City Council  
City of Marietta  
301 Putnam St  
Marietta, OH 45750

We have reviewed the *Independent Auditor's Report* of the City of Marietta, Washington County, prepared by Perry & Associates, Certified Public Accountants, A.C., for the audit period January 1, 2014 through December 31, 2014. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The City of Marietta is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

## INDEPENDENT AUDITOR'S REPORT

September 25, 2015

City of Marietta  
Washington County  
301 Putnam St.  
Marietta, OH 45750

To the Members of Council:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Marietta**, Washington County, Ohio (the City), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Marietta, Washington County, Ohio, as of December 31, 2014, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Street Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

***Other Matters***

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

*Supplementary and Other Information*

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Award Expenditures presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is also not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected the schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated September 25, 2015, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

**City of Marietta, Ohio**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2014*  
*Unaudited*

---

The discussion and analysis of the City of Marietta's financial performance provides an overall review of the City's financial activities for the year ended December 31, 2014. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the City's financial performance.

### **Financial Highlights**

Key financial highlights for 2014 are as follows:

- In total, net position increased \$5,513,049. Net position of governmental activities increased \$4,238,615. The business-type activities also increased \$1,274,434.
- General governmental revenues accounted for \$12,511,304 in revenue or 52% of all revenues in governmental activities. Program specific revenues in the form of charges for services, grants, contributions, and interest accounted for \$11,661,534 or 48% of total revenues of \$24,172,838.

### **Using this Annual Financial Report**

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City of Marietta as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial conditions.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Major fund statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other nonmajor funds presented in total in one column.

### ***Reporting the City of Marietta as a Whole***

#### *Statement of Net Position and the Statement of Activities*

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during 2014?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by private sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net position and the changes in those assets. This change in assets is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, nonfinancial information such as the condition of City capital assets will also need to be evaluated.

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities:

Governmental Activities - Most of the City's services are reported here including police, fire, administration, and all departments with the exception of our Sewer and Water Funds.

**City of Marietta, Ohio**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2014*  
*Unaudited*

---

Business-Type Activities - Sewer and water services have charges based upon the amount of usage. The City charges fees to recoup the cost of the entire operations of our Sewer and Water Treatment Plants as well as all depreciation associated with the facilities.

***Reporting the City of Marietta's Most Significant Funds***

*Fund Financial Statements*

Fund financial statements begin on page 13. Fund financial reports provide detailed information about the City's major funds. Based upon restrictions on the use of monies, the City has established many funds which account for the multitude of services provided to our residents. However, these fund financial statements focus on the City's most significant funds. In the case of the City of Marietta, our major funds are the General Fund; the Street Special Revenue Fund; the Capital Improvement Capital Projects Fund; and the Sewer and Water Enterprise Funds.

***Governmental Funds*** Most of the City's activities are reported in the governmental funds, which focus on how money flows into and out of those funds and the balances left at year end available for spending in the future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future on services provided to our residents. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled as part of the financial statements.

***Proprietary Funds*** When the City charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds use the same basis of accounting as business-type activities; therefore, these statements will essentially match.

**The City of Marietta as a Whole**

Recall that the Statement of Net Position looks at the City as a whole. Table 1 provides a summary of the City's net position for 2014 compared to 2013.

Restricted	5,805,231	4,961,299	-	-	5,805,231	4,961,299
Unrestricted	1,056,010	972,150	7,251,077	6,547,846	8,307,087	7,519,996
<i>Total Net Position</i>	<u>\$ 35,941,889</u>	<u>\$ 31,703,274</u>	<u>\$ 12,740,000</u>	<u>\$ 11,465,566</u>	<u>\$ 48,681,889</u>	<u>\$ 43,168,840</u>

Total assets increased \$10,268,673. Governmental activities increased \$5,507,608, as well as the business-type activities by \$4,761,065. Total liabilities increased \$4,754,545. Governmental activities increased \$1,267,914 along with the business-type activities of \$3,486,631.

For governmental activities, the municipal income tax receivable increased \$371,191 along with intergovernmental receivables of \$554,879. The City recorded a \$438,604 receivable for ARC grants that it did not record in the previous year. Capital assets also increased \$5,835,834 due mainly to construction in progress additions for the City Hall renovation and street projects. Offsetting these, the equity in pooled cash and cash equivalents decreased \$1,333,977. Current liabilities increased \$377,290 mainly in the area of contracts payable. Long-term liabilities increased \$890,624 due to the issuance of more debt for various City projects.

For business-type activities, equity in pooled cash and cash equivalents increased \$983,825 and capital assets also increased \$3,727,484. Current liabilities decreased \$777,340 as most categories reported small increases and decreases. Most notably, contracts payable decreased \$227,530. Long-term liabilities increased \$4,263,971 due mainly from the issuance of OWDA loans for the waste water treatment plant upgrade. The Sewer OWDA loans liability increased \$2,564,843.

Table 2 shows the changes in net position for the year ended December 31, 2014, and comparisons to 2013.

**Governmental Activities**

Several revenue sources fund our governmental activities, with the City income tax being the biggest contributor. Incomes taxes reported an increase of \$986,546 for 2014. The income tax rate is 1.7 percent. The City monitors this revenue source very closely for fluctuations because it represents 41 percent of all revenues in the governmental activities.

**City of Marietta, Ohio**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2014*  
*Unaudited*

---

Intergovernmental revenues (operating and capital grants) and contributions accounted for 71 percent of all program revenues. These revenues are not generated from the City's own resources. Such revenues are often unpredictable and accompanied by administrative requirements. The lower this percentage, the better in regards to independence.

The largest activity of the City is the general government – legislative and executive program. Included in this program is the activity of the following departments: Council, Mayor, Auditor, Treasurer, Income Tax, Law Director, Engineer, Equipment and Utility Maintenance, Planning, Service Administration, Information Systems, and Land, Buildings, and Parks. This program is primarily funded with general revenues.

Security of persons and property is another major activity of the City, generating 37% of the governmental expenses. During 2014, expenses for police and fire operations amounted to \$3,595,906 and \$3,736,109, respectively. Expenses in these programs increased \$196,305 from 2013. These activities are, for the most part, funded by the municipal income tax. The City attempts to supplement the income and activities of the police department with grants to enable the police department to widen the scope of its activities. The operations of the fire department are also being supplemented by the third-party billings.

Street activities of the City accounted for over 16% of the governmental expenses. Street paving, patching, depreciation, and street lighting expenses during 2014 amounted to \$3,140,710, an increase of \$559,719 from 2013.

***Business-Type Activities***

The City's business-type activities consist of the sewer and water departments. During 2014, the City collected \$848,848 more in charges for services over the previous year but only spent \$13,368 more.

**The City's Funds**

The City's governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$24,319,469 and expenditures of \$26,137,771.

The fund balance of the General Fund increased \$25,702. The General Fund's Unassigned Fund Balance of \$1,655,347 represented 15% of current year expenditures. Most of this balance remains in the City's treasury and is invested.

The fund balance of the Street Fund increased \$687,602. The Street Fund's Restricted Fund Balance of \$857,881 represented 13% of current year expenditures.

The fund balance of the Capital Improvement Fund decreased \$1,245,753. The Fund has a restricted fund balance of \$1,031,240.

During 2014, the Sewer Fund had operating revenues of \$3,709,802 and operating expenses of \$2,714,998. The Water Fund had operating revenues of \$3,830,810 and operating expenses of \$3,327,402. The major operating expenses for these funds are salaries and wages, contractual services, and depreciation on capital assets.

***General Fund Budgeting Highlights***

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. From time to time during the year, the fund's budget may be amended as needs or conditions change.

**City of Marietta, Ohio**  
*Management's Discussion and Analysis*  
*For the Year Ended December 31, 2014*  
*Unaudited*

During the course of 2014, the City amended its General Fund budget several times. Since the legal level of budgetary control is at the object level, any budgetary modifications at this level may only be made by resolution of the Council. All recommendations for a budget change are given to the City Auditor, who processes them when there are sufficient resources to make such a change, and are then sent to the Finance Committee of Council for review before going to the whole Council for Ordinance enactment on the change. Most of the expenditure changes are presented to the City Auditor by the Administration.

In the event that additional revenues are assured, the City Auditor will make a change in the estimated resources and report the same to the County Budget Commission. When the estimated resources are increased, then and only then are the increased resources allowed to be appropriated through Council action.

Original budgeted revenues were increased \$152,774. Charges for services, fines, intergovernmental revenues, and other revenues were increased. The original appropriations were increased \$627,558. All programs were increased except debt service.

The funds of the City are closely monitored and, currently, historical analysis of trends in revenues and expenditures are used to project future revenues and expenditures. In light of the tighter picture of the City's finances, those holding financial positions are using a zero based approach to our appropriations and, consequentially, many adjustments are needed to be made on a bimonthly schedule that coincides with Council actions.

**Capital Assets and Debt Administration**

**Capital Assets**

Note 11 (Capital Assets) provides capital asset activity during 2014. Table 3 shows year 2014 balances compared to 2013.

(Table 3)

**Current Financial Issues**

The City is facing financial pressures like many other forms of government. Our costs are mostly personnel and will comprise over 82% of the General Fund expenditures. The yearly increase in projected personnel costs are projected at nearly 2.5% of current General Fund appropriations.

Five year financial projections show that revenues are not keeping pace with increases in expenditures. Carryovers which have allowed level of services to the general public to remain fairly constant will shrink, thereby causing problematic production of services in the future. Using non-quantifiable revenues in the General Fund produces a level of uncertainty in times of tight financial needs.

Income tax revenues have increased in 2014, as they have for the past three years. Income tax revenues comprise over 64% of the total revenue for the General Fund and over 41% of governmental activities revenues.

**Contacting the City Auditor's Department**

This financial report is designed to provide our citizens, taxpayers, creditors, and investors with an overview of the City's finances and to show the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact Sherri Hess, Marietta City Auditor, 301 Putnam Street, Marietta, Ohio 45750, 740-373-0473.

**City of Marietta, Ohio**  
*Reconciliation of the Statement of Revenues, Expenditures and Changes  
in Fund Balances of Governmental Funds to the Statement of Activities  
For the Year Ended December 31, 2014*

**Net Change in Fund Balances - Total Governmental Funds** \$ (495,756)

**Amounts reported for governmental activities in the statement of activities are different because**

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital Outlay	7,961,213	
Depreciation	<u>(2,123,282)</u>	
Excess of Capital Outlay over Depreciation Expense		5,837,931

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the amount of the proceeds and the gain on the disposal of assets:

Proceeds from Sale of Capital Assets	(14,452)	
Gain on Sale of Capital Assets	<u>12,355</u>	(2,097)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Investment Earnings	(2,033)	
Delinquent Property Taxes	(8,265)	
Charges for Services	(24,435)	
Municipal Income Tax	(1,082)	
Payments in Lieu of Taxes	50,113	
Other Revenues	29,429	
Intergovernmental Revenues	<u>(272,899)</u>	
Total		(229,172)

Interest is reported as an expenditure when due in the governmental funds, but is accrued on outstanding debt on the statement of activities. Premiums are reported as revenues when the debt is first issued; however, these amounts are deferred and amortized on the statement of activities:

Bond Premium Amortization	2,027	
Accrued Interest Payable	<u>9,016</u>	
Total		11,043

Bond and Note proceeds are other financing sources in the governmental funds, but the issuance increases the long-term liabilities on the statement of activities. Governmental funds report the effect of premiums when the debt is first issued; however, these amounts are deferred and amortized on the statement of activities:

Bonds	(3,081,000)	
Premium on Bonds	(55,308)	
Notes	<u>(2,896,600)</u>	
Total		(6,032,908)

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position:

Bonds	177,000	
Notes	4,890,000	
Loans	<u>68,274</u>	
Total		5,135,274

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the funds:

Intergovernmental Payable	20,306	
Vacation and Compensatory Benefits Payable	9,317	
Compensated Absences Payable - Sick Leave	<u>(15,323)</u>	
Total		<u>14,300</u>

**Change in Net Position of Governmental Activities** **\$ 4,238,615**

**NOTE 1 - DESCRIPTION OF THE CITY AND REPORTING ENTITY**

The City of Marietta (the "City") is a body politic, incorporated and established for the purpose of exercising the rights and privileges conveyed to it by the laws of the State of Ohio. The City is organized as a Mayor/Council form of government. Located in Washington County in southern Ohio at the confluence of the Muskingum and Ohio Rivers, Marietta was the first village incorporated in the Northwest Territory. Marietta became a city in 1825. The City serves as the county seat.

The Mayor, Auditor, Treasurer, and Law Director, all with four year terms, and a seven member Council, with two year terms, are elected. Department directors and public members of various boards and commissions are appointed by the Mayor.

**Report Entity**

The financial reporting entity consists of the primary government, component units, and other governmental organizations included to ensure the financial statements of the City are not misleading. Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. No separate government units meet the criteria for inclusion as a component unit.

The City provides various services including police and fire protection, emergency medical, recreation (including parks), planning, zoning, street maintenance and repair, water and water pollution control, and general administrative services. The operation of each of these activities is directly controlled by the Council through the budgetary process. These City operations form the legal entity of the City and are included as the primary government.

The City participates in the Buckeye Hills-Hocking Valley Regional Development District, the Community Action Program Corporation of Washington-Morgan Counties, Ohio, and the Wood, Washington, and Wirt Planning Commission, which are defined as jointly governed organizations. Additional information concerning the jointly governed organizations is presented in Note 20.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The financial statements of the City of Marietta have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The more significant of the City's accounting policies are described below.

**A. Basis of Presentation**

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

***Government-wide Financial Statements*** The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

The statement of net position presents the financial condition of the governmental and business-type activities of the City at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the City's governmental activities and for business-type activities of the City. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the City.

**Fund Financial Statements** During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

**B. Fund Accounting**

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

**Governmental Funds** Governmental funds are those through which most governmental functions of the City are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources, and liabilities and deferred inflows of resources is reported as fund balance. The following are the City's major governmental funds:

**General Fund** The General Fund accounts for and reports all financial resources except those required to be accounted for in another fund. The General Fund balance is available to the City for any purpose, provided it is expended or transferred according to the general laws of Ohio.

**Street Fund** The Street Fund is used to account for that portion of the State gasoline tax and motor vehicle registration fees designated for maintenance of streets within the City.

**Capital Improvement Fund** The Capital Improvement Fund is used to account for income tax revenues and other various sources used for general capital improvements in the City.

The other governmental funds of the City account for grants and other resources whose use is restricted to a particular purpose.

**Proprietary Funds** Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as either enterprise or internal service. The City's proprietary funds are all classified as enterprise funds. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. All of the City's enterprise funds are major funds.

**Sewer Fund** The Sewer Fund is used to account for the revenues generated from the charges for sanitary sewer services provided to the residential and commercial users of the City.

**Water Fund** The Water Fund is used to account for the revenues generated from the charges for distribution of water to the residential and commercial users of the City.

**Fiduciary Funds** Fiduciary fund reporting focuses on net position and changes in net position. There are four categories of fiduciary funds; pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The City's only fiduciary funds are agency funds. The City's agency funds account for bed taxes collected for the Tourist and Convention Bureau, payroll activity, and municipal court collections that are distributed to the State and various local governments.

C. Measurement Focus

**Government-wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net position. The statement of activities accounts for increases (i.e. revenues) and decreases (i.e. expenditures) in total net position.

**Fund Financial Statements** All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all proprietary funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net position. The statement of revenues, expenses and changes in net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total assets. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting; proprietary and fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Non-exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within sixty days of year end.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

Nonexchange transactions, in which the City receives value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the income is earned. Revenue from property taxes is recognized in the year for which the taxes are levied (See Note 8). Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from a nonexchange transaction must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at year end: municipal income taxes, hotel taxes, charges for services, state-levied locally shared taxes (including gasoline tax and motor vehicle license fees), interest, grants, fees, and rentals.

***Deferred Outflows/Inflows of Resources*** In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2014, but which were levied to finance fiscal year 2015 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes, investment earnings, income taxes, payments in lieu of taxes, estate taxes, charges for services, miscellaneous revenues, and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

***Expenses/Expenditures*** On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**E. Budget Process**

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount Council may appropriate. The appropriations resolution is Council's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by Council. The legal level of control has been established by Council at the object level within each department. Any budgetary modifications at this level may only be made by resolution of the City Council.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the City Auditor. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were adopted by Council.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts in the budgetary statements reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by Council during the year.

**F. Cash and Cash Equivalents**

To improve cash management, cash received by the City is pooled. Monies for all funds are maintained in this pool, except for the investments of the customer deposits and the Cemetery Trust Funds which are invested separately. Individual fund integrity is maintained through the City's records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

During 2014, investments were limited to certificates of deposit, which are reported at cost.

Investment procedures are restricted by the provisions of the Ohio Revised Code. Investment earnings credited to the General Fund during 2014 amounted to \$40,696, of which \$38,204 was assigned from other funds.

Investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the City are presented on the financial statements as cash equivalents.

The City has segregated bank accounts for monies held separate from the City's central bank account. These depository accounts are presented in the financial statements as "Cash and Cash Equivalents in Segregated Accounts" since they are not deposited into the City's treasury.

Cash and cash equivalents that are held separately for the City by fiscal agents and not held with the City Treasurer are recorded as "Cash and Cash Equivalents with Fiscal Agents".

**G. Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation.

Restricted assets represent utility deposits from customers that are classified as restricted because their use is limited to the payment of unpaid utility bills or refunding of the deposit to the customer. Unclaimed monies that are required to be held for five years before they may be utilized by the City are reported as restricted.

**H. Inventory**

Inventories are presented at cost on a first-in, first-out basis and are expended/expensed when used. Inventory consists of expendable supplies held for consumption.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

I. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2014, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

J. Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in the governmental funds. General capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The City was able to estimate the historical cost for the initial reporting of infrastructure by back trending (i.e., estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). Donated capital assets are recorded at their fair market value as of the date received. The City maintains a capitalization threshold of five thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All capital assets are depreciated, except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities</u>	<u>Business-Type Activities</u>
Buildings and Improvements	10 - 50 years	40 - 50 years
Machinery and Equipment	5 - 15 years	10 - 15 years
Vehicles	5 - 10 years	5 years
Infrastructure	10 - 25 years	10 - 50 years

The City's infrastructure consists of City streets, street signs, decorative lights, traffic signals, and water and sewer systems and includes infrastructure acquired prior to December 31, 1980.

K. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. The liability for vacation benefits is recorded as "vacation and compensatory benefits payable". The balances are to be used by employees in the year following the year in which the benefit was earned.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those that the City has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at year end taking into consideration any limits specified in the City's termination policy. The City records a liability for accumulated, unused sick leave with the following criteria by department: after twelve years of service for the Fire Department, after fifteen years of service for the Water, Sewer, Street, Engineer, Maintenance, Cemetery, Recreation, Parks, and Income Tax Departments, after twenty years of service for the Police, Health, Community Development Clerk, Court, and Information Systems Department, and after twenty five years for Law Director's office, Clerk of Council, Mayor's Office, Community Development, Auditor's Office, and Clerk of Courts and Bailiff.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, claims and judgments, compensated absences, and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and long-term loans are recognized as a liability on the governmental fund financial statements when due.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

***Nonspendable*** The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans, if any.

***Restricted*** Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions or enabling legislation (City ordinances).

Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandates payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

**Committed** The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance or resolution) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by City Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints are not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

**Assigned** Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by City Council or a City official delegated that authority by City ordinance or by State Statute.

**Unassigned** Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first, followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Net Position

Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for the law director's office.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

O. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for sewer and water utility services. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund. Revenues and expenses not meeting the definition are reported as non-operating.

**P. Interfund Activity**

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental activities are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one program to another or within the same program are eliminated on the Statement of Activities. Payments of interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

**Q. Interfund Assets and Liabilities**

On the fund financial statements, outstanding interfund loans and unpaid amounts for internal services are reported as "Interfund Receivables/Payables". Interfund balances are eliminated on the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are presented as internal balances.

**R. Bond Premiums and Discounts**

Bond discounts and premiums are amortized over the term of the bonds using the straight-line method, which approximates the effective interest method. Bond discounts are presented as a reduction of the face amount of bonds payable. Bond premiums are presented as an addition to the face amount of the bonds. On the government fund financial statements, bond premiums and bond discounts are recognized in the period in which bonds are issued.

**S. Extraordinary and Special Items**

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and that are either unusual in nature or infrequent in occurrence. The City did not have any extraordinary or special items in 2014.

**T. Estimates**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**NOTE 3 - CHANGE IN ACCOUNTING PRINCIPLE**

For 2014, the City implemented Governmental Accounting Standard Board (GASB) *Statement No. 70, "Accounting and Financial Reporting for Nonexchange Financial Guarantees."* This Statement requires a government that extends a nonexchange financial guarantee to recognize a liability when qualitative factors and historical data, if any, indicate that it is more likely than not that the government will be required to make a payment on the guarantee. The implementation of this statement did not result in any change in the City's financial statements.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

**NOTE 4 - BUDGETARY BASIS OF ACCOUNTING**

While the City is reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances - Budget (Non-GAAP Basis) and Actual presented for the General Fund and the major special revenue fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget) as opposed to when susceptible to accrual (GAAP).
2. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
3. Outstanding year end encumbrances are treated as expenditures (budget) rather than restricted, committed, or assigned fund balance (GAAP).
4. Unrecorded cash and interest, segregated accounts, and prepaid items are reported on the balance sheet (GAAP) but not on the budgetary basis.
5. Advances are operating transactions (budget) as opposed to balance sheet transactions (GAAP).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statement to the budgetary basis statement for the General Fund and the Street Special Revenue Fund.

Net Change in Fund Balance

	General	Street
GAAP Basis	\$ 25,702	\$ 687,602
Net Adjustment for Revenue Accruals	(265,336)	(839,886)
Beginning of Year:		
Unrecorded Cash	16,543	-
Unrecorded Interest	2,564	62
Prepaid Items	69,628	7,216
Segregated Accounts	37,748	-
End of Year:		
Unrecorded Cash	(20,620)	(191)
Unrecorded Interest	(3,030)	(139)
Prepaid Items	(71,174)	(7,587)
Segregated Accounts	(46,329)	-
Net Adjustment for Expenditure Accruals	(6,281)	490,722
Advances In	100,000	-
Encumbrances	(88,299)	(157,466)
Budget Basis	\$ (248,884)	\$ 180,333

**NOTE 5 - FUND BALANCES**

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

**NOTE 6 - FUND DEFICITS**

The Marietta Harbor Capital Projects Fund has a deficit fund balance of \$6,737, as of December 31, 2014. The deficit is the result of the recognition of interfund payables to the General Fund. Once grant reimbursements are received, the deficit will be eliminated.

**NOTE 7 - DEPOSITS AND INVESTMENTS**

State statutes classify monies held by the City into three categories.

Active deposits are public monies determined to be necessary to meet current demands upon the City treasury. Active monies must be maintained either as cash in the City treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies held by the City can be deposited or invested in the following securities:

1. United States Treasury bills, bonds notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
4. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
5. Bonds and other obligations of the State of Ohio;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred eighty days in an amount not to exceed 25 percent of the interim monies available for investment at any one time if training requirements have been met; and
8. Written repurchase agreements in the securities described in (1) or (2) provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

**Deposits**

Custodial credit risk for deposits is the risk that, in the event of bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$13,005,042 of the City's bank balance of \$14,396,607 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all statutory requirements for the deposit of money had been followed, non-compliance with federal requirements could potentially subject the City to a successful claim by the FDIC.

The City has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the City or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least one hundred five percent of the deposits being secured.

**NOTE 8 - PROPERTY TAXES**

Property taxes include amounts levied against all real and public utility property located in the City. Property tax revenue received during 2014 for real and public utility property taxes represents collections of 2013 taxes.

2014 real property taxes were levied after October 1, 2013, on the assessed value as of January 1, 2014, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2014 real property taxes are collected in and intended to finance 2015.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2014 public utility property taxes which became a lien December 31, 2013, are levied after October 1, 2014, and are collected in 2015 with real property taxes.

The full tax rate for all City operations for the year ended December 31, 2014, was \$2.40 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2014 property tax receipts were based are as follows:

Real Property	\$ 248,646,730
Public Utility Property	8,421,180
Total	<u>\$ 257,067,910</u>

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the City. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real and public utility property taxes and outstanding delinquencies which were measurable as of December 31, 2014, and for which there was an enforceable legal claim. In governmental funds, the portion of the receivable not levied to finance 2014 operations is offset to deferred inflows of resources – property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources – unavailable revenue.

**NOTE 9 - RECEIVABLES**

Receivables at December 31, 2014, consisted of taxes, accounts (billings for user charged services including unbilled utility services and third party billings), payments in lieu of taxes, interfund, accrued interest, loans, and intergovernmental receivables arising from grants, entitlements, and shared revenues. All receivables are considered collectible in full. Delinquent sewer accounts receivable (billings for user charged services) are certified and collected as a special assessment, subject to foreclosure for nonpayment. The financial statements reflect loans receivable of \$7,253. This amount is for the principal owed to the City for Federal Community Development Block Grant Program monies loaned to individuals for the demolition of condemned buildings and home improvements. The loans bear interest at annual rates of three percent. The loans are to be repaid over periods ranging from two to fifteen years. The amount not scheduled for collection during the subsequent year is \$5,956.

As provided by State law, the City entered into Tax Increment Financing Agreement in 2012 with First Colony Center, LLC for the purpose of construction of a hotel and a public access road. To encourage these improvements, the company was granted an exemption from paying 75% of their property taxes on the new construction; however, payments in lieu of taxes are made to the City in an amount equal to the real property taxes that otherwise would have been due in that current year. These payments are being used to finance public infrastructure improvements that will directly benefit the parcels of the First Colony Center and will continue for ten years. A receivable has been recorded in the amount of \$106,338, which represents amounts to be received by the City in 2015.

A summary of the principal items of intergovernmental receivables follows:

**City of Marietta, Ohio**

**NOTE 10 - INCOME TAX**

The City levies a municipal income tax of 1.7 percent on substantially all earned income arising from employment, residency, or business activities within the City as well as income of residents earned outside of the City. The City allows a credit of 100 percent for the income tax paid to another municipality, not to exceed 1.7 percent of taxable income, to a maximum of the total amount assessed.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the City either monthly or quarterly, as required. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration annually. Income tax proceeds were distributed to funds in the following manner: 72% to the General Fund, 11% to the Street Special Revenue Fund, 11% to the Fire Levy Special Revenue Fund, and 6% to the Capital Improvement Capital Projects Fund.

**NOTE 12 - RISK MANAGEMENT**

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City contracts with Peoples Insurance Agency who, on behalf of the City, negotiates property and casualty insurance coverage with U.S. Specialty. U.S. Specialty provides commercial general liability insurance, which has a \$1,000,000 per occurrence limit with an additional \$6,000,000 in umbrella liability coverage. The following lists the coverage limits and deductibles:

Property	Limit	Deductible	
Real and Personal Property	\$ 109,836,744	\$ 5,000	
Boiler and Machinery	100,000,000	5,000	
Liability	Limit (Per Occurrence)	Aggregate	Deductible
Commercial General	\$ 1,000,000	\$ 3,000,000	\$ 1,000
Employee Benefits	1,000,000	3,000,000	1,000
Employer Liability	1,000,000	1,000,000	-
Public Officials Wrongful Acts	1,000,000	1,000,000	5,000
Law Enforcement	1,000,000	1,000,000	5,000

Vehicles are covered by U.S. Specialty and have a \$500 deductible for comprehensive and \$1,000 for collision. Automobile liability has a \$1,000,000 combined single limit for bodily injury and liability for property damage. The Assistant Safety-Service Director reviews all claims.

There were no significant reductions in coverage from prior years. Settlements have not exceeded coverage in any of the last three years.

The City participates in the Workers' Compensation Program provided by the State of Ohio. The City belongs to a group with other Ohio cities through the Ohio Rural Water Association for a workers' compensation group rating program, which utilized Comp Management as a third-party administrator.

**NOTE 13 - DEFINED BENEFIT PENSION PLANS**

**A. Ohio Public Employees Retirement System**

Plan Description – The City participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The Traditional Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan. The Member-Directed Plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the Member-Directed Plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The Combined Plan is a cost-sharing, multiple-employer defined benefit pension plan. Under the Combined Plan, OPERS invests employer contributions to provide a formula retirement benefit similar in nature to, but less than, the Traditional Pension Plan benefit. Member contributions, the investment of which is self-directed by the members, accumulate retirement assets in a manner similar to the Member-Directed Plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost-of-living adjustments to members of the Traditional Pension and Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/investments/cafr.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy – The Ohio Revised Code provides statutory authority for member and employer contributions and currently limits the employer contribution to a rate not to exceed 14 percent of covered payroll for state and local employer units. Member contribution rates, as set forth in the Ohio Revised Code, are not to exceed 10 percent of covered payroll for members in State and local divisions. For the year ended December 31, 2014, members in state and local divisions contributed 10 percent of covered payroll. For 2014, member and employer contribution rates were consistent across all three plans.

The City's 2014 contribution rate was 14.0 percent. The portion of the City's contributions used to fund pension benefits is net of post-employment health care benefits. The portion of the City's contribution allocated to health care for members in both the Traditional and Combined Plans was 2 percent for 2014. Effective January 1, 2015, the portion of employer contributions allocated to health care increased remained at 2 percent. Employer contribution rates are actuarially determined.

The City's required contributions for pension obligations to the Traditional Pension and Combined Plans for the years ended December 31, 2014, 2013, and 2012, were \$676,368, \$700,972, and \$495,823, respectively. For 2014, 89.61 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2013 and 2012. Contributions to the Member-Directed Plan for 2014 were \$10,387 made by the City and \$7,420 made by plan members.

**B. Ohio Police and Fire Pension Fund**

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F), a cost-sharing multiple-employer defined benefit pension plan. OP&F provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – Employer and employee contribution rates are set by the Ohio Revised Code. From January 1, 2014, thru July 1, 2014, plan members were required to contribute 10.75 percent of their annual covered salary. From July 2, 2014, thru December 31, 2014, plan members were required to contribute 11.5 percent of their annual covered salary. Throughout 2014, employers were required to contribute 19.5 percent for police officers and 24 percent for firefighters.

The OP&F Pension Fund is authorized by the Ohio Revised Code to allocate a portion of the employer contributions to retiree health care benefits. For 2014, the portion of the City's contributions used to fund pension benefits was 19 percent of covered payroll for police officers and 23.5 percent of covered payroll for firefighters. The City's contributions to OP&F for police and firefighters pension were \$366,675 and \$485,893 for the year ended December 31, 2014, \$268,861 and \$360,109 for the year ended December 31, 2013, and \$221,894 and \$334,805 for the year ended December 31, 2012, respectively. For 2014, 91.29 percent for police and 91.00 percent for firefighters has been contributed with the balance for both police and firefighters being report as an intergovernmental payable. The full amount has been contributed for 2013 and 2012.

**NOTE 14 - POSTEMPLOYMENT BENEFITS**

A. Ohio Public Employees Retirement System

Plan Description – Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: The Traditional Pension Plan—a cost-sharing, multiple-employer defined benefit pension plan; the Member-Directed Plan—a defined contribution plan; and the Combined Plan—a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing multiple-employer defined benefit post-employment health care plan for qualifying members of both the Traditional Pension and the Combined Plans. Members of the Member-Directed Plan do not qualify for ancillary benefits, including post-employment health care coverage. The plan includes a medical plan, prescription drug program and Medicare Part B premium reimbursement.

In order to qualify for post-employment health care coverage, age-and-service retirees under the Traditional Pension and Combined Plans must have 10 or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The Ohio Revised Code permits, but does not mandate, OPERS to provide health care benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report which may be obtained by visiting <https://www.opers.org/investments/cafr.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 614-222-5601 or 800-222-7377.

Funding Policy – The post-employment health care plan was established under, and is administrated in accordance with, Internal Revenue Code 401(h). The Ohio Revised Code provides the statutory authority requiring public employers to fund post-retirement health care through contributions to OPERS. A portion of each employer's contribution to OPERS is set aside for the funding of post-retirement health care.

Employer contribution rates are expressed as a percentage of the covered payroll of active members. In 2014, state and local employers contributed at a rate of 14.0 percent of covered payroll. This is the maximum employer contribution rates permitted by the Ohio Revised Code.

Each year, the OPERS Retirement Board determines the portion of the employer contribution rate that will be set aside for funding of post-employment health care benefits. The portion of employer contribution allocated to health care for members in both the Traditional and Combined Plans was 2.0 percent for 2014. Effective January 1, 2015, the portion of employer contributions allocated to healthcare remained at 2 percent for both plans, as recommended by the OPERS actuary.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

The OPERS Retirement Board is also authorized to establish rules for the payment of a portion of the health care benefits provided, by the retiree or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. Active members do not make contributions to the post-employment health care plan.

The City's contributions allocated to fund post-employment health care benefits for the years ended December 31, 2014, 2013, and 2012, were \$112,728, \$53,921, and \$198,329, respectively. For 2014, 89.61 percent has been contributed with the balance being reported as an intergovernmental payable. The full amount has been contributed for 2013 and 2012.

Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with a transition plan commencing January 1, 2014. With the passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4 percent of the employer contributions toward the health care fund after the end of the transition period.

**B. Ohio Police and Fire Pension Fund**

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored health care program, a cost-sharing multiple-employer defined post-employment health care plan administered by OP&F. OP&F provides health care benefits including coverage for medical, prescription drugs, dental, vision, Medicare Part B Premium and long-term care to retirees, qualifying benefit recipients and their eligible dependents.

OP&F provides access to post-retirement health care coverage for any person who receives or is eligible to receive a monthly service, disability, or survivor benefit check or is a spouse or eligible dependent child of such person. The health care coverage provided by OP&F meets the definition of an Other Post-Employment Benefit (OPEB) as described in GASB Statement No. 45.

The Ohio Revised Code allows, but does not mandate OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. That report may be obtained by writing to OP&F, 140 East Town Street, Columbus, Ohio 43215-5164. That report is also available on OP&F's website at [www.op-f.org](http://www.op-f.org).

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required by Ohio Revised Code to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently, 19.5 percent and 24.0 percent of covered payroll for police and fire employers, respectively. Active members do not make contributions to the OPEB Plan.

OP&F maintains funds for health care in two separate accounts. One for health care benefits under an IRS Code Section 115 trust and one for Medicare Part B reimbursements administrated as an Internal Revenue Code 401(h) account, both of which are within the defined benefit pension plan, under the authority granted by the Ohio Revised Code to the OP&F Board of Trustees.

The Board of Trustees is authorized to allocate a portion of the total employer contributions made into the pension plan to the Section 115 trust and the Section 401(h) account as the employer contribution for retiree health care benefits. For 2014, the employer contribution allocated to the health care plan was .5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded and is limited by the provisions of Sections 115 and 401(h).

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

---

The OP&F Board of Trustees also is authorized to establish requirements for contributions to the health care plan by retirees and their eligible dependents, or their surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected.

The City's contributions to OP&F which were allocated to fund post-employment health care benefits for police and firefighters were \$38,597 and \$41,353 for the year ended December 31, 2014, \$46,021 and \$48,525 for the year ended December 31, 2013, and \$117,473 and \$131,011 for the year ended December 31, 2012. For 2014, 91.29 percent has been contributed for police and 91.00 percent has been contributed for firefighters with the balance for both police and firefighters being report as an intergovernmental payable. The full amount has been contributed for 2013 and 2012.

**NOTE 15 - OTHER EMPLOYEE BENEFITS**

A. Deferred Compensation Plans

City employees and elected officials participate in a statewide deferred compensation plan created in accordance with Internal Revenue Code Section 457. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

B. Employee Health Benefits

The City provides \$20,000 in accidental death and dismemberment insurance to its full-time employees, part-time employees hired before July 1, 1992, and working a minimum of twenty hours per week, part-time employees hired after July 1, 1992, and working a minimum of thirty hours per week, and all elected public officials through Hartford Life Insurance.

The City provides comprehensive major medical, vision, and dental insurance under the Michigan Conference of Teamsters Welfare Fund through Blue Cross and Blue Shield. Premiums are based on a per week, per employee (no family or single rates) basis and are paid 85% by the City. Rates are \$311.35 per week per employee. Premiums are paid from the same funds that pay the employees' salaries.

C. Compensated Absences

The criteria for determining vested vacation and sick leave benefits are derived from negotiated agreements and State laws. Upon retirement, all employees hired prior to January 1, 1988, except Firemen and Teamsters, are paid 100% of their sick leave up to a maximum of 120 days. All employees hired after January 1, 1988, except Firemen and Teamsters, are paid fifty percent of their sick leave at the time of retirement up to a maximum of 120 days accumulation. If hired before January 1, 1991, firemen whose employment with the City is terminated either by retirement or after twelve years of consecutive employment by the City, are paid for accumulated sick leave up to a maximum of 120 days accumulation. If hired after January 1, 1991, firemen whose employment with the City is terminated either by retirement or after twelve years of consecutive employment by the City, are paid fifty percent of their accumulated sick leave up to a maximum 120 days accumulation. Teamsters hired prior to January 1, 1992, are paid 100% of their sick leave at the time of retirement up to a maximum of 120 days accumulation. Teamsters hired after January 1, 1992, are paid fifty percent of their sick leave at the time of retirement up to a maximum of 120 days accumulation. Upon voluntary termination, death, or retirement, all employees will receive 100% of vacation earned and not previously taken.

**B. Encumbrances**

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

<b>Governmental Funds:</b>	
General	\$88,299
Street	157,466
Capital Improvement	380,846
Nonmajor Governmental Funds	<u>54,650</u>
<i>Total Governmental Funds</i>	<u>681,261</u>
<b>Enterprise Funds:</b>	
Water Fund	261,507
Sewer Fund	<u>318,778</u>
<i>Total Enterprise Funds</i>	<u>580,285</u>
Total	<u><u>\$1,261,546</u></u>

---

Compensated absences reported in the “compensated absences payable” account will be paid from the fund which the employees’ salaries are paid, which are the General Fund; the Street, Fire Levy, and Community Development Special Revenue Funds; and the Water and Sewer Enterprise Funds.

On April 15, 2014, the City issued \$6,190,000 of Various Purpose General Obligation Bonds for purposes listed as follows:

<u>Purpose</u>	<u>Amount</u>
Municipal Court	\$ 2,865,000
Municipal Software	216,000
Water	2,045,000
Water Software	72,000
Sewer	920,000
Sewer Software	72,000
	<u>\$ 6,190,000</u>

The bonds maturing on or after December 1, 2024, are subject to prior optional redemption, by and at the sole option of the City, in whole or in part as selected by the City (in whole multiples of \$5,000) on any date on or after December 1, 2023, at a redemption price equal to 100% of the principal amount to be redeemed, plus accrued interest to the date of redemption.

The parking lot bonds, software bonds, and part of the municipal court bonds will be paid from general property tax revenues. The remaining amounts of the municipal court bonds will be paid from court costs. The paving OPWC Loan was obtained to finance paving on Third Street in the City. The loan was paid from intergovernmental revenue of the Street Special Revenue Fund. The energy conservation loan will be paid from energy savings.

The Various Purpose Bond Anticipation Notes were issued to finance the Municipal Court renovations, City Hall renovations, street garage roof repairs, and installation of new software. The court and software notes were retired with Bonds. The remaining notes were refinanced in May 2015.

The intergovernmental payable consists of amounts owed to the Ohio Department of Transportation (ODOT) and Marietta Township. The City owed ODOT \$87,947 for overages on the Phase II of the Bike Path project. The City agreed to pay ODOT five annual installments of \$17,589.36 starting in 2012. The amount owed to Marietta Township is for a Cooperative agreement between the City and the Township for a joint paving project thru the Ohio Public Works Commission. The loan from OPWC is in the name of the Township. The City agreed to pay 49.60% of the ten year 0% interest \$54,779.11 loan. The total biannual payments are \$2,738.96. All payments are being made from the Street Special Revenue Fund.

Enterprise fund obligations will be paid from user fees in the respective enterprise funds. The Ohio Public Works Commission (OPWC) loans in the Water Enterprise Fund, which are all general obligations, were obtained to help finance the water treatment plant phase III improvements and the Glendale tank storage replacement. The OPWC loan in the Sewer Enterprise Fund, also a general obligation, was obtained to help finance the sludge belt press project. A 2007 Ohio Water Development Authority (OWDA) loan for design was obtained to help finance the sewer treatment plant upgrade. This design loan was rolled into the construction 2011 loan. Since the final draw on the new loan has not been received, an amortization schedule has not been established. The 2012, 2013, and 2014 Ohio Water Development Authority (OWDA) loans were also obtained to help finance the sewer treatment plant upgrade. As of December 31, 2014, these loans have not been fully drawn down and no amortization schedule exists. The 2002 Ohio Water Development Authority (OWDA) loan was obtained to help finance the sewer grit removal project.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

The Bond Anticipation Notes were issued to finance the Cisler Drive Water Line project and various other projects of the water and wastewater departments. The notes were retired and refinanced during May of 2015.

The City has pledged future sewer customer revenues to repay the four OWDA loans. The loans are payable solely from net revenues and are payable through 2034. Net revenues include all revenues received by the sewer utility less all operating expenses other than depreciation expense. Annual principal and interest payments on the loans are expected to require less than 38 percent of net revenues in future years. The total principal and interest remaining to be paid on the loans is \$11,836,769. Principal and interest payments for the current year were \$842,507, net revenues were \$1,089,080, and total revenues were \$3,718,184.

On November 27, 2013, the City issued general obligation refunding bonds, in the amount of \$2,840,000, to currently refund bonds previously issued in 2003 for \$5,650,000 for water construction projects. The current refunding was undertaken to take advantage of lower interest rates. The bonds were issued with interest rates from 2 to 3 percent and were issued for an eight year period with final maturity on December 1, 2021. The bonds were sold at a premium of \$53,772. The proceeds of the refunding bonds were deposited in an irrevocable trust with an escrow agent to provide for the redemption. The refunded bonds were called on December 27, 2013. The refunding bonds are not subject to redemption prior to maturity.

Principal and interest requirements to retire the governmental activities bonds outstanding at December 31, 2014, are as follows:

Year	Parking Lot Bonds		Municipal Court Bonds		Software Bonds	
	Principal	Interest	Principal	Interest	Principal	Interest
2015	\$ 11,500	\$ 4,612	\$ 115,000	\$ 80,188	\$ 21,000	\$ 4,012

As of December 31, 2014, the City's overall legal debt margin (the ability to issue additional amounts of general obligation bonded debt) was \$21,022,837.

**City of Marietta, Ohio**  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2014*

**NOTE 18 - NOTES PAYABLE**

Changes in short-term obligations, all bond anticipation notes, of the City for the year ended December 31, 2014, were as follows:

	Principal Outstanding 12/31/13	Additions	Deletions	Principal Outstanding 12/31/14
<b>Governmental Activities:</b>				
2013 Municipal Court Note - 1.25%	\$ 168,000	\$ -	\$ 168,000	\$ -
2013 Software Note - 1.25%	12,000	-	12,000	-
2014 City Hall Renovations Note - 1.25%	-	95,000	-	95,000
<b>Business-Type Activities:</b>				
2013 Cisler Drive Waterline Note - 1.25%	20,000	-	20,000	-
2013 Water Note - 1.25%	541,000	-	541,000	-
2014 Water Note - 1.25%	-	10,000	-	10,000
2013 Sewer Note - 1.25%	59,000	-	59,000	-
2014 Sewer Note - 1.25%	-	44,815	-	44,815
Total Notes Payable	<u>\$ 800,000</u>	<u>\$ 149,815</u>	<u>\$ 800,000</u>	<u>\$ 149,815</u>

The notes were issued to finance the renovations of the Municipal Court and City Hall, the installation of new software, and various water and sewer projects. The notes will mature on May 15, 2015.

**NOTE 19 - INTERFUND TRANSFERS AND BALANCES**

A. Balances

At year end, the Marietta Harbor Special Revenue Fund owed the General Fund \$6,890 for advanced grant monies.

B. Transfers

Interfund transfers for the year ended December 31, 2014, consisted of the following:

<u>Transfer Out</u>	<u>Transfer In</u>
	Other Nonmajor Governmental Funds
Major Funds:	
General	\$ 188,155
Capital Improvements	49,907
Other Nonmajor Governmental Funds	112,118
	<u>\$ 350,180</u>

Transfers were made for the payment of debt and to use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

**NOTE 20 - JOINTLY GOVERNED ORGANIZATIONS**

A. The Buckeye Hills-Hocking Valley Regional Development District

The Buckeye Hills-Hocking Valley Regional Development District serves Washington, Athens, Hocking, Meigs, Monroe, Morgan, Noble, and Perry Counties. The District was created to foster a cooperative effort in regional planning, programming, and the implementing of regional plans and programs. The District is governed by a fifteen member board of directors. The board is composed of one County Commissioner from each county, one member from the City of Athens Council, one member from the City of Marietta Council, four at-large members appointed from the ten government members, and one member from the minority sector. The board has total control over budgeting, personnel, and all other financial matters. The District receives Title III monies directly. Currently, a portion of the Title III monies are distributed to the O'Neill Senior Citizens Center Corporation, a private not-for-profit corporation. The City contributed \$1,409 to the District during 2014. The continued existence of the District is not dependent on the City's continued participation and no equity interest exists.

B. Washington-Morgan Community Action Corporation

The Community Action Program Corporation of Washington-Morgan Counties, Ohio is operated as a non-profit organization formed to provide various programs in Washington and Morgan Counties. Currently, the Corporation administers the Family Service and Outreach Program, the Community Action Bus Line (CABL), the Child Development Program, the Senior Nutrition Program, Women, Infants and Children's Supplemental Nutrition Program, the Home Weatherization Assistance and Energy Program, the Job Training and Partnership Act Program, Housing and Urban Development Section 8 Existing Housing Voucher Program, and various other State and federal programs. The Corporation is the direct recipient of the federal and State monies, except for monies passed thru to it from the City for the Housing and Urban Development Section 8 Existing Housing Voucher and Comprehensive Housing Improvement Programs. The Corporation is governed by a fifteen member council. The council is composed of the Mayor of the City of Marietta, the Mayor of the City of Belpre, two commissioners from Washington County, one Commissioner from Morgan County, five lower income representatives, and five private sector representatives from Washington and Morgan Counties selected by outreach workers. Currently, the Corporation, by contract with the City of Marietta and Washington and Morgan Counties, provides administrative services to these governments in specific programs. During 2014, the Corporation received no administrative fees from the City. The continued existence of the Corporation is not dependent on the City's continued participation and no equity interest exists.

C. The Wood, Washington, and Wirt Planning Commission

The Wood, Washington, and Wirt Planning Commission was created to fulfill the requirements governing urban transportation planning under the Federal Highway Administration and Urban Mass Transportation Administration program regulations in Wood, Washington, and Wirt Counties. The Commission was formed pursuant to West Virginia Code Sections and Ohio Revised Code Section 713.30 and serves as a form of a regional planning commission. The Commission is comprised of representatives from county and city governments and a cross section of members from the community appointed by the governmental units. Currently, the Commission has eight governmental representatives and the Mayor of the City of Marietta serves on the Commission. Revenues are derived from Federal Highway and Federal Transportation Administration Grants distributed by the States of Ohio and West Virginia. Local governments contribute a ten percent local match. During 2014, the City of Marietta contributed \$3,732. The continued existence of the Commission is not dependent on the City's continued participation and no equity interest exists.

**NOTE 21 - CONTINGENCIES**

A. Grants

The City received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the City at December 31, 2014.

B. Litigation

The City of Marietta is currently party to pending litigation seeking damages and/or injunctive relief as confirmed by the City Law Director. The City management is of opinion that ultimate disposition of these claims and legal proceeding will not have a material effect, if any, on the financial condition of the City.

**NOTE 22 - SUBSEQUENT EVENT**

The City retired \$149,815 of the \$5,213,900 various purpose bond anticipation notes bearing an interest rate of 1.25% on May 15, 2015, and issued additional notes of \$6,045,000 for a total issuance of \$11,109,085.

On May 19, 2015, the City issued \$500,000 in Capital Facilities Bonds for the renovations of the Armory Building.

**City of Marietta, Ohio**  
*Notes to the Schedule of Expenditures of Federal Awards*  
*For the Year Ended December 31, 2014*

---

**Note A – Significant Accounting Policies**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) reports the City's federal award programs' disbursements. The Schedule has been prepared on the cash basis of accounting.

**Note B – Subrecipients**

The City passes certain federal awards received from the United States Department of Housing and Urban Development to other governments or not-for-profit agencies (subrecipients). As Note A describes, the City reports expenditures of Federal awards to subrecipients when cash is paid.

As subrecipient, the government has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

**Note C – Matching Requirements**

Certain federal programs require the City to contribute non-federal funds (matching funds) to support the federally-funded programs. The City has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

September 25, 2015

City of Marietta  
Washington County  
301 Putnam St.  
Marietta, OH 45750

To the Members of Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the **City of Marietta**, Washington County, (the City) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated September 25, 2015.

***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER  
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

September 25, 2015

City of Marietta  
Washington County  
301 Putnam St.  
Marietta, OH 45750

To the Members of Council:

***Report on Compliance for the Major Federal Program***

We have audited the **City of Marietta's** (the City) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the City's major federal program for the year ended December 31, 2014. The *Summary of Auditor's Results* in the accompanying schedule of audit findings identifies the City's major federal program.

***Management's Responsibility***

The City's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

***Auditor's Responsibility***

Our responsibility is to opine on the City's compliance for the City's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the City's major program. However, our audit does not provide a legal determination of the City's compliance.

***Opinion on the Major Federal Program***

In our opinion, the City of Marietta complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended December 31, 2014.

***Report on Internal Control Over Compliance***

The City's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

This report only describes the scope of our internal control compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.
