

SUMMIT COUNTY COMBINED GENERAL HEALTH DISTRICT

SUMMIT COUNTY

Audit Report

For the Year Ended December 31, 2014

Dave Yost • Auditor of State

Summit County Combined General Health District
1867 West Market Street
Akron, Ohio 44313

We have reviewed the Independent Auditors' Report of the Summit County Combined General Health District, Summit County, prepared by Charles E. Harris & Associates, Inc., for the audit period January 1, 2014 through December 31, 2014. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Summit County Combined General Health District is responsible for compliance with these laws and regulations.

A handwritten signature in black ink that reads "Dave Yost".

INDEPENDENT AUDITORS' REPORT

Summit County Combined General Health District
Summit County
1867 Market Street
Akron, Ohio 44322

To the Board of Health:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Summit County Combined General Health District, Summit County, Ohio (the Health District), as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Health District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the modified cash accounting basis Note 2 describes. This responsibility includes determining that the modified cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the Health District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the Health District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Summit County Combined General Health District, Summit County, Ohio, as of December 31, 2014, and the respective changes in modified cash financial position and the respective budgetary comparison for the General fund, Refugee Health Fund and the Adult Protective Services Fund thereof for the year then ended in accordance with the accounting basis described in Note 2.

Accounting Basis

We draw attention to Note 2 of the financial statements, which describes the accounting basis. The financial statements are prepared on the modified cash basis of accounting, which differs from generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental and Other Information

We audited to opine on the Health District's financial statements that collectively comprise its basic financial statements. The Schedule of Federal Awards Receipts and Expenditures presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is also not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We applied no procedures to the Management's Discussion & Analysis presented on pages 4-9 of the report, and accordingly, we express no opinion or any other assurance on it

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 22, 2015, on our consideration of the Health District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Health District's internal control over financial reporting and compliance.

Summit County Combined General Health District
Management's Discussion and Analysis
For the Year Ended December 31, 2014
Unaudited

The discussion and analysis of the Summit County Combined General Health District's (the Health District's) financial performance provides an overall review of the Health District's financial activities for the year ended December 31, 2014, within the limitations of the Health District's modified cash basis of accounting. The intent of this discussion and analysis is to look at the Health District's financial performance as a whole. Readers should also review the basic financial statements and notes to the basic financial statements to enhance their understanding of the Health District's financial performance.

Financial Highlights

Key financial highlights for the year 2014 are as follows:

- The assets of the Health District exceeded liabilities at the close of the year ended December 31, 2014 by \$6,876,949 (net position).
- The Health District's total net position decreased \$4,261,978. This decrease is mainly attributable to the increase in capital outlay for the construction of the Health District's new building.
- Program specific receipts in the form of charges for services and operating grants and contributions comprise 81 percent of the Health District's receipts. General receipts in the form of property taxes and unrestricted grants make up the other 19 percent.
- The Health District had \$27.7 million in expenses related to governmental activities in 2014; only \$19.1 million of these expenses were offset by program specific charges and operating grants and contributions. General Revenues (primarily taxes) of \$4.3 million together with assets on hand at the beginning of the year were adequate to provide for these programs.
- At the end of the fiscal year, unassigned fund balance for the General Fund was \$5.0 million or 36 percent of total General Fund expenditures.

Using the Basic Financial Statements

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the Health District's modified cash basis of accounting.

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the Health District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions on a modified cash basis of accounting.

The Statement of Net Position – Modified Cash Basis and Statement of Activities – Modified Cash Basis provide information about the activities of the whole Health District, presenting both an aggregate view of the Health District's finances and a longer-term view of those finances. Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the Health District as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

Summit County Combined General Health District
Management's Discussion and Analysis
For the Year Ended December 31, 2014
Unaudited

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

Basis of Accounting

The basis of accounting is a set of guidelines that determine when financial events are recorded. The Health District has elected to present its financial statements on a modified cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the Health District's modified cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenses (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the modified cash basis of accounting.

Reporting the Health District as a Whole

The Statement of Net Position and the Statement of Activities reflect how the Health District did financially during 2014, within the limitations of the modified cash basis of accounting. The Statement of Net Position – Modified Cash Basis presents the cash balances of the governmental activities of the Health District at year end. The Statement of Activities – Modified Cash Basis compares disbursements with program receipts for each governmental activity. Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General receipts are all receipts not classified as program receipts. The comparison of disbursements with program receipts identifies how each governmental function draws from the Health District's general receipts.

These statements report the Health District's cash position and the changes in cash position. Keeping in mind the limitations of the modified cash basis of accounting, you can think of these changes as one way to measure the Health District's financial health. Over time, increases or decreases in the Health District's cash position is one indicator of whether the Health District's financial health is improving or deteriorating. When evaluating the Health District's financial condition, you should also consider other nonfinancial factors as well, such as the Health District's property tax base, the condition of the Health District's capital assets, the reliance on non-local financial resources for operations and the need for continued growth.

In the Statement of Net Position – Modified Cash Basis and the Statement of Activities – Modified Cash Basis, the Health District's major funds are reported. Charges for services and state and federal grants finance most of these activities. To a significant extent, benefits provided through the governmental activities are being paid for by the people receiving them.

Reporting the Health District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the Health District's major funds – not the Health District as a whole. The Health District establishes separate funds to better manage its many activities and to help demonstrate that money that is restricted as to how it may be used is being spent for the intended purpose. All of the operating funds of the Health District are governmental.

Governmental Funds - The Health District's activities are reported in governmental funds. The governmental fund financial statements provide a detailed short-term view of the Health District's governmental operations and the health services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the Health District's health programs. The Health District's significant governmental funds are presented on the financial statements in separate columns. The information for non-major funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The Health District's major governmental funds are the General Fund, the Refugee Health Fund and the Adult Protective Services Fund.

The Health District as a Whole

Table 1 provides a summary of the Health District's net position for 2014 compared to 2013 on a modified cash basis:

Table 1: Net Position – Modified Cash Basis

	<u>Governmental Activities</u>	
	<u>2014</u>	<u>2013</u>
Assets		
Equity in Pooled Cash and Cash Equivalents	\$6,686,485	\$6,146,243
Cash and Cash Equivalents with Fiscal Agent	193,298	5,000,000
<i>Total Assets</i>	<u>6,879,783</u>	<u>11,146,243</u>
Liabilities		
Fiscal Agent Payable	<u>2,834</u>	<u>7,316</u>
Net Position		
Restricted for Principal Retirement	193,298	5,000,000
Restricted for Other Purposes	1,814,871	1,779,199
Unrestricted	<u>4,868,780</u>	<u>4,359,728</u>
<i>Total Net Position</i>	<u>6,876,949</u>	<u>11,138,927</u>
Total Net Position and Liabilities	<u>\$9,879,783</u>	<u>\$11,146,243</u>

As mentioned previously, net position decreased \$4,261,978. The decrease is related primarily to the increase in capital outlay for the construction of the Health District's new building.

Table 2, on the following page, reflects the changes in net position in 2014.

Summit County Combined General Health District
Management's Discussion and Analysis

Table 2: Changes in Net Positions

	Governmental Activities	
	2014	2013
Receipts		
Program Cash Receipts		
Charges for Services	\$ 5,837,577	\$ 5,494,086
Operating Grants and Contributions	13,262,662	12,876,429
Total Program Cash Receipts	19,100,239	18,370,515
General Receipts		
Property Taxes	3,230,675	3,230,675
State Subsidy	102,079	101,445
Debt Proceeds	0	5,000,000
Miscellaneous	242,708	451,031
Total General Receipts	3,575,462	8,783,151
Extraordinary Item	770,002	0
Total Receipts	23,445,703	27,153,666
Disbursements		
Public Health Services	22,728,111	20,582,649
Capital Outlay	4,806,702	0
Debt Service	172,868	72,462
Total Disbursements	27,707,681	20,655,111
Increase / (Decrease) in Net Position	(4,261,978)	6,498,555
Net Position January 1	11,138,927	4,640,372
Net Position December 31	\$ 6,876,949	\$ 11,138,927

In 2014, 19 percent of the Health District's total receipts were from general receipts and extraordinary item, consisting mainly of property taxes. Program receipts accounted for 81 percent of the Health District's total receipts in year 2014. These receipts consist primarily of charges for services for birth and death certificates, food service licenses, trailer park, swimming pools and spas, water system permits, clinic fees and state and federal operating grants and donations.

Governmental Activities

If you look at the Statement of Activities – Modified Cash Basis, you will see that the first column lists the major services provided by the Health District. The next column identifies the costs of providing these services. The next two columns of the Statement entitled Program Cash Receipts identify amounts paid by people who are directly charged for the service and grants received by the Health District that must be used to provide a specific service. The net Receipt (Disbursement) column compares the program receipts to the cost of the service. This “net cost” amount represents the cost of the service which ends up being paid from money provided by local townships and municipalities, taxpayers and state subsidies. These net costs are paid from the general receipts which are presented at the bottom of

Summit County Combined General Health District
Management's Discussion and Analysis
For the Year Ended December 31, 2014
Unaudited

the Statement. A comparison between the total cost of services and the net cost is presented on the next page, in Table 3.

Table 3: Governmental Activities

	Total Cost of Services 2014	Net Cost of Services 2014
Public Health Services	\$ 22,728,111	\$ (3,627,872)
Capital Outlay	4,806,702	(4,806,702)
Interest	172,868	(172,868)
Total Governmental Activities	\$ 27,707,681	\$ (8,607,442)

The Health District has tried to limit its dependence upon property taxes and local subsidies by actively pursuing Federal grants and charging rates for services that are closely related to costs. Only nineteen percent of health costs are supported through property taxes, unrestricted grants and other general receipts.

The Health District's Funds

The sum of governmental funds had total receipts of \$23,445,703 and total disbursements of \$27,707,681. These governmental funds decreased cash balances by \$4,261,978 in 2014.

The fund balance of the General Fund decreased \$4,485,973 to \$5,515,353 at year-end. This increase is due primarily to the decrease in Advances out to grant funds compared to the prior year.

The Refugee Health Fund balance increased by \$100,246, and is attributable to the timing of expenditures and reimbursements. The Grant operates in a fiscal year other than January through December 2014.

The Adult Protective Services Fund balance decreased by \$45,029 and is attributable to the timing of expenditures and reimbursements. The Grant operates in a fiscal year other than January through December 2014.

General Fund Budgeting Highlights

The Health District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of 2014, the Health District amended its appropriations, and the budgetary statement reflects both the original and final appropriated amounts. The overall increase between the original budgeted and the actual receipts is due to additional local grants obtained during the year, as well as insurance reimbursements due to the May 2014 flooding of the Health District's main office.

The increase of actual disbursements from the original budgeted amount is the result of additional costs associated with the May 2014 flood event.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 1 – Reporting Entity

The Summit County Combined General Health District (the Health District) serves as a policy-making body with authority to adopt rules and regulations. The Health District is directed by an appointed eighteen-member board and a Health Commissioner.

The Health District (1) adopts regulations as necessary for the prevention of disease and the promotion of public health, (2) holds hearings on public health matters, (3) cooperates with other health agencies and citizens groups to promote community health programs and, (4) informs and educates the community on public health matters.

Note 2 - Summary of Significant Accounting Policies

As discussed further in Note 2.C, these financial statements are presented on a modified cash basis of accounting. This modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the modified cash basis of accounting. Following are the more significant of the Health District's accounting policies.

A. Basis of Presentation

The Health District's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the Health District as a whole. These statements include the financial activities of the primary government. These statements usually distinguish between those activities of the Health District that are governmental in nature and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental receipts or other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services. The Health District has no business-type activities.

The statement of net position presents the cash balance of the governmental activities of the Health District at year end. The statement of activities compares disbursements and program receipts for each program or function of the Health District's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the Health District is responsible.

Program receipts include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 2 - Summary of Significant Accounting Policies (continued)

Receipts which are not classified as program receipts are presented as general receipts of the Health District, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a modified cash basis or draws from the general receipts of the Health District.

Fund Financial Statements

During the year, the Health District segregates transactions related to certain Health District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Health District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

B. Fund Accounting

The Health District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are used to segregate resources that are restricted as to use. The Health District uses the following fund types:

Governmental Funds

Governmental funds are those through which most governmental functions of the Health District are financed. The following are the Health District's major governmental fund types:

General Fund - The General Fund accounts for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the Health District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Special Revenue Funds - These funds are used to account for proceeds from specific sources that are restricted to expenditure for specific purposes. The Health District has the following major Special Revenue Funds:

Refugee Health Fund – This fund receives federal grant money for the purpose of providing health screenings. The primary purpose is to identify communicable diseases that may threaten public health.

Adult Protective Services Fund – This fund receives grant money for the purpose of providing care coordination services for seniors.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 2 - Summary of Significant Accounting Policies (continued)

C. Basis of Accounting

The Health District's financial statements are prepared using the modified cash basis of accounting. Except for modifications having substantial support, receipts are recorded in the Health District's financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. Any such modifications made by the Health District are described in the appropriate section in this note.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

D. Budgetary Process

All funds are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Health may appropriate. The appropriations resolution is the Board of Health's authorization to spend resources and sets annual limits on cash disbursements plus encumbrances at the level of control selected by the Board of Health. The legal level of control has been established by the Board of Health at the fund, department, and object level for all funds.

ORC Section 5705.28(C)(1) requires the Health District to file an estimate of contemplated revenues with the municipalities and townships within the Health District by about June 1 (forty-five days prior to July 15). The county Fiscal Officer cannot allocate property taxes from the municipalities and townships within the district if the filing has not been made.

ORC Section 3709.28 establishes budgetary requirements for the Health District, which are similar to ORC Chapter 5705 budgetary requirements. On or about the first Monday of April the Health District must adopt an itemized appropriation measure. The appropriation measure, and an itemized estimate of revenues to be collected during the next fiscal year, is certified by the county budget commission. Subject to estimated resources, the Board of Health may, by resolution, transfer appropriations from one appropriation item to another, reduce or increase any item, create new items, and make additional appropriations or reduce the total appropriation. Such appropriation modifications are certified by approval of the county budget commission.

The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources in effect when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board of Health.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 2 - Summary of Significant Accounting Policies (continued)

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budget reflect the first appropriation resolution that covered the entire year, including amounts automatically carried forward from prior years. The amount reported as the final budgeted amounts represents the final appropriations passed by the Board of Health during the year.

E. Cash and Investments

The Summit County Fiscal Officer is the custodian for the Health District's cash and investments. The Health District utilizes a financial institution to service bonded debt as principal and interest payments come due. The County's cash and investment pool holds the Health District's cash and investments, which are reported at the County Fiscal Officer's carrying amount. Deposits and investments disclosures for the County as a whole may be obtained from the County by contacting Dennis Menendez, Deputy Fiscal Officer of Finance, County of Summit, 175 South Main Street, 44308-1306, (330) 643-2872.

F. Restricted Assets

Assets are reported as restricted when there are limitations imposed on their use through external restriction imposed by creditors, grantors or laws or regulations of other governments.

G. Inventory and Prepaid Items

The Health District reports disbursements for inventory and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

H. Capital Assets

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

I. Interfund Receivables/Payables

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental activities column of the statement of net position.

J. Accumulated Leave

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the Health District's modified cash basis of accounting.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 2 - Summary of Significant Accounting Policies (continued)

L. Long-Term Obligations

The Health District's modified cash basis financial statements do not report liabilities for long-term obligations. Proceeds of loans are reported as cash when received and principal and interest are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither an other financing source nor a capital outlay expenditure are reported at inception. Lease payments are reported when paid.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the Health District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable: The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash.

Restricted: Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions. Enabling legislation authorizes the Health District to assess, levy, charge, or otherwise mandate payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the Health District can be compelled by an external party – such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed: The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of the Health Board. Those committed amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by the Board, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 2 - Summary of Significant Accounting Policies (continued)

Assigned: Amounts in the assigned fund balance classification are intended to be used by the Health District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the Health Board or a Health District official delegated that authority by ordinance or by State Statute.

Unassigned: Unassigned fund balance is the residual classification for the general fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The Health District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Net Position

Net Position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for federal, state and local grants.

The Health District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

O. Interfund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating receipts/cash disbursements in proprietary funds. Repayments from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented in the financial statements.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 3 - Budgetary Basis of Accounting

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the general fund and each major special revenue fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference between the budgetary basis and the modified cash basis are outstanding year end encumbrances are treated as expenditures (budgetary basis) rather than as a restricted, committed, or assigned fund balance (modified cash basis) and outstanding year end advances are treated as an other financing source or use (budgetary basis) rather than as an interfund receivable or payable (modified cash basis).

**Net Change in Fund Balance
General and Major Special Revenue Funds**

	General Fund	Refugee Health	Adult Protective Services
GAAP Basis	\$ (4,485,973)	\$ 100,245	\$ (45,029)
Net Adjustment Revenue Accruals	(1,185,810)	(211,000)	(225,500)
Net Adjustment Expenditure Accruals	1,800,000	352,301	225,431
Net Adjustment for Encumbrances	(320,861)	-	-
 Budgetary Basis	 \$ (4,192,644)	 \$ 241,546	 \$ (45,098)

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 4 – Accountability

Deficit Fund Balances

Fund Balances at December 31, 2014 included the following individual fund deficits:

<u>Fund</u>	<u>Deficit</u>
Major Governmental Funds:	
Adult Protective Services	\$ (109,830)
Other Governmental Funds:	
HMG Home Visiting	(9,797)
Help Me Grow, Part C	(59,854)
WIC	(95,782)
Creating Healthy Communities	(12,183)
BCCP	(5,329)
Quality of Life	(9,032)
Air Quality	(330)
PHEP	(15,121)
Regional PHEP	(3,171)
HIV Prevention	(30,041)
Dental Sealant	(5,923)
STD Control	(2,834)
HUD Lead	(8,462)
HUD Healthy Homes	(727)
ADM Counseling	(78,217)
Tobacco Prevention	(2,430)
STIR	(4,212)
Total Other	\$ (343,445)

The fund deficits in the above funds resulted from interfund liabilities due to timing issues with the reimbursement of disbursements for various grant programs. The general fund is liable for the deficits in these funds and will provide operating advances when cash is required, not when the liability occurs.

Note 5 - Property Taxes

Property taxes include amounts levied against all real property, public utility property, and tangible personal property located in the Health District. Real property tax receipts received in 2014 represent the collection of 2013 taxes. Real property taxes received in 2014 were levied after October 1, 2013, on the assessed values as of January 1, 2013, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 5 - Property Taxes (continued)

Public utility personal property tax received in 2014 represent the collection of 2013 taxes. Public utility tangible personal property taxes received in 2014 became a lien on December 31, 2012, were levied after October 1, 2013, and are collected in 2014 with real property taxes. Public utility tangible personal property is currently assessed at varying percentages of true value.

The County Fiscal Officer collects property taxes on behalf of all taxing districts within the County. The County Fiscal Officer periodically remits to the taxing districts their portion of the taxes collected. The collection and distribution of taxes for all subdivisions within the County, excluding the County itself, is accounted for through agency funds. The amount of the County's tax collections is accounted for within the applicable funds.

The full tax rate for all Health District operations for the year ended December 31, 2014, was \$0.369741 per \$1,000 of assessed value. The total assessed value upon which 2014 property tax receipts were based was \$8,737,680,540.

Note 6 - Interfund Receivables/Payables

Interfund balances at December 31, 2014, consisted of the following fund receivables and payables:

Due to General Fund from:		
Refugee Health Fund	\$	352,301
Adult Protective Services Fund		225,431
Other Governmental Funds		<u>608,078</u>
Total General Fund	\$	<u>1,185,810</u>

The balance due to the General Fund includes loans made to provide working capital for operations or projects. All of these amounts are expected to be repaid within one year.

Note 7 – Risk Management

The Health District is exposed to various risks of property and casualty losses, and injuries to employees. The Health District insures against injuries to employees through the Ohio Bureau of Worker's Compensation.

The Health District belongs to the Public Entities Pool of Ohio (PEP), a risk-sharing pool available to Ohio local governments. PEP provides property and casualty coverage for its members. American Risk Pooling Consultants, Inc. (ARPCO), a division of York Insurance Services Group, Inc. York functions as the administrator of PEP and provides underwriting, claims, loss control, risk management, and reinsurance services for PEP. PEP is a member of the American Public Entity Excess Pool (APEEP), which is also administered by ARPCO. Member governments pay annual contributions to fund PEP. PEP pays judgments, settlements and other expenses resulting from covered claims that exceed the members' deductibles.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 7 – Risk Management (continued)

Casualty and Property Coverage

APEEP provides PEP with an excess risk-sharing program. Under this arrangement, PEP retains insured risks up to an amount specified in the contracts. At December 31, 2013, PEP retained \$350,000 for casualty claims and \$150,000 for property claims.

The aforementioned casualty and property reinsurance agreement does not discharge PEP’s primary liability for claims payments on covered losses. Claims exceeding coverage limits are the obligation of the respective government.

Financial Position

PEP’s financial statements (audited by other accountants) conform with generally accepted accounting principles, and reported the following assets, liabilities and net position at December 31, 2013 and 2012 (the latest information available):

	<u>2013</u>	<u>2012</u>
Assets	\$34,411,883	\$34,389,569
Liabilities	<u>(12,760,194)</u>	<u>(14,208,353)</u>
Net Position	<u>\$21,651,689</u>	<u>\$20,181,216</u>

At December 31, 2013 and 2012, respectively, the liabilities above include approximately \$11.6 million and \$13.1 million of estimated incurred claims payable. The assets above also include approximately \$11.1 million and \$12.6 million of unpaid claims to be billed to approximately 475 and 466 member governments in the future, as of December 31, 2013 and 2012, respectively. These amounts will be included in future contributions from members when the related claims are due for payment. As of December 31, 2014, the Health District’s share of these unpaid claims collectible in future years is approximately \$59,632.

Based on discussions with PEP, the expected rates PEP charges to compute member contributions, which are used to pay claims as they become due, are not expected to change significantly from those used to determine the historical contributions detailed below. By contract, the annual liability of each member is limited to the amount of financial contributions required to be made to PEP for each year of membership.

<u>Contributions to PEP</u>	
<u>2013</u>	<u>2014</u>
\$68,582	\$85,188

After one year of membership, a member may withdraw on the anniversary of the date of joining PEP, if the member notifies PEP in writing 60 days prior to the anniversary date. Upon withdrawal, members are eligible for a full or partial refund of their capital contributions, minus the subsequent year’s contribution. Withdrawing members have no other future obligation to PEP. Also upon withdrawal, payments for all casualty claims and claim expenses become the sole responsibility of the withdrawing member, regardless of whether a claim occurred or was reported prior to the withdrawal.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 8 - Defined Benefit Pension Plans

Ohio Public Employees Retirement System

The Health District participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the member-directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by OPERS to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member-directed plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Members of the member-directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling 614-222-5601 or 800-222-7377.

For the year ended December 31, 2014, members of all three plans, except those in law enforcement or public safety participating in the traditional plan, were required to contribute 10 percent of their annual covered salary to fund pension obligations. The Health District's contribution rate for pension benefits for 2014 was 14 percent. The Ohio Revised Code provides statutory authority for member and employer contributions.

The Health District's required contribution for pension obligations to the traditional and combined plans for the years ended December 31, 2014, 2013, and 2012, were \$1,237,568, \$1,244,014, and \$1,059,389, respectively. The full amount has been contributed for 2014, 2013 and 2012.

Note 9 - Postemployment Benefits

The Ohio Public Employees Retirement System (OPERS) provides post-employment health care coverage to age and service retirees with ten or more years of qualifying Ohio service credit with either the Traditional Pension or Combined Plans. Health care coverage for disability recipients and qualified survivor recipients is available. Members of the Member-Directed Plan do not qualify for post-employment health care coverage. The health care coverage provided by OPERS is considered an Other Postemployment Benefit (OPEB) as described in GASB Statement No. 45, "Accounting and Financial Reporting by Employers for Post-Employment Benefits other than Pension". A portion of each employer's contribution to OPERS is set aside for the funding of post-employment health care based on authority granted by State statute. The 2014 employer contribution rate was 14.0 percent of covered payroll. The portion of employer contributions allocated to health care was 2 percent in the same period.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 9 - Postemployment Benefits (continued)

Effective January 1, 2015, the portion of employer contributions allocated to health care remains at 2% for both plans, as recommended by OPERS' actuary. The OPERS Board of Trustees is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The portion of employer contributions that were used to fund post-employment health benefits for calendar year 2014 is \$206,165.

OPERS' Post Employment Health Care Plan was established under, and is administered in accordance with, Internal Revenue Service Code 401(h). Changes to the health care plan were adopted by the OPERS Board of Trustees on September 19, 2012, with the transition plan commencing January 1, 2014. With the passage of pension legislation under SB 343 and the approved health care changes, OPERS expects to be able to consistently allocate 4% of the employer contributions toward the health care fund after the end of the transition period.

Note 10 – Loans Payable

In 2014, a "Conduit Bank-Qualified Tax Exempt Bond" was issued by Summit County's Development Finance Authority (DFA) for which the Health District was the borrower. A local bank is providing the loan to the DFA.

The interest on the debt was paid out of the General fund. No payments on the principal were made, as construction had not completed in 2014. The Health District's long-term loan activity for the year ended December 31, 2014, was as follows:

	Interest Rate	Balance December 31, 2013	Additions	Reductions	Balance December 31, 2014	Principal Due Within One Year
<u>Governmental Activities</u>						
Loans Payable						
2013 Issue (Facility Renovation) (Original Amount \$5,000,000)	3.41%	\$ 5,000,000	\$ 0	\$ 0	\$ 5,000,000	\$ 225,230
Total Governmental Activities		\$ 5,000,000	\$ 0	\$ 0	\$ 5,000,000	\$ 225,230

The following is a summary of the Health District's future annual debt service requirements for governmental activities:

Year	Loans	
	Principal	Interest
2015	\$ 225,230	\$ 169,939
2016	270,276	161,241
2017	270,276	151,448
2018	270,276	142,104
2019	270,276	132,760
2020-2023	3,693,666	407,096
	\$ 5,000,000	\$ 1,164,588

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 11 – Leases

The Health District entered into a lease for copier equipment for a grant project in December 2009 under a five year capital lease. The Health District disbursed a total of \$1,578 for this lease for the year ended December 31, 2014.

The Health District entered into a lease for copier equipment for its Akron site in November 2011 under a five year capital lease. Payments began in December, 2011 and will continue through November, 2016. The Health District disbursed a total of \$3,821 for this lease for the year ended December 31, 2014. Future payments are as follows:

<u>Year</u>	<u>Amount</u>
2015	\$3,821
2016	2,866

The Health District also entered into a lease for copier equipment for its new Building in October 2014 under a five year capital lease. Payments began in November, 2014 and will continue through October, 2019. The Health District disbursed a total of \$2,670 for this lease for the year ended December 31, 2014. Future payments are as follows:

<u>Year</u>	<u>Amount</u>
2015	\$10,680
2016	10,680
2017	10,680
2018	10,680
2019	8,010

Additionally, the Health District leases various clinic facilities under operating leases for up to two years in length. Total rent expenses for these leases in 2014 were \$213,209.

Note 12 – Contingent Liabilities

Amounts grantor agencies pay to the Health District are subject to audit and adjustment by the grantor, principally the federal government. Grantors may require refunding any disallowed costs. Management cannot presently determine amounts grantors may disallow. However, based on prior experience, management believes any refunds would be immaterial.

Summit County Combined General Health District
Notes to the Financial Statements
For the Year Ended December 31, 2014

Note 13 –Fund Balances

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the Health District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

<u>Fund Balances</u>	<u>General</u>	<u>Refugee Health</u>	<u>Adult Protective Services</u>	<u>Other Governmental Funds</u>	<u>Total</u>
<i>Restricted:</i>					
Public Health Services	\$0	\$14,670	\$0	\$1,800,201	\$1,814,871
Principal Retirements	<u>193,298</u>	<u>0</u>	<u>0</u>	<u>0</u>	<u>193,2980</u>
<i>Total Restricted</i>	<u>193,298</u>	<u>14,670</u>	<u>0</u>	<u>1,800,201</u>	<u>2,008,169</u>
<i>Assigned:</i>					
Encumbrances	<u>320,861</u>	<u>0</u>	<u>0</u>	<u>0</u>	<u>320,861</u>
<i>Total Assigned</i>	<u>320,861</u>	<u>0</u>	<u>0</u>	<u>0</u>	<u>320,861</u>
Unassigned	<u>5,001,194</u>	<u>0</u>	<u>(109,830)</u>	<u>(343,445)</u>	<u>4,547,919</u>
 Total Fund Balances	 <u>\$5,515,353</u>	 <u>\$14,670</u>	 <u>(\$109,830)</u>	 <u>\$1,456,756</u>	 <u>\$6,876,949</u>

NOTE 14-Extraordinary Item

The District received \$770,002 in insurance proceeds for flood damage in 2014.

**SUMMIT COUNTY COMBINED GENERAL HEALTH DISTRICT
SUMMIT COUNTY**

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FISCAL YEAR ENDED DECEMBER 31, 2014**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the Summit County Combined General Health District's (the Health District's) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The Health District passes certain federal awards received from the Ohio Department of Health, U. S. Department of Health and Human Services, the U.S. Department of Education, and the U.S. Department of Housing and Urban Development to other governments or not-for-profit agencies (subrecipients). As Note A describes, the Health District reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the Health District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

NOTE C - FEDERAL GRANTS COMMINGLED WITH STATE GRANTS

The Health District commingles cash receipts from the U.S. Department of Health and Human Services with similar State grants. When reporting expenditures on this Schedule, the Health District assumes it expends federal monies first.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Summit County Combined General Health District
Summit County
1867 Market Street
Akron, Ohio 44322

To the Board of Health:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Summit County Combined General Health District, Summit County, (the Health District) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Health District's basic financial statements and have issued our report thereon dated May 22, 2015, wherein we noted the Health District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the Health District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the Health District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the Health District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the Health District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the Health District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the Health District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER
COMPLIANCE REQUIRED BY OMB CIRCULAR A-133**

Summit County Combined General Health District
Summit County
1867 Market Street
Akron, Ohio 44322

To the Board of Health:

Report on Compliance for Each Major Federal Program

We have audited the Summit County Combined General Health District's (the Health District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Summit County Combined General Health District's major federal programs for the year ended December 31, 2014. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the Health District's major federal program.

Management's Responsibility

The Health District's management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the Health District's compliance for each of the Health District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the Health District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the Health District's major programs. However, our audit does not provide a legal determination of the Health District's compliance.

Opinion on Each Major Federal Program

In our opinion, the Summit County Combined General Health District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended December 31, 2014.

Report on Internal Control Over Compliance

The Health District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the Health District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the Health District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.
