodyear, Honeywell, IBM, Motorola and NASA to name a few.

Trimble Navigation announced that it will invest more than \$12 million in its Huber Heights campus to build a 130,000 square foot warehouse adjacent to its current facility. The building will include some office space, but will primarily serve as a distribution center with high-rack storage. While the project has the potential to create new jobs, some of the 100 employees that will be located at the facility will be relocated from other Trimble facilities. Trimble currently employs around 400 people and maintains approximately 260,000 square feet in Huber Heights where they manufacture drafting, surveying and mapping instruments.

Letter of Transmittal For the Year Ended December 31, 2012

Major Initiatives

Present:

Miami County Sanitary Engineer

Boone Hill Sewers – The unincorporated area in Concord Township of Miami County located along County Rd. 25A south of the City of Troy corporation line, north of Tipp-Cowlesville Rd. and west to the Great Miami River has no central sewer service. Approximately 100 properties in the service area are utilizing on-site (septic systems) wastewater treatment systems that are regulated by Miami County Public Health. The newly installed public wastewater system will allow for the abandonment of the on-site disposal system. A gravity collection system has been laid out and now collects to a common location. The collection system transports the wastewater to the Camp Troy Pump Station which is treated by the City of Troy Wastewater Treatment Plant. The expected completion date for the project is 2013.

Phoneton Sewers – The Village of Phoneton, located in Bethel Township has no central sewer service. Approximately 200 residential homes and businesses in the Phoneton area utilize on-site (septic systems) wastewater treatment that is regulated by the Miami County Health Department. Many of the existing systems are either failing, were not permitted, or are beyond the typical useful design period. Most of the systems do not meet the current Health Department requirements. Replacing the antiquated systems in most cases is not an option as the lot sizes are not large enough to allow for a modern on-site wastewater disposal system to be installed. The collection system includes approximately 3 miles of gravity main to transport the wastewater to a local lift station where it will then be transferred through 3 miles of forcemain to the Brandt Wastewater Collection system. The wastewater will ultimately be conveyed through the existing Brandt pump station to the Southwestern Regional Wastewater Treatment plant in Clark County for treatment. The expected completion date for the project is 2013.

Miami County Engineer

The largest and most noteworthy project during 2012, in coordination with ODOT, MVRPC, OPWC, and the City of Troy, was the completion of the Adams Street bridge in Troy. After 16 months of construction activity, and at a cost of \$6,010,939, the new bridge was dedicated and reopened on the morning of October 15. Federal funding accounted for 80% of the bridge's total cost. Having replaced a deteriorating bridge that stood at this crossing for nearly a century, this stately new structure, now upgraded to current standards, is equipped to serve the transportation needs of the community well into the future.

Eldean Road/CSX Spur – The Miami Valley Regional Planning Commission has notified the Miami County Engineer's Office that \$1,984,400 in Federal STP Funding has been approved for the MIA – CR33 – 3.23 (Eldean Road/CSX Spur) railroad overpass reconstruction project. The total cost for the improvement is currently estimated at \$3,290,500 including construction, right-of-way, utility relocation, plan preparation and construction engineering. Current plans call for elimination of the existing substandard bridge overhead clearance of 9'-8" which is hit on average of 2-3 times per year. The road elevation will be lowered and the railroad tracks will be raised in order to provide increased clearance under the bridge. Additionally, Eldean Road will be widened from two to three lanes from County Road 25-A west approximately 0.33 miles. The traffic signal at the Eldean/County Road 25-A intersection will be upgraded as well. The estimated completion date is December 2015.

Letter of Transmittal For the Year Ended December 31, 2012

Miami County Communications Center

In 2012, the Miami County Communication Center saw the completion of a major update/upgrade of the essential systems that ensure the communication between the citizens calling in to the Center and the Miami County First Responders. Initiation of this major project dated back to 2009.

The <u>Uninterrupted Power Supply (UPS)</u> equipment, which is essential to the condition the power to the sensitive radio and computer equipment with which we operate, as well as provide a power supply that is not subject to momentary lapses or longer outages, has been replaced. It replaced equipment that has served the Center for 20 years but has come to the end of its service life.

Also completed in 2012, the single site, EDACS radio system that has served the County for 20 years without interruption, was upgraded to a 5 site, simulcast system that accomplished two objectives: enhanced the coverage throughout the County by having transmit/receive equipment at each tower site; prepared the system for the next upgrade to be compliant with the next generation of P-25 standards. These are the standards that allow greater interoperability between divergent systems that are not of the same manufacture.

Along with the backbone equipment of the radio system, the <u>Microwave Radio System</u> was upgraded to bring it to the newest generation of equipment (this equipment was also 20 years old). This equipment provides the relay of the radio signals between the towers and to the subscriber units.

While doing these needed upgrades, adjustments were made in the towers that carry the equipment as well. Two new towers were constructed to reposition radio equipment into better locations to increase the coverage for the system; these are the towers in West Milton and in the Bethel/Brandt area. Additionally, another tower was constructed because the water tower on which the equipment has resided is being demolished and there are no other existing structures suitable in that area on which to relocate the equipment.

The Miami County Geographic Information System (MCGIS)

The MCGIS is a multi-layered computerized mapping system. Cadastral maps (also referred to by a variety of names including assessment, appraisal, property, real estate and tax maps) show the boundaries of the 50,164 parcels of land in Miami County. In addition, the maps display the size and location of each parcel relative to other properties, streams, roads and other major physical and cultural features. The MCGIS is used in conjunction with the Auditor's existing computer assisted mass appraisal system (CAMA) to improve the quality and accuracy of the property tax assessments, which are related to the market value appraisals and the Current Agricultural Use Valuation program. The MCGIS will be a major tool for Miami County's 2013 reappraisal; will give appraisers a better view of properties with overlaid cadastral maps showing property boundaries on the orthophotos.

Currently, the County Engineer's Tax Map Office and the Auditor's Office use the digital orthophotography, cadastral mapping, and LIDAR contours in the MCGIS on a daily basis. In 2011 a layer containing the recently updated FEMA flood plain maps were also added. FEMA worked to update this layer based upon Miami County's latest LIDAR contours.

Letter of Transmittal For the Year Ended December 31, 2012

In 2011 the County Auditor partnered with the Ohio Geographically Referenced Information Program (OGRIP) to update the County-wide Digital Orthophotography. New digital orthophotography was taken in the spring of 2011 with delivery of the new photos in the fall of 2011. Also in 2011 the County Auditor commenced a project utilizing the Pictometry information system. Pictometry's abilities that utilize oblique aerial imagery and parcel documentation will aid in improving both the quality and accuracy of the new 2013 reappraisal values.

Future:

Miami County Sanitary Engineer

Hoke Plat Sewers – The unincorporated area in Union Township of Miami County located southwest of West Milton at the intersection of S. Jay Rd. and Emerick Rd. has no central sewer service. Approximately 48 properties in the proposed service area utilize on-site (septic systems) wastewater treatment systems and private wells that are regulated by Miami County Public Health. The Miami County Sanitary Engineer's Office and Miami County Public Health want to minimize the amount of inadequate systems and contaminated drinking water in this community. A proposed public water distribution and wastewater collection system will allow for the abandonment of the on-site private wells and disposal systems. A proposed distribution system will include approximately 1.50 miles of water main which will transfer the water from the nearby village of West Milton. A proposed collection system will include approximately 1.50 miles of gravity main to transport the wastewater to a local lift station where it will then be transferred to the West Milton collection system.

McKaig Rd./Peters Rd. Water & Sewer – The McKaig Rd. and Peters Rd. area, located in Concord Township south of Troy have private wells and on-site wastewater treatment systems which are either failing or do not meet the current Miami County Public Health requirements. Approximately 40 residential homes along the following roads shall be provided service for water and/or sanitary sewer – Diana Drive, Timber Lane, east side of Peters Road, Westlake Drive, Norbert Drive, Woodbridge Drive and McKaig Road. The collection and distribution systems will be an extension of the City of Troy's system and will be treated by the City of Troy.

Miami County Engineer

MIA-CR25A-18.31 – The project consists of the reconstruction and widening of County Road 25A from Country Club Road to Looney Road. This is a joint project with the City of Piqua and the estimated cost is \$3,300,000. Sale date is first quarter of 2013.

MIA-CR25A-4.40 – The project consists of repaving County Road 25A from Donn Davis Way to the Troy corporation limit. Estimated cost is \$1,002,650. Sale date is June 2014.

County Road 25A – The project consists of the reconstruction/widening of County Road 25A from Michaels Road to St. Rt. 571. This is a joint project with Tipp City and the estimated cost is \$4,000,000. Sale date is July 2015.

Eldean Road Berm Stabilization – The project consists of overlaying and widening Eldean Road between Washington Road and Experiment Farm Road. The estimated cost is \$299,100. Sale date is 2016.

Letter of Transmittal For the Year Ended December 31, 2012

MIA-CR25A-9.18 – The project consists of repaving County Road 25A from the Troy corporation line to the Piqua corporation line. Estimated cost is \$2,056,000. Sale date is first quarter of 2017.

Bridge

Future major bridge improvement projects include the following:

| | | Estimated | Estimated |
|------------------------------------|--------------------|-------------|-----------------|
| Project Name | Project Type | Cost | Completion Date |
| Covington-Gettysburg Road No. 2.21 | Bridge Replacement | \$651,820 | September 2013 |
| Bradford-Bloomer Road No. 2.36 | Bridge Replacement | \$1,448,765 | October 2013 |
| Eldean Road No. 3.51 | Bridge Replacement | \$3,442,000 | April 2016 |

Financial Information

Internal Control, Budgetary Control and the Accounting System:

Development of the County's accounting system included substantial consideration of the adequacy of the internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance that:

- 1. The County's assets are protected against loss and unauthorized use or disposition; and
- 2. Reliable financial reports for preparing financial statements and providing accountability for assets are maintained.

The concept of reasonable assurance states that internal controls should be evaluated applying the following criteria:

- 1. The expense associated with providing the internal controls should not exceed the benefits likely to be derived from their implementation; and
- 2. The evaluation of the offsetting costs and benefits involves estimates and judgment by the County administration and members of the Auditor's office.

All internal control evaluations occur within this framework. It is the belief of the administrative and financial management personnel that the County's financial controls adequately safeguard existing assets and provide reasonable assurance of the proper recording of financial transactions.

The Accounting Department of the County Auditor's Office is responsible for the auditing and analysis of all purchase orders and vouchers of the County. Accounting Department personnel review the purchase orders and vouchers to ensure the availability of monies in the proper funds and accounts prior to certification and payment of approved invoices. The County utilizes a fully automated accounting system, as well as an automated system of controls for fixed asset accounting and payroll. These systems, coupled with the review and examination performed by the County Auditor's Office, ensure that the financial information generated is both accurate and reliable.

Letter of Transmittal For the Year Ended December 31, 2012

Budgetary appropriations for the operation of the County's departments are established through the adoption of the annual appropriation resolution by the Board of County Commissioners. All disbursements and transfers of cash between funds require appropriation authority from the County Commissioners. Budgets are controlled at the object level within department, by function and fund. Purchase orders are requested by the department head and encumbered prior to their release to vendors. Those purchase orders which exceed the available appropriations are rejected until additional appropriations are secured. A computerized certification system allows the Auditor's Office to ascertain the status of appropriations prior to authorizing purchases.

Budgetary control is maintained at the object level for each department by function (Public Safety, Health, Human Services, Conservation/Recreation, Public Works, General Government, Debt Service and Capital Outlay) within each fund via legislation approved by the County Commissioners.

The various object levels are:

* Personal services * Materials and supplies

Contractual services * Capital Outlay

* Travel and Transportation * Debt Service

Transfers Principal Interest

Lower levels within each object are accounted for and reported internally. Such lower levels are referred to as line items of expenditure. Estimated amounts must be encumbered prior to final approval of purchase orders or other contracts to vendors. Unencumbered appropriations return (lapse) to the unappropriated balances in the individual funds at the end of each fiscal year which coincides with the calendar year. Appropriations, both original and supplemental, must be authorized by the Board of County Commissioners.

Other Information

Independent Audit:

Included in this report is an unqualified opinion rendered on the County's operations and financial position as well as its existing assets and liabilities as reported in the basic financial statements for the year ended December 31, 2012, by Auditor of State, Dave Yost. In addition to meeting the requirements set forth in state statutes, the audit was also designed to meet the requirements of the Federal Single Audit Act of 1996 and related OMB Circular A-133.

Awards:

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Miami County, Ohio for its comprehensive annual financial report for the fiscal year ended December 31, 2010. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards in state and local government financial reporting. To be awarded a Certificate of Achievement, a governmental unit must prepare an easily readable and efficiently organized Comprehensive Annual Financial Report whose contents satisfy all program standards. The report must satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements respective to the reporting entity.

Letter of Transmittal For the Year Ended December 31, 2012

A Certificate of Achievement is valid for a period of one year only. Miami County has received a Certificate of Achievement consecutively for fiscal years ended 1991 – 2010. I believe this current report continues to conform to the Certificate of Achievement program requirements, and I am submitting it to GFOA.

The publication of this Comprehensive Annual Financial Report is indicative of the County's commitment to provide significantly enhanced financial information and accountability to its citizens. In addition to the citizens of Miami County, the recipients of this report include city, state and federal officials, schools, libraries, newspapers, investment banking firms, banks and rating agencies. The report is made available to any person or organization requesting it. The extensive effort to prepare and distribute this report is indicative of the County Auditor's goal of full disclosure of the County's finances.

Acknowledgments:

The publication of this report is the culmination of many hours of dedicated work in the research, analysis and preparation of the financial statements and the accompanying notes and narratives. Sincere appreciation is extended to the many individuals who have worked diligently and contributed much time and effort in gathering data for this report, particularly Sharon E. Feltner, Accounting Advisor and Jennifer D. Deal, Accounting Supervisor, for their high professional standards in the preparation of this report.

I would also like to extend recognition to the staff of the Accounting Department: Jody Collins, Candi Alexander, Tara Koehl, Vicki Purk, Missy Rougier, Lora Wagner and Beth Wheelock for their continued daily efforts throughout the year. In addition, I wish to thank the remaining staff of the County Auditor's Office for their contributions to the on-going operation of the office.

Special acknowledgment is extended to the staff of Donald J. Schonhardt and Associates, Inc. for their continued guidance in the preparation of this report.

Finally, I would especially like to thank the members of the Board of County Commissioners, the other elected county officials and all of the department heads whose support is necessary in order for the County to conform to reporting requirements established for governmental entities and to continue to maintain the sound financial position that Miami County has enjoyed over the years.

Respectfully,

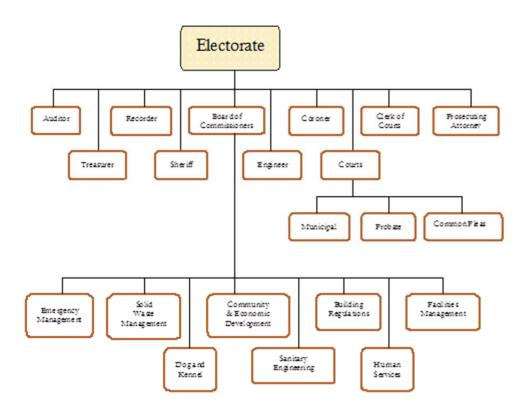

Matthew W. Gearhardt Miami County Auditor

Morther W. Georhardt

FINANCIAL

INDEPENDENT AUDITOR'S REPORT

Miami County Commissioners Miami County Auditor Miami County Treasurer 201 West Main Street Troy, Ohio 45373

To the Board of County Commissioners, County Auditor and County Treasurer:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Miami County, Ohio (the County), as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of Riverside Training Industries Inc. which represents all of the assets, liabilities, net position, and revenues of the discretely presented component unit. Those financials statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Riverside Training Industries Inc., is solely based on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Miami County Independent Auditor's Report Page 2

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Miami County, Ohio, as of December 31, 2012, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparisons for the General, Job and Family Services, and Board of Developmental Disabilities Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2 to the financial statements, during 2012, the County adopted the provisions of Governmental Accounting Standards Board Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and Statement No. 65, *Items Previously Reported as Assets and Liabilities*.

Additionally, as discussed in Note 3 net position was restated for the Business Type Activities and Water and Sewer Funds for a prior period adjustment.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The financial section's combining statements, individual fund statements and schedules, are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Miami County Independent Auditor's Report Page 3

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2013, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Dave Yost Auditor of State

Columbus, Ohio

June 24, 2013

Unaudited

The discussion and analysis of Miami County's financial performance provides an overall review of the County's financial activities for the fiscal year ended December 31, 2012. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the County's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2012 are as follows:

- □ In total, net position increased \$20,112,813. Net position of governmental activities increased \$12,397,901, which represents a 9.9% increase from 2011. Net position of business-type activities increased \$7,714,912, or 39.2% from 2011.
- □ General revenues accounted for \$33.6 million in revenue or 34.9% of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$62.8 million or 65.1% of total revenues of \$96.4 million.
- □ The County had \$66.7 million in expenses related to governmental activities; only \$45.4 million of these expenses were offset by program specific charges for services, grants or contributions.
- □ Among major funds, the general fund had \$25.0 million in revenues and \$23.2 million in expenditures and other financing uses. The general fund's fund balance increased \$1.8 million to a balance of \$16.5 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis, the basic financial statements, and an optional section that presents combining statements for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the County:

These statements are as follows:

- 1. <u>The Government-Wide Financial Statements</u> These statements provide both long-term and short-term information about the County's overall financial status.
- 2. <u>The Fund Financial Statements</u> These statements focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements.

The financial statements also include notes that provide more detailed data and explain some of the information in the financial statements.

Unaudited

Government-wide Statements

The government-wide statements report information about the County as a whole, including Riverside Training Industries, Inc. the County's discretely presented component unit, using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the County's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the County's net position and how it has changed. Net-position (the difference between the County's assets and liabilities) is one way to measure the County's financial health or position.

- Over time, increases or decreases in the County's Net Position is an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the County you need to consider additional nonfinancial factors such as changes in the County's tax base and the condition of County capital assets.

The government-wide financial statements of the County are divided into two categories:

- <u>Governmental Activities</u> Most of the County's programs and services are reported here including public safety, health, human services, general government and public works.
- <u>Business-Type Activities</u> These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. All of the County's enterprise activities are reported as business-type activities.

A separately issued audit report containing financial statements is available from Riverside Training Industries, Inc. at 110 Foss Way, Troy, Ohio 45373.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. The County's major governmental funds are the General Fund, the Job and Family Services Fund, the Board of Development Disabilities Fund, and the Permanent Improvement Fund. The County's major enterprise funds are the Water Fund, Sewer Fund, Transfer Station Fund and the Sheriff Police Rotary Fund.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

Unaudited

Because the focus of the governmental funds is more narrow than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses four enterprise funds to account for water, sewer, transfer station and sheriff police rotary operations. All of the County's enterprise funds are presented as major funds.

Internal Service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County's internal service fund reports on the County self-insurance program for employee medical benefits.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County's fiduciary funds are agency funds.

Unaudited

Governmental Activities

Net position of the County's governmental activities increased by \$12,397,901. This is primarily the result of additional capital grants received in 2012, increased property and sales tax revenues and conservative spending across virtually all functions.

Tax revenue accounts for \$27,862,436 of the \$79,069,583 in total revenues for governmental activities. Property tax accounted for \$12,870,358, or approximately 46.2% of total tax revenue.

The County's net charges to users of governmental services totaled \$21,252,641. This amount was subsidized by the County's general revenues of \$33,650,542.

| | | Percent |
|---------------------------------|--------------|----------|
| Revenue Sources | 2012 | of Total |
| Intergovernmental, Unrestricted | \$4,105,750 | 5.19% |
| Program Revenues | 45,419,041 | 57.44% |
| General Tax Revenues | 27,862,436 | 35.24% |
| General Other | 1,682,356 | 2.13% |
| Total Revenue | \$79,069,583 | 100.00% |

Business-Type Activities

Net position of the business-type activities increased by \$7,714,912. This amount is primarily attributable to grants received for capital asset construction in the Sewer Fund. These programs had revenues of \$17,379,070 and expenses of \$9,664,158 for fiscal year 2012. Business-type activities receive no support from tax revenues and remain self-supported.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County's governmental funds reported a combined fund balance of \$43,886,676, which is a decrease from last year's total of \$44,089,599. The schedule below indicates the fund balance and the total change in fund balance by major fund and Other Governmental fund as of December 31, 2012 and 2011.

| | Fund Balance December 31, 2012 | Fund Balance December 31, 2011 | Increase (Decrease) |
|-------------------------------------|--------------------------------|--------------------------------|------------------------|
| General | \$16,552,626 | \$14,758,845 | \$1,793,781 |
| Job and Family Services | 1,292,633 | 1,352,456 | (59,823) |
| Board of Developmental Disabilities | 7,435,041 | 6,740,935 | 694,106 |
| Permanent Improvement | (3,643,245) | 600,060 | (4,243,305) |
| Other Governmental | 22,249,621 | 20,637,303 | 1,612,318 |
| Total | \$43,886,676 | \$44,089,599 | (\$202,923) |

Unaudited

General Fund – The County's General Fund revenues exceeded the fund's expenditures by \$2,240,211. The General Fund's balance increased (overall) by \$1,793,781. The tables that follow assist in illustrating the financial activities and balance of the General Fund:

| | 2012 | 2011 | Increase |
|----------------------------|--------------|--------------|------------|
| | Revenues | Revenues | (Decrease) |
| Taxes | \$16,147,557 | \$15,298,278 | \$849,279 |
| Intergovernmental Revenues | 2,327,570 | 2,703,173 | (375,603) |
| Charges for Services | 3,507,988 | 3,219,437 | 288,551 |
| Licenses and Permits | 1,079,151 | 787,104 | 292,047 |
| Investment Earnings | 381,623 | 503,155 | (121,532) |
| Fines and Forfeitures | 1,019,259 | 1,010,147 | 9,112 |
| All Other Revenue | 564,858 | 564,169 | 689 |
| Total | \$25,028,006 | \$24,085,463 | \$942,543 |

Revenues increased 3.9% when compared with 2011. The increase in both sales and property tax revenues helped to offset the continued decrease in intergovernmental (State) funding. Investment earnings decreased due to lower invested balances.

| | 2012 | 2011 | Increase | |
|-----------------------------|--------------|--------------|------------|--|
| | Expenditures | Expenditures | (Decrease) | |
| Public Safety | \$8,777,035 | \$8,277,446 | \$499,589 | |
| Health | 174,048 | 231,263 | (57,215) | |
| Human Services | 2,296,402 | 2,194,670 | 101,732 | |
| Conservation and Recreation | 417,576 | 419,945 | (2,369) | |
| Public Works | 210,730 | 207,667 | 3,063 | |
| General Government | 10,912,004 | 10,733,380 | 178,624 | |
| Debt Service: | | | | |
| Principal Retirement | 0 | 3,594 | (3,594) | |
| Interest and Fiscal Charges | 0 | 78 | (78) | |
| Total | \$22,787,795 | \$22,068,043 | \$719,752 | |

Expenditures increased 3.3% over 2011. Public safety and general government functions accounted for the majority of the increase. Both increases, while expected, remained well below budgeted expectations. A large portion of the Public Safety increase was due to equipment purchases and upgrades for both the Communication Center and the Emergency Management Agency. The increase to general government can be largely attributed to a state mandated reappraisal of property for Tax Year 2013.

Unaudited

Job and Family Services Fund – Revenues and expenditures decreased by 25.4% and 27.2% respectively in 2012 when comparing to 2011. Overall the fund balance decreased by \$59,823 on revenues of \$3.3 million and expenditures of \$3.1 million. The decrease in revenues was primarily a result of overall funding cuts by the State. A new roof installed in 2012 contributed to the decrease in fund balance.

Board of Developmental Disabilities Fund – Revenues and expenditures increased by 33.9% and 25.5% respectively in 2012 when comparing to 2011. The fund balance increased by \$694,106 in 2012. The increase in revenues and expenditures was primarily due an increase in grants and higher property tax collections. Taxpayers approved a 2.5 mill replacement levy in May 2011 to begin in TY11 thru TY15. Increased support payments, services and the purchase of new vehicles account for the majority of the increase in expenditures.

Permanent Improvement Fund – The balance in this fund can fluctuate by 50% or more in a given year because this fund is utilized to account for the majority of the County's capital improvements. The level of funding and expenditures vary depending on the County's capital plans for the given year. During 2012, the fund balance decreased by \$4.2 million due the issuance of general obligation bond anticipation notes in order to fund various capital improvements.

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

During the course of fiscal year 2012 the County amended its General Fund budget several times, none significant.

For the General Fund, budget basis revenue of \$21.5 million did not change when compared to the original budget estimates. The General Fund had an adequate fund balance to cover expenditures.

The variances between the final budget and the actual revenues are solely the result of the County Auditor's decision to conservatively estimate revenues. It is not the practice of the County or the Budget Commission to revise estimated revenues at year-end to bring the budget in line with actual resources. The largest variances between the final budget and actual expenditures were \$1 million in Public Safety, and \$1.3 million in General Government. The large variances in both Public Safety and General Government are due to imposed expenditure restraints.

Unaudited

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2012 the County had \$136,573,182 net of accumulated depreciation invested in capital assets for its governmental and business-type activities. Of this total, \$100,392,915 was related to governmental activities and \$36,180,267 to the business-type activities.

Governmental activities largest increases occurred in the building and infrastructure categories.

Acquisitions in the business-type activities amounted to \$7,932,087. The Sewer Fund accounted for \$7.5 million of the acquisitions with additional OWDA and OPWC projects.

The following table summarizes the County's capital assets as of December 31, 2012 and December 31, 2011:

| | Govern Acti | Increase (Decrease) | |
|--------------------------------------|----------------|------------------------|--------------|
| | 2012 | 2011 | |

Debt

At December 31, 2012, the County had \$15.84 million in bonds outstanding, \$1,170,000 due within one year. The following table summarizes the County's debt outstanding as of December 31, 2012 and December 31, 2011:

| | | Restated |
|-------------------------------------|--------------|--------------|
| | 2012 | 2011 |
| Governmental Activities: | | |
| General Obligation Bonds | \$8,089,650 | \$8,452,850 |
| Superfund Site Liability | 7,261,430 | 7,762,920 |
| Capital Leases | 0 | 12,671 |
| Compensated Absences | 2,977,335 | 2,822,757 |
| Total Governmental Activities | 18,328,415 | 19,051,198 |
| Business-Type Activities: | | |
| General Obligation Bonds | 7,750,350 | 8,317,150 |
| OPWC Loans | 854,200 | 930,050 |
| OWDA Loans | 3,984,639 | 3,134,611 |
| Landfill Postclosure Care Liability | 28,465 | 27,660 |
| Compensated Absences | 135,657 | 158,126 |
| Total Business-Type Activities | 12,753,311 | 12,567,597 |
| Totals | \$31,081,726 | \$31,618,795 |

State statutes limit the amount of unvoted general obligation debt the County may issue. The aggregate amount of the County's unvoted debt is also subject to overlapping debt restrictions with other political subdivisions. The actual aggregate amount of the County's unvoted debt, when added to that of other political subdivisions within the County, is limited to ten mills. At December 31, 2012, the County's outstanding debt was below the legal limit. Additional information on the County's long-term debt can be found in Note 16.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

From 1990 through 2008 Miami County's employment has been better than both the state and national rate. During 2011, the County's unemployment rate was 7.6% while the State had an 7.9% unemployment rate. In 2012, the County's unemployment rate dropped to 7.0% and the State dropped to 7.2%

While Miami County remains in good financial shape, the County's budget for the general fund in 2013 is very conservative. Total revenues for 2013 are projected to be \$22.9 million, which is 7.1% less than what was actually received on a cash basis in fiscal year 2012. The General Fund's anticipated expenses are projected to increase 21.7% from \$23 million on a cash basis in 2012 to \$28 million in 2013. Our Sales Tax for 2013 is projected to be \$13.9 million due to the .25% tax increase effective October 2009. Investment income is expected to be \$281,000 in 2013 if interest rates remain steady with 2012 rates.

Reconciliation Of Total Governmental Fund Balances To Net Position Of Governmental Activities December 31, 2012

| Total Governmental Fund Balances | \$ 43,886,676 |
|---|-------------------|
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital Assets used in governmental activities are not resources and therefore are not reported in the funds. | 100,392,915 |
| Other long-term assets are not available to pay for current period expenditures and therefore are reported as deferred inflows of resources in the funds. | 10,715,338 |
| Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds. | (18,317,073) |
| The Internal Service Fund is used by management to charge the costs of insurance to individual funds. The assets and liabilities of the internal service fund is included in governmental activities in the statement of net assets. This is the balance that is recorded in the governmental | |
| activities. | 1,133,669 |
| Net Position of Governmental Activities | \$ 137,811,525 |

Reconciliation Of The Statement Of Revenues, Expenditures And Changes In Fund Balances Of Governmental Funds To The Statement Of Activities For The Year Ended December 31, 2012

| Net Change in Fund Balances - Total Governmental Funds | \$ (102,105) |
|--|------------------|
| Amounts reported for governmental activities in the statement of activities are different because | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and contributions exceeded depreciation. | 10,678,424 |
| Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of capital assets net of proceeds received. | (132,406) |
| Revenues and transfers in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | (263,626) |
| The repayment of principal of long-term debt consumes current financial resources of governmental funds, however it does not effect net position. | 877,361 |
| In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. | 14,267 |
| Some expenses reported in the statement of activities, such as change in inventory and compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. | (234,339) |
| The Internal Service Fund, is used to charge the cost of services (e.g. insurance) to individual funds, is not included in the statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the County's Internal Service Fund is allocated among the governmental activities. | 1,560,325 |
| Change in Net Position of Governmental Activities | \$ 12,397,901 |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, "The Financial Reporting Entity," in that the financial statements include all organizations, activities, functions and component units for which the County (the primary government) is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either (1) the County's ability to impose its will over the organization, or (2) the potential that the organization will provide a financial benefit to or impose a financial burden on the County. Based on the foregoing, the County's financial reporting entity includes all funds, agencies, boards and commissions that are part of the primary government, which include the following services: public safety, highways and streets, social services, public improvements, planning and zoning, and general administrative services. In addition, the County owns and operates a solid waste transfer facility, a water treatment and distribution system and a wastewater treatment and collection system, all of which are reported as enterprise funds.

Discretely Presented Component Unit - The component unit column in the Statement of Net position includes the financial data of the County's component unit. It is reported in a separate column to emphasize that it is legally separate from the county. Riverside Training Industries (RTI) contracts with the Board of Developmental Disabilities to operate developmental disability workshops. The workshops are being presented as a part of the County's reporting entity because it would be misleading to exclude them. Complete financial statements for RTI may be obtained from RTI's administrative offices at 110 Foss Way, Troy, Ohio 45373.

The accounting polices of Miami County, Ohio, conform to generally accepted accounting principles as applicable to governmental units. The accounting policies of the discretely presented component unit (RTI) are consistent with those of the County. The following is a summary of the more significant policies:

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses. The following fund types are used by the County:

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the County's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is on determination of "financial flow" (sources and use and balances of financial resources). The following are the County's major governmental funds:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

<u>General Fund</u> - represents the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the laws of Ohio.

<u>Job and Family Services Fund</u> - This fund is for the deposit of all monies received from the state government for the purposes of public assistance programs as prescribed in Chapters 5107 and 5113 of the Ohio Revised Code.

<u>Board of Developmental Disabilities Fund</u> - This fund is used to account for funds obtained from voted levy, lunch receipts, grants and donations and is used for the Riverside School.

<u>Permanent Improvement Fund</u> – This fund is used to account for the cost of various buildings, remodeling projects and for certain major purchases of capital improvements. Revenues consist of a portion of Miami County's one percent (1%) sales tax.

Proprietary Funds

All proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of these funds are included on the Statement of Net Position. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.

<u>Enterprise Funds</u> - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The County's major enterprise funds are:

Water Fund – This fund is used to account for the operation of the County's water service.

<u>Sewer Fund</u> – This fund is used to account for the operation of the County's sanitary sewer service.

<u>Transfer Station Fund</u> - To account for the operation of the County's solid waste removal and disposal activities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. <u>Basis of Presentation - Fund Accounting</u> (Continued)

<u>Sheriff Police Rotary Fund</u> – To account for charges levied against other political subdivisions and organizations for police services where the specific intent is to promote public safety and security.

<u>Internal Service Fund</u> - This fund is used to account for health insurance services provided to other departments of the County on a cost-reimbursement basis.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. These funds are used to account for assets held by a governmental unit as an agent for individuals, private organizations or other governmental units and therefore not available to support the County's own programs. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operation. These funds operate on an accrual basis of accounting. Discussion of specific agency fund activities can be found beginning on page 166.

C. <u>Basis of Presentation – Financial Statements</u>

<u>Government-wide Financial Statements</u> – The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government and it's discretely presented component unit, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

Interfund receivables and payables between governmental and business-type activities have been eliminated in the government-wide Statement of Net Position. Transfers between governmental funds are eliminated on the government-wide Statement of Activities. These eliminations minimize the duplicating effect on assets, liabilities, revenues, and expenditures within the governmental and business-type activities total column; however, the interfund services provided and used are not eliminated in the process of consolidation.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation – Financial Statements (Continued)

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function or program of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

<u>Fund Financial Statements</u> – Fund financial statements report detailed information about the County. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Basis of Accounting (Continued)

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which the County considers to be 60 days after year end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for debt service and expenditures related to compensated absences which are recorded only when due.

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales and use taxes, property taxes, grants, entitlements and donations. Revenue from sales and use taxes is recognized in the period in which the income is earned and is available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the revenue is available. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. Revenues considered susceptible to accrual at year end include interest on investments, and state levied locally shared taxes, including motor vehicle license fees and local government assistance. Other revenues, including licenses, permits, certain charges for services, and miscellaneous revenues are recorded when received in cash, because generally these revenues are not measurable until received.

Property taxes measurable as of December 31, 2012 but which are not intended to finance 2012 operations and delinquent property taxes, whose availability is indeterminate, are recorded as deferred inflows of resources.

The accrual basis of accounting is utilized for reporting purposes by the government-wide, the proprietary fund and fiduciary fund financial statements. Revenues are recognized when they are earned and expenses are recognized when they are incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year.

All funds, other than agency funds, are legally required to be budgeted and appropriated; however, only the General and major special revenue funds are required to be reported. The primary level of budget control is at the object level by organizational unit and/or department by function (Public Safety, Public Works, General Government, Debt Service etc.) within a fund. Budgetary modifications may only be made through resolution of the County Commissioners.

1. Tax Budget

By July 15, each County department must submit an annual tax budget for the following fiscal year to the County Commissioners for consideration and passage. The adopted budget is submitted to the County Auditor, as secretary of the County Budget Commission, by July 20th of each year, for the period January 1 to December 31 of the following year.

2. Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Budget Commission then certifies its actions to the County by September 1st of each year. As part of the certification process the County receives an official certificate of estimated resources which states the projected receipts by fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during 2012.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

3. Appropriations

A temporary appropriations resolution to control expenditures may be passed on or about January 1st of each year for the period January 1 through March 31. An annual appropriations resolution must be passed by April 1st of each year for the period January 1st through December 31st. The appropriations resolution establishes spending controls at the fund, function, organizational unit and/or department, and object level. The appropriations resolution may be amended during the year by resolution of the County Commissioners as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources. During 2012, several supplemental appropriations were necessary to budget for unanticipated expenditures. Expenditures may not legally exceed budgeted appropriations at the object level. Administrative control is maintained through the establishment of more detailed line-item budgets. Management may transfer appropriations within the object level (among line items) for an organizational unit and/or department provided total appropriations for that object and organizational unit and/or department do not exceed amounts established by the County Commissioners. The budgetary figures, which appear on the budgetary statements, are provided on the budgetary basis to provide a comparison of actual results with the final budget, including all amendments and modifications.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures (budget basis) in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities.

5. <u>Lapsing of Appropriations</u>

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriations balance is carried forward to the subsequent fiscal year and need not be reappropriated.

6. Budgetary Basis of Accounting

The County's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major difference between the budgetary basis and the GAAP basis lies in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on the cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Budgetary Process (Continued)

6. Budgetary Basis of Accounting (Continued)

A reconciliation of the results of operations for the year from the GAAP basis to the budgetary basis for the general fund and for the major special revenue funds is shown below:

| Net Change in Fund Balances | | | | |
|--------------------------------|-------------|-------------------------------|---|--|
| _ | General | Job and Family Services | Board of Developmental Disabilities | |
| GAAP Basis (as reported) | \$1,793,781 | (\$59,823) | \$694,106 | |
| Increase (Decrease): | | | | |
| Accrued Revenues at | | | | |
| December 31, 2012 | | | | |
| received during 2013 | (3,001,285) | (409,319) | (608,466) | |
| Accrued Revenues at | | | | |
| December 31, 2011 | | | | |
| received during 2012 | 2,838,463 | 440,648 | 362,457 | |
| Accrued Expenditures at | | | | |
| December 31, 2012 | | | | |
| paid during 2013 | 668,350 | 99,510 | 314,499 | |
| Accrued Expenditures at | | | | |
| December 31, 2011 | | | | |
| paid during 2012 | (645,243) | (243,688) | (360,464) | |
| 2012 Prepaids for 2013 | (128,724) | 0 | (28,237) | |

| for GAAP Reporting Purpose | (162,661) | 0 | 0 | |
| Outstanding Encumbrances | (1,324,624) | (170,763) | (323,997) | |
| Budget Basis | \$164,305 | (\$343,435) | \$355,075 | |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Cash and Cash Equivalents

Cash and cash equivalents include amounts in demand deposits, the State Treasury Asset Reserve of Ohio (STAR Ohio), short-term certificates of deposit and treasury securities. The STAR Ohio, certificates of deposit and treasury securities are considered cash equivalents because they are highly liquid investments or have original maturity dates of three months or less.

The County Treasurer pools cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each had maintained its own cash and investment account. For purposes of the statement of cash flows, the proprietary funds consider their share of equity in STAR Ohio and pooled certificates of deposit to be cash equivalents. See Note 6 "Cash, Cash Equivalents and Investments."

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, the County records all its investments at fair value except for nonparticipating investment contracts (certificates of deposit) which are reported at cost, which approximates fair value. All investment income, including changes in the fair value of investments, are recognized as revenue in the operating statements. Fair value is determined by quoted market prices. See Note 6, "Cash, Cash Equivalents and Investments." During 2012, the County invested funds in U.S. Government Securities, certificates of deposit, money market mutual funds and STAR Ohio.

STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price which is the price the investment could be sold for on December 31, 2012. Riverside Training Industries (discretely presented component unit) permitted investments include mortgage backed securities, stocks, corporate bonds and mutual funds. All investments are valued at share market prices, which are the prices the investments could be sold for on December 31, 2012. See Note 6, "Cash, Cash Equivalents and Investments."

H. Inventory of Supplies

Inventory is stated at cost (first-in, first-out) in the governmental funds, and at the lower of cost (first-in, first-out) or market in the proprietary funds. The costs of inventory items are recorded as expenditures in the governmental funds when purchased and expenses in the proprietary funds when used.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2012, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

J. Capital Assets and Depreciation

Capital assets are defined by the County as assets with an initial, individual cost of more than \$10,000.

1. Property, Plant and Equipment - Governmental Activities

Governmental Activities capital assets are those not directly related to the business type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost or estimated historical cost for assets not purchased in recent years.

Estimated historical costs for governmental activities capital asset values were initially determined by identifying historical costs when such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

Capital assets include land, buildings, improvements other than buildings, machinery and equipment and infrastructure. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significant number of years. Examples of governmental activities infrastructure include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems. These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Position, but they are not reported in the Fund Financial Statements.

2. Property, Plant and Equipment – Business Type Activities

Proprietary funds capital assets are stated at cost (or estimated historical cost), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed capital assets are recorded at fair market value at the date received. Proprietary funds capital assets are similar to Governmental Activities capital assets with the exception of the infrastructure. Proprietary infrastructure consists of water and sewer lines. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Position and in the respective funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Capital Assets and Depreciation (Continued)

3. Depreciation

All capital assets are depreciated, excluding land and construction in progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

| | Governmental and |
|--|---------------------------------|
| | Business-Type Activities |
| Description | Estimated Lives (in years) |
| Land Improvements | 20 - 50 |
| Buildings, Structures and Improvements | 25 - 60 |
| Machinery, Equipment, Furniture and Fixtures | 5 - 25 |
| Infrastructure | 15 - 100 |

K. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are normally due for payment during the current year. Bonds, capital leases, and long-term notes that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

L. Long-Term Obligations

Long-Term liabilities are being repaid from the following funds:

| Obligation | Fund |
|---------------------------------------|---|
| General Obligation Bonds | General Obligation Debt Fund Transfer Station Fund Water Fund Sewer Fund |
| Superfund Site Liability | Super Cleanup Fund |
| Ohio Public Works Commission Loans | Water Fund Sewer Fund |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. **Long-Term Obligations** (Continued)

| Obligation | Fund |
|--|--|
| Ohio Water Development Authority Loan | Sewer Fund, Water Fund |
| Capital Lease | E-911 Emergency Operations Fund |
| Landfill Postclosure Care Liability | Transfer Station Fund |
| Compensated Absences | General Fund Motor Vehicle and Gasoline Tax Fund Child Support Enforcement Agency Fund Dog and Kennel Fund Job and Family Services Fund Shelter/Domestic Violence Fund Youth Services Subsidy Fund E-911 Emergency Operations Fund Public Defender Fund Delinquent Tax Collection Fund Real Estate Appraisal Fund Pre-Trial Services Fund Board of Developmental Disabilities Fund Children's Services Board Fund Emergency Management Agency Fund Juvenile Detention/Rehabilitation Center Fund County Probation Services Fund One-Stop Shop Fund Court Computerization Fund Dispute Resolution Fund Common Pleas Court – Special Projects Fund Water Fund Sewer Fund Transfer Station Fund |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments, at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees eligible to receive termination payments as of the balance sheet date, and on leave balances accumulated by other employees expected to become eligible in the future to receive such payments.

For governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the fund from which the employees who have accumulated leave are paid. The noncurrent portion of the liability is not recorded. For proprietary funds, the entire compensated absences amount is reported as a fund liability.

N. Grants and Other Intergovernmental Revenues

Local governmental fund revenues are recorded as receivables and revenue when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and State reimbursement-type grants for the acquisition or construction of capital assets in Proprietary funds are receivables and capital contributions when the related expenses are incurred.

All other Federal and State reimbursement-type grants are recorded as receivables and revenues when the related expenditures/expenses are incurred.

O. Pensions

The provision for pension costs are recorded when the related payroll is accrued and the obligation is incurred.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water treatment and distribution, wastewater collection and treatment, solid waste removal and disposal and policing services to other governments. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Q. Self-Funded Insurance

The County is self-funded for employee health care benefits. The program is administered by United Healthcare which provides claims review and processing services. Each County fund is charged for its proportionate share of covered employees. The County records a liability in claims payable for incurred but unreported claims at year end based upon an analysis of historical claims and expenses.

R. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

S. Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form or legally contractually required to be maintained intact.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

S. Fund Balance (Continued)

Restricted – Restricted fund balance consists of amounts that have constraints placed on them either externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments) or by law through constitutional provisions or enabling legislation. Enabling legislation authorizes the County to assess, levy, charge or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement (compelled by external parties) that those resources be used only for the specific purposes stipulated in the legislation.

Committed – Committed fund balance consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the County's highest level of decision making authority. For the County, these constraints consist of resolutions passed by the County Commissioners. Committed amounts cannot be used for any other purpose unless the County removes or changes the specified use by taking the same type of action (ordinance, resolution) it employed previously to commit those amounts.

Assigned – Assigned fund balance consists of amounts that are constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed.

Unassigned – Unassigned fund balance consists of amounts that have not been restricted, committed or assigned to specific purposes within the General Fund as well as negative fund balances in all other governmental funds.

When both restricted and unrestricted resources are available for use, it is the County's policy to use unrestricted resources first (committed, assigned and unassigned), then restricted resources as they are needed.

T. Net position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction of improvement of those assets. Net position are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The County did not have any net position restricted by enabling legislation during 2012.

The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

U. Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. On the government-wide statement of net position and governmental funds balance sheet, property taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the item, *unavailable amounts*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable amounts for delinquent property taxes, income taxes, special assessments, and state levied shared taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

NOTE 2 - CHANGE IN ACCOUNTING PRINCIPLE

For 2012 the County implemented GASB Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements," GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position" and GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities".

Statement No. 62 incorporated into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions and Accounting Research Bulletins of the American Institute of Certified Public Accountants' (AICPA) Committee on Accounting Procedure issued on or before November 30, 1989 which does not conflict with or contradict GASB pronouncements.

Statement No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in a statement of financial position and related disclosures. GASB 63 standardizes the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position.

Statement No. 65 provides guidance on how to properly classify items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources. In addition, guidance is provided on recognizing certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues).

The implementation of these GASB Statements had no impact on beginning of year fund balance/net position.

MIAMI COUNTY, OHIO

Notes to the Basic Financial Statements For the Year Ended December 31, 2012

NOTE 3 – RESTATEMENT OF FUND NET POSITION

During 2011 there was an error in the accounting for Ohio Public Works Commission and Ohio Water Development Authority Loans Payable in the Water and Sewer Funds. Balances were restated from amounts previously reported, as detailed below:

| | | | Business-Type |
|-----------------------------------|-------------|--------------|---------------|
| | Water Fund | Sewer Fund | Activities |
| Net Position at December 31, 2011 | \$2,491,554 | \$11,546,096 | \$18,039,660 |
| OWDA Loans Payable | \$0 | 1,652,817 | 1,652,817 |
| OPWC Loans Payable | (50,000) | 50,000 | 0 |
| Net Position as Restated | \$2,441,554 | \$13,248,913 | \$19,692,477 |

This space intentionally left blank.

NOTE 4 - FUND BALANCE CLASSIFICATION

Fund balance is classified as nonspendable, restricted, committed, assigned, and unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

| Fund Balances | General | Job and Family Services | Board of Developmental Disabilities | Permanent Improvement | Other Governmental Funds | Total Governmental Funds |
|---|--------------|----------------------------|---|--------------------------|--------------------------------|--------------------------------|
| Nonspendable: | | | | | | |
| Inventory of Supplies | \$0 | \$0 | \$0 | \$0 | \$243,192 | \$243,192 |
| Prepaid Items | 128,724 | 0 | 28,237 | 0 | 15,860 | 172,821 |

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS

The County Treasurer combines a majority of cash resources of the individual funds to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash and Cash Equivalents." Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposit are reported at cost. Ohio law requires the classification of funds held by the County into three categories.

Category 1 consists of "active" funds - those funds required to be kept in a "cash" or "cash equivalent" status for immediate use by the County. Such funds must be maintained either as cash in the County treasury or in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts.

Category 2 consists of "inactive" funds - those funds not required for use within the current five year period of designation of depositories. Inactive funds may be deposited or invested only as certificates of deposit maturing not later than the end of the current period of designation of depositories.

Category 3 consists of "interim" funds - those funds which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim funds may be invested or deposited in the following securities:

- United States treasury notes, bills, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal
 government agency or instrumentality, including but not limited to, the federal national
 mortgage association, federal home loan bank, federal farm credit bank, federal home
 loan mortgage corporation, government national mortgage association, and student loan
 marketing association. All federal agency securities shall be direct issuances of federal
 government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Interim deposits in eligible institutions applying for interim funds;
- Bonds and other obligations of the State of Ohio;

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions, and
- The State Treasury Asset Reserve of Ohio (STAR Ohio).
- Commercial paper notes issued by any corporation for profit that is incorporated under the laws of the United States or any state pursuant to specifications within the Ohio Revised Code.

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Miami County's policy as it relates to custodial credit risk is to follow the Ohio Revised Code chapter 135 as well as to practice sound financial management principles focusing on diversification of deposits. Protection of County cash and deposits is provided by the federal deposit insurance corporation as well as qualified securities pledged by the institution holding the Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio. Any public depository in which the County places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the Federal Deposit Insurance Corporation (FDIC). The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end the carrying amount of the County's deposits was \$36,535,048 and the bank balance was \$35,681,982. Federal depository insurance covered \$550,527 of the bank balance and \$35,131,455 was uninsured. Of the remaining uninsured bank balance, the County was exposed to custodial risk as follows:

Balance

| | Bulunce |
|--|--------------|
| Uninsured and collateralized with securities held by | |
| the pledging institution's trust department not in the County's name | \$35,131,455 |
| Total Balance | \$35,131,455 |

At year end, the carrying amount of Riverside Training Industries' (component unit) deposits was \$162,569 and the bank balance was \$162,569. Federal depository insurance covered all of the bank balance.

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

B. Investments

| | | Credit | Investment Maturities (in Years) | | |
|-------------------|--------------|--------------------------|----------------------------------|--------------|-------------|
| | Fair Value | Rating | less than 1 | 1-3 | 3-5 |
| STAR Ohio | \$6,975,187 | AAAm 1 | \$6,975,187 | \$0 | \$0 |
| FHLB | 2,019,240 | AA+ ; Aaa ^{1,2} | 0 | 0 | 2,019,240 |
| FHLMC | 2,021,730 | AA+ ; Aaa ^{1,2} | 0 | 0 | 2,021,730 |
| FNMA | 11,268,563 | AA+ ; Aaa ^{1,2} | 251,098 | 5,203,502 | 5,813,963 |
| FFCB | 11,248,570 | AA+ ; Aaa ^{1,2} | 251,090 | 10,997,480 | 0 |
| Total Investments | \$33,533,290 | | \$7,477,375 | \$16,200,982 | \$9,854,933 |

¹ Standard & Poor's

Interest Rate Risk – Ohio Revised Code Section 135, generally limits security purchases to those that mature within five years of settlement date. In accordance with the County's investment policy, the Treasurer will not directly invest in securities maturing more than five years from the settlement date.

Investment Credit Risk – The County has no investment policy that limits its investment choices other than the limitation of State statute for "interim" funds described previously.

Concentration of Credit Risk – The County's investment policy states that the Treasurer may invest in any instrument or security authorized by Ohio Revised Code Section 135. The policy places no limit on the amount the County may invest in any one issuer. The County has invested 20.8% of its portfolio in Star Ohio and 79.2% in US Agency Securities (FNMA, FHLB, FFCB and FHLMC).

Custodial Credit Risk – For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The County's investment policy states that it will diversify its investments to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions. All of the County's securities are either insured and registered in the name of the County or registered in the name of the County.

Riverside Training Industries' (component unit) investments are detailed below:

| | | Credit | Investment Maturities (in Years) | | |
|----------------------------|-------------|---------|----------------------------------|-------------|----------|
| | Fair Value | Rating | N/A | less than 1 | 1-5 |
| Corporate stocks and bonds | \$1,287,256 | A- AA 1 | \$586,925 | \$628,967 | \$71,364 |
| Total Investments | \$1,287,256 | | \$586,925 | \$628,967 | \$71,364 |

NOTE 6 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

C. Reconciliation of Cash, Cash Equivalents and Investments

The classification of cash, cash equivalents and investments on the financial statements is based on criteria set forth in GASB Statement No. 9. Highly liquid investments with an original maturity of three months or less are treated as cash equivalents. The classification of cash and cash equivalents (deposits) for purposes of this note are based on criteria set forth in GASB Statement No. 3.

A reconciliation between classifications of cash and investments on the statement of net position and the classifications per items A and B of this note are as follows:

| | Cash and Cash | |
|--|---------------|--------------|
| | Equivalents * | Investments |
| Per Statement of Net Position | \$35,667,700 | \$34,400,638 |
| Certificates of Deposit | 7,842,535 | (7,842,535) |
| (with maturities of more than3 months) | | |
| Investments: | | |
| STAR Ohio | (6,975,187) | 6,975,187 |
| Per GASB Statement No. 3 | \$36,535,048 | \$33,533,290 |
| | | |

^{* -} Includes Cash and Cash Equivalents with Fiscal Agent

A reconciliation between classifications of cash and investments for the component unit on the statement of net position and classifications per items A and B of this note are as follows:

| | Cash and Cash | | |
|-------------------------------|---------------|-------------|--|
| | Investments | | |
| Per Statement of Net Position | \$162,569 | \$1,287,256 | |
| Per GASB Statement No. 3 | \$162,569 | \$1,287,256 | |

This space intentionally left blank.

NOTE 7 - TAXES

A. Property Taxes

Property taxes include amounts levied against all real and public utility property located in the County. Taxes collected on real property (other than public utility) in one calendar year are levied as of October 1 in the preceding calendar year on assessed values as of January 1 of that preceding year, the lien date. Assessed values are established by the County Auditor at 35 percent of appraised market value. All property is required to be revalued every six years. The last revaluation was completed in 2007. Real property taxes are payable annually or semiannually. The first payment is due December 31, with the remainder payable by June 20.

Public utility real and tangible personal property taxes collected in one calendar year are levied in the preceding calendar year on assessed values determined as of December 31 of the year preceding the tax collection year, the lien date. Certain public utility tangible personal property currently is assessed at eighty-eight percent of its true value. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County Treasurer collects property tax on behalf of all taxing districts within the County. The County Auditor periodically remits to the taxing districts their portions of the taxes collected. Collections of the taxes and remittance of them to the taxing districts are accounted for in various agency funds of the County.

Accrued property taxes receivable represent delinquent taxes outstanding and real, tangible personal, and public utility taxes which were measurable as of December 31, 2012. Although total property tax collections for the next year are measurable, amounts to be received during the available period are not subject to reasonable estimation at December 31 and are not intended to finance 2012 operations. The receivable is therefore offset by a credit to deferred inflows of resources.

The full tax rate to the County for the year ended December 31, 2012, was \$8.75 per \$1,000 of assessed value. The assessed value upon which the 2012 tax receivable was based was \$2,173,303,310. This amount constitutes \$2,112,238,690 in real property assessed value, \$61,064,620 in public utility assessed value.

Ohio law prohibits taxation of property from all taxing authorities in excess of 1% of assessed value without a vote of the people. Under current procedures, the County's share is .875% (8.75 mills) of assessed value.

B. Other Taxes

In addition to property taxes, certain other taxes are recognized as intergovernmental revenue by the County. These taxes include state shared taxes, gasoline taxes, inheritance taxes and miscellaneous other taxes which have varying lien, levy and collection dates.

NOTE 8- RECEIVABLES

Receivables at December 31, 2012, consisted of taxes, accounts receivable, intergovernmental receivables, interest, loans and interfund receivables. All receivables are considered collectible in full.

NOTE 9- INTERFUND RECEIVABLES AND PAYABLES

Interfund loan balances are expected to be repaid within one year or less while advances to/from other funds represent longer term balances. The following balances at December 31, 2012 represent interfund receivables and payables:

| | Interfunc | l Loans | Advances to/from Other Fun | |
|---------------------------------|-------------|-----------|----------------------------|----------|
| | Receivables | Payables | Receivables | Payables |
| Governmental Funds: | | | | |
| General Fund | \$486,932 | \$0 | \$65,088 | \$0 |
| Other Governmental Funds | 0 | 186,932 | 0 | 65,088 |
| Total Governmental Funds | 486,932 | 186,932 | 65,088 | 65,088 |
| Proprietary Funds: | | | | |
| Water | 0 | 300,000 | 0 | 0 |
| Total Proprietary Funds | 0 | 300,000 | 0 | 0 |
| Total Interfund Loans | \$486,932 | \$486,932 | \$65,088 | \$65,088 |

Interfund loans allow some funds to operate and pay venders timely, while awaiting anticipated revenue. Loans are often used as a means of short-term financing and a solution to providing cash flows related to reimbursable grants. There is an interfund loan between the General Fund and the Other Governmental Funds (Ditch Construction Capital Project Fund) for \$56,464 consisting of a short-term note issued at 1% to provide for capital construction. The advance to/from other funds is between the General Fund and the Other Governmental Funds (Ditch Construction Capital Project Fund) consisting of a bond issued at 3% to provide for capital construction.

NOTE 9 - INTERFUND RECEIVABLES AND PAYABLES (Continued)

The following balances at December 31, 2012, represent due from/to other funds:

| | Due From | Due To | |
|--|-------------|-------------|--|
| | Other Funds | Other Funds | |
| Governmental Funds: | | | |
| General Fund | \$88,656 | \$59,095 | |
| Job and Family Services Fund | 91,195 | 21,186 | |
| Board of Developmental Disabilities Fund | 0 | 7,197 | |
| Other Governmental Funds | 118,389 | 205,944 | |
| Total Governmental Funds | 298,240 | 293,422 | |
| Enterprise Funds: | | | |
| Sewer Fund | 0 | 1,417 | |
| Transfer Station Fund | 0 | 3,401 | |
| Total Enterprise Funds | 0 | 4,818 | |
| Total Interfund Receivables and Payables | \$298,240 | \$298,240 | |

Due from/to Other Funds account for amounts due between different funds for internal billings such as postage, telephone, vehicle maintenance, gasoline, drug testing and unemployment charge-backs.

NOTE 10 - TRANSFERS

The following balances at December 31, 2012 represent transfers in and transfers out:

| Fund | Transfer In | Transfer Out |
|------------------------------|-------------|--------------|
| Governmental Funds: | | |
| General Fund | \$0 | \$446,430 |
| Job and Family Services Fund | 0 | 272,557 |
| Permanent Improvement Fund | 352,223 | 0 |
| Other Governmental Funds | 619,627 | 252,863 |
| Total All Transfers | \$971,850 | \$971,850 |

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; to segregate money for anticipated capital projects; to provide additional resources for current operations or debt service; and to return money to the fund from which it was originally provided once a project is completed.

NOTE 11 - CAPITAL ASSETS

NOTE 12 – DEFINED BENEFIT PENSION PLANS

All of the County's full-time employees participate in one of two separate retirement systems which are cost-sharing multiple employer defined benefit pension plans.

A. Ohio Public Employees Retirement System ("OPERS")

The following information was provided by OPERS to assist the County in complying with GASB Statement No. 27, "Accounting for Pensions by State and Local Government Employers."

NOTE 12 – DEFINED BENEFIT PENSION PLANS (Continued)

A. Ohio Public Employees Retirement System ("OPERS") (Continued)

All employees of the County, except teachers at the Board of Developmental Disabilities participate in one of the three pension plans administered by OPERS: the Traditional Pension Plan (TP), the Member-Directed Plan (MD), and the Combined Plan (CO). The TP Plan is a cost-sharing multiple employer defined benefit pension plan. The MD Plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the MD Plan members accumulate retirement assets equal to the value of member and (vested) employer contributions plus any investment earnings thereon. The CO Plan is a cost-sharing multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan. Under the CO Plan employer contributions are invested by the retirement system to provide a formula retirement benefit similar in nature to the TP Plan. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the MD Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the TP Plan and CO Plan. Members of the MD Plan do not qualify for ancillary benefits, including postemployment health care benefits. Chapter 145 of the Ohio Revised Code provides statutory authority to establish and amend benefits. The Ohio Public Employees Retirement System issues a stand-alone financial report that includes financial statements and required supplementary information for OPERS. Interested parties may obtain a copy by making a written request to OPERS, Attention: Finance Director, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or 1-800-222-7377.

The ORC provides statutory authority for employee and employer contributions. For 2012, employee and employer contribution rates were consistent across all three plans (TP, MD and CO). Plan members, other than those engaged in law enforcement, are required to contribute 10% of their annual covered salary to fund pension obligations; law enforcement employees contribute 12.1%. For plan members, other than those engaged in law enforcement, the County was required to contribute 14% of covered salary for 2012. The County contribution for law enforcement employees for 2012 was 18.1%. A portion of the County's contribution is used to fund pension obligations with the remainder being used to fund health care benefits.

The portion used to fund pension obligations for members in the Traditional Plan other than those engaged in law enforcement was 10.0% of annual covered salary for 2012. The portion used to fund pension obligations for those engaged in law enforcement was 14.1% of annual covered salary for 2012. The portion used to fund pension obligations for members in the Combined Plan was 7.95% of annual covered salary for 2012.

NOTE 12 – DEFINED BENEFIT PENSION PLANS (Continued)

A. Ohio Public Employees Retirement System ("OPERS") (Continued)

The contribution requirements of plan members and the County are established and may be amended by the OPERS Board. The County's contributions to the Ohio PERS for the years ending December 31, 2012, 2011, and 2010 were \$2,728,958, \$2,740,221 and \$2,524,138, respectively, for employees of the County and \$382,731, \$377,535 and \$364,383 respectively, for law enforcement officers, which were equal to the required contributions for each year.

B. State Teachers Retirement System

Plan Description - The teachers who work for the Board of Developmental Disabilities participate in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan,member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

NOTE 12 – DEFINED BENEFIT PENSION PLANS (Continued)

B. <u>State Teachers Retirement System</u> (Continued)

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - For the fiscal year ended June 30, 2012, plan members were required to contribute 10 percent of their annual covered salaries. The County was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. For fiscal year 2011, the portion used to fund pension obligations was also 13 percent. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The County's contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2012, 2011, and 2010 were \$47,157, \$51,821, and \$52,420 respectively; which were equal to the required contributions for each year.

NOTE 13 - POSTEMPLOYMENT BENEFITS

A. Ohio Public Employees Retirement System ("OPERS")

Plan Description – OPERS administers three separate pension plans: the Traditional Pension Plan – a cost-sharing, multiple-employer defined benefit pension plan; the Member directed Plan – a defined contribution plan; and the Combined Plan – a cost sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care plan, which includes a medical plan, prescription drug program and Medicare Part B Premium reimbursement, to qualifying member of both the Traditional Pension and the Combined Plans. Members of the Member Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

NOTE 13 - POSTEMPLOYMENT BENEFITS (Continued)

A. Ohio Public Employees Retirement System ("OPERS") (Continued)

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45.

The ORC permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the ORC.

OPERS issues a stand-alone financial report. Interested parties may obtain a copy by making a written request to OPERS, Attention: Finance Director, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or 1-800-222-7377.

Funding Policy – The ORC provides the statutory authority requiring public employers to fund post retirement health care coverage through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post retirement health care benefits. Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2012, local government employers contributed at a rate of 14.00% of covered payroll. Law enforcement employers contributed at a rate of 18.10% of covered payroll. The ORC currently limits the employer contribution to a rate not to exceed 14.0% of covered payroll for local government employers and 18.10% for law enforcement. Active members do not make contributions to the OPEB plan.

The OPERS Postemployment Health Care plan was established under, and is administered in accordance with Internal Revenue Code 401(h). Each year the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of postemployment health care benefits. In 2012, for members in the Traditional Plan, the employer contribution allocated to the health care plan was 4.0% of covered payroll. For members in the Combined Plan, the employer contribution allocated to the health care plan was 6.05% of covered payroll. The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

NOTE 13 - POSTEMPLOYMENT BENEFITS (Continued)

A. Ohio Public Employees Retirement System ("OPERS") (Continued)

The County's contributions for health care to the OPERS for the years ending December 31, 2012, 2011, and 2010 were \$1,091,583, \$1,096,089 and \$1,438,995, respectively, for employees of the County and \$108,576, \$107,102 and \$144,860 respectively, for law enforcement officers, which were equal to the required contributions for each year.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4 percent of the employer contributions toward the health care fund after the end of the transition period.

B. State Teachers Retirement System

Plan Description - The teachers who work for the Board of Developmental Disabilities participate in the State Teachers Retirement System of Ohio, a cost sharing, multiple-employer public employee retirement system.

The County contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2012, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The County's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$3,627, \$3,986, and \$4,032 respectively; which were equal to the required contributions for each year.

NOTE 14 - COMPENSATED ABSENCES

The costs of vacation, sick leave, and compensatory time benefits are recorded as they are earned. Employees earn sick leave at a rate of 1.25 days per month of work completed. Accumulated vacation is based upon length of service and varies within each department of the County. Upon retirement, and in certain instances, termination, an individual will be compensated for their accumulated sick leave at a maximum rate of 25% of the balance not to exceed thirty days. Additionally, County employees receive compensatory time equal to 1.5 times the hourly rate for any time worked in excess of forty hours per week.

At December 31, 2012, the County's accumulated, unpaid compensated absences amounted to \$3,112,992. Of this amount, \$2,977,335 is recorded as Governmental Activities on the Entity Wide Statement of Net position (\$1,768,473 is reported as due within one year), \$135,657 is recorded as Business-type activities (\$70,710 is reported as due within one year).

NOTE 15 - NOTES PAYABLE

The Ohio Revised Code provides that notes including renewal notes issued in anticipation of the issuance of general obligation bonds may be issued and outstanding from time to time up to a maximum period of 20 years from the date of issuance of the original notes. Bond anticipation notes may be retired at maturity from the proceeds of the sale of renewal notes or of the bonds anticipated by the notes, or from available funds of the County or a combination of these sources. The County is retiring its notes by the issuance of one year renewal notes with a portion of the principal being retired in accordance with the above provisions.

| 2023-2027 | 153,750 | 0 | 871,709 | 9,563 | | |
| 2028-2032 | 48,750 | 0 | 518,596 | 3,097 | | |
| Totals | \$854,200 | \$0 | \$3,116,718 | \$48,790 | | |

The County has been approved for various Ohio Water Development Authority (OWDA) loans. Because not all of these projects are complete and the final value of all of the loans are indeterminate, only the amortization of closed loans are presented above.

B. Defeased Debt

In December 1997, the County defeased all of its General Obligation Bonds (\$6,675,000) through the issuance of \$8,225,000 of General Obligation Bonds for various purposes (the "1997 Bonds"). The net proceeds of the 1997 Bonds have been invested in obligations guaranteed as to both principal and interest by the United States and placed in irrevocable escrow accounts which, including interest earned, will be used to pay the principal and interest on the refunded bonds. The refunded bonds, which have an outstanding balance of \$1,130,000 at December 31, 2012 are not included in the County's outstanding debt since the County has in-substance satisfied its obligations through the advance refunding.

NOTE 16 - LONG-TERM LIABILITIES (Continued)

B. <u>Defeased Debt</u> (Continued)

In May 2011, the County defeased all of its 1997 General Obligation Bonds (\$1,670,000) through the issuance of \$1,715,000 of General Obligation Bonds for various purposes (the "2011 Bonds"). The net proceeds of the 2011 Bonds have been invested in obligations guaranteed as to both principal and interest by the United States and placed in irrevocable escrow accounts which, including interest earned, will be used to pay the principal and interest on the refunded bonds. The refunded bonds, which have an outstanding balance of \$1,255,000 at December 31, 2012 are not included in the County's outstanding debt since the County has in-substance satisfied its obligations through the advance refunding.

In May 2011, the County partially defeased all of its 2002 General Obligation Bonds (\$4,220,000) through the issuance of \$4,495,000 of General Obligation Bonds for various purposes (the "2011 Bonds"). The net proceeds of the 2011 Bonds have been invested in obligations guaranteed as to both principal and interest by the United States and placed in irrevocable escrow accounts which, including interest earned, will be used to pay the principal and interest on the refunded bonds. The refunded bonds, which have an outstanding balance of \$4,220,000 at December 31, 2012 are not included in the County's outstanding debt since the County has in-substance satisfied its obligations through the advance refunding.

C. Conduit Debt

From time to time, the County has issued Revenue Bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the County, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2012, there were twenty-three series of Industrial Revenue Bonds and one series of Hospital Revenue Bonds outstanding. The aggregate principal amount payable for the twenty-three series of Industrial Revenue Bonds issued prior to January 1, 1996 could not be determined; however, their original issue amounts totaled \$25,499,000. The aggregate principal amount payable for the Hospital Revenue Bonds, issued June 23, 2007, was \$36,950,000 at year end.

During 2007, the County entered into two lease agreements on behalf of local businesses. The businesses are listed as sublessee's and wholly responsible for the payments and other costs associated with the leased premises. Accordingly, the leases are not reported as liabilities in the County's financial statements. The balance of the two leases as of December 31, 2012 was \$881,238.

NOTE 17 - SOLID WASTE LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The County owned and operated an incinerator and landfill which originally opened for business in 1968. The operation was intended to process and dispose of municipal and industrial waste from communities throughout Miami County. Combustible wastes were to be incinerated and noncombustible wastes were to be landfilled. However, large quantities of combustible wastes were landfilled along with noncombustible wastes. The site stopped accepting liquid wastes in 1975 and the entire landfill operations ceased in 1978 when 100% landfill capacity was attained. A new transfer station was constructed adjacent to the former incinerator building and became operational in January of 1998.

Superfund activities began in 1984 when U.S. EPA placed the site on the National Priorities List. The initial phase of site investigations was completed in the Spring of 1989. In June of 1989, the U.S. EPA announced the final cleanup plan in a Record of Decision.

After the Record of Decision was signed the U.S. EPA began negotiations with the site's potentially responsible parties (PRPs) to perform the remedial design. In July of 1992, Miami County designed and implemented a cleanup of the ash disposal pit which included capping and covering the pit. The work was completed in September of 1992 and, as noted below, the area now serves as the parking lot for the transfer station.

In March 1993, the U.S. EPA signed a consent decree which committed the PRPs to designing and implementing the cleanup methods described in the 1989 Record of Decision. The PRPs initiated the process of hiring contractors who would conduct site investigations required to properly design the EPA's cleanup plan. Site clearing was begun in December of 1993 and completed in January of 1994. Following the clearing, 15 monitoring wells were installed around the perimeter of the site, two piezometers and one extraction well were installed in the liquid disposal area and probes were installed in order to properly define the southern and eastern boundary of the liquid disposal area. In 1995 the north landfill cap was constructed and accepted by the EPA. The remainder of the work listed below was completed by November 1996. Final seeding, grading and site work cleanup was completed in the spring of 1997.

North and South Landfills

Grade and cap both North and South Landfill with single barrier caps.

Ash Disposal Pit and Ash Pile

Ash wastes and contaminated soils form the ash disposal pit and ash pit were consolidated into the North Landfill.

The ash disposal pit was capped and covered and the area serves as a parking lot for the current transfer station operation.

Liquid Disposal Area and Ground Water

The liquid disposal area was graded and capped with a double barrier cap and HDPE liner. A soil vapor extraction system was installed to remove volatile organic vapors from the soils. The contaminated ground water is being remediated by a ground water extraction system with discharge to the Troy Sewer Treatment Plant.

NOTE 17 - SOLID WASTE LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS (Continued)

The total cost of the construction to close the landfill was \$2,246,000. Operation, maintenance and site monitoring costs through the year 2035 are estimated to be \$7,261,430. The estimated costs of postclosure care are subject to changes corresponding to the effects of inflation, revision of laws and other variables. Funds to cover the cost of closure and postclosure care are derived from 2% of the countywide 1% sales tax (.02%). The .02% of the county sales tax generated \$239,978 in revenues in 2012 leaving the fund balance in the Super Cleanup Fund at \$230,339. It is estimated that the revenue derived from the sales tax will be sufficient to cover the closure and postclosure care costs identified above.

NOTE 18 - RELATED PARTY TRANSACTIONS

During 2012, Miami County provided facilities, certain equipment, transportation, and salaries for administration, implementation, and supervision of programs to Riverside Training Industries, Inc., (the "workshop"), a discretely presented component unit of Miami County. The workshop reported \$1,003,862 for such contributions, recording revenue and expenses at cost or fair value, as applicable, to the extent the contribution is related to the vocational purposes of the workshop. Additional rehabilitative services provided directly to workshop clients by Miami County amounted to \$731,310.

NOTE 19 - CONTINGENCIES

The County is party to a consent decree, along with other local entities, for the costs of the clean-up of the former Miami County Incinerator under the Federal Superfund Program. The County has established a special revenue fund to account for the costs of the clean-up.

Additionally, the County is party to various other legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects. The County's management is of the opinion that the ultimate disposition of the various claims and legal proceedings will not have a material, adverse effect on the County's financial position.

NOTE 20 - RISK MANAGEMENT

A. Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County Risk Sharing Authority, Inc. (CORSA) is a risk sharing pool made up of fifty-three counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the specified insurance coverages provided by CORSA. These coverages include comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

NOTE 20 - RISK MANAGEMENT (Continued)

A. Insurance (Continued)

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA.

There has been no significant reduction in insurance coverages from coverages in the prior year. In addition, settled claims resulting from these risks have not exceeded commercial insurance coverages in any of the past three fiscal years.

B. Self Insurance

The County maintains a self-funded health insurance program (Hospitalization Fund, an internal service fund) with claims processed by United Healthcare on behalf of the County. As an integral part of the health insurance program, a reinsurance policy has been purchased which covers claims in excess of \$150,000 per individual per year up to a maximum of \$1,000,000 per individual per year with an unlimited maximum per individual.

All funds of the County from which employee salaries are paid participate in the health insurance program and make payments to the Hospitalization Fund based on actuarial estimates of the amounts needed to pay prior and current year claims. Total contributions to the program during the year were \$6,420,766. The claims liability of \$227,520 reported in the Hospitalization Fund at December 31, 2012 is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues," which requires that a liability for claims be reported if information prior to issuance of the financial statements indicates that it is probable a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated.

Changes in the Hospitalization Fund's claims liability amount in fiscal years 2011 and 2012 were as follows:

| | | Current Year | | |
|-------------|--------------|--------------|---------------|------------|
| | Beginning of | Claims and | | Balance at |
| | Fiscal Year | Changes in | Claims | Fiscal |
| Fiscal Year | Liability | Estimates | Payments | Year End |
| 2011 | \$964,884 | \$7,943,768 | (\$8,223,301) | \$685,351 |
| 2012 | 685,351 | 3,811,436 | (4,269,267) | 227,520 |

NOTE 21 – CONSTRUCTION COMMITMENTS

As of December 31, 2012, the County had the following construction commitments outstanding:

| | Remaining | | | | | | |
|-----------------------------------|--------------|------------|--|--|--|--|--|
| | Construction | Expected | | | | | |
| Fund/Project | Commitment | Completion | | | | | |
| Safety Building Elevators Upgrade | \$295,419 | 2013 | | | | | |
| Telephone System Upgrade | 176,095 | 2013 | | | | | |
| Various Water/Sewer Projects | 115,594 | 2013 | | | | | |

NOTE 22 - JOINTLY GOVERNED ORGANIZATIONS

A. Tri County Board of Recovery and Mental Health Services

The Tri County Board of Recovery and Mental Health Services (Tri County Board) is a jointly governed organization among Miami, Darke and Shelby counties. The Tri County Mental Health Board provides leadership in planning for and supporting community-based alcohol, drug addiction and mental health services in cooperation with public and private resources with emphasis on the development of prevention and early intervention programming while respecting, protecting and advocating for the rights of persons as consumers of alcohol, drug addiction and mental health services. The ability to influence operations depends on the County's representation on the Board. The Board of Trustees consists of eighteen members: four members are appointed by the Director of the Ohio Department of Mental Health, four members are appointed by the Director of the Ohio Department of Alcohol And Drug Addiction Services and the remaining ten members are appointed by the County Commissioners of Miami, Darke and Shelby counties in the same proportion as the County's population bears to the total population of the three counties combined. During 2012, the County contributed \$1,922,873 by voted levy for the operations of the organization. Miami County acts as the fiscal agent for the Tri County Board and its financial activity is included as an agency of the County. Financial information may be obtained from the County Auditor, Matthew W. Gearhardt, 201 West Main Street, Troy, Ohio 45373-2363.

NOTE 22 - JOINTLY GOVERNED ORGANIZATIONS (Continued)

B. West Central Ohio Network

The West Central Ohio Network (West Con) is a jointly governed organization among Darke, Miami, Auglaize, Mercer, Logan, Shelby, Preble, Hardin, and Union counties. West Con was created to serve as the administrator and fiscal agent of Supported Living funds for the Board of Development Disabilities of each of the participating counties. The degree of control exercised by any participating government is limited to its representation on the Board of Directors (the Board) of West Con. The Board consists of one delegate, who is the Superintendent, from each of the participating Boards of Development Disabilities. Payments to West Con are limited to the Supported Living funds of each participating county. During 2012, the County spent \$2,843,691 of the balance on deposit with West Con while receiving \$2,544,407. The balance at December 31, 2012 was \$402,296. Financial information can be obtained from Renee Place, Executive Director, 315 East Court Street, Sidney, Ohio 45365.

NOTE 23 – FUND DEFICITS

The fund deficits at December 31, 2012 of \$3,643,245 in the Permanent Improvement Fund and of \$121,552 in the Ditch Construction Fund (capital projects funds) arise from the recognition of certain liabilities under the modified accrual basis of accounting. Under the budgetary basis of accounting the deficits do not exist. The General Fund provides transfers when cash is required, not when accruals occur.

NOTE 24 – SUBSEQUENT EVENTS

In February 2013, the County Commissioners became aware that the County may be a potentially responsible party (PRP) to the West Troy Aquifer Superfund Site being investigated by the U.S. EPA. As of the end of May 2013, the County has not received any formal mandate from the U.S. EPA involving the County's financial obligation to such Superfund Site as a PRP.

Combining and Individual F_{UND} $S_{\mathit{TATEMENTS}} \ \mathit{AND} \ S_{\mathit{CHEDULES}}$

T he following combining statements and schedules include the Major and Nonmajor Governmental Funds and Fiduciary Funds.

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than amounts relating to expendable trusts or for major capital projects) that are legally restricted to expenditures for specified purposes.

Motor Vehicle and Gasoline Tax Fund

This fund is used to account for revenues derived from a property tax levy, the regular motor vehicle license tax fees, 100% of the fuel taxes and a portion of fines collected by the Miami County Municipal Court. Expenditures are restricted to road, bridge, ditch and storm sewer construction, maintenance and repairs.

Child Support Enforcement Agency Fund

This fund is used to account for fees collected for the administration of support enforcement activities.

Dog and Kennel Fund

This fund is used to account for fees collected for defraying the cost of administering the registration program, for compensation of the county dog wardens, deputy pound keepers and staff and for the payments of animal claims.

Shelter / Domestic Violence Fund

This fund is used to account for monies received from grant funds and the sale of marriage licenses and is maintained for the operation of the shelter and for providing assistance to victims of crime.

Youth Services Subsidy Fund

This fund is used to account for grant funds that are made to assist counties in developing or expanding prevention, diversion, diagnostic, counseling, treatment and rehabilitation programs for youth.

E-911 Emergency Operations Fund

This fund is for the deposit of the one percent (1%) sales tax and is intended to fund the operation of the Emergency 911 program.

Public Defender Fund

This fund receives grant funds and monies from various municipalities for services rendered and is used to fund the operation of the County Public Defender Commission.

Delinquent Tax Collection Fund

This fund accounts for five percent (5%) of all certified delinquent taxes and assessments collected by the County Treasurer. These funds are used for the collection of delinquent property taxes and assessments and are appropriated one half to the County Treasurer and one half to the County Prosecuting Attorney.

Special Revenue Funds

Real Estate Appraisal Fund

This fund receives money from the settlements for appraisals and reappraisals of real estate and is used to defray the costs of the appraisals.

Pre-Trial Services Fund

This fund is to account for screening services for defendants entering the Criminal Justice System that will establish release alternatives to better manage jail population through the Miami County Municipal Court System.

County Conservancy Fund

This fund is to account for funds collected for flood control purposes. The source of funding is a .02 mill property tax, which is only collected when determined to be necessary.

Community Based Corrections Act Fund

This fund is to account for an Intensive Supervision Probation Program through the Miami County Common Pleas Court for selected non-violent felony offenders as an alternative community sanction.

Super Cleanup Fund

This fund is used to account for funding from the permissive tax fund used for consulting fees, legal fees and any other expenses incurred in the cleanup of the incinerator landfill.

Emergency Management Agency Fund

This fund is used to further enhance emergency management activities in the areas of preparing response, litigation and recovery for Miami County.

Enforcement and Education Fund

This fund is used to account for state funds to develop a weekend treatment program.

Juvenile Detention / Rehabilitation Center Fund

This fund is to account for resources used for a new juvenile detention facility of Miami County.

County Probation Services Fund

This fund is to account for the collection of Municipal Court Probation fees from eligible probationers who participate in the intensive supervision program which electronically monitors their activity.

Recycle Grant Fund

This fund is to account for funding received from the Recycle Ohio Grant for the purpose of buying recycled products and the collection of litter by the court assigned community service clients.

Special Revenue Funds

Urban Mass Transportation Fund

This fund is used to account for federal and state funds for a transportation program designated to low income, disabled and mentally handicapped persons.

Community Development Block Grant Fund

This fund is used to account for grant funds obtained through the state and used to assist low income families in maintaining their property.

Children's Services Board Fund

This fund is to account for various Federal and State grants and reimbursements for the care and treatment of children in adoption programs and who do not receive the proper care at home.

Legal Research Fund

This fund is to account for revenues from fines to be used for funding the acquisition and maintenance of computerized legal research services.

One-Stop Shop Fund

This fund is to account for the administration of the One-Stop Shop, a combination of deputy registrar, auto title and other related services.

Law Enforcement Fund

This fund is to account for monies obtained through fines distributed to the County from drug related offenses or the sale and/or seizure of contraband, and is used to subsidize the County's law enforcement efforts.

Certificate of Title Administration Fund

This fund is to account for the administration of auto titles and other related services. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

County Recorder Equipment Fund

To account for revenues derived from the increase in recorder fees designated for the acquisition and/or maintenance of equipment for the County Recorder. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

Court Computerization Fund

To account for revenues from fines to be used for computers and updating court computer functions.

Dispute Resolution Fund

To account for revenues collected from fines to resolve civil disputes without court intervention.

Special Revenue Funds

Commissary Fund

To account for revenues received from sales to inmates, purchasing of merchandise and payments for inmate medical expenses. (The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balances are not presented because this fund is reported as part of the General Fund on a GAAP basis.)

Court Security Grant Fund

To account for grant funds received from the State to improve the security function of the courts.

Food Services Fund

To account for grant funds received from federal sources to provide food services to the David L. Brown Youth Center, the Juvenile Detention Center and the County Jail.

Common Pleas Court - Special Projects Fund

To account for revenues from court costs for the purpose of Guardian Ad Litem for indigent parents and Helping Children Succeed after Divorce Program.

Sheriff's Juvenile Safety Trust Fund

To account for revenues from individuals and expenditures for assisting juveniles within Miami County.

Municipal Court Restitution Fund

This fund is used to track court ordered restitution payments made to individuals.

Children's Services Trust Fund

To account for donations held in trust by the County. Expenditures are restricted by the terms of the trust to provide for the care and feeding of children.

D.A.R.E. Trust Fund

To account for revenues from contributions of gift and donations from individuals. Expenditures are restricted to the purchase of teaching supplies and D.A.R.E. related materials.

Debt Service Funds

Debt Service Funds are used to account for retirement of the County's general obligation and special assessment bonds other than those financed by proprietary funds.

General Obligation Debt Fund

To account for payment of principal and interest on debt for certain County buildings.

Special Assessment Debt Fund

To account for special assessments used for the payment of principal and interest on special assessment debt (with governmental commitment).

Capital Projects Funds

The Capital Projects Funds are used to account for the financial resources used for the acquisition or construction of major capital facilities other than those financed by proprietary or trust funds.

Sewer System Improvement Fund

To account for financial resources used to construct, repair and maintain sewers.

Health Care Improvement Fund

To account for the financial resources from the sale of the Health Care Center.

Emergency 911 Facility Construction Fund

To account for financial resources used for the construction of the Emergency 911 facility.

Ditch Construction Fund

To account for the special assessments used for the construction of various drainage projects throughout the County.

Fiduciary Funds

Fiduciary fund types are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

Agency Funds

Payroll Deductions Fund

To maintain and account for the accumulation of payroll withholdings until payment is remitted to third parties.

Workers' Compensation Fund

To maintain and account for the accumulation of workers' compensation premiums from various County departments and other agencies and the disbursement of same to the Ohio Bureau of Workers' Compensation.

Local Government Fund

To maintain and account for the accumulation and disbursement of state revenue sharing monies.

Auto Registration Fund

To maintain and account for the accumulation and disbursement of automobile license and registration fee collections.

Township Gas Fund

To maintain and account for the accumulation and disbursement of gasoline tax collections.

Cigarette Tax Fund

To maintain and account for the accumulation and disbursement of cigarette tax collections.

Special Emergency Planning Fund

To maintain and account for the accumulation and disbursement of reimbursements from the state for expenses incurred for emergency planning.

Inheritance Tax Fund

To maintain and account for the accumulation and disbursement of inheritance tax collections.

(Continued)

Agency Funds

Undivided Tax Settlement Fund

To maintain and account for the accumulation and disbursement of property tax collections.

Special Assessment Collection Fund

To maintain and account for the accumulation and disbursement of special assessments.

Tri-County Board Fund

To maintain and account for the accumulation and disbursement of resources for the Tri-County Board of Recovery and Mental Health Services.

County Court Agency Fund

To maintain and account for the accumulation and disbursement of court fees and fines.

General County Agency Fund

To maintain and account for the accumulation and disbursement of County fees and other similar resources and uses.

Other County Agencies Fund

To maintain and account for research, fees, licenses, donations and other similar resources and uses.

Hotel and Motel Lodging Tax Fund

To maintain and account for the accumulation and disbursement of hotel and motel tax collections.

State Board of Building Standards Fund

To account for funds from the three percent (3%) fees as required by Ohio Revised Code.

STATISTICAL

STATISTICAL TABLES

This part of the County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the county's overall financial health.

Contents

| omens | |
|---|-------------|
| Financial Trends These schedules contain trend information to help the reader understand how the county's financial position has changed over time. | S 2 – S 13 |
| Revenue Capacity These schedules contain information to help the reader understand and assess the factors affecting the county's ability to generate its most significant local revenue sources, the property tax and the sales tax. | S 14 – S 23 |
| Debt Capacity These schedules present information to help the reader assess the affordability of the county's current levels of outstanding debt and the county's ability to issue additional debt in the future. | S 24 – S 31 |
| Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand the environment within which the county's financial activities take place and to provide information that facilitates comparisons of financial information over time and among governments. | S 32 – S 35 |
| Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the county's financial report relates to the services the county provides and the activities it performs. | S 36 – S 49 |
| Sources Note: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The county | |

Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The county implemented GASB Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.
