INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

City of Akron Summit County 166 South High Street Akron, Ohio 44308

To the City Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Akron, Summit County, Ohio (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated August 12, 2016, wherein we noted the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 and also GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

City of Akron Summit County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by Government Auditing Standards Page 2

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dave Yost Auditor of State Columbus, Ohio

August 12, 2016

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

City of Akron Summit County 166 South High Street Akron, Ohio 44308

To the City Council:

Report on Compliance for Each Major Federal Program

We have audited the City of Akron's, Summit County, Ohio (the City) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect each of the City of Akron's major federal programs for the year ended December 31, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the City's major federal programs.

Management's Responsibility

The City's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the City's compliance for each of the City's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the City's major programs. However, our audit does not provide a legal determination of the City's compliance.

City of Akron Summit County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Programs and on Internal Control Over Compliance Required by the Uniform Guidance Page 2

Basis for Qualified Opinion on the Capitalization Grants for Clean Water State Revolving Funds, Assistance to Firefighters Grant, Highway Planning and Construction Grant and Community Development Block Grant

As described in Findings 2015-001 and 2015-002 in the accompanying schedule of findings, the City did not comply with requirements regarding the following:

Finding #	CFDA#	Program (or Cluster) Name	Compliance Requirement
2015-001	66.458	Capitalization Grants for Clean Water State Revolving Funds	Procurement, Suspension and Debarment
2015-001	97.044	Assistance to Firefighters Grant	Procurement, Suspension and Debarment
2015-001	20.205	Highway Planning and Construction Cluster	Procurement, Suspension and Debarment
2015-001	14.218	Community Development Block Grant	Procurement, Suspension and Debarment
2015-002	14.218	Community Development Block Grant	Reporting

Compliance with these requirements is necessary, in our opinion, for the City to comply with the requirements applicable to these programs.

Qualified Opinion on the Capitalization Grants for Clean Water State Revolving Funds, Assistance to Firefighters Grant, Highway Planning and Construction Cluster and Community Development Block Grant

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion on the Capitalization Grants for Clean Water State Revolving Funds, Assistance to Firefighters Grant, Highway Planning and Construction Grant and Community Development Block Grant paragraph, the City of Akron complied, in all material respects, with the requirements referred to above that could directly and materially affect its Capitalization Grants for Clean Water State Revolving Funds, Assistance to Firefighters Grant, Highway Planning and Construction Cluster and Community Development Block Grant for the year ended December 31, 2015.

Unmodified Opinion on the Other Major Federal Program

In our opinion, City of Akron, Summit County, Ohio complied in all material respects with the requirements referred to above that could directly and materially affect its other major federal program identified in the *Summary of Auditor's Results* section of the accompanying schedule of findings for the year ended December 31, 2015.

City of Akron Summit County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Programs and on Internal Control Over Compliance Required by the Uniform Guidance Page 3

Report on Internal Control Over Compliance

The City's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program's compliance requirement will not be prevented, or timely detected or corrected. A significant deficiency in internal over compliance is a deficiency or a combination of deficiencies in internal control over compliance with a federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Therefore, we cannot assure we have identified all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. However, we identified certain deficiencies in internal control over compliance that we consider to be material weaknesses, described in the accompanying schedule of findings as items 2015-001 and 2015-002.

The City's responses to our internal control over compliance findings are described in the accompanying schedule of findings and / or corrective action plan. We did not audit the City's responses and, accordingly, we express no opinion on them.

This report only describes the scope of our tests of internal control over compliance and the results of this testing based on the Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.

Report on Supplemental Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have also audited the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Akron (the City) as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our unmodified report thereon dated August 12, 2016. Our opinion also explained that the City adopted *Governmental Accounting Statements No. 68 and 71* during the year. We conducted our audit to opine on the City's' basic financial statements as a whole. We have not performed any procedures to the audited financial statements subsequent to August 12, 2016. The accompanying supplemental schedule of expenditures of federal awards presents additional analysis required by the Uniform Guidance and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements.

City of Akron Summit County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Programs and on Internal Control Over Compliance Required by the Uniform Guidance Page 4

We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Dave Yost Auditor of State Columbus, Ohio

CITY OF AKRON, OHIO SUMMIT COUNTY

NOTES TO THE SUPPLEMENTAL SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS 2 CFR 200.510(b)(6) YEAR ENDED DECEMBER 31, 2015

1. BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the City of Akron, Ohio, (the City's) under programs of the federal government for the year ended December 31, 2015. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the City, it is not intended to and does not present the financial position, changes in assets, or cash flows of the City.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting, except expenditures passed through the Ohio Department of Transportation and the Ohio Environmental Protection Agency loans which are presented on an accrual basis. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principals, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The City has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

3. SUBRECIPIENTS

Of the federal expenditures presented in this schedule, the City of Akron, Ohio, passes certain federal awards to other governments or not-for-profit agencies (subrecipients) as follows:

Program Title	Federal CFDA No.	Passed to Subrecipients
CDBG – Entitlement and (HUD Administered) Small Cities Cluster – Community Development Block Grant/Entitlement Grants	14.218	\$ 953,705
Neighborhood Stabilization Program – Federal Direct	14.218	353,200
Neighborhood Stabilization Program – Pass through	14.218	40,000
Emergency Shelter Grants Program	14.231	204,304
HOME Investment Partnership Program	14.239	955,942
Continuum of Care Program	14.267	7,500
Lead Hazard Reduction Demonstration Grant Program	14.905	90,581
Edward Byrne Memorial Formula Grant Program	16.738	18,125
Temporary Assistance for Needy Families	93.558	203,432

As Note 2 describes, the City reports expenditures of Federal awards to subrecipients when paid in cash. As a subrecipient, the City has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals.

City of Akron Summit County Notes to the Supplemental Schedule of Expenditures of Federal Awards Page 2

4. LOAN PROGRAMS WITH CONTINUING COMPLIANCE REQUIREMENTS

The federal loan programs listed subsequently are administered directly by the City, and balances and transactions relating to these programs are included in the City's basic financial statements. Loans made during the year are included in the federal expenditures presented in the Schedule. The City of Akron, Ohio, had the following loan balances outstanding at December 31, 2015, which had continuing compliance requirements.

Program Title	Federal CFDA No.	Balance Outstanding
Community Development Block Grants/Entitlement Grants	14.218	\$ 349,123
Empowerment Zone Program	14.244	304,242
HOME Investment Partnership Program	14.239	3,802,877

5. MATCHING REQUIREMENTS

Certain federal programs require the City to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The City has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

THIS PAGE INTENTIONALLY LEFT BLANK.

NONCOMPLIANCE AND MATERIAL WEAKNESS

2 C.F.R. Part 180.220 states that Non-Federal entities are prohibited from contracting with or making subawards under covered transactions to parties that are suspended or debarred or whose principals are suspended or debarred. "Covered transactions" include those procurement contracts for goods and services awarded under a non-procurement transaction (e.g., grant or cooperative agreement) that are expected to equal or exceed \$25,000 or meet certain other criteria as specified in 2 C.F.R. section 180.220. All non-procurement transactions entered into by a recipient (i.e., subawards to subrecipients), irrespective of award amount, are considered covered transactions, unless they are exempt as provide in 2 C.F.R. section 180.215.

When a non-federal entity enters into a covered transaction with an entity at a lower tier, the non-federal entity must verify that the entity and its principals, as defined in 2 C.F.R. section 180.995 and agency adopting regulations, are not suspended or debarred or otherwise excluded from participating in the transaction. This verification may be accomplished by (1) checking the Excluded Parties List System (EPLS) maintained by the General Services Administration (GSA) on the System for Award Management (SAM) at https://www.sam.gov/portal/public/SAM/#1, (2) collecting a certification from the entity, or (3) adding a clause or condition to the covered transaction with that entity (2 C.F.R. section 180.300).

Capitalization Grants for Clean Water State Revolving Funds (CFDA #66.458): The City performed procedures to ensure that parties are not excluded, suspended or debarred when entering contracts, however, these procedures were not performed for two of the seven contracts tested. We subsequently performed EPLS searches on the SAM website for engineering consultants and other governments and not for profits selected and noted none of the parties were listed at the time of our review as excluded, suspended or debarred.

Assistance to Firefighters Grant (CFDA #97.044): The City did not perform EPLS searches on program vendors. We subsequently performed EPLS searches on the SAM website for selected vendors and noted none of the parties were listed at the time of our review as excluded, suspended or debarred.

Highway Planning and Construction Cluster (CFDA #20.205): The City performed procedures to ensure that parties are not excluded, suspended or debarred when entering contracts, however, these procedures were not performed for six of the eight contracts tested. We subsequently performed EPLS searches on the SAM website for engineering consultants and construction contractors selected and noted none of the parties were listed at the time of our review as excluded, suspended or debarred.

Community Development Block Grant (CFDA #14.218): The City performed procedures to ensure that parties are not excluded, suspended or debarred when entering contracts, however, these procedures were not performed for six of the six contracts tested. We subsequently performed EPLS searches on the SAM website for engineering consultants and construction contractors selected and noted none of the parties were listed at the time of our review as excluded, suspended or debarred.

To help ensure compliance with Federal suspension and debarment requirements, the City should perform procedures for all subrecipients and vendors paid with Federal funds to help ensure the parties are not excluded, suspended or debarred. The City should maintain a copy of the search results when they perform a review of the System for Award Management (SAM) at https://www.sam.gov/portal/public/SAM/#1 of vendors and subrecipients receiving greater than \$25,000 from the Clean Water Revolving Fund Grant, Assistance to Firefighters Grant, Community Development Block Grant and the Highway Planning and Construction Cluster, ensuring the vendors and subrecipients are not suspended or debarred or otherwise excluded.

Official's Response: See corrective action plan.

2. Federal Financial Report (SF-425)

Finding Number	2015-002				
CFDA Title and Number	Community Development Block Grant – CFDA # 14.218				
Federal Award Identification Number / Year	2015				
Federal Agency	Department of Housing and Urban Development				
Pass-Through Entity	n/a				
Repeat Finding from Prior Audit?	No	Finding Number? (if repeat)			

NONCOMPLIANCE AND MATERIAL WEAKNESS

2 CFR 200.327 requires the City to submit a Federal Financial Report (SF-425) to the United States Department of Housing and Urban Development within 30 days after the end of each quarter to report Community Development Block Grant expenditures.

We noted three of the four quarterly Community Development Block Grant Federal Financial Reports (SF-425) were submitted outside of the required 30 day window as follows:

<u>Quarter</u>	<u>Due</u>	<u>Submitted</u>
Quarter 1	04/30/15	04/10/15
Quarter 2	07/31/15	08/17/15
Quarter 3	10/31/15	09/23/16
Quarter 4	01/31/16	09/23/16

The City was not aware of the requirement to submit quarterly reports within 30 days.

The City should implement procedures to submit Federal Financial Reports (SF-425) within 30 days after the end of each quarter as required by the United States Department of Housing and Urban Development.

Official's Response: See corrective action plan.

CITY OF AKRON SUMMIT COUNTY

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS 2 CFR 200.511(b) DECEMBER 31, 2015

Finding Number	Finding Summary	Status	Additional Information
2014-001	Financial Statement Adjustments Numerous financial statement adjustments were required to accurately report debt related activity and balances as well as capital assets and assets held for resale.	Partially Corrected	Finding is repeated for 2015 as Management Letter recommendation.
2014-002	Procurement, Suspension & Debarment Procedures were not performed to verify that grant subrecipients and vendors were not excluded, suspended or debarred prior to entering into applicable contracts.	Finding Not Corrected	Finding is repeated for 2015 as finding 2015-001
2014-003	Equipment & Real Property Management Required physical inventories of equipment purchased with federal monies were not performed.	Corrective Action Taken and Finding is Fully Corrected	

THIS PAGE INTENTIONALLY LEFT BLANK.

CORRECTIVE ACTION PLAN YEAR ENDED DECEMBER 31, 2015

Finding 2015-001:

- A. Name of Contact Person: Diane L. Miller-Dawson, Director of Finance
- B. Corrective Action Plan:
 - The Department of Finance has worked with City divisions during 2015 to ensure they are aware of the importance of verifying and documenting that vendors are not listed on the Excluding Parties List System. The City's implementation was not initiated until mid-year; therefore, expenditures occurred earlier in the calendar year. Additionally, the City is hiring a Grants Manager to oversee the various grants.
- C. Proposed Completion Date:
 - 1. This will be resolved by October 31, 2016.

Finding 2015-002:

- A. Name of Contact Person: Diane L. Miller-Dawson, Director of Finance
- B. Corrective Action Plan:
 - 1. The Department of Finance is confident the Planning Department's staff can meet the reporting deadlines. There was a reallocation of duties during 2015 that contributed to the reporting delays. Additionally, the City is hiring a Grants Manager to oversee the various grants.
- C. Proposed Completion Date:
 - 1. This will be resolved by October 31, 2016.

DEPARTMENT OF FINANCE

502 Municipal Building / 166 South High Street / Akron, Ohio 44308 PH: (330) 375-2316 FAX: (330) 375-2291

August 12, 2016

The Honorable Daniel Horrigan and Members of City Council The City of Akron, Ohio

Dear Mayor Horrigan and Council Members:

I am pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Akron for the year ended December 31, 2015. This report presents financial and operating information about the City's activities during 2015 that should be useful to citizens and taxpayers. The report, prepared by the Department of Finance, contains a comprehensive analysis of the City's financial position and activities for the year.

Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City of Akron. To the best of our knowledge and belief, the enclosed data is accurate in all material respects; it is presented in a manner designed to fairly set forth the financial position and results of operations of the City as measured by the financial activity of our various funds; and all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial activities have been included.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that has been established for this purpose. The cost of internal control should not exceed anticipated benefits; therefore, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The Audit and Budget Division prepared all of the financial statements and assisted the external independent auditors in their performance of the annual audit. The Treasurer's Office assisted in drafting the statistical section.

Generally accepted accounting principles (GAAP) require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to

complement the MD&A and should be read in conjunction with it. The City of Akron's MD&A can be found immediately following the Independent Auditor's Report.

As background for the reader of this report, the City of Akron is a charter city. The City is the fifth largest Ohio municipality in terms of population based on the 2010 Census population of 199,110. The City's land area is approximately 62 square miles and is located in the northeastern region of the state in the County of Summit.

The City is directed by a mayor and council form of government. Legislative authority is vested in a 13-member Council, three members of which are elected at-large and ten by wards. The Council determines the compensation of City officials and employees and enacts ordinances and resolutions relating to City services, tax levies, appropriation and borrowing of money, licensing and regulating businesses and trades, and other municipal purposes.

The Mayor is elected for a four-year term and has the responsibility as the City's chief executive and administrative officer. The Mayor may veto any legislation passed by Council. A veto may be overridden by a two-thirds vote of all members of Council. The Director of Finance is appointed by the Mayor and serves as the City's chief financial officer and chief accounting officer. The Director of Finance has comprehensive responsibility for the City's fiscal activities, including budget preparation and control, employee benefits, payroll and general accounting, investment and debt management, purchasing, local income tax administration, utility revenue collection, information processing, and financial reporting.

The City provides the full range of municipal services mandated by statute or charter, including police and fire protection, health, parks, recreation, street maintenance, planning, zoning, and other general government services. The City has management control of the following enterprise activities: water, sewer, oil and gas development, golf course, airport, and off-street parking.

Economic Conditions and Outlook

Major revenue sources for the City continue to be the City's income tax, property taxes, local fees, charges for services, and state-shared local government revenue. The City's cash income tax collections increased by approximately 1.26% in 2015. On a cash basis for 2015, property taxes in the general fund decreased by 1% and the state's local government revenue to the City increased by approximately 5.7%. Income tax receipts from the 12 largest economic sectors in the City have increased by 7.5% since 2011 and, combined, account for over 68% of total tax collections. Receipts from the 12 fastest growing economic sectors have increased by 27%. No one sector makes up more than 17% of the total collected.

Despite economic concerns in 2015, the City of Akron remains in a stable financial state. Efforts to reduce expenses and operate more efficiently have allowed the City to function at a continuously high service level at lower costs. These efforts ensure the City will be in strong position for growth as the economy continues to rebound. The revenue collected from the four Joint Economic Development Districts (JEDDs) is an additional funding source to encourage and promote economic development and to secure a solid tax base.

Long-term Financial Policies

Unassigned fund balance in the general fund is 5.9% of the general fund expenditures. The general fund of the City does not have a specified unassigned fund balance target. The recommended level of unassigned fund balance will be determined as needed and as recommended by officials and approved by Council when necessary.

The City completes a five-year capital budget that is updated annually. In this document, the City attempts to forecast its capital requirements for the next five years.

Relevant Financial Policies

The City has a charter requirement that the 2% income tax (the City's largest revenue source) used specifically for City services, be allocated so that 73% of net revenue is used for operations and the balance is used for capital needs.

Major Initiatives

Defining the major initiatives for the City of Akron can be summed up into three parts: creating and retaining jobs, energizing our neighborhoods and security and alliance with other governmental entities.

In 2015, the Akron Global Business Accelerator, an initiative of the City of Akron, started its newest program, The Bit Factory. The Bit Factory is a six-month program that works with software entrepreneurs to bring their new applications to market through customized programs, milestone development and mentoring. The clients work in a custom-fabricated space which encourages collaboration and innovation. The program received initial funding from the Burton D. Morgan Foundation for \$150,000 and was awarded an additional \$250,000 by the Ohio Third Frontier. Companies in the program include Plumpom and InCheck Services.

Also in 2015, the City of Akron and the Akron Community Foundation collaborated to give \$214,680 in grants to help local residents improve their community through the Neighborhood Partnership Program. These grants will go to 54 projects throughout Greater Akron ranging from community picnics and festivals to anti-crime initiatives and beautification projects. The funding targets neighborhoods from North Hill and Kenmore to University Park.

The City of Akron was instrumental in helping existing companies throughout the City create and retain jobs and opportunities. Akron Paint & Varnish and Main Street Gourmet entered into agreements to expand their facilities, with Akron Paint & Varnish beginning to construct a 20,000 square foot addition to its building. Vadexx opened a new 18,000 square foot facility in the Akron Square Industrial Park, creating 15 new jobs. Involta, a data storage company employing 100 people in the City, expanded by acquiring Data Recovery Systems, LLC based in Youngstown. Lastly, AAA purchased land and broke ground on a new 12,000 square foot facility on South Rosa Parks Drive, retaining 45 jobs in Akron.

The City also continued to attract businesses from outside of Akron. Whole Foods entered into an agreement for the development of a new grocery store in the Wallhaven neighborhood of the City. Berran Industrial Group, an engineering, design and manufacturing company for packaging equipment, relocated 29 jobs to Akron. Timocco, a computer software developer that creates games and learning programs for children with special needs, opened its US headquarters in Akron. Lastly, Hartville Pet Insurance brought over 100 employees and \$4 million payroll to Akron, moving into a 26,000 square foot space on the Lockheed Martin campus.

The City took its biggest step in its Akron Waterways Renewed! Initiative in 2015, breaking ground on the Ohio Canal Interceptor Tunnel. The initiative is the City's plan to remediate combined sewer overflows that occur in times of heavy water weather events. The Ohio Canal Interceptor Tunnel is the largest component of the program, beginning at the Little Cuyahoga River north of the Mustill Store on the Ohio & Erie Canal Towpath and extending to Lock 1 of the canal at West Exchange Street in Downtown Akron. It will have a diameter of 27 feet and be 6,240 feet long, controlling overflows at nine separate locations and storing over 25 million gallons of overflows. After a city-wide contest, the Tunnel Boring Machine to be used for the project was nicknamed "Rosie", after Rose May Jacob and the hundreds of other "Rosies" that worked at Akron's rubber factories during WWII.

The City also hosted events throughout the year to help connect citizens with their neighborhoods, including the Open Streets event and the Better Block event. For Open Streets, the City closed a 2.8 mile route on Main Street, encouraging residents to explore the area in fun, safe, and healthy ways like biking and jogging. The Better Block event was a temporary takeover of a block in the North Hill neighborhood, designed to give a physical form to the best visions and hopes for the area. The event included pop-up restaurants and stores, a farmers' market, local art and more, showing residents what can be accomplished in their community.

The City implemented a new software program in its 311 Call Center called CITYWORKS, replacing its 11 year old customer service system. The web-based software allows City staff to capture service requests for concerns ranging from pothole repairs and animal issues to reporting junk vehicles and requesting sanitation services. Also, CITYWORKS allows citizens to reach the 311 Call Center from their mobile phones instead of only their landline service. Plans are also being developed to implement a mobile website to use in conjunction with CITYWORKS.

The City received a grant from the U.S. Department of Justice for the Akron Police Department to fund the purchase of and deploy approximately 245 body-worn cameras for Akron police officers over the next two years. The City aims to educate and engage the public on policing issues, while collaborating with community partners to formalize a policy on the use of body-worn cameras. Akron has already partnered with Kent State University in studies to test the impact of the cameras on police complaints and crime statistics.

These are just a few of the initiatives that, when taken together, contribute to the strength and diversity of the City's economy.

Reporting Standards

The City's accounts are organized as funds. Each fund is a separate accounting entity with its own self-balancing set of accounts, assets and deferred outflows of resources, liabilities and deferred inflows of resources, and fund balance/equity. Following are the titles of these fund types with a brief description.

Governmental funds:

General Fund – The General Fund is the general operating fund of the City and is appropriated. It is used to account for all financial resources traditionally associated with government that are not required to be accounted for in another fund.

Special Revenue Funds – The Special Revenue Funds are used to account for revenues derived from specific taxes, grants, or other restricted revenue sources. City ordinances or federal or state statutes specify the uses and limitations of each Special Revenue Fund. During 2015, the City had 22 Special Revenue Funds.

Debt Service Funds – The Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. During 2015, the City had ten Debt Service Funds.

Capital Projects Funds – The Capital Projects Funds are used to account for financial resources used for the acquisition or construction of major capital facilities other than those financed by proprietary funds. During 2015, the City had six Capital Projects Funds.

Permanent Funds – The Permanent Funds are used for the purpose of accounting for resources that are legally restricted to the extent that earnings, and not principal, may be used for purposes that support the reporting governments. The City does not have any Permanent Funds.

Proprietary funds:

Enterprise Funds – The Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises, in that the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The City has six Enterprise Funds.

Internal Service Funds – The Internal Service Funds are used to account for the financing of goods or services provided by one division or agency to other divisions or agencies of the government, generally on a cost-reimbursement basis. The City has seven Internal Service Funds.

Fiduciary funds:

Private Purpose Trust Funds – The Private Purpose Trust Funds are used to account for other trust arrangements which benefit individuals, private organizations, or other governments. During 2015, the City had three Private Purpose Trust Funds.

Agency Funds – The Agency Funds are used to account for assets held by the City as an agent for individuals, private organizations, and other governments. During 2015, the City had three Agency Funds.

Other Fiduciary Funds – The Other Fiduciary Funds include pension trust funds and investment trust funds. The City does not utilize any such Other Fiduciary Funds.

Basis of Accounting:

Except for budgetary purposes, the basis of accounting used by the City conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units and is consistent with Governmental Accounting Standards Board (GASB) Cod. Sec. 1600, "Basis of Accounting." All governmental funds are accounted for using a current financial resources-current assets and current liabilities measurement focus. The modified accrual basis of accounting is utilized for governmental funds. Revenues are recognized when they are susceptible to accrual (both measurable and available). Expenditures are recognized when the related liability is incurred, except for interest on long-term debt which is recorded when due.

The measurement focus on the City's proprietary and fiduciary funds is on the flow of total economic resources (all assets and liabilities). The accrual basis of accounting (revenues are recognized when earned and expenses when incurred) is utilized by the City in its proprietary funds.

The City's basis of accounting for budgetary purposes differs from GAAP in that revenues are recognized when received rather than when susceptible to accrual (measurable and available), and encumbrances are included as expenditures rather than as an allocation of fund balances.

Accounting policies are further explained in Note 1 to the basic financial statements.

Cash Management

Effective cash management is recognized as essential to good fiscal management. The primary objectives of the City's investment activities are the preservation of capital and the protection of investment principal. The Treasurer's Office within the Department of Finance invests all cash, following the City's own investment ordinance, in various securities which consist of fixed-rate City bonds and notes, certificates of deposit, fully collateralized repurchase agreements, and U.S. government obligations. The City's investment ordinance was modified in late 1986 to take advantage of State of Ohio investment opportunities. However, the local investment policy

continues to be conservative with the highest priority given to safeguarding assets. For 2015, investment interest income averaged a yield of 0.30% compared to a yield of 0.24% in 2014. The interest earnings are maximized by investing to projected payment dates on a competitive bid basis and by investing bank balances daily.

Risk Management

The City has been self-insured for liability coverage for non-auto-related incidents since 1985. This program was established in response to the dramatic rise in premiums in the mid-1980's and the increases in exclusions written into standard insurance policies. Additionally, the City is primarily self-insured for employee medical benefits, including major medical, dental, and vision care. This has proven to be the most cost-effective program for this type of coverage. The City also has in place reserve funds for workers' compensation and medical benefits. For other types of coverage, such as property insurance, airport liability, employee life, auto liability, and boiler and machinery coverage, the City has secured traditional insurance. The City is assisted in its insurance program by an independent consulting firm that does not underwrite insurance but has expertise in the insurance industry. The City relies on the advice offered by the consultant in securing any insurance.

Pension

The City contributes to two state-administered retirement plans covering various groups of City employees. Uniform police and fire employees participate in the statewide Ohio Police and Fire Pension Fund. Substantially, all other City employees participate in the statewide Ohio Public Employees Retirement System (OPERS). The City's total contributions to these plans were equal to 100% of the required employer contributions for the year. In accordance with GASB Statement No. 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

Independent Annual Audit

We appreciate the cooperation of State Auditor Dave Yost and his staff in completing the City's audit in a timely and highly professional manner.

Certificate of Achievement for Excellence in Financial Reporting

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Akron, Ohio, for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2014. The Certificate of Achievement is a prestigious national award, recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such a CAFR must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. The City of Akron, Ohio, has received Certificates of Achievement for the last 31 consecutive years (1984 through 2014). We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

Acknowledgments

The 2015 Comprehensive Annual Financial Report could not have been accomplished without the dedication of the professionals in the Audit and Budget Division of the Department of Finance. Special acknowledgment must go to the Audit and Budget staff for the many hours of quality service they have provided to the City in the formulation of this report. I further wish to thank you, Mayor, for continuing to provide to the department the necessary support and leadership required to enhance the City's overall fiscal position and its financial reporting practices. We trust that this timely, complete, and fully readable Comprehensive Annual Financial Report satisfies your needs and those of City Council for responsible financial planning and reporting.

Respectfully,

Diane L. Miller-Dawson Director of Finance

INDEPENDENT AUDITOR'S REPORT

City of Akron Summit County 166 South High Street Akron, Ohio 44308

To the City Council:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Akron, Summit County, Ohio (the City), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

City of Akron Summit County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Akron, Summit County, Ohio, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 28 to the financial statements, during the year ended December 31, 2015, the City adopted Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No.* 27 and also GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, *Required budgetary comparison schedules* and schedules of net pension liabilities and pension contributions listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

City of Akron Summit County Independent Auditor's Report Page 3

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 12, 2016, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Dave Yost Auditor of State Columbus, Ohio

CITY OF AKRON, OHIO MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's discussion and analysis of the City of Akron, Ohio financial performance provides an overview of Akron's financial activities for the fiscal year ended December 31, 2015. Please read it in conjunction with the transmittal letter on page 7 and the City's financial statements, which begin on page 38.

FINANCIAL OVERVIEW

- The assets and deferred outflows of the City of Akron, Ohio exceeded its liabilities and deferred inflows at December 31, 2015 by \$661,820,959 (net position). Of this amount, \$45,961,292 is restricted for debt service.
- The City's total net position increased by \$17,207,167 during the current year. Governmental activities, total net position decreased by \$2,483,694 and the business-type activities, total net position increased by \$19,690,861.
- As of the close of the current fiscal year, the City of Akron's governmental funds
 reported combined ending fund balances of \$133,045,898, a decrease from the prior year
 which is attributed to the issuance of Bonds in the prior year. The proceeds are being
 used to fund the payment of expenditures as reflected in several categories including:
 public safety, public service, and community environment expenditures for project
 specific costs.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$8,382,029 or 5.9% of total general fund expenditures.
- The City of Akron's total debt outstanding increased by \$60,147,073 (7.7%) during the current year. During 2015, the City issued \$30,870,000 in Income Tax Revenue Bonds for the Off-Street Parking Decks and various purpose improvements. There were OWDA loans issued for the cost of improving the Waterworks System (\$6,512,364) and the Sanitary Sewer System (\$94,147,872).

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Akron's basic financial statements. The City of Akron's basic financial statements are comprised of the following: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required and other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the City of Akron's finances in a manner similar to a private sector business.

The statement of net position presents information on all of the City of Akron's assets and deferred outflows and liabilities and deferred inflows, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of the financial position of the City of Akron.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Akron that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business type activities). The governmental activities of the City of Akron include general government, public service, public safety, community environment, public health and recreation and parks. The business-type activities of the City of Akron include water, sewer, oil and gas, golf course, airport and off-street parking operations.

The government-wide financial statements can be found on pages 38 - 39 of this report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Akron, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Akron can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Akron maintains 39 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Community Learning Centers (CLC) Fund, the Income Tax Capital Improvement Fund and the Special Assessment Bond Payment Fund which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Akron adopts an annual appropriated budget for its General Fund, special revenue funds, some debt service, enterprise and internal service funds. The General Fund, Community Learning Centers Fund, and Income Tax Capital Improvement Fund budgetary schedules (non-GAAP budgetary basis) have been provided as Required Supplementary Information (RSI) to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 40-43 of this report.

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. The City implemented GASB 63 – Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and also GASB 65 Items Previously Reported as Assets and Liabilities. The standard establishes a basis to reclassify certain items that were previously reported as assets and liabilities and instead classify them as Deferred Inflows of Resources, Deferred Outflows of Resources, or as outflows or resources.

Fund balances are the differences between assets and deferred outflows and liabilities and deferred inflows in a governmental funds. 1) Nonspendable fund balance includes amounts that are not in spendable form, or amounts that are required to be maintained intact. 2) Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external providers, such as grantors or bondholders, as well as amounts that are restricted through enabling legislation. 3) Committed fund balance includes amounts that can be used only for the specific purposes that are determined by a formal action of the City's highest level of decision making authority. 4) Assigned fund balance applies to amounts that are intended for specific purposes as expressed by the governing body or authorized official and applies to remaining resources in any governmental funds other than the General Fund. 5) Unassigned fund balances include all amounts not contained in other classifications for the General Fund, and deficit fund balances in any other governmental funds.

As of the end of the current fiscal year, the City's total governmental funds reported an ending fund balance of \$133,045,898, a decrease of \$33,619,820 in comparison with the prior year. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 5.9% of total General Fund expenditures, while total fund balance represents 9.1% of that same amount.

Proprietary Funds. The City of Akron maintains two different types of proprietary funds, enterprise and internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Akron uses enterprise funds to account for its water, sewer, oil and gas, golf, airport, and off-street parking operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Akron's various functions. The City of Akron uses internal service funds to account for its vehicle maintenance, medical self-insurance,

workers' compensation self-insurance, other self-insurance costs, information technology (responsible for all data processing and computer operations of the City), telephone system (with outside cable plant consisting of underground and aerial wires and telephone cables), and engineering bureau (responsible for design and construction for City streets, sidewalks, sewer and water utilities, bridges, and City facilities). Because most of the internal services predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water, Sewer, and Off-Street Parking operations, which are considered to be major funds of the City of Akron. Conversely, the internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the nonmajor enterprise and the internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 44 - 46 of this report.

Fiduciary Funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Akron's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 47 - 48 of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 49-122 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain Required Supplementary Information (RSI) concerning the City of Akron's General Fund, Community Learning Centers Fund and Income Tax Capital Improvement Fund budgetary comparisons. The RSI also includes the OPERS and OP&F Schedules of Net Pension Liability and Related Ratios, and the related contribution schedules. Required Supplementary Information (RSI) can be found on pages 123-133 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds, enterprise funds and internal service funds are presented immediately following the Required Supplementary Information (RSI) and can be found on pages 136-202 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Akron, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$661,820,959 at the close of the most recent fiscal year.

By far the largest portion of the City of Akron's net position reflects its net investment in capital assets (e.g., land, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The City of Akron uses these capital assets to provide services to the citizens; consequently, these assets are not available for future spending. Although the City of Akron's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other resources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City of Akron's net position (6.9%) is restricted for the payment of debt service. The City's overall net position increased by \$17,207,167 during the current year; the net position of the governmental activities decreased by \$2,483,694 and business-type activities increased by \$19,690,861.

Summary Statement of Net Position as of December 31, 2014 and 2015 (in thousands)

During 2015, the City adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement No.* 27, which significantly revised accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the City's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB Statement No. 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB Statement No. 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements. Under the new standards required by GASB Statement No. 68, the net pension liability equals the City's proportionate share of each plan's collective present value of estimated future pension benefits attributable to active and inactive employees' past service minus plan assets available to pay these benefits.

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the City is not responsible for certain key factors affecting the balance of this liability.

In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract, but by law. The employer enters the exchange also knowing that there is a legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e., sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions,

investment returns, and other changes are insufficient to keep up with the required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB Statement No. 68, the City's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows. As a result of implementing GASB Statement No. 68, the City is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. The implementation of GASB Statement No. 68 had the effect of restating net position at December 31, 2014, from \$382,194,531 to \$227,832,450 for governmental activities and \$427,193,402 to \$416,781,342 for business-type activities.

Governmental Activities. Changes in net position before transfers was a decrease in the amount of \$1,596,000.

For the governmental activities, the unrestricted deficit results from having insufficient assets set aside for long-term obligations such as pension liability, compensated absences and OPEB liability. The City finances such obligations on a year-to-year basis as they come due and also has ongoing capital projects that are debt-financed.

The following table shows total revenues for 2015 were \$331,105,000 which reflects a decrease from the prior year. Miscellaneous revenue showed a decrease of \$2,302,000 and Operating grants and contributions decreased by \$6,602,000. Income taxes increased slightly by \$1,841,000 which is attributed to the stabilization of the local job market. Expenses for 2015 were also higher than 2014 by approximately \$7,815,000. A significant increase was in the expenses for public safety in the General Fund and community environment relating to payments within the Community Development Fund and Tax Equivalency Fund. Key events contributing to the changes are as follows:

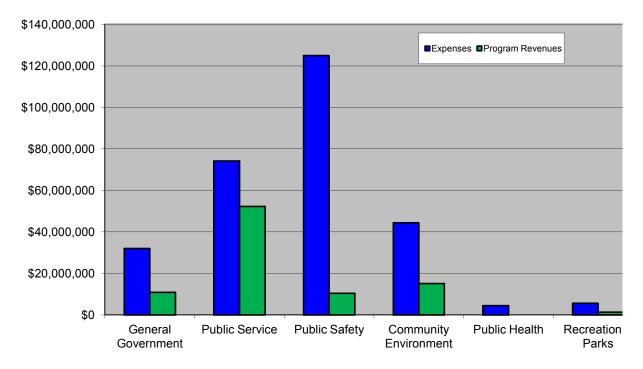

- The decrease in miscellaneous revenue relates to the receipt of one-time revenue items during 2014.
- Unemployment shows a decrease to 5.7%, which is a result of employees returning to the workforce.
- The majority of the variance in operating grants and contributions is attributed to the decrease in grant funding including Ohio Department of Transportation.
- For the third time in eight years, Income taxes exceed the pre-recession number and is attributed to the stabilization of the local job market.
- Significant efforts are still in place to keep expenses in line with revenue as is shown on the following page, "Change in net position before transfers".
- The increase in public safety expenses relates to the increase in the wage accrual.
- The notable increase in community environment expenses is primarily due to the expenses attributed to the Community Learning Centers and the Tax Equivalency Fund.

Expenses and Program Revenues - Governmental Activities

The above chart shows the revenue generated by the various programs of the City of Akron and the expenses relating to each program. As shown below, the primary source of revenue that funds these programs is reported in the financial statements as income taxes.

Revenues By Sources Governmental Activities

FINANCIAL ANALYSIS OF THE GOVERNMENTAL FUNDS

As noted earlier, the City of Akron uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City of Akron's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Akron's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Akron's governmental funds reported a combined ending fund balance of \$133,045,898, a decrease in comparison to the prior year. The unassigned fund deficit balance at the end of the current year is \$3,903,226. The remainder of fund balance is distributed to indicate that it is not available for new spending because it has already been dedicated. The City's major governmental funds are the General Fund, the Community Learning Centers (CLC) Fund, the Income Tax Capital Improvement Fund, and the Special Assessment Bond Payment Fund.

The General Fund is the chief operating fund of the City of Akron. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$8,382,029, while the total fund balance is \$12,933,884. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 5.9% of total General Fund expenditures, while total fund balance represents 9.1% of that same amount.

The fund balance of the City of Akron's General Fund increased by \$98,609 during the current fiscal year. Key factors in this change are as follows:

- The City's commitment to monitor revenues and approve expenditures in conformity with available resources.
- Akron's Income tax collection, our largest source of revenue in the General Fund, has improved and for the third time in eight years exceeding the pre-recession level.
- JEDD revenues decrease is directly attributed to utilization of the resources for projects and debt service within the JEDD fund.
- General government expenditures during 2015 decreased as a result of the elimination of the expenditures associated with the administration fee and storeroom supplies, along with the reduction in a guarantee obligation.
- The increase in public safety expenditures relates to the increase in the wage accrual.
- The practice of transferring monies from the General Fund, \$3,108,000 to subsidize various operations and provide the local match for grants is a method used annually by the City to provide resources to these funds.

The Community Learning Centers Fund has a total fund balance of \$89,377,283. The net decrease in fund balance the Community Learning Centers Fund from the prior year was \$17,029,270 which is attributed to the issuance of Income Tax Revenue Bonds in the prior year. The proceeds are being used to fund the payment of expenditures as reflected in the community environment expenditures for project specific costs.

The Income Tax Capital Improvement Fund has a total fund balance of \$5,220,944. Expenditures exceeded revenue by \$11,305,015 in 2015 which were funded by the issuance of bonds yielding a slight decrease in the fund balance of \$938,052. The Fund is responsible for debt service payments and relies heavily on the collection of income taxes.

The Special Assessment Bond Payment Fund has a total fund balance of \$2,036,147. The Fund is utilized for the accumulation of resources for, and the payment of, special assessment debt principal and interest and related costs.

Other Governmental Funds have a combined fund balance of \$23,477,640. The decrease in the combined fund balance was \$15,752,086. The majority of the change is attributed to projects within the special revenue funds and capital project funds. The City has been spending down fund balance in several special revenue funds and a capital project funds as reflected in the net change in fund balance in the following: Income Tax Collection Fund, Tax Equivalency Fund, Off-Street Parking COPs Fund, and the Economic Development Fund.

GENERAL FUND BUDGETARY OVERVIEW

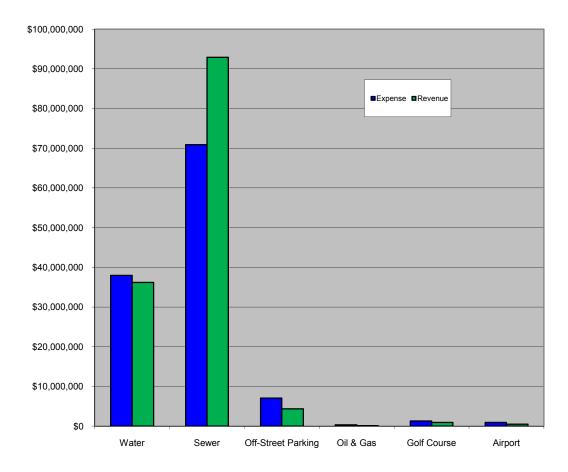

During the year, actual revenues and other sources were under original budgetary estimates by \$7,086,240 (4.4%). Income tax revenue, the major revenue source, was less than the budgeted amount by \$1,109,920. The other significant decreases in revenues during 2015 were JEDD revenues by \$3,048,820, service revenues by \$2,500,836, and miscellaneous revenue by \$1,208,903. The revenue stream was closely monitored during the year and anticipated expenditures were analyzed and prioritize.

Through restraint on spending, the actual draw on the General Fund was only \$495,383. The actual expenditures were under the final budget by \$12,445,835.

Key events contributing to the changes in the General Fund budget amounts are as follows:

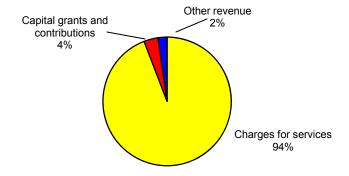

- The Public Service Department's budget was increased by \$3,910,000, the Fire Department's budget was increased by \$3,350,000, and the Police Department was increased by \$2,502,000, but the revenue did not materialize to allow for the full budgeted expenditures.
- The Department of Public Service's actual expenditures were under the budgeted amount by \$5,002,269 which is attributed to the restraint on spending.

Expenses and Program Revenues - Business-type Activities

The above chart shows the revenue generated by the various business-type activities of the City of Akron and the expenses relating to each activity. As shown below, the majority of the revenue that funds these activities is reported in the financial statements as charges for services.

Revenues By Sources Business-type Activities

FINANCIAL ANALYSIS OF THE PROPRIETARY FUNDS

Business-Type Activities. Business-type activities increased the City of Akron's net position by \$19,690,861 compared to an increase of \$6,234,088 in the prior year. Total program revenues increased by \$19,377,840 allowing an increase in expenses of \$4,855,144 attributing to the change in net position.

Proprietary Funds. The City of Akron's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The City's major enterprise funds are the Water, Sewer and Off-Street Parking.

Unrestricted net deficit of the Water Fund at the end of the year was \$3,106,216; for the Sewer Fund was unrestricted net position of \$34,133,575 and for the Off-Street Parking Fund was a deficit of \$481,088. The increase reported in net position for the Water and Sewer Funds were \$655,038 and \$21,299,822, respectively. The decrease reported in net position for Off-Street Parking was \$2,235,490.

The Water Department services the City and 12 surrounding communities which account for 80,684 customer accounts and 1,228 miles of water mains. All bonds of the Water Fund are paid from water enterprise revenues. A ten-year comparison of certain water enterprise data is shown in Schedule 15 of the Statistical Section. Water rates remained stable and results of operations yielded an increase in net position due to cost containment.

The Sewer Department services the City and 12 surrounding communities which account for 76,570 customer accounts and 1,348 miles of sewer lines. All bonds of the Sewer Fund are paid from sewer enterprise revenues. A ten-year comparison of certain sewer enterprise data is shown in Schedule 15 of the Statistical Section. Sewer rates remained virtually unchanged with only slight increases to a small population of non-resident customers and results of operations yielded an increase in net position due again to cost containment.

The Off-Street Parking Fund experienced a slight decrease in operating revenues and only a minor decrease in operating expenses. The decrease in net position directly relates to expenses exceeding operating revenues.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. The City of Akron's investment in capital assets for its government and business-type activities as of December 31, 2015, amounts to \$1,610,386,384 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, improvements (other than buildings), equipment, and infrastructure. The total increase in the City of Akron's investment in capital assets for the current fiscal year was \$60,656,061 (a 0.6% increase for governmental activities and a 10.2% increase for business-type activities).

The City of Akron displays additional information relating to the capital assets of the City that can be found in Note 1. G. and Note 7.

Major capital assets placed into service during the current fiscal year included the following:

- Community Learning Centers Construction-In-Progress \$16,805,194
- Mud Run Pump Station Improvements \$8,200,350
- Ohio Interceptor Tunnel \$7,362,623
- Sanitary Sewer Reconstruction \$6,851,827
- CSO Rack 15 Storage Basin \$4,961,687
- Wilbeth Road Improvements \$1,652,497
- Cascade Plaza Improvements \$1,494,480

Long-Term Debt. At the end of the current fiscal year, the City of Akron had total debt outstanding of \$837,295,873. All general obligation bonds are backed by the full faith and credit of the City. Special assessment bonds and notes are covered by special assessment collections and are backed by the full faith and credit of the City. The remainder of the City of Akron's debt represents bonds secured solely by specified revenue sources.

The City of Akron's total debt outstanding increased by \$60,147,073 (7.7%) during the current fiscal year.

During the current fiscal year the City issued \$30,870,000 in Income Tax Revenue Bonds for the Off-Street Parking Decks and various purpose improvements. There were OWDA loans issued for the cost of improving the Waterworks System (\$6,512,364) and the Sanitary Sewer System (\$94,147,872).

The Ohio Revised Code provides that the outstanding general obligation bonds less self-supporting debt (e.g., income tax-backed projects) of the municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the assessed value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of total assessed value of property. The City of Akron's total debt limit (10.5%) is \$270,381,850 and the total unvoted net debt limit (5.5%) is \$141,628,588.

The City's general obligation bonds are rated "AA-" by Standard & Poor's Ratings Services, "AA-" by Fitch Ratings and "Aa3" by Moody's Investors Service, Inc. The insured Water and Sewer Revenue bonds were originally rated AAA from Fitch, AAA from Moody's and AAA from Standard & Poor's.

Additional information on the City of Akron's long-term debt can be found in Notes 10-12.

Economic Factors and Next Year's Budgets and Rates

- Unemployment shows a decrease to 5.7%, which is a result of employees returning to the workforce.
- The City of Akron budgeted income tax collections to increase by 2%, Local Government and Property Tax to remain flat.
- No increase in Water or Sewer rates for 2016.
- The City will examine its current structure of fees, licenses, fines and service charges and make adjustments where appropriate.

In the 2016 budget, the General Fund unencumbered fund balance is projecting a slight increase of \$498,919.

Request for Information

This financial report is designed to provide a general overview of the City of Akron's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or request for additional information should be addressed to the Director of Finance, Municipal Building, 166 South High Street, Room 502, Akron, Ohio 44308.

City of Akron, Ohio

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities - Governmental Funds For the Year Ended December 31, 2015

Net changes in fund balances - total governmental funds (Exhibit 4)

\$ (33,619,820)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets, which meet capitalization requirements, is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays (\$38,965,748) exceeded depreciation (\$33,772,717) in the current period.

5,193,031

The net effect of selling capital assets increased net position.

2,738

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

(26,497,902)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and deferred amount on refundings when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The amount is the net effect of these differences in the treatment of long-term debt and related items.

Issuance of debt	(79,454,248)
Payment of debt	39,655,124
Payment to refunding agent	70,075,000
Premium on debt	(4,873,665)
Discount on debt	148,132
Bond issuance expenditures	934,296

26,484,639

Some of the expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

25,031,235

The change in net position of the internal service funds are included in the governmental activities in the statement of activities.

922,385

Change in net position of governmental activities (Exhibit 2)

City of Akron, Ohio Notes to the Financial Statements Year Ended December 31, 2015

1. Summary of Significant Accounting Policies

The City of Akron (the City) was incorporated in 1836 and is a home rule municipal corporation under the laws of the State of Ohio. The City operates under a Council-Mayor form of government and provides the following services as authorized by its Charter: public safety, public service, public health, recreation and development. The accompanying financial statements comply with the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, and Statement No. 61, *The Financial Reporting Entity: Omnibus* in that the financial statements include those activities and functions for which the City is accountable. The City has no component units as defined by GASB 14 and 39. The City is associated with certain organizations which are defined as jointly governed organizations and related organizations. These organizations are presented in Notes 25 and 26 to the basic financial statements. These organizations are the Akron Metropolitan Area Transportation Study (AMATS), the Akron/Summit Convention and Visitors' Bureau and the Summit Medina Business Alliance (SMBA). The accounting policies and financial reporting practices of the City conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units.

The following is a summary of the more significant policies followed during the preparation of the accompanying financial statements.

A. Government-wide and fund financial statements

GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments* establishes requirements and a reporting model for the annual financial reports of state and local governments. The Statement was developed to make annual reports easier to understand and more useful to the people who use governmental financial information to make decisions. Financial information of the City is presented in the following format:

Basic Financial Statements:

1. Government-wide financial statements consist of a statement of net position and a statement of activities.

These statements report all of the assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, expenses, and gains and losses of the City. Governmental activities are reported separately from business-type activities. Governmental activities are normally supported by taxes and intergovernmental revenues, whereas business-type activities are normally supported by fees and charges for services and are usually intended by management to be financially self-sustaining. Fiduciary funds of the City are not included in these government-wide financial statements.

Interfund receivables and payables, and bonds and notes issued by the City and held by the City as investments, within governmental and business-type activities have been eliminated in the government-wide statement of net position. Related interest amounts are eliminated in the government-wide statement of activities.

These eliminations minimize the duplicating effect on assets and liabilities within the governmental and business-type activities total column. Interfund services provided and used are not eliminated in the process of consolidation.

Internal service net position, whether positive or negative, have been eliminated against the expenses and program revenues shown in the governmental activities statement of activities.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities.

Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenue includes (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Fund financial statements consist of a series of statements focusing on information about the City's major governmental and enterprise funds. Separate statements are presented for the governmental, proprietary, and fiduciary funds.

The City's major governmental funds are the General Fund, the Community Learning Centers (CLC) Fund, Income Tax Capital Improvement Fund and the Special Assessment Bond Payment Fund. Of the City's business-type activities, the Water, Sewer, and Off-Street Parking Funds are considered major funds.

The General Fund is the primary operating fund of the City. It is used to account for all financial resources except those required to be accounted for in other funds. Its revenues consist primarily of income and property taxes, JEDD revenues, shared revenues, charges for services, and licenses, fees, and fines.

General Fund expenditures represent costs of general government, public service (including sanitation and recycling collection), public safety (including police and fire), community environment, public health, and recreation and parks. General Fund resources are also transferred annually to support other services which are accounted for in other separate funds.

The Community Learning Centers (CLC) Fund is used to account for the daily activity relating to the CLC project. The primary sources of revenue are City income tax, shared revenue and bond proceeds.

The Income Tax Capital Improvement Fund, a special revenue fund, is used to account for the accumulation of income tax revenue and the payments of costs for items specifically designated as project costs and payment of debt service. The primary revenue source is income tax revenue and some debt proceeds.

The Special Assessment Bond Payment fund is used to account for the accumulation of resources for, and the payment of, special assessment debt principal and interest and related costs. Revenues consist primarily of special assessment collections.

The Water Enterprise Fund accounts for financial activity related to operating the City's water supply, treatment and distribution system. The Water Enterprise Fund serves six other municipalities and parts of six adjacent townships. Revenues consist primarily of charges for services.

The Sewer Enterprise Fund accounts for the financial activity related to operating the City's wastewater collection and treatment system that serves the City and twelve other subdivisions. Revenues consist primarily of charges for services.

The Off-Street Parking Fund accounts for the financial activity related to operating the City's parking facilities located throughout the downtown area. Revenues consist almost exclusively of charges for services.

While not considered major funds, the City maintains Internal Service Funds used to account for the financing of goods or services provided by one department or division to another department or division of the City, generally on a cost-reimbursement basis. The three largest of these funds account for the motor equipment, engineering, and information technology services. In addition, the City also maintains Internal Service Funds to account for the financial activity relating to self-insurance. The financial activity relating to the self insurance funds are for workers' compensation, medical, and judgment and claims.

3. Notes to the financial statements provide information that is essential to a user's understanding of the basic financial statements.

Required Supplementary Information:

Required supplementary information such as Management's Discussion and Analysis and budgetary comparison schedules are also required by GASB Statement No. 34. GASB Statement No. 68 requires the Schedule of City's Proportionate Share of Net Pension Liability and the Schedule of the City Contributions to State Pension Funds.

B. Financial reporting presentation

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred outflows/inflows of resources, fund balance (equity), revenues, and expenditures (expenses). The fund types and classifications that the City reports are as follows:

GOVERNMENTAL FUNDS

- 1. **General Fund** The General Fund is the general operating fund of the City and is appropriated. It is used to account for all financial resources except those required to be accounted for in another fund.
- 2. Special Revenue Funds Special Revenue Funds are used to account for revenues derived from specific taxes, grants, or other restricted revenue sources. The uses and limitations of each Special Revenue Fund are specified by City ordinances or federal or state statutes.

- 1. Summary of Significant Accounting Policies (Continued)
 - **3. Debt Service Funds** Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.
 - **4.** Capital Projects Funds The Capital Projects Funds are used to account for financial resources used for the acquisition or construction of major capital projects (other than those financed by proprietary funds).
 - **5. Permanent Funds** Permanent Funds are for the purpose of accounting for resources that are legally restricted to the extent that earnings, and not principal, may be used for purposes that support the reporting government's programs. The City, however, does not utilize Permanent Funds at this time.

PROPRIETARY FUNDS

- 1. Enterprise Funds The Enterprise Funds are used to account for the operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.
- **2. Internal Service Funds** The Internal Service Funds are used to account for the financing of goods or services provided by one department to other departments or to other governments on a cost-reimbursement basis.

FIDUCIARY FUNDS

- 1. Private-Purpose Trust Funds Private-Purpose Trust Funds are used to account for other trust arrangements which benefit individuals, private organizations, or other governments. For accounting measurement purposes, the Private-Purpose Trust Funds are accounted for using the economic resources measurement focus (essentially the same manner as proprietary funds). The City utilizes three Private-Purpose Trust Funds. The Claire Merrix Trust was established in memory of a former City of Akron employee and is to fund tennis-related activities; the Holocaust Memorial Trust pays for annual holocaust services throughout the City; and the Police/Fire Beneficiary Trust was recently established to provide scholarships for dependents of those serving in the Police and Fire departments.
- 2. Agency Funds Agency Funds are used to account for assets held by the City as an agent for individuals, private organizations, and other governments. For accounting measurement purposes, the Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The City has three Agency Funds, the first one is the Municipal Court Agency Fund and it is used to account for assets held by the Municipal Court Clerk for individuals, private organizations and other governments. The second one is the Police Property Monetary Evidence Fund and is used to account for funds held by the Police Department that will be returned to other agencies. The third one is the Unclaimed Monies Fund and it is used to account for funds held until a claim is made by the lawful owner.
- **3.** Other Fiduciary Funds Other Fiduciary Funds include pension trust funds and investment trust funds. The City does not utilize any such trust funds. Fiduciary Funds are not included in the government-wide statements.

C. Measurement focus and basis of accounting

Except for budgetary purposes, the basis of accounting used by the City conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the full accrual basis of accounting, except Agency Funds because they are custodial in nature. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include income taxes, property taxes, grants, shared revenue, and donations. On a full accrual basis, revenue from income taxes is recognized in the period in which the taxpayer's liability occurs and revenue from property taxes is recognized in the fiscal year for which the taxes are levied. On a full accrual basis, revenue in the form of shared revenue is recognized when the provider government recognizes its liability to the City. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. The City generally considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Expenditures are generally recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

In applying the susceptible-to-accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available (i.e., collectible within the current year or within sixty days after year-end and available to pay obligations of the current period). These include income taxes, JEDD revenues, investment earnings, shared revenues, and a portion of special assessments. Reimbursements due for federally funded projects are accrued as revenue at the time the expenditures are made or, when received in advance, deferred until expenditures are made. Property taxes and the balance of special assessments, though measurable, are not available soon enough in the subsequent year to finance current period obligations. Therefore, property tax and the balance of special assessment receivables are recorded as deferred inflows until they become available. Other revenues, including licenses, fees and fines, and charges for services are recorded as revenue when received in cash because they are generally not measurable until actually received. The City applies restricted resources first when an expenditure is incurred for purposes for which both restricted and unrestricted net position are available.

Proprietary Fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as rental revenue and connection fees, result from ancillary activities. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of the fund.

D. Budgetary Procedures

The City Council follows these procedures in establishing the budgetary data.

- (1) The Mayor submits to the City Council a proposed operating budget for the fiscal year commencing January 1. The operating budget includes proposed expenditures and the means of financing them.
- (2) Public hearings are conducted to obtain taxpayer comments.
- (3) According to state law, the budget must be enacted through passage of an ordinance by April 1.
- (4) The City Finance Director is authorized by City Council to transfer funds already appropriated within departments within any fund or category of expenditures; however, any revisions that alter the total appropriation of said department must be individually approved by the City Council. During 2015, supplemental appropriations were passed by City Council.
- (5) Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are recorded as the equivalent of expenditures. Unencumbered appropriations lapse at year-end.

(6) The majority of all funds have a legally adopted annual budget. Those funds include:

General Fund
Income Tax Collection
Emergency Medical Service
Special Assessment
Income Tax Capital Improvement
Street and Highway Maintenance
Community Development
Community Environment Grants
Akron Metro. Area Transportation Study
H.O.M.E. Program
Tax Equivalency
E.D.A. Revolving Loans
Joint Economic Development Districts
Akron Muni Court Information System

Police Grants

Safety Programs

Workers' Compensation Reserve
Self-Insurance Settlement
Telephone System
Engineering Bureau
Information Technology
Claire Merrix Tennis Trust
Holocaust Memorial Trust
Unclaimed Monies
Police/Fire Beneficiary Trust
Police Property Monetary Evidence

Golf Course

(7) The City appropriates an annual budget for the Police Pension Employer's Liability Fund and the Fire Pension Employer's Liability Fund which are required due to their funding source. On a GAAP basis, the two funds are combined with the General Fund.

E. Cash, Cash Equivalents, and Investments

Cash balances of the individual funds are combined to form a pool of cash held by the City Treasurer and invested in authorized investments (see Note 2). Earnings from these investments are credited to the General Fund in accordance with the City Charter except where the terms of a grant or regulation specify otherwise. Certain cash balances are held on behalf of the City by outside agents (see Note 2). Earnings from these investments are credited to the General Fund and certain other funds pursuant to the City Charter and federal and state requirements.

Investments are stated at fair value. Changes in fair value are recorded as a component of investment earnings.

For purposes of the Statement of Cash Flows, equity in pooled cash and investments, as well as segregated investments with original maturities of three months or less at the time they are purchased by the City, are considered to be cash equivalents. Investments with maturities of more than three months are not considered to be cash equivalents.

F. *Inventories* – Inventories are valued at cost (first-in, first-out) and adjusted to annual physical counts which are then maintained on a perpetual basis until the end of the year.

G. *Capital Assets* – Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements to the extent the City's capitalization threshold is met. The City defines capital assets as assets with an estimated useful life in excess of three years and an individual cost of more than \$5,000 for land; \$10,000 for equipment and vehicles; \$500,000 for intangibles – Computer Software; \$25,000 for land improvements, buildings, and improvements other than buildings; and \$100,000 for infrastructure. Assets are recorded at historical cost or estimated historical cost if historical cost is not available. Contributed capital assets are recorded at their estimated fair market value at the date contributed. Infrastructure acquired prior to December 31, 1980, is also reported as a component of the above-mentioned capital assets.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the governmental capital assets. Interest accrued during the construction of capital assets utilized by the proprietary funds is also capitalized.

Costs for maintenance and repairs are expensed when incurred. However, costs for repairs and upgradings that materially add to the value or life of an asset and meet the above criteria are capitalized.

The City depreciates capital assets on a straight-line basis, half-year convention, using the following estimated useful lives:

Asset	Years
Buildings, bridges, and storm sewers	50
Improvements, skywalks, and paving	40
Sewer and water mains	40
Sidewalks, curbs, electrical and lighting	30
Traffic control system and bridge repairs	25
Land improvements	20
Equipment and Intangibles	3-20
CLC Building Equity Interest	70
CLC improvements other than buildings	40

H. **Compensated Absences** – Vacation, paid leave, and compensatory time benefits are accrued as liabilities as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the City will compensate the employees for the benefits through paid time off or some other means. The City records a liability for accumulated, unused vacation, paid leave, and compensatory time when earned for all employees.

Sick leave benefits are accrued as a liability using the vesting method. An accrual for sick leave is made to the extent that it is probable that benefits will result in payments. The liability is an estimate based on the City's past experience at making payments.

I. Fund Balances – Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds.

The classifications are as follows:

- (1) **Nonspendable** Amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans.
- (2) **Restricted** Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- (3) **Committed** Amounts constrained to specific purposes imposed by a formal action (ordinance) of City Council, its highest level of decision making authority; to be reported as committed, amounts cannot be used for any other purposes unless the same highest level of action is taken to remove or change the constraint.
- (4) **Assigned** Amounts the City intends to use for a specified purpose; intent can be expressed by the governing body or by the Director of Finance which has been designated this authority. The City's intent is typically expressed through a directive issued by the Director of Finance.
- (5) **Unassigned** Amounts that are available for any new purpose: positive amounts are reported only in the general fund. In other governmental funds, the unassigned classification is used only to report a deficit fund balance.

Council establishes fund balance commitments by passage of an ordinance. Assigned fund balance is established by City administration including the Director of Finance through the issuance of requisitions, purchase orders, contracts, and directives.

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

Governmental funds of the City do not have specified fund balance targets. Recommended levels of committed and/or assigned fund balance will be determined on a case by case basis, based on the needs of each fund and as recommended by officials and approved by Council where necessary.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to restrict that portion of the appropriation, is employed as an extension of formal budgetary integration in the governmental funds. Significant encumbrances as of December 31, 2015, total \$2,037,639 in the General fund, \$770,138 in the Income Tax Capital Improvement fund, and \$6,521,415 in all other Governmental funds

- J. *Interfund Transactions* During the course of normal operations, the City records numerous transactions between funds including expenditures and transfers of resources to provide services, subsidize operations, and service debt. The City has the following types of transactions among funds:
 - (1) Reciprocal interfund services provided and used Purchases and sales of goods and services between funds for a price approximating their external exchange value.
 - (2) Nonreciprocal interfund transfers Flows of assets between funds without equivalent flows of assets in return and without a requirement for repayment. This includes transfers to subsidize various funds.
 - (3) Nonreciprocal interfund reimbursements Repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them.

The City's interfund receivables and payables at December 31, 2015 are presented in Note 5. Interfund transfers are presented in Note 22.

K. **Pensions and Post-retirement Benefits** – For purposes of measuring the net pension liability, deferred outflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

In addition to the post-retirement benefits provided by the Ohio Police and Fire Pension Fund and the Ohio Public Employees Retirement System of Ohio, the City provides post-retirement health care and life insurance benefits, in accordance with union agreements and City Council ordinances, for retired employees (see note 9).

- L. **Debt Issuance Costs, Premiums, Discounts, and Losses on Refundings** Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Losses on advance refundings are deferred and amortized over the life of the new debt, or the life of the advance refunded debt, whichever is shorter.
- M. *Employment Related Liabilities* The City records a liability for employment related liabilities relating to deferred longevity payments and former employees of the Building Inspection Division and the Health Department (see note 14).

To improve governmental efficiency and economy, effective February 1, 2009, the City's Building Inspection and Plans and Permits Divisions consolidated with Summit County. In the best interest of the public health, safety and welfare and to improve governmental efficiency and economy, effective January 1, 2011, the City's Health Department consolidated with the Summit County Health District.

The former Building Inspection and Plans and Permits employees, while employed by Summit County, must retire under Ohio Public Employees Retirement System to be entitled to receive payment of the accumulated sick leave at the hourly rate the employee was receiving at the time of resignation from the City along with the retirement differential. The City has recorded a long-term liability of \$115,475.

The former Health Department employees while employed by Summit County must retire under Ohio Public Employees Retirement System to be entitled to receive payment of the accumulated sick leave at the hourly rate the employee was receiving at the time of resignation from the City along with the retirement differential. The City has recorded a long-term liability of \$1,202,222. Additionally, the former Health Department employees are entitled to staggered payouts for their accumulated vacation, paid leave, and compensatory time at the hourly rate the employee was receiving at the time of resignation from the City. The liability is the actual amount due to employees.

N. *Accounting Standards* – The City applies all applicable and effective pronouncements issued by the Governmental Accounting Standards Board (GASB).

In June 2012, the GASB issued statement No. 68 Accounting and Financial Reporting for Pensions an amendment of GASB Statement No. 27. This Statement improves the usefulness of information for decisions made by the various users of the general purpose external financial reports of governments whose employees – both active employees and inactive employees – are provided with pensions. The City's financial statements have been prepared in conformance with this Statement.

In November 2013, the GASB issued statement No. 71 Pension Transition for Contributions Made Subsequent to the Measurement Date an amendment of GASB Statement No. 68. The objective of this Statement is to improve accounting and financial reporting by addressing an issue in Statement No. 68, Accounting and Financial Reporting for Pensions, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities. This statement must be implemented simultaneously with the provisions of Statement No. 68. The City's financial statements have been prepared in conformance with this Statement.

In February 2015, the GASB issued statement No. 77 Fair Value Measurement and Application. This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes. This Statement also provides guidance for applying fair value to certain investments and disclosures related to all fair value measurements. For the City this Statement is effective for periods beginning after June 15, 2015.

In June 2015, the GASB issued statement No. 75, *Accounting Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (Pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. For the City, this Statement is effective for periods beginning after June 15, 2017.

In June 2015, the GASB issued statement No. 76 *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The objective of this Statement is to identify - in the context of the current governmental financial reporting environment - the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. This Statement supersedes Statement No. 55 *The Heirarchy of Generally Accepted Accounting Principles for State and Local Governments*. For the City, this statement is effective for periods beginning after June 15, 2015.

2. Pooled Cash and Investments

City ordinances require that all cash, with the exception of certain debt service cash and cash held by fiscal agents, be deposited with the City Treasurer. Each fund's portion of these funds is displayed on the statements of net position or balance sheets as "pooled cash and investments." Earnings on these investments are allocated to the various funds based on City and state statutes, grant agreements and various bond agreement requirements. Investments are also held separately by the Special Revenue, Debt Service, Enterprise, and Internal Service Funds. City ordinances further authorize and direct the permitted types of deposits and investments.

Deposits:

City ordinances require that all deposits be secured by collateral securities pledged at market value in an amount equal to at least 100% of the deposit, less any amount covered by federal deposit insurance. Custodial credit risk is the risk that, in the event of a bank failure, the City will not be able to recover deposits or collateral securities that are in the possession of an outside party. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by Ohio Revised Code, is held in collateral pools at Federal Reserve Banks, or at member banks of the Federal Reserve System, in the name of the depository bank and pledged as a pool of collateral against all public deposits held by the depository. The City has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money have been followed, noncompliance with federal requirements could potentially subject the City to a successful claim by the FDIC.

At December 31, 2015, the carrying amount of the City's deposits was \$92,913,628 and the bank balance was \$98,384,559. The difference in the carrying amount and bank balance was composed of outstanding checks and other normal reconciling items. Of the bank balance, \$36,138,517 was covered by federal depository insurance, and \$62,246,042 was uninsured but collateralized with unregistered securities held by the pledging financial institution's trust department in the City's name.

2. Pooled Cash and Investments (Continued)

Total cash and investments are reported as follows:

Balance Sheet - Governmental Funds:	
Pooled cash and investments	\$ 61,659,703
Restricted cash and investments	51,911,604
Statement of Net Position - Proprietary Funds:	
Enterprise Funds	
Pooled cash and investments	41,671,360
Restricted cash and investments	9,498,992
Internal Service Funds	
Pooled cash and investments	10,852,214
Statement of Net Position - Fiduciary Funds:	 889,086
Total	\$ 176,482,959

Investments in City of Akron notes amounting to \$55,321 are eliminated in the government-wide statement of net position at December 31, 2015.

Investments:

The City records all of its investments at fair value under the guidance set forth by Governmental Accounting Standards Board Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

Under the fair value method of recording investments, the City is required to report realized and unrealized gains and losses arising from market fluctuations as well as the sale and maturity of various investments above or below their beginning-of-the-year fair value or their purchase price, when purchased during the current fiscal year. Realized gains and losses, on investments that had been held in more than one fiscal year and sold in the current year, may have been recognized as an increase or decrease in the fair value of the investments reported in the prior year.

The repurchase agreement investment maturity is less than one year.

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rate risk.

Credit Risk. City ordinances authorize the treasurer to invest in obligations of the United States Treasury, agencies and instrumentalities and direct obligations of the State of Ohio, including any subdivisions of the state. As of December 31, 2015, the investments held by the bond trustees and STAROhio were rated AAAm by Standard & Poor's. All municipal bonds and notes are rated A2 or better by Moody's or A or better by Standard & Poor's.

The City invests funds in the State Treasury Asset Reserve of Ohio (STAROhio). STAROhio is an investment pool managed by the State Treasurer's office which allows governments within the state to pool their funds for investment purposes. STAROhio is not registered with the SEC as an investment company but does operate in a manner consistent with rule 2a7 of the Investment Company Act of 1940. Investments in STAROhio are valued at STAROhio's share price, which is the price the investment could be sold for on December 31, 2015.

2. Pooled Cash and Investments (Continued)

Bond trustees holding the investments are not registered with the SEC as an investment company but do operate in a manner consistent with rule 2a7 of the Investment Company Act of 1940. Bond trustees and Community Learning Center trustees holding the investments are not registered with the SEC as an investment company but do operate in a manner consistent with rule 2a7 of the Investment Company Act of 1940.

Investments held by bond trustees, Community Learning Centers and STAROhio are not exposed to custodial credit risk because their existence is not evidenced by securities that exist in physical or book entry form.

At December 31, 2015, \$61,410,596 of cash and investments was restricted for the following purposes: \$174,876 was restricted for lease costs for Canal Park Stadium; \$1,069,550 was restricted for Akron District Energy COPs; and \$9,973,966 was restricted solely for retirement of City obligations; and the balance of \$50,192,204 was held by the trustee for payment of debt service on the Community Learning Centers' Income Tax Revenue Bonds.

As of December 31, 2015 the City had the following investments.

		_	Investment M	aturitie	s (In Years)
<u>Investment Types</u>	Fair Value		Less Then 1		<u>1-5</u>
U.S. Treasuries or Agenices	\$ 24,998,500		\$ 24,998,500	\$	-

Off-Street Parking		-		95,396		95,396		-		95,396
Total Business-type Activities				24,475,399		24,475,399		(4,555,943)		19,919,456
Total Receivables	\$	53,521,285	\$	176,401,986	\$	229,923,271	\$	(29,422,867)	\$	200,500,404

Included in the amounts above are water and sewer unbilled charges for services of approximately \$1,114,000 and \$4,388,000, respectively.

Delinquent special assessment receivables amounted to \$24,157,277 at December 31, 2015 and were fully reserved for in the allowance for uncollectibles in the Special Assessment Bond Payment fund.

4. **Due From/To Other Governments**

Amounts due from other governments at December 31, 2015 consist of the following:

	Federal	State	Total
Governmental Funds:			
General Fund	\$ 10,117	\$ -	\$ 10,117
Other Governmental Funds	2,802,248	110,561	2,912,809
Total Governmental Funds	\$ 2,812,365	\$ 110,561	\$ 2,922,926
Enterprise Funds:			
Water	\$ =	\$ 199,321	\$ 199,321
Other Enterprise Funds	28,440		28,440
Total Enterprise Funds	\$ 28,440	\$ 199,321	\$ 227,761

Amounts due to other governments at December 31, 2015 consist of the following:

	Federal	State	County	Local	Total
Governmental Funds:			·		
General Fund	\$ -	\$ 65,464	\$ 2,782,867	\$ -	\$ 2,848,331
Community Learning Center	-	-	498	-	498
Income Tax Capital Improvement	-	6,910	5,851	-	12,761
Other Governmental Funds	 4,525,000	 286,349	 243,968	 559,876	5,615,193
Total Governmental Funds	\$ 4,525,000	\$ 358,723	\$ 3,033,184	\$ 559,876	\$ 8,476,783

The \$8,476,783 due to other governments includes \$4,372,892 that is reported as long-term liabilities in the government-wide statement of net position as liabilities due in more than one year.

Total Enterprise Funds	\$ 	\$ 53,246	\$ 349,892	\$ 	\$ 403,138
Sewer Off-Street Parking	-	53,246	62,542 235,608	-	115,788 235,608
Enterprise Funds: Water	\$ -	\$ -	\$ 51,742	\$ -	\$ 51,742

The federal amount is comprised of two section 108 loans from the U.S. Department of Housing and Urban Development (HUD).

The state amount is comprised of an Ohio Development Services Agency loan.

The county amount recorded in Governmental Funds relates to City reimbursements to Summit County for the debt service on debt issued by Summit County related directly to the cost of construction of additional jail space to house City inmates.

The county amount recorded in Business-type Activities relates to a master meter sewer agreement in the Mud Brook service area.

5. **Due From/To Other Funds**

Interfund receivable and payable balances at December 31, 2015 are due within one year consist of the following individual fund receivables and payables:

	Receivable			Payable	
Governmental Funds:					
General Fund	\$	2,041,556	\$	842,502	
Community Learning Centers		1,143,096		-	
Income Tax Capital Improvement		323,200		1,676,121	
Other Governmental Funds		1,725,257		2,199,982	
		7.000.100		4.740.607	
	\$	5,233,109	\$	4,718,605	
Proprietary Funds: Enterprise Funds:					
Water	\$	394,190	\$	509,572	
Sewer		1,308		2,000,063	
Off-Street Parking		-		50,078	
Other Enterprise Funds				3,406	
	\$	395,498	\$	2,563,119	
Internal Service Funds		1,732,400		79,283	
Total	\$	7,361,007	\$	7,361,007	

6. Deposits

On December 15, 2003, the City of Akron entered into a cooperative agreement for Community Learning Centers (CLC) with the Board of Education of the Akron City School District (District). The cooperative agreement is the foundation for all the activity associated with the City's .25% income tax and the ownership relating to the CLCs. As of December 31, 2015, the District had \$12,563,300 of unspent City funds that are recorded as Deposits on the City's Statement of Net Position and are recorded on the District's financial statements as "due to City of Akron".

7. Capital Assets

Capital asset activity for the year ended December 31, 2015 was as follows:

	Balance January 1, 2015	Additions	Deletions	Balance December 31, 2015
Governmental Activities:	2013	raditions	Detetions	2013

	\$ 267,455,657	\$	201,304,272	\$	66,151,385

8. Accrued Vacation and Leave

GASB Statement No. 16, *Accounting for Compensated Absences*, requires a liability to be established for all compensated absences as earned by the employees. At the time of the employee's separation, such compensated absences are paid to the employee from the fund to which the employee's payroll is charged.

Vacation, paid leave, sick leave and compensatory time accumulated by employees whose wages are charged to governmental fund types have been recorded as liabilities in the governmental funds only if they have matured. The balance has been recorded on the statement of net position. Vacation, paid leave, sick leave and compensatory time accumulated by employees whose wages are charged to proprietary fund types are expensed when earned and recorded as liabilities in the government-wide statement of net position and in the proprietary fund statement of net position.

Sick leave is earned by substantially all employees. Unused sick leave is accumulated up to 960 hours for uniformed firefighters and 1,000 hours for all other eligible employees. Unused sick leave vests upon reaching certain age and service requirements. The vested portion of accumulated sick leave and amounts earned through December 31, 2015 and expected to vest in the future has been accrued in the government-wide statement of net position for all City employees. Amounts related to the City's proprietary fund operations are also accrued for in the proprietary fund statement of net position due to the nature of these funds.

The following governmental funds have typically been used in prior years to reduce or liquidate the liability for compensated absences:

General Fund Income Tax Collection Emergency Medical Service Special Assessment Fund Income Tax Capital Improvement Street and Highway Maintenance Community Development Police Grants Safety Programs

8. Accrued Vacation and Leave (Continued)

As of December 31, 2015, the accrued vacation, paid leave, sick leave, and compensatory time is recorded as a current liability (due within one year) in the Statement of Net Position as follows:

		Balance January 1, 2015		Additions		Deletions		Balance December 31, 2015

9. Pension and Other Post-Retirement Benefit Plans

Police officers and firefighters participate in the statewide Ohio Police and Fire Pension Fund (Police and Fire), a cost-sharing, multi-employer defined-benefit public employee retirement system. Police and Fire offers three types of service retirement: normal, service commuted, and age/service commuted. In a normal retirement, a member is eligible at age 48 with 25 years of service with a monthly pension equal to 60% of the average of the three highest years of allowable earnings. The maximum pension of 72% of the average allowable earnings for the three highest years is paid after 33 years of service. Under the service commuted retirement, a member is eligible if they have at least 15 years of service, they have reached the age of 48 and 25 years has elapsed from the date of their full-time hire. Under the age/service commuted retirement, a member is eligible if they have 15 years of service and they have reached the age of 62. In the event of death, eligible survivors may qualify for a monthly benefit and a one-time \$1,000 lump sum benefit payment. Benefits are established by the Ohio Revised Code.

The City also participates in a cost-sharing multi-employer post-retirement health benefits plan, administered by Police and Fire, for these city employees. Substantially all other City employees participate in the statewide Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multi-employer defined-benefit pension plan. The member-directed plan is a defined- contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20% per year). Under the member-directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-employer defined-benefit pension plan that has elements of both a defined-benefit and a defined-contribution plan. Under the combined plan, employer contributions are invested by the retirement system to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member-directed plan. The City also participates in a cost-sharing multi-employer post-retirement health benefits plan, administered by OPERS, for these City employees.

In addition to participating in the plans described above, the City provides its own post-retirement health and life insurance benefits plan which is administered as a single-employer benefit plan. Typically, the following funds have been used to liquidate the net pension obligation or net other post-retirement benefit obligation:

General Fund
Income Tax Collection
Emergency Medical Service
Special Assessment
Income Tax Capital Improvement
Street and Highway Maintenance
Community Development
Akron Metropolitan Area Transportation Study
Joint Economic Development Districts
Safety Programs

General Bond Payment Water Sewer Oil & Gas Golf Course Airport Motor Equipment Engineering Data Processing

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the City's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in due to other governments on both the accrual and modified accrual bases of accounting.

Plan Description – Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan, the member-directed plan is a defined contribution plan, and the combined plan is a cost-sharing, multiple-employer defined benefit pension plan with defined contribution features. While members (e.g. City employees) may elect the member-directed plan and the combined plan, the vast majority of the City's employees participate in the traditional plan. Therefore, the following plan description focus on the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional plan. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting https://www.opers.org/financial/reports.shtml, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional plan as per the reduced benefits adopted by SB 343 (see OPERS CAFR referenced above for additional information):

Group A

Eligible to retire prior to January 7, 2013 or five years after January 7, 2013

Group B

20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013

Group C

Members not in other Groups and members hired on or after January 7, 2013

State and Local

Age and Service Requirements:

Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

State and Local

Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30

State and Local

Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit

Formula:

2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35

Public Safety

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Public Safety

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Public Safety

Age and Service Requirements:

Age 52 with 25 years of service credit or Age 56 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 52 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 52 with 15 years of service credit

Law Enforcement

Age and Service Requirements:

Age 48 with 25 years of service credit or Age 56 with 15 years of service credit

Public Safety and Law Enforcement

Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Public Safety and Law Enforcement

Formula

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Public Safety and Law Enforcement

Formula:

2.5% of FAS multiplied by years of service for the first 25 years and 2.1% for service years in excess of 25

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

When a benefit recipient has received benefits for 12 months, an annual cost of living adjustment (COLA) is provided. This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. For those retiring prior to January 7, 2013, the COLA will continue to be a 3 percent simple annual COLA. For those retiring subsequent to January 7, 2013, beginning in calendar year 2019, the COLA will be based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Stat and Lo		Public Safety	Law Enforcement
2015 Statutory Maximum Contribution Rates				
Employer	14.0	%	18.0 %	18.0 %
Employee	10.0	%	*	**
2015 Actual Contribution Rates				
Employer:				
Pension	12.0	%	16.0 %	16.0 %
Post-employment Health Care Benefits	2.0		2.0	2.0
Total Employer	14.0	%	18.0 %	18.0 %
Employee	10.0	%	12.0 %	13.0 %

^{*} This rate is determined by OPERS' Board and has no maximum rate established by ORC.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

The City's contractually required contribution was \$6,782,836 for 2015. Of this amount, \$522,289 is reported as a due to other governments. Both amounts reflected contributions for employees participating in the OPERS traditional plan, combined plan, and member directed plan.

Plan Description – Ohio Police & Fire Pension Fund (OP&F)

Plan Description - City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. The report that may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member's average annual salary. The following discussion of the pension formula relates to normal service retirement.

^{**}This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit.

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year may be eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit and statutory survivors.

Members retiring under normal service retirement, with less than 15 years of service credit on July 1, 2013, will receive a COLA equal to either three percent or the percent increase, if any, in the consumer price index (CPI) over the 12-month period ending on September 30 of the immediately preceding year, whichever is less. The COLA amount for members with at least 15 years of service credit as of July 1, 2013 is equal to three percent of their base pension or disability benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2015 Statutory Maximum Contribution Rates	_	
Employer	19.50 %	24.00 %
Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %
2015 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50	0.50
Total Employer	19.50 %	24.00 %
Total Employer	19.30 70	24.00 70
Employee:		
January 1, 2015 through July 1, 2015	11.50 %	11.50 %
July 2, 2015 through December 31, 2015	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution, excluding the amount related to post-retirement health care benefits, to OP&F was \$11,333,928 for 2015. Of this amount \$812,670 is reported as a due to other governments. Both amounts reflected contributions for police and firefighters participating in OP&F.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2014, and was determined by rolling forward the total pension liability as of January 1, 2014, to December 31, 2014. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

ODEDC

	Ol	'EK	<u>5</u>		
	Traditional Combined				
	Plan		Plan	OP&F	Total
Proportionate Share of the Net					
Pension Liability/(Asset)	\$ 53,500,585	\$	(117,750)	\$ 138,678,487	\$ 192,061,322
Proportion of the Net Pension					
Liability/(Asset)	0.44358%		0.30583%	2.67698%	
Pension Expense	\$ 5,834,400	\$	78,138	\$ 13,527,442	\$ 19,439,980

At December 31, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

OPERS		OP&F		Total
_				_
2,861,816		5,976,913		8,838,729
7,305,125		11,333,928		18,639,053
\$ 10,166,941	\$	17,310,841	\$	27,477,782
	-			
975,830		-		975,830
15,698		-		15,698
\$ 991,528	\$	_	\$	991,528
\$	2,861,816 7,305,125 \$ 10,166,941 975,830 15,698	2,861,816 7,305,125 \$ 10,166,941 975,830 15,698	2,861,816 5,976,913 7,305,125 11,333,928 \$ 10,166,941 \$ 17,310,841 975,830 - 15,698 -	2,861,816 5,976,913 7,305,125 11,333,928 \$ 10,166,941 \$ 17,310,841 \$ \$ 2 975,830 - 15,698 -

\$18,639,053 is reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPI	ERS			
	Traditional	(Combined		
	Plan		Plan	OP&F	Total
Year Ending December 31:					
2015	\$ (273,159)	\$	2,584	\$ (1,494,229)	\$ (1,764,804)
2016	(273,159)		2,584	(1,494,229)	(1,764,804)

2018	(713,658)		2,585	(1,494,226)	(2,205,299)
2019	0		4,381	0	4,381
Thereafter	 0		14,932	 0	 14,932
Total	\$ (1,899,938)	\$	29,650	\$ (5,976,913)	\$ (7,847,201)

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Wage Inflation
Future Salary Increases, including inflation
COLA or Ad Hoc COLA
Investment Rate of Return
Actuarial Cost Method

3.75 percent
4.25 to 10.05 percent including wage inflation
3 percent, simple
8 percent
Individual Entry Age

Mortality rates were based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

The most recent experience study was completed for the five year period ended December 31, 2010.

The long-term rate of return on defined benefit investment assets was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected real rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation.

OPERS manages investments in four investment portfolios: the Defined Benefits portfolio, the Health Care portfolio, the 115 Health Care Trust portfolio and the Defined Contribution portfolio. The Defined Benefit portfolio includes the investment assets of the Traditional Pension Plan, the defined benefit component of the Combined Plan, the annuitized accounts of the Member-Directed Plan and the VEBA Trust. Within the Defined Benefit portfolio, contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The money weighted rate of return, net of investments expense, for the Defined Benefit portfolio is 6.95 percent for 2014.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The table below displays the Board-approved asset allocation policy for 2014 and the long-term expected real rates of return:

		Long Term Expected Weighted Average
		Long-Term Expected
	Target	Real Rate of Return
Asset Class	Allocation	(Arithmetic)
Fixed Income	23.00 %	2.31 %
Domestic Equities	19.90	5.84
Real Estate	10.00	4.25
Private Equity	10.00	9.25
International Equities	19.10	7.40
Other investments	18.00	4.59
Total	100.00 %	5.28 %

Discount Rate The discount rate used to measure the total pension liability was 8 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the City's proportionate share of the net pension liability calculated using the current period discount rate assumption of 8 percent, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (7 percent) or one-percentage-point higher (9 percent) than the current rate:

City's proportionate share of the net pension liability/(asset) (in '000s)

	1% Decrease	Current Discount Rate	1	% Increase	
	 -		-		
Traditional Plan	\$ 98,400	\$	53,500	\$	15,700
Combined Plan	\$ 15	\$	(118)	\$	(223)

Actuarial Assumptions - OP&F

OP&F's total pension liability as of December 31, 2014 is based on the results of an actuarial valuation date of January 1, 2014, and rolled-forward using generally accepted actuarial procedures. The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing plan involve estimates of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of January 1, 2014, are presented below:

Valuation Date Actuarial Cost Method Investment Rate of Return Projected Salary Increases Payroll Increases Inflation Assumptions Cost of Living Adjustments January 1, 2014
Entry Age Normal
8.25 percent
4.25 percent to 11 percent
3.75 percent
3.25 percent
2.60 percent and 3.00 percent

Rates of death are based on the RP2000 Combined Table, age-adjusted as follows. For active members, set back six years. For disability retirements, set forward five years for police and three years for firefighters. For service retirements, set back zero years for police and two years for firefighters. For beneficiaries, set back zero years. The rates are applied on a fully generational basis, with a base year of 2009, using mortality improvement Scale AA.

The most recent experience study was completed January 1, 2012.

The long-term expected rate of return on pension plan investments was determined using a building-block approach and assumes a time horizon, as defined in the Statement of Investment Policy. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate and adding the expected return from rebalancing uncorrelated asset classes. Best estimates of the long-term expected geometric real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2014 are summarized below:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Cash and Cash Equivalents	- %	(0.25)%
Domestic Equity	16.00	4.47
Non-US Equity	16.00	4.47
Core Fixed Income *	20.00	1.62
Global Inflation Protected *	20.00	1.33
High Yield	15.00	3.39
Real Estate	12.00	3.93
Private Markets	8.00	6.98
Timber	5.00	4.92
Master Limited Partnerships	8.00	7.03
Total	120.00 %	

^{*} levered 2x

OP&F's Board of Trustees has incorporated the "risk parity" concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return, and creating a more risk-balanced portfolio based on their relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.2 times due to the application of leverage in certain fixed income asset classes.

Discount Rate The total pension liability was calculated using the discount rate of 8.25 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the longer-term assumed investment rate of return 8.25 percent. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 8.25 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.25 percent), or one percentage point higher (9.25 percent) than the current rate.

City's proportionate share of the net pension liability (in '000s)

	19	% Decrease		Current Discount Rate		1% Increase
		-	_	-	_	-
OP&F	\$	191,800	\$	138,700	\$	93,700

Other Post-retirement Benefits (OPEB)

In addition to the post-retirement benefits provided by the Ohio Police and Fire Pension Fund and the Ohio Public Employees Retirement System of Ohio, the City provides post-retirement health care and life insurance benefits, in accordance with union agreements and City Council ordinances, for retired employees. The post-retirement healthcare coverage is a single self-insured plan, administered through Medical Mutual, which provides medical, prescription drugs, dental, and vision benefits. The major medical portion of the coverage, which includes prescription drugs, ends at age 65. All other benefits continue for the lifetime of the participant. The life insurance amounts are dependent on age at retirement and the retiree's collective bargaining unit. All life insurance amounts are reduced by 50% after the first year of retirement. Dependents are not eligible for life insurance during retirement. The life insurance is fully insured. Substantially all of the City's employees may become eligible for those benefits if they reach normal retirement age while working for the City. Currently, 2,153 retirees meet those eligibility requirements. The City pays 100% of the cost of health care and life insurance benefits. These benefits are financed on a pay-as-you go basis; as such, the cost of retiree health care and life insurance benefits is recognized as expenditure/expense as claims are incurred. For the years ended 2015, 2014 and 2013 those costs were \$5,640,489, \$4,913,830, and \$4,168,613 respectively. Eligibility for OPEB benefits is receiving a pension benefit from OPERS, Police and Fire, or disability retirement. Former employees who are term-vested for pension benefits are not eligible.

Pursuant to GASB issued Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pension Benefits*, the City has recorded liabilities of \$43,612,975, and \$4,959,792 in the government-wide statement of net position, as liabilities due in more than one year for Governmental Activities and Business-type Activities, respectively.

Calculations are based on the OPEB benefits provided under the terms of the plan. The calculations are based on the substantive plan in effect at the time of the valuation and the plan provisions related to participant cost sharing. Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and actuarially determined amounts are subject to continual revision as results are compared to the past expectations and new estimates are made about the future. The actuarial calculations of the OPEB plan reflect a long-term perspective.

The following exhibits provide summaries of the annual required contributions, funded status, expense, and net OPEB obligation (year-end accrued liability).

	Annual			
	Required	Actual	Percentage	
Year Ended	Contributions	Contributions	Contributed	
12/31/2013	\$ 11,132,000	4,725,000	42.4	
12/31/2014	10,622,000	4,908,000	46.2	
12/31/2015	10,479,000	5,048,000	48.2	
		Percentage		
	Annual	OPEB Cost	Net OPEB	
Year Ended	OPEB Cost	Contributed	Obligation	
12/31/2013	\$ 10,899,000	43.4	38,118,000	
12/31/2014	10,341,000	47.5	43,551,000	
12/31/2015	10,070,000	50.1	48,573,000	
		Unfunded		
	Actuarial	Actuarial		Percentage
	Accrued	Accrued	Covered	of Covered
Year Ended	Liability	Liability	Payroll	Payroll
12/31/2013	\$ 172,962,000	172,962,000	85,622,000	202.0
12/31/2014	167,137,000	167,137,000	91,306,000	183.1
12/31/2015	182,820,000	182,820,000	92,598,000	197.4

OPEB are advanced-funded using the entry-age normal actuarial cost method with a level percentage of pay. The difference between assumed and actual experience (actuarial gains and losses) becomes part of unfunded actuarial accrued liability. The Unfunded Actuarial Accrued Liability is then amortized as a level percentage of pay over 30 years of open group payroll. For actuarial valuation purposes, a discount rate of 3.0% is assumed, along with a projected payroll growth rate of 2.0%. Other significant actuarial assumptions include a health care cost rate for medical and prescription drugs of 7.0% in 2015 and 2016, with the rate decreasing by one-half percentage per year an ultimate of 5.0% in 2024 and after. In subsequent years after 2024 health care cost rates are assumed to remain at 5.0%. Health care cost rates for dental and vision were assumed to be 5.0% in 2015. In subsequent years after 2015 health care cost rates for dental and vision are assumed to remain at 5.0%.

The following chart shows the determination of the 2015 annual required contribution (ARC) and accrual.

Cost Element	Fiscal Year Ending December 31, 2015			
Unfunded actuarial accrued liability	\$	182,820,000		
Annual Required Contribution (ARC) Normal cost (including interest to the end of the year)	\$	3,386,000		
Amortization of the unfunded actuarial accrued liability over 30 years using level % of payroll		7,093,000		
Annual Required Contribution	\$	10,479,000		
Annual OPEB Cost (Expense) ARC Interest on beginning of year CAFR accrual Amortization of beginning of year CAFR accrual	\$	10,479,000 1,307,000 1,716,000		
Fiscal year 2015 OPEB cost		10,070,000		
End of Year CAFR Accrual (Net OPEB Obligation) Beginning of year CAFR Accrual Annual OPEB cost Employer contribution (benefit payments and expense)	\$	43,551,000 10,070,000 5,048,000		
End of year CAFR accrual	\$	48,573,000		

10. Notes Payable

The following is a summary of note transactions for the year ended December 31, 2015 reflected in governmental activities in the government-wide financial statements:

	Governmental Activities			Governmental Activities	 Governmental Activities Internal Service	Governmental Activities		
		Special Assessment		Capital Projects	General Health		Total	
Notes Payable at January 1, 2015	\$	13,000,000	\$	-	\$ 6,500,000	\$	19,500,000	
New notes issued		13,000,000		10,000,000	4,500,000		27,500,000	
Notes retired		(13,000,000)			 (6,500,000)		(19,500,000)	
Notes Payable at December 31, 2015	\$	13,000,000	\$	10,000,000	\$ 4,500,000	\$	27,500,000	

The following is a summary of the City's future debt service requirements for notes payable as of December 31, 2015 (in thousands):

	Governmental Activities								
Fiscal Year Ending	 Special Ass	essmen	t Notes		General Obliga	ation No	tes		
December 31	Principal		Interest		Principal	I	nterest		Total
2016	\$ 13,000	\$	122	\$	14,500	\$	176	\$	27,798

The following notes are backed by the full faith and credit of the City and generally mature within one to five years. The notes generally are issued in anticipation of long-term bond financing and are refinanced, if necessary, until such bonds are issued.

Bonds issued by the City of Akron and held by the City as investments at December 31, 2015 amounting to \$55,321 (Note 2) are eliminated in the government-wide statement of net position.

10. Notes Payable (Continued)

Special assessment notes are issued to finance the property owners' share of improvements. Upon completion of a project, owners may pay the assessments in full. Bonds are issued in the amount of any unpaid assessments and are repaid largely from levies on the property owners for principal and interest collected by the County Fiscal Officer on behalf of the City.

The weighted average interest rates on special assessment notes and general obligation notes at December 31, 2015 were .94% and 1.22% respectively.

Notes payable as of December 31, 2015, are comprised of the following individual issues:

Issued	Rate %	Issue	Final Maturity	Amount
Special Assessment Notes:				
Governmental Activities: Street Cleaning/Lighting Note: December 14, 2015	0.94	12-15	December 13, 2016	\$ 13,000,000
General Obligation Notes:				
Governmental Activities: Health Benefit Notes: March 10, 2015	1.15	3-15	March 10, 2016	4,500,000
Various Purpose Improvement Notes: December 16, 2015	1.25	12-15	December 15, 2016	10,000,000
Total General Obligation Notes				14,500,000
				\$ 27,500,000

All bonds and notes are backed by the full faith and credit of the City except revenue bonds. Water Mortgage Revenue Bonds are collateralized by the capital assets of the Water System that had net carrying values of approximately \$164,083,967 at December 31, 2015. It is the City's policy to pay debt service of the Enterprise and Internal Service Funds from the receipts of those funds. Accordingly, such debt is reported in those funds. Any deficiency is paid from the City's General Fund. Revenue bonds and OWDA loans are retired entirely from the excess of operating revenues over operating expenses of the applicable enterprise activity. Therefore, the City is under no obligation to repay these long-term obligations from the City's General Fund.

The Waterworks System Mortgage Revenue Improvement Bond dated August 10, 2006 requires deposits to a Debt Service Reserve Fund based on a calculation of net operating revenues. The minimum deposits to the Debt Service Reserve Fund for this bonds is zero. The balance in the Debt Service Reserve Fund at December 31, 2015 was as follows:

	Waterworks
	System
	2006 Issue
Actual balance of debt	
service reserve fund	\$ 547,630

The debt service reserve funds for Mortgage Revenue Bond issues are included in the applicable enterprise fund for reporting purposes.

The Ohio Revised Code provides that the net debt of a municipal corporation, whether or not approved by the electors, shall not exceed 10.5% of the assessed value of all property in the municipal corporation as listed and assessed for taxation. In addition, the unvoted net debt of municipal corporations cannot exceed 5.5% of the total assessed value of property. At December 31, 2015, the City's total net debt amounted to 5.11% of the total assessed value of all property within the City and unvoted net debt amounted to 5.11% of the total assessed value of all property within the City.

On March 10, 2015, the City issued \$25,325,000 in General Obligation Various Purpose Refunding Bonds, Series 2015 maturing December 1, 2016 through December 1, 2028 with interest rates ranging from 1.5% to 5% to advance refund \$24,085,000 of outstanding General Obligation Various Purpose Refunding Bonds, Series 2006 and 2007. Net proceeds of \$14,021,482, including an original issue discount of \$29,849, a premium of \$789,997, an underwriter's discount of \$68,716 and payment of \$64,950 in issuance costs, were used to provide cash for debt service payments on the 2006 Series bonds. Net proceeds of \$12,333,842, including an original issue discount of \$50,964, a premium of \$577,994, an underwriter's discount of \$61,201 and payment of \$61,987 in issuance costs, were used to provide cash for debt service payments on the 2007 Series bonds.

As a result, the 2006 refunded bonds are considered defeased and the liability for these bonds has been removed from the financial statements. The City advanced refunded these bonds to reduce its total debt service payments by \$977,890 and incurred an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$966,753.

Also as a result, the 2007 refunded bonds are considered defeased and the liability for these bonds has been removed from the financial statements. The City advanced refunded these bonds to reduce its total debt service payments by \$619,225 and incurred an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$611,691.

On November 12, 2015, the City issued \$13,250,000 in Taxable Economic Development Refunding Bonds, Series 2015 maturing December 1, 2017 through December 1, 2026 with interest rates ranging from 1.4% to 3.625% to advance refund \$14,580,000 of outstanding Taxable Economic Development Bonds, Series 2006. Net proceeds of \$12,984,764, including an original discount of \$67,320, an underwriter's discount of \$68,143 and payment of \$129,774 in issuance costs, plus an additional \$2,678,616 of 2006 Series fund monies, were used to provide cash for debt service payments on the 2006 Series bonds.

As a result, the 2006 refunded bonds are considered defeased and the liability for these bonds has been removed from the financial statements. The City advanced refunded these bonds to reduce its total debt service payments by \$1,005,568 and incurred an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$901,465.

On November 12, 2015, the City issued \$25,370,000 in Income Tax Revenue Bonds, Series 2015 maturing December 1, 2016 through December 1, 2028 with interest rates ranging from 1% to 5% to advance refund \$31,410,000 of outstanding Certificates of Participation Bonds, Series 2005 and 2007. Net proceeds of \$13,524,596, including a premium of \$1,567,656, an underwriter's discount of \$60,315 and payment of \$74,755 in issuance costs, plus an additional \$2,997,791 of Series 2005 fund monies, were used to provide cash for debt service payments on the 2005 Series bonds. Net proceeds of \$15,020,284, including a premium of \$1,892,840, an underwriter's discount of \$68,433 and payment of \$82,113 in issuance costs, plus an additional \$1,495,686 of Series 2007 fund monies, were used to provide cash for debt service payments on the 2007 Series bonds.

As a result, the 2005 refunded bonds are considered defeased and the liability for these bonds has been removed from the financial statements. The City advanced refunded these bonds to reduce its total debt service payments by \$1,282,095 and incurred an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,232,985.

Also as a result, the 2007 refunded bonds are considered defeased and the liability for these bonds has been removed from the financial statements. The City advanced refunded these bonds to reduce its total debt service payments by \$698,893 and incurred an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$666,685.

On December 18, 2015, the City issued \$8,300,000 in Water Revenue Bonds, Series 2015 maturing March 1, 2016 through March 1, 2026 with an interest rate of 2.59% to advance refund \$8,065,000 of outstanding Water Revenue Bonds, Series 2006. Net proceeds of \$8,222,290, including payment of \$77,710 in issuance costs, plus an additional \$20,000 of 2006 Series fund monies, were used to provide cash for debt service payments on the 2006 Series bonds.

As a result, the 2006 refunded bonds are considered defeased and the liability for these bonds has been removed from the financial statements. The City advanced refunded these bonds to reduce its total debt service payments by \$761,831 and incurred an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$671,485.

The City has defeased certain debt issues by placing investments in U.S. Government obligations in irrevocable escrow accounts. Such accounts will be used, together with interest earned thereon, to provide for the payment of all principal and interest on the defeased bonds on their scheduled due dates. Accordingly, the escrow accounts and the defeased bonds summarized below are not included in the accompanying financial statements at December 31, 2015:

			Origina	al Am	ount

During 2010, the City entered into an agreement with various parties to unconditionally guarantee the principal and interest payments on behalf of the International Soap Box Derby, Inc. for the loan issued by FirstMerit Bank. As of December 31, 2015, the principal amount outstanding was \$373,852. The City believes that the International Soap Box Derby Inc. is current on all required debt service payments and will continue to pay all debt service when due throughout the remaining term of the loan; therefore, no provision for such guarantee has been recorded in the financial statements as of December 31, 2015.

During 2012, the City entered into an amendment and restatement of cooperative agreement among various parties to unconditionally guarantee the principal and interest payments of the Development Finance Authority of Summit County Revenue Bonds (Akron Civic Theatre Project), issued by the Development Finance Authority of Summit County. As of December 31, 2015, the principal amount outstanding was \$14,135,000. The City believes that the Development Finance Authority of Summit County is current on all required debt service payments and will continue to pay all debt service when due throughout the remaining term of the bonds; therefore, no provision for such guarantee has been recorded in the financial statements as of December 31, 2015.

During 2012, the City entered into a cooperative agreement with the Development Finance Authority of Summit County, Akron Baseball, LLC, and The Bank of New York Mellon Trust Company, N.A. to facilitate financing. The Development Finance Authority of Summit Development Revenue Bonds, Series 2012 were issued for \$3.6 million. The obligation of the City to make appropriation payments are subject to the annual appropriations made by City Council. The City has recorded a liability of \$208,325 for the principal and interest payments scheduled to be paid during 2016 in the accompanying financial statements. The principal balance outstanding as of December 31, 2015 is \$3,370,000.

The obligations of the City under this agreement, including its obligation to make payments during any fiscal year of the City in which this agreement is in effect, shall not constitute a general obligation or indebtedness of the City within the meaning of the constitution and laws of the State of Ohio. The agreement does not pledge any taxes or other moneys to the amounts payable by the City. Nothing constitutes a pledge by the City or an obligation by the City, of any taxes or other moneys to the payment of any amount payable by the City under this agreement; therefore, no provision for such liability has been recorded in the financial statements as of December 31, 2015.

On May 8, 2013, the Development Finance Authority (DFA) of Summit County issued Taxable Development Revenue Bonds, Series 2013A, in the amount of \$6,645,000 for the University Edge project by developer Lawrence B. Levey & University Square Investors II, LLC. These bonds mature on November 15, 2027. The City has received approval from the State of Ohio for Tax Increment Financing (TIF) on improvements to the land to be used for the project. The TIF Service Payments will be used to pay the debt service on the bonds issued by the DFA. In the event TIF Service Payments are not sufficient in any particular year to cover the annual debt service on the bonds, the developer will be required to pay the deficiency.

During 2014, the City entered into an agreement with the County of Summit and Fifth Third Bank to guarantee principal and interest payments on behalf of the Akron Community Service Center and Urban League to refinance bonds issued to pay the costs of the Akron Urban League's community service center and operations. Fifth Third agreed to issue a bank bond to the Akron Urban League in the amount of \$2,000,000 to be used to finance previous bond obligations which the City had also guaranteed. Fifth Third also agreed to issue a credit line in the amount of \$100,000 to the Akron Urban League to support operations. The City agreed to guarantee one half of the bank bond and credit line debt service to be paid solely from non-tax revenues, with the County of Summit agreeing to guarantee

the other half. As of December 31, 2015, the principal outstanding on the bank bond was \$1,922,400 and the principal outstanding on the credit line was \$49,492.

During 2015, the City reaffirmed and amended this agreement with the County of Summit and Fifth Third Bank to extend the maturity of the Akron Urban League's credit line and to guarantee principal and interest payments on an additional term loan issued to the Akron Urban League in the amount of \$200,000. The City agreed to guarantee one half of the term loan debt service to be paid solely from non-tax revenues, with the County of Summit agreeing to guarantee the other half. As of December 31, 2015, the principal outstanding on the term loan was \$190,000. The City believes the Akron Urban League is current on all required debt service payments and will continue to pay all debt service when due throughout the remaining terms of the bank bond, credit line and term loan; therefore, no provision for such guarantee has been recorded in the financial statements as of December 31, 2015.

12 Obligations Under Capitalized Leases and Certificates of Participation (COPs)

In November, 1996, \$28.9 million Series 1996 Convertible Capital Appreciation Certificates of Participation (COPs) were issued by a bank to finance the costs of the construction of a professional baseball stadium (meeting class "AA" standards) within the City. In connection with the issuance of the Series 1996 COPs, the City entered into a capital lease agreement (as lessee) for the baseball stadium. The City will make lease payments during successive annual renewal periods through November 25, 2016, providing City Council appropriates funds each year for that purpose. If the lease is paid through November 25, 2016, the City will acquire title to the baseball stadium. The lease agreement also includes a purchase option during the years 2002 through 2016.

Unspent funds of approximately \$174,876 provided from the COPs are recorded as restricted assets in the governmental activities in the accompanying government-wide statement of net position as of December 31, 2015. In the unlikely event the lease is terminated, the restricted funds are available for payment of the certificates.

The City has defeased certain certificate issues by placing investments in U.S. Government Obligations in irrevocable escrow accounts. Such accounts will be used, together with interest earned thereon, to provide for the payment of all principal and interest on the defeased certificates on their scheduled due dates. Accordingly, the escrow accounts and the defeased certificates summarized below are not included in the accompanying financial statements at December 31, 2015:

	Defeasance	Orig	ginal A	amount	Principal Outstanding
Issue	Date	Defeased		Escrowed	at 12/31/15
Certificates of Participation, Series 2005	2013	\$ 13,580,000	\$	14,619,000	\$ 3,645,000

On November 3, 2010, the City issued \$13.2 million Series 2010 Convertible Certificates of Participation (COPs) for the Akron Energy Systems Project. Total future payments as of December 31, 2015 are as follows:

	Governmental Activities							
Year		Principal		Interest				
2016	\$	495,000	\$	556,862				
2017		505,000		543,250				
2018		530,000		518,000				
2019		560,000		491,500				
2020		585,000		463,500				
2021-2025		3,405,000		1,847,750				
2026-2030		5,280,000		907,250				
	\$	11,360,000	\$	5,328,112				

12. Obligations Under Capitalized Leases and Certificates of Participation (COPs) (Continued)

The City also has seven other capital leases. One is for the redesign of the City's sanitation trash collection system. The cost of the sanitation redesign equipment is \$9,050,203 and is included in the City's capital assets in the Statement of Net Position – Governmental Activities.

The second is a lease from 2009 for equipment with an original cost of \$1,952,230. The lease was refinanced in 2013 in the amount of \$1,235,577 and is included in the City's capital assets in the Statement of Net Position – Governmental Activities and in the Water and Golf Course Funds.

The third is a 2012 lease for the purchase of various service-equipment. The cost of the equipment is \$7,154,080 and is included in the City's capital assets in the Statement of Net Position – Governmental Activities.

The fourth and fifth are 2012 capital lease agreements for street cleaners/sweepers. The cost of equipment for each lease is \$536,585 and is included in the City's capital assets in the Statement of Net Position – Governmental Activities.

The sixth is a 2013 capital lease agreement for the purchase of various service-equipment. The cost of the equipment was \$1,541,382 and is included in the City's capital assets in the Statement of Net Position – Governmental Activities.

The City entered into a seventh capital lease agreement during 2015 for street sweepers. The agreement is a 5-year lease at a rate of 2.75% for \$731,754. It is included in the City's capital assets in the Statement of Net Position - Governmental Activities.

Governmental Activities

The following is a summary of the capital lease transactions for the year ended December 31, 2015:

				Gu	V C I .	iiiiciitai Atctiv	itics	,

^{*}Amount represents the entire net book value of the capital lease recorded in the statement of net position.

13. Self-Insurance Funds

The City is exposed to various risks of loss including employee health-care costs and accidents, torts and legal judgments, and damage or destruction of assets. The City purchases fire and extended coverage insurance on all buildings and contents up to \$175,000,000 per occurrence, with a variety of deductibles beginning at \$250,000. Coverage is purchased on 924 vehicles for combined single-limit liability of \$1,000,000. There has been no significant reduction in coverage from the prior year, and settled claims have not exceeded the City's insurance coverage in any of the past three years.

The City has a Medical Self-Insurance Fund. The purpose of this fund is to pay medical claims for City employees and their covered dependents and minimize the total cost of medical benefits of the City. The plan is internally managed and accounted for as an Internal Service Fund. This Internal Service Fund has been in existence since 1987.

The City has an Internal Service Fund entitled "Workers' Compensation Reserve Fund" to account for self-insured workers' compensation claims. Workers' compensation is administered by the State of Ohio under a retrospective rating plan. The City reimburses the Ohio Bureau of Workers' Compensation for injured workers' claims subject to a maximum annual claim limit of \$300,000 for each worker's compensation claim. All funds of the City participate in the program and make payments to the Internal Service Fund based on the experience premium that would normally be charged by the Ohio Bureau of Workers' Compensation. Future claims liabilities are actuarially determined.

The City has a Self-Insurance Settlement Fund. The purpose of this fund is to pay judgments and claims. Claims are accrued based upon estimates, past experience, and current claims outstanding. Actual claims experience may differ from the estimate.

The claims liabilities of \$3,841,727, \$3,853,869, and \$622,217 reported in the Medical, Workers' Compensation, and Self-Insurance Settlement funds, respectively, at December 31, 2015, are in accordance with the requirements of GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, and GASB Statement No. 30, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues. These GASB statements require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liabilities recorded include the estimated incremental expenses to be incurred to settle the claims, including legal fees. Claims liabilities are based on evaluations of individual claims and a review of experience with respect to the probable number and nature of claims arising from losses that have been incurred but have not yet been reported. The claims liabilities represent the estimated ultimate cost of settling the claims, including the effects of inflation and other societal and economic factors. Estimated future recoveries on settled and unsettled claims, such as subrogations, if any, are evaluated in terms of their estimated realizable value and deducted from the liability for unpaid claims. Any adjustments resulting from the actual settlement of the claims are reflected in the financial statements at the time the adjustments are determined.

13. Self-Insurance Funds (Continued)

Changes in the funds' claims liabilities (both current and long-term) amounts in fiscal 2014 and 2015 were:

	Beginning			Balance		
	of Year	Claim	Period	Claim	at End

^{*} The amount that is due within one year is classified as current liabilities on the Statement of Net Position. ** The restatement amount is for the addition of the Net Pension Liability.

14. Long-term Liabilities (Continued)

The liabilities are liquidated by the various operating funds in which the liabilities exist. See Note 4 for detailed explanations for the amounts recorded as due to other governments.

15. Compliance and Accountability

The following funds have fund balance deficits or net position deficits at December 31, 2015:

Special Revenue Funds:

Income Tax Collection	\$ 473,136
Special Assessment	10,426,758
Akron Metro. Area Transportation Study	109,952
Police Grants	924,969
City Facilities Operating	350,440

Internal Service Funds:

Medical Self-Insurance	3,160,062
Workers' Compensation Reserve	1,389,641
Self-Insurance Settlement	634,275
Engineering Bureau	2,387,317
Information Technology	1,374,379

The Special Revenue Funds that have deficit fund balances at year-end have incurred expenditures that have not yet received the revenue under federal or state grant agreements or as a reimbursement from other funds. On a cash basis, the Special Assessment Fund has a positive balance and is awaiting receipt of assessments from property owners to retire the special assessment notes. The Akron Metro Area Transportation Fund and Police Grants Fund requested grant draws are based on actual cash basis expenditures. The City will review the charges for services in the City Facilities Operating Fund.

The Internal Service Funds that have deficit net position balances at year-end have incurred expenses above charges for services. User charges will be assessed to eliminate the deficits. In 2015, the City issued bond anticipation notes for the Medical Self-Insurance Fund. The debt will be repaid through user charges. The City's policy is to transfer funds from the pertinent division's operating budget for actual claim settlements to reimburse the Workers' Compensation Reserve Fund and the Self-Insurance Settlement Fund. The Engineering Bureau and Information Technology Division will review applied overhead rates charged for projects to decrease deficits going forward.

16. Income Taxes

The City levies a tax at the rate of 2.25% on substantially all income earned within the City. In addition, residents of the City are required to pay City income tax on income earned outside the City. However, a credit is allowed for income taxes paid to other municipalities. Employers within the City are required to withhold income tax on employee compensation and remit this tax to the City at least quarterly. Corporations and other individual taxpayers are required to file a declaration annually and pay their estimated tax quarterly.

On May 6, 2003, Akron voters increased the City's income tax rate from 2% to 2.25% which took effect January 1, 2004. However, the additional .25% increase is designated exclusively for funding the Akron Public Schools' local share in obtaining State of Ohio grants for the construction and renovation of community learning centers in Akron. Therefore, the additional .25% will not be distributed according to City Charter into both operation and capital improvement funds, as described below.

The proceeds of income taxes, after payment of the expenditures incurred from collection thereof, are allocated by the City Charter as follows: 27% to capital expenditures and 73% to the General Fund. The portion allocated to capital expenditures may be utilized for payment of debt service or capital expenditures of any City fund.

17. Property Taxes

Property taxes include amounts levied against all real and public utility property located in the City. The Property taxes collected are allocated to the various funds based upon voter authorization.

Real property taxes are levied each October on the assessed value listed as of the prior January 1. Assessed values are established by the County Fiscal Officer at 35% of appraised market value. By law, a revaluation of all property based on current individual appraisals is required to be completed no less than every six years. The last revaluation was completed in tax year 2014 for collection in 2015. The next sexennial revaluation will be completed in 2020 for collection in 2021. In addition, the County Fiscal Officer is required to adjust (but without individual appraisal of properties except in the sexennial reappraisal) taxable real property values triennially to reflect true values.

Real estate and public utility taxes attach an enforceable lien on property as of December 31 in the year levied. Payments are scheduled in two installments in mid-February and mid-July of the succeeding year and are considered delinquent if unpaid as of December 31 of that year.

To compensate for foregone revenue from tangible personal property tax, the state will make distributions to taxing subdivisions from revenue generated by a newly enacted commercial activity tax. Generally, these distributions are expected to fully compensate taxing subdivisions for such tax losses with gradual reductions in the reimbursement from 2011 through 2017.

The assessed value upon which the 2015 property tax was based aggregated \$2,582,886,000. The assessed value for 2015 (upon which the 2016 property tax will be based) is approximately \$2,575,065,000. Under the current allocation method, the City's share was 1.030% (10.30 mills) of assessed value in 2015 for collection in 2016. The City's Charter limits the maximum total tax rate that could be levied without a vote of the electors to 1.05% (10.5 mills).

The Fiscal Officer collects property taxes on behalf of all taxing districts in the County including the City of Akron and periodically remits to the City its portion of the taxes collected. Current real property tax collections for the year ended December 31, 2015, including delinquencies from prior years, were 92.98% of the current year tax levy. On a full accrual basis, collectible delinquent property taxes have been recorded as revenue, while the remainder of the tax receivable is deferred.

18. **JEDD Revenues**

In an effort to promote regional growth and economic development, the City has entered into contracts with four surrounding townships and a bordering municipality to create Joint Economic Development Districts (JEDDs). The City entered into separate contracts with Copley, Coventry, and Springfield Townships to create JEDDs in 1994. Voters in each township approved the respective JEDD contracts in the November 1994 election, which became effective January 1, 1995. In accordance with state law, each of the Districts' Board of Trustees levied a 2% income tax effective January 1, 1995. In accordance with the City of Akron's income tax increase, as of January 1, 2005, Copley, Coventry and Springfield's income tax rate increased to 2.25%. The proceeds of that tax are allocated, in accordance with the contract, primarily to the City. The City has utilized these JEDD revenues, in part, to construct water and sewer lines so that the JEDDs have access to the City's water and sewer system and to encourage and promote economic development.

In 1998 the City entered into a JEDD contract with Bath Township (Bath) and the City of Fairlawn (Fairlawn). This contract was approved by voters in November 1998 and became effective on January 1, 1999. As in the other JEDDs, a 2% income tax has been levied by the District. In accordance with the City of Akron's income tax increase, as of January 1, 2006, Bath's income tax rate increased to 2.25%. As stated in the contract, the net JEDD revenues are allocated to the City and Fairlawn, with the City providing water and sewer services.

19. Pledged Revenues

Pursuant to GASB No. 48, Accounting and Financial Reporting for Sales and Pledges of Receivables and Intra-Entity Transfers of Assets and Future Revenues, the City holds different types of pledged revenue. Pledged revenues of the City are broken down into water system revenues, sewer system revenues, JEDD revenues, non-tax revenues, income tax revenues, and CLC income tax revenues.

Water System Revenues

The City has pledged future water customer revenues, net of specified operating expenses, to repay \$80.4 million in water system revenue bonds and Ohio Water Development Authority loans issued at various dates ranging from September 30, 1999 through December 18, 2015. Proceeds from the bonds and loans provided financing for various water projects. The bonds and loans are payable solely from water customer net revenues and have varying final maturity dates ranging from January 1, 2020 through January 1, 2037. The total principal and interest remaining to be paid on the bonds and loans as of December 31, 2015 is \$65,364,811. Principal and interest paid for 2015 and total customer net revenues were \$15,130,766 and \$6,118,539 respectively.

Sewer System Revenues

The City has pledged future sewer customer revenues, net of specified operating expenses to repay \$526.5 million in sewer system revenue bonds and Ohio Water Development Authority loans issued at various dates ranging from December 1, 2005 through October 29, 2015. Proceeds from the bonds and loans provided financing for various sewer projects. The bonds and loans are payable solely from sewer customer net revenues and have varying maturity dates ranging from January 1, 2017 through July 1, 2049. The total principal and interest remaining to be paid on the bonds as of December 31, 2015 is \$199,273,522. Principal and interest paid for 2015 and total customer net revenues were \$36,879,862 and \$27,660,681 respectively.

19. Pledged Revenues (Continued)

JEDD Revenues

The City has pledged future JEDD revenues to repay JEDD revenue bonds originally issued in 2000 and 2002 for \$53.2 million. These bonds were refinanced in December of 2011 with a \$27.2 million refunding bond issue. Proceeds from the original bonds issued provided financing for various water and sewer projects. The bonds are payable solely from JEDD revenues and have a final maturity date of December 1, 2022. The total principal and interest remaining to be paid on the bonds as of December 31, 2015 is \$25,179,013. Principal and interest paid for 2015 and total JEDD revenues were \$4,287,463 and \$18,723,573 respectively.

Issued	Amount of Issue	Purpose of Issue	Final Maturity	Debt Service	Future Debt Service	
12/21/11	\$ 27,165,000	Various Water/Sewer Projects	12/01/22	\$ 4,287,463	\$	25,179,013

Non-Tax Revenues

The City has pledged future non-tax revenues, to repay \$55.5 million in non-tax revenue bonds issued December 15, 2011 through November 12, 2015. In December of 2011, bonds were issued to refund the bonds originally issued in 1997. The 2014 issue refunded the issue from 2008. The 2015 issue refunded the issue from 2006. Proceeds from the bonds provided financing for various economic development and renovation projects. The bonds are payable from non-tax revenue including shared revenue, charges for services, licenses, fees, and fines, and miscellaneous revenue. The maturity dates range from December 1, 2018 through December 1, 2034. The total principal and interest remaining to be paid on the bonds as of December 31, 2015 is \$59,697,645. Principal and interest paid for 2015 and total non-tax revenues were \$5,346,034 and \$85,349,229 respectively.

Income Tax Revenues

The City has pledged future income tax revenues to repay \$118.7 million in income tax revenue bonds and bond anticipation notes issued at various dates ranging from December 15, 2011 through December 16, 2015. The 2011 issue refunded an issue from 1999. Proceeds from the bonds provided financing for various liabilities, equipment, facilities, and improvements. The bonds are payable solely from income tax revenues and have varying maturity dates ranging from March 10, 2016 through June 1, 2035. The total principal and interest remaining to be paid on the bonds as of December 31, 2015 is \$147,529,261. Principal and interest paid for 2015 and total income tax revenues were \$6,111,450 and \$126,034,578 respectively.

CLC Income Tax Revenues

The City's income tax rate includes .25% Community Learning Center (CLC) income tax revenue. This is designated exclusively for funding the Akron Public Schools' local share in obtaining State of Ohio grants for the construction and renovation of community learning centers (CLC) in Akron. The City has issued bonds totaling \$250.4 million with final maturities in 2026 and 2033. The Akron Public Schools' annual contribution towards this debt is \$3,000,000. The City has committed each year, from the supplemental income tax revenue, amounts sufficient to cover the City's portion of the principal and interest requirements. Total principal and interest remaining on bonds are \$373,991,822. For 2015 total principal and interest paid by the City was \$18,624,941 and total income tax revenues were \$17,254,073.

^{*}Net of \$3,000,000 annual contribution from Akron City School District.

20. Pollution Remediation

GASB Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Cost* addresses reporting standards for pollution remediation obligations. The City is aware of nine sites that meet the requirements for disclosure. The first site is a vacant, undeveloped piece of land known as the Middlebury Property which includes Middlebury East and Middlebury Grocery. The City of Akron legally obligated itself by voluntarily commencing cleanup activities and has obtained a \$750,000 grant to assist in the remediation clean-up. The projected cost to remediate Middlebury East was estimated at approximately \$1,200,000. A No Further Action (NFA) letter was submitted to the Ohio Environmental Protection Agency (OEPA) in 2014. Ohio EPA issued a Covenant Not To Sue on July 14, 2015. However, the cost of the abandonment of all the wells, piping and vaults associated with the remediation will be completed in 2016 with an estimated cost of \$205,000. There are no expenses expected for 2017 and beyond. This amount is included in the Statement of Net Position as of December 31, 2015. As for Middlebury Grocery, the expenses are estimated at \$5,000 for 2016 and \$40,000 to the end of the project to facilitate the Operation and Maintenance Plan. This amount is minimal and is not included in the Statement of Net Position as of December 31, 2015.

The second site is known as the Westside Depot property where the City of Akron was compelled to take remediation action. This site used to house an underground storage tank (UST) system. During an upgrade to this system in 1991, there was evidence of residual petroleum hydrocarbons under the tank and the associated dispensing equipment. This site also had been the location of a previous UST system that may have consisted of a diesel tank, a gasoline tank, and a kerosene tank. The City conducted free product recovery in 2015 from this site. The City may request a NFA letter from the Ohio Bureau of Undergrand Storage Tank Regulation (BUSTR) in 2016. The amount estimated for 2016 is \$41,200 with \$30,000 for 2017 and beyond. These amounts are recorded as a liability in the Airport Fund as of December 31, 2015.

The third site is for remediation work is in the Landmark Building. The remediation work included asbestos abatement, general waste removal and soil remediation activities. The total project cost was estimated to be just under \$2,000,000. The City has received funding from the Ohio Development Services Agency (ODSA)to assist with this project. On May 1, 2012, the City received a Covenant Not to Sue order for the NFA letter filing regarding this property. At this time the costs anticipated to be spent on the Operation and Maintenance Plan with the OEPA in 2016 and beyond are minimal. Therefore no liability has been recorded as of December 31, 2015.

The fourth site is referred to as the Imperial Electric/XXth Century property. The City conducted demolition and remediation activities at this site with a total cost of \$1,600,000. The City was awarded Clean Ohio Revitalization Funds (CORF) to assist in the remediation of the property. The project was completed in 2013 and a NFA letter was submitted. On February 24, 2015, the Director of the OEPA issued the Covenant Not to Sue. There continues to be an Operation and Maintenance requirement for this property. There are no further expenses expected for 2016 and beyond. No liability has been included in the Statement of Net Position as of December 31, 2015.

The fifth site is referred to as the Goodyear Powerhouse Building. Even though the City does not own this property, it is part of the Goodyear Development Project and the CORF Grant Agreement that was awarded to the City of Akron in March 2012. The final grant disbursement was processed in 2015. A No Further Action (NFA) letter was submitted to the OEPA in May 2015. Ohio EPA is requiring additional sampling which was scheduled to be completed in early 2016. Estimated costs for 2016 are \$5,000 with no liability for 2017 or beyond. Since this amount is minimal, no liability has been included in the Statement of Net Position as of December 31, 2015.

20. Pollution Remediation (Continued)

The sixth site is referred to as the Seiberling Street Landfill Road Project. It is funded 100% by grants from Ohio Department of Transportation (ODOT), Ohio Public Works Commission (OPWC) and ODSA. The estimated total project cost is approximately \$2,200,000. In 2011 the Director of the Ohio EPA issued an Exemption Order which was completed in 2015. The City submitted a Final Certification Report in accordance with the Exemption Order in 2015. On April 29, 2015, the Ohio EPA issued a Compliance Letter to the City regarding the Final Certification Report. Since this project is funded 100%, there will be no recorded liability as of December 31, 2015.

The seventh site is referred to as 144 Cuyahoga Street or the former Garlando's Produce property which was acquired by the City of Akron. The building was abated and demolished in 2015. However, during construction two additional Underground Storage Tanks (UST's) were found which will require removal. The 2016 expenses are estimated at \$10,000 for the Tier 1 Delineation Notification/Tier 1 Evaluation Report. \$40,000 is estimated for 2017 and beyond to clean up the site by excavating the contaminants. This liability is included in the Statement of Net Position as of December 31, 2015.

The eighth site is known as the Water Reclamation Facility Underground Storage Tanks Project. There has been an ongoing remediation of two former USTs at the City's Water Reclamation Facility since 1999. The tanks were removed from the ground over ten years ago and have been regulated under the Ohio BUSTR because there was a release from each UST. The City has been engaged in the ongoing implementation of corrective action for each release in accordance with BUSTR's regulations. Well sampling work has continued in 2015. The City is waiting for the response to the last report submitted to BUSTR. The estimated cost for 2016 is \$20,000 and \$40,000 for 2017 and beyond. This liability is minimal and will not be included as a liability as of December 31, 2015.

The ninth site is referred to as Combined Sewer Overflow (CSO) Tank No. 2 Rehabilitation Project. This site is located east of Kelly Avenue and adjacent to the former Settlement Street Landfill. The City was awarded a grant with OPWC to undertake construction activities on the the property to rehabilitate CSO Tank No. 2. On March 19, 2014, the City obtained a Rule 13 approval from the OEPA which regulates the management of waste since investigation found various fill materials and contaminated soils on the site. Construction began in 2014 and continued through 2015. Rule 13 also authorizes the City to excavate and relocate waste on the property and contains several terms and conditions for the City of Akron regarding this project. The Final Rule 13 report is in draft now and should result in the OPEA approving the report and closing out any obligations associated with the Rule 13 for the City. The cost for an Affidavit of Facts for 2016 is \$200. There is no expected further cost for 2017 and beyond. This cost is minimal and will not be included as a liability as of December 31, 2015.

21. Deferred Inflows/Outflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The City has deferred charges on the issuance of bonds reported in the government-wide and proprietary fund statements of net position. A deferred charge results from the difference in the carrying value of the debt and its par amount. This amount is deferred and amortized over the life of the debt. Deferred outflows related to pensions result from changes in Net Pension Liability not recognized as a component of current year pension expense. This amount is deferred and amortized over various periods as instructed by the pension plan administrators.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The City has nonexchange revenue transactions where a receivable has been recorded (such as when property taxes were levied), but the resources cannot be used until a future period. These items have been reported as deferred inflow on the government-wide Statement of Net Position. In addition, deferred inflows related to pensions are reported in the government-wide and proprietary fund statements of net position. Deferred inflows related to pensions result from changes in Net Pension Liability not recognized as a component of current year pension expense. This amount is deferred and amortized over various periods as instructed by the pension plan administrators.

On the Statement of Net Position Proprietary Funds, the City has recorded certain deferred items that will not be expensed in the current period. Internal service fund deferred outflows from pension expense at December 31, 2015 were \$824,472 are included in governmental activities. Unavailable revenues have been reported as deferred outflows of resources in the following amounts:

			Business Typ	pe Act	tivities	
					Other	Total
	Governmental]	Enterprise	Enterprise
	 Activities	 Water	 Sewer		Funds	 Funds
Unamortized Bond Discount Deferred Loss on Early	\$ 602,453	\$ 162,042	\$ -	\$	-	\$ 162,042
Retirement	377,312	_	101,477		_	101,477
Pension Expense	25,156,318	1,330,353	908,064		83,046	2,321,463
•	\$ 26,136,083	\$ 1,492,395	\$ 1,009,541	\$	83,046	2,584,982

A summary of the deferred inflows of resources reported in the government-wide and proprietary fund statement of position follows. Internal service fund deferred inflows related to pensions at December 31, 2015 were \$80,407 and are included in governmental activities.

Dusiness Type Activities

			Dusiness i	ı ype A	cuviues	
					Other	Total
	Governmental			E	Enterprise	Enterprise
	 Activities	 Water	 Sewer		Funds	 Funds

	\$ 173,483,432	\$ 1,190,759	\$ 255,561	\$	8,099	1,454,419

21. Deferred Inflows/Outflows of Resources (Continued)

On the modified accrual basis of accounting, the City has recorded certain receivables where the related revenue is unavailable. Unavailable revenues have been reported as deferred inflows of resources on the governmental fund balance sheet for the following:

	Governmental Funds											
			Community		Income Tax Special				Other	Total		
	General	ral Learning		Capital			Assessment	Governmental			Governmental	
	Fund		Centers	I	mprovement	F	Bond Payment		Funds		Funds	
Income Taxes	\$ 6,885,483	\$	_	\$	2,546,685	\$	-	\$	2,047,638	\$	11,479,806

	\$ 30,286,074	\$	54,848,849	\$	2,546,685	\$	33,581,605	\$	21,571,945	\$	142,835,158	

22. Transfers and Advances

For the year ended December 31, 2015 transfers and advances presented in conformity with generally accepted accounting principles (GAAP) are listed in the following tables. Interfund transfers are made to cover expenditures/expenses in various funds or to fulfill grant match requirements.

						Tra	insfers In				
	Transfers	C	Other Sovernmental Funds]	Other Enterprise Funds		Off- Street Parking		Income Tax Capital		Total
	 Out		runus		runus			1	mprovement		Total
Governmental Funds:											
General Fund	\$ 3,108,514	\$	2,221,214	\$	567,300	\$	320,000	\$	-	\$	3,108,514
Other Governmental	5,869,108		-		-		-		5,869,108		5,869,108
	\$ 8,977,622	\$	2,221,214	\$	567,300	\$	320,000	\$	5,869,108	\$	8,977,622

The table below presents the amounts the City has advanced to various funds during 2015.

		A	Advanced To			
			Other		Internal	
	Advanced		Governmental		Service	
	From		Funds		Funds	Total
Governmental Funds:						
General Fund	\$ 393,700	\$	191,700	\$	202,000	\$ 393,700
Income Tax Capital Improvement	920,000		920,000		-	920,000
	\$ 1,313,700	\$	1,111,700	\$	202,000	\$ 1,313,700

23. Contingencies

(1) Litigation

The City is a defendant in a number of lawsuits pertaining to matters that are incidental to performing routine governmental functions. In an ongoing promotional examination case, the plaintiffs were awarded, during 2016, back wages in the amount of \$900,000 and interest in the amount of \$140,000. The one unresolved item is the plaintiff's fees and costs. The City's management is of the opinion that ultimate settlement of all outstanding litigation and claims will not result in a material adverse effect on the City's financial position.

(2) Federal and State Grants

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designees. Such audits could lead to a request for reimbursement to the grantor agencies for expenditures disallowed under the terms of the grants. The City believes that such disallowances, if any, would not have a material adverse effect on the City's financial position.

(3) Water Agreement

The City of Akron acquired a water system, located in Hudson, from the County of Summit in December of 2006 for \$6,454,845. In exchange for the water system, the County received the benefit of a future credit to be applied towards the purchase of Akron owned sewer infrastructure. As of December 31, 2015, the County has not purchased any sewer infrastructure and the full balance of the credit is remaining.

24. Closure and Post-Closure Care Costs

Pursuant to a ruling by the Ohio EPA, the Hardy Road Landfill officially closed on June 30, 2002. The City has begun diverting its waste to Waste Management's American Landfill located in Stark County. As part of a 1998 agreement, the City agreed to use landfill facilities controlled by Akron Regional Landfill, Inc., (a subsidiary of Waste Management) for disposal of ninety percent of the refuse collected by the City's sanitation division.

On October 4, 2004, the City entered into an Agreement with the Summit/Akron Solid Waste Management Authority (Authority) implementing a \$1.20 per ton increase in the waste management generation fee by the Authority to help fund the closure and post-closure operations of the landfill.

25. Jointly Governed Organizations

Reported as a non-major special revenue fund in the City's CAFR, the Akron Metropolitan Area Transportation Study (AMATS) is an association of various local political subdivisions in the Akron area whose purpose is to develop and implement a comprehensive and continuing transportation plan for Summit, Portage and parts of Wayne County. The operations of AMATS are financed primarily by federal and state grants and local matching contributions. AMATS is staffed by employees of the City of Akron Department of Planning and Urban Development, and support functions are performed by various departments of the City. The City also makes all disbursements on behalf of AMATS and is reimbursed by the AMATS local share and grant funds. Most of AMATS' grant funds are deposited in a trust fund with Summit County (not included in the City's books), while some funds are deposited directly with the City of Akron.

The Akron/Summit Convention and Visitors' Bureau (Convention Center) was constructed by the City of Akron along with the County of Summit and the University of Akron, with the City paying approximately 26% of the construction costs. The Convention Center contains meeting rooms, an exhibit hall, and a large ballroom-banquet facility to accommodate a wide range of seminars, trade shows, and major community events.

26. Related Organization

The City of Akron, in conjunction with Summit County, University of Akron, Medina County, and Greater Akron Chamber of Commerce, agreed to form the Summit Medina Business Alliance (SMBA). SMBA is a not-for-profit corporation which supports economic development of the region. The organization entered into an agreement with the Kent Regional Business Alliance to carry out activities in cooperation with the Ohio Development Services Agency and the Small Business Administration. The Mayor of the City of Akron appoints three of the five voting members of the board of trustees of the Summit Medina Business Alliance. The SMBA does not pose a financial burden on the City of Akron since it receives revenues from the City and other governments in the area. During 2015, the City paid SMBA \$56,250 for operating expenses.

27. Fund Balance

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

	General Fund	Community Learning Centers	Income Tax Capital Improvement	Special Assessment Bond Payment	Other Governmental Funds	Total Governmental Funds
Fund balances:						
Nonspendable:	Φ.	0	Ф	¢.	Ф 4.79.C 222	Ø 4.707.222

The amounts classified as nonspendable represent non-financial assets held for resale.

28. Restatement of Net Position

For 2015, the City implemented the Governmental Accounting Standards Board (GASB) Statement no. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date-an amendment of GASB Statement No. 68." GASB 68 established standards for meausring and recognizing pension liabilities, deferred outflows of resources, deferred inflows of resources and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported December 31, 2014:

		Balance as of Restatement December 31, for Net Pension Liability		Restatement for Deferred Outflows - Subsequent to Measurement Date			December 31, 2014 as restated		
Statement of Net Position									
Governmental Acivities	\$	382,194,531	\$_	(170,704,405)	\$	16,342,324	\$	227,832,450

Water	\$	118,441,433	\$	(6,838,278)	\$	871,478	\$	112,474,633	
Sewer	\$	222,515,410	\$	(4,667,632)	\$	594,849	\$	218,442,627	
Other Enterprise Funds	\$	9,843,545	\$_	(426,879)	\$	54,402	\$	9,471,068	

29. Subsequent Events

On February 22, 2016, City Council passed ordinance 39-2016 authorizing the issuance of Health Benefit Claims Notes in the maximum principal amount of \$5,000,000 to pay the costs of maintaining the self-insurance program for employee health care benefits.

On April 11, 2016, City Council passed ordinance 105-2016 authorizing the issuance and sale of bonds in the maximum principal amount of \$5,000,000 for the purpose of paying the costs of a court approved settlement and a final judgement rendered against the City by the United States District Court, Northern District of Ohio, Eastern Division in the case *William Howe, et al v. City of Akron.*

On May 2, 2016, City Council passed ordinance 131-2016 authorizing the issuance of a bond of the City in a principal amount not to exceed \$72,500,000 for sale to the Water Pollution Control Loan Fund of the State of Ohio to finance the costs of improvements to the City's wastewater system.

On May 16, 2016, City Council passed ordinance 155-2016 authorizing the issuance of a bond of the City in a principal amount not to exceed \$27,200,000 for sale to the Water Pollution Control Loan Fund of the State of Ohio to finance the costs of improvements to the City's wastewater system.

29. Subsequent Events (Continued)

On May 16, 2016, City Council passed ordinance 156-2016 authorizing the issuance of a bond of the City in a principal amount not to exceed \$18,200,000 for sale to the Water Pollution Control Loan Fund of the State of Ohio to finance the costs of improvements to the City's wastewater system.

On July 11, 2016, City Council passed ordinance 221-2016 authorizing the issuance of a bond of the City in a principal amount not to exceed \$7,500,000 for sale to the Water Pollution Control Loan Fund of the State of Ohio to finance the costs of improvements to the City's wastewater system.

On July 18, 2016, City Council passed ordinance 225-2016 authorizing the issuance of a bond of the City in a principal amount not to exceed \$1,800,000 for sale to the Water Pollution Control Loan Fund of the State of Ohio to finance the costs of improvements to the City's wastewater system.

On July 18, 2016, City Council passed ordinance 226-2016 authorizing the issuance of a bond of the City in a principal amount not to exceed \$5,000,000 for sale to the Water Pollution Control Loan Fund of the State of Ohio to finance the costs of improvements to the City's wastewater system.

On July 18, 2016, City Council passed ordinance 227-2016 authorizing the issuance of a bond of the City in a principal amount not to exceed \$7,000,000 for sale to the Water Pollution Control Loan Fund of the State of Ohio to finance the costs of improvements to the City's wastewater system.

Notes to the Required Supplementary Information

For the Year Ended December 31, 2015

Budgetary Data

The City's budgetary process is based upon accounting for certain transactions on a basis other than on generally accepted accounting principles (GAAP). The actual results of operations are presented in the Budgetary Comparison Schedule in accordance with the City's budgetary process (budget basis) to provide a meaningful comparison of actual results with the budget. The legal level of budgetary control is by category for each department within each fund. The categories are wages/benefits, other, and capital outlay.

The major differences between budget basis and GAAP basis in the General Fund, the Community Learning Centers Fund, and Income Tax Capital Improvement Fund are:

- 4. Revenues are recorded when received in cash (budget) as opposed to susceptible to accrual (GAAP).
- 5. Expenditures are recorded when paid in cash (budget) as opposed to when the liability is incurred (GAAP).
- 6. Encumbrances are recorded as the equivalent of expenditures (budget) as opposed to restricted, committed or assigned fund balance (GAAP).

Recognition of certain revenues may be reclassified between funds to facilitate matching with the related expenditures.

	 General	 Community Learning Centers	g Capit		
Excess (Deficiency) of revenues and other financing sources over expenditures and other financing uses (budgetary basis)	\$ (495,383)	\$ 1,553,699	\$	(1,750,889)	
Adjustments:					
To adjust revenues for accruals	(8,801,981)	11,179,707		76,092,199	
To adjust expenditures for accruals	7,358,334	(29,762,676)		(76,049,500)	
To adjust for encumbrances	 2,037,639	 	_	770,138	
Net change in fund balance (GAAP basis)	\$ 98,609	\$ (17,029,270)	\$	(938,052)	

Schedule of City's Proportionate Share of Net Pension Liability

Information regarding the City's proportionate share of the net pension liability (asset) for 2013 and 2014 has been provided by the Ohio Public Employees Retirement System (OPERS) and the Ohio Police and Fire Pension Fund (OP&F). The net pension liability (asset) presented in the City's financial statement as of December 31, 2015 is based on the measurement date of December 31, 2014. Information presented in this exhibit is not available for years prior to 2013.

Schedule of the City Contributions to State Pension Funds

Contributions included in the schedule of city contributions are presented net of other postemployment benefits (OPEB). The Board of Trustees for both OPERS and OP&F determine the allocation between pension and OPEB plans annually and this allocation may change for year to year. The city pays all contractually required employer rates for OPERS & OP&F employees.

OPERS maintains three separate pension plans. The employer contribution rate is the same for all three plans. The City does not know which plan each of its employees participates in and; therfore; the information presented in the contribution schedule combines all plans from fiscal year ending Deceber 31, 2006 through fiscal year ending December 31, 2013.

NON-MAJOR GOVERNMENTAL FUNDS

Special Revenue Funds - are used to account for types of resources for which specific uses are mandated by City ordinances or federal and state statutes. The title of the fund is descriptive of the activities accounted for therein. The non-major Special Revenue Funds are:

To Account for Special Purposes:

Income Tax Collection Canal Park Stadium COPs

Emergency Medical Service Downtown District Heating COPs

Special Assessment Off-Street Parking COPs

Street and Highway Maintenance Safety Programs

Tax Equivalency City Facilities Operating
E.D.A. Revolving Loans Various Purpose Funding

E.D.A. Revolving Loans Various Purpose Funding
Joint Economic Development Districts Deposits

Akron Muni. Court Information System

Federal and/or State Statutes to Account for Grants and Subsidies:

Community Development H.O.M.E. Program
Community Environment Grants Police Grants

Akron Metro. Area Transportation Study

NON-MAJOR GOVERNMENTAL FUNDS (Continued)

Debt Service Funds - are used to account for the accumulation of financial resources for, and the payment of, general long-term debt principal, interest and related costs. The non-major Debt Service Funds are as follows:

General Bond Payment
Debt Service Bond Payment
Main Place Bond Payment
Downtown Hotel Bond Payment
Non-Tax Revenue Bond Payment

Pension Obligation Refunding JEDD Bond Payment Income Tax Bond Payment Taxable Revenue Bond Payment

Capital Project Funds – are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The non-major Capital Projects Funds are as follows:

To Account for Grant Revenue and Other Funding Sources:

Information Technology and Improvements Public Parking

Parks and Recreation Streets

Public Facilities and Improvements Economic Development

NON-MAJOR ENTERPRISE FUNDS

Enterprise Funds – are used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The non-major Enterprise Funds are as follows:

Oil and Gas Golf Course Airport

INTERNAL SERVICE FUNDS

Internal Service Funds – are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governmental units, on a cost-reimbursement basis. The title of the funds indicate the type of service provided. The Internal Service Funds are:

Motor Equipment
Medical Self-Insurance
Workers' Compensation Reserve
Self-Insurance Settlement
Telephone System
Engineering Bureau
Information Technology

Statistical Section

Statistical Section

This part of the City of Akron's (City) comprehensive annual financial report presents detailed historical information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.

Contents	<u>Page</u>
Financial Trends	205
These schedules contain trend information to help the reader understand	
how the City's financial performance and well-being have changed over time.	
Revenue Capacity	212
These schedules contain information to help the reader assess the City's	
most significant local revenue sources which are income tax and property tax.	
Debt Capacity	217
These schedules present information to help the reader assess the affordability	
of the City's current levels of outstanding debt and the City's ability to issue	
additional debt in the future.	
Demographic and Economic Information	225
These schedules offer demographic and economic indicators to help the	
reader understand the environment within the City.	
Operating Information	227
These schedules contain service and infrastructure data to help the reader	
understand how the information in the City's financial report relates to the	
services the City provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.
