NOTES TO THE SCHEDULE OF FEDERAL AWARDS EXPENDITURES FISCAL YEAR ENDED DECEMBER 31, 2013

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Expenditures (the Schedule) reports Warren County's (the County's) federal award programs' disbursements. The schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The County passes certain federal awards received from the Ohio Department of Job and Family Services, Ohio Department of Development, and Ohio Department of Public Safety to other governments or not-for-profit agencies (subrecipients). As Note A describes, the County reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the government has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE C - CHILD NUTRITION CLUSTER

The County commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the County assumes it expends federal monies first.

NOTE D - COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) REVOLVING LOAN PROGRAMS

The County has a revolving loan fund (RLF) program to provide low-interest loans to CDBG eligible applicants to assist with down payments and closing cost for first-time home buyers and for the rehabilitation of private residences and for the emergency home repair for CDBG eligible applicants. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Department of Development. The Schedule reports loans made and administrative costs as disbursements on the Schedule. Loans repaid are used to make additional loans. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property. If properties are foreclosed by court order then the loans are forgiven.

| Beginning loans receivable balance as of January 1, 2013 | \$555,750 |
|---|-----------|
| Loans made | 0 |
| Loan principal repaid | 66,915 |
| Ending loans receivable balance as of December 31, 2013 | \$488,835 |
| | |
| Cash balance on hand in the revolving loan fund as of December 31, 2013 | \$66,474 |
| Administrative costs expended during 2013 | 13,392 |

Activity in the CDBG revolving loan fund during 2013 is as follows:

The table above reports gross loans receivable. Of the loans receivable as of December 31, 2013, the County estimates none to be uncollectible.

NOTE E – HOME IMPROVEMENTS PARTNERSHIPS PROGRAM REVOLVING LOAN PROGRAMS

The County has a revolving loan fund (RLF) program to provide low-interest loans to CDBG eligible applicants to assist with down payments and closing cost for first-time home buyers and for the rehabilitation of private residences. Repayments of loans are used to make additional loans to assist additional low and moderate income households for HOME eligible activities. The federal Department of Housing and Urban Development (HUD) grants money for these loans to the County, passed through the Ohio Department of Development. The Schedule reports loans made and administrative costs on repaid loans as disbursements on the Schedule. Subsequent loans are subject to the same compliance requirements imposed by HUD as the initial loans.

These loans are collateralized by mortgages on the property. If properties are foreclosed by court order then the loans are forgiven.

Activity in the HOME revolving loan fund during 2013 is as follows:

| Beginning loans receivable balance as of January 1, 2013 | \$981,465 |
|---|-----------|
| Loans made | 0 |
| Loan principal repaid | 94,500 |
| Ending loans receivable balance as of December 31, 2013 | \$886,965 |
| | |
| Cash balance on hand in the revolving loan fund as of December 31, 2013 | \$132,738 |
| Administrative costs expended during 2013 | 3,485 |

The table above reports gross loans receivable. Of the loans receivable as of December 31, 2013, the County estimates none to be uncollectible.

NOTE F - MATCHING REQUIREMENTS

Certain Federal programs require the County to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The County has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

NOTE G – WORKFORCE INVESTMENT ACT

The County receives Workforce Investment Act (WIA) monies passed through the Ohio Department of Job and Family Services. Warren County, Butler County and Clermont County together comprise WIA Area 12. Butler County serves as the Fiscal Agent for WIA Area 12.

NOTE H - TRANSFERS BETWEEN FEDERAL PROGRAMS

During calendar year 2013, the Warren County Human Services made allowable transfers of \$15,559 and \$40,160 from the Child Care Non-Admin (93.575) program to the Temporary Assistance for Needy Families (TANF) Administration (93.558) program and \$4,838 from the Child Care Administration (93.575) program to the TANF Administration (93.558) program. The schedule shows the County spent approximately \$72,830 on the Child Care Non-Admin Program. The amount reported for the Child Care Non-Admin program on the schedule excludes the amount transferred to the TANF Administration program. The amount transferred to the TANF Administration program is included as TANF expenditures when disbursed. The schedule shows the County spent approximately \$37,031 on the Child Care Administration program. The amount transferred to the TANF Administration program. The amount transferred to the TANF Administration program. The amount transferred to the TANF Administration program on the schedule shows the County spent approximately \$37,031 on the Child Care Administration program on the schedule as TANF Administration program. The amount transferred to the TANF Administration program. The following tables show the gross amount drawn for the Child Care Programs during calendar year 2013 and the amounts transferred to the TANF Administration program.

| Child Care Non-Admin | \$ 128,549 |

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Warren County 406 Justice Drive Lebanon, Ohio 45036

To the Board of County Commissioners:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Warren County, Ohio (the County) as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated June 25, 2014. Our report refers to other auditors who audited the financial statements of Production Services Unlimited, Inc., a discretely presented component unit, as described in our report on the County's financial statement. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that those auditors separately reported.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the County's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the County's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Warren County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards* Page 2

Compliance and Other Matters

As part of reasonably assuring whether the County's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Warren County 406 Justice Drive Lebanon, Ohio 45036

To the Board of County Commissioners:

Report on Compliance for Each Major Federal Program

We have audited Warren County's (the County) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the County's major federal programs for the year ended December 31, 2013. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the County's major federal programs.

Management's Responsibility

The County's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the County's compliance for each of the County's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the County's major programs. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, Warren County complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2013.

Warren County Independent Auditor's Report on Compliance with Requirements Applicable To Each Major Federal Program And On Internal Control Over Compliance Required by OMB Circular A-133 Page 2

Report on Internal Control Over Compliance

The County's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the County's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Federal Awards Expenditures Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, the business-type activities, the discretely-presented component units, each major fund and the aggregate remaining fund information of the County as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements. We issued our unmodified report thereon dated June 25, 2014. We conducted our audit to opine on the County's' basic financial statements. We have not performed any procedures to the audited financial statements subsequent to June 25, 2014. The accompanying schedule of federal awards expenditures presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

To the Citizens of Warren County, Ohio:

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) for Warren County, Ohio (the "County") for the fiscal year ended December 31, 2013. The report has been prepared in conformity with generally accepted accounting principles (GAAP) and guidelines recommended by the Government Finance Officers Association of the United States and Canada (GFOA).

Introduction

The preparation of this report represents a commitment by Warren County to conform to nationally recognized standards of excellence in financial reporting. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County, especially the County Auditor's Office. To the best of our knowledge and belief, the enclosed data, as presented, is accurate in all material respects, is presented in a manner designed to fairly set forth the financial position and results of operations of the County and includes all disclosures necessary to enable the reader to gain an understanding of the County's financial activity.

The Reporting Entity:

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, *"The Financial Reporting Entity,"* as amended by GASB Statement No. 61 *"The Financial Reporting Entity: Omnibus; an amendment of GASB Statements No. 14 and No. 34,"* in that the financial statements include all the organizations, activities and functions of the primary government (the County) and legally separate entities (component units) for which the County is financially accountable. Production Services Unlimited, an adult workshop and the Warren County Transportation Improvement District have been included as discretely presented component units of the County due to the significant relationship with the County.

A thorough presentation of the County's reporting entity is contained in Note 1 of the basic financial statements.

County Organization and Services:

Warren County is located in the southwestern part of the state, approximately 20 miles north of Cincinnati and 15 miles south of Dayton. It is also located within a day's drive for 65% of the U.S. population. Its 400 square mile area serves a residential population estimated at 219,169 (2013 U.S. Census Bureau Estimate). The County includes 11 townships, 10 villages and 7 cities. The County has only those powers conferred upon it by Ohio statutes. A three member Board of County Commissioners is elected at large in even numbered years for overlapping four-year terms. The Board of County Commissioners serves as the taxing authority, the contracting body, and the chief administrator of public services for the County.

The Board of County Commissioners prepares and adopts the annual operating budget and makes the annual appropriation measure for expenditures of all County funds. In addition to the Board of County Commissioners, the offices of the County Auditor and County Treasurer are included in the category of general government and are of particular importance to the financial affairs of the County.

The County Auditor is elected to a four-year term and serves as the chief fiscal officer for the County and the tax assessor for all political subdivisions within the County. According to state law, a complete reappraisal must be conducted every six years as well as a triennial update every third year between reappraisals. Upon collection by the County Treasurer, the County Auditor is responsible for distributing certain taxes to various political subdivisions including municipalities, villages, townships, school and library districts, special districts and county agencies.

As chief fiscal officer, the County Auditor must certify that funds for all contracts and obligations of the County have been lawfully appropriated and are available or in the process of collection before the contract or obligation is binding upon the County. In addition, the Auditor is also the central disbursing agent, who by the issuance of County warrants distributes funds to creditors in payment of liabilities incurred by the County. The Auditor is also responsible for the County payroll and has other statutory accounting responsibilities. He is, by State law, Secretary of the County Board of Revision, the County Budget Commission and the Administrator and Supervisor of the County Data Processing Board.

The County Treasurer is also elected to a four-year term and is the custodian of all County funds. The Treasurer is responsible for collecting all tax monies, applying payments to the appropriate tax accounts and investing all available idle County funds as specified by Ohio law. The Treasurer is the distributing agent for expenditures authorized by the Board of County Commissioners upon the Auditor's warrant. The Treasurer must submit daily reports showing receipts, payments and balances to the County Auditor. The Treasurer is a member of the County Board of Revision and the County Budget Commission. The Budget Commission plays an important part in the financial administration of the County government, as well as all political subdivisions throughout the County.

The other elected officials serving four year terms are the Prosecuting Attorney who serves as the third and final member of the County Budget Commission, the Clerk of Courts, the Recorder, the Sheriff, the Engineer and the Coroner. Five Common Pleas Court Judges and two County Court Judges are elected to six-year terms. There is currently a vacant seat in County Court.

Letter of Transmittal For the Year Ended December 31, 2013

The County provides its citizens with a wide range of services that include human and social services, health and community assistance related services, law enforcement, civil and criminal justice system services, road and bridge maintenance and other general and administrative support services. The County also operates a water distribution system, a wastewater collection and treatment system, and a storm water management system which are accounted for as enterprise funds.

Economic Outlook

Population & Housing:

The most recent Warren County population estimate is 219,169 persons, which is an increase of 6,476 persons or 3.04% from 212,693 persons in the 2010 Census. The annualized percent change is +1.98%, which is greater than +0.72% for the U.S. and +.15% for Ohio. Warren County's population estimate ranks as the 12th largest of all Ohio counties.

The Housing Count estimate for Warren County is an estimated 82,082 units, which is an increase of 239 units or .29% compared to 81,843 units previously. Nationally, home ownership is 66%.

Education:

Warren County residents have outstanding private and public educational opportunities. Several high quality private preschools operate in Warren County and each public school district offers preschool. There are eight public school districts, a vocational school district in Warren County, and another vocational school district that services Warren County. All of these districts are well known for their high student achievement. In addition, there are a number of private and parochial elementary schools and one parochial high school in Warren County. A fully online digital school that serves students in grades 7-12 also exists. Sinclair Community College operates the Courseview Campus in Mason. Warren County residents also have easy access to classes, in and out of the County, from the University of Cincinnati, University of Dayton, Wilmington College, Cincinnati State and Miami University.

In 2013, Although Warren County's assessed values of new construction showed a slight increase over 2012, it still continues to reflect the slow economic recovery occurring across the Country. New construction assessed values increased overall by 4.2%. Residential new construction increased 4.2%. Industrial new construction increased by 200.7%, while Commercial new construction decreased 6.8% as shown in the following table.

Communities

Waynesville, located in the northwest part of the County is recognized as "The Antique Capital of the Midwest". Main Street is home to numerous shops and restaurants that attract visitors from around the world. Waynesville hosts annually the Ohio Sauerkraut Festival which attracts approximately 350,000 visitors over 2 days in October each year.

Lebanon is the home of many historic interests in the County. The Golden Lamb, Ohio's oldest inn, dating from 1803 and boasting an extraordinary guest list of many famous Americans including Henry Clay, Mark Twain, Charles Dickens and eleven Presidents of the United States. The Glendower State Memorial, a Greek Revival Mansion which was constructed in the early nineteenth century, is a showplace of elegant Empire and Victorian furnishings. The Warren County Historical Society Museum, acclaimed as one of the nation's outstanding County museums, has displays of early life of the area, a Shaker exhibit and a library with an unusually fine collection of genealogical information.

Lebanon is known for its many antique stores, specialty shops and its quaint historical atmosphere. Walking tours through historical districts are available throughout the year. Lebanon's Christmas Festival which features Ohio's largest Horse Drawn Carriage Parade with 160+ units has become a seasonal favorite attracting 200,000 visitors for the one-day event. Other Lebanon favorites include the Applefest, Blues Fest, and a Scenic Railroad Passenger Train. Lebanon also hosts one of the largest YMCA's in the world and it offers virtually all forms of indoor and outdoor athletic facilities. The 126-acre site includes a 220,000 sq. ft. facility with meeting rooms, pools, gym, tennis courts, health club facilities and sports fields.

The City of Springboro's growth and development is expected to continue to exceed the national and state average due to the City's physical location along Interstate 75 between Cincinnati and Dayton. Over 500 businesses call Springboro home, including corporate headquarters, branch offices and bustling distribution and retail/service establishments. Springboro's downtown historic district was placed on the National Register of Historic Places. Springboro is also rich in history and arts. Recognized as perhaps the most traveled route to freedom, hundreds, maybe thousands, of runaway slaves passed through Cincinnati and Warren County on the Underground Railroad. The mostly Quaker communities of Springboro hosted numerous secret stops along the trail. Much of this history has been preserved through the collection of documents, maps, and artifacts at the Springboro Historical Society Museum. Groups can schedule guided tours with costumed re-enactors or pick up a walking tour brochure from the Springboro Chamber of Commerce and experience living history with a self-guided walking tour of the community's 27 documented safe houses.

The City of Mason is the largest city in Warren County. Mason is located between the Cincinnati region's two most vital commerce corridors, Interstates 71 and 75, just north of the I-275 beltway. Mason is thriving with over 500 businesses and top ranked schools. In 2013 Money Magazine named Mason as 7th on their list of the Best Places to Live. Mason is home to some of the biggest attractions in the County: Kings Island amusement park, Great Wolf Lodge and Conference Center, Golf Center at Kings Island and the annual Western & Southern Open, just to name a few. The Alverta Green Museum, operated by the Mason Historical Society, keeps the city in touch with its historical roots.

History meets art in the City of Franklin. With three indoor murals and six outdoor murals – there's a reason the town is known as the "city of murals." Driving tours of the murals also reveal a glimpse at the first three-story building west of the Alleghenies and the third Roebling suspension bridge in the County.

Sales Tax Receipts and the General Fund

The County's 1% sales tax revenues generated \$32,701,492. This is an increase of 6.78% over 2012. This is the fourth consecutive year for an increase in sales tax revenues. When comparing percentage increases on an annual basis, the County benefited from a 7.98% increase in 2012 and a 4.23% increase in 2011. The County anticipates sales tax revenues remaining strong, which will help to offset the anticipated decreases in local government funds and investment income.

Travel and Tourism

Warren County, Ohio is an entertaining, energetic, and enriching travel destination, where visitors can experience a wide variety of attractions, events, history and outdoor activities. "Ohio's Largest Playground" isn't just a slogan, it is a promise. Located between Cincinnati and Dayton, visitors can do more in a 30-mile radius than anywhere else in Ohio. It's a big County - come out and play!

Approximately seven miles southeast of Lebanon on the east bank of the Little Miami River is Fort Ancient, a state memorial operated by the Ohio Historical Society. Fort Ancient is a renowned North American archaeological site and features evidence of two outstanding prehistoric American Indian cultures dating back more than 2,000 years. Fort Ancient is a designated National Historic Landmark and is on the finalist list for World Heritage Status. The 764-acre memorial park offers a museum, hiking, picnicking, scenic vistas and shelter houses.

Warren County offers bike trails and hiking trails along the Little Miami Scenic River, as well as several canoe liveries that offer a variety of canoe trips. The 70-mile area along the Little Miami River, which is mostly in Warren County, has been designated a Scenic River Area by the federal government. Whether by bike, rollerblade, hiking boot or horseback, the paved and mostly shaded Little Miami Scenic Trail offers a beautiful setting for catching a breath of fresh air.

While Warren County's anchor attraction is most notably Kings Island Amusement Park, we have an abundance of activities to choose from including: TPC Riverbend Golf Course, The Golf Center at Kings Island, LaComedia Dinner Theater, The Beach Waterpark, and the Great Wolf Lodge with 400 themed rooms and a 79,000 sq. ft. indoor water park brings additional visitors to its year-round indoor water park resort and conference center. The Ozone Zipline Adventures, the largest canopy zipline tour in the Midwest, offers visitors 12 zip lines ranging in length from 250ft. to 1300ft. with heights ranging from 10ft. to 200ft. Two half mile lines actually cross the Little Miami River for an amazing view. Miami Valley Gaming offers 1,600 gaming machines, a 5/8 mile horse racing track, and four delectable restaurants. Once you've done all of that head over to Valley Vineyards Winery & Brewery for a weekend cookout that includes great food, fine wines, and craft beers.

While 2013's economy presented some challenges to the hospitality industry, over all it was a good year as lodging tax collections retained by the County as administrative fees were up 9.1% over the previous year.

Major Initiatives and Future Outlook

Warren County has several major initiatives in process that will result in a continued strong and vibrant future outlook.

- Our County Engineer's Office completed over \$12.4 million worth of roadway improvements in 2013 and has an estimated \$89.6 million of scheduled and anticipated road improvements to be completed in 2014 through 2018. There are an additional \$300 million of roadway and bridge improvements identified by the County Engineer that are being prioritized for future years. Noteworthy improvements: road and intersection realignments on Union Road and Greentree Road, improvements to Wilkens Boulevard and extension of Innovation Way. The County Engineer is also working with the Warren County Transportation Improvement District on the following: (A) Working on a series of improvements to the Mason-Montgomery Road/Fields-Ertel Road I-71 Interchange area; (B) Final construction and right-of-way plans to complete the Western Row Road I-71 Interchange area; (C) Widening of Socialville-Fosters Road between Innovation Way and Columbia Road and over I-71; (D) Completion of the SR 73 Interchange on I-75; and (E) Continuation of ODOTs improvements to the I-75 corridor between I-275 and Dayton.
- Increased demand for public services as a result of heavy population growth in Warren County is driving the need for facilities expansion, renovation, and/or remodeling. Facilities Management (WCFM) is currently addressing the County's overall space planning and property issues with several large projects which include:
 - Justice Drive Office Building Project (new construction): A 52,000 square foot office • building has been designed in-house by WCFM which will be home to the Prosecutor's Office, Board of Elections, Common Pleas Court Services, Emergency Services, 9-1-1 Dispatch and Sheriff's Office sally port. The project is currently under construction with an anticipated occupancy of late-summer 2014. This project will unify the operations of each of the individual tenants under one roof and allow for a minimum 10-year growth plan. Currently, the tenant's employees are scattered among multiple spaces and/or buildings in facilities that no longer meet the demands or space requirements of their respective operation. The project's construction budget is approx. \$6.5 million and is expected to be delivered on-time and on-budget. The building is also physically attached to the Court's Building by an internal, pedestrian connector which allows the newly completed Deputy Station to serve public entry and security for both buildings. Particular attention was paid in delivering a building of sound construction, which is easily maintained, and high-performance, which realizes energy efficiency in the design of its components. One unique aspect of the project is the amount of self-perform work being undertaken by WCFM. As an example, all of the casework, millwork, and furniture is being manufactured in the WCFM woodworking shop located on the main governmental campus by our employees.

- Common Pleas Court Renovation and Refurbishment: This project is being • performed in several phases due to the work being performed in an occupied and active Courts facility. Phase I is close to being complete and incorporates the complete redesign of the main Lobby, Deputy Station, and the relocation of the Court's Assignment Commissioners; refurbishment of all public corridors and restrooms; and the re-design and renovation of the oldest General Division Courtroom, dating from the 1970s. Phase II design-work will begin in late-spring 2014 and encompass the areas being vacated by the relocation of tenants to the new construction underway and the continued renovation of the remaining Common Pleas Courtrooms. The vacated space will allow the existing, essential court functions to expand including the addition of a new General Division Common Pleas Courtroom and Chamber. Also, a major part of Phase II will be the complete relocation of the County Court operation to the Courts Building. By unifying all Courts' activities under one roof, efficiencies will be realized by the utilization of a single entry point and Deputy Station and the consolidation of the Clerk of Courts operations. The entire project will be designed in-house by WCFM and the majority of the work will be self-performed by the skilled tradesmen in the department.
- <u>Common Pleas Court Energy Efficiency Project</u>: This project primarily consists of the re-design and replacement of the facility's aging HVAC system; partial replacement of the window glazing system; and replacement of restroom fixtures to conserve water. This project is in conjunction with the above mentioned Common Pleas Court Renovation and Refurbishment.
- <u>320 E. Silver Street Office Building Renovation</u>: This project, located on the County's old campus, is close to completion with the renovation of the public corridors and restrooms and the relocation of County tenants to new office space. Primary tenants of the building include: OSU Extension; State of Ohio Parole; Juvenile Justice Probation; Veterans' Services; Soil & Water Conservation; and the PUCO. The remaining square footage in the building is currently being utilized for storage and staging for the new building currently under construction and, in the future, allow for consideration of additional tenant(s). The interior and exterior renovation and remediation of this property enabled the County to consolidate tenants in one buildings, which were in poor condition and had become costly to maintain and operate, were able to be closed and decommissioned.

- <u>Preventive Maintenance and Life-Cycle Projects</u>: In addition to the above construction projects, assessments have been performed at each facility to determine the status and condition of building systems. These systems are primarily comprised of electrical, HVAC, plumbing, and the building envelope. To avoid failure and allow for phased, end-of-life replacement, planning has been put in place to gradually address these systems and ease the impact on capital expenditure. These are ongoing, year-over-year projects which allow the County to properly maintain and plan for systems replacement or retrofit. Currently, WCFM is involved in several systems projects which include a migration of our controls system to direct digital; replacement of an aging chiller at the County Jail; retrofit of our east campus with LED parking lot lighting with onboard sensors for energy efficiency; various re-roofing projects; and other similar projects.
- Master Planning: Many of the above listed projects currently in process will aid in • reducing the pressure on our County offices which have grown beyond their current space allocation and ability to provide required services with efficiency and optimal productivity. In particular, the Common Pleas Court building was originally constructed in 1972 with an addition in 1989. The County has more than doubled its population since 1989, yet Court functions are still housed within the same square footage and aging facility. Our Master Planning during the past year has yielded a positive outcome in determining how best to accommodate the reorganization and space needs within our existing facilities and the requisite construction of a new office building. The largest of our projects currently in planning or construction will remedy our Courtroom and most office space requirements for the short and long-term in regard to increased demand for County services. As mentioned previously, these projects are, or will be, designed by the architectural division of WCFM and much of the construction is, or will be, selfperformed by our staff. The goal is to provide a long-term plan of action for County government at significant cost savings, resulting in a strong fiscal outcome.
- <u>Digital Radio System</u>: The physical space for the County's new digital radio system server room has just been completed in preparation for the install of the new Countywide Public Safety Radio System to be placed in operation in 2014.

Financial Information

This is the eleventh year the County has prepared financial statements following GASB Statement 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments."

As part of this reporting model, management is responsible for preparing Management's Discussion and Analysis (MD&A) of the County. This discussion appears after the Independent Auditor's Report in the financial section of this report. MD&A provides an assessment of the County's finances for 2013. The analysis focus in the MD&A is on major funds.

WARREN COUNTY, OHIO

Letter of Transmittal For the Year Ended December 31, 2013

Fiduciary Funds

Fiduciary funds account for assets held by Warren County in a trustee capacity or as an agent for individuals, private organizations and other government units. The fiduciary funds which Warren County maintains are agency funds and an Unclaimed Money fund which is a private purpose fund. At December 31, 2013, assets in agency funds totaled \$322,266,407 and assets of the Unclaimed Money fund totaled \$414,876.

Internal Control, Budgetary Control and the Accounting System:

Development of the County's accounting system included substantial consideration of the adequacy of the internal accounting controls. Internal accounting controls are designed to provide reasonable but not absolute assurance that:

- 1. The County's assets are protected against loss and unauthorized use or disposition; and
- 2. Reliable financial reports for preparing financial statements and providing accountability for assets are maintained.

The concept of reasonable assurance states that internal controls should be evaluated applying the following criteria:

- 1. The expense associated with providing the internal controls should not exceed the benefits likely to be derived from their implementation; and
- 2. The evaluation of the offsetting costs and benefits involves estimates and judgment by the County Administration and members of the Auditor's office.

All internal control evaluations occur within this framework. It is the belief of the administrative and financial management personnel that the County's financial controls adequately safeguard existing assets and provide reasonable assurance of the proper recording of financial transactions.

The Accounting Department of the County Auditor's Office is responsible for the auditing and analysis of all purchase orders and vouchers of the County. Accounting Department personnel review the purchase orders and vouchers to ensure the availability of monies in the proper funds and accounts prior to the certification and payment of approved invoices. The County utilizes a fully automated accounting system as well as an automated system of controls for capital assets and payroll. These systems, coupled with the review and examination performed by the County Auditor's Office, ensure that the financial information generated is both accurate and reliable.

Budgetary appropriations for the operation of the County's departments are established through the adoption of the annual appropriation resolution by the Board of County Commissioners. All disbursements and transfers of cash between funds require appropriation authority from the County Commissioners. Budgets are controlled at the object level within the department or organizational unit, by function and by fund. Purchase orders are requested by authorized department personnel and encumbered prior to their release to vendors. A computerized certification system allows the Auditor's Office to ascertain the status of appropriations prior to authorizing purchases.

Accounting System and Budgetary Control

The County's accounting system is organized on a "fund" basis. Each fund is a distinct self-balancing accounting entity. Day-to-day accounting records are maintained on a basis other than GAAP. For financial reporting purposes, the accounting records are converted to the modified and full accrual basis for all applicable funds. On the modified accrual basis, revenues are recognized when measurable and available, and expenditures are recognized when goods and services are received. On the full accrual basis, revenues are recognized when measurable and earned; expenses are recognized when incurred.

The Board of County Commissioners adopts the annual budget for the County by March 31. All disbursements and transfers of cash between funds require appropriation authority from the Commissioners. Budgets are controlled at the major object level within a department and fund. All purchase orders must be approved by a majority of the Board of Commissioners, then the necessary funds are encumbered and the purchase order released to the vendor. Those purchase orders which exceed the available appropriation are rejected until additional funds are secured. The accounting system used by the County provides daily updates to expenditure and encumbrance files making available to all users details on year-to-date expenditures and encumbrances versus the original appropriations plus any additional appropriations made to date. These files are used to ascertain the status of a division's appropriation prior to authorizing additional purchases.

The basis of accounting and the presentation of the various funds utilized by Warren County are fully described in Note 1 of the basic financial statements.

Debt Administration

At December 31, 2013, gross general obligation bonds outstanding, excluding debt reported in the enterprise funds, totaled \$12,723,008. Ratios related to the County's debt position are presented below:

| Net General Obligation Bonded Debt | \$7,406,549 |
|------------------------------------|-------------|
| Net Debt Per Capita | \$33.79 |
| Net Debt to Assessed Value | .13% |
| Net Debt to Estimated Actual Value | .0481% |

The outstanding debt is primarily related to repayment of the proceeds of monies used to improve our road and bridge infrastructure including the design and engineering as well as a booster station upgrade to the I-71 Fields-Ertel Road/Mason-Montgomery Road interchange, road and bridge infrastructure improvements to the I-71 Western Row Road interchange, and a Countywide public safety radio system upgrade.

The County maintains an underlying "Aa1" rating from Moody's Investors Service, Inc. All bonds of the County are general obligation debt and are backed by its full faith and credit, except water and sewer bonds, which are backed by revenues of utility billings and the Tax Increment District Revenue Bond, which is secured solely from the revenues generated from the service payments in lieu of taxes.

Other Information

Independent Auditor's Opinion

The County had an independent audit of all funds performed by the State Auditor for the year ended December 31, 2013. The opinion of the Auditor appears in the financial section of this report.

GFOA Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Warren County for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2012. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such comprehensive annual financial reports must also satisfy both generally accepted accounting principles (GAAP) and applicable legal requirements.

A Certificate of Achievement is valid for one year only. Warren County has received a Certificate of Achievement for the last 22 years (1991 - 2012). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA for consideration for a Certificate of Achievement for 2013.

INDEPENDENT AUDITOR'S REPORT

Warren County 406 Justice Drive Lebanon, Ohio 45036

To the Board of County Commissioners:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Warren County, Ohio (the County), as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of the discretely presented component unit, Production Services Unlimited, Inc. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amount included for the County, is based solely on the report of other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement. The other auditors audited the financial statements of Production Services Unlimited, Inc. in accordance with auditing standards generally accepted in the United States of America and not in accordance with *Government Auditing Standards*.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the County's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Corporate Centre of Blue Ash, 11117 Kenwood Road, Blue Ash, Ohio 45242 Phone: 513-361-8550 or 800-368-7419 Fax: 513-361-8577 www.ohioauditor.gov

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Warren County, Ohio, as of December 31, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General, Senior Citizen Service Levy, and Board of Development Disabilities Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matter

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the County's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Warren County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 25, 2014, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

| Management's Discussion and Analysis | |
|--------------------------------------|-----------|
| For the Year Ended December 31, 2013 | Unaudited |

The discussion and analysis of Warren County's financial performance provides an overall review of the County's financial activities for the year ended December 31, 2013. The intent of this discussion and analysis is to look at the County's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the County's financial performance.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2013 are as follows:

- In total, net position increased \$9.0 million. Net position of governmental activities increased \$10.7 million, which represents a 4.8% increase over net position of 2012. Net position of business-type activities decreased \$1.7 million or .8% from net position of 2012.
- General revenues accounted for \$94.5 million in revenue or 58.3% of all revenues. Program specific revenues in the form of charges for services, grants and contributions accounted for \$67.7 million or 41.7% of total revenues of \$162.3 million.
- The County had \$125.2 million in expenses related to governmental activities; \$41.4 million of these expenses were offset by program specific charges for services, grants or contributions.
- Among major funds, the general fund had \$66.6 million in revenues and \$55.0 million in expenditures. The 2013 revenues increased 4.9% or \$3.1 million from 2012. The expenditures decreased .2% or \$123,076. The general fund balance at year-end totaled \$28.5 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – *management's discussion and analysis*, the *basic financial statements*, and an optional section that presents *combining statements* for nonmajor governmental funds. The basic financial statements include two kinds of statements that present different views of the County:

These statements are as follows:

<u>*The Government-Wide Financial Statements*</u> – These statements provide both long-term and short-term information about the County's overall financial status.

<u>*The Fund Financial Statements*</u> – These statements focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements.

The financial statements also include notes that provide more detailed data and explain some of the information in the financial statements.

| Management's Discussion and Analysis | |
|--------------------------------------|-----------|
| For the Year Ended December 31, 2013 | Unaudited |

Government-wide Statements

The government-wide statements report information about the County as a whole, including Production Services Unlimited, Inc. and the Transportation Improvement District, the County's discretely presented component units, using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the County's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the County's net position and how it has changed. Net position (the difference between the County's assets and liabilities) are one way to measure the County's financial health or position.

- Over time, increases or decreases in the County's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the County, you need to consider additional nonfinancial factors such as changes in the County's tax base and the condition of County capital assets.

The government-wide financial statements of the County are divided into two categories:

- <u>Governmental Activities</u> Most of the County's programs and services are reported here including public safety, health, human services, community and economic development and public works.
- <u>Business-Type Activities</u> These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. All of the County's enterprise activities are reported as business-type activities.

Separately issued audit reports containing financial statements are available from Production Services Unlimited, Inc. at 575 Columbus Avenue, Lebanon, Ohio 45036 and the Secretary/Treasurer of the Transportation Improvement District at 210 W. Main Street, Lebanon, Ohio 45036.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's most significant funds, not the County as a whole. Funds are accounting devices that the County uses to keep track of specific sources of funding and spending for particular purposes. The County's major governmental funds are the General Fund, Senior Citizens Service Levy Fund, the Board of Developmental Disabilities Fund, the Special Assessment Fund, the County Road Projects Fund and the County Construction Projects Fund. The County's major enterprise funds are the Water Fund, Sewer Fund, Storm Water Fund, Sheriff Fund and the Communications Rotary Fund.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the year. Such information may be useful in evaluating a government's near-term financing requirements.

| Management's Discussion and Analysis | |
|--------------------------------------|-----------|
| For the Year Ended December 31, 2013 | Unaudited |

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds - The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses five enterprise funds to account for water, sewer, storm water, sheriff, and the communications rotary operations. All five of the enterprise funds are reported as major funds.

Internal Service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County's internal service funds report on County departments' vehicle maintenance, self-insurance programs for employee medical benefits, workers' compensation, property and casualty insurance and gasoline purchases.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County's fiduciary funds are a private purpose trust fund and agency funds.

Total Net Position increased by \$8,998,029.

Current and other assets ended the year with an increase of \$12.9 million. Cash and cash equivalents increased \$9.2 million in part due to Board of Developmental Disabilities increase of \$4.0 million and an increase of \$2.8 million in County Construction Projects. The increase for County Construction Projects was due in part to the County Commissioners fully funding the construction of the Justice Drive Office Building, funding for telecommunication upgrades/ongoing maintenance and receipt of a settlement for prior year maintenance deficiencies at the Warren County Fairgrounds. Cash and cash equivalents with fiscal agent increased \$1.3 million due to an increase in the amount held by the Southwest Ohio Council of Governments on behalf of the Board of Developmental Disabilities. A \$1.9 million increase to prepaid items was in relation to the new Countywide Public Safety Radio System Upgrade, which included a warranty, maintenance agreement, training sessions and a performance bond. Additional increases of \$.5 million were spread throughout other current assets.

Capital Assets Net increased by \$945,192. Due to only a slight increase in capital assets net there are no significant changes to report.

Total liabilities increased by \$4.4 million. Long term liabilities increased \$5.0 million and were offset by a slight decrease of \$601,503 in other liabilities.

\$118.6 million or 26.1% of net position in the current year represents resources that are subject to external restrictions on how these assets may be used. \$51.9 million or 11.4% of net position may be used to meet the County's ongoing obligations to its citizens, creditors and for Water and Sewer activities.

Governmental Activities

Net position of the County's governmental activities increased by \$10,734,148.

Expenses overall increased \$5.9 million or 4.9% when compared to 2012. This was due primarily to an increase of \$5.6 million, or 52.7% over 2012, in Public Works expenses. This large increase was a result of several County road construction projects that were not capitalized as part of County infrastructure. This includes \$5.0 million in payments to the Transportation Improvement District, a component unit of the County. Additional increases in expenses included \$2.4 million to Public Safety, which were offset by decreases of \$1.0 million in Judicial, and various decreases in other government types.

Motor Vehicle & Gasoline Tax revenue remained steady with a 1.1% increase over 2012. Unrestricted Shared Revenues increased 14.2% or \$1.2 million in part due to an increase in Casino Tax revenue.

Program Revenue consists of three categories: 1) Charges for Services, 2) Operating Grants and Contributions, and 3) Capital Grants and Contributions. Charges for Services had an increase of \$2.9 million. Operating Grants and Contributions increased by \$2.5 million. Capital Grants and Contributions in total decreased by \$3.3 million. This decrease was primarily related to the completion of the Bethany Road project which received the majority of its federal grant funding from the Surface Transportation Program in 2012. Program Revenue had an overall increase of \$2.1 million or 5.3% over 2012.

General Tax Revenue accounts for 56.5% of the \$135.9 million in total revenues for governmental activities. General Tax revenues increased \$3.1 million over 2012. This increase is made up of a \$1.0 million increase in property tax and a \$2.1 million increase in sales tax. Total general tax revenue increased by 4.2% over 2012.

General Other Revenue had the largest percentage decrease amounting to 107.4% or \$1.2 million. This is a direct result of decreases in investment earnings.

The County's net charges to users of governmental services totaled \$83,811,886. The County's general revenues of \$94,546,034 subsidized 100% of this amount and the remaining resulted in a \$10.7 million increase in net position.

Business-Type Activities

Net position of the business-type activities decreased by \$1,736,119. These programs had revenues of \$26.4 million and expenses of \$28.1 million for fiscal year 2013. Revenues decreased overall by \$114,204 or .4% and expenses also decreased by \$373,337 or 1.3%.

Charges for Services and Sales decreased \$137,132. Water having the largest decrease at \$681,319, which was offset by an increase of \$310,174 in Sheriff revenue and an increase of \$229,969 in Storm Water revenue. The total decrease to Charges for Services was .6% under 2012.

Capital Grants and Contributions increased \$22,560. Sewer revenue increased by \$416,050 or 44.7% over the previous year. This increase primarily involved sewer tap-in fees, which was the result of an increase in new residences being built in 2013. The Sewer increase was offset by decreases in both the Water (\$166,293) and Storm Water (\$227,197) Funds for this category. All Storm Water revenues were more appropriately determined to be classified as Other Operating Revenue, therefore comparisons would not be correct. The total increase to Capital Grants & Contributions was 0.5% over 2012.

Business activities receive no support from tax revenues and remain self-supporting.

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County's governmental funds reported a combined fund balance of \$126,226,761, which is an increase of \$8.6 million over last year's total of \$117,592,571. The schedule below indicates the fund balance and the total change in fund balance as of December 31, 2013 and 2012.

General Fund – The County's General Fund revenues exceeded expenditures by \$11.6 million. The General Fund's balance ended with an increase of only \$123,665 due to \$11.5 million in transfers to other funds. Transfers amounting to \$3.7 million will be used to supplement the operating budgets of Children's Services, Transit and Youth Services Subsidy. County Construction projects received \$5.3 million in transfers to be used towards capital projects involving the construction of a new office building complex, and a countywide public safety radio system upgrade. \$800,000 was transferred to the Property & Casualty Insurance Fund, which was created in 2012 to account for the accumulation and allocation of premiums, deductibles and risk management fees associated with the property and casualty insurance of the County.

The tables that follow assist in illustrating the financial activities and balance of the General Fund:

Tax revenues overall increased by 6.0%. The largest source of tax revenue at \$32.7 million is generated from the County's Sales Tax. This tax increased over the previous year by 6.8%. The second largest source of tax revenue at \$12.6 million is generated from Real Estate Property Taxes. Real Estate Property Tax decreased by \$314,329 or 2.4%. Property Transfer Taxes generated \$4.0 million and increased \$1.0 million or 34.66%.

Intergovernmental Revenue increased by \$1.6 million or 33.5% as a result of the casino tax and a federal aviation airport grant.

Investment income decreased \$1.4 million. For the last six years, after the worst market decline in roughly ³/₄ of a century, the economy and interest rates continue to trudge along at historically low rates. Therefore, as portions of our portfolio continued to "mature" or be "called", it required us to re-invest those funds into the new investments that were being issued at the prevailing historically low interest rates; thereby, continuing to put a downward pressure on the overall yield of our portfolio.

At this point, interest rates have dropped by more than 90% overall (from their 2007 "high"). Steps were taken in 2006 (prior to the current "market crisis") to revise our investment policy in order to help insulate our portfolio from the periodic downturn in interest rates that normally occurs in the interest rate cycle; this was accomplished by increasing the length of our "maturities" from 3 years (prior to 2006) to 5 years (in January 2006 – the maximum allowed by Ohio law). This change in investment policy and strategy was very effective; although interest rates dropped by more than 90% in one year (2008), we are just now reaching the end of those five-year "higher rate" investments that we purchased in 2006, 2007, and in early 2008 (we essentially "stretched" that "one-year 90% drop" in market rates over a "five-year period" in our portfolio). Therefore, our portfolio interest income is just now approaching the "90% drop" in income (from our 2007 "high") as the last few "higher rate five-year" investments "mature" and "age-off the books."

However, as the economy and interest rates continue to struggle along the current path (and as our investments continue to "mature" or be "called" and have to be re-invested at these low rates), it will continue to pull down our investment income, unless (and depending upon how quickly) the current record low interest rate cycle is broken. At the present time, the Federal Reserve Board, economists, prominent money management groups and various other money fund managers (which had previously forecasted a looming increase in interest rates) are no longer projecting an upswing in the interest rates, in the very near future, that could intervene and help prevent the continued investment income decline from occurring.

| | 2013 Expenditures | 2012 Expenditures | Increase (Decrease) |

| Total | \$54,994,360 | \$55,117,436 | (\$123,076) |

In 2013, the General Fund's overall expenditures decreased by \$123,076. This decrease is reflective of the conservative budgeting regarding anticipated cuts in social services programs.

Senior Citizens Service Levy Fund – In 2013 this fund received approximately \$6.6 million in levied tax revenues and incurred expenditures for services to senior citizens of approximately \$6.5 million. The year end fund balance of \$6.5 million increased by \$59,798 over 2012.

Board of Developmental Disabilities Fund - The 2013 revenues for the Board of Developmental Disabilities Fund (BDD) increased \$1.8 million or 7% over 2012. Expenditures for BDD decreased \$902,050 or 4%. During 2012 the Board began collecting all 4 voted mills of the operating tax levy. The levy had been rolled back during the three previous years due to the carry over that the Board had accumulated. The year end fund balance of \$40.6 million increased \$5.6 million over 2012.

Special Assessment Fund – In 2013 this fund received approximately 1.4 million from special assessment levies, capacity fees and non-participant charges, while expending 1.6 million in debt service payments. The fund balance decreased by 145,407.

County Road Projects Fund – The revenues of this fund decreased by approximately \$2.0 million due to the completion of the federally funded Bethany Road Widening project. During 2013 expenditures totaling \$7.0 million involved improvements to seven capital road & bridge projects and three non-capital road projects. The fund balance decreased by \$1,758,971.

County Construction Projects Fund – In 2013 revenues and other financing sources for this fund increased \$17.9 million and expenditures increased by \$15.8 million. The primary reason for these increases was the Countywide Public Safety Radio System upgrade. This project was initially funded through a ten year lease with Motorola; however the County soon issued a bond and paid the lease in full. These transactions inflate both the expenditures and revenues by approximately \$8.3 million. Other transactions that affected this fund included an increase in other revenue of \$500,024, and an increase in operating transfers of \$912,626. The overall fund balance increased by 58%.

GENERAL FUND BUDGETARY HIGHLIGHTS

The County's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the General Fund.

The variance between the final budget and the actual revenues are solely the result of the County Auditor's decision to conservatively estimate revenues. In 2013 his estimations ended with a positive variance of \$1.6 million, or 2.4%.

It is not the practice of the County or the Budget Commission to revise estimated revenues at year-end to bring the budget in line with actual resources.

During the course of fiscal year 2013 the County Commissioners approved numerous revisions to the original appropriations. Overall, these changes resulted in a decrease of \$144,829. Actual expenditures were less than the final budgeted expenditures by \$4.9 million. The largest variance within the \$4.9 million consists of \$2.4 million in Legislative and Executive and \$1.2 million in Public Safety. The largest variance in both these government type expenditures resulted from less spending than originally anticipated in the personal services category. The General Fund had an adequate fund balance to cover all expenditures. The fund balance was \$7.0 million better than initially projected in the original budget.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal 2013 the County had \$323,241,895 net of accumulated depreciation invested in capital assets for its Governmental and Business Type activities. Of this total \$115,992,035 was related to Governmental-Type activities and \$207,249,860 was related to the Business-Type activities. When looking at total assets and the accumulated depreciation, we ended 2013 with a net increase of \$945,192 in total depreciable and non-depreciable capital assets.

General Government had capital asset additions of \$16.5 million. The three largest components of this include: \$8.5 million in additions to construction in progress, \$5.4 million in infrastructure improvements, and \$1.9 million in machinery & equipment. Of the construction in progress additions \$5.5 million was related to a countywide public safety radio system upgrade, \$1.4 million was related to the new Justice Drive office building, and the remainder of \$1.6 million involved improvements to County buildings, roads and bridges, and a parallel taxi-way.

General Government had capital asset deletions of \$6.8 million. The greater part of deletions involved \$6.0 million that was removed from construction in progress as a result of projects being completed. This total primarily involved \$4.9 million being moved out of construction and into infrastructure assets for the completed Bethany Road widening project. The result of General Governments additions, deletions and accumulated depreciation had a net increase of \$5.7 million at the end of 2013.

Business Type capital assets had additions of \$38.1 million comprised of \$3.9 million in construction improvements, \$1.2 million in land improvements, \$32.7 million in building & structure improvements and \$359,597 in the purchase of machinery & equipment. The land improvements involved \$962,005 in new water lines and \$207,032 in new sewer lines. Business Type deletions of \$34.1 million primarily involve \$33.4 million being moved out of construction and into capital assets building & structure improvements.

Additional information on the County's capital assets can be found in Note 10.

Debt

At December 31, 2013, the County had general obligation debt outstanding of \$22.1 million in bonds. Of this amount, \$12.7 million comprises debt backed by the full faith and credit of the County and \$9.4 million is special assessment debt for which the County is liable in the event of default by the property owners subject to the assessment. The County also had outstanding principal of \$2.2 million in Tax Increment District Revenue Bonds, \$3.3 million of outstanding principal in an Ohio Department of Development Loan (State 166) and \$235,240 in OPWC loans. The Water enterprise fund had \$4.2 million in OWDA Loans. The Sewer enterprise fund had \$11.1 million in OWDA Loans outstanding at December 31, 2013.

Governmental Activities long-term liabilities increased by \$5,338,250 or 19.3% during the 2013 fiscal year, and the County's Business-Type Activities long-term liabilities decreased by \$372,425 or 2.2%. The County maintains an underlying "Aa1" rating from Moody's Investors Service, Inc. for general obligation debt.

In addition to the bonded debt, the County's long-term obligations include compensated absences. Additional information on the County's long-term debt can be found in the notes section under "Long-Term Debt and Other Long-Term Obligations" within this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Warren County has continued to exercise solid financial practices. For 2014, total General Fund revenues are anticipated at \$62.4 million, which is 6.5% less than what was actually received on a cash basis in fiscal year 2013. The General Fund's original budget for appropriations of anticipated expenses for 2014 was \$68.1 million as compared to \$66.5 million in cash expenditures at the end of 2013. Warren County remains in strong financial shape largely due to consistent conservative budgeting.

Warren County's central location between the metro areas of Dayton and Cincinnati in the southwestern part of Ohio has made it an attractive area for new business development. Metropolitan Cincinnati's northerly expansion into Warren County, particularly the rapid development along I-71 in the City of Mason, Deerfield Township, Lebanon and South Lebanon has also contributed to Warren County's economic development. Greater Dayton's growth south has prompted strong growth along I-75 in Franklin, Clearcreek Township, Middletown, Monroe and particularly in the City of Springboro. Warren County's business base is extremely diverse with many area companies concentrated in the sectors of high technology, research and development, advanced manufacturing, bio-medical and service related industries.

The Warren County Economic Development Department has been working hard to offset any job losses experienced through the recession, helping to create new jobs, as well as, retain existing jobs. In 2013, Warren County welcomed 34 new projects (both new to the region and expansion), created 2,545 new jobs, retained 1,059 existing jobs, added 2.7 million new square feet and resulted in \$203 million in corporate investments.

Management's Discussion and Analysis For the Year Ended December 31, 2013 Unaudited

In 2013, Warren County also saw the introduction of new companies and the expansion of current employers. Festo, a German manufacturer of automation systems announced their project to make Warren County their logistics and R&D center, adding nearly 175,000 square feet of space and hiring 250 employees. Additional new projects INX and Parallon Business Services announced their relocation to Warren County adding over 700 new employment opportunities with a capital investment around \$10 million. While smaller in number, many other current and new businesses grew in Warren County, adding employment opportunities to area residents and building on the growth seen in recent years.

Likewise, the Warren County Office of Economic Development continues to work with Ohio Means Jobs, Warren County (formerly Workforce One of Warren County), Sinclair Community College, the Warren County Career Center, the Dayton Development Coalition and the Cincinnati USA Partnership to conduct educational opportunities for area businesses and learning institutions. As the Warren County Office of Economic Development continues to conduct retention visits with area businesses, it is critical that the County and its partners work together to address the needs pertaining to workforce development. In 2013, the Warren County Office of Economic Development began an aggressive strategy to address these issues through the creation of WIIN (Workforce Investment and Innovation Network). WIIN is a pilot program led inside of Warren County with the goal to gather/bundle like needs from area businesses to bring an economy of scale to training offerings. This initiative is sanctioned through the Office's participation on the Leadership Board of Area 12 WIB Board. Implementation of this program should begin sometime in mid-2014.

The Warren County Port Authority (Port) had an active project load in 2013. Coordinating with the Warren County Economic Development Office, the Port assisted in the creation of a Warren County Small Business Development Center with its' official launch in January of 2013. The Port also worked on additional community development projects by memorandum of understanding (MOU) agreement to assist and staff the formation of a Warren County Chamber Alliance. The Port agreed to assist development outside of Warren County. Through cooperative agreement, the Port is responsible for Port projects inside of Preble County. The Partnership in 2013 saw the expansion of Pratt Industries in Lewisburg, Ohio. The project is 300,000 square feet of new manufacturing space, while adding/retaining nearly 300 jobs. Inside of Warren County, the Port assisted the expansion of ADVICS Manufacturing, a nearly \$100 million investment, the construction of a 700,000 square foot spec building in Monroe and several other facilities inside the County.

Warren County continues to be credited as one of the highest "new job" growth counties in the state. In 2013, Warren County's unemployment rate fell from 8.9% during the peak of the recession to the lowest in Southwest Ohio, 5.9%.

While we can't control the national economy, there is much we can do to spark a local recovery. The Board of County Commissioners are intent to remain focused on economic development and coordinating these efforts with the various cities and townships to create more visibility and productivity in new job creation. As Warren County continues to weather the economic storm that has hit this nation and state, we will work hard to maintain services and planned projects and cut costs wherever possible. We will continue to place emphasis on Economic and Workforce Development through the coordinated efforts of each department.

| Total Governmental Fund Balances | \$126,226,761 |
|--|---------------|
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital Assets used in governmental activities are not resources and | |
| therefore are not reported in the funds. | 115,992,035 |
| Other long-term assets are not available to pay for current period expenditures | |
| and therefore are reported as deferred inflows of resources in the funds. | 19,304,297 |
| Long-term liabilities, including bonds payable, are not due and payable | |
| in the current period and therefore are not reported in the funds. | (33,059,982) |
| Internal Service Funds are used by management to charge the costs of | |
| vehicle maintenance, insurance and gasoline to individual funds. The | |
| assets and liabilities of the internal service funds are included in | |
| governmental activities in the statement of net assets. This is the | |
| amount that applies to the governmental activities. | 5,813,762 |

Reconciliation Of The Statement Of Revenues, Expenditures And Changes In Fund Balances Of Governmental Funds To The Statement Of Activities For the Year Ended December 31, 2013

| Net Change in Fund Balances - Total Governmental Funds | \$8,723,638 |
|--|--------------|
| Amounts reported for governmental activities in the statement of activities are different because | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays and capital contributions exceeded depreciation. | 6,172,307 |
| Governmental funds only report the disposal of capital assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the loss on the disposal of capital assets net of proceeds received. | (205,504) |
| Revenues and transfers in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | 9,340 |
| The issuance of long-term debt (e.g. general obligation bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position. | (5,158,874) |
| In the statement of activities, interest is accrued on outstanding bonds and loans, whereas in governmental funds, an interest expenditure is reported when due. | (3,913) |
| Some expenses reported in the statement of activities, such as change in inventory and compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. | (320,636) |
| The Internal Service Funds, which are used to charge the cost of services to individual funds, are not included in the statement of activities. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue (expense) of the County's Internal Service Funds are allocated among the governmental and business-type activities. | 1,517,790 |
| Change in Net Position of Governmental Activities | \$10,734,148 |

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. <u>Reporting Entity</u>

Warren County is a political subdivision of the State of Ohio. The County was formed by an act of the Ohio General Assembly in 1803. The three member Board of County Commissioners is the legislative and executive body of the County. The County's combined financial statements include accounts for all County operations.

The accompanying basic financial statements comply with the provisions of GASB Statement No. 14, "The Financial Reporting Entity," as amended by GASB Statement No. 61 "The Financial Reporting Entity: Omnibus; an amendment of GASB Statements No. 14 and No. 34," in that the financial statements include all organizations, activities and functions of the primary government (the County) and legally separate entities (component units) for which the County is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing board and either the County's ability to impose its will over the organization or the possibility that the organization will provide a financial benefit to or impose a financial burden on the County.

The financial activities of all funds, agencies, boards and commissions for which the County elected officials are financially accountable are reflected in the accompanying financial statements. Based on the foregoing criteria, Warren County (the primary government) has two component units, Production Services Unlimited, Inc. and the Warren County Transportation Improvement District. The reporting entity of the County includes the following services: human and social services, certain health care and community assistance services, civil and criminal justice systems, road and bridge maintenance and general administrative services. In addition, the County operates a water supply, sanitary sewer and storm water system.

<u>Discretely Presented Component Unit</u> - The component unit column on the Statement of Net Position includes the financial data of two County component units, Production Services Unlimited, Inc. (PSU) and the Warren County Transportation Improvement District (TID). The component units are reported in a separate column to emphasize that they are legally separate from the County. PSU and the TID are being presented as a part of the County's reporting entity because it would be misleading to exclude them.

PSU is an adult workshop for the clients of the Board of Developmental Disabilities. Warren County has an annual master operating agreement with PSU to subsidize a portion of the operations. PSU contracts with various companies and individuals, including the County, to provide janitorial services, assembly work, packaging, clerical, and other activities which are performed by the workshop participants. Separate financial statements for PSU may be obtained by writing to: Production Services Unlimited, Inc., 575 Columbus Avenue, Lebanon, Ohio 45036.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. <u>Reporting Entity</u> (Continued)

The TID is a body politic and corporate, created pursuant to Chapter 5540 of the Ohio Revised Code by action of the Board of Warren County Commissioners on January 27, 2011 for the purpose of financing, constructing, maintaining, repairing and operating selected transportation projects. Separate financial statements for the TID may be obtained by writing to Secretary-Treasurer, Warren County Transportation Improvement District, 210 W. Main Street, Lebanon, Ohio 45036.

<u>Related Organizations</u> - Warren County officials appoint a voting majority of the board for the following organizations. The County's accountability for these organizations does not extend beyond making the appointments.

- *Metropolitan Housing Authority* The County Commissioners, Probate Court and Common Pleas Court each appoint one member of a five member board.
- *Park District* The Probate Judge appoints all three members of the Park Board.
- *Warren County Airport Authority* The County Commissioners appoint all members of a nine-member board.
- *Butler/Clermont/Warren Workforce Policy Board* The County Commissioners appoint all of the Warren County members of the board. The Policy Board is a regional organization developed as a result of the Workforce Investment Act. The role of the Policy Board is to assess the workforce needs of area employers, assess the employment and training needs of job seekers and to identify fiscal and other available resources to meet current and future workforce needs in the region.
- *Warren County Port Authority* The County Commissioners appoint all seven members of the board. The role of the board is to enhance, foster, aid, provide or promote the following within Warren County: transportation, economic development, housing, recreation, education, culture and research.

Joint Venture Without Equity Interest

Warren County is a member of the Warren/Clinton Counties Recovery Services Board, which is a joint venture between Warren and Clinton Counties. The purpose of the board is to provide aid, support and education for alcohol and drug dependent citizens as well as those who are mentally handicapped. See Note 21 "Joint Venture."

Jointly Governed Organization

Warren County Board of Developmental Disabilities is a member of the Southwest Ohio Regional Council of Governments formed by Hamilton, Clermont, Butler and Warren Counties. The purpose of this Council is to coordinate the powers and duties of the member counties to better serve and benefit persons with developmental disabilities. See Note 22 "Jointly Governed Organization."

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting

The accounting system is organized and operated on the basis of funds each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses. The various funds are summarized by type in the basic financial statements. The County uses the following fund types:

Governmental Funds

Governmental funds are those funds through which most governmental functions typically are financed. The acquisition, use and balances of the County's expendable financial resources and the related current liabilities (except those accounted for in the proprietary funds) are accounted for through governmental funds. The measurement focus is on determination of "financial flow" (sources and use and balances of financial resources). The following are the County's major governmental funds:

<u>General Fund</u> – This fund represents the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. The primary revenue sources are sales and use tax, property transfer tax, real estate tax, state and local government fund receipts, investment earnings and charges for service. The general fund balance is available to the County for any purpose provided it is expended or transferred according to the laws of Ohio.

<u>Senior Citizens Service Levy Fund</u> – This fund accounts for tax levy proceeds which provide the source of funding for senior citizen services.

<u>Board of Developmental Disabilities Fund</u> – This fund is used to account for a County-wide property tax levy, Federal and State grants and reimbursements used for care and services for the mentally handicapped and developmentally disabled.

<u>Special Assessment Fund</u> – This fund is used to account for revenues received from special assessment collections from annual tax billings, which provide the source of financing for long-term debt incurred for water and sewer line construction.

<u>County Road Projects Fund</u> – This fund is used to account for all revenue sources including Federal and State grants used to finance road and bridge infrastructure projects.

<u>County Construction Projects Fund</u> – This fund is used to account for all transactions related to the construction and renovation of County owned land, buildings and communication systems.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Proprietary Funds

All proprietary funds are accounted for on an "economic resources" measurement focus. This measurement focus provides that all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Proprietary fund type operating statements present increases (i.e., revenues) and decreases (i.e., expenses) in net total position.

<u>Enterprise Funds</u> - These funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The County's major enterprise funds are:

<u>Water Fund</u> – This fund is used to account for the operation of the County's water service.

<u>Sewer Fund</u> – This fund is used to account for the operation of the County's sanitary sewer service.

<u>Storm Water Fund</u> – This fund is used to account for the operation of the County's Storm Water Management Plan in compliance with the federally mandated National Pollution Discharge Elimination System (NPDES) Phase II program.

<u>Sheriff Fund</u> – This fund is used to account for the policing services provided on a contractual basis to Deerfield Township, South Lebanon and Caesar Creek Litter Control.

<u>Communications Rotary Fund</u> – This fund is used to account for communications maintenance services provided to various county departments and other governmental units. Users are billed for costs incurred.

<u>Internal Service Funds</u> – The five internal service funds operated by the County are: Vehicle Maintenance, Health Insurance, Workers' Compensation Self Insurance, Property and Casualty Insurance and Gasoline. The Vehicle Maintenance fund was created to provide repairs and maintenance to various County departments. The Health Insurance fund is used for claims and administration of the health insurance program for covered County employees and eligible dependents. The Workers' Compensation Self Insurance fund was created to accumulate reserves and process claims for workers' compensation for all functions of county government. The Property and Casualty Insurance fund was created to accumulation and allocation of premiums, deductibles and risk management fees associated with the property and casualty insurance of the County. The Gasoline fund was created to account for the centralized purchase of gasoline provided to various departments of the County.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. <u>Basis of Presentation - Fund Accounting</u> (Continued)

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. These funds are used to account for assets held by a governmental unit as an agent for individuals, private organizations or other governmental units and therefore not available to support the County's own programs. The County's only trust fund is a private purpose trust that accounts for unclaimed monies. The agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operation. These funds operate on an accrual basis of accounting. Further description of these funds can be found on pages 188 and 189.

C. <u>Basis of Presentation – Financial Statements</u>

<u>Government-wide Financial Statements</u> – The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government and its discretely presented component units, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities. Internal Service fund activity is eliminated to avoid "doubling up" revenues and expenses. Inter-fund services provided and used are not eliminated in the process of consolidation. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function or program of the County's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. <u>Basis of Presentation – Financial Statements</u> (Continued)

<u>Fund Financial Statements</u> – Fund financial statements report detailed information about the County. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the County finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting represents the methodology utilized in the recognition of revenues and expenditures or expenses reported in the financial statements. The accounting and reporting treatment applied to a fund is determined by its measurement focus.

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e., both measurable and available. The term "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, which the County considers to be 60 days after year-end. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for debt service and expenditures related to compensated absences which are recorded only when due.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. <u>Basis of Accounting</u> (Continued)

Non-exchange transactions, in which the County receives value without directly giving equal value in return, include sales and use taxes, property taxes, grants, entitlements and donations. Revenue from sales and use taxes is recognized in the period in which the income is earned and is available. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied and the revenue is available. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the County must provide local resources to be used for a specific purpose, and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. Revenues considered susceptible to accrual at year-end include interest on investments, and state levied locally shared taxes, including motor vehicle license fees and local government assistance. Other revenues, including licenses, permits, certain charges for services, and miscellaneous revenues are recorded when received in cash, because generally these revenues are not measurable until received.

Special assessment installments and related accrued interest, which are measurable but not available at December 31, are recorded as deferred inflows of resources. Property taxes measurable as of December 31, 2013 but which are not intended to finance 2013 operations and delinquent property taxes, whose availability is indeterminate, are recorded as deferred inflows of resources.

The full accrual basis of accounting is utilized for reporting purposes by the government-wide statements, proprietary funds and fiduciary funds. Revenues are recognized when they are earned and expenses are recognized when they are incurred.

E. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year.

All funds, other than agency funds, are legally required to be budgeted and appropriated; however, only the General and major special revenue funds are required to be reported. The primary level of budget control is at the object level by organizational unit and/or department by function (Public Safety, Public Works, General Government, Debt Service, etc.) within a fund. Budgetary modifications may only be made through resolution of the County Commissioners.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. <u>Budgetary Process</u> (Continued)

1. Tax Budget

By July 15, each County department must submit an annual tax budget for the following fiscal year to the County Commissioners for consideration and passage. The adopted budget is submitted to the County Auditor, as secretary of the County Budget Commission, by July 20th of each year, for the period January 1 to December 31 of the following year.

2. Estimated Resources

The County Budget Commission determines if the budget substantiates a need to levy all or part of previously authorized taxes and reviews estimated revenue. The Budget Commission then certifies its actions to the County by September 1st of each year. As part of the certification process, the County receives an official certificate of estimated resources which states the projected receipts by fund. Prior to December 31, the County must revise its budget so that the total contemplated expenditures from any fund during the ensuing fiscal year will not exceed the amount available as stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriations measure. On or about January 1, the certificate of estimated resources is amended to include any unencumbered fund balances from the preceding year. The certificate may be further amended during the year if a new source of revenue is identified or actual receipts exceed current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during 2013.

3. Appropriations

A temporary appropriations resolution to control expenditures may be passed on or about January 1st of each year for the period January 1 through March 31. An annual appropriations resolution must be passed by April 1st of each year for the period January 1st through December 31st. The appropriations resolution establishes spending controls at the fund, function, organizational unit and/or department, and object level. The appropriations resolution may be amended during the year by resolution of the County Commissioners as additional information becomes available, provided that total fund appropriations do not exceed the current estimated resources. During 2013, supplemental appropriations were necessary to budget for unanticipated expenditures. Expenditures may not legally exceed budgeted appropriations at the object level. Administrative control is maintained through the establishment of more detailed line-item budgets. Management may ask the County Commissioners to transfer appropriations within the object level (among line items) for an organizational unit and/or department provided total appropriations for that object and organizational unit and/or department do not exceed amounts established by the County Commissioners. The budgetary figures, which appear on the budgetary statements, are provided on the budgetary basis to provide a comparison of actual results with the final budget, including all amendments and modifications.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. <u>Budgetary Process</u> (Continued)

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts and other commitments for expenditures are encumbered and recorded as the equivalent of expenditures (budget basis) in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. However, on the GAAP basis of accounting, encumbrances do not constitute expenditures or liabilities.

5. <u>Lapsing of Appropriations</u>

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriations balance is carried forward to the subsequent fiscal year and need not be reappropriated.

6. Budgetary Basis of Accounting

The County's budgetary process accounts for certain transactions on a basis other than generally accepted accounting principles (GAAP). The major difference between the budgetary basis and the GAAP basis lies in the manner in which revenues and expenditures are recorded. Under the budgetary basis, revenues and expenditures are recognized on the cash basis. Utilizing the cash basis, revenues are recorded when received in cash and expenditures when paid. Under the GAAP basis, revenues and expenditures are recorded on the modified accrual basis of accounting.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. <u>Cash and Cash Equivalents</u>

Cash and cash equivalents include amounts in demand deposits and treasury securities. State Treasury Asset Reserve (STAR) Plus, certificates of deposit and treasury securities are considered cash equivalents because they are highly liquid investments or have original maturity dates of three months or less. STAR Plus is a cash management program that provides Ohio political subdivisions an account that has no exposure to credit or market risk. All STAR Plus deposits have full FDIC insurance and are backed by the full faith and credit of the U.S. Government.

The County Treasurer pools cash for investment and resource management purposes. Each fund's equity in pooled cash and investments represents the balance on hand as if each had maintained its own cash and investment account. For purposes of the statement of cash flows, the proprietary funds consider their share of equity in STAR Ohio and pooled certificates of deposit to be cash equivalents. See Note 5 "Cash, Cash Equivalents and Investments."

At year end the Southwest Ohio Council of Governments was holding deposits in the amount of \$8,581,280 which are represented as "Cash and Cash Equivalents with Fiscal Agent" on the balance sheet.

G. Investments

Investment procedures and interest allocations are restricted by provisions of the Ohio Constitution and the Ohio Revised Code. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", the County records all its investments at fair value, which are based upon quoted market prices. All investment income, including changes in the fair value of investments, are recognized as revenue in the operating statements. The County allocates interest among various funds based upon applicable legal and administrative requirements. See Note 5 "Cash, Cash Equivalents and Investments."

Warren County has invested funds in State Treasury Asset Reserve of Ohio (STAR Ohio) during 2013. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2013. The County also has several liquid asset management accounts. These accounts have been restricted to U.S. Treasury and agency security investments only, with the exception of the Fifth Third Liquid Investment Account which can invest up to 10% in commercial paper as long as it is rated A1P1.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. <u>Inventory of Supplies</u>

Inventory is stated at cost (first-in, first-out) in the governmental funds, and at the lower of cost (first-in, first-out) or market in the proprietary funds. The costs of inventory items are recorded as expenditures in the governmental funds when purchased and expenses in the proprietary funds when used.

I. <u>Prepaid Water Contract</u>

The County has entered into a contract with Cincinnati Waterworks to provide water to the County that will benefit periods beginning in 2000 until December 31, 2025. This item is recorded as a prepaid water contract in the Water Fund (enterprise) using the consumption method. This will reflect the current asset amount as a prepaid item and the expense in the year in which it is consumed.

J. <u>Prepaid Items</u>

Payments made to vendors for services that will benefit periods beyond December 31, 2013 are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

K. Capital Assets and Depreciation

Capital assets defined by the County have the following characteristics:

- Real or personal property, tangible in nature, possesses physical substance, including equipment, vehicles, land and land improvements actual or estimated cost ten thousand dollars or greater
- Buildings, structures, building improvements or infrastructure actual or estimated cost one hundred thousand dollars or greater
- Identifiable intangible permanent right-of-ways
- Identifiable intangible software, purchased or internally generated cost of one hundred thousand dollars or greater
- Expected useful life longer than five years

1. Property, Plant and Equipment - Governmental Activities

Governmental Activities capital assets are those not directly related to the business type funds. These generally are acquired or constructed for governmental activities and are recorded as expenditures in the governmental funds and are capitalized at cost or estimated historical cost for assets not purchased in recent years.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. <u>Capital Assets and Depreciation</u> (Continued)

1. Property, Plant and Equipment - Governmental Activities (Continued)

Estimated historical costs for governmental activities capital asset values were initially determined by identifying historical costs when such information was available. In cases where information supporting original cost was not obtainable, estimated historical costs were developed. For certain capital assets, the estimates were arrived at by indexing estimated current costs back to the estimated year of acquisition.

Application development expenses for internally developed software have been capitalized. Implementation/operation activities are expensed.

Capital assets include land (including permanent easements), construction in progress, land improvements, buildings, structures and improvements, furniture, fixtures and equipment (including computer software), and infrastructure. Infrastructure is defined as long-lived capital assets that normally are stationary in nature and normally can be preserved for a significant number of years. Examples of governmental activities infrastructure include roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems. These assets are reported in the Governmental Activities column of the Government-wide Statement of Net Position, but they are not reported in the Fund Financial Statements.

2. Property, Plant and Equipment - Business Type Activities

Proprietary funds capital assets are stated at cost (or estimated historical cost), including interest capitalized during construction and architectural and engineering fees where applicable. Contributed capital assets are recorded at fair market value at the date received. Proprietary funds capital assets are similar to Governmental Activities capital assets with the exception of the infrastructure. Proprietary infrastructure consists of water and sewer lines, whereas Governmental Activities infrastructure consists of roads and bridges. These assets are reported in both the Business-Type Activities column of the Government-wide Statement of Net Position and in the respective funds.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Capital Assets and Depreciation (Continued)

3. Depreciation

Tangible capital assets are depreciated, excluding land and construction in progress, and intangible assets (computer software) costs are amortized. Depreciation and amortization have been provided using the straight-line method over the following estimated useful lives:

| | Governmental and |
|--|---------------------------------|
| | Business-Type Activities |
| Description | Estimated Lives (in years) |
| Land Improvements | 5 - 50 |
| Buildings, Structures and Improvements | 20 - 50 |
| Furniture, Fixtures and Equipment | |
| (Including Computer Software) | 5 - 25 |
| Infrastructure | 15 - 100 |

L. Capitalization of Interest

The County's policy is to capitalize interest for proprietary (enterprise) fund construction projects until the project is substantially completed. Capitalized interest on proprietary fund construction is amortized on a straight-line basis over the estimated useful life of the asset. There was no interest capitalized for proprietary funds during 2013.

M. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the enterprise fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, compensated absences paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term notes that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Long-Term Obligations

Long-Term liabilities are being repaid from the following funds:

| Obligation | Fund |
|---|--|
| General Obligation Bonds | Tax Increment Financing Fund Radio System Bonds Fund |
| Special Assessment Bonds | Special Assessment Fund |
| Tax Increment District Revenue Bonds | Tax Increment District Revenue Bond Fund |
| State 166 Loan | Tax Increment Financing Fund |
| Ohio Public Works Commission Loan | State OPWC Loan Fund |
| Ohio Water Development Authority Loans | Water Fund Sewer Fund |
| Compensated Absences | General Fund Human Services Fund Board of Developmental Disabilities Fund Crime Victim Grant Fund Municipal Victim Witness Fund Workforce Investment Act Fund Water Fund Sewer Fund Storm Water Fund Sheriff Revolving Fund Health Insurance Fund Workers' Compensation Self Insurance Fund |

O. Bond Premiums/Discounts

Bond discounts when applicable for governmental and proprietary fund types are deferred and amortized over the term of the bonds using the bonds-outstanding method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable and bond premiums are recorded as an increase to the face amount of bonds payable.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

P. Compensated Absences

In accordance with GASB Statement No. 16, "Accounting for Compensated Absences," vacation and compensatory time are accrued as liabilities when an employee's right to receive compensation is attributable to services already rendered and it is probable that the employee will be compensated through paid time off or some other means, such as cash payments, at termination or retirement. Leave time that has been earned but is unavailable for use as paid time off or as some other form of compensation because an employee has not met the minimum service time requirement, is accrued to the extent that it is considered to be probable that the conditions for compensation will be met in the future.

Sick leave is accrued using the vesting method, whereby the liability is recorded on the basis of leave accumulated by employees eligible to receive termination payments as of the balance sheet date, and on leave balances accumulated by other employees expected to become eligible in the future to receive such payments.

For governmental funds, that portion of unpaid compensated absences that is due and payable as of year-end using expendable, available resources is reported as an expenditure in the fund from which the individual earning the leave is paid, and a corresponding liability is reflected in the account "Compensated Absences Payable." In the government wide statement of net position, "Compensated Absences Payable" is recorded within the "Due within one year" account and the long-term portion of the liability is recorded within the "Due in more than one year" account. Compensated absences are expensed in the proprietary funds when earned and the related liability is reported within the fund.

Q. Grants and Other Intergovernmental Revenues

Local governmental fund revenues are recorded as receivables and revenue when measurable and available. Assistance awards made on the basis of entitlement are recorded as intergovernmental receivables and revenues when entitlement occurs. Federal and State reimbursement-type grants for the acquisition or construction of capital assets in Proprietary funds are receivables and capital contributions when the related expenses are incurred.

All other Federal and State reimbursement-type grants are recorded as receivables and revenues when the related expenditures/expenses are incurred.

R. Restricted Cash and Cash Equivalents with Fiscal Agent

Restricted cash and cash equivalents with fiscal agent reported in the Water Fund (Business-Type Activities) represent escrow funds for retainage that will be released to contractors once projects are finalized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

S. Pensions

The provision for pension costs are recorded when the related payroll is accrued and the obligation is incurred.

T. Operating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services for water treatment and distribution, wastewater collection and treatment, policing services to other governments and communications maintenance services. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

U. Special Assessments

The County reports Special Assessment bonds in the governmental activities on the entity wide statement of net position. These bonds are secured by liens on assessed properties and are also backed by the full faith and credit of the County. Special assessment debt service payments are recorded in the Special Assessment Fund. Capital outlay financed by special assessments are recorded in the Capital Projects Funds.

V. <u>Self-Funded Insurance</u>

The County is self-funded for employee health care, prescription, dental, vision and workers' compensation benefits. The programs are administered by United Health Care, Express Scripts, Dental Care Plus, VSP and Sedgwick CMS, Inc. which provide claims review and processing services. For health care, prescription, dental and vision, each County fund is charged for its proportionate share of covered employees. The County records a liability in claims payable for incurred but unreported claims at year-end based upon an analysis of historical claims and expenses. For workers' compensation, each County fund is charged for actual claims paid plus administrative fees based upon number of employees per department.

W. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

X. Fund Balance

<u>Classification of Fund Balance</u> – In accordance with GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions," the County's fund balance is divided into five classifications based primarily on the extent to which the County must observe constraints imposed upon the use of its governmental fund resources. The classifications are as follows:

<u>Nonspendable</u> – The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

<u>*Restricted*</u> – Fund balance is restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.

<u>Committed</u> – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of County Commissioners. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> – Assigned fund balance classification balances are intended to be used by the County for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of County Commissioners.

<u>Unassigned</u> – Unassigned fund balance is the residual classification for the General Fund and includes amounts not included in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The County applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Y. <u>Net Position</u>

Net position represents the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets net of accumulated depreciation, and net of outstanding balances of any borrowings related to the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The County applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

Z. <u>Deferred Inflows of Resources</u>

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. On the government-wide statement of net position and governmental funds balance sheet, property taxes that are intended to finance future fiscal periods are reported as deferred inflows. In addition, the governmental funds balance sheet reports deferred inflows which arise only under a modified accrual basis of accounting. Accordingly, the item, *unavailable amounts*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable amounts for delinquent property taxes, income taxes, special assessments, and state levied shared taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

NOTE 2 – DEFICIT FUND EQUITIES

At December 31, 2013, the following funds had deficit fund/net position balances:

| Fund | Deficit |
|---------------------------|-----------|
| Capital Projects: | |
| County Road Projects Fund | \$405,523 |
| Airport Construction Fund | 316,069 |
| Enterprise Fund: | |
| Sheriff Fund | 167,497 |

The fund/net position deficit arises from the recognition of expenditures on the modified accrual basis/accrual basis, which are greater than expenditures/expenses recognized on the budgetary/cash basis. The deficit does not exist under the cash basis of accounting. The General Fund provides transfers when cash is required, not when accruals occur.

NOTE 3 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. <u>Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position</u>

The governmental fund balance sheet includes reconciliation between fund balance – total governmental funds and net position of governmental funds as reported in the government-wide statement of net position. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

| Shared Revenues | 7,389,084 |
|--|--------------|
| Interest Revenue | 174,387 |
| Special Assessment Revenue | 11,740,826 |

B. <u>Explanation of certain differences between the governmental fund statement of revenues,</u> <u>expenditures, and changes in fund balances and the government-wide statement of activities</u>

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental activities as reported in the government – wide statement of activities. The following is a detailed listing of those reconciling items that are net adjustments or a combination of several transactions:

| Amount by which capital outlay exceeded depreciation in the current period: | | |
|---|----------------|--|
| Capital Outlay | 10,616,428 | |
| Capital Contributions | 119,927 | |
| Depreciation Expense | (4,564,048) | |

| Issuance of 2013 Special Assessment Bond | (311,000) | |
| | (\$5,158,874) | |
| Expenses not requiring the use of current financial resources: | | |
| Increase In Compensated Absences Payable | (\$231,188) | |
| Decrease in supplies inventory | (89,448) | |
| | (\$320,636) | |

NOTE 4 – FUND BALANCE CLASSIFICATION

Fund balance is classified as nonspendable, restricted, committed, assigned, and unassigned based primarily on the extent to which the County is bound to observe constraints imposed upon the use of the resources in the governmental funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

| Fund Balances | General | Senior Citizens Service Levy | Board of Developmental Disabilities | Special Assessments | County Road Projects | County Construction Projects | Other Governmental Funds | Total Governmental Funds |
|---|--------------|------------------------------------|---|------------------------|----------------------------|------------------------------------|--------------------------------|--------------------------------|

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS

The County Treasurer combines a majority of cash resources of the individual funds to form a pool of cash and investments. Each fund type's portion of this pool is displayed on the combined balance sheet as "Cash, Cash Equivalents and Investments." Investments are reported at fair value, which is based on quoted market prices. Ohio law requires the classification of funds held by the County into two categories.

Active monies are public monies determined to be necessary to meet current demand upon the County Treasury. Active monies must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawn on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the County identified as not required for use of current expenses. Inactive deposits must either be evidenced by certificates of deposit, savings or deposit accounts including, but not limited to, passbook accounts or bonds.

Ohio law, under Ohio Revised Code Section 135.35, permits inactive monies to be deposited or invested in the following:

- United States Treasury notes, bills, bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal or interest by the United States;
- Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above, provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
- Bond and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County;
- Time certificates of deposit or savings or deposit accounts, including, but not limited to, passbook accounts;

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

- No-load money market mutual funds consisting exclusively of obligations described in the first two bullets of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- The State Treasury Asset Reserve of Ohio (STAR Ohio);
- Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange either securities described in (1) or (2) above or cash or both securities and cash, equal value for equal value;
- High grade commercial paper in an amount not to exceed 25 percent of the County's total average portfolio; and
- Bankers acceptances for a period not to exceed 180 days and in an amount not to exceed 25 percent of the County's total average portfolio.

The County invests in United States Treasury obligations and eligible guaranteed obligations of the United States, the State Treasury Asset Reserve of Ohio (STAR Ohio), certificates of deposit, commercial paper and mutual funds which are invested exclusively in United States obligations. All investments comply with the limitations with respect to length of maturities contained in Chapter 135 of the Ohio Revised Code (The Uniform Depository Act). The maximum maturity of any investment of the County will be five years. The County interprets the limit on federal guaranteed investments and all legal investments very conservatively.

At December 31, 2013, the County did not own any derivative type investments, interest only investments, collateralized mortgage obligations, commercial paper or reverse repurchase agreements. The County Treasurer has attended special training in all of the investment areas to assure compliance with the strictly conservative philosophy of the County. All investments are transacted with banks the County believes to be reputable or other financial institutions operating in the State of Ohio that are well versed in the statutory restrictions Ohio political subdivisions operate under and also have an understanding of the County investment requirements.

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

A. Deposits

Custodial credit risk is the risk that in the event of bank failure, the government's deposits may not be returned. Warren County's policy as it relates to custodial credit risk is to follow the Ohio Revised Code chapter 135 as well as to practice sound financial management principles focusing on diversification of deposits. Protection of County cash and deposits is provided by the Federal Deposit Insurance Corporation (FDIC) as well as qualified securities pledged by the institution holding the assets. Ohio Law requires that deposits be placed in eligible banks or savings and loan associations located in Ohio (except as provided in law for STAR Plus and Certificate of Deposit Account Registry Service-CDARS accounts). Any public depository in which the County places deposits must pledge as collateral eligible securities of aggregate market value equal to the excess of deposits not insured by the FDIC. The securities pledged as collateral are pledged to a pool for each individual financial institution in amounts equal to at least 105% of the carrying value of all public deposits held by each institution. Obligations that may be pledged as collateral are limited to obligations of the United States and its agencies and obligations of any state, county, municipal corporation or other legally constituted authority of any other state, or any instrumentality of such county, municipal corporation or other authority. Collateral is held by trustees including the Federal Reserve Bank and designated third party trustees of the financial institutions.

At year end the carrying amount of the County's deposits was \$27,908,311 and the bank balance was \$26,305,821. Federal depository insurance covered \$2,912,722 of the bank balance and remaining deposits were collateralized as follows: pledged collateral, held in the County's name by the financial institution's trust department, in the amount of \$7,750,000, pooled collateral, consisting of securities held by the Federal Reserve Bank in the name of the pledging financial institution or institution's trust department but not in the County's name, in the amount of \$15,643,099. The County had \$1,559,385 in undeposited cash on hand at December 31, 2013 which is included as Cash and Cash Equivalents on the balance sheet.

B. Investments

The County's investments are detailed below and are categorized to give an indication of the level of risk assumed as of year-end.

| | | Average Weighted Days |
|---|---------------|--------------------------|
| | Fair Value | to Maturity |
| Government Sponsored Enterprise Investments | \$138,927,904 | 906.90 |
| STAR Ohio | 4,398,343 | 0.03 |
| U.S. Government Bonds | 1,036,699 | 0.04 |
| Treasury Notes | 1,366,766 | 1.25 |
| Ohio Municipal Bonds | 1,390,887 | 2.17 |
| County Government Bonds | 4,015,095 | 168.63 |
| Total Investments | \$151,135,694 | 1,079.02 |

NOTE 5 - CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

B. <u>Investments</u> (Continued)

Interest Rate Risk – The Ohio Revised Code generally limits security purchases to those that mature within five years of settlement date. The current County Investment and Depository Policy has been expanded from its previous three year maturity position to a five year maturity position (mirroring the Ohio Revised Code). This new investment tool allows the County the opportunity to "lock in" a portion of its investments at higher rates for a longer period of time, when interest rates are at their peak during an interest rate cycle.

Credit Risk - The County follows the Ohio Revised Code (ORC) which limits the amount of credit risk it's going to allow any county to become involved in. It accomplishes this by compiling a specific list of investments, to the exclusion of all other investments, which counties are legally allowed to participate in. The County further minimizes its credit risk by placing most of its available funds in obligations of the US Government or its Agencies; STAR Ohio, which is comprised mostly of US Government and Agency obligations and is specifically authorized and endorsed by the Ohio State Treasurer; as well as local bank CD's, which are collateralized by US Government and Agency obligations. The County also invests in Money Market Funds that are invested solely in US Treasuries. Even though Commercial Paper is an ORC authorized investment, because it is associated with higher credit risk, the County has specifically and significantly limited its use in the County's portfolio and at December 31, 2013 did not have any Commercial Paper investments. The County's investments at December 31, 2013 in FFCB, FHLB, FHLMC, FAMCA, FNMA, are rated AA+ by Standard and Poor's. Its investment in STAR Ohio is rated AAAm by Standard and Poor's. Obligations of the US Government are explicitly guaranteed by the US Government and are not considered to have credit risk. The investment in Warren County Special Assessment Bonds are rated Aa1 based upon the County's credit rating.

Concentration of Credit Risk – The County places no limit on the amount the County may invest in one issuer. Of the County's total investments, 5.13% are FFCB, 14.93% are FHLB, 15.03% are FHLMC, 55.91% are FNMA, 0.92% are FAMCA, 2.91% are STAR Ohio, 0.69% are US Government Bond Money Market Fund, 0.90% are US Treasury Notes, 0.92% are Municipal Government Bonds and 2.66% are Warren County Special Assessment Bonds.

Cash and cash equivalents in the amount of \$267,237 for the component unit, Production Services Unlimited, Inc. (PSU), are considered active funds for immediate use maintained either as cash or in depository accounts payable or able to be withdrawn on demand. At year-end the carrying amount of PSU deposits was \$267,237 and the bank balance was \$291,813. Federal depository insurance covered \$291,813 of the bank balance.

Cash and cash equivalents in the amount of \$6,937,439 for the component unit, Transportation Improvement District (TID), are considered active funds for immediate use maintained either as cash or in depository accounts payable or able to be withdrawn on demand. At year-end the bank balance was \$6,999,149. Federal depository insurance covered \$250,000 of the bank balance. The remaining \$6,749,149 was collateralized by securities pledged by the institution holding the assets.

NOTE 6- TAXES

A. Property Taxes

Property taxes include amounts levied against all real, public utility, and tangible personal property located in the County. Taxes from real property (other than public utility) collected during 2013 were levied after October 1, 2012 on assessed values as of January 1, 2012, the lien date. Assessed values are established by the County Auditor at 35% of appraised market value. All property is required to be revalued sexennially with a triennial update. Real property taxes are payable annually or semi-annually. If paid annually, payment is due February 25; if paid semi-annually, the first payment is due February 25, with the remainder payable by July 15. In certain circumstances, state statute permits earlier or later payment dates to be established.

The State of Ohio enacted a Commercial Activity Tax (CAT) effective in 2006 and subsequently has phased out the Tangible Personal Property Tax. Local revenues lost were reimbursed from the CAT until 2011.

Public utility tangible personal property taxes collected in one calendar year are levied in the preceding year on assessed values as of January 1 of that preceding year, the lien date. Public utility tangible personal property currently is generally assessed by the Ohio Tax Commissioner at various assessment rates depending on the type of utility & type of property. Public utility property taxes are payable on the same dates as real property taxes described previously.

The County Treasurer collects property taxes on behalf of all taxing districts in the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected with final settlement in April and September for taxes payable in the first and second halves of the year, respectively. The full tax rate of all County operations for the year ended December 31, 2012 was \$7.78 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which the 2013 property tax levy was based totaled \$5,555,934,000 which was comprised of \$5,277,228,210 in real property, and \$278,705,790 in public utility personal property.

Ohio Law prohibits taxation of property from all taxing authorities in excess of 10 mills of assessed value without a vote of the people. Under current procedure, the County's un-voted share of the 10 mills is 2.57 mills of assessed value. The County is levying the full 2.57 mills on assessed value.

B. Other Taxes

In addition to property taxes, certain other taxes are recognized as revenue by the County. These taxes include the 1% County levied sales tax, gasoline taxes, property transfer tax, casino tax and miscellaneous other taxes which have various lien, levy and collection dates.

NOTE 7 - RECEIVABLES

Receivables at December 31, 2013, consisted of taxes, interfund, accounts, special assessments, interest, HOME Investment Partnership Program and Community Development Block Grant Program loans and intergovernmental receivables arising from shared revenues. All receivables are considered collectible in full.

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances are expected to be repaid within one year or less. The following balances at December 31, 2013 represent interfund loans receivable and payable:

| | Interfund | Interfund Loans | | |
|---------------------------|-------------|-----------------|--|--|
| | Receivables | Payables | | |
| Governmental Funds: | | | | |
| General Fund | \$399,773 | \$0 | | |
| County Road Projects Fund | 0 | 3,295,653 | | |
| Other Governmental Funds | 3,295,653 | 399,773 | | |
| Total Interfund Loans | \$3,695,426 | \$3,695,426 | | |

Interfund loans purpose is to allow some funds to operate and pay vendors timely with cash while awaiting anticipated revenue. Loans are often used as a means of short-term financing for assessment projects and as a way to cash flow funds that are specifically for reimbursable grants.

NOTE 8 - INTERFUND RECEIVABLES AND PAYABLES (continued)

The following balances at December 31, 2013, represent interfund receivables and payables:

| | Interfund | | |
|--|-----------------|-------------|--|
| | Due From Due To | | |

| Total Enterprise Funds | 25,108 | 37,192 | |
| Internal Service Funds | 110,027 | 0 | |
| Total Interfund Receivables and Payables | \$253,480 | \$253,480 | |

Interfund receivables and payables purpose is to account for amounts due between different funds for billings such as postage, telephone, vehicle maintenance, gasoline, drug testing, workers compensation charge-backs and unemployment charge-backs.

NOTE 9 - TRANSFERS

The following balances at December 31, 2013 represent transfers in and transfers out:

| Fund | Transfer In | Transfer Out |
|-----------------------------------|--------------|--------------|
| Governmental Funds: | | |
| General Fund | \$0 | \$11,478,125 |
| Special Assessment Fund | 1,500 | 0 |
| County Road Projects Fund | 882,217 | 1,486 |
| County Construction Projects Fund | 5,307,626 | 0 |
| Other Governmental Funds | 5,381,551 | 893,283 |
| Total Governmental Transfers | 11,572,894 | 12,372,894 |
| Proprietary Funds: | | |
| Internal Service Funds | 800,000 | 0 |
| Total Transfers | \$12,372,894 | \$12,372,894 |

The principal purpose for interfund transfers is to provide additional funding for current operations of certain Special Revenue funds, to segregate money for construction of capital assets and to pay government obligation debt.

Construction in Progress:

Construction in progress in the enterprise funds for costs incurred as of December 31, 2013 total \$7,384,308. This amount is comprised of the following projects:

| North/South Interconnecting Water Mains | \$4,156,465 |
|--|-------------|
| North Water System Booster Station Upgrade | 1,563,547 |
| Union Road Waterline Oversizing | 489,826 |
| Various Other Water Projects | 447,825 |
| Various Other Sewer Projects | 726,645 |
| Total Construction in Progress | \$7,384,308 |

The Water and Sewer Department strives to stay ahead of the demands for water and sewer services in Warren County. During the past three years there was very little new development and it gave the Water and Sewer Department the opportunity to make much needed upgrades to some aging facilities. The following projects are in the various stages of construction:

<u>North-South Interconnecting Waterline</u> - The County is constructing approximately 5 miles of 24inch waterline extending from the intersection of Winding River Boulevard and State Route 48 North following Turtlecreek Road, to the intersection of Columbia Road and US Route 42. This project has been quite challenging as it included installation of a waterline under the Little Miami River. This waterline will help meet the future demands in the southern portion of the County and allow the County to convey water from the North Water Treatment Plant on Franklin Trenton Road to areas of Deerfield and Hamilton Township. Project costs are estimated to be around 4.2 million dollars.

<u>North Water System Booster Station Upgrade</u> – This project includes major upgrades to several of the County's water facilities in the Franklin-Clearcreek area. The upgrades include an expansion of the County's north well field from 8.6 to 10.8 million gallons per day (mgd), construction of a new Shelly Street pump station with a design capacity of 15 mgd, and upgrades to the Dearth Road pump station. Project costs are estimated to be around 7.2 million dollars.

<u>Union Road Waterline Oversizing</u> – In order to enable a second water distribution main to be installed to feed the northern Deerfield Township area, the County requested that the Private Developer install an oversized 6,492 feet of water main along Union Road to accommodate future water demands. Pursuant to the Rules and Regulations of the Water and Sewer Department, the Board may participate in the difference in cost for the increased size of water mains. Project costs are estimated to be around \$500,000 dollars.

Construction in Progress: (Continued)

<u>Various Other Water & Sewer Projects</u> - The County has various other Projects including the Manchester Road Waterline Relocation which includes replacing 2,200 feet of deteriorated 8-inch water main. This section of main is the most problematic area for the Water Department due to the high number of breaks. This project will be financed using Ohio Public Works Commission and Water Department funds. The County is also making upgrades to the sanitary sewer collection system serving the Village of Harveysburg. This project will replace the 50 Spring lift station, eliminate the Clark Street lift station, and provide upgrades to the Maple Avenue lift station. This project will be financed using Ohio Public Works Commission and Water Department funds.

NOTE 11 - DEFINED BENEFIT PENSION PLANS

All of the County's full-time employees participate in one of two separate retirement systems which are cost-sharing multiple employer defined benefit pension plans.

A. Ohio Public Employees Retirement System (the "OPERS")

The following information was provided by the OPERS to assist the County in complying with GASB Statement No. 27, "Accounting for Pensions by State and Local Government Employers."

All employees of the County, except teachers at the Board of Developmental Disabilities, participate in the OPERS, a multiple-employer public employee retirement system. OPERS administers three separate pension plans. The Traditional Pension Plan is a cost sharing, multiple employer defined benefit pension plan. The Combined Plan is also a cost sharing, multiple employer defined benefit pension plan where employer contributions are invested by OPERS to provide a formula retirement benefit similar in nature to the Traditional Pension Plan and member contributions are self-directed and accumulate retirement assets equal to the value of member contributions plus any investment earnings. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions to accumulate retirement assets equal to the value of contributions plus any investment earnings. The OPERS provides retirement, disability, survivor and death benefits and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post employment health care coverage. Chapter 145 of the Ohio Revised Code provides statutory authority to establish and amend benefits. The Ohio Public Employees Retirement System issues a stand-alone financial report that includes financial statements and required supplementary information for the OPERS. Interested parties may obtain a copy by making a written request to 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-6705 or 1-800-222-7377.

NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

A. Ohio Public Employees Retirement System (the "OPERS") (Continued)

The Ohio Revised Code provides statutory authority for employee and employer contributions. For 2013, member and employer contribution rates were consistent across all three plans. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only in the Traditional Pension Plan. The employee contribution rate for employees other than law enforcement is 10%. Law enforcement officers in the County Sheriff's department contribute 12.60% of covered salary. The 2013 employer contribution rate for local government employer units was 14% of covered payroll. Of this amount, for members of both the Traditional Plan and Combined Plan, 13% was used to fund the pension and 1% to fund health care for 2013. For law enforcement, the employer contribution rate was 18.10% of covered payroll. Of this amount, 17.10% was used to fund the pension and 1% to fund health care.

The contribution requirements of plan members and the County are established and may be amended by the Ohio Public Employees Retirement Board. The County's contribution to the OPERS for the years ending December 31, 2013, 2012, and 2011 were \$7,029,513, \$6,939,207, and \$6,819,732, respectively, for employees of the County and \$1,241,071, \$1,194,052, and \$1,148,026, respectively, for law enforcement officers, which were equal to the required contributions for each year.

The OPERS provides post employment health care benefits to age and service retirants under the Traditional Pension and Combined Plans with ten or more years of qualifying Ohio service credit. Health care coverage for disability recipients and qualified survivor benefit recipients is also available. The health care coverage provided by the OPERS is considered an Other Post Employment Benefit (OPEB) as described in GASB Statement No. 45. A portion of each employer's contribution to the OPERS is set-aside for the funding of post retirement health care.

The Ohio Revised Code provides statutory authority requiring public employers to fund post employment health care through their contributions to the OPERS. The portion of the 2013 employer contributions (identified above) for employees other than law enforcement used to fund health care was \$501,907. For law enforcement employees, the portion used to fund health care amounted to \$68,507.

Changes to the health care plan were adopted by the OPERS board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the recent passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4% of the employer contributions toward the health care fund after the end of the transition period.

NOTE 11 – DEFINED BENEFIT PENSION PLANS (Continued)

B. State Teachers Retirement System of Ohio (STRS of Ohio)

The teachers who work for the Board of Developmental Disabilities participate in the State Teachers Retirement System of Ohio (STRS), a cost-sharing, multiple employer retirement system administered by the State Teachers Retirement Board.

STRS administers three separate pension plans. The Defined Benefit Plan is a cost sharing multiple-employer defined benefit pension plan. Benefits are established under Chapter 3307 of the Revised Code. The Defined Contribution Plan allows the member to allocate the member and employer contributions among various investment choices. Plan benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. The Combined Plan allows members to allocate their contributions to their selected investment choices and the employer contributions are used to fund a defined benefit payment. STRS provides basic retirement benefits, disability, survivor and health care benefits based on eligible service credit to members and beneficiaries. Members of the Defined Contribution plan are not eligible for health care benefits. STRS issues a stand-alone financial report that includes financial statements and required supplementary information for the STRS of Ohio. Interested parties may obtain a copy by making a written request to STRS Ohio, 275 E. Broad Street, Columbus, Ohio 43215-3371 or by calling (614) 227-4090, or by visiting the STRS Ohio Web site at www.strsoh.org.

The Ohio Revised Code provides statutory authority for County and employee contributions. The contribution requirements of plan members and the County are established and may be amended by the State Teachers Retirement Board, upon recommendation of its consulting actuary, not to exceed statutory maximum rates of 10% for members and 14% for employers. For fiscal year ended June 30, 2013, 13% was the portion of County contribution used to fund pension obligations. The County's contributions to the STRS of Ohio for the years ending December 31, 2013, 2012 and 2011 were \$16,762, \$20,831, and \$23,738, respectively, which were equal to the required contributions for each year.

STRS provides access to health care coverage to retirees who participated in the Defined Benefit or Combined Plans and their dependents. Coverage includes hospitalization, physicians' fees, prescription drugs, and partial reimbursement of monthly Medicare Part B premiums. Pursuant to the Revised Code, the State Teachers Retirement Board has discretionary authority over how much, if any, of the health care cost will be absorbed by STRS. All benefit recipients are required to pay a portion of the health care cost in the form of a monthly premium.

Benefits are funded on a pay-as-you-go basis through an allocation of employer contributions to a health care stabilization fund equal to 1% of covered payroll for 2013. The portion of the 2013 employer contributions (identified above) used to fund health care for fiscal year 2013 amounted to \$168.

NOTE 12 - COMPENSATED ABSENCES

The costs of vacation and sick leave benefits are recorded as they are earned. Employees earn vacation leave at varying rates based upon length of service. Sick leave is accumulated at a rate of four and six tenths hours per eighty hours of bi-weekly service and pro-rated for hours less than eighty. Sick leave is cumulative without limit.

At December 31, 2013, the County's accumulated, unpaid compensated absences amounted to \$6,094,482. Of this amount, \$5,126,985 is recorded as Governmental Activities on the Entity Wide Statement of Net Position (\$360,023 is reported as due within one year), \$967,497 is recorded as Business-type activities (\$32,870 is reported as due within one year).

At December 31, 2013 the liability recorded as Governmental Activities within the Statement of Net position representing unpaid vacation time, sick leave and compensatory time was as follows:

| | | | Amount Due |
|-------------------|---------|-------------|-----------------|
| | Hours | Balance | Within One Year |
| Vacation Time | 125,152 | \$2,956,985 | \$194,312 |

NOTE 13 – NOTES PAYABLE

The County has pledged its full faith and credit as collateral for the general obligation notes. In 2013 the County issued an \$800,000 Tax Increment Revenue Note for public infrastructure improvements related to the Tax Increment Financing Program in place for Miami Valley Gaming & Racing, LLC. Ohio law permits the issuance and renewal of bond anticipation notes such that the notes may remain outstanding for twenty years consecutively before such notes must be retired either from available funds of the County or from the proceeds of bonds issued to redeem the anticipation notes. If such notes and renewal of such notes remain outstanding for a period in excess of five years, any such period in excess of five years must be deducted from the permitted maximum maturity of the bonds anticipated. Furthermore, a certain portion of the principal amount of such notes must be retired in the amounts and at the times that would have been required for the payment of principal maturities on the bonds anticipated as if the bonds had been issued at the expiration of the initial five year period.

| | Balance January 1, 2013 | Issued | (Retired) | Balance December 31, 2013 |
|---|-------------------------------|-----------|-----------|---------------------------------|
| Primary Government General Obligation Note: | | | | |
| 1.00% Tax Increment Revenue Note | \$0 | \$800,000 | \$0 | \$800,000 |
| Total Notes Payable | \$0 | \$800,000 | \$0 | \$800,000 |

NOTE 14 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS

General obligation bonds are secured by the County's ability to levy a voted or unvoted property tax within limitations of Ohio law.

During 2013 Radio System Acquisition Bonds were issued to finance the acquisition of a radio system to assist the police and fire departments throughout Warren County.

In 1994 a State 166 Loan was issued in lieu of additional TIF bonds to assist with infrastructure costs in conjunction with the building of the Procter & Gamble Health Care Research Center. The State 166 Loan accrued interest monthly from March of 1994 through February of 2008. The annual accrued interest amount was added to State 166 Loan Payable. The first payments on the State 166 Loan debt began in March of 2008 and will continue through 2018.

The 2005 Tax Increment Financing (TIF) Refunding Bond was issued as a general obligation bond. The TIF was originally issued to finance water system improvements in the county, including expanding the Deerfield-Hamilton Water Treatment Plant and to expand and upgrade the Lower Little Miami Wastewater Treatment Plant.

The 2010 Road and Interchange Bonds were issued to finance the costs of the design and engineering of modifications to the I-71 Fields-Ertel Road/Mason-Montgomery Road interchange and the I-71 Western Row Road interchange.

The State 166 Loan, 2005 TIF Bond and the 2010 Road and Interchange Bonds are being retired from the debt service fund utilizing payments in lieu of taxes received from Proctor and Gamble. A service agreement with Proctor and Gamble provides for minimum annual payments sufficient to satisfy the debt service requirements on these three issues.

Special Assessment Bonds are financed by property tax assessments to affected property owners. However, the County is ultimately responsible for the debt service if the assessments are not collected. Delinquent special assessments related to outstanding special assessment bonded debt at year end was \$38,053.

The principal amount of the County's special assessment debt outstanding at December 31, 2013 of \$9,431,095 is general obligation debt (backed by the full faith and credit of the County). This debt is being retired with the proceeds from special assessments levied against benefited property owners. The County is obligated to repay the debt irrespective of the amount of special assessments collected from property owners. The fund balance of \$575,202 in the Special Assessment Debt Service Fund at December 31, 2013 is reserved for the retirement of outstanding special assessment bonds.

The 2009 Tax Increment District Revenue Bonds were issued to finance the Greens of Bunnell Hill Project. The project involved the purchase of certain streets consisting of a portion of Sandlewood Street, a portion of Scotch Pine Drive, Black Walnut Drive, Ponderosa Court, Juniper Court and Boxwood Court and to reimburse both the County Engineer and Clearcreek Township for the cost of public improvement expenditures made to the site. The Bonds are secured by and payable solely from the revenues generated from the service payments in lieu of taxes generated pursuant to section 5709.77 of the Ohio Revised Code.

NOTE 14 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

The 2012 Ohio Public Works Commission interest-free loans will be used to cover costs incurred for the repairs on the Township Road North Project (\$165,957) and Township Road East Project (\$88,357). The loans will be retired from the debt service fund by semi-annual payments that began in 2012 and will continue through 2032. Funding to retire these loans is provided by revenues of the Motor Vehicle and Gasoline Tax Fund.

In 2005, the Water Department entered into a reimbursing loan agreement with the Ohio Water Development Authority (OWDA) for the expansion of the Deerfield Hamilton Water Supply and Treatment Plant. The loan amount was \$5,000,138 and carries a 2% interest rate. The semi-annual loan payments began in 2010 and will continue through the end of 2029.

In 2010 the Sewer Department secured a twenty (20) year loan with a maximum borrowing of \$15,174,531 at 3.11% interest rate from the Water Pollution Control Loan Fund (WPCLF). The agreement for the loan was entered into with the Ohio Water Development Authority and the Environmental Protection Agency to assist in building the Lower Little Miami Waste Water Treatment Plant Improvements completed in 2013. Payments on the loan began July 1, 2012. The last draw on this loan was in 2012 and the amount borrowed was \$11,990,222 which included \$174,497 in capitalized interest.

The OWDA loans will be retired from the revenues generated by the water and sewer fund.

Under the Uniform Bond Act of the Ohio Revised Code, the County has the capacity to issue \$42.84 million of additional, unvoted general obligation debt.

NOTE 14 - LONG-TERM DEBT AND OTHER LONG-TERM OBLIGATIONS (Continued)

C. Conduit Debt Obligations

In order to provide financial assistance to private sector entities for the acquisition and construction of commercial and industrial facilities deemed to be in the public interest, the County has, from time to time, issued conduit debt. This debt is secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Ownership of the acquired facilities transfers to the private sector entity served by the bond issuance upon repayment of the bonds. Neither the County, the State nor any other political subdivision thereof is obligated in any manner for the repayment of the bonds. Accordingly, the conduit debt is not reported as liabilities in the accompanying financial statements.

As of December 31, 2013 there were seven (7) series of conduit debt outstanding. The aggregate principal amount payable for these series issued prior to January 1, 1996, could not be determined; however, their original issue amounts totaled \$13,350,000. Issue amounts for conduit debt issued after January 1, 1996 are monitored and currently have an outstanding principal debt totaling \$103,748,322 which brings the total conduit debt to \$117,098,322.

NOTE 15 - CAPITAL LEASES

In 2013 the County entered into and also retired a capital lease with Motorola for the acquisition of a radio system to assist the police and fire departments throughout Warren County in the amount of \$8,327,410. This lease was retired by issuing a GO Bond that saved the County 1.445% in interest per year. The County does not have any future capital lease payments.

NOTE 16 - CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

As of December 31, 2013, the County had the following significant construction projects that will be financed through Water Surplus Revenues, Motor Vehicle & Gas Tax Revenues, and Revenues of the General Fund and County Road Projects Fund:

| | Construction | Date of |
|--|--------------|------------|
| Projects | Commitment | Completion |
| North Water System Booster Station Upgrade | \$5,933,660 | 2015 |
| Justice Drive Office Building Project | 5,374,717 | 2014 |
| Butler Warren Road Project | 989,988 | 2014 |
| Fields-Ertel Booster Station Project | 909,531 | 2014 |
| Total | \$13,207,896 | |

NOTE 17 - RELATED PARTY TRANSACTION

Warren County provided salaries for administration, supervision, and facilities to Production Services Unlimited, Inc. (PSU), a discretely presented component unit of Warren County. PSU reported \$279,157 for these contributions, recording revenue and expenses at cost or fair market value, as applicable.

NOTE 18 - CONTINGENCIES

The County is a party to various legal proceedings which seek damages or injunctive relief generally incidental to its operations and pending projects. The County's management is of the opinion that the ultimate disposition of the various claims and legal proceedings will not have a material, adverse effect on the County's financial position.

The County participates in a number of Federal and State assisted grant programs. The significant programs are Workforce Investment Act Grants, Highway Planning & Construction Grants, Formula Grants for Rural Areas, Temporary Assistance for Needy Families, Child Support Enforcement Federal Formula Grant, Title IV-E Foster Care, and Title XIX Medical Assistance. These programs are subject to financial and compliance audits by grantors or representatives. The County believes that disallowed claims, if any, will not have a material adverse effect on the County's financial position.

NOTE 19 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters.

The County Risk Sharing Authority, Inc. (CORSA) is a risk sharing pool made up of sixty-three counties in Ohio. CORSA was formed as an Ohio nonprofit corporation for the purpose of establishing the CORSA Insurance/Self-Insurance Program, a group primary and excess insurance/self-insurance and risk management program. Member counties agree to jointly participate in coverage of losses and pay all contributions necessary for the various specified insurance coverage provided by CORSA. This coverage includes comprehensive general liability, automobile liability, certain property insurance and public officials' errors and omissions liability insurance.

Each member county has one vote on all matters requiring a vote, to be cast by a designated representative. The affairs of the Corporation are managed by an elected board of not more than nine trustees. Only county commissioners of member counties are eligible to serve on the board. No county may have more than one representative on the board at any time. Each member county's control over the budgeting and financing of CORSA is limited to its voting authority and any representation it may have on the board of trustees. CORSA has issued certificates of participation in order to provide adequate cash reserves. The certificates are secured by the member counties' obligations to make coverage payments to CORSA. The participating counties have no responsibility for the payment of certificates. The County does not have an equity interest in CORSA.

NOTE 19 - RISK MANAGEMENT (Continued)

Insurance coverage stayed the same as coverage in the prior year with the exception of an increase in the CORSA deductible from \$2,500 to \$50,000 per occurrence effective May 1, 2012. Settled claims during the last eight years have not exceeded commercial insurance coverage.

The County has a group health insurance program for employees and their eligible dependents. Premiums are paid into an internal service fund by all funds having compensated employees, based upon an analysis of historical claims experience, the desired fund balance and the number of active participating employees. The monies paid into the Health Insurance Fund (internal service fund) are available to pay claims and administrative costs. The plan is administered by a third party administrator, United Health Care, who monitors all claim payments. Excess loss coverage, carried through United Health Care, becomes effective after \$200,000 per year per specific claim.

The total claims liability of \$682,860 comprised of Board of Developmental Disabilities (BDD) and County health insurance, reported (at face value) within the BDD Fund (major special revenue) and the Health Insurance Fund (internal service) at December 31, 2013 is based on the requirements of Governmental Accounting Standards Board Statement No. 10 which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Both funds are reported within the governmental activities on the entity wide statements.

Changes in each of the fund's claims liability amount in 2013 were:

NOTE 20 - INTERGOVERNMENTAL AGREEMENT

The Warren County Board of Commissioners and the Warren County Engineer entered into an intergovernmental agreement with the Warren County Transportation Improvement District (TID). The County has agreed to provide the TID with the annual available Procter & Gamble TIF revenues from the Engineer's County Road Projects Fund until the TIF's expiration in 2022. Such available revenues are estimated to have a future value of approximately \$33.6 million at December 31, 2013.

NOTE 21 - JOINT VENTURE

Warren/Clinton Counties Recovery Services Board

Warren County is a member of Mental Health Recovery Services of Warren and Clinton Counties (MHRS), a joint venture between the two county entities and is the local Alcohol, Drug Addiction, and Mental Health Services (ADAMHS) Board as defined by the Ohio Revised Code. The mission of MHRS is to share hope and caring to achieve recovery from mental illness, alcoholism, and drug addiction.

Effective July 1, 2013 the Ohio Department of Mental Health (ODMH) and the Ohio Department of Alcohol and Drug Addiction Services (ODADAS) merged and became the Ohio Department of Mental Health and Addiction Services (OhioMHAS). This legislation also allowed Boards to elect to move from 18 members to 14 members based on resolution by the Board, approval by the County Commissioners and notification to OhioMHAS by January 1, 2014.

At the September 11, 2013 meeting the Board passed a resolution to move from an 18 member board to a 14 member board whereby 6 members are appointed by OhioMHAS and the remaining 8 are appointed by the Warren County Commissioners and the Clinton County Commissioners. The County Commissioners from both Counties approved the change in membership and OhioMHAS was properly notified. MHRS's main sources of revenue are grants and other allocations from OhioMHAS and a property tax levy in both counties.

MHRS contracts with independent, nonprofit agencies to provide services and programs. The Warren County Auditor and Treasurer maintain MHRS's financial records. Financial statements and the Single Audit Report of Examination are on file and can be obtained by writing to the Warren County Auditor's Office, 406 Justice Drive, Lebanon, Ohio 45036. Pursuant to Section 340.016 of the Ohio Revised Code, any withdrawing county would be required to submit a comprehensive plan that provides for the equitable adjustment and division of debts and obligations of the Joint County District to the State Director of Mental Health.

A summary of the unaudited cash basis financial information for the year ended December 31, 2013 is presented below:

NOTE 22 – JOINTLY GOVERNED ORGANIZATION

Southwest Ohio Regional Council of Governments

The Southwest Ohio Council of Governments was created by the Board of Development Disabilities of Butler, Hamilton, Clermont, and Warren Counties. The Council consists of four members representing each of the four counties. Other County Boards of Development Disabilities may petition for membership to the Council; however, membership must be approved by a two-thirds vote of the Council members. The role of the Council is to coordinate the powers and duties of the member boards to better serve and benefit persons with developmental disabilities within the four counties. The Council serves as its own taxing and debt issuance authority and is a jointly governed organization. During 2013, the County contributed \$5,000 towards the operation of the Southwest Ohio Regional Council of Governments.

NOTE 23 – SIGNIFICANT ENCUMBRANCES

Combining and Individual Fund STATEMENTS AND SCHEDULES

The following combining statements and schedules include the Major and Nonmajor Governmental Funds, Internal Service Funds and Fiduciary Funds.

Nonmajor Governmental Funds

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than amounts relating to major capital projects) that are legally restricted to expenditures for specified purposes.

Motor Vehicle and Gasoline Tax Fund

To account for monies received by the County for state gasoline tax and vehicle registration fees used for County road and bridge repair and improvements programs. Expenditures for township road and bridge work are reimbursed by the townships.

Human Services Fund

To account for various Federal and State grants and reimbursements as well as transfers from the General Fund used for human services programs.

Dog and Kennel Fund

This fund is used to account for fees collected for defraying the cost of administering the registration program, for compensation of the county dog wardens, deputy pound keepers and staff and for the payments of animal claims.

Permissive Tax Fund

To account for municipal motor vehicle permissive tax revenues from the State used for County road and bridge repair and improvement programs.

Real Estate Assessment Fund

To account for State mandated County-wide tax assessing expenses that are funded by charges to the political subdivisions located within the County.

Children's Services Board Fund

To account for various Federal and State grants and reimbursements used for County child care and adoption programs.

Youth Services Subsidy Fund

To account for revenues from the State for the purpose of maintaining a restitution program for juvenile offenders administered by the juvenile court.

Delinquent Real Estate Tax and Assessment Fund

This fund accounts for five percent (5%) of all certified delinquent taxes and assessments collected by the County Treasurer. These funds are used for the collection of delinquent property taxes and assessments and are appropriated one half to the County Treasurer and one half to the County Prosecuting Attorney.

(Continued)

(1) Additional Information on the various bond issues can be found in Note 14.

(2) Gross revenues include operating revenues plus interest income.

(3) Direct operating expenses include operating expenses less depreciation.

(4) Tap-in fees are the initial fee to new customers for connection to the existing system and are accounted for as nonoperating revenues - capital contributions - tap in fees. The Bond Council for the County is of the opinion that tap-in fees should be included in the calculation for enterprise revenue bond coverage.

(5) In 2005 both the Water and Sewer TIF bonds were refunded. The principal amount of the refunding portion is not reflected in the 2005 principal payment amount when calculating coverage.

 - (a) Data starting in 2004 may be higher/lower than expected due to a change in how companies reported business information from previous years. NAICS codes were utilized for 2004-2008, creating some differences in reporting categories and patterns. Employment Distribution by Occupation Statistics are reflective of January of each year. In 2009 information was gathered from the Employment & Wage Industry Tool, Ohio Dept. of Job and Family Service.
- (2) US Department of Commerce, Bureau of Economic Analysis information is only available through 2009 for the presentation of 2010 statistics, the County is using the latest information available.
- (a) Per Capita Income is only available by County, Total Personal Income is a calculation

- (4) Population numbers in noncensus years are estimated and provided by the US Census Bureau. Population numbers for 2011 and 2012 previously were reported using the actual 2010 US Census Bureau population numbers. These numbers have been changed to reflect the estimated population. This correction resulted in a change to the 2011 and 2012 Total Personal Income (in thousands).

(1) In 2012, 14 of the employees formerly counted in this department, are now having their salaries split between this department and the general fund. They are now included in the general fund counts.

(2) In 2011, several funds were reclassified from a judicial government type to a public safety government type. The reclassification included the following special revenue funds: Youth Service Subsidy, County Court Probation, and Indigent Guarianship. In addition, one general fund department, Common Pleas Probation was also reclassified. This is reflected in the counts for 2004-2011.

- A Information not available
- B Warren County purchases water from other entities, therefore, the amount billed is more than the average daily water treated.
- C Collection year
- D Name changed from Building and Grounds to Facilities Management in 2012.
- E For 2012, the method of counting the number of clients assisted changed from counting every time someone came in during the year for assistance, to counting each client only one time regardless of the number of times they received assistance during the year.
- F Increase in General Warrants is due to the direct deposit of bi-weekly HSA employee contributions to each individual account versus previously issued to bank in one amount & distributed to each account.
- G- Previously, statistics were reported in a cumulative format. For 2013 and prior years, the numbers were corrected to reflect average annual recipients per category based on ODJFS reporting.
