NOTES TO THE FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED JUNE 30, 2012

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards of Receipts and Expenditures Schedule (the Schedule) summarizes activity of the District's federal award programs. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

Cash receipts from the U.S. Department of Agriculture are commingled with State grants. It is assumed federal monies are expended first. Program regulations do not require the District to maintain separate inventory records for purchased food and food received from the U.S. Department of Agriculture. This non-monetary assistance (expenditures) is reported in the Schedule at the fair value amount of the commodities received.

NOTE C - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

New Albany Plain Local School District Franklin County 55 North High Street New Albany, Ohio 43054

To the Board of Education:

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of New Albany Plain Local School District, Franklin County, Ohio (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' Government Auditing Standards.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

New Albany Plain Local School District Franklin County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated December 18, 2012.

We intend this report solely for the information and use of the Management, Board of Education, and federal awarding agencies, pass-through entities and others within the District. We intend it for no one other than these specified parties.

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133 AND ON THE
FEDERAL AWARDS OF RECEIPTS AND EXPENDITURES SCHEDULE

New Albany Plain Local School District Franklin County 55 North High Street New Albany, Ohio 43054

To the Board of Education:

Compliance

We have audited the compliance of New Albany Plain Local School District (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of New Albany Local School District's major federal programs for the year ended June 30, 2012. The *summary of auditor's results* section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to opine on the District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with those requirements.

In our opinion, the New Albany Plain Local School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2012.

Internal Control over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Federal Awards of Receipts and Expenditures Schedule

We have also audited and issued our unqualified opinion on the basic financial statements of the governmental activities, each major fund and the aggregate remaining fund information of New Albany Plain Local School District (the District) as of and for the year ended June 30, 2012, and have issued our report thereon dated December 18, 2012. Our audit was performed to form opinions on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The accompanying Federal Awards of Receipts and Expenditures Schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

We intend this report solely for the information and use of the, Management, Board of Education, federal awarding agencies, pass-through entities and others within the District. It is not intended for anyone other than these specified parties.

NEW ALBANY-PLAIN LOCAL SCHOOLS

December 18, 2012

To the Citizens and Board of Education of the New Albany-Plain Local School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the New Albany-Plain Local School District (the "District"). This CAFR, which includes an unqualified opinion from the Auditor of State of Ohio, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with District's management. To the best of our knowledge and belief, this CAFR and the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditors' Report.

This report includes all funds of the District. The District provides a full range of traditional educational programs, services and facilities. These include elementary and secondary curriculum at the general, college preparatory and vocational levels, a broad range of co-curricular and extracurricular activities, special education programs and facilities.

In addition to providing these general activities the District has administrative responsibility for state funds distributed to Columbus Jewish Day School a private school located within the District boundaries. In accordance with GASB Statement 24, this responsibility is included in the reporting entity as a special revenue fund. While this organization shares operational and service similarity with the District, all are separate and distinct entities. Because of their independent nature, this organization's financial statements are not included in this report.

The Board of Education (the "Board") of the District is composed of five members elected at large by the citizens of the District. The Board serves as the taxing authority, contracting body, and policy initiator for the operation of the District. The Board is responsible for the adoption of the tax budget, the annual operating budget and the approval of all expenditures of the District. The Board is a body politic and corporate, as defined by Section 3313.02 of the Ohio Revised Code, and has only those powers and authority conferred upon it by the Code.

Profile of the School District

The New Albany-Plain Local Schools (NAPLS) is located 20 miles northeast of downtown Columbus, in the beautiful Village of New Albany. The school district serves approximately 4,426 students, kindergarten through twelfth grade, and covers an area of 23 square miles, including the Village of New Albany, Plain Township, and neighborhoods within a small portion of the City of Columbus. NAPLS features a unique learning environment for its students, with all of its schools and support facilities located on an 80-acre college-style campus. The schools are designed in a Georgian architectural style, connected by tree-lined walkways and surrounded by a 120-acre nature preserve. From the "Jeffersonian-style" Library-Information Center to the Environmental Land Lab and high-tech classrooms, the learning environment is as unique as it is functional, creating outstanding educational opportunities for its students.

The District has a clearly defined vision, mission, promise, beliefs, objectives and parameters:

District Vision

To become the leader in reinventing education.

District Mission

To ensure the development of high-achieving, ethical, self-directed, and intellectually curious citizens of the world.

District Promise

To provide a culture that encourages students to pursue and realize their dreams and aspirations through passionate, inspired teaching and learning and personalized programs and services accomplished in collaboration with our entire community.

District Beliefs

- A commitment to excellence is crucial to becoming our best.
- Diversity strengthens and enriches our communities.
- Integrity is essential to successful relationships.
- Intellectual curiosity develops life-long learners who are prepared for a changing world.
- Service to others creates a caring and compassionate community.
- Stewardship of the environment is vital to preserve it for future generations.
- Intellectual, social, emotional, and physical balance is necessary to achieve well-being.
- Dreams are opportunities that inspire creativity, innovation, and achievement.
- Collaboration strengthens our schools and communities.
- Open and honest communication is critical to effective relationships.
- Celebrating success instills pride and confidence and inspires future success.

District Objectives

- 100% of our students will have the knowledge and skills to identify and meet real-life challenges.
- 100% of our students will have the awareness and competence to succeed in a global society.
- 100% of our students will have the skills to achieve their aspirations.
- 100% of our students will be self-directed learners.
- 100% of our students will be ethical, informed, and engaged citizens.
- 100% of our students will have a life-long passion for learning.

District Parameters for Decision-Making

- Excellence is always expected.
- We will always support innovation that enhances the performance of our students and staff.

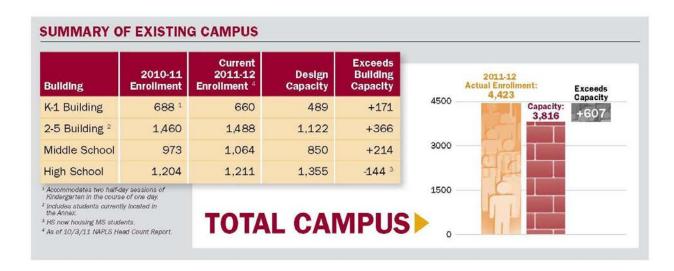

NAPLS has set a goal to become one of the nation's top-performing school districts and it continues to build a legacy as one of Ohio's most respected school districts. All of the district's schools have earned an "Excellent" rating on their State of Ohio Report Cards, and the district has earned the state's top rating for ten consecutive years. New Albany-Plain Local Schools has been recognized not only at the state level, but at the national level as well. NAPLS is one of the few districts in the nation with all of its schools having earned "Blue Ribbon" status from the U.S. Department of Education. In addition to providing challenging academic offerings for all students, NAPLS prides itself on the wide array of opportunities for students to benefit from team and personal success, including athletics, performing arts, and club activities. Nearly all of the district's high school students belong to a club or organization, and 67% of the students also participate in athletics or the performing arts. One of the primary measures of a school district's success is how well students are prepared for life after graduating high school. Ninety-five percent of the district's graduates attend college, with eighty-seven percent of those attending four-year colleges or universities, including some of the nation's most prestigious institutions.

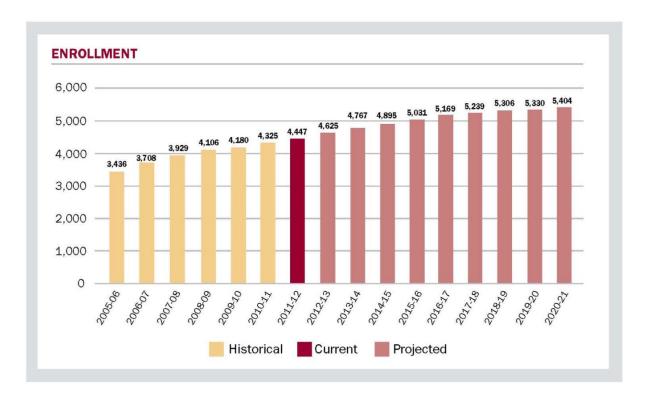

The successes that have been realized by NAPLS are a result of the unique partnership that has been formed on the part of the school district and the entire learning community. This partnership has yielded benefits for not only today's students, but for generations to come.

Enrollment

The District's enrollment for FY12 was 4,426 as compared with 4,324 for FY11. With the exception of the high school building, every school in the district is exceeding its design capacity. Enrollment continues to grow at a record pace, anticipating more than 4,600 students being served in FY13 in space that was designed to accommodate slightly more than 3,800 students. Nearly every available space is being utilized to accommodate the overcrowding. Entryways and storage areas have been converted into classrooms, students are being relocated to other buildings, classrooms are being shared with multiple teachers, temporary portable classrooms are being utilized, class sizes have increased, and the 1925 Building has been reclaimed to provide additional classroom space.

The District's enrollment is based on average daily attendance figures and does not include students living within the District's attendance area who attend charter or private schools. The daily average enrollments for past school years, together with projected enrollments for future school years, are shown below.

Economic Condition and Outlook

The District, along with many other public schools in the state, relies heavily on local property tax as a primary source of funds. Ohio law limits the growth in real estate revenues by reducing millage as assessed values increase following re-appraisals. Consequently, revenues generated from each levy remain relatively constant. As a result, the District must periodically seek additional funding from its taxpaying constituents.

The State of Ohio, in response to the economic downturn, changed funding for public school districts. The Ohio Legislature biennial budget for 2012 and 2013 included a "Bridge" funding calculation. This funding legislation is intended to be a bridge to a completely new funding formula. This will be the second major redesign of school funding in Ohio since fiscal year 2010. The District is receiving approximately \$130,000 less per year under the "Bridge" funding legislation.

In 2011-2012, the district was 500 students over capacity, with 400 students educated in temporary or reclaimed classroom space. The district has now welcomed 200 additional students for the fall of 2012 – a total of 700 over capacity. Current projections indicate continued growth resulting in 1,000 additional students by 2021. While enrollment has continued to grow the district has lost revenue, lost tangible personal property tax and has not been on the ballot since 2008.

Working with community members of the Facility Advisory and Finance Review Committees, the District has identified a financial philosophy and goals.

Financial Philosophy and Goals

- The district's mission and vision are the objective of all financial activity
- The district is focused on ongoing cost containment while student enrollment grows and innovation accelerates.
- The district will continue to seek outside Local, State and Federal grants to supplement programs and educational initiatives.
- The district is committed to maintaining strong fund balances to avoid adverse educational impact and reduction in services.
- Financial Goals
 - o Designated funds for innovation and professional development
 - Designated funds for capital expenses previously funded thru a Permanent Improvement levy
 - Seek a bond levy for a new building to adequately address overcrowding and projected enrollment increases
 - o Seek an operation levy to address increased number of students and stagnant revenue

The District has identified both short term (cost containment) and long term (bond and operating levy) initiatives.

Cost Containment

- Reduced the FY12 budget by 2.6 million
 - o Reduced % for wage and step increases FY11-FY14
 - o Administrative pay freeze
 - o Staff pay increased costs for health care and cap rate of growth
 - o Changed expected new hires from 13 to 1
 - o Cost savings and budget reductions in buildings and departments
- Total cost containment in FY12 = 3.2 Million
- Cost Containment Initiatives for FY13
 - o Restructured leadership team to provide additional support for staff evaluation at cost savings
 - o Outsource Substitute Payroll
 - o Blended Learning Grant and Martha Holden Jennings Grant

Long-term Financial Planning

The financial forecast of General Fund operations for the next five years assumes that the District's fiscal year 2013 ending General Fund cash balance will be approximately \$14.1 million with declining balances thereafter.

The projected declining General Fund cash balance is a reflection of the challenge of Ohio school district financing and the impact of the economic downturn. The District has had reductions in state funding for the last three years. Approximately 14% of the total operating revenue is from state funding sources.

Bond and Operating Levy

The District's combined bond issue and operating levy request is on the Nov. 6, 2012 ballot. This issue would be used to add more classroom space and prevent a deficit in fiscal year 2015. The 2.59-mill bond issue would generate \$45.1 million and the 4.24-mill continuous operating levy would generate \$3.51 million. The bond issue would pay for a new non-grade specific building for 1,200 students; it includes \$11.4 million budgeted for site improvements.

If approved, Issue 50 would cost property owners \$209.24 per year -- about \$130 for the levy and \$79 for the bond issue -- per \$100,000 of assessed property value. The owner of a home valued at \$400,000, for example, would pay about \$837 per year in additional property taxes for the bond and levy.

The levies include:

- A plan to build a flexible, innovative space for 1,200 students and provide enhanced learning opportunities for up to 400 high school students. These opportunities are expected to take the district to 2021.
- Operating funds to accelerate the district's progress toward innovation and higher student achievement.

Community Economic Outlook

New Albany is poised for continued growth. Strategically located along the recently improved and expanded State Route 161, New Albany is within 3 minutes of the I-270 outerbelt in the northeast quadrant of the greater Columbus metropolitan area..

The City of New Albany continues to implement the balanced growth principles outlined in their strategic land use and economic development plans. The City also implemented a new three-year technology driven economic development strategy: Innovate New Albany. The largest corporate office attraction project in 2011 was Bob Evans Farms (NASDAQ:BOBE). The company plans to begin construction on a 75,000 square foot corporate office and product development center in early 2012. The project is expected to generate 400 new jobs for the City.

Income Tax Sharing

As a result of a partnership between the City of New Albany and the District, income tax is shared to offset property tax abatement incentives to companies. These abatements are provided for up to fifteen (15) years of up to 100% real property tax abatements.

MAJOR INITIATIVES AND ACCOMPLISHMENTS

Accomplishments for Fiscal Year 2012

The District has aggressively identified areas to reduce expenses without sacrificing direct services to students. The District's goal has been to keep reductions away from the classroom. The purpose is to maintain the outstanding quality of the District's educational program.

Over three million dollars in budget savings resulted thru focused budget review, negotiations, staff restructuring and implementation by the Board of Education, administration, staff and community Finance Review Committee. As a result of these initiatives the District's General Fund cash basis expenses overall increased at a less than one percent.

Financial

The District will apply to receive the Certificate of Excellence in Financial Reporting for its fiscal year 2012 CAFR.

2011- 2012 District Accomplishments & Highlights:

Benchmarking Initiative

In the quest to become national leaders in reinventing education, NAPLS began an effort in 2009 to strategically plan for the future. Through the generous sponsorship and support of Corna Kokosing and the New Albany Community Foundation the district was able to launch a benchmarking study to seek out the best public school systems in the nation. The search led the District to Minnetonka, Minnesota. NAPLS formed a committee to lead this effort, the Benchmarking Advisory Board, and together engaged in dialogue and discussion regarding vision and mission. The District explored and considered innovative schools, businesses and professional readings to inform our work. The District now has a completed product that is available for public review.

Through the extensive work and data analysis process in the Benchmarking study, six key themes emerged from the Minnetonka Public Schools:

- Theme 1 The needs of every student are at the center of all decisions, and multiple opportunities and supports are provided to prepare students for global citizenship in the 21st century.
- Theme 2: The district has created a culture of high expectations, rigor, and intellectual inquiry for both students and staff.
- Theme 3: A visionary, forward-thinking commitment to innovation is powered by research and data and serves as a constant force for growth.
- Theme 4: Clear alignment and unity of purpose result from strong leadership at all levels championing the vision and focusing on the district strategic plan.
- Theme 5: Mutually supportive relationships, active community involvement, and public recognition and celebration foster a deep sense of pride and commitment.
- Theme 6: Communication with both internal and external groups is an ongoing, engaged, two-way dialogue that is listening, learning, and growth-minded.

Each of the six key themes described above illustrate best practices that are informative for New Albany as the District strives to continue improving educational opportunities for all of our students.

Through benchmarking, the district has learned a great deal. The knowledge will enable the New Albany-Plain Local School District to continue to strive for national recognition. By using the results in accountability from the state, the district will lead the discussion on aligning the curriculum with national and international standards. The district is ahead of the curve in regards to the increase in rigor for all students, the implementation of the common core and the preparation of students for the future of assessments. The District looks forward to launching international benchmarking research in January 2013.

Criteria for this ranking considers six components: graduation rate, college matriculation rate, AP tests taken per graduate, average SAT/ACT scores, average AP/IB scores, and AP courses offered per graduate.

New Albany High School receives \$130K Blended Learning Grant from eTech Ohio

- Awarded to New Albany High School from e-Tech Ohio.
- \$80,000 grant for the development of new blended learning programs. The school will receive an additional \$50,000 in fiscal year 2013 for the continuation of successful projects.
- The grant will provide funding for an innovative blended program, Project **RISE**, to extend learning opportunities for students in New Albany High School.
- One of only seven Ohio schools to receive a development grant, which were awarded to
 individual school buildings without an existing model of blended learning. Funds were awarded
 to selected schools through a competitive application process open to all Ohio public schools and
 consortia.

New Albany High School students and teacher featured in the July 8, 2012 New York Times

• When Alex Wright of the *New York Times* called New Albany-Plain Local Schools back in March 2012, he was researching the use of robots in theater. He discovered that New Albany High School was doing pioneering work alongside a handful of college programs. The resulting story appeared on the *New York Times* website on July 5th, with a print version planned for Sunday, July 8th.

"Tracking is Science" grant to provide technology for new STEM Expeditions class

- New Albany-Plain Local School District was awarded a \$4,934 grant from the Ohio Environmental Education Fund. The "Tracking Is Science" grant will fund the purchase of PC Tablets and GPS Binoculars for student use in collecting data while in the field this summer.
- Students, parents and community members participating in this summer's STEM Expeditions class "Geology, Wildlife Tracking and Digital Photography" will initially use the equipment as they work to identify mammal species in Ohio and Oregon. They will use the equipment again as they continue their research and travel to Africa during summer 2013.

Former Secretary of State Condoleezza Rice Visit to New Albany High School

- Students from New Albany High School and others invited from surrounding districts had an opportunity to experience history through the eyes of former National Security Advisory and Secretary of State Condoleezza Rice as she lectured at the Jeanne B. McCoy Community Center for the Arts on November 17. The New Albany Community Foundation has made this student event possible as part of the Foundation's A Remarkable Evening annual fundraiser, featuring Dr. Rice.
- The event brought together more than 750 students in grades 11 and 12 from Columbus Public Schools including: Columbus Africentric, Centennial, Mifflin, Northland & West High School, Columbus Academy, and Columbus School for Girls, Johnstown, Licking Heights, New Albany and The Wellington School.

Exclusive visit from National Parks Director, Jonathan Jarvis to New Albany Middle School

- The director of the National Parks Service, Jonathan B. Jarvis, made an exclusive visit to New Albany Middle School, Friday, May 4, 2012. Director Jarvis met with eighth grade students who prepared science projects based on National Parks. He also announced a special park visit funded by the National Park Foundation for the entire class of 2016!
- Students presented and displayed creative and practical projects to Director Jarvis. The students and director also discussed the types of activities in national parks that appeal to young people and way they National Park Service can help reconnect kids and nature.

Real-world learning through innovation experienced by New Albany High School Students in Summer Internship Program

• Through collaboration with the US Air Force Discovery Lab in the summer of 2012, an extremely successful 5-student team completed a five-week PAID internship. Their virtual search-and-rescue scenario involved controlling a robot - anywhere on the planet - from an Android smart phone application that they created. This includes the ability to see what the robot sees, and observe the robot's movements in a virtual world environment. Dr. Rob Williams, Director of the project for the Air Force, was so pleased with their work he offered all five students paid internships for next summer, and has offered the same opportunity to a new cohort of students this year. There are already 23 students interested in participating.

All of the accomplishments and highlights are favorable signs that place the district in a great position for the future. In order to keep momentum, the district will begin to look for ways to align to national and international standards, continue to improve the district student community culture, create new systems of teacher evaluation, expand international studies and improve communications with all stakeholders. This is all part of the district mission for every student to be high achieving, ethical, self-directed, intellectually curious citizens of the world.

Future Initiatives

- Implementation of Mandarin Chinese for all first grade classes, select middle school offerings and an extended after school opportunity for students in all grades.
 - o Began in the fall of 2012 after a summer pilot program.
 - At the first grade level, this is a class that students will have one block per week that fits in the students schedule rotation in addition to art, music, physical education and library.
 - o The after school offerings are at capacity with 125 students enrolled.

• Launch of the Bring Your Learning Technology

- Launched in the fall of 2012 a district initiative that brings policy in line with the fact that students, parents, and teachers bring hundreds of electronic devices on campus each day.
- o A policy change that recognizes the tremendous educational added value of online electronic content which is available anytime, anyplace.
- Clears the way for students, parents, teachers, and the community to establish a culture of Digital Citizenship with clear expectations about how we should all behave in a digital society.

• Artificial Turf Donation

Through the generous support of a community-led campaign, the necessary funds have been raised privately to transform the District's Eagle Stadium playing surface from grass to artificial turf. The field will be named upon completion as 'Veterans' Field to honor our military.

FINANCIAL POLICIES AND INFORMATION

The District courses of study will continue to be revised and periodically updated to provide students with instruction that is closely correlated with the State's academic content standards. To support the effective implementation of the new courses of study, additional financial resources will be needed to train teachers and to provide students with current learning materials and equipment.

Internal Controls

The management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

Budgetary Controls

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the certificate of estimated resources, and the appropriations resolution, both of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified. All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control required by Ohio Revised Code is at the fund level. The level of budgetary control imposed by the District (the level at which expenditures cannot legally exceed the appropriated amount) is established at the fund level for all funds. Any budgetary modifications at these levels may only be made by resolution of the Board of Education. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts at year-end are carried forward to succeeding years and are not re-appropriated.

Risk Management

The District is enrolled in a group purchasing program for worker's compensation. In this plan, the individual premium rate is calculated based on the worker's compensation experience of the District. Additionally, the District carries all-risk property insurance on buildings and contents, fleet insurance on all rolling stock, liability and excess liability insurance coverage as well as officers' liability insurance, employee benefits liability, and workers' compensation intentional acts defense coverage. All employees are covered by the District's blanket bond, and medical coverage for employees is provided through a conventional healthcare plan.

Cash Management

Cash temporarily idle during the year was invested in demand deposits, certificates of deposit, agency funds, commercial paper and State Treasury Asset Reserve of Ohio (STAR Ohio).

Independent Audit

Office of Management and Budget Circular A-133 requires an annual audit by independent accountants. The Auditor of State of Ohio conducted the District's fiscal year 2011 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Federal Single Audit Act Amendments of 1996 and related OMB Circular A-133. The Independent Auditors' Report on the basic financial statements is included in the financial section of this report.

Acknowledgements

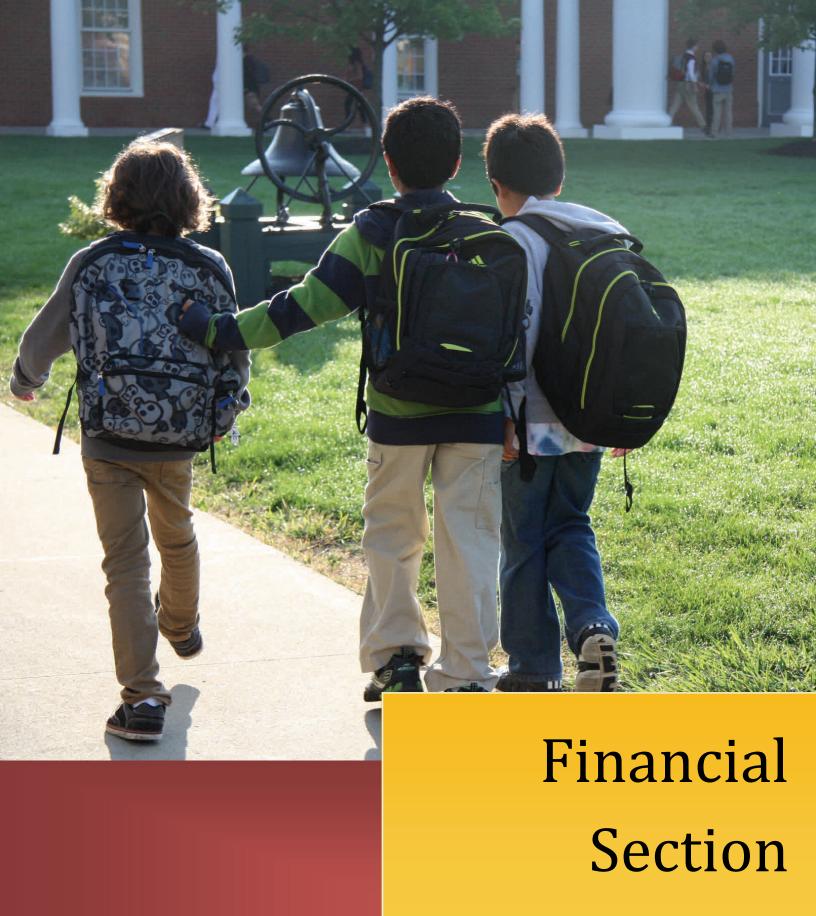

This report has been compiled and prepared by the Treasurer's office. Special acknowledgement is given to the Superintendent of Schools and the New Albany-Plain Board of Education for their leadership and commitment to the students, staff and community of the New Albany-Plain Local School District.

INDEPENDENT ACCOUNTANTS' REPORT

New Albany Plain Local School District Franklin County 55 North High Street New Albany, Ohio 43054

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of New Albany Plain Local School District, Franklin County, Ohio (the District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of New Albany Plain Local School District, Franklin County, Ohio, as of June 30, 2012, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2012, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

New Albany Plain Local School District Franklin County Independent Accountants' Report Page 2

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis and required budgetary comparison schedule as* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provide additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012 UNAUDITED

As management of the New Albany-Plain Local School District (the District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with the District's basic financial statements, which follow this section.

Financial Highlights

Key financial highlights for 2012 are as follows:

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$31.4 million (net assets). Of this amount, \$18.5 million (unrestricted net assets) may be used to meet the District's ongoing obligations to citizens and creditors.
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$35.8 million, a decrease of \$1.5 million in comparison with the prior fiscal year. Of this amount, \$24.2 million is available for spending at the District's discretion (unassigned fund balance).
- At the end of the current fiscal year, unassigned balance for the general fund was \$24,2 million, or 48.1% of total general fund expenditures.
- ➤ The District's total general obligation bonded debt decreased \$4.1 million, or 4.9%, in comparison with the prior fiscal year.

Overview of the Financial Statements

The Statement of Net Assets and Statement of Activities:

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year activities?" The Statement of Net Assets and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector corporations. All of the current year revenues and expenses are taken into consideration regardless of when cash is received or paid.

These two statements report the District's net assets and changes in them. The change in net assets provides the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012 UNAUDITED

Reporting the District's Most Significant Funds

Fund Financial Statements:

Our analysis of the District's major funds appears on the fund financial statements beginning with the Balance Sheet-Governmental Funds and the Statement of Revenues, Expenditures and Changes in Fund Balances. These statements provide detailed information about the most significant funds—not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's two types of funds, governmental and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

Governmental Funds:

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

Fiduciary Fund:

The District's only Fiduciary Fund is a Student Managed Activities Agency Fund. The District's fiduciary activities are reported in the Statement of Fiduciary Assets and Liabilities. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$31.4 million according to the Statement of Net Assets at the close of the most recent fiscal year.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012 UNAUDITED

A comparative analysis of fiscal year 2012 to 2011 follows from the Statements of Net Assets:

Net Assets

| | Governmental Activities | | | | | |
|----------------------------|-------------------------|-------------|----|-------------|--|--|
| | | | | Restated | | |
| | | 2012 | | 2011 | | |
| Assets | <u> </u> | | | | | |
| Current and Other Assets | \$ | 72,696,243 | \$ | 74,277,274 | | |
| Capital Assets | | 74,862,049 | | 78,686,609 | | |
| Total Assets | | 147,558,292 | | 152,963,883 | | |
| Current Liabilities | | 34,651,614 | | 35,954,352 | | |
| Long-term Liabilities | | 81,542,374 | | 85,405,208 | | |
| | | | | | | |
| Total Liabilities | | 116,193,988 | | 121,359,560 | | |
| Invested in Capital Assets | | | | | | |
| net of related debt | | 3,001,709 | | 3,807,408 | | |
| Restricted | | 9,858,872 | | 6,462,556 | | |
| Unrestricted | | 18,503,723 | | 21,334,359 | | |
| Total Net Assets | \$ | 31,364,304 | \$ | 31,604,323 | | |

The District's Current and Other Assets decreased primarily as a result of an decrease in Cash and Cash Equivalents. Capital Assets decreased approximately \$3.8 million during the fiscal year. This decrease represents the amount by which current year depreciation and disposals exceeded current year additions.

Long-term liabilities also decreased from fiscal year 2011. This decrease represents the amount in which current year principal reductions exceeded new debt issued.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012 UNAUDITED

The table below shows the change in net assets for fiscal year 2012 and 2011:

Change in Net Assets

| Ü | Governmental Activities | | | | |
|--|-------------------------|------------|----------|-------------|--|
| | | | Restated | | |
| | | 2012 | 2011 | | |
| Program Revenues | | | | | |

| Interest and Fiscal Charges | | 3,198,725 | | 4,745,676 | |
| Total Expenses | | 61,207,180 | | 63,167,209 | |
| Change in Net Assets | | (240,019) | | (3,432,436) | |
| Net Assets at Beginning of Year | | 31,604,323 | | 35,036,759 | |
| Net Assets at End of Year | \$ | 31,364,304 | \$ | 31,604,323 | |

Operating Grants and Contributions decreased from fiscal year 2011 as a result of specific state funded revenues (transportation, special education, etc.) that were identifiable in fiscal year 2011 not being identifiable for the current year. In fiscal year 2012, these revenues were classified as General Revenues - Grants and Entitlements. Operating Grants and Contributions and Grants and Entitlement combined increased 4.4 percent during the fiscal year.

Total expenses decreased from fiscal year 2011 primarily due a decrease in the amount of interest payments on outstanding debt.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012 UNAUDITED

The property tax laws in Ohio create the need periodically to seek voter approval for additional operating funds. Tax revenues generated from voted tax levies do not increase as a result of inflation. An operating levy is approved for a fixed millage rate, but the rate is reduced for inflation with the effect of providing the District the same amount of tax dollars as originally approved. Therefore, school districts such as ours that are dependent upon property taxes as a primary source of revenue must periodically return to the ballot and ask voters for additional resources to maintain current programs. Since the District must rely heavily on voter approval of operating tax issues, management of the resources is of paramount concern to the District's administration and the voting public.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. General revenues including tax revenue, investment earnings, and unrestricted State entitlements must support the net cost of program services.

| | Total Cost of | Total Cost of | Net Cost of | Net Cost of | |
|-----------------------------|---------------|---------------|---------------|---------------|--|
| | 2012 Services | 2011 Services | 2012 Services | 2011 Services | |
| Governmental Activities | | | | | |
| Instructional | 32,700,108 | 34,228,082 | \$ 31,121,440 | \$ 32,564,608 | |
| Support Services | 22,875,616 | 21,891,253 | 20,899,573 | 20,930,896 | |
| Community Services | 274,970 | 207,908 | 201,914 | 110,422 | |
| Co-curricular Activities | 2,157,761 | 2,094,290 | 1,712,611 | 1,557,337 | |
| Interest and Fiscal Charges | 3,198,725 | 4,745,676 | 3,198,725 | 4,745,676 | |
| Total | \$ 61,207,180 | \$ 63,167,209 | \$ 57,134,263 | \$ 59,908,939 | |

Local property taxes make up 72.8 percent of total revenues for governmental activities. The net services column reflecting the need for \$57.1 million of support indicates the reliance on general revenues to support governmental activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012 UNAUDITED

The District's Funds

The District's governmental funds reported a combined fund balance of \$35.8 million, which represents a decrease of \$1.5 million as compared to last year's total of \$37.2 million according to the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances. The schedule below shows the fund balance and the total change in fund balance from June 30, 2012 to 2011.

| Funds: | Fund Balance June 30, 2012 | Fund Balance June 30, 2011 | Increase/ (Decrease) |
|--------------------|----------------------------|----------------------------|----------------------|
| General | 25,681,180 | 27,370,939 | (1,689,759) |
| Debt Service | 7,285,473 | 6,677,500 | 607,973 |
| Other Governmental | 2,794,413 | 3,181,964 | (387,551) |
| Total | 35,761,066 | 37,230,403 | (1,469,337) |

General Fund

The general fund is the chief operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$24.2 million, while total fund balance was \$25.7 million. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 48.1 percent of total general fund expenditures, while total fund balance represents 51.2 percent of that same amount.

The fund balance of the District's general fund decreased by \$1.7 million during the current fiscal year primarily due to the District's student instruction and support services expenditures exceeded state and local funding.

The table that follows assists in illustrating the revenues of the general fund.

| | 2012 | 2011 | Change |
|-------------------------------------|------------------|------------------|--------|
| Revenues: | | | |
| Taxes and Payments in Lieu of Taxes | \$ 40,742,968 | \$ 41,376,063 | -1.5% |
| Interest Earnings | 33,548 | 71,386 | -53.0% |

| Other Revenue | 1,135,715 | 1,258,331 | -9.7% |
| Total Revenues | \$ 48,807,070 | \$ 50,274,366 | -2.9% |

Revenues decreased 2.9 percent primarily due to an overall decrease in revenues, while expenditures increased .6 percent over the prior year. Support service expenditures increased primarily due to the increased costs associated with the operation and maintenance of the District's buildings.

Other Funds

Other governmental funds consist of Special Revenue and other Capital Projects funds. Fund balance in these funds decreased by \$387,551 primarily due to the loss in federal stimulus funding.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2012 UNAUDITED

General Fund Budgetary Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the general fund. Budgetary information is presented only for the general fund in the financial statements.

The District's final estimated revenues and other financing sources budgeted amounts were decreased by \$674,385, compared to the original amounts. The District's final appropriations and other financing uses budgeted amounts were decreased by \$17.0 million, compared to the original amounts. There were no variances between final estimated receipts and actual receipts and final appropriations and actual disbursements uses.

Debt Administration

At fiscal year-end, the District's debt totaled \$79.0 million, a decrease of \$4.1 million in comparison with the prior fiscal year. This decrease represents the amount in which current year principal reductions totaling \$37.8 million exceeded new debt issued, totaling \$33.6 million.

See note 7 to the basic financial statements for additional information on long-term obligations.

Capital Assets

At fiscal year-end, the District had \$74.9 million (net of accumulated depreciation) invested in land, land improvements. buildings and improvements, equipment and fixtures, vehicles, and vehicles, a decrease of \$3.8 million in comparison with the prior fiscal year. This decrease represents the amount in which current year depreciation of \$4.2 million exceeded current year additions of \$359,160.

See note 6 to the basic financial statements for additional information on Capital Assets.

Request for Information

This financial report is designed to provide our citizen's, taxpayers, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the funds.

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 1 – DESCRIPTION OF THE SCHOOL DISTRICT

The New Albany-Plain Local School District, (the District), is a body politic and corporate established, for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a local district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under an elected Board of Education (5 members) and is responsible for the provision for public education to residents of the District.

Average daily membership (ADM) reported for fiscal year 2012 was 4,426. The District employed 350 certified employees and 223 non-certificated employees. The District co-operates with the Educational Service Center of Central Ohio, a separate entity, for curricular services.

The District provides regular and special instruction. The District also provides support services for the pupils, instructional staff, general and school administration, business and fiscal services, facilities acquisitions and construction services, operation and maintenance of plant, student transportation, food services, extracurricular activities, and non-programmed services.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No.14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units". The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. The District had no component units for the fiscal year ended June 30, 2012.

The District is also associated with three jointly governed organizations, an insurance purchasing pool, a related organization, and a joint operation. These organizations include the Metropolitan Education Council, the Eastland Vocational School District, the New Albany-Plain Local Joint Park District, the Ohio School Boards Association Workers' Compensation Group Rating Plan, the Joint Growth Community Action Committee, and the New Albany Performing Arts Center. These organizations are presented in Notes 13, 14, 15 and 16 to the basic financial statements.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

B. Government-wide and fund financial statements

The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements usually distinguish between those activities of the District that are governmental (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). The District, however, has no business-type activities.

The statement of net assets presents the financial condition of the governmental activities of the District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department, and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

Fund Financial Statements – During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

Fund Accounting:

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The following are descriptions of the District's major governmental funds:

General Fund – The general fund is the operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Bond Retirement Fund – The bond retirement fund is used to account for the accumulation of resources for, and the payment of, bond principal, interest, and related costs.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Fund Types – Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service. The District has no proprietary funds.

Fiduciary Fund Type – Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications; pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and therefore not available to support the District's own programs. The District does not have any trust funds. Agency funds are custodial in nature (assets equals liabilities) and do not involve measurement of results of operations. The District's agency funds account for student activities.

C. Measurement Focus, basis of accounting and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Governmental funds use the modified accrual basis of accounting. Differences in accrual and modified accrual basis of accounting arise in the recognition of revenue, recording of deferred revenues, and presentation of expenditures and expenses.

Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 4). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Deferred/Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2012, but which were levied to finance fiscal year 2013 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Tuition, grants, fees, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

D. Cash and Investments

To improve cash management, all cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this account or temporarily used to purchase short-term investments. Individual fund integrity is maintained through District records. Each fund's interest in the pool is presented as "Cash and Cash Equivalents" on the balance sheet. At fiscal year end, investments were limited to STAR Ohio and repurchase agreements. Investment earnings are allocated as authorized by State statute or as governed by Board policy.

Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts such as repurchase agreements and nonnegotiable certificates of deposits are reported at cost.

The District had funds invested in the State Treasury Asset Reserve of Ohio (STAR Ohio) during fiscal year 2012. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investments purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2012.

Investment earnings are allocated as authorized by State statue or as governed by Board policy. Interest revenue credited to the General Fund during the fiscal year amounted to \$33,548.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

E. Inventory

All inventories are valued at cost using the first in, first out (FIFO) method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. At fiscal year-end, inventory consists of donated food and purchased food and supplies held for resale.

F. Capital Assets and Depreciation

General capital assets are those related to government activities. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by proprietary funds are reported on both statement types.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District's capitalization threshold is \$10,000. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not

All reported capital assets except land and construction in progress are depreciated. The District currently does not possess any infrastructure. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| Description | Estimated Lives |
|-----------------------------------|------------------------|
| Land improvements | 20 years |
| Buildings and improvements | 10-50 years |
| Furniture, fixtures and equipment | 5-20 years |
| Vehicles | 8 years |

G. Interfund Balances

Exchange transactions between funds are reported as revenues in the seller funds and as expenditure/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. These transfers are eliminated from the statement of activities.

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "due to/from other funds", and receivables and payables resulting from long-term interfund loans are classified as "advances to/from other funds". These amounts are eliminated in the statement of net assets.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

H. Compensated Absences

GASB Statement No. 16, "Accounting for Compensated Absences", specifies the method used to accrue liabilities for leave benefits. Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy.

For governmental funds, the District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service. The District records a liability for accumulated unused sick leave for all employees after 10 years of current service with the District. The entire compensated absence liability is reported on the entity-wide financial statements. For governmental fund financial statements, the amount of accumulated vacation and sick leave of employees has been recorded as a current liability to the extent that the amounts are expected to be paid using expendable available financial resources.

I. Accrued Liabilities and Long-term Obligations

All accrued liabilities and long-term debt is reported in the government-wide financial statements. For governmental fund financial statements, these accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, claims for judgments and compensated absences paid from governmental funds are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources. Long-term liabilities paid from governmental funds are not recognized as a liability in the fund financial statements until due.

J. Fund Balance

In accordance with Governmental Accounting Standards Board Statements No. 54, Fund Balance Reporting, the District classifies its fund balance based on the purpose for which the resources were received and the level of constraint placed on the resources. The categories are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Committed – The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. The committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District had no committed resources at June 30, 2012.

Assigned – Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

K. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

None of the District's reported net assets at June 30, 2012 were restricted by enabling legislation.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

L. Unamortized Bond Issuance Costs, Bond Premiums/Discounts, and Gain/Loss on Refundings

In the government-wide financial statements, bond premiums and discounts are deferred and amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium and discount. Bond issuance costs are recorded as deferred charges and amortized over the term of the related debt. On the governmental fund financial statements, governmental fund types recognize issuance costs, bond premiums, and bond discounts in the current period. The face amount of the debt issue is reported as other financing sources. Premiums and discounts received on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Any gain or loss on refunding is allocated over the life of the debt or the new debt whichever is shorter.

M. Extraordinary and Special Items

Extraordinary items are transactions of events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. During the fiscal year, the District did not incur any transactions that would be classified as an extraordinary item or special item.

N. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 3 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim moneys are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 3 - DEPOSITS AND INVESTMENTS – (Continued)

Interim monies to be deposited or invested in the following securities:

- 1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio);
- 7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time: and,
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Any public depository, at the time it receives a District deposit or investment in a certificate of deposit, is required to pledge to the investing authority as collateral eligible securities of aggregate market value that, when added to the portion of the deposit insured by the Federal Deposit Insurance Corporation (FDIC) or the Savings Association Fund, equals or exceeds the amount of District funds deposited.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 3 - DEPOSITS AND INVESTMENTS – (Continued)

A public depository may, at its option, pledge a single pool of eligible securities to secure the repayment of all public monies held by the depository. The pool of securities so pledged must have a current market value at least equal to 105 percent of all public monies on deposit with the depository, including the amount covered by FDIC.

A. Deposits with Financial Institutions

At fiscal year-end, the carrying amount of the District deposits was \$6,223,026 (including \$6,000,000 in certificates of deposits) and the bank balance was \$6,265,565. Of the District's bank balance, \$6,250,000 was covered by federal deposit insurance while the remaining \$15,565 was exposed to custodial risk, as discussed below. In addition, the District had \$5,100 in cash on hand at June 30, 2012, which is included on the balance sheet and statement of net assets as part of Cash and Cash Equivalents.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

B. Investments

At fiscal year-end, the District had the following investments and maturities:

| | | | Investment Maturities | | | |
|----------------------|---------------|----------|-----------------------|------------|----|--------|
| | | Percent | | Within | | 1 to 2 |
| Investment Type | Fair Value | of Total | | 1 Year | | Years |
| Repurchase Agreement | \$ 3,794,072 | 19.27% | \$ | 3,794,072 | \$ | - |
| STAR Ohio | 15,892,490 | 80.73% | | 15,892,490 | | - |
| Total | \$ 19,686,562 | 100% | \$ | 19,686,562 | \$ | - |

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to state law, the District's investment policy limits investment portfolio maturities to five years or less, unless matched to a specific obligation or debt of the District.

Credit Risk: The District does not have a formal investment policy limiting credit risk. STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. Securities underlying the District's repurchase agreement are in the form of U.S. Treasuries or obligations explicitly guaranteed by the U.S. government, which are not considered to have credit risk.

Concentration Risk: The District places no limit on the amount that may be invested in any one issuer.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 3 - DEPOSITS AND INVESTMENTS – (Continued)

C. Reconciliation of Deposits and Investment to the Statement of Net Assets

The following is a reconciliation of deposits and investments as reported above to cash and cash equivalents reported on the statement of net assets at fiscal year-end:

| Investments (summarized above) | \$ 19,686,562 |
|--|------------------|
| Carrying Amount of Deposits | 6,223,026 |
| Petty Cash | 5,100 |
| Less: Fiduciary Cash and Investments | (387,858) |
| Total Cash and Cash Equivalents on Statement of Net Assets | \$ 25,526,830 |

NOTE 4 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the District. Real property tax revenue received in calendar 2012 represents collections of calendar year 2011 taxes. Real property taxes received in calendar year 2012 were levied after April 1, 2012, on the assessed value listed as of January 1, 2012, the lien date. Assessed values for real property taxes are established by state law at thirty-five percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, state statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2012 represents collections of calendar year 2011 taxes. Public utility real and tangible personal property taxes received in calendar year 2011 became a lien December 31, 2011, were levied after April 1, 2011 and are collected in 2011 with real property taxes.

Accrued property tax receivable includes real property, public utility property and tangible personal property taxes which are measurable at fiscal year-end and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue. On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

| District Managed Student Activities | | 40,000 | 40,000 |
| Total Transfers In/Out | \$ | 272,988 | \$ 272,988 |

The primary purpose of interfund transfers is to subsidize programs of the District that are not self-sufficient and to move funds generated for the purpose of debt service to the funds responsible for paying such debt service.

Interfund transfers between governmental funds are eliminated for reporting in the statement of activities.

All current obligation bonds outstanding, were issued to provide funds for the acquisition and construction of equipment and facilities, are general obligations of the District for which the full faith and credit of the District is pledged for repayment. Long-Term obligations of the District are included in the Statement of Net Assets. Payments of principal and interest relating to these liabilities are recorded as expenditures in the Bond Retirement Fund.

Various Purpose General Obligation Bonds – Series 2000

On June 6, 2000, the District issued \$36,539,029 in voted general obligation bonds for the purpose of an addition and improvements. The bonds were issued for a twenty-seven year period with final maturity at December 1, 2027. The bonds will be retired from the bond retirement fund.

NOTE 7 - LONG-TERM OBLIGATIONS – (Continued)

Building Construction General Obligation Bonds – Series 2002

On January 1, 2002, the District issued \$51,110,000 in voted general obligation bonds for the purpose of an addition and improvement to the high school building. The bonds were issued for a twenty-eight year period with final maturity at December 1, 2030. During fiscal year 2012, a portion of the outstanding bonds (\$23,875,000) were currently refunded with the issuance of the General Obligation Current Refunding Bonds – Series 2012. The remaining bonds have a final maturity at December 1, 2013 and will be retired from the bond retirement fund.

School Facilities Construction and Improvement Bonds – Series 2003

On February 20, 2003, the District issued \$18,496,850 in voted general obligation notes for the purpose of constructing and furnishing a new elementary school as well as additional improvements to the High School Campus. The notes were subsequently bonded in July 2003. The bonds were issued for a twenty-eight year period with final maturity at December 1, 2031. The bonds will be retired from the bond retirement fund.

Energy Conservation Notes – Series 2005

On June 2, 2005, the District issued \$2,700,000 in unvoted general obligation notes for the purpose of purchasing and installing energy conservation measures. The notes were issued for a fifteen year period with final maturity at December 1, 2019. The notes will be retired from the bond retirement fund

<u>General Obligation Advance Refunding Bonds – Series 2005</u>

On November 9, 2005, the District issued \$6,760,000 in general obligation refunding bonds for the purpose of advance refunding a portion of the 1998 bonds. The bonds were issued for a twelve year period with final maturity at December 1, 2017. The bonds will be retired from the debt service fund. This advance refunding resulted in a present value savings of \$343,799.

General Obligation Advance Refunding Bonds – Series 2006A

On January 26, 2006, the District issued \$9,184,993 in general obligation refunding bonds for the purpose of advance refunding a portion of the 2002 bonds listed above. The bonds were issued for a twenty-four year period with final maturity at December 1, 2029. The bonds will be retired from the debt service fund. This advance refunding resulted in a present value savings of \$485,568.

General Obligation Advance Refunding Bonds - Series 2006B

On December 21, 2006, the District issued \$17,904,975 in general obligation refunding bonds for the purpose of advance refunding a portion of the 2002 and 2003 bonds listed above. The bonds were issued for a twenty-two year period with final maturity at December 1, 2028. The bonds will be retired from the debt service fund. This advance refunding resulted in a present value savings of \$884,505.

<u>General Obligation Current Refunding Bonds – Series 2009</u>

On May 29, 2009, the District issued \$3,400,000 in general obligation refunding bonds for the purpose of advance refunding. The bonds were issued for a three and ½ year period with final maturity at December 1, 2012. The bonds will be retired from the debt service fund. This refunding resulted in a present value savings of \$91,312.

<u>General Obligation Refunding Notes – Series 2011</u>

On June 1, 2011, the District issued \$8,140,000 in general obligation refunding notes for the purpose of a current refunding of a portion of the 2000 bonds listed above. The notes were issued for a fourteen year period with final maturity at December 1, 2025. During fiscal year 2012, the outstanding balance of the notes (\$8,140,000) were currently refunded with the issuance of the General Obligation Current Refunding Bonds – Series 2012.

General Obligation Current Refunding Bonds – Series 2012

On March 28, 2012, the District issued \$32,014,040 in general obligation refunding bonds with a true interest cost of 2.79% for the purpose of currently refunding all or a portion of the outstanding principal amount of the Building Construction General Obligation Bonds – Series 2002; terminating an interest rate hedge agreement with Dexia Credit Local; and refunding the General Obligation Current Refunding Notes – Series 2011. The District received \$38,089,388 in bond proceeds, which included a \$6,075,348 premium. The \$32,014,040 bond issue consisted of \$31,395,000 in serial bonds and \$619,040 in capital appreciation bonds. The bonds were issued for a seventeen year period with final maturity at December 1, 2029. The bonds will be retired from the debt service fund. The total debt service payments were reduced by \$142,181 and the present value of this reduction resulted in an economic gain of \$143,752. The refunding did not increase the overall debt of the District; however, since funds were needed to terminate the interest rate hedge agreement, the District lost the opportunity to capitalize on lower interest rates.

The following is a summary of future annual debt service requirements for maturity for the general obligation bonds:

| Fiscal Year | Principal | Interest | Total |

NOTE 7 - LONG-TERM OBLIGATIONS – (Continued)

Accretion

Capital accretion bonds were issued with the Various Purpose Bonds – Series 2000 bonds, the Building Construction General Obligation Bonds – Series 2002, the General Obligation Advance Refunding Bonds – Series 2006A, the General Obligation Advance Refunding Bonds – Series 2006B, and the General Obligation Current Refunding Bonds – Series 2012. These bonds were purchased at a discount at the time of issuance and at maturity all compound interest is paid to the bond holder collects the face value. However, since interest is technically earned and compounded semi-annually, the value of the bond increases. Therefore, as the value increases the accretion is booked as principal. The fiscal year 2012 amount of accretion for the 2000, 2002, 2006A, 2006B and 2012 Bonds are \$209,351, \$83,598, \$65,442, \$68,054 and \$21,324 respectfully.

Note Purchase Agreement/Swaption Agreement

On October 17, 2007, the District entered into an agreement for the purpose of refunding prior obligations of the District. This transaction allowed the District to issue two variable rate refunding notes in amounts not to exceed \$23,875,000 and \$8,140,000, respectively, from June 1, 2012 to December 1, 2015. The notes will have a maturity schedule of approximately September 1, 2029.

The District and Dexia Credit Local (Dexia) also entered into an interest rate swap agreement in which the Dexia agreed to pay interest at a variable rate on the notional amount at a fixed rate. The District received an upfront payment from Dexia of \$1,708,000 and incurred related cost of \$537,542. These amounts represent the present value of the debt service savings to be achieved through the refunding based on the notional amount of \$32,015,000. The swap fixed interest rates are set at a range of 5.0%-6%. The swaps variable rate is 1.85%

During fiscal year 2012, the District terminated these agreements through the issuance of the General Obligation Current Refunding Bonds – Series 2012. The proceeds of the current refunding bonds, along with \$553,000 contributed by the District, were used to currently refund the outstanding principal amounts tied to the agreements (\$23,875,000 of Building Construction General Obligation Bonds – Series 2002 and \$8,140,000 of General Obligation Current Refunding Notes –Series 2011) and terminate the interest rate hedge agreement at a net cost of \$5,636,700. This refunding did not increase the overall general obligation debt of the District and, as previously stated, the total debt service payments were reduced by \$142,181 and the present value of this reduction resulted in an economic gain of \$143,752.

Advance Refundings

The District defeased certain School Construction and Improvement Bonds and notes by placing the proceeds of the new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. As of June 30, 2012, approximately \$11,000,000 bonds outstanding are considered defeased.

NOTE 7 - LONG-TERM OBLIGATIONS – (Continued)

Debt Limitation

Section 133.06 of the Revised Code provides that, exclusive of certain "exempt debt," the net principal amount of unvoted general obligation debt of a District may not exceed one-tenth (0.10%) of one percent of the total assessed property value listed within the District. Section 133.06 also provides that the net principal amount of voted and unvoted general obligation debt of a District may not exceed nine percent (9.0%) of the total assessed value, except as in the case of a special needs school district. The District is excess of the 9.0% margin, the District requested and obtained consent to become a "special needs" District, thereby permitting the incurrence of additional debt based upon projected 10 year growth of the District's assessed valuation, as permitted by the code.

Compensated Absences

Compensated absences represent accumulated vacation and an estimated severance liability for employees both eligible to retire and those expected to become eligible in the future. The entire compensated absences balance is reported on the entity-wide financial statements. For governmental fund financial statements, the compensated absences are reported only to the extent they have matured and will be paid with current financial resources. The noncurrent portion of the liability is not reported.

Compensated absences will be paid from the general fund for governmental funds.

NOTE 8 – RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the fiscal year, the District purchased insurance coverage from Ohio Casualty. Coverage provided by Ohio Casualty is as follows:

| | Limits of | | | |

NOTE 8 – RISK MANAGEMENT – (Continued)

For fiscal year 2012, the District participated in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 16). The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Comp Management Health Systems provides administrative, cost control and actuarial services to the GRP.

NOTE 9 – PENSION PLANS

A. School Employees Retirement System

<u>Plan Description</u> - The District contributes to the School Employees Retirement System of Ohio (SERS), a cost-sharing multiple employer defined benefit pension plan. SERS provides retirement and disability, and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. The School Employees Retirement System issues a publicly available, standalone financial report that includes financial statements and required supplementary information. That report can be obtained on SERS' website at www.ohsers.org under Employer/Audit Resources.

<u>Funding Policy</u> - Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute 14% of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For fiscal year ending June 30, 2012, the allocation to pension and death benefits is 12.70%. The remaining 1.30% of the 14% employer contribution rate is allocated to the Health Care and Medicare B Funds. The District's contributions for pension obligations to SERS for the fiscal years ended June 30, 2012, 2011, and 2010, were \$999,200, \$1,255,982 and \$990,624, respectively; 46 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011, and 2010. The District's unpaid contribution for fiscal year 2012 has been recorded as a liability in the appropriate funds.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 9 – PENSION PLANS - (Continued)

B. State Teachers Retirement System

<u>Plan Description</u> - The District contributes to the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system. STRS Ohio is a statewide retirement plan for licensed teachers and other faculty members employed in the public schools of Ohio or any school, college, university, institution or other agency controlled, managed and supported, in whole or in part, by the state or any political subdivision thereof. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling toll-free 1-888-227-7877 or by visiting the STRS Ohio Web site at www.strsoh.org.

<u>Plan Options</u> – New members have a choice of three retirement plan options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DC plan allows members to allocate all their member contributions and employer contributions equal to 10.5% of earned compensation among various investment choices. The Combined Plan offers features of the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund a defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service credit and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money-purchase benefit" calculation. Under the "formula benefit", the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31st year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the "money-purchase benefit" calculation, a member's lifetime contributions plus interest at specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

<u>DC Plan Benefits</u> – Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members' accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 9 – PENSION PLANS - (Continued)

<u>Combined Plan Benefits</u> – Member contributions are allocated by the member, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1% of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio or another Ohio public retirement system is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for DB Plan participants.

The DB and Combined Plans offer access to health care coverage to eligible retirees who participated in the plans and their eligible dependents. Coverage under the current program includes hospitalization, physicians' fees, prescription drugs and partial reimbursement of monthly Medicare Part B premiums. By Ohio law, health care benefits are not guaranteed.

A DB or Combined Plan member with five or more years' credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. Contribution requirements and the contributions actually made for the fiscal year ended June 30, 2012, were 10% of covered payroll for members and 14% for employers.

The School's required contributions for pension obligations for the fiscal years ended June 30, 2012, 2011, and 2010 were \$3,307,890, \$3,685,436, and \$3,115,668, respectively; 85 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010. The District's unpaid contribution for fiscal year 2012 has been recorded as a liability in the appropriate funds.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by SERS or STRS have an option to choose Social Security. At fiscal year-end, two members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

<u>Postemployment Benefits</u> – In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers two cost-sharing, multiple employer postemployment benefit plans.

Medicare Part B Plan – The Medicare B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2012 was \$99.90 for most participants, but could be as high as \$319.70 per month depending on their income. SERS' reimbursement to retirees was \$45.50.

The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2012, the actuarially required allocation is .75 percent. The District's contributions for the years ended June 30, 2012, 2011 and 2010 were \$59,007, \$68,182, and \$32,549, respectively, 46 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010. The District's unpaid contribution for fiscal year 2012 has been recorded as a liability in the appropriate funds.

<u>Health Care Plan</u> – ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. For the year ended June 30, 2011, the health care allocation is .55%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, prorated according to service credit earned. State law provides that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2012, the minimum compensation level was established at \$35,800. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The District's contributions assigned to health care, including the surcharge, for the years ended June 30, 2012, 2011, and 2010 were \$159,728, \$128,290, and \$159,439, respectively, 46 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010. The District's unpaid contribution for fiscal year 2012 has been recorded as a liability in the appropriate funds.

NOTE 10 – OTHER POSTEMPLOYMENT BENEFITS - (Continued)

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status. The financial reports of SERS' Health Care and Medicare B plans are included in its *Comprehensive Annual Financial Report*. The report can be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under Employers/Audit Resources.

B. State Teachers Retirement System

<u>Plan Description</u> - The District contributes to the cost-sharing, multiple employer postemployment benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by writing 275 E. Broad St., Columbus, OH 43215-3371, by calling 1-888-227-7877, or by visiting the STRS Ohio web site at www.strsoh.org.

<u>Funding Policy</u> – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2012, STRS Ohio allocated employer contributions equal to 1% of covered payroll to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$254,453, \$263,245, and \$222,548, respectively; 85 percent has been contributed for fiscal year 2012 and 100 percent for fiscal years 2011 and 2010. The District's unpaid contribution for fiscal year 2012 has been recorded as a liability in the appropriate funds.

NOTE 11 - EMPLOYEE BENEFITS

A. Compensated Absences

The criteria for determining vacation and sick leave components are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Accumulated, unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at the rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of 240 days for certified and classified personnel. The accumulation for administrators is unlimited. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of 60 days for classified and certified personnel. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave for administrative personnel.

B. Life Insurance

The District provides life insurance and accidental death and dismemberment insurance to most employees through Central Benefits.

NOTE 12 - CONTINGENCIES

A. **A. Student Attendance Data Review and Grants** – The Auditor of State is currently performing a statewide review of supporting documentation for student attendance data reported to the Ohio Department of Education. The results of this review are still pending and will be reported separately to the Ohio Department of Education at a later date.

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. This also encompasses the Auditor of State's ongoing review of student attendance data. The District was not sampled however, the effect of any such disallowed claims on the overall financial position of the School District at June 30, 2012, if applicable, cannot be determined at this time.

B. **Litigation** – The District is currently party to legal proceedings of which management cannot determine any outcome at this time.

NOTE 13 - JOINTLY GOVERNED ORGANIZATIONS

Metropolitan Education Council

The Metropolitan Educational Council (MEC) is an association of public school districts within the boundaries of Franklin, Delaware, Union, Pickaway, Madison and Fairfield counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts. The governing board of MEC consists of one representative from each of the member school districts. Financial information can be obtained from Sue Ward, who serves as fiscal officer, at 2100 Citygate Drive, Columbus, Ohio 43219. Payments to MEC during the fiscal year totaled to \$22,830.

Eastland Vocational School District

The Eastland Vocational School District is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the participating school districts' elected boards, which possesses its own budgeting and taxing authority. To obtain financial information write to the Eastland Vocational School District, Dawn Lemley, who serves as Treasurer, at 4300 Amalgamated Place, P. O. Box 419, Groveport, Ohio 43125-0419.

New Albany-Plain Local Joint Park District

The New Albany-Plain Local Joint Park District is a distinct political subdivision of the State of Ohio operated under the direction of the Board consisting of one representative from each of the participating entities as follows: 1) The Village of New Albany; 2) Plain Township and 3) The New Albany-Plain Local Board of Education. The Park District possesses its own budgeting and taxing authority.

NOTE 14 - INSURANCE PURCHASING POOL

Ohio School Boards Association Workers' Compensation Group Rating Plan - The District participates in the Ohio School Boards Association Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The GRP's business and affairs are conducted by a three member Board of directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the program. Each year, the participating school districts pay an enrollment fee to the GRP to cover the costs of administering the program.

The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the "Equity Pooling Fund". This "equity pooling" arrangement insures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of Comp Management Health Systems provides administrative, cost control and actuarial services to the GRP.

NOTE 15 – RELATED ORGANIZATION

Joint Community Growth Management Committee

The New Albany Joint Community Growth Management Committee (the Committee) was created for the purpose of investigating and making recommendations for protecting and promoting open space and maintaining rural areas, in addition to protecting residents from increased taxes.

The Committee shall consist of three representatives appointed by each local governmental entity: The New Albany-Plain Local Board of Education, Plain Township, and the Village of New Albany; and shall answer to their respective appointing entity.

The District is not obligated nor has any interest in the continuance of the Committee nor any payments provided during 2012.

NOTE 16 – JOINT OPERATION

New Albany Performing Arts Center - During 2004, the District entered into a joint operating agreement with Village of New Albany (the "Village"), Plain Township (the "Township") and the New Albany Community Foundation (the "Foundation") for the operations of the New Albany Performing Arts Center (the "Center"). The Center is being constructed through a joint collaboration between the Village, District and Township. Each of these entities shall own a portion of the Center, as tenants in common, equal to their financial contribution of the construction. The Village, District and Township have committed amounts not to exceed \$5 million, \$5 million, and \$3 million, respectively, to supplement the construction of the Center. The Foundation has committed to use its best efforts to raise approximately \$2.3 million to be applied to an endowment for the purpose of subsidizing the operation of the Center.

The Center will serve both school and community needs, including music, theater, dance and ballet. The Center is run by a six member Board of Trustees (the "Board") consisting of two members appointed by the District, two members appointed by the Village, one member appointed by the Township and one member appointed by the Foundation. The District does not appoint a voting majority of the Board.

The District had no ongoing financial interest or responsibility in the operation of the Center until final construction and the Performing Arts Center became fully operational of which at this time the relationship between the Performing Arts Center and the District was to be re-evaluated.

The Center became fully operational in June 2008 with an amended operating agreement being finalized in February 2008. The new agreement now provides the District, as well as, the Village and Township with an ongoing equity interests. As a result the District recorded an equity interest in the Performing Arts Center as of June 30, 2008 in the amount equal to its original contribution as a percentage of total contributions compared to the value of the construction cost of the Performing Arts Center, which was \$15,125,158.

Financial information for the Center may be obtained from the Treasurer of the New Albany-Plain Local School District at 55 North High Street, New Albany, OH 43054.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 17 - STATUTORY RESERVES

The District is required by state law to set-aside certain general fund revenue amounts, as defined by statute, into various reserves. These reserves are calculated and presented on a cash basis. During the current fiscal year, the reserve activity was as follows:

| | | Captial quisition |
|---|----|-------------------|
| Set-aside cash balance as of July 1, 2011 | \$ | _ |
| Current fiscal year set-aside requirement | Ψ | 756,932 |
| Qualifying Disbursements | | (1,061,772) |
| Total | \$ | (304,840) |
| Set-aside balance at June 30, 2012 | \$ | |

The District had qualifying disbursements during the year that reduced the set-aside amounts below zero for the capital acquisition reserve; however, this extra amount may not be carried forward to future fiscal years.

NOTE 18 - RESTATEMENT OF PRIOR YEAR BALANCES

Net Asset adjustments are the net effect of changes resulting from revenue and expense recognition adjustments. Because such amounts are the product of adjustments from a prior period, they are not properly included as part of the results of operations of the current period, rather are reported as a direct adjustment to beginning net assets to restate that amount to what it would have been had the adjustment not occurred. The Net Asset adjustment had no net effect on fund balances.

The District's fiscal year 2011 financial statements contained errors relating to the presentation of the debt and related items, capital assets, equity interest in performing arts center, accrued interest payable, and property taxes.

The effect of these adjustments on net assets is as follows:

| Net Assets, June 30, 2011 | \$ 37,202,774 |
|---|---------------|
| Debt and related items | (2,885,479) |
| Capital assets | 2,930,343 |
| Equity interest in performing arts center | (4,920,039) |
| Accrued interest payable | 231,398 |
| Property taxes | (954,674) |
| Restated Balance, July 1, 2012 | \$ 31,604,323 |

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 19 – OPERATING LEASE

The District is party to an operating lease with New Albany Community Authority and Mount Carmel Health Systems for the lease of building space located at 55 North High Street, New Albany, Ohio. The lease has a term of five years commencing June 1, 2005 and expiring on May 31, 2010, with three renewal options of five years each. The annual rent varies on a yearly basis due to operating expense paid proportionately by the District. Payments during fiscal year 2012 totaled \$155,599 for the fiscal year.

NOTE 20 - WIN-WIN AGREEMENT

The District is party to a win-win agreement with Columbus City School District and other participating suburban districts. The agreement began in 1986 and was amended in 1992. The terms of the Agreement call for automatic renewals every six years unless a board of education takes certain actions to terminate the Agreement. Automatic renewals occurred in 1998, 2004, and 2010.

The agreement provides a number of benefits to participating districts, including border stability, revenue-sharing, property tax revenue predictability, and cooperative programs through the Franklin County Educational Council, which was created by the Agreement. The Agreement also gives districts some predictability in terms of student populations, staffing needs, and expenditures because of the agreement's handling of annexations and territory transfers between districts.

Under the agreement, two Sections provide for payments to be made between districts.

- o Section 8 provides payments from Columbus to certain suburban districts based on the valuation of certain types of property in the areas transferred to Columbus. Only four districts originally qualified for payments under Section 8: Canal Winchester, Groveport Madison, Hamilton, and New Albany-Plain Local. However, New Albany no longer qualifies for such payments because its per-pupil valuation now exceeds Columbus's per-pupil valuation, and under the agreement this triggers the end of Section 8 payment eligibility.
- o Section 10 provides payments from suburban districts to Columbus based on the valuation of areas not transferred to Columbus.

During the discussions leading up to the 2010 renewal period and continuing after those discussions had concluded, it was discovered through and independent review that Columbus City School District had made a number of billing miscalculations and errors during previous years. The result of these miscalculations and errors is the District is owed \$1,421,575. This amount will be paid to the District in three equal installments over fiscal years 2013, and 2014. The entire amount has been recorded as an intergovernmental receivable as of June 30, 2012.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 1 - BUDGETARY PROCESS

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The primary level of budgetary control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget:

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Franklin and Licking County Budget Commissions for rate determination.

Estimated Resources:

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the County Budget Commission and receives the commission's certificate of estimated resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the Treasurer. The revised amounts reported in the budgetary statements reflect the amounts in the final amended certificate issued during fiscal year 2011.

Appropriations:

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund level, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION FOR THE FISCAL YEAR ENDED JUNE 30, 2012

NOTE 1 - BUDGETARY PROCESS - (Continued)

The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation totals at any level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures, which appear in the statements of budgetary comparisons, represent the final appropriation amounts, including all supplemental appropriations. Formal budgetary integration is employed as a management control device during the year for all funds other than agency funds, consistent with statutory provisions.

NOTE 2 - RECONCILING BUDGET BASIS AND GAAP

The District prepares its budget on a basis of accounting that differs from accounting principles generally accepted in the United States of America (GAAP). The actual column presented on the Budgetary Comparison Schedule – General Fund is prepared in accordance with the budget basis of accounting.

The major differences between the budgetary basis of accounting and GAAP are that:

- A. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis):
- B. Expenditures are recorded when encumbered (budget basis) as opposed to when the liability is incurred (GAAP basis);
- C. Encumbrances are recorded as the equivalent of expenditures (budget basis) as opposed to a reservation of fund balance (GAAP basis).
- D. Due to the implementation of GASB 54, some funds were reclassified to the General Fund. These funds are not required to be included in the General Fund Budgetary Statement. Therefore, the activity from these funds is excluded with an adjustment for their change in fund balance.

COMBINING STATEMENTS AND INDIVIDUAL FUND SCHEDULES –

GOVERNMENTAL FUNDS

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

Non-major Governmental Funds

Non-major Governmental Funds account for revenues from specific sources, which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's Non-major Governmental Funds follows:

Permanent Improvement – A fund provided to account for all transactions related to acquiring, constructing, or improving school facilities.

Capital Projects/Building – A fund used to account for the receipts and expenditures related to all special bond funds in the district. All proceeds from the sale of bonds, notes, or certificates of indebtedness, except premium and accrued interest, must be paid into this fund. Expenditures recorded here represent the costs of acquiring capital facilities including real property.

Food Service – A fund used to account for the financial activity related to the District's food service operation.

Special Trust – A fund used to account for restricted contributions and donations which the original contributions can be expended for District programs.

Endowment – A fund used to account for and restricted contributions and donations which have been set aside as an investment for public school purposes. The income from this fund may be expended, but the principal must remain intact. The funds may be spent for District purposes.

Uniform School Supplies - A rotary fund provided to account for the purchase and sale of school supplies. This fund is included with the General Fund for financial statement reporting purposes.

Rotary – **Special Services** – A fund to report any activity go which a fee is charged to external users for goods or services.

Rotary – Internal Services – A fund provided to account for operations that provide goods or services to other governmental units on a cost-reimbursement basis.

Public School Support – A fund provided to account for specific local revenue sources, other than taxes or expendable trusts (i.e. profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases. This fund is included with the General Fund for financial statement reporting purposes.

Other Local Grants – A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted to expenditures for specified purposes.

District Managed Activities – A fund provided to account for those student activity programs which have student participation in the activity but do not have student management of the programs. This fund would usually include athletic programs but could also include the band, cheerleaders, flag corps, and other similar types of activities.

Auxiliary Services – A fund used to account for monies which provide services and materials to pupils attending non-public schools within the school district.

School Net – A fund provided to account for wiring to all classrooms in the State and to provide a computer workstation and related technology for every classroom in Ohio's low wealth school districts.

Other State Grants – A fund used to account for various monies received from state agencies which are not classified elsewhere. A separate special cost center must be used for each grant and be approved by the Auditor of State.

Education Jobs – A fund used to account for federal funds used to assist states in providing compensation and benefits and other expenses, such as support services, necessary to retain existing employees, to recall or rehire former employees, and to hire new employees, in order to provide early childhood, elementary or secondary educational and related services.

Title VI-B IDEA – A fund used to account for federal funds used to assist states in providing an appropriate public education to all children with disabilities.

Title II-D Technology – A fund used to account for federal funds used to assist states in providing support for technology for primary and secondary schools.

Title III Limited English Proficiency – A fund used to account for federal funds used to develop and carry out elementary and secondary school programs, including activities at the pre-school level, to meet the educational needs of children of limited English proficiency.

Title I Disadvantaged Children – A fund used to provide financial assistance to State and Local educational agencies to meet the special needs of educationally deprived children. Included are the Even Start and Comprehensive School Reform programs.

IDEA Preschool Grant for the Handicapped – The Preschool Grant Program, Section 619 of Public Law 99-457, addresses the improvement and expansion of services for handicapped children ages three (3) through five (5) years.

Title II-A Improving Teacher Quality – A fund used to account for monies to hire additional classroom teachers in grades 1 through 3, so that the number of students per teacher will be reduced.

Real property is reappraised every six years with a State mandated update of the current market value in the third year following each reappraisal

The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is

The tangible personal property values associated with each year are the values that, when multiplied by the applicable rates, generated the property tax revenue billed in that year. For real property, the amounts generated by multiplying the assessed values by the applicable rates would be reduced by the 10 percent, 2 1/2 percent and homestead exemptions before being billed. Beginning in the 2006 collection year, the 10 percent rollback for commercial/industrial property was eliminated.

Values are shown net of exempt property.

The rates presented for a particular calendar year are the rates that, when applied to the assessed values presented in the Assessed Value Table, generated the property tax revenue billed in that year.

Rates may only be raised by obtaining the approval of a majority of the voters at a public election.

⁽¹⁾ The amounts presented represent the assessed values upon which 2012 and 2003 collections were based.

⁽²⁾ The assessed value of real property (including public utility real property) is 35 percent of estimated true value. Personal property tax is assessed on all tangible personal property used in business in Ohio. The assessed value of public utility property ranges from 25 percent of true value for railroad property to 88 percent for electric transmission and distribution property. General business tangible personal property was assessed in previous years at 25 percent for machinery and equipment and 23 percent for inventories. General business tangible personal property tax began being phased out in tax year 2006. The listing percentage was reduced to 18.75 percent for tax year 2006, 12.5 percent for tax year 2007, 6.25 percent for tax year 2008 and zero for tax year 2009.

Note: The amount of debt presented as subject to the limit should be the balances used to compute the margin as specified by statute, i.e. the gross balances, not amounts that are net of premiums or discounts.

⁽²⁾ Ohio Bond Law sets a limit of 9% for overall debt and 1/10 of 1% for unvoted debt, unless a waiver is obtained.
