INDEPENDENT ACCOUNTANTS' REPORT

Parma City School District Cuyahoga County 5311 Longwood Avenue Parma, Ohio 44134

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Parma City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2012 which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Parma City School District, Cuyahoga County, Ohio, as of June 30, 2012, and the respective changes in financial position and where applicable, cash flows, thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 14, 2013, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

Parma City School District Cuyahoga County Independent Accountants' Report Page 2

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the Government's basic financial statements taken as a whole. The federal awards receipts and expenditure schedule provides additional information required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. The federal awards receipts and expenditure schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This schedule was subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Dave Yost Auditor of State

March 14, 2013

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

The discussion and analysis of Parma City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2012. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2012 are as follows:

- Total net assets of governmental activities increased compared to fiscal year 2011. This increase was the result of an increase in property tax collections due to the passage of the 6.9 mill emergency levy, passed in May 2011. Fiscal year 2012 was the first full year of collections. The increase is also the result of no increase in the cost of health care and budgetary constraint required by the School District's fiscal caution status under the Ohio Department of Education.
- The Board of Education imposed an absolute freeze on all employee salaries and wages (no increments or education credits). The Board also raised the health insurance premium share for the certified staff from 5 percent to 15 percent.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Parma City School District as an entire operating entity. The statements begin at a summary level and expand to detailed financial activities.

The Statement of Net Assets and Statement of Activities provide information about the activities of the entire School District, presenting both an aggregate view of the School District's current finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements present how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant governmental funds with all other nonmajor funds presented in total in one column. The general fund is the most significant fund, although the permanent improvement capital projects fund is also considered to be a major fund.

Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School District as an entity looks at all financial transactions and asks the question, "How did we do financially during the 2012 fiscal year?" The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader that, for the School District as a whole, the financial position of

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

base, current property tax laws in Ohio restricting revenue growth, facility conditions, mandated educational programs, State funding, student enrollment, and general inflation.

In the Statement of Net Assets and the Statement of Activities, the School District is divided into two major activities:

- Governmental Activities Most of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, general administration, and self-insurance.
- Business-Type Activities These services are provided on a fee basis to recover all of the expenses of the goods or services provided. The School District's business-type activities are food service, adult continuing education and extended daycare/preschool.

Reporting the School District's Most Significant Funds

Fund Financial Statements

The analysis of the School District's major funds begins on page 8. Fund financial reports provide detailed information about the School District's major funds. The School District uses many funds to account for its financial transactions. However, these fund financial statements concentrate on the School District's most significant funds. The School District's major governmental funds are the general fund, and the permanent improvement capital projects fund.

Governmental Funds Most of the School District's activities are reported in governmental funds, which accounts for flow of money into and out of those funds and the year-end balances available for spending in future years. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps the reader determine the amount of financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary Funds Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

The School District as a Whole

The Statement of Net Assets provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net assets for fiscal year 2012 compared to fiscal year 2011:

Table 1 Net Assets (In millions)

	Governmenta	al Activities	Business-Type Activities		Total	
	2012	2011	2012	2011	2012	2011
Assets						
Current and Other Assets	\$133.4	\$121.6	\$2.0	\$1.5	\$135.4	\$123.1
Capital Assets, Net	56.6	59.3	0.3	0.4	56.9	59.7
Total Assets	190.0	180.9	2.3	1.9	192.3	182.8
Liabilities						
Current and Other Liabilities	95.9	91.5	0.2	0.2	96.1	91.7
Long-Term Liabilities:						
Due Within One Year	6.7	6.7	0.0	0.0	6.7	6.7
Due in More than One Year	37.3	41.3	0.2	0.1	37.5	41.4
Total Liabilities	139.9	139.5	0.4	0.3	140.3	139.8
Net Assets						
Invested in Capital						
Assets, Net of Related Debt	24.3	21.6	0.3	0.4	24.6	22.0
Restricted						
Capital Projects	4.9	1.0	0.0	0.0	4.9	1.0
Debt Service	0.1	2.5	0.0	0.0	0.1	2.5
Other Purposes	1.2	2.0	0.0	0.0	1.2	2.0
Unrestricted	19.6	14.3	1.6	1.2	21.2	15.5
Total Net Assets	\$50.1	\$41.4	\$1.9	\$1.6	\$52.0	\$43.0

Total assets of governmental activities increased \$8.7 million. This increase was due mainly to the increase in property taxes receivable attributable to the passage of the 6.9 mill emergency levy.

Total liabilities for governmental activities increased \$0.4 million. This increase was due to the increase in current liabilities as a result of the increased deferred revenue which is associated with the increase in property taxes.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

Table 2 shows the changes in net assets for the fiscal year 2012 for both governmental and business-type activities.

Table 2 Change in Net Assets (In millions)

Net Assets End of Year	\$50.1	\$41.4	\$1.9	\$1.6	\$52.0	\$43.0	

Total governmental activities net assets increased \$8.7 million. Property taxes increased \$6.3 million due to an increase in property tax collections as the result of the passage of the 6.9 mill emergency levy.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

The unusual nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. As a result of legislation enacted in 1976, the overall revenue generated by a voted tax levy does not increase as a result of inflation. As an example, a homeowner with a home valued at \$100,000 (Assessed value of \$35,000) and taxed at 1.0 mill would pay \$35 annually in taxes. If three years later the homes were reappraised and increased to \$200,000 (assessed value of \$70,000) the effective tax rate would become .5 mills and the owner would still pay \$35.

Our School District, which is dependent upon property taxes, is hampered by a lack of revenue growth and must periodically ask the voters to increase property taxes to maintain a constant level of service. Property taxes made up just over 59 percent of revenues for governmental activities for the School District in fiscal year 2012.

The largest Governmental Activities program expense remains instruction, comprising approximately 58 percent of total expenses. When combined with pupils and instructional support these categories make up 72.3 percent of expenses.

Management recognizes a continued loss of personal property tax revenue due to the continued phase-out of personal property tax and phase-in of public utility deregulation as well as board of revision and board of tax appeal decisions.

Interest expense was attributable to the outstanding bonds and notes and borrowing for capital projects.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, (services supported by tax revenue and unrestricted State entitlements), the total cost of services and the net cost of services.

Table 3
Governmental Activities
(In millions)

	Total Cost of Services 2012	Net Cost of Services 2012	Total Cost of Services 2011	Net Cost of Services 2011
Instruction	\$86.5	\$79.8	\$81.7	\$72.5
Support Services:				
Pupils and Instructional Staff	20.7	16.0	18.0	13.3
Board of Education, Administration				
Fiscal and Business	14.8	12.8	15.4	12.9
Operation and Maintenance of Plant	9.9	9.5	10.3	9.9
Pupil Transportation	5.5	4.7	6.2	5.7
Central	2.9	2.8	3.2	2.8

Extracurricular Activities	3.2	2.3	2.5	1.6
Interest and Fiscal Charges	1.5	1.5	1.8	1.8
Total	\$148.1	\$129.4	\$143.2	\$121.0

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

The dependence upon tax revenues for governmental activities is apparent. 62.6 percent of instruction activities are supported through taxes and other general revenues. Our three communities are responsible for the primary support for Parma City School District students.

Business-Type Activities

Business-type activities include the food service, adult continuing education, and extended daycare/preschool programs.

Overall net assets increased \$0.3 million in 2012. Business-type activities cash positions have allowed individual business-type activities to absorb additional program expenses over the last several years.

The School District's Funds

Information about the School District's major funds starts on page 16. These funds are accounted for using the modified accrual basis of accounting. The general fund had total revenues of \$137.7 million and expenditures of \$131.7 million. The net change in fund balance for the year was an increase of \$6 million. Revenues increased as the result of the increase in property tax collections.

The permanent improvement capital projects fund had total revenues of \$6.3 million and expenditures of \$3.8 million. The net change in fund balance for the year, after a \$1.4 million transfer, was an increase of \$2.9 million.

General Fund Budgeting Highlights

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

For the general fund, original and final budget basis estimated revenues were \$122.8 million and \$136.3 million, respectively. This increase was due to a conservative approach to revenue estimates at the beginning of the fiscal year. Total actual revenues were \$136.3 million.

During the course of fiscal year 2012, the School District amended its general fund budget several times. Final appropriations for the general fund increased by \$0.7 million from the original appropriations due to the conservative approach to spending. Total actual expenditures on the budget basis (cash outlays plus encumbrances) were \$134.2 million.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

Capital Assets and Debt Administration

Capital Assets

Table 4 shows fiscal 2012 balances compared to fiscal 2011:

Table 4
Capital Assets at June 30
(Net of Depreciation)
(In millions)

	Governi Activ		Busines: Activ	* *	Tot	al
	2012	2011	2012	2011	2012	2011
Land	\$5.1	\$5.1	\$0.0	\$0.0	\$5.1	\$5.1
Land Improvements	7.9	8.3	0.0	0.0	7.9	8.3
Buildings and Improvements	38.4	39.8	0.0	0.0	38.4	39.8
Furniture and Equipment	3.1	4.0	0.3	0.4	3.4	4.4
Vehicles	2.1	2.1	0.0	0.0	2.1	2.1
Totals	\$56.6	\$59.3	\$0.3	\$0.4	\$56.9	\$59.7

For fiscal year 2012, an Ohio law required school districts to set aside three percent of certain revenues for capital improvements; this amounted to \$2.0 million for each set aside. For fiscal year 2012, the School District had qualifying disbursements or offsets exceeding these requirements. See Note 11 to the basic financial statements for additional information on capital assets.

Debt

At June 30, 2012, the School District had \$31.6 million in notes, loans, and certificates of participation outstanding, with \$5.4 million due within one year. The debt will be serviced with tax revenue from the March 2000 2.0 mill permanent improvement levy, the May 2005 1.0 mill permanent improvement levy, and general property tax revenue. Table 5 summarizes the outstanding debt.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

Table 5
Outstanding Debt, at Year End
(In millions)

	Governmental Activities	
	2012	2011
2002 Construction Note	\$2.4	\$4.7
2006 Construction Note	4.9	6.0
2006 Construction Note Unamortized Premium	0.1	0.1
2003 Energy Conservation Loan (Phase IV)	1.0	1.1
2004 Energy Conservation Loan (Phase V)	2.9	3.4
2004 Energy Conservation Loan (Phase VI)	3.0	3.4
2005 Energy Conservation Loan (Phase VII)	1.5	1.7

2006 Certificates of Participation	11.7	11.9
2006 Certificates of Participation Unamortized Discount	(0.1)	(0.1)
Totals	\$31.6	\$36.8

In fiscal year 2002, the School District borrowed \$20 million in a construction note for capital repairs and improvements. This note will be paid off in 2012.

In fiscal year 2006, the School District borrowed \$11 million in a construction note. The construction note is to provide for the general ongoing permanent improvements of the School District and will be paid off in 2015.

In fiscal year 2003, the School District borrowed \$2.2 million for a HB 264 Energy Conservation project. The loan will be paid off in 2016.

In fiscal year 2004, the School District borrowed \$12.3 million for two HB 264 Energy Conservation projects. One loan will be paid off in 2017 and the other loan will be paid off in 2019.

In fiscal year 2005, the School District borrowed \$2.5 million for a HB 264 Energy Conservation project. The loan will be paid off in 2020.

In fiscal year 2006, the School District borrowed \$3.5 million in an energy conservation loan. The energy conservation loan is for two HB 264 Energy Conservation projects and will be paid off in 2021.

In fiscal year 2008, the School District borrowed \$2.5 million for a HB 264 Energy Conservation project. The loan will be paid off in 2022.

In fiscal year 2006, the School District borrowed \$12.6 million in certificates of participation. The certificates of participation were issued for capital improvements to several school buildings and will be paid off in 2017.

At June 30, 2012, the School District's overall legal debt margin was \$203.1 million with an unvoted debt margin of \$2.3 million. See Note 17 to the basic financial statements for additional information on debt.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2012 Unaudited

School District Outlook

In April 2011, the Superintendent recommended further consolidation of the School District. The plan calls for the eighth grade moving into the high schools, the middle schools becoming grades 5, 6, and 7 and the elementary buildings housing kindergarten to fourth grade. This plan results in the ability to close four elementary buildings and save about \$2,000,000 per year in operating costs. This plan was implemented at the beginning of the 2012-13 school year.

The Auditor of State has released the performance audit for Parma City Schools. While some items it recommends are accomplished, the School District will rely on the recommendations to seek further cost containments.

The Parma City School District has committed itself to fiscal discipline based on long-term plans, full disclosure of financial information, and utilization of the highest standards of financial reporting.

Contacting the School District Fiscal Management

This financial report was designed to comply with the most current reporting requirements and is intended to provide our parents, citizens, taxpayers, investors and creditors an understanding of the School District's financial position. Daniel B. Bowman, Treasurer/Chief Financial Officer, can be contacted at the Parma City School District, 5311 Longwood Avenue, Parma, Ohio 44134 or by email at bowmand@parmacityschools.org.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2012

Net Change in Fund Balances - Total Governmental Funds

\$6,866,576

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

 Capital Outlay
 1,020,633

 Depreciation
 (3,727,469)

Total (2,706,836)

Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. (3,667)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Delinquent Property Taxes372,757Grants(1,106,015)Payment in Lieu of Taxes59,152Tuition and Fees180,934

Total (493,172)

Repayment of bond, loan, and capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

5,517,936

In the statement of activities, interest is accrued on outstanding debt.

Debt premiums, debt discounts, and debt issuance costs are amortized over the term of the debt, whereas in governmental funds an interest expenditure is reported when due and premiums, discounts, and bond issuance costs are reported when the debt is due.

Accrued Interest42,276Amortization of Debt Premiums16,032Amortization of Debt Discounts(8,402)Amortization of Issuance Costs(61,365)

Total (11,459)

Compensated absences reported in the statement of activities do not require the use of current financial resources and therefore are not reported as an expenditure in governmental funds.

(1,522,579)

An internal service fund used by management to charge the cost of insurance to individual funds is not reported in the expenditures and related internal service fund revenue is eliminated. The net revenue (expense) of the internal service fund is allocated among the governmental and business-type activities.

1,021,032

Change in Net Assets of Governmental Activities

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 1 - Description of the School District and Reporting Entity

Parma City School District (School District) is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio.

The School District operates under a locally-elected five-member Board form of government and provides educational services as mandated by state and federal agencies. This Board of Education controls the School District's twenty-two instructional/support facilities staffed by 605 noncertified and 912 certificated full time teaching personnel who provide services to 11,614 students and other community members.

Reporting Entity

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Parma City School District, this includes general operations, food service, adult continuing education, preschool and student related activities of the School District. The following activities are also included within the reporting entity.

Nonpublic Schools Within the School District boundaries, Bethany Lutheran, Alihsan, Parma Montesorri, Bethany Christian, Parma Heights Christian Academy and Bethel Christian Academy are operated independently, whereas Holy Family, Incarnate Word Academy, Holy Name High School, St. Anthony of Padua, St. Bridget, St. Charles, St. Columbkille, St. Francis de Sales, and Padua Franciscan High School are operated through the Cleveland Catholic Diocese. Current State legislation provides funding to these nonpublic schools. These monies are received and disbursed on behalf of the nonpublic schools by the Treasurer of the School District, as directed by the nonpublic schools. These transactions are reported as a special revenue fund and a governmental activity of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt or the levying of taxes for the organization. The School District does not have any component units.

The following entities which perform activities within the School District boundaries for the benefit of its residents are excluded from the accompanying financial statements because the School District is not financially accountable for these entities nor are they fiscally dependent on the School District.

Cities of Parma, Parma Heights and Seven Hills The city governments of Parma, Parma Heights and Seven Hills are separate bodies politic and corporate. A mayor and council are elected independent of any School District relationships and administer the provision of traditional City services. Council acts as the taxing and budgeting authority for these City services.

Parent Teacher Association The School District is not involved in the budgeting or management, is not responsible for any debt and has no influence over the organization.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

The School District participates in two jointly governed organizations. These organizations are the Northeast Ohio Network for Educational Technology, and the Ohio Schools Council. These organizations are discussed in Note 18 of the basic financial statements.

Note 2 - Summary of Significant Accounting Policies

The financial statements of Parma City School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its enterprise funds unless those pronouncements conflict with or contradict GASB pronouncements. The School District has elected not to apply FASB statements and interpretations issued after November 30, 1989, to its business-type activities and enterprise funds. The more significant of the School District's accounting policies are described below.

Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net assets presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and the business-type activities of the School District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. The fiduciary funds are reported by type.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. The funds of the School District are divided into three categories: governmental, proprietary and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund The general fund is the operating fund of the School District and is used to account for and report all financial resources except those required to be accounted for and reported in another fund. The general fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Permanent Improvement Capital Projects Fund The permanent improvement capital projects fund accounts for and reports restricted property taxes and grants to be used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary funds.

The other governmental funds of the School District account for grants and other resources, whose use is restricted, committed or assigned to a particular purpose.

Proprietary Fund Type Proprietary funds focus on the determination of operating income, changes in net assets, financial position and cash flows and are classified as either enterprise or internal service.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's enterprise funds are used to account for food service operations, adult continuing education operations and extended daycare/preschool operations.

Internal Service Fund The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the School District on a cost reimbursement basis. The School District's only internal service fund accounts for the operation of the School District's self-insurance program for employee medical, surgical and prescription benefits.

Fiduciary Fund Type Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's only fiduciary funds are agency funds which reflect resources that either belong to the student bodies of the various schools for student activities or that are withheld from part-time employees' paychecks for insurance.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net assets. The statement of activities presents increases (i.e. revenues) and decreases (i.e. expenses) in total net assets.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary fund types are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses and changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for the proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Measurable means the amount of transaction can be determined. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 10). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year-end: property taxes available as an advance, interest, tuition, grants, fees and rentals.

Deferred Revenue Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2012, but which were levied to finance fiscal year 2013 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as deferred revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Expenses/Expenditures On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

Cash and Cash Equivalents

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as "equity in pooled cash and cash equivalents."

At June 30, 2012, investments were limited to STAR Ohio. STAR Ohio is an investment pool managed by the State Treasurer's Office which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's net asset value per share which is the price the investment could be sold for on June 30, 2012.

Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2012 amounted to \$34,169 which includes \$15,258 assigned from other School District funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents.

Inventory

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventories consist of purchased food and school supplies held for resale, and materials and supplies held for consumption.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Bond Issuance Costs

Bond issuance costs for underwriting fees and bond insurance for the school improvement general obligation bonds are being amortized using the straight-line method over the life of the bonds on the government-wide statements. The straight-line method of amortization is not materially different from the effective-interest method. On the governmental financial statements, issuance costs are reported as an expenditure in the fiscal year in which the bonds are issued. Bond issuance costs are generally paid from bond proceeds.

As permitted by State Statute, the School District paid bond issuance costs from the bond proceeds and therefore does not consider that portion of the debt to be capital-related debt. That portion of the debt was offset against the unamortized bond issuance costs which were included in the determination of unrestricted net assets. Reporting both within the same element of net assets prevents one classification from being overstated while another is understated by the same amount.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective enterprise funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The School District was able to estimate the historical cost for the initial reporting of assets by backtrending (i.e., estimating the current replacement cost of the asset to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year.) Donated capital assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$1,000. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

	Governmental	Business-Type
	Activities	Activities
Description	Estimated Lives	Estimated Lives
Land Improvements	20 years	N/A
Buildings and Improvements	20-50 years	10-30 years
Furniture and Equipment	5-15 years	10-15 years
Vehicles	10 years	10 years

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans and unpaid amounts for interfund services are classified as "interfund receivables/payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for classified employees, certified employees and administrators after 14 years of current service with the School District.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for the payment during the current fiscal year. Bonds, loans, and capital leases are recognized as a liability on the governmental fund financial statements when due.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net assets restricted for other purposes include special education, computer networking, and programs to help students prepare for the proficiency test.

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, these revenues are sales and fees for food service, adult continuing education, extended daycare/preschool programs, and self-insurance. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of the fund. All revenues and expenses not meeting these definitions are reported as non-operating.

Internal Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated on the governmental-wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Interfund payments for services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by the highest level formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the School District Board of Education or a School District official delegated that authority by resolution or by a State statute.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Unassigned Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. During fiscal year 2012, the School District received \$2,399,130 for a one-time settlement of a pending lawsuit against a former vendor recorded as an extraordinary item.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Budgetary Data

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level. The Treasurer/Chief Financial Officer has been given the authority to allocate Board appropriations to the function and object levels.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the Treasurer/Chief Financial Officer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the amended certificate that were in effect at the time the final appropriations were passed by the Board of Education. Prior to June 30, the Board requested and received an amended certificate in which estimated revenue closely reflects actual revenue for the fiscal year.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated revenues by fund. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year. Prior to June 30, the Board passed an amended appropriation measure which matched appropriations to expenditures plus encumbrances in the majority of the categories.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 3 – Change in Accounting Principle

For fiscal year 2012, the School District has implemented Governmental Accounting Standard Board (GASB) Statement No. 64, "Derivative Instruments: Application of Hedge Accounting Termination Provisions – and amendment of GASB Statement No. 53" Fund Balance Reporting and Governmental Fund Type Definitions." GASB Statement No. 64 clarifies whether an effective hedging relationship continues after the replacement of a swap counterparty or a swap counterparty's credit support provider. This Statement sets forth criteria that establish when the effective hedging relationship continues and hedge accounting should continue to be applied. The implementation of this statement did not result in any change in the School District's financial statements.

Note 4 - Restatement of Prior Year's Fund Balance

During fiscal year 2012, it was determined that property taxes receivable was understated in general fund and overstated in the permanent improvement capital projects fund. It was also determined that interfund activity was understated for general fund and overstated for the bond retirement and permanent improvements funds. These restatements had the following effect on fund balances of the major and nonmajor funds, as they were previously reported:

		Bond	Permanent	Nonmajor Governmental	Total Governmental
	General	Retirement	Improvement	Funds	Funds
Fund Balance at					
June 30, 2011	\$13,208,014	\$2,325,975	\$921,892	(\$688,085)	\$15,767,796
Change in Interfund Activity	(1,444,173)	617,823	0	826,350	0
Change in Taxes Receivable	0	(561,546)	561,546	0	0
Adjusted Fund Balance					
at June 30, 2011	\$11,763,841	\$2,382,252	\$1,483,438	\$138,265	\$15,767,796

Note 5 – Compliance and Accountability

Accountability

Fund balances at June 30, 2012, included the following individual fund deficits:

Fund	Amount
Special Revenue Funds:	
Alternative Schools	\$3,888
State Grants	12,071
Adult Basic Education	96,159
Education Jobs	85,861
Title VI-B	356,406
Vocational Education	54,368
Title II Technology	1,423

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Fund	Amount	
Special Revenue Funds (Continued):		
School Improvement	\$23,441	
Limited English Proficiency	8,916	
Title I	232,290	
Preschool Grant	7,813	
Title VI-R	16,540	
Other	21,427	
Enterprise Fund:		
Adult Continuing Education	11,488	

The special revenue funds' deficits are due to adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and provides transfers when cash is required, rather than when accruals occur. The enterprise funds' deficits are due to interfund payables to the general fund. These are due to the timing of receipts and will be repaid to the general fund once revenues are received.

Note 6 - Budgetary Basis of Accounting

While the School District is reporting financial position, results of operations and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual, general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than as a restricted, committed or assigned fund balance.
- 4. Advances-In and Advances-Out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis).
- 5. Budgetary revenues and expenditures of the public school support fund are reclassified to the general fund for GAAP Reporting.

The following tables summarize the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements on a fund type basis for the general fund.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Net Change in Fund Balance	
GAAP Basis	\$5,973,788
Net Adjustment for Revenue Accruals	(651,041)
Advances In	268,374
Net Adjustment for Expenditure Accruals	(83,947)
Excess of revenues and other financing sources	
and under expenditures and other financing uses:	
Public School Support	121,495
Advances Out	(328,100)
Adjustment for Encumbrances	(3,327,490)
Budget Basis	\$1,973,079

Note 7 - Deposits and Investments

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District can be deposited or invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States:
- 2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3. Written repurchase agreements in the securities listed above;
- 4. Bonds and other obligations of the State of Ohio;

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

- 5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
- 6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
- 7. The State Treasurer's investment pool (STAR Ohio); and
- 8. Commercial paper and banker's acceptances if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. Investments may only be made through specified dealers and institutions.

Deposits

Custodial Credit Risk Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year end, \$9,152,438 of the School District's bank balance of \$12,107,002 was uninsured and uncollateralized. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

The School District has no deposit policy for custodial risk beyond the requirement of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

Investments

As of June 30, 2012, the School District only had an investment of \$19,330,488 in STAR Ohio, the State Treasurer's Investment Pool. This investment has an average maturity of 52.5 days.

Interest Rate Risk. The School District has no investment policy that addresses interest rate risk. State statute requires that an investment mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and that an investment must be purchased with the expectation that it will be held to maturity.

Credit Risk. STAR Ohio carries a rating of AAAm by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The School District has no policy regarding credit risk other than statutory guidelines which limit investment choices.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 8 – Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

			Nonmajor	
		Permanent	Governmental	
Fund Balances	General	Improvement	Funds	Total
Nonspendable				
Inventory	\$342,250	\$0	\$0	\$342,250
Unclaimed Funds	13,091	0	0	13,091
Total Nonspendable	355,341	0	0	355,341
Restricted for				
Social Services Resources and Support	0	0	133,659	133,659
District Managed Student Activities	0	0	281,932	281,932
Non-Public Schools	0	0	803,891	803,891
Race To The Top	0	0	16,281	16,281
Turf Replacement	0	0	157,058	157,058
Capital Improvements	0	4,424,525	0	4,424,525
Total Restricted	0	4,424,525	1,392,821	5,817,346
Assigned to				
Instructional Services	445,899	0	0	445,899
Other Purposes	1,801,227	0	0	1,801,227
Total Assigned	2,247,126	0	0	2,247,126
Unassigned (Deficit)	15,135,162	0	(920,603)	14,214,559
Total Fund Balances (Deficit)	\$17,737,629	\$4,424,525	\$472,218	\$22,634,372

Note 9 - Significant Commitments

Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At fiscal year end the amount of encumbrances expected to be honored upon performance by the vendor in the next fiscal year were as follows:

General fund	\$3,327,490
Permanent Improvement	3,734,316
Nonmajor funds	606,479
Total	\$7,668,285

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 10 - Property Taxes

Property taxes are levied and assessed on a calendar year basis while the School District's fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar year 2012 represents collections of calendar year 2011 taxes. Real property taxes received in calendar year 2012 were levied after April 1, 2011, on the assessed value listed as of January 1, 2011, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar year 2012 represents collections of calendar year 2011 taxes. Public utility real and tangible personal property taxes received in calendar year 2012 became a lien December 31, 2010, were levied after April 1, 2011 and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

The School District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2012, are available to finance fiscal year 2012 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property and public utility property taxes which are measurable as of June 30, 2012 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2012, was \$13,820,905 in the general fund, and \$801,853 in the permanent improvement capital projects fund. The amount available as an advance at June 30, 2011, was \$13,004,463 in the general fund, \$561,546 in the bond retirement fund, and \$323,628 in the permanent improvement capital projects fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

The assessed values upon which the fiscal year 2012 taxes were collected are:

	2011 Second Half Collections		2012 First Half Collections	
	Amount	Percent	Amount	Percent
Real Estate Public Utility Personal	\$2,234,045,090 30,403,230	98.66 % 1.34	\$2,222,591,020 34,578,900	98.47 % 1.53
Total	\$2,264,448,320	100.00 %	\$2,257,169,920	100.00 %
Tax rate per \$1,000 of assessed valuation	\$66.10		\$66.10	

The School District issued debt in anticipation of tax revenue from the permanent improvement levy. Each year, tax revenues are allocated from the permanent improvement capital projects fund to the bond retirement debt service fund in an amount that is sufficient to pay the debt principal and interest payments.

Note 11 - Capital Assets

Capital asset activity for the fiscal year ended June 30, 2012, was as follows:

	Balance	A dditions	Dalations	Balance
C	6/30/2011	Additions	Deletions	6/30/2012
Governmental Activities				
Capital Assets, not being depreciated:				
Land	\$5,096,730	\$0	\$0	\$5,096,730
Capital Assets, being depreciated:				
Land Improvements	15,557,922	123,958	0	15,681,880
Buildings and Improvements	94,983,141	264,150	(286,430)	94,960,861
Furniture and Equipment	14,654,045	114,368	(29,568)	14,738,845
Vehicles	7,579,500	518,157	(214,780)	7,882,877
Total Capital Assets, being depreciated	132,774,608	1,020,633	(530,778)	133,264,463
Less Accumulated Depreciation:				
Land Improvements	(7,228,774)	(590,260)	0	(7,819,034)
Buildings and Improvements	(55,190,533)	(1,676,295)	284,139	(56,582,689)
Furniture and Equipment	(10,696,730)	(963,634)	28,192	(11,632,172)
Vehicles	(5,485,498)	(497,280)	214,780	(5,767,998)
Total Accumulated Depreciation	(78,601,535)	(3,727,469)	527,111	(81,801,893)
Total Capital Assets, being depreciated, net	54,173,073	(2,706,836)	(3,667)	51,462,570
Governmental Activities Capital Assets, Net	\$59,269,803	(\$2,706,836)	(\$3,667)	\$56,559,300

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Depreciation expense was charged to governmental functions as follows:

Instruction:	
Regular	\$1,891,412
Special	44,482
Vocational	46,268
Adult/Continuing	1,852
Support Services:	
Pupils	84,529
Instructional Staff	28,620
Board of Education	1,016
Administration	43,081
Fiscal	10,114
Business	135,978
Operation and Maintenance of Plant	841,166
Pupil Transportation	427,788
Central	18,581
Operation of Non-Instructional Services	42,932
Extracurricular Activities	109,650
Total Depreciation Expense	\$3,727,469

	Balance	A 445.1	D. L. J.	Balance
	6/30/2011	Additions	Deletions	6/30/2012
Business-Type Activities				
Buildings and Improvements	\$7,638	\$0	\$0	\$7,638
Furniture and Equipment	1,837,683	0	(1,881)	1,835,802
Vehicles	23,132	0	0	23,132
Totals at Historical Cost	1,868,453	0	(1,881)	1,866,572
Less Accumulated Depreciation:				
Buildings and Improvements	(2,126)	(196)	0	(2,322)
Furniture and Equipment	(1,472,933)	(44,345)	1,881	(1,515,397)
Vehicles	(15,035)	(2,313)	0	(17,348)
Total Accumulated Depreciation	(1,490,094)	(46,854)	1,881	(1,535,067)
Business-Type Activities Capital Asset, Net	\$378,359	(\$46,854)	\$0	\$331,505

Depreciation expense was charged to business-type activities as follows:

Food Service	\$37,606
Adult Continuing Education	431
Extended Daycare/Preschool	8,817
Total Depreciation Expense	\$46,854

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 12 - Risk Management

Property and Liability

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. At June 30, 2012, the School District contracted with the following insurance companies:

Company	Type of Coverage	Limit	Deductible
Argonaut Insurance Company	aut Insurance Company Auto Liability		N/A
	Comprehensive General Liability		
	General Liability	1,000,000	N/A
	Personal Injury	1,000,000	N/A
	General Aggregate	3,000,000	N/A
	Errors and Ommissions	1,000,000	10,000
	School Leaders' Error and Ommissions	1,000,000	10,000
	Property Coverage		
	Blanket Building and Contents	306,588,633	25,000

Settled claims have not exceeded this commercial coverage in any of the past three years and there have been no significant reductions in insurance coverage from last year.

Self-Insurance

The School District provides employee medical, surgical and prescription benefits through a partially self-insured program. The third party administrator, Medical Mutual of Ohio, reviews the claims which are then paid by the School District. The School District has stop loss coverage at \$175,000 per covered person, per year, and a calculated aggregate maximum for the 2012 plan year of \$1,000,000.

The claims liability of \$1,560,116 reported in the internal service fund at June 30, 2012, is based on an estimate provided by the third party administrators and the requirements of GASB Statement No. 30 "Risk Financing Omnibus", which requires that a liability for unpaid claims cost, including estimates of cost relating to incurred but not reported claims, be reported. The estimate was not affected by incremental claims adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Changes in the fund's claims liability amount in 2011 and 2012 were:

	Balance at	Current Year	Claim	Balance at
	Beginning of Year	Claims	Payments	End of Year
2011	\$1,860,069	\$16,666,147	\$16,983,695	\$1,542,521
2012	1,542,521	14,074,352	14,056,757	1,560,116

Workers' Compensation

The School District pays the State Workers' Compensation System a premium based on a rate per \$100 of salaries. This rate is calculated based on accident history and administrative costs.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 13 - Receivables

Receivables at June 30, 2012, consisted of taxes, accounts (rent and tuition), interfund and intergovernmental grants. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current fiscal year guarantee of federal funds. All receivables except for delinquent property taxes and certain interfund receivables are expected to be collected within one year. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of the principal items of governmental activities intergovernmental receivables follows:

Governmental Activities	Amounts
Title VI-B	\$406,007
Title I	272,088
Education Jobs	190,143
Adult Basic Education	134,433
Title VI-R	77,792
Race to the Top	42,846
Other Grants	42,043
Vocational Education	36,332
School Improvement Subsidy A	21,818
Limited English Proficiency	10,249
Preschool Grant	9,056
Federal Refugee Children	6,313
School Employee Retirement System	3,098
Title II Technology	92
Miscellaneous	71,187
Total Governmental Activities	\$1,323,497

Note 14 – Defined Benefit Pension Plans

School Employees Retirement System

Plan Description – The School District participates in the School Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2012, the allocation to pension and death benefits was 12.70 percent. The remaining 1.30 percent of the 14 percent employer contribution

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

death benefits was 12.70 percent. The remaining 1.30 percent of the 14 percent employer contribution rate is allocated to the Medicare B and Health Care funds. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2012, 2011, and 2010 were \$2,369,836, \$2,135,676, and \$2,433,157, respectively. For fiscal year 2012, 57.65 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2011 and 2010.

State Teachers Retirement System

Plan Description – The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that can be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50. Benefits are established by Ohio Revised Code Chapter 3307.

A DB or Combined Plan member with five or more years of credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon the recommendation of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. For the fiscal year ended June 30, 2012, plan members were required to contribute 10 percent of their annual covered salary. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations.

The School District's required contributions for pension obligations to STRS Ohio for DB Plan and for the defined benefit portion of Combined Plan were \$8,263,708 and \$238,644 for the fiscal year ended June 30, 2012, \$7,961,832 and \$189,976 for the fiscal year ended June 30, 2011, and \$8,298,221 and \$217,584 for the fiscal year ended June 30, 2010. For fiscal year 2012, 80.26 percent has been contributed for the DB Plan and the Combined Plan, with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2011 and 2010.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Contributions made to the STRS Ohio for DC Plan for fiscal year 2012 were \$101,245 made by the School District and \$72,318 made by the plan members. In addition, member contributions of \$170,460 were made during fiscal year 2012 for the defined contribution portion of the Combined Plan.

Note 15 - Postemployment Benefits

School Employees Retirement System

Plan Description – The School District participates in two cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plans administrated by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligation to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For fiscal year 2012, 0.55 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for fiscal year 2012, this amount was \$35,800. During fiscal year 2012, the School District paid \$273,731 in surcharge.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified vears of service. Medicare eligibility and retirement status.

The School District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$376,362, \$520,852, and \$373,924, respectively. For fiscal year 2012, 57.65 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2011 and 2010.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2012, this actuarially required allocation was 0.75 percent of covered payroll. The School District's contributions for Medicare Part B for the fiscal years ended June 30, 2012, 2011, and 2010, were \$139,951, \$137,436, and \$144,695, respectively. For fiscal year 2012, 57.65 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2011 and 2010.

State Teachers Retirement System

Plan Description – The School District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2012, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to post-employment health care. The School District's contributions for health care for the fiscal years ended June 30, 2012, 2011, and 2010 were \$635,670, \$612,449, and \$638,325, respectively. For fiscal year 2012, 80.26 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal year 2011 and 2010.

Note 16 - Other Employee Benefits

Compensated Absences

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees and administrators who are on twelve month contracts earn up to twenty-five days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees and administrators who are on twelve month contracts upon termination of employment. Teachers and administrators who are not on a twelve month contract do not earn vacation time.

Teachers, administrators and classified employees earn sick leave at the rate of one and one-fourth days per month of service or fifteen days for each completed year of service. There is no limit on the maximum number of sick leave days that may be accumulated.

Upon retirement, certified employees with less than fourteen years of service with the School District are paid a sum equal to one-fourth of their unused sick leave balance times their daily rate up to a maximum accumulation of thirty days. Upon separation, certified employees with fourteen years of service or more with the School District, hired prior to May 1, 1996, receive a lump sum payment for their total accumulated sick leave balance times their daily rate, up to a maximum accumulation of sixty days. Any certified employee with a balance of greater than 150 days also receives an additional ten percent of accrued and unused sick leave above the 150 days. Certified employees with fourteen years of service or more, hired after May 1, 1996 who retire from employment, receive a lump sum payment for one-fourth of their accrued and unused sick leave times their daily rate up to a maximum accumulation of ninety-five days.

Classified employees with fourteen years of service or more with the School District are paid a sum upon separation (regardless of whether retiring) equal to the value of the percentages below, to a maximum of 134 days:

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Accrued and Unused Sick Days	Maximum Days Paid Upon Separation
0 - 100 days at 30%	30.0
101 - 146 days at 50%	22.5
147 - 197 days at 75%	37.5
198 - 242 days at 100%	44.0
	134.0

Insurance Benefits

The School District provides life insurance and accidental death and dismemberment insurance through MetLife Life. Certified employees working two and one-half hours or more per day and administrators receive \$50,000 term life and accidental death and dismemberment coverage. Classified employees who work four to six hours per day receive \$20,000 coverage, and those who work six hours or more per day receive \$30,000 coverage for term life insurance and accidental death and dismemberment. The Superintendent receives \$300,000 term life and the Treasurer receives \$100,000 term life and accidental death and dismemberment coverage.

The School District also provides medical/surgical insurance and prescription drug coverage through Medical Mutual of Ohio and is self insured (see Note 12); vision insurance is through Medical Mutual of Ohio, and dental insurance through MetLife to all eligible employees.

Note 17 - Long-Term Obligations

The original issue date, interest rate, original issue amount and date of maturity of each of the School District's bonds, loans and notes follows:

Debt Issue	Interest Rate	Original Issue Amount	Date of Maturity
Construction Note - 2002	3.6036 %	\$20,000,000	December 1, 2012
Construction Note - 2006	3.0000	11,000,000	December 1, 2015

The 2002 construction note was used for the purpose of acquiring, constructing, enlarging and renovating certain property of the School District. This note will be repaid over ten years.

The 2006 construction note was used for the purpose of providing for general permanent improvements of the School District. This note will be repaid over ten years.

In December 2002, June 2003, April 2004, February 2005, May 2006, and July 2007 the School District issued energy conservation loans in the amounts of \$2,240,000, \$6,817,000, \$5,477,606, \$2,500,000, \$3,458,570, and \$2,511,519, respectively. The proceeds were used to renovate school facilities in order to improve energy conservation measures.

In June 2006, the School District entered a lease agreement with the Parma CSD Leasing Corporation for the purpose of constructing, furnishing, improving and equipping Parma Senior High School, Valley Forge Senior High School, Pleasant Valley Elementary School and Greenbriar Middle School. The Parma CSD Leasing Corporation entered an agreement with a trustee through which it assigned and transferred its rights, title, and interest under the lease to Huntington National Bank as Trustee. The Trustee issued certificates of participation in the lease agreement enabling holders of the certificates to receive a portion of the semiannual lease payments. The certificates of participation will be repaid over 12 years.

The note liability will be paid from the bond retirement fund. The certificates of participation will be paid from the permanent improvement fund. The energy conservation loans will be paid from the general fund. Capital leases will be paid from the general fund and permanent improvement fund. Compensated absences will be paid from the general fund, auxiliary services, state grants, education jobs, title VI-B,

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

title I, and preschool special revenue funds, and the food service, adult continuing education, and extended daycare/preschool enterprise funds.

The School District's overall legal debt margin was \$203,145,293 with an unvoted debt margin of \$2,257,170 at June 30, 2012. Principal and interest requirements to retire the debt outstanding at June 30, 2012, are as follows:

Fiscal Year	Construction		Energy Conservation		
Ending	No	tes	Loa	ans	
June 30,	Principal	Interest	Principal	Interest

Note 18 - Jointly Governed Organizations

Northeast Ohio Network for Educational Technology

The Northeast Ohio Network for Educational Technology (NEONET) is the computer service organization or Data Acquisition Site (DAS) used by the School District. NEONET is a jointly governed organization among twenty-seven school districts and the Summit County Educational Service Center. The Summit County Educational Service Center acts as the fiscal agent for the consortium. The jointly governed organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The Board of Directors consists of member district superintendents and treasurers. The manager/director is a permanent, non-voting member of the board of directors. Each school district's control is limited to its representation on the board. The Board of Directors exercise total control over the operations of the association including budgeting, appropriating, contracting and designating management. All association revenues are generated from charges for services and State funding. The School District does not retain an ongoing financial interest or an ongoing financial responsibility in NEONET. Payments to NEONET are made from the general fund. During the current fiscal year, the School District paid \$202,275 to NEONET. Financial information can be obtained by writing to the Summit County Educational Service Center, 420 Washington Avenue, Suite 200, Cuyahoga Falls, Ohio 44221.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Ohio Schools Council

The Ohio Schools Council (Council) is a jointly governed organization among 126 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Association. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2012, the School District paid \$4,725 to the Council. Financial information can be obtained by contacting William Zelei, the Executive Director of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Energy USA served as the natural gas supplier and program manager from October 1, 2008 to September 30, 2010. Compass Energy has been selected as the new supplier and program manager for the period from October 1, 2010 through March 31, 2013. There are currently 146 participants in the program including the Parma City School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

Note 19 - Contingencies

Grants

The School District received financial assistance from federal and State agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2012.

Litigation

The School District is party to legal proceedings. The School Board is of the opinion that the ultimate disposition of the current proceedings will not have a material effect, if any, on the financial condition of the School District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 20 - Interfund Transactions

Interfund Balances

Interfund balances at June 30, 2012, consist of the following individual fund receivables and payables:

	Interfund Receivable
Interfund Payable	General Fund
Major Funds:	
Permanent Improvement	\$150,000
Nonmajor Funds:	
Miscellaneous State Grants	8,044

Vocational Education	61,697
Title II Technology	1,000
Title I School Improvement	15,800
Limited English Proficiency	1,400
Refugee Children	16,700
Preschool Grant	700
Title VI-R	790
Title I	1,400
Adult Continuing Education	252,802
Extended Daycare/Preschool	170,403
Total Nonmajor Funds	815,248
Total All Funds	\$965,248

Interfund payables in the special revenue funds are due to the timing of the receipt of grant monies received by the various funds. The interfund payables in the capital projects funds are due to the start of improvement projects before the permanent improvement tax levy collections began. Interfund payables exist in the enterprise funds due to the timing of the receipt of various revenue sources.

All balances are expected to be paid next fiscal year except for the advances between the general fund and the turf replacement capital projects and adult continuing education enterprise funds.

Interfund Transfers

The transfers from the general fund to nonmajor special revenue funds of \$16,705 were made to move unrestricted balances to support programs and projects accounted for in other funds. The transfer from permanent improvement capital projects fund to bond retirement fund of \$1,383,253 was made to pay for debt obligations.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

Note 21 - Set-Asides

The School District is required by State statute to annually set aside in the general fund an amount based on a statutory formula for the acquisition and construction of capital improvements. Amounts not spent by fiscal year end or offset by similarly restricted resources received during the year must be held in cash at fiscal year end and carried forward to be used for the same purposes in future years.

The following cash basis information describes the change in the fiscal year end set-aside amounts for capital acquisitions. Disclosure of this information is required by State statute.

	Capital
	Improvement
Set-aside Balance as of June 30, 2011	\$0
Current Year Set-aside Requirement	1,987,058
Offsets During the Fiscal Year	(4,549,148)
Qualifying Disbursements	(943,559)
Totals	(\$3,505,649)
Set-aside Balance Carried	
Forward to Future Fiscal Years	\$0
Set-aside Balance as of June 30, 2012	\$0

Although the School District had qualifying disbursements and offsets during the fiscal year that reduced the set-aside amount to below zero for the capital acquisition set-aside, this amount may not be used to reduce the set-aside requirement for future years. This negative balance is therefore not presented as being carried forward to future years.

Note 22 - Capital Leases

In prior fiscal years, the School District entered into capital leases for a copier machine, fax machines, printers, and phones. These leases meet the criteria of a capital lease as defined by FASB Statement No. 13, "Accounting for Leases." Capital lease payments have been reclassified and are reflected as debt service expenditures in the general and permanent improvement funds on the basic financial statements. These expenditures are reflected as program/function expenditures on a budgetary basis.

Capital assets acquired by lease have been capitalized and depreciated as follows:

Furniture and Equipment	\$2,856,054
Less: Accumulated Depreciation:	(1,874,745)
Total Capital Assets, being depreciated, net	\$981,309

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2012

The lease agreements provide for minimum, annual lease payments as follows:

	Governmental Activities
2013	\$315,175
2014	231,530
2015	182,774
2016	194,685
2017-2018	330,929
Total Minimum Lease Payments	1,255,093
Less: Amounts Representing Interest	(176,398)
Present Value of Minimum Lease Payments	\$1,078,695

PARMA CITY SCHOOL DISTRICT CUYAHOGA COUNTY

NOTES TO THE FEDERAL AWARDS RECEIPTS AND EXPENDITURES SCHEDULE FISCAL YEAR ENDED JUNE 30, 2012

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Federal Awards Receipts and Expenditures Schedule (the Schedule) reports the Parma City School District's (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C - FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

NOTE D - MEDICAID COMMUNITY ALTERNATIVE FUNDING SYSTEM (CAFS) PAYMENTS

During the fiscal year ending June 30, 2012, the District received \$349,269 in Medicaid settlement payments. This amount represents reimbursement for expenditures that occurred in prior audit periods.

CFDA – Catalog of Federal Domestic Assistance

INDEPENDENT ACCOUNTANTS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Parma City School District Cuyahoga County 5311 Longwood Avenue Parma, Ohio 44134

To the Board of Education:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Parma City School District, Cuyahoga County, (the District) as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 14, 2013. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our audit procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of opining on the effectiveness of the District's internal control over financial reporting. Accordingly, we have not opined on the effectiveness of the District's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in more than a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and timely corrected.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider material weaknesses, as defined above.

Parma City School District Cuyahoga County Independent Accountants' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We intend this report solely for the information and use of management, the audit committee, the Board of Education, and federal awarding agencies and pass-through entities, and others within the District. We intend it for no one other than these specified parties.

Dave Yost Auditor of State

March 14, 2013

INDEPENDENT ACCOUNTANTS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Parma City School District Cuyahoga County 5311 Longwood Avenue Parma, Ohio 44134

To the Board of Education:

Compliance

We have audited the compliance of Parma City School District (the District) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Parma City School District's major federal programs for the year ended June 30, 2012. The *summary of auditor's results* section of the accompanying schedule of findings identifies the District's major federal programs. The District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to each major federal program. Our responsibility is to opine on the District's compliance based on our audit.

Our compliance audit followed auditing standards generally accepted in the United States of America; the standards applicable to financial audits included in the Comptroller General of the United States' Government Auditing Standards; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. These standards and OMB Circular A-133 require that we plan and perform the audit to reasonably assure whether noncompliance occurred with the compliance requirements referred to above that could directly and materially affect a major federal program. An audit includes examining, on a test basis, evidence about the District's compliance with these requirements and performing other procedures we considered necessary in the circumstances. We believe our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the District's compliance with these requirements.

In our opinion, the Parma City School District complied, in all material respects, with the requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2012.

Parma City School District
Cuyahoga County
Independent Accountants' Report on Compliance with Requirements
Applicable to Each Major Federal Program and on Internal Control Over
Compliance Required by OMB Circular A-133
Page 2

Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the District's internal control over compliance with requirements that could directly and materially affect a major federal program, to determine our auditing procedures for the purpose of opining on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of opining on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We intend this report solely for the information and use of the audit committee, management, Board of Education, others within the entity, federal awarding agencies, and pass-through entities. It is not intended for anyone other than these specified parties.

Dave Yost Auditor of State
