Miami Valley Risk Management Association

COMPREHENSIVE ANNUAL FINANCIAL REPORT

YEARS ENDED DECEMBER 31, 2013 AND 2012

**Serving the Cities of Southwest Ohio since 1988
Headquartered in Kettering, Ohio**

Dave Yost • Auditor of State

Board of Trustees
Miami Valley Risk Management Association
4625 Presidential Way
Kettering, Ohio 45429

We have reviewed the *Independent Auditors' Report* of the Miami Valley Risk Management Association, Montgomery County, prepared by Clark, Schaefer, Hackett & Co., for the audit period January 1, 2013 through December 31, 2013. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Miami Valley Risk Management Association is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

Ms. Nancy Gregory, President, & the Board of Trustees
Of the MIAMI VALLEY RISK MANAGEMENT ASSOCIATION

Re: **MVRMA CAFR for the Period Ended December 31, 2013**

Dear MVRMA President and Members of the MVRMA Board of Trustees:

The Comprehensive Annual Financial Report of the Miami Valley Risk Management Association (MVRMA) for the years ended December 31, 2013 and 2012 is hereby submitted for your review.

The purpose of this report is to provide complete and reliable information as a basis for making management decisions, as a means for determining compliance with legal requirements, as a means for determining funding adequacy including funding for losses and loss adjustment expense reserves and as a means for demonstrating responsible stewardship over the assets contributed by MVRMA's member cities.

MVRMA staff prepared all statements, schedules and other presentations in this report. Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Clark, Schaefer, Hackett & Co., Certified Public Accountants, have issued an unmodified ("clean") opinion on MVRMA's financial statements for the years ended December 31, 2013 and 2012. The independent auditors' report is included in the front of the Financial Section, which immediately follows the Introductory Section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

Following the Financial Section are the Actuarial and Statistical sections. The Actuarial Section includes the independent actuary's opinion on the unpaid loss and loss adjustment expense reserves, including incurred but not reported (IBNR) claims and related exhibits. The Statistical Section includes financial trends information, revenue capacity information, demographic and economic information and operating information for the last ten years.

Profile of the Reporting Entity

MVRMA is a consortium of municipalities located in southwest Ohio which formed an Association under Section 2744.081 of the Ohio Revised Code (ORC) to act collectively in addressing its members' risk management and risk financing needs. It was incorporated on December 1, 1988, with six (6) charter members: the City of Beavercreek, City of Kettering, City of Miamisburg, City of Vandalia, City of West Carrollton and City of Wilmington. As of December 31, 2013, MVRMA had grown to twenty (20) members, with the City of Troy joining in 1989, City of Montgomery joining in 1990, City of Springdale joining in 1991, City of Blue Ash and City of Wyoming joining in 1992, City of the Village of Indian Hill and City of Sidney joining in 1993, City of Madeira joining in 1994, City of Tipp City joining in 1996, City of Mason joining in 1997, City of Piqua joining in 2002 and the City of Englewood, City of Bellbrook and City of Centerville joining in 2004. The Association provides a combination of self-insurance, insurance and reinsurance for its members' property/casualty exposures; administers a claims/litigation management program; provides extensive safety/loss control consulting and training; and acts as a clearing house for risk-related information and financial reporting services for its members.

MVRMA management, under the direction of the Board of Trustees' Finance Committee, annually prepares a budget to provide for operating expenses and loss funding for the upcoming year. All loss funds are segregated by loss year, and claims are paid from the funds collected for the corresponding year of occurrence. Each year's loss funding contribution is determined by an actuarial study conducted by an independent actuary. Should any year's operating expenses or losses exceed that particular year's contributions, the Board of Trustees may transfer funds from the Association's Shock Loss Fund or call for supplementary payments from members, including withdrawn or expelled members, for the years of their membership.

Economic Condition and Outlook

MVRMA members are generally situated along the "I-75 Corridor" in the southwest quadrant of the state of Ohio. This region has a first-class transit infrastructure providing access to major markets from the Midwest to the east coast. Trucks have access to not only I-75, but also I-70, I-71 and I-675. Two major airports, Cincinnati/Northern Kentucky International Airport and Dayton International Airport, provide transport by air to 55% of the country's population in only 90 minutes. Additionally, this region is served by the CSX rail line which has access to all major cities and ports in the Midwest and along the east coast. Cargo shipping is also possible along the Ohio River, which borders the state to the south. 11.7 million tons of general and bulk cargo pass through Port Cincinnati annually. Like the rest of the country, this region's economic outlook for 2014 is somewhat uncertain due to government and regulatory changes, the cost of fuel, banking policies, unemployment and the real estate market.

In 2013 the Cincinnati metropolitan area had job gains of approximately 8,200, an increase of 1.2% from 2012. Private sector employment in Cincinnati grew by 1.2%, adding nearly 10,600 jobs to offset the nearly 2,500 jobs lost in the government sector. The Dayton region had a decline in the civilian workforce overall, with educational and health services the only category having a slight increase from 2012. The average unemployment rate for the Cincinnati region was 6.1% while the unemployment rate for the Dayton region was 7.7%.

Dayton Area

Nonagricultural wage and salary employment decreased 5,400 from February 2013 to February 2014. The goods-producing sector decreased 400 due to losses in mining, logging, construction, and manufacturing. The private sector lost approximately 4,400 jobs with declines in professional and business services, leisure and hospitality services, information and trade transportation services, but did see a slight increase in education and health services and those services classified as "other." Overall, government lost approximately 600 jobs due to decreases in the federal government of 700 jobs; and increases of approximately 100 jobs in local government.

The unemployment rate was reported at 7.7% at the end of 2013, an increase from the 7.6% reported at the end of 2012. Approximately 30,800 individuals remain unemployed in the Dayton metropolitan area.

Despite shrinking federal budgets, Wright Patterson Air Force Base continues to be a huge driver of the local economy to the tune of nearly 4.4 billion. With approximately 29,000 employees, it is the largest single-site employer in Ohio and supports thousands of additional off-base contractors.

Homes sales in the Dayton area finished strong at the end of December 2013. Total sales for 2013 reached 13,495 compared to 11,609 in 2012, an impressive 16% increase. The number of listing entries for the year totaled 22,753 compared to 21,078 in 2012, an increase of 8.0%. Along with more listings came more buyers, as the inventory on hand hovered around the 6-month supply level for most of the year.

Cincinnati Area

Most of Cincinnati's economic indicators were moving in a positive direction in 2013. The Cincinnati Chamber of Commerce forecast reflects the expectation that the region ended 2013 in improved conditions compared to 2012. As of August 2013, Cincinnati saw an increase of 36,100 jobs from the depths of the recession in August 2010; however total employment is still 32,800 jobs shy of its August 2007 level of 1,050,000 jobs. Employment in the private sector fell short of 2007 levels across most industry sectors. Construction, information services, and manufacturing have the furthest to go to retain a full job recovery. Several sectors including health services, professionals and business services, and leisure and hospitality services have fully recovered and surpassed pre-recession employment levels. For 2014, metro employment is forecasted to rise 1.4%, an increase of roughly 14,200 net new jobs.

Like the employment numbers, the unemployment numbers are a mix of good and bad. Since the depths of the recession, when the unemployment rate peaked at 9.6% in 2010, it has dropped to 6.1% in 2013 but remains above 2007's rate of just 5%.

Cincinnati homes sales as of August 2013, were up 24% at 2,435 compared to 1,956 for the same period in 2012; representing 26 consecutive months of increased sales. Across the region homes prices are improving, but not as fast as home sales.

Insurance/Reinsurance Market Outlook

In 2013, insurance carrier net income rose substantially, policyholder surplus reached a record high, and catastrophic losses were down considerably from the prior year. There is, however, some cause for concern. Investment income remains historically low, contributing to pricing and underwriting pressures, and insurers continue to be concerned about catastrophic weather events. The outlook is a marketplace of that is essentially flat for non-catastrophic exposed risks, with underwriters advocating for single digit rate increases where possible.

Long-term Financial Planning

Having found what it considers a successful formula for long-term financial planning, MVRMA continues to expand on previously developed programs while being mindful of any new opportunities:

- MVRMA's Shock Loss Fund, which was established as an internal funding mechanism to replace costly stop loss insurance, has surpassed its moving target of being equivalent to the current year's annual loss fund. The loss funding amount contributed in 2013 was \$2,500,000, while the Shock Loss Fund balance as of 12/31/13 was \$3,165,555.
- By participating in the insurance captive Government Entities Mutual (GEM), MVRMA has been able to maintain a \$500,000 self-insured retention (rather than the previous \$1 million) with little effect on the overall cost of coverage. Additionally, MVRMA received a rate freeze from GEM for the years 2011 and 2012. By increasing the GEM coverage layer from \$1.5M to \$2.5 in 2013, MVRMA's rate freeze was extended to 2015.

- MVRMA has modified its investment policy and approach in 2013 to increase its allocation in high-grade corporate bonds and to increase the duration of the portfolio to better match the Association's liabilities. These changes will increase investment yield with minimal additional risk exposure. MVRMA continued to contract with Bond-Tech and SJS Investment Consulting, Inc. as investment consultants. The investment portfolios continued to outperform established benchmarks.
- Following its policy of returning unused loss funds to its members when a loss year is closed, MVRMA refunded more than \$3 million when Loss Year 19 (2007) was declared closed in March 2013 and Loss Year 20 (2008) was declared closed in September 2013. This refund brings the total to nearly \$12 million returned since MVRMA's formation in 1988.

Relevant Financial Policies

The Amended Agreement and Bylaws of MVRMA provide the fiscal requirements of the Association including: requiring Board approval of the preliminary budget by September 30 each year and the final budget by December 31; identifying the underwriting information used to establish each member's pool contribution factor; defining when supplementary payments shall be required and when and how surplus funds may be distributed to the membership.

MVRMA adopted its Cash and Investment Policy in 1991 to indicate a conscious, formal effort to develop, implement and monitor the investment of all MVRMA funds. It was last amended in December 2013 and is reviewed annually.

Major MVRMA Initiatives During 2013

The fiscal period ending December 31, 2013, was a busy and productive year for MVRMA. Among the Association's achievements and activities were the following:

- More than 1,000 participants attended 24 MVRMA sponsored training courses throughout the year.
- MVRMA's Administrative Assistant, Kathy St. Pierre, announced her January 2014 retirement after twenty years of service. MVRMA's new Office Coordinator, Terri Zalut, was hired in January 2014.
- MVRMA closed Loss Year 19 (2007) and returned \$2,004,500 to the membership.
- MVRMA closed Loss Year 20 (2008) and returned \$1,249,676 to the membership.
- Received recognition for the Association's continued compliance with the Association of Government Risk Pool's Advisory Standards. This recognition is effective for 2014-16.
- Contracted with an independent firm to conduct the Association's triennial claims audit. The audit report concluded that "all claim handling elements reviewed/analyzed were found to be above average to superior when compared to the industry."

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to MVRMA for its comprehensive annual financial report for the fiscal year ended December 31, 2012. This was the 21th consecutive year that MVRMA has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

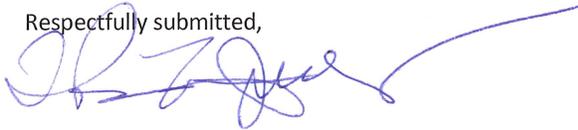

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgements

Office Coordinator Terri Zalat deserves special mention for her assistance with the preparation of this report.

Management would like to express appreciation to the Board of Trustees for their dedication to excellence in financial reporting, the principles of risk management, loss control and governmental pooling.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'T. L. Judy', with a long, sweeping horizontal line extending to the right.

INDEPENDENT AUDITORS' REPORT

Board of Trustees
Miami Valley Risk Management Association
Kettering, Ohio

Report on the Financial Statements

We have audited the accompanying statements of net position of the Miami Valley Risk Management Association (the Association) as of December 31, 2013 and 2012, and the related statements of revenues and expense and changes in net position and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

14 east main street, ste.500
springfield, oh 45502

www.cshco.com
p. 937.399.2000
f. 937.399.5433

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the Association, as of December 31, 2013 and 2012, and the changes in net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 to 9 and claims information on pages 25 – 27 be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The introductory section (pages i to ix), the actuary report (pages 28 to 151) and the statistical section (pages 153 to 183) are presented for purposes of additional analysis and are not a required part of the financial statements.

The introductory section, the actuary report, and the statistical section have not been subjected to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 20, 2014 on our consideration of the Association's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Association's internal control over financial reporting and compliance.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

Management's Discussion And Analysis
For The Years Ended December 31, 2013 and 2012

The management of the Miami Valley Risk Management Association (MVRMA or Association) provides the following introduction, overview and analysis of MVRMA's financial statements for the years ended December 31, 2013 and December 31, 2012. This discussion and analysis is designed to assist the reader in focusing on significant financial issues and activities and to identify any significant changes in financial position. We encourage the reader to consider the information presented here in conjunction with the basic financial statements taken as a whole.

MVRMA is a consortium of municipalities located in southwest Ohio, which formed an Association under Section 2744.081 of the Ohio Revised Code (ORC) to act collectively in addressing its members' risk management and risk financing needs. It became operational in December 1988 with six charter members and now has twenty members.

Basic Financial Statements and Presentation

The financial statements presented by the Association are the Statements of Net Position, Statements of Revenues, Expenses, and Changes in Net Position and the Statements of Cash Flows. As required by Governmental Accounting Standards Board Statement Number 10, the Association is accounted for as one enterprise fund.

The financial statements that follow this Management's Discussion and Analysis and the tables presented herein provide a summary of the Association's financial position and results of operations for 2013 and 2012, respectively. The Association first implemented GASB Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, in 2004; therefore, comparative numbers have been included for analysis purposes.

The Statements of Net Position

These statements report all of the Association's assets and liabilities as of December 31, 2013 and December 31, 2012 categorized as current and non-current assets and liabilities. Assets consist mainly of cash and investments. Liabilities consist mainly of claims reserves and members' refunds. The difference between total assets and total liabilities is reported as "net position."

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

Management's Discussion And Analysis
For The Years Ended December 31, 2013 and 2012

The following table presents condensed information on the Association's net position as of December 31, 2013, 2012 and 2011.

Claims reserve is a liability for net unpaid losses, including incurred but not reported losses, and loss adjustment expenses. This amount is established annually with the assistance of an outside actuary. In 2013, claims reserves decreased slightly, by \$27,114, or 0.7 %, due to favorable claims development. In 2012, claims reserves decreased by \$606,258 or 14.3% as a result of favorable development in the prior years' ultimate losses. In 2011, claims reserves increased \$114,506 or 2.8%.

Management's Discussion And Analysis
For The Years Ended December 31, 2013 and 2012

The liability for members' refunds reflects the funds being held in MVRMA's General Reserve Fund (GRF). The General Reserve Fund accounts for surplus funds returned, but not yet paid, to members from closed loss years. Once surplus funds are returned to the members, these funds are deposited in the GRF to the account of each individual member. Members may withdraw their GRF funds within 30 days after the closure of a loss year, or in January of each year, or for the payment of any MVRMA invoice at any time throughout the year. The members' refunds liability increased as of December 31, 2013 due to the closure of two loss years in 2013.

Net position is divided into two categories, invested in capital assets and unrestricted. The net position invested in capital assets represents the net book value of property and equipment, while the remaining net position amount is unrestricted for future use by the Association. Net position invested in capital assets decreased from \$19,641 to \$17,192 during 2013 as there was little capital asset activity during the year. Total net position decreased by \$1,569,832, or 12.3% in 2013 due to the closure of loss years and the return of nearly \$3.3 million of surplus funds to the members. Total net position increased by \$433,690, or 3.5%, during 2012.

The Statements of Revenues, Expenses and Changes in Net Position

These statements reflect the operating and non-operating revenue and expenses for the previous two fiscal years and how the Association's net position changed during the year. As noted previously, MVRMA's net position decreased by 12.3% from 2012 to 2013 and increased by 3.5% from 2011 to 2012.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

Management's Discussion And Analysis
For The Years Ended December 31, 2013 and 2012

Operating revenue consists primarily of members' contributions. The major categories of operating expenses are claims and claims adjustment expenses, reinsurance premiums, general and administrative expenses, and dividends to members. Non-operating revenue and expense is primarily related to investment activity.

Member contributions made up 95% of the Association's operating revenue in both 2013 and 2012.

Members' contributions are tracked so that each year may be evaluated independently. When preparing its annual budget, MVRMA determines the total amount needed to fund its operations and collects the amount needed from members in proportion to their claims history and risk exposures. Each member's allocation is determined by dividing the sum of the following seven factors by 9:

1. The member's population as of the most recent census as a percentage of the total of all members' populations;
2. The number of the member's sworn full-time police personnel as a percentage of the total of all members' full-time sworn police;
3. The number of the member's other full-time employees as a percentage of the total of all members' other full-time employees;
4. The number of the member's titled vehicles as a percentage of the total of all members' titled vehicles;
5. The member's insurable property values as a percentage of the total of all members' insurable property values;
6. The member's net operating expenses as a percentage of the total of all members' net operating expenses; and
7. The member's average annual adjusted losses for the last four years as the percentage of the total of all members' average annual adjusted losses for the last four years (weighted three times).

Changes in net position can vary widely from year to year. This variation is chiefly due to fluctuations in incurred claims expense and members' dividends. Although the incurred claims expense is subject to variability, it is moderated somewhat by the insuring of losses above the pool's self-insured retentions of \$500,000 per occurrence for liability claims and \$250,000 for property claims. Members' dividends expense is incurred when the Board of Trustees closes a loss year and refunds the residual assets in the loss year to the members. These amounts can be significant and do not necessarily occur each year.

Management's Discussion And Analysis
For The Years Ended December 31, 2013 and 2012

The Statements of Cash Flows

The Statements of Cash Flows allow readers of the financial statements to assess the Association's ability to generate sufficient cash flow to meet its obligations in a timely manner. MVRMA's net cash and cash equivalents increased as of December 31, 2012 as a result of the call of callable securities near year end. Net cash and cash equivalents decreased during 2013 as those amounts were re-invested.

| | <u>2013</u> | <u>2012</u> | <u>2011</u> |
|---|---------------------|----------------------|---------------------|
| Cash flows provided by (used in) operating activities | \$ (266,459) | \$ 281,341 | \$ (287,562) |
| Cash flows used in capital and related financing activities | (3,583) | (17,831) | (4,956) |

| Net change in cash and cash equivalents | (8,502,773) | 4,848,776 | (2,998,512) |
| Cash and cash equivalents - beginning of year | <u>11,227,552</u> | <u>6,378,776</u> | <u>9,377,288</u> |
| Cash and cash equivalents - end of year | <u>\$ 2,724,779</u> | <u>\$ 11,227,552</u> | <u>\$ 6,378,776</u> |

2014 Projects and Future Plans

For 2014, MVRMA again placed its first layer of liability coverage with Government Entities Mutual, a protected cell reinsurance captive domiciled in the District of Columbia. This reinsurance layer is \$2.5 million excess MVRMA's self-insured retention of \$500,000. The next layer of reinsurance with General Reinsurance Corporation is \$7 million excess \$3 million. Total reinsurance premiums are expected to decrease by 2% in 2014, the fourth consecutive year such premiums have decreased.

Property insurance for the period 7/1/13-7/1/14 was again placed with Public Entities Property Insurance Program (PEPIP), the largest single property placement in the world. MVRMA's premium rate increased by 10.7% due to a general hardening of the property market and two sizable claims experienced by MVRMA in 2011. At this time, MVRMA is preparing for its 7/1/14 renewal and is anticipating a rate increase of less than 5%.

Contacting MVRMA

This financial report is designed to provide members, creditors and investors with a general overview of MVRMA's finances and to show MVRMA's accountability for the monies it receives. If you have any questions about this report or need additional information, contact Thomas Judy by writing 4625 Presidential Way, Kettering, OH 45429 or calling (937) 438-8878.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 1 – ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Miami Valley Risk Management Association, Inc. (the “Association”) is an Ohio not-for-profit Corporation organized for the public purpose of enabling its member political subdivisions to obtain insurance coverage. It provides methods for paying claims, and provides a formalized, jointly administered self-insurance pool. In addition to the self-insurance pool, the Association provides risk management services, loss prevention programs, and other educational programs and materials. The members of the Association include the following cities within the State of Ohio: Beavercreek, Bellbrook, Blue Ash, Centerville, Englewood, Kettering, Madeira, Mason, Miamisburg, Montgomery, Piqua, Sidney, Springdale, Tipp City, Troy, Vandalia, the Village of Indian Hill, West Carrollton, Wilmington and Wyoming.

Basis of Accounting – The Association follows the accrual basis of accounting as required for enterprise funds and is not legally required to adopt a budget. All transactions are accounted for in a single enterprise fund. The financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) applicable to local governments. The Governmental Accounting Standards Board (GASB) is the standard setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB’s Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification).

Member and Supplemental Contributions – The Association has classified its revenues as either operating or non-operating. Non-operating revenue primarily is the result of earning investment income. Member and supplemental contributions are recognized on the accrual basis and are recorded as revenue in the period earned. Member contributions are calculated and collected annually to produce a sum of money within the self-insurance pool adequate to fund administrative expenses and claims of the Association and to create adequate reserves for claims and unallocated loss adjustment expenses.

Under the terms of membership, should annual member contributions not be sufficient to fund ultimate losses, establish adequate reserves and cover administrative expenses, the Board of Trustees may require supplemental contributions. Supplemental contributions may be assessed during the entire life of the Association and any later period when claims or expenses, which are attributable to any membership year during which the event or claim occurred, need to be paid. Upon approval of the Board of Trustees, transfers from the Shock Loss Fund (“SLF”) (see note 6) may occur, in lieu of supplemental contributions. There were no supplemental contributions in 2013 or 2012.

Cash and cash equivalents consist of deposits with financial institutions, and a State of Ohio depository institution, having an original maturity of 90 days or less.

Claims deductibles represent the first \$2,500 of any claim paid by the Association which is reimbursed by Association members.

Investments are stated at fair value. Realized gains and losses are determined on the identified cost basis. Unrealized gain/(losses) are included in interest and other income.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

The Association's investment policy authorizes the Association to invest in the following:

- 1.) United States treasury bills, notes, bonds, or any other obligation or security issued by the United States treasury or any other obligation guaranteed as to principal and interest by the United States;
- 2.) Bonds, notes, debentures, or any other obligations or securities issued by any federal agency or instrumentality, including government sponsored enterprises. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- 3.) Deposits in eligible financial institutions;
- 4.) Bonds, notes, or other obligations of the State of Ohio and its political subdivisions;
- 5.) Investment grade corporate bonds (industrial, utility, or financial). Corporate bonds purchased shall be rated not lower than A2 by Moody's or A by S&P;
- 6.) Capital contributions to the Flexible Capital Program of Government Entities Mutual;
- 7.) The State Treasury Asset Reserve of Ohio (STAR Ohio) or such successor investment pools operated or managed by the Treasurer of the State of Ohio; and
- 8.) No-load money market mutual funds consisting exclusively of obligations described in 1 or 2 above.

Capital assets are carried at cost. Depreciation is provided on the straight-line basis at rates which are expected to amortize the costs of the assets over their estimated useful lives. All major classes of depreciable assets have a useful life of five years, except audio-visual material which is three years.

Claim Reserves and Unallocated Loss Adjustment Expenses – Provisions for claims reserves and claims adjustment expenses are based on information reported by members and are calculated by the Association's claims administrator and actuary. These amounts represent an estimate of reported, unpaid claims, plus a provision for claims incurred but not reported. The Association's management believes the estimate of the liability for claims reserves is reasonable and supported by valid actuarial calculations; however, actual incurred losses and loss adjustment expenses may not conform to the assumptions inherent in the determination of the liability. Accordingly, the ultimate settlement of losses and related loss adjustment expenses may vary from the estimated amounts included in the accompanying financial statements. Should the provision for claims reserves not be sufficient, supplemental contributions as discussed above may be assessed subsequent to Board approval.

Member Credits – The bylaws of the Association provide that surplus operating funds may be used to credit future annual contributions at the discretion of the Board of Trustees. For the year ended December 31, 2013, member contributions are presented net of a credit of \$100,000 and for the year ended December 31, 2012, \$40,000.

Member Refunds – Closed loss year refunds were \$3,254,320 for 2013 and \$1,276,154 for 2012. In addition to the closed loss year refunds, amounts relating to refunds of prior years' insurance premiums can be credited to members.

Net assets represent the excess of revenues over expenses since inception. It is displayed in three components as follows:

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Invested in capital assets consists of capital assets, net of accumulated depreciation.

Restricted consists of net assets that are legally restricted by outside parties or by law through constitutional provisions or enabling legislation.

Unrestricted consists of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

As of December 31, 2013 and 2012, the Association has no “restricted” net assets. Under certain conditions, the Association may distribute all or part of the net assets to those members who constituted the self-insurance pool during the years when such surplus member funds were earned, provided that such members must also be members of the Association in the year in which said distribution is made.

In the event of termination of the Association, all members of the Association, past and present, are obligated for any necessary supplemental contributions attributable to the years during which they were members. After all claims and related expenses have been properly paid or reserves established for the payment of any such claims, any surplus member funds shall be distributed to members in proportion to their interest in such surplus member funds.

Income taxes – The Internal Revenue Service has ruled that premiums and investment income with respect to premium receipts are excluded from taxable income of the Association under Section 115 of the Internal Revenue Code of 1986. Therefore, the Association is not subject to tax.

Operating Revenues and Expenses – Operating revenues are those revenues that are generated directly from primary activities. For the Association, these revenues are member contributions and claims deductibles received from members. Operating expenses are the necessary costs incurred to provide the services that are the primary activity. All revenue and expenses not meeting these definitions are reported as non-operating.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 2 – DEPOSITS AND INVESTMENTS

Deposits as of December 31, 2013 and December 31, 2012

Custodial Credit Risk – Custodial credit risk with respect to bank deposits is the potential for loss of the Association’s deposits in the event of the failure of a depository financial institution. Protection of the Association’s cash and deposits is provided by the Federal Deposit Insurance Corporation as well as qualified securities pledged by the institution holding the assets. By law, financial institutions must collateralize all public deposits. The face value of the pooled collateral must equal at least 105% of public funds deposited. Collateral is held by trustees including the Federal Reserve Bank and designated third parties of the financial institution. The Association’s investment policy states the amount of collateral provided will not be less than 110% of the fair market value of the net amount of the Association’s funds secured, except in the case of pooled collateral, where the collateral will not be less than 105% and overnight repurchase agreements, where the collateral will not be less than 100% of the fair market value of the net amount of the Association’s funds secured.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

At December 31, 2013, the carrying amount of the Association's deposits was \$2,724,779. The bank balance was \$2,736,282, and of this amount, \$276,728 was insured by federal depository insurance. Based on the criteria described in GASB Statement No. 40, "Deposit and Investment Risk Disclosures", \$2,459,554 of the Association's bank balance was exposed to custodial risk and was collateralized with securities held by the pledging financial institution's trust department or agent but not in the Association's name.

At December 31, 2012, the carrying amount of the Association's deposits was \$11,227,552. The bank balance was \$11,271,988, and of this amount, \$281,950 was insured by federal depository insurance. Based on the criteria described in GASB Statement No. 40, "Deposit and Investment Risk Disclosures", \$10,990,038 of the Association's bank balance was exposed to custodial risk and was collateralized with securities held by the pledging financial institution's trust department or agent but not in the Association's name.

Investments as of December 31, 2013 and December 31, 2012

At December 31, 2013, the Association had the following investments:

| Investment | Fair Value | Investment Maturities | | | |
|---------------------------|-------------------|-----------------------|------------------|------------------|----------------------|
| | | Less than 6 months | 6 mo. to 1 year | 1 to 3 years | Greater than 3 years |

Note: For the purposes of disclosing interest rate risk, the maturity date of variable rate bonds is the next interest reset date. For other callable securities, the maturity date is the estimated call date.

Interest Rate Risk – Interest rate risk is the risk that the value of investments will decrease as a result of an increase in interest rates. To limit interest rate risk, the Association’s investment policy limits security purchases to those that mature within five years of the settlement date.

Credit Risk – Credit risk for holders of debt securities is the risk that the debtor will not be able to make its scheduled payments. The Association’s investments with the Federal Home Loan Mortgage Corporation, Federal Home Loan Bank, Federal National Mortgage Association and Federal Farm Credit Bank are rated AA+ by Standard & Poor’s. The Association’s investment in GEM is not rated. The City’s investment policy requires corporate bonds, when purchased, to be rated not lower than A2 by Moody’s or A by Standard & Poor’s. As of 12/31/13, all corporate bonds held by the Association met or exceeded these benchmarks.

Custodial Credit Risk – For an investment, custodial credit risk is the risk that an investor might be unable to recover the value of an investment in the possession of an outside third party should the counterparty to the investment transaction fail. The Association’s investment in Government Entities Mutual is subject to custodial credit risk. The Association’s investments in debt securities of FHLB, FNMA, FHLMC, FFCB and the various corporate issuers are either registered in the Association’s name or held in pledge accounts of the custodial financial institutions and the underlying records of the custodial financial institutions support the Association’s claim to the investments; therefore, these investments are considered to be held in the Association’s name and are not subject to custodial credit risk.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Concentration of Credit Risk – The Association’s investment policy states “no more than 25% of the total investment portfolio shall be invested with any one eligible financial institution as a time deposit at the time a deposit is made, exclusive of United States Treasury securities, all Federal Agency securities, and STAR Ohio.” Five percent or more of the Association’s investments were in the following at December 31, 2013 and December 31, 2012:

| <u>Investment</u> | <u>% as of 12/31/13</u> | <u>% as of 12/31/12</u> |
|--|-----------------------------|-----------------------------|
| Federal Home Loan Bank | 49.3% | 29.4% |
| Federal Farm Credit Bank | 7.9% | 5.4% |
| Federal Home Loan Mortgage Corporation | 10.5% | 21.3% |
| Federal National Mortgage Association | 10.4% | 21.6% |
| Corporate bonds | 12.6% | 0.0% |
| Government Entities Mutual | 7.8% | 16.0% |
| Certificates of Deposits | 1.5% | 6.3% |

NOTE 3 – CAPITAL ASSETS

Capital assets activity for the year ended December 31, 2013, was as follows:

| | <u>Balance 01/01/13</u> | <u>Additions</u> | <u>Transfers/ Disposals</u> | <u>Balance 12/31/13</u> |
|---|-----------------------------|------------------|---------------------------------|-----------------------------|
| Capital Assets Being Depreciated: | | | | |

| Office Furniture | 23,275 | 214 | - | 23,489 |
| Total Property and Equipment | <u>163,837</u> | <u>3,583</u> | <u>(3,391)</u> | <u>164,029</u> |
| Less: Accumulated Depreciation | | | | |
| Audio-Visual | (67,469) | (2,029) | - | (69,498) |
| Equipment | (42,416) | (3,676) | 3,126 | (42,966) |
| Leasehold Improvements | (12,281) | - | - | (12,281) |
| Office Furniture | (22,030) | (62) | - | (22,092) |
| Total Accumulated Depreciation | <u>(144,196)</u> | <u>(5,767)</u> | <u>3,126</u> | <u>(146,837)</u> |
| Total Capital Assets Being Depreciated, net | <u>\$ 19,641</u> | <u>(2,184)</u> | <u>(265)</u> | <u>17,192</u> |

NOTE 4 – SELF-INSURED RETENTION

The Association retains responsibility for the payment of claims within specified self-insured retention limits prior to the application of coverage provided by excess insurance and reinsurance contracts. The Association’s per-occurrence retention limit for all liability matters, excluding property, was \$500,000 in 2013 and 2012. Property had a per occurrence retention limit of \$250,000 for 2013 and 2012. For all years, boiler and machinery had a per occurrence retention limit from \$10,000 to \$350,000 depending upon boiler size. For every occurrence, the member was charged a deductible equal to the amount of the claim or \$2,500, whichever was less.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

NOTE 5 – INSURANCE AND REINSURANCE CONTRACTS

The Association maintains insurance and reinsurance contracts with insurance carriers who provide various limits of coverage over the Association's self-insured retention limits. Under the Association's bylaws, the Board of Trustees annually determines the types of insurance/reinsurance to purchase as well as appropriate limits. For the loss years ended December 31, 2013 and 2012, the Association purchased the following types of insurance/reinsurance in excess of the Association's self-insured retention:

| Insurance/Reinsurance | Per-Occurrence Limits (Except as noted) | |
|--|--|---------------|
| | 2013 | 2012 |
| General liability (including law enforcement) | \$9,500,000 | \$9,500,000 |
| Automobile liability | 9,500,000 | 9,500,000 |
| Public official liability: | | |
| Per occurrence | 9,500,000 | 9,500,000 |
| Per member annual aggregate | 9,500,000 | 9,500,000 |
| Employment Practices Liability: | | |
| Per occurrence | 9,500,000 | 9,500,000 |
| Per member annual aggregate | 9,500,000 | 9,500,000 |
| Property (excluding flood and earthquake) | 1,000,000,000 | 1,000,000,000 |
| Flood and earthquake - property - per occurrence & annual aggregate | 25,000,000 | 25,000,000 |

In 2012, MVRMA reinsured its casualty program with Government Entities Mutual (a protected cell reinsurance captive domiciled in the District of Columbia) for \$1.5 million excess its \$500,000 self-insured retention and from General Reinsurance Corporation for \$8 million excess \$2 million. In 2013, Government Entities Mutual reinsured \$2.5 million excess of MVRMA's \$500,000 self-insured retention and General Reinsurance Corporation reinsured \$7 million excess \$3 million.

In 1996, the Association established a Shock Loss Fund (SLF) to replace the aggregate stop-loss policy. The Association's members contribute to the SLF based on a moving target equal to the annual loss fund. The Association's members annually fund approximately 15 percent of the moving target until the balance of the SLF is equivalent to the current year's annual loss fund. Once a member has at least the current year's regular loss fund contribution on account in the Association's SLF, it is not required to contribute additionally to the SLF. Any member whose balance falls below its targeted amount is required to contribute the amount needed to reach its targeted amount, or 15% of the current annual loss year contribution, whichever is less. In 2013 and 2012, no funds were transferred from the SLF.

In the event that a series of losses or a single loss should exceed the amount of coverage provided by the self-insurance fund and insurance/reinsurance and any amount of supplemental payments for which members are obligated, then the payment of any uncovered value loss is the obligation of the individual member or members against which the claims were made. In the unlikely event that all or any of the insurance companies are unable to meet their obligations under the excess insurance and reinsurance contracts, the Association and its members would be responsible for such defaulted amounts in accordance with the applicable policy terms and conditions.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012**NOTE 6 – CLAIMS RESERVE**

As discussed in Note 1, the Association establishes a claims reserve liability which includes both reported and unreported insured events and estimates of future payment of losses and related claims adjustment expenses. The changes in the aggregate liabilities for the Association are as follows:

| | December 31 | |
|--|----------------------------|-------------------------|
| | 2013 | 2012 |
| Unpaid claims and claim adjustment expenses - Beginning of Year | \$ <u>3,636,562</u> | <u>4,242,820</u> |
| Incurred claims and claim adjustment expenses: | | |
| Provision for insured events of the current year | 1,624,666 | 1,866,607 |
| Decrease in provision for insured events of prior years | (804,270) | (739,483) |
| Change in unallocated expense provision | <u>(8,275)</u> | <u>(42,550)</u> |
| Total incurred claims and claim adjustment expenses | <u>812,121</u> | <u>1,084,574</u> |
| Payments: | | |
| Claims and claim adjustment expenses attributable to insured events of the current year | 359,331 | 317,336 |
| Claims and claim adjustment expenses attributable to insured events of prior years | <u>479,904</u> | <u>1,373,496</u> |
| Total Payments | <u>839,235</u> | <u>1,690,832</u> |
| Unpaid claims and claim adjustment expenses - End of Year | \$ <u><u>3,609,448</u></u> | <u><u>3,636,562</u></u> |

NOTE 7 - PUBLIC EMPLOYEES RETIREMENT SYSTEM DEFINED BENEFIT PENSION PLAN

Plan Description - All of the Association's employees are covered by the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. 1.) The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. 2.) The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the member directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions, plus any investment earnings. 3.) The Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to, but less than, the Traditional Plan benefit. Member contributions, the investment of which is self-directed by the member, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits and annual cost of living adjustments to members of the Traditional and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

Funding Policy - The Ohio Revised Code provides statutory authority for member and employer contributions. For 2013, member and employer contribution rates were consistent across all three plans. For the years ended December 31, 2013 and 2012, members contributed 10% of covered payroll.

Employer contribution rates are actuarially determined. The Ohio Revised Code currently limits the employer contribution to a rate not to exceed 14%.

A portion of the employer's contribution to OPERS is set aside for the funding of post retirement health care benefits. The Association's contribution rate for 2013 and 2012 was 14 percent. In 2012, the portion of employer contributions allocated to pension benefits for members in the Traditional Plan was 10%, while 4% went for healthcare. In 2012, the portion of employer contributions allocated to pension benefits for members in the Combined Plan was 7.95%, while 6.05% went for healthcare. In 2013, for both plans, the portion allocated to healthcare was decreased to 1%, while 13% was allocated to pension benefits.

The Association's required contributions for pension obligations to the traditional plan for the years ended December 31, 2013, 2012, and 2011 were \$41,258, \$31,419 and \$29,150, respectively. Ninety-seven percent has been contributed for 2013 and 100 percent for 2012 and 2011.

NOTE 8 - POSTEMPLOYMENT BENEFITS

In addition to the pension benefits described in Note 7, the Ohio Public Employees Retirement System (OPERS) provides postretirement health care coverage, commonly referred to as OPEB (other postemployment benefits). OPERS administers three separate pension plans, the Traditional Pension Plan (TP), the Member-Directed Plan (MD) and the Combined Plan (CP), all of which are described in Note 7.

Plan Description - OPERS maintains a cost-sharing multiple employer defined benefit post-employment health care plan, which includes a medical plan, prescription drug program and Medicare Part B premium reimbursement, to qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage.

In order to qualify for post-employment health care coverage, age and service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The health care coverage provided by OPERS meets the definition of OPEB as described in GASB Statement 45.

The Ohio Revised Code permits, but does not mandate, OPERS to provide OPEB benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report that may be obtained by writing to OPERS, 277 E. Town St., Columbus, OH 43215-4642 or by calling (614) 222-5601 or (800) 222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care coverage through their contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care coverage.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2013 and 2012, the Association contributed at a rate of 14.0% of covered payroll. This is the maximum employer contribution permitted by the Ohio Revised Code. Active members do not make contributions to the OPEB Plan.

MIAMI VALLEY RISK MANAGEMENT ASSOCIATION, INC.

NOTES TO THE BASIC FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

OPERS' post-employment health care plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). Each year, the OPERS Board of Trustees determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care benefits.

In 2012, the portion of employer contributions allocated to health care for members in the Traditional Plan was 4%. In 2012, the portion of employer contributions allocated to health care for members in the Combined Plan was 6.05%. In 2013, the portion of employer contributions allocated to health care was decreased to 1% for both plans. Effective January 1, 2014, the portion of employer contributions allocated to healthcare was increased to 2% for both plans, as recommended by the OPERS actuary. The OPERS Board of Trustees is also authorized to establish rules for the retiree or surviving beneficiaries to pay a portion of the health care benefits provided. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The Association's contributions allocated to fund post-employment health care benefits for the years ended December 31, 2013, 2012, and 2011 were \$3,174, \$12,567 and \$11,659, respectively. Ninety-seven percent has been contributed for 2013 and 100 percent for 2012 and 2011.

NOTE 9 – COMMITMENTS

Leases - The Association leases office space under a lease which was renewed for five years effective July 1, 2009. Rental expense for the lease was \$36,400 in 2013. Rental expense for the lease was \$36,400 in 2012. Future minimum annual lease payments are \$36,400 through June 30, 2014. An option to purchase the building was also included in the agreement. MVRMA may purchase the building for \$320,000 at any time during the lease term.

NOTE 10 – LITIGATION AND CLAIMS

The Association is party to various legal proceedings, which normally occur in the course of claims processing operations. Management believes that the outcome of such claims has been adequately accrued in the claims reserve liability, and excess will be covered by insurance carriers that provide excess insurance and reinsurance contracts. Nevertheless, due to uncertainties in the settlement process, it is at least reasonably possible that management's view of the outcome could change materially in the near term.

NOTE 11 - CHANGE IN ACCOUNTING PRINCIPLES

For the year ended December 31, 2013, the Association implemented the provisions of Governmental Accounting Standards Board (GASB) Statement No. 61, *The Financial Reporting Entity: Omnibus an amendment of GASB Statements No. 14 and No. 34*, and GASB Statement No. 66, *Technical Corrections – 2012*. GASB Statement No. 61 modifies the criteria to be used in determining the reporting entity, including component units. GASB Statement No. 66 changes the requirement to account for risk financing (self-insurance) within the general or internal service funds, eliminates guidance on accounting for operating lease payments that vary from a straight-line basis, changes the determination of the carrying value of purchased loans or group of loans, and modifies the manner in which service fees should be reported on mortgage loans sold. Neither of these statements required the Association to restate any prior year balances.

Re: Analysis of Unpaid Loss and LAE as of December 31, 2013

Dear Mr. Judy:

Attached is Pinnacle Actuarial Resources, Inc.'s (Pinnacle's) final report on the unpaid loss and loss adjustment expense (LAE) amounts of Miami Valley Risk Management Association (MVRMA) as of December 31, 2013.

This final report replaces and supersedes the draft report.

Attention is called to the section of the report entitled *Distribution*, which sets out the limits on distribution of the report.

We have prepared this report so that MVRMA may comply with requirements of the state of Ohio concerning the need for a written actuarial report and reserve adequacy opinion. A copy of this report should be retained in MVRMA's offices for a seven-year period in support of the loss reserves that will be contained in the 2013 financial statement. The report should be made available for insurance regulatory examination, upon request.

This report contains workpapers, trade secrets, and confidential information of both MVRMA and Pinnacle, and as such, it is not intended to be subject to disclosure requirements under any Freedom of Information Act or similar laws.

I, N. Terry Godbold, am a member of the American Academy of Actuaries and meet its qualification standards to render the actuarial opinion contained herein.

We have enjoyed working with you in the preparation of this report. Please let us know if you have any questions.

Very truly yours,

N. Terry Godbold, ACAS, MAAA, FCA
Principal and Consulting Actuary

Miami Valley Risk Management Association

Analysis of Unpaid Loss and LAE as of December 31, 2013

PURPOSE AND SCOPE

Pinnacle Actuarial Resources, Inc. (Pinnacle) was retained by Miami Valley Risk Management Association (MVRMA) to prepare an actuarial analysis of MVRMA's loss and loss adjustment expense (LAE) experience for the purpose of developing estimates of unpaid loss and LAE as of December 31, 2013.

This report was prepared for the internal use of MVRMA management to present our findings with respect to this analysis. It is our understanding that MVRMA management will consider our findings for the purposes of establishing liability estimates for external financial reporting and internal management reporting.

In addition, this report serves as support for the required Statement of Actuarial Opinion rendered by N. Terry Godbold, an independent consultant to MVRMA and Principal of Pinnacle (collectively referred to herein as Pinnacle), concerning MVRMA's loss and LAE reserves as of December 31, 2013. The applicable accounting standards are generally accepted accounting principles (GAAP). Mr. Godbold was appointed by the MVRMA's Board of Trustees on September 25, 2012.

Our report is not intended or necessarily suitable for any other purpose.

In this report, we develop an actuarial central estimate of MVRMA's unpaid loss and LAE as of December 31, 2013. This actuarial central estimate is intended to represent an expected value over a range of reasonably foreseeable outcomes. The actuarial central estimate was arrived at through evaluation of the results of various actuarial methods and models applied to MVRMA's experience. As such, the derivation of this estimate does not reflect extreme events believed to have a remote possibility of occurring. We consider the actuarial central estimate suitable for use in financial reporting contexts.

The exhibits attached in support of our conclusions are an integral part of this report. This section has been prepared so that our actuarial assumptions and judgments are documented. Judgments about the analysis and findings presented in this report should be made only after considering the report in its entirety. Our projections are predicated on a number of assumptions as to future conditions and events. These assumptions are documented in subsequent sections of this report, and should be understood in order to place the actuarial estimates in their appropriate context. In addition, these projections are subject to a number of reliances and limitations, as described in subsequent sections of this report.

We are available to answer any questions that may arise regarding this report. We assume that the user of this report will seek such explanation on any matter in question.

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

The scope does not include quantification of the uncertainty in our estimates. However, our report includes commentary on this uncertainty to assist in understanding the financial implications of our results.

For the purposes of our report, the “accounting date” of December 31, 2013 is the date used to separate paid and unpaid claim amounts in MVRMA’s financial statement. Transactions through the “valuation date” of December 31, 2013 are included in the data used in our analysis. No account has been taken in the projections of developments subsequent to the “review date” of March 26, 2014.

Paid losses provided to us are net of salvage and subrogation. Therefore loss reserve estimates derived from this data would implicitly anticipate salvage and subrogation. The other recoverables considered in our reserve estimates are individual member liabilities and ceded excess insurance.

All loss and LAE amounts are stated on an undiscounted basis as regards future investment income.

We have reviewed MVRMA’s exposure to asbestos and environmental claims. In our opinion, the chance of material liability related to asbestos and environmental claims is remote, since no such claims have been reported to date, and MVRMA did not write lines of business that are typically exposed to such losses.

MVRMA does not write any business that would require the establishment of reserves for the death, disability, and retirement (DD&R) waiver of premium endorsement. Therefore, MVRMA has not established a provision for the “extended loss and expense reserve.”

MVRMA has represented that it has no unearned premium for long duration contracts defined as single or fixed premium policies with coverage periods of thirteen months or greater which are non-cancelable and not subject to premium increase.

MVRMA has represented that it has not entered into any excess insurance transaction that either has been or should have been accounted for as retroactive reinsurance or as financial reinsurance (defined as contractual arrangements that do not include a transfer of both timing and underwriting risk).

We have not reviewed any additional or return premiums or commissions due to or from MVRMA arising from loss sensitive insurance contracts.

Throughout this report, the use of the term *loss* without modification includes loss and allocated loss adjustment expenses (ALAE), but does not include unallocated loss adjustment expenses (ULAE).

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

This actuarial report and underlying workpapers supporting the findings in our Statement of Actuarial Opinion are being provided to MVRMA to be retained for a period of seven years in its administrative offices and to be available for examination by its members and for regulatory examination, if appropriate.

Loss adjustment expenses include but are not limited to the costs of administering, determining coverage for, settling, or defending claims even if it is ultimately determined that the claim is invalid.

Funding for MVRMA's losses and loss expenses is accomplished via annually budgeted contributions. In the event the pool requires additional funds, such amounts can be obtained via a call for special assessments by MVRMA's Board of Trustees for supplementary payments.

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

DISTRIBUTION

Our report is delivered under the following terms and conditions:

- This report is provided to MVRMA solely for the intended purpose, and may not be referenced or distributed to any other party without our prior written consent
- This report has been prepared for use by persons technically competent in the areas covered and with the necessary background information
- Draft versions of this report must not be relied upon by any person for any purpose
- This report is available for regulatory examination
- A copy of this report may be shared with MVRMA's independent auditors solely in the context of their performing regular audit activities

We accept no responsibility for any consequences arising from any third party relying on this report. If we agree to provide this report to a third party, you are responsible for ensuring that the report is provided in its entirety, that the third party is made aware of the fact that they are not entitled to rely upon it, and that they may not distribute the report to any other party.

This report contains workpapers, trade secrets, and confidential information of both MVRMA and Pinnacle. Because of the nature of the material contained in the report, it is not intended to be subject to disclosure requirements under any Freedom of Information Act or similar laws.

Miami Valley Risk Management Association

Analysis of Unpaid Loss and LAE as of December 31, 2013

BACKGROUND

MVRMA has provided insurance coverage for its members since December 1, 1988. As of December 31, 2013 the pool was comprised of the following 20 entities: Beavercreek, Bellbrook, Blue Ash, Centerville, Englewood, Kettering, Madeira, Mason, Miamisburg, Montgomery, Piqua, Sidney, Springdale, Tipp City, Troy, Vandalia, the Village of Indian Hill, West Carrollton, Wilmington and Wyoming. MVRMA provides coverage for several lines of insurance including commercial property, comprehensive general liability, automobile liability, automobile physical damage, law enforcement liability, public official's liability, crime, ambulance attendants, and boiler and machinery.

This report groups all losses into three categories: automobile liability, general liability, and property (which includes auto physical damage). Each line is analyzed for annual periods December 1, 1988 through December 31, 2013. The results of the report are not intended to apply to any other entities, lines of insurance, or periods.

Prior to December 31, 1994, claim adjustment services were provided to MVRMA through Gallagher Bassett Insurance Services, Incorporated. Gallagher Bassett continued to adjust run-off claims for the period December 1, 1988 through December 31, 1994. As of December 31, 2013, there are no outstanding claims from this claim period.

Effective January 1, 1995, MVRMA began to employ an in-house claims staff. Detailed claims data was provided to us by MVRMA's claims department for accident periods 1989 through 2013. Gallagher Bassett Insurance Services, Inc. provided an overall summary by accident period for years 1989 through 1993, while MVRMA provided such summaries by line of business for accident periods 1994 through 2013. Excess insurance limits were provided by MVRMA.

Data

We were provided with "gross" paid and incurred loss and ALAE by accident period, by line of business. The term "gross" means before consideration of recoverables from excess carriers and member deductibles. Paid losses are net of salvage and subrogation.

In my review, I have relied on listings and other relevant data, prepared by Tom Judy, Executive Director of MVRMA and Craig Blair, Claims Manager of MVRMA. I evaluated that data for reasonableness and consistency. I was not able to reconcile the data to the data included in the annual report because this report is not available at this time. We are relying on the audit procedures of MVRMA's independent public accountant and claims auditor to verify the accuracy of the data underlying our analysis. If the underlying data or information is inaccurate or incomplete, the results of our analysis may likewise be inaccurate or incomplete.

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

We have adjusted the data provided to us by Craig Blair as of December 31, 2013 for the following large losses to their appropriate retention level by accident year within line of business.

| Claim | Accident Year | Line | Retention | Amount of Loss |
|-------------|---------------|----------|-----------|----------------|
| Dahm | 1993 | GL | \$250,000 | \$856,100 |
| McRoberts | 1997 | GL | \$500,000 | \$1,124,539 |
| Janson | 1997 | AL | \$500,000 | \$946,494 |
| Montgomery | 1999 | Property | \$150,000 | \$299,298 |
| McCaughey | 2002 | GL | \$500,000 | \$719,153 |
| Windstorm | 2008 | Property | \$200,000 | \$320,356 |
| Wind, Hail | 2011 | Property | \$250,000 | \$935,427 |
| Gas Turbine | 2011 | Property | \$250,000 | \$1,084,871 |

Net Retention Limits

The following table details the MVRMA self-insured retention (SIR) per occurrence for casualty and property coverages separately by accident year.

| Accident Year | Casualty - SIR | Property - SIR |
|---------------|----------------|---------------------|
| 1993 & Prior | \$250,000 | \$250,000 |
| 1994 | \$250,000 | \$100,000 |
| 1995 | \$250,000 | \$150,000 |
| 1996 | \$250,000 | \$250,000 |
| 1997-1998 | \$500,000 | \$250,000 |
| 1999-2001 | \$500,000 | \$150,000 |
| 2002 | \$500,000 | \$250,000 |
| 2003-2004 | \$1,000,000 | \$250,000 |
| 2005-2008 | \$1,000,000 | \$200,000 |
| 2009 | \$1,000,000 | \$200,000/\$250,000 |
| 2010-2013 | \$500,000 | \$250,000 |

The first \$2,500 of each occurrence is treated as a deductible by the pool member who suffered the loss. MVRMA did not have an aggregate stop loss policy for periods prior to December 31, 1990; however, there is an \$850,000 aggregate “property and casualty combined” stop loss in place for the accident periods 1991 through 1993 and a \$950,000 aggregate “casualty only” stop loss for the 1994 and 1995 accident periods. There is no aggregate stop loss policy for accident periods 1996 and subsequent; rather MVRMA is aggregating premiums previously paid

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

for such coverage into an accumulating “shock loss” fund to be used at the discretion of the MVRMA Board.

Excess Insurance

The following table is a synopsis of the historical excess liability coverage carried by MVRMA:

| Accident Year | Liability Excess Coverage | Provider |
|---------------|--|---|
| 1997-2002 | \$10M excess of \$1M | National Public Entity Excess Program (NPX) |
| 2003 | \$11M excess of \$1M | Government Entities Mutual, Inc. (GEM)/ Endurance Specialty Insurance Limited |
| 2004 | \$1M excess of \$1M \$5M excess of \$2M | GEM Insurance Co. of the State of PA (AIG) |
| 2005 | \$1M excess of \$1M \$5M excess of \$2M | GEM Illinois Union Insurance Company (ACE) |
| 2006-2008 | \$1M excess of \$1M \$8M excess of \$2M | GEM Munich Reinsurance America |
| 2009 | \$1M excess of \$1M \$8M excess of \$2M | GEM General Reinsurance Corporation |
| 2010-2012 | \$1.5M excess of \$500K \$8M excess of \$2M | GEM General Reinsurance Corporation |
| 2013 | \$2.5M excess of \$500K \$7M excess of \$3M | GEM Genesis |

GEM is a protected cell reinsurance captive domiciled in the District of Columbia. GEM is sponsored by the National Association of Government Entity Programs, Inc. (NAGEP), a non-profit association incorporated in the District of Columbia.

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

FINDINGS

Based on our analysis of MVRMA's experience as of December 31, 2013, and subject to the considerations set forth in the *Reliances and Limitations* section, we have reached the conclusions set forth below.

Unpaid Loss and LAE as of December 31, 2013

The estimated total net undiscounted unpaid loss and LAE as of December 31, 2013 is \$3,609,448. MVRMA's carried reserves on the same basis are \$3,609,448. MVRMA sets its December 31, 2013 reserves at Pinnacles's indicated actuarial central estimate.

Statement of Actuarial Opinion

This is a Reasonable Opinion. Since MVRMA's management will use Pinnacle's actuarial central estimate for its estimate of net loss and loss expense reserves in its 2013 annual report, we believe that these reserves make a reasonable provision for all unpaid loss and loss expense obligations of MVRMA as of December 31, 2013. It is my Opinion that the net loss and loss expense reserves carried by MVRMA and to be shown in its 2013 annual financial report:

- Meet the relevant requirements of the insurance laws of Ohio;
- Are consistent with reserves computed in accordance with the Casualty Actuarial Society's Statement of Principles Regarding Property and Casualty Loss and Loss Adjustment Expense Reserves and relevant Standards of Practice promulgated by the Actuarial Standards Board; and
- Make a reasonable provision in the aggregate for all unpaid losses and loss adjustment expenses, net of excess insurance ceded and member liabilities, for the liabilities associated with the specified reserves.

This Opinion applies to loss and loss adjustment expenses combined.

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

Risk of Material Adverse Deviation

We have evaluated whether there are significant risks and uncertainties associated with MVRMA's loss and LAE liabilities that could result in material adverse deviation of the held reserves. Based on our analysis, we do not believe such risks and uncertainties are present as of December 31, 2013. The absence of such risks and uncertainties at this time does not imply that factors will not be identified in the future as having been a significant influence on the MVRMA's reserves.

In consideration of the use of this Opinion for purposes of solvency monitoring, we consider \$2.56 million to be material for MVRMA, calculated as 20.0% of MVRMA's 2012 net assets of \$12,803,104. Factors related to our selection of this standard include the following:

- MVRMA's ratio of indicated loss and LAE reserves to 2012 net assets of .28
- Consistency with materiality standards utilized in financial examinations
- The ratio of the materiality standard of \$2.56 million to indicated reserves of \$3.61 million of .71

Development in Loss and ALAE Estimates from Prior Analysis

During calendar year 2013, MVRMA's actual net loss experience developed better than expected relative to the loss development projected in our prior analysis based on data evaluated as of December 31, 2012. The favorable ultimate loss development totaled approximately \$753,000 compared to estimates based on data evaluated as of December 31, 2012 on a net basis. The preponderance of the favorable development is attributable to accident years 2011 and 2012. The two most recent years is where we would expect the most fluctuation. The unfavorable development for accident year 2009 was primarily the result of the development of the Boucher claim in the General Liability line increasing from an incurred loss of \$115,000 to \$542,500.

Miami Valley Risk Management Association

Analysis of Unpaid Loss and LAE as of December 31, 2013

ANALYSIS

Our analysis consisted of the steps outlined below.

Development Patterns

Our projection of future claim reporting and payment is based on MVRMA's historical experience. Using historical loss development experience provided by MVRMA, we select report-to-report (RTR) development factors. In cases for which MVRMA's historical data is not sufficiently credible, stable, or mature, we have supplemented MVRMA's experience with benchmark reporting and payment patterns.

Benchmark patterns are constructed internally by Pinnacle, drawing upon available relevant sources of loss development data. Benchmarks are revised periodically as new information and trends emerge. While each company's own development can be expected to vary from the benchmark based on individual circumstances, we believe the benchmark is an appropriate supplement to the analysis of MVRMA's data, as it represents our current judgment as to the typical emergence of loss that can be expected for that class of business.

The selected development patterns are used for both the development and Bornhuetter-Ferguson (B-F) projection methods.

Initial Expected Loss Costs

The selected initial expected loss costs (IELCs or loss per exposure) are based on a review of the paid and incurred loss development methods, the results of prior analyses, insurance industry indications, and observed trends. These IELCs form the basis of the B-F and expected loss projection methods.

Selected Ultimate Losses

In general, our selected ultimate losses are based on the results of various projection methods. Our selections are based on judgment reflecting the range of estimates produced by the methods, and the strengths and weaknesses of each method. These methods are described in the *Description of Projection Methods* section of this report.

Unallocated Loss Expense Reserve

ULAE's are loss expenses that are generally not allocable to specific claims. ULAE includes overhead costs and non-legal expenses associated with adjusting claims. To derive an estimate of this ULAE reserve, we projected the number of closed and reported claims to their ultimate values. Based on the closed claim development pattern and our estimate of the ultimate number of claims, we estimated the number of open claims remaining by line of business for

Miami Valley Risk Management Association

Analysis of Unpaid Loss and LAE as of December 31, 2013

each year in the future. MVRMA has indicated that a charge of \$825 per open claim for liability claims and \$250 per open claim for property claims for each of the years that a claim remains open is a reasonable estimate for the unallocated loss adjustment expense. Based on a review of several of our clients with similar exposures we believe these charges are reasonable. Using our estimate of the number of future open liability claims of 151 multiplied by the \$825 per open liability claim and adding to it our estimate of the number of future open property claims of 41 multiplied by the \$250 per open property claim, we derived our estimate of the ULAE reserve of \$134,825 shown on Summary Exhibit 1.

We relied on this one method to develop an estimate of indicated ULAE reserves. We recognize there are other methods used by actuaries for estimating ULAE reserves. Regardless, this method, which relies on projecting future claim counts and assigning a unit cost to handle such claims, is in common practice and is widely accepted.

General Overview of Exhibits

In arriving at the results shown in Exhibit 1.2 for each line of business, the analysis employs the standard actuarial techniques described in the *Description of Projection Methods* section. Each loss incurred by MVRMA was categorized as an automobile liability, general liability, or property and physical damage loss. For each coverage analyzed, the same methodology was used. Exhibit 1.3 shows the results of the application of industry development factors to MVRMA's loss experience for each coverage. Exhibit 2 for General Liability and Automobile Liability shows the results of the application of our selected \$500,000 retention loss development factors for MVRMA to MVRMA's loss experience for each line of business. Exhibit 3 for General Liability and Automobile Liability shows the results of the application of our selected \$1,000,000 retention loss development factors for MVRMA to MVRMA's loss experience for each line of business. Exhibit 2 for Property shows the results of the application of our selected \$250,000 retention loss development factors for MVRMA to MVRMA's loss experience. Exhibit 4 in the Auto Liability analysis, Exhibit 4 in the General Liability analysis and Exhibit 3 in the Property and Auto Physical Damage analysis develop estimates of ultimate claims based on reported and closed claim development.

Based on the results of the various actuarial methods shown in Exhibit 1.2 for each line of business, ultimate losses by accident period were selected and are shown in the last column of Exhibit 1.2. Summary Exhibit 2 summarizes our ultimate loss selections by coverage for each accident period. The combined losses are then limited by the aggregate stop loss in effect, resulting in ultimate retained losses prior to consideration of individual member liability. The effect of MVRMA's stop loss policies is to limit MVRMA's losses, on a combined coverage basis, for a given accident period.

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

Of MVRMA's twenty-five years of experience, only the accident period 1/1/93-12/31/93 was affected by the annual aggregate limit (Summary Exhibit 2).

Miami Valley Risk Management Association

Analysis of Unpaid Loss and LAE as of December 31, 2013

RELIANCES AND LIMITATIONS

Inherent Uncertainty

Projections of loss and LAE liabilities are subject to potentially large errors of estimation, since the ultimate disposition of claims incurred prior to the financial statement date, whether reported or not, is subject to the outcome of events that have not yet occurred. Examples of these events include jury decisions, court interpretations, legislative changes, changes in the medical condition of claimants, public attitudes, and social/economic conditions such as inflation. Any estimate of future costs is subject to the inherent limitation on one's ability to predict the aggregate course of future events. It should therefore be expected that the actual emergence of losses and LAE will vary, perhaps materially, from any estimate. Thus, no assurance can be given that MVRMA's actual loss and LAE liabilities will not ultimately exceed the estimates contained herein. In our judgment, we have employed techniques and assumptions that are appropriate, and the estimates presented herein are reasonable, given the information currently available.

Note that a quantification of this uncertainty would likely reflect a range of reasonable, favorable and adverse scenarios, but not necessarily a range of all possible outcomes. Further, the proper application of any range is dependent on the context. MVRMA's financial reports are governed by accounting standards, and such standards vary among jurisdictions. Under current accounting standards, the ends of a range that is illustrative of uncertainty would likely not be suitable for financial reporting purposes.

Sensitivity Analysis

In performing this analysis, the sensitivity of key variables was considered. A number of assumptions about model variables are made in our analysis. We consider the key variables to include the selection of RTR factors, initial expected loss costs and loss cost trend factors. The overall results are potentially sensitive to any of these, and reasonable alternative selections could change the results significantly (favorably or adversely). Our intent is neither to be overly optimistic nor conservative in making our selections.

Data Reliance

Throughout this analysis, we have relied on historical data and other quantitative and qualitative information supplied by MVRMA. We have not independently audited or verified this information; however, we have reviewed it for reasonableness and internal consistency. We have assumed that the information is complete and accurate, and that we have been provided with all information relevant to the analysis of MVRMA's ultimate losses and LAE. The accuracy of our results is dependent upon the accuracy and completeness of the underlying

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

data; therefore, any material discrepancies discovered in this data should be reported to us and this report amended accordingly, if warranted.

MVRMA has indicated that it will require that their independent certified public accountant subject the data significant to our loss and LAE projections to testing procedures.

Extraordinary Future Emergence

We have not anticipated any extraordinary changes to the legal, social, or economic environment that might affect the cost, frequency, or future reporting of claims. In addition, our estimates make no provision for potential future claims arising from loss causes not represented in the historical data (e.g., new types of mass torts or latent injuries, terrorist acts, etc.), except where claims of these types are included but not identified in the reported claims and are implicitly analyzed.

Projections by Accident Year

Consistent with the purpose of our engagement, the focus of our analysis was on MVRMA's overall reserves for unpaid claims. As such, projections shown in this report for each accident year should be viewed in the context of the entire portfolio of liabilities, not necessarily as best estimates for individual accident year.

Excess Insurance Collectibility

Our estimates are presented net of ceded excess insurance. Based solely on inquiries made of MVRMA management, we understand that none of MVRMA's excess insurance is considered uncollectible. An independent evaluation of the quality of security provided by MVRMA's excess insurers is outside the scope of our engagement. We have assumed that all of MVRMA's excess insurance protection will be valid and collectible. Contingent liability may exist for any excess insurance recoveries that may prove to be uncollectible. Should such liabilities materialize, they would be in addition to the net liability estimates contained herein.

Underlying Assets

We have not examined the assets underlying MVRMA's loss and LAE reserves, and we have formed no opinion as to the validity or value of these assets. We have assumed throughout the analysis that MVRMA's loss and LAE reserves are backed by valid assets with suitably scheduled maturities and/or adequate liquidity to meet cash flow requirements.

Miami Valley Risk Management Association

Analysis of Unpaid Loss and LAE as of December 31, 2013

DESCRIPTION OF PROJECTION METHODS

The choice of method to estimate ultimate losses should consider, among other things, the line of business, the number of years of experience, and the age of the experience year being developed. In general, these methods can be applied to losses, ALAE, and various measures of claim counts.

Incurred Development Method

The incurred development method is based upon the assumption that the relative change in a given year's incurred loss estimates from one evaluation point to the next is similar to the relative change in prior years' incurred loss estimates at similar evaluation points. In utilizing this method, actual annual historical incurred loss data is evaluated. Successive years can be arranged to form a triangle of data.

RTR development factors are calculated to measure the change in cumulative incurred costs from one evaluation point to the next. These historical RTR factors and comparable benchmark factors form the basis for selecting the RTR factors used in projecting the current valuation of losses to an ultimate basis.

This method's implicit assumption is that the relative adequacy of case reserves has been consistent over time, and that there have been no material changes in the rate at which claims have been reported.

Paid Development Method

The paid development method is similar to the incurred development method; however, case reserves are excluded from the analysis. While this method has the disadvantage of not recognizing the information provided by current case reserves, it has the advantage of avoiding potential distortions in the data due to changes in case reserving methodology.

This method's implicit assumption is that the rate of payment of claims has been relatively consistent over time.

Expected Loss Method

In the expected loss method, ultimate loss projections are based upon some prior measure of the anticipated losses, usually relative to some measure of exposure, such as number of cars, expenditures, etc. An expected loss cost is applied to the measure of exposure to determine estimated ultimate losses for each year.

Actual losses are not considered in this calculation. This method has the advantage of stability over time because the ultimate loss estimates do not change unless the loss costs change.

Miami Valley Risk Management Association

Analysis of Unpaid Loss and LAE as of December 31, 2013

However, this advantage of stability is offset by a lack of responsiveness since this method does not consider actual loss experience as it emerges.

This method is entirely dependent on the assumption that the loss cost per unit of exposure is a good indication of ultimate losses.

Incurred Bornhuetter-Ferguson Method

The incurred B-F method is essentially a blend of two other methods. The first method is the loss development method whereby actual incurred losses are multiplied by an expected loss development factor. For slow reporting coverages, the loss development method can lead to erratic and unreliable projections because a relatively small swing in early reportings can result in a large swing in ultimate projections. The second method is the expected loss method whereby the IBNR estimate equals the difference between a predetermined estimate of expected losses and actual incurred losses. This has the advantage of stability, but it does not respond to actual results as they emerge.

The incurred B-F method combines these two methods by setting ultimate losses equal to actual incurred losses plus expected unreported losses. As an experience year matures and expected unreported losses become smaller, the initial expected loss assumption becomes gradually less important.

Two parameters are needed to apply the B-F method: the initial expected loss cost (IELC) and the expected reporting pattern. The IELC is selected as described in the *Analysis* section, while the expected reporting pattern is based on the incurred loss development method described above.

This method is often used for long-tail lines and in situations where the incurred loss experience is relatively immature or lacks sufficient credibility for the application of other methods.

Paid Bornhuetter-Ferguson Method

The paid B-F method is analogous to the incurred B-F method using paid losses and development patterns in place of incurred losses and patterns.

Counts and Averages Method

The counts and averages method calculates ultimate losses by separately projecting ultimate claim counts and ultimate claim severity (cost per claim) for each experience period. Typically, loss development methods are used to project ultimate claims and severity based on historical data. Ultimate losses are calculated as the product of the two items. This method is intended to avoid distortions that may exist with the other methods for the most recent years as the result

Miami Valley Risk Management Association
Analysis of Unpaid Loss and LAE as of December 31, 2013

of changes in case reserve levels, settlement rates, etc. In addition, it may provide insight into the drivers of the loss experience.

In our review of loss reserves, we have selected four of the actuarial methods described above to determine a reasonable estimate of ultimate liabilities for each of the accident years: (1) Paid Loss Development, (2) Incurred Loss Development, (3) Average Paid Loss Per Closed Claim Development, and (4) Average Incurred Loss Per Reported Claim Development. Methods (1) and (2) were used applying insurance industry development patterns to the December 31, 2013 evaluations of each period's incurred and paid losses (Exhibit 1.3 for each line of business). Methods (1), (2), (3) and (4) were used applying MVRMA's experience development patterns to the December 31, 2013 evaluations of MVRMA's data.

Accident Years 2012 and 2013 Ultimate Loss Estimates

We also derived additional ultimate loss estimates for the two most recent accident years of 2012 and 2013 for the liability lines of business, namely, Automobile Liability and General Liability. Exhibit 2.11 displays an expected loss cost method based on MVRMA's historical losses adjusted to a \$500,000 retention for Automobile Liability and General Liability for accident years 2012 and 2013. Also displayed on Exhibit 2.11 are the results of the application of the two Bornhuetter Ferguson methods described above for these two accident years.

Miami Valley Risk Management Association
Statistical Section
December 31, 2013

This section of Miami Valley Risk Management's comprehensive annual financial report provides users with additional historical perspective, context, and detail to assist in using the information in the financial statements, notes to financial statements and required supplementary information to understand and assess the Association's overall financial health.

| <u>Contents</u> | <u>Page</u> |
|---|-------------|
| Financial Trends Information (Schedules 1, 2 & 3) These schedules contain trend information to help the reader understand and assess how the Association's financial position has changed over time. | 154 -156 |
| Revenue Capacity Information (Schedule 4) This schedule contains information to help the reader understand the sources of the Association's revenues. | 157 |
| Demographic and Economic Information (Schedules 5-26) These schedules contain information related to the demographics of the region as well as the Association's members' exposures, which determine each member's annual contribution. These schedules are intended to assist the reader in understanding the changing environment of the Association and to provide comparisons among its members. | 158 - 182 |
| Operating Information (Schedule 27) This schedule contains information about the Association's operations and resources to help the reader understand how the information in the financial report relates to the services the Association provides and the activities it performs. | 183 |

Note: The Association has no debt, and therefore, provides no schedules related to debt.

Sources: Unless otherwise noted, the information in these schedules is derived from the audited annual financial reports for the relevant year.

Note: Accounting standards require that net position be reported in three components in the financial statements: invested in capital assets net of related debt, restricted and unrestricted. The Association does not have any assets "restricted" by outside parties or by law through constitutional provisions or enabling legislation. The "unrestricted" assets are assets that do not meet the definition of "restricted" or "invested in capital assets net of related debt."

Notes:

- The data is as of 11/12/12 unless otherwise noted.
- "Avg. Annual Adjusted Losses" are calculated by averaging each member's losses for the years 2008, 2009, 2010 & 2011. Losses are adjusted in accordance with MVRMA's Loss Capping Policy and include both paid claims and open claim reserves. Loss data is as of August 31, 2012.
- Annually, all buildings valued in excess of \$50K, that were constructed or acquired since the previous year's on-site appraisal, are appraised. A Marshall and Swift index provided by Alliant Insurance Services is then used to update the value of existing appraised properties. For the 2013 Preliminary Budget, real property (appraised structures) was increased 2.63% and personal property (contents of appraised structures) was increased 1.98%. Values for contractors equipment, vehicles and any other property not appraised were updated and added to this total.
- "NOE" are calculated based upon the financial statements for the fiscal year most recently concluded by each member and include Governmental Funds (including Special Revenue Funds), and Proprietary Funds. The figures have been adjusted for debt service, capital improvements, and service contracts where risk has been effectively transferred to a third-party.

$$(3 \times \%AAAL) + (\%Population + \%FT Police + \% Other FT + \%Titled Vehicles + \% IRPRV + \%NOE) = PCF$$

Note: In 2007, NAWA, a joint venture water authority shared by the cities of Tipp City and Vandalia, was included as a separate entity when contribution factors were calculated for each member of the pool. Calculating a separate contribution factor for NAWA was simply a means of separating its premium from the cities of Tipp City and Vandalia. The 2007-2010 totals above include the following information submitted for NAWA:

| | | | | | | | | |
|-------------|---------|---|---|---|---|--------------|-------------|-------|
| NAWA - 2007 | \$0 | 0 | 3 | 0 | 0 | \$11,598,837 | \$84,130 | 0.16% |
| NAWA - 2008 | \$0 | 0 | 3 | 0 | 1 | \$11,946,350 | \$537,839 | 0.19% |
| NAWA - 2009 | \$8,750 | 0 | 3 | 0 | 1 | \$12,300,907 | \$819,802 | 0.61% |

Independent Auditors' Report on
Compliance and Internal Controls

December 31, 2013

This page intentionally left blank.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Miami Valley Risk Management Association
Kettering, OH

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Miami Valley Risk Management Association (the Association) which comprise the Statement of Net Position as of December 31, 2013 and related Statements of Revenues, Expenses and Changes in Net Position and Cash Flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 20, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Association's internal control over financial reporting (internal control) to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, we do not express an opinion on the effectiveness of the Association's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

14 east main street, ste. 500
springfield, oh 45502

www.cshco.com
p. 937.399.2000
f. 937.399.5433

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Association's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Association's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Association's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
