We have reviewed the *Independent Auditor's Report* of the Arcadia Local School District, Hancock County, prepared by Charles E. Harris & Associates, Inc., for the audit period July 1, 2013 through June 30, 2014. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. The Arcadia Local School District is responsible for compliance with these laws and regulations.

**INDEPENDENT AUDITORS' REPORT**

Arcadia Local School District  
Hancock County  
19033 State Route 12  
Arcadia, Ohio 44804

To the Board of Education:

***Report on the Financial Statements***

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Arcadia Local School District, Hancock County, Ohio (the District), as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

***Management's Responsibility for the Financial Statements***

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

***Auditor's Responsibility***

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinion.

***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the Arcadia Local School District, Hancock County, Ohio, as of June 30, 2014, and the respective changes in financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

**Other Matters**

*Required Supplementary Information*

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated January 14, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Arcadia Local School District  
Management's Discussion and Analysis  
For the Fiscal Year Ended June 30, 2014  
Unaudited

---

The discussion and analysis of Arcadia Local School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2014. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

**Highlights**

Highlights for fiscal year 2014 are as follows:

In total, net position increased \$633,474, or 11 percent.

General revenues accounted for 76 percent of total revenues and reflect the School District's significant dependence on property taxes, income taxes, and unrestricted state entitlements.

**Using the Basic Financial Statements**

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand Arcadia Local School District as a financial whole, or as an entire operating entity.

The statement of net position and the statement of activities provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances.

Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the School District's most significant funds, with all other nonmajor funds presented in total in a single column. For Arcadia Local School District, the General Fund is the most significant fund.

**Reporting the School District as a Whole**

The statement of net position and the statement of activities reflect how the School District did financially during fiscal year 2014. These statements include all assets and liabilities using the accrual basis of accounting similar to that which is used by most private-sector companies. This basis of accounting considers all of the current fiscal year's revenues and expenses regardless of when cash is received or paid.

These statements report the School District's net position and changes in net position. This change in net position is important because it tells the reader whether the financial position of the School District as a whole has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

---

In the statement of net position and the statement of activities, all of the School District's activities are presented as governmental activities and include instruction, support services, non-instructional services, and extracurricular activities.

**Reporting the School District's Most Significant Funds**

Fund financial statements provide detailed information about the School District's major funds. While the School District uses many funds to account for its financial transactions, the fund financial statements focus on the School District's most significant funds. The School District's only major fund is the General Fund.

Governmental Funds - All of the School District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year end for spending in future periods. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the School District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the School District's programs. These funds use the accrual basis of accounting.

Total assets increased 10 percent from the prior fiscal year. Within current and other assets, there was an increase in cash and cash equivalents of over \$308,000 due to an increase in open enrollment and property tax revenue and \$335,000 in the receivable for property taxes. The receivable and revenue for property taxes is the result of an increase in the assessed valuation of property of over \$16 million. This increase is also reflected in the increase in unrestricted net position. The increase in net capital assets, the investment in capital assets, and the decrease in restricted net position primarily represents the completion of the Beeson Memorial Athletic building.

Table 2 reflects the change in net position for fiscal year 2014 and fiscal year 2013.

Overall, total revenues increased 7 percent. Program revenues increased 4 percent as both charges for services increased due to higher open enrollment and operating grants and contributions increased due to an increase in State foundation resources and additional Rural Education Achievement Program funding. In the prior fiscal year, the School District received donations of almost \$100,000 for the Beeson Memorial Athletic Building project reflected as capital grants and contributions. There was an 8 percent increase in general revenues with the increase in property tax revenues (discussed previously) being the most noteworthy change.

Expenses remained similar to the prior fiscal year with an increase of less than 3 percent. Not surprisingly, the major expense is for instruction, which accounts for 57 percent of total expenses. Other programs which support the instruction process, including pupils, instructional staff, and pupil transportation account for 12 percent of total expenses. Maintenance of the School District's facilities also represents a significant expense, over 9 percent.

Table 3 indicates the total cost of services and the net cost of services for governmental activities. The statement of activities reflects the cost of program services and the charges for services, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues and unrestricted state entitlements.

With the substantial contribution of general revenues for funding the School District's activities, only a limited number of activities are affected by program revenues. Approximately 32 percent of the costs for regular instruction are offset by program revenues, primarily from tuition and fees. The special instruction program also has approximately 61 percent of its costs offset by program revenues, primarily grants restricted for special instruction programs. For 2014 program revenues provided for the entire cost of the non-instructional services program. This is primarily due to cafeteria sales, and state and federal subsidies and donated commodities for food service. Extracurricular activities costs are supported by music and athletic fees, ticket sales, gate receipts at musical and athletic events.

**The School District's Funds**

The School District's governmental funds are accounted for using the modified accrual basis of accounting. The General Fund had an increase in fund balance from the prior fiscal year of \$584,992, or 14 percent. There was a 9 percent increase in revenues (primarily property taxes and tuition and fees) and a 4 percent increase in expenditures.

**General Fund Budgeting Highlights**

The School District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During fiscal year 2014, the School District amended its General Fund budget as needed. For revenues, changes from the original budget to the final budget were not significant. There was a 10 percent increase from the final budget to actual revenues, primarily due to tuition and fees and property taxes discussed previously. For expenditures, changes from the original budget to the final budget were not significant; however, actual expenditures were 21 percent less than final budget amounts as savings were realized in almost all programs.

**Capital Assets and Debt Administration**

**Capital Assets**

At the end of fiscal year 2014, the School District had \$1,952,948 invested in capital assets (net of accumulated depreciation). Additions consisted of the completion of the new athletic building; new technology, maintenance, and athletic equipment; and a new bus. The School District disposed of obsolete equipment and a bus during the fiscal year. For further information regarding the School District's capital assets, refer to Note 9 to the basic financial statements.

**Debt**

For fiscal year 2014, long-term obligations consisted of compensated absences, in the amount of \$375,549. Compensated absences will be paid from the General Fund and the Food Service special revenue fund. For further information regarding the School District's long-term obligations, refer to Note 15 to the basic financial statements.

**Current Issues**

In May 2014, the voters renewed a five-year 1 percent income tax levy to raise approximately \$740,000 annually.

In March 2012, voters approved two emergency levies; a three-year levy which generates approximately \$305,000 annually and a four-year levy which generates approximately \$440,000 annually.

The School District accepts open enrollment of students from other school districts. During the 2013/2014 school year, one hundred forty-two students from other school districts attended Arcadia Local School District under the open enrollment program while only forty-one students left our School District to attend other schools.

 of Governmental Funds to Statement of Activities  
 For the Fiscal Year Ended June 30, 2014

Changes in Fund Balances - Total Governmental Funds \$328,329

Amounts reported for governmental activities on the statement of activities are different because of the following:

Governmental funds report capital outlays as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current fiscal year.

**Note 1 - Description of the School District and Reporting Entity**

Arcadia Local School District (the “School District”) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The School District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The School District provides educational services as authorized by state and federal guidelines.

The School District was established in 1937. The School District serves an area of approximately sixty-one square miles. It is located in Hancock and Seneca Counties. The School District is the 571<sup>st</sup> largest in the State of Ohio (among 611 school districts) in terms of enrollment. It is staffed by twenty-six classified employees, thirty-eight certified teaching personnel, and five administrative employees who provide services to five hundred and seventy-nine students and other community members. The School District currently operates an elementary/middle/high school.

**Reporting Entity**

A reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Arcadia Local School District, this includes general operations, food service, and student related activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization’s governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization’s resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves the budget, the issuance of debt, or the levying of taxes, and there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the School District. There are no component units of the Arcadia Local School District.

The School District participates in four jointly governed organizations and two insurance pools. These organizations are the Northwest Ohio Area Computer Services Cooperative, Millstream Career and Technology Center, Hancock County Local Professional Development Committee, Northwestern Ohio Educational Research Council, Inc., Hancock County Schools Health Benefit Fund, and the Ohio School Boards Association Workers’ Compensation Group Rating Plan. These organizations are presented in Notes 19 and 20 to the basic financial statements.

**Note 2 - Summary of Significant Accounting Policies**

The basic financial statements of Arcadia Local School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. Following are the more significant of the School District’s accounting policies.

**Note 2 - Summary of Significant Accounting Policies** (continued)

**A. Basis of Presentation**

The School District's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

**Government-Wide Financial Statements**

The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements usually distinguish between those activities of the School District that are governmental activities (primarily supported by taxes and intergovernmental revenues) and those that are considered business-type activities (primarily supported by fees and charges). However, the School District has no business-type activities.

The statement of net position presents the financial condition of the governmental activities of the School District at fiscal year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants, contributions, and interest that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the School District.

**Fund Financial Statements**

During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

**B. Fund Accounting**

The School District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the School District are reported in two categories, governmental and fiduciary.

**Note 2 - Summary of Significant Accounting Policies** (continued)

**Governmental Funds**

Governmental funds are those through which most governmental functions of the School District are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows of resources is reported as fund balance. The School District's only major governmental fund is the General Fund.

General Fund - The General Fund is used to account for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the School District for any purpose provided it is expended or transferred according to the general laws of Ohio.

The other governmental funds of the School District account for grants and other resources whose use is restricted, committed, or assigned for a particular purpose.

**Fiduciary Funds**

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are not available to support the School District's own programs. The School District did not have any trust funds in fiscal year 2014. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The School District's agency funds account for various non-instructional staff-related and student-managed activities.

**C. Measurement Focus**

**Government-Wide Financial Statements**

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the School District are included on the statement of net position. The statement of activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net position.

**Fund Financial Statements**

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

**Note 2 - Summary of Significant Accounting Policies** (continued)

**D. Basis of Accounting**

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting and the agency funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, recording of deferred inflows of resources, and in the presentation of expenses versus expenditures.

**Revenues - Exchange and Nonexchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the fiscal year in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the fiscal year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year end: property taxes available as an advance, income taxes, grants, interest, tuition, student fees, and charges for services.

**Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position may report deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until that time. The School District did not report any deferred outflows of resources for fiscal year 2014.

**Note 2 - Summary of Significant Accounting Policies** (continued)

In addition to liabilities, the statement of financial position may report deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the School District, deferred inflows of resources consists of property taxes and unavailable revenue. Property taxes represent amounts for which there was an enforceable legal claim as of June 30, 2014, but which were levied to finance fiscal year 2015 operations. This amount has been recorded as deferred inflows of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental fund balance sheet and represents receivables which will not be collected within the available period. For the School District, unavailable revenue includes income taxes, delinquent property taxes, and other sources. These amounts are deferred and recognized as inflows of resources in the period when the amounts become available.

Expenses/Expenditures

On the accrual basis, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

**E. Budgetary Process**

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the alternative tax budget, the certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The alternative tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the Board of Education may appropriate. The appropriations resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the Board. The legal level of budgetary control is at the function level for the General Fund and fund level for all other funds. Budgetary allocations at the object level in the General Fund and at the function and object level within all other funds are made by the School District Treasurer.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in revenue are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the final amended certificate of estimated resources requested by the School District prior to fiscal year end.

**Note 2 - Summary of Significant Accounting Policies** (continued)

The appropriations resolution is subject to amendment throughout the fiscal year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriations resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the fiscal year.

**F. Cash and Investments**

To improve cash management, cash received by the School District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through School District records. Interest in the pool is presented as “Equity in Pooled Cash and Cash Equivalents”.

During fiscal year 2014, investments were limited to STAR Ohio. STAR Ohio is an investment pool, managed by the State Treasurer’s Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio’s net asset value per share, which is the price the investment could be sold for on June 30, 2014.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Interest revenue credited to the General Fund during fiscal year 2014 was \$8,340, which includes \$886 assigned from other School District funds.

Investments of the School District’s cash management pool and investments with an original maturity of three months or less at the time they are purchased by the School District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

**G. Inventory**

Inventory is presented at cost on a first-in, first-out basis and is expensed/expensed when used. Inventory consists of administrative supplies, custodial supplies, donated and purchased food, and workbooks.

**H. Restricted Assets**

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, laws of other governments, or imposed by law through constitutional provisions. Restricted assets in the General Fund consists of unexpended revenues restricted for the purchase of school buses.

**I. Capital Assets**

All of the School District’s capital assets are general capital assets generally resulting from expenditures in governmental funds. These assets are reported in the governmental activities column on the government-wide statement of net position but are not reported on the fund financial statements.

**Note 2 - Summary of Significant Accounting Policies** (continued)

All capital assets are capitalized at cost and updated for additions and reductions during the fiscal year. Donated capital assets are recorded at their fair market value on the date donated. The School District maintains a capitalization threshold of one thousand dollars. Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All capital assets, except land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

Description	Useful Lives
Land Improvements	20 - 100 years
Buildings and Building Improvements	25 - 100 years
Furniture, Fixtures, and Equipment	5 - 60 years
Vehicles	15 - 30 years

**J. Interfund Assets/Liabilities**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Interfund Receivables/Payables". Interfund balances within governmental activities are eliminated on the statement of net position.

**K. Compensated Absences**

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable the School District will compensate the employees for the benefits through paid time off or some other means. The School District records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the School District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the School District's termination policy. The School District records a liability for accumulated unused sick leave for all employees after ten years of service.

The entire compensated absences liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employees who have accumulated unpaid leave are paid.

**Note 2 - Summary of Significant Accounting Policies** (continued)

**L. Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current fiscal year.

**M. Net Position**

Net position represents the difference between all other elements on the statement of financial position. Net investment in capital assets consists of capital assets net of accumulated depreciation. Net position is reported as restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes includes resources restricted for food service operations, music and athletic programs, and federal and state grants.

The School District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

**N. Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds. The classifications are as follows:

Nonspendable - The nonspendable classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The "not in spendable form" includes items that are not expected to be converted to cash.

Restricted - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or are imposed by law through constitutional provisions.

Committed - The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. The committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

**Note 2 - Summary of Significant Accounting Policies** (continued)

Assigned - Amounts in the assigned classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. Assigned amounts represent intended uses established by the Board of Education. The Board of Education has authorized the Treasurer to assign fund balance for purchases on order provided those amounts have been lawfully appropriated.

Unassigned - Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The School District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

**O. Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Note 3 - Accountability**

At June 30, 2014, the Athletic and Music and REAP Grant special revenue funds had a deficit fund balance, in the amount of \$2,746 and \$770, respectfully, resulting from adjustments for accrued liabilities. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

**Note 4 - Budgetary Basis of Accounting**

While the School District is reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).

---

**Note 4 - Budgetary Basis of Accounting** (continued)

2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as restricted, committed, or assigned fund balance (GAAP basis).

The adjustments necessary to reconcile the GAAP and budgetary basis statements for the General Fund are as follows:

Changes in Fund Balance

GAAP Basis	\$584,992
<u>Increase (Decrease) Due To:</u>	
Revenue Accruals:	
Accrued FY 2013, Received in Cash FY 2014	560,450
Accrued FY 2014, Not Yet Received in Cash	(602,037)
Expenditure Accruals:	
Accrued FY 2013, Paid in Cash FY 2014	(565,405)
Accrued FY 2014, Not Yet Paid in Cash	654,548
Materials and Supplies Inventory	3,884
Encumbrances Outstanding at Fiscal Year End (Budget Basis)	(172,449)
Budget Basis	\$463,983

**Note 5 - Deposits and Investments**

Monies held by the School District are classified by State statute into three categories.

Active monies are public monies determined to be necessary to meet current demands upon the School District treasury. Active monies must be maintained either as cash in the School District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

**Note 5 - Deposits and Investments** (continued)

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

Interim monies held by the School District may be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio or Ohio local governments;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio); and
8. Bankers' acceptances and commercial paper if training requirements have been met.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the School District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions.

**Deposits**

Custodial credit risk for deposits is the risk that in the event of bank failure, the School District will not be able to recover deposits or collateral securities that are in the possession of an outside party. At fiscal year end, \$4,275,697 of the School District's bank balance of \$5,026,923 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all State statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the School District to a successful claim by the FDIC.

Arcadia Local School District  
Notes to the Basic Financial Statements  
For the Fiscal Year Ended June 30, 2014

---

**Note 5 - Deposits and Investments** (continued)

The School District has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the School District or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public monies deposited in the financial institution whose market value at all times shall be at least 105 percent of the deposits being secured.

**Investments**

As of June 30, 2014, the fair value of funds on deposit with STAR Ohio was \$14,037. The School District's investment in STAR Ohio had an average maturity of 51.4 days. STAR Ohio carries a rating of AAA by Standards and Poor's. The School District has no policy regarding interest rate or credit risk beyond the requirements of State statute. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

**Note 6 - Receivables**

Receivables at June 30, 2014, consisted of accounts (student fees and billings for user charged services), accrued interest, intergovernmental, interfund, income taxes, and property taxes. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables, except income taxes and property taxes, are expected to be collected within one year. Income taxes and property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

A summary of the principal items of intergovernmental receivables follows:

	<u>Amount</u>
General Fund	
State of Ohio	\$1,176
Other Governmental Funds	
Food Service	12,471
IDEA Part-B	13,643
Title I	4,332

**Note 7 - Income Taxes**

The School District levies a voted tax of 1 percent for general operations on the income of residents and of estates. The tax was effective on January 1, 2005, for ten years. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the School District after withholding amounts for administrative fees and estimated refunds. Income tax revenue is credited to the General Fund.

**Note 8 - Property Taxes**

Property taxes are levied and assessed on a calendar year basis, while the School District's fiscal year runs from July through June. First-half tax distributions are received by the School District in the second half of the fiscal year. Second-half tax distributions are received in the first half of the following fiscal year.

Property taxes include amounts levied against all real and public utility property located in the School District. Real property tax revenues received in calendar year 2014 represent the collection of calendar year 2013 taxes. Real property taxes received in calendar year 2014 were levied after April 1, 2013, on the assessed values as of January 1, 2013, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in calendar year 2014 represent the collection of calendar year 2013 taxes. Public utility real and tangible personal property taxes received in calendar year 2014 became a lien on December 31, 2012, were levied after April 1, 2013, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

The School District receives property taxes from Hancock and Seneca Counties. The County Auditors periodically advance to the School District its portion of the taxes collected. Second-half real property tax payments collected by the counties by June 30, 2014, are available to finance fiscal year 2014 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable represents real and public utility property taxes which were measurable as of June 30, 2014, and for which there was an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 were levied to finance current fiscal year operations and are reflected as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows of resources - property taxes.

The amount available as an advance at June 30, 2014, was \$295,226 in the General Fund. The amount available as an advance at June 30, 2013, was \$243,574 in the General Fund.

Collectible delinquent property taxes have been recorded as a receivable and revenue on an accrual basis. On a modified accrual basis, the revenue has been recorded as deferred inflows of resources - unavailable revenue.

**Note 10 - Interfund Assets/Liabilities**

At June 30, 2014, the General Fund had an interfund receivable, in the amount of \$26,788, from other governmental funds to alleviate deficit cash balances. Amounts are expected to be repaid within one year.

**Note 11 - Risk Management**

The School District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2014, the School District contracted for the following insurance coverage:

Coverage provided by Liberty Mutual Insurance is as follows:

Building and Contents	\$17,163,717
General School District Liability	
Per Occurrence	1,000,000
Aggregate	2,000,000
Automobile Liability	1,000,000
Umbrella Liability	4,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

**Note 11 - Risk Management** (continued)

The School District participates in the Hancock County Schools Health Benefit Fund (Fund), a public entity shared risk pool consisting of seven local school districts, the Hancock County Educational Service Center, and the Blanchard Valley Board of Developmental Disabilities. The School District pays monthly premiums to the Fund for employee medical, dental, and life insurance benefits. The Fund is responsible for the management and operations of the program. Upon withdrawal from the Fund, a participant is responsible for the payment of all Fund liabilities to its employees, dependents, and designated beneficiaries accruing as a result of withdrawal.

For fiscal year 2014, the School District participated in the Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the School District by virtue of its grouping and representation with other participants in the GRP. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in the GRP. Each participant pays its workers' compensation premium to the State based on the rate for the GRP rather than its individual rate. Participation in the GRP is limited to participants that can meet the GRP's selection criteria. The firm of Gates McDonald & Co. provides administrative, cost control, and actuarial services to the GRP.

**Note 12 - Contractual Commitments**

At fiscal year end, the amount of significant encumbrances expected to be honored upon performance by the vendor in fiscal year 2015 are as follows:

General Fund	\$172,449
--------------	-----------

**Note 13 - Defined Benefit Pension Plans**

**A. State Teachers Retirement System**

Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing multiple-employer public employee retirement system. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that can be obtained by writing to the State Teachers Retirement System of Ohio, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at [www.strsoh.org](http://www.strsoh.org).

**Note 13 - Defined Benefit Pension Plans** (continued)

New members have a choice of three retirement plans; a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service or on an allowance based on a member's lifetime contributions and earned interest matched by STRS Ohio funds divided by an actuarially determined annuity factor. The DCP allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal. The CP offers features of both the DBP and the DCP. In the CP, member contributions are invested by the member and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP. The DBP portion of the CP payment is payable to a member on or after age sixty; the DCP portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age fifty. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DBP or CP member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. Members in the DCP who become disabled are entitled only to their account balance. If a member of the DCP dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy - Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the STRS Ohio Board upon the recommendation of its consulting actuary, not to exceed statutory maximum rates of 11 percent for members and 14 percent for employers. The statutory maximum employee contribution rate will be increased 1 percent each year beginning July 1, 2013, until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2014, plan members were required to contribute 11 percent of their annual covered salary. The School District was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations.

The School District's required contribution to STRS Ohio for the DBP and for the defined benefit portion of the CP were \$298,221 and \$6,829 for the fiscal year ended June 30, 2014, \$312,903 and \$6,617 for the fiscal year ended June 30, 2013, and \$300,010 and \$6,270 for the fiscal year ended June 30, 2012. For fiscal year 2013, 83 percent has been contributed for both the DBP and the CP, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2013 and 2012.

The contribution to STRS Ohio for the DCP for fiscal year 2014 was \$1,165 made by the School District and \$916 made by the plan members. In addition, member contributions of \$5,366 were made for fiscal year 2014 for the defined contribution portion of the CP.

**Note 13 - Defined Benefit Pension Plans** (continued)

**B. School Employees Retirement System**

Plan Description - The School District participates in the School Employees Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Chapter 3309 of the Ohio Revised Code. SERS issues a stand-alone financial report that can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under employers/audit resources.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirement of plan members and employers is established and may be amended by the SERS Retirement Board up to a statutory maximum amount of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the system's funds (pension trust fund, death benefit fund, Medicare B fund, and health care fund). For the fiscal year ended June 30, 2014, the allocation to pension and death benefits was 13.1 percent. The remaining .9 percent of the 14 percent employer contribution rate was allocated to the Medicare B and health care funds. The School District's required contribution for pension obligations to SERS for the fiscal years ended June 30, 2014, 2013, and 2012 was \$71,420, \$74,169, and \$78,349, respectively. For fiscal year 2014, 52 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2013 and 2012.

**C. Social Security System**

Effective July 1, 1991, all employees not otherwise covered by the State Teachers Retirement System or the School Employees Retirement System have an option to choose Social Security or the State Teachers Retirement System/School Employees Retirement System. As of June 30, 2014, one of the Board of Education members has elected Social Security. The Board's liability is 6.2 percent of wages paid.

**Note 14 - Postemployment Benefits**

**A. State Teachers Retirement System**

Plan Description - The School District participates in a cost-sharing multiple-employer defined benefit Health Care Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the Defined Benefit or Combined pension plans offered by STRS Ohio. Ohio law authorizes STRS Ohio to offer the Plan. Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare Part B premiums. The Plan is included in STRS Ohio's financial report which can be obtained by calling (888) 227-7877 or by visiting the STRS Ohio Web site at [www.strsoh.org](http://www.strsoh.org).

**Note 14 - Postemployment Benefits** (continued)

Funding Policy - Chapter 3307 of the Ohio Revised Code authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for postemployment health care may be deducted from employer contributions. For fiscal year 2014, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to postemployment health care. The School District's contribution for health care for the fiscal years ended June 30, 2014, 2013, and 2012 was \$23,555, \$24,645, and \$24,122, respectively. For fiscal year 2014, 83 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2013 and 2012. The STRS Board voted to discontinue the current 1 percent allocation to the Health Care Plan effective July 1, 2014.

**B. School Employees Retirement System**

Plan Description - The School District participates in two cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plans administered by the School Employees Retirement System (SERS) for classified retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligation to contribute are established by SERS based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which can be obtained by visiting the SERS website at [www.ohsers.org](http://www.ohsers.org) under employers/audit resources.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each fiscal year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). For fiscal year 2014, .14 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount. For fiscal year 2014, this amount was \$20,250. For fiscal year 2014, the School District paid \$11,770 in surcharge.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility, and retirement status.

The School District's contribution for health care for the fiscal years ended June 30, 2014, 2013, and 2012 was \$763, \$906, and \$3,393, respectively. For fiscal year 2014, 52 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2013 and 2012.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare Part B Fund. For fiscal year 2014, this actuarially required allocation was .76 percent of covered payroll. The School District's contribution for Medicare Part B for the fiscal years ended June 30, 2014, 2013, and 2012 was \$4,143, \$4,190, and \$4,627, respectively. For fiscal year 2014, 52 percent has been contributed, with the balance being reported as an intergovernmental payable. The full amount has been contributed for fiscal years 2013 and 2012.

**Note 15 - Other Employee Benefits**

**A. Compensated Absences**

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements and State laws. Classified employees earn ten to twenty days of vacation per year, depending upon length of service. Accumulated unused vacation time is paid to classified employees and administrators upon termination of employment. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of two hundred days for both classified and certified employees. Upon retirement, payment is made for three-tenths of the accrued but unused sick leave credit to a maximum of sixty days for both classified and certified employees.

**B. Health Care Benefits**

The School District provides medical, dental, and vision insurance to all employees through the Hancock County Schools Health Benefit Fund. The School District offers life insurance to all employees through Fort Dearborn Life Insurance. Depending upon the plan chosen, the employees share the cost of monthly premium with the Board. The premium varies with employee depending on the terms of the union contract.

**Note 16 - Long-Term Obligations**

Changes in the School District’s long-term obligations during fiscal year 2014 were as follows:

	Balance at 6/30/13	Additions	Reductions	Balance at 6/30/14	Amounts Due Within One Year
Governmental Activities					
Compensated Absences Payable	\$394,031	\$0	\$18,482	\$375,549	\$45,947

Compensated absences will be paid from the General Fund and the Food Service special revenue fund.

The School District’s overall debt margin was \$7,747,980 with an unvoted debt margin of \$86,089 at June 30, 2014.

**Note 17 - Set Asides**

The School District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the acquisition and construction of capital improvements. The amount not spent by the end of the fiscal year or offset by similarly restricted resources received during the fiscal year must be held in cash at fiscal year end. This amount must be carried forward and used for the same purpose in future fiscal years.

Current Year Set Aside Requirement	97,953
Qualifying Expenditures	(97,953)
Reserve Balance June 30, 2014	\$0

**Note 18 - Fund Balance**

Fund balance is classified as nonspendable, restricted, committed, assigned, and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds.

**Note 19 - Jointly Governed Organizations**

**A. Northwest Ohio Area Computer Services Cooperative**

The School District is a participant in the Northwest Ohio Area Computer Services Cooperative (NOACSC), which is a computer consortium. NOACSC is an association of public school districts within the boundaries of Allen, Hancock, Mercer, Paulding, Putnam, and Van Wert Counties, and the Cities of St. Marys and Wapakoneta. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member school districts. The governing board of NOACSC consists of two representatives from each county. During fiscal year 2014, the School District paid \$17,526 to NOACSC for various services. Financial information can be obtained from NOACSC, 645 South Main Street, Lima, Ohio 45804.

**B. Millstream Career and Technology Center**

The Millstream Career and Technology Center (Center) is a distinct political subdivision of the State of Ohio established under Section 3313.90 of the Ohio Revised Code. The Center provides vocational instruction to students. The Center operates under the direction of an Advisory Council consisting of the superintendent of each participating school district and one additional representative appointed by the Findlay City School District. The Treasurers from the Hancock and Putnam County Educational Service Centers serve in an ex-officio capacity for all meetings. Financial information can be obtained from the Findlay City School District, 1219 West Main Cross, Suite 101, Findlay, Ohio 45840-3377.

**C. Hancock County Local Professional Development Committee**

The Hancock County Local Professional Development Committee (HCLPDC) was established in 1999 to plan, promote, and facilitate effective and efficient professional educator license renewal standards and staff development activities. The HCLPDC is organized under Ohio laws as a regional council of governments pursuant to a written agreement entered into by its members. The HCLPDC is governed by a thirteen member Executive Board. Financial information can be obtained from the Hancock County Educational Service Center, 7746 County Road 140, Findlay, Ohio 45840.

**D. Northwestern Ohio Educational Research Council, Inc.**

The Northwestern Ohio Educational Research Council, Inc. (NOERC) is a jointly governed organization formed to bring educational entities into a better understanding of their common educational problems, facilitate and conduct practical educational research, coordinate educational research among members, provide a means for evaluating and disseminating the results of research, serve as a repository for research and legislative materials, and provide opportunities for training. The NOERC serves a twenty-five county area in Northwest Ohio. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools, and three institutions of higher education. Each active member is entitled to one vote on all issues addressed by the Board of Directors. Financial information can be obtained from the Northwestern Ohio Educational Research Council, Inc., 441 East Market Street, Celina, Ohio 45822.

**Note 20 - Insurance Pools**

**A. Hancock County Schools Health Benefit Fund**

The Hancock County Schools Health Benefit Fund is a public entity shared risk pool consisting of seven local school districts, the Hancock County Educational Service Center, and the Blanchard Valley Board of Developmental Disabilities. The Plan is a Voluntary Employee Benefit Association under Section 501(c)(9) of the Internal Revenue Code and provides medical, dental, vision, and life insurance benefits to the employees of the participants. Each participants' superintendent is appointed to an Administrative Committee which advises the consultant concerning aspects of the administration of the Plan.

Each participant decides which plans offered by the Administrative Committee will be extended to its employees. Participation in the Fund is by written application subject to acceptance by the Administrative Committee and payment of the monthly premiums. Financial information can be obtained from Neace Lukens, 285 Cozzins Street, Columbus, Ohio 43215.

**B. Ohio School Boards Association Workers' Compensation Group Rating Plan**

The School District participates in a group rating plan for worker's compensation as established under Section 4123.29 of the Ohio Revised Code. The Ohio School Boards Association Workers' Compensation Group Rating Plan (GRP) was established through the Ohio School Boards Association (OSBA) as an insurance purchasing pool.

The GRP's business and affairs are conducted by a three member Board of Directors consisting of the President, the President-Elect, and the Immediate Past President of the OSBA. The Executive Director of the OSBA, or his designee, serves as coordinator of the GRP. Each year, the participants pay an enrollment fee to the GRP to cover the costs of administering the program.

**Note 21 - Contingencies**

**A. Grants**

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the School District at June 30, 2014.

**B. Litigation**

There are currently no matters in litigation with the School District as defendant.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Arcadia Local School District  
Hancock County  
19033 State Route 12  
Arcadia, Ohio 44804

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the Arcadia Local School District, Hancock County, (the District) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated January 14, 2016.

***Internal Control Over Financial Reporting***

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

***Compliance and Other Matters***

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain matters not requiring inclusion in this report that we reported to the District's management in a separate letter dated January 14, 2016.

***Purpose of this Report***

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
