INDEPENDENT AUDITOR'S REPORT

Defiance City School District
Defiance County
629 Arabella Street
Defiance, Ohio 43512-2856

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Defiance City School District, Defiance County, Ohio (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with the cash accounting basis Note 2 describes. This responsibility includes determining that the cash accounting basis is acceptable for the circumstances. Management is also responsible for designing, implementing and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Defiance City School District, Defiance County, Ohio, as of June 30, 2015, and the respective changes in cash financial position and the budgetary comparison for the General Fund for the year then ended in accordance with the accounting basis described in Note 2.

Accounting Basis

Ohio Administrative Code § 117-2-03(B) requires the District to prepare its annual financial report in accordance with accounting principles generally accepted in the United States of America. We draw attention to Note 2 of the financial statements, which describes the basis applied to these statements. The financial statements are prepared on the cash basis of accounting, which is a basis other than generally accepted accounting principles. We did not modify our opinion regarding this matter.

Other Matters

Supplemental Information

Our audit was conducted to opine on the financial statements taken as a whole.

The Schedule of Federal Awards Receipts and Expenditures presents additional analysis as required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is also not a required part of the financial statements.

The schedule is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

We applied no procedures to Management's Discussion and Analysis presented as listed in the table of contents. Accordingly, we express no opinion or any other assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 28, 2016, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance.

That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Fiscal Year Ended June 30, 2015

(Unaudited)

The discussion and analysis of Defiance City School District's (the District) financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for fiscal year 2015 are as follows:

In total, net position increased \$23,368,794, which represents a 261% increase from 2014.

General receipts accounted for \$55,631,745 or 92% of all receipts and reflect the District's significant dependence on local property taxes, income taxes and unrestricted state entitlements.

The District had \$37,333,131 in disbursements related to governmental activities; only \$5,070,180 of these disbursements was offset by program specific charges for services and sales or restricted grants, contributions and interest. General receipts and previously unrestricted fund balances supported the remaining disbursements of \$32,262,951 associated with governmental activities.

Outstanding debt increased from \$8,540,000 to \$24,275,000, due to issuance of new Various Purpose Bonds.

Using the Basic Financial Statements

This annual report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand Defiance City School District as a financial whole, or as an entire operating entity.

The Statement of Net Position and the Statement of Activities provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a long-term view of those finances. Fund financial statements provide a greater level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. The fund financial statements also look at the District's most significant funds, with all other non-major funds presented in total in a single column. For Defiance City School District, the General Fund, Debt Service, Building Fund, and Classroom Facilities Fund are the most significant funds.

Basis of Accounting

The District has elected to present its financial statements on the cash basis of accounting. This cash basis of accounting is a comprehensive basis of accounting other than generally accepted accounting principles. The cash basis of accounting involves the measurement of cash and cash equivalents and changes in cash and cash equivalents resulting from cash receipt and disbursement transactions.

Essentially, the only assets reported on this strictly cash receipt and disbursement basis presentation in a statement of net assets will be cash and cash equivalents. The statement of activities reports cash receipts and disbursements, or in other words, the sources and uses of cash and cash equivalents and investments. Therefore, when reviewing the financial information and discussion within this annual report, the reader should keep in mind the limitations resulting from the use of the cash basis of accounting.

Reporting the District as a Whole

Statement of Net Position and Statement of Activities

**DEFIANCE CITY SCHOOL DISTRICT
DEFIANCE COUNTY**

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Fiscal Year Ended June 30, 2015

(Unaudited)

(Continued)

The Statement of Net Position and the Statement of Activities reflect how the District did financially during fiscal year 2015. These statements report the District's net assets and changes in those assets. This change in net position is important because it tells the reader whether the financial position of the District as a whole has increased or decreased from the prior fiscal year. Over time, these increases and/or decreases are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, the District discloses a single type of activity: governmental activities. All of the District's programs and services are reported here including instruction, support services, non-instructional services, extracurricular activities, food service operations, capital outlay, and debt service. These services are primarily funded by property tax revenues and from intergovernmental revenues, including Federal and State grants and other shared revenues.

Reporting the District's Most Significant Funds

Financial statements provide detailed information about the District's major funds. While the District uses many funds to account for its financial transactions, the fund financial statements focus on the District's most significant funds. The District's major governmental funds for fiscal year 2015 were the General Fund, Debt Service Fund, Building Fund, and Classroom Facilities Fund.

Governmental Funds – Most of the District's activities are reported in governmental funds, which focus on how monies flow into and out of those funds and the balances left at fiscal year-end for spending in future periods. These funds are reported using a cash basis of accounting. Receipts are recognized when received in cash and disbursements are recognized when paid. The governmental fund financial statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the District's programs. These funds also use the cash basis of accounting.

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for some of its scholarship and trust programs. This activity is presented as a private purpose trust fund. The District also acts in a trustee capacity as an agent for individuals, private organizations, other governmental units and/or other funds. These activities are reported in agency funds. The District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

The District as a Whole

This year's financial statements were prepared on the cash basis format.

Table 1 provides a summary of the District's net position for fiscal year 2015 in comparison to fiscal year 2014:

Total net position	<u>\$ 32,338,756</u>	<u>\$ 8,969,962</u>

For fiscal year 2015, a portion of the District's net position, \$23,245,242 represents resources that are subject to external restriction on how they may be used. The remaining balance of the government-wide unrestricted net position of \$9,093,514 may be used to meet the District's ongoing obligations. For fiscal year 2014, these amounts were \$2,213,935 with external restrictions, and \$6,756,027 remaining for general operations. Net Position of the Governmental Activities increased \$23,368,794, which represents a 261% increase over fiscal year 2014. The increase was due to conservative spending and attrition.

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Fiscal Year Ended June 30, 2015
(Unaudited)
(Continued)

The total disbursements of \$37,333,131 were offset by program receipts of \$5,070,180 and by general receipts of \$55,631,745. Program receipts supported 14% of the total governmental disbursements. The primary sources of general receipts for governmental activities are derived from property taxes, income taxes and grants and entitlements. These receipt sources represent 52% of total governmental receipts.

The major program disbursement for governmental activities is for instruction, which accounts for 43% of all governmental disbursements. Other programs which support the instruction process, including pupils, instructional staff, and pupil transportation account for 10% of governmental disbursements. Maintenance of the District's facilities also represents a significant disbursement, 6%. Therefore, 59% of the District's disbursements are related to the primary functions of providing facilities and delivering education.

The graph below presents the portion of the disbursements which are related directly to the District's primary functions.

Table 3 indicates the total cost of services and the net cost of services for governmental activities for 2015 and 2014. The statement of activities reflects the cost of program services and the charges for services, grants, contributions and interest offsetting those services. The net cost of services identifies the cost of those services supported by tax receipts and unrestricted state entitlements.

MANAGEMENT'S DISCUSSION AND ANALYSIS

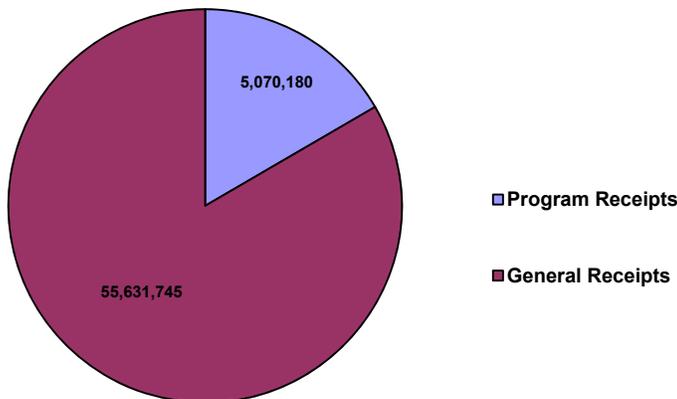

For the Fiscal Year Ended June 30, 2015

(Unaudited)

(Continued)

The District's Funds

The District's governmental funds are accounted for using the cash basis of accounting on the fund financial statements. Including Other Financing Sources and Uses, total governmental funds had receipts of \$60,701,925 and disbursements of \$37,333,331 in fiscal year 2015. The overall positive change for 2015 is \$23,368,794 in fund balance for the fiscal year, primarily attributable to conservative spending, attrition and the new Building Project.

General Fund

Fund balance at June 30, 2015 was \$9,093,514, including \$8,684,025 of unassigned fund balance. Unassigned fund balance comprised 96% of the total fund balance. General fund disbursements were \$23,263,520 or 62% of total governmental disbursements.

Debt Service Fund

Fund balance at June 30, 2015 was \$1,897,550. Debt Service fund disbursements and other financing uses were \$10,069,133 or 27% of total governmental disbursements.

Building Fund

Fund balance at June 30, 2015 was \$4,262,149, which is a 100% increase due to the sale of bonds for the 6-12 Facilities Project.

Classroom Facilities Fund

Fund balance at June 30, 2015 was \$15,343,148, which is a 100% increase due to the sale of bonds for the 6-12 Facilities Project.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. The statement comparing the District's original and final budget and actual results, for the General Fund, is presented as part of the basic financial statements.

During fiscal year 2015, the District amended its General Fund budget as needed. Final budgeted receipts and other financing sources in the amount of \$24,936,467 were lower than the original budgeted receipts and other financing sources of \$25,738,008, which did not represent a significant change. The actual receipts and other financing sources of \$25,437,317 was \$500,850 higher than the final budget amounts. This difference is due to conservative estimates of tax revenues and accurate reporting of EMIS data.

General fund original budgeted disbursements and other financing uses of \$21,971,910 were increased to \$24,621,174, which represented a 12% change. The actual disbursements and other financing uses for fiscal year 2015 totaled \$23,260,339 which was \$1,360,835 less than the final budgeted disbursements and other financing uses, due to conservative estimates of disbursements.

Debt

DEFIANCE COUNTY**

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Fiscal Year Ended June 30, 2015
(Unaudited)

The District's outstanding debt obligations at fiscal year-end consisted of the OSFC Building bonds of \$24,275,000. For further information regarding the District's long-term obligation, see Note 13 to the basic financial statements.

Current Issues

The Defiance City School District continues to responsibly budget dollars coming to the District. Perpetual challenges to the District's financial outlook include the uncertainty in the state education budget year after year, and aging facilities. Despite these challenges, the District remains a strong service provider to the students of the Defiance area.

During fiscal year 1997, the Board of Education started receiving collections of receipts on a 5-year emergency levy which was approved by voters. The District continued receiving collections in the same amount (\$1,580,000) and in March, 2012, citizens of the Defiance City Schools' community strongly showed their support of the district and approved the passage of the 5-year emergency levy renewal. The citizens of the Defiance City Schools' community strongly showed their support of the district again on May 6, 2014 with the passage of the 3.78 mills bond levy to build a new 6-12 facility for the students and community.

The District is working with OFCC and meeting monthly to meet current deadlines for the 6-12 Building Project. The new school will be built for grades 6 through 12, but grades 6-8 and grades 9-12 will be located in separate wings of the complex with separate entrances. The grade levels will share an auditorium and cafeteria, but at different times of the day. The 241,000 square-foot two-story building will be constructed immediately behind the current high school building. With the elementary building, the new school will bring all students in the District together on one large campus. A connector road will link the two buildings.

The Board of Education continues to aggressively market the District to local and area students to increase enrollment. The Board has implemented every-day, all-day kindergarten services as well as developmental kindergarten and school-wide programs to help combat its outgoing enrollment. The Defiance High School is the first Ohio school to implement a one-to-one iPad program. Apple, Inc. made Defiance High School the site for their Learning Leadership Institute Program. Schools from across Ohio and the surrounding states attended this program throughout the past few years. The District plans to continue to increase technology to lower grade levels during the next few years. The District will participate in an ongoing I-Pad buyback program.

Contacting the District's Financial Management

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to reflect the District's accountability for the monies it receives. NOTES TO THE BASIC FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2015

NOTE 1 – DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY

Defiance City School District (the District) is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The District provides educational services as authorized by state and federal guidelines.

It is staffed by 142 classified employees and 178 certified teaching personnel who provide services to 2,822 students and other community members. The District currently operates three instructional/ support buildings and a preschool in conjunction with the Northwest Education Service Center.

Reporting Entity

A reporting entity is composed of the primary government, component units, and other organizations that are included to insure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. This includes general operations, food service, and student related activities.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the District is obligated for the debt of the organization. Component units may also include organizations for which the District authorizes the issuance of debt or the levying of taxes or determines the budget if there is also the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the District.

The District's reporting entity includes non-public schools. Within the District's boundaries, the Holy Cross Catholic School, St. John Lutheran School, and the Seventh Day Adventist School are operated as private schools. Current State legislation provides funding to the parochial schools. The monies are received and disbursed on behalf of the parochial schools by the Treasurer of the District, as directed by the parochial schools. The activity is reflected in a special revenue fund of the District.

The District participates in jointly governed organizations and insurance pools. These organizations are the Northwest Ohio Computer Association, the Northern Buckeye Education Council, the Four County Career Center, the Northwestern Ohio Educational Research Council, Inc., the Northwest Ohio Special Education Regional Resource Center, the Northwest Ohio Regional Professional Development Center, the Northern Buckeye Health Plan/OHI, and the Northern Buckeye Health Plan's Workers' Compensation Group Rating Plan. These organizations are presented in Notes 15 and 16 to the basic financial statements.

The District's management believes these financial statements present all activities for which the District is financially accountable.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These financial statements are presented on the modified cash basis of accounting. The modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the modified cash basis of accounting. Following are the more significant of the District's accounting policies.

A. Basis of Presentation

The District's basic financial statements consist of government-wide financial statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net position presents the financial condition of the governmental activities of the District at fiscal year-end. The statement of activities compares disbursements with program receipts for each program or function of the District's governmental activities. Disbursements are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program receipts include charges paid by the recipient of the goods or services offered by the program, grants, and contributions restricted to meeting the operational or capital requirements of a particular program, and receipts of interest earned on grants that are required to be used to support a particular program. Receipts which are not classified as program receipts are presented as general receipts of the District, with certain limited exceptions. The comparison of disbursements with program receipts identifies the extent to which each governmental function is self-financing on a modified cash basis or draws from the general receipts of the District.

Fund Financial Statements

During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Fiduciary funds are reported by type.

B. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are divided into two categories, governmental and fiduciary.

A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

1. Total assets, receipts, or disbursements of that individual governmental or proprietary fund are at least 10% of the corresponding total for all funds of that category or type, and
2. Total assets, receipts, or disbursements of the individual governmental fund or proprietary fund are at least 5% of the corresponding total for all governmental and proprietary funds combined.
3. The funds of the financial reporting entity are described below:

Governmental Funds

The District classifies funds financed primarily from taxes, intergovernmental receipts (e.g. grants), and other non-exchange transactions as governmental funds. The District's major governmental fund is the General fund, Debt Service fund, Building fund, and Classroom Facilities fund.

General Fund – The General fund is used to account for all financial resources, except those required to be accounted for in another fund. The General fund balance is available to the District for any purpose provided it is expended or transferred according to the general laws of Ohio.

Debt Service Fund – The Debt Service fund is used to service principal and interest payments on debt.

Building Fund – The Building fund is used to account for revenues and expenditures related to the cost of acquiring capital facilities.

Classroom Facilities Fund – The Classroom Facilities fund is used to account for revenues and expenditures in connection with contracts entered into by the school district and the Ohio School Facilities Commission for the building and equipping of classroom facilities.

The other governmental funds of the District account for grants and other resources whose uses are restricted to a particular purpose.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are not available to support the District's own programs. The District's private purpose trust fund accounts for college scholarships for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds account for student athletic insurance, amounts held to pay for college placement tests, and various student-managed activities.

C. Basis of Accounting

Although Ohio Administrative Code Section 117-2-03 (B) requires the District's financial report to follow generally accepted accounting principles (GAAP), the District chooses to prepare its financial statements and notes in accordance with the cash basis of accounting. This

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

basis is a comprehensive basis of accounting other than generally accepted accounting principles.

The District recognizes receipts when received in cash rather than when earned and recognizes disbursements when paid rather than when a liability is incurred. The District recognizes commodities on the statements at fair value of the commodities consumed.

The District also reports long-term investments as assets, with some valued at cost and some at fair value. See Note 2.E. for further detail.

As a result of the use of the cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

These statements include adequate disclosure of material matters, in accordance with the basis of accounting described in the preceding paragraphs.

D. Budgetary Process

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriation resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriations resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

The legal level of budgetary control established by the Board is at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education. Budgetary allocations at the function and object level within all funds, are made by the Treasurer.

The certificate of estimated resources may be amended during the fiscal year if projected increases or decreases in receipts are identified by the Treasurer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources filed at the beginning of the year. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Board.

Tax Budget

A budget of estimated cash receipts and disbursements is submitted to the County Auditor, as Secretary of the County Budget Commission, by January 20 of each year, for the period July 1 to June 30 of the following fiscal year.

DEFIANCE COUNTY**

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimated Resources

The County Budget Commission certifies its actions to the District by March 1. As part of this certification, the District receives the official certificate of estimated resources which states the projected receipts of each fund. On or about July 1 this certificate is amended to include any unencumbered balances from the preceding fiscal year. Prior to June 30, the District must revise its budget so that the total contemplated disbursements from a fund during the ensuing fiscal year will not exceed the amount stated in the certificate of estimated resources. The revised budget then serves as the basis for the annual appropriation measure. Budget receipts as shown in the accompanying financial statements do not include July 1, 2014 unencumbered fund balances. However, those fund balances are available for appropriations.

Appropriations

A temporary appropriation measure to control cash disbursements may be passed on or about July 1 of each year for the period July 1 to September 30. An annual appropriation measure must be passed by October 1 of each year for the period July 1 to June 30. The appropriation measure may be amended or supplemented during the year as new information becomes available. Appropriations may not exceed estimated resources.

The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire fiscal year, including amounts automatically carried forward from prior fiscal years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board of Education during the fiscal year.

Encumbrances

The District is required to use the encumbrance method of accounting by virtue of Ohio law. Under this system, purchase orders, contracts and other commitments for the expenditure of funds are recorded in order to reserve the portion of the applicable appropriation. Expenditures plus encumbrances may not legally exceed appropriations

Lapsing of Appropriations

At the close of each fiscal year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the succeeding fiscal year and need not be re-appropriated.

E. Cash and Investments

To improve cash management, cash received by the District is pooled and invested. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through District records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents" on the financial statements.

During fiscal year 2015, investments included negotiable certificates of deposit, federal agency securities, money market accounts, and STAR Ohio. Negotiable certificates of deposit and federal agency securities are reported at fair market value. STAR Ohio is an investment pool, managed

by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2015.

Following Ohio statutes, the Board of Education has, by resolution, specified the funds to receive an allocation of interest earnings. Total interest receipts credited to the General fund during fiscal year 2015 was \$41,743, which includes \$9,069 assigned from other funds.

Investments of the District's cash management pool and investments with an original maturity of three months or less at the time they are purchased by the District are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

F. Capital Assets

Acquisitions of property, plant, and equipment are recorded as disbursements when paid. The financial statements do not report these assets. Depreciation is not recorded on these capital assets.

G. Inventory and Prepaid Items

The District reports disbursements for inventory and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

H. Accumulated Leave

Certain employees are entitled to cash payments for unused vacation and sick leave in certain circumstances, such as upon leaving employment. Unpaid vacation and sick leave are not reflected as liabilities under the cash basis of accounting used by the District.

I. Interfund Receivable/Payable

The District reports advances-in and advances-out for interfund loans. These items are not reflected as assets and liabilities on the accompanying financial statements.

J. Interfund Transactions

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular cash disbursements to the funds that initially paid for them are not presented in the financial statements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Long-Term Debt

Long-term debt arising from cash basis transactions of governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as cash when received and payment of principal and interest are reported as disbursements when paid. The District's cash basis financial statements do not report liabilities for bonds and other long-term obligations. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither another financing source nor capital outlay expenditure are reported at inception. Lease payments are reported when paid.

L. Intergovernmental Receipts

Unrestricted intergovernmental receipts received on the basis of entitlement are recorded as receipts when the entitlement is received.

M. Pensions

For purposes of measuring the net pension liability, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

N. Equity Classifications

GOVERNMENT-WIDE STATEMENTS

Equity is classified as net position, and displayed in separate components:

1. Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments, or (2) law through constitutional provisions or enabling legislation.
2. Unrestricted net position – All other net position that do not meet the definition of "restricted."

Net position restricted for other purposes include resources restricted for public school support programs, athletic programs, employee termination benefits, classroom facilities and maintenance tax levy proceeds, and federal and state grants restricted to cash disbursement for specified purposes. The District's policy is to first apply restricted resources when a cash disbursement is incurred for purposes for which both restricted and unrestricted net positions are available. There were not any positions restricted by enabling legislation as of June 30, 2015.

O. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon use of the resources in governmental funds. The classifications are as follows:

**DEFIANCE CITY SCHOOL DISTRICT
DEFIANCE COUNTY**

NOTES TO THE BASIC FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2015

(Continued)

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Nonspendable – The nonspendable classification includes amounts that cannot be spent because they are not in spendable form or legally or contractually required to be maintained intact. The “not in spendable form” includes items that are not expected to be converted to cash.

Restricted – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations or other governments, or is imposed by law through constitutional provisions.

Committed – The committed classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the Board of Education. The committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned – Amounts in the assigned classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Board of Education.

Unassigned – Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District first applies restricted resources when an expenditure is incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned and then unassigned amounts had been expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used.

NOTE 3 – ACCOUNTABILITY AND COMPLIANCE

A. Change in Accounting Principles

For fiscal year 2015, Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions – an Amendment of GASB Statement No. 27" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68" were effective. These GASB pronouncements had no effect on beginning net position as reported June 30, 2014, as the net pension liability is not reported in the accompanying financial statements.

B. Compliance

Ohio Administrative Code, Section 117-2-03 (B), requires the District to prepare its annual financial report in accordance with generally accepted accounting principles. However, the District prepared its financial statements on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. The accompanying financial statements omit assets, liabilities, net assets/fund balances, and disclosures that, while material, cannot be determined at this time. The District can be fined and various other administrative remedies may be taken against the District.

NOTE 4 – FUND BALANCE

Fund balance can be classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in governmental funds.

The constraints placed on fund balance at June 30, 2015 for the major governmental funds and all other governmental funds are presented as follows:

<u>Fund Balance</u>	<u>General</u>	<u>Debt Service</u>	<u>Building</u>	<u>Classroom Facilities</u>	<u>All Other Governmental Funds</u>	<u>Total</u>

NOTE 5 – BUDGETARY BASIS OF ACCOUNTING

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the General Fund is prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The following table summarizes the adjustments necessary to reconcile to modified cash basis statements to the budget basis statements for the General Fund.

<u>Net Change in Fund Balance</u>	<u>General Fund</u>
Cash basis (as reported)	\$ 2,337,487
Outstanding encumbrances	(164,072)
Perspective difference:	
Activity of funds reclassified for for cash reporting purposes	<u>3,563</u>
Budgetary basis	<u>\$ 2,176,978</u>

As part of Governmental Accounting Standards Board Statement No. 54, "Fund Balance Reporting", certain funds which are legally budgeted in separate special revenue funds (uniform school supplies and public school support funds) are considered part of the General fund on cash basis.

NOTE 6 – DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;

2. Bonds, notes debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio or Ohio Local Governments;
5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions; and
6. The State Treasurer's investment pool (STAR Ohio); and
7. Certain bankers' acceptances and commercial paper notes for a period not to exceed one hundred and eighty days in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time;
8. Under limited circumstances corporate debt interest rated in either of the two highest rated classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

NOTE 6 – DEPOSITS AND INVESTMENTS (CONTINUED)

A. Investments

Investments are reported at fair value. As of June 30, 2015, the District had the following investments:

Description	Cost Basis	Maturity (Years)	
		Less Than 1	1-5
Federal Home Loan Bank (FHLB)	\$ 3,569,505	\$ 299,948	\$ 3,269,557
Federal National Mortgage Association (FNMA)	1,090,148	150,107	940,041

Federal Home Loan Mortgage Company (FHLMC)	1,149,780	-	1,149,780
US Treasury Bonds	4,287,521	800,784	3,486,737
Negotiable Certificates of Deposit	5,154,416	2,035,949	3,118,467
Money Market Mutual Funds	4,618,945	4,618,945	-
STAR Ohio	7,442,363	7,442,363	-
Total Cost	<u>\$ 28,785,395</u>	<u>\$ 15,448,023</u>	<u>\$ 13,337,912</u>

B. Interest Rate Risk

The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date. Interest rate risk arises because potential purchase of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The District's policy indicates that the investments must mature within five years, unless matched to a specific obligation or debt of the District.

C. Credit Risk

The Money Market Mutual Fund carries a rating of Aaa by Moody's and AAA by Standard and Poor's. Federal Home Loan Bank, Federal National Mortgage Association, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and US Treasury carries a rating of Aaa by Moody's and AAA by Standard and Poor's. STAR Ohio carries a rating of AAAM by Standard and Poor's. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service and that the money market mutual fund be rated in the highest category at the time of purchase by at least one nationally recognized standard rating service. The District has no investment policy that would further limit its investment choices.

D. Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investments in Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association, Federal Farm Credit Bank and US Treasury are exposed to custodial credit risk as they are uninsured, unregistered, and held by the counterparty's trust department or agent in the District's name. The negotiable certificates of deposit are exposed to custodial credit risk in that they are uninsured, unregistered and held by a counterparty but not in the District's name. The District has no investment policy dealing with custodial credit risk beyond the requirements of State statute which prohibit payment for investments prior to the delivery of the securities representing the investments to the treasurer or qualified trustee.

E. Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer, however State statute limits investments in commercial paper and bankers' acceptances to 25% of the interim monies available for investment at any one time. The District's investments in Federal Home Loan Banks, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association and US Treasury Bonds represents 12%, 5%, 4%, 4% and 15%, respectively, of the District's total investments.

NOTE 7 – INCOME TAXES

The District levies a voted tax of 0.5% for general operations on the income of residents and of estates. The tax was effective on January 1, 1991, and is a continuing tax. Employers of residents are required to withhold income tax on compensation and remit the tax to the State. Taxpayers are required to file an annual return. The State makes quarterly distributions to the District after withholding amounts for administrative fees and estimated refunds. Income tax receipts are credited to the General Fund.

NOTE 8 – PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property, public utility property, and tangible personal (used in business) property located in the area served by the District. Real property tax revenues received in calendar year 2015 represent the collection calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the assessed values as of January 1, 2014, the lien date. Assessed values for real property taxes are established by State statute at 35% of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility real and tangible personal property taxes for 2015 were levied after April 1, 2014, on the assessed values as of December 31, 2013, the lien date. Public utility real property is assessed at 35% of true value; public utility tangible personal property currently is assessed at varying percentages of true value. Public utility property taxes are payable on the same dates as real property taxes described previously.

The District receives property taxes from Defiance and Paulding Counties. The County Auditors periodically advance to the District its portion of the taxes collected. Second-half real property tax payments collected by the counties by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

The assessed values upon which fiscal year 2015 taxes were collected are:

	2014 Second-Half Collections		2015 First-Half Collections	
	Amount	Percent	Amount	Percent
Agricultural/residential	\$ 187,315,350	78.89	\$ 190,904,590	78.27

NOTE 9 – RISK MANAGEMENT

A. Employee Insurance Benefits Program

The District participates in the Optimal Health Initiative Consortium (OHI), a public entity shared risk pool consisting of educational entities within Defiance, Fulton, Henry, and Williams Counties and other eligible governmental entities. The District pays monthly premiums to the OHI for the benefits offered to its employees including medical, dental, vision, and life insurance. The OHI is responsible for the management and operations of the Program. The agreement for the program provides for additional assessments to all participants if the premiums are

insufficient to pay the program costs for the fiscal year. Upon withdrawal from the Program, a participant is responsible for any claims not processed and paid and any related administrative costs.

B. Workers' Compensation Group Program

The District participates in the Northern Buckeye Health Plan, Northern Division of OHI (NBHP) Workers' Compensation Group Rating Plan (The Plan), an insurance purchasing pool. The Plan is intended to reduce premiums for the participants. The workers' compensation experience of the participants is calculated as one experience and a common premium rate is applied to all participants in the Plan. Each participant pays its workers' compensation premium to the State based on the rate for the Plan rather than its individual rate. The Executive Director of the NBHP coordinates the management and administration of the program.

C. Comprehensive

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 2015, the District contracted for the following insurance coverage:

	Amount of Coverage
The Liberty Mutual Insurance Company:	
General Liability	
Per Occurrence	\$ 1,000,000
Total per Year	2,000,000
Umbrella Liability	
Per Occurrence	5,000,000
Total per Year	5,000,000

Cincinnati Insurance:	
Boiler Insurance	20,000,000
The Netherlands Insurance Company:	
Vehicle liability	1,000,000
Uninsured/Underinsured motorist	1,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years, and there has been no significant reduction in insurance coverage from the prior fiscal year.

Net Pension Liability

For fiscal year 2015, Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68" were effective. These GASB pronouncements had no effect on beginning net position as reported June 30, 2014, as the net pension liability is not reported in the accompanying financial statements. The net pension liability has been disclosed below.

NOTE 10 – DEFINED BENEFIT PENSION PLANS (CONTINUED)

Pensions are a component of exchange transactions – between an employer and its employees – of salaries and benefits for employee services. Pensions are provided to an employee – on a deferred-payment basis-as part of the total compensation package offered. The net pension liability represents the District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District’s obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

Plan Description – School Employees Retirement System (SERS)

Plan Description – the District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before <u>August 1, 2017*</u>	Eligible to Retire on or after <u>August 1, 2017</u>
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit or Age 55 with 25 years of service credit	Age 62 with 10 years of service credit or Age 60 with 25 years of service credit

*Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

NOTE 10 – DEFINED BENEFIT PENSION PLANS (CONTINUED)

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$557,025 for the fiscal year 2015.

Plan Description – State Teachers Retirement System (STRS)

Plan Description – the District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB Plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

NOTE 10 – DEFINED BENEFIT PENSION PLANS (CONTINUED)

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC Plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and a member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$1,527,158 for fiscal year 2015.

Net Pension Liability

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the projected contributions of all participating entities. Following is information related to the proportionate share:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate Share of the Net Pension Liability	\$5,113,982	\$24,021,933	\$29,135,915

Actuarial Assumptions – SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement NO. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 Percent
Future Salary Increases, including Inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

For post-retirement mortality, the table used in evaluation allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes.

NOTE 10 – DEFINED BENEFIT PENSION PLANS (CONTINUED)

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	<u>15.00</u>	7.50
Total	<u>100.00</u> %	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

Actuarial Assumptions – STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expense
Cost-of-Living Adjustment before (COLA)	2 percent simple applied as follows: for members retiring August 1, 2014, 2 percent per year, for members retiring after August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022 – Scale AA) for Males and Females. Males' ages are set back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set-back from age 80 through 90 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long Term Expected Real Rate of Return</u>
Domestic Equity	31.00 %	0.00 %
International Equity	26.00	5.00
Alternatives	14.00	5.50
Fixed Income	18.00	1.50
Real Estate	10.00	10.00
Liquidity Reserves	<u>1.00</u>	5.00
Total	<u>100.00</u> %	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

NOTE 11 – POST EMPLOYMENT BENEFITS

A. School Employee Retirement System

The District participates in two cost-sharing multiple employer defined benefit OPEB plans administered by the School Employees Retirement System for non-certificated retirees and their beneficiaries, a Health Care Plan and a Medicare Part B Plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's and traditional indemnity plans as well as a prescription drug program. The Medicare Part B Plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries up to a statutory limit. Benefit provisions and the obligations to contribute are established by the System based on authority granted by State statute. The financial reports of both Plans are included in the SERS Comprehensive Annual Financial Report which is available by contacting SERS at 300 East Broad St., Suite 100, Columbus, Ohio 43215-3746.

State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer contribution of 14% of covered payroll to the Health Care Fund. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 401h. For 2015, 14% of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined amount; for 2015, this amount was \$20,450.

Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending of the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$55,196, \$55,117, and \$54,547 respectively; 90% has been contributed for fiscal year 2015 and 100% for fiscal year 2014 and 2013.

The Retirement Board, acting with advice of the actuary, allocates a portion of the employer contribution to the Medicare B Fund. For 2015, this actuarially required allocation was 0.76% of covered payroll. The District's contributions for Medicare Part B for the fiscal years ended June 30, 2015, 2014, and 2013 was \$27,698, \$27,271, and \$27,246, respectively.

B. State Teachers Retirement System

The District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888)227-7877.

Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2014, STRS Ohio allocated employer contributions equal to 1% of covered payroll to the Health Care Stabilization Fund. The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$102,885, and \$100,181 respectively; 84% has been contributed for fiscal year 2014 and 100% for fiscal years 2014 and 2013.

NOTE 12 – OTHER EMPLOYEE BENEFITS

The financial reports of SERS' Health Care and Medicare B plans are included in its Comprehensive Annual Financial Report. The report can be obtained by contacting SERS, 300 East Broad Street, Suite 100, Columbus, Ohio 43215-3746 or by calling toll free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under Employers/Audit Resources.

Compensated Absences

The criteria for determining vacation and sick leave benefits, is derived from negotiated agreements and State Laws. Classified employees earn ten to twenty days of vacation per fiscal year, depending upon length of service. Unused vacation time can be carried forward with special permission and is limited to one year's accumulation. Teachers do not earn vacation time.

Teachers, administrators, and classified employees earn sick leave at a rate of one and one-fourth days per month. Sick leave may be accumulated up to a maximum of two hundred fifty-six days for all employees. Upon retirement, payment is made for one-fourth of accrued, but unused sick leave credit to a maximum of fifty-nine days for all employees.

Health Care Benefits

The District provides medical, dental, vision, and life insurance to most employees through the Optimal Health Initiative Consortium Insurance Benefits Program.

NOTE 15 – JOINTLY GOVERNED ORGANIZATIONS

A. Northwest Ohio Computer Association

The District is a participant in the Northwest Ohio Computer Association (“NWOCA”), which is a computer consortium. NWOCA is an association of educational entities within the boundaries of Defiance, Fulton, Henry, and Williams Counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member educational entities.

The NWOCA Assembly consists of the superintendent from each participating educational entity and a representative from the fiscal agent. The Assembly elects the governing council of two representatives from each of the six counties in which member educational entities are located and the representative from the member educational entity serving as fiscal agent for NWOCA. The degree of control exercised by any participating educational entity is limited to its representation on the Governing Council. During fiscal year 2015, the District paid \$72,784 to NWOCA for various services. Financial information can be obtained from Robin Pfund, who serves as Treasurer, 209 Nolan Parkway, Archbold, Ohio 43502.

B. Northern Buckeye Education Council

The Northern Buckeye Education Council (the “NBEC”) was established in 1979 to foster cooperation among educational entities located in Defiance, Fulton, Henry, and Williams Counties. NBEC is organized under Ohio laws as a regional council of governments pursuant to a written agreement entered into by its member educational entities and bylaws adopted by the representatives of the member educational entities. NBEC is governed by an elected board consisting of two representatives from each of the four counties in which the member educational entities are located. The Board is elected from an assembly consisting of a representative from each participating educational entity. Financial information can be obtained from the Northern Buckeye Education Council, Robin Pfund, who serves as Treasurer, 209 Nolan Parkway, Archbold, Ohio 43502.

C. Four County Career Center

The Four County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of five representatives from the Northwest Ohio Educational Service Center – one each from the counties of Defiance, Fulton, Henry, and Williams and one additional representative; one representative from each of the city school districts; one representative from each of the exempted village school districts. (the “NOERC”) is a jointly governed organization formed to bring educational entities into a better understanding of their common educational problems, facilitate and conduct practical educational research, coordinate educational research among members, provide a means for evaluating and disseminating the results of research, serve as a repository for research and legislative materials, and provide opportunities for training. The NOERC serves a twenty-five county area in Northwest Ohio. The Board of Directors consists of superintendents from two educational service centers, two exempted village school districts, five local school districts, and five city school districts, as well as representatives from two private or parochial schools and three institutions of higher education.

Each active member is entitled to one vote on all issues addressed by the Board of Directors. Financial information can be obtained from the Northwestern Ohio Educational Research Council, Inc., 441 E. Market St., Celina, Ohio 45822.

E. Northwest Ohio Special Education Regional Resource Center

The Northwest Ohio Special Education Regional Resource Center (the “SERRC”) is a jointly governed organization formed to provide services to families, educators, and agencies regarding educational law and curriculum and instruction for students with disabilities. The SERRC serves a thirteen county area in Northwest Ohio. The Governing Board consists of superintendents from each of the cooperating school districts, the fiscal agent superintendent, two parents of children with disabilities, one superintendent of a county board of MR/DD, one representative from a chartered non-public school, one representative from the University of Toledo, one representative from Bowling Green State University, one representative from a community school, and any other representatives from other agencies as designated by the Governing Board or the Ohio Department of Education. The degree of control exercised by any participating District is limited to its representation on the Board. Financial information can be obtained from Dave Michel, Eastwood Local School District, 4800 Sugar Ridge Road, Pemberville, Ohio 43450.

F. Northwest Ohio Regional Professional Development Center

The Northwest Ohio Regional Professional Development Center (“RPDC”) is a jointly governed organization among the school districts in Defiance, Erie, Fulton, Henry, Lucas, Ottawa, Sandusky, Williams, and Wood counties. The RPDC focuses on the implementation of academic content standards and the deployment of State initiatives. All activities reflect definition of high quality professional development, including job-embedded, connected to strategic goals, sustained, intensive skill building, and measurement of impact on student learning.

The RPDC is governed by a fifteen member board made up of representatives from the participating school districts, the business community, and two institutions of higher learning. The degree of control exercised by any participating district is limited to its representation on the Board. Financial information can be obtained from the Northwest Ohio Regional Professional Development Center, 414 Emerald Street, 2nd Floor, Toledo, Ohio 43602.

NOTE 16 – GROUP PURCHASING POOLS

A. Employee Insurance Benefits Program

Optimal Health Initiative Consortium (OHI) Insurance Benefits Program (the Pool) is a public entity shared risk pool consisting of educational entities located in Defiance, Fulton, Henry, and Williams Counties. The Pool is governed by OHI and its participating members.

The District contributed a total of \$2,570,776 to Northern Buckeye Health Plan, Northwest Division of OHI for all employee insurance plans. Financial information for the period can be obtained from Jenny Jostworth, Treasurer, at 10999 Reed Hartman Highway, Suite 304E, Cincinnati, Ohio 45242.

B. Workers' Compensation Group Rating Plan

The District participates in a group-rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code.

The Northern Buckeye Health Plan, Northern Division of OHI (NBHP) Workers' Compensation Group Rating Plan (WCGRP) is an insurance purchasing pool. The WCGRP is governed by the Northern Buckeye Health Plan and the participating members of the WCGRP. The Executive Director of the NBHP coordinates the management and administration of the program.

NOTE 17 – CONTINGENCIES

A. Federal and State Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2015.

B. School Foundation

District foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional school districts must comply with minimum hours of instruction instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015, foundation funding for the District, therefore, any financial statement impact is not determinable at this time.

**NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE A - SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports Defiance City School District's (the District's) federal award programs' receipts and expenditures. The Schedule has been prepared on the cash basis of accounting.

NOTE B - SUBRECIPIENTS

The District passes certain federal awards received from Ohio Department of Education to other governments or not-for-profit agencies (subrecipients). As Note A describes, the District reports expenditures of Federal awards to subrecipients when paid in cash.

As a subrecipient, the District has certain compliance responsibilities, such as monitoring its subrecipients to help assure they use these subawards as authorized by laws, regulations, and the provisions of contracts or grant agreements, and that subrecipients achieve the award's performance goals. The amount passed through to subrecipients was \$20,344.

NOTE C - CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. When reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE D – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the entitlement value. The District allocated donated food commodities to the respective program that benefitted from the use of those donated food commodities.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY GOVERNMENT AUDITING STANDARDS

Defiance City School District
Defiance County
629 Arabella Street
Defiance, Ohio 43512-2856

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Defiance City School District, Defiance County, Ohio (the District) as of and for the year ended June, 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated March 28, 2016, wherein we noted the District uses a special purpose framework other than generally accepted accounting principles.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed an instance of

noncompliance or other matters we must report under *Government Auditing Standards* which is described in the accompanying schedule of findings as item 2015-001.

Entity's Response to Findings

The District's response to the finding identified in our audit is described in the accompanying schedule of findings. We did not audit the District's response and, accordingly, we express no opinion on it.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Defiance City School District
Defiance County
629 Arabella Street
Defiance, Ohio 43512-2856

To the Board of Education:

Report on Compliance for Each Major Federal Program

We have audited Defiance City School District, Defiance County, Ohio's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the District's major federal programs for the year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, Defiance City School District, Defiance County, Ohio complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2015.

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

**2. FINDINGS RELATED TO THE FINANCIAL STATEMENTS
REQUIRED TO BE REPORTED IN ACCORDANCE WITH GAGAS**

FINDING NUMBER 2015-001

Noncompliance Citation

Ohio Rev. Code § 117.38 provides that each public office shall file a financial report for each fiscal year. The Auditor of State may prescribe forms by rule or may issue guidelines, or both, for such reports. If the Auditor of State has not prescribed a rule regarding the form for the report, the public office shall submit its report on the form utilized by the public office.

Ohio Admin. Code § 117-2-03(B), which further clarifies the requirements of Ohio Revised Code § 117.38, requires the District to file annual financial reports which are prepared using generally accepted accounting principles (GAAP).

Management decided to prepare the District's 2015 financial statements on a cash basis of accounting in a format similar to financial statements prescribed by Governmental Accounting Standard No. 34. This presentation differs from generally accepted accounting principles. The accompanying financial statements and notes omit assets, liabilities, fund equities, and disclosures that, while material, cannot be determined at this time. The District can be fined and various other administrative remedies may be taken against the District.

We recommend the District take the necessary steps to ensure the financial report is prepared in accordance with generally accepted accounting principles.

Officials' Response:

Management believes reporting on a basis of accounting other than generally accepted accounting principles (GAAP) is more cost efficient.
