Independent Auditor's Report on Applying Agreed-Upon Procedures

Halina Schroeder, Audit Chief Division of Fiscal Administration, Audit Office Ohio Department of Developmental Disabilities 30 E. Broad Street, 13th Floor Columbus, Ohio 43215

Dear Ms. Schroeder:

As permitted by Ohio Rev. Code § 5123.05 and as required by the *Application for a § 1915(c) Home and Community Based Services Waiver*, Appendix I-2(c), the Auditor of State's Office performed the procedures enumerated below, to which the Ohio Department of Developmental Disabilities (DODD) agreed. The purpose is to assist you in evaluating whether the Stark County Board of Developmental Disabilities (County Board) prepared its *Income and Expenditure Report* for the years ended December 31, 2010 and 2011 (Cost Reports) in accordance with DODD's Guide to Preparing Income and Expenditure Reports for 2010 and 2011 (Cost Report Guides) and to assist you in evaluating whether reported receipts and disbursements complied with 2 CFR 225 (OMB Circular A-87 *Cost Principles for State, Local, and Indian Tribal Governments*), and other compliance requirements described in the procedures below. The County Board's management is responsible for preparing these reports. This agreed-upon procedures engagement was conducted in accordance with the American Institute of Certified Public Accountants' attestation standards. The sufficiency of these procedures is solely the responsibility of DODD. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The Auditor of State, under the same authority noted above, also performed the Acuity Testing procedures below for the 2008, 2009, 2010, and 2011 Cost Reports.

Statistics - Square Footage

 DODD requested us to tour the facilities to identify how space was used by County Board programs and to identify new, closed or empty buildings along with rented or idle space and, if final 2009 square footage totals are the same and no significant changes in the floor plan have occurred, to perform no additional procedures.

We toured the facilities to identify how space was used by County Board programs and to identify new, closed or empty buildings along with rented or idle floor space.

During the tour, we identified three rooms, reported as non-federal reimbursable, and one room, reported as administration, that were used for the facility based program in 2010 and 2011. The County Board also reported that it stopped using the Cohen-Joliet building in 2010 and this space was idle in 2011.

We reported these variances in Appendix A (2010) and Appendix B (2011).

We also compared the 2010 and 2011 square footage totals to final 2009 square footage totals and noted no significant changes have occurred.

Statistics - Square Footage (Continued)

2. DODD requested us to report variances if the County Board's square footage for three rooms varied by more than 10 percent of the square footage reported in the summary which rolls up to *Schedule B-1*, *Section A, Square Footage*.

We did not perform this procedure as there were no significant changes in square footage allocated between programs from the final 2009 Cost Report through 2010 and 2011.

3. DODD requested us to report variances if the County Board's square footage for one floor plan varied by more than 10 percent of the square footage reported in the summary which rolls up to *Schedule B-1*, *Section A*, *Square Footage*.

We did not perform this procedure as there were no significant changes in square footage allocated between programs from the final 2009 Cost Report through 2010 and 2011.

4. DODD requested us to report variances if the County Board's square footage summary varied by more than 10 percent when comparing the County Board's summary to the Cost Report for any cell within *Schedule B-1, Section A, Square Footage*.

We compared the County Board's final 2009 square footage summary to the square footage reported for each cell in *Schedule B-1*.

We found differences as reported in Appendix A (2010) and Appendix B (2011).

5. We obtained the County Board's methodology for allocating square footage between programs and reviewed the methodology to ensure that square footage for areas shared by more than one type of service is allocated by program based on reported usage of the area in accordance with the Cost Report Guides.

We found that square footage was allocated to the MAC program for individuals other than the Coordinator and Assistant Coordinators. We also identified individuals misclassified as program supervision in the Expenditures – Payroll section that required reclassifying 2010 square footage. We reported these variances in Appendix A (2010) and Appendix B (2011).

Statistics - Attendance

1. We reviewed the Cost Reports to determine if individuals served or units of service were omitted on *Schedule B-1, Section B, Attendance Statistics*, worksheet 4, or worksheets 7A to 7H which result in unassigned program or general expenses-all program costs.

As a result of variances identified in the Non-Payroll Expenditures and Reconciliation to the County Auditor Report section, the number of individuals served for worksheets 7D and 7H in 2010 and 2011 needed to be obtained. Costs were reclassified to the General Expense - All Program, Unassigned Adult Program and Unassigned Children Program columns and statistics were needed to assign these expenses to the programs served. In addition, the number of individuals served for worksheets 7E and 7F were needed for 2011 as there was COG expenses reported in the General Expense - All Program column that were not being assigned to column E, Facility Based services. The County Board provided these omitted statistics.

These statistics are reported in Appendix A (2010) and Appendix B (2011).

Statistics – Attendance (Continued)

2. DODD asked us to compare the County Board's final 2009 typical hours of service reported on *Schedule B-1, Section B, Attendance statistics* to the typical hours of service reported on *Schedule B-1* for 2010 and 2011 and, if the hours are the same, to do no additional procedures.

We compared the final 2009 typical hours of service to the typical hours of service reported on *Schedule B-1* for 2010 and 2011.

We found differences as reported in Appendix A (2010) and Appendix B (2011).

3. DODD requested us to report variances if the Board's attendance statistics were not within two percent of the attendance statistics reported.

We compared the County Board's Day Services Attendance Summary and Case Notes Summary of Units Billed reports for the number of individuals served, days of attendance, and 15 minute units with similar information reported for Day Habilitation/Adult Day Services/Vocational Habilitation, Enclave and Community Employment on *Schedule B-1, Section B, Attendance Statistics* and determined if the statistics were reported in accordance with the Cost Report Guides. We also footed the County Board's attendance reports for accuracy.

We found variances or computational errors exceeding two percent. We reported these variances in Appendix A (2010) and Appendix B (2011).

4. DODD requested us to report variances if the County Board's number of individuals served varied by more than 10 percent when comparing to the prior period's final attendance statistics on Schedule B-1, Section B, Attendance Statistics.

We compared the County Board's final 2009 number of individuals served to the final individuals served for Day Habilitation/Adult Day Services/Vocational Habilitation, and Enclave for 2010 and the final 2010 individuals served to the final individuals served for 2011 on *Schedule B-1* and determined if the variances were over 10 percent.

The number of reported individuals served for 2010 and 2011 Adult Day Service and 2010 Enclave changed by more than 10 percent from the prior year's *Schedule B-1* and as a result we performed procedure 5 below. The number of reported Enclave individuals served for 2011 did not change by more than 10 percent from the prior year's *Schedule B-1*.

5. DODD requested us to report variances if the individuals served on *Schedule B-1*, *Section B*, *Attendance Statistics* were not within three of the individuals documented on the attendance sheets.

We haphazardly selected 15 individual names from the County Board's attendance sheets for 2010 Adult Day and Enclave services and 15 for 2011 Adult Day service, and compared the individuals by name to the compiled listing of individuals served by program documentation which rolls up to *Schedule B-1*.

We found no differences exceeding three individuals.

DODD requested us to report variances to Schedule B-1, Section B, Attendance Statistics if more than
three of the 15 minute community employment units tested were not calculated in accordance with the
Cost Report Guides.

We haphazardly selected 14 units from 2010 and 22 units from 2011 from the County Board's Case Notes Summary of Units Billed reports and determined if the units were calculated in accordance with the Cost Report Guides.

We found no differences.

Acuity Testing

1. DODD requested us to report variances if days of attendance on the Days of Attendance by Acuity supplemental Cost Report worksheet for 2008, 2009, 2010 and 2011 did not agree to the County Board's supporting documentation.

We compared the County Board's Stark Attendance by Acuity and Day Services Attendance Summary reports for the days of attendance for Day Habilitation/Adult Day Services/ Vocational Habilitation and Enclave with the Days of Attendance by Acuity supplemental Cost Report worksheet for 2008, 2009, 2010 and 2011.

We found the following acuity variances for 2008:

- 46,364 Adult Day Service days should be added to acuity level A-1;
- 42,259 Adult Day Service days should be removed from acuity level A;
- 91 Adult Day Service days should be added to acuity level B;
- 2,637 Adult Day Service days should be removed from acuity level C;
- 23,254 Enclave days should be added to acuity level A-1;
- 28,238 Enclave days should be removed from acuity level A; and
- 3 Enclave days should be removed from acuity level B.

We found the following acuity variances for 2009:

- 2,203 Adult Day Service days should be removed from acuity level A-1;
- 147 Adult Day Service days should be added to acuity level A;
- 1,213 Adult Day Service days should be removed from acuity level B:
- 1,708 Adult Day Service days should be removed from acuity level C;
- 1,617 Enclave days should be removed from acuity level A-1;
- 751 Enclave days should be removed from acuity level A; and
- 181 Enclave days should be removed from acuity level C.

We found the following variances for 2010:

- 2,840 Adult Day Service days should be added to acuity level A-1;
- 2,729 Adult Day Service days should be added to acuity level A;
- 978 Adult Day Service days should be removed from acuity level B;
- 896 Adult Day Service days should be removed from acuity level C;
- 1,711 Enclave days should be added to acuity level A-1;
- 211 Enclave days should be removed from acuity level A;
- 1,405 Enclave days should be added to acuity level B; and
- 968 Enclave Days should be added to acuity level C.

For 2011, we found 36 Adult Day Service days should be added to acuity level B.

Acuity Testing (Continued)

 We also compared two individuals from each acuity level on the County Board's 2008, 2009, 2010, and 2011 attendance acuity reports to the Acuity Assessment Instrument or other documentation for each individual for 2008, 2009, 2010, and 2011.

For 2008, we found five Adult Day Services individuals and two Enclave individuals where the acuity assessment instrument or equivalent document could not be located by the County Board or was performed on a date after the year that acuity was tested. We also found one Adult Day Service and one Enclave individual that had acuity level A-1 per the Attendance by Acuity spreadsheet and acuity level A per the acuity assessment instrument and one Enclave individual with acuity level A on the Attendance by Acuity spreadsheet and acuity level A-1 on the acuity assessment instrument. We did not reclassify between acuity levels because the County Board could not determine which acuity level was correct as staffing ratios were not maintained.

For 2009, we found two Adult Day Service individuals where the acuity assessment instrument or equivalent document could not be located by the County Board. We also found one Adult Day Service individual and one Enclave individual that had acuity level A-1 per the Attendance by Acuity spreadsheet and acuity level A per the acuity assessment instrument. We will not reclassify between acuity levels because the County Board could not determine which acuity level is correct as staffing ratios were not maintained.

For 2010, we found one Adult Day Service individual where the acuity assessment instrument or equivalent document could not be located by the County Board. We also found one Adult Day Service individual and one Enclave individual that had acuity level A-1 per the Attendance by Acuity spreadsheet and acuity level A per the acuity assessment instrument and one Enclave individual with an acuity level A per the Attendance by Acuity spreadsheet and acuity level A-1 per the acuity assessment instrument. We will not reclassify between acuity levels because the County Board could not determine which acuity level is correct as staffing ratios were not maintained.

We found no acuity variances for 2011.

We developed revised Days of Attendance by Acuity supplemental Cost Report worksheets for 2009, 2010 and 2011, using the County Boards attendance by acuity reports and including the variances noted in procedure 1 above, and submitted these to DODD.

Statistics - Transportation

1. DODD requested us to report variances if the County Board's transportation units were not within two percent of total units reported on each line of *Schedule B-3, Quarterly Summary of Transportation Services*.

We compared the number of one-way trips from the County Board's Transportation Trips by Age Group reports with those statistics reported in *Schedule B-3*. We also footed the County Board's Transportation Trips by Age Group reports for accuracy.

We found differences as reported in Appendix A (2010) and Appendix B (2011).

Statistics – Transportation (Continued)

2. DODD requested us to report variances of more than 10 percent of the total trips taken for 10 individuals for both 2010 and 2011, between the County Board's internal documentation versus the amount reported on *Schedule B-3*, *Quarterly Summary of Transportation Services*.

The Transportation Trips by Age Group reports used to tie to the Cost Report were by route; therefore we requested the detail for ten percent of the routes that roll up to the total trips reported. We selected 11 routes in 2010 and eight routes in 2011 and traced the detail from the Transportation Detail – Trips Entered on Routes reports to the Transportation Trips by Age Group reports.

We found no differences exceeding 10 percent.

We then traced the number of trips for nine adults and one child for various weeks in 2010 and 2011, between the County Board's Weekly Transportation Attendance Sheets to the Transportation Detail – Trips Entered on Routes reports.

We found no differences.

3. DODD requested us to report variances if the County Board's cost of bus tokens/cabs was not within two percent of the total amount reported on *Schedule B-3*, *Quarterly Summary of Transportation Services*.

In 2010, the County Board did not report the cost of bus tokens, cabs on *Schedule B-3*. We reviewed the County Board's Expense Account - General Ledger by Account report for any of these costs not identified by the County Board. We found unreported costs of bus tokens/cabs and we also noted differences impacting transportation related costs reported on *Worksheet 8, Transportation Services*.

In 2011, we compared the amounts reported on *Schedule B-3* to the County Board's Expense Account - General Ledger by Account report and found differences exceeding two percent. We also noted differences impacting transportation related costs reported on *Worksheet 8, Transportation Services*.

We reported these differences in Appendix A (2010) and Appendix B (2011).

Statistics – Service and Support Administration (SSA)

1. DODD requested us to report variances if the County Board's SSA units were not within two percent of total units reported on each line of *Schedule B-4*, *Quarterly Summary of Units of Service – Service and Support Administration*.

We compared the number of SSA units (Targeted Case Management (TCM), Other SSA Allowable, Home Choice, and SSA Unallowable) from the County Board's Services Provided Detail reports with those statistics reported in *Schedule B-4*. We also footed the County Board's Services Provided Detail reports for accuracy.

We found differences as reported in Appendix A (2010) and Appendix B (2011). We also found Home Choice units were reported as TCM units on *Schedule B-4* in 2010 and we reclassified these units in Appendix A (2010). We also identified a recoverable finding in 2010 for the Home Choice units reimbursed as TCM units which is included in the Paid Claim Testing section.

Statistics – Service and Support Administration (SSA) (Continued)

2. DODD requested us to report variances if the Other SSA Allowable units tested had an error rate exceeding 10 percent.

We haphazardly selected two samples of 61 Other SSA Allowable units for both 2010 and 2011 from the Services Provided Detail reports and determined if the case note documentation described activities listed in Ohio Admin. Code § 5101:3-48-01(D), and also included the elements required by Ohio Admin. Code § 5101:3-48-01(F).

From the sample population of 7,642 Other SSA Allowable units for 2010, we selected our sample of 61 units and found 19.7 percent of those units were for unallowable activities. We projected and then reclassified 1,503 units as SSA Unallowable units.

We reported the differences in Appendix A (2010).

The units found to be in error did not exceed 10 percent of our sample for 2011.

3. DODD requested us to report variances if the SSA Unallowable units tested had an error rate exceeding 10 percent.

We haphazardly selected a sample of 60 Unallowable SSA service units for both 2010 and 2011 from the Services Provided Detail reports and determined if the case note documentation described activities listed in Ohio Admin. Code § 5101:3-48-01(D), and also included the elements required by Ohio Admin. Code § 5101:3-48-01(F).

The units found to be in error did not exceed 10 percent of our sample for 2010.

From the sample population of 6,806 SSA Unallowable units for 2011, we selected our sample of 60 units and found 11.7 percent of those units were Other SSA Allowable and we projected and then reclassified 794 units as Other SSA Allowable units.

We reported the differences in Appendix B (2011).

4. DODD requested us to report decreases exceeding five percent in total SSA units by line on *Schedule B-4* when compared to the prior year's final Cost Report.

We compared the final 2009 SSA units to the final 2010 SSA units and compared the final 2010 SSA units to the final 2011 SSA units.

The final 2010 Other SSA Allowable and 2011 SSA Unallowable units decreased by more than five percent from the prior year's *Schedule B-4* and we obtained the County Board's explanation that during this time, SSA staff increased efforts in obtaining Medicaid numbers for individuals served. The final 2011 Home Choice units also decreased by more than five percent from the prior year and we obtained the County Board's explanation that the County Board did not participate in the Home Choice program in 2011.

We reported no variances in Appendix A (2010) and Appendix B (2011).

Statistics – Service and Support Administration (SSA) (Continued)

5. DODD requested us to determine if the County Board maintained case note documentation for non-individual specific activities (general time units) as described in *Worksheet 9, Service and Support Administration Costs* of the Cost Report Guides. If the County Board did record general time units and they accounted for over 10 percent of total SSA units on the final *Schedule B-4* plus any general time units recorded, DODD requested us to determine if they were properly classified and report any variances with an error rate exceeding 10 percent and indicated a systemic issue.

We did not perform this procedure as the County Board did not maintain case note documentation for non-individual specific activities.

Revenue Cost Reporting and Reconciliation to the County Auditor Report

1. We compared the receipt totals from the 12/31/2010 and 12/31/2011 county auditor's Receipt Accounts reports for the Capital (147), General Operating (071), Community Residential (241), Special Education IDEA (716), Early Childhood Special Education (717), Special Education IDEA 2010 ARRA monies (728), Early Childhood Education Special Education 2010 ARRA monies (729), Early Childhood Special Education (760), Special Education IDEA (761), Early Childhood (801), and Special Education (802) funds to the county auditor's report totals reported on the Reconciliation to County Auditor Worksheets.

We found no differences in 2010. We found difference as reported in Appendix B (2011).

2. DODD asked us to determine whether total County Board receipts reported in the *Reconciliation to County Auditor Worksheets* reconciled within 1/4 percent of the county auditor's yearly report of total receipts for these funds.

Total County Board receipts were within 1/4 percent of the county auditor yearly receipt totals reported for these funds in 2010. Total County Board receipts were not within 1/4 percent of the county auditor's yearly receipt totals for these funds in 2011. Receipts in the county auditor's reports exceeded the County Board receipts by \$779,313 and we performed Procedure 3 below.

3. We compared the account description and amount for each revenue reconciling item on the *Reconciliation to County Auditor Worksheet* to the County Board's General Ledger by Account Expense Account Reports and other supporting documentation such as county tax settlement sheets.

We found an unrecorded transfer as reported in Appendix B (2011) and the final 2011 *Reconciliation to County Auditor Worksheet* is within 1/4 percent of the county auditor's yearly receipt totals for these funds.

4. We compared revenue entries on *Schedule C Income Report* to the North East Ohio Network (NEON) prepared County Board Summary Workbooks.

We found no differences.

Revenue Cost Reporting and Reconciliation to the County Auditor Report (Continued)

5. We reviewed the County Board's Receipt Accounts report and *Schedule C, Income Report* to determine whether revenues are maintained separately to offset corresponding expense via the use of specific expenditure costs centers and identified any potential revenue offsets/applicable credits.

We identified the following sources of potential revenue credits for which the County Board did not offset costs on the Cost Reports in accordance with 2 CFR 225, Appendix A (C)(3)(c) and (4)(a):

- Miscellaneous refunds, reimbursements and other income in the amount of \$274,373 in 2010 and \$67,592 in 2011;
- IDEA Part B revenues in the amount of \$169,492 in 2010 and \$130,859 in 2011;
- IDEA Part B ARRA revenues in the amount of \$49,871 in 2010;
- Early Childhood Special Education revenues in the amount of \$36,108 in 2010 and \$27,439 in 2011;
- Early Childhood Special Education ARRA revenues in the amount of \$128 in 2010;
- School Lunch Program revenues in the amount of \$61,907 in 2010 and \$75,863 in 2011;
- Title XX revenues in the amount of \$238,771 in 2010 and \$329,368 in 2011; and
- Employee Insurance Reimbursements in the amount of \$585,853 in 2010 and \$602,553 in 2011.

We also noted Ohio Rehabilitation Services Commission (VPR3) program revenues in the amount of \$114,448 in 2010 and \$150,807 in 2011; however, corresponding 2010 expenses were offset on *a1 Adult - Allocation of Cost Adult Program* as reported in Appendix A (2010). We found no expenses in 2011 requiring offset.

Paid Claims Testing

- 1. We selected 100 paid claims among all service codes from 2010 and 2011 from the Medicaid Billing System (MBS) data and determined if the claims met the following service documentation requirements of Ohio Admin. Code §§ 5123:2-9-05, 5123-2-9-18(H)(1)-(2), and 5101:3-48-01(F):
 - · Date of service:
 - Place of service;
 - Name of the recipient;
 - Name of the provider:
 - Signature of the person delivering the service or initials of the person delivering the service if the signature and corresponding initials are on file with the provider;
 - Type of service;
 - Number of units of the delivered service or continuous amount of uninterrupted time during which the service was provided; and
 - Arrival and departure times of the provider of service's site visit to the recipient's location or of the recipient's visit to the provider of service's location.¹

We found instances of non-compliance with these documentation requirements for 2010 and 2011.

¹ For non-medical transportation service codes, we reviewed similar service documentation requirements to ensure compliance with Ohio Admin. Code § 5123:2-9-18 (H)(1)-(2) excluding H(1)(d),(f),(j) and H(2)(d),(f).

Recoverable Finding - 2010 Finding \$3,205.02

We determined the County Board was over reimbursed for Supported Employment –Enclave - 15 minute units (ANF) and Targeted Case Management (TCM).

Service Code	Units in Error	Review Results	Finding
ANF	70	Units billed exceeded units documented	\$ 48.37
TCM	17	Units billed exceeded units documented	\$ 127.56
ТСМ	405	Home Choice billed as TCM	\$ 3,029.09
		TOTAL	\$ 3,205.02

Recoverable Finding - 2011 Finding \$346.35

We determined the County Board was over reimbursed for Targeted Case Management (TCM).

Service Code	Units in Error	Review Results	Finding
TCM	48	Units billed exceeded units documented	\$346.35

2. DODD requested us to report variances if units reimbursed by Medicaid were more than the units reported in the Cost Reports.

We compared the number of reimbursed TCM units and Community Employment units from the MBS Summary by Service Code report, to the final units on *Schedule B-4*, *Quarterly Summary of Units of Service – Service and Support Administration, Line (1)(F), TCM Units* and to *Schedule B-1*, *Section B, Attendance Statistics, Line (4)(C), Supported Employment – Community Employment, 15 minute units*, respectively.

We found no instance where the Medicaid reimbursed units were greater than final TCM and Supported Employment - Community Employment units.

3. DODD requested us to report whether any reimbursements exceeded disbursements on *Schedule A, Summary of Service Costs- By Program* worksheet by two percent.

We compared the amounts reported on *Schedule A, Summary of Service Costs – By Program,* Lines (20), Environmental Accessibility Adaptations to Line (25), Other Waiver Services to the amount reimbursed for these services in 2010 and 2011 on the MBS Summary by Service Code report.

We found no differences as the County Board did not report costs on *Schedule A*, for Lines (20) to Line (25). We also reviewed the MBS Summary by Service Code Report and found the County Board was not reimbursed for these services in 2010 and 2011.

Non-Payroll Expenditures and Reconciliation to the County Auditor Report

 We compared the disbursement totals from the 12/31/2010 and 12/31/2011 county auditor's report listed on the *Reconciliation to County Auditor Worksheets* to the county auditor's General Ledger by Account balances for the Capital (147), General Operating (071), Community Residential (241), Special Education IDEA (716), Early Childhood Special Education 2010 (717), Special Education IDEA 2010 ARRA monies (728), Early Childhood Education Special Education 2010 ARRA monies (729), Early Childhood Special Education (760), Special Education IDEA (761), Personal Services (901), and Personal Services (902) funds.

We found no differences.

2. DODD asked us to determine whether total County Board disbursements reported in the *Reconciliation to County Auditor Worksheets* reconciled within 1/4 percent of the county auditor's yearly report of total disbursements for these funds.

Total county board disbursements were within 1/4 percent of the county auditor's yearly disbursement totals reported for these funds.

3. DODD asked us to compare the account description and amount for each reconciling item on the *County Auditor Reconciliation Worksheets* to the County Board's General Ledger by Account reports and other supporting documentation such as county tax settlement sheets.

We did not perform this procedure since total County Board disbursements were within 1/4 percent of the county auditor's yearly disbursement totals in procedure 2 above.

4. DODD asked us to compare the County Board's detailed disbursements to the amounts reported on worksheets 2 through 10, and report variances exceeding \$100 for service contracts and other expenses on any worksheet.

We compared all service contract and other expenses entries on worksheets 2 through 10 to the County Board's General Ledger of Accounts reports.

We found no differences exceeding \$100 on any worksheet.

5. We compared disbursement entries on *Schedule A, Summary of Service Costs – By Program* and worksheets 2 through 10 to the NEON prepared County Board Summary Workbooks.

We found differences as reported in Appendix A (2010) and Appendix B (2011).

6. DODD asked us to determine whether the County Board's detailed disbursements were properly classified within two percent of total service contracts and other expenses for all worksheets, and if any worksheet included disbursements over \$100 which are non-federal reimbursable under 2 CFR 225 Appendix B.

We scanned the County Board's General Ledger of Accounts reports for service contracts and other expenses in the following columns and worksheets: Column X-General Expense-All Programs on worksheets 2 through 8; Column N-Service and Support Administration Costs on worksheet 9; and Columns E-Facility Based Services, F-Enclave, and G-Community Employment on worksheet 10 and reviewed documentation to identify disbursements not classified as prescribed by the Cost Report Guides or costs which are non-federal reimbursable under 2 CFR 225 Appendix B.

We found differences as reported in Appendix A (2010) and Appendix B (2011) for misclassified and non-federal reimbursable costs.

Non-Payroll Expenditures and Reconciliation to the County Auditor Report (Continued)

Please note the reclassification of \$353,827 in 2010 and \$585,498 in 2011 in Early Retirement Incentive Payments from worksheets 2, 3, 4, 5, 7F, 8, 9 and 10 to non-federal reimbursable as the County Board did not obtain the required approval per 2 CFR 225 Appendix B (8)(g)(3) as reported in Appendix A (2010) and Appendix B (2011).

7. We scanned the County Board's General Ledger by Accounts reports for items purchased during 2010 and 2011 that met the County Board's capitalization criteria and traced them to inclusion on the County Board's fixed asset listing.

We reported differences for purchases that were not properly capitalized as reported in Appendix A (2010) and Appendix B (2011). We also reported differences for 2010 purchases to record their first year's depreciation in Appendix B (2011). However, we did not determine if 2011 purchases were properly capitalized in 2012.

8. We haphazardly selected 60 disbursements from 2010 and 2011 from the County Board's General Ledger by Account reports that were classified as service contract and other expenses on worksheets 2 through 10. We determined if supporting documentation was maintained as required by 2 CFR 225 (OMB Circular A-87, Appendix A, (C)(1)(j)) and the disbursement was properly classified according to the Cost Report Guides.

We reported differences in Appendix A (2010) and Appendix B (2011) for misclassified and non-federal reimbursable costs.

Property, Depreciation, and Asset Verification Testing

1. We compared the County Board's procedures regarding capitalization of fixed assets with the Cost Report Guides for preparing *Worksheet 1, Capital Costs* and 2 CFR 225 (OMB Circular A-87, Appendix B, 15(a)(2).

We found no inconsistencies between the County Board's capitalization procedures and the guidelines listed above.

2. We compared the County Board's final 2009 depreciation schedule to the County Board's 2010 and 2011 depreciation schedules for changes in the depreciation amounts for assets purchased prior to the periods under review which were not in compliance with the Cost Report Guides.

We found no differences in comparison to 2009 depreciation schedule; however we did find one 2009 capital purchase that was not included on the 2010 or 2011 depreciation schedule. We calculated annual depreciation for this omitted asset as reported in Appendix A (2010) and Appendix B (2011).

3. DODD asked us to compare the depreciation costs reported in the County Board's depreciation schedule to the amounts reported on *Worksheet 1, Capital Costs*, and to report variances exceeding \$100.

We compared all depreciation entries reported on Worksheet 1, Capital Costs to the County Board's depreciation schedules.

We found no differences exceeding \$100.

Property, Depreciation, and Asset Verification Testing (Continued)

4. We scanned the County Board's depreciation schedule for 2010 and 2011 for depreciation taken on the same asset more than once, assets that have been fully depreciated in prior years, or depreciation taken on assets during the period of acquisition which were not in compliance with the Cost Report Guides.

We found no differences in 2010. We found one duplicate asset on the 2011 depreciation schedule; however, no depreciation was reported for this asset so no adjustment to Cost Report needed.

5. We haphazardly selected four of the County Board's fixed assets purchased in either 2010 or 2011 to determine if the useful lives agreed to the estimated useful lives prescribed in the 2008 American Hospital Association (AHA) Asset Guide. We also recomputed the first year's depreciation for these assets, based on their cost, acquisition date and useful life to determine compliance with the Cost Report Guides and AHA Asset Guide.

We found differences for 2010 and 2011 purchases that were not properly capitalized. See also procedure 7 in the Non-Payroll Expenditures and Reconciliation to the County Auditor Report section for other similar errors. We reported differences for 2010 purchases to reclassify expense and to record the first year's depreciation in Appendix B (2011). We reported differences to reclassify 2011 expense in Appendix B; however, we did not determine if 2011 purchases were properly capitalized in 2012. We noted that the County Board did not calculate salvage value on assets being depreciated and we factored savage value into all asset adjustments. See Recommendation below.

6. We haphazardly selected two disposed assets from 2010 and 2011 from the County Board's list of disposed assets and determined if the asset was removed from the County Board's fixed asset ledger. We also recalculated depreciation and any gain or loss applicable to 2010 and 2011 for the disposed items based on its undepreciated basis and any proceeds received from the disposal or sale of the asset to determine compliance with the Cost Report Guide and CMS Publication 15-1, Chapter 1.

We found differences and selected five additional disposed assets for testing. We found additional variances and reported variances in Appendix A (2010) and Appendix B (2011). As noted in procedure 5, we found that the County Board did not calculate salvage value on assets being depreciated; thus assets disposed of did not factor salvage value in the calculation of gains or losses. We factored a 10 percent salvage value into all depreciation adjustments.

Recommendation:

The County Board Policy requires a 10 percent salvage value be calculated for all depreciable assets. Upon review of the depreciation schedules, the County Board did not include any salvage value in the calculation of depreciation expense. The County Board should calculate a 10 percent salvage value in accordance with their policy. Additionally, CMS Publication 15-1, 104.19, states in pertinent part, "virtually all assets have a salvage value substantial enough to be included in calculating depreciation, and only in the rare instance is salvage value so negligible that it may be ignored."

Payroll Testing

 DODD asked us to determine whether total County Board salaries and benefits in the 2010 and 2011 Cost Reports were within two percent of the county auditor's report totals for the Capital (147), General Operating (071), Community Residential (241), Special Education IDEA (716), Early Childhood Special Education 2010 (717), Special Education IDEA 2010 ARRA monies (728), Early Childhood Education Special Education 2010 ARRA monies (729), Early Childhood Special Education (760), Special Education IDEA (761), Personal Services (901), and Personal Services (902) funds.

We totaled salaries and benefits from worksheets 2 through 10 from the 2010 and 2011 Cost Reports and compared the yearly totals to the county auditor's financial reports. The variance was less than two percent.

2. DODD asked us to compare the County Board disbursements on the General Ledger by Account reports to the amounts reported on worksheets 2 through 10, and to report variances exceeding \$100 for salaries or employee benefit expenses.

We compared all salary and employee benefit entries on worksheets 2 through 10 to the County Board's General Ledger by Account reports.

We found no differences exceeding \$100 for salary or employee benefit expenses on any worksheet. In 2011, we found that worksheet 5 had negative totals in Column O-Non-federal reimbursable, Line 1, Salaries and reclassified this same amount from Line 2, Benefits to eliminate the negative entry as reported in Appendix B (2011).

3. We selected 40 employees and compared the County Board's organizational charts, payroll journals and job descriptions to the worksheet in which each employee's salary and benefit costs were allocated to ensure allocation is consistent with the Cost Report Guides.

We reported differences in Appendix A (2010) and Appendix B (2011) and because misclassification errors exceeded 10 percent of the sample size we performed procedure 4 below.

4. DODD asked us to scan the County Board's Detailed Payroll Expense Reports for 2010 and 2011 and compare classification of employees to entries on worksheets 2 through 10 to determine if salary and benefit costs were reported in accordance with the Cost Report Guides if the errors in procedure 3 above exceeded 10 percent.

We scanned the County Board's payroll journals for 2010 and 2011 and compared classification of employees to entries on worksheets 2 through 10 to determine if salary and benefit costs were reported in accordance with the Cost Report Guides.

We found differences as reported in Appendix A (2010) and Appendix B (2011).

Medicaid Administrative Claiming (MAC)

DODD asked us to contact its Random Moment Time Study (RMTS) Coordinator to report differences
if the MAC salary and benefits versus the County Board's payroll records exceeded one percent or
more.

We compared the salary and benefits entered on the Individual MAC Costs by Code and MAC Random Moment Time Summary reports to the County Board's payroll records.

We found no variance exceeding one percent.

Medicaid Administrative Claiming (MAC) (Continued)

2. We compared the original Individual MAC Costs by Code and MAC Random Moment Time Summary report(s) to Worksheet 6, columns (I) and (O) for both years.

We found no differences.

3. We compared Ancillary Costs on the Roll Up Report for the Ohio Department of Medicaid to Lines 6-10 of the MAC Reconciliation Worksheet.

We reported differences in Appendix A (2010) and Appendix B (2011).

4. We selected 17 RMTS observed moments completed by employees of the County Board from the DODD RMTS Participant Moments Question and Answer report for the fourth quarter of 2010 and 19 RMTS observed moments from the third quarter of 2011 in which they documented their time spent on administering Medicaid-funded programs. We determined if supporting documentation of the County Board employees' activity for each observed moment was maintained and the observed moment was properly classified in accordance with DODD's Guide to Medicaid Administrative Claiming (MAC) using the Random Moment Time Studies (RMTS) Methodology for 2010 and 2011.

We found no differences.

We did not receive a response from the officials to the exceptions noted above

We were not engaged to and did not conduct an audit, the objective of which would be the expression of an opinion on the County Board's Cost Reports. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of the managements of the County Board, DODD, the Ohio Department of Medicaid, and the Centers for Medicare and Medicaid Services, and is not intended to be, and should not be used by anyone other than these specified parties.

Dave Yost Auditor of State
