INDEPENDENT AUDITOR'S REPORT

Indian Lake Local School District
Logan County
6210 State Route 235 North
Lewistown, Ohio 43333

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Indian Lake Local School District, Logan County, Ohio (the District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the modified cash accounting basis Note 2.B describes. This responsibility includes determining that the modified cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Indian Lake Local School District, Logan County, Ohio, as of June 30, 2014, and the respective changes in modified cash financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting basis described in Note 2.B.

Accounting Basis

Ohio Administrative Code § 117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. We draw attention to Note 2.B of the financial statements, which describes the basis applied to these statements, which is a basis other than generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental and Other Information

We audited to opine on the District's financial statements that collectively comprise its basic financial statements.

Management's Discussion & Analysis includes tables of net cash position, change in net cash position, governmental activities, major funds cash balances, general fund cash receipts and cash disbursements and long-term obligations. This information provides additional analysis and is not a required part of the basic financial statements.

The Schedule of Federal Award Receipts and Expenditures also presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is also not a required part of the financial statements.

These tables and the Schedule are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these tables and the Schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling these tables and the Schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, these tables and the Schedule are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other than the aforementioned procedures applied to the tables, we applied no procedures to any other information in Management's Discussion & Analysis, and we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 19, 2014, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
(UNAUDITED)**

The management's discussion and analysis of the Indian Lake Local School District's (the "District") financial performance provides an overall review of the District's financial activities for the year ended June 30, 2014, within the limitations of the District's modified cash basis of accounting. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the modified cash basis financial statements and the notes to the financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2014 are as follows:

- The total net cash position of the District increased \$1,240,809 or 15.23% from fiscal year 2013.
- General cash receipts accounted for \$18,165,187 or 84.20% of total governmental activities cash receipts. Program specific cash receipts accounted for \$3,408,922 or 15.80% of total governmental activities cash receipts.
- The District had \$20,333,300 in cash disbursements related to governmental activities; \$3,408,922 of these cash disbursements were offset by program specific charges for services, grants or contributions. General cash receipts (primarily taxes and grants and entitlements) of \$18,165,187 were adequate to provide for these programs.
- The District's major funds are the general fund, bond retirement fund and building fund. The general fund, the District's largest major fund, had cash receipts and other financing sources of \$16,551,672 in fiscal year 2014. The cash disbursements and other financing uses of the general fund totaled \$15,592,392 in fiscal year 2014. The general fund cash balance increased \$959,280 during fiscal year 2014.
- The bond retirement fund, a District major fund, had cash receipts of \$2,841,325 in fiscal year 2014. The bond retirement fund had cash disbursements of \$2,654,045 in fiscal year 2014. The bond retirement fund cash balance increased \$187,280 during fiscal year 2014.
- The building fund, a District major fund, had cash receipts of \$234 in fiscal year 2014. The building fund had cash disbursements of \$3,276 in fiscal year 2014. The building fund cash balance decreased \$3,042 during fiscal year 2014.

Using the Modified Cash Basis Basic Financial Statements (BFS)

This annual report is presented in a format consistent with the presentation requirements of the Governmental Accounting Standards Board (GASB) Statement No. 34, as applicable to the District's modified cash basis of accounting.

The statement of net position – modified cash basis and statement of activities – modified cash basis provide information about the activities of the whole District, presenting an aggregate view of the District's modified cash basis finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of the District, there are three major governmental funds. The general fund is the largest major fund.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

The statement of net position – modified cash basis and the statement of activities – modified cash basis answer the question, “How did the District do financially during fiscal year 2014?” These statements include only net position using the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. This basis of accounting takes into account only the current year’s receipts and disbursements if the cash is actually received or paid.

These two statements report the District’s net cash position and changes in net cash position on a modified cash basis. This change in net cash position is important because it tells the reader that, for the District as a whole, the modified cash basis financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District’s property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, mandated federal and state programs and other factors.

As a result of the use of the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not collected) and liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements. Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations resulting from the use of the modified cash basis of accounting.

In the statement of activities – modified cash basis, the governmental activities include the District’s programs and services including instruction, support services, operation and maintenance of plant, pupil transportation, extracurricular activities, and food service operations.

The statement of net position – modified cash basis and the statement of activities – modified cash basis can be found on pages 15-16 of this report.

Reporting the District’s Most Significant Funds

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. The District has no proprietary funds.

Fund financial reports provide detailed information about the District’s major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District’s most significant funds. The District’s major governmental funds are the general fund, bond retirement fund and building fund. The analysis of the District’s major governmental funds begins on page 11.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The governmental fund statements provide a detailed view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer modified cash basis financial resources that can be readily spent to finance various District programs.

Since the District is reporting on the modified cash basis of accounting, there are no differences in the net cash position and fund cash balances or changes in net cash position and changes in fund cash balances. Therefore, no reconciliation is necessary between such financial statements. The governmental fund statements can be found on pages 17-18 of this report.

The District's budgetary process accounts for certain transactions on a modified cash basis. The budgetary statement for the general fund is presented to demonstrate the District's compliance with annually adopted budgets. The budgetary statement can be found on page 19 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District's only fiduciary funds are a private-purpose trust fund and an agency fund. All of the District's fiduciary activities are reported in separate statements of fiduciary net position – modified cash basis and changes in fiduciary net position – modified cash basis on pages 20-21. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Financial Statements

The notes provide additional information that is essential to full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 23-46 of this report.

Government-Wide Financial Analysis

Recall that the statement of net position – modified cash basis provides the perspective of the District as a whole.

Governmental Activities

Governmental net cash position increased \$1,240,809 in fiscal year 2014. Total governmental cash disbursements of \$20,333,300 were offset by program cash receipts of \$3,408,922 and general cash receipts of \$18,165,187. Program cash receipts supported 16.77% of the total governmental cash disbursements.

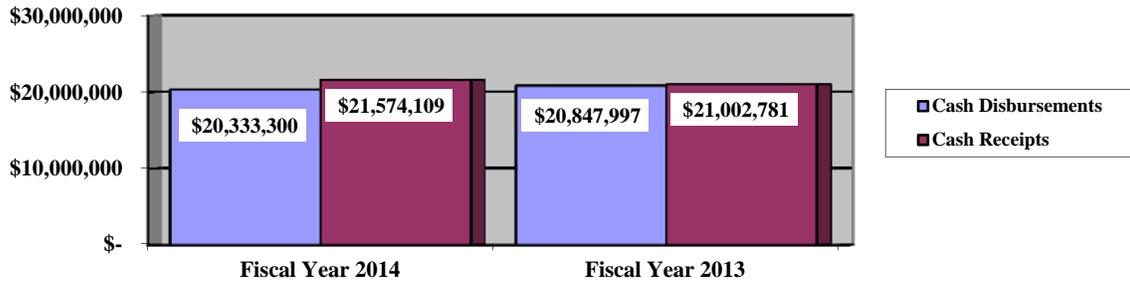

The primary sources of receipts for governmental activities are derived from property taxes and unrestricted grants and entitlements. These receipt sources represent 83.32% of total governmental cash receipts. Real estate property is reappraised every six years.

During fiscal year 2014, pupil support services cash disbursements increased mainly due to an increase in costs associated with the District's programs involving psychological services, speech pathology and audiology, and social work services.

Governmental Activities – General and Program Cash Receipts

Financial Analysis of the Government's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The District's governmental funds are accounted for using the modified cash basis of accounting.

The District's governmental funds reported a combined fund cash balance of \$9,387,316, which is \$1,240,809 greater than last year's total of \$8,146,507. The table below indicates the fund cash balance and the total change in fund cash balance as of June 30, 2014 and June 30, 2013, for all major and non-major governmental funds.

	<u>Fund Cash Balance June 30, 2014</u>	<u>Fund Cash Balance June 30, 2013</u>	<u>Increase/ (Decrease)</u>
Major funds:			
General	\$6,158,389	\$5,199,109	\$959,280
Bond retirement	1,182,807	995,527	187,280
Building	1,035,944	1,038,986	(3,042)
Non-major governmental funds	1,010,176	912,885	97,291
Total	<u>\$9,387,316</u>	<u>\$8,146,507</u>	<u>\$1,240,809</u>

General Fund

The general fund, the District's largest major fund, had cash receipts and other financing sources of \$16,551,672 in fiscal year 2014. The cash disbursements and other financing uses of the general fund totaled \$15,592,392 in fiscal year 2014. The general fund cash balance increased \$959,280 during fiscal year 2014.

The table that follows assists in illustrating the cash receipts of the general fund during fiscal years 2014 and 2013.

Total	<u>\$16,531,397</u>	<u>\$15,996,495</u>	3.34 %

Overall cash receipts increased \$534,902 or 3.34% during fiscal year 2014. Earnings on investments decreased \$1,183 or 51.52% primarily due to a decline in interest rates. Other revenues increased \$38,366 or 77.75% mainly due to various rebates and reimbursements received in fiscal year 2014. All other cash receipt classifications remained comparable to fiscal year 2013.

The table that follows assists in illustrating the cash disbursements of the general fund during fiscal years 2014 and 2013.

	<u>2014 Amount</u>	<u>2013 Amount</u>	<u>Percentage Change</u>
Cash disbursements:			
Instruction	\$ 9,471,968	\$10,033,566	(5.60) %

Total	<u>\$15,490,232</u>	<u>\$15,703,409</u>	(1.36) %

Overall cash disbursements decreased \$213,177 or 1.36% during fiscal year 2014. Extracurricular activities decreased \$90,598 or 27.72% primarily due to a reduction in costs associated with the District's athletic programs. Although the percentage decrease of the operation of non-instructional services cash disbursements was significant, the actual dollar amount was not. All other cash disbursement classifications remained comparable to fiscal year 2013.

Bond Retirement Fund

The bond retirement fund, a District major fund, had cash receipts of \$2,841,325 in fiscal year 2014. The bond retirement fund had cash disbursements of \$2,654,045 in fiscal year 2014. The bond retirement fund cash balance increased \$187,280 during fiscal year 2014. The consistent fund cash balance of the bond retirement fund is mainly attributable to the stable nature of the property tax cash receipts received by the District.

Building Fund

The building fund, a District major fund, had cash receipts of \$234 in fiscal year 2014. The building fund had cash disbursements of \$3,276 in fiscal year 2014. The building fund cash balance decreased \$3,042 during fiscal year 2014. The consistent fund cash balance of the building fund is mainly attributable to the lack of construction activity performed by the District during fiscal year 2014.

Budgeting Highlights – General Fund

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

For the general fund, final budgetary basis receipts and other financing sources of \$16,741,678 were \$670,550 greater than original budget estimates of \$16,071,128. The actual budgetary basis receipts and other financing sources of \$16,718,257 were less than final budget estimates by \$23,421. The final budgetary basis disbursements and other financing uses of \$15,773,317 were \$190,277 less than original budget estimates of \$15,963,594. The actual budgetary basis disbursements and other financing uses of \$15,552,509 were \$220,808 less than the final budget estimates.

Capital Assets and Debt Administration

Capital Assets

The District does not record capital assets in the accompanying modified cash basis basic financial statements, but records payments for capital assets as cash disbursements. The District did not make any facilities acquisition and construction cash disbursements during fiscal year 2014.

Debt Administration

The District had the following long-term obligations outstanding at June 30, 2014 and June 30, 2013.

	Governmental Activities 2014	Governmental Activities 2013
2008 Construction and Improvement Bonds	\$2,680,000	\$2,780,000

Current Financial Related Activities

The District, like most other school districts, continues to face challenges ranging from school funding to education mandates and requirements. The current financial challenge for school districts is to provide a quality education with limited or unsteady resources. The State of Ohio's educational funding laws, the economy, as well as rising operating costs, are the main factors that impact the District's financial stability.

As the preceding information reflects, the District relies heavily upon property taxes and intergovernmental unrestricted state aid. Taxes and unrestricted state aid cash receipts account for approximately 94% of the general fund cash receipts in fiscal year 2014, with property taxes providing the largest portion. The general fund real estate property taxes increased from fiscal year 2013 by 5.35% due to tax year 2013 being a sexennial update, which included an increase of 67.00% in the Current Agricultural Use Value (CAUV) land values. The intergovernmental – state aid increased slightly, causing total general fund cash receipts to increase by \$534,902 or 3.34%.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
(UNAUDITED)
(Continued)**

The District receives most of its funding from the property taxes of District residents. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall receipts generated by a levy will not increase solely as a result of inflation due to Ohio House Bill 920 (passed in 1976). Over the past several years the District has received support from the residents of the District. The residents renewed an emergency operating levy in 2008, which is the third time the levy has been renewed since 1999. The local residents have taken pride in the District and have supported two bond issues since 1995 to update District facilities in conjunction with the Ohio Schools Facilities Expedited Local Partnership Program. The District now has all facilities on one campus with a new elementary building completed in August of 2009 that houses grades K-4, a middle school building completed in December of 2004 that houses grades 5-8, and an updated (2004) high school building that houses grades 9-12. These new and upgraded facilities have increased community pride while providing a more modern and enhanced learning environment for the students. The Board of Education continues to work with the Ohio Facilities Construction Commission to secure state funding assistance as the Board plans to complete the master facility plan for the District.

Prior to 2004, the District received tangible personal property tax from local businesses to help support the District. Since that time, the State has enacted the commercial activity tax (CAT) to replace the tangible personal property tax. From fiscal year 2004 to fiscal year 2011, the District had been held harmless for this change in tax collections at the 2004 tax level by receiving money from the State. However, Ohio's biennium budget (HB 153) for fiscal years 2012 and 2013 reduced the tangible personal property tax reimbursement quicker than prior State budget bills dictated due to an \$8 billion budget shortfall in the State economy and the loss of federal stimulus funds.

As a result of the decrease in State funding and the reduction of tangible personal property tax reimbursements in 2011, the District has made budget cuts of approximately \$1.3 million. The Board of Education, administration, and staff have been proactive and worked together to lower personnel costs by reducing staff through attrition and taking 0% wage increases for fiscal years 2012 through 2015. Concessions in personnel benefits have also been agreed upon since fiscal year 2011 and they continue to be evaluated. These reductions have taken place while the District has been able to move from an academic watch district to an excellent rated school district over the last ten years. Since further reductions will likely hinder the educational process, the Board of Education has passed a resolution to put the question of renewing the current emergency levy on the ballot in November with a slight increase. These actions are a testament to the commitment of the staff, Board of Education, administration, and community members to the students of the District.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014**

1. DESCRIPTION OF THE SCHOOL DISTRICT

Indian Lake Local School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally elected Board form of government consisting of five members elected at-large for staggered four-year terms. The District provides educational services as authorized by State statute and/or federal guidelines.

The District was established in 1962 through the consolidation of existing land areas and school districts. The District serves an area of approximately 110 square miles. It is located in Logan County, and includes all of the Village of Russells Point, Village of Lakeview, and Village of Huntsville. The District is staffed by 85 non-certificated employees, 114 certificated full-time teaching personnel, and 10 administrative employees who provide services to 1,742 students and other community members. The District currently operates two elementary school buildings, one middle school building, one comprehensive high school building, which includes the administrative offices, and one bus garage.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As discussed in Note 2.B., these basic financial statements (BFS) are presented on the modified cash basis of accounting. The modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Governmental Accounting Standards Board (GASB) pronouncements. In cases where these modified cash basis statements contain items that are the same as, or similar to, those items in financial statements prepared in conformity with GAAP, similar informative disclosures are provided.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The following organizations are described due to their relationship to the District:

1. Jointly Governed Organizations

Western Ohio Computer Organization (WOCO)

The District is a participant in the Western Ohio Computer Organization (WOCO), which is a computer consortium. WOCO is an association of various public school districts within the boundaries of Auglaize, Champaign, Hardin, Logan, Shelby, and Miami Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions of member school districts. Each of the governments of these districts supports WOCO based upon a per pupil charge dependent on the software package utilized. In accordance with GASB Statement No. 14, the District does not have an equity interest in WOCO, as the residual interest in net resources of the joint venture upon dissolution is not equivalent to an equity interest. WOCO is governed by a Board of Directors consisting of the Superintendents of the member school districts and the degree of control is limited to the representation on the Board of Directors. Financial information can be obtained from Donn Walls, who serves as Director, at 129 East Court Street, Sidney, Ohio 45365.

Ohio Hi-Point Joint Vocational School District

The Ohio Hi-Point Joint Vocational School District (the "Vocational School") is a political subdivision of the State of Ohio, which possesses its own budgeting and taxing authority. The Vocational School is governed by a Board of Education that consists of a representative from each participating school district and its degree of control is limited to its representation on the Board of Education. To obtain financial information write to the Ohio Hi-Point Joint Vocational School District, Eric Adelsberger, who serves as Treasurer, at 2280 State Route 540, Bellefontaine, Ohio 43311.

Metropolitan Educational Council

The Metropolitan Educational Council (MEC) is a purchasing cooperative made up of nearly 124 school districts in 22 counties. The purpose of this purchasing cooperative is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges or other assessments as established by the MEC. The Governing Board of MEC consists of one voting representative from each member district. To obtain financial information, write to the Metropolitan Educational Council, James Grube, who serves as Executive Director, 2100 Citygate Drive, Columbus, Ohio 43219.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Educational Regional Service System Region 6

The District participates in the Educational Regional Service System (ERSS) Region 6, a jointly governed organization consisting of educational entities within Allen, Auglaize, Champaign, Hardin, Logan, Mercer, and Shelby Counties. The purpose of the ERSS is to provide support services to school districts, community schools, and chartered nonpublic schools within the region by supporting State and school initiatives and efforts to improve school effectiveness and student achievement with a specific reference to the provision of special education and related services. The ERSS is governed by an Advisory Council, which is the policymaking body for the educational entities within the region, who identifies regional needs and priorities for educational services and develops corresponding policies to coordinate the delivery of services. They are also charged with the responsibility of monitoring the implementation of State and regional initiatives and school improvement efforts.

The Advisory Council is made up of the Director of the ERSS, the Superintendent of each educational service center within the region, the Superintendent of each region's largest and smallest school district, the Director and an employee from each education technology center, one representative of a four-year institution of higher education and appointed by the Ohio Board of Regents, one representative of a two-year institution of higher education and appointed by the Ohio Association of Community Colleges, three Board of Education members (one each from a city, exempted village, and local school district within the region), and one business representative. The degree of control exercised by any participating educational entity is limited to its representation on the Advisory Council. Financial information can be obtained from the Auglaize County Educational Service Center, 1045 Dearbaugh Ave., Suite 2, Wapakoneta, Ohio 45895.

Logan County Education Foundation

The Logan County Education Foundation (the "Foundation") was established to secure and distribute contributions from individuals, corporations, and foundations for the benefit of students within Logan County. The Foundation promotes, sponsors, and encourages the pursuit of excellence in education for students. The Foundation is managed by a Board of Trustees composed of six trustees from each school district. These trustees are nominated by their local school Boards of Education, including Bellefontaine City School District, Benjamin Logan Local School District, Indian Lake Local School District, and Riverside Local School District. The Executive Board is comprised of the Logan County Educational Service Center Superintendent representing the three local school districts and the Bellefontaine City School District Superintendent representing the city school district. Financial information can be obtained by contacting Sara Tracey, who serves as Financial Advisor, 121 South Opera Street, Bellefontaine, Ohio 43311.

Workers' Compensation Group Rating Program

The District participates in the Ohio Association of School Business Officials (OASBO) Workers' Compensation Group Rating Program (GRP). The GRP is sponsored by OASBO and administered by CompManagement, Inc. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The District pays a fee to the GRP to cover the costs of administering the program.

Logan County Schools Benefit Plan Association

The District participates in the Logan County Schools Benefit Plan Association (the "Plan"); a public entity shared risk pool consisting of one educational service center, one joint vocational school district, and three local school districts. The District pays monthly premiums to the Plan for employee life insurance, and dental and medical benefits. The Plan is responsible for the payment of all Plan liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

On January 1, 2014, the Logan County School Employee Consortium formed a regional council of governments (the "COG") for the purpose of providing benefits through a self-funded insurance pool. The COG collects premiums from the Logan County School Employee Consortium participants and pays a third-party administrator to process the claims.

3. Related Organization

Logan County District Library

The Logan County District Library (the "Library") is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the Judge of Common Pleas Court. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel, and does not depend on the District for operational subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate, and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Logan County District Library, Clerk/Treasurer, at 220 North Main Street, Bellefontaine, Ohio 43311.

B. Basis of Accounting

Although required by Ohio Administrative Code § 117-2-03(B) to prepare its annual financial report in accordance with GAAP, the District chooses to prepare its financial statements and notes on the modified cash basis of accounting. The modified cash basis of accounting is a comprehensive basis of accounting other than GAAP. Receipts are recognized when received in cash rather than when earned, and disbursements are recognized when paid rather than when a liability is incurred.

Budgetary presentations report budgetary cash disbursements when a commitment is made (i.e. when an encumbrance is approved). The difference between disbursements reported in the fund and government-wide statements and disbursements reported in the budgetary statements is due to current year encumbrances being added to disbursements reported in the budgetary statements.

These statements include adequate disclosure of material matters, in accordance with the basis of accounting described in the preceding paragraphs.

C. Fund Accounting

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain District activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types. The District has no proprietary funds.

1. Governmental Funds

The District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants) and other non-exchange transactions as governmental funds. The following are the District's major governmental funds:

General fund –The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund cash balance is available for any purpose provided it is disbursed or transferred according to the general laws of Ohio.

Bond retirement fund – The bond retirement fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs.

Building fund – The building fund is used to account for the receipts and disbursements related to all special bond funds in the District.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to disbursements for capital outlays including the acquisition or construction of capital facilities and other capital assets and (b) specific receipt sources that are restricted or committed to a disbursement for specified purposes other than debt service or capital projects.

2. Fiduciary Funds

Fiduciary fund reporting focuses on net cash position and changes in net cash position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for cash assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's private-purpose trust fund accounts for programs that provide college scholarships for students after graduation. Agency funds are custodial in nature and do not involve measurement of results of operations. The District's agency fund accounts for student activities.

D. Basis of Presentation

1. Government-wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

**INDIAN LAKE LOCAL SCHOOL DISTRICT
LOGAN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The government-wide statement of activities compares disbursements with program receipts for each function or program of the District's governmental activities. These disbursements are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program receipts include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Receipts which are not classified as program receipts are presented as general receipts of the District. The comparison of direct disbursements with program receipts identifies the extent to which each business segment or governmental function is self-financing on the modified cash basis or draws from the general receipts of the District.

2. Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all non-major funds are aggregated into one column. Fiduciary funds are reported by fund type.

E. Budgets

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated. The District budgets and appropriates its agency funds. The primary level of budgetary control is at the fund, object level for the general fund, and the fund level for all other funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

1. Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayers' comments. The express purpose of this budget document is to reflect the need for existing or increased tax rates. By no later than January 20, the Board-adopted budget is filed with the Logan County Budget Commission for rate determination.

2. Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Logan County Budget Commission and receives the Commission's certificate of estimated resources which states the projected revenue of each fund.

**INDIAN LAKE LOCAL SCHOOL DISTRICT
LOGAN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
(Continued)**

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Prior to July 1, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the certificate is amended to include any unencumbered cash balances from the preceding year. The certificate may be further amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported in the budgetary statement reflect the amounts in the original and final amended certificates issued during fiscal year 2014.

3. Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution must be legally enacted by the Board of Education at the fund, object level of expenditures for the general fund, and at the fund level for all other funds, which are the legal levels of budgetary control. Prior to the passage of the annual appropriations measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District.

The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures and encumbrances may not exceed the appropriation total of any level of control. Any revisions that alter the total object appropriations within a fund (for general fund), or the total of any fund appropriations (for all other funds), must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriations by fund do not exceed the amounts set forth in the most recent certificate of estimated resources. During the year, several supplemental appropriations were legally enacted; however, none of these amendments were significant.

The budget figures which appear in the statement of budgetary comparisons represent the original and final appropriation amounts, including all supplemental appropriations.

4. Encumbrances

As part of formal budgetary control, purchase orders, contracts, and other commitments for the expenditure of monies are recorded as the equivalent of expenditures in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. Expenditures plus encumbrances may not legally exceed appropriations.

5. Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriation. Encumbered appropriations are carried forward to the succeeding fiscal year and are not re-appropriated.

F. Cash and Investments

To improve cash management, cash received by the District is pooled in a central bank account. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and cash equivalents" on the basic financial statements.

During fiscal year 2014, investments were limited to the State Treasury Asset Reserve of Ohio (STAR Ohio) and federal agency securities. Except for nonparticipating investment contracts, investments are reported at fair value, which is based on quoted market prices. Nonparticipating investment contracts are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2014. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2014.

Under existing Ohio statutes, all investment earnings are assigned to the general fund unless statutorily required to be credited to a specific fund. The Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest receipts credited to the general fund during fiscal year 2014 amounted to \$1,113, which includes \$195 assigned from other funds.

For presentation on the basic financial statements, investments of the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year-end is provided in Note 4.

G. Capital Assets

Acquisition of property, plant, and equipment purchased are recorded as disbursements when paid. These items are not reflected as assets on the accompanying financial statements under the modified cash basis of accounting. Depreciation has not been reported for any capital assets.

H. Unpaid Vacation and Sick Leave

Employees are entitled to cash payments for unused vacation and sick leave in certain circumstances, such as upon leaving employment. Unpaid vacation and sick leave are not reflected as liabilities under the modified cash basis of accounting.

I. Long-Term Obligations

Bonds and other long-term obligations are not recognized as a liability in the financial statements under the modified cash basis of accounting. These statements report proceeds of debt when cash is received, and debt service disbursements for debt principal and interest payments.

J. Employer Contributions to Cost-Sharing Pension Plans

The District recognizes the disbursements for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 9 and 10, the employer contributions include portions for pension benefits and for postemployment healthcare.

K. Fund Cash Balance

Fund cash balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Non-spendable – The non-spendable fund cash balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash.

Restricted – Fund cash balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed – The committed fund cash balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund cash balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned fund cash balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund cash balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes.

Unassigned – Unassigned fund cash balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund cash balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund cash balance is available. Similarly, within unrestricted fund cash balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund cash balance classifications could be used.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

L. Inventory and Prepaid Items

The District reports cash disbursements for inventory and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

M. Interfund Balances

On fund financial statements, the District reports advances in and advances out for interfund loans. These items are not reflected as assets and liabilities in the accompanying fund financial statements under the modified cash basis of accounting. Advances are eliminated in the statement of activities.

N. Net Cash Position

Net cash position is reported as restricted when enabling legislation or creditors, grantors or laws or regulations of other governments have imposed limitations on its use. The District first applies restricted resources when a disbursement is incurred for purposes for which both restricted and unrestricted net cash position is available. The District did not have any net cash position restricted by enabling legislation at June 30, 2014. Net cash position restricted for other purposes represents resources intended for use in the District's food service operations.

O. Restricted Cash Assets

Cash assets are reported as restricted when limitations on their use change the normal understanding of the availability of the cash assets. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments or imposed by enabling legislation. The District did not have any restricted cash assets at June 30, 2014.

P. Interfund Activity

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented on the basic financial statements.

Q. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2014.

3. ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2014, the District has implemented GASB Statement No. 67, "Financial Reporting for Pension Plans – an Amendment of GASB Statement No. 25", and GASB Statement No. 70, "Accounting and Financial Reporting for Nonexchange Financial Guarantees".

GASB Statement No. 67 improves the usefulness of pension information included in the general purpose external financial reports of state and local governmental pension plans for making decisions and assessing accountability. The implementation of GASB Statement No. 67 did not have an effect on the financial statements of the District.

GASB Statement No. 70 improves the recognition, measurement, and disclosures for state and local governments that have extended or received financial guarantees that are non-exchange transactions. The implementation of GASB Statement No. 70 did not have an effect on the financial statements of the District.

B. Compliance

Ohio Administrative Code, Section 117-2-03(B), requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the District prepared its financial statements on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position/fund balances, and disclosures that, while material, cannot be determined at this time. The District can be fined and various other administrative remedies may be taken against the District.

4. DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

**INDIAN LAKE LOCAL SCHOOL DISTRICT
LOGAN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014
(Continued)**

4. DEPOSITS AND INVESTMENTS (Continued)

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio, or legal governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
7. The State Treasurer's investment pool (STAR Ohio);
8. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time; and,
9. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Cash on Hand

At fiscal year end, the District had \$225 in un-deposited cash on hand, which is included on the financial statements of the District as part of "equity in pooled cash and cash equivalents".

B. Deposits with Financial Institutions

At June 30, 2014, the carrying amount of all District deposits was \$7,970,053. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2014, \$7,426,260 of the District's bank balance of \$8,176,260 was exposed to custodial risk as discussed below, while \$750,000 was covered by the Federal Deposit Insurance Corporation (FDIC).

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

C. Investments

As of June 30, 2014, the District had the following investments and maturities:

Investment Type	Balance at Carrying Value	Balance at Fair Value	Investment Maturities				
			6 Months Or Less	7 to 12 Months	13 to 18 Months	19 to 24 Months	Greater than 24 Months
STAR Ohio	\$1,579,366	\$1,579,366	\$1,579,366				
FNMA	100,000	99,606					\$100,000
Total	\$1,679,366	\$1,678,972	\$1,579,366	\$0	\$0	\$0	\$100,000

The weighted average maturity of investments is 0.20 years.

Interest Rate Risk: Interest rate risk arises when potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: The District's investments in federal agency securities were rated Aaa and AA+ by Moody's Investor Services and Standard & Poor's, respectively. Standard & Poor's has assigned STAR Ohio an AAAm money market rating. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service. The District's investment policy does not address investment credit risk beyond the requirements of State statutes.

**INDIAN LAKE LOCAL SCHOOL DISTRICT
LOGAN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2014

4. DEPOSITS AND INVESTMENTS (Continued)

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the District's name. The District has no investment policy dealing with investment custodial credit risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the Treasurer or qualified trustee.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2014:

<u>Investment type</u>	<u>Carrying Value</u>	<u>% to Total</u>
STAR Ohio	\$1,579,366	94.05
FNMA	100,000	5.95
Total	<u>\$1,679,366</u>	<u>100.00</u>

D. Reconciliation of Cash to the Statement of Net Position

The following is a reconciliation of cash as reported in the note above to cash as reported on the statement of net position as of June 30, 2014:

Cash per note:	
Carrying amount of deposits	\$7,970,053
Investments	1,679,366
Cash on hand	225
Total	<u>\$9,649,644</u>

Cash per statement of net position:	
Governmental activities	\$9,387,316
Private-purpose trust fund	111,551
Agency fund	150,777
Total	<u>\$9,649,644</u>

5. INTERFUND TRANSACTIONS

A. Interfund transfers during fiscal year 2014 consisted of the following, as reported on the fund financial statements:

Transfers from general fund to:	Amount
Non-major governmental fund	<u>\$40,000</u>

Transfers are used to (1) move cash receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) to use unrestricted cash receipts collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Interfund transfers between governmental funds are eliminated on the government-wide financial statements; therefore, no transfers are reported in the statement of activities.

5. INTERFUND TRANSACTIONS (Continued)

B. Interfund advances during fiscal year 2014 consisted of the following, as reported on the fund financial statements:

Advances from general fund to:	Amount
Non-major governmental fund	\$62,160
Advances from non-major governmental funds to:	
General fund	20,275
Total	\$82,435

Interfund advances between governmental funds are eliminated on the government-wide financial statements; therefore, no advances are reported in the statement of activities.

6. PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax receipts received in calendar year 2014 represent the collection of calendar year 2013 taxes. Real property taxes received in calendar year 2014 were levied after April 1, 2013, on the assessed values as of January 1, 2013, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax receipts received in calendar year 2014 represent the collection of calendar year 2013 taxes. Public utility real and personal property taxes received in calendar year 2014 became a lien on December 31, 2012, were levied after April 1, 2013, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The District receives property taxes from Logan and Auglaize Counties. The County Auditors periodically advance to the District its portion of the taxes collected. Second-half real property tax payments collected by the Counties by June 30, 2014, are available to finance fiscal year 2014 operations. The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

The assessed values upon which the fiscal year 2014 taxes were collected are:

	2013 Second Half Collections	2014 First Half Collections		
	Amount	Percent	Amount	Percent
Agricultural/residential and other real estate	\$365,501,360	96.80	\$387,882,090	97.00

2008 School Facilities Construction and Improvement General Obligation Bonds – On December 10, 2008, the District issued \$3,124,999 in voted general obligation bonds for construction and improvements to the school buildings, with an interest rate ranging from 3.00% - 5.25%. The bond issue included current interest serial bonds and capital appreciation serial bonds in the amounts of \$3,080,000 and \$44,999, respectively. The bonds were issued for a 26 year period with a final maturity at December 1, 2034. The bonds will be retired with a voted property tax levy from the bond retirement fund.

The capital appreciation serial bonds will mature in fiscal years 2017 through 2019. The maturity amounts of the bonds are \$110,000, \$110,000, and \$110,000, respectively, for a total maturity of \$330,000.

2007 School Facilities Construction Improvement and Refunding General Obligation Bonds – On March 14, 2007, the District issued \$18,001,887 in general obligation School Facilities Construction Improvement and Refunding Bonds with an average interest rate of 4.00% for the purpose of advance refunding \$3,335,000 of the 1998 Construction and Improvement Bonds and issuing new bonds of \$14,666,887. The bonds were issued for a 27 year period with a final maturity at December 1, 2034. Proceeds of \$3,482,286 were used to purchase U.S. Government Securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1998 series bonds. As a result, the 1998 series bonds are considered to be defeased.

The current interest term bonds maturing December 1, 2034, are subject to mandatory sinking fund redemption at a redemption price of 100% of the principal amount to be redeemed, plus accrued interest to the redemption date, on December 1 in the years and in the respective principal amounts as follows:

Year	Principal Amount to be Redeemed
2026	\$615,000
2027	650,000
2028	680,000
2029	715,000
2030	750,000
2031	785,000
2032	825,000

7. LONG-TERM OBLIGATIONS (Continued)

The remaining principal amount of such current interest bonds, \$720,000, will mature at the stated maturity on December 1, 2034.

The current interest bonds maturing after December 1, 2017 are subject to redemption at the option of the District, either in whole or in part, in such order as the District shall determine, on any interest payment date on or after June 1, 2017, at redemption prices equal to the date fixed for redemption.

When partial redemption is authorized, the current interest bonds or portions thereof will be selected by lot within a maturity in such manner as the Bond Registrar may determine, provided, however, that the portion of any such bond so selected will be in the amount of \$5,000 or any integral multiple thereof.

If optional redemption of current interest bonds at a redemption exceeding 100% is to take place on any date on which a mandatory redemption of such bonds of the same maturity will take place, such bonds to be redeemed by optional redemption are to be selected by the Bond Registrar prior to the selection of such bonds to be redeemed at par on the same date.

The capital appreciation serial bonds will mature in fiscal years 2017 through 2018. The maturity amounts of the bonds are \$470,000 and \$745,000, respectively, for a total maturity of \$1,215,000.

2005 Advance Refunding General Obligation Bonds – On April 21, 2005, the District issued \$8,419,990 in general obligation advance refunding bonds with an approximate average interest rate of 3.65% for the purpose of advance refunding \$8,420,000 of the 1996 Construction and Improvement Bonds. The bond issue included \$8,000,000 of current issue serial bonds and \$420,000 of capital appreciation bonds. The bonds were issued for an 18 year period with a final maturity at December 1, 2022. The net proceeds of \$8,898,708 (after payment of \$128,083 in bond issuance costs) were used to purchase U.S. Government Securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1996 series bonds. As a result, the 1996 series bonds are considered to be defeased.

Current interest bonds maturing after December 1, 2015, are subject to redemption at the option of the District, either in whole or in part, in such order as the District shall determine, on any payment date on or after June 1, 2015, at the redemption price equal to 100% of the principal amount redeemed plus, in each case, accrued interest to the date fixed for redemption.

When partial redemption is authorized, the current interest bonds or portions thereof will be selected by lot within a maturity in such manner as the Bond Registrar may determine, provided however, that the portion of any such bond so selected will be in the amount of \$5,000 or any integral multiple thereof.

If optional redemption of current interest bonds at a redemption exceeding 100% is to take place on any date on which a mandatory redemption of such bonds of the same maturity will take place, such bonds to be redeemed by optional redemption are to be selected by the Bond Registrar prior to the selection of such bonds to be redeemed at par on the same date.

The capital appreciation serial bonds will mature in fiscal years 2015 through 2016. The maturity amounts of the bonds are \$770,000 and \$775,000 respectively, for a total maturity of \$1,545,000.

7. LONG-TERM OBLIGATIONS (Continued)

1998 General Obligation Bonds – On March 1, 1998, the District issued \$4,999,613 in voted general obligation bonds for construction and improvements to the school buildings. The bond issue included current interest serial, current interest term, and capital appreciation serial bonds in the amounts of \$1,940,000, \$2,910,000 and \$149,613, respectively. On March 14, 2007, a portion of the current interest bonds were refunded, leaving an outstanding balance of \$420,000. These bonds matured December 1, 2010. The bonds were retired with a voted property tax levy from the bond retirement fund.

The remaining capital appreciation serial bonds will mature in fiscal years 2015 through 2017. The maturity amounts of the bonds are \$250,000 each, for a total maturity of \$750,000.

1996 General Obligation Bonds – On February 1, 1996, the District issued \$13,099,877 in voted general obligation bonds for construction and improvements to the school buildings. The bond issue included current interest serial, current interest term, and capital appreciation serial bonds in the amounts of \$4,560,000, \$7,560,000, and \$979,877, respectively. The bonds were issued for a 28 year period with a final maturity at December 1, 2023. The bonds will be retired with a voted property tax levy from the bond retirement fund.

The current interest serial bonds and all but \$660,000 of the current interest term bonds were paid with the 2005 advance refunding bonds. The remaining principal of the current interest term bonds will mature at the stated maturity on December 1, 2022.

The remaining capital appreciation serial bonds matured in fiscal year 2014. The maturity amount of the bonds was \$640,000.

Principal and interest requirements to retire the District's long-term obligations at June 30, 2014 are as follows:

8. RISK MANAGEMENT

A. Property and Liability

The District is exposed to various risks of loss related to torts; theft or damage to, and destruction of assets; errors and omissions; injuries to employees and natural disasters. The District maintains comprehensive insurance coverage for real property, building contents, and vehicles. Vehicle policies include liability coverage for bodily injury and property damage. Real property and contents are fully insured. Settled claims resulting from these risks have not exceeded the commercial coverage in any of the past three fiscal years.

8. RISK MANAGEMENT (Continued)

The District's comprehensive commercial insurance coverage for real property and building contents has a liability limit of \$87,845,153, a \$10,000 deductible, and a 100 percent coinsurance.

The District's fleet insurance has a liability limit of \$2,000,000, \$5,000 for medical payments. The policy includes a \$1,000 deductible for comprehensive and collision coverage with all buses covered for cash value or replacement cost if the bus is ten years old or newer.

B. Workers' Compensation

For fiscal year 2014, the District participated in the Ohio Association of School Business Officials (OASBO) Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participating school districts is tiered into groups based upon past workers' compensation experience. Within each tiered group, a common premium rate is applied to all school districts within that group. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings are then calculated and each participant's individual performance is compared to the overall savings percentage of their tiered group. This "equity pooling" arrangement ensures that each participant shares equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria. The firm of CompManagement, Inc. provides administrative, cost control and actuarial services to the GRP.

C. Health Insurance

The District participates in the Logan County Schools Benefit Plan Association (the "Plan")/Logan County School Employee Consortium Council of Governments (effective January 1, 2014) as described in Note 2.A.

9. PENSION PLANS

A. School Employees Retirement System

Plan Description – The District contributes to the School Employees Retirement System (SERS), a cost-sharing, multiple-employer defined benefit pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the District Employees Retirement System, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "Employers/Audit Resources".

9. PENSION PLANS (Continued)

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute at an actuarially determined rate. The current District rate is 14 percent of annual covered payroll. A portion of the District's contribution is used to fund pension obligations with the remainder being used to fund health care benefits. For fiscal year 2014, 13.05 percent and 0.05 percent of annual covered salary was the portion used to fund pension obligations and death benefits, respectively. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to a statutory maximum amount of 14 percent for plan members and 14 percent for employers. Chapter 3309 of the Ohio Revised Code provides statutory authority for member and employer contributions. The District's required contributions for pension obligations and death benefits to SERS for the fiscal years ended June 30, 2014, 2013 and 2012 were \$288,955, \$284,998 and \$290,595, respectively; 93.40 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012.

B. State Teachers Retirement System of Ohio

Plan Description – The District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio website at www.strsoh.org, under "Publications".

New members have a choice of three retirement plans, a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. The DB plan offers an annual retirement allowance based on final average salary times a percentage that varies based on years of service, or an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DC Plan allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are invested by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The DB portion of the Combined Plan payment is payable to a member on or after age 60; the DC portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

9. PENSION PLANS (Continued)

Funding Policy – For fiscal year 2014, plan members were required to contribute 11 percent of their annual covered salaries. The District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 14 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2014, 2013 and 2012 were \$912,228, \$956,849 and \$982,179, respectively; 83.79 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012. Contributions to the DC and Combined Plans for fiscal year 2014 were \$54,097 made by the District and \$42,505 made by the plan members.

C. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2014, certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

10. POST-EMPLOYMENT BENEFITS

A. School Employees Retirement System

Plan Description – The District participates in two cost-sharing, multiple employer postemployment benefit plans administered by the School Employees Retirement System (SERS) for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Section 3309.69 of the Ohio Revised Code. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2014 was \$104.90 for most participants, but could be as high as \$335.70 per month depending on their income and the SERS' reimbursement to retirees was \$45.50. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746. It is also posted on the SERS' Ohio website, www.ohsers.org, under "Employers/Audit Resources".

10. POST-EMPLOYMENT BENEFITS (Continued)

Funding Policy – State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105€ For 2014, 0.14 percent of covered payroll was allocated to health care. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. Statutes provide that no employer shall pay a health care surcharge greater than 2.0 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the statewide SERS-covered payroll for the health care surcharge. For fiscal year 2014, the actuarially determined amount was \$20,250.

Active members do not contribute to the postemployment benefit plans. The Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care (including surcharge) for the fiscal years ended June 30, 2014, 2013 and 2012 were \$3,088, \$3,481 and \$12,585, respectively; 93.40 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For fiscal year 2014, this actuarially required allocation was 0.76 percent of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2014, 2013 and 2012 were \$16,764, \$16,099 and \$17,161, respectively; 93.40 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012.

B. State Teachers Retirement System of Ohio

Plan Description – The District contributes to the cost sharing, multiple employer defined benefit Health Plan (the "Plan") administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org, under "Publications" or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2014, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2014, 2013 and 2012 were \$70,171, \$73,604 and \$75,552, respectively; 83.79 percent has been contributed for fiscal year 2014 and 100 percent for fiscal years 2013 and 2012.

11. CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is not party to legal proceedings that would have a material effect, if any, on the financial condition of the District.

12. SET-ASIDES

The District is required by State law to annually set-aside certain general fund cash receipt amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year end. This amount must be carried forward to be used for the same purpose in future years. Disbursements and other applicable offsets exceeding the set-aside requirement may not be carried forward to the next fiscal year.

The following cash-basis information describes the change in the fiscal year end set-aside amount for capital improvements. Disclosure of this information is required by State statute.

	<u>Capital Improvements</u>
Set-aside balance June 30, 2013	
Current year set-aside requirement	\$293,577
Prior year offset from debt proceeds	<u>(293,577)</u>
Total	<u>\$0</u>
Balance carried forward to fiscal year 2015	<u>\$0</u>
Set-aside balance June 30, 2014	<u><u>\$0</u></u>

In prior fiscal years, the District issued \$18,001,887 in capital related debt obligations. These proceeds may be used to reduce the capital improvements set-aside amount for future years. The amount presented for prior year offset from debt proceeds is limited to an amount needed to reduce the capital improvements set-aside balance to \$0. The District is responsible for tracking the amount of debt proceeds that may be used as an offset in future periods, which was \$17,708,310 at June 30, 2014.

13. BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the modified cash basis, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

**INDIAN LAKE LOCAL SCHOOL DISTRICT
LOGAN COUNTY**

**NOTES TO THE BASIC FINANCIAL STATEMENTS

13. BUDGETARY BASIS OF ACCOUNTING (Continued)

The statement of cash receipts, disbursements and change in fund balance – budget and actual (budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the modified cash basis are that:

- (a) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of a cash disbursement, as opposed to assigned, committed, or restricted fund cash balance for that portion of outstanding encumbrances (modified cash basis); and,
- (b) Some funds are included in the general fund (modified cash basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the modified cash basis for the general fund is as follows:

Net Change in Fund Cash Balance	
	General fund
Budget basis	\$1,165,748
Funds budgeted elsewhere	(252,485)
Adjustment for encumbrances	46,017
Modified cash basis	\$959,280

Certain funds that are legally budgeted in separate fund classifications are considered part of the general fund on a modified cash basis. This includes the uniform school supplies fund, public school fund, State/political subdivision fund and termination benefits fund.

14. COMMITMENTS

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year end may be reported as part of restricted, committed, or assigned classifications of fund cash balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

Fund	Year End Encumbrances
General	\$46,017
Non-major governmental funds	9,618
Total	\$55,635

15. SUBSEQUENT EVENT

On November 4, 2014, voters within the District approved the passage of a renewal and increase property tax levy. The levy renewed \$2,057,500 and increased \$821,000 for the purpose of emergency requirements. The levy commenced in 2014 and will be payable in 2015.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FISCAL YEAR ENDED JUNE 30, 2014**

NOTE A – SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the Indian Lake Local School District's (the District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B – CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The Districted allocated donated food commodities to the respective programs that benefitted from the use of those donated food commodities.

NOTE D – MATCHING REQUIREMENTS

Certain Federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Indian Lake Local School District
Logan County
6210 State Route 235 North
Lewistown, Ohio 43333

To the Board of Education:

We have audited in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Indian Lake Local School, Logan County, (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 19, 2014 wherein we noted the District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of noncompliance or other matters we must report under *Government Auditing Standards*, which is described in the accompanying schedule of findings as item 2014-001.

District's Response to Finding

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Indian Lake Local School District
Logan County
6210 State Route 235 North
Lewistown, Ohio 43333

To the Board of Education:

Report on Compliance for the Major Federal Program

We have audited the Indian Lake Local School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect the Indian Lake Local School District's major federal program for the year ended June 30, 2014. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal program.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for the District's major federal program based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on the Major Federal Program

In our opinion, the Indian Lake Local School District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect its major federal program for the year ended June 30, 2014.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which OMB Circular A-133 requires us to report, described in the accompanying schedule of findings as item 2014-002. This finding did not require us to modify our compliance opinion on the major federal program.

The District's response to our noncompliance finding is described in the accompanying schedule of findings or corrective action plan. We did not audit the District's response and, accordingly, we express no opinion on it.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a certain deficiency in internal control over compliance that we consider to be a significant deficiency, described in the accompanying schedule of findings as item 2014-002.

The District's response to the internal control over compliance finding we identified is described in the accompanying schedule of findings or corrective action plan. We did not audit the District's response and, accordingly, we express no opinion on it.

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2014-001

Noncompliance – GAAP Reporting

Ohio Rev. Code §117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office. Ohio Admin. Code §117-2-03 further clarifies the requirements of Ohio Rev. Code §117.38.

Ohio Adm. Code §117-2-03(B) requires the District to file annual financial reports which are prepared using generally accepted accounting principles (GAAP). For fiscal year 2014, the District prepared financial statements that, although formatted similar to financial statements prescribed by Governmental Accounting Standards Board Statement No. 34, report on the basis of cash receipts and cash disbursements, rather than GAAP. The accompanying financial statements and notes omit assets, deferred inflows/outflows, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. Pursuant to Ohio Rev. Code §117.38, the District may be fined and subject to various other administrative remedies for its failure to file the required financial report.

To help provide the users with more meaningful financial statements, the District should prepare their financial statements according to generally accepted accounting principles.

Officials' Response:

In response to Finding Number 2014-001 Noncompliance Citation O.R.C. 117.38; the Indian Lake Board of Education understands that the Ohio Revised Code requires the District's financial statements to be prepared in accordance with GAAP; however, an exception has been implemented by the State Auditor for issuance of an unmodified opinion if GAAP look-alike financial statements have been prepared by the District. Due to cost of the conversion, increased audit cost, and cost of employee resources, the Board feels money that would otherwise be spent on conversion to GAAP is better used to educate the students of Indian Lake Local Schools. In addition, federal security laws do not require GAAP financial statements, and specifically, SEC Rule 15c2-12 relating to continuing disclosure on outstanding debt (which applies to the District) does not require GAAP financial statements.

3. FINDINGS FOR FEDERAL AWARDS

Child Nutrition Cluster - Eligibility

Finding Number	2014-002
CFDA Title and Number	Child Nutrition Cluster: CFDA #10.553: School Breakfast Program CFDA #10.555: National School Lunch Program

Noncompliance and Significant Deficiency

7 CFR §245.1(a) establishes the responsibilities of State agencies, Food and Nutrition Service Regional Offices, school food authorities or local educational agencies, as defined in §245.2, as applicable, in providing free and reduced price meals in the National School Lunch Program and the School Breakfast Program. Section 9 of the National School Lunch Act, as amended, and Sections 3 and 4 of the Child Nutrition Act of 1966, as amended, require schools participating in any of the programs and commodity schools to make available, as applicable, free and reduced price lunches, breakfasts, and at the option of the School Food Authority for schools participating only in the Special Milk Program free milk to eligible children. **7 CFR §245.3(c)** states each School Food Authority shall serve free and reduced price meals or free milk in the respective programs to children eligible under its eligibility criteria.

7 CFR §245.2, 245.3, and 245.6 provide that children from households with incomes at or below 130 percent of the Federal poverty level are eligible to receive meals or milk free under the School Nutrition Programs. Children from households with incomes above 130 percent but at or below 185 percent of the Federal poverty level are eligible to receive reduced price meals. Persons from households with incomes exceeding 185 percent of the poverty level pay the full price.

The United States Department of Agriculture (USDA) Eligibility Manual for School Meals states that a foster child is categorically eligible for free meals without further application. For purposes of determining eligibility for school meals for other children in the household, the foster child is considered a member of the household in which they reside. The foster child's income is only considered when the foster family applies for meal benefits for the non-foster children in the household.

The District received a Free and Reduced Price School Meals Family Application with seven household members including two foster children not in school and three other children in school. Based on seven household members and the household gross income listed on the application, the three students in school should have been labeled as "reduced" for school meals; however the District incorrectly labeled them as "free." As a result, the District received \$338 more in federal funding for the program.

The District should review the USDA Eligibility Manual for School Meals when applications present situations that are not common to the District to help ensure compliance and reduce the possibility of excess funding and improper payments with regards to the Nutrition Cluster federal program.
